SEC. 2.10 SPECIFICATIONS

POTASSIUM ACETATE:

Potassium Acetate offered must meet all requirements of the Federal Aviation Administration (FAA) Advisory Circular 150/5200-30D (or most recent version).

EXCERPT FROM FAA AC 150/5200-30D, Chapter 4.6 Approved Chemicals:

4.6.1 Airside Chemicals.

The FAA either establishes approval specifications or, upon acceptance, references the specifications of professional associations, such as SAE Aerospace Material Specifications (AMS), and the U.S. military (MIL-SPEC). The approved airside chemicals for runway and taxiway applications are fluid and solid products meeting a generic SAE or MIL specification. **These specifications require vendors to provide airport operators with a lab certification stating the chemical conformed to the applicable specification and a material safety data sheet (MSDS) for handling the product.** With the increased accountability placed on airport operators to manage deicing/anti-icing chemical runoff, they should request vendors to provide certain environmental data. These data consist of information on pollutants the Environmental Protection Agency and the State Department of Natural Resources request of the airport operators in their discharge reporting requirements. Typically, the information includes percent product biodegradability, biochemical oxygen demand (BOD5), chemical oxygen demand (COD), pH, presence of toxic or hazardous components, if any, and remaining inert elements after application. MSDSs provide measures on how to secure large product

spills and a 24-hour toll-free emergency phone number. While these fluid and solid specifications cover technical requirements for deicing/anti-icing products, they do not address the compatibility issue of combining products during operations. Airport operators, therefore, should query manufacturers about the safe and proper use of concurrently applying multiple deicers/anti-icers. The FAA-approved airside chemical specifications, which may be restricted by state or local environmental regulations, are as follows:

4.6.1.1 Fluid Deicer/Anti-icers.

The approved specification is the latest edition of SAE AMS 1435, *Fluid, Generic Deicing/Anti-icing, Runways and Taxiways*. Approved products include glycol-based fluids, potassium acetate base, and potassium formate-based fluids. The SAE specification is available for purchase at <http://www.sae.org>. Application rates for a specific product are based on manufacturer recommendations. In terms of material cost-savings, less product is used by anti-icing operations than by deicing operations.

CONTAINERS: Potassium Acetate shall be delivered in either bulk container trucks approximately 4,000–5,000 gallons or in totes approximately 200-300 gallons. The State will only order full containers. The minimum as-needed order for each destination in Lot 2 is noted on the Bid Schedule.

SEC. 2.11 EVIDENCE OF COMPLIANCE

Bidders must submit written confirmation with their bid that the product offered meets the specifications set forth in this ITB. Bidders must submit the following with their bid:

1. Safety Data Sheets (SDS);
2. Certified independent laboratory test results from the manufacturer’s initial preproduction test for the offered chemical. Test results must demonstrate clear indication that the offered chemical conforms to each specification set forth in this ITB; and
3. The most recent certified independent laboratory periodic test results. Test results must demonstrate clear indication that the offered chemical conforms to each specification set forth in this ITB

The State reserves the right to verify and approve evidence of compliance.

The bidder’s failure to submit the above evidence with their bid may cause the State to determine the bid non-responsive and reject the bid.

Throughout the contract term, the Contractor must submit proof of certified lab results for any lot of product within thirty (30) days of the State’s written request.

SEC. 2.12 SAMPLING AND TESTING

The State may require sampling and testing throughout the contract period. Testing will be conducted at the State’s laboratories using appropriate test methods according to the ITB’s “Specifications” to determine if the product offered meets all requirements. The contractor will be allowed to observe the tests if requested in writing. If testing is performed at an independent lab, the contractor may be notified to redirect the sample to a laboratory as determined by the State. The State shall provide 48-hour advance notice to the contractor of the name, location and contact information of the independent lab performing the tests. If the product fails to meet the ITB specifications, the contractor will assume all financial responsibility of the test and the State will, at its option, reject the delivery [See PRODUCT REJECTION].

SEC. 2.13 PRODUCT REJECTION

Any product may be rejected if it fails to conform to the specifications. This includes the material, the packaging and the delivery requirements. If the product fails to meet specifications, the State will at its option cancel the contract or allow the contractor to replace the defective product. In no instance will the State pay any cost associated with the remedy for the defective product. The return shipment of refused product will be at the Contractor's expense at no additional cost to the State. At its option, the State may consider a cost adjustment from the contractor in lieu of replacement product. The cost reduction shall be based on the State's assessment of damages as a result from either sampling and testing or the condition of the shipment upon delivery.

