Category Number	Description
1	All HE code that has been customized for AK is owned by AK, subject to a perpetual, royalty free license to the underlying HE base code which is owned by Conduent.
2	All 3rd Party software that is used in hosting HE (e.g. IBM Websphere) is owned by the 3rd Party (e.g. IBM) and licensed to Conduent.
3	All configuration that is made to 3rd Party software is owned the 3rd Party and will be handed to the State in the event of turnover as config files or documentation. State's ability to use these files would be subject to the State having appropriate license to continue using the 3rd Party software.
4	The Oracle Exadata database software are owned by Oracle and licensed to Conduent. (The server hosting the database is owned by Conduent.)
5	The data in the Oracle Exadata database itself is owned by the state and will be provided as an export.
6	The VMWare hosts and associated software are owned by 3rd Parties and licensed to Conduent
7	The individual virtual machines will be exported and provided to the state with the understanding that the state will have to procure licenses for the software that is installed in them (See item #2)
8	Network devices will be placed in Anchorage Office and will be part of State inventory . Devices will be managed by Conduent .
