¹⁶ The entity may carry forward unused elements or presentation, definition, or calculation relationships in the taxonomy that are used intermittently in the XBRL data (for example, taxonomies may reflect elements or relationships used in XBRL data for annual financial statements [Form 10-K] but not used in the XBRL data for quarterly financial statements [Form 10-Q]). Used elements or relationships refer to those used in the XBRL data. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect updates to XBRL technology.]

¹⁷ Elements include line items and combinations of line items, domain members, and axes. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
C	Elements used in the XBRL data, considering their attributes; ¹⁸ definitions (for example, documentation labels in the label linkbase); and references are consistent with the corresponding business reporting concepts in the underlying source information.	M1	For each element used in the XBRL data, compare the following aspects of the element to the nature of the business reporting concept in the source information: ● Reference ● Period type (that is, instant, duration) ● Data type (for example, block text, monetary value, or other numeric value) ● Other attributes (that is, documentation labels and standard labels in the label linkbase, and abstract true/false)	M1	All such aspects of the elements used in the XBRL data reflect the nature of the business reporting concepts in the [identify: source information] [except for the following: list elements and describe differences].
C (1)	Headings in the source information are represented as abstract elements.		<i>Procedures C1 and M1, listed previously, address this criterion.</i>		<i>See findings under C1 and M1, listed previously.</i>

¹⁸ The "basic element attributes" include (a) abstract, (b) data type (that is, whether the content is expected to conform to a certain type of content, such as block text, a monetary value, or other numeric value), (c) period type (that is, whether it is a point in time or a period of time), and (d) balance type (that is, whether it is normally a debit or a credit). The balance attribute is currently not a primary consideration in selecting elements in the SEC program. The SEC's EFM 6.6.29 provides guidance for the order in which the attributes take precedence when selecting the most appropriate element. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered and revised, June 2020, to reflect updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
D	The most specific elements or dimensional combination of elements across the entire taxonomy whose attributes; definitions (for example, documentation labels in the label linkbase); and references are consistent with the corresponding business reporting concepts have been used.	M2	Search the taxonomy for any elements and any combination of elements for which element aspects (that is, references, documentation labels, and standard labels in the label linkbase) that reflect more specifically ¹⁹ the corresponding business reporting concept without violating the criteria for element selection (aspects of elements as listed previously in procedure M1).	M2	No elements from the [specify taxonomy ²⁰] for which references, definitions, and standard labels in the label linkbase may more specifically reflect the corresponding business reporting concepts in the [identify: source information] were noted. Or The following elements from the [specify taxonomy] for which definitions and standard labels in the label linkbase, and references more specifically reflect the corresponding business reporting concepts in the [identify: source information and list the elements and the business reporting concepts].

(continued)

¹⁹ This may include identifying more detailed elements. For example, in the case of a concept on the financial statements for short-term investments available for sale, the entity used the short-term investments element in the XBRL data; however, the practitioner may identify short-term investments available for sale as a more specific element. There may be some situations that require the exercise of a level of judgment that may not be appropriate for an agreed-upon procedure engagement. In such cases, the practitioner should not make the judgment but should lay out the facts. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered and revised, June 2020, to reflect conforming changes necessary due to the issuance of SSAE No. 19 and updates to XBRL technology.]

²⁰ This procedure may be performed against a standard taxonomy (for example, U.S. GAAP Taxonomy as documented in the EFM) or against the extension taxonomy of the XBRL data (incorporating extension elements). [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered and revised, June 2020, to reflect updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
D (1)	Certain elements required for use by the SEC (for example, DEI elements or elements for reporting consolidating entities) have been used if applicable.	M3	From the list of required elements per the SEC's EFM (sections 6.5.20, 6.5.21, 6.6.3 through 6.6.10, and 6.5.45 for Inline XBRL filings) pertaining to ● consolidations and legal entities, ● stock classes, and ● document and entity (and cover page)-related information trace the required elements for business reporting concepts included in the source information to inclusion in the XBRL data.	M3	Required elements for business reporting concepts pertaining to consolidations and legal entities, stock classes, and document and entity-related information included in the source information were included in the XBRL data [except for the following elements: <i>list elements not included</i>].
E	Use of selected elements is permitted (for example, the selected element is not deprecated)	M4	Search the XBRL data to identify the elements ²¹ in the XBRL data that have a deprecated label in the standard taxonomy.	M4	The XBRL data do not contain any elements that have deprecated labels in the standard taxonomy [except the following elements used in the XBRL data: <i>list elements</i>].

²¹ The procedure to be performed addresses the situation of deprecated elements; however, there may be other conditions where elements are not permitted. Procedures to address other examples are not included in this SOP because they may be automatically tested with software. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
F	The same business reporting concepts appearing multiple times in the source information are formatted once using the same elements or combination of elements throughout the XBRL data, when appropriate. ²²	M5	For business reporting concepts appearing more than once in the source information (including those concepts with values reported for more than one period), search the XBRL data for use of more than one element for the same business reporting concept except when alternative line item and domain member combinations are prescribed by related guidance or if the application of guidance related to duplicates under the Inline XBRL specification specifies a particular treatment.	M5	No items were noted in which a different element was used for the same business reporting concept appearing more than once or for different periods [except as follows: <i>describe, for example, cash appearing on the balance sheet was tagged with a different element (or combination of elements) than cash appearing on the cash flow statement</i>].
G	The same elements are used consistently to report the same business reporting concepts, including for each period for which such concepts appear in the underlying source information. ²³		<i>Procedure M5, listed previously, addresses this criterion.</i>		<i>See findings in M5, listed previously.</i>

(continued)

²² Exceptions exist when business reporting concepts will be formatted using different line item and domain member combinations, or when the related guidance requires different elements to be used based on the level of granularity of the source data being formatted (for example, in situations where concepts must use both dimensional and nondimensional approaches, such as Treasury stock presented on the balance sheet without dimensions and then presented on the statement of stockholders' equity with dimensions). The appropriate use of duplicate elements should be considered, and redundantly formatted facts should be eliminated. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect updates to XBRL technology.]

²³ Although the source information may contain different values (for example, positive, negative, or zero) in one period as compared with another (for example, net income [loss]) or represent an ending balance in one period and the beginning balance in the next, the same element should be used in all periods presented. Notwithstanding, there may be certain situations in which the taxonomy may include different elements to reflect positive and negative values (for example, certain elements relating to tax assets and tax liabilities in the U.S. GAAP Taxonomy). [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
H	Extension elements are created only when both of the following conditions are met: no suitable elements exist in the selected taxonomy, and extensions are permitted in accordance with the SEC's rules.		<i>Procedures M1, M2, and M3, listed previously, address this criterion.</i>		<i>See findings from M1, M2, and M3, listed previously.</i>
I	Definitions, if provided (for example, documentation labels in the label linkbase) for extension elements used in the XBRL data, are consistent with the source information.		<i>Procedure M1, listed previously, addresses this criterion.</i>		<i>See findings from M1, listed previously.</i>
Consistency of the XBRL Data With the Source Information — All formatted information²⁴ in the XBRL data is consistent with the source information and formatted in accordance with the SEC's requirements.					
J	Formatted amounts in the XBRL data reflect the entire numbers of the corresponding business reporting concepts (that is, the XBRL amounts are not scaled ²⁵).	CO1	For each amount tagged in the XBRL data, compare such information with the amount of the corresponding business reporting concept in the source information to identify any amount that does not reflect the entire number.	CO1	All amounts in the XBRL data reflect the entire number of the corresponding business reporting concept [except for the following elements: <i>list elements and describe differences</i>].

²⁴ Formatted information includes data (for example, amounts, text, dates); contextual information (for example, monetary units); and relationships (for example, presentation order and calculations). [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect updates to XBRL technology.]

²⁵ Amounts in financial statements are often presented in various formats (for example, rounded to millions) and may represent a different scale. However, amounts formatted in XBRL must be entered without such presentational formatting. For example, 23.5 million would be entered as 23500000, 14.3 percent would be entered as .143. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
		CO2	For Inline XBRL data, for each date, time, ordinal number, symbol that represents a true/false value or textual number, compare the format attribute to the approved list of transformations specified by the SEC. ²⁶	CO2	No differences were noted in the transformations used in the XBRL data as compared to the standard list of format attributes specified by the SEC <i>[except for the following format attributes in the XBRL data: list elements and describe any differences]</i> .
K	Formatted amounts have the appropriate signs based on the nature of the values in the source information, balance attributes, and definitions (documentation labels in the label linkbase) of the elements.	CO3	For negative amounts in the XBRL data, that have been tagged with elements whose definitions or standard labels do not include terminology identified in the table in the SEC's Staff Observations (SEC table) ²⁷ (for example, increase/decrease, gain/loss, provided by/used in) within the definition (documentation label in the label linkbase) or standard label, compare the sign ²⁸ to the nature of the value of the corresponding business reporting concepts in the source information.	CO3	The signs for negative amounts for elements with definitions or standard labels that do not include terminology from the SEC table are consistent with the nature of the value of the corresponding business reporting concepts in the <i>[identify: source information]</i> <i>[except for the following: list elements]</i> .

(continued)

²⁶ The SEC's EFM 5.2.5.12 provides the Inline XBRL transformation registries supported by EDGAR and lists a set of format attributes with content input values that will provide the XBRL formatted amount. [Footnote added, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

²⁷ Under the heading "Negative Values" in the SEC's *Staff Observations from the Review of Interactive Data Financial Statements (from December 13, 2011)* is a table in which the SEC staff provides examples of language included in definitions or standard labels of elements that can be negative. This is not necessarily a complete list, therefore, the practitioner and preparer may agree to extend this procedure beyond the elements that have definitions or labels that contain specified language included in the table. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

²⁸ Identified negative amounts may not be an error; however, they likely require further assessment by management. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
		CO4	For elements for which the definition (documentation label in the label linkbase) or standard label includes terminology identified in the SEC table, compare the sign for each amount in the XBRL data to the nature of the value of the corresponding business reporting concept in the source information.	CO4	The signs for the formatted amounts in the XBRL data of elements for which the definitions or standard labels includes terminology in the SEC table are consistent with the nature of the value of the corresponding business reporting concepts in the <i>[identify: source information]</i> [except for the following: <i>list elements and describe differences in signs</i>].
L	All text, dates, and uniform resource identifiers in the XBRL data are consistent with the underlying source information.	CO5	For text, dates, and uniform resource identifiers (URIs) tagged in the XBRL data, compare such information with the corresponding concepts in the source information.	CO5	No differences for text, dates, and URIs in the XBRL data as compared with <i>[identify source information]</i> were noted [except for the following elements: <i>list elements and describe differences</i>].
L (1)	Nil attribute ²⁹ is used only to convey business reporting concepts reported that have no amounts associated but are not zero (for example, commitments and contingencies).	CO6	For each business reporting concept in the source information that represents no value (associated with it) inspect whether the nil attribute for the corresponding element is set to true in the XBRL data.	CO6	Nil attributes were set to true in the XBRL data for each concept in the <i>[identify source information]</i> for which no value is associated [except for the following elements: <i>list elements</i>].

²⁹ A nil attribute is used only for elements in the XBRL data and presentation to convey business reporting concepts that have no amounts, text, dates, or uniform resource identifiers in the source information. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered and revised, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
		CO7	For each element in the XBRL data for which the nil attribute is set to true, identify those elements that represent business reporting concepts other than commitments and contingencies and preferred stock. ³⁰	CO7	For none of the elements in the XBRL data other than commitments and contingencies and preferred stock was the nil attribute set to true. Or Elements in the XBRL data other than commitments and contingencies and preferred stock for which the nil attribute is set to true include <i>[list elements]</i> .
M	Extension elements included in the XBRL data for monetary amounts include debit or credit balance attributes or documentation labels with an indication of the meaning of positive or negative values, when applicable, that are consistent with the nature of the business reporting concepts in the underlying source information.	CO8	For each line item in the XBRL data that has an extension element with a monetary type and a balance (debit / credit) attribute, compare the balance attribute to the nature of the business reporting concept in the source information.	CO8	No monetary type line item extension elements were noted that contain a balance attribute (or definition, as applicable) that is inconsistent with the nature of the business reporting concepts in the <i>[identify source information]</i> [except for the following elements: <i>list elements and describe differences from the source information</i>].

(continued)

³⁰ Management may specify other appropriate concepts for which the nil attribute would be set to true and modify this procedure to include such other appropriate concepts. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
			and not a balance (debit / credit) attribute, inspect the elements for a definition (that is, documentation label) that includes an indication of the meaning of a positive or negative value (for example, "A positive adjustment value indicates a net increase in accounts receivable") and compare such definition to the nature of the business reporting concept in the source information.		
M (1)	Extension elements included in the XBRL data for monetary amounts of balance sheet or income statement concepts include balance attributes (debit or credit) that are consistent with the nature of the underlying source information.	CO9	Identify the monetary type extension elements included in the XBRL data for monetary amounts presented in the balance sheet or income statement that do not include balance attributes. <i>[Procedure CO8 (first bullet), in combination with this procedure addresses this criterion.]</i>	CO9	No such items were noted for monetary amounts presented on the balance sheet and income statement that do not include balance attributes [except the following elements: <i>list extension elements and describe differences</i>]. <i>Also see findings for CO8.</i>

	Principles and Criteria		Procedure		Finding
N	The context periods ³¹ are consistent with the source information (for example, second calendar quarter 2012 is expressed as "2012-04-01 to 2012-06-30").	CO10	For each business reporting concept that appears on the face of the financial statements or in tables in the source information, compare the reporting period (implied and explicitly stated) to the corresponding context period in the XBRL data.	CO10	No differences were noted in the XBRL data relating to context periods for concepts appearing on the face of the financial statements or in tables in the <i>[identify source information]</i> [except for the following elements: <i>list elements and describe differences</i>].
		CO11	For business reporting concepts within narrative text (for example, in the notes), compare the "as of" or period dates in the source information to the dates ³² in the context period of the corresponding elements in the XBRL data. • For amounts with a period type of instant – if a date is specified in the notes (for example, "as of" or "on"), ascertain whether the date for the context period in the XBRL data is the date specified in the source information.	CO11	No differences were noted in the XBRL data relating to context periods for business reporting concepts included with narrative text in the <i>[identify source information]</i> [except for the following context periods: <i>list elements and describe differences</i>]

(continued)

³¹ Context periods for a roll-forward format use the same "instant" context for the beginning balance as for the ending balance of the previous period. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

³² Procedures may be tailored, as appropriate, for application to periods included in the source information in addition to those listed. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
			- if the month is specified (for example, March), ascertain whether the date for the context period in the XBRL data is the last day of that month. - if the quarter is specified (for example, in the second quarter), ascertain whether the date for the context period in the XBRL data is the end date for that quarter. ● For amounts that have a period type of duration - if the month is specified (for example, March), ascertain whether the date for the context period in the XBRL data is first and last day of the month. - if the quarter is specified (for example, in the second quarter), ascertain whether the date for the context period in the XBRL data is the first and last day of the quarter.		

	Principles and Criteria		Procedure		Finding
N (1)	The required DEI elements use the Required Context. ³³	CO12	Compare the contexts used in the XBRL data for DEI to those required by the SEC's EFM (sections 6.5.20 and 6.5.21) pertaining to DEI.	CO12	The context in the XBRL data used for DEI elements agreed with the context required by sections 6.5.20 and 6.5.21 of the SEC's EFM [except the following elements for which the context did not use the Required Context: <i>list elements</i>].
O	The decimal attribute values are consistent with the degree of accuracy of the amounts as represented in source information (for example, 23.5 million is rounded to the hundred thousandths).	CO13	For each amount in the XBRL data compare the value of the decimal attribute (for example, "-6") to the corresponding degree of accuracy represented in the source information.	CO13	No differences were noted between the decimal attribute values in the XBRL data and the degree of accuracy represented in the [identify source information] [except for the following decimal attributes in the XBRL data: <i>list elements and describe differences</i>].
P	The units defined in the XBRL data are consistent with the measurements represented in the source information (for example, U.S. dollars are defined as "iso4217:USD", as properly defined in XBRL Specification 2.1).	CO14	For each amount included in the XBRL data, compare the units (including custom units) to the standard list of units specified by the SEC (for example, in the International Organization for Standardization (ISO) currency codes, or the XBRL International Unit Registry).	CO14	No differences were noted in the units used in the XBRL data as compared to the standard list of units specified by the SEC [except for the following units in the XBRL data: <i>list elements and describe any differences</i>].
		CO15	For each amount included in the XBRL data, compare the units (including custom units) to the nature of the corresponding unit in the source information.	CO15	No differences were noted in the units used in the XBRL data as compared to the source information [except for the following units in the XBRL data: <i>list elements and describe any differences</i>].

(continued)

³³ The *Required Context* is defined in the EFM as the context when the dates cover the current reporting period and no segment or scenario information (that is, dimensional information) is included. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
Q	The entity identifier in the XBRL data properly represents the reporting entity [for example, central index key (CIK)] in accordance with the SEC requirements.	CO16	Compare the identifier(s) used in the XBRL data to the registrant's unique CIK code.	CO16	The CIK code used in the XBRL data agrees with the registrant's CIK code. Or The following <i>[identify CIK code(s)]</i> were used in the XBRL data that did not agree with the registrant's CIK code.
Q (1)	Only one CIK code is used throughout the XBRL data.	CO17	Search the contexts for the use of more than one CIK code in the XBRL data.	CO17	Only one CIK code was used in the XBRL data. Or The following <i>[identify CIK codes]</i> were used in the XBRL data.
R	The format and layout of the text block information are consistent ³⁴ with the format and layout of the content in the source information.	CO18	Compare the format and layout of the text block information in the XBRL data to the form and layout in the source information (for example, content, indentations, italics, bold, color, order).	CO18	No differences were noted in the format and layout of text block information in the XBRL data as compared to the <i>[identify source information]</i> [except for the following elements: <i>list elements and describe differences</i>].
S	The order and hierarchy (that is, arrangement of appropriate abstracts and line items) reflected in the presentation linkbase are consistent ³⁵ with the SEC's requirements.	CO19	Compare the order and hierarchy of the elements in the presentation linkbase with the source information.	CO19	No differences were noted in the order and hierarchy of the elements in the presentation linkbase as compared to the <i>[identify source information]</i> [except for the following: <i>list elements and describe differences</i>].

³⁴ The EFM requires the same format and layout in text blocks as in the source information. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

³⁵ When using dimensions to format information, it may not be possible to present this information in the same order and hierarchy (for example, transposed or intermingled axes for line items and domain members may occur). [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
T	Labels ³⁶ are consistent ³⁷ with the captions or meanings in the source information, as applicable.	CO20	Compare labels for line item elements (with no dimensions) reflecting business reporting concepts on the face of the financial statements or in tables in the source information to the captions in the source information Compare labels for all other tagged facts with the corresponding business reporting concept in the source information.	CO20	No differences other than those permitted ³⁸ were noted with the label information of elements appearing in the rendering as compared to the [identify source information] [except for the following: list elements and describe differences].
		CO21	Compare standard "en-US" labels used for each extension element in the XBRL data to the labels of other elements in the XBRL data and the standard taxonomy to ascertain whether duplicate standard English labels "en-US" are used.	CO21	No duplicate standard "en-US" labels were noted [except for the following extension elements: list elements with duplicate standard en-US labels].

(continued)

³⁶ Labels in the label linkbase under the SEC rules must be the same as the captions in the source information, including parenthetical information. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

³⁷ Consistent means the same as the printed captions in the source information, when required, or within the scope of variances otherwise permitted. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

³⁸ EFM 6.11.3 requires additional information be included in the label for certain elements within a presentation group to distinguish the units in those elements where the majority of the elements within the group use a different unit. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
T (1)	The appropriate label roles (in the label linkbase) are specified in presentation groupings and are consistent with the source information, as applicable. (For example, negated labels are used to reverse the sign of numeric values for presentation purposes.)	CO22	Compare the preferred label roles in the XBRL data with the presentation of the corresponding business reporting concept in the source information and the following requirements: ● For period type of "instant": - A Period Start label role was used when concepts were presented as a beginning of a roll forward (for example, cash balances) - A Period End label role was used when concepts were presented as an ending of a roll forward (for example, cash balances) ● Total label role must be used when representing concepts presented as a summation of other line items ● Negated label roles were used when necessary to reverse the sign of the numeric value for presentation purposes to correspond to the business reporting concept as presented in the source information.	CO22	No differences were noted for the preferred label roles as compared to the presentation of the corresponding business reporting concept in the source information and the label requirements [except for the following: <i>list elements and labels and describe differences</i>].

	Principles and Criteria		Procedure		Finding
U	Calculations reflected in the source information are included in the calculation linkbase in accordance with the SEC's requirements to the extent possible within the technical limitations ³⁹ of XBRL.	CO23	For those subtotals/totals that have two or more line items in the source information with amounts in the same context and within the dates represented by the period of the Required Context ⁴⁰ (no dimensional information), compare such relationships with the corresponding calculation relationship in the XBRL data.	CO23	No differences in the calculation relationships were noted in the XBRL data as compared to the source information [except for the following business reporting concepts: <i>list business reporting concepts and describe differences</i>].
Structure of the XBRL data — XBRL data are structured⁴¹ in accordance with the following listed criteria.					
V	Taxonomies, including versions, referenced in the XBRL data are permitted by the SEC's requirements.	S1	Compare the taxonomies used in the XBRL data to the list of permitted taxonomies at www.sec.gov/info/edgar/edgartaxonomies.shtml .	S1	We noted that the taxonomy(ies) used in the XBRL data is (are) permitted according to the SEC website. Or We noted that the taxonomy(ies) used in the XBRL data is (are) not permitted according to the SEC website.
W	Presentation groupings are consistent with the titles and order of the components of the underlying source information and in accordance with the SEC's requirements.		<i>Procedures S2 and S3, listed subsequently, address this criterion</i>		<i>See findings under S2 and S3.</i>

(continued)

³⁹ Due to current limitations of XBRL, calculations cannot be performed across different contexts; accordingly, it is currently not possible to include such calculations in the XBRL data. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered and revised, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

⁴⁰ See definition of Required Context in footnote 33. Although not required, additional calculations outside of the required context are permitted. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

⁴¹ It is beyond the scope of these principles and criteria to include all applicable rules, regulations and technical requirements related to the intended purpose of the XBRL submissions. Notwithstanding, preparers are responsible for identification of and compliance with all of the SEC's requirements and a preparer may choose to request that a practitioner perform procedures with respect to such requirements. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
W (1)	Separate note presentations groupings (base sets) are created for each required level (I, II, III, and IV) and ordered in accordance with the SEC's requirements	S2	Compare the existence and order of the base sets in the presentation linkbase to the financial statement and note whether they appear in order of the source information and the ordering requirements as described in the SEC's EFM (section 6.7.12) as follows: 1. Each financial statement followed by a base set for the parentheticals within the statement [<i>in order of statements</i>] 2. Notes (text block) [<i>order of notes</i>] 3. Schedules (text block) 4. Significant accounting policies (policies) 5. Notes (tables) 6. Notes (detail) 7. Schedules (detail)	S2	The order of the presentation base sets in the presentation linkbase agreed to the [<i>identify source information</i>] and the EFM requirements [except for the following base sets: <i>list base sets and describe differences</i>].
W (2)	Titles of presentation groupings are in accordance with the SEC's formatting requirements.	S3	Compare base set titles (role type definition link) in the presentation linkbase to the SEC formatting requirements ⁴² for the following: 1. Formatting pattern: {SortCode} - {Type} - {Title} (for example: 01 - Statement - Statement of Income) 2. Titles of statements and notes in the source information	S3	No differences were noted with respect to the base set titles [except the following: <i>list base sets and describe how they did not conform to or agree with the SEC formatting requirements</i>].

⁴² This is not a complete list of all SEC formatting requirements. Refer to EFM for requirements. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
X	The entity scheme (for example, www.sec.gov/CIK) for each context throughout the XBRL data is in accordance with the SEC's requirements.	S4	For each context, compare the entity scheme to http://www.sec.gov/CIK .	S4	We noted that the entity scheme http://www.sec.gov/CIK was used in all contexts [except for the following: <i>list contexts and describe differences</i>].
Y	New table structures are only created when no suitable table structure exists in the applicable standard taxonomy's definition linkbase.	S5	Compare the table structures in the definition linkbase (that is, table, axis, domain member, line item) to the predefined table structures ⁴³ in the standard taxonomy's definition linkbase.	S5	No new table structures were created when a suitable table structure existed [except for the following: <i>list contexts and describe differences</i>]. No differences were noted in table structures as compared to the predefined table structures in the [specify taxonomies] [except for the following tables: <i>list tables and describe differences</i>].
Z	The names of extension elements contain no prohibited information.		<i>Procedure S6, in the following row, addresses this criterion.</i>		<i>See findings under S6.</i>
Z (1)	The names of extension elements (excluding domain members) do not include company- or period-specific information.	S6	Search the element name of each extension element (excluding domain members) for company or period specific information within the element name.	S6	No such elements were noted that have company or period specific information within the element name [except for the following elements: <i>list elements and describe differences</i>].

(continued)

⁴³ Dimensional structures in the definition linkbase of the standard taxonomy contain ordered combinations of tables, axes, line items, and domain members. Definition linkbases for extension taxonomies should include dimensional structures from the standard taxonomy's definition linkbase when they exist. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

	Principles and Criteria		Procedure		Finding
AA	The XBRL data include all files required by the SEC (for example, an instance, schemas and linkbases).	S7	Inspect the XBRL data to ascertain whether there is only one of each of the following files ⁴⁴ included: ● Instance document or HTML, as appropriate⁴⁵ ● Presentation linkbase ● Label linkbase ● Calculation linkbase ● Schema ● Definition linkbase	S7	Only one of each of the required files was included. Or The following files were missing: <i>[list files]</i> Or Multiple schema files were included.
BB	The language of the information in the XBRL data uses a permitted (or required) language (for example, English).		<i>Procedures S8 and S9, in the following rows, address this criterion.</i>		<i>See findings under S8 and S9.</i>
BB (1)	Elements must include fact values and labels expressed in U.S. English.	S8	For each fact in the source information in a language other than U.S. English, ascertain whether the corresponding formatted information in the XBRL data has values and labels expressed in U.S. English.	S8	No items were noted in which business reporting concepts in the source information in a language other than U.S. English were not formatted in the XBRL data with values and labels expressed in U.S. English [except for the following concepts: <i>list concepts and describe differences</i>].
		S9	Search extension elements in the XBRL data for any that do not have a standard English "en-US" label.	S9	No elements were noted in the XBRL data that did not have a standard "en-US" label [except for the following elements: <i>list elements and describe differences</i>].

[Paragraph renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Paragraph renumbered and revised, June 2020, to reflect conforming changes necessary due to the issuance of SSAE No. 19 and to reflect revised SEC requirements and updates to XBRL technology.]

⁴⁴ Although the EFM permits multiple linkbases and schema files, in most cases there will only be one included with the submission. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered, June 2020, to reflect revised SEC requirements and updates to XBRL technology.]

⁴⁵ Filers submitting an Inline XBRL document are not required to submit a separate instance document. [Footnote added, June 2020, to reflect revised SEC requirements.]

Appendix E — Illustrative Agreed-Upon Procedures Report

The following is an illustrative practitioner's report for an agreed-upon procedures engagement described in this SOP (agreed-upon procedures that address the completeness, mapping, consistency, or structure of an entity's XBRL-formatted financial statements [and related notes] and required schedules submitted as an exhibit to the SEC). It is illustrative only and is not intended to be applicable to, or comprehensive for, all engagements. A practitioner should tailor the report to the specific facts and circumstances of each engagement.

Independent Accountant's Report on Applying Agreed-Upon Procedures

To Management and the Audit Committee of XYZ Company:

We have performed the procedures enumerated in Attachment A on XYZ Company's XBRL data related to the [identify source information and period]^[1] (for example, the Company's [Quarterly or Annual] Report on Form [10-K or 10-Q] for the period ended [identify date] to be submitted to the U.S. Securities Exchange Commission [SEC])). XYZ Company's management is responsible for its XBRL data.

XYZ Company's management has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of assisting you in evaluating the completeness of the XBRL data, mapping of the source information to the XBRL data, consistency of the XBRL data with the source information, and structure of XYZ Company's XBRL data. The procedures performed may not address all of the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

[Additional explanatory language may be added, such as the following:²

The procedures performed do not address all of the SEC's requirements for XBRL submissions.

The XBRL data and source information may be updated prior to submitting to the SEC, therefore, the findings in this report may not correspond to the final XBRL data submitted.]

The findings relating to the procedures are included in Attachment A.

We were engaged by XYZ Company's management to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the XBRL data. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

^[1] [Footnote deleted, June 2020, to reflect revised SEC requirements.]

² Refer to paragraph .37 of this SOP for additional examples. [Footnote renumbered, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

We are required to be independent of XYZ Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

[Optional paragraph if the practitioner considers it necessary to restrict the use of the report:]

This report is intended solely for the information and use of the audit committee and management of XYZ Company and is not intended to be and should not be used by anyone other than these specified parties.

[Additional paragraphs may be added to describe other matters.]

[Signature]

[City and state where the practitioner's report is issued]

[Date]

[Include as an attachment an enumeration of the procedures and findings.]

[Paragraph renumbered and revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Paragraph renumbered and revised, June 2020, to reflect conforming changes necessary due to the issuance of SSAE No. 19 and to reflect revised SEC requirements and updates to XBRL technology.]

Appendix F — Glossary

abstract. An attribute of an element to primarily indicate that the element is used only in a hierarchy to group related elements together or to provide headings in a rendering. An abstract element cannot be used to tag data in an instance document.

attribute. A property of an element that indicates the kind of data that can be tagged to the concept, such as its data type, period type, and whether the element is abstract.

axis (pl. axes). An instance document contains facts; an axis (and domain member) differentiates facts, and each axis represents a way the facts may be classified. For example, revenue for a period might be reported along a business unit axis, country axis, product axis, and so forth.

balance type. An attribute of a monetary item type designated as debit or credit; a designation, should be the natural or most expected balance of the element — credit or debit — and, thus, indicates how calculation relationships involving the element may be assigned a weight attribute (–1 or 1), as well as how numbers should be entered into the instance document.

calculation linkbase. A taxonomy file that defines weighted summation, aggregating relationships between numeric items expressed as parent-child hierarchies.

caption. Explanatory text provided to describe facts presented in a report.

context. Entity- and report-specific information (reporting period, segment information, and so forth) required by eXtensible Business Reporting Language (XBRL) that allows tagged data to be understood in relation to other information.

decimal. Fact attribute used to express the number of decimal places to which numbers have been rounded.

deprecated element. An element within a taxonomy that has been declared not to be used in instance documents for various reasons (for example, superseded, redundant, or incorrect).

domain. An element that represents an entire set of other elements that are used to further describe line items; the domain and its members are used to classify facts along the axis of a table. For example, "Arkansas" could be a domain member in the domain "States" and would be used to classify elements, such as revenues and assets, in Arkansas as distinct from other states. When a fact does not have any domain member specified, that means it applies to the entire domain.

domain member. An element representing one of the classifications within a domain. A domain member categorizes the information to which it is applied.

element. An XBRL component, such as a line item, domain member, and dimension (a dimension is called an axis in the U.S. GAAP Taxonomy). The representation of a business reporting concept, including line items in the face of the financial statements, important narrative disclosures, and rows and columns in tables are all examples of elements in a taxonomy. The terms *concept*, *element*, and *tag* (noun) are often used interchangeably in XBRL.

element definition. A description of a reporting concept, most commonly a documentation label in the label linkbase.

extension element. An element that is created in an extension taxonomy to define business reporting concepts that have not previously been defined in a standard taxonomy.

extension taxonomy. A taxonomy in which users can add additional entity-specific elements and indicate additional relationships to a standard taxonomy in order to define business reporting concepts or element relationships and aspects (presentation, calculation, labels, and so forth) to reflect their own unique reporting characteristics.

fact. The occurrence of an amount or other information tagged in an instance document by a taxonomy element or combination of elements.

formatted information. Information represented using XBRL and included in one or more electronic files. Commonly referred to as tagged data or structured data.

hierarchy. An organizational treelike structure to present relationships between elements (such as order and indentation of elements in linkbases).

instance or instance document. A file that contains business reporting information and represents a collection of business facts and report-specific information using elements from one or more XBRL taxonomies.

label. Name or description for an element for presentation purposes; under the SEC mandate, for example, each element has, at a minimum, a standard label in U.S. English (such as, cash and cash equivalents) and is unique across the taxonomy.

label type. A distinguishing name for each distinct label indicating the circumstances in which it should be used; each is given a separate defining role to use in different presentation situations (for example, beginning, ending, and so forth).

line item. Elements that conventionally appear on the vertical axis (rows) of a table or columnar presentation. Line items represent the primary business reporting concepts of tagged data in the instance document.

linkbase. A taxonomy file that contains additional defining information and relationships for taxonomy elements. The primary taxonomy linkbases in XBRL are calculation, definition, label, presentation, and reference.

mapping. Process of identifying the elements that correspond to lines, columns, and tables in the source information to elements in the taxonomy.

name. An attribute that uniquely identifies an element in a schema.

namespace. Every element is associated with a universal resource identifier that may identify the organization that maintains the taxonomy. In the 2012 US GAAP Financial Reporting Taxonomy, namespaces start with <http://xbrl.fasb.org/us-gaap/2012>.

negated label. A negated label is a special label type that can be referenced in the presentation linkbase. A negated label role is a convention used to indicate that the sign for a tagged amount should be reversed when presented in a rendering.

- nil.** An attribute of an element that, when marked as "true" in an instance document, reflects a concept tagged without a value.
- period type.** An attribute of an element that reflects whether it is reported as a point in time (an instant) or period of time (duration).
- presentation linkbase.** A taxonomy file that defines presentation order of elements in the taxonomy. The presentation linkbase also suggests which label type should be used at each point of presentation.
- render or rendering.** To process an instance document into a layout that facilitates readability and understanding of its contents.
- scaling.** A process that automatically adjusts numeric data to present a specific format, thus saving time of entering zeros during the entry or creation process. The XBRL specification does not support the scaling of numeric values (all values must be reported in their entirety); however, it is a feature commonly found in instance document creation software.
- segment.** Tag that allows additional information to be included in the context of an instance document; this information captures segment information, such as an entity's business units, type of debt, and type of other income.
- sign value.** Denotes whether a numeric fact in an instance has an implied positive (no sign) or a negative (–) value.
- source information.** The information (which may be in electronic format) that is to be formatted in XBRL (for example, financial statements, including the notes, and required schedules; sustainability reports; or the "Risk/Return Summary" section of the mutual fund prospectuses).
- table.** Generally, a presentation of rows and columns also known as a hypercube. In the presentation linkbase, an element that organizes a set of axes and set of line items to indicate that each fact of one of the line items could be further characterized along one or more of its axes. For example, if a line item is "Sales," and an axis is "Scenario," this means that an instance document could have facts that are either for an unspecified scenario or a specific scenario, such as "forecast."
- tag (noun).** The terms *element* and *tag* are often used interchangeably in XBRL. The tag is the structure that brings together the content being tagged with the associated element from the taxonomy and additional attributes to related contexts, units, and other information.
- tag (verb).** To apply tags to business reporting concepts.
- taxonomy(ies).** Electronic "dictionary" of elements used to report business data, their definitions, and interrelationships.
- transformation.** A format attribute used for Inline XBRL purposes that converts data from a written format to an XBRL format. If required, fact values like dates, times, ordinal and text numbers must be translated into XBRL using transformations.
- type or data type.** Attribute that defines type (for example, monetary, string, share, decimal) of data that an element represents.
- unit of measure.** The units in which numeric items have been measured, such as U.S. dollars (iso4217:USD); shares (xbrli:shares); euros (iso4217:EUR); or compound units, such as U.S. dollars per share.

validation. Process of checking that instance documents and taxonomies correctly meet the rules of the XBRL specification and certain requirements of the entity's reporting environment.

XBRL data. Data that may include embedded tags in an HTML document, instance document, taxonomy extension schema, label linkbase, calculation linkbase, presentation linkbase, and definition linkbase documents (or other linkbases)

XBRL footnote link. Additional information that is attached to an element used to tag information in superscript footnotes.

[Revised, June 2020, to reflect revised SEC requirements and updates to XBRL technology. Paragraph renumbered, June 2020, to reflect conforming changes necessary due to the issuance of SSAE No. 19.]

AUD Section 60***Statement of Position 17-1 — Performing Agreed-Upon Procedures Related to Rated Exchange Act Asset-Backed Securities Third-Party Due Diligence Services as Defined by SEC Release No. 34-72936***

October 2017; deleted by the issuance of SOP No. 21-1, June 2021.

NOTE

In December 2019, the AICPA Auditing Standards Board issued Statement on Standards for Attestation Engagements (SSAE) No. 19, *Agreed-Upon Procedures Engagements*, which supersedes AT-C section 215 of SSAE No. 18, *Attestation Standards, Clarification and Recodification*, and amends certain provisions of AT-C section 105, *Concepts Common to All Attestation Engagements*. SSAE No. 19 is effective for agreed-upon procedures reports dated on or after July 15, 2021, with early implementation permitted. SOP 17-1 has been revised to reflect the changes to agreed-upon procedures engagements introduced by SSAE No. 19 and is now being issued as SOP 21-1, *Performing Agreed-Upon Procedures Related to Rated Exchange Act Asset-Backed Securities Third-Party Due Diligence Services as Defined by SEC Release No. 34-72936* (AUD section 65).

AUD Section 65***Statement of Position 21-1 — Performing Agreed-Upon Procedures Related to Rated Exchange Act Asset-Backed Securities Third-Party Due Diligence Services as Defined by SEC Release No. 34-72936***

June 2021

NOTE

This AICPA Statement of Position (SOP) has been developed by the Asset-Backed Securities Agreed-Upon Procedures Task Force of the AICPA Auditing Standards Board (ASB) to provide guidance to practitioners regarding the application of Statements on Standards for Attestation Engagements (SSAEs) to agreed-upon procedures (AUP) attestation engagements related to third-party due diligence services performed in connection with rated asset-backed securities (ABS) issued in accordance with the Securities Exchange Act of 1934, as amended (Exchange Act), as those services are defined in the SEC rules as amended or adopted by SEC Release No. 34-72936, *Nationally Recognized Statistical Rating Organizations*, and the accompanying text (the release).

An attestation SOP is recognized as an interpretive publication as described in AT-C section 105, *Concepts Common to All Attestation Engagements*. Interpretive publications are recommendations on the application of SSAEs in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of the ASB after all ASB members have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with the SSAEs, commonly referred to as the attestation standards. The members of the ASB have found this SOP to be consistent with the attestation standards. Although interpretive publications are not attestation standards, AT-C section 105 requires the practitioner to consider applicable interpretive publications in planning and performing an attestation engagement because interpretive publications are relevant to the proper application of the SSAEs in specific circumstances.

When applying SSAE No. 19, *Agreed-Upon Procedures Engagements*, in an agreed-upon procedures engagement that addresses rated Exchange Act asset-backed securities third-party due diligence services as defined by SEC Release No. 34-72936, this SOP supersedes SOP 17-1, *Performing Agreed-Upon Procedures Related to Rated Exchange Act Asset-Backed Securities Third-Party Due Diligence Services as Defined by SEC Release No. 34-72936*.

Why SOP 17-1 Has Been Superseded

In December 2019, the AICPA Auditing Standards Board issued Statement on Standards for Attestation Engagements (SSAE) No. 19, *Agreed-Upon Procedures Engagements*, which supersedes AT-C section 215 of SSAE No. 18, *Attestation Standards, Clarification and Recodification*, and amends certain provisions of AT-C section 105, *Concepts Common to All Attestation Engagements*. SSAE No. 19 is effective for agreed-upon procedures reports dated on or after July 15, 2021, with early implementation permitted. SOP 17-1 has been revised to reflect the changes to agreed-upon procedures engagements introduced by SSAE No. 19 and is now being issued as SOP 21-1.

Introduction and Background

.01 This Statement of Position (SOP) provides practitioners with guidance and considerations for performing agreed-upon procedures (AUP) engagements related to rated asset-backed securities (ABS) issued in accordance with the Securities Exchange Act of 1934, as amended (Exchange Act), when those AUP engagements fall within the definition and scope of *third-party due diligence services* (hereinafter referred to as "covered services") as defined in the SEC rules as amended or adopted by SEC Release No. 34-72936, *Nationally Recognized Statistical Rating Organizations*, and the SEC Release No. 34-72936 accompanying text (the release). The release adopts SEC Rules 17g-10 and 15Ga-2; amends Form ABS-15G, *Asset-Backed Securitization Report Pursuant to Section 15G of the Securities Exchange Act of 1934*; provides nonauthoritative narrative on the rule changes; and adds Form ABS Due Diligence-15E, *Certification of Provider of Third-Party Due Diligence Services for Asset-Backed Securities* (Form 15E).

.02 This SOP addresses the following topics when the practitioner is engaged to perform covered services in accordance with Statements on Standards for Attestation Engagements (hereinafter referred to as "the attestation standards"):

- a. AUP engagements and related professional standards
- b. Applicability of this SOP
- c. ABS terminology
- d. Preconditions for an agreed-upon procedures engagement
- e. Agreeing on the terms of the engagement
- f. Subject matter and procedures to be performed
- g. Reporting considerations
- h. Written representations
- i. Effective date

.03 Practitioners have commonly performed AUP engagements related to securitization transactions. Generally, securitization transactions are structured financings in which the cash flows and related risks (for example, credit, prepayment, and liquidity risk) of a pool of financial assets are redistributed by the issuance of new securities backed by the same financial asset or pool of financial assets. The securities are commonly referred to as ABS.

.04 In 2014, the SEC issued the release with an effective date of June 15, 2015, for third-party due diligence services. In response to the SEC's initial proposal, commenters noted that relevant AUP engagements performed by practitioners generally include one or more of the following procedures:

- a. Comparing a loan tape (data file) to the loan file, other sources, or both
- b. Recalculating projected future cash flows of the securitized assets and the ABS
- c. Performing procedures that address other information included in the ABS offering document(s)

.05 In the release, the SEC states that "comparing the information on a loan tape with the information contained on the hard-copy documents in a loan file is an activity that falls within the definition of due diligence services in Rule 17g-10 because the work undertaken involves reviewing the accuracy of the information or data about the assets provided, directly or indirectly, by the securitizer or originator of the assets." In this SOP, these procedures are referred to as "covered services" and the practitioner's AUP report that includes these covered services is referred to as the "covered services report."

.06 In the release, the SEC indicates that the procedures set forth in items (b) and (c) in paragraph 4 of this SOP performed as part of an AUP engagement and for the purpose referenced in the release are not commonly understood as being due diligence services. Accordingly, such services are not covered services and, therefore, are not within the scope of this SOP.

.07 When a practitioner performs covered services and issues a covered services report, Rule 17g-10 and the related release identify the following requirements and conditions:

- a. The issuer, sponsor, or underwriter of any rated ABS will make publicly available the findings and conclusions of any covered services report obtained by the issuer, sponsor, or underwriter. The release indicates that the disclosure of the findings and conclusions includes, but is not limited to, disclosure of the criteria against which the assets were evaluated, and how the evaluated assets compare to those criteria, along with the basis for including any assets not meeting those criteria. This is accomplished by the issuer, sponsor, or underwriter including such information in a Form ABS-15G, which the issuer, sponsor, or underwriter is required to furnish to the SEC through the Electronic Data Gathering, Analysis, and Retrieval (EDGAR) system at least five business days before the first sale of the rated ABS (assumed to be the pricing date).
- b. Any provider of covered services is required to complete Form 15E. Form 15E requires information about the covered services performed (Item 4 of Form 15E) and a summary of findings and conclusions that resulted from the covered services (Item 5 of Form 15E). The instructions for completing Form 15E allow the practitioner to provide the requested items on the form or by referring to the attached practitioner's report. Therefore, practitioners may be submitting either Form 15E as a stand-alone form with its contents completed, or Form 15E with the attached practitioner's report as a combined submission.
- c. The release indicates that the covered services provider will have been deemed to have met its obligation by providing Form 15E in the following ways: (a) in response to a written request from a nationally recognized statistical rating organization (NRSRO), if received; or (b) to the issuer, sponsor, or underwriter of the securitization maintaining the Rule 17g-5 website, as described in

paragraph (a)(3)(iii) of Rule 17g-5 (Rule 17g-5 website). The issuer, sponsor, or underwriter of the securitization is then required to post Form 15E to the Rule 17g-5 website. The purpose of the Rule 17g-5 website is to make information related to rated ABS transactions accessible to all NRSROs.

- d. When the NRSRO produces a credit rating, it must publicly disclose each Form 15E that was posted to the Rule 17g-5 website for the related ABS.

.08 A practitioner is not permitted to prohibit, or require consent for, the inclusion of the procedures or findings, or both, contained in the covered services report that will be disclosed in Form ABS-15G and Form 15E. In this situation, such information must be provided to the SEC through the EDGAR system (for Form ABS-15G) and posted to the Rule 17g-5 website for access by the NRSROs (for Form 15E). In this regard, paragraph .A68 of AT-C section 215 recognizes that law or regulation may require that a practitioner's report be made available to the public as a matter of public record. In addition, the report may be distributed in other scenarios as described in the release (for example, upon a written request by an NRSRO).

AUP Engagements and Related Professional Standards

.09 Paragraph .09 of AT-C section 215 states, "In performing an agreed-upon procedures engagement, the practitioner should comply with this section, AT-C section 105, and any subject-matter section that is relevant to the engagement." This SOP includes guidance and considerations to assist practitioners in applying certain aspects of AT-C sections 105 and 215 to covered services engagements. Although not all of the provisions of AT-C sections 105 and 215 are discussed in this SOP, all of the provisions of those AT-C sections are applicable to such engagements.

Applicability of this SOP

.10 This SOP has been developed to provide practitioners with guidance and considerations regarding the application of the attestation standards to engagements in which a practitioner is engaged to issue or does issue an AUP covered services report.

.11 Nothing in this SOP precludes the practitioner from performing other attestation services for the same ABS transaction, for example, performing an AUP engagement that is not considered to be covered services (hereinafter referred to as "noncovered services"). An example of a noncovered service is performing AUP related to the ABS offering document that are not related to due diligence.

.12 Although a practitioner may be engaged to perform both covered services and noncovered services, and report on each type of service separately, the guidance in this SOP is only required to be considered by a practitioner for the covered services portion of the engagement. Although not required, a practitioner may consider the guidance in this SOP and its applicability when performing a noncovered services AUP engagement in connection with an ABS transaction.

ABS Terminology

.13 Appendix C, "Glossary," of this SOP contains definitions of common terms used in AUP engagements related to covered services.

Preconditions for an Agreed-Upon Procedures Engagement

.14 In order to establish that the preconditions for an AUP engagement are present, the practitioner should determine that the following preconditions, in addition to the preconditions identified in paragraphs .26–.30 of AT-C section 105, are present:

- The practitioner determines that procedures can be designed, performed, and reported on in accordance with AT-C section 215.
- The engaging party agrees, or will be able to agree, to the procedures and acknowledges that the procedures are appropriate for the intended purpose of the engagement.
- The procedures to be applied to the subject matter are expected to result in reasonably consistent findings.
- When applicable, the practitioner agrees to apply a threshold for reporting exceptions established by the engaging party.

For engagements related to covered services, certain additional conditions, such as the following, are relevant to the engagement:

- Whether the engaging party and the practitioner have the appropriate knowledge of the relevant SEC rules and regulations (for example: Form ABS-15G, Form 15E)
- Whether the engaging party, or another appropriate party, will agree to have Form 15E posted on the applicable Rule 17g-5 website after the practitioner completes and signs Form 15E and provides it to the engaging party or another appropriate party
- Whether adequate time will be provided to perform the procedures and promptly provide Form 15E¹

.15 Additionally, the practitioner is required to be independent of the responsible party in the performance of professional services as required by standards promulgated by bodies designated by [AICPA] Council, under the "Independence Rule" (ET sec. 1.200.001) of the AICPA's Code of Professional Conduct and its interpretations, as modified by the "Application of the Independence Rule to Engagements Performed in Accordance With Statements on Standards for Attestation Engagements" interpretation (ET sec. 1.297.010), and in accordance with the "Agreed-Upon Procedure Engagements Performed in Accordance With SSAEs" interpretation (ET sec. 1.297.020). If the engaging party is not the responsible party, the practitioner need not be independent of the engaging party. However, the practitioner is required to consider the "Conflicts of Interest for Members in Public Practice" interpretation (ET sec. 1.110.010) of the "Integrity and Objectivity Rule" (ET sec. 1.100.001), with regard to any relationships that may exist with the engaging party.

¹ Page 350 of the release states, "a person employed to provide third-party due diligence services can meet its statutory obligation to provide the written certification relating to those services to any NRSRO that produces a credit rating to which such services relate by promptly responding to a written request from an NRSRO for the executed Form ABS Due Diligence-15E and promptly delivering the Form ABS Due Diligence-15E to the issuer, sponsor, or underwriter of the security or money market instrument that maintains the relevant Internet website pursuant to Rule 17g-5."

Agreeing on the Terms of the Engagement

.16 Paragraph .14 of AT-C section 215 requires that the practitioner agree upon the terms of the engagement with the engaging party in sufficient detail in an engagement letter or other suitable form of written agreement. Paragraph .15 of AT-C section 215 identifies the matters that are required to be included in the written agreement.

.17 Paragraph .22 of AT-C section 215 requires the practitioner to obtain, prior to the issuance of the practitioner's AUP report, a written agreement of the procedures, and acknowledgment from the engaging party that the procedures performed are appropriate for the intended purpose of the engagement. Paragraph .A35 of AT-C section 215 indicates that this agreement may be documented in the engagement letter, an addendum to the engagement letter, a representation letter, or some other form of written communication. Paragraphs .A13–.A14 of AT-C section 215 identify a situation in which all intended users of the practitioner's report ordinarily would be asked to agree to the procedures and acknowledge that the procedures performed are appropriate for their purposes (see paragraph .23 of this SOP).

.18 A factor to consider in determining whether to accept an ABS AUP engagement is whether the practitioner will have sufficient time to complete the covered services. The release requires an issuer, sponsor, or underwriter to furnish Form ABS-15G to the SEC through the EDGAR system at least five business days prior to the first sale of the offering.² Because the findings of the practitioner's AUP (for procedures determined to be covered services performed prior to the first sale of the offering) are to be included within Form ABS-15G, the practitioner may determine from the engaging party during engagement acceptance when the engaging party expects the covered services report to be provided by the practitioner.

.19 Although AT-C section 215 does not require the practitioner to enumerate the procedures in an engagement letter or other suitable form of written agreement, in a covered services engagement, it may be efficient to do so because

- the engagement is performed quickly due to the nature of security issuance as described in paragraph .18 of this SOP.
- it is unlikely that there will be a significant evolution of, or change to, the procedures because they are based on market practice for the type of asset being securitized and are therefore fairly standardized.
- obtaining agreement to the procedures before the work has begun helps to eliminate misunderstanding regarding the procedures to be performed.

.20 In addition to the items listed in paragraph .12 of AT-C section 215, other matters that may be relevant when agreeing on the terms of the engagement with the engaging party may include the following:

- The securitized assets, other ABS characteristics, or both, subject to the covered services (the characteristics) and the source documents against which the practitioner will compare such characteristics

² Page 649 of the release describes Rule 15Ga-2, which states, in part, "... the Commission has decided to adopt, as proposed, the requirement that an issuer or underwriter must furnish Form ABS-15G at least five business days prior to the first sale in the offering."

- Whether the procedures are limited to a sample of assets and, if so,
 - the number of assets to be selected for testing,
 - how the assets are to be selected, and
 - who will select the assets
- That the covered services report does not include an expression of an "opinion" or "conclusion," as described in items (o)–(p) of paragraph .34 of AT-C section 215
- The type of information to be provided to the specified parties, other than the covered services report, if any, that would be considered an "interim report" (for which the implications of use are described in the release)
- That the covered services report and practitioner may not be referred to in an unauthorized manner (for example, referred to in the ABS offering document)
- The party responsible for posting Form 15E on the applicable Rule 17g-5 website or equivalent (for example, Electronic Municipal Market Access [EMMA] for municipal securities; see paragraph 63 of this SOP regarding municipal issuers of rated ABS) (the underwriter, rather than the engaging party or responsible party, as appropriate, may be responsible for Form ABS-15G and Form 15E requirements)
- How the description of the procedures performed and any related findings will be included in Form ABS-15G
- Identification by the engaging party or responsible party, as applicable, of personally identifiable information and other information that is deemed to be confidential in nature (collectively referred to as "sensitive information" for the purpose of this SOP) and how, or if, such information will be disclosed in the covered services report, Form ABS-15G, or Form 15E
- If applicable, that any covered services are not intended to satisfy any criteria for due diligence published by an NRSRO
- The amount of time that will be necessary to complete the covered services and the date the practitioner expects to deliver the covered services report to the engaging party
- If applicable, that the covered services report is not intended for distribution to parties other than those specified in the report, when the report is included or referenced in Form ABS-15G or Form 15E (see paragraph .52 of this SOP)
- If applicable, that the covered services report is intended solely for the information and use of the specified parties and is not intended to be, and should not be, used by anyone other than the specified parties that may have access to the covered services report (for example, a rating agency or investor) (see paragraph .50 of this SOP)
- If applicable, which of the AUP performed by the practitioner are considered covered services (see paragraph .12 of this SOP)
- If the engaging party is not the responsible party, that the responsible party will provide any written representations requested by the practitioner

.21 In ABS transactions covered by this SOP, the determination of the responsible party can be complex and may require professional judgment. ABS transactions include different asset classes, different structural arrangements, and multiple parties participating in the transaction, commonly a sponsor, loan seller, depositor, issuing entity, and underwriter. In addition, such parties may be acting as a principal or agent on behalf of other parties to the transaction based on the transaction agreements. When the engaging party may not be the responsible party, careful consideration is needed in determining who will be deemed the responsible party. Gaining an understanding of the roles and responsibilities of the parties to the transaction may be helpful in identifying the responsible party. Reading draft legal agreements and ABS offering document(s), holding discussions with relevant parties, and considering the roles and responsibilities of the responsible party identified in paragraph .08 of AT-C preface, "Preface to the Attestation Standards," may further assist in identifying the responsible party. Furthermore, the definition of *responsible party* in AT-C section 105 indicates that the responsible party is the party responsible for the subject matter, which is a party other than the practitioner. If the nature of the subject matter is such that no such party exists, a party who has a reasonable basis for making a written assertion about the subject matter may be deemed to be the responsible party. Therefore, although the practitioner is not required to obtain an assertion from the responsible party, requesting or obtaining an assertion may assist the practitioner in determining who the responsible party is. For example, the responsible party (the appropriate party to make an assertion, if an assertion were requested) may be the party who owns the loans at the time of the performance of the procedures (e.g., loan seller, sponsor) or the depositor or issuer of the securities or purchaser of the loans. Practitioners may come to different conclusions as to which party is deemed to be the responsible party, based on the particular circumstances and the practitioner's professional judgment.

