1	For the tiered level of screenings, are the numbers screened solely screenings completed or do those include patient navigation (2 touches)?	The tiered levels are based on screenings completed.
2	Can the background be provided on how the tiered levels of screening were determined?	This solicitation contemplates multiple contracts with multiple vendors. The tiered levels of service have been provided in order to support this initiative.
3	If the tiered level of screenings are screenings completed, how will that data be provided, and would the offeror be responsible for that data?	The successful contractor will be responsible for tracking the number of participants successfully screened, and those who are in the navigation process.
