The following questions have been submitted by the vendor community:

Question 1: Please clarify Section 2.29, item 3, I am confused about the Palmer reference.

Answer 1 Delete Section 2.29 in its entirety and replace with the following:

SEC. 2.29 Additional Delivery requirements and documentation

In addition to packaging the products as required under Section 2.27, and the Advance Notice of Delivery as required under Section 2.28, the following delivery requirements must also be met:

1. Blades must be delivered by flatbed truck to the greatest degree possible as unloading a box van with a forklift can be challenging at many locations.
2. A bill of lading to include a packing list describing what is being delivered must be provided at the time of delivery to each station.

AMENDMENT THREE

ITB # 2523H063

3. Blades must be delivered by the contractor (or their shipping partner) to the final destination as defined on Attachment A, Bid Schedule.

For example: A contractor shall not deliver blades for the Cascade Station to the Palmer Station with the expectation state staff will transport the blades from the Palmer Station to the Cascade Station to complete the delivery.

It is the contractor's responsibility to ensure their shipping partner is aware of, and in compliance, with all shipping requirements.
