Re: Amendment 1
IRFP 23-VSW-VOZ-030
Voznesenka Water Treatment Plant Improvements
IRFP Due Date: June 30, 2022 @ 2:00 PM AST

The following are vendor questions and the department's response:

1. Vendor: Please clarify if a cost proposal is being requested as part of the proposal submittal.

Department: No, cost is not an evaluation factor. Disregard the following language in IRFP Basis of Selection - Technical Proposal, 6. Cost Proposal "Offerors must submit the attached cost proposal form as a separate attachment from their technical proposal."

2. Vendor: If a cost proposal is required, what is the format that is required? Is it a single number? Does it need to be broken down by task? Do you have an example table or form you would like to see?

Department: See above response. Refer to IRFP Part A, Price Proposal and Method of Payment.

3. Vendor: If a cost proposal is required, does it included both Phase I (Design and Specifications) and Phase II (Bidding and CA Services) scope or will Phase II fees be negotiated after Phase I is completed?

Department: The department anticipates requesting the highest ranked offeror to submit a price proposal for Phase I in accordance with the IRFP. The department anticipates requesting a price proposal for Phase II and amending the contract to include the cost of Phase II at a later date. Phase I hourly rates shall match Phase II hourly rates.

4. Vendor: May the proposal due date be extended to Friday, June 30th? 10 days is a little tight.

Department: The IRFP due date is extend from June 26, 2023 to June 30, 2023 @ 2:00 PM AST.
