IBM, Spectra Logic or Equivalent Tape Library**

**AMENDMENT ONE (1)
April 4, 2023**

To all Interested Parties:

UA RFQ 23Q0057CD for one (1) IBM, Spectra Logic or Equivalent Tape Library is amended to include the following supplementary information:

1.1 SUPPLEMENTARY INFORMATION: The University's request for information about LTO 10 drives, media, etcetera is in the context of potentially migrating from TS1160 to LTO 10 at some point in the future. The University does not anticipate that this migration will occur within the next four years, at minimum.

If LTO 10 details and pricing are not currently established or available, the University requests that vendors indicate when this information is expected to be available. At this time, similar details for LTO 9 are not of interest in this context.

All other terms and conditions remain the same.

This amendment must be acknowledged in the space provided below and submitted with the vendor's RFQ response.