SEC. 2.14 F.O.B. POINT

The F.O.B. points are various locations within the State of Alaska as specified on the "Bid Schedule". Specific address, contact name and phone number for each DOT/PF Maintenance Station are identified by Region and attached. The contractor will be required to prepare the items for shipping and to ship them to the ultimate destination specified in the State's order. Ownership of and title to the ordered items remains with the contractor until the items have been delivered to their final destination and are accepted by the State. **The cost of all shipping and delivery must be included in the bid price.**

SEC. 2.15 PACKAGING

The cost of all packaging must be included in the price bid. All packaging must be new and suitable for shipment and short-term warehouse and outdoor storage.

SEC. 2.16 WARRANTY

This section does not apply to this ITB.

SEC. 2.17 WORKMANSHIP & MATERIALS

All work must be performed in a thorough and workmanlike manner and in accordance with current industry practices. The contractor will be held responsible for the quality of the finished item. The State will reject any item that does not meet the specifications of the ITB. Rejected items will be returned to the contractor at the contractor's risk and expense.

Sec. 2.20 SUBSTITUTIONS

The contractor must obtain the written approval from the contracting officer prior to making any substitutions of product throughout the contract period. The State will not pay for substitutions that are not approved in advance and in writing by the contracting officer.

SEC. 2.21 DISCONTINUED ITEMS

In the event an item is discontinued by the manufacturer during the life of the contract, another item may be substituted, provided that the procurement officer makes a written determination that it is equal to or better than the discontinued item and provided that it is sold at the same price or less than the discontinued item.

SEC. 2.22 DELIVERY

All items shall be delivered F.O.B. destination as identified on the Bid Schedule.

- A.) Delivery of the “Firm Quantity” orders must be made within the timeframe specified in the “Bid Schedule” with no exceptions. The Bid Schedule identifies two dates for each location. A copy of the supplier's and shipper's confirmation may be included with the bid or submitted within 30 calendar days of State's request. The bidder's failure to provide these confirmation documents as required will cause the State to consider the bid non-responsive and reject the bid.

SEC. 2.26 ADVANCED NOTICE OF DELIVERY

For deliveries for the Anchorage International Airport (TSAIA):

The contractor must provide the State 24 hours advance notice of each delivery. Failure to provide advance notice may delay the State's ability to accept the shipment. The contact information for each destination may be found in Attachment A.

An additional notice of delivery is required by the trucking company / delivery driver no less than 30 minutes prior to delivery arriving at the airport.

After normal business hours, most State maintenance yards are unattended, yet secured and therefore inaccessible. Therefore, deliveries will only be accepted at the final destination during normal State business hours; Monday through Friday, excluding State holidays, between 8:00 am and no later than 3:30 pm unless other prior arrangements are made with the State's designated contact as instructed above.

For all other delivery locations:

Therefore, deliveries will only be accepted at the final destination during normal State business hours; Monday through Friday, excluding State holidays, 8:00 am to 4:30 pm unless other prior arrangements are made with the State's designated contact as instructed above.

All stations must be available for deliveries with no penalty to the contractor during those designated normal business hours. **All after normal business hour deliveries** must be pre-approved by the State's designated contact for that destination. However, prior approval to deliver outside normal business hours is not guaranteed due to lack of available personnel or other scheduling conflicts. Any additional costs (personnel and equipment) incurred by the State to accommodate deliveries made outside normal business hours will be solely at the contractor's expense.

Note: Overtime wages and minimum call out requirements are subject to the State Office of Personnel and union bargaining agreements. Disclosure of the approximate amount of additional costs may be acquired upon request from the State’s designated contact at the time the arrangement is made. Upon the State’s request, the contractor shall submit in writing, their acceptance of responsibility for any additional costs and their intended delivery schedule.

The Contractor shall confirm the available equipment with the destination contact, as noted on the Bid Schedule, prior to delivery. Additional equipment necessary to complete the delivery must be provided by the Contractor.

Barge Service: For locations serviced by barge transportation orders will be placed by the State in a timely manner so that the Contractor can meet barge schedules. It is DOT’s intent to expedite off-loading as efficiently as possible so that empty containers are released back to the shipper in time for the return barge.

SEC. 2.27 LIQUIDATED DAMAGES FOR LATE DELIVERY

Late delivery will cause the State to suffer damages. Actual damages will be difficult to assess; therefore, it is mutually agreed that the contractor will pay the state damages at the rate of \$100 dollars per occurrence for each calendar day beyond the delivery date called for in the ITB.

