Sec. 5.05	
	Understanding of the Project
	1) How well has the offeror demonstrated a thorough understanding of the purpose
	and scope of the project?  Notes:
	Notes.
	2) How well has the offeror identified pertinent issues and potential problems related
	to the project?
	Notes:
	3) To what degree has the offeror demonstrated an understanding of the deliverables
	the state expects it to provide?
	Notes:
	<u> </u>
	4) Has the offeror demonstrated an understanding of the state's time schedule and can meet it?
	Notes:
	5) Has the offeror demonstrated an understanding of the OCSE certification
	Notes:
	Section Score: Max Score: 50

Sec. 5.06

Proposed Solution
1) Does the Offeror's proposed solution appear to be feasible?
Notes:
2) Does the Offeror's proposed technical solution comply with the State's current IT security standards?
Notes:
3) If a COTS solution was proposed, did the Offeror identify a process for obtaining customized enhancements beyond the implementation timeframe? Is this process practical and feasible? Does it meet CSSD's needs? What are the benefits of the proposed system (i.e., operations and maintenance, etc.) vs. customer low-code software development.
Notes:
4) Does the Offeror's proposed solution meet the business process requirements outlined in the document, AMP DDI RFP Requirements (Attachment 4)?  Notes:
5) Does the Offeror's proposed solution identify the skills and resources required by
the state to maintain the system beyond the initial implementation?  Notes:
6) Does the Offeror's proposed solution include all of the system environments required to support the replacement system (development, testing, training, production, disaster recovery and business continuity)?
Notes:
7) Does the Offeror's proposed solution include a technical performance measurement toolset?
Notes:

8) To what ext	tent does the Offeror's approach address the need for detailed data
analysis of the	e WinSTAR system? Did the Offeror's approach include a process for pre-
and post-conv	version data validation?
Notes:	
	eror's proposed solution include a detailed data conversion plan?
Notes:	
10) Did the Of	force's proposed solution provide an approach for change management?
•	feror's proposed solution provide an approach for change management? each address requirements management for the project? Did this
	ress managing and controlling system change requests for the DDI and
	Maintenance timeframes?
Notes:	Maintenance timenanes:
Notes.	
11) Did the Of	feror's proposal include an approach for creating a plan to back-up
•	for Disaster Recovery and Business Continuity Planning?
Notes:	, , , ,
12) Did the Of	feror's proposal include an approach for providing the technical support
•	ocedures for recording and responding to trouble calls? Did the solution
	ble-ticketing component that would seamlessly integrate with a
	management system?
Notes:	
13) Did the Of	feror's proposal acknowledge the need to develop a Site Preparation
Completion Re	eport? Did the Offeror acknowledge the requirements to develop this
report prior to	constructing the WinSTAR replacement system?
Notes:	
14) Did the Of	feror's proposal acknowledge a reasonable consideration for User
	esting and potential re-work that could result from software deficiencies?
·	
Notes:	
Notes.	
Notes.	
	forer's proposal outline an implementation strategy? Did the proposal
15) Did the Of	feror's proposal outline an implementation strategy? Did the proposal
15) Did the Of	feror's proposal outline an implementation strategy? Did the proposal of accountability and responsibility for implementation tasks?

strategy? Did this strat Maintenance Activities Did this strategy incorp	egy recognize the require Reports? Did this strategorate testing of system b	tions & Maintenance transition ment to provide Operations & y include Turnover Activity Reports? ack-up and recovery processes per the ad Business Continuity Plan?
technical documents for should include system system, and system fur should be focused on the	or this project? Did the prodesign specifications, intended inctionality? Did the Offerometric including audiences: Designers and Developers cors; taff;	need to provide detailed system and oposal recognize the documentation ernal workflow of the replacement or acknowledge the documentation

Methodology Used for the Project

•	rehensive is the methodology and does it depict a logical approach to equirements of the RFP?
Notes:	
2) How well do	oes the methodology match and achieve the objectives set out in the
Notes:	
3) Does the m	ethodology interface with the time schedule in the RFP?
Notes:	
4) To what ext	tent is the Offeror's approach to managing project timelines clearly reasonable?
Notes:	
•	eror present a proposed schedule for accomplishing the work of the his schedule include major project milestones and gate reviews?
Notes:	
6) How reasor services?	nable is the Offeror's approach to data conversion and installation
Notes:	
plan with the	eror acknowledge the requirement to integrate its project management state's project management plan? Did the Offeror account for updating anagement plan?
Notes:	
for this projec	tent did the Offeror explain its approach to managing communications t? Did this approach provide bi-weekly project status reports? Did this ude a bi-weekly project status meeting with the state?
Notes:	

9) To what ext for this project Notes:	ent did the Offeror explain its approach for integrated change control t?
10) To what ex this project? Notes:	tent did the Offeror explain its requirements gathering approach for
(RTM)? Did the pl	feror's proposal address the need for a Requirements Traceability Matrix approach include describing the forward and backward traceability an? Did the approach address how potential updates to the plan will be approach address technical and functional requirements?
Notes:	
	ktent has the Offeror clearly identified potential risks and offered k mitigation strategies for the project?
13) How well h Notes:	nas the Offeror explained its approach to configuration management?
	feror identified a project management methodology that will conduct rallel to ensure milestones for this project are met?
15) To what ex QA Contractor Notes:	stent did the Offeror explain its approach to working with the PM and s?
-	ctent has the Offeror explained its ability to utilize project management integrate with the state's project management tools?

