

**STATE OF ALASKA ITB NUMBER 2524S002  
AMENDMENT NUMBER ONE**

***RETURN THIS AMENDMENT TO THE ISSUING OFFICE AT:***

Department of Transportation &  
Public Facilities  
Division of Facility Services  
3132 Channel Drive, Suite 350  
Juneau, AK 99811-2500

**THIS IS NOT AN ORDER**

**DATE AMENDMENT ISSUED: April 25, 2023**

**FIRE SPRINKLER INSPECTION, TESTING, & REPAIR SERVICES FOR JUNEAU FACILITIES**

**ITB OPENING DATE AND TIME: May 11, 2023, at 2:00 PM**

The State received the following questions concerning the system in the Alaska Office Building

1. What class the standpipes are at the Alaska Office Building? **1**
2. Are they wet or dry and do you know if they are combined? **Wet, no.**
3. Do they have hoses on them? **No, the only service are the FD services in stairwells. No hoses, just the hookups.**
4. For the dry system trip, are you wanting a full system trip? **Partial flow unless for certain dry pipe valve models a partial flow test may not provide a high enough rate of flow to latch the clapper in the open position. If the manufacturer's instructions indicate that this is the case for your model, it's important to test that the latching equipment is operative when resetting the valve.**

**This is a mandatory return Amendment.** *Your bid may be considered non-responsive if this signed amendment is not received [in addition to your bid packet] by the date and time proposals are due.*
