Department of Transportation & Public Facilities
Statewide Contracting & Procurement
P.O. Box 112500
(3132 Channel Drive, Room 350)
Juneau, Alaska 99811-2500

THIS IS NOT AN ORDER

DATE AMENDMENT ISSUED: December 11, 2023

RFP TITLE:

NONTANK VESSEL PLAN RESPONSE PLAN FACILITATOR

This is a non-mandatory return Amendment.

The purpose of this Amendment #1 is to:

- Answer questions received pertaining to RFP 2524S038.

Question #1: I am assuming the VGP facilitation requires annual exams of all vessels, is this correct?

Answer #1: The VGP facilitation will not require annual examinations of the vessels. It will only require review and annual updates to the attached VGP management plan. The selected contractor will ensure that the VGP management plan reflects the current requirements of the Vessel General Permit and provides steps that AMHS vessels need to take to remain in compliance with these requirements. The contractor will coordinate with project director and Chief Engineer and Master of each vessel to ensure all necessary information is up to date.

Question #2: How many personnel require the ICS-300 training?

Answer #2: All personnel that could be involved in a spill response are required to have the ICS 300 training. While there is some overlap in personnel, a rough count concludes approximately 21 individuals.