Subject Matter and Procedures to Be Performed

.22 Paragraph .02 of AT-C section 215 states in part, "Because the needs of an engaging party may vary widely, the nature, timing, and extent of the agreed-upon procedures and findings may vary, as well." Paragraph .03 of AT-C section 215 states in part, "Because the engaging party best understands its own needs, the engaging party is required to agree to the procedures and acknowledge that the procedures performed are appropriate for the intended purpose of the engagement prior to issuance of the practitioner's agreed-upon procedures report. Engagement circumstances may be such that it is appropriate for parties in addition to the engaging party to agree to the procedures and acknowledge that the procedures performed are appropriate for their purposes."

.23 AT section 215 does not require that any users of the practitioner's report in addition to the engaging party agree to the procedures performed and acknowledge the appropriateness of the procedures for the purpose of the engagement (or for their purposes). However, paragraph .A13 of AT-C section 215 indicates that if a contract requires that an AUP engagement be performed to satisfy the obligations or expectations of the parties to the contract, unless the procedures, or a detailed description of the nature of the procedures, are included in the contract, all intended users of the practitioner's AUP report ordinarily would agree to the procedures and acknowledge that the procedures performed are appropriate for their purposes. Paragraph .A14 of AT-C section 215 indicates that an example of this situation is a practitioner engaged to

perform procedures relating to a securitization transaction. Paragraph .A14 goes on to state that, in such circumstances, the practitioner and engaging party may identify other parties, such as underwriters, to request to agree to the procedures and acknowledge that the procedures performed are appropriate for their purposes. Based on paragraphs .A13–.A14 of AT-C section 215, when performing covered services, the practitioner ordinarily would request that all intended users of the practitioner's AUP report also agree to the procedures and acknowledge that the procedures performed are appropriate for their purposes. The following are examples of factors to consider in determining whether and which parties other than the engaging party would be asked to agree to the procedures in a covered services engagement:

- The fact that it is market practice to do so
- The role of the other parties — for example, an underwriter, asset contributor, or trustee — such that it is appropriate and expected to obtain agreement from other intended users
- The nature and extent of the procedures
- The nature of the subject matter; for example, type or source of loan attributes included in the data file

.24 Covered services are typically performed as of a specified date on either a sample or on the entire pool of financial assets that will be securitized. The specifics of date and population are to be determined by the engaging party and, if applicable, the other specified parties.

.25 The characteristics subjected to the covered services procedures are agreed upon by the engaging party and, if applicable, other specified parties. In a covered services engagement, the practitioner has no responsibility to determine whether the characteristics have implications for the future performance of the assets, underwritten value of the assets, credit quality of the assets, likelihood of return to investors, or any other implications related to the assets or the related asset-backed securities.

.26 In most cases, the intended purpose of covered services is principally to assist users of the report in assessing the accuracy of the data file. The procedures performed by the practitioner generally consist of comparing information about the assets contained in a data file provided by, or on behalf of, the responsible party, to the corresponding information contained in, or calculated using information contained in, copies of various third-party documents relating to the assets including, but not limited to, contracts, mortgages, notes, appraisals, and lease agreements also provided by, or on behalf of, the responsible party (the source documents). The practitioner is not required to perform any procedures on, and is not responsible for, the accuracy, completeness, or reasonableness of the information contained in the source documents and the data file, except as it relates to procedures described as having been performed in the covered services report. However, as explained in paragraph .40 of AT-C section 215, the practitioner is responsible for appropriately responding to matters that come to the practitioner's attention by means other than the application of the procedures that significantly contradict the subject matter — for example, a source document that appears to be fictitiously developed. As indicated in paragraph .43 of AT-C section 105, the practitioner is required to maintain professional skepticism.

.27 Under certain circumstances, the engaging party and, if applicable, other specified parties may agree on the use of specified thresholds for reporting exceptions when performing the covered services. Such thresholds are the

responsibility of the engaging party and, if applicable, the other specified parties, and if applicable should be included in the covered services report, as required by paragraph .34m of AT-C section 215.

Written Representations

.28 Written representations primarily provide confirmation of the appropriate party's oral representations obtained during the engagement and are intended to reduce the possibility of a misunderstanding. Paragraph .27 of AT-C section 215 requires the practitioner to request from the engaging party written representations in the form of a letter addressed to the practitioner. Such written representations are requested for each covered services report issued. Paragraph .29 of AT-C section 215 requires that the date of the written representations be as of the date of the practitioner's covered services report.

.29 When the engaging party is not the responsible party, paragraph .28 of AT-C section 215 requires the practitioner to consider requesting the relevant written representations in paragraph .27 of AT-C section 215 from the responsible party. For example, if the practitioner is relying on certain representations made by the responsible party and does not have a contract or written agreement with the responsible party, the practitioner may find it appropriate to require the responsible party to provide written representations prior to issuing the practitioner's report. The practitioner may conclude that written representations from the responsible party are necessary, for example, when the practitioner is relying on documentation and oral representations made by the responsible party during the engagement. Written confirmation of oral representations reduces the possibility of misunderstandings between the practitioner and the responsible party.

.30 As indicated in paragraph .30 of AT-C section 215, when one or more of the written representations that the practitioner has requested are not provided, or the practitioner concludes there is sufficient doubt about the competence, integrity, ethical values, or diligence of those providing the written representations, or the practitioner concludes that the written representations are otherwise not reliable, the practitioner is required to do the following:

- a. Discuss the matter with the engaging party or responsible party, as applicable.
- b. Reevaluate the integrity of those from whom the representations were requested or received and evaluate the effect that this may have on the reliability of representations and evidence in general.
- c. If any of the matters are not resolved to the practitioner's satisfaction, take appropriate action, including determining the possible effect on the practitioner's covered services report.

Paragraph .A45 of AT-C section 215 indicates that appropriate actions the practitioner may consider in the circumstances described in paragraph .30c include

- determining the effect on the practitioner's report, including whether to restrict the use of the practitioner's report or whether to disclose in the practitioner's report that the engaging party or the responsible party did not provide one or more of the requested written representations
- withdrawing from the engagement

.31 The representations that a practitioner deems appropriate will depend on the specific nature of the engagement. In addition to the required

representations in paragraph .27 of AT-C section 215, the practitioner may consider requesting the following representations from the appropriate party:

- a.* The information included in the data file provided related to the characteristics of the securitized assets is complete and accurate.
- b.* The covered services are not intended to satisfy any criteria for due diligence published by an NRSRO, if applicable.
- c.* The responsible party or another appropriate party is responsible for compliance with the regulations under Rule 15Ga-2 and Rule 17g-10, as appropriate.
- d.* The responsible party or another appropriate party is responsible for the accuracy, completeness, and furnishing of Form ABS-15G, if applicable, and the posting of Form 15E to the Rule 17g-5 website, as appropriate.
- e.* The appropriate party has disclosed to the practitioner any knowledge of any actual, suspected, or alleged noncompliance with the laws and regulations affecting the data file.
- f.* Whether the procedures include those performed for the purpose of reporting findings with respect to the following:
 - i.* The conformity of the origination of the assets to, or derivation from, stated underwritings or credit extension guidelines, standards, criteria, or other requirements
 - ii.* The value of the collateral securing the assets
 - iii.* Compliance by the originator of the collateral obligations with federal, state, or local laws or regulations
 - iv.* Any other factor or characteristic of the assets that would be material to the likelihood that the issuer of the ABS will pay interest and principal in accordance with the applicable terms and conditions
- g.* Whether any information is deemed to be sensitive information by the responsible party or another appropriate party based on the provisions specified in the engagement letter or other suitable form of written agreement.
- h.* The responsible party is responsible for any assumptions, methodologies, and instructions provided by the responsible party or another appropriate party on behalf of the responsible party.
- i.* The appropriate party has disclosed to the practitioner any known events subsequent to the practitioner receiving the data file that would have a material impact on the data file.

.32 The release indicates both that

- the issuer, sponsor, or underwriter of any rated ABS will make publicly available the findings and conclusions of any covered services report obtained by the issuer, sponsor, or underwriter; and that
- the disclosure of the findings and conclusions includes, but is not limited to, disclosure of the criteria against which the assets were evaluated, and how the evaluated assets compare to those criteria, along with the basis.

For that reason, the practitioner may obtain a written representation from the appropriate party that the evaluated assets are in accordance with the criteria against which the assets were evaluated.

Reporting Considerations

Content of the Practitioner's Agreed-Upon Procedures Report

.33 Paragraph .34 of AT-C section 215 identifies the required elements of a practitioner's AUP report. Appendix A of this SOP contains an illustrative covered services report and paragraphs .34–.39 of this SOP provide further guidance with respect to a covered services report.

General

.34 SEC Rules 15Ga-2 and 17g-10 require the disclosure in Form 15E and Form ABS-15G, as applicable, of the procedures or findings, or both, of the practitioner's covered services. As described in items (k) and (l) of paragraph .34 of AT-C section 215, the practitioner's report is required to include a description of the procedures performed (or referenced thereto) and related findings.

Findings

.35 Paragraphs .24–.25 of AT-C section 215 require a practitioner to present the results of applying procedures in the form of findings, and to report all findings from the application of the procedures. For certain covered services engagements, particularly for AUP engagements in which the practitioner performs procedures on a sample of assets in the pool that will be securitized, it is common practice for the practitioner to report all individual findings in the AUP report, regardless of whether the data file was later revised. For certain other covered services engagements, such as those in which procedures are performed on the entire pool of financial assets that will be securitized, it is common practice for the practitioner to perform procedures on a preliminary data file, which would then be updated based on the differences identified. For these engagements, the findings reported in the AUP report would be the results of performing procedures on the final data file.

.36 It would not be appropriate for the practitioner to modify the agreed-upon procedures to circumvent reporting a finding. However, including disclosure in the report when the responsible party has revised the subject matter as a result of initial differences identified from procedures performed by the practitioner may prevent information in the report from being misleading. As addressed in paragraph .A47 of AT-C section 215, in such instances, the report may indicate that the subject matter was revised as a result of initial differences identified from the procedures performed and that the practitioner reported findings based on the final subject matter. See paragraph .54 of this SOP for illustrative language for this disclosure.

Dating of the Report

.37 As stated in paragraph .34w of AT-C section 215, the attestation standards require that the date of the practitioner's report be no earlier than the date on which the practitioner completed the procedures and determined the findings, including that

- a. the attestation documentation has been reviewed;³ and

³ Documentation requirements for an agreed-upon procedures engagement are included in paragraph .42 of AT-C section 215.

- b. if applicable, the written presentation of the subject matter has been prepared.

.38 Paragraph .42a of AT-C section 105 also requires that the covered services report not be released prior to the completion of the engagement quality control review, if applicable.

.39 The practitioner is permitted to reference other dates in the report, such as in the report title or subject line (if different from the date of the covered services report; for example, the date of the pricing for the transaction).

Form 15E and Covered Services Reports

.40 Paragraph .34 of AT-C section 215 describes the required elements of the practitioner's covered services report, which includes the procedures performed (or reference thereto) and related findings. The instructions on Form 15E allow the practitioner to address the requested items on the form or by referring to the attached practitioner's report. To the extent that the practitioner intends to refer to the practitioner's report when completing Form 15E, the practitioner is responsible for determining that the procedures and findings described in the covered services report include, where relevant, the topics identified in Item 4 of Form 15E, which are described in the release as follows:⁴

- a. The type of assets that were reviewed
- b. The sample size of the assets reviewed
- c. How the sample size was determined and, if applicable, computed
- d. Whether the accuracy of information or data about the assets provided, directly or indirectly, by the securitizer or originator of the assets was reviewed and, if so, how the review was conducted
- e. Whether the conformity of the origination of the assets to stated underwriting or credit extension guidelines, standards, criteria, or other requirements was reviewed and, if so, how the review was conducted
- f. Whether the value of collateral securing such assets was reviewed and, if so, how the review was conducted
- g. Whether the compliance of the originator of the assets with federal, state, and local laws and regulations was reviewed and, if so, how the review was conducted
- h. Any other type of review that was part of the due diligence services conducted by the person executing this form

.41 Item 5 of Form 15E requires that the practitioner provide a summary of findings and conclusions that is sufficiently detailed. When referring to the attached practitioner's report, the covered services report should include all findings that resulted from the covered services, which fulfills the practitioner obligation under Item 5.⁵

.42 If the practitioner does not intend to refer to the covered services report in Form 15E, then all the information required under Item 4 of Form 15E (see paragraph .41 of this SOP) should be included in the covered services report.

⁴ Pages 410–411 of the release outline these Item 4 requirements.

⁵ Page 412 of the release states that "As proposed, Item 5 of the form would require the provider of third-party due diligence services to provide a summary of the findings and conclusions that resulted from the due diligence services that is sufficiently detailed to provide an understanding of the findings and conclusions that were conveyed to the person identified in Item 2 (that is, conveyed to the issuer, underwriter, or NRSRO that employed the third party to perform due diligence services)."

Item 4 of Form 15E indicates that the description of the scope and manner of the covered services performed should be sufficiently detailed to provide an understanding of the steps taken in performing the engagement.

.43 Item 5 of Form 15E requires that the person providing covered services provide a summary of the findings that resulted from the covered services that is sufficiently detailed to provide an understanding of the findings that were conveyed to the engaging party.⁶

.44 In the release,⁷ the SEC acknowledges that there may be particular considerations that would need to be taken into account under applicable professional standards that govern certain services provided by the accounting profession. Additionally, the SEC acknowledges in the release that the requirements and limitations resulting from relevant professional standards generally are described within the reports issued and, to the extent such requirements or limitations are based upon professional standards, the SEC would not object to the inclusion of the same description in the written certifications on Form 15E required under Rule 17g-10.

.45 Based on the SEC guidance described in paragraph .44 of this SOP, a practitioner may clarify on Form 15E that the procedures performed did not constitute an examination or review conducted under the attestation standards, as described in paragraph .49 of this SOP.

.46 The practitioner may also consider whether to include additional information in Form 15E that could assist the reader in understanding the scope of procedures performed and any corresponding limitations of services. This may be accomplished by including certain elements of the covered services report in Form 15E or by attaching the complete covered services report to Form 15E.

.47 A practitioner engaged to provide covered services will be deemed to have satisfied its obligations under Section 15E(s)(4)(B) of the Exchange Act (*Commerce and Trade, U.S. Code* [USC] 15, Section 78o-7(s)(4)(B)) if the practitioner promptly delivers an executed Form 15E after completion of the covered services to the following:

- a. An NRSRO that provided a written request for Form 15E either prior to or after the completion of the covered services stating that the services relate to a credit rating the NRSRO is producing, as applicable
- b. The issuer, sponsor, or underwriter of the ABS for which the covered services relate that maintains the Rule 17g-5 website with respect to the ABS pursuant to Section 240.17g-5(a)(3) of the Exchange Act

.48 Form 15E is required to be certified, as defined in the release.⁸ The certification will include the person/firm providing the third-party due diligence services in Item 1 of Form 15E (in most cases, the firm), the printed name of an individual who is duly authorized by the person/firm identified in Item 1 of

⁶ See footnote 5.

⁷ Page 400 of the release states that "[t]he Commission understands there may be particular considerations that would need to be taken into account under applicable professional standards that govern certain services provided by the accounting profession. The requirements and limitations resulting from relevant professional standards generally are described within the reports issued and, to the extent such requirements or limitations are based upon professional standards, the Commission would not object to the inclusion of the same description in the written certifications on Form ABS Due Diligence-15E required under Rule 17g-10."

⁸ Section 240.17g-10(b) of the Securities Exchange Act of 1934, as amended, states that "the written certification must be signed by an individual who is duly authorized by the person providing the third-party due diligence services to make such a certification."

Form 15E to make such a certification on the covered services, and the signature of such person. The individual identified on Form 15E need not be the same individual authorizing the firm signature on the covered services report.

.49 Paragraph .18 of AT-C section 105 states that if the practitioner is required by law or regulation to use a specific layout, form, or wording of the practitioner's report and the prescribed form of report is not acceptable or would cause a practitioner to make a statement that the practitioner has no basis to make, the practitioner should reword the prescribed form of report or attach an appropriately worded separate report. In this instance, Form 15E includes a section for "Summary of findings and conclusions of review" that is not consistent with paragraph .34p of AT-C section 215, which requires that the practitioner's report include a statement that the practitioner does not express an opinion or conclusion in an agreed-upon procedures engagement. This statement is not included in Form 15E. Therefore, rather than rewording the prescribed SEC form, a practitioner may consider stating on Form 15E that there are no conclusions that resulted from the covered services performed, and that the procedures performed did not constitute an examination or review in accordance with paragraph .34o of AT-C section 215. An illustrative Form 15E is presented in appendix B, "Illustrative Form ABS Due Diligence-15E," of this SOP.

Restricted Use

.50 Although AT-C section 215 does not require the practitioner to restrict the use of a practitioner's AUP report, paragraph .35 of AT-C section 215 requires the practitioner to consider restricting the use of the report after taking into account the intended purpose of the engagement and the intended users of the practitioner's AUP report. Because a covered services report, when attached to Form ABS-15G, will be available to the general public under the SEC EDGAR system, but is intended solely for use by the parties specified in the report and is not intended to be used by any other parties (for example, NRSROs and investors), the practitioner ordinarily would restrict the use of the report. This is consistent with the application guidance in paragraph .A65 of AT-C section 215, which provides examples of situations in which the practitioner, using professional judgment, may decide to include an alert that restricts the use of the report. One such example is when procedures are performed on subject matter that is intended to be used by, or is only available to, a limited number of parties, which generally is the nature of the subject matter in a covered services engagement. When restricting the use of the practitioner's AUP report, an alert is included in a separate paragraph of the report. As required by paragraph .36 of AT-C section 215, the alert should

- a. state that the practitioner's report is intended solely for the information and use of the specified parties.
- b. identify the specified parties for whom use is intended.
- c. state that the report is not intended to be, and should not be, used by anyone other than the specified parties.

The following is an example of the alert that would be added to the practitioner's covered services report:

This report is intended solely for the information and use of the specified parties identified in this report. It is not intended to be and should not be used by anyone other than the specified parties, including investors and rating agencies, who are not specified parties but who may have access to this report as required by law or regulation.

Statement in the Report That the Practitioner Did Not Agree to the Appropriateness of the Procedures

.51 In addition, because the covered services report will be available to the general public under the SEC EDGAR system via Form ABS-15G and from the NRSROs via Form 15E, and to address the risk that report users may incorrectly conclude that the practitioner has determined that the procedures performed are appropriate for the intended purpose of the engagement or for any other purpose, paragraph .A54 of AT-C section 215 indicates that a practitioner may make an explicit statement in the report that the practitioner makes no representation regarding the appropriateness of the procedures either for the purpose for which the practitioner's report has been requested or for any other purpose. The following is an example of such a statement:

The appropriateness of these procedures for the intended purpose is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the appropriateness of the procedures enumerated in [location of procedure description] either for the purpose for which this report has been requested or for any other purpose.

Explanatory Language

.52 Because the covered services report will be available to the general public under the SEC EDGAR system via Form ABS-15G and from the NRSROs via Form 15E, the practitioner may consider adding language to further clarify what the covered services report does not address. For example, the practitioner may indicate any or all of the following:

- The covered services report is not intended to address one or more of the following items (if applicable):
 - The conformity of the origination of the assets to stated underwriting or credit extension guidelines, standards, criteria, or other requirements
 - The value of collateral securing such assets
 - The compliance of the originator of the assets with federal, state, and local laws and regulations
 - Any criteria for due diligence published by an NRSRO
- Any other asset factor or characteristic, not subjected to procedures, that would be material to the likelihood that the issuer of the ABS will pay interest and principal in accordance with applicable terms and conditions.
- The practitioner is not responsible for, and has not agreed to, the appropriateness of the procedures for the intended purpose.
- The practitioner has no responsibility to update the covered services report for events and circumstances occurring after the [issuance] or [as of] [period-end date].
- Procedures were not performed to determine whether the originator of the assets complied with federal, state, or local laws or regulations.

- The responsible party is responsible for the source documents,⁹ and as such, the practitioner has not performed procedures, or made any representation as to, the accuracy, completeness, or reasonableness of the source documents.

The practitioner may add other items to the report that are not precluded by the attestation standards (for example, that the practitioner used a nonstatistical sampling approach and that there is a risk that the items selected were not representative of the population).

Distribution of the Report

.53 Paragraph .A69 of AT-C section 215 indicates that a practitioner is not responsible for controlling, and cannot control, the distribution of the practitioner's report after its release. A practitioner may consider informing the engaging party or other specified parties that the practitioner's report is not intended for distribution to parties other than those specified in the practitioner's report. The practitioner may, in connection with establishing the terms of the engagement, reach an understanding with the engaging party that the intended use of the practitioner's report will be restricted and may obtain the engaging party's agreement that the engaging party and specified parties will not distribute such practitioner's report to parties other than those identified therein.

Disclosure That Practitioner Performed Procedures on Preliminary Subject Matter

.54 As discussed in paragraphs .35–.36 of this SOP, in instances in which procedures are performed on the entire pool of financial assets that will be securitized, the practitioner may initially perform certain procedures on preliminary subject matter (for example, the data file) prior to performing the agreed-upon procedures on the final subject matter. In some situations, performing procedures on the preliminary subject matter identifies differences that are communicated to the appropriate party, resulting in changes to the subject matter. In such situations, in meeting the requirement to disclose the procedures performed, the practitioner may determine it is appropriate to disclose the practitioner's involvement with the preliminary subject matter in order for the practitioner's report to not be misleading. If such a determination is made, the following are examples of language that could be included in the report: Prior to performing the procedures [*identify the procedures; for example, set forth below / in attachment X / in this report*] on the data file, we performed certain procedures on earlier versions of the data file and provided the identified differences to the [*identify the appropriate party*], who then provided us with the final data file on which the above procedures were performed.

- a. In performing this engagement, we received one or more preliminary data files related to procedures [*identify the procedures; for example, procedures 1–5, 9, 17, and 24*] and performed the procedures [*identify the procedures; for example, as set forth below / in attachment X / in this report*]. The procedures identified differences, which were communicated to [*identify the appropriate*

⁹ The glossary of this SOP defines *source documents* as various documents provided by or on behalf of the responsible party for the purpose of comparing or calculating information related to asset characteristics selected by the responsible party. The documents typically include, but are not limited to, copies of contracts, mortgages, notes, appraisals, and lease agreements.

party]. [Identify the appropriate party] revised one or more of the [data files] based on such communicated differences, where they determined it to be appropriate. We performed the procedures on the final data file, and the results of those procedures are reflected herein.

- b. Between [identify the date of the first data file] and [identify the date of the last data file], we received one or more data files on which to perform our procedures. In performing a comparison of the attributes in the preliminary data file(s) to the corresponding information set forth in the source documents, we identified differences, which were communicated to [identify the appropriate party]. The final data file reflects the resolution of differences communicated as determined appropriate by [identify the appropriate party]. We performed the procedures on the final data file, and the results of those procedures are reflected herein.

Sensitive Information

.55 The "Confidential Client Information Rule" (ET sec. 1.700.001) of the AICPA Code of Professional Conduct states that a member in public practice shall not disclose any confidential client information without the specific consent of the client. Because engagement documentation and, in certain cases, the covered services report prepared by a practitioner often contain sensitive information, the practitioner should adopt reasonable procedures to maintain the confidentiality of that information, as stated in paragraph .39 of AT-C section 105. The following are examples of procedures the practitioner may perform to mitigate the risk that such sensitive information is publicly disclosed:

- Writing the covered services report in a manner that does not disclose sensitive information
- Summarizing the information where appropriate so that sensitive information is not disclosed
- Creating two versions of the exhibit of findings: one detailed version that includes sensitive information, which is provided only to the specified parties for their purposes; and a more summarized version that excludes any sensitive information and is available for Form ABS-15G and Form 15E postings (the practitioner cautiously summarizes the information to avoid altering the meaning of the finding)
- Redacting sensitive information contained in the covered services report attached to Form ABS-15G and Form 15E (cautious redaction of the information is needed to avoid altering the meaning of the findings)

Reissuing a Covered Services Report

.56 Practitioners do not have responsibilities subsequent to the issuance of the covered services report. However, practitioners may be requested to reissue a covered services report for various reasons. For example, the composition of the portfolio has changed, requiring additional procedures; or an item needing a correction may be identified after the covered services report has been issued. In this instance, the practitioner may agree to a new or amended covered services report that would be provided to the engaging party and, if applicable, other specified parties. Practitioners may consider whether the changes to the covered services report would require that a new Form 15E be completed.

In determining whether to complete a new Form 15E along with the reissued covered services report, some considerations include whether

- the information that the practitioner provided in Form 15E remains correct and complete (for example, if a subsequently discovered fact is brought to the practitioner's attention that if known at the time of the issuance of Form 15E would have affected the information required by Form 15E, it will likely result in a reissued Form 15E);
- there are changes to the procedures, findings, or any of the attributes in Item 4 of Form 15E that need to be reflected in an updated covered services report; and
- the issuer, sponsor, or underwriter will furnish a new Form ABS-15G with the reissued covered services report, resulting in two versions of the practitioner's report being publicly available.

.57 If the practitioner determines that a new or amended covered services report is to be issued, the practitioner may consider communicating the rationale in writing to the engaging party and, if applicable, other specified parties. Such communication would make it clear that the new or amended covered services report supersedes the initial covered services report. The practitioner may provide the engaging party with another Form 15E that will have the new or amended covered services report attached. Such Form 15E would include wording that Form 15E is being submitted for the amended report, which supersedes the covered services report submitted with the previously issued Form 15E. Both Form 15E and the new or amended covered services report may include wording that states the reason that the new or amended covered services report has been issued, and that the previously issued covered services report should no longer be used or relied upon.

The following is an example of the wording for the new or amended covered services report:

On *[date of previously issued covered services report being rescinded]*, we issued an independent accountants' report on applying agreed-upon procedures relating to certain information with respect to a portfolio of *[describe the assets being securitized; for example, consumer loans, commercial real estate loans, auto leases]*. *[Responsible party]* informed us that *[describe the circumstances that are causing the reissuance of the practitioner's report; for example, the composition of the portfolio changed, the deal name changed, the cutoff date changed]* and requested that a new report be issued. The independent accountants' report on applying agreed-upon procedures described herein supersedes the report issued on *[date of previously issued covered services report being rescinded]*. Furthermore, the specified parties have been instructed to no longer use or rely upon the report issued on *[date of previously issued covered services report being rescinded]*.

The following is an example of the wording for Form 15E with the new or amended report:

This Form ABS Due Diligence-15E supersedes our Form ABS Due Diligence-15E dated *[date of previously issued covered services report being rescinded]* pertaining to *[full deal name]*. Since Form ABS Due Diligence-15E dated *[date of previously issued covered services report]* was issued, *[describe the reasons that are causing the report to be reissued]*. Therefore, we have issued the attached independent accountant's report on applying agreed-upon procedures dated *[date of new covered services report]* pertaining to *[full deal name]*. The previously issued independent accountants' report on applying agreed-upon procedures should no longer be used or relied upon by the specified parties.

Adding a Specified Party

.58 When the practitioner issues a covered services report that includes an alert restricting the use of the practitioner's report to certain specified parties, and the engaging party subsequently requests the practitioner to add an additional party as a specified party, paragraph .37 of AT-C section 215 requires the practitioner to determine whether to add the additional party as a specified party. As part of this determination, the practitioner is required to consider whether

- a. the proposed additional specified party has acknowledged or will be requested to acknowledge that the procedures performed are appropriate for their purpose. If the practitioner determines that the acknowledgment is necessary, the practitioner should either obtain such acknowledgment directly from the additional specified party or obtain a representation from the engaging party that the additional specified party has agreed to the procedures and acknowledged that the procedures performed are appropriate for their purposes and
- b. the report will be reissued to identify the additional specified party.

The practitioner may agree to add the other party as a specified party based on the practitioner's consideration of factors such as the identity of the other parties and the intended use of the practitioner's report.

.59 The practitioner is not required to reissue the covered services report to identify any additional specified parties included in the alert that restricts the use of the report or, if applicable, to indicate that the additional specified party agreed to and acknowledged the appropriateness of the procedures for their purposes. If the practitioner's report is reissued, the practitioner is not required to change the date of the report. If the practitioner provides a written acknowledgment to the engaging party and the additional party that such party has been added as a specified party, paragraph .38 of AT-C section 215 requires the practitioner to state in the acknowledgment that no procedures were performed subsequent to the original date of the practitioner's AUP report.

Form ABS-15G

.60 The issuer, sponsor, or underwriter's Form ABS-15G must contain the "findings and conclusions" of any covered services report obtained by the issuer, sponsor, or underwriter, as well as the criteria against which the assets were evaluated and how the evaluated assets compare to those criteria. As such, the practitioner and the engaging party may consider the following:

- a. Reaching agreement that the issuer, sponsor, or underwriter will attach the practitioner's covered services report to Form ABS-15G, and that the issuer, sponsor, or underwriter may not alter in any way or summarize the covered services report provided by the practitioner (except in certain cases with respect to the removal or redaction of sensitive information in the covered services report attached to Form ABS-15G, when agreed to by the practitioner). (See paragraph .55 of this SOP for a discussion of sensitive information.)
- b. If the issuer, sponsor, or underwriter will not attach the practitioner's covered services report to Form ABS-15G and instead references the practitioner's covered services or summarizes the covered services report, the practitioner and engaging party may

agree that the practitioner will be provided with an opportunity to review the issuer, sponsor, or underwriter's Form ABS-15G prior to submission in order to determine whether it accurately describes the covered services and related findings, if any.

.61 Consistent with the attestation standards, procedures and findings of the practitioner are not considered part of any report until all such standards are met and the report is signed and released. Therefore, draft, unsigned versions of the covered services report provided to the issuer, sponsor, or underwriters prior to the issuance of the final, signed covered services report are not typically considered "interim" reports and should not be attached to Form ABS-15G.¹⁰

.62 Typically, Form ABS-15G will be furnished through the EDGAR system either prior to or at the same time Form 15E is posted to the Rule 17g-5 website.

Exception Related to Municipal Issuers

.63 Form ABS-15G is not required to be furnished to EDGAR by municipal issuers of rated ABS. Municipal issuers are required to make such information available through any means reasonably accessible to the public, including, for example, by posting the information on an issuer-, sponsor-, or underwriter-sponsored website, by voluntarily furnishing Form ABS-15G on EDGAR, or by voluntarily submitting a Form ABS-15G on EMMA.¹¹ Practitioners follow the same guidelines herein for Form ABS-15G, regardless of the type of securitized assets.

Exception Related to Certain Foreign-Based ABS Issuances

.64 Certain foreign issuances (that is, certain non-U.S. transactions) are exempt from the release requirements related to Form ABS-15G and Form 15E if the following conditions are met:¹²

- a. The offering is not required to be, and is not, registered under the Securities Act of 1933, as amended (the Securities Act).
- b. The issuer of the rated security is not a U.S. person (as defined under Securities Act Rule 902(k)).
- c. The security issued by the issuer will be offered and sold upon issuance, and any underwriter or arranger linked to the security will effect transactions of the security after issuance, only in transactions that occur outside the United States.

¹⁰ Page 374 of the release states, in part, "... all third-party due diligence reports obtained by the issuer or underwriter, including interim reports, related to an offering of asset-backed securities should be made publicly available in order for users of credit ratings to more thoroughly evaluate the level of due diligence obtained by the issuer or underwriter as compared to the due diligence services used by an NRSRO rating the Exchange Act-ABS." Reports that are not considered final due diligence reports or interim reports do not result in a Form ABS-15G filing.

¹¹ Page 382 of the release states that "Consequently, although municipal issuers and underwriters will not be required to furnish Form ABS-15G pursuant to Rule 15Ga-2, they are subject to the statutory requirement under Section 15E(s)(4)(A) to make publicly available the findings and conclusions of any third-party due diligence report they obtain. Municipal issuers and underwriters may make such information available through any means reasonably accessible to the public, including, for example, by posting the information on an issuer or underwriter sponsored Internet website, by voluntarily furnishing Form ABS-15G on EDGAR, or by voluntarily submitting a Form ABS-15G on EMMA."

¹² Page 370 of the release.

Considerations Regarding EDGAR

.65 As noted previously, a covered services report may be attached to a Form ABS-15G furnished through the EDGAR system. The EDGAR system does not currently allow files in PDF format. A handwritten or electronic signature included in non-PDF format on EDGAR may be easily obtained by a third party from the publicly available report. Therefore, practitioners may consider using a conformed signature on the covered services report that is attached to Form ABS-15G (for example, /s/ Firm Name). Practitioners may consider implementing procedures to reconcile the final posted Form ABS-15G with the document provided to the responsible party to determine that the covered services report has not been modified.

Effective Date

.66 This SOP is effective for AUP reports dated on or after July 15, 2021. Early implementation is permitted.

Appendix A — Illustrative Covered Services Report

The following is an illustrative practitioner's report for the AUP engagement described in this SOP. It is illustrative only and is not intended to be applicable to, or comprehensive for, all engagements. Accordingly, it may not include items that are relevant to a specific engagement and therefore would be tailored to the facts and circumstances of the particular engagement.

Circumstances include the following:

- Use of the report is restricted to the specified parties (for example, underwriters).
- The report includes additional language acknowledging the appropriateness of the procedures for the intended purpose and the limitations of the procedures performed.
- Other parties have agreed to and acknowledged that the procedures performed are appropriate for their purposes.

Independent Accountant's Report on Applying [Agreed-Upon] Procedures

[Appropriate Addressee]

We have performed the procedures enumerated in Attachment A, on *[identify the subject matter; for example, certain information with respect to attributes of the (identify the asset type) relating to (name of transaction)]*. *[The responsible party, for example, XYZ Company]* is responsible for the data file accurately representing the information included in the underlying asset documents and the disclosed assumptions and methodologies.

[The engaging party, for example, XYZ Fund] has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of *[identify the intended purpose of the engagement, for example, assisting specified parties in evaluating]* *[identify the subject matter; for example, certain information with respect to attributes of the]* *[identify the asset type]* relating to *[name of transaction]*. This report may not be suitable for any other purpose. Additionally, *[identify the other parties that have agreed to and acknowledged that the procedures performed are appropriate for their purposes; for example, the Trustee of XYZ Company]* has agreed to and acknowledged that the procedures performed are appropriate for their purposes. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

Consequently, we make no representation regarding the appropriateness of the procedures enumerated in Attachment A either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are included in Attachment A.

We were engaged by *[identify the engaging party; for example, XYZ Fund]* to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the AICPA. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or a conclusion, respectively, on *[identify the subject matter; for example, certain information with respect to the attributes of the]* *[identify asset type]* relating to *[name of transaction]*. Accordingly, we do not express such opinion or conclusion. Had we performed

additional procedures, other matters might have come to our attention that would have been reported to you.

[The practitioner may include additional explanatory paragraphs to clarify the scope of the engagement, such as the following:]

Our agreed-upon procedures engagement was not conducted for the purpose of the following:

- Addressing the conformity of the origination of the assets to stated underwriting or credit extension guidelines, standards, criteria, or other requirements
- Addressing the value of collateral securing any such assets being securitized
- Addressing the compliance of the originator of the assets with federal, state, and local laws and regulations
- Satisfying any criteria for due diligence published by a nationally recognized statistical rating organization
- Addressing any other factor or characteristic of the assets that would be material to the likelihood that the issuer of the asset-backed security will pay interest and principal in accordance with applicable terms and conditions
- Forming any conclusions
- Any other terms or requirements of the transaction that do not appear in the report]

We are required to be independent of *[identify the responsible party; for example, XYZ Company]* and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely for the information and use of *[identify or state the specified parties]*. It is not intended to be and should not be used by anyone other than the specified parties, including investors and rating agencies who are not identified as specified parties but who may have access to this report as required by law or regulation.

[Signature of the practitioner's firm]

[City and state where the practitioner's report is issued]

[Date of the practitioner's report]

[Include as an attachment an enumeration of the procedures and findings.]

Attachment A — Illustrative Procedures and Findings

Attachment A presents the procedures and findings referred to in the practitioner's AUP report. These are illustrative procedures a practitioner might perform and findings that a practitioner might report as part of the AUP engagement described in this SOP. They are not intended to be applicable to, or comprehensive for, all engagements.

1. As instructed by the sponsors, on behalf of the depositor, we randomly selected a sample of XXX mortgage loans listed on the loan file comparison data file (the data file). The sample subjected to the procedures described below are referred to as the "sample mortgage loans." For the purpose of this procedure, the sponsors, on behalf of the depositor, did not inform us as to the basis for how they selected the number of mortgage loans that we were instructed to randomly select from the data file.

2. For each sample mortgage loan, we compared the characteristics listed on Exhibit 1 (the characteristics), as shown on the data file, to the corresponding information located on the source documents listed on Exhibit 1 that were provided by the sponsors, on behalf of the depositor, subject to the qualifications, assumptions, and methodologies provided by the sponsors, on behalf of the depositor, that are stated in the notes to Exhibit 1. Except for the information shown on Exhibit 2, all such compared information was in agreement. Where recomputation was required, the recomputations are described in the notes to Exhibit 1.

Appendix B¹ — Illustrative Form ABS Due Diligence-15E

The following is a Form ABS Due Diligence-15E that includes partial illustrative responses and instructions to the practitioner.

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM ABS DUE DILIGENCE-15E

CERTIFICATION OF PROVIDER OF THIRD-PARTY DUE DILIGENCE SERVICES FOR ASSET-BACKED SECURITIES

Pursuant 17 CFR 240.17g-10, this Form must be used by a person providing third-party due diligence services in connection with an asset-backed security to comply with section 15E(s)(4)(B) of the Securities Exchange Act of 1934 (15 U.S.C. 78o-7(s)(4)(B)). Section 15E(s)(4)(B) of the Securities Exchange Act of 1934 requires a person providing the due diligence services to provide a written certification to any nationally recognized statistical rating organization that produces a credit rating to which such due diligence services relate.

Item 1. Identity of the person providing third-party due diligence services

Legal Name: *Firm legal name*

Business Name (if different):

Principal Business Address: *Firm business address*

Item 2. Identity of the person who paid the person to provide third-party due diligence services

Legal Name: *Engaging party legal name*

Business Name (if different):

Principal Business Address: *Engaging party business address*

Item 3. Credit rating criteria

If the due diligence performed by the third party is intended to satisfy the criteria for due diligence published by a nationally recognized statistical rating organization, identify the nationally recognized statistical rating organization and the title and date of the published criteria (more than one nationally recognized statistical rating organization may be identified).

[Firm name] was not engaged to perform procedures that were intended to satisfy any criteria for due diligence published by a nationally recognized statistical rating organization.

Item 4. Description of the due diligence performed

Provide a description of the scope and manner of the due diligence services performed in connection with the review of assets that is sufficiently detailed to provide an understanding of the steps taken in performing the review. Include in the description: (1) the type of assets that were reviewed; (2) the sample size of the assets reviewed; (3) how the sample size was determined and, if applicable, computed; (4) whether the accuracy of information or data about the assets

¹ Italicized material in this appendix is added for illustrative purposes.

provided, directly or indirectly, by the securitizer or originator of the assets was reviewed and, if so, how the review was conducted; (5) whether the conformity of the origination of the assets to stated underwriting or credit extension guidelines, standards, criteria, or other requirements was reviewed and, if so, how the review was conducted; (6) whether the value of collateral securing such assets was reviewed and, if so, how the review was conducted; (7) whether the compliance of the originator of the assets with federal, state, and local laws and regulations was reviewed and, if so, how the review was conducted; and (8) any other type of review that was part of the due diligence services conducted by the person executing this Form. This description should be attached to the Form and contain the heading "Item 4." Provide this description regardless of whether the due diligence performed is intended to satisfy the criteria for due diligence published by a nationally recognized statistical rating organization.

[Note to practitioner: You may either address the requested items here or as an attachment, depending on preference.]

The following numbered items are intended to address the numerically requested items of Item 4.

- (1) See attached Independent Accountant's Report on Applying Agreed-Upon Procedures dated _____ pertaining to [transaction name].*
- (2) See attached Independent Accountant's Report on Applying Agreed-Upon Procedures dated _____ pertaining to [transaction name].*
- (3) See attached Independent Accountant's Report on Applying Agreed-Upon Procedures dated _____ pertaining to [transaction name].*
- (4) See attached Independent Accountant's Report on Applying Agreed-Upon Procedures dated _____ pertaining to [transaction name].*
- (5) Not applicable / addressed*
- (6) Not applicable / addressed*
- (7) Not applicable / addressed*
- (8) None*

Item 5. Summary of findings and conclusions of review

Provide a summary of the findings and conclusions that resulted from the due diligence services that is sufficiently detailed to provide an understanding of the findings and conclusions that were conveyed to the person identified in Item 2. This summary should be attached to the Form and contain the heading "Item 5."

The findings can be found in the attached Independent Accountant's Report on Applying Agreed-Upon Procedures dated [date] pertaining to [transaction name]. Consistent with attestation standards established by the American Institute of Certified Public Accountants, there were no conclusions that resulted from the due diligence services. We were not engaged to, and did not conduct an examination to, express an opinion or a review to express a conclusion on [identify the subject matter of the engagement].

CERTIFICATION

The undersigned has executed this Form ABS Due Diligence-15E on behalf of, and on the authority of, the person identified in Item 1 of the Form. The undersigned, on behalf of the person, represents that the person identified in Item 1 of the Form conducted a thorough review in performing the due diligence

described in Item 4 attached to this Form and that the information and statements contained in this Form, including Items 4 and 5 attached to this Form, which are part of this Form, are accurate in all significant respects on and as of the date hereof.

For purposes of this certification, consistent with attestation standards established by the American Institute of Certified Public Accountants, we were not engaged to, and did not conduct an examination to express an opinion or a review to express a conclusion on the [identify the subject matter of the engagement].

Name of Person Identified in Item 1: [Firm name]

*By: [Name of duly authorized person]
(Print name of duly authorized person)*

*[Affix signature]
(Signature)*

Date: [Not earlier than date of the Covered Services Report]

Appendix C — Glossary

The following is a glossary of common terms specifically relating to engagements described by this SOP.

asset-backed security (ABS). As defined by Section 3(a)(79) of the Securities Exchange Act of 1934, an asset-backed security (ABS) means a fixed-income or other security collateralized by any type of self-liquidating financial asset (including a loan, a lease, a mortgage, or a secured or unsecured receivable) that allows the holder of the security to receive payments that depend primarily on cash flow from the asset, including the following:

- a. A collateralized mortgage obligation
- b. A collateralized debt obligation
- c. A collateralized bond obligation
- d. A collateralized debt obligation of asset-backed securities
- e. A collateralized debt obligation of collateralized debt obligations
- f. A security that the SEC, by rule, determines to be an asset-backed security

The definition of ABS does not include a security issued by a finance subsidiary held by the parent company or a company controlled by the parent company if none of the securities issued by the finance subsidiary are held by an entity that is not controlled by the parent company.

characteristics. The asset attributes selected by the responsible party on which the practitioner performs procedures. The characteristics may be subject to procedures for a sample of assets, or all, and specified in the covered services report.

covered services. For purposes of this SOP, procedures performed by the practitioner that are considered to be third-party due diligence services in accordance with the release. For example, comparing the information on a data file with the information contained in the hard-copy documents in a loan file is an activity that falls within the definition of due diligence services in the release.

covered services report. The agreed-upon procedures report issued by the practitioner resulting from covered services.

data file. An electronic file provided by, or on behalf of, the responsible party that comprises various characteristics of the asset(s) within the scope of the agreed-upon procedures.

depositor. Defined as either

- a. the entity that receives or purchases the underlying financial assets from the originator and subsequently transfers or sells the financial assets to the issuing entity;
- b. the sponsor, in the case of a securitization transaction where there is not an intermediate transfer of the assets from the sponsor to the issuing entity; or
- c. the entity that receives or purchases the underlying financial assets from the originator and subsequently transfers or sells the financial assets to the issuing entity in the case

of a securitization transaction in which the entity transferring or selling the financial assets directly to the issuing entity is itself a trust.

due diligence services. Rule 17g-10 of the release defines due diligence services as a review of the assets underlying an asset-backed security (as defined in this glossary) for the purpose of making findings with respect to the following:

- a. The accuracy of the information or data about the assets provided, directly or indirectly, by the securitizer or originator of the assets
- b. Whether the origination of the assets conformed to, or deviated from, stated underwriting or credit extension guidelines, standards, criteria, or other requirements
- c. The value of collateral securing the assets
- d. Whether the originator of the assets complied with federal, state, or local laws or regulations
- e. Any other factor or characteristic of the assets that would be material to the likelihood that the issuer of the asset-backed security will pay interest and principal in accordance with applicable terms and conditions

Form ABS-15G. Asset-backed securitizer report pursuant to Section 15G of the Securities Exchange Act of 1934.

Form ABS Due Diligence-15E. Certification of third-party provider of due diligence services for asset-backed securities. For purposes of this SOP, this form is also referred to as Form 15E.

issuer. The entity that organizes and initiates the offering of the asset-backed security (for example, the sponsor or depositor).

NRSRO. Nationally recognized statistical rating organization.

noncovered services. For purposes of this SOP, procedures performed by the practitioner that are not considered to be third-party due diligence services in accordance with the release.

originator. An entity that

- a. through an extension of credit or otherwise, creates an asset that collateralizes an asset-backed security; and
- b. sells the asset directly or indirectly to a securitizer or issuing entity (Section 15G(a)(4) of the Securities Exchange Act of 1934 (15 USC 78o-9(a)(4))).

release. For purposes of this SOP, SEC Release No. 34-72936, *Nationally Recognized Statistical Rating Organizations*.

securitizer. With respect to a securitization transaction, this is either

- a. the depositor of the asset-backed securities (if the depositor is not the sponsor); or
- b. the sponsor of the asset-backed securities (Section 15G(a)(3) of the Securities Exchange Act of 1934 (15 USC 78o-9(a)(3))).

sensitive information. (1) Personally identifiable information and (2) other information that is deemed by the engaging party to be confidential in nature and does not materially alter the findings of the agreed-upon procedures engagement.

source documents. Various documents provided by, or on behalf of, the responsible party for the purpose of comparing or calculating information related to asset characteristics selected by the responsible party. The documents typically include, but are not limited to, copies of contracts, mortgages, notes, appraisals, and lease agreements.

sponsor. The entity that organizes and initiates the asset-backed securities transaction by transferring the assets underlying an asset-backed security directly or indirectly to the issuing entity.

third-party due diligence report. Any report containing findings and conclusions of any due diligence services performed by a practitioner.

underwriter. The entity that underwrites the offering of asset-backed securities and sells them to investors.

ACC Section**STATEMENT OF POSITION—ACCOUNTING**

INTRODUCTION

As explained in the "Special Note About FASB *Accounting Standards Codification*®" section of this publication, the FASB *Accounting Standards Codification* (ASC) codified thousands of nongovernmental accounting pronouncements (including those of the FASB, EITF, and the AICPA) into FASB ASC, which reduced the generally accepted accounting principles (GAAP) hierarchy to two levels: one that is authoritative (in FASB ASC) and one that is not (not in FASB ASC). FASB ASC codified all AICPA accounting SOPs. This guidance became nonauthoritative on July 1, 2009, in its native form. The authoritative source of this guidance beginning from July 1, 2009, is FASB ASC.

Although AICPA Statement of Position (SOP) 98-2, *Accounting for Costs of Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include Fund Raising*, was codified for nongovernmental entities as FASB ASC 958-720, it remains authoritative in its native form for governmental entities. GASB Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, identifies AICPA Statements of Positions that have specifically been made applicable to state and local governmental entities by the AICPA and cleared by GASB as sources of established accounting principles in category *b* of the GAAP hierarchy for state and local governmental entities. GASB previously made this SOP, as originally issued, applicable to governmental entities; as such, it is still authoritative for those entities. The SOP is presented here for application by governmental entities as authoritative guidance permitted by GASB.

GASB's exposure draft on *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* is currently out for comment with comments due December 31, 2014. The anticipated effective date is for periods beginning after June 15, 2015. For more information, www.gasb.org/.

Statements of Position of the Accounting Standards Division present the conclusions of the Accounting Standards Executive Committee, which is the senior technical body of the AICPA authorized to speak for the Institute in the areas of financial accounting and reporting.

ACC Section 10

Statement of Position 98-2 Accounting for Costs of Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include Fund Raising

This statement of position contains authoritative GASB material.

Statement of Position (SOP) 98-2 includes governmental entities in its scope, and its accounting and financial reporting requirements were cleared by GASB and, thus, those portions are category B accounting and financial reporting guidance for state and local governmental entities. Portions that are category B accounting and financial reporting guidance for state and local governmental entities appear in orange font.

March 11, 1998

NOTE

Statements of Position (SOPs) on accounting issues present the conclusions of at least two-thirds of the Accounting Standards Executive Committee, which is the senior technical body of the Institute authorized to speak for the Institute in the areas of financial accounting and reporting. GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, identifies AICPA literature that has specifically been made applicable to state and local governmental entities and cleared by GASB as a source of authoritative accounting principles in category B of the generally accepted accounting principles (GAAP) hierarchy for state and local governmental entities. AICPA members should consider the accounting principles in this SOP if a different accounting treatment of a transaction or event is not specified by a pronouncement covered by the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct. In such circumstances, the accounting treatment specified by this SOP should be used, or the member should be prepared to justify a conclusion that another treatment better presents the substance of the transaction in the circumstances.

[Revised, October 2009, to reflect conforming changes necessary due to the withdrawal of SAS No. 69; Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

Summary

This Statement of Position (SOP) applies to all nongovernmental not-for-profit organizations (NPOs) and all state and local governmental entities that solicit contributions.

This SOP requires—

- If the criteria of purpose, audience, and content as defined in this SOP are met, the costs of joint activities that are identifiable with a particular function should be charged to that function and joint costs should be allocated between fund raising and the appropriate program or management and general function.
- If any of the criteria of purpose, audience, and content are not met, all costs of the activity should be reported as fund-raising costs, including costs that otherwise might be considered program or management and general costs if they had been incurred in a different activity, subject to the exception in the following sentence. Costs of goods or services provided in exchange transactions that are part of joint activities, such as costs of direct donor benefits of a special event (for example, a meal), should not be reported as fund raising.
- Certain financial statement disclosures if joint costs are allocated.
- Some commonly used and acceptable allocation methods are described and illustrated although no methods are prescribed or prohibited.

This SOP amends existing guidance in AICPA Audit and Accounting Guides *Health Care Organizations*, *Not-for-Profit Organizations* (which was issued in August 1996 and supersedes SOP 87-2, *Accounting for Joint Costs of Informational Materials and Activities of Not-for-Profit Organizations That Include a Fund-Raising Appeal*, because the provisions of SOP 87-2 are incorporated into the Guide), and *Audits of State and Local Governmental Units*.*

This SOP is effective for financial statements for years beginning on or after December 15, 1998. Earlier application is encouraged in fiscal years for which financial statements have not been issued. If comparative financial statements are presented, retroactive application is permitted but not required.

Foreword

The accounting guidance contained in this document has been cleared by the Financial Accounting Standards Board (FASB) and the Governmental Accounting Standards Board (GASB). The procedure for clearing accounting guidance in documents issued by the Accounting Standards Executive Committee (AcSEC) involves the FASB and the GASB reviewing and discussing in public board meetings (1) a prospectus for a project to develop a document, (2) a proposed exposure draft that has been approved by at least ten of AcSEC's fifteen members, and (3) a proposed final document that has been approved by at least

* The AICPA Audit and Accounting Guide *State and Local Governments* supersedes the 1994 AICPA Audit and Accounting Guide *Audits of State and Local Governmental Units* and subsequent editions of that Guide with conforming changes made by the AICPA staff. The AICPA Audit and Accounting Guide *State and Local Governments* provides guidance on the application of this Statement of Position (SOP) to state and local governments. [Footnote added, June 2004, to reflect conforming changes necessary due to the issuance of the AICPA Audit and Accounting Guide *State and Local Governments*.]

ten of AcSEC's fifteen members. The document is cleared if at least five of the seven FASB members and three of the five GASB members do not object to AcSEC undertaking the project, issuing the proposed exposure draft or, after considering the input received by AcSEC as a result of the issuance of the exposure draft, issuing the final document.[†]

The criteria applied by the FASB and the GASB in their review of proposed projects and proposed documents include the following:

1. The proposal does not conflict with current or proposed accounting requirements, unless it is a limited circumstance, usually in specialized industry accounting, and the proposal adequately justifies the departure.
2. The proposal will result in an improvement in practice.
3. The AICPA demonstrates the need for the proposal.
4. The benefits of the proposal are expected to exceed the costs of applying it.

In many situations, prior to clearance, the FASB and the GASB will propose suggestions, many of which are included in the documents.

Introduction

.01 Some nongovernmental not-for-profit organizations (NPOs) and some state and local governmental entities,¹ such as governmental colleges and universities and governmental health care providers, solicit support through a variety of **fund-raising activities**.² These activities include direct mail, telephone solicitation, door-to-door canvassing, telethons, special events, and others. Sometimes fund-raising activities are conducted with activities related to other functions, such as **program activities** or supporting services, such as **management and general activities**.³ Sometimes fund-raising activities include components that would otherwise be associated with program or supporting services, but in fact support fund raising.

[†] This document was cleared prior to July 1, 1997. In July 1997, the GASB increased to seven members. Documents considered by the GASB after July 1, 1997 are cleared if at least four of the seven GASB members do not object. [Footnote renumbered, June 2004, to reflect conforming changes necessary due to the issuance of the AICPA Audit and Accounting Guide *State and Local Governments*.]

¹ This Statement of Position (SOP) uses the term *entity* to refer to both nongovernmental not-for-profit organizations (NPOs) and state and local governments.

² Terms that appear in the Glossary [paragraph .30] are set in **boldface type** the first time they appear.

