- **Provide Answers To Questions Received**

Questions and answers:

Question #1:

Would DOT unload the sodium chloride if shipped via 20' shipping containers? This form of transportation would be the best way to preserve the quality of the product?

Answer #1:

They have done this before in Juneau, but the bidder would need to check with AML to see if the dumper truck is available, for Sitka they would need to rent a small machine to unload the container, and Klawock does not have any way to unload a container.
