State Park Land and Water

The Alaska Department of Natural Resources, Division of Parks and Outdoor Recreation, is considering whether it should revise regulating the use of state park land and water. Specifically, DNR is considering revising regulations in order to enact new provisions to authorize and regulate the use of small, unmanned aircraft (UAVs) in state parks statewide.

The purpose of this notice is to ask the public for their ideas and suggestions for possible changes and improvements **solely related to UAVs** in 11 AAC 12, 11 AAC 18, 11 AAC 20, and 11 AAC 21 *before* the department undertakes the task of drafting any specific proposed revisions of these regulations for public review. These ideas and suggestions can be as broad or as narrow, or as general or as specific, as a submitter may wish.

The department is not currently proposing any *specific* changes at this time. There are no draft regulations to review. The department is soliciting feedback and comments from the public on how they would improve regulations regarding the use of UAVs in State Park managed lands and waters before the formal process of drafting any proposed changes begins.