³ The functional classifications of fund raising, program, and management and general are discussed throughout this SOP for purposes of illustrating how the guidance in this SOP would be applied by entities that use those functional classifications. Some entities have a functional structure that does not include fund raising, program, or management and general, or that includes other functional classifications, such as **membership development**. This SOP is not intended to require reporting the functional classifications of fund raising, program, and management and general. In circumstances in which entities that have a functional structure that includes other functional classifications conduct joint activities, all costs of those joint activities should be charged to fund raising (or the category in which fund raising is reported—see the following two parenthetical sentences), unless the purpose, audience, and content of those joint activities are appropriate for achieving those other functions. (An example of an entity that reports fund raising in a category other than fund raising is a state and local governmental entity applying the accounting and financial reporting principles in the AICPA Industry Audit Guide *Audits of Colleges and Universities*, as amended by SOP 74-8. As discussed in paragraph D.5 of this SOP [paragraph .24], those entities are required to report fund raising as part of the "institutional support" function. See also footnote # to paragraph D.5.) [Footnote revised, June 2004, to reflect conforming changes necessary due to the issuance of GASB Statements No. 34 and No. 35.]

.02 External users of financial statements—including contributors, creditors, accreditation agencies, and regulators—want assurance that fund-raising costs, as well as program costs and management and general costs, are stated fairly.

.03 In 1987, the AICPA issued Statement of Position (SOP) 87-2, *Accounting for Joint Costs of Informational Materials and Activities of Not-for-Profit Organizations That Include a Fund-Raising Appeal*.⁴ SOP 87-2 required that all circumstances concerning informational materials and activities that include a fund-raising appeal be considered in accounting for **joint costs** of those materials and activities and that certain criteria be applied in determining whether joint costs of those materials and activities should be charged to fund raising or allocated to program or management and general. Those criteria include requiring verifiable indications of the reasons for conducting the activity, such as the content, audience, and action, if any, requested of the participant, as well as other corroborating evidence. Further, SOP 87-2 required that all joint costs of those materials and activities be charged to fund raising unless the appeal is designed to motivate its audience to action other than providing financial support to the organization.

.04 The provisions of SOP 87-2 have been difficult to implement and have been applied inconsistently in practice. (Appendix B [paragraph .22], "Background," discusses this further.)

.05 This SOP establishes financial accounting standards for accounting for **costs of joint activities**. In addition, this SOP requires financial statement disclosures about the nature of the activities for which joint costs have been allocated and the amounts of joint costs. Appendix F [paragraph .26] provides explanations and illustrations of some acceptable allocation methods.

Scope

.06 This SOP applies to all nongovernmental NPOs and all state and local governmental entities that solicit **contributions**.

Conclusions

Accounting for Joint Activities

.07 If the criteria of purpose, audience, and content are met, the costs of a **joint activity** that are identifiable with a particular function should be charged to that function and joint costs should be allocated between fund raising and the appropriate program or management and general function. If any of the criteria are not met, all costs of the joint activity should be reported as fund-raising costs, including costs that otherwise might be considered program or management and general costs if they had been incurred in a different activity, subject to the exception in the following sentence. Costs of goods or services

⁴ In August 1996, the AICPA issued the Audit and Accounting Guide *Not-for-Profit Organizations*. The Guide supersedes SOP 87-2, *Accounting for Joint Costs of Informational Materials and Activities of Not-for-Profit Organizations That Include a Fund-Raising Appeal*, because the provisions of SOP 87-2 are incorporated into paragraphs 13.36 to 13.45 of *Not-for-Profit Organizations*. *Not-for-Profit Organizations* applies to all nongovernmental NPOs other than those required to follow the Audit and Accounting Guide *Health Care Organizations*. The discussion in this SOP of SOP 87-2 refers to both SOP 87-2 and the guidance included in paragraphs 13.36 to 13.45 of *Not-for-Profit Organizations*. Also, SOP 87-2 was not applicable to entities that are within the scope of Governmental Accounting Standards Board (GASB) Statement No. 29, *The Use of Not-for-Profit Accounting and Financial Reporting Principles by Governmental Entities*.

provided in exchange transactions that are part of joint activities, such as costs of direct donor benefits of a special event (for example, a meal), should not be reported as fund raising.

Purpose

.08 The purpose criterion is met if the purpose of the joint activity includes accomplishing program or management and general functions. (Paragraphs .09 and .10 provide guidance that should be considered in determining whether the purpose criterion is met. Paragraph .09 provides guidance pertaining to program functions only. Paragraph .10 provides guidance pertaining to both program and management and general functions.)

.09 Program functions. To accomplish program functions, the activity should call for specific action by the audience that will **help accomplish the entity's mission**. For purposes of applying the guidance in this SOP, the following are examples of activities that do and do not call for specific action by the audience that will help accomplish the entity's mission:

- An entity's mission includes improving individuals' physical health. For that entity, motivating the audience to take specific action that will improve their physical health is a call for specific action by the audience that will help accomplish the entity's mission. An example of an activity that motivates the audience to take specific action that will improve their physical health is sending the audience a brochure that urges them to stop smoking and suggests specific methods, instructions, references, and resources that may be used to stop smoking.
- An entity's mission includes educating individuals in areas other than the causes, conditions, needs, or concerns that the entity's programs are designed to address (referred to hereafter in this SOP as "causes"). For that entity, educating the audience in areas other than causes or motivating the audience to otherwise engage in specific activities that will educate them in areas other than causes is a call for specific action by the audience that will help accomplish the entity's mission. Examples of entities whose mission includes educating individuals in areas other than causes are universities and possibly other entities. An example of an activity motivating individuals to engage in education in areas other than causes is a university inviting individuals to attend a lecture or class in which the individuals will learn about the solar system.
- Educating the audience about causes or motivating the audience to otherwise engage in specific activities that will educate them about causes is not a call for specific action by the audience that will help accomplish the entity's mission. Such activities are considered in support of fund raising. (However, some educational activities that might otherwise be considered as educating the audience about causes may implicitly call for specific action by the audience that will help accomplish the entity's mission. For example, activities that educate the audience about environmental problems caused by not recycling implicitly call for that audience to increase recycling. If the need for and benefits of the specific action are clearly evident from the educational message, the message is considered to include an implicit call for specific action by the audience that will help accomplish the entity's mission.)

- Asking the audience to make contributions is not a call for specific action by the audience that will help accomplish the entity's mission.

If the activity calls for specific action by the audience that will help accomplish the entity's mission, the guidance in paragraph .10 should also be considered in determining whether the purpose criterion is met.

.10 Program and management and general functions. The following factors should be considered, in the order in which they are listed,⁵ to determine whether the purpose criterion is met:

- a. Whether **compensation or fees** for performing the activity are based on contributions raised. The purpose criterion is *not* met if a majority of compensation or fees for any party's performance of any component of the discrete joint activity varies based on contributions raised for that discrete joint activity.^{6, 7}
- b. Whether a similar program or management and general activity is conducted separately and on a similar or greater scale. The purpose criterion is met if either of the following two conditions is met:

(1) *Condition 1:*

- The program component of the joint activity calls for specific action by the recipient that will help accomplish the entity's mission and
- A similar program component is conducted without the fund-raising component using the same **medium** and on a scale that is similar to or greater than the scale on which it is conducted with the fund raising.⁸

(2) *Condition 2:*

A management and general activity that is similar to the management and general component of the joint activity being accounted for is conducted without the fund-raising component using the same medium and on a scale that is

⁵ In considering the guidance in paragraph .10, the factor in paragraph .10a (the compensation or fees test) is the preeminent guidance. If the factor in paragraph .10a is not determinative, the factor in paragraph .10b (whether a similar program or management and general activity is conducted separately and on a similar or greater scale) should be considered. If the factor in paragraph .10b is not determinative, the factor in paragraph .10c (other evidence) should be considered.

⁶ Some compensation contracts provide that compensation for performing the activity is based on a factor other than contributions raised, but not to exceed a specified portion of contributions raised. For example, a contract may provide that compensation for performing the activity is \$10 per contact hour, but not to exceed 60 percent of contributions raised. In such circumstances, compensation is not considered based on amounts raised, unless the stated maximum percentage is met. In circumstances in which it is not yet known whether the stated maximum percentage is met, compensation is not considered based on amounts raised, unless it is probable that the stated maximum percentage will be met.

⁷ The *compensation or fees test* is a negative test in that it either (a) results in failing the purpose criterion or (b) is not determinative of whether the purpose criterion is met. Therefore, if the activity fails the purpose criterion based on this factor (the compensation or fees test), the activity fails the purpose criterion and the factor in paragraph .10b should not be considered. If the purpose criterion is not failed based on this factor, this factor is not determinative of whether the purpose criterion is met and the factor in paragraph .10b should be considered.

⁸ Determining the scale on which an activity is conducted may be a subjective determination. Factors to consider in determining the scale on which an activity is conducted may include dollars spent, the size of the audience reached, and the degree to which the characteristics of the audience are similar to the characteristics of the audience of the activity being evaluated.

similar to or greater than the scale on which it is conducted with the fund raising

If the purpose criterion is met based on the factor in paragraph .10b, the factor in paragraph .10c should not be considered.

- c. *Other evidence.* If the factors in paragraph .10a or .10b do not determine whether the purpose criterion is met, other evidence may determine whether the criterion is met. All available evidence, both positive and negative, should be considered to determine whether, based on the weight of that evidence, the purpose criterion is met.

.11 The following are examples of indicators that provide evidence for determining whether the purpose criterion is met:

- a. Evidence that the purpose criterion may be met includes—
 - *Measuring program results and accomplishments of the activity.* The facts may indicate that the purpose criterion is met if the entity measures program results and accomplishments of the activity (other than measuring the extent to which the public was educated about causes).
 - *Medium.* The facts may indicate that the purpose criterion is met if the program component of the joint activity calls for specific action by the recipient that will help accomplish the entity's mission and if the entity conducts the program component without a significant fund-raising component in a different medium. Also, the facts may indicate that the purpose criterion is met if the entity conducts the management and general component of the joint activity without a significant fund-raising component in a different medium.
- b. Evidence that the purpose criterion may not be met includes—
 - *Evaluation or compensation.* The facts may indicate that the purpose criterion is not met if (a) the evaluation of any party's performance of any component of the discrete joint activity varies based on contributions raised for that discrete joint activity or (b) some, but less than a majority, of compensation or fees for any party's performance of any component of the discrete joint activity varies based on contributions raised for that discrete joint activity.
- c. Evidence that the purpose criterion may be either met or not met includes—
 - *Evaluation of measured results of the activity.* The entity may have a process to evaluate measured program results and accomplishments of the activity (other than measuring the extent to which the public was educated about causes). If the entity has such a process, in evaluating the effectiveness of the joint activity, the entity may place significantly greater weight on the activity's effectiveness in accomplishing program goals or may place significantly greater weight on the activity's effectiveness in raising contributions. The former may indicate that the purpose criterion is met. The latter may indicate that the purpose criterion is not met.

- *Qualifications.* The qualifications and duties of those performing the joint activity should be considered.
 - If a third party, such as a consultant or contractor, performs part or all of the joint activity, such as producing brochures or making telephone calls, the third party's experience and the range of services provided to the entity should be considered in determining whether the third party is performing fund-raising, program (other than educating the public about causes), or management and general activities on behalf of the entity.
 - If the entity's employees perform part or all of the joint activity, the full range of their job duties should be considered in determining whether those employees are performing fund-raising, program (other than educating the public about causes), or management and general activities on behalf of the entity. For example, (a) employees who are not members of the fund-raising department and (b) employees who are members of the fund-raising department but who perform non-fund-raising activities are more likely to perform activities that include program or management and general functions than are employees who otherwise devote significant time to fund raising.
- *Tangible evidence of intent.* Tangible evidence indicating the intended purpose of the joint activity should be considered. Examples of such tangible evidence include
 - The entity's written mission statement, as stated in its fund-raising activities, bylaws, or annual report.
 - Minutes of board of directors', committees', or other meetings.
 - Restrictions imposed by donors (who are not related parties) on gifts intended to fund the joint activity.
 - Long-range plans or operating policies.
 - Written instructions to other entities, such as script writers, consultants, or list brokers, concerning the purpose of the joint activity, audience to be targeted, or method of conducting the joint activity.
 - Internal management memoranda.

Audience

.12 A rebuttable presumption exists that the audience criterion is not met if the audience includes prior donors or is otherwise selected based on its ability or likelihood to contribute to the entity. That presumption can be overcome if the audience is also selected for one or more of the reasons in paragraph .13a, .13b, or .13c. In determining whether that presumption is overcome, entities should consider the extent to which the audience is selected based on its ability or likelihood to contribute to the entity and contrast that with the extent to which it is selected for one or more of the reasons in paragraph .13a, .13b, or .13c. For example, if the audience's ability or likelihood to contribute is a significant factor in its selection and it has a need for the action related to the program component of the joint activity, but having that need is an insignificant factor in its selection, the presumption would not be overcome.

.13 In circumstances in which the audience includes no prior donors and is not otherwise selected based on its ability or likelihood to contribute to the entity, the audience criterion is met if the audience is selected for one or more of the following reasons:

- a. The audience's need to use or reasonable potential for use of the specific action called for by the program component of the joint activity
- b. The audience's ability to take specific action to assist the entity in meeting the goals of the program component of the joint activity
- c. The entity is required to direct the management and general component of the joint activity to the particular audience or the audience has reasonable potential for use of the management and general component

Content

.14 The content criterion is met if the joint activity supports program or management and general functions, as follows:

- a. *Program.* The joint activity calls for specific action by the recipient that will help accomplish the entity's mission. If the need for and benefits of the action are not clearly evident, information describing the action and explaining the need for and benefits of the action is provided.
- b. *Management and general.* The joint activity fulfills one or more of the entity's management and general responsibilities through a component of the joint activity.⁹

.15 Information identifying and describing the entity, causes, or how the contributions provided will be used is considered in support of fund raising.

Allocation Methods

.16 The cost allocation methodology used should be rational and systematic, it should result in an allocation of joint costs that is reasonable, and it should be applied consistently given similar facts and circumstances.

Incidental Activities

.17 Some fund-raising activities conducted in conjunction with program or management and general activities are incidental to such program or management and general activities. For example, an entity may conduct a fund-raising activity by including a generic message, "Contributions to Organization X may be sent to [address]" on a small area of a message that would otherwise be considered a program or management and general activity based on its purpose, audience, and content. That fund-raising activity likely would be considered incidental to the program or management and general activity being conducted. Similarly, entities may conduct program or management and general activities in conjunction with fund-raising activities that are incidental to such fund-raising activities. For example, an entity may conduct a program activity by including a generic program message such as "Continue to pray for [a particular cause]" on a small area of a message that would otherwise be considered

⁹ Some states or other regulatory bodies require that certain disclosures be included when soliciting contributions. For purposes of applying the guidance in this SOP, communications that include such required disclosures are considered fund-raising activities and are not considered management and general activities.

fund raising based on its purpose, audience, and content. That program activity would likely be considered incidental to the fund-raising activity being conducted. Similarly, an entity may conduct a management and general activity by including a brief management and general message—"We recently changed our phone number. Our new number is 123-4567"—on a small area of a message that would otherwise be considered a program or fund-raising activity based on its purpose, audience, and content. That management and general activity would likely be considered incidental to the program or fund-raising activity being conducted. In circumstances in which a fund-raising, program, or management and general activity is conducted in conjunction with another activity and is incidental to that other activity, and the conditions in this SOP for allocation are met, joint costs are permitted but not required to be allocated and may therefore be charged to the functional classification related to the activity that is not the incidental activity. However, in circumstances in which the program or management and general activities are incidental to the fund-raising activities, it is unlikely that the conditions required by this SOP to permit allocation of joint costs would be met.

Disclosures

.18 Entities that allocate joint costs should disclose the following in the notes to their financial statements:

- a. The types of activities for which joint costs have been incurred
- b. A statement that such costs have been allocated
- c. The total amount allocated during the period and the portion allocated to each functional expense category

.19 This SOP encourages, but does not require, that the amount of joint costs for each kind of joint activity be disclosed, if practical.

Effective Date

.20 This SOP is effective for financial statements for years beginning on or after December 15, 1998. Earlier application is encouraged in fiscal years for which financial statements have not been issued. If comparative financial statements are presented, retroactive application is permitted but not required.

The provisions of this Statement of Position need not be applied to immaterial items.

Accounting for Joint Activities¹⁰

¹⁰ **Note:** This flowchart summarizes certain guidance in this SOP and is not intended as a substitute for the SOP.

©2022, AICPA ACC §10.21

Appendix B

Background

B.1. As stated in paragraph .04, the provisions of Statement of Position (SOP) 87-2, *Accounting for Joint Costs of Informational Materials and Activities of Not-for-Profit Organizations That Include a Fund-Raising Appeal*, have been difficult to implement and applied inconsistently in practice. That difficulty has been due in part to the following:

- The second sentence of paragraph 1 of SOP 87-2 stated that "some of the costs incurred by such organizations are clearly identifiable with fundraising, such as the cost of fund-raising consulting services." It is unclear whether activities that would otherwise be considered program activities should be characterized as program activities if they are performed or overseen by professional fund raisers. Also, it is unclear whether activities would be reported differently (for example, as program rather than fund raising) depending on whether the fund-raising consultant is compensated by a predetermined fee or by some other method, such as a percentage of contributions raised.
- SOP 87-2 was unclear about whether allocation of costs to fund-raising expense is required if the activity for which the costs were incurred would not have been undertaken without the fund-raising component.
- SOP 87-2 defined joint costs through examples, and it is therefore unclear what kinds of costs were covered by SOP 87-2. For example, it is unclear whether salaries and indirect costs can be joint costs.
- Some believe the guidance in SOP 87-2 was inadequate to determine whether joint activities, such as those that request contributions and also list the warning signs of a disease, are designed to motivate their audiences to action other than to provide contributions to the entity. It is unclear what attributes the targeted audience should possess in order to conclude that a program function is being conducted.

B.2. In 1992, the Accounting Standards Executive Committee (AcSEC) undertook a project to supersede SOP 87-2, to provide clearer guidance than that provided by SOP 87-2, as well as to provide guidance that would improve on the guidance in SOP 87-2. In September 1993, AcSEC released an exposure draft of a proposed SOP, *Accounting for Costs of Materials and Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include a Fund-Raising Appeal*, for public comment. AcSEC received more than 300 comment letters on the exposure draft. AcSEC redeliberated the issues based on the comments received.

B.3. In 1996, after redeliberating the issues based on the comments received and making certain revisions to the draft SOP, AcSEC conducted a field test of the draft SOP. The objectives of the field test were to determine whether the provisions of the draft SOP were sufficiently clear and definitive to generate consistent and comparable application of the SOP. Based on the field test results, AcSEC concluded that the provisions of the draft SOP, with certain revisions,

were sufficiently clear and definitive to generate consistent and comparable application of the SOP.

B.4. Some respondents who commented on the exposure draft, as well as some interested parties who followed the project through its due process subsequent to the exposure draft, commented that the SOP should be reexposed for public comment. Reasons cited include:

- Approximately three years had passed between the end of the comment period and AcSEC's decision to issue the SOP.
- AcSEC made significant revisions to the SOP subsequent to re-releasing the exposure draft for comment.

Considering whether a proposed standard should be reexposed for public comment is inherently a subjective process. Factors that AcSEC considered include—

- The significance of changes made to the exposure draft and whether those changes result in guidance that the public did not have an opportunity to consider.
- Whether the scope was revised in such a way that affected entities did not have an opportunity to comment.
- New information about or changes in the nature of the transactions being considered, practice, or other factors.

AcSEC believes that the length of time between exposure and final issuance is not pertinent to whether the SOP should be reexposed for public comment.

B.5. Based on consideration of the factors identified, AcSEC believes that the SOP should not be reexposed for public comment. AcSEC notes that although the SOP has been revised based on comments received on the exposure draft, those revisions do not change the overall model in the SOP. Those revisions were made primarily to clarify the SOP and improve its operationality. Further, AcSEC believes that the project received a high level of attention from interested parties. AcSEC provided working drafts to interested parties and those parties provided input throughout the process, up to and including the Financial Accounting Standard Board's and the Governmental Accounting Standards Board's clearance of the SOP for issuance.

B.6. Appendix C [paragraph .23] discusses the key issues in the exposure draft and comments received on those issues, as well as the basis for AcSEC's conclusions on those and certain other issues.

Appendix C

Basis for Conclusions

C.1. This section discusses considerations that were deemed significant by members of the Accounting Standards Executive Committee (AcSEC) in reaching the conclusions in this Statement of Position (SOP). It includes reasons for accepting certain views and rejecting others. Individual AcSEC members gave greater weight to some factors than to others.

Overall Framework

C.2. This SOP uses the model in SOP 87-2, *Accounting for Joint Costs of Informational Materials and Activities of Not-for-Profit Organizations That Include a Fund-Raising Appeal*, as a starting point and clarifies guidance that was unclear, provides more detailed guidance, revises some guidance, and expands the scope of costs covered to include all costs of joint activities. The model established by SOP 87-2 was to account for joint costs as fund raising unless an entity could demonstrate that a program or management and general function had been conducted. SOP 87-2 used verifiable indications of the reasons for conducting the activity, such as content, audience, the action requested, if any, and other corroborating evidence as a basis for determining whether a program or management and general function had been conducted.

C.3. On an overall basis, the majority of respondents who commented on the September 1993 exposure draft of a proposed SOP, *Accounting for Costs of Materials and Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include a Fund-Raising Appeal*, opposed it, for various reasons, including the following:

- The guidance in SOP 87-2 is operational, results in sound financial reporting, and should be retained.
- The guidance in SOP 87-2 should be retained but clarified.
- The guidance proposed in the exposure draft should be revised. (Some commented that it overstates fund raising; others commented that it understates fund raising.)

C.4. AcSEC concluded that it supports the model in the exposure draft, subject to certain revisions. AcSEC believes that this SOP provides clear, detailed accounting guidance that, when applied, will increase comparability of financial statements. Those statements will also include more meaningful disclosures without incurring increased costs.

C.5. Some respondents commented that the model in the exposure draft would adversely affect entities both financially and operationally. Various reasons were given, including the following:

- It would inhibit the ability of entities, particularly small entities and entities that raise contributions through direct solicitations, to generate the necessary revenue to perform their program services.
- Most entities would not meet the criteria in this SOP for reporting costs of joint activities as program or management and general,

because they must combine their mission statements, public information and education, and fund-raising appeals due to a lack of resources. Some noted that this may result in unsatisfactory ratings from public watchdog groups.

AcSEC did not find these arguments compelling. This SOP provides accounting guidance; it provides no guidance concerning how entities should undertake their activities. Also, this SOP does not prohibit allocation merely because activities carrying out different functions are combined. In fact, this SOP provides guidance for reporting costs as program or management and general in circumstances in which those activities are combined with fund-raising. Moreover, actions taken by financial statement users are not the direct result of the requirements of this SOP. Rather, those actions may result from more relevant and useful information on which to base decisions.

C.6. Some respondents commented that the exposure draft is biased toward reporting expenses as fund raising. AcSEC believes that determining whether the costs of joint activities should be classified as program, management and general, or fund raising sometimes is difficult, and such distinctions sometimes are subject to a high degree of judgment. AcSEC believes that external financial statement users focus on and have perceptions about amounts reported as program, management and general, and fund raising. That focus and those perceptions provide incentives for entities to report expenses as program or management and general rather than fund raising. Therefore, in circumstances in which joint activities are conducted, a presumption exists that expenses should be reported as fund raising rather than as program or management and general. The criteria in this SOP provide guidance for entities to overcome that presumption.

Accounting for Joint Activities

C.7. This SOP requires that if any of the criteria of purpose, audience, and content are not met, all costs of the activity should be reported as fund raising, including costs that otherwise might be considered program or management and general costs if they had been incurred in a different activity, subject to the exception in the following sentence. Costs of goods or services provided in exchange transactions that are part of joint activities, such as costs of direct donor benefits of a special event (for example, a meal), should not be reported as fund raising. (This SOP expands on the model established by SOP 87-2 by including all costs of joint activities other than costs of goods or services provided in exchange transactions, rather than merely joint costs.) AcSEC believes that the criteria of purpose, audience, and content are each relevant in determining whether a joint activity should be reported as fund raising, program, or management and general because each provides significant evidence about the benefits expected to be obtained by undertaking the activity.

C.8. Some respondents commented that reporting costs that otherwise might be considered program or management and general costs if they had been incurred in a different activity as fund raising is misleading and that the scope of the SOP should include only joint costs of joint activities. Some commented that reporting costs that otherwise might be considered program or management and general costs if they had been incurred in a different activity as fund raising conflicts with Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 117, *Financial Statements of Not-for-Profit Organizations*, which defines fund raising, program, and management and general and requires not-for-profit organizations (NPOs) to report information about expenses using those functional classifications.

C.9. AcSEC believes that the purpose for which costs other than joint costs are incurred may be fund raising, program, or management and general, depending on the context in which they are used in the activity undertaken. For example, a program-related pamphlet may be sent to an audience in need of the program. In that context, the pamphlet is used for program purposes. However, in order to demonstrate to potential donors that the entity's programs are worthwhile, that same pamphlet may be sent to an audience that is likely to contribute, but that has no need or reasonable potential for use of the program. In that context, the pamphlet is used for fund raising. AcSEC believes this broader scope will result in more comparability and more meaningful financial reporting by covering all costs of activities that include fund raising and by assigning those costs to the function for which they are incurred, consistent with the guidance in Statement No. 117.

C.10. AcSEC believes that costs of goods or services provided in exchange transactions should not be charged to fund raising because those costs are incurred in exchange for revenues other than contributions.

Criteria of Purpose, Audience, and Content

Call For Action

C.11. The definition of *program* in FASB Statement No. 117 includes public education. As noted in paragraph C.6, AcSEC believes that in circumstances in which joint activities are conducted, a presumption exists that expenses should be reported as fund raising rather than as program or management and general. AcSEC believes that in order to overcome that presumption, it is not enough that (a) the purpose of the activity include educating the public about causes, (b) the audience has a need or reasonable potential for use of any educational component of the activity pertaining to causes, or (c) the audience has the ability to assist the entity in meeting the goals of the program component of the activity by becoming educated about causes. Therefore, AcSEC concluded that for purposes of this SOP, in order to conclude that the criteria of purpose, audience, and content are met program activities are required to call for specific action by the recipient (other than becoming educated about causes) that will help accomplish the entity's mission. As discussed in paragraph .09, in certain circumstances educational activities may call for specific action by the recipient that will help accomplish the entity's mission.

Purpose

C.12. AcSEC believes meeting the purpose criterion demonstrates that the purpose of the activity includes accomplishing program or management and general functions. Inherent in the notion of a joint activity is that the activity has elements of more than one function. Accordingly, the purpose criterion provides guidance for determining whether the purpose of the activity includes accomplishing program or management and general functions in addition to fund raising.

Compensation and Evaluation Tests

C.13. The exposure draft proposed that all costs of the joint activity should be charged to fund raising if (a) substantially all compensation or fees for performing the activity are based on amounts raised or (b) the evaluation of the party performing the activity is based on amounts raised. Some respondents commented that basing the method of compensation or evaluating the performance

of the party performing the activity based on contributions raised should not lead to the conclusion that all costs of the activity should be charged to fund raising. Others commented that the method of compensation is unrelated to whether the purpose criterion is met. The reasons given included the following:

- It is counterintuitive to imply that those performing multipurpose activities that include fund raising would not be compensated or evaluated based on amounts raised.
- Such guidance would create a bias toward entities that use employees to raise contributions and against entities that hire professional fund raisers and public relations firms and is therefore not neutral.

Some respondents gave examples of circumstances in which substantially all compensation is based on contributions raised and asserted that the activity was nevertheless a program activity. In each of those examples, AcSEC considered all the facts presented and concluded that the activity was fund raising.

C.14. AcSEC continues to support the spirit of the proposed guidance, because AcSEC believes that basing a majority of compensation on funds raised is persuasive evidence that the activity is a fund-raising activity. Nevertheless, AcSEC believes that the proposed guidance was unclear and would be difficult to implement, primarily because of the broad definition of "based on contributions raised" included in the glossary of the exposure draft. In connection with that issue, AcSEC was concerned that any joint activities performed by a fund-raising department or by individuals whose duties include fund raising, such as executive officers of small NPOs who are employed based on their ability to raise contributions, would be required to be reported as fund raising because the compensation of the parties performing those activities is based on amounts raised. Also, AcSEC had concerns that it would be difficult to determine whether fixed contract amounts were negotiated based on expected contributions. Therefore, AcSEC concluded that the compensation test should be revised to provide that the purpose criterion is not met if a majority of compensation or fees for any party's performance of any component of the discrete joint activity varies based on contributions raised for that discrete joint activity. AcSEC believes that guidance is sound and is operational.

C.15. AcSEC believes that the guidance in paragraph .10a is not biased against entities that hire professional fund raisers, because it applies to the entity's employees as well as professional fund raisers. For example, if a majority of an employee's compensation or fees for performing a component of a discrete joint activity varies based on contributions raised for that discrete joint activity, the purpose criterion is not met.

Similar Function-Similar Medium Test

C.16. Some respondents misinterpreted the exposure draft as providing that, in order to meet the purpose criterion, the program or management and general activity must be conducted without the fund-raising component, using the same medium and on a scale that is similar to or greater than the program or management and general component of the activity being accounted for. That was not a requirement proposed by the exposure draft. The exposure draft proposed that meeting that condition would result in meeting the purpose criterion. Failing the criterion merely leads to consideration of other evidence, such as the indicators in paragraph .11. AcSEC has revised the SOP to state this more clearly.

Other Evidence

C.17. The compensation test and the similar function-similar medium test may not always be determinative because the attributes that they consider may not be present. Therefore, this SOP includes indicators that should be considered in circumstances in which the compensation test and the similar function-similar medium test are not determinative. The nature of those indicators is such that they may be present in varying degrees. Therefore, all available evidence, both positive and negative, should be considered to determine whether, based on the weight of that evidence, the purpose criterion is met.

Audience

C.18. The exposure draft proposed that if the audience for the materials or activities is selected principally on its ability or likelihood to contribute, the audience criterion is not met and all the costs of the activity should be charged to fund raising. Further, the exposure draft proposed that if the audience is selected principally based on its need for the program or because it can assist the entity in meeting its program goals other than by financial support provided to the entity, the audience criterion is met. Some respondents commented that that audience criterion is too narrow, because it is based on the principal reason for selecting the audience. They asserted that for some activities no principal reason exists for selecting an audience; entities select the audience for those activities for multiple reasons, such as both the audience's ability to contribute and its ability to help meet program goals. Some commented that for some activities, entities select audiences that have provided past financial support because, by providing financial support, those audiences have expressed an interest in the program.

C.19. AcSEC believes that meeting the audience criterion should demonstrate that the audience is selected because it is a suitable audience for accomplishing the activity's program or management and general functions. Therefore, the reasons for selecting the audience should be consistent with the program or management and general content of the activity. However, AcSEC believes it is inherent in the notion of joint activities that the activity has elements of more than one function, including fund raising, and acknowledges that it may be difficult to determine the principal reason for selecting the audience. Accordingly, AcSEC concluded that if the audience includes prior donors or is otherwise selected based on its ability or likelihood to contribute, a rebuttable presumption should exist that the audience was selected to raise funds. AcSEC believes that the reasons for selecting the audience that can overcome that presumption, which are included in paragraph .13 of this SOP, demonstrate that the audience is selected because it is a suitable audience for accomplishing the activity's program or management and general functions based on the program or management and general content of the activity.

Content

C.20. AcSEC believes that meeting the content criterion demonstrates that the content of the activity supports program or management and general functions. AcSEC believes that accounting guidance should not impose value judgments about whether the entity's mission, programs, and responsibilities are worthwhile. Therefore, whether the content criterion is met depends on the relationship of the content to the entity's mission, programs, and management and general responsibilities.

C.21. Paragraph .14 provides that, to meet the content criterion, program activities should call for specific action by the recipient that will help accomplish

the entity's mission. The exposure draft proposed that slogans, general calls to prayer, and general calls to protest do not meet the content criterion; some respondents disagreed. AcSEC concluded that this SOP should be silent concerning whether slogans, general calls to prayer, and general calls to protest are calls to action that meet the content criterion. AcSEC believes that determining whether those items are calls to action that meet the content criterion requires judgments based on the particular facts and circumstances.

C.22. Some respondents commented that educating the public about causes without calling for specific action should satisfy the content criterion. They noted that this is particularly relevant for NPOs subject to Internal Revenue Code (IRC) Section 501(c)4, because those NPOs are involved in legislative reform. Also, some noted that it may be the entity's mission or goal to educate the public about causes. They believe that, in those cases, the NPO's program is to educate the public about causes without necessarily calling for specific action by the recipient.

C.23. As discussed in paragraph C.11, AcSEC concluded that education that does not motivate the audience to action is in fact done in support of fund raising. However, this SOP acknowledges that some educational messages motivate the audience to specific action, and those messages meet the content criterion. AcSEC believes that that provision will result in the activities of some NPOs subject to IRC Section 501(c)4 (and some other entities, whose mission or goal is to educate the public) meeting the content criterion.

C.24. Paragraph .13c provides that one way that the audience criterion is met is if the entity is required to direct the management and general component of the activity to the particular audience. Further, as discussed in paragraph D.13, in *Discussion of Conclusions*, an audience that includes prior donors and is selected because the entity is required to send them certain information to comply with requirements of the Internal Revenue Service (IRS) is an example of an audience that is selected because the entity is required to direct the management and general component of the activity to that audience. Paragraph .14b provides that one way that the content criterion is met is if the activity fulfills one or more of the entity's management and general responsibilities through a component of the joint activity. However, footnote 9 to paragraph .14b provides that disclosures made when soliciting contributions to comply with requirements of states or other regulatory bodies are considered fund-raising activities, and are not considered management and general activities. AcSEC considered whether it is inconsistent to conclude both that (a) activities conducted to comply with requirements of regulatory bodies concerning contributions that have been received are management and general activities, and that (b) activities conducted to comply with requirements of regulatory bodies concerning soliciting contributions are fund-raising activities. AcSEC believes that those provisions are not inconsistent. AcSEC believes there is a distinction between (a) requirements that must be met as a result of receiving contributions and (b) requirements that must be met in order to solicit contributions. AcSEC believes that activities that are undertaken as a result of receiving contributions are management and general activities while activities that are undertaken in order to solicit contributions are fund-raising activities.

Incidental Activities

C.25. Many entities conduct fund-raising activities in conjunction with program or management and general activities that are incidental to such program or management and general activities. Similarly, entities may conduct program or management and general activities in conjunction with fund-raising

activities that are incidental to such fund-raising activities. Such efforts may be a practical and efficient means for entities to conduct activities, although the principal purpose of the activity may be to fulfill either fund-raising, program, or management and general functions. The exposure draft proposed that incidental activities need not be considered in applying this SOP. Some respondents disagreed with that guidance, while others commented that it was confusing. AcSEC continues to support that guidance. AcSEC believes that guidance is necessary to avoid requiring complex allocations in circumstances in which the criteria of purpose, audience, and content are met but the activity is overwhelmingly either fund raising, program, or management and general.

Allocation Methods

C.26. Respondents had various comments concerning allocation methods, including the following:

- The SOP should focus on allocation methods rather than on circumstances in which entities should allocate.
- The SOP should prescribe allocation methods.
- The approach taken in the SOP—discussing, rather than requiring or prohibiting allocation methods—is sound.
- Certain allocation methods should be prohibited.
- The SOP should set maximum allocation percentages.

AcSEC believes that no particular allocation method or methods are necessarily more desirable than other methods in all circumstances. Therefore, this SOP neither prescribes nor prohibits any particular allocation methods. AcSEC believes entities should apply the allocation methods that result in the most reasonable cost allocations for their activities. Appendix F [paragraph .26] of this SOP illustrates several allocation methods, any one of which may result in a reasonable or unreasonable allocation of costs in particular circumstances. The methods illustrated are not the only acceptable methods. However, AcSEC believes that the methods illustrated in this SOP are among those most likely to result in meaningful cost allocations.

C.27. Accounting Principles Board (APB) Opinion No. 20, *Accounting Changes*, states in paragraph 7 that "the term *accounting principle* includes 'not only accounting principles and practices but also the methods of applying them.'" APB Opinion 20 also states in paragraphs 15 and 16 that

...In the preparation of financial statements there is a presumption that an accounting principle once adopted should not be changed in accounting for events and transactions of a similar type....The presumption that an entity should not change an accounting principle may be overcome only if the enterprise justifies the use of an alternative acceptable accounting principle [*allocation method*] on the basis that it is preferable.

A change in cost allocation methodology may be a change in accounting principle for entities covered by this SOP. Accordingly, paragraph .16 of this SOP provides that the cost allocation methodology used should be applied consistently, given similar facts and circumstances.

Disclosures

C.28. Respondents made various comments concerning the required and encouraged disclosures, including recommendations for additional disclosures and

recommendations that certain disclosures be deleted. AcSEC was not persuaded that the costs of the other disclosures recommended by respondents are justified by their benefits. AcSEC believes that, with the exception of one disclosure, the disclosures prescribed by the exposure draft provide relevant information about the kinds of activities for which joint costs have been incurred and the manner in which those costs are reported in the financial statements. In considering disclosures proposed by the exposure draft about the allocation method, AcSEC observed that there are no requirements to disclose methods of allocating other expenses and questioned the utility of disclosing the allocation method in this circumstance. AcSEC concluded that the requirement to disclose the allocation method should be deleted.

C.29. Paragraph .19 encourages, but does not require, certain disclosures. AcSEC believes those disclosures provide useful information but that they should be encouraged rather than required because the costs of making them may not be justified by the benefits in all cases.

Effective Date

C.30. Some respondents commented that the effective date should be deferred. AcSEC believes that the accounting systems required to implement this SOP are already in place and that implementation should be relatively straightforward. However, AcSEC acknowledges that some entities may change their operations based on the reporting that would result from this SOP. Therefore, AcSEC concluded that this SOP should be effective for financial statements for years beginning on or after December 15, 1998.

Cost-Benefit

C.31. Some respondents commented that the guidance would increase record keeping costs. AcSEC believes that implementing this SOP will not significantly increase record keeping costs, which are primarily the costs of documenting reasons for undertaking joint activities. Further, AcSEC believes that the costs of making the disclosures required by this SOP should be minimal, because entities should already have the information that is required to be disclosed. AcSEC believes that implementing this SOP will result in more relevant, meaningful, and comparable financial reporting and that the cost of implementing this SOP will be justified by its benefits.

Appendix D

Discussion of Conclusions

Scope

D.1. This Statement of Position (SOP) applies only to costs of joint activities. It does not address allocations of costs in other circumstances.

Reporting Models and Related Requirements

D.2. Paragraph 26 of Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 117, *Financial Statements of Not-for-Profit Organizations*, specifies that a statement of activities or notes to the financial statements should provide information about expenses reported by their functional classification, such as major classes of program services and supporting activities. Paragraph 13.34 of the AICPA Audit and Accounting Guide *Not-for-Profit Organizations* provides that the financial statements of not-for-profit organizations (NPOs) should disclose the total fund-raising expenses. [Revised, June 2004, to reflect conforming changes necessary due to conforming changes made to the AICPA Audit and Accounting Guide *Not-for-Profit Organizations*.]

D.3. Governmental Accounting Standards Board (GASB) Statement No. 29, *The Use of Not-for-Profit Accounting and Financial Reporting Principles by Governmental Entities*, provides that governmental entities should not change their accounting and financial reporting to apply the provisions of FASB Statements No. 116, *Accounting for Contributions Received and Contributions Made*, and No. 117. GASB Statement No. 29 permits governmental entities that have applied the accounting and financial reporting principles in SOP 78-10, *Accounting Principles and Reporting Practices for Certain Nonprofit Organizations*, or in the AICPA Industry Audit Guide *Audits of Voluntary Health and Welfare Organizations* modified by all applicable FASB pronouncements issued through November 30, 1989, and by most applicable GASB pronouncements) to continue to do so, pending GASB pronouncements on the accounting and financial reporting model for governmental entities. Alternatively, those governmental entities are permitted to change to the current governmental financial reporting model.[‡]

D.4. GASB Statement No. 15, *Governmental College and University Accounting and Financial Reporting Models*, requires governmental colleges and universities to use one of two accounting and financial reporting models. One model, referred to as the "AICPA College Guide Model," encompasses the accounting and financial reporting guidance in the 1973 AICPA Industry Audit Guide *Audits of*

[‡] GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, supersedes the provisions of GASB Statement No. 29, *The Use of Not-for-Profit Accounting and Financial Reporting Principles by Governmental Entities*, relating to the use of the AICPA Not-for-Profit model. See GASB Statement No. 34, including paragraph 147. The AICPA Audit and Accounting Guide *State and Local Governments* provides guidance on the application of this SOP to state and local governments. [Footnote revised, June 2004, to reflect conforming changes necessary due to the issuance of GASB Statement No. 34.]

Colleges and Universities, as amended by SOP 74-8, *Financial Accounting and Reporting by Colleges and Universities*, and as modified by applicable FASB pronouncements issued through November 30, 1989, and all applicable GASB pronouncements. (The other model, referred to as the "Governmental Model," is based on the pronouncements of the National Council on Governmental Accounting [NCGA] and the GASB.)¹¹

D.5. For state and local governmental entities, some are required to report expenses by function using the functional classifications of program, management and general, and fund raising. Other state and local governmental entities that report expenses or expenditures by function have a functional structure that does not include fund raising, program, or management and general. Still other state and local governmental entities do not report expenses or expenditures by function. Examples of those various reporting requirements are as follows:[#]

- Entities applying the accounting and financial reporting principles in the AICPA Industry Audit Guide *Audits of Voluntary Health and Welfare Organizations*, as well as those that follow SOP 78-10 and that receive significant amounts of contributions from the public, are required to report separately the costs of the fund-raising, program, and management and general functions.
- Entities applying the accounting and financial reporting principles in the AICPA Industry Audit Guide *Audits of Colleges and Universities*, as amended by SOP 74-8, are required to report fund raising as part of the "institutional support" function.

D.6. As discussed in footnote 3 to paragraph .01 of this SOP, this SOP is not intended to require reporting the functional classifications of fund raising, program, and management and general. Rather, those functional classifications are discussed throughout this SOP for purposes of illustrating how the guidance in this SOP would be applied by entities that use those functional classifications. Entities that do not use the functional classifications of fund raising, program, and management and general should apply the guidance in this SOP for purposes of accounting for joint activities, using their reporting model. For example, some entities may conduct membership-development activities. As discussed in the Glossary [paragraph .30] of this SOP, if there are no significant benefits or duties connected with membership, the substance of the membership-development activities may, in fact, be fund raising. In such circumstances, the costs of those activities should be charged to fund raising. To the extent that member benefits are received, membership is an exchange transaction. In circumstances in which membership development is in part soliciting revenues from exchange transactions and in part soliciting contributions and the purpose, audience, and content of the activity are appropriate for achieving membership development, joint costs should be allocated between fund raising and the exchange transaction.

¹¹ GASB Statement No. 35, *Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities*, supersedes GASB Statement No. 15, *Governmental College and University Accounting and Financial Reporting Models*. See GASB Statements No. 34 and No. 35. The AICPA Audit and Accounting Guide *State and Local Governments* provides guidance on the application of this SOP to governmental (public) colleges and universities. [Footnote revised, June 2004, to reflect conforming changes necessary due to the issuance of GASB Statement No. 35.]

[#] This discussion is no longer applicable. See footnotes ‡ and || in paragraphs D.3 and D.4, respectively. [Footnote added, June 2004, to reflect conforming changes necessary due to the issuance of GASB Statements No. 34 and No. 35.]

Assigning Costs of Joint Activities

D.7. Paragraph .07 provides: "If the criteria of purpose, audience, and content are met, the costs of a joint activity that are identifiable with a particular function should be charged to that function and joint costs should be allocated between fund raising and the appropriate program or management and general function. If any of the criteria are not met, all costs of the joint activity should be reported as fund-raising costs, including costs that otherwise might be considered program or management and general costs if they had been incurred in a different activity...." For example, if the criteria are met, the costs of materials that accomplish program goals and that are unrelated to fund raising, such as the costs of a program-related pamphlet included in a joint activity, should be charged to program, while joint costs, such as postage, should be allocated between fund raising and program. However, if the pamphlet is used in fund-raising packets and the criteria are not met, the costs of the pamphlets used in the fund-raising packets, as well as the joint costs, should be charged to fund raising. (If some pamphlets are used in program activities that include no fund raising, the cost of the pamphlets used in those separate program activities that include no fund raising should be charged to program.)

Educational Activities

D.8. Some entities have missions that include educating the public (students) in areas other than causes. Paragraph .09 provides that, for those entities, educating the audience in areas other than causes or motivating the audience to engage in specific activities, such as attending a lecture or class, that will educate them in areas other than causes is considered a call for specific action by the recipients that will help accomplish the entity's mission. Educating the audience about causes or motivating the audience to engage in specific activities that will educate them about causes without educating them in other subjects is not considered a call for specific action by the audience that will help accomplish the entity's mission. An example of a lecture or class that will educate students in an area other than causes is a lecture on the nesting habits of the bald eagle, given by the Save the Bald Eagle Society, an NPO whose mission is to save the bald eagle from extinction and educate the public about the bald eagle. An example of a lecture or class that will address particular causes is a lecture by the Bald Eagle Society on the potential extinction of bald eagles and the need to raise contributions to prevent their extinction. For purposes of applying the guidance in this SOP, motivating the audience to attend a lecture on the nesting habits of the bald eagle is a call for specific action that will help accomplish the entity's mission. If the lecture merely addresses the potential extinction of bald eagles and the need to raise contributions to prevent their extinction, without addressing the nesting habits of the bald eagle, motivating the audience to attend the lecture is not considered a call for specific action by the recipient that will help accomplish the entity's mission.

D.9. AcSEC notes that most transactions in which a student attends a lecture or class are exchange transactions and are not joint activities. Such transactions are joint activities only if the activity includes fund raising.

Audience

D.10. Paragraph .12 provides that a rebuttable presumption exists that the audience criterion is not met if the audience includes prior donors or is otherwise selected based on its ability or likelihood to contribute to the entity. That presumption can be overcome if the audience is also selected for the program

or management and general reasons specified in paragraph .13. Further, paragraph .12 provides that in determining whether that presumption is overcome, entities should consider the extent to which the audience is selected based on its ability or likelihood to contribute to the entity and contrast that with the extent to which it is selected for the reasons that may overcome that presumption. Some organizations conduct joint activities that are special events, such as symposia, dinners, dances, and theater parties, in which the attendee receives a direct benefit (for example, a meal or theater ticket) and for which the admission price includes a contribution. For example, it may cost \$500 to attend a dinner with a fair value of \$50. In that case, the audience is required to make a \$450 contribution in order to attend. In circumstances in which the audience is required to make a contribution to participate in a joint activity, such as attending a special event, the audience's ability or likelihood to contribute is a significant factor in its selection. Therefore, in circumstances in which the audience is required to make a contribution to participate in a joint activity, the extent to which the audience is selected for the program or management and general reasons in paragraph .13 must be overwhelmingly significant in order to rebut the presumption that the audience criterion is not met.

D.11. The source of the names and the characteristics of the audience should be considered in determining the reason for selecting the audience. Some entities use lists compiled by others to reach new audiences. The source of such lists may indicate the purpose or purposes for which they were selected. For example, lists acquired from entities with similar or related programs are more likely to meet the audience criterion than are lists acquired from entities with dissimilar or unrelated programs. Also, the characteristics of those on the lists may indicate the purpose or purposes for which they were selected. For example, a list based on a consumer profile of those who buy environmentally friendly products may be useful to an entity whose mission addresses environmental concerns and could therefore indicate that the audience was selected for its ability to take action to assist the entity in meeting program goals. However, a list based on net worth would indicate that the audience was selected based on its ability or likelihood to contribute, unless there was a correlation between net worth and the program or management and general components of the activity.

D.12. Some audiences may be selected because they have an interest in or affinity to the program. For example, homeowners may have an interest in the homeless because they are sympathetic to the plight of the homeless. Nevertheless, including homeowners in the audience of a program activity to provide services to the homeless would not meet the audience criterion, because they do not have a need or reasonable potential for use of services to the homeless.

D.13. Paragraph .13c provides that the audience criterion is met if the entity is required to direct the management and general component of the joint activity to the particular audience or the audience has reasonable potential for use of the management and general component. An example of a joint activity in which the audience is selected because the entity is required to direct the management and general component of the joint activity to the particular audience is an activity in which the entity sends a written acknowledgment or other information to comply with requirements of the Internal Revenue Service to prior donors and includes a request for contributions. An example of a joint activity in which the audience is selected because the audience has reasonable potential for use of the management and general component is an activity in which the entity sends its annual report to prior donors and includes a request for contributions.

Content

D.14. Paragraph .14 provides that, to meet the content criterion, program activities should call for specific action by the recipient that will help accomplish the entity's mission. As discussed in the Glossary [paragraph .30], the action should benefit the recipient or society. Examples of actions that benefit the recipient (such as by improving the recipient's physical, mental, emotional, or spiritual health and well-being) or society (such as by addressing societal problems) include the following:

- a. Actions that benefit the recipient:
 - *Stop smoking.* Specific methods, instructions, references, and resources should be suggested.
 - *Do not use alcohol or drugs.* Specific methods, instructions, references, and resources should be suggested.
- b. Actions that benefit society:
 - *Write or call.* The party to communicate with and the subject matter to be communicated should be specified.
 - *Complete and return the enclosed questionnaire.* The results of the questionnaire should help the entity achieve its mission. For example, if the entity discards the questionnaire, it does not help the entity achieve its mission.
 - *Boycott.* The particular product or company to be boycotted should be specified.

D.15. Paragraph .14b provides that to meet the content criterion, management and general functions are required to fulfill one or more of the entity's management and general responsibilities through a component of the joint activity. Some states or other regulatory bodies require that certain disclosures be included when soliciting contributions. Paragraph .14, footnote 9, of this SOP provides that for purposes of applying the guidance in this SOP, communications that include such required disclosures are considered fund-raising activities and are not considered management and general activities. Some examples of such disclosures include the following:

- Information filed with the attorney general concerning this charitable solicitation may be obtained from the attorney general of [*the state*] by calling 123-4567. Registration with the attorney general does not imply endorsement.
- A copy of the registration and financial information may be obtained from the Division of Consumer Services by calling toll-free, within [*the state*], 1-800-123-4567. Registration does not imply endorsement, approval, or recommendation by [*the state*].
- Information about the cost of postage and copying, and other information required to be filed under [*the state*] law, can be obtained by calling 123-4567.
- The organization's latest annual report can be obtained by calling 123-4567.

Allocation Methods

D.16. Paragraph .16 of this SOP states, "The cost allocation methodology used should be rational and systematic, it should result in an allocation of joint costs

that is reasonable, and it should be applied consistently given similar facts and circumstances." The allocation of joint costs should be based on the degree to which costs were incurred for the functions to which the costs are allocated (that is, program, management and general, or fund raising). For purposes of determining whether the allocation methodology for a particular joint activity should be consistent with methodologies used for other particular joint activities, facts and circumstances that may be considered include factors related to the content and relative costs of the components of the activity. The audience should not be considered in determining whether the facts and circumstances are similar for purposes of determining whether the allocation methodology for a particular joint activity should be consistent with methodologies used for other particular joint activities.

Practicability of Measuring Joint Costs

D.17. The Glossary [paragraph .30] of this SOP includes a definition of joint costs. Some costs, such as utilities, rent, and insurance, commonly referred to as indirect costs, may be joint costs. For example, the telephone bill for a department that, among other things, prepares materials that include both fund-raising and program components may commonly be referred to as an indirect cost. Such telephone bills may also be joint costs. However, for some entities, it is impracticable to measure and allocate the portion of the costs that are joint costs. Considerations about which joint costs should be measured and allocated, such as considerations about materiality and the costs and benefits of developing and providing the information, are the same as considerations about cost allocations in other circumstances.

Appendix E

Illustrations of Applying the Criteria of Purpose, Audience, and Content to Determine Whether a Program or Management and General Activity Has Been Conducted

Illustration 1

Facts

E.1. Entity A's mission is to prevent drug abuse. Entity A's annual report states that one of its objectives in fulfilling that mission is to assist parents in preventing their children from abusing drugs.

E.2. Entity A mails informational materials to the parents of all junior high school students explaining the prevalence and dangers of drug abuse. The materials encourage parents to counsel children about the dangers of drug abuse and inform them about how to detect drug abuse. The mailing includes a request for contributions. Entity A conducts other activities informing the public about the dangers of drug abuse and encouraging parents to counsel their children about drug abuse that do not include requests for contributions and that are conducted in different media. Entity A's executive director is involved in the development of the informational materials as well as the request for contributions. The executive director's annual compensation includes a significant bonus if total annual contributions exceed a predetermined amount.

Conclusion

E.3. The purpose, audience, and content criteria are met, and the joint costs should be allocated.

E.4. The activity calls for specific action by the recipient (encouraging parents to counsel children about the dangers of drug abuse and informing them about how to detect drug abuse) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. Neither of the factors in paragraph .10*a* or .10*b* is determinative of whether the purpose criterion is met. (Although Entity A's executive director's annual compensation varies based on annual contributions, the executive director's compensation does not vary based on contributions raised for this discrete joint activity.) Therefore, other evidence, such as the indicators in paragraph .11, should be considered. The purpose criterion is met based on the other evidence, because (a) the program component of this activity calls for specific action by the recipient (encouraging parents to counsel children about the dangers of drug abuse) that will help accomplish the entity's mission, and it otherwise conducts the program activity in this illustration without a request for contributions, and (b) performing such programs helps accomplish Entity A's mission. (Note that had Entity A conducted the activity using the same medium on a scale that is similar to or greater than the scale on which it is conducted with the request for contributions, the purpose criterion would have been met under paragraph .10*b*.)

E.5. The audience criterion is met because the audience (parents of junior high school students) is selected based on its need to use or reasonable potential for use of the action called for by the program component.

E.6. The content criterion is met because the activity calls for specific action by the recipient (encouraging parents to counsel children about the dangers of drug abuse and informing them about how to detect drug abuse) that will help accomplish the entity's mission (assisting parents in preventing their children from abusing drugs), and it explains the need for and benefits of the action (the prevalence and dangers of drug abuse).

Illustration 2

Facts

E.7. Entity B's mission is to reduce the incidence of illness from ABC disease, which afflicts a broad segment of the population. One of Entity B's objectives in fulfilling that mission is to inform the public about the effects and early warning signs of the disease and specific action that should be taken to prevent the disease.

