Juneau, AK 99801-7814**

THIS IS NOT AN ORDER

DATE AMENDMENT ISSUED: MAY 16, 2023

FIRE SPRINKLER INSPECTION, TESTING, & REPAIR SERVICES FOR JUNEAU FACILITIES
--

ITB OPENING DATE AND TIME: MAY 23, 2023, at 2:00PM

The following questions were received by the State.

Q-1 Does the awarded contractor have to have staff in Juneau to be awarded this contract to maintain the 24 hour on call specification?

A-1 Yes. For emergencies the contractor be available 24/7 and must be onsite within two-hours.

Q-2 Do background checks have to be completed prior to contract award?

A-2 Background checks must be completed and approved for all employees working in State facilities prior to award of this contract.

Q-3 The current bid document includes the backflow testing of the sprinkler devices with this bid, and I assumed that cost was included in each system on the bid schedule. Are you including all the backflows that prevent cross connection that are not on sprinkler systems on this contract?

A-3 The ITB includes inspection, testing, and repair services for 42 backflows. The new amended Bid Schedule has been issued with this Amendment and list backflows as a separate line item for bidding. The bid price for the testing of backflows must not be included with the bid price for testing of sprinkler systems.
