

Chatanika River Personal Use Whitefish Spear Fishery Permits

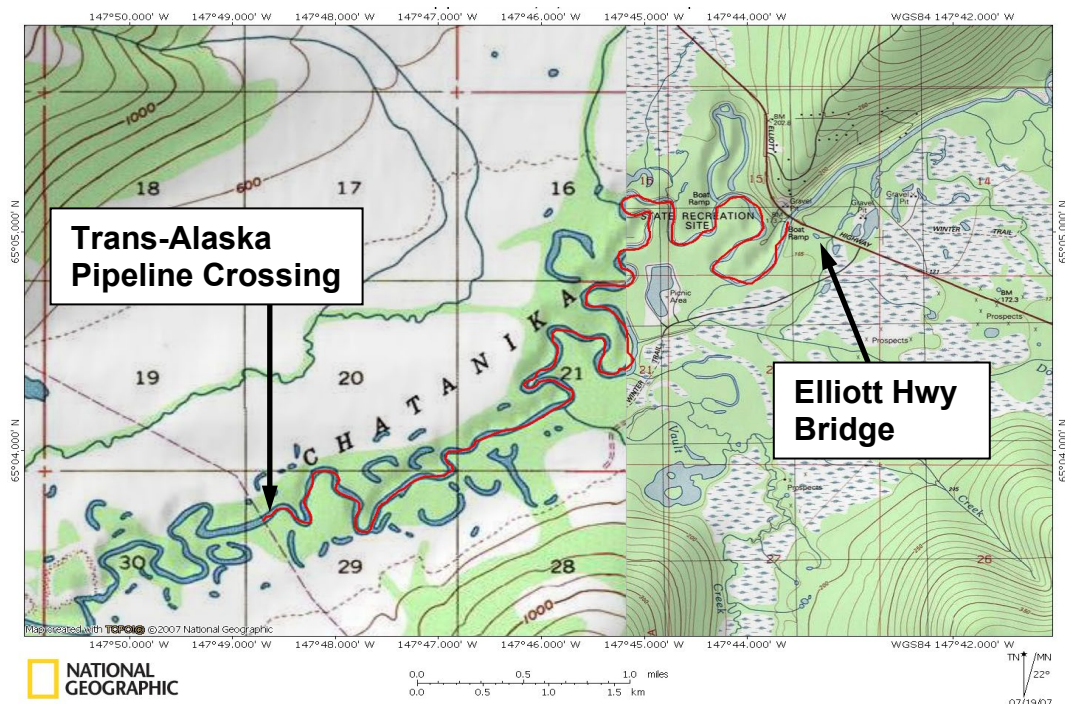

- This fishery is for ALASKA RESIDENTS only, and only one permit per household is allowed.
- **Dates:** September 10 (Friday @ 12:01 am) thru October 11 (Monday @ 11:59 pm).
- **Household limit:** 10 in combination of humpback whitefish, round whitefish, and least cisco.
- **Fishery Location:** That portion of the Chatanika River from the downstream side of the Elliott Hwy Bridge to the Trans-Alaska Pipeline crossing (approximately 7 river miles downriver from the bridge).

Any member of the household may fish, but they must be listed on the permit and they must have a sport fish license (unless under age 18) and the permit in their possession when participating in the whitefish spear fishery.

Although there are other fish species in the Chatanika, this personal use permit is only for spearing humpback whitefish, round whitefish, and least cisco. Suckers (no limit) may be retained if they are speared. See the AYK sport fish regulation booklet for complete spearing regulations.

Arctic grayling and sheefish may not be speared or retained.

Please use a sharp spear with barbs so that you don't lose injured fish.

Round Whitefish

Humpback Whitefish

Least Cisco

Sheefish/ Inconnu – these may NOT be speared

**Arctic Grayling –
these may NOT be speared**