E.8. Entity B maintains a list of its prior donors and sends them donor renewal mailings. The mailings include messages about the effects and early warning signs of the disease and specific action that should be taken to prevent it. That information is also sent to a similar-sized audience but without the request for contributions. Also, Entity B believes that recent donors are more likely to contribute than nondonors or donors who have not contributed recently. Prior donors are deleted from the mailing list if they have not contributed to Entity B recently, and new donors are added to the list. There is no evidence of a correlation between recent contributions and participation in the program component of the activity. Also, the prior donors' need to use or reasonable potential for use of the messages about the effects and early warning signs of the disease and specific action that should be taken to prevent it is an insignificant factor in their selection.

Conclusion

E.9. The purpose and content criteria are met. The audience criterion is not met.¹¹ All costs, including those that might otherwise be considered program or management and general costs if they had been incurred in a different activity, should be charged to fund raising.

E.10. The activity calls for specific action by the recipient (action that should be taken to prevent ABC disease) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. The purpose criterion is met because (a) the program component of the activity calls for specific action by the recipient that will help accomplish the entity's mission (to reduce the incidence of illness from the disease), and (b) the program is also conducted using the same medium on a scale that is similar to or greater than the scale on which it is conducted with the request for contributions (a similar mailing is done without the request for contributions, to a similar-sized audience).

E.11. The audience criterion is not met. The rebuttable presumption that the audience criterion is not met because the audience includes prior donors is not

¹¹ Paragraph .07 of this SOP provides that all costs of joint activities, except for costs of goods or services provided in exchange transactions that are part of joint activities, such as costs of direct donor benefits of a special event (for example, a meal), should be charged to fund raising if any of the criteria of purpose, audience, or content are not met. Accordingly, if one or more criteria are not met, the other criteria need not be considered. However, the illustrations in this Appendix provide conclusions about whether each of the criteria would be met in circumstances in which one or more criteria are not met in order to provide further guidance.

overcome in this illustration. Although the audience has a need to use or reasonable potential for use of the program component, that was an insignificant factor in its selection.

E.12. The content criterion is met because the activity calls for specific action by the recipient (actions to prevent ABC disease) that will help accomplish the entity's mission (to reduce the incidence of ABC disease), and it explains the need for and benefits of the action (to prevent ABC disease).

Illustration 3

Facts

E.13. Entity C's mission is to reduce the incidence of illness from ABC disease, which afflicts a broad segment of the population. One of Entity C's objectives in fulfilling that mission is to increase governmental funding for research about ABC disease.

E.14. Entity C maintains a list of its prior donors and its employees call them on the telephone reminding them of the effects of ABC disease, asking for contributions, and encouraging them to contact their elected officials to urge increased governmental funding for research about ABC disease. The callers are educated about ABC, do not otherwise perform fund-raising functions, and are not compensated or evaluated based on contributions raised. Entity C's research indicates that recent donors are likely to contact their elected officials about such funding while nonrecent donors are not. Prior donors are deleted from the calling list if they have not contributed to Entity C recently, and new donors are added to the list.

Conclusion

E.15. The purpose, audience, and content criteria are met, and the joint costs should be allocated.

E.16. The activity calls for specific action by the recipient (contacting elected officials concerning funding for research about ABC disease) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. Neither of the factors in paragraph .10a or .10b is determinative of whether the purpose criterion is met. Therefore, other evidence, such as the indicators in paragraph .11, should be considered. The purpose criterion is met based on the other evidence, because (a) the qualifications and duties of the personnel performing the activity indicate that it is a program activity (the callers are educated about ABC and do not otherwise perform fund-raising functions), (b) the method of compensation for performing the activity does not indicate that it is a fund-raising activity (the employees are not compensated or evaluated based on contributions raised), and (c) performing such programs helps accomplish Entity C's mission.

E.17. The audience criterion is met because the audience (recent donors) is selected based on its ability to assist Entity C in meeting the goals of the program component of the activity (recent donors are likely to contact their elected officials about such funding while nonrecent donors are not).

E.18. The content criterion is met because the activity calls for specific action by the recipient (contacting elected officials concerning funding for research about ABC disease) that will help accomplish the entity's mission (to reduce the incidence of ABC disease), and it explains the need for and benefits of the action (to prevent ABC disease).

Illustration 4

Facts

E.19. Entity D's mission is to improve the quality of life for senior citizens. One of Entity D's objectives included in that mission is to increase the physical activity of senior citizens. One of Entity D's programs to attain that objective is to send representatives to speak to groups about the importance of exercise and to conduct exercise classes.

E.20. Entity D mails a brochure on the importance of exercise that encourages exercise in later years to residents over the age of sixty-five in three zip code areas. The last two pages of the four-page brochure include a perforated contribution remittance form on which Entity D explains its program and makes an appeal for contributions. The content of the first two pages of the brochure is primarily educational; it explains how seniors can undertake a self-supervised exercise program and encourages them to undertake such a program. In addition, Entity D includes a second brochure on various exercise techniques that can be used by those undertaking an exercise program.

E.21. The brochures are distributed to educate people in this age group about the importance of exercising, to help them exercise properly, and to raise contributions for Entity D. These objectives are documented in a letter to the public relations firm that developed the brochures. The audience is selected based on age, without regard to ability to contribute. Entity D believes that most of the recipients would benefit from the information about exercise.

Conclusion

E.22. The purpose, audience, and content criteria are met, and the joint costs should be allocated. (Note that the costs of the second brochure should be charged to program because all the costs of the brochure are identifiable with the program function.)

E.23. The activity calls for specific action by the recipient (exercising) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. Neither of the factors in paragraph .10*a* or .10*b* is determinative of whether the purpose criterion is met. Therefore, other evidence, such as the indicators in paragraph .11, should be considered. The purpose criterion is met based on the other evidence, because (a) performing such programs helps accomplish Entity D's mission, and (b) the objectives of the program are documented in a letter to the public relations firm that developed the brochure.

E.24. The audience criterion is met because the audience (residents over sixty-five in certain zip codes) is selected based on its need to use or reasonable potential for use of the action called for by the program component.

E.25. The content criterion is met because the activity calls for specific action by the recipient (exercising) that will help accomplish the entity's mission (increasing the physical activity of senior citizens), and the need for and benefits of the action are clearly evident (explains the importance of exercising).

Illustration 5

Facts

E.26. The facts are the same as those in Illustration 4, except that Entity E employs a fund-raising consultant to develop the first brochure and pays that consultant 30 percent of contributions raised.

Conclusion

E.27. The content and audience criteria are met. The purpose criterion is not met, however, because a majority of compensation or fees for the fund-raising consultant varies based on contributions raised for this discrete joint activity (the fund-raising consultant is paid 30 percent of contributions raised). All costs should be charged to fund raising, including the costs of the second brochure and any other costs that otherwise might be considered program or management and general costs if they had been incurred in a different activity.

Illustration 6

Facts

E.28. Entity F's mission is to protect the environment. One of Entity F's objectives included in that mission is to take action that will increase the portion of waste recycled by the public.

E.29. Entity F conducts a door-to-door canvass of a community that recycles a low portion of its waste. The purpose of the activity is to help increase recycling by educating the community about environmental problems created by not recycling, and to raise contributions. Based on the information communicated by the canvassers, the need for and benefits of the action are clearly evident. The ability or likelihood of the residents to contribute is not a basis for communities selected, and all neighborhoods in the geographic area are covered if their recycling falls below a predetermined rate. The canvassers are selected from individuals who are well-informed about the organization's environmental concerns and programs and who previously participated as volunteers in program activities such as answering environmental questions directed to the organization and developing program activities designed to influence legislators to take actions addressing those concerns. The canvassers have not previously participated in fund-raising activities.

Conclusion

E.30. The purpose, audience, and content criteria are met, and the joint costs should be allocated.

E.31. The activity calls for specific action by the recipient (implicitly—to help increase recycling) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. Neither of the factors in paragraph .10a or .10b is determinative of whether the purpose criterion is met. Therefore, other evidence, such as the indicators in paragraph .11, should be considered. The purpose criterion is met based on the other evidence, because (a) the qualifications and duties of the personnel performing the activity indicate that it is a program activity (the canvassers are selected from individuals who are well-informed about the organization's environmental concerns and programs and who previously participated as volunteers in program activities such as answering environmental questions directed to the organization and developing program activities designed to influence legislators to take actions addressing those concerns), and (b) performing such programs helps accomplish Entity F's mission (to protect the environment).

E.32. The audience criterion is met because the audience (neighborhoods whose recycling falls below a predetermined rate) is selected based on its need to use or reasonable potential for use of the action called for by the program component.

E.33. The content criterion is met because the activity calls for specific action by the recipient (implicitly—to help increase recycling) that will help

accomplish the entity's mission (to protect the environment), and the need for and benefits of the action are clearly evident (increased recycling will help alleviate environmental problems).

Illustration 7

Facts

E.34. Entity G's mission is to provide summer camps for economically disadvantaged youths. Educating the families of ineligible youths about the camps is not one of the program objectives included in that mission.

E.35. Entity G conducts a door-to-door solicitation campaign for its camp programs. In the campaign, volunteers with canisters visit homes in middle-class neighborhoods to collect contributions. Entity G believes that people in those neighborhoods would not need the camp's programs but may contribute. The volunteers explain the camp's programs, including why the disadvantaged children benefit from the program, and distribute leaflets to the residents regardless of whether they contribute to the camp. The leaflets describe the camp, its activities, who can attend, and the benefits to attendees. Requests for contributions are not included in the leaflets.

Conclusion

E.36. The purpose, audience, and content criteria are not met. All costs should be charged to fund raising.

E.37. The activity does not include a call for specific action because it only educates the audience about causes (describing the camp, its activities, who can attend, and the benefits to attendees). Therefore, the purpose criterion is not met.

E.38. The audience criterion is not met, because the audience is selected based on its ability or likelihood to contribute, rather than based on (a) its need to use or reasonable potential for use of the action called for by the program component, or (b) its ability to take action to assist the entity in meeting the goals of the program component of the activity. (Entity G believes that people in those neighborhoods would not need the camp's programs but may contribute.)

E.39. The content criterion is not met because the activity does not call for specific action by the recipient. (The content educates the audience about causes that the program is designed to address without calling for specific action.)

Illustration 8

Facts

E.40. Entity H's mission is to educate the public about lifesaving techniques in order to increase the number of lives saved. One of Entity H's objectives in fulfilling that mission, as stated in the minutes of the board's meetings, is to produce and show television broadcasts including information about lifesaving techniques.

E.41. Entity H conducts an annual national telethon to raise contributions and to reach the American public with lifesaving educational messages, such as summary instructions concerning dealing with certain life-threatening situations. Based on the information communicated by the messages, the need for and benefits of the action are clearly evident. The broadcast includes segments describing Entity H's services. Entity H broadcasts the telethon to the entire country, not merely to areas selected on the basis of giving potential or prior

fund raising results. Also, Entity H uses national television broadcasts devoted entirely to lifesaving educational messages to conduct program activities without fund raising.

Conclusion

E.42. The purpose, audience, and content criteria are met, and the joint costs should be allocated.

E.43. The activity calls for specific action by the recipient (implicitly—to save lives) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. The purpose criterion is met because (a) the program component of the activity calls for specific action by the recipient that will help accomplish Entity H's mission (to save lives by educating the public), and (b) a similar program activity is conducted without the fund raising using the same medium and on a scale that is similar to or greater than the scale on which it is conducted with the appeal (Entity H uses national television broadcasts devoted entirely to lifesaving educational messages to conduct program activities without fund raising).

E.44. The audience criterion is met because the audience (a broad segment of the population) is selected based on its need to use or reasonable potential for use of the action called for by the program activity.

E.45. The content criterion is met because the activity calls for specific action by the recipient (implicitly—to save lives) that will help accomplish the entity's mission (to save lives by educating the public), and the need for and benefits of the action are clearly evident (saving lives is desirable).

Illustration 9

Facts

E.46. Entity I's mission is to provide food, clothing, and medical care to children in developing countries.

E.47. Entity I conducts television broadcasts in the United States that describe its programs, show the needy children, and end with appeals for contributions. Entity I's operating policies and internal management memoranda state that these programs are designed to educate the public about the needs of children in developing countries and to raise contributions. The employees producing the programs are trained in audiovisual production and are familiar with Entity I's programs. Also, the executive producer is paid \$25,000 for this activity, with a \$5,000 bonus if the activity raises over \$1,000,000.

Conclusion

E.48. The purpose, audience, and content criteria are not met. All costs should be charged to fund raising.

E.49. The activity does not include a call for specific action because it only educates the audience about causes (describing its programs and showing the needy children). Therefore, the purpose criterion is not met. (Also, note that if the factor in paragraph .10a were considered, it would not be determinative of whether the purpose criterion is met. Although the executive producer will be paid \$5,000 if the activity raises over \$1,000,000, that amount would not be a majority of the executive producer's total compensation for this activity, because \$5,000 would not be a majority of the executive producer's total compensation of \$30,000 for this activity. Also, note that if other evidence, such as the indicators in paragraph .11, were considered, the purpose criterion would not be met based

on the other evidence. Although the qualifications and duties of the personnel performing the activity indicate that the employees producing the program are familiar with Entity I's programs, the facts that some, but less than a majority, of the executive producer's compensation varies based on contributions raised, and that the operating policies and internal management memoranda state that these programs are designed to educate the public about the needs of children in developing countries [with no call for specific action by recipients] and to raise contributions, indicate that the purpose is fund raising.)

E.50. The audience criterion is not met because the audience is selected based on its ability or likelihood to contribute, rather than based on (a) its need to use or reasonable potential for use of the action called for by the program component, or (b) its ability to take action to assist the entity in meeting the goals of the program component of the activity. (The audience is a broad segment of the population of a country that is not in need of or has no reasonable potential for use of the program activity.)

E.51. The content criterion is not met because the activity does not call for specific action by the recipient that will help accomplish the entity's mission. (The content educates the audience about the causes without calling for specific action.)

Illustration 10

Facts

E.52. Entity J is a university that distributes its annual report, which includes reports on mission accomplishments, to those who have made significant contributions over the previous year, its board of trustees, and its employees. The annual report is primarily prepared by management and general personnel, such as the accounting department and executive staff. The activity is coordinated by the public relations department. Internal management memoranda indicate that the purpose of the annual report is to report on how management discharged its stewardship responsibilities, including the university's overall performance, goals, financial position, cash flows, and results of operations. Included in the package containing the annual report are requests for contributions and donor reply cards.

Conclusion

E.53. The purpose, audience, and content criteria are met, and the joint costs should be allocated.

E.54. The activity has elements of management and general functions. Therefore, no call for specific action is required. Neither of the factors in paragraph .10a or .10b is determinative of whether the purpose criterion is met. Therefore, other evidence, such as the indicators in paragraph .11, should be considered. The purpose criterion is met based on the other evidence, because (a) the employees performing the activity are not members of the fund-raising department and perform other non-fund-raising activities and (b) internal management memoranda indicate that the purpose of the annual report is to fulfill one of the university's management and general responsibilities.

E.55. The audience criterion is met because the audience is selected based on its reasonable potential for use of the management and general component. Although the activity is directed primarily at those who have previously made significant contributions, the audience was selected based on its presumed interest in Entity J's annual report (prior donors who have made significant

contributions are likely to have an interest in matters discussed in the annual report).

E.56. The content criterion is met because the activity (distributing annual reports) fulfills one of the entity's management and general responsibilities (reporting concerning management's fulfillment of its stewardship function).

Illustration 11

Facts

E.57. Entity K is an NPO. In accordance with internal management memoranda documenting its policies requiring it to comply with Internal Revenue Service (IRS) regulations, it mails prior donors who have made quid pro quo payments in excess of \$75 documentation required by the IRS. The documentation is included on a perforated piece of paper. The information above the perforation line pertains to the documentation required by the IRS. The information below the perforation line includes a request for contributions and may be used as a donor reply card.

Conclusion

E.58. The purpose, audience, and content criteria are met, and the joint costs should be allocated. (Note that the costs of the information below the perforation line are identifiable with fund raising and therefore should be charged to fund raising.)

E.59. The activity has elements of management and general functions. Therefore, no call for specific action is required. Neither of the factors in paragraph .10a or .10b is determinative of whether the purpose criterion is met. Therefore, other evidence, such as the indicators in paragraph .11, should be considered. The purpose criterion is met based on the other evidence, because internal management memoranda indicate that the purpose of the activity is to fulfill one of Entity K's management and general responsibilities.

E.60. The audience criterion is met because the entity is required to direct the management and general component of the activity to the particular audience. Although the activity is directed at those who have previously contributed, the audience was selected based on its need for the documentation.

E.61. The content criterion is met because the activity (sending documentation required by the IRS) fulfills one of the entity's management and general responsibilities (complying with IRS regulations).

Illustration 12

Facts

E.62. Entity L is an animal rights organization. It mails a package of material to individuals included in lists rented from various environmental and other organizations that support causes that Entity L believes are congruent with its own. In addition to donor response cards and return envelopes, the package includes (a) materials urging recipients to contact their legislators and urge the legislators to support legislation to protect those rights, and (b) post-cards addressed to legislators urging support for legislation restricting the use of animal testing for cosmetic products. The mail campaign is part of an overall strategy that includes magazine advertisements and the distribution of similar materials at various community events, some of which are undertaken without

fund-raising appeals. The advertising and community events reach audiences similar in size and demographics to the audience reached by the mailing.

Conclusion

E.63. The purpose, audience, and content criteria are met, and the joint costs should be allocated.

E.64. The activity calls for specific action by the recipient (mailing postcards to legislators urging support for legislation restricting the use of animal testing for cosmetic products) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. Neither of the factors in paragraph .10a or .10b is determinative of whether the purpose criterion is met. Therefore, other evidence, such as the indicators in paragraph .11, should be considered. The purpose criterion is met based on the other evidence, because (a) the program component of this activity calls for specific action by the recipient that will help accomplish the entity's mission, and it otherwise conducts the program activity in this illustration without a request for contributions, and (b) performing such programs helps accomplish Entity L's mission.

E.65. The audience criterion is met because the audience (individuals included in lists rented from various environmental and other organizations that support causes that Entity L believes are congruent with its own) is selected based on its ability to take action to assist the entity in meeting the goals of the program component of the activity.

E.66. The content criterion is met because the activity calls for specific action by the recipient (mailing postcards to legislators urging support for legislation restricting the use of animal testing for cosmetic products) that will help accomplish the entity's mission (to protect animal rights), and the need for and benefits of the action are clearly evident (to protect animal rights).

Illustration 13

Facts

E.67. Entity M is a performing arts organization whose mission is to make the arts available to residents in its area. Entity M charges a fee for attending performances and sends advertisements, including subscription forms, for the performances to residents in its area. These advertisements include a return envelope with a request for contributions. Entity M evaluates the effectiveness of the advertising based on the number of subscriptions sold as well as contributions received. In performing that evaluation, Entity M places more weight on the number of subscriptions sold than on the contributions received. Also, Entity M advertises the performances on local television and radio without a request for contributions but on a smaller scale than the mail advertising.

Conclusion

E.68. The purpose, audience, and content criteria are met, and the joint costs should be allocated.

E.69. The activity calls for specific action by the recipient (attending the performances) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. Neither of the factors in paragraph .10a or .10b is determinative of whether the purpose criterion is met. Therefore, other evidence, such as the indicators in paragraph .11, should be considered. The purpose criterion is met based on the other evidence, because (a) the entity measures program results and accomplishments of the joint activity and

in evaluating the effectiveness of the activity, the entity places significantly greater weight on the activity's effectiveness in accomplishing program goals than on the activity's effectiveness in raising contributions (Entity M evaluates the effectiveness of the advertising based on the number of subscriptions sold as well as contributions received and places more weight on the number of subscriptions sold than on the contributions received), (b) it otherwise conducts the program activity without a request for contributions, and (c) performing such programs helps accomplish Entity M's mission (to make the arts available to residents in its area).

E.70. The audience criterion is met because the audience (a broad segment of the population in Entity M's area) is selected based on its need to use or reasonable potential for use of the action called for by the program component.

E.71. The content criterion is met because the activity calls for specific action by the recipient (attending the performances) that will help accomplish the entity's mission (making the arts available to area residents), and the need for and benefits of the action are clearly evident (attending the performance is a positive cultural experience). (Note that the purchase of subscriptions is an exchange transaction and, therefore, is not a contribution.)

Illustration 14

Facts

E.72. Entity N is a university whose mission is to educate the public (students) in various academic pursuits. Entity N's political science department holds a special lecture series in which prominent world leaders speak about current events. The speakers command relatively high fees and, in order to cover costs and make a modest profit, the university sets a relatively expensive fee to attend. However, the tickets are priced at the fair value of the lecture and no portion of the ticket purchase price is a contribution. Entity N advertises the lectures by sending invitations to prior attendees and to prior donors who have contributed significant amounts, and by placing advertisements in local newspapers read by the general public. At some of the lectures, including the lecture being considered in this illustration, deans and other faculty members of Entity N solicit significant contributions from attendees. Other lectures in the series are conducted on a scale similar to the scale of the lecture in this illustration without requesting contributions. Entity N's records indicate that historically 75 percent of the attendees have attended prior lectures. Of the 75 percent who have attended prior lectures, 15 percent have made prior contributions to Entity N. Of the 15 percent who have made prior contributions to Entity N, 5 percent have made contributions in response to solicitations made at the events. (Therefore, one-half of one percent of attendees make contributions in response to solicitations made at the events. However, those contributions are significant.) Overall, the audience's ability or likelihood to contribute is an insignificant factor in its selection. Entity N evaluates the effectiveness of the activity based on the number of tickets sold, as well as contributions received. In performing that evaluation, Entity N places more weight on the number of tickets sold than on the contributions received.

Conclusion

E.73. The purpose, audience, and content criteria are met, and the joint costs should be allocated.

E.74. The activity calls for specific action by the recipient (attending the lecture) that will help accomplish the entity's mission. Therefore, the guidance in

paragraph .10 should be considered. The purpose criterion is met because (a) the program component of the activity calls for specific action by the recipient that will help accomplish the entity's mission (educating the public [students] in various academic pursuits), and (b) the program is also conducted using the same medium on a scale that is similar to or greater than the scale on which it is conducted with the request for contributions (other lectures in the series are conducted on a scale similar to the scale of the lecture in this illustration without requesting contributions).

E.75. The audience criterion is met. The rebuttable presumption that the audience criterion is not met because the audience includes prior donors is overcome in this illustration because the audience (those who have shown prior interest in the lecture series, prior donors, a broad segment of the population in Entity N's area, and those attending the lecture) is also selected for its reasonable potential for use of the program component (attending the lecture). Although the audience may make significant contributions, that was an insignificant factor in its selection.

E.76. The content criterion is met because the activity calls for specific action by the recipient (attending the lecture) that will help accomplish the entity's mission (educating the public [students] in various academic pursuits), and the need for and benefits of the action are clearly evident (attending the lecture is a positive educational experience). (Note that the purchase of the tickets is an exchange transaction and, therefore, is not a contribution. As discussed in paragraph .07 of this SOP, costs of goods or services provided in exchange transactions that are part of joint activities, such as costs of direct donor benefits of a special event, should not be reported as fund raising.¹²)

Illustration 15

Facts

E.77. Entity O is a university whose mission is to educate the public (students) in various academic pursuits. Entity O's political science department holds a special lecture series in which prominent world leaders speak about current events. Admission is priced at \$250, which is above the \$50 fair value of the lecture and, therefore, \$200 of the admission price is a contribution. Therefore, the audience's likelihood to contribute to the entity is a significant factor in its selection. Entity O advertises the lectures by sending invitations to prior attendees and to prior donors who have contributed significant amounts, and by placing advertisements in local newspapers read by the general public. Entity O presents similar lectures that are priced at the fair value of those lectures.

Conclusion

E.78. The purpose and content criteria are met. The audience criterion is not met. All costs, including those that might otherwise be considered program or management and general costs if they had been incurred in a different activity, except for the costs of the direct donor benefit (the lecture), should be charged to fund raising.

E.79. The activity calls for specific action by the recipient (attending the lecture) that will help accomplish the entity's mission. Therefore, the guidance in

¹² Paragraphs 13.21-13.26 of the Audit and Accounting Guide *Not-for-Profit Organizations* provide guidance concerning reporting special events. [Footnote revised, June 2004, to reflect conforming changes necessary due to conforming changes made to the AICPA Audit and Accounting Guide *Not-for-Profit Organizations*.]

paragraph .10 should be considered. The purpose criterion is met because (a) the program component of the activity calls for specific action by the recipient that will help accomplish the entity's mission (educating the public [students] in various academic pursuits), and (b) the program is also conducted using the same medium on a scale that is similar to or greater than the scale on which it is conducted with the request for contributions (other lectures in the series are conducted on a scale similar to the scale of the lecture in this illustration without including a contribution in the admission price.)

E.80. The audience criterion is not met. The rebuttable presumption that the audience criterion is not met because the audience is selected based on its likelihood to contribute to the entity is not overcome in this illustration. The fact that the \$250 admission price includes a \$200 contribution leads to the conclusion that the audience's ability or likelihood to contribute is an overwhelmingly significant factor in its selection, whereas there is no evidence that the extent to which the audience is selected for its need to use or reasonable potential for use of the action called for by the program component (attending the lecture) is overwhelmingly significant.

E.81. The content criterion is met because the activity calls for specific action by the recipient (attending the lecture) that will help accomplish the entity's mission (educating the public [students] in various academic pursuits), and the need for and benefits of the action are clearly evident (attending the lecture is a positive educational experience). (Note that the purchase of the tickets is an exchange transaction and, therefore, is not a contribution. As discussed in paragraph .07 of this SOP, costs of goods or services provided in exchange transactions that are part of joint activities, such as costs of direct donor benefits of a special event, should not be reported as fund raising.¹³)

Illustration 16

Facts

E.82. Entity P's mission is to reduce the incidence of illness from ABC disease, which primarily afflicts people over sixty-five years of age. One of Entity P's objectives in fulfilling that mission is to have all persons over sixty-five screened for ABC disease.

E.83. Entity P rents space at events attended primarily by people over sixty-five years of age and conducts free screening for ABC disease. Entity P's employees, who are educated about ABC disease and screening procedures and do not otherwise perform fund-raising functions, educate interested parties about the effects of ABC disease and the ease and benefits of screening for it. Entity P also solicits contributions at the events. The effectiveness of the activity is evaluated primarily based on how many screening tests are performed, and only minimally based on contributions raised. The employees are not compensated or evaluated based on contributions raised.

Conclusion

E.84. The purpose, audience, and content criteria are met, and the joint costs should be allocated.

¹³ Paragraphs 13.21-13.26 of the Audit and Accounting Guide *Not-for-Profit Organizations* provide guidance concerning reporting special events. [Footnote revised, June 2004, to reflect conforming changes necessary due to conforming changes made to the AICPA Audit and Accounting Guide *Not-for-Profit Organizations*.]

E.85. The activity calls for specific action by the recipient (being screened for ABC disease) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. Neither of the factors in paragraph .10a or .10b is determinative of whether the purpose criterion is met. Therefore, other evidence, such as the indicators in paragraph .11, should be considered. The purpose criterion is met based on the other evidence, because (a) a process exists to evaluate measured program results and accomplishments and in evaluating the effectiveness of the joint activity, the entity places significantly greater weight on the activity's effectiveness in accomplishing program goals than on the activity's effectiveness in raising contributions (Entity P evaluates the effectiveness of the activity based on the number of screening tests conducted as well as contributions received and places more weight on the number of tests conducted than on the contributions received); (b) the qualifications and duties of the personnel performing the activity indicate that it is a program activity (the employees are educated about ABC disease and the testing procedures and do not otherwise perform fund-raising functions); (c) the method of compensation for performing the activity does not indicate that it is a fund-raising activity (the employees are not compensated or evaluated based on contributions raised); and (d) performing such programs helps accomplish Entity P's mission (to prevent ABC disease).

E.86. The audience criterion is met because the audience (people over sixty-five years of age) is selected based on its need to use or reasonable potential for use of the action called for by the program component.

E.87. The content criterion is met because the activity calls for specific action by the recipient (being screened for ABC disease) that will help accomplish the entity's mission (to reduce the incidence of ABC disease), and it explains the need for and benefits of the action (to prevent ABC disease).

Illustration 17

Facts

E.88. Entity Q's mission is to provide cultural and educational television programming to residents in its area. Entity Q owns a public television station and holds a membership drive in which it solicits new members. The drive is conducted by station employees and consists of solicitations that are shown during long breaks between the station's regularly scheduled programs. Entity Q's internal management memoranda state that these drives are designed to raise contributions. Entity Q evaluates the effectiveness of the activity based on the amount of contributions received. Entity Q shows the programs on a similar scale, without the request for contributions. The audience is members of the general public who watch the programs shown during the drive. Station member benefits are given to those who contribute and consist of tokens of appreciation with a nominal value.

Conclusion

E.89. The purpose, audience, and content criteria are met, and the joint costs should be allocated. (Note that there would be few, if any, joint costs. Costs associated with the fund-raising activities, such as costs of airtime, would be separately identifiable from costs of the program activities, such as licensing costs for a particular television program. Also, note that because no significant benefits or duties are associated with membership, member dues are contributions. Therefore, the substance of the membership-development activities is, in fact, fund raising.)

E.90. The activity calls for specific action by the recipient (watching the television program) that will help accomplish the entity's mission. Therefore, the guidance in paragraph .10 should be considered. The purpose criterion is met because (a) the program component of the activity calls for specific action by the recipient that will help accomplish the entity's mission, and (b) the program is also conducted using the same medium on a scale that is similar to or greater than the scale on which it is conducted with the request for contributions (Entity Q shows the television programs on a similar scale, without the request for contributions).

E.91. The audience criterion is met. The rebuttable presumption that the audience criterion is not met because the audience is selected based on its likelihood to contribute is overcome in this illustration because the audience (members of the general public who watch the television programs shown during the drive) is also selected for its reasonable potential for use of the program component (watching the television programs). Although the audience may make contributions, that was an insignificant factor in its selection.

E.92. The content criterion is met because the activity calls for specific action by the recipient (watching the television programs) that will help accomplish the entity's mission (providing cultural and educational television programming to residents in its area), and the need for and benefits of the action are clearly evident (watching the programs is a positive cultural and educational experience).

Appendix F

Illustrations of Allocation Methods

F.1. Some commonly used cost allocation methods follow.

Physical Units Method

F.2. Joint costs are allocated to materials and activities in proportion to the number of units of output that can be attributed to each of the materials and activities. Examples of units of output are lines, square inches, and physical content measures. This method assumes that the benefits received by the fund-raising, program, or management and general component of the materials or activity from the joint costs incurred are directly proportional to the lines, square inches, or other physical output measures attributed to each component of the activity. This method may result in an unreasonable allocation of joint costs if the units of output, for example, line counts, do not reflect the degree to which costs are incurred for the joint activity. Use of the physical units method may also result in an unreasonable allocation if the physical units cannot be clearly ascribed to fund raising, program, or management and general. For example, direct mail and telephone solicitations sometimes include content that is not identifiable with fund raising, program, or management and general; or the physical units of such content are inseparable.

Illustration

F.3. Assume a direct mail campaign is used to conduct programs of the entity and to solicit contributions to support the entity and its programs. Further, assume that the appeal meets the criteria for allocation of joint costs to more than one function.

F.4. The letter and reply card include a total of one hundred lines. Forty-five lines pertain to program because they include a call for action by the recipient that will help accomplish the entity's mission, while fifty-five lines pertain to the fund-raising appeal. Accordingly, 45 percent of the costs are allocated to program and 55 percent to fund-raising.

Relative Direct Cost Method

F.5. Joint costs are allocated to each of the components on the basis of their respective direct costs. Direct costs are those costs that are incurred in connection with the multipurpose materials or activity and that are specifically identifiable with a function (program, fund raising, or management and general). This method may result in an unreasonable allocation of joint costs if the joint costs of the materials and activity are not incurred in approximately the same proportion and for the same reasons as the direct costs of the materials and activity. For example, if a relatively costly booklet informing the reader about the entity's mission (including a call for action by the recipient that will help accomplish the entity's mission) is included with a relatively inexpensive fund-raising letter, the allocation of joint costs based on the cost of these pieces may be unreasonable, particularly if the booklet and letter weigh approximately the same and therefore contribute equally to the postage costs.

Illustration

F.6. The costs of a direct mail campaign that can be specifically identified with program services are the costs of separate program materials and a postcard which calls for specific action by the recipient that will help accomplish the entity's mission. They total \$20,000. The direct costs of the fund-raising component of the direct mail campaign consist of the costs to develop and produce the fund-raising letter. They total \$80,000. Joint costs associated with the direct mail campaign total \$40,000 and would be allocated as follows under the relative direct cost method:

$$\text{Program } \$20,000/\$100,000 \times \$40,000 = \$8,000$$

$$\text{Fund raising } \$80,000/\$100,000 \times \$40,000 = \$32,000$$

Stand-Alone Joint-Cost-Allocation Method

F.7. Joint costs are allocated to each component of the activity based on a ratio that uses estimates of costs of items included in joint costs that would have been incurred had the components been conducted independently. The numerator of the ratio is the cost (of items included in joint costs) of conducting a single component independently; the denominator is the cost (of items included in joint costs) of conducting all components independently. This method assumes that efforts for each component in the stand-alone situation are proportionate to the efforts actually undertaken in the joint cost situation. This method may result in an unreasonable allocation because it ignores the effect of each function, which is performed jointly with other functions, on other such functions. For example, the programmatic impact of a direct mail campaign or a telemarketing phone message may be significantly lessened when performed in conjunction with a fund-raising appeal.

Illustration

F.8. Assume that the joint costs associated with a direct mail campaign including both program and fund-raising components are the costs of stationery, postage, and envelopes at a total of \$100,000. The costs of stationery, postage, and envelopes to produce and distribute each component separately would have been \$90,000 for the program component and \$70,000 for the fund-raising component. Under the stand-alone joint-cost-allocation method, the \$100,000 in joint costs would be allocated as follows: $\$90,000/\$160,000 \times \$100,000 = \$56,250$ to program services and $\$70,000/\$160,000 \times \$100,000 = \$43,750$ to fund raising.

.27

Appendix G

Illustrations of Disclosures

G.1. The disclosures discussed in paragraphs .18 and .19 are illustrated below. Alternative 1 reports the required and encouraged information in narrative format. Alternative 2 reports that information in tabular format, as well as information concerning joint costs incurred for each kind of activity by functional classification, which is neither required nor encouraged, but which is not prohibited.

Alternative 1

Note X. Allocation of Joint Costs

In 19XX, the organization conducted activities that included requests for contributions, as well as program and management and general components. Those activities included direct mail campaigns, special events, and a telethon. The costs of conducting those activities included a total of \$310,000 of joint costs, which are not specifically attributable to particular components of the activities (joint costs). *[Note to reader: The following sentence is encouraged but not required.]* Joint costs for each kind of activity were \$50,000, \$150,000, and \$110,000 respectively. These joint costs were allocated as follows:

Fund raising	\$180,000
Program A	80,000
Program B	40,000
Management and general	10,000
Total	<u>\$310,000</u>

Alternative 2

Note X. Allocation of Joint Costs

In 19XX, the organization conducted activities that included appeals for contributions and incurred joint costs of \$310,000. These activities included direct mail campaigns, special events, and a telethon. Joint costs were allocated as follows:

	<u>Direct Mail</u>	<u>Special Events</u>	<u>Telethon</u>	<u>Total</u>
Fund raising	\$40,000	\$50,000	\$90,000	\$180,000
Program A	10,000	65,000	5,000	80,000
Program B		25,000	15,000	40,000
Management and general		10,000		10,000
Total	<u>\$50,000</u>	<u>\$150,000</u>	<u>\$110,000</u>	<u>\$310,000</u>

[Note to reader: Shading is used to highlight information that is neither required nor encouraged, but which is not prohibited. However, entities may prefer to disclose it. Disclosing the total joint costs for each kind of activity (\$50,000, \$150,000, and \$110,000) is encouraged but not required.]

Appendix H

Contrast of Guidance in This SOP With the Guidance in SOP 87-2^{14, **}

<u>This SOP</u>	<u>SOP 87-2</u>
Applies to all entities that solicit contributions, including state and local governments.	Applied to entities that follow the AICPA Industry Audit Guide <i>Audits of Voluntary Health and Welfare Organizations</i> or SOP 78-10. (SOP 87-2 was not applicable to entities that are within the scope of Governmental Accounting Standards Board Statement No. 29, <i>The Use of Not-for-Profit Accounting and Financial Reporting Principles by Governmental Entities</i> .)
Covers <i>all</i> costs of joint activities. (Costs that otherwise might be considered program or management and general costs if they had been incurred in a different activity, except for costs of goods or services provided in exchange transactions that are part of joint activities, such as costs of direct donor benefits of a special event [for example, a meal], should be charged to fund raising unless the criteria in the SOP are met.)	Covers only joint costs of joint activities.
Criteria of purpose, audience, and content should all be met in order to charge costs of the activity to program or management and general.	Unclear concerning whether all criteria should be met in order to charge costs of the activity to program or management and general.
Neither prescribes nor prohibits any allocation methods. Includes a discussion to help users determine whether an allocation is reasonable, and provides some illustrations.	Neither prescribes nor prohibits any allocation methods. No illustrations are provided.
Requires note disclosures about the types of activities for which joint costs have been incurred, amounts allocated during the period, and amounts allocated to each functional expense or expenditure category.	Requires less extensive note disclosures: total amount allocated during the period and amounts allocated to each functional expense category.

¹⁴ In August 1996, the AICPA issued the Audit and Accounting Guide *Not-for-Profit Organizations*, which superseded SOP 87-2, *Accounting for Joint Costs of Informational Materials and Activities of Not-for-Profit Organizations That Include a Fund-Raising Appeal*, because the guidance in SOP 87-2 is incorporated into paragraphs 13.36 to 13.45 of the Guide. Also, *Not-for-Profit Organizations* superseded the AICPA Industry Audit Guide *Audits of Voluntary Health and Welfare Organizations* and SOP 78-10. *Not-for-Profit Organizations* applies to all nongovernmental not-for-profit organizations other than those required to follow the Audit and Accounting Guide *Health Care Organizations*. Therefore, incorporating the guidance in SOP 87-2 into *Not-for-Profit Organizations* broadened the scope of the guidance previously included in SOP 87-2 to all not-for-profit organizations other than those required to follow *Health Care Organizations*. The discussion in this SOP of SOP 87-2 refers to both SOP 87-2 and the guidance included in paragraphs 13.36 to 13.45 of *Not-for-Profit Organizations*, except that the guidance in *Not-for-Profit Organizations* applies to all not-for-profit organizations other than those required to follow *Health Care Organizations*.

^{**} See footnotes ‡ and || in paragraphs D.3 and D.4, respectively. [Footnote revised, June 2004, to reflect conforming changes necessary due to the issuance of GASB Statements No. 34 and No. 35.]

Appendix I

Effects on Other Guidance

I.1. For nongovernmental organizations, this Statement of Position (SOP) amends the AICPA Audit and Accounting Guide *Health Care Organizations* and paragraphs 13.35 to 13.44 of the AICPA Audit and Accounting Guide *Not-for-Profit Organizations*. [Revised, June 2004, to reflect conforming changes necessary due to conforming changes made to the AICPA Audit and Accounting Guide *Not-for-Profit Organizations*.]

I.2. Also, this SOP amends the AICPA Audit and Accounting Guide *Not-for-Profit Organizations* to clarify that costs of goods or services provided in exchange transactions that are part of joint activities, such as costs of direct donor benefits of a special event (for example, a meal), should not be reported as fund-raising. In particular, paragraphs 13.21, 13.23, and 13.24 of *Not-for-Profit Organizations* are amended as follows:

13.21 Some organizations conduct joint activities ^{fn 9} that are special events, including special social and educational events (such as symposia, dinners, dances, and theater parties) in which the attendee receives a direct benefit (for example, a meal or theater ticket). FASB Statement No. 117 requires the reporting of the gross amounts of revenues and expenses from special events and other fund-raising activities that are ongoing major or central activities, but permits (but does not require) reporting net amounts if the receipts and related costs result from special events that are peripheral or incidental activities.

13.23 For example, assume that an organization has a special event that is an ongoing and major activity with a ticket price of \$100. Assume that the activity does not meet the audience criterion in SOP 98-2, *Accounting for Costs of Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include Fund Raising*, and, therefore, all costs of the activity, other than the direct donor benefits, should be reported as fund raising. The event includes a dinner that costs the organization \$25 and that has a fair value of \$30. (Chapter 5, "Contributions Received and Agency Transactions," of this Guide, discusses the appropriate reporting if the meal or other items of value are donated to the organization for resale.) In addition, the organization incurs other direct costs of the event in connection with promoting and conducting the event, including incremental direct costs incurred in transactions with independent third parties and the payroll and payroll-related costs for the activities of employees who are directly associated with, and devote time to, the event. Those other direct costs, which include (a) \$5 that otherwise might be considered management and general costs if they had been incurred in a different activity, and (b) fund-raising costs of \$10, are unrelated to the direct benefits to donors and, accordingly, should not be included as costs of benefits to donors. In addition, the organization has the following transactions, which are unrelated to the special event: unrestricted contributions of \$200, program expenses of \$60, management and general expenses of \$20, and fund-raising expenses of \$20.

13.24 Some ways in which the organization could display the results of the special event as part of its statement of activities are illustrated as follows:

Illustration 1

Changes in unrestricted net assets:		
Contributions		\$200
Special event revenue	100	
Less: Costs of direct benefits to donors	<u>(25)</u>	
Net revenues from special events		<u>75</u>
Contributions and net revenues from special events		275
Other expenses:		
Program		60
Management and general		20
Fund raising		<u>35</u>
Total other expenses		<u>115</u>
Increase in unrestricted net assets		<u>\$160</u>

Illustration 2

Changes in unrestricted net assets:		
Revenues:		
Contributions		\$200
Special event revenue		<u>100</u>
Total revenues		300
Expenses:		
Program		60
Costs of direct benefits to donors		25
Management and general		20
Fund raising		<u>35</u>
Total expenses		<u>140</u>
Increase in unrestricted net assets		<u>\$160</u>

Illustration 3

Changes in unrestricted net assets:		
Contributions		\$270
Dinner sales		30
Less: Costs of direct benefits to donors		<u>(25)</u>
Gross profit on special events		<u>5</u>
Contributions and net revenues from special events		275
Other expenses:		
Program		60
Management and general		20
Fund raising		<u>35</u>
Total other expenses		<u>115</u>
Increase in unrestricted net assets		<u>\$160</u>

fn 9 See footnote 1.

[Revised, June 2004, to reflect conforming changes necessary due to conforming changes made to the AICPA Audit and Accounting Guide *Not-for-Profit Organizations*.]

I.3. For governmental entities that have applied the accounting and financial reporting principles in SOP 78-10, *Accounting Principles and Reporting Practices for Certain Nonprofit Organizations*, or the AICPA Industry Audit Guide *Audits of Voluntary Health and Welfare Organizations* (modified by all applicable Financial Accounting Standards Board [FASB] pronouncements issued through November 30, 1989, and by most applicable Governmental Accounting Standards Board [GASB] pronouncements) in conformity with GASB Statement No. 29, *The Use of Not-for-Profit Accounting and Financial Reporting Principles by Governmental Entities*, this SOP amends the principles—based on SOP 78-10 and *Audits of Voluntary Health and Welfare Organizations*, as modified—that those entities apply. For governmental entities that have applied the accounting and financial reporting principles in the 1973 AICPA Industry Audit Guide *Audits of Colleges and Universities*, as amended by SOP 74-8, *Financial Accounting and Reporting by Colleges and Universities*, and as modified by applicable FASB pronouncements issued through November 30, 1989, and all applicable GASB pronouncements in conformity with GASB Statement No. 15, *Governmental College and University Accounting and Financial Reporting Models*, this SOP amends the principles—based on *Audits of Colleges and Universities*, as amended and modified—that those entities apply. For other governmental organizations, this SOP amends the Audit and Accounting Guide *Audits of State and Local Governmental Units*.^{††}

^{††} See footnotes ‡ and || in paragraphs D.3 and D.4, respectively. Also, the AICPA Audit and Accounting Guide *State and Local Governments* supersedes the 1994 AICPA Audit and Accounting Guide *Audits of State and Local Governmental Units* and subsequent editions of that Guide with conforming changes made by the AICPA staff. The AICPA Audit and Accounting Guide *State and Local Governments*, provides guidance on the application of this SOP to state and local governments. [Footnote added, June 2004, to reflect conforming changes necessary due to the issuance of GASB Statements No. 34, No. 35, and the AICPA Audit and Accounting Guide *Audits of State and Local Governmental Units*.]

.30

Glossary

Activities. Activities are efforts to accomplish specific objectives. Some activities include producing and distributing materials. For example, if an entity undertakes a mass mailing that includes a letter and a pamphlet, producing and distributing the letter and pamphlet are part of the activity. Other activities may include no materials, such as an annual dinner or a radio commercial.

Compensation or fees. Reciprocal transfers of cash or other assets in exchange for services performed.

Contributions. Contributions are unconditional transfers of cash or other assets to an entity or a settlement or cancellation of its liabilities in a voluntary nonreciprocal transfer by another entity acting other than as an owner.

Costs of joint activities. Costs of joint activities are costs incurred for a joint activity. Costs of joint activities may include joint costs and costs other than joint costs. Costs other than joint costs are costs that are identifiable with a particular function, such as fund raising, program, management and general, and cost of sales. For example, some costs incurred for printing, paper, professional fees, and salaries to produce donor cards are not joint costs, although they may be incurred in connection with conducting joint activities.

Fund-raising activities. Fund-raising activities are activities undertaken to induce potential donors to contribute money, securities, services, materials, facilities, other assets, or time. They include publicizing and conducting fund-raising campaigns; maintaining donor mailing lists; conducting special fund-raising events; preparing and distributing fund-raising manuals, instructions, and other materials; and conducting other activities involved with soliciting contributions from individuals, foundations, governments, and others.

Help accomplish the entity's mission. Actions that help accomplish the entity's mission are actions that either benefit the recipient (such as by improving the recipient's physical, mental, emotional, or spiritual health and well-being) or benefit society (by addressing societal problems).

Joint activity. A joint activity is an activity that is part of the fund-raising function and has elements of one or more other functions, such as program, management and general, membership development, or any other functional category used by the entity.

Joint costs. Joint costs are the costs of conducting joint activities that are not identifiable with a particular component of the activity. For example, the cost of postage for a letter that includes both fund-raising and program components is a joint cost. Joint costs may include the costs of salaries, contract labor, consultants, professional fees, paper, printing, postage, event advertising, telephones, airtime, and facility rentals.

Management and general activities. Management and general activities are those that are not identifiable with a single program, fund-raising activity, or membership-development activity but that are indispensable to the conduct of those activities and to an organization's existence. They include oversight, business management, general recordkeeping, budgeting, financing, soliciting revenue from exchange transactions, such as

government contracts and related administrative activities, and all management and administration except for direct conduct of program services or fund-raising activities. Disseminating information to inform the public of the organization's "stewardship" of contributed funds, announcements concerning appointments, and the annual report, among other activities, are management and general activities, as are soliciting funds other than contributions, including exchange transactions (whether program-related or not).

Medium. A medium is a means of mass communication, such as direct mail, direct response advertising, or television.

Membership-development activities. Membership-development activities include soliciting for prospective members and membership dues, membership relations, and similar activities. If there are no significant benefits or duties connected with membership, however, the substance of membership-development activities may, in fact, be fund-raising.

Program activities. Program activities are the activities that result in goods or services being distributed to beneficiaries, customers, or members that fulfill the purposes or mission for which the organization exists. Those services are the major purpose for and the major output of the organization and often relate to several major programs. For example, a large university may have programs for student instruction, research, and patient care, among others. Similarly, a health and welfare organization may have programs for health and family services, research, disaster relief, and public education, among others.

AR-C Introduction

Foreword

Clarified Statements on Standards for Accounting and Review Services

To address concerns over clarity, length, and complexity of its standards, the Accounting and Review Services Committee (ARSC) established clarity drafting conventions which are substantially the same as those adopted by the Auditing Standards Board in clarifying the auditing literature. The ARSC redrafted all of its Statements on Standards for Accounting and Review Services (SSARs) in accordance with those conventions, which include the following:

- Establish objectives for each clarified AR-C section
- Include a Definitions section, where relevant, in each clarified AR-C section
- Separate requirements from application and other explanatory material
- Number application and other explanatory material paragraphs using an A- prefix and present them in a separate section that follows the Requirements section
- Use formatting techniques, such as bullet lists, to enhance readability

This section contains "AR-C" section numbers instead of "AR" section numbers. As part of the clarification of the SSARs, the AR section numbers as designated by SSARs Nos. 1–20 were recodified and the "AR-C" was selected as an identifier in order to avoid confusion with references to superseded "AR" sections. Superseded "AR" sections were deleted from AICPA *Professional Standards* in May 2017, by which time substantially all engagement for which the "AR" sections were still effective were expected to be completed. The superseded "AR" sections can be accessed at www.aicpa.org/research/standards/compilationreview/pages/default.aspx.

Authority of SSARs

SSARs are standards issued by ARSC, the senior committee of the AICPA that is designated by Council to issue pronouncements in connection with the unaudited financial statements or other unaudited financial information of a nonpublic entity. The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct requires a member who performs compilation, review, or other professional services addressed by SSARs to comply with standards promulgated by ARSC.

An accountant must comply with an unconditional requirement in all cases in which such requirement is relevant. SSARs use the word "must" to indicate an unconditional requirement. An accountant must comply with a presumptively mandatory requirement in all cases in which such a requirement is relevant. However, if, in rare circumstances, the accountant judges it necessary to depart from a relevant presumptively mandatory requirement, the accountant must

document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement.

Exhibits to and interpretations of SSARSs are *interpretative publications*, as defined in section 60, *General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*. An accountant is required to consider applicable interpretive publications in the performance of an engagement in accordance with SSARSs. Interpretive publications are not SSARSs. Interpretive publications are recommendations on the application of SSARSs in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of ARSC only after all ARSC members have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with SSARSs. Compilation and review interpretations of SSARSs and exhibits to SSARSs are included in the AR-C sections.

ACCOUNTING AND REVIEW SERVICES COMMITTEE

Audit & Attest Standards — Public Accounting
Jennifer Burns, Chief Auditor — AICPA

AR-C Glossary

Glossary of Terms

Analytical procedures. Evaluations of financial information through analysis of plausible relationships among both financial and nonfinancial data. Analytical procedures also encompass such investigation, as is necessary, of identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount.

Applicable financial reporting framework. The financial reporting framework adopted by management and, when appropriate, those charged with governance in the preparation and fair presentation of the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements, or that is required by law or regulation.

Basic financial statements. Financial statements excluding supplementary information and required supplementary information.

Comparative financial statements. A complete set of financial statements for one or more prior periods included for comparison with the financial statements of the current period.

Designated accounting standard-setter. A body designated by the Council of the AICPA to promulgate accounting principles generally accepted in the United States of America pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Emphasis-of-matter paragraph. A paragraph included in the accountant's compilation or review report that is required by Statements on Standards for Accounting and Review Services (SSARs), or is included at the accountant's discretion, and that refers to a matter appropriately presented or disclosed in the financial statements that, in the accountant's professional judgment, is of such importance that it is fundamental to the users' understanding of the financial statements.

Engagement partner. The partner or other individual appointed by the firm who is responsible for the engagement and its performance and for the report that is issued on behalf of the firm and who, when required, has the appropriate authority from a professional, legal, or regulatory body.

Engagement quality review. An objective evaluation of the significant judgments made by the engagement team and the conclusions reached thereon performed by the engagement quality reviewer and completed before the engagement report is released.

Engagement quality reviewer. A partner, other individual in the firm, or an external individual appointed by the firm to perform the engagement quality review.

Engagement team. All partners and staff performing the engagement and any individuals engaged by the firm or a network firm who perform procedures on the engagement.

Error. Mistakes in the financial statements, including arithmetical or clerical mistakes, and mistakes in the application of accounting principles, including inadequate disclosures.

Experienced accountant. An individual (whether internal or external to the firm) who has practical review experience and a reasonable understanding of

- a. review processes;
- b. SSARs and applicable legal and regulatory requirements;
- c. the business environment in which the entity operates; and
- d. review and financial reporting issues relevant to the entity's industry.

Fair presentation framework. See financial performing framework.

Financial reporting framework. A set of criteria used to determine measurement, recognition, presentation, and disclosure of all material items appearing in the financial statements (for example, accounting principles generally accepted in the United States of America [U.S. GAAP], International Financial Reporting Standards promulgated by the International Accounting Standards Board, or a special purpose framework).

The term *fair presentation framework* refers to a financial reporting framework that requires compliance with the requirements of the framework and does one of the following:

- a. Acknowledges explicitly or implicitly that, to achieve fair presentation of the financial statements, it may be necessary for management to provide disclosures beyond those specifically required by the framework.
- b. Acknowledges explicitly that it may be necessary for management to depart from a requirement of the framework to achieve fair presentation of the financial statements. Such departures are expected to be necessary only in rare circumstances.

A financial reporting framework that requires compliance with the requirements of the framework but does not contain the acknowledgment in (a) or (b) is not a fair presentation framework.

Financial statements. A structured representation of historical financial information, including disclosures, intended to communicate an entity's economic resources and obligations at a point in time or the changes therein for a period of time in accordance with a financial reporting framework. The term *financial statements* ordinarily refers to a complete set of financial statements as determined by the requirements of the applicable financial reporting framework but can also refer to a single financial statement. Disclosures comprise explanatory or descriptive information, set out as required, expressly permitted or otherwise allowed by the applicable financial reporting framework, on the face of a financial statement or in the notes, or incorporated therein by reference.

The requirements of the applicable financial reporting framework determine the presentation, structure, and content of the financial statements and what constitutes a complete set of financial statements.

Firm. A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the AICPA and that is engaged in the practice of public accounting.

Fraud. An intentional act that results in a misstatement in financial statements.

Generally accepted accounting principles (GAAP). References to *generally accepted accounting principles* in SSARs means generally accepted accounting principles promulgated by bodies designated by the Council of the AICPA pursuant to the "Compliance With Standards Rule" and the "Accounting Principles Rule" of the AICPA Code of Professional Conduct.

General purpose financial statements. Financial statements prepared in accordance with a general purpose framework.

General purpose framework. A financial reporting framework designed to meet the common financial information needs of a wide range of users.

Historical financial information. Information expressed in financial terms regarding a particular entity, derived primarily from that entity's accounting system, about economic events occurring in past time periods or about economic conditions or circumstances at points in time in the past.

Inquiry. Inquiry consists of seeking information of knowledgeable persons within or outside the entity.

Inspection. Inspection is an evaluation of the adequacy of aspects of the firm's quality management policies and procedures, its personnel's understanding of those policies and procedures, and the extent of the firm's compliance with them.

Interpretive publications. Interpretations of SSARs; exhibits to SSARs; AICPA Guide *Preparation, Compilation, and Review Engagements*, guidance on preparation, compilation, and review engagements included in AICPA Audit and Accounting Guides; and AICPA Statements of Position, to the extent that those statements are applicable to such engagements.

Limited assurance. A level of assurance that is less than the reasonable assurance obtained in an audit engagement but is at an acceptable level as the basis for the conclusion expressed in the accountant's review report.

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance (for example, executive members of a governance board or an owner-manager).

Misstatement. A difference between the amount, classification, presentation, or disclosure of a reported financial statement item and the amount, classification, presentation, or disclosure that is required for the item to be presented fairly in accordance with the applicable financial reporting framework. Misstatements can arise from fraud or error.

Misstatements also include those adjustments of amounts, classifications, presentations, or disclosures that, in the accountant's professional judgment, are necessary for the financial statements to be presented fairly, in all material respects.

Modified conclusion. A qualified conclusion or an adverse conclusion.

Network. As defined in "Definitions" (ET section 0.400) in the AICPA code, an association of entities that includes one or more firms.

Network firm. As defined in "Definitions" in the AICPA code, a firm or other entity that belongs to a network. References to a network firm are to be

read hereafter as "another firm or entity that belongs to the same network as the firm."

Noncompliance. Acts of omission or commission by the entity, either intentional or unintentional, which are contrary to the prevailing laws or regulations. Such acts include transactions entered into, by, or in the name of, the entity or on its behalf by those charged with governance, management, or employees. *Noncompliance* does not include personal misconduct (unrelated to the business activities of the entity) by those charged with governance, management, or employees of the entity.

Other-matter paragraph. A paragraph included in the accountant's compilation or review report that is required by SSARs, or is included at the accountant's discretion, and that refers to a matter other than those presented or disclosed in the financial statements that, in the accountant's professional judgment, is relevant to users' understanding of the compilation or review, the accountant's responsibilities, or the accountant's compilation or review report.

Other preparation, compilation and review publications. Publications other than interpretive publications.

Partner. Any individual with authority to bind the firm with respect to the performance of a professional services engagement. For purposes of this definition, partner may include an employee with this authority who has not assumed the risks and benefits of ownership. Firms might use different titles to refer to individuals with this authority.

Personnel. Partners and staff in the firm.

Pervasive. A term used, in the context of misstatements, to describe the effects on the financial statements of misstatements. Pervasive effects on the financial statements are those that, in the accountant's judgment

- are not confined to specific elements, accounts, or items of the financial statements;
- if so confined, represent or could represent a substantial portion of the financial statements; or
- with regard to disclosures, are fundamental to users' understanding of the financial statements.

Professional judgment. The application of relevant training, knowledge, and experience, within the context provided by SSARs, accounting, and ethical standards, in making informed decisions about the courses of action that are appropriate in the circumstances of the preparation, compilation, or review engagement.

Professional skepticism. An attitude that includes a questioning mind, being alert to conditions that may indicate possible misstatement due to fraud or error, and a critical assessment of review evidence.

Professional standards. Standards promulgated by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under the "General Standards Rule" (ET sec. 1.300.001) or the "Compliance With Standards Rule" of the AICPA code, or by other standard-setting bodies that set auditing and attest standards applicable to the engagement being performed and relevant ethical requirements.

Pro forma financial information. A presentation that shows what the significant effects on historical financial information might have been had

a consummated or proposed transaction (or event) occurred at an earlier date.

Prospective financial information. Any financial information about the future. The information may be presented as complete financial statements or limited to one or more elements, items, or accounts.

Reasonable period of time. The period of time required by the applicable financial reporting framework or, if no such requirement exists, within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable).

Relevant ethical requirements. Principles of professional ethics and ethical requirements to which the engagement team and, if applicable, the engagement quality reviewer are subject, which consist of the AICPA code together with rules of applicable state boards of accountancy and applicable regulatory agencies that are more restrictive.

Report release date. The date the accountant grants the entity permission to use the accountant's review report in connection with the financial statements.

Required supplementary information. Information that a designated accounting standards-setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting standards-setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

Review documentation. The record of review procedures performed, relevant review evidence obtained, and conclusions the accountant reached (terms such as *working papers* or *workpapers* are also sometimes used).

Review evidence. Information used by the accountant to provide a reasonable basis for obtaining limited assurance. Review evidence includes both information contained in the accounting records underlying the financial statements and other information, which primarily consists of the results of analytical procedures and inquiries. Sufficiency of review evidence is the measure of the quantity of review evidence. Appropriateness of review evidence is the measure of the quality of review evidence, that is, its relevance and reliability in providing support for the conclusions on which the accountant's review report is based.

Special purpose financial statements. Financial statements prepared in accordance with a special purpose framework.

Special purpose framework. A financial reporting framework other than GAAP that is one of the following bases of accounting:

- a. **Cash basis.** A basis of accounting that the entity uses to record cash receipts and disbursements and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets).
- b. **Tax basis.** A basis of accounting that the entity uses to file its tax return for the period covered by the financial statements.

- c. **Regulatory basis.** A basis of accounting that the entity uses to comply with the requirements or financial reporting provisions of a regulatory agency to whose jurisdiction the entity is subject (for example, a basis of accounting that insurance companies use pursuant to the accounting practices prescribed or permitted by a state insurance department).
- d. **Contractual basis.** A basis of accounting that the entity uses to comply with an agreement between the entity and one or more third parties other than the accountant.
- e. **Other basis.** A basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements, for example, the AICPA's Financial Reporting Framework for Small- and Medium-Sized Entities.

The cash basis, tax basis, regulatory basis, and other basis of accounting are commonly referred to as *other comprehensive bases of accounting*.

Specified parties. The intended users of the accountant's compilation or review report.

Subsequent events. Events occurring between the date of the financial statements and the date of the accountant's compilation or review report.

Subsequently discovered facts. Facts that become known to the accountant after the date of the accountant's review report that, had they been known to the accountant at that date, may have caused the accountant to revise the accountant's compilation or review report.

Supplementary information. Information presented outside the basic financial statements, excluding required supplementary information, that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the reviewed financial statements or separate from the reviewed financial statements.

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of an entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

Updated report. A report issued by a continuing accountant that takes into consideration information that the accountant becomes aware of during the accountant's current engagement and that re-expresses the accountant's previous conclusions or, depending on the circumstances, expresses different conclusions on the financial statements of a prior period reviewed by the accountant as of the date of the accountant's current report.

Written representation. A written statement by management provided to the accountant to confirm certain matters or to support other review evidence. Written representations in this context do not include financial statements, the assertions therein, or supporting books and records.

AR-C Section**STATEMENTS ON STANDARDS FOR
ACCOUNTING AND REVIEW SERVICES
(CLARIFIED)**

The following is a Codification of Statements on Standards for Accounting and Review Standards (SSARs) resulting from the Accounting and Review Services Committee's (ARSC's) project to clarify and revise the standards for reviews, compilations, and engagements to prepare financial statements. SSARs are issued by the ARSC, the senior committee of the AICPA designated to issue pronouncements in connection with the unaudited financial statements or other unaudited financial information of a nonpublic entity. Council has designated ARSC as a body to establish technical standards under the "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct.

AR-C Section 60

General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services

Source: SSARS No. 21; SSARS No. 23; SSARS No. 24; SSARS No. 25; SSARS 26.

Effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section provides general principles for engagements performed in accordance with Statements on Standards for Accounting and Review Services (SSARSs) issued by the Accounting and Review Services Committee (ARSC) and codified into AR-C sections. This section also sets forth the meaning of certain terms used in SSARSs when describing the professional requirements imposed on accountants performing an engagement in accordance with SSARSs. [As amended, effective October 2016, by SSARS No. 23.]

.02 This section is intended to help accountants better understand their professional responsibilities when performing an engagement in accordance with SSARSs. Additional sections have been established to set forth specific performance and reporting requirements. Such additional requirements are based on the general principles provided by this section, and any requirements created by this section also have been incorporated into the additional sections.

.03 SSARSs do not address the responsibilities of the accountant that may exist in legislation, regulation, or otherwise. Such responsibilities may differ from those established in SSARSs. Accordingly, although the accountant may find aspects of SSARSs helpful in such circumstances, it is the responsibility of the accountant to ensure compliance with all relevant legal, regulatory, or professional obligations. [As amended, effective October 2016, by SSARS No. 23.]

.04 The financial statements subject to the engagement performed in accordance with SSARSs are those of the entity. SSARSs do not impose responsibilities on management and do not override laws and regulations that govern their responsibilities. (Ref: par. .A4–.A11) [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

Effective Date

.05 This section is effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2015. Early

implementation is permitted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Objective

.06 The objective of the accountant is to obtain an understanding of the general principles for engagements performed in accordance with SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions

.07 For purposes of SSARSs, the following terms have the meanings attributed as follows:

Applicable financial reporting framework. The financial reporting framework adopted by management and, when appropriate, those charged with governance in the preparation and fair presentation of the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements, or that is required by law or regulation.

Designated accounting standard setter. A body designated by the Council of the AICPA to promulgate accounting principles generally accepted in the United States of America pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Engagement partner.^[1] The partner or other individual appointed by the firm who is responsible for the engagement and its performance and for the report that is issued on behalf of the firm and who, when required, has the appropriate authority from a professional, legal, or regulatory body. (Ref: par. .A12)

Engagement quality review. An objective evaluation of the significant judgments made by the engagement team and the conclusions reached thereon performed by the engagement quality reviewer and completed before the engagement report is released.

Engagement quality reviewer. A partner, other individual in the firm, or an external individual appointed by the firm to perform the engagement quality review.

Engagement team. All partners and staff performing the engagement and any individuals engaged by the firm or a network firm who perform procedures on the engagement.

Fair presentation framework. See **financial reporting framework**.

Financial reporting framework. A set of criteria used to determine measurement, recognition, presentation, and disclosure of all material items appearing in the financial statements (for example, accounting principles generally accepted in the United States of America [U.S. GAAP], International Financial Reporting Standards promulgated by the International Accounting Standards Board, or a special purpose framework).

^[1] [Footnote deleted by the issuance of SSARS No. 26, June 2022.]

The term *fair presentation framework* refers to a financial reporting framework that requires compliance with the requirements of the framework and does one of the following:

- a. Acknowledges explicitly or implicitly that, to achieve fair presentation of the financial statements, it may be necessary for management to provide disclosures beyond those specifically required by the framework.
- b. Acknowledges explicitly that it may be necessary for management to depart from a requirement of the framework to achieve fair presentation of the financial statements. Such departures are expected to be necessary only in rare circumstances.

A financial reporting framework that requires compliance with the requirements of the framework but does not contain the acknowledgment in (a) or (b) is not a fair presentation framework.

Financial statements. A structured representation of historical financial information, including disclosures, intended to communicate an entity's economic resources and obligations at a point in time or the changes therein for a period of time in accordance with a financial reporting framework. The term *financial statements* ordinarily refers to a complete set of financial statements as determined by the requirements of the applicable financial reporting framework but can also refer to a single financial statement. Disclosures comprise explanatory or descriptive information, set out as required, expressly permitted or otherwise allowed by the applicable financial reporting framework, on the face of a financial statement or in the notes, or incorporated therein by reference.

The requirements of the applicable financial reporting framework determine the presentation, structure, and content of the financial statements and what constitutes a complete set of financial statements.

Firm. A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the AICPA and that is engaged in the practice of public accounting.

General purpose financial statements. Financial statements prepared in accordance with a general purpose framework.

General purpose framework. A financial reporting framework designed to meet the common financial information needs of a wide range of users.

Inspection. Inspection is an evaluation of the adequacy of aspects of the firm's quality management policies and procedures, its personnel's understanding of those policies and procedures, and the extent of the firm's compliance with them.

Interpretive publications. Interpretations of SSARs; exhibits to SSARs; AICPA Guide *Preparation, Compilation, and Review Engagements*; [2] guidance on preparation, compilation, and review engagements included in AICPA Audit and Accounting Guides; and AICPA Statements of Position, to the extent that those statements are applicable to such engagements.

[2] [Footnote deleted by the issuance of SSARS No. 23, October 2016.]

Network. As defined in "Definitions" (ET section 0.400) in the AICPA code, an association of entities that includes one or more firms. (Ref: par. .A13)

Network firm. As defined in "Definitions" in the AICPA code, a firm or other entity that belongs to a network. References to a network firm are to be read hereafter as "another firm or entity that belongs to the same network as the firm."

Other preparation, compilation and review publications. Publications other than interpretive publications. (Ref: par. .A12)

Partner. Any individual with authority to bind the firm with respect to the performance of a professional services engagement. For purposes of this definition, partner may include an employee with this authority who has not assumed the risks and benefits of ownership. Firms might use different titles to refer to individuals with this authority.

Personnel. Partners and staff in the firm.

Professional judgment. The application of relevant training, knowledge, and experience, within the context provided by SSARs, accounting, and ethical standards, in making informed decisions about the courses of action that are appropriate in the circumstances of the preparation, compilation, or review engagement.

Professional standards. Standards promulgated by the AICPA Auditing Standards Board or the AICPA Accounting and Review Services Committee under the "General Standards Rule" (ET sec. 1.300.001) or the "Compliance With Standards Rule" of the AICPA code, or by other standard setting bodies that set auditing and attest standards applicable to the engagement being performed and relevant ethical requirements.

Prospective financial information. Any financial information about the future. The information may be presented as complete financial statements or limited to one or more elements, items, or accounts.

Relevant ethical requirements. Principles of professional ethics and ethical requirements to which the engagement team and, if applicable, the engagement quality reviewer are subject, which consist of the AICPA code together with rules of applicable state boards of accountancy and applicable regulatory agencies that are more restrictive.

Special purpose financial statements. Financial statements prepared in accordance with a special purpose framework.

Special purpose framework. A financial reporting framework other than GAAP that is one of the following bases of accounting: (Ref: par. .A13)

- a. **Cash basis.** A basis of accounting that the entity uses to record cash receipts and disbursements and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets).
- b. **Tax basis.** A basis of accounting that the entity uses to file its tax return for the period covered by the financial statements.
- c. **Regulatory basis.** A basis of accounting that the entity uses to comply with the requirements or financial

reporting provisions of a regulatory agency to whose jurisdiction the entity is subject (for example, a basis of accounting that insurance companies use pursuant to the accounting practices prescribed or permitted by a state insurance department).

- d. **Contractual basis.** A basis of accounting that the entity uses to comply with an agreement between the entity and one or more third parties other than the accountant.
- e. **Other basis.** A basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements, for example, the AICPA's Financial Reporting Framework for Small- and Medium-Sized Entities.

The cash basis, tax basis, regulatory basis, and other basis of accounting are commonly referred to as other comprehensive bases of accounting.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after June 15, 2019, by SSARS No. 24. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Requirements

Ethical Requirements

.08 The accountant should comply with relevant ethical requirements. (Ref: par. .A16–.A19)

Professional Judgment

.09 The accountant should exercise professional judgment in the performance of an engagement in accordance with SSARSs. (Ref: par. .A20–.A24)

Conduct of the Engagement in Accordance With SSARSs

.10 The accountant must perform a review, compilation, or an engagement to prepare financial statements in accordance with SSARSs, except for certain reviews of interim financial information as discussed in section 90, *Review of Financial Statements*.³

Complying With AR-C Sections Relevant to the Engagement

.11 The accountant should comply with all AR-C sections relevant to the engagement. An AR-C section is relevant to the engagement when the AR-C section is in effect, and the circumstances addressed by the AR-C section exist. (Ref: par. .A24–.A29)

.12 The accountant should have an understanding of the entire text of an AR-C section, including its application and other explanatory material, to

³ Paragraph .02 of section 90, *Review of Financial Statements*.

understand its objectives and apply its requirements properly. (Ref: par. .A31–.A35)

.13 An accountant should not represent compliance with SSARs in the accountant's compilation or review report unless the accountant has complied with the requirements of this section and all other AR-C sections relevant to the engagement.

Complying With Relevant Requirements

.14 Subject to paragraph .16, the accountant should comply with each requirement of the relevant AR-C section unless, in the circumstances of the engagement, the requirement is not relevant because it is conditional, and the condition does not exist. (Ref: par. .A36)

Defining Professional Responsibilities in SSARs

.15 SSARs use the following two categories of professional requirements, identified by specific terms, to describe the degree of responsibility they impose on accountants:

- *Unconditional requirements.* The accountant must comply with an unconditional requirement in all cases in which such requirement is relevant. SSARs use the word "must" to indicate an unconditional requirement.
- *Presumptively mandatory requirements.* The accountant must comply with a presumptively mandatory requirement in all cases in which such a requirement is relevant, except in rare circumstances discussed in paragraph .16. SSARs use the word "should" to indicate a presumptively mandatory requirement. (Ref: par. .A37)

.16 In rare circumstances, the accountant may judge it necessary to depart from a relevant presumptively mandatory requirement. In such circumstances, the accountant should perform alternative procedures to achieve the intent of the requirement. The need for an accountant to depart from a relevant, presumptively mandatory requirement is expected to arise only when the requirement is for a specific procedure to be performed and, in the specific circumstances of the engagement, that procedure would be ineffective in achieving the intent of the requirement.

.17 If, in rare circumstances, the accountant judges it necessary to depart from a relevant presumptively mandatory requirement, the accountant must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement. [Paragraph added, effective October 2016, by SSARS No. 23.]

Interpretive Publications

.18 The accountant should consider applicable interpretive publications in the performance of an engagement in accordance with SSARs. (Ref: par. .A38) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Other Preparation, Compilation and Review Publications

.19 In applying the guidance included in an other preparation, compilation and review publication, the accountant should, exercising professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the engagement. (Ref: par. .A39–.A41) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Engagement Level Quality Management

.20 In an engagement performed in accordance with SSARSs, the engagement partner should determine that members of the engagement team have the appropriate competence and capabilities, including sufficient time, to perform the engagement. (Ref: par. .A42) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.21 In an engagement performed in accordance with SSARSs, the engagement partner should take responsibility for the following: (Ref: par. .A43–.A47)

- a.* The overall managing and achieving of quality on the engagement, including taking responsibility for creating an environment for the engagement that emphasizes the firm's culture and expected behavior of engagement team members. In doing so, the engagement partner should be sufficiently and appropriately involved throughout the engagement such that the engagement partner has the basis for determining that the significant judgments made, and the conclusions reached, are appropriate given the nature and circumstances of the engagement.
- b.* Directing, supervising, planning, and performing the engagement in compliance with professional standards and applicable legal and regulatory requirements. If the engagement partner assigns the design or performance of procedures, tasks, or actions related to a requirement of this section to other members of the engagement team to assist the engagement partner in complying with the requirements of this section, the engagement partner should continue to take overall responsibility for managing and achieving quality on the engagement through direction and supervision of those members of the engagement team and review of their work.
- c.* The accountant's report being appropriate in the circumstances
- d.* The engagement being performed in accordance with the firm's policies or procedures, including the following:
 - i.* Being satisfied that the firm's policies or procedures for the acceptance and continuance of client relationships and engagements have been followed, and that conclusions reached are appropriate, including considering whether there is information that would lead the engagement partner to conclude that management lacks integrity (Ref: par. .A49–.A50)
 - ii.* Determining that sufficient and appropriate resources to perform the engagement are assigned or made available to the engagement team in a timely manner, taking into account the nature and circumstances of the engagement, the firm's policies or procedures, and any changes that may arise during the engagement
 - iii.* Taking responsibility for appropriate engagement documentation being maintained

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. As amended,

effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Relevant Considerations After Engagement Acceptance

.22 If the engagement partner obtains information that would have caused the firm to decline the engagement had that information been available earlier, the engagement partner should communicate that information promptly to the firm, so that the firm and the engagement partner can take the necessary action. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Compliance With Relevant Ethical Requirements

.23 The engagement partner should have an understanding of the relevant ethical requirements, including those related to independence, that are applicable given the nature and circumstances of the engagement. (Ref: par. .A51–.A54) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.24 The engagement partner should take responsibility for other members of the engagement team having been made aware of relevant ethical requirements that are applicable given the nature and circumstances of the engagement, and the firm's related policies or procedures, including those that address the following: (Ref: par. .A43 and .A52–.A56)

- a. Identifying, evaluating, and addressing threats to compliance with relevant ethical requirements, including those related to independence, if applicable to the circumstances of the engagement
- b. Circumstances that may cause a breach of relevant ethical requirements, including those related to independence, if applicable to the circumstances of the engagement, and the responsibilities of members of the engagement team when they become aware of breaches
- c. The responsibilities of members of the engagement team when they become aware of an instance of noncompliance with laws and regulations by the entity

[Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.25 If matters come to the engagement partner's attention that indicate that a threat to compliance with relevant ethical requirements exists, the engagement partner should evaluate the threats by complying with the firm's policies or procedures, using relevant information from the firm, the engagement team, or other sources; and take appropriate action. (Ref: par. .A55–.A56) [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.26 The engagement partner should remain alert throughout the engagement, through observation and making inquiries as necessary, for breaches of relevant ethical requirements or the firm's related policies or procedures by members of the engagement team. (Ref: par. .A57) [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.27 If matters come to the engagement partner's attention through the firm's system of quality management, or from other sources, that indicate that relevant ethical requirements applicable to the nature and circumstances of the engagement have not been fulfilled, the engagement partner, in consultation

with others in the firm, should take appropriate action. (Ref: par. .A58) [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.28 In a compilation or review engagement, prior to dating the accountant's report, the engagement partner should take responsibility for determining whether relevant ethical requirements, including, in a review engagement, those related to independence, have been fulfilled. (Ref: par. .A59) [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Monitoring and Remediation

.29 The engagement partner should take responsibility for the following:

- a. Obtaining an understanding of the information from the firm's monitoring and remediation process, as communicated by the firm, including, as applicable, the information from the monitoring and remediation process of the network and across the network firms
- b. Determining the relevance and effect on the engagement of the information referred to in paragraph .29a and taking appropriate action
- c. Remaining alert throughout the engagement for information that may be relevant to the firm's monitoring and remediation process and communicating such information to those responsible for the process

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Acceptance and Continuance of Client Relationships and Engagements

.30 The accountant should not accept an engagement to be performed in accordance with SSARSs if (Ref: par. .A60)

- a. the accountant has reason to believe that relevant ethical requirements, including, if applicable, those related to independence, will not be satisfied;
- b. the accountant's preliminary understanding of the engagement circumstances indicates that information needed to perform the engagement is likely to be unavailable or unreliable; or (Ref: par. .A62)
- c. the accountant has cause to doubt management's integrity such that it is likely to affect the performance of the engagement.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.31 As a precondition for accepting an engagement to be performed in accordance with SSARSs, the accountant should

- a. determine whether the financial reporting framework selected by management to be applied in the preparation of the financial statements is acceptable. (Ref: par. .A63–.A69)
- b. obtain the agreement of management that it acknowledges and understands its responsibility (Ref: par. .A70–.A74)
 - i. for the selection of the financial reporting framework to be applied in the preparation of financial statements.
 - ii. for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error, unless the accountant decides to accept responsibility for such internal control. (Ref: par. .A75)
 - iii. for preventing and detecting fraud.
 - iv. for ensuring that the entity complies with laws and regulations applicable to its activities.
 - v. for the accuracy and completeness of the records, documents, explanations, and other information, including significant judgments provided by management for the preparation of financial statements.
 - vi. to provide the accountant with (Ref: par. .A76)
 - (1) access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters.
 - (2) additional information that the accountant may request from management for the purpose of the engagement.
 - (3) unrestricted access to persons within the entity of whom the accountant determines it necessary to make inquiries.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after June 15, 2019, by SSARS No. 24. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Application and Other Explanatory Material

[.A1–.A3] [Paragraphs deleted by the issuance of SSARS No. 23, October 2016.]

Scope of This Section (Ref: par. .04)

.A4 If the accountant is engaged to perform a professional service in accordance with SSARSs on financial information other than financial statements (for example, the preparation or compilation of prospective financial information or the compilation of pro forma financial information), references in this section to *financial statements* are to be taken as references to such other financial information. [Paragraph added, effective October 2016, by SSARS No. 23.]

.A5 The preparation and fair presentation of the financial statements require

- the identification of the applicable financial reporting framework, in the context of any relevant laws or regulations.
- the preparation and fair presentation of the financial statements in accordance with that framework.
- the inclusion of an adequate description of that framework in the financial statements.

The preparation and fair presentation of the financial statements require management to exercise judgment when making accounting estimates that are reasonable in the circumstances as well as when selecting and applying appropriate accounting policies. These judgments are made in the context of the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A6 The financial statements may be prepared in accordance with one of the following:

- A general purpose framework (a financial reporting framework designed to meet the common financial information needs of a wide range of users)
- A special purpose framework

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A7 The applicable financial reporting framework often encompasses financial accounting standards promulgated by an authorized or recognized standards-setting organization or legislative or regulatory requirements. In some cases, the financial reporting framework may encompass both financial accounting standards promulgated by an authorized or recognized standards-setting organization and legislative or regulatory requirements. Other sources may provide direction on the application of the applicable financial reporting framework. In some cases, the applicable financial reporting framework may encompass such other sources or may even consist only of such sources. Such other sources may include the following:

- The legal and ethical environment, including statutes, regulations, court decisions, and professional ethical obligations regarding accounting matters
- Published accounting interpretations of varying authority issued by standards-setting, professional, or regulatory organizations
- Published views of varying authority on emerging accounting issues issued by standards-setting, professional, or regulatory organizations
- General and industry practices widely recognized and prevalent
- Accounting literature

When conflicts exist between the financial reporting framework and the sources from which direction on its application may be obtained or among the sources that encompass the financial reporting framework, the source with the highest authority prevails. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A8 The requirements of the applicable financial reporting framework determine the form and content of the financial statements. Although the framework may not specify how to account for or disclose all transactions or events,

it ordinarily embodies sufficiently broad principles that can serve as a basis for developing and applying accounting policies that are consistent with the concepts underlying the requirements of the framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A9 The financial accounting standards promulgated by organizations that are authorized or recognized to promulgate standards to be used by entities for preparing financial statements in accordance with a general purpose framework include the FASB *Accounting Standards Codification*®; International Financial Reporting Standards, issued by the International Accounting Standards Board; Statements of Federal Financial Accounting Standards, issued by the Federal Accounting Standards Advisory Board for U.S. federal government entities; and Statements of the Governmental Accounting Standards Board, issued by the Governmental Accounting Standards Board for U.S. state and local governmental entities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A10 The requirements of the applicable financial reporting framework also determine what constitutes a complete set of financial statements. In the case of many frameworks, financial statements are intended to provide information about the financial position, financial performance, and cash flows of an entity. For example, a complete set of financial statements might include a balance sheet, an income statement, a statement of changes in equity, a cash flow statement, and related notes. For some other financial reporting frameworks, a single financial statement and the related notes might constitute a complete set of financial statements. Examples of a single financial statement, each of which would include related notes, include the following:

- Balance sheet
- Statement of income or statement of operations
- Statement of retained earnings
- Statement of cash flows
- Statement of assets and liabilities
- Statement of changes in owners' equity
- Statement of revenue and expenses
- Statement of operations by product lines

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A11 An accountant may be engaged to prepare or perform a compilation or review engagement on a complete set of financial statements or an individual financial statement (for example, balance sheet only). The financial statements may be for an annual period or for a shorter or longer period, depending on management's needs. However, it is likely not appropriate for the entity to present financial statements for a period longer or shorter than an annual period in a comparative presentation with financial statements for an annual period. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions (Ref: par. .07)

"Engagement Partner" (Ref: par. 07)

.A12 Appendix B to the AICPA Code of Professional Conduct, "Council Resolution Concerning the Form of Organization and Name Rule," states that there must be a CPA who has ultimate responsibility for all engagements performed in accordance with SSARSs, and non-CPA owners could not assume ultimate

responsibility for any such engagements. Law or regulation may include additional requirements. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

"Network" and "Network Firm" (Ref: par. 07)

.A13 The definitions of *network* or *network firm* in relevant ethical requirements may differ from those set out in this section. The AICPA code also provides guidance in relation to the terms *network* and *network firm*. Networks and other network firms may be structured in a variety of ways and are, in all cases, external to the firm. The provisions in this section in relation to networks also apply to any structures or organizations that do not form part of the firm but that exist within the network. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Other Preparation, Compilation, and Review Publications (Ref: par. 07)

.A14 Other preparation, compilation, and review publications include

- AICPA preparation, compilation, and review publications not defined as interpretive publications;
- AICPA's annual alert addressing engagements performed in accordance with SSARSs;
- articles addressing preparation, compilation, and review engagements in the *Journal of Accountancy* and other professional journals;
- continuing professional education programs and other instruction materials,
- textbooks, guide books, programs for preparation, compilation, and review engagements
- checklists; and
- other publications addressing preparation, compilation, and review engagements from state CPA societies, other organizations, and individuals.

[Paragraph added, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

Special Purpose Framework (Ref: par. 07)

.A15 Certain regulators, including state and local government legislators, regulatory agencies, or departments, require financial statements to be prepared in accordance with a financial reporting framework that is based on a framework promulgated by an authorized or recognized standard-setting organization (for example, FASB or GASB) but does not include all the requirements of that framework. Such frameworks are regulatory bases of accounting, as described in paragraph .07. In some circumstances, however, the cash or tax basis of accounting may be permitted by a regulator. For purposes of SSARSs, the cash and tax bases of accounting are not regulatory bases of accounting. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

Ethical Requirements (Ref: par. .08)

.A16 The accountant is subject to relevant ethical requirements relating to engagements performed in accordance with SSARSs. Ethical requirements consist of those contained in the AICPA Code of Professional Conduct, together with rules of state boards of accountancy and applicable regulatory agencies that are more restrictive. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A17 The AICPA Code of Professional Conduct establishes the fundamental principles of professional ethics, which include the following:

- Responsibilities
- The public interest
- Integrity
- Objectivity and independence
- Due care
- Scope and nature of services

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A18 Due care requires the accountant to discharge professional responsibilities with competence and have the appropriate capabilities to perform the engagement and enable an appropriate accountant's report to be issued, if applicable. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A19 Statement on Quality Management Standards No. 1, *A Firm's System of Quality Management* (SQMS No. 1) (QM sec. 10), sets out the firm's responsibilities to design, implement, and operate a system of quality management for engagements performed in accordance with SSARSs. As part of its system of quality management, SQMS No. 1 requires the firm to establish quality objectives that address the fulfillment of responsibilities in accordance with relevant ethical requirements, including those related to independence, if applicable.⁴ [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Professional Judgment (Ref: par. .09)

.A20 Professional judgment is essential to the proper conduct of an engagement in accordance with SSARSs because interpretation of relevant ethical requirements and SSARSs and the informed decisions required throughout

⁴ Paragraph .30 of Statement on Quality Management Standards No. 1, *A Firm's System of Quality Management* (QM sec. 10). [As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

the engagement cannot be made without the application of relevant knowledge and experience to the facts and circumstances. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A21 The distinguishing feature of the professional judgment expected of the accountant is that it is exercised by an accountant whose training, knowledge, and experience have assisted in developing the necessary competencies to achieve reasonable judgments and make informed decisions about appropriate courses of action when undertaking an engagement in accordance with SSARSs. Consultation on difficult or contentious matters during the course of the engagement, both within the engagement team and between the engagement team and others at the appropriate level within or outside the firm, assists the accountant in making informed and reasonable judgments. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A22 The exercise of professional judgment in individual engagements is based on the facts and circumstances that are known by the accountant throughout the engagement, including

- knowledge acquired from engagements carried out for the entity's financial statements in prior periods, where applicable.
- the accountant's understanding of the entity and its environment, including its accounting system, and the application of the applicable financial reporting framework in the entity's industry.
- the extent to which the preparation and presentation of the financial statements requires the exercise of judgment by management or the accountant, if applicable.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A23 Professional judgment can be evaluated based on whether the judgment reached reflects a competent application of SSARSs and accounting principles and is appropriate in light of, and consistent with, the facts and circumstances that were known to the accountant up to the date of the issuance of financial statements prepared by the accountant or the date of the accountant's compilation or review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A24 Professional judgment needs to be exercised throughout the engagement performed in accordance with SSARSs. It also needs to be appropriately documented in accordance with the requirements of the applicable AR-C section. Professional judgment is not to be used as the justification for decisions that are not otherwise supported by the facts and circumstances of the engagement or, in a review engagement, the evidence obtained. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Conduct of an Engagement in Accordance With SSARs

Complying With AR-C Sections Relevant to the Engagement **(Ref: par. .11–.12)**

.A25 ARSC is designated to promulgate standards under the "General Standards Rule" (ET sec. 1.300.001) and the "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct⁵ with respect to unaudited financial statements or other unaudited financial information of an entity that is not required to file financial statements with a regulatory agency in connection with the sale or trading of its securities in a public market. ARSC develops and issues standards in the form of SSARs through a process that includes deliberation in meetings open to the public, public exposure of proposed SSARs, and a formal vote. SSARs are codified in AR-C sections in AICPA *Professional Standards*. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A26 SSARs provide the standards used for fulfilling the overall objectives of the accountant's work. SSARs address the general responsibilities of the accountant as well as the accountant's further considerations relevant to the application of those responsibilities to specific topics. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A27 The scope, effective date, and any specific limitation of the applicability of a specific AR-C section are made clear in the AR-C section. Unless otherwise stated in the AR-C section, the accountant is permitted to apply an AR-C section before the effective date specified therein. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A28 In certain engagements, the accountant also may be required to comply with other requirements in addition to SSARs. SSARs do not override law or regulation that governs a review, compilation, or an engagement to prepare financial statements. In the event that such law or regulation differs from SSARs, an engagement conducted only in accordance with law or regulation will not necessarily comply with SSARs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A29 The accountant may also conduct the compilation or review of financial statements in accordance with both SSARs and

- International Standard on Related Services 4410 (Revised), *Compilation Engagements*,
- International Standard on Review Engagements 2400 (Revised), *Engagements to Review Historical Financial Statements*, or
- compilation or review standards of a specific jurisdiction or country.

⁵ AICPA's Professional Ethics Executive Committee has restructured the Code of Professional Conduct. References in this standard are to the revised code, which is effective December 15, 2014. It is available at <http://pub.aicpa.org/codeofconduct>.

In such cases, in addition to complying with each of the AR-C sections relevant to the engagement, it may be necessary for the accountant to perform additional compilation or review procedures in order to comply with the other compilation or review standards. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A30 SSARSs are relevant to engagements to prepare financial statements and compilations and reviews of financial statements of governmental entities. The accountant's responsibilities, however, may be affected by law, regulation, or other authority (such as government policy requirements or resolutions of the legislature), which may encompass a broader scope than an engagement in accordance with SSARSs. These additional responsibilities are not dealt with in SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A31 In addition to objectives and requirements, an AR-C section contains related guidance in the form of application and other explanatory material. It may also contain introductory material that provides context relevant to a proper understanding of the AR-C section and definitions. The entire text of an AR-C section, therefore, is relevant to an understanding of the objectives stated in an AR-C section and the proper application of the requirements of an AR-C section. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A32 When necessary, the application and other explanatory material provides further explanation of the requirements of an AR-C section and guidance for carrying them out. In particular, it may

- explain more precisely what a requirement means or is intended to cover.
- include examples of procedures that may be appropriate in the circumstances.

Although such guidance does not, in itself, impose a requirement, it is relevant to the proper application of the requirements of an AR-C section. The accountant is required by paragraph .12 to understand the application and other explanatory material; how the accountant applies the guidance in the engagement depends on the exercise of professional judgment in the circumstances consistent with the objective of the AR-C section. The words "may," "might," and "could" are used to describe these actions and procedures. The application and other explanatory material may also provide background information on matters addressed in an AR-C section. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A33 Appendixes form part of the application and other explanatory material. The purpose and intended use of an appendix are explained in the body of the related AR-C section or within the title and introduction of the appendix itself. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

A34 Introductory material may include, as needed, such matters as explanation of the following:

- The purpose and scope of the AR-C section, including how the AR-C section relates to other AR-C sections
- The subject matter of the AR-C section
- The respective responsibilities of the accountant and others in relation to the subject matter of the AR-C section
- The context in which the AR-C section is set

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

A35 An AR-C section may include, in a separate section under the heading "Definitions," a description of the meanings attributed to certain terms for purposes of SSARSs. These are provided to assist in the consistent application and interpretation of SSARSs and are not intended to override definitions that may be established for other purposes, whether in law, regulation, or otherwise. Unless otherwise indicated, those terms will carry the same meanings throughout SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Complying With Relevant Requirements (Ref: par. .14)

A36 In some cases, a requirement may be expressed as being conditional on applicable law or regulation. For example, the accountant may be required to withdraw from the engagement when withdrawal is possible under applicable law or regulation, or the accountant may be required to perform a certain action, unless prohibited by law or regulation. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Defining Professional Responsibilities in SSARSs (Ref: par. .15)

A37 If an AR-C section provides that a procedure or action is one that the accountant "should consider," consideration of the procedure or action is presumptively required. Whether the accountant performs the procedure or action is based upon the outcome of the accountant's consideration and the accountant's professional judgment. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Interpretive Publications (Ref: par. .18)

A38 Interpretive publications are not SSARSs. *Interpretive publications* are recommendations on the application of SSARSs in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of ARSC only after all ARSC members have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with SSARSs. Compilation and review interpretations of SSARSs and exhibits to SSARSs are included in the AR-C sections. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS

No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Other Preparation, Compilation and Review Publications (Ref: par. .19)

.A39 Other preparation, compilation and review publications have no authoritative status; however, they may help the accountant understand and apply SSARSs. The accountant is not expected to be aware of the full body of other preparation, compilation and review publications. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A40 Although the accountant determines the relevance of these publications in accordance with paragraph .19, the accountant may presume that other preparation, compilation and review publications published by the AICPA that have been reviewed by the AICPA Audit and Attest Standards staff are appropriate. These other preparation, compilation and review publications are listed in the exhibit, "Other Preparation, Compilation and Review Publications." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A41 When determining whether an other preparation, compilation and review publication that has not been reviewed by the AICPA Audit and Attest Standards staff is appropriate to the circumstances of the engagement, the accountant may wish to consider the degree to which the publication is recognized as being helpful in understanding and applying SSARSs and the degree to which the publisher or author is recognized as an authority in matters addressing preparation, compilation, and review engagements. An other preparation, compilation, and review publication that has not been reviewed by the AICPA Audit and Attest Standards staff that contradicts an other preparation, compilation and review publication that has been reviewed by the AICPA Audit and Attest Standards staff is inappropriate. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

**Engagement Level Quality Management
(Ref: par. .20–.21 and .24)**

.A42 When determining that the members of the engagement team have the appropriate competence and capabilities to perform the engagement, the engagement partner may take into consideration such matters as the member's

- understanding of, and practical experience with, engagements of a similar nature and complexity through appropriate training and participation.
- understanding of professional standards and applicable legal and regulatory requirements.
- technical expertise, including expertise with relevant information technology and specialized areas of accounting or attest services.
- knowledge of relevant industries in which the entity operates.

- ability to exercise professional skepticism, if applicable, and professional judgment.
- understanding of the firm's quality management policies or procedures.

[Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A43 Within the context of the firm's system of quality management, engagement teams have a responsibility to implement the firm's policies or procedures that are applicable to the engagement and communicate to the firm information arising from the engagement that is required to be communicated by the firm's policies or procedures to support the firm's system of quality management. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A44 The actions of the engagement partner and appropriate messages to the other members of the engagement team, in the context of the engagement partner taking overall responsibility for managing and achieving quality on each engagement, emphasize the fact that quality is essential when performing an engagement in accordance with SSARSs and the importance to the quality of the engagement of

- a. performing work that complies with professional standards and regulatory and legal requirements.
- b. complying with the firm's quality management policies or procedures, as applicable.
- c. issuing a report, if applicable, for the engagement that is appropriate in the circumstances.
- d. the engagement team's ability to raise concerns without fear of reprisals.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A45 Ordinarily, the engagement team may depend on the firm's policies or procedures unless

- the engagement team's understanding or practical experience indicates that the firm's policies or procedures will not effectively address the nature and circumstances of the engagement, or
- information provided by the firm or other parties about the effectiveness of such policies or procedures suggests they cannot be relied on (for example, information provided by the firm's monitoring activities, external inspections, or other relevant sources indicates that the firm's policies or procedures are not operating effectively).

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A46 For example, the engagement team may depend on the firm's policies and procedures in relation to

- competence and capabilities of personnel through their recruitment and formal training.
- independence through the accumulation and communication of relevant independence information.
- maintenance of client relationships through the firm's policies or procedures for acceptance and continuance of client relationships and specific engagements.
- adherence to regulatory and legal requirements through the firm's monitoring and remediation process.

When considering the deficiencies identified in the firm's system of quality management that may affect the engagement, the engagement partner may consider the remedial actions undertaken by the firm to address those deficiencies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A47 A deficiency in the firm's system of quality management does not necessarily indicate that an engagement was not performed in accordance with professional standards and applicable legal and regulatory requirements or that the accountant's report, if applicable, was not appropriate in the circumstances. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

[.A48] [Subsequently renumbered and deleted by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Acceptance and Continuance of Client Relationships and Engagements Performed in Accordance With SSARSs (Ref: par. .21di)

.A49 SQMS No. 1 requires the firm to establish quality objectives that address acceptance and continuance of client relationships and specific engagements. Information such as the following may assist the engagement partner in determining whether the conclusions reached regarding the acceptance and continuance of client relationships and engagements are appropriate:

- The integrity and ethical values of the principal owners, key management, and those charged with governance of the entity
- Whether sufficient and appropriate resources are available to perform the engagement
- Whether management and those charged with governance have acknowledged their responsibilities in relation to the engagement

- Whether the engagement team has the competence and capabilities, including sufficient time, to perform the engagement
- Whether significant matters that have arisen during the current or previous engagement have implications for continuing the engagement

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A50 If the engagement partner has cause to doubt management's integrity to a degree that is likely to affect proper performance of the engagement, it is not appropriate to accept the engagement, unless required by law or regulation, because doing so may lead to the accountant being associated with the entity's financial statements in an inappropriate manner. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Relevant Ethical Requirements (Ref: par. .23–.25)

.A51 Based on the nature and circumstances of the engagement, certain law, regulation, or aspects of relevant ethical requirements, such as those pertaining to noncompliance with laws or regulations, may be relevant to the engagement (for example, laws or regulations dealing with money laundering, corruption, or bribery). [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A52 The firm's information system and the resources provided by the firm may assist the engagement team in understanding and fulfilling relevant ethical requirements applicable to the nature and circumstances of the engagement. For example, the firm may do the following:

- Communicate the independence requirements to engagement teams, if applicable in the circumstances of the engagement
- Provide training for engagement teams on relevant ethical requirements
- Establish manuals and guides (that is, intellectual resources) containing the provisions of the relevant ethical requirements and guidance on how they are applied in the nature and circumstances of the firm and its engagements
- Assign personnel to manage and monitor compliance with relevant ethical requirements (for example, SQMS No. 1 requires that the firm obtains, at least annually, a documented confirmation of compliance with the independence requirements from all personnel required by relevant ethical requirements to be independent) or provide consultation on matters related to relevant ethical requirements
- Establish policies or procedures for engagement team members to communicate relevant and reliable information to appropriate parties within the firm or to the engagement partner, such as policies or procedures for engagement teams to
 - communicate information about client engagements and the scope of services, including non-assurance services, to enable the firm to identify threats to independence during

the period of the engagement and during the period covered by the subject matter

- communicate circumstances and relationships that may create a threat to independence, so that the firm can evaluate whether such a threat is at an acceptable level and, if it is not, address the threat by eliminating it or reducing it to an acceptable level
- promptly communicate any breaches of the relevant ethical requirements, including those related to independence

[Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A53 The engagement partner may take into account the information, communication, and resources described in paragraph .A49 when determining whether the engagement partner may depend on the firm's policies or procedures in complying with relevant ethical requirements. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A54 Open and robust communication between the members of the engagement team about relevant ethical requirements may also assist in

- drawing the attention of engagement team members to relevant ethical requirements that may be of particular significance to the audit engagement, and
- keeping the engagement partner informed about matters relevant to the engagement team's understanding and fulfillment of relevant ethical requirements and the firm's related policies or procedures.

[Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Identifying and Evaluating Threats to Compliance With Relevant Ethical Requirements (Ref: par. .24–.25)

.A55 In accordance with SQMS No. 1, the firm's responses to address the quality risks in relation to relevant ethical requirements, including those related to independence for engagement team members, include policies or procedures for identifying, evaluating, and addressing threats to compliance with the relevant ethical requirements. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A56 Relevant ethical requirements may contain provisions regarding the identification and evaluation of threats and how they are to be dealt with. For example, the AICPA code (ET section 1.295.040) provides safeguards for reducing threats to independence to an acceptable level when performing nonattest services for an attest client. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Breaches of Relevant Ethical Requirements (Ref: par. .26)

.A57 In accordance with SQMS No. 1, the firm is required to establish policies or procedures for identifying, communicating, evaluating, and reporting any breaches of relevant ethical requirements and appropriately responding to

the causes and consequences of the breaches in a timely manner. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Taking Appropriate Action (Ref: par. .27)

.A58 Examples of appropriate actions may include the following:

- Following the firm's policies or procedures regarding breaches of relevant ethical requirements, including communicating to or consulting with the appropriate individuals so that appropriate action can be taken, including as applicable, disciplinary action.
- Communicating with those charged with governance.
- Communicating with regulatory authorities or professional bodies. In some circumstances, communication with regulatory authorities may be required by law or regulation.
- Seeking legal advice.
- Withdrawing from the engagement, when withdrawal is possible under applicable law or regulation.

[Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Prior to Dating the Accountant's Review Report (Ref: par. .28)

.A59 AR-C section 90, *Review of Financial Statements*, requires that the accountant's review report include a statement that the accountant is required to be independent of the entity and to meet the accountant's other ethical responsibilities in accordance with the relevant ethical requirements relating to the review.⁶ Performing the procedures required by paragraphs .23–.28 provide the basis for these statements in the accountant's review report. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

Acceptance and Continuance of Client Relationships and Engagements (Ref: par. .30–.31)

.A60 The accountant's consideration of acceptance and continuance of client relationships and relevant ethical requirements occurs throughout the engagement as conditions and changes in circumstances occur. Performing initial procedures on acceptance and continuance of client relationships and evaluation of relevant ethical requirements at the beginning of an engagement informs the accountant's decisions and actions prior to the performance of other significant activities for the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

[.A61] [Paragraph subsequently renumbered and deleted by the issuance of SSARS No. 26, June 2022.]

⁶ Paragraph .76eiii of section 90. [Footnote added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A62 This consideration is not directed at the need that sometimes arises in the course of an engagement to assist management by recommending adjusting entries required to finalize the financial statements prepared by management. An example of where the accountant may have cause to doubt whether the information needed to perform the review will be available or reliable is when the accounting records necessary for performing analytical procedures are suspected to be substantially inaccurate or incomplete. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

The Applicable Financial Reporting Framework

.A63 An applicable financial reporting framework provides the criteria for management to present the financial statements of an entity, including the fair presentation of those financial statements. The criteria used by the accountant to evaluate or measure the subject matter, including, when relevant, a basis for presentation and disclosure, are also provided by the financial reporting framework. These criteria enable reasonably consistent evaluation or measurement of a subject matter within the context of professional judgment. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A64 Without an acceptable financial reporting framework, management does not have an appropriate basis for the preparation of the financial statements, and the accountant does not have suitable criteria for an engagement in accordance with SSARSs. In many cases, the accountant may presume that the applicable financial reporting framework is acceptable, as described in paragraphs .A69–.A71. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

Determining the Acceptability of the Financial Reporting Framework

.A65 Factors that are relevant to the accountant's determination of the acceptability of the financial reporting framework selected by management to be applied in the preparation of the financial statements include the following:

- The nature of the entity (for example, whether it is a business enterprise, a governmental entity, or a not-for-profit organization)
- The purpose of the financial statements (for example, whether they are prepared to meet the common financial information needs of a wide range of users)
- The nature of the financial statements (for example, whether the financial statements are a complete set of financial statements or a single financial statement)
- Whether law or regulation prescribes the applicable financial reporting framework

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A66 Many users of financial statements are not in a position to demand financial statements tailored to meet their specific information needs. Although all the information needs of specific users cannot be met, financial information needs that are common to a wide range of users exist. Financial statements prepared in accordance with a financial reporting framework designed to meet the common financial information needs of a wide range of users are referred to as *general purpose financial statements*. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A67 General purpose frameworks. The sources of established accounting principles that are generally accepted are accounting principles promulgated by a body designated by the Council of the AICPA to establish such principles, pursuant to the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct. Such financial reporting standards often are identified as the applicable financial reporting framework in law or regulation governing the preparation of general purpose financial statements. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A68 Special purpose frameworks. In some cases, the financial statements will be prepared in accordance with a special purpose framework. For example, law or regulation may prescribe the financial reporting framework to be used in the preparation of financial statements for certain types of entities. Such financial statements are referred to as *special purpose financial statements*. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A69 After the engagement has been accepted, the accountant may encounter deficiencies in the applicable financial reporting framework that indicate that the framework is not acceptable. When use of that framework is not prescribed by law or regulation, management may decide to adopt another framework that is acceptable. When management does so, the previously agreed-upon terms will have changed. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A70 In accordance with this section, the accountant is required to obtain the agreement of management on management's responsibilities in relation to the financial statements as a condition precedent to accepting the engagement. In smaller entities, management may not be well-informed about what those responsibilities are, including those arising in applicable law or regulation. In order to obtain management's agreement on an informed basis, the accountant may find it necessary to discuss those responsibilities with management in advance of seeking management's agreement on its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A71 The financial statements are those of the entity. This section does not impose responsibilities on management and those charged with governance, nor does it override laws and regulations that govern their respective responsibilities. However, an engagement performed in accordance with SSARSs is conducted on the premise that management, and those charged with governance, as appropriate, have acknowledged certain responsibilities that are

fundamental to the conduct of the engagement. The accountant's engagement does not relieve management and those charged with governance of their responsibilities. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A72 As part of its responsibility for the preparation of the financial statements, management is required to exercise judgment in making accounting estimates that are reasonable in the circumstances and to select and apply appropriate accounting policies. These judgments are made in the context of the applicable financial reporting framework. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A73 Because of the significance of the preconditions for undertaking an engagement in accordance with SSARSs, the accountant is required, in accordance with this section, to obtain management's agreement that it understands its responsibilities before accepting a SSARSs engagement. The accountant may obtain management's agreement either orally or in writing. However, management's agreement is subsequently recorded within the written terms of the engagement. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A74 If management, and those charged with governance, where appropriate, do not or will not acknowledge their responsibilities in relation to the financial statements, it is not appropriate to accept the engagement. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A75 Although the accountant may accept responsibility for the design, implementation, and maintenance of internal control, accepting such responsibility would impair the accountant's independence.⁷ Therefore, if an accountant accepts such responsibility, the accountant would be precluded from performing a review of the financial statements. [Paragraph added, effective for compilations and reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered by the issuance of SSARS No. 25, February 2020. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A76 The accountant is entitled to rely on management to provide all relevant information for the engagement. The form of the information provided by management for the purpose of the engagement will vary in different engagement circumstances. In broad terms, it will comprise records, documents, explanations, and other information relevant to the preparation of the financial statements in accordance with the financial reporting framework adopted by management. The information provided may include, for example, information about management's assumptions, intentions, or plans underlying development of accounting estimates needed to prepare the financial statements in accordance with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

AR-C Section 60A

General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services

Source: SSARS No. 21; SSARS No. 23; SSARS No. 24; SSARS No. 25.

Effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section provides general principles for engagements performed in accordance with Statements on Standards for Accounting and Review Services (SSARSs) issued by the Accounting and Review Services Committee (ARSC) and codified into AR-C sections. This section also sets forth the meaning of certain terms used in SSARSs when describing the professional requirements imposed on accountants performing an engagement in accordance with SSARSs. [As amended, effective October 2016, by SSARS No. 23.]

.02 This section is intended to help accountants better understand their professional responsibilities when performing an engagement in accordance with SSARSs. Additional sections have been established to set forth specific performance and reporting requirements. Such additional requirements are based on the general principles provided by this section, and any requirements created by this section also have been incorporated into the additional sections.

.03 SSARSs do not address the responsibilities of the accountant that may exist in legislation, regulation, or otherwise. Such responsibilities may differ from those established in SSARSs. Accordingly, although the accountant may find aspects of SSARSs helpful in such circumstances, it is the responsibility of the accountant to ensure compliance with all relevant legal, regulatory, or professional obligations. [As amended, effective October 2016, by SSARS No. 23.]

.04 The financial statements subject to the engagement performed in accordance with SSARSs are those of the entity. SSARSs do not impose responsibilities on management and do not override laws and regulations that govern their responsibilities. (Ref: par. .A4–.A11) [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

Effective Date

.05 This section is effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2015. Early implementation is permitted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Objective

.06 The objective of the accountant is to obtain an understanding of the general principles for engagements performed in accordance with SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions

.07 For purposes of SSARSs, the following terms have the meanings attributed as follows:

Applicable financial reporting framework. The financial reporting framework adopted by management and, when appropriate, those charged with governance in the preparation and fair presentation of the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements, or that is required by law or regulation.

Designated accounting standard setter. A body designated by the Council of the AICPA to promulgate accounting principles generally accepted in the United States of America pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Engagement partner.¹ The partner or other person in the firm who is responsible for the engagement and its performance and for the report that is issued on behalf of the firm and who, when required, has the appropriate authority from a professional, legal, or regulatory body.

Engagement team. All partners and staff performing the engagement and any individuals engaged by the firm or a network firm who perform procedures on the engagement.

Fair presentation framework. See **financial reporting framework**.

Financial reporting framework. A set of criteria used to determine measurement, recognition, presentation, and disclosure of all material items appearing in the financial statements (for example, accounting principles generally accepted in the United States of America [U.S. GAAP], International Financial Reporting Standards promulgated by the International Accounting Standards Board, or a special purpose framework).