18) How reasonable is the Offeror's approach for meeting the training requirements associated with the project? Did this approach recognize the requirement to train technical staff, functional staff, and end-users?  Notes:  19) To what extent did the Offeror address the need for test plans for all of the system environments for this project (development, testing, training, production, disaster recovery, and business continuity)?  Notes:  20) Did the Offeror's proposal acknowledge the requirement for a security plan? Did the Offeror's proposal acknowledge the state will provide a security plan template upon award of the contract?  Notes:  21) Did the Offeror's proposal include the requirement for a Readiness Review Report to document the results of the Readiness Review prior to the operational cut-over to the WinSTAR replacement system? Did the Offeror's proposal include basic components of the report such as:  Status of all components/modules;  Status of testing;  Status of testing;  Status of technical support readiness;  Completeness of procedures and processes;  Coordination with the QA Contractor;  Summary of outstanding issues and the impact; and  Recommended approach for addressing any outstanding issues.	17) How reasonable is the Offeror's approach to transitioning technical support to the state's technical support staff?  a. Were specific tasks identified to transition to the State's staff?  b. Were potential risks identified with the transition?  c. Did the proposal include an explanation of how transition activities would occur?  d. Did the transition recognize the importance of conducting a transition without degradation to the maintenance and support of WinSTAR operations?  Notes:
environments for this project (development, testing, training, production, disaster recovery, and business continuity)?  Notes:  20) Did the Offeror's proposal acknowledge the requirement for a security plan? Did the Offeror's proposal acknowledge the state will provide a security plan template upon award of the contract?  Notes:  21) Did the Offeror's proposal include the requirement for a Readiness Review Report to document the results of the Readiness Review prior to the operational cut-over to the WinSTAR replacement system? Did the Offeror's proposal include basic components of the report such as:  Status of all components/modules;  Status of testing;  Status of technical support readiness;  Completeness of procedures and processes;  Coordination with the QA Contractor;  Summary of outstanding issues and the impact; and  Recommended approach for addressing any outstanding issues.	associated with the project? Did this approach recognize the requirement to train technical staff, functional staff, and end-users?
the Offeror's proposal acknowledge the state will provide a security plan template upon award of the contract?  Notes:  21) Did the Offeror's proposal include the requirement for a Readiness Review Report to document the results of the Readiness Review prior to the operational cut-over to the WinSTAR replacement system? Did the Offeror's proposal include basic components of the report such as:  •Status of all components/modules; •Status of testing; •Status of technical support readiness; •Completeness of procedures and processes; •Coordination with the QA Contractor; •Summary of outstanding issues and the impact; and •Recommended approach for addressing any outstanding issues.	environments for this project (development, testing, training, production, disaster recovery, and business continuity)?
to document the results of the Readiness Review prior to the operational cut-over to the WinSTAR replacement system? Did the Offeror's proposal include basic components of the report such as:  •Status of all components/modules; •Status of testing; •Status of technical support readiness; •Completeness of procedures and processes; •Coordination with the QA Contractor; •Summary of outstanding issues and the impact; and •Recommended approach for addressing any outstanding issues.	the Offeror's proposal acknowledge the state will provide a security plan template upon award of the contract?
Thoses.	to document the results of the Readiness Review prior to the operational cut-over to the WinSTAR replacement system? Did the Offeror's proposal include basic components of the report such as:  •Status of all components/modules;  •Status of testing;  •Status of technical support readiness;  •Completeness of procedures and processes;  •Coordination with the QA Contractor;  •Summary of outstanding issues and the impact; and

23) Did the Offeror's proposal recognize the requirement for a formal Project/Contraction Closeout event in which materials will be turned over to the state?  Notes:	22) Did the Offeror's	proposal acknowledge the	role of the Operational Readiness
<ul> <li>Site preparation assessment;</li> <li>Status of equipment to be used;</li> <li>Staff readiness;</li> <li>Inventory of supplies;</li> <li>Completeness of procedures and processes; and</li> <li>Review of prior implementations (where applicable).</li> <li>Notes:</li> <li>23) Did the Offeror's proposal recognize the requirement for a formal Project/Contract Closeout event in which materials will be turned over to the state?</li> <li>Notes:</li> </ul>	Assessment along w	th the Readiness Review Re	port prior to the operational cut-ove

L			

**Experience and Qualifications** 

1) Questions Regarding Personnel
a) Do the individuals assigned to the project have experience on similar projects?
Notes:
b) Are resumes complete and do they demonstrate backgrounds that would be
desirable for individuals engaged in the work the project requires?
Notes:
c) How extensive is the applicable education and experience of the personnel designated to work on the project?
Notes:
d) Did the Offeror provide evidence of professional certifications held by personnel who will be working on this project? Are the credentials relative to the expertise required to perform the work of this project?
Notes:
e) Did the Offeror provide current references for the personnel that were proposed for this project?
Notes:
f) Does any of the Offeror's key staff have prior or current experience working with the Department?
Notes:
2) Questions regarding the firm (if used):
a) Has the firm successfully completed one child enforcement system replacement project within the past three years for a state-level government, or comparable entity?
Notes:

b) How well has the firm demonstrated experience in completing similar projects on time and within budget?
Notes:
c) How successful is the general history of the firm regarding timely and successful completion of projects?  Notes:
d) Has the firm provided letters of reference from previous clients?
Notes:
f) Does the firm's proposed technical approach provide evidence of past experience that included successfully overcoming the unique technical considerations posed by Alaska?
Notes:
g) Does the firm's proposed functional approach appear to be realistic and based upon experience? Does the experience of the firm appear to be sufficient to meet the business requirements outlined in the project?
Notes:
h) To what extent does the firm have past experience integrating its proposed solutions with existing IT strategies and roadmaps? Does this experience include leveraging existing software technologies and licenses to implement the proposed solution?
Notes:
i) To what extent has the firm's past experience as an integrator supported the organization change associated with the implementation of an eligibility information system?
Notes:
