The purpose of this Amendment #1 is to:

- **Provide Answers to questions received.**
- **Provide a Modified ITB Attachment #1 Bid Schedule**

Questions and Answers:

Question #1

Amendment #1 shows an added location of Kodiak for lot 6A and a requirement for 2500lb bags. Due to the density of calcium chloride, loading the bags to 2500 pounds requires larger bags and also does not allow the bags to be double stacked in a container. This will significantly increase the cost especially to a container freight dependent location such as Kodiak. I recommend/request that they allow smaller bags sizes such as 2200 or 2000 lbs.

Answer #1

Please see the Modified ITB Attachment #1 Bid Schedule provided with this amendment.