The term *fair presentation framework* refers to a financial reporting framework that requires compliance with the requirements of the framework and does one of the following:

- a. Acknowledges explicitly or implicitly that, to achieve fair presentation of the financial statements, it may be necessary for management to provide disclosures beyond those specifically required by the framework.
- b. Acknowledges explicitly that it may be necessary for management to depart from a requirement of the framework to achieve fair presentation of the financial statements. Such

¹ This term is also defined in paragraph .13 of QM section 10A, *A Firm's System of Quality Control*, for purposes of the Statements on Quality Control Standards. Refer to QM section 10A for specific language.

departures are expected to be necessary only in rare circumstances.

A financial reporting framework that requires compliance with the requirements of the framework but does not contain the acknowledgment in (a) or (b) is not a fair presentation framework.

Financial statements. A structured representation of historical financial information, including disclosures, intended to communicate an entity's economic resources and obligations at a point in time or the changes therein for a period of time in accordance with a financial reporting framework. The term *financial statements* ordinarily refers to a complete set of financial statements as determined by the requirements of the applicable financial reporting framework but can also refer to a single financial statement. Disclosures comprise explanatory or descriptive information, set out as required, expressly permitted or otherwise allowed by the applicable financial reporting framework, on the face of a financial statement or in the notes, or incorporated therein by reference.

The requirements of the applicable financial reporting framework determine the presentation, structure, and content of the financial statements and what constitutes a complete set of financial statements.

Firm. A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the AICPA and that is engaged in the practice of public accounting.

General purpose financial statements. Financial statements prepared in accordance with a general purpose framework.

General purpose framework. A financial reporting framework designed to meet the common financial information needs of a wide range of users.

Interpretive publications. Interpretations of SSARs; exhibits to SSARs; AICPA Guide *Preparation, Compilation, and Review Engagements*; ^[2] guidance on preparation, compilation, and review engagements included in AICPA Audit and Accounting Guides; and AICPA Statements of Position, to the extent that those statements are applicable to such engagements.

Other preparation, compilation and review publications. Publications other than interpretive publications. (Ref: par. .A12)

Professional judgment. The application of relevant training, knowledge, and experience, within the context provided by SSARs, accounting, and ethical standards, in making informed decisions about the courses of action that are appropriate in the circumstances of the preparation, compilation, or review engagement.

Prospective financial information. Any financial information about the future. The information may be presented as complete financial statements or limited to one or more elements, items, or accounts.

Special purpose financial statements. Financial statements prepared in accordance with a special purpose framework.

^[2] [Footnote deleted by the issuance of SSARS No. 23, October 2016.]

Special purpose framework. A financial reporting framework other than GAAP that is one of the following bases of accounting: (Ref: par. .A13)

- a. **Cash basis.** A basis of accounting that the entity uses to record cash receipts and disbursements and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets).
- b. **Tax basis.** A basis of accounting that the entity uses to file its tax return for the period covered by the financial statements.
- c. **Regulatory basis.** A basis of accounting that the entity uses to comply with the requirements or financial reporting provisions of a regulatory agency to whose jurisdiction the entity is subject (for example, a basis of accounting that insurance companies use pursuant to the accounting practices prescribed or permitted by a state insurance department).
- d. **Contractual basis.** A basis of accounting that the entity uses to comply with an agreement between the entity and one or more third parties other than the accountant.
- e. **Other basis.** A basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements, for example, the AICPA's Financial Reporting Framework for Small- and Medium-Sized Entities.

The cash basis, tax basis, regulatory basis, and other basis of accounting are commonly referred to as other comprehensive bases of accounting.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after June 15, 2019, by SSARS No. 24. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Requirements

Ethical Requirements

.08 The accountant should comply with relevant ethical requirements. (Ref: par. .A14–.A17)

Professional Judgment

.09 The accountant should exercise professional judgment in the performance of an engagement in accordance with SSARSs. (Ref: par. .A18–.A22)

Conduct of the Engagement in Accordance With SSARSs

.10 The accountant must perform a review, compilation, or an engagement to prepare financial statements in accordance with SSARSs, except for certain

reviews of interim financial information as discussed in section 90A, *Review of Financial Statements*.³

Complying With AR-C Sections Relevant to the Engagement

.11 The accountant should comply with all AR-C sections relevant to the engagement. An AR-C section is relevant to the engagement when the AR-C section is in effect, and the circumstances addressed by the AR-C section exist. (Ref: par. .A22–.A27)

.12 The accountant should have an understanding of the entire text of an AR-C section, including its application and other explanatory material, to understand its objectives and apply its requirements properly. (Ref: par. .A29–.A33)

.13 An accountant should not represent compliance with SSARs in the accountant's compilation or review report unless the accountant has complied with the requirements of this section and all other AR-C sections relevant to the engagement.

Complying With Relevant Requirements

.14 Subject to paragraph .16, the accountant should comply with each requirement of the relevant AR-C section unless, in the circumstances of the engagement, the requirement is not relevant because it is conditional, and the condition does not exist. (Ref: par. .A34)

Defining Professional Responsibilities in SSARs

.15 SSARs use the following two categories of professional requirements, identified by specific terms, to describe the degree of responsibility they impose on accountants:

- *Unconditional requirements.* The accountant must comply with an unconditional requirement in all cases in which such requirement is relevant. SSARs use the word "must" to indicate an unconditional requirement.
- *Presumptively mandatory requirements.* The accountant must comply with a presumptively mandatory requirement in all cases in which such a requirement is relevant, except in rare circumstances discussed in paragraph .16. SSARs use the word "should" to indicate a presumptively mandatory requirement. (Ref: par. .A35)

.16 In rare circumstances, the accountant may judge it necessary to depart from a relevant presumptively mandatory requirement. In such circumstances, the accountant should perform alternative procedures to achieve the intent of the requirement. The need for an accountant to depart from a relevant, presumptively mandatory requirement is expected to arise only when the requirement is for a specific procedure to be performed and, in the specific circumstances of the engagement, that procedure would be ineffective in achieving the intent of the requirement.

.17 If, in rare circumstances, the accountant judges it necessary to depart from a relevant presumptively mandatory requirement, the accountant must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement. [Paragraph added, effective October 2016, by SSARS No. 23.]

³ Paragraph .02 of section 90A, *Review of Financial Statements*.

Interpretive Publications

.18 The accountant should consider applicable interpretive publications in the performance of an engagement in accordance with SSARSs. (Ref: par. .A36) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Other Preparation, Compilation and Review Publications

.19 In applying the guidance included in an other preparation, compilation and review publication, the accountant should, exercising professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the engagement. (Ref: par. .A37–.A39) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Engagement Level Quality Control

.20 In an engagement performed in accordance with SSARSs, the engagement partner should possess the competence and capabilities to perform the engagement and competence in financial reporting, appropriate to the engagement circumstances. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.21 In an engagement performed in accordance with SSARSs, the engagement partner should take responsibility for the following: (Ref: par. .A40–.A43)

- a. The overall quality of each engagement to which that partner is assigned
- b. The direction, supervision, planning, and performance of the engagement in compliance with professional standards and applicable legal and regulatory requirements
- c. The accountant's report being appropriate in the circumstances
- d. The engagement being performed in accordance with the firm's quality control policies and procedures, including the following:
 - i. Being satisfied that appropriate procedures regarding the acceptance and continuance of client relationships and engagements have been followed, and that conclusions reached are appropriate, including considering whether there is information that would lead the engagement partner to conclude that management lacks integrity (Ref: par. .A45–.A46)
 - ii. Being satisfied that the engagement team collectively has the appropriate competence and capabilities to perform the engagement and expertise in financial reporting to (Ref: par. .A47)
 - (1) perform the engagement in accordance with professional standards and applicable legal and regulatory requirements and
 - (2) enable a report that is appropriate in the circumstances to be issued, if applicable
 - iii. Taking responsibility for appropriate engagement documentation being maintained

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Relevant Considerations After Engagement Acceptance

.22 If the engagement partner obtains information that would have caused the firm to decline the engagement had that information been available earlier, the engagement partner should communicate that information promptly to the firm, so that the firm and the engagement partner can take the necessary action. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Compliance With Relevant Ethical Requirements

.23 Throughout the engagement, the engagement partner should remain alert, through observation and making inquiries as necessary, for evidence of noncompliance with relevant ethical requirements by members of the engagement team. If matters come to the engagement partner's attention through the firm's system of quality control or otherwise that indicate that members of the engagement team have not complied with relevant ethical requirements, the engagement partner, in consultation with others in the firm, should determine the appropriate action. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Monitoring

.24 An effective system of quality control for a firm includes a monitoring process designed to provide the firm with reasonable assurance that the firm's policies and procedures relating to the system of quality control are relevant, adequate, and operating effectively. The engagement partner should consider the results of the firm's monitoring process as evidenced in the latest information circulated by the firm and, if applicable, other network firms and whether deficiencies noted in that information may affect the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Acceptance and Continuance of Client Relationships and Engagements

.25 The accountant should not accept an engagement to be performed in accordance with SSARSs if (Ref: par. .A48)

- a. the accountant has reason to believe that relevant ethical requirements will not be satisfied; (Ref: par. .A49)
- b. the accountant's preliminary understanding of the engagement circumstances indicates that information needed to perform the engagement is likely to be unavailable or unreliable; or (Ref: par. .A50)
- c. the accountant has cause to doubt management's integrity such that it is likely to affect the performance of the engagement.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.26 As a precondition for accepting an engagement to be performed in accordance with SSARSs, the accountant should

- a. determine whether the financial reporting framework selected by management to be applied in the preparation of the financial statements is acceptable. (Ref: par. .A51–.A57)
- b. obtain the agreement of management that it acknowledges and understands its responsibility (Ref: par. .A58–.A62)
 - i. for the selection of the financial reporting framework to be applied in the preparation of financial statements.

- ii. for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error, unless the accountant decides to accept responsibility for such internal control. (Ref: par. .A63)
- iii. for preventing and detecting fraud.
- iv. for ensuring that the entity complies with laws and regulations applicable to its activities.
- v. for the accuracy and completeness of the records, documents, explanations, and other information, including significant judgments provided by management for the preparation of financial statements.
- vi. to provide the accountant with (Ref: par. .A64)
 - (1) access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters.
 - (2) additional information that the accountant may request from management for the purpose of the engagement.
 - (3) unrestricted access to persons within the entity of whom the accountant determines it necessary to make inquiries.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after June 15, 2019, by SSARS No. 24. As amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Application and Other Explanatory Material

[.A1–.A3] [Paragraphs deleted by the issuance of SSARS No. 23, October 2016.]

Scope of This Section (Ref: par. .04)

.A4 If the accountant is engaged to perform a professional service in accordance with SSARSs on financial information other than financial statements (for example, the preparation or compilation of prospective financial information or the compilation of pro forma financial information), references in this section to *financial statements* are to be taken as references to such other financial information. [Paragraph added, effective October 2016, by SSARS No. 23.]

.A5 The preparation and fair presentation of the financial statements require

- the identification of the applicable financial reporting framework, in the context of any relevant laws or regulations.
- the preparation and fair presentation of the financial statements in accordance with that framework.
- the inclusion of an adequate description of that framework in the financial statements.

The preparation and fair presentation of the financial statements require management to exercise judgment when making accounting estimates that are reasonable in the circumstances as well as when selecting and applying appropriate accounting policies. These judgments are made in the context of the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A6 The financial statements may be prepared in accordance with one of the following:

- A general purpose framework (a financial reporting framework designed to meet the common financial information needs of a wide range of users)
- A special purpose framework

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A7 The applicable financial reporting framework often encompasses financial accounting standards promulgated by an authorized or recognized standards-setting organization or legislative or regulatory requirements. In some cases, the financial reporting framework may encompass both financial accounting standards promulgated by an authorized or recognized standards-setting organization and legislative or regulatory requirements. Other sources may provide direction on the application of the applicable financial reporting framework. In some cases, the applicable financial reporting framework may encompass such other sources or may even consist only of such sources. Such other sources may include the following:

- The legal and ethical environment, including statutes, regulations, court decisions, and professional ethical obligations regarding accounting matters
- Published accounting interpretations of varying authority issued by standards-setting, professional, or regulatory organizations
- Published views of varying authority on emerging accounting issues issued by standards-setting, professional, or regulatory organizations
- General and industry practices widely recognized and prevalent
- Accounting literature

When conflicts exist between the financial reporting framework and the sources from which direction on its application may be obtained or among the sources that encompass the financial reporting framework, the source with the highest authority prevails. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A8 The requirements of the applicable financial reporting framework determine the form and content of the financial statements. Although the framework may not specify how to account for or disclose all transactions or events, it ordinarily embodies sufficiently broad principles that can serve as a basis for developing and applying accounting policies that are consistent with the concepts underlying the requirements of the framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A9 The financial accounting standards promulgated by organizations that are authorized or recognized to promulgate standards to be used by entities for preparing financial statements in accordance with a general purpose framework include the FASB *Accounting Standards Codification*; International Financial Reporting Standards, issued by the International Accounting Standards Board; Statements of Federal Financial Accounting Standards,

issued by the Federal Accounting Standards Advisory Board for U.S. federal government entities; and Statements of the Governmental Accounting Standards Board, issued by the Governmental Accounting Standards Board for U.S. state and local governmental entities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A10 The requirements of the applicable financial reporting framework also determine what constitutes a complete set of financial statements. In the case of many frameworks, financial statements are intended to provide information about the financial position, financial performance, and cash flows of an entity. For example, a complete set of financial statements might include a balance sheet, an income statement, a statement of changes in equity, a cash flow statement, and related notes. For some other financial reporting frameworks, a single financial statement and the related notes might constitute a complete set of financial statements. Examples of a single financial statement, each of which would include related notes, include the following:

- Balance sheet
- Statement of income or statement of operations
- Statement of retained earnings
- Statement of cash flows
- Statement of assets and liabilities
- Statement of changes in owners' equity
- Statement of revenue and expenses
- Statement of operations by product lines

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A11 An accountant may be engaged to prepare or perform a compilation or review engagement on a complete set of financial statements or an individual financial statement (for example, balance sheet only). The financial statements may be for an annual period or for a shorter or longer period, depending on management's needs. However, it is likely not appropriate for the entity to present financial statements for a period longer or shorter than an annual period in a comparative presentation with financial statements for an annual period. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions (Ref: par. .07)

.A12 Other preparation, compilation, and review publications include

- AICPA preparation, compilation, and review publications not defined as interpretive publications;
- AICPA's annual alert addressing engagements performed in accordance with SSARSs;
- articles addressing preparation, compilation, and review engagements in the *Journal of Accountancy* and other professional journals;
- continuing professional education programs and other instruction materials,
- textbooks, guide books, programs for preparation, compilation, and review engagements
- checklists; and

- other publications addressing preparation, compilation, and review engagements from state CPA societies, other organizations, and individuals.

[Paragraph added, effective October 2016, by SSARS No. 23.]

.A13 Certain regulators, including state and local government legislators, regulatory agencies, or departments, require financial statements to be prepared in accordance with a financial reporting framework that is based on a framework promulgated by an authorized or recognized standard-setting organization (for example, FASB or GASB) but does not include all the requirements of that framework. Such frameworks are regulatory bases of accounting, as described in paragraph .07. In some circumstances, however, the cash or tax basis of accounting may be permitted by a regulator. For purposes of SSARSs, the cash and tax bases of accounting are not regulatory bases of accounting. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Ethical Requirements (Ref: par. .08)

.A14 The accountant is subject to relevant ethical requirements relating to engagements performed in accordance with SSARSs. Ethical requirements consist of those contained in the AICPA Code of Professional Conduct, together with rules of state boards of accountancy and applicable regulatory agencies that are more restrictive. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, by the issuance of SSARS No. 25, February 2020.]

.A15 The AICPA Code of Professional Conduct establishes the fundamental principles of professional ethics, which include the following:

- Responsibilities
- The public interest
- Integrity
- Objectivity and independence
- Due care
- Scope and nature of services

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A16 Due care requires the accountant to discharge professional responsibilities with competence and have the appropriate capabilities to perform the engagement and enable an appropriate accountant's report to be issued, if applicable. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A17 QM section 10A, *A Firm's System of Quality Control*, sets out the firm's responsibilities to establish and maintain its system of quality control for engagements performed in accordance with SSARSs and establish policies and procedures designed to provide it with reasonable assurance that the firm and its personnel comply with relevant ethical requirements, including those pertaining to independence.⁴ [Paragraph renumbered by the issuance of SSARS

⁴ Paragraphs .21–.25 of QM section 10A.

No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Professional Judgment (Ref: par. .09)

.A18 Professional judgment is essential to the proper conduct of an engagement in accordance with SSARSs because interpretation of relevant ethical requirements and SSARSs and the informed decisions required throughout the engagement cannot be made without the application of relevant knowledge and experience to the facts and circumstances. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A19 The distinguishing feature of the professional judgment expected of the accountant is that it is exercised by an accountant whose training, knowledge, and experience have assisted in developing the necessary competencies to achieve reasonable judgments and make informed decisions about appropriate courses of action when undertaking an engagement in accordance with SSARSs. Consultation on difficult or contentious matters during the course of the engagement, both within the engagement team and between the engagement team and others at the appropriate level within or outside the firm, assists the accountant in making informed and reasonable judgments. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A20 The exercise of professional judgment in individual engagements is based on the facts and circumstances that are known by the accountant throughout the engagement, including

- knowledge acquired from engagements carried out for the entity's financial statements in prior periods, where applicable.
- the accountant's understanding of the entity and its environment, including its accounting system, and the application of the applicable financial reporting framework in the entity's industry.
- the extent to which the preparation and presentation of the financial statements requires the exercise of judgment by management or the accountant, if applicable.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A21 Professional judgment can be evaluated based on whether the judgment reached reflects a competent application of SSARSs and accounting principles and is appropriate in light of, and consistent with, the facts and circumstances that were known to the accountant up to the date of the issuance of financial statements prepared by the accountant or the date of the accountant's compilation or review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A22 Professional judgment needs to be exercised throughout the engagement performed in accordance with SSARSs. It also needs to be appropriately documented in accordance with the requirements of the applicable AR-C section. Professional judgment is not to be used as the justification for decisions that are not otherwise supported by the facts and circumstances of the engagement or, in a review engagement, the evidence obtained. [Paragraph

renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Conduct of an Engagement in Accordance With SSARSs

Complying With AR-C Sections Relevant to the Engagement ***(Ref: par. .11–.12)***

.A23 ARSC is designated to promulgate standards under the "General Standards Rule" (ET sec. 1.300.001) and the "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct⁵ with respect to unaudited financial statements or other unaudited financial information of an entity that is not required to file financial statements with a regulatory agency in connection with the sale or trading of its securities in a public market. ARSC develops and issues standards in the form of SSARSs through a process that includes deliberation in meetings open to the public, public exposure of proposed SSARSs, and a formal vote. SSARSs are codified in AR-C sections in AICPA *Professional Standards*. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A24 SSARSs provide the standards used for fulfilling the overall objectives of the accountant's work. SSARSs address the general responsibilities of the accountant as well as the accountant's further considerations relevant to the application of those responsibilities to specific topics. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A25 The scope, effective date, and any specific limitation of the applicability of a specific AR-C section are made clear in the AR-C section. Unless otherwise stated in the AR-C section, the accountant is permitted to apply an AR-C section before the effective date specified therein. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A26 In certain engagements, the accountant also may be required to comply with other requirements in addition to SSARSs. SSARSs do not override law or regulation that governs a review, compilation, or an engagement to prepare financial statements. In the event that such law or regulation differs from SSARSs, an engagement conducted only in accordance with law or regulation will not necessarily comply with SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A27 The accountant may also conduct the compilation or review of financial statements in accordance with both SSARSs and

- International Standard on Related Services 4410 (Revised), *Compilation Engagements*,
- International Standard on Review Engagements 2400 (Revised), *Engagements to Review Historical Financial Statements*, or
- compilation or review standards of a specific jurisdiction or country.

⁵ AICPA's Professional Ethics Executive Committee has restructured the Code of Professional Conduct. References in this standard are to the revised code, which is effective December 15, 2014. It is available at <http://pub.aicpa.org/codeofconduct>.

In such cases, in addition to complying with each of the AR-C sections relevant to the engagement, it may be necessary for the accountant to perform additional compilation or review procedures in order to comply with the other compilation or review standards. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A28 SSARSs are relevant to engagements to prepare financial statements and compilations and reviews of financial statements of governmental entities. The accountant's responsibilities, however, may be affected by law, regulation, or other authority (such as government policy requirements or resolutions of the legislature), which may encompass a broader scope than an engagement in accordance with SSARSs. These additional responsibilities are not dealt with in SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A29 In addition to objectives and requirements, an AR-C section contains related guidance in the form of application and other explanatory material. It may also contain introductory material that provides context relevant to a proper understanding of the AR-C section and definitions. The entire text of an AR-C section, therefore, is relevant to an understanding of the objectives stated in an AR-C section and the proper application of the requirements of an AR-C section. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A30 When necessary, the application and other explanatory material provides further explanation of the requirements of an AR-C section and guidance for carrying them out. In particular, it may

- explain more precisely what a requirement means or is intended to cover.
- include examples of procedures that may be appropriate in the circumstances.

Although such guidance does not, in itself, impose a requirement, it is relevant to the proper application of the requirements of an AR-C section. The accountant is required by paragraph .12 to understand the application and other explanatory material; how the accountant applies the guidance in the engagement depends on the exercise of professional judgment in the circumstances consistent with the objective of the AR-C section. The words "may," "might," and "could" are used to describe these actions and procedures. The application and other explanatory material may also provide background information on matters addressed in an AR-C section. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A31 Appendixes form part of the application and other explanatory material. The purpose and intended use of an appendix are explained in the body of the related AR-C section or within the title and introduction of the appendix itself. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A32 Introductory material may include, as needed, such matters as explanation of the following:

- The purpose and scope of the AR-C section, including how the AR-C section relates to other AR-C sections

- The subject matter of the AR-C section
- The respective responsibilities of the accountant and others in relation to the subject matter of the AR-C section
- The context in which the AR-C section is set

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A33 An AR-C section may include, in a separate section under the heading "Definitions," a description of the meanings attributed to certain terms for purposes of SSARSs. These are provided to assist in the consistent application and interpretation of SSARSs and are not intended to override definitions that may be established for other purposes, whether in law, regulation, or otherwise. Unless otherwise indicated, those terms will carry the same meanings throughout SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Complying With Relevant Requirements (Ref: par. .14)

.A34 In some cases, a requirement may be expressed as being conditional on applicable law or regulation. For example, the accountant may be required to withdraw from the engagement when withdrawal is possible under applicable law or regulation, or the accountant may be required to perform a certain action, unless prohibited by law or regulation. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Defining Professional Responsibilities in SSARSs (Ref: par. .15)

.A35 If an AR-C section provides that a procedure or action is one that the accountant "should consider," consideration of the procedure or action is presumptively required. Whether the accountant performs the procedure or action is based upon the outcome of the accountant's consideration and the accountant's professional judgment. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Interpretive Publications (Ref: par. .18)

.A36 Interpretive publications are not SSARSs. *Interpretive publications* are recommendations on the application of SSARSs in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of ARSC only after all ARSC members have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with SSARSs. Compilation and review interpretations of SSARSs and exhibits to SSARSs are included in the AR-C sections. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Other Preparation, Compilation and Review Publications (Ref: par. .19)

.A37 Other preparation, compilation and review publications have no authoritative status; however, they may help the accountant understand and apply SSARSs. The accountant is not expected to be aware of the full body of other preparation, compilation and review publications. [Paragraph renumbered by

the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

A38 Although the accountant determines the relevance of these publications in accordance with paragraph .19, the accountant may presume that other preparation, compilation and review publications published by the AICPA that have been reviewed by the AICPA Audit and Attest Standards staff are appropriate. These other preparation, compilation and review publications are listed in the exhibit, "Other Preparation, Compilation and Review Publications." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

A39 When determining whether an other preparation, compilation and review publication that has not been reviewed by the AICPA Audit and Attest Standards staff is appropriate to the circumstances of the engagement, the accountant may wish to consider the degree to which the publication is recognized as being helpful in understanding and applying SSARSs and the degree to which the publisher or author is recognized as an authority in matters addressing preparation, compilation, and review engagements. An other preparation, compilation, and review publication that has not been reviewed by the AICPA Audit and Attest Standards staff that contradicts an other preparation, compilation and review publication that has been reviewed by the AICPA Audit and Attest Standards staff is inappropriate. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Engagement Level Quality Control (Ref: par. .21)

A40 Within the context of the firm's system of quality control, engagement teams have a responsibility to implement quality control procedures that are applicable to the engagement and provide the firm with relevant information to enable the functioning of that part of the firm's system of quality control relating to independence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered and amended, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

A41 The actions of the engagement partner and appropriate messages to the other members of the engagement team, in the context of the engagement partner taking responsibility for the overall quality of each engagement, emphasize the fact that quality is essential when performing an engagement in accordance with SSARSs and the importance to the quality of the engagement of

- a. performing work that complies with professional standards and regulatory and legal requirements.
- b. complying with the firm's quality control policies and procedures, as applicable.
- c. issuing a report, if applicable, for the engagement that is appropriate in the circumstances.
- d. the engagement team's ability to raise concerns without fear of reprisals.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A42 Unless information provided by the firm or other parties suggests otherwise, the engagement team is entitled to rely on the firm's system of quality control. For example, the engagement team may rely on the firm's system of quality control in relation to

- competence of personnel through their recruitment and formal training.
- independence through the accumulation and communication of relevant independence information.
- maintenance of client relationships through acceptance and continuance systems.
- adherence to regulatory and legal requirements through the monitoring process.

When considering the deficiencies identified in the firm's system of quality control that may affect the engagement, the engagement partner may consider measures taken by the firm to rectify those deficiencies.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A43 A deficiency in the firm's system of quality control does not necessarily indicate that an engagement was not performed in accordance with professional standards and applicable legal and regulatory requirements or that the accountant's report, if applicable, was not appropriate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

[.A44] [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Subsequently renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Acceptance and Continuance of Client Relationships and Engagements Performed in Accordance With SSARSs (Ref: par. .21di)

.A45 QM section 10A requires the firm to obtain information considered necessary in the circumstances before accepting an engagement with a new client, when deciding whether to continue an existing engagement, and when considering acceptance of a new engagement with an existing client. Information such as the following assists the engagement partner in determining whether the conclusions reached regarding the acceptance and continuance of client relationships and engagements in accordance with SSARSs are appropriate:

- The integrity of the principal owners, key management, and those charged with governance of the entity
- Whether the engagement team is competent to perform the engagement and has the necessary capabilities, including time and resources
- Whether the firm and the engagement team can comply with relevant ethical requirements
- Significant findings or issues that have arisen during the current or previous engagement and their implications for continuing the relationship

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A46 If the engagement partner has cause to doubt management's integrity to a degree that is likely to affect proper performance of the engagement, it is not appropriate to accept the engagement, unless required by law or regulation, because doing so may lead to the accountant being associated with the entity's financial statements in an inappropriate manner. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Assignment of Engagement Teams (Ref: par. .21 d*ii*)

.A47 When considering the appropriate competence and capabilities expected of the engagement team as a whole, the engagement partner may take into consideration such matters as the team's

- understanding of, and practical experience with, engagements of a similar nature and complexity through appropriate training and participation.
- understanding of professional standards and applicable legal and regulatory requirements.
- technical expertise, including expertise with relevant information technology and specialized areas of accounting or attest services.
- knowledge of relevant industries in which the client operates.
- ability to apply professional judgment.
- understanding of the firm's quality control policies and procedures.

[Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Acceptance and Continuance of Client Relationships and Engagements (Ref: par. .25–.26)

.A48 The accountant's consideration of engagement continuance and relevant ethical requirements occurs throughout the engagement as conditions and changes in circumstances occur. Performing initial procedures on engagement continuance and evaluation of relevant ethical requirements at the beginning of an engagement informs the accountant's decisions and actions prior to the performance of other significant activities for the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A49 Relevant ethical requirements with respect to a review engagement include independence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A50 This consideration is not directed at the need that sometimes arises in the course of an engagement to assist management by recommending adjusting entries required to finalize the financial statements prepared by management. An example of where the accountant may have cause to doubt whether the information needed to perform the review will be available or reliable is when the accounting records necessary for performing analytical procedures are suspected to be substantially inaccurate or incomplete. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

The Applicable Financial Reporting Framework

.A51 An applicable financial reporting framework provides the criteria for management to present the financial statements of an entity, including the fair presentation of those financial statements. The criteria used by the accountant to evaluate or measure the subject matter, including, when relevant, a basis for presentation and disclosure, are also provided by the financial reporting framework. These criteria enable reasonably consistent evaluation or measurement of a subject matter within the context of professional judgment. [Paragraph added, effective for engagements performed in accordance with SSARs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A52 Without an acceptable financial reporting framework, management does not have an appropriate basis for the preparation of the financial statements, and the accountant does not have suitable criteria for an engagement in accordance with SSARs. In many cases, the accountant may presume that the applicable financial reporting framework is acceptable, as described in paragraphs .A57–.A59. [Paragraph added, effective for engagements performed in accordance with SSARs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Determining the Acceptability of the Financial Reporting Framework

.A53 Factors that are relevant to the accountant's determination of the acceptability of the financial reporting framework selected by management to be applied in the preparation of the financial statements include the following:

- The nature of the entity (for example, whether it is a business enterprise, a governmental entity, or a not-for-profit organization)
- The purpose of the financial statements (for example, whether they are prepared to meet the common financial information needs of a wide range of users)
- The nature of the financial statements (for example, whether the financial statements are a complete set of financial statements or a single financial statement)
- Whether law or regulation prescribes the applicable financial reporting framework

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and amended, effective for engagements performed in accordance with SSARs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A54 Many users of financial statements are not in a position to demand financial statements tailored to meet their specific information needs. Although all the information needs of specific users cannot be met, financial information needs that are common to a wide range of users exist. Financial statements prepared in accordance with a financial reporting framework designed to meet the common financial information needs of a wide range of users are referred to as *general purpose financial statements*. [Paragraph added, effective for engagements performed in accordance with SSARs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A55 General purpose frameworks. The sources of established accounting principles that are generally accepted are accounting principles promulgated by a body designated by the Council of the AICPA to establish such principles, pursuant to the "Accounting Principles Rule" (ET sec. 1.320.001) of the

AICPA Code of Professional Conduct. Such financial reporting standards often are identified as the applicable financial reporting framework in law or regulation governing the preparation of general purpose financial statements. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A56 Special purpose frameworks. In some cases, the financial statements will be prepared in accordance with a special purpose framework. For example, law or regulation may prescribe the financial reporting framework to be used in the preparation of financial statements for certain types of entities. Such financial statements are referred to as *special purpose financial statements*. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A57 After the engagement has been accepted, the accountant may encounter deficiencies in the applicable financial reporting framework that indicate that the framework is not acceptable. When use of that framework is not prescribed by law or regulation, management may decide to adopt another framework that is acceptable. When management does so, the previously agreed-upon terms will have changed. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A58 In accordance with this section, the accountant is required to obtain the agreement of management on management's responsibilities in relation to the financial statements as a condition precedent to accepting the engagement. In smaller entities, management may not be well-informed about what those responsibilities are, including those arising in applicable law or regulation. In order to obtain management's agreement on an informed basis, the accountant may find it necessary to discuss those responsibilities with management in advance of seeking management's agreement on its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A59 The financial statements are those of the entity. This section does not impose responsibilities on management and those charged with governance, nor does it override laws and regulations that govern their respective responsibilities. However, an engagement performed in accordance with SSARSs is conducted on the premise that management, and those charged with governance, as appropriate, have acknowledged certain responsibilities that are fundamental to the conduct of the engagement. The accountant's engagement does not relieve management and those charged with governance of their responsibilities. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A60 As part of its responsibility for the preparation of the financial statements, management is required to exercise judgment in making accounting estimates that are reasonable in the circumstances and to select and apply appropriate accounting policies. These judgments are made in the context of the applicable financial reporting framework. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A61 Because of the significance of the preconditions for undertaking an engagement in accordance with SSARSs, the accountant is required, in accordance with this section, to obtain management's agreement that it understands its responsibilities before accepting a SSARSs engagement. The accountant may obtain management's agreement either orally or in writing. However, management's agreement is subsequently recorded within the written terms of the

engagement. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A62 If management, and those charged with governance, where appropriate, do not or will not acknowledge their responsibilities in relation to the financial statements, it is not appropriate to accept the engagement. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A63 Although the accountant may accept responsibility for the design, implementation, and maintenance of internal control, accepting such responsibility would impair the accountant's independence.⁶ Therefore, if an accountant accepts such responsibility, the accountant would be precluded from performing a review of the financial statements. [Paragraph added, effective for compilations and reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.A64 The accountant is entitled to rely on management to provide all relevant information for the engagement. The form of the information provided by management for the purpose of the engagement will vary in different engagement circumstances. In broad terms, it will comprise records, documents, explanations, and other information relevant to the preparation of the financial statements in accordance with the financial reporting framework adopted by management. The information provided may include, for example, information about management's assumptions, intentions, or plans underlying development of accounting estimates needed to prepare the financial statements in accordance with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

AR-C Section 60B***General Principles for Engagements
Performed in Accordance With Statements
on Standards for Accounting
and Review Services***

Source: SSARS No. 21; SSARS No. 23; SSARS No. 24.

Effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction**Scope of This Section**

.01 This section provides general principles for engagements performed in accordance with Statements on Standards for Accounting and Review Services (SSARSs) issued by the Accounting and Review Services Committee (ARSC) and codified into AR-C sections. This section also sets forth the meaning of certain terms used in SSARSs when describing the professional requirements imposed on accountants performing an engagement in accordance with SSARSs. [As amended, effective October 2016, by SSARS No. 23.]

.02 This section is intended to help accountants better understand their professional responsibilities when performing an engagement in accordance with SSARSs. Additional sections have been established to set forth specific performance and reporting requirements. Such additional requirements are based on the general principles provided by this section, and any requirements created by this section also have been incorporated into the additional sections.

.03 SSARSs do not address the responsibilities of the accountant that may exist in legislation, regulation, or otherwise. Such responsibilities may differ from those established in SSARSs. Accordingly, although the accountant may find aspects of SSARSs helpful in such circumstances, it is the responsibility of the accountant to ensure compliance with all relevant legal, regulatory, or professional obligations. [As amended, effective October 2016, by SSARS No. 23.]

.04 The financial statements subject to the engagement performed in accordance with SSARSs are those of the entity. SSARSs do not impose responsibilities on management and do not override laws and regulations that govern their responsibilities. (Ref: par. .A4–.A11) [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

Effective Date

.05 This section is effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2015. Early implementation is permitted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Objective

.06 The objective of the accountant is to obtain an understanding of the general principles for engagements performed in accordance with SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions

.07 For purposes of SSARSs, the following terms have the meanings attributed as follows:

Engagement partner.¹ The partner or other person in the firm who is responsible for the engagement and its performance and for the report that is issued on behalf of the firm and who, when required, has the appropriate authority from a professional, legal, or regulatory body.

Engagement team. All partners and staff performing the engagement and any individuals engaged by the firm or a network firm who perform procedures on the engagement.

Fair presentation framework. See financial reporting framework.

Financial reporting framework. A set of criteria used to determine measurement, recognition, presentation, and disclosure of all material items appearing in the financial statements (for example, accounting principles generally accepted in the United States of America [U.S. GAAP], International Financial Reporting Standards promulgated by the International Accounting Standards Board, or a special purpose framework).

The term *fair presentation framework* refers to a financial reporting framework that requires compliance with the requirements of the framework and does one of the following:

- a. Acknowledges explicitly or implicitly that, to achieve fair presentation of the financial statements, it may be necessary for management to provide disclosures beyond those specifically required by the framework.
- b. Acknowledges explicitly that it may be necessary for management to depart from a requirement of the framework to achieve fair presentation of the financial statements. Such departures are expected to be necessary only in rare circumstances.

A financial reporting framework that requires compliance with the requirements of the framework but does not contain the acknowledgment in (a) or (b) is not a fair presentation framework.

Financial statements. A structured representation of historical financial information, including related notes, intended to communicate an entity's economic resources and obligations at a point in time or the changes therein for a period of time in accordance with a financial reporting framework. The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information. The term *financial statements* ordinarily refers to a complete set of

¹ This term is also defined in paragraph .13 of QM section 10A, *A Firm's System of Quality Control*, for purposes of the Statements on Quality Control Standards. Refer to QM section 10A for specific language.

financial statements as determined by the requirements of the applicable financial reporting framework but can also refer to a single financial statement.

Firm. A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the AICPA and that is engaged in the practice of public accounting.

Interpretive publications. Interpretations of SSARs; exhibits to SSARs; AICPA Guide *Preparation, Compilation, and Review Engagements*,^[2] guidance on preparation, compilation, and review engagements included in AICPA Audit and Accounting Guides; and AICPA Statements of Position, to the extent that those statements are applicable to such engagements.

Other preparation, compilation and review publications. Publications other than interpretive publications. (Ref: par. .A12)

Professional judgment. The application of relevant training, knowledge, and experience, within the context provided by SSARs, accounting, and ethical standards, in making informed decisions about the courses of action that are appropriate in the circumstances of the preparation, compilation, or review engagement.

Prospective financial information Any financial information about the future. The information may be presented as complete financial statements or limited to one or more elements, items, or accounts.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. As amended, effective for engagements performed in accordance with SSARS for periods ending on or after June 15, 2019, by SSARS No. 24.]

Requirements

Ethical Requirements

.08 The accountant should comply with relevant ethical requirements. (Ref: par. .A13–.A16)

Professional Judgment

.09 The accountant should exercise professional judgment in the performance of an engagement in accordance with SSARs. (Ref: par. .A17–.A21)

Conduct of the Engagement in Accordance With SSARs

.10 The accountant must perform a review, compilation, or an engagement to prepare financial statements in accordance with SSARs, except for certain reviews of interim financial information as discussed in section 90B, *Review of Financial Statements*.³

Complying With AR-C Sections Relevant to the Engagement

.11 The accountant should comply with all AR-C sections relevant to the engagement. An AR-C section is relevant to the engagement when the AR-C

^[2] [Footnote deleted by the issuance of SSARS No. 23, October 2016.]

³ Paragraph .02 of section 90B, *Review of Financial Statements*.

section is in effect, and the circumstances addressed by the AR-C section exist. (Ref: par. .A22–.A27)

.12 The accountant should have an understanding of the entire text of an AR-C section, including its application and other explanatory material, to understand its objectives and apply its requirements properly. (Ref: par. .A28–.A32)

.13 An accountant should not represent compliance with SSARs in the accountant's compilation or review report unless the accountant has complied with the requirements of this section and all other AR-C sections relevant to the engagement.

Complying With Relevant Requirements

.14 Subject to paragraph .16, the accountant should comply with each requirement of the relevant AR-C section unless, in the circumstances of the engagement, the requirement is not relevant because it is conditional, and the condition does not exist. (Ref: par. .A33)

Defining Professional Responsibilities in SSARs

.15 SSARs use the following two categories of professional requirements, identified by specific terms, to describe the degree of responsibility they impose on accountants:

- *Unconditional requirements.* The accountant must comply with an unconditional requirement in all cases in which such requirement is relevant. SSARs use the word "must" to indicate an unconditional requirement.
- *Presumptively mandatory requirements.* The accountant must comply with a presumptively mandatory requirement in all cases in which such a requirement is relevant, except in rare circumstances discussed in paragraph .16. SSARs use the word "should" to indicate a presumptively mandatory requirement. (Ref: par. .A34)

.16 In rare circumstances, the accountant may judge it necessary to depart from a relevant presumptively mandatory requirement. In such circumstances, the accountant should perform alternative procedures to achieve the intent of the requirement. The need for an accountant to depart from a relevant, presumptively mandatory requirement is expected to arise only when the requirement is for a specific procedure to be performed and, in the specific circumstances of the engagement, that procedure would be ineffective in achieving the intent of the requirement.

.17 If, in rare circumstances, the accountant judges it necessary to depart from a relevant presumptively mandatory requirement, the accountant must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement. [Paragraph added, effective October 2016, by SSARS No. 23.]

Interpretive Publications

.18 The accountant should consider applicable interpretive publications in the performance of an engagement in accordance with SSARs. (Ref: par. .A35) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Other Preparation, Compilation and Review Publications

.19 In applying the guidance included in an other preparation, compilation and review publication, the accountant should, exercising professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the engagement. (Ref: par. .A36–.A38) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Engagement Level Quality Control

.20 In an engagement performed in accordance with SSARSs, the engagement partner should possess the competence and capabilities to perform the engagement and competence in financial reporting, appropriate to the engagement circumstances. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.21 In an engagement performed in accordance with SSARSs, the engagement partner should take responsibility for the following: (Ref: par. .A39–.A42)

- a. The overall quality of each engagement to which that partner is assigned
- b. The direction, supervision, planning, and performance of the engagement in compliance with professional standards and applicable legal and regulatory requirements (Ref: par. .A43)
- c. The accountant's report being appropriate in the circumstances
- d. The engagement being performed in accordance with the firm's quality control policies and procedures, including the following:
 - i. Being satisfied that appropriate procedures regarding the acceptance and continuance of client relationships and engagements have been followed, and that conclusions reached are appropriate, including considering whether there is information that would lead the engagement partner to conclude that management lacks integrity (Ref: par. .A44–.A45)
 - ii. Being satisfied that the engagement team collectively has the appropriate competence and capabilities to perform the engagement and expertise in financial reporting to
 - (1) perform the engagement in accordance with professional standards and applicable legal and regulatory requirements and
 - (2) enable a report that is appropriate in the circumstances to be issued, if applicable
 - iii. Taking responsibility for appropriate engagement documentation being maintained.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Relevant Considerations After Engagement Acceptance

.22 If the engagement partner obtains information that would have caused the firm to decline the engagement had that information been available earlier, the engagement partner should communicate that information promptly to the firm, so that the firm and the engagement partner can take the necessary action. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Compliance With Relevant Ethical Requirements

.23 Throughout the engagement, the engagement partner should remain alert, through observation and making inquiries as necessary, for evidence of noncompliance with relevant ethical requirements by members of the engagement team. If matters come to the engagement partner's attention through the firm's system of quality control or otherwise that indicate that members of the engagement team have not complied with relevant ethical requirements, the engagement partner, in consultation with others in the firm, should determine the appropriate action. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Monitoring

.24 An effective system of quality control for a firm includes a monitoring process designed to provide the firm with reasonable assurance that the firm's policies and procedures relating to the system of quality control are relevant, adequate, and operating effectively. The engagement partner should consider the results of the firm's monitoring process as evidenced in the latest information circulated by the firm and, if applicable, other network firms and whether deficiencies noted in that information may affect the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Acceptance and Continuance of Client Relationships and Engagements

.25 The accountant should not accept an engagement to be performed in accordance with SSARSs if (Ref: par. .A46)

- a. the accountant has reason to believe that relevant ethical requirements will not be satisfied; (Ref: par. .A47)
- b. the accountant's preliminary understanding of the engagement circumstances indicates that information needed to perform the engagement is likely to be unavailable or unreliable; or (Ref: par. .A48)
- c. the accountant has cause to doubt management's integrity such that it is likely to affect the performance of the engagement.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.26 As a precondition for accepting an engagement to be performed in accordance with SSARSs, the accountant should

- a. determine whether preliminary knowledge of the engagement circumstances indicate that ethical requirements regarding professional competence will be satisfied.
- b. determine whether the financial reporting framework selected by management to be applied in the preparation of the financial statements is acceptable. (Ref: par. .A49)
- c. obtain the agreement of management that it acknowledges and understands its responsibility (Ref: par. .A50)
 - i. for the selection of the financial reporting framework to be applied in the preparation of financial statements.
 - ii. for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material

misstatement, whether due to fraud or error, unless the accountant decides to accept responsibility for such internal control. (Ref: par. .A51)

- iii. for preventing and detecting fraud.
- iv. for ensuring that the entity complies with laws and regulations applicable to its activities.
- v. for the accuracy and completeness of the records, documents, explanations, and other information, including significant judgments provided by management for the preparation of financial statements.
- vi. to provide the accountant with (Ref: par. .A52)
 - (1) access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters.
 - (2) additional information that the accountant may request from management for the purpose of the engagement.
 - (3) unrestricted access to persons within the entity of whom the accountant determines it necessary to make inquiries.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. As amended, effective for engagements performed in accordance with SSARS for periods ending on or after June 15, 2019, by SSARS No. 24.]

Application and Other Explanatory Material

Financial Statements

[.A1–.A3] [Paragraphs deleted by the issuance of SSARS No. 23, October 2016.]

Scope of This Section (Ref: par. .04)

.A4 If the accountant is engaged to perform a professional service in accordance with SSARSs on financial information other than financial statements (for example, the preparation or compilation of prospective financial information or the compilation of pro forma financial information), references in this section to *financial statements* are to be taken as references to such other financial information. [Paragraph added, effective October 2016, by SSARS No. 23.]

.A5 The preparation and fair presentation of the financial statements require

- the identification of the applicable financial reporting framework, in the context of any relevant laws or regulations.
- the preparation and fair presentation of the financial statements in accordance with that framework.
- the inclusion of an adequate description of that framework in the financial statements.

The preparation and fair presentation of the financial statements require management to exercise judgment when making accounting estimates that are reasonable in the circumstances as well as when selecting and applying appropriate accounting policies. These judgments are made in the context of the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A6 The financial statements may be prepared in accordance with one of the following:

- A general purpose framework (a financial reporting framework designed to meet the common financial information needs of a wide range of users)
- A special purpose framework

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A7 The applicable financial reporting framework often encompasses financial accounting standards promulgated by an authorized or recognized standards-setting organization or legislative or regulatory requirements. In some cases, the financial reporting framework may encompass both financial accounting standards promulgated by an authorized or recognized standards-setting organization and legislative or regulatory requirements. Other sources may provide direction on the application of the applicable financial reporting framework. In some cases, the applicable financial reporting framework may encompass such other sources or may even consist only of such sources. Such other sources may include the following:

- The legal and ethical environment, including statutes, regulations, court decisions, and professional ethical obligations regarding accounting matters
- Published accounting interpretations of varying authority issued by standards-setting, professional, or regulatory organizations
- Published views of varying authority on emerging accounting issues issued by standards-setting, professional, or regulatory organizations
- General and industry practices widely recognized and prevalent
- Accounting literature

When conflicts exist between the financial reporting framework and the sources from which direction on its application may be obtained or among the sources that encompass the financial reporting framework, the source with the highest authority prevails. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A8 The requirements of the applicable financial reporting framework determine the form and content of the financial statements. Although the framework may not specify how to account for or disclose all transactions or events, it ordinarily embodies sufficiently broad principles that can serve as a basis for developing and applying accounting policies that are consistent with the concepts underlying the requirements of the framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A9 The financial accounting standards promulgated by organizations that are authorized or recognized to promulgate standards to be used by entities for preparing financial statements in accordance with a general purpose framework include the FASB *Accounting Standards Codification*¹; International Financial Reporting Standards, issued by the International Accounting Standards Board; Statements of Federal Financial Accounting Standards,

issued by the Federal Accounting Standards Advisory Board for U.S. federal government entities; and Statements of the Governmental Accounting Standards Board, issued by the Governmental Accounting Standards Board for U.S. state and local governmental entities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A10 The requirements of the applicable financial reporting framework also determine what constitutes a complete set of financial statements. In the case of many frameworks, financial statements are intended to provide information about the financial position, financial performance, and cash flows of an entity. For example, a complete set of financial statements might include a balance sheet, an income statement, a statement of changes in equity, a cash flow statement, and related notes. For some other financial reporting frameworks, a single financial statement and the related notes might constitute a complete set of financial statements. Examples of a single financial statement, each of which would include related notes, include the following:

- Balance sheet
- Statement of income or statement of operations
- Statement of retained earnings
- Statement of cash flows
- Statement of assets and liabilities
- Statement of changes in owners' equity
- Statement of revenue and expenses
- Statement of operations by product lines

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A11 An accountant may be engaged to prepare or perform a compilation or review engagement on a complete set of financial statements or an individual financial statement (for example, balance sheet only). The financial statements may be for an annual period or for a shorter or longer period, depending on management's needs. However, it is likely not appropriate for the entity to present financial statements for a period longer or shorter than an annual period in a comparative presentation with financial statements for an annual period. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions (Ref: par. .07)

.A12 Other preparation, compilation, and review publications include

- AICPA preparation, compilation, and review publications not defined as interpretive publications;
- AICPA's annual alert addressing engagements performed in accordance with SSARSs;
- articles addressing preparation, compilation, and review engagements in the *Journal of Accountancy* and other professional journals;
- continuing professional education programs and other instruction materials,
- textbooks, guide books, programs for preparation, compilation, and review engagements
- checklists; and

- other publications addressing preparation, compilation, and review engagements from state CPA societies, other organizations, and individuals.

[Paragraph added, effective October 2016, by SSARS No. 23.]

Ethical Requirements (Ref: par. .08)

.A13 The accountant is subject to relevant ethical requirements relating to engagements performed in accordance with SSARSs. Ethical requirements consist of those contained in the AICPA Code of Professional Conduct, together with rules of state boards of accountancy and applicable regulatory agencies that are more restrictive. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A14 The AICPA Code of Professional Conduct establishes the fundamental principles of professional ethics, which include the following:

- Responsibilities
- The public interest
- Integrity
- Objectivity and independence
- Due care
- Scope and nature of services

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A15 Due care requires the accountant to discharge professional responsibilities with competence and have the appropriate capabilities to perform the engagement and enable an appropriate accountant's report to be issued, if applicable. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A16 QM section 10A, *A Firm's System of Quality Control*, sets out the firm's responsibilities to establish and maintain its system of quality control for engagements performed in accordance with SSARSs and establish policies and procedures designed to provide it with reasonable assurance that the firm and its personnel comply with relevant ethical requirements, including those pertaining to independence.⁴ [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Professional Judgment (Ref: par. .09)

.A17 Professional judgment is essential to the proper conduct of an engagement in accordance with SSARSs because interpretation of relevant ethical requirements and SSARSs and the informed decisions required throughout the engagement cannot be made without the application of relevant knowledge and experience to the facts and circumstances. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A18 The distinguishing feature of the professional judgment expected of the accountant is that it is exercised by an accountant whose training, knowledge, and experience have assisted in developing the necessary competencies to achieve reasonable judgments and make informed decisions about appropriate courses of action when undertaking an engagement in accordance with

⁴ Paragraphs .21–.25 of QM section 10A.

SSARs. Consultation on difficult or contentious matters during the course of the engagement, both within the engagement team and between the engagement team and others at the appropriate level within or outside the firm, assists the accountant in making informed and reasonable judgments. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A19 The exercise of professional judgment in individual engagements is based on the facts and circumstances that are known by the accountant throughout the engagement, including

- knowledge acquired from engagements carried out for the entity's financial statements in prior periods, where applicable.
- the accountant's understanding of the entity and its environment, including its accounting system, and the application of the applicable financial reporting framework in the entity's industry.
- the extent to which the preparation and presentation of the financial statements requires the exercise of judgment by management or the accountant, if applicable.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A20 Professional judgment can be evaluated based on whether the judgment reached reflects a competent application of SSARSs and accounting principles and is appropriate in light of, and consistent with, the facts and circumstances that were known to the accountant up to the date of the issuance of financial statements prepared by the accountant or the date of the accountant's compilation or review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A21 Professional judgment needs to be exercised throughout the engagement performed in accordance with SSARSs. It also needs to be appropriately documented in accordance with the requirements of the applicable AR-C section. Professional judgment is not to be used as the justification for decisions that are not otherwise supported by the facts and circumstances of the engagement or, in a review engagement, the evidence obtained. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

Conduct of an Engagement in Accordance With SSARSs

Complying With AR-C Sections Relevant to the Engagement (Ref: par. .11–.12)

.A22 ARSC is designated to promulgate standards under the "General Standards Rule" (ET sec. 1.300.001) and the "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct⁵ with respect to unaudited financial statements or other unaudited financial information of an entity that is not required to file financial statements with a regulatory agency in connection with the sale or trading of its securities in a public market. ARSC develops and issues standards in the form of SSARSs through a process that includes deliberation in meetings open to the public, public exposure of proposed SSARSs, and a formal vote. SSARSs are codified in AR-C sections in *AICPA Professional Standards*. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

⁵ AICPA's Professional Ethics Executive Committee has restructured the Code of Professional Conduct. References in this standard are to the revised code, which is effective December 15, 2014. It is available at <http://pub.aicpa.org/codeofconduct>.

.A23 SSARs provide the standards used for fulfilling the overall objectives of the accountant's work. SSARs address the general responsibilities of the accountant as well as the accountant's further considerations relevant to the application of those responsibilities to specific topics. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A24 The scope, effective date, and any specific limitation of the applicability of a specific AR-C section are made clear in the AR-C section. Unless otherwise stated in the AR-C section, the accountant is permitted to apply an AR-C section before the effective date specified therein. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A25 In certain engagements, the accountant also may be required to comply with other requirements in addition to SSARs. SSARs do not override law or regulation that governs a review, compilation, or an engagement to prepare financial statements. In the event that such law or regulation differs from SSARs, an engagement conducted only in accordance with law or regulation will not necessarily comply with SSARs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A26 The accountant may also conduct the compilation or review of financial statements in accordance with both SSARs and

- International Standard on Related Services 4410 (Revised), *Compilation Engagements*,
- International Standard on Review Engagements 2400 (Revised), *Engagements to Review Historical Financial Statements*, or
- compilation or review standards of a specific jurisdiction or country.

In such cases, in addition to complying with each of the AR-C sections relevant to the engagement, it may be necessary for the accountant to perform additional compilation or review procedures in order to comply with the other compilation or review standards. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A27 SSARs are relevant to engagements to prepare financial statements and compilations and reviews of financial statements of governmental entities. The accountant's responsibilities, however, may be affected by law, regulation, or other authority (such as government policy requirements or resolutions of the legislature), which may encompass a broader scope than an engagement in accordance with SSARs. These additional responsibilities are not dealt with in SSARs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A28 In addition to objectives and requirements, an AR-C section contains related guidance in the form of application and other explanatory material. It may also contain introductory material that provides context relevant to a proper understanding of the AR-C section and definitions. The entire text of an AR-C section, therefore, is relevant to an understanding of the objectives stated in an AR-C section and the proper application of the requirements of an AR-C section. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A29 When necessary, the application and other explanatory material provides further explanation of the requirements of an AR-C section and guidance for carrying them out. In particular, it may

- explain more precisely what a requirement means or is intended to cover.