SEC. 2.28 BID GUARANTEE

The Bid Guarantee shall be submitted under the name appearing on the bidder’s current Alaska business license.

Failure to submit a bid guarantee in the proper form and amount, by the time set for opening of bids, will cause the State to determine the bid non-responsive and reject the bid.

SEC. 2.29 PERFORMANCE BOND

Any posted performance bond will ensure performance over the entire term of the contract. In the event it becomes necessary for the State to cancel the contract issued as a result of this ITB due to non-compliance during the term of the contract, regardless of the circumstances or time remaining on the contract, the bonding company shall well and truly perform and complete all obligations and work under said contract in accordance with the terms of the performance bond. In the event it becomes necessary for the State to cancel the contract issued as a result of this ITB due to non-compliance during the term of the contract, regardless of the circumstances or time remaining on the contract, the individual surety will be declared as liquidated damages and become due and payable to the State. By signature on this ITB, the bidder acknowledges this condition and voluntarily relinquishes any and all claims to the entire individual surety. The individual surety shall be submitted under the name appearing on the bidder's current Alaska business license. The individual surety may be in any of the following forms:

Failure to supply this document within the time required will cause the State to declare the bidder non-responsible and to reject the bid.

SEC. 2.32 ORDERS

At this time, funding prevents the State's use of IRIS to issue individual Purchase Orders. Firm quantity orders under this ITB will be placed by Delivery Order issued from the Statewide Contracting and Procurement Office. It is the State's intent to issue the Delivery Order(s) by August 19, 2023.

As-needed quantities are weather driven and for the sole purpose of replenishing depleted stock on hand in order to complete the current winter season. The state may instruct the contractor to make corrections or modifications if needed in order to accomplish the contract's intent. The contractor will not unreasonably withhold such changes.

Substantial failure of the contractor to perform the contract may cause the state to terminate the contract. In this event, the state may require the contractor to reimburse monies paid (based on the identified portion of unacceptable products or work received) and may seek associated damages.

SEC. 2.37 CONTINUING OBLIGATION OF CONTRACTOR

Notwithstanding the expiration date of a contract resulting from this ITB, the contractor is obligated to fulfill its responsibilities until warranty, guarantee, maintenance, and parts availability requirements have completely expired.

SEC. 2.38 PRICE DECREASES

During the period of the contract all price decreases experienced by the contractor must be passed on to the state. A contractor's failure to strictly and faithfully adhere to this clause, within the time required, will be considered in breach of contract.

SEC. 2.39 INFORMAL DEBRIEFING

When the contract is completed, an informal debriefing may be performed at the discretion of the procurement officer. If performed, the scope of the debriefing will be limited to the products provided or work performed by the contractor.

The contractor shall not be required to indemnify the contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the contractor and the independent negligence of the contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis.

“Contractor” and “contracting agency”, as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term “independent negligence” is negligence other than in the contracting agency's selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor's work.

SEC. 2.41 INSURANCE

Without limiting the contractor's indemnification, it is agreed that the contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this agreement the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits.

Certificates of Insurance must be furnished to the procurement officer prior to contract approval and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the contractor's services. All insurance policies shall comply with and be issued by insurers licensed to transact the business of insurance under AS 21.

Proof of insurance is required for the following:

- Workers' Compensation Insurance: The contractor shall provide and maintain, for all employees engaged in work under this contract, coverage as required by AS 23.30.045, and; where applicable, any other statutory obligations including but not limited to Federal U.S.L. & H. and Jones Act requirements. Unless otherwise specified in this ITB, all materials, supplies or equipment offered by a bidder shall be new, unused, and of the latest edition, version, model or crop and of recent manufacture.

SEC. 5.05 SPECIFICATIONS

Unless otherwise specified in this ITB, product brand names or model numbers specified in this ITB are examples of the type and quality of product required, and are not statements of preference. If the specifications describing an item conflict with a brand name or model number describing the item, the specifications govern. Reference to brand name or number does not preclude an offer of a comparable or better product, if full specifications and descriptive literature are provided for the product. Failure to provide such specifications and descriptive literature may be cause for rejection of the offer.

SEC. 5.06 BRAND AND MODEL OFFERED

When brand names and model numbers are used to specify the type and quality of the goods desired (“or equivalent”), bidders must clearly indicate the brand names and model numbers they intend to provide. The bidder's failure to identify the brand and model offered may cause the state to consider the offer non-responsive and reject the bid.

