*processing term = variable that is created behind the scenes or hard coded into the source code.
 e.g. decision logic or variables created to help make those decisions to come up with a value that ends up being saved to the database.
 **These data come from the Weight screen in inches, which is how they are saved the database. In this table column, they are converted to and displayed in feet. In the Weight screen the values are concatenated together in comma delimited format and saved to the database.
 ***Needs verification to determine which table/column data is being pulled from and which table/column data is being saved to.

44 Miles Trucking Local Permits v.1.8.4

Weight Distribution Bridge Conditions

Bridge

- 1) LINE UP. Stop 150 feet short of bridge then cross at a constant speed not to exceed 10 MPH.
- 2) IMPACT. Stop 150 feet short of bridge then cross at a constant speed not to exceed 3 MPH.
- 3) STRADDLE bridge centerline while crossing (extra flagperson(s) required for traffic control on 2-lane roads).
- 4) CENTER Place one of vehicle wheel lines on bridge centerline while crossing.
- 5) No other vehicles allowed on bridge at same time as this overweight vehicle while crossing (extra flagpersons required for traffic control at both ends of bridge).
- 6) Do NOT cross bridge. MUST USE ON/OFF RAMP TO AVOID CROSSING THIS BRIDGE.
- 7) Do NOT travel under bridge. MUST USE ON/OFF RAMP DUE TO VERTICAL CLEARANCE OF THIS BRIDGE.

12. Use ALL ramps on Glenn Hwy (Glenn SB use N Muldoon Exit).
13. **DO NOT TRAVEL THROUGH WHITTIER TUNNEL.**

User Indemnification Agreement
 Applicant expressly agrees to indemnify, save harmless, and defend the State of Alaska, its agencies and employees from any and all claims or actions for injuries or damages sustained by any person or property arising directly or indirectly from this special use permit or the activities which it authorizes. Applicant also acknowledges that, under Alaska Statute 44.80.070, the State is not subject to legal action or recovery of damages for injury arising out of, or in any manner connected with, this special use permit or the activities which it authorizes.

User Certification Agreement
 Applicant certifies that the information stated above is correct and the company and its driver will comply with the conditions set forth in this permit. Failure to comply may result in a citation and may jeopardize the applicant's ability to use the on-line permit system in the future.

Permits Refund Policy
 Requests for refunds can be submitted no later than close of business on the start date. [View our Refund Policy.](#)

User Insurance Agreement
 User agrees to comply with insurance requirements in [AS 19.10.300](#).

Weight Restrictions
 Applicant agrees to check and to comply with Weight Restrictions in effect on the day or days of travel.

Trailer Length: 35'0"
Trailer Width: Legal
Trailer Type: Tanker
Start Date: 6/1/2021 End Date: 5/31/2022

Loaded Non-Divisible Dimensions:
Width: Up to 10 ft 6 in Front Overhang: Up to 3 ft
Height: Up to 15 ft Rear Overhang: Up to 10 ft
Weight: Legal Overall Length: Up to 85 ft

NOT VALID FOR TRAVEL

The following conditions will apply:

CONDITIONS

- Driver must be able to produce copy of permit upon request and **MUST STOP AT ALL OPEN WEIGH STATIONS**.
- All vehicles with permits are required to stop at all open Weigh Stations even if they receive a green light from their transponder.
- No movement permitted if vision is restricted to less than 1000' by inclement weather. **HEADLIGHTS MUST BE ON AT ALL TIMES.**
- Maximum highway speed is the posted speed, subject to seasonal restrictions.
- Overall width of tractor or truck shall not exceed 8'6".
- Actual weight shall not exceed the MOST RESTRICTIVE (including seasonal) legal weight limits. See [Current Weight Restrictions](#).
- Time of movement is daylight hours.
- May also travel during hours of darkness following all applicable requirements specified in [49 CFR 390.395](#), [13 AAC 04.010-145](#) and the [State of Alaska Administrative Permits Manual Section 13](#).
- Must have clearly readable OVERSIZE signs on the front and rear.
- Must have a roof-mounted (or mounted at roof height) rotating or flashing amber beacon.
- Red or fluorescent orange flag (16" square) on end of overhang.
- DO NOT TRAVEL UNDER ANY OVERHEAD STRUCTURE POSTED AT LESS THAN 15' IN HEIGHT.

User Indemnification Agreement
 Applicant expressly agrees to indemnify, save harmless, and defend the State of Alaska, its agencies and employees from any and all claims or actions for injuries or damages sustained by any person or property arising directly or indirectly from this special use permit or the activities which it authorizes. Applicant also acknowledges that, under Alaska Statute 44.80.070, the State is not subject to legal action or recovery of damages for injury arising out of, or in any manner connected with, this special use permit or the activities which it authorizes.

User Certification Agreement
 Applicant certifies that the information stated above is correct and the company and its driver will comply with the conditions set forth in this permit. Failure to comply may result in a citation and may jeopardize the applicant's ability to use the on-line permit system in the future.

Permits Refund Policy
 Requests for refunds can be submitted no later than close of business on the start date. [View our Refund Policy.](#)

User Insurance Agreement
 User agrees to comply with insurance requirements in [AS 19.10.300](#).

Weight Restrictions
 Applicant agrees to check and to comply with Weight Restrictions in effect on the day or days of travel.