- include examples of procedures that may be appropriate in the circumstances.

Although such guidance does not, in itself, impose a requirement, it is relevant to the proper application of the requirements of an AR-C section. The accountant is required by paragraph .12 to understand the application and other explanatory material; how the accountant applies the guidance in the engagement depends on the exercise of professional judgment in the circumstances consistent with the objective of the AR-C section. The words "may," "might," and "could" are used to describe these actions and procedures. The application and other explanatory material may also provide background information on matters addressed in an AR-C section. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A30 Appendixes form part of the application and other explanatory material. The purpose and intended use of an appendix are explained in the body of the related AR-C section or within the title and introduction of the appendix itself. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A31 Introductory material may include, as needed, such matters as explanation of the following:

- The purpose and scope of the AR-C section, including how the AR-C section relates to other AR-C sections
- The subject matter of the AR-C section
- The respective responsibilities of the accountant and others in relation to the subject matter of the AR-C section
- The context in which the AR-C section is set

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A32 An AR-C section may include, in a separate section under the heading "Definitions," a description of the meanings attributed to certain terms for purposes of SSARSs. These are provided to assist in the consistent application and interpretation of SSARSs and are not intended to override definitions that may be established for other purposes, whether in law, regulation, or otherwise. Unless otherwise indicated, those terms will carry the same meanings throughout SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Complying With Relevant Requirements (Ref: par. .14)

.A33 In some cases, a requirement may be expressed as being conditional on applicable law or regulation. For example, the accountant may be required to withdraw from the engagement when withdrawal is possible under applicable law or regulation, or the accountant may be required to perform a certain action, unless prohibited by law or regulation. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

Defining Professional Responsibilities in SSARSs (Ref: par. .15)

.A34 If an AR-C section provides that a procedure or action is one that the accountant "should consider," consideration of the procedure or action is presumptively required. Whether the accountant performs the procedure or action is based upon the outcome of the accountant's consideration and the accountant's professional judgment. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Interpretive Publications (Ref: par. .18)

.A35 Interpretive publications are not SSARSs. *Interpretive publications* are recommendations on the application of SSARSs in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of ARSC only after all ARSC members have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with SSARSs. Compilation and review interpretations of SSARSs and exhibits to SSARSs are included in the AR-C sections. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Other Preparation, Compilation and Review Publications (Ref: par. .19)

.A36 Other preparation, compilation and review publications have no authoritative status; however, they may help the accountant understand and apply SSARSs. The accountant is not expected to be aware of the full body of other preparation, compilation and review publications. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A37 Although the accountant determines the relevance of these publications in accordance with paragraph .19, the accountant may presume that other preparation, compilation and review publications published by the AICPA that have been reviewed by the AICPA Audit and Attest Standards staff are appropriate. These other preparation, compilation and review publications are listed in the exhibit, "Other Preparation, Compilation and Review Publications." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A38 When determining whether an other preparation, compilation and review publication that has not been reviewed by the AICPA Audit and Attest Standards staff is appropriate to the circumstances of the engagement, the accountant may wish to consider the degree to which the publication is recognized as being helpful in understanding and applying SSARSs and the degree to which the publisher or author is recognized as an authority in matters addressing preparation, compilation, and review engagements. An other preparation, compilation, and review publication that has not been reviewed by the AICPA Audit and Attest Standards staff that contradicts an other preparation, compilation and review publication that has been reviewed by the AICPA Audit and Attest Standards staff is inappropriate. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards.]

Engagement Level Quality Control (Ref: par. .21)

.A39 Within the context of the firm's system of quality control, engagement teams have a responsibility to implement quality control procedures applicable to the engagement and provide the firm with relevant information to enable the functioning of that part of the firm's system of quality control relating to independence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A40 The actions of the engagement partner and appropriate messages to the other members of the engagement team, in the context of the engagement partner taking responsibility for the overall quality of each engagement, emphasize the fact that quality is essential when performing an engagement in accordance with SSARSs and the importance to the quality of the engagement of

- a. performing work that complies with professional standards and regulatory and legal requirements.
- b. complying with the firm's quality control policies and procedures, as applicable.
- c. issuing a report, if applicable, for the engagement that is appropriate in the circumstances.
- d. the engagement team's ability to raise concerns without fear of reprisals.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A41 Unless information provided by the firm or other parties suggests otherwise, the engagement team is entitled to rely on the firm's system of quality control. For example, the engagement team may rely on the firm's system of quality control in relation to

- competence of personnel through their recruitment and formal training.
- independence through the accumulation and communication of relevant independence information.
- maintenance of client relationships through acceptance and continuance systems.
- adherence to regulatory and legal requirements through the monitoring process.

When considering the deficiencies identified in the firm's system of quality control that may affect the engagement, the engagement partner may consider measures taken by the firm to rectify those deficiencies.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A42 A deficiency in the firm's system of quality control does not necessarily indicate that an engagement was not performed in accordance with professional standards and applicable legal and regulatory requirements or that the accountant's report, if applicable, was not appropriate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Assignment of Engagement Teams (Ref: par. .21b)

.A43 When considering the appropriate competence and capabilities expected of the engagement team as a whole, the engagement partner may take into consideration such matters as the team's

- understanding of, and practical experience with, engagements of a similar nature and complexity through appropriate training and participation.
- understanding of professional standards and applicable legal and regulatory requirements.
- technical expertise, including expertise with relevant information technology and specialized areas of accounting or attest services.
- knowledge of relevant industries in which the client operates.
- ability to apply professional judgment.
- understanding of the firm's quality control policies and procedures.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Acceptance and Continuance of Client Relationships and Engagements Performed in Accordance With SSARSs (Ref: par. .21di)

.A44 QM section 10A requires the firm to obtain information considered necessary in the circumstances before accepting an engagement with a new client, when deciding whether to continue an existing engagement, and when considering acceptance of a new engagement with an existing client. Information such as the following assists the engagement partner in determining whether the conclusions reached regarding the acceptance and continuance of client relationships and engagements in accordance with SSARSs are appropriate:

- The integrity of the principal owners, key management, and those charged with governance of the entity
- Whether the engagement team is competent to perform the engagement and has the necessary capabilities, including time and resources
- Whether the firm and the engagement team can comply with relevant ethical requirements
- Significant findings or issues that have arisen during the current or previous engagement and their implications for continuing the relationship

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A45 If the engagement partner has cause to doubt management's integrity to a degree that is likely to affect proper performance of the engagement, it is not appropriate to accept the engagement, unless required by law or regulation, because doing so may lead to the accountant being associated with the entity's financial statements in an inappropriate manner. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Acceptance and Continuance of Client Relationships and Engagements (Ref: par. .25–.26)

.A46 The accountant's consideration of engagement continuance and relevant ethical requirements occurs throughout the engagement as conditions and changes in circumstances occur. Performing initial procedures on engagement continuance and evaluation of relevant ethical requirements at the beginning of an engagement informs the accountant's decisions and actions prior to the performance of other significant activities for the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A47 Relevant ethical requirements with respect to a review engagement include independence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A48 This consideration is not directed at the need that sometimes arises in the course of an engagement to assist management by recommending adjusting entries required to finalize the financial statements prepared by management. An example of where the accountant may have cause to doubt whether the information needed to perform the review will be available or reliable is when the accounting records necessary for performing analytical procedures are suspected to be substantially inaccurate or incomplete. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A49 Factors that are relevant to the accountant's determination of the acceptability of the financial reporting framework selected by management to be applied in the preparation of the financial statements include the following:

- The purpose of the financial statements (for example, whether they are prepared to meet the common financial information needs of a wide range of users)
- Whether law or regulation prescribes the applicable financial reporting framework

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A50 In accordance with this section, the accountant is required to obtain the agreement of management on management's responsibilities in relation to the financial statements as a condition precedent to accepting the engagement. In smaller entities, management may not be well-informed about what those responsibilities are, including those arising in applicable law or regulation. In order to obtain management's agreement on an informed basis, the accountant may find it necessary to discuss those responsibilities with management in advance of seeking management's agreement on its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A51 Although the accountant may accept responsibility for the design, implementation, and maintenance of internal control, accepting such responsibility would impair the accountant's independence.⁶ Therefore, if an accountant accepts such responsibility, the accountant would be precluded from performing a review of the financial statements. [Paragraph added, effective for compilations and reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A52 The accountant is entitled to rely on management to provide all relevant information for the engagement. The form of the information provided by management for the purpose of the engagement will vary in different engagement circumstances. In broad terms, it will comprise records, documents, explanations, and other information relevant to the preparation of the financial statements in accordance with the financial reporting framework adopted by management. The information provided may include, for example, information about management's assumptions, intentions, or plans underlying development of accounting estimates needed to prepare the financial statements in accordance with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

AR-C Section 70

Preparation of Financial Statements

Source: SSARS No. 21; SSARS No. 23; SSARS No. 25; SSARS No. 26.

Effective for the preparation of financial statements for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section applies when an accountant in public practice is engaged to prepare financial statements or prospective financial information. (Ref: par. .A1–.A2).

This section may also be applied, adapted as appropriate in the circumstances, to the preparation of other historical financial information. (Ref: par. .A3)

This section does not apply when an accountant prepares financial statements or prospective financial information

- and is engaged to perform an audit, review, or compilation of those financial statements,
- solely for submission to taxing authorities,
- for inclusion in written personal financial plans prepared by the accountant,
- in conjunction with litigation services that involve pending or potential legal or regulatory proceedings, or
- in conjunction with business valuation services.^[1]

[As amended, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

.02 The determination about whether the accountant has been engaged to prepare financial statements or merely assist in preparing financial statements (which is a bookkeeping service that is not subject to this section) is determined based on services the client requests the accountant to perform and requires the accountant to apply professional judgment. (Ref: par. .A4)

The Preparation Engagement

.03 An engagement to prepare financial statements is a nonattest service and does not require a determination about whether the accountant is independent of the entity. (Ref: par. .A5)

.04 In addition, an engagement to prepare financial statements does not require the accountant to verify the accuracy or completeness of the information provided by management or otherwise gather evidence to express an opinion or a conclusion on the financial statements or otherwise report on the financial statements.

^[1] [Footnote deleted by the issuance of SSARS No. 23, October 2016.]

Effective Date

.05 This section is effective for the preparation of financial statements for periods ending on or after December 15, 2015. Early implementation is permitted.

Objective

.06 The objective of the accountant is to prepare financial statements pursuant to a specified financial reporting framework.

Definitions

.07 For purposes of Statements on Standards for Accounting and Review Services (SSARSs), the following terms have the meanings attributed as follows:

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance (for example, executive members of a governance board or an owner-manager).

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of an entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

[As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Requirements

General Principles for Performing Engagements to Prepare Financial Statements

.08 In addition to complying with this section, an accountant is required to comply with section 60, *General Principles For Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*.

Acceptance and Continuance of Client Relationships and Engagements to Prepare Financial Statements

.09 If the accountant is not satisfied with any of the matters set out in paragraph .31 of section 60 as preconditions for accepting an engagement to prepare financial statements, the accountant should discuss the matter with management or those charged with governance. If changes cannot be made to satisfy the accountant about those matters, the accountant should not accept the proposed engagement.

Agreement on Engagement Terms

.10 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be documented in an engagement letter

or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A7–.A11)

- a. The objective of the engagement
- b. The responsibilities of management set forth in paragraph .31b of section 60
- c. The agreement of management that each page of the financial statements will include a statement indicating that no assurance is provided on the financial statements or the accountant will be required to issue a disclaimer that makes clear that no assurance is provided on the financial statements. (Ref: par. .A13)
- d. The responsibilities of the accountant
- e. The limitations of the engagement to prepare financial statements
- f. Identification of the applicable financial reporting framework for the preparation of financial statements
- g. Whether the financial statements are to contain a known departure or departures from the applicable financial reporting framework (including inadequate disclosure) or omit substantially all disclosures required by the applicable financial reporting framework

[As amended, effective October 2016, by SSARS No. 23.]

.11 The engagement letter or other suitable form of written agreement should be signed by

- a. the accountant or the accountant's firm and
- b. management or those charged with governance, as appropriate. (Ref: par. .A10)

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework

.12 The accountant should obtain an understanding of the financial reporting framework and the significant accounting policies intended to be used in the preparation of the financial statements. (Ref: par. .A12)

Preparing the Financial Statements

.13 The accountant should prepare the financial statements using the records, documents, explanations, and other information provided by management.

.14 The accountant should ensure that a statement is included on each page of the financial statements indicating, at a minimum, that "no assurance is provided" on the financial statements. If the accountant is unable to include a statement on each page of the financial statements, the accountant should do one of the following: (Ref: par. .A13)

- a. Issue a disclaimer that makes clear that no assurance is provided on the financial statements. (Ref: par. .A14)
- b. Perform a compilation engagement in accordance with section 80, *Compilation Engagements*.
- c. Withdraw from the engagement and inform management of the reasons for withdrawing. (Ref: par. .A15–.A16)

[As amended, effective October 2016, by SSARS No. 23. As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.15 When preparing financial statements in accordance with a special purpose framework, the accountant should include a description of the financial reporting framework on the face of the financial statements or in a note to the financial statements. (Ref: par. .A17)

.16 If, during the preparation of financial statements, the accountant assists management with significant judgments regarding amounts or disclosures to be reflected in the financial statements, the accountant should discuss those judgments with management so management understands the significant judgments reflected in financial statements and accepts responsibility for those judgments. (Ref: par. .A18 and .A24)

.17 If the accountant becomes aware that the records, documents, explanations, or other information, including significant judgments, used in the preparation of the financial statements are incomplete, inaccurate, or otherwise unsatisfactory, the accountant should bring that to the attention of management and request additional or corrected information. If management fails to provide such additional or corrected information, the accountant should disclose a material misstatement or misstatements in the financial statements in accordance with paragraph .18 or withdraw from the engagement and inform management of the reasons for withdrawing. (Ref: par. .A15–.A16) [As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.18 When, after discussions with management, the accountant prepares financial statements that contain a known departure or departures from the applicable financial reporting framework (including inadequate disclosure), the accountant should disclose the material misstatement or misstatements in the financial statements. (Ref: par. .A19)

Preparing Prospective Financial Information

.19 The summary of significant assumptions is essential to the user's understanding of prospective financial information. Accordingly, the accountant should not prepare prospective financial information that excludes disclosure of the summary of significant assumptions. Also, the accountant should not prepare a financial projection that excludes either (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation. [Paragraph added, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework

.20 When, after discussions with management, the accountant prepares financial statements that omit substantially all disclosures required by the applicable financial reporting framework, the accountant should disclose such omission either in the financial statements or in an accompanying disclaimer. (Ref: par. .A20) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.21 The accountant should not prepare financial statements that omit substantially all disclosures required by the financial reporting framework if, in the

accountant's professional judgment, such financial statements would be misleading to users of the financial statements. (Ref: par. .A21–.A23) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Documentation in a Preparation Engagement

.22 The accountant should prepare documentation in connection with each preparation engagement in sufficient detail to provide a clear understanding of the work performed which, at a minimum, includes the following: (Ref: par. .A24)

- a. The engagement letter or other suitable form of written documentation with management, as described in paragraphs .10–.11
- b. A copy of the financial statements that the accountant prepared

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.23 If, in rare circumstances, the accountant judges it necessary to depart from a relevant presumptively mandatory requirement, the accountant must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01–.02)

.A1 If the accountant is engaged to prepare prospective financial information, references in this section to *financial statements* are to be taken as a reference to prospective financial information. [Paragraph added, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

.A2 AICPA Guide *Prospective Financial Information* (the guide) provides comprehensive guidance regarding prospective financial information. Chapter 6, "Preparation Guidelines;" chapter 7, "Reasonably Objective Basis;" chapter 8, "Presentation Guidelines;" and chapter 9, "Illustrative Prospective Financial Statements," of the guide establish the preparation and presentation guidelines for financial forecasts and financial projections. The guide also includes information about the types and uses of prospective financial information. The guide provides suitable criteria for the preparation and presentation of prospective financial information. The accountant is not prohibited from preparing prospective financial information prepared and presented in accordance with other suitable criteria. [Paragraph added, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

.A3 Other historical financial information to which this section may be applied includes the following:

- Specified elements, accounts, or items of a financial statement, such as schedules of rentals, royalties, profit participation, or provision for income taxes
- Supplementary information

- Required supplementary information
- Pro forma financial information

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A4 The appendix, "Preparation of Financial Statements Versus Assistance in Preparing Financial Statements," provides examples of services that the accountant may be engaged to perform and whether this section would apply. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

The Preparation Engagement (Ref: par. .03)

.A5 The "Nonattest Services" subtopic of the "Independence Rule" (ET sec. 1.295) addresses the accountant's considerations with respect to independence when performing nonattest services for attest clients. For example, the accountant may prepare monthly or other interim financial statements and be engaged to perform an audit, review, or compilation engagement with respect to the annual financial statements. The accountant needs to be aware that the performance of the preparation services may impair independence unless the safeguards described in this subtopic are met. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions (Ref: par. .07)

[.A6] [Paragraph deleted by the issuance of SSARS No. 25, February 2020.]

Agreement on Engagement Terms (Ref: par. .10–.11)

.A7 Both management and the accountant have an interest in documenting the agreed-upon terms of the engagement to prepare financial statements before the commencement of the engagement to help avoid misunderstandings with respect to the engagement. For example, it reduces the risk that management may inappropriately rely on or may expect the accountant to protect management against certain risks or to perform certain functions, including those that are management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A8 When a third party has contracted for an engagement to prepare the entity's financial statements, agreeing the terms of the engagement with management of the entity is necessary in order to establish that the preconditions for an engagement to prepare financial statements are present. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A9 The understanding with management regarding the services to be performed for engagements to prepare financial statements is required by paragraph .10 to be in a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common, and usually the most convenient, method for documenting the understanding with management regarding the services to be performed for engagements to prepare financial statements. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A10 The roles of management and those charged with governance in agreeing upon the terms of the engagement to prepare financial statements for the entity depend on the governance structure of the entity and relevant law or regulation. Depending on the entity's structure, the agreement may be with management, those charged with governance, or both. Nonetheless, when

the agreement on the terms of engagement is only with those charged with governance in accordance with paragraph .31*b* of section 60, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A11 An illustrative example of an engagement letter for an engagement to prepare financial statements is presented in the exhibit, "Illustrative Engagement Letter." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework (Ref: par. .12)

.A12 The requirement that the accountant obtain an understanding of the financial reporting framework adopted by management intended to be used in the preparation of the financial statements and the significant accounting policies adopted by management does not prevent the accountant from accepting an engagement to prepare financial statements for an entity in an industry in which the accountant has no previous experience. The accountant may obtain such understanding, for example, by consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and periodicals, appropriate continuing professional education, or individuals who are knowledgeable about the industry. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Preparing the Financial Statements (Ref: par. .10, .14–.16, and .18)

.A13 The statement on each page of the financial statements, including related notes, is intended to avoid misunderstanding on the part of users with respect to the accountant's involvement with the financial statements. The statement is made at management's discretion, and the accountant or the accountant's firm name is not required to be included. The accountant is concerned that the indication is not misleading. Examples of a statement on each page of the financial statements include the following:

- No assurance is provided on these financial statements.
- These financial statements have not been subjected to an audit or review or compilation engagement, and no assurance is provided on them.

Other statements that convey that no assurance is provided on the financial statements would also be acceptable. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A14 An example of a disclaimer that the accountant may issue is as follows:

The accompanying financial statements of XYZ Company as of and for the year ended December 31, 20XX, were not subjected to an audit, review, or compilation engagement by us and we do not express an opinion, a conclusion, nor provide any assurance on them.

[Signature of the accountant's firm]

[Accountant's city and state]

[Date]

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A15 In circumstances addressed by the requirements of this section in which withdrawal from the engagement is necessary, the responsibility to inform management of the reasons for withdrawing provides an opportunity to explain the accountant's ethical obligations. [Paragraph added, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A16 When making a determination about whether and how to withdraw from an engagement, the accountant may wish to consult with legal counsel. [Paragraph added, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A17 A description of the special purpose framework is usually placed next to or under the title of the financial statements (for example "statement of assets and liabilities—modified cash basis"). However, the description may be placed elsewhere in the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A18 In the preparation of financial statements, the accountant may provide assistance to management with significant judgments (for example, the accountant may advise management on alternative accounting policies that are significant to the financial statements or help management with significant judgments regarding material accounting estimates). [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A19 The disclosure of the material misstatement or misstatements may be made on the face of the financial statements or in a note to the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework (Ref: par. .20–.21)

.A20 The disclosure of the omission of substantially all disclosures required by the applicable financial reporting framework may be made on the face of the financial statements or in a selected note to the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A21 The accountant may prepare financial statements that include disclosures about only a few matters in the notes to the financial statements. Such disclosures may be labeled "Selected Information—Substantially All Disclosures Required by *[the applicable financial reporting framework]* Are Not Included." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A22 Financial statements may be misleading, for example, if the applicable financial reporting framework includes the premise that the financial

statements are prepared on the going concern basis and undisclosed uncertainties exist regarding the entity's ability to continue as a going concern. If the accountant becomes aware that uncertainties exist regarding the entity's ability to continue as a going concern, the accountant may suggest additional disclosures concerning the entity's ability to continue as a going concern in order to avoid the financial statements being misleading. [Paragraph added, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A23 Disclosure of items, such as an uncertainty, is not required in financial statements in which substantially all the disclosures required by the applicable financial reporting framework are omitted. [Paragraph added, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Documentation in a Preparation Engagement **(Ref: par. .16 and .22)**

.A24 Documentation may include documentation regarding significant consultations or significant professional judgments made throughout the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A25

Appendix — Preparation of Financial Statements Versus Assistance in Preparing Financial Statements (Ref: par. .A4)

The determination about whether the accountant has been engaged to prepare financial statements or merely assist in preparing financial statements (which is a bookkeeping service that is not subject to this section) is determined based on the services the client requests the accountant to perform and requires the accountant to apply professional judgment. The following table provides examples of services that the accountant may be engaged to perform and whether section 70 would apply. The table is not intended to be all inclusive, and professional judgment would still need to be applied.

<i>Examples of Services for Which This Section Applies</i>	<i>Examples of Accountant Services for Which This Section Does Not Apply</i>
Preparation of financial statements prior to audit or review by another accountant	Preparation of financial statements when the accountant is engaged to perform an audit, review, or compilation of such financial statements
Preparation of financial statements for an entity to be presented alongside the entity's tax return	Preparation of financial statements with a tax return solely for submission to taxing authorities
Preparation of personal financial statements for presentation alongside a financial plan	Personal financial statements that are prepared for inclusion in written personal financial plans prepared by the accountant
	Financial statements prepared in conjunction with litigation services that involve pending or potential legal or regulatory proceedings
	Financial statements prepared in conjunction with business valuation services
	Maintaining depreciation schedules
	Preparing or proposing certain adjustments, such as those applicable to deferred income taxes, depreciation, or leases
Preparation of single financial statements, such as a balance sheet or income statement or financial statements with substantially all disclosures omitted	Drafting financial statement notes
Using the information in a general ledger to prepare financial statements outside of an accounting software system	Entering general ledger transactions or processing payments (general bookkeeping) in an accounting software system

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A26

Exhibit — Illustrative Engagement Letter (Ref: par. .A11)

The following is an example of an engagement letter for an engagement to prepare financial statements prepared in accordance with accounting principles generally accepted in the United States of America. This engagement letter is intended as an illustration that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances and is drafted to refer to the preparation of financial statements for a single reporting period. The accountant may seek legal advice about whether a proposed letter is suitable.

To the appropriate representative of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended and the related notes to the financial statements.^{3, 4} We are pleased to confirm our acceptance and our understanding of this engagement to prepare the financial statements of ABC Company by means of this letter.

Our Responsibilities

The objective of our engagement is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you. We will conduct our engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion or a conclusion or provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement to prepare financial statements, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A10.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ If the accountant is to be engaged to prepare financial statements that omit the statement of cash flows and the related notes, the sentence may be revised to read, "You have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income and changes in stockholders' equity." The following additional sentence may then be added: "These financial statements will not include a statement of cash flows and related notes to the financial statements."

⁴ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

Management Responsibilities

The engagement to be performed is conducted on the basis that management acknowledges and understands that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America. Management has the following overall responsibilities that are fundamental to our undertaking the engagement to prepare your financial statements in accordance with SSARs:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error
- c. The prevention and detection of fraud
- d. To ensure that the entity complies with the laws and regulations applicable to its activities
- e. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement to prepare financial statements
- f. To provide us with:
 - i. Documentation, and other related information that is relevant to the preparation and presentation of the financial statements,
 - ii. Additional information that may be requested for the purpose of the preparation of the financial statements, and
 - iii. Unrestricted access to persons within ABC Company of whom we determine necessary to communicate.

The financial statements will not be accompanied by a report. However, you agree that the financial statements will clearly indicate that no assurance is provided on them.

[If the accountant expects to issue a disclaimer, instead of the preceding paragraph, the following may be added:

As part of our engagement, we will issue a disclaimer that will state that the financial statements were not subjected to an audit, review, or compilation engagement by us and, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them.]

Other Relevant Information

Our fees for these services . . .

[The accountant may include language, such as the following, regarding limitation of, or other arrangements regarding, the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein, and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

[Signed]

[Name and Title]

[Date]

[Revised, February 2015, to include additional required engagement letter elements. Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

AR-C Section 70A

Preparation of Financial Statements

Source: SSARS No. 21; SSARS No. 23; SSARS No. 25.

Effective for the preparation of financial statements for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section applies when an accountant in public practice is engaged to prepare financial statements or prospective financial information. (Ref: par. .A1–.A2).

This section may also be applied, adapted as appropriate in the circumstances, to the preparation of other historical financial information. (Ref: par. .A3)

This section does not apply when an accountant prepares financial statements or prospective financial information

- and is engaged to perform an audit, review, or compilation of those financial statements,
- solely for submission to taxing authorities,
- for inclusion in written personal financial plans prepared by the accountant,
- in conjunction with litigation services that involve pending or potential legal or regulatory proceedings, or
- in conjunction with business valuation services.^[1]

[As amended, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

.02 The determination about whether the accountant has been engaged to prepare financial statements or merely assist in preparing financial statements (which is a bookkeeping service that is not subject to this section) is determined based on services the client requests the accountant to perform and requires the accountant to apply professional judgment. (Ref: par. .A4)

The Preparation Engagement

.03 An engagement to prepare financial statements is a nonattest service and does not require a determination about whether the accountant is independent of the entity. (Ref: par. .A5)

.04 In addition, an engagement to prepare financial statements does not require the accountant to verify the accuracy or completeness of the information provided by management or otherwise gather evidence to express an opinion or a conclusion on the financial statements or otherwise report on the financial statements.

^[1] [Footnote deleted by the issuance of SSARS No. 23, October 2016.]

Effective Date

.05 This section is effective for the preparation of financial statements for periods ending on or after December 15, 2015. Early implementation is permitted.

Objective

.06 The objective of the accountant is to prepare financial statements pursuant to a specified financial reporting framework.

Definitions

.07 For purposes of Statements on Standards for Accounting and Review Services (SSARSs), the following terms have the meanings attributed as follows:

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance (for example, executive members of a governance board or an owner-manager).

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of an entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

[As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Requirements

General Principles for Performing Engagements to Prepare Financial Statements

.08 In addition to complying with this section, an accountant is required to comply with section 60A, *General Principles For Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*.

Acceptance and Continuance of Client Relationships and Engagements to Prepare Financial Statements

.09 If the accountant is not satisfied with any of the matters set out in paragraph .26 of section 60A as preconditions for accepting an engagement to prepare financial statements, the accountant should discuss the matter with management or those charged with governance. If changes cannot be made to satisfy the accountant about those matters, the accountant should not accept the proposed engagement.

Agreement on Engagement Terms

.10 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The

agreed-upon terms of the engagement should be documented in an engagement letter or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A7–.A11)

- a. The objective of the engagement
- b. The responsibilities of management set forth in paragraph .26b of section 60A
- c. The agreement of management that each page of the financial statements will include a statement indicating that no assurance is provided on the financial statements or the accountant will be required to issue a disclaimer that makes clear that no assurance is provided on the financial statements. (Ref: par. .A13)
- d. The responsibilities of the accountant
- e. The limitations of the engagement to prepare financial statements
- f. Identification of the applicable financial reporting framework for the preparation of financial statements
- g. Whether the financial statements are to contain a known departure or departures from the applicable financial reporting framework (including inadequate disclosure) or omit substantially all disclosures required by the applicable financial reporting framework

[As amended, effective October 2016, by SSARS No. 23.]

.11 The engagement letter or other suitable form of written agreement should be signed by

- a. the accountant or the accountant's firm and
- b. management or those charged with governance, as appropriate. (Ref: par. .A10)

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework

.12 The accountant should obtain an understanding of the financial reporting framework and the significant accounting policies intended to be used in the preparation of the financial statements. (Ref: par. .A12)

Preparing the Financial Statements

.13 The accountant should prepare the financial statements using the records, documents, explanations, and other information provided by management.

.14 The accountant should ensure that a statement is included on each page of the financial statements indicating, at a minimum, that "no assurance is provided" on the financial statements. If the accountant is unable to include a statement on each page of the financial statements, the accountant should do one of the following: (Ref: par. .A13)

- a. Issue a disclaimer that makes clear that no assurance is provided on the financial statements. (Ref: par. .A14)
- b. Perform a compilation engagement in accordance with section 80, *Compilation Engagements*.
- c. Withdraw from the engagement and inform management of the reasons for withdrawing. (Ref: par. .A15–.A16)

[As amended, effective October 2016, by SSARS No. 23. As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.15 When preparing financial statements in accordance with a special purpose framework, the accountant should include a description of the financial reporting framework on the face of the financial statements or in a note to the financial statements. (Ref: par. .A17)

.16 If, during the preparation of financial statements, the accountant assists management with significant judgments regarding amounts or disclosures to be reflected in the financial statements, the accountant should discuss those judgments with management so management understands the significant judgments reflected in financial statements and accepts responsibility for those judgments. (Ref: par. .A18 and .A24)

.17 If the accountant becomes aware that the records, documents, explanations, or other information, including significant judgments, used in the preparation of the financial statements are incomplete, inaccurate, or otherwise unsatisfactory, the accountant should bring that to the attention of management and request additional or corrected information. If management fails to provide such additional or corrected information, the accountant should disclose a material misstatement or misstatements in the financial statements in accordance with paragraph .18 or withdraw from the engagement and inform management of the reasons for withdrawing. (Ref: par. .A15–.A16) [As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.18 When, after discussions with management, the accountant prepares financial statements that contain a known departure or departures from the applicable financial reporting framework (including inadequate disclosure), the accountant should disclose the material misstatement or misstatements in the financial statements. (Ref: par. .A19)

Preparing Prospective Financial Information

.19 The summary of significant assumptions is essential to the user's understanding of prospective financial information. Accordingly, the accountant should not prepare prospective financial information that excludes disclosure of the summary of significant assumptions. Also, the accountant should not prepare a financial projection that excludes either (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation. [Paragraph added, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework

.20 When, after discussions with management, the accountant prepares financial statements that omit substantially all disclosures required by the applicable financial reporting framework, the accountant should disclose such omission either in the financial statements or in an accompanying disclaimer. (Ref: par. .A20) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.21 The accountant should not prepare financial statements that omit substantially all disclosures required by the financial reporting framework if, in the

accountant's professional judgment, such financial statements would be misleading to users of the financial statements. (Ref: par. .A21–.A23) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Documentation in a Preparation Engagement

.22 The accountant should prepare documentation in connection with each preparation engagement in sufficient detail to provide a clear understanding of the work performed which, at a minimum, includes the following: (Ref: par. .A24)

- a. The engagement letter or other suitable form of written documentation with management, as described in paragraphs .10–.11
- b. A copy of the financial statements that the accountant prepared

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.23 If, in rare circumstances, the accountant judges it necessary to depart from a relevant presumptively mandatory requirement, the accountant must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01–.02)

.A1 If the accountant is engaged to prepare prospective financial information, references in this section to *financial statements* are to be taken as a reference to prospective financial information. [Paragraph added, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

.A2 AICPA Guide *Prospective Financial Information* (the guide) provides comprehensive guidance regarding prospective financial information. Chapter 6, "Preparation Guidelines;" chapter 7, "Reasonably Objective Basis;" chapter 8, "Presentation Guidelines;" and chapter 9, "Illustrative Prospective Financial Statements," of the guide establish the preparation and presentation guidelines for financial forecasts and financial projections. The guide also includes information about the types and uses of prospective financial information. The guide provides suitable criteria for the preparation and presentation of prospective financial information. The accountant is not prohibited from preparing prospective financial information prepared and presented in accordance with other suitable criteria. [Paragraph added, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

.A3 Other historical financial information to which this section may be applied includes the following:

- Specified elements, accounts, or items of a financial statement, such as schedules of rentals, royalties, profit participation, or provision for income taxes
- Supplementary information

- Required supplementary information
- Pro forma financial information

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A4 The appendix, "Preparation of Financial Statements Versus Assistance in Preparing Financial Statements," provides examples of services that the accountant may be engaged to perform and whether this section would apply. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

The Preparation Engagement (Ref: par. .03)

.A5 The "Nonattest Services" subtopic of the "Independence Rule" (ET sec. 1.295) addresses the accountant's considerations with respect to independence when performing nonattest services for attest clients. For example, the accountant may prepare monthly or other interim financial statements and be engaged to perform an audit, review, or compilation engagement with respect to the annual financial statements. The accountant needs to be aware that the performance of the preparation services may impair independence unless the safeguards described in this subtopic are met. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions (Ref: par. .07)

[.A6] [Paragraph deleted by the issuance of SSARS No. 25, February 2020.]

Agreement on Engagement Terms (Ref: par. .10–.11)

.A7 Both management and the accountant have an interest in documenting the agreed-upon terms of the engagement to prepare financial statements before the commencement of the engagement to help avoid misunderstandings with respect to the engagement. For example, it reduces the risk that management may inappropriately rely on or may expect the accountant to protect management against certain risks or to perform certain functions, including those that are management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A8 When a third party has contracted for an engagement to prepare the entity's financial statements, agreeing the terms of the engagement with management of the entity is necessary in order to establish that the preconditions for an engagement to prepare financial statements are present. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A9 The understanding with management regarding the services to be performed for engagements to prepare financial statements is required by paragraph .10 to be in a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common, and usually the most convenient, method for documenting the understanding with management regarding the services to be performed for engagements to prepare financial statements. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A10 The roles of management and those charged with governance in agreeing upon the terms of the engagement to prepare financial statements for the entity depend on the governance structure of the entity and relevant law or regulation. Depending on the entity's structure, the agreement may be with management, those charged with governance, or both. Nonetheless, when

the agreement on the terms of engagement is only with those charged with governance in accordance with paragraph .26b of section 60A, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A11 An illustrative example of an engagement letter for an engagement to prepare financial statements is presented in the exhibit, "Illustrative Engagement Letter." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework (Ref: par. .12)

.A12 The requirement that the accountant obtain an understanding of the financial reporting framework adopted by management intended to be used in the preparation of the financial statements and the significant accounting policies adopted by management does not prevent the accountant from accepting an engagement to prepare financial statements for an entity in an industry in which the accountant has no previous experience. The accountant may obtain such understanding, for example, by consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and periodicals, appropriate continuing professional education, or individuals who are knowledgeable about the industry. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Preparing the Financial Statements (Ref: par. .10, .14–.16, and .18)

.A13 The statement on each page of the financial statements, including related notes, is intended to avoid misunderstanding on the part of users with respect to the accountant's involvement with the financial statements. The statement is made at management's discretion, and the accountant or the accountant's firm name is not required to be included. The accountant is concerned that the indication is not misleading. Examples of a statement on each page of the financial statements include the following:

- No assurance is provided on these financial statements.
- These financial statements have not been subjected to an audit or review or compilation engagement, and no assurance is provided on them.

Other statements that convey that no assurance is provided on the financial statements would also be acceptable. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A14 An example of a disclaimer that the accountant may issue is as follows:

The accompanying financial statements of XYZ Company as of and for the year ended December 31, 20XX, were not subjected to an audit, review, or compilation engagement by me (us) and I (we) do not express an opinion, a conclusion, nor provide any assurance on them.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date]

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A15 In circumstances addressed by the requirements of this section in which withdrawal from the engagement is necessary, the responsibility to inform management of the reasons for withdrawing provides an opportunity to explain the accountant's ethical obligations. [Paragraph added, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A16 When making a determination about whether and how to withdraw from an engagement, the accountant may wish to consult with legal counsel. [Paragraph added, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A17 A description of the special purpose framework is usually placed next to or under the title of the financial statements (for example "statement of assets and liabilities—modified cash basis"). However, the description may be placed elsewhere in the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A18 In the preparation of financial statements, the accountant may provide assistance to management with significant judgments (for example, the accountant may advise management on alternative accounting policies that are significant to the financial statements or help management with significant judgments regarding material accounting estimates). [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A19 The disclosure of the material misstatement or misstatements may be made on the face of the financial statements or in a note to the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework (Ref: par. .20–.21)

.A20 The disclosure of the omission of substantially all disclosures required by the applicable financial reporting framework may be made on the face of the financial statements or in a selected note to the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A21 The accountant may prepare financial statements that include disclosures about only a few matters in the notes to the financial statements. Such disclosures may be labeled "Selected Information—Substantially All Disclosures Required by *the applicable financial reporting framework* Are Not Included." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A22 Financial statements may be misleading, for example, if the applicable financial reporting framework includes the premise that the financial statements are prepared on the going concern basis and undisclosed uncertainties

exist regarding the entity's ability to continue as a going concern. If the accountant becomes aware that uncertainties exist regarding the entity's ability to continue as a going concern, the accountant may suggest additional disclosures concerning the entity's ability to continue as a going concern in order to avoid the financial statements being misleading. [Paragraph added, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A23 Disclosure of items, such as an uncertainty, is not required in financial statements in which substantially all the disclosures required by the applicable financial reporting framework are omitted. [Paragraph added, effective for the preparation of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Documentation in a Preparation Engagement **(Ref: par. .16 and .22)**

.A24 Documentation may include documentation regarding significant consultations or significant professional judgments made throughout the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A25

Appendix — Preparation of Financial Statements Versus Assistance in Preparing Financial Statements (Ref: par. .A4)

The determination about whether the accountant has been engaged to prepare financial statements or merely assist in preparing financial statements (which is a bookkeeping service that is not subject to this section) is determined based on the services the client requests the accountant to perform and requires the accountant to apply professional judgment. The following table provides examples of services that the accountant may be engaged to perform and whether section 70 would apply. The table is not intended to be all inclusive, and professional judgment would still need to be applied.

<i>Examples of Services for Which This Section Applies</i>	<i>Examples of Accountant Services for Which This Section Does Not Apply</i>
Preparation of financial statements prior to audit or review by another accountant	Preparation of financial statements when the accountant is engaged to perform an audit, review, or compilation of such financial statements
Preparation of financial statements for an entity to be presented alongside the entity's tax return	Preparation of financial statements with a tax return solely for submission to taxing authorities
Preparation of personal financial statements for presentation alongside a financial plan	Personal financial statements that are prepared for inclusion in written personal financial plans prepared by the accountant
	Financial statements prepared in conjunction with litigation services that involve pending or potential legal or regulatory proceedings
	Financial statements prepared in conjunction with business valuation services
	Maintaining depreciation schedules
	Preparing or proposing certain adjustments, such as those applicable to deferred income taxes, depreciation, or leases
Preparation of single financial statements, such as a balance sheet or income statement or financial statements with substantially all disclosures omitted	Drafting financial statement notes
Using the information in a general ledger to prepare financial statements outside of an accounting software system	Entering general ledger transactions or processing payments (general bookkeeping) in an accounting software system

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A26

Exhibit — Illustrative Engagement Letter (Ref: par. .A11)

The following is an example of an engagement letter for an engagement to prepare financial statements prepared in accordance with accounting principles generally accepted in the United States of America. This engagement letter is intended as an illustration that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances and is drafted to refer to the preparation of financial statements for a single reporting period. The accountant may seek legal advice about whether a proposed letter is suitable.

To the appropriate representative of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended and the related notes to the financial statements.^{3, 4} We are pleased to confirm our acceptance and our understanding of this engagement to prepare the financial statements of ABC Company by means of this letter.

Our Responsibilities

The objective of our engagement is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you. We will conduct our engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion or a conclusion or provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement to prepare financial statements, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A10.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ If the accountant is to be engaged to prepare financial statements that omit the statement of cash flows and the related notes, the sentence may be revised to read, "You have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income and changes in stockholders' equity." The following additional sentence may then be added: "These financial statements will not include a statement of cash flows and related notes to the financial statements."

⁴ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

Management Responsibilities

The engagement to be performed is conducted on the basis that management acknowledges and understands that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America. Management has the following overall responsibilities that are fundamental to our undertaking the engagement to prepare your financial statements in accordance with SSARs:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error
- c. The prevention and detection of fraud
- d. To ensure that the entity complies with the laws and regulations applicable to its activities
- e. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement to prepare financial statements
- f. To provide us with:
 - i. Documentation, and other related information that is relevant to the preparation and presentation of the financial statements,
 - ii. Additional information that may be requested for the purpose of the preparation of the financial statements, and
 - iii. Unrestricted access to persons within ABC Company of whom we determine necessary to communicate.

The financial statements will not be accompanied by a report. However, you agree that the financial statements will clearly indicate that no assurance is provided on them.

[If the accountant expects to issue a disclaimer, instead of the preceding paragraph, the following may be added:

As part of our engagement, we will issue a disclaimer that will state that the financial statements were not subjected to an audit, review, or compilation engagement by us and, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them.]

Other Relevant Information

Our fees for these services

[The accountant may include language, such as the following, regarding limitation of, or other arrangements regarding, the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein, and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

[Signed]

[Name and Title]

[Date]

[Revised, February 2015, to include additional required engagement letter elements. Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

AR-C Section 70B

Preparation of Financial Statements

Source: SSARS No. 21; SSARS No. 23.

Effective for the preparation of financial statements for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section applies when an accountant in public practice is engaged to prepare financial statements or prospective financial information. (Ref: par. .A1–.A2).

This section may also be applied, adapted as appropriate in the circumstances, to the preparation of other historical financial information. (Ref: par. .A3)

This section does not apply when an accountant prepares financial statements or prospective financial information

- and is engaged to perform an audit, review, or compilation of those financial statements,
- solely for submission to taxing authorities,
- for inclusion in written personal financial plans prepared by the accountant,
- in conjunction with litigation services that involve pending or potential legal or regulatory proceedings, or
- in conjunction with business valuation services.^[1]

[As amended, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

.02 The determination about whether the accountant has been engaged to prepare financial statements or merely assist in preparing financial statements (which is a bookkeeping service that is not subject to this section) is determined based on services the client requests the accountant to perform and requires the accountant to apply professional judgment. (Ref: par. .A4)

The Preparation Engagement

.03 An engagement to prepare financial statements is a nonattest service and does not require a determination about whether the accountant is independent of the entity. (Ref: par. .A5)

.04 In addition, an engagement to prepare financial statements does not require the accountant to verify the accuracy or completeness of the information provided by management or otherwise gather evidence to express an opinion or a conclusion on the financial statements or otherwise report on the financial statements.

^[1] [Footnote deleted by the issuance of SSARS No. 23, October 2016.]

Effective Date

.05 This section is effective for the preparation of financial statements for periods ending on or after December 15, 2015. Early implementation is permitted.

Objective

.06 The objective of the accountant is to prepare financial statements pursuant to a specified financial reporting framework.

Definitions

.07 For purposes of Statements on Standards for Accounting and Review Services (SSARs), the following terms have the meanings attributed as follows:

Applicable financial reporting framework. The financial reporting framework adopted by management and, when appropriate, those charged with governance, in the preparation and fair presentation of the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements or that is required by law or regulation.

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance (for example, executive members of a governance board or an owner-manager).

Special purpose framework. A financial reporting framework other than GAAP that is one of the following bases of accounting:

- a. **Cash basis.** A basis of accounting that the entity uses to record cash receipts and disbursements and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets).
- b. **Tax basis.** A basis of accounting that the entity uses to file its tax return for the period covered by the financial statements.
- c. **Regulatory basis.** A basis of accounting that the entity uses to comply with the requirements or financial reporting provisions of a regulatory agency to whose jurisdiction the entity is subject (for example, a basis of accounting that insurance companies use pursuant to the accounting practices prescribed or permitted by a state insurance commission). (Ref: par. .A6)
- d. **Contractual basis.** A basis of accounting that the entity uses to comply with an agreement between the entity and one or more third parties other than the accountant.
- e. **Other basis.** A basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements.

The cash basis, tax basis, regulatory basis, and other basis of accounting are commonly referred to as *other comprehensive bases of accounting* (OCBOA).

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the

strategic direction of an entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

Requirements

General Principles for Performing Engagements to Prepare Financial Statements

.08 In addition to complying with this section, an accountant is required to comply with section 60A, *General Principles For Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*.

Acceptance and Continuance of Client Relationships and Engagements to Prepare Financial Statements

.09 If the accountant is not satisfied with any of the matters set out in paragraph .26 of section 60A as preconditions for accepting an engagement to prepare financial statements, the accountant should discuss the matter with management or those charged with governance. If changes cannot be made to satisfy the accountant about those matters, the accountant should not accept the proposed engagement.

Agreement on Engagement Terms

.10 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be documented in an engagement letter or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A7–.A11)

- a. The objective of the engagement
- b. The responsibilities of management set forth in paragraph .26c of section 60A
- c. The agreement of management that each page of the financial statements will include a statement indicating that no assurance is provided on the financial statements or the accountant will be required to issue a disclaimer that makes clear that no assurance is provided on the financial statements. (Ref: par. .A13)
- d. The responsibilities of the accountant
- e. The limitations of the engagement to prepare financial statements
- f. Identification of the applicable financial reporting framework for the preparation of financial statements
- g. Whether the financial statements are to contain a known departure or departures from the applicable financial reporting framework (including inadequate disclosure) or omit substantially all disclosures required by the applicable financial reporting framework

[As amended, effective October 2016, by SSARS No. 23.]

.11 The engagement letter or other suitable form of written agreement should be signed by

- a. the accountant or the accountant's firm and
- b. management or those charged with governance, as appropriate.
(Ref: par. .A10)

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework

.12 The accountant should obtain an understanding of the financial reporting framework and the significant accounting policies intended to be used in the preparation of the financial statements. (Ref: par. .A12)

Preparing the Financial Statements

.13 The accountant should prepare the financial statements using the records, documents, explanations, and other information provided by management.

.14 The accountant should ensure that a statement is included on each page of the financial statements indicating, at a minimum, that "no assurance is provided" on the financial statements. If the accountant is unable to include a statement on each page of the financial statements, the accountant should (Ref: par. .A13)

- a. issue either a disclaimer that makes clear that no assurance is provided on the financial statements; (Ref: par. .A14)
- b. perform a compilation engagement in accordance with section 80, *Compilation Engagements*; or
- c. withdraw from the engagement.

[As amended, effective October 2016, by SSARS No. 23.]

.15 When preparing financial statements in accordance with a special purpose framework, the accountant should include a description of the financial reporting framework on the face of the financial statements or in a note to the financial statements. (Ref: par. .A15)

.16 If, during the preparation of financial statements, the accountant assists management with significant judgments regarding amounts or disclosures to be reflected in the financial statements, the accountant should discuss those judgments with management so management understands the significant judgments reflected in financial statements and accepts responsibility for those judgments. (Ref: par. .A16 and .A20)

.17 If the accountant becomes aware that the records, documents, explanations, or other information, including significant judgments, used in the preparation of the financial statements are incomplete, inaccurate, or otherwise unsatisfactory, the accountant should bring that to the attention of management and request additional or corrected information.

.18 When, after discussions with management, the accountant prepares financial statements that contain a known departure or departures from the applicable financial reporting framework (including inadequate disclosure), the accountant should disclose the material misstatement or misstatements in the financial statements. (Ref: par. .A17)

Preparing Prospective Financial Information

.19 The summary of significant assumptions is essential to the user's understanding of prospective financial information. Accordingly, the accountant should not prepare prospective financial information that excludes disclosure of the summary of significant assumptions. Also, the accountant should not prepare a financial projection that excludes either (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation. [Paragraph added, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework

.20 When, after discussions with management, the accountant prepares financial statements that omit substantially all disclosures required by the applicable financial reporting framework, the accountant should disclose such omission in the financial statements. (Ref: par. .A18) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.21 The accountant should not prepare financial statements that omit substantially all disclosures required by the financial reporting framework if the accountant becomes aware that the omission of substantially all disclosures was undertaken with the intention of misleading users of such financial statements. (Ref: par. .A19) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Documentation in a Preparation Engagement

.22 The accountant should prepare documentation in connection with each preparation engagement in sufficient detail to provide a clear understanding of the work performed which, at a minimum, includes the following: (Ref: par. .A20)

- a. The engagement letter or other suitable form of written documentation with management, as described in paragraphs .10–.11
- b. A copy of the financial statements that the accountant prepared

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.23 If, in rare circumstances, the accountant judges it necessary to depart from a relevant presumptively mandatory requirement, the accountant must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01–.02)

.A1 If the accountant is engaged to prepare prospective financial information, references in this section to *financial statements* are to be taken as a reference to prospective financial information. [Paragraph added, effective for

prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

.A2 AICPA Guide *Prospective Financial Information* (the guide) provides comprehensive guidance regarding prospective financial information. Chapter 6, "Preparation Guidelines;" chapter 7, "Reasonably Objective Basis;" chapter 8, "Presentation Guidelines;" and chapter 9, "Illustrative Prospective Financial Statements," of the guide establish the preparation and presentation guidelines for financial forecasts and financial projections. The guide also includes information about the types and uses of prospective financial information. The guide provides suitable criteria for the preparation and presentation of prospective financial information. The accountant is not prohibited from preparing prospective financial information prepared and presented in accordance with other suitable criteria. [Paragraph added, effective for prospective financial information prepared on or after May 1, 2017, by SSARS No. 23.]

.A3 Other historical financial information to which this section may be applied includes the following:

- Specified elements, accounts, or items of a financial statement, such as schedules of rentals, royalties, profit participation, or provision for income taxes
- Supplementary information
- Required supplementary information
- Pro forma financial information

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A4 The appendix, "Preparation of Financial Statements Versus Assistance in Preparing Financial Statements," provides examples of services that the accountant may be engaged to perform and whether this section would apply. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

The Preparation Engagement (Ref: par. .03)

.A5 The "Nonattest Services" subtopic of the "Independence Rule" (ET sec. 1.295) addresses the accountant's considerations with respect to independence when performing nonattest services for attest clients. For example, the accountant may prepare monthly or other interim financial statements and be engaged to perform an audit, review, or compilation engagement with respect to the annual financial statements. The accountant needs to be aware that the performance of the preparation services may impair independence unless the safeguards described in this subtopic are met. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions (Ref: par. .07)

.A6 Certain regulators, including state and local government legislators, regulatory agencies, or departments, require financial statements to be prepared in accordance with a financial reporting framework that is based on GAAP but does not comply with all the requirements of GAAP. Such frameworks are regulatory bases of accounting, as defined in paragraph .07. In some circumstances, however, the cash or tax basis of accounting may be permitted by a regulator. For purposes of this section, the cash and tax bases of accounting

are not regulatory bases of accounting. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Agreement on Engagement Terms (Ref: par. .10–.11)

.A7 Both management and the accountant have an interest in documenting the agreed-upon terms of the engagement to prepare financial statements before the commencement of the engagement to help avoid misunderstandings with respect to the engagement. For example, it reduces the risk that management may inappropriately rely on or may expect the accountant to protect management against certain risks or to perform certain functions, including those that are management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A8 When a third party has contracted for an engagement to prepare the entity's financial statements, agreeing the terms of the engagement with management of the entity is necessary in order to establish that the preconditions for an engagement to prepare financial statements are present. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A9 The understanding with management regarding the services to be performed for engagements to prepare financial statements is required by paragraph .10 to be in a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common, and usually the most convenient, method for documenting the understanding with management regarding the services to be performed for engagements to prepare financial statements. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A10 The roles of management and those charged with governance in agreeing upon the terms of the engagement to prepare financial statements for the entity depend on the governance structure of the entity and relevant law or regulation. Depending on the entity's structure, the agreement may be with management, those charged with governance, or both. Nonetheless, when the agreement on the terms of engagement is only with those charged with governance in accordance with paragraph .26c of section 60A, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A11 An illustrative example of an engagement letter for an engagement to prepare financial statements is presented in the exhibit, "Illustrative Engagement Letter." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework (Ref: par. .12)

.A12 The requirement that the accountant obtain an understanding of the financial reporting framework adopted by management intended to be used in the preparation of the financial statements and the significant accounting policies adopted by management does not prevent the accountant from accepting an engagement to prepare financial statements for an entity in an industry in which the accountant has no previous experience. The accountant may obtain such understanding, for example, by consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and

periodicals, appropriate continuing professional education, or individuals who are knowledgeable about the industry. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Preparing the Financial Statements (Ref: par. .10, .14–.16, and .18)

.A13 The statement on each page of the financial statements, including related notes, is intended to avoid misunderstanding on the part of users with respect to the accountant's involvement with the financial statements. The statement is made at management's discretion, and the accountant or the accountant's firm name is not required to be included. The accountant is concerned that the indication is not misleading. Examples of a statement on each page of the financial statements include the following:

- No assurance is provided on these financial statements.
- These financial statements have not been subjected to an audit or review or compilation engagement, and no assurance is provided on them.