SEC. 5.07 CONTRACTOR SITE INSPECTION

The state may conduct on-site visits to evaluate the bidder's capacity to perform the contract. A bidder must agree, at risk of being found non-responsive and having its bid rejected, to provide the state reasonable access to relevant portions of its work sites. Individuals designated by the procurement officer at the state's expense will make site inspection.

SEC. 5.08 ORDER DOCUMENTS

Except as specifically allowed under this ITB, an ordering agency will not sign any vendor contract. The state is not bound by a vendor contract signed by a person who is not specifically authorized to sign for the state under this ITB. Unless otherwise specified in this ITB, the State of Alaska Purchase Order, Contract Award and Delivery Order are the only order documents that may be used to place orders against the contract(s) resulting from this ITB.

SEC. 5.09 HUMAN TRAFFICKING

By signature on their bid, the bidder certifies that the bidder is not established and headquartered or incorporated and headquartered in a country recognized as Tier 3 in the most recent United States Department of State's Trafficking in Persons Report.

The most recent United States Department of State's Trafficking in Persons Report can be found at the following website: <http://www.state.gov/j/tip/>

Failure to comply with this requirement will cause the state to reject the bid as non-responsive, or cancel the contract.

SEC. 5.10 RIGHT OF REJECTION

Bidders must comply with all of the terms of the ITB, the State Procurement Code (AS 36.30), and all applicable local, state, and federal laws, codes, and regulations. The procurement officer may reject any bid that does not comply with all of the material and substantial terms, conditions, and performance requirements of the ITB.

Bidders may not qualify the bid nor restrict the rights of the state. If a bidder does so, the procurement officer may determine the bid to be a non-responsive counter-offer and the bid may be rejected.

Minor informalities that:

- do not affect responsiveness;
- are merely a matter of form or format;
- do not change the relative standing or otherwise prejudice other offers;

- do not change the meaning or scope of the ITB;
- are trivial, negligible, or immaterial in nature;
- do not reflect a material change in the work; or
- do not constitute a substantial reservation against a requirement or provision;

may be waived by the procurement officer.

The state reserves the right to refrain from making an award if it determines that to be in its best interest.

A bid from a debarred or suspended bidder shall be rejected.

SEC. 5.11 STATE NOT RESPONSIBLE FOR PREPARATION COSTS

The state will not pay any cost associated with the preparation, submittal, presentation, or evaluation of any bid.

SEC. 5.12 DISCLOSURE OF BID CONTENTS

All bid prices become public information at the bid opening. After the deadline for receipt of bids, all other bid material submitted become the property of the State of Alaska and may be returned only at the state's option. AS 40.25.110 requires public records to be open to reasonable inspection. All other bid information will be held in confidence during the evaluation process and prior to the time a Notice of Intent to Award is issued. Thereafter, bids will become public information.

Trade secrets and other proprietary data contained in bids may be held confidential if the bidder requests, in writing, that the procurement officer does so, and if the procurement officer agrees, in writing, to do so. The bidder's request must be included with the bid, must clearly identify the information they wish to be held confidential, and include a statement that sets out the reasons for confidentiality. Unless the procurement officer agrees in writing to hold the requested information confidential, that information will also become public after the Notice of Intent to Award is issued.

SEC. 5.13 ASSIGNMENTS

Per 2 AAC 12.480, the contractor may not transfer or assign any portion of the contract without prior written approval from the procurement officer. Bids that are conditioned upon the state's approval of an assignment will be rejected as non-responsive.

SEC. 5.14 FORCE MAJEURE (IMPOSSIBILITY TO PERFORM)

The parties to a contract resulting from this ITB are not liable for the consequences of any failure to perform, or default in performing, any of its obligations under the contract, if that failure or default is caused by any unforeseeable Force Majeure, beyond the control of, and without the fault or negligence of, the respective party.

For the purposes of this ITB, Force Majeure will mean war (whether declared or not); revolution; invasion; insurrection; riot; civil commotion; sabotage; military or usurped power; lightning; explosion; fire; storm; drought; flood; earthquake; epidemic; quarantine; strikes; acts or restraints of governmental authorities affecting the project or directly or indirectly prohibiting or restricting the furnishing or use of materials or labor required; inability to secure materials, machinery, equipment or labor because of priority, allocation or other regulations of any governmental authorities.