*processing term = variable that is created behind the scenes or hard coded into the source code.
e.g. division logic or variables created to help make those decisions to come up with a value that ends up being saved to the database.
**Commented from feet and inches based on width or height or length ratio between selection. Formula for this calculation needs to be identified.

***Returns all values that have previously been entered into the database. If an option is selected here, then it autofills into the field above as a suggestion
**** The values are concatenated together in comma delimited format and saved to the database
*****Values entered into these objects are saved to column as strings separated by commas
*****formula to be identified.

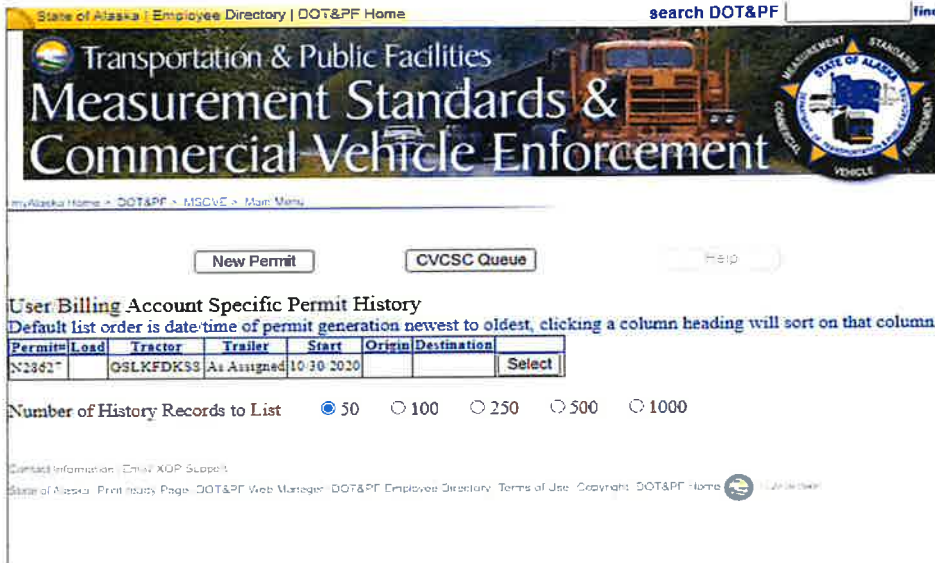

The screenshot displays the DOT&PF Measurement Standards & Commercial Vehicle Enforcement web application. The main heading is "Measurement Standards & Commercial Vehicle Enforcement". Below the heading, there is a search bar and a "Return to CVESC Query" link. The form is titled "Reference Number" and "Carrier (if different than 'MSCVE Express LTD')". The form is for a "Single Trip" in "June 2021". It includes a calendar view for June 2021 and a "Tractor LP# As Assigned" field. The form is divided into several sections: "Route Description", "Origin", "Destination", "Route", "Overall Length", "Overall Width", "Overall Height", "Overhangs/Trailer", "Axle Spacing", and "Weight Distribution Data". The "Route Description" section includes fields for "Origin Address", "City", "Origin Description (Optional)", "Destination Address", "City", "Destination Description (Optional)", and "Request Hours of Darkness Travel". The "Origin" section includes fields for "Address", "City", and "Destination Description (Optional)". The "Destination" section includes fields for "Address", "City", and "Destination Description (Optional)". The "Route" section includes fields for "Route", "Length", "Width", "Origin", "Length", "Width", "Destination", and "Combo to 75 ft, Combo to 85 ft, Combo to 100 ft, Single Unit to 45 ft, Single Unit to 45 ft, Combo > 100 ft". The "Overall Length" section includes fields for "length spec**" and "Actual". The "Overall Width" section includes fields for "Overall Width" and "Actual". The "Overall Height" section includes fields for "Overall Height" and "Actual". The "Overhangs/Trailer" section includes fields for "Front OH (if > 3)", "Rear OH (if > 4)", "Trailer Length", and "Trailer Type". The "Axle Spacing" section includes fields for "Axle Spacing", "Number of Tires (non Lift Axles)", "Axle Group Weight (all Axles) (x1000)", "Tire Size (Inches)", "Number of Tires (Lift Axle(s))", "Lift Axle Location in Group (Front, Rear, Both)", and "Lift Axle Tire Size (Inches)". The "Weight Distribution Data" table shows the following data:

| Weight Distribution Data | Steer | Drive | Grp 3 | Grp 4 | Grp 5 | Grp 6 | Grp 7 |
|---|-------|-------|-------|-------|-------|-------|-------|
| Number of Tires (non Lift Axles) | | | | | | | |
| Axle Group Weight (all Axles) (x1000) | | | | | | | |
| Tire Size (Inches) | | | | | | | |
| Number of Tires (Lift Axle(s)) | | | | | | | |
| Lift Axle Location in Group (Front, Rear, Both) | | | | | | | |
| Lift Axle Tire Size (Inches) | | | | | | | |

At the bottom of the form, there is a "Comments or Special Instructions for the Permit Office Staff (do not enter credit card information)" field and a "Submit" button. The footer of the page includes the text "Copyright 2011 by DOT&PF" and "State of Alaska Department of Transportation & Public Facilities".

*processing term = variable that is created behind the scenes or hard coded into the source code.
e.g. decision logic or variables created to help make those decisions to come up with a value that ends up being saved to the database.
