Subject: PWS Pot Shrimp Fishery P09E, P91E

Dear Commissioners,

Our membership has considered the following evidence to be relevant to our conclusion that this exclusive registration fishery has reached a maximum number of participants. The data that has been collected has come from Department reports, public notices, public databases and interviews with Department staff, from both commercial and sport fishing divisions. Every effort has been made to review the data and verify wherever possible, as to make sure of it's accuracy. However, there may be slight discrepancies of individual numbers, but the analysis is sound and our conclusion is that our fishery would benefit from limited entry.

We request that you review the attached document outlining our findings. Thank you for your consideration of these important viewpoints from our membership, as you consider relevant facts in determination of limited entry access for this fishery.

Respectfully,

A handwritten signature in blue ink, appearing to read "B Wilbanks", with a horizontal line extending to the right.

Brett Wilbanks, Chairman
ShrimpPros Association