SEC. 5.15 DEFAULT

In case of default by the contractor, for any reason whatsoever, the state may procurement the goods or services from another source and hold the contractor responsible for any resulting excess cost and may seek other remedies under law or equity.

SEC. 5.16 DISPUTES

If the contractor has a claim arising in connection with the contract that it cannot resolve with the state by mutual agreement, it shall pursue the claim, if at all, in accordance with the provisions of AS 36.30.620 – AS 36.30.632.

SEC. 5.17 SEVERABILITY

If any provision of the contract or agreement is found to be invalid or declared by a court to be illegal or in conflict with any law, the validity of the remaining terms and provisions will not be affected; and, the rights and obligations of the parties will be construed and enforced as if the contract did not contain the particular provision held to be invalid.

SEC. 5.18 CONSUMER ELECTRICAL PRODUCT

AS 45.45.910 requires that "...a person may not sell, offer to sell, or otherwise transfer in the course of the person's business a consumer electrical product that is manufactured after August 14, 1990, unless the product is clearly marked as being listed by an approved third party certification program." Electrical consumer products manufactured before August 14, 1990, must either be clearly marked as being third party certified or be marked with a warning label that complies with AS 45.45.910(e). Even exempted electrical products must be marked with the warning label. By signature on this bid the bidder certifies that the product offered is in compliance with the law. A list of approved third party certifiers, warning labels and additional information is available from: Department of Labor and Workforce Development, Labor Standards & Safety Division, Mechanical Inspection Section, P.O. Box 107020, Anchorage, Alaska 99510-7020, (907)269-4925.

SEC. 5.19 CONTRACT CANCELLATION

The state reserves the right to cancel the contract at its convenience upon thirty (30) calendar days written notice to the contractor. The state is only liable for payment in accordance with the payment provisions of this contract for supplies or services provide before the effective date termination.

SEC. 5.20 GOVERNING LAW; FORUM SELECTION

A contract resulting from this ITB is governed by the laws of the State of Alaska. To the extent not otherwise governed by Section 5.16 of this ITB, any claim concerning the contract shall be brought only in the Superior Court of the State of Alaska and not elsewhere.

SEC. 5.21 SOLICITATION ADVERTISING

Public notice has been provided in accordance with 2 AAC 12.220.

SEC. 5.22 QUALIFIED BIDDERS

Per 2 AAC 12.875, unless provided for otherwise in the ITB, to qualify as a bidder for award of a contract issued under AS 36.30, the bidder must:

- 1) Add value in the contract by actually performing, controlling, managing, or supervising the services to be provided; or
- 2) Be in the business of selling and have actually sold on a regular basis the supplies that are the subject of the ITB.

If the bidder leases services or supplies or acts as a broker or agency in providing the services or supplies in order to meet these requirements, the procurement officer may not accept the bidder as a qualified bidder under AS 36.30.

SEC. 5.23 PROTEST

AS 36.30.560 provides that an interested party may protest the content of the ITB.

An interested party is defined in 2 AAC 12.990(a) (7) as "an actual or prospective bidder or offeror whose economic interest might be affected substantially and directly by the issuance of a contract solicitation, the award of a contract, or the failure to award a contract."

If an interested party wishes to protest the content of a solicitation, the protest must be received, in writing, by the procurement officer at least ten days prior to the deadline for receipt of bids.

AS 36.30.560 also provides that an interested party may protest the award of a contract or the proposed award of a contract.

If a bidder wishes to protest the award of a contract or the proposed award of a contract, the protest must be received, in writing, by the procurement officer within ten days after the date the Notice of Intent to Award the contract is issued.

A protester must have submitted a bid in order to have sufficient standing to protest the proposed award of a contract. Protests must include the following information:

- the name, address, and telephone number of the protester;
- the signature of the protester or the protester's representative;
- identification of the contracting agency and the solicitation or contract at issue;
- a detailed statement of the legal and factual grounds of the protest including copies of relevant documents; and the form of relief requested.

Protests filed by telex or telegram are not acceptable because they do not contain a signature. Fax copies containing a signature are acceptable.

The procurement officer will issue a written response to the protest. The response will set out the procurement officer's decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax or another method that provides evidence of receipt.

All bidders will be notified of any protest. The review of protests, decisions of the procurement officer, appeals, and hearings, will be conducted in accordance with the State Procurement Code (AS 36.30), Article 8 "Legal and Contractual Remedies."