Other statements that convey that no assurance is provided on the financial statements would also be acceptable. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A14 An example of a disclaimer that the accountant may issue is as follows:

The accompanying financial statements of XYZ Company as of and for the year ended December 31, 20XX, were not subjected to an audit, review, or compilation engagement by me (us) and I (we) do not express an opinion, a conclusion, nor provide any assurance on them.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date]

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A15 A description of the special purpose framework is usually placed next to or under the title of the financial statements (for example "statement of assets and liabilities—modified cash basis"). However, the description may be placed elsewhere in the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A16 In the preparation of financial statements, the accountant may provide assistance to management with significant judgments (for example, the accountant may advise management on alternative accounting policies that are significant to the financial statements or help management with significant judgments regarding material accounting estimates). [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A17 The disclosure of the material misstatement or misstatements may be made on the face of the financial statements or in a note to the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework (Ref: par. .20–.21)

.A18 The disclosure of the omission of substantially all disclosures required by the applicable financial reporting framework may be made on the face of the financial statements or in a selected note to the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A19 The accountant may prepare financial statements that include disclosures about only a few matters in the notes to the financial statements. Such disclosures may be labeled "Selected Information—Substantially All Disclosures Required by [*the applicable financial reporting framework*] Are Not Included." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Documentation in a Preparation Engagement (Ref: par. .16 and .22)

.A20 Documentation may include documentation regarding significant consultations or significant professional judgments made throughout the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A21

Appendix — Preparation of Financial Statements Versus Assistance in Preparing Financial Statements (Ref: par. .A4)

The determination about whether the accountant has been engaged to prepare financial statements or merely assist in preparing financial statements (which is a bookkeeping service that is not subject to this section) is determined based on the services the client requests the accountant to perform and requires the accountant to apply professional judgment. The following table provides examples of services that the accountant may be engaged to perform and whether section 70 would apply. The table is not intended to be all inclusive, and professional judgment would still need to be applied.

<i>Examples of Services for Which This Section Applies</i>	<i>Examples of Accountant Services for Which This Section Does Not Apply</i>
Preparation of financial statements prior to audit or review by another accountant	Preparation of financial statements when the accountant is engaged to perform an audit, review, or compilation of such financial statements
Preparation of financial statements for an entity to be presented alongside the entity's tax return	Preparation of financial statements with a tax return solely for submission to taxing authorities
Preparation of personal financial statements for presentation alongside a financial plan	Personal financial statements that are prepared for inclusion in written personal financial plans prepared by the accountant
	Financial statements prepared in conjunction with litigation services that involve pending or potential legal or regulatory proceedings
	Financial statements prepared in conjunction with business valuation services
	Maintaining depreciation schedules
	Preparing or proposing certain adjustments, such as those applicable to deferred income taxes, depreciation, or leases
Preparation of single financial statements, such as a balance sheet or income statement or financial statements with substantially all disclosures omitted	Drafting financial statement notes
Using the information in a general ledger to prepare financial statements outside of an accounting software system	Entering general ledger transactions or processing payments (general bookkeeping) in an accounting software system

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A22

Exhibit — Illustrative Engagement Letter (Ref: par. .A11)

The following is an example of an engagement letter for an engagement to prepare financial statements prepared in accordance with accounting principles generally accepted in the United States of America. This engagement letter is intended as an illustration that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances and is drafted to refer to the preparation of financial statements for a single reporting period. The accountant may seek legal advice about whether a proposed letter is suitable.

To the appropriate representative of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended and the related notes to the financial statements.^{3, 4} We are pleased to confirm our acceptance and our understanding of this engagement to prepare the financial statements of ABC Company by means of this letter.

Our Responsibilities

The objective of our engagement is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you. We will conduct our engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion or a conclusion or provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement to prepare financial statements, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A10.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ If the accountant is to be engaged to prepare financial statements that omit the statement of cash flows and the related notes, the sentence may be revised to read, "You have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income and changes in stockholders' equity." The following additional sentence may then be added: "These financial statements will not include a statement of cash flows and related notes to the financial statements."

⁴ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

Management Responsibilities

The engagement to be performed is conducted on the basis that management acknowledges and understands that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America. Management has the following overall responsibilities that are fundamental to our undertaking the engagement to prepare your financial statements in accordance with SSARs:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error
- c. The prevention and detection of fraud
- d. To ensure that the entity complies with the laws and regulations applicable to its activities
- e. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement to prepare financial statements
- f. To provide us with:
 - i. Documentation, and other related information that is relevant to the preparation and presentation of the financial statements,
 - ii. Additional information that may be requested for the purpose of the preparation of the financial statements, and
 - iii. Unrestricted access to persons within ABC Company of whom we determine necessary to communicate.

The financial statements will not be accompanied by a report. However, you agree that the financial statements will clearly indicate that no assurance is provided on them.

[If the accountant expects to issue a disclaimer, instead of the preceding paragraph, the following may be added:

As part of our engagement, we will issue a disclaimer that will state that the financial statements were not subjected to an audit, review, or compilation engagement by us and, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them.]

Other Relevant Information

Our fees for these services

[The accountant may include language, such as the following, regarding limitation of, or other arrangements regarding, the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein, and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

[Signed]

[Revised, February 2015, to include additional required engagement letter elements. Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

AR-C Section 80

Compilation Engagements

Source: SSARS No. 21; SSARS No. 23; SSARS No. 25; SSARS No. 26.

Effective for compilations of financial statements for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section applies when the accountant is engaged to perform a compilation of financial statements, prospective financial information, pro forma financial information, or other historical financial information. (Ref: par. .A1–.A4).^[1] [As amended, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

The Compilation Engagement

.02 Because a compilation engagement is not an assurance engagement, a compilation engagement does not require the accountant to verify the accuracy or completeness of the information provided by management or otherwise gather evidence to express an opinion or a conclusion on the financial statements.

Effective Date

.03 This section is effective for compilations of financial statements for periods ending on or after December 15, 2015. Early implementation is permitted.

Objective

.04 The objective of the accountant in a compilation engagement is to apply accounting and financial reporting expertise to assist management in the presentation of financial statements and report in accordance with this section without, undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with the applicable financial reporting framework.

Definitions

.05 For purposes of Statements on Standards for Accounting and Review Services (SSARs), the following terms have the meanings attributed as follows:

^[1] [Footnote deleted by the issuance of SSARS No. 23, October 2016.]

Basic financial statements. Financial statements excluding supplementary information and required supplementary information.

Generally accepted accounting principles (GAAP). Reference to *generally accepted accounting principles* in SSARSs means generally accepted accounting principles promulgated by bodies designated by the Council of the AICPA pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance (for example, executive members of a governance board or an owner-manager).

Misstatement. A difference between the amount, classification, presentation, or disclosure of a reported financial item and the amount, classification, presentation, or disclosure that is required for the item to be presented fairly in accordance with the applicable financial reporting framework. Misstatements can arise from fraud or error.

Misstatements also include those adjustments of amounts, classifications, presentations, or disclosures that, in the accountant's professional judgment, are necessary for the financial statements to be presented fairly, in all material respects.

Required supplementary information. Information that a designated accounting standards-setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting standards-setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

Supplementary information. Information presented outside the basic financial statements, excluding required supplementary information, that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the financial statements subjected to the compilation engagement or separate from the financial statements subjected to the compilation engagement. (Ref: par. .A6–.A7)

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of the entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

[Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Requirements

General Principles for Performing and Reporting on Compilation Engagements

.06 In addition to complying with this section, an accountant is required to comply with section 60, *General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*.

Independence

.07 The accountant must determine whether the accountant is independent of the entity. (Ref: par. .A8)

Acceptance and Continuance of Client Relationships and Compilation Engagements

.08 As a condition for accepting an engagement to perform a compilation with respect to an entity's financial statements, in addition to the requirements in paragraph .31 of section 60, the accountant should obtain the agreement of management that it acknowledges and understands its responsibility

- a. for the preparation and fair presentation of financial statements in accordance with the applicable financial reporting framework and the inclusion of all informative disclosures that are appropriate for the applicable financial reporting framework used to prepare the entity's financial statements. If the financial statements are prepared in accordance with a special purpose framework, this includes (Ref: par. .A9)
 - i. a description of the special purpose framework, including a summary of significant accounting policies, and how the framework differs from GAAP, the effect of which need not be quantified, and informative disclosures similar to those required by GAAP, in the case of special purpose financial statements that contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, (Ref: par. .A31)
 - ii. a description of any significant interpretations of the contract on which the special purpose financial statements are prepared, in the case of financial statements prepared in accordance with a contractual basis of accounting, and
 - iii. additional disclosures beyond those specifically required by the framework that may be necessary for the special purpose framework to achieve fair presentation.
- b. to include the accountant's compilation report in any document containing financial statements that indicates that the entity's accountant has performed a compilation engagement on such financial statements unless a different understanding is reached. (Ref: par. .A10)

.09 If the accountant is not satisfied about any of the matters set out in paragraph .31 of section 60 or paragraph .08 of this section as preconditions for accepting a compilation engagement, the accountant should discuss the matter with management or those charged with governance. If changes cannot be made

to satisfy the accountant about those matters, the accountant should not accept the proposed engagement.

Agreement on Engagement Terms

.10 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be documented in an engagement letter or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A11–.A16)

- a. The objectives of the engagement
- b. The responsibilities of management set forth in paragraph .31b of section 60 and paragraph .08 of this section
- c. The responsibilities of the accountant
- d. The limitations of the compilation engagement
- e. Identification of the applicable financial reporting framework for the preparation of the financial statements
- f. The expected form and content of the accountant's compilation report and a statement that there may be circumstances in which the report may differ from its expected form and content

[As amended, effective October 2016, by SSARS No. 23.]

.11 The engagement letter or other suitable form of written agreement should be signed by

- a. the accountant or the accountant's firm and
- b. management or those charged with governance, as appropriate. (Ref: par. .A12)

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework

.12 The accountant should obtain an understanding of the applicable financial reporting framework and the significant accounting policies intended to be used in the preparation of the financial statements. (Ref: par. .A17)

Compilation Procedures

.13 The accountant should read the financial statements in light of the accountant's understanding of the applicable financial reporting framework and the significant accounting policies adopted by management and consider whether such financial statements appear to be appropriate in form and free from obvious material misstatements.

.14 If, in the course of the engagement, the accountant becomes aware that the records, documents, explanations, or other information, including significant judgments, provided by management are incomplete, inaccurate, or otherwise unsatisfactory, the accountant should bring that to the attention of management and request additional or corrected information. (Ref: par. .A18)

.15 If the accountant becomes aware during the course of the engagement that

- a. the financial statements do not adequately refer to or describe the applicable financial reporting framework (Ref: par. .A19);

- b. revisions to the financial statements are required for the financial statements to be in accordance with the applicable financial reporting framework; or
- c. the financial statements are otherwise misleading (Ref: par. .A20–.A21)

the accountant should propose the appropriate revisions to management.

.16 The accountant should withdraw from the engagement and inform management of the reasons for withdrawing if (Ref: par. .A22–.A23)

- a. the accountant is unable to complete the engagement because management has failed to provide records, documents, explanations, or other information, including significant judgments, as requested, or
- b. management does not make appropriate revisions that are proposed by the accountant or does not disclose such departures in the financial statements, and the accountant determines to not disclose such departures in the accountant's compilation report.

The Accountant's Compilation Report

.17 The accountant's compilation report should be in writing and (Ref: par. .A24 and .A29)

- a. include a statement that management (owners) is (are) responsible for the financial statements.
- b. identify the financial statements that have been subjected to the compilation engagement.
- c. identify the entity whose financial statements have been subjected to the compilation engagement.
- d. specify the date or period covered by the financial statements.
- e. include a statement that the accountant performed the compilation engagement in accordance with SSARSs promulgated by the Accounting and Review Services Committee of the AICPA.
- f. include a statement that the accountant did not audit or review the financial statements nor was the accountant required to perform any procedures to verify the accuracy or completeness of the information provided by management and does not express an opinion, a conclusion, nor provide any assurance on the financial statements.
- g. include the manual or printed signature of the accountant's firm.
- h. include the city and state where the accountant practices. (Ref: par. .A27)
- i. include the date of the report, which should be the date that the accountant has completed the procedures required by this section.

[Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. As amended, effective for compilations of financial statements for periods ending on or after December 15, 2025, by SSARS No. 26.]

The Accountant's Compilation Report on Financial Statements Prepared in Accordance With a Special Purpose Framework

.18 Unless the entity elects to omit substantially all disclosures, the accountant should modify the compilation report when that accountant becomes aware that the financial statements do not include

- a. a description of the special purpose framework. (Ref: par. .A29–.A31)
- b. a summary of significant accounting policies. (Ref: par. .A32)
- c. an adequate description about how the special purpose framework differs from GAAP. The effects of these differences need not be quantified. (Ref: par. .A31)
- d. informative disclosures similar to those required by GAAP when the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. (Ref: par. .A34)

.19 In the case of financial statements prepared in accordance with the provisions of a contract, the accountant should consider whether the financial statements adequately describe any significant interpretations of the contract on which the financial statements are based and modify the compilation report if the financial statements do not adequately describe any significant interpretations of the contract on which the financial statements are based. [As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.20 In the case of an accountant's compilation report on special purpose financial statements, if management has a choice of financial reporting frameworks in the preparation of the special purpose financial statements, the explanation of management's responsibility for the financial statements should also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances. [As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.21 The accountant's compilation report on financial statements prepared in accordance with a special purpose framework should include a separate paragraph that (Ref: par. A36–.A37)

- a. indicates that the financial statements are prepared in accordance with the applicable special purpose framework,
- b. refers to the note to the financial statements that describes the framework, if applicable, and
- c. states that the special purpose framework is a basis of accounting other than GAAP.

For special purpose financial statements prepared in accordance with a contractual basis of accounting, the separate paragraph should also state that, as a result, the financial statements may not be suitable for another purpose. [As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Reporting When the Accountant Is Not Independent

.22 When the accountant is not independent with respect to the entity, the accountant should indicate the accountant's lack of independence in a final paragraph of the accountant's compilation report. (Ref: par. .A38–.A40)

.23 If the accountant elects to disclose a description about the reasons the accountant's independence is impaired, the accountant should include all such reasons in the description.

Reporting on Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework

.24 The summary of significant assumptions is essential to the user's understanding of prospective financial information. Accordingly, the accountant should not issue a compilation report on prospective financial information that excludes disclosure of the summary of significant assumptions. Also, the accountant should not issue a compilation report on a financial projection that excludes either (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.25 In addition to the reporting elements required by paragraph .17, an accountant's compilation report on prospective financial information should include statements that

- a. the forecasted or projected results may not be achieved and
- b. the accountant assumes no responsibility to update the report for events and circumstances occurring after the date of the report.

[Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.26 The accountant should not issue an accountant's compilation report on financial statements that omit substantially all disclosures required by the applicable financial reporting framework if, in the accountant's professional judgment, such financial statements would be misleading to users of the financial statements. (Ref: par. .A21) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.27 When reporting on financial statements that omit substantially all disclosures required by the applicable financial reporting framework, the accountant should include a separate paragraph in the accountant's compilation report that includes the following elements: (Ref: par. .A41–.A42)

- a. A statement that management has elected to omit substantially all the disclosures (and the statement of cash flows, if applicable) required by the applicable financial reporting framework (or ordinarily included in the financial statements if the financial statements are prepared in accordance with a special purpose framework)
- b. A statement that if the omitted disclosures (and the statement of cash flows, if applicable) were included in the financial statements, they might influence the user's conclusions about the entity's financial position, results of operations, and cash flows (or the equivalent for presentations other than GAAP)
- c. A statement that, accordingly, the financial statements are not designed for those who are not informed about such matters

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.28 The omission of one or more notes, when substantially all other disclosures are presented, should be treated in a compilation report like any other departure from the applicable financial reporting framework, and the nature of the departure and its effects, if known, should be disclosed in accordance with paragraphs .29–.33. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Reporting Known Departures From the Applicable Financial Reporting Framework

.29 When the accountant becomes aware of a departure from the applicable financial reporting framework (including inadequate disclosure) that is material to the financial statements and the financial statements are not revised, the accountant should consider whether modification of the standard report is adequate to disclose the departure. (Ref: par. .A44) [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.30 If the accountant concludes that modification of the standard report is adequate, the departure should be disclosed in a separate paragraph of the report. The effects of the departure on the financial statements should be disclosed if such effects have been determined by management or are readily known to the accountant as the result of the accountant's procedures. [Paragraph renumbered and amended, by SSARS No. 23, October 2016.]

.31 If the effects of the departure have not been determined by management or are not readily known to the accountant as a result of the accountant's procedures, the accountant is not required to determine the effects of a departure; however, in such circumstances, the accountant should state in the report that such determination has not been made by management. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.32 If the accountant believes that modification of the compilation report is not adequate to indicate the deficiencies in the financial statements as a whole, the accountant should withdraw from the engagement and provide no further services with respect to those financial statements. (Ref: par. .A23) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.33 The accountant should not modify the compilation report to include a statement that the financial statements are not in conformity with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Supplementary Information That Accompanies Financial Statements and the Accountant's Compilation Report Thereon

.34 When supplementary information accompanies financial statements and the accountant's compilation report thereon, the accountant should clearly indicate the degree of responsibility, if any, the accountant is taking with respect to such information in either

- a. a separate paragraph in the accountant's compilation report on the financial statements or
- b. a separate report on the supplementary information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.35 When the accountant has performed a compilation engagement with respect to both the financial statements and the supplementary information, the accountant should include a separate paragraph in the accountant's compilation report on the financial statements or issue a separate report on the supplementary information that states (Ref: par. .A46 and .A48)

- a.* the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b.* the supplementary information is the responsibility of management;
- c.* the supplementary information was subject to the compilation engagement; and
- d.* the accountant has not audited or reviewed the supplementary information and does not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.36 When the accountant has performed a compilation engagement with respect to the financial statements but the supplementary information was not subject to the compilation engagement, the accountant should include a separate paragraph in the accountant's compilation report on the financial statements or issue a separate report on the supplementary information that states (Ref: par. .A47–.A48)

- a.* the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b.* the supplementary information is the responsibility of management; and
- c.* the supplementary information was not subject to the compilation engagement and the accountant does not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Required Supplementary Information

.37 With regard to the requirement in paragraph .34, with respect to required supplementary information, the accountant should include a separate paragraph in the accountant's compilation report on the financial statements. The other-matter paragraph should include language to explain the following circumstances, as applicable: (Ref: par. .A49)

- a.* The required supplementary information is included, and the accountant performed a compilation engagement on the required supplementary information.
- b.* The required supplementary information is included, and the accountant did not perform a compilation, review, or audit on the required supplementary information.
- c.* The required supplementary information is omitted.

- d. Some required supplementary information is missing, and some is presented in accordance with the prescribed guidelines. (Ref: par. .A50)
- e. The accountant has identified departures from the prescribed guidelines.
- f. The accountant has unresolved doubts about whether the required supplementary information is presented in accordance with prescribed guidelines.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.38 If the entity has presented all or some of the required supplementary information and the accountant did not perform a compilation engagement on the required supplementary information, the separate paragraph in the accountant's compilation report referred to in paragraph .34 should include the following elements: (Ref: par. .A51)

- a. A statement that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* requires that the *[identify the required supplementary information]* be presented to supplement the basic financial statements
- b. A statement that such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. A statement that the accountant did not perform a compilation, review, or audit on the required supplementary information and does not express an opinion, a conclusion, nor provide any assurance on the information
- d. If some of the required supplementary information is omitted:
 - i. A statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
 - ii. A statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- e. If the measurement or presentation of the required supplementary information departs materially from the prescribed guidelines, a statement that material departures from prescribed guidelines exist *[describe the material departures from the applicable financial reporting framework]*
- f. If the accountant has unresolved doubts about whether the required supplementary information is measured or presented in accordance with prescribed guidelines, a statement that the accountant has doubts about whether material modifications should be made to the required supplementary information for it to be

presented in accordance with guidelines established by [*identify designated accounting standards-setter*]

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.39 If all the required supplementary information is omitted, the separate paragraph in the accountant's compilation report should include the following elements:

- a. A statement that management has omitted [*description of the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements
- b. A statement that such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards-setter*], who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Documentation in a Compilation Engagement

.40 The accountant should prepare documentation in connection with each compilation engagement in sufficient detail to provide a clear understanding of the work performed which, at a minimum, includes the following:

- a. The engagement letter or other suitable form of written documentation with management, as described in paragraphs .10–.11 (Ref: par. .A14 and .A16)
- b. A copy of the financial statements
- c. A copy of the accountant's report

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 If the accountant is engaged to perform a compilation on prospective financial information or pro forma financial information, references in this section to *financial statements* are to be taken as a reference to such other financial information. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.A2 AICPA Guide *Prospective Financial Information* (the guide) provides comprehensive guidance regarding prospective financial information. Chapter 6, "Preparation Guidelines;" chapter 7, "Reasonably Objective Basis;" chapter 8, "Presentation Guidelines;" and chapter 9, "Illustrative Prospective Financial Statements," of the guide establish the preparation and presentation guidelines for financial forecasts and financial projections. The guide also includes information about the types and uses of prospective financial information. The guide provides suitable criteria for the preparation and presentation of prospective financial information. The accountant is not prohibited from preparing

prospective financial information prepared and presented in accordance with other suitable criteria. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.A3 Other historical financial information to which this section applies includes the following:

- Specified elements, accounts, or items of a financial statement, such as schedules of rentals, royalties, profit participation, or provision for income taxes
- Supplementary information
- Required supplementary information

[Paragraph renumbered and amended, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.A4 In addition to the requirements of this section, in a compilation of pro forma financial information, the accountant is also required to adhere to the requirements of section 120, *Compilation of Pro Forma Financial Information*. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

Definitions (Ref: par. .05)

[.A5] [Paragraph deleted by the issuance of SSARS No. 25, February 2020.]

.A6 Supplementary information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources outside the accounting system or outside the entity. [Paragraph added to reflect conforming changes necessary due to the issuance of SSARS No. 23]

.A7 Supplementary information may be prepared in accordance with an applicable financial reporting framework, by regulatory or contractual requirements, in accordance with management's criteria, or in accordance with other requirements. [Paragraph added to reflect conforming changes necessary due to the issuance of SSARS No. 23]

Independence (Ref: par. .07)

.A8 The interpretations of the "Independence Rule" (ET sec. 1.200.001) of the AICPA Code of Professional Conduct provide authoritative guidance with respect to independence. It is in the public interest and, therefore, required by this section, that the accountant modify the accountant's compilation report when the accountant is not independent of the entity whose financial statements are the subject of the compilation engagement. The AICPA Code of Professional Conduct also defines *independence* as consisting of two elements, independence of mind and independence in appearance. Independence enhances the accountant's ability to act with integrity and be objective. Independence implies an impartiality that recognizes an obligation to be fair not only to management but also to users of the financial statements, who may rely upon the accountant's compilation report. In the absence of an interpretation of the "Independence Rule" that addresses a particular relationship or circumstance, a member should apply the "Conceptual Framework for Independence" interpretation (ET sec. 1.210.010). [Paragraph renumbered by the issuance of SSARS

No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Acceptance and Continuance of Client Relationships and Compilation Engagements (Ref: par. .08)

.A9 A compilation in accordance with SSARSs is conducted on the premise that management has acknowledged and understands that it has the responsibility set out in paragraph .31b of section 60. The preparation of financial statements, in whole or in part, is a nonattest service subject to the provisions of the "Nonattest Services" subtopic of the "Independence Rule" (ET sec. 1.295). To avoid misunderstanding, agreement is reached with management that it acknowledges and understands that it has such responsibilities as part of agreeing and documenting the terms of the compilation engagement as required by paragraphs .10–.11. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A10 Documents containing financial statements that may include an indication that such financial statements have been subjected to a compilation engagement by the entity's accountant includes documents submitted to bonding companies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Agreement on Engagement Terms (Ref: par. .10–.11 and .40)

.A11 Both management and the accountant have an interest in documenting the terms of the compilation engagement before the commencement of the engagement to help avoid misunderstandings with respect to the engagement. For example, it reduces the risk that management may inappropriately rely on or expect the accountant to protect management against certain risks or perform certain functions, including those that are management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A12 The roles of management and those charged with governance in agreeing upon the terms of the compilation engagement for the entity depend on the governance structure of the entity and relevant law or regulation. Depending on the entity's structure, the agreement may be with management, those charged with governance, or both. Nonetheless, when the agreement on the terms of engagement is only with those charged with governance, in accordance with paragraph .31b of section 60, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A13 When a third party has contracted for a compilation of the entity's financial statements, agreeing the terms of the compilation with management of the entity is necessary in order to establish that the preconditions for a compilation are present. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A14 The understanding with management regarding the services to be performed for compilation engagements is required by paragraph .10 to be in

a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common and usually the most convenient method for documenting the understanding with management regarding the services to be performed for compilation engagements. [Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A15 Although the accountant may prepare the financial statements, in whole or in part, the financial statements are representations of management, and the fairness of their presentation in accordance with the applicable financial reporting framework is management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A16 Illustrative examples of engagement letters for a compilation engagement are presented in exhibit A, "Illustrative Engagement Letters." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework (Ref: par. .12)

.A17 The requirement that the accountant obtain an understanding of the applicable financial reporting framework intended to be used in the preparation of the financial statements, and the significant accounting policies adopted by management, does not prevent the accountant from accepting a compilation engagement for an entity in an industry in which the accountant has no previous experience. The accountant may obtain such understanding, for example, by consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and periodicals, appropriate continuing professional education, or individuals who are knowledgeable about the framework or the industry. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Compilation Procedures (Ref: par. .14–.16, .26, and .32)

.A18 The accountant is not required to make inquiries or perform other procedures to verify, corroborate, or review information supplied by the entity. However, the accountant may have performed such inquiries or procedures and the results of those inquiries or procedures, knowledge gained from prior engagements, or the financial statements themselves may cause the accountant to become aware that information provided by management is incorrect, incomplete, or otherwise unsatisfactory. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A19 The financial statements may adequately refer to or describe the applicable financial reporting framework via

- the financial statement titles or
- the notes to the financial statements.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A20 Financial statements may be misleading, for example, if the applicable financial reporting framework includes the premise that the financial statements are prepared on the going concern basis, and undisclosed uncertainties exist regarding the entity's ability to continue as a going concern. If the accountant becomes aware that uncertainties exist regarding the entity's ability to continue as a going concern, the accountant may suggest additional disclosures concerning the entity's ability to continue as a going concern in order to avoid the financial statements being misleading. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A21 Disclosure of items, such as an uncertainty, is not required in financial statements in which substantially all the disclosures required by the applicable financial reporting framework are omitted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A22 In circumstances addressed by the requirements of this section in which withdrawal from the engagement is necessary, the responsibility to inform management of the reasons for withdrawing provides an opportunity to explain the accountant's ethical obligations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A23 When making a determination about whether and how to withdraw from an engagement, the accountant may wish to consult with legal counsel. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

The Accountant's Compilation Report (Ref: par. .17)

.A24 The accountant's written report may become unattached from the financial statements. To minimize the possibility that a user of the financial statements may infer an unintended level of reliance on the financial statements, the accountant may request that management include a reference on each page of the financial statements to the accountant's written report. An example of a reference to the accountant's written report included on each page of the financial statements is "See Accountant's Report" or "See Accountant's Compilation Report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A25 In some cases, law or regulation may allow for the use of electronic signatures in the accountant's compilation report. [Paragraph deleted by the issuance of SSARS No. 23, October 2016. Paragraph reinstated, effective for compilations of financial statements for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A26 In certain situations, the accountant's compilation report may be required by law or regulation to include the personal name and signature of the accountant, in addition to the accountant's firm. [Paragraph added, effective for compilations of financial statements for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A27 The city and state where the accountant practices may be indicated on letterhead that contains the issuing office's city and state. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A28 Illustrative examples of accountant's compilation reports are presented in exhibit B, "Illustrative Examples of the Accountant's Compilation Reports on Financial Statements." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

The Accountant's Compilation Report on Financial Statements Prepared in Accordance With a Special Purpose Framework (Ref: par. .08, .18, and .20)

.A29 Circumstances may exist in which a regulatory or contractual basis of accounting is based on a general purpose framework established by a designated accounting standard setter, such as GAAP, or by law or regulation, but does not comply with all the requirements of that framework. An example is a contract that requires financial statements to be prepared in accordance with most, but not all, of GAAP. If the financial statements purport to be prepared in accordance with a general purpose framework and such financial statements are materially misstated due to a departure from that framework, paragraphs .29–.33 apply. [Paragraph added, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A30 When it is acceptable in the circumstances of the engagement to report, in accordance with this section, on special purpose financial statements that purport to be prepared in accordance with a regulatory or contractual basis of accounting that is based on a general purpose framework, it is inappropriate for the description of the applicable financial reporting framework in the special purpose financial statements to imply that the special purpose framework includes all the requirements of, or is the same as, the financial reporting framework on which the special purpose framework is based. In the example of the contract in paragraph .A29, the description of the applicable financial reporting framework would refer to the financial reporting provisions of the contract. The requirement in paragraph .21 is designed to avoid misunderstandings about compliance with the general purpose framework. [Paragraph added, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A31 The description of the special purpose framework may be included in the financial statement titles, in the notes to the financial statements, or otherwise on the face of the financial statements. Although terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows*, or similar unmodified titles, are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in accordance with GAAP, such titles, with appropriate modification, may be used in connection with financial statements prepared in accordance with a special purpose framework. Suitable financial statement titles for financial statements

prepared in accordance with a special purpose framework include, but are not limited to

- a modified cash basis financial statement that might be titled
 - "Income Statement — Modified Cash Basis," or
 - "Statement of Cash Receipts and Disbursements."
- financial statements prepared in accordance with the tax basis of accounting that might be titled
 - "Balance Sheet — Tax Basis,"
 - "Statement of Assets, Liabilities, and Equity — Tax Basis,"
 - "Statement of Operations — Tax Basis," or
 - "Statement of Revenue and Expenses — Tax Basis."
- a financial statement prepared in accordance with a regulatory basis of accounting that might be titled "Statement of Income — Regulatory Basis."

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A32 Financial statements prepared in accordance with a special purpose framework need not include a summary of significant accounting policies or a description about how the special purpose framework differs from GAAP if such financial statements omit substantially all disclosures, and the omission of substantially all disclosures is not, to the accountant's knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A33 The description of how the special purpose framework differs from GAAP ordinarily only includes the material differences between GAAP and the special purpose framework. For example, if several items are accounted for differently in accordance with the special purpose framework than they would be in accordance with GAAP, but only the differences in how depreciation is calculated are material, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described or quantified. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A34 Financial statements prepared when applying a special purpose framework are not considered appropriate in form unless the financial statements include informative disclosures similar to those required by GAAP if the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by

the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

[**A35**] [Paragraph subsequently renumbered and deleted by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

A36 Special purpose financial statements may be used for purposes other than those for which they were intended. To avoid misunderstandings, paragraph .21 requires the accountant to include a separate paragraph in the accountant's compilation report that alerts users of the accountant's compilation report that the financial statements are prepared in accordance with a special purpose framework and that the basis of accounting is a basis of accounting other than GAAP. [Paragraph added, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

A37 Financial statements prepared in accordance with a special purpose framework may be the only financial statements an entity prepares. Such special purpose financial statements may be used by users other than those for whom the financial reporting framework is designed. Despite the broad distribution of the financial statements, the financial statements are still considered to be special purpose financial statements for purposes of SSARSs. The requirement in paragraph .21 is designed to avoid misunderstandings about the framework used to prepare the financial statements. [Paragraph added, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

Reporting When the Accountant Is Not Independent (Ref: par. .22)

A38 An example of a disclosure that an accountant may make to indicate the accountant's lack of independence would be

I am (We are) not independent with respect to XYZ Company.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

A39 The accountant is not precluded from disclosing a description about the reason(s) that the accountant's independence is impaired. The following are examples of descriptions the accountant may use:

- I am (We are) not independent with respect to XYZ Company as of and for the year ended December 31, 20XX, because I (a member of the engagement team) had a direct financial interest in XYZ Company.
- I am (We are) not independent with respect to XYZ Company as of and for the year ended December 31, 20XX, because an individual of my immediate family (an immediate family member of one of the members of the engagement team) was employed by XYZ Company.
- I am (We are) not independent with respect to XYZ Company as of and for the year ended December 31, 20XX, because I (we)

performed certain accounting services (the accountant may include a specific description of those services) that impaired my (our) independence.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A40 Illustrative examples of accountant's compilation reports when the accountant's independence has been impaired are presented in exhibit B.² [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Reporting on Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework (Ref: par. .27)

.A41 When management elects to include disclosures about only a few matters in the notes to the financial statements, such disclosures may be labeled "Selected Information — Substantially All Disclosures Required by *[the applicable financial reporting framework]* Are Not Included." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A42 An illustrative example of an accountant's compilation report on financial statements that omit substantially all disclosures required by the applicable financial reporting framework is presented in exhibit B.³ [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

² Illustration 4, "An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When the Accountant's Independence Is Impaired, and the Accountant Determines to Not Disclose the Reasons for the Independence Impairment" and illustration 5, "An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With the AICPA's Financial Reporting Framework for Small- and Medium-Sized Entities When the Accountant's Independence Has Been Impaired Due to the Accountant Having a Financial Interest in the Entity, and the Accountant Decides to Disclose the Reasons for the Independence Impairment," of exhibit B, "Illustrative Examples of the Accountant's Compilation Report on Financial Statements."

³ Illustration 3, "An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With the Tax Basis of Accounting, and Management Has Elected to Omit Substantially All Disclosures Ordinarily Included in Financial Statements Prepared in Accordance With the Tax Basis of Accounting," of exhibit B.

Reporting Known Departures From the Applicable Financial Reporting Framework (Ref: par. .30 and .33)

.A43 The accountant is precluded from including a statement that the financial statements are not in conformity with the applicable financial reporting framework because such a statement would be tantamount to expressing an adverse opinion on the financial statements as a whole. Such an opinion can be expressed only in the context of an audit engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A44 An illustrative example of an accountant's compilation report on financial statements that contain known departures from the applicable financial reporting framework that are not disclosed in the notes to the financial statements is presented in exhibit B.⁴ [Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Supplementary Information That Accompanies Financial Statements and the Accountant's Compilation Report Thereon (Ref: par. .34–.36)

[.A45] [Paragraph deleted to reflect conforming changes necessary due to the issuance of SSARS No. 23, October 2016. Paragraph renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A46 The following is an example of how an accountant may word a separate paragraph in the accountant's compilation report addressing supplementary information when the accountant has performed a compilation engagement on both the financial statements and the supplementary information:

The accompanying *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. The supplementary information was subject to our compilation engagement. I (We) have not audited or reviewed the supplementary information and do not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A47 The following is an example of how an accountant may word a separate paragraph in the accountant's compilation report addressing

⁴ Illustration 6, "An Accountant's Compilation Report on Comparative Financial Statements, and the Accountant is Aware of Departures From Accounting Principles Generally Accepted in the United States of America," of exhibit B.

supplementary information when the accountant has performed a compilation engagement on the financial statements but has not performed a compilation on the supplementary information:

The accompanying [*identify the supplementary information*] is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. The supplementary information was not subject to our compilation engagement. I (We) do not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

A48 Supplementary information may become unattached from the accountant's compilation report. To minimize the possibility that a user of the supplementary information may infer, through the accountant's association with such information, an unintended level of reliance on it, the accountant may request that management include a reference to the accountant's compilation report on each page of the supplementary information. An example of a reference to the accountant's compilation report included on each page of the supplementary information is "See Accountant's Report" or "See Accountant's Compilation Report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Required Supplementary Information (Ref: par. .37–.38)

A49 Examples of required supplementary information that may accompany financial statements and the accountant's compilation report thereon include the following:

- With respect to common interest realty associations, estimates of current or future costs of major repairs and replacements of common property that will be required in the future as required by *FASB Accounting Standards Codification 972-235-50-3*
- Management's discussion and analysis and budgetary comparison statements as required by GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

A50 *Prescribed guidelines* are the authoritative guidelines established by the designated accounting standards-setter for the methods of measurement and presentation of the required supplementary information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently

renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A51 Because the required supplementary information accompanies the basic financial statements, the accountant's compilation report on the financial statements includes a discussion of the responsibility taken by the accountant on that information. However, if the required supplementary information is omitted by the entity, the accountant does not have a responsibility to present that information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Exhibit A — Illustrative Engagement Letters (Ref: par. .A16)

Illustration 1 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 2 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America, Except the Financial Statements Omit the Statement of Cash Flows and Substantially All Disclosures Required by U.S. GAAP and in Which the Accountant's Independence Is Impaired

Illustration 3 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

The illustrative engagement letters in this exhibit are intended as illustrations that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances, and the illustrations are drafted to refer to a compilation engagement for a single reporting period. The accountant may seek legal advice about whether a proposed letter is suitable.

Illustration 1 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements, including related notes, subject to the compilation engagement.
- The financial statements will be prepared in accordance with accounting principles generally accepted in the United States of America and will include all related notes required by accounting principles generally accepted in the United States of America
- The accountant expects that his or her independence will not be impaired

To the appropriate representative of management of ABC Company:¹

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A12.

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and perform a compilation engagement with respect to those financial statements.^{3, 4} We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you and
- b. apply accounting and financial reporting expertise to assist you in the presentation of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARSS) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion or a conclusion nor provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and assist you in the presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARSS:

² Throughout this engagement letter, references to *you, we, us, management, and accountant* will be used or amended as appropriate in the circumstances.

³ If the accountant is to be engaged to prepare financial statements that omit the statement of cash flows and the related notes and perform a compilation engagement with respect to those financial statements, the sentence may be revised to read, "You have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income and changes in stockholders' equity, and perform a compilation engagement with respect to those financial statements." The following additional sentence may then be added: "These financial statements will not include a statement of cash flows and related notes to the financial statements."

⁴ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of financial statements in accordance with accounting principles generally accepted in the United States of America and the inclusion of all informative disclosures that are appropriate for accounting principles generally accepted in the United States of America
- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities
- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the compilation engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

As part of our engagement, we will issue a report that will state that we did not audit or review the financial statements and that, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them. Circumstances may arise in which it is necessary for us to modify our report or withdraw from the engagement.

You agree to include our accountant's compilation report in any document containing financial statements that indicates that we have performed a compilation engagement on such financial statements and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services

[The accountant may include language, such as the following, regarding limitation of or other arrangements regarding the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's

knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a compilation engagement with respect to those same financial statements, and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Illustration 2 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America, Except the Financial Statements Omit the Statement of Cash Flows and Substantially All Disclosures Required by U.S. GAAP and in Which the Accountant's Independence Is Impaired

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements subject to the compilation engagement.
- The financial statements will be prepared in accordance with accounting principles generally accepted in the United States of America, except the statement of cash flows and substantially all disclosures required by accounting principles generally accepted in the United States of America will be omitted.
- The accountant's independence will be impaired as a result of the performance of the nonattest preparation service.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income and changes in stockholders' equity for the year then ended, and perform a compilation engagement with respect to those financial statements.³ These financial statements will not include a statement of cash flows and related notes to the financial statements. We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A12.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping service.

Our Responsibilities

The objective of our engagement is to

- a.* prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you and
- b.* apply accounting and financial reporting expertise to assist you in the presentation of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARSS) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion, a conclusion, nor provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

Your Responsibilities

The compilation engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and assist you in the presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARSS:

- a.* The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b.* The preparation and fair presentation of financial statements in accordance with accounting principles generally accepted in the United States of America
- c.* The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- d.* The prevention and detection of fraud
- e.* To ensure that the entity complies with the laws and regulations applicable to its activities

- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the compilation engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries

Our Report

As part of our engagement, we will issue a report that will state that we did not audit or review the financial statements and that, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them. We will disclose that we are not independent in our report. Circumstances may arise in which it is necessary for us to modify our report or withdraw from the engagement.

Our report will disclose that the Company's management has elected to omit the statement of cash flows and substantially all of the disclosures required by accounting principles generally accepted in the United States of America. If the statement of cash flows and omitted disclosures were to be included in the financial statements, they might influence the user's conclusions about the Company's financial position, results of operations, and cash flows. Accordingly, the financial statements will not be designed for those who are not informed about such matters.

You agree to include our accountant's compilation report in any document containing financial statements that indicates that we have performed a compilation engagement on such financial statements and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services

[The accountant may include language, such as the following, regarding limitation of, or other arrangements regarding, the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorneys' fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a compilation

engagement with respect to those same financial statements, and our respective responsibilities.

Sincerely yours,

[*Signature of accountant or accountant's firm*]

[Revised, February 2015, to include additional required engagement letter elements.]

Illustration 3 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements subject to the compilation engagement.
- The financial statements will be prepared in accordance with the tax basis of accounting.
- The accountant expects that his or her independence will not be impaired.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the statement of assets, liabilities, and equity — tax basis as of December 31, 20XX, and the related statements of operations and related earnings — tax basis, and cash flows — tax basis for the year then ended, and the related notes to the financial statements and perform a compilation engagement with respect to those financial statements.^{3, 4} We are pleased to confirm our acceptance and our understanding of this compilation engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with the tax basis of accounting based on information provided by you and

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A12.

² Throughout this engagement letter, references to *you*, *we*, *us*, *management*, and *accountant* would be used or amended as appropriate in the circumstances.

³ If the accountant is to be engaged to prepare financial statements that omit the statement of cash flows — tax basis and the related notes and perform a compilation engagement with respect to those financial statements, the sentence may be revised to read, "You have requested that we prepare the financial statements of ABC Company, which comprise the statement of assets, liabilities, and equity — tax basis as of December 31, 20XX, and the related statement of operations and retained earnings — tax basis, and perform a compilation engagement with respect to those financial statements." The following additional sentence may then be added: "These financial statements will not include a statement of cash flows — tax basis and related notes to the financial statements."

⁴ The accountant may include nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

- We will conduct our compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion, a conclusion, nor provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with the tax basis of accounting and assist you in the presentation of the financial statements in accordance with the tax basis of accounting. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- a. The selection of the tax basis of accounting as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of financial statements in accordance with the tax basis of accounting
- c. The inclusion of all informative disclosures that is appropriate for the tax basis of accounting. This includes
 - i. a description of the tax basis of accounting, including a summary of significant accounting policies, and how the tax basis of accounting differs from accounting principles generally accepted in the United States of America, the effects of which need not be quantified and
 - ii. informative disclosures similar to those required by accounting principles generally accepted in the United States of America.⁵
- d. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error

⁵ The responsibility described in c need not be included if the financial statements omit substantially all disclosures required by the financial reporting framework.

- e. The prevention and detection of fraud
- f. To ensure that the entity complies with the laws and regulations applicable to its activities
- g. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the compilation engagement
- h. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the compilation engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

As part of our engagement, we will issue a report that will state that we did not audit or review the financial statements and that, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them. Circumstances may arise in which it is necessary for us to modify our report or withdraw from the engagement.

Our report will disclose that the financial statements are prepared in accordance with the tax basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

You agree to include our accountant's compilation report in any document containing financial statements that indicates that we have performed a compilation engagement on such financial statements and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services . . .

[The accountant may include language, such as the following, regarding limitation of, or other arrangements regarding, the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorneys' fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and perform a compilation

engagement with respect to those same financial statements and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

AR-C Section 80A

Compilation Engagements

Source: SSARS No. 21; SSARS No. 23; SSARS No. 25.

Effective for compilations of financial statements for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section applies when the accountant is engaged to perform a compilation of financial statements, prospective financial information, pro forma financial information, or other historical financial information. (Ref: par. .A1–.A4).^[1] [As amended, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

The Compilation Engagement

.02 Because a compilation engagement is not an assurance engagement, a compilation engagement does not require the accountant to verify the accuracy or completeness of the information provided by management or otherwise gather evidence to express an opinion or a conclusion on the financial statements.

Effective Date

.03 This section is effective for compilations of financial statements for periods ending on or after December 15, 2015. Early implementation is permitted.

Objective

.04 The objective of the accountant in a compilation engagement is to apply accounting and financial reporting expertise to assist management in the presentation of financial statements and report in accordance with this section without, undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with the applicable financial reporting framework.

Definitions

.05 For purposes of Statements on Standards for Accounting and Review Services (SSARSS), the following terms have the meanings attributed as follows:

^[1] [Footnote deleted by the issuance of SSARS No. 23, October 2016.]

Basic financial statements. Financial statements excluding supplementary information and required supplementary information.

Generally accepted accounting principles (GAAP). Reference to *generally accepted accounting principles* in SSARSs means generally accepted accounting principles promulgated by bodies designated by the Council of the AICPA pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance (for example, executive members of a governance board or an owner-manager).

Misstatement. A difference between the amount, classification, presentation, or disclosure of a reported financial item and the amount, classification, presentation, or disclosure that is required for the item to be presented fairly in accordance with the applicable financial reporting framework. Misstatements can arise from fraud or error.

Misstatements also include those adjustments of amounts, classifications, presentations, or disclosures that, in the accountant's professional judgment, are necessary for the financial statements to be presented fairly, in all material respects.

Required supplementary information. Information that a designated accounting standards-setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting standards-setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

Supplementary information. Information presented outside the basic financial statements, excluding required supplementary information, that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the financial statements subjected to the compilation engagement or separate from the financial statements subjected to the compilation engagement. (Ref: par. .A6–.A7)

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of the entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

[Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Requirements

General Principles for Performing and Reporting on Compilation Engagements

.06 In addition to complying with this section, an accountant is required to comply with section 60A, *General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*.

Independence

.07 The accountant must determine whether the accountant is independent of the entity. (Ref: par. .A8)

Acceptance and Continuance of Client Relationships and Compilation Engagements

.08 As a condition for accepting an engagement to perform a compilation with respect to an entity's financial statements, in addition to the requirements in paragraph .26 of section 60A, the accountant should obtain the agreement of management that it acknowledges and understands its responsibility

- a. for the preparation and fair presentation of financial statements in accordance with the applicable financial reporting framework and the inclusion of all informative disclosures that are appropriate for the applicable financial reporting framework used to prepare the entity's financial statements. If the financial statements are prepared in accordance with a special purpose framework, this includes (Ref: par. .A9)
 - i. a description of the special purpose framework, including a summary of significant accounting policies, and how the framework differs from GAAP, the effect of which need not be quantified, and informative disclosures similar to those required by GAAP, in the case of special purpose financial statements that contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, (Ref: par. .A30)
 - ii. a description of any significant interpretations of the contract on which the special purpose financial statements are prepared, in the case of financial statements prepared in accordance with a contractual basis of accounting, and
 - iii. additional disclosures beyond those specifically required by the framework that may be necessary for the special purpose framework to achieve fair presentation.
- b. to include the accountant's compilation report in any document containing financial statements that indicates that the entity's accountant has performed a compilation engagement on such financial statements unless a different understanding is reached. (Ref: par. .A10)

.09 If the accountant is not satisfied about any of the matters set out in paragraph .26 of section 60A or paragraph .08 of this section as preconditions for accepting a compilation engagement, the accountant should discuss the matter with management or those charged with governance. If changes cannot

be made to satisfy the accountant about those matters, the accountant should not accept the proposed engagement.

Agreement on Engagement Terms

.10 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be documented in an engagement letter or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A11–.A16)

- a. The objectives of the engagement
- b. The responsibilities of management set forth in paragraph .26*b* of section 60A and paragraph .08 of this section
- c. The responsibilities of the accountant
- d. The limitations of the compilation engagement
- e. Identification of the applicable financial reporting framework for the preparation of the financial statements
- f. The expected form and content of the accountant's compilation report and a statement that there may be circumstances in which the report may differ from its expected form and content

[As amended, effective October 2016, by SSARS No. 23.]

.11 The engagement letter or other suitable form of written agreement should be signed by

- a. the accountant or the accountant's firm and
- b. management or those charged with governance, as appropriate. (Ref: par. .A12)

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework

.12 The accountant should obtain an understanding of the applicable financial reporting framework and the significant accounting policies intended to be used in the preparation of the financial statements. (Ref: par. .A17)

Compilation Procedures

.13 The accountant should read the financial statements in light of the accountant's understanding of the applicable financial reporting framework and the significant accounting policies adopted by management and consider whether such financial statements appear to be appropriate in form and free from obvious material misstatements.

.14 If, in the course of the engagement, the accountant becomes aware that the records, documents, explanations, or other information, including significant judgments, provided by management are incomplete, inaccurate, or otherwise unsatisfactory, the accountant should bring that to the attention of management and request additional or corrected information. (Ref: par. .A18)

.15 If the accountant becomes aware during the course of the engagement that

- a. the financial statements do not adequately refer to or describe the applicable financial reporting framework (Ref: par. .A19);

- b. revisions to the financial statements are required for the financial statements to be in accordance with the applicable financial reporting framework; or
- c. the financial statements are otherwise misleading (Ref: par. .A20–.A21)

the accountant should propose the appropriate revisions to management.

.16 The accountant should withdraw from the engagement and inform management of the reasons for withdrawing if (Ref: par. .A22–.A23)

- a. the accountant is unable to complete the engagement because management has failed to provide records, documents, explanations, or other information, including significant judgments, as requested, or
- b. management does not make appropriate revisions that are proposed by the accountant or does not disclose such departures in the financial statements, and the accountant determines to not disclose such departures in the accountant's compilation report.

The Accountant's Compilation Report

.17 The accountant's compilation report should be in writing and (Ref: par. .A24 and .A27)

- a. include a statement that management (owners) is (are) responsible for the financial statements.
- b. identify the financial statements that have been subjected to the compilation engagement.
- c. identify the entity whose financial statements have been subjected to the compilation engagement.
- d. specify the date or period covered by the financial statements.
- e. include a statement that the accountant performed the compilation engagement in accordance with SSARSs promulgated by the Accounting and Review Services Committee of the AICPA.
- f. include a statement that the accountant did not audit or review the financial statements nor was the accountant required to perform any procedures to verify the accuracy or completeness of the information provided by management and does not express an opinion, a conclusion, nor provide any assurance on the financial statements.
- g. include the signature of the accountant or the accountant's firm.
- h. include the city and state where the accountant practices. (Ref: par. .A26)
- i. include the date of the report, which should be the date that the accountant has completed the procedures required by this section.

[Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

The Accountant's Compilation Report on Financial Statements Prepared in Accordance With a Special Purpose Framework

.18 Unless the entity elects to omit substantially all disclosures, the accountant should modify the compilation report when that accountant becomes aware that the financial statements do not include

- a. a description of the special purpose framework. (Ref: par. .A28–.A30)
- b. a summary of significant accounting policies. (Ref: par. .A31)
- c. an adequate description about how the special purpose framework differs from GAAP. The effects of these differences need not be quantified. (Ref: par. .A30)
- d. informative disclosures similar to those required by GAAP when the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. (Ref: par. .A33)

.19 In the case of financial statements prepared in accordance with the provisions of a contract, the accountant should consider whether the financial statements adequately describe any significant interpretations of the contract on which the financial statements are based and modify the compilation report if the financial statements do not adequately describe any significant interpretations of the contract on which the financial statements are based. [As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.20 In the case of an accountant's compilation report on special purpose financial statements, if management has a choice of financial reporting frameworks in the preparation of the special purpose financial statements, the explanation of management's responsibility for the financial statements should also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances. [As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.21 The accountant's compilation report on financial statements prepared in accordance with a special purpose framework should include a separate paragraph that (Ref: par. .A35–.A36)

- a. indicates that the financial statements are prepared in accordance with the applicable special purpose framework,
- b. refers to the note to the financial statements that describes the framework, if applicable, and
- c. states that the special purpose framework is a basis of accounting other than GAAP.

For special purpose financial statements prepared in accordance with a contractual basis of accounting, the separate paragraph should also state that, as a result, the financial statements may not be suitable for another purpose. [As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Reporting When the Accountant Is Not Independent

.22 When the accountant is not independent with respect to the entity, the accountant should indicate the accountant's lack of independence in a final paragraph of the accountant's compilation report. (Ref: par. .A37–.A39)

.23 If the accountant elects to disclose a description about the reasons the accountant's independence is impaired, the accountant should include all such reasons in the description.

Reporting on Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework

.24 The summary of significant assumptions is essential to the user's understanding of prospective financial information. Accordingly, the accountant should not issue a compilation report on prospective financial information that excludes disclosure of the summary of significant assumptions. Also, the accountant should not issue a compilation report on a financial projection that excludes either (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.25 In addition to the reporting elements required by paragraph .17, an accountant's compilation report on prospective financial information should include statements that

- a. the forecasted or projected results may not be achieved and
- b. the accountant assumes no responsibility to update the report for events and circumstances occurring after the date of the report.

[Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.26 The accountant should not issue an accountant's compilation report on financial statements that omit substantially all disclosures required by the applicable financial reporting framework if, in the accountant's professional judgment, such financial statements would be misleading to users of the financial statements. (Ref: par. .A21) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. As amended, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.27 When reporting on financial statements that omit substantially all disclosures required by the applicable financial reporting framework, the accountant should include a separate paragraph in the accountant's compilation report that includes the following elements: (Ref: par. .A40–.A41)

- a. A statement that management has elected to omit substantially all the disclosures (and the statement of cash flows, if applicable) required by the applicable financial reporting framework (or ordinarily included in the financial statements if the financial statements are prepared in accordance with a special purpose framework)
- b. A statement that if the omitted disclosures (and the statement of cash flows, if applicable) were included in the financial statements, they might influence the user's conclusions about the entity's financial position, results of operations, and cash flows (or the equivalent for presentations other than GAAP)
- c. A statement that, accordingly, the financial statements are not designed for those who are not informed about such matters

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.28 The omission of one or more notes, when substantially all other disclosures are presented, should be treated in a compilation report like any other departure from the applicable financial reporting framework, and the nature of the departure and its effects, if known, should be disclosed in accordance with

paragraphs .29–.33. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Reporting Known Departures From the Applicable Financial Reporting Framework

.29 When the accountant becomes aware of a departure from the applicable financial reporting framework (including inadequate disclosure) that is material to the financial statements and the financial statements are not revised, the accountant should consider whether modification of the standard report is adequate to disclose the departure. (Ref: par. .A43) [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.30 If the accountant concludes that modification of the standard report is adequate, the departure should be disclosed in a separate paragraph of the report. The effects of the departure on the financial statements should be disclosed if such effects have been determined by management or are readily known to the accountant as the result of the accountant's procedures. [Paragraph renumbered and amended, by SSARS No. 23, October 2016.]

.31 If the effects of the departure have not been determined by management or are not readily known to the accountant as a result of the accountant's procedures, the accountant is not required to determine the effects of a departure; however, in such circumstances, the accountant should state in the report that such determination has not been made by management. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.32 If the accountant believes that modification of the compilation report is not adequate to indicate the deficiencies in the financial statements as a whole, the accountant should withdraw from the engagement and provide no further services with respect to those financial statements. (Ref: par. .A23) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.33 The accountant should not modify the compilation report to include a statement that the financial statements are not in conformity with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Supplementary Information That Accompanies Financial Statements and the Accountant's Compilation Report Thereon

.34 When supplementary information accompanies financial statements and the accountant's compilation report thereon, the accountant should clearly indicate the degree of responsibility, if any, the accountant is taking with respect to such information in either

- a. a separate paragraph in the accountant's compilation report on the financial statements or
- b. a separate report on the supplementary information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.35 When the accountant has performed a compilation engagement with respect to both the financial statements and the supplementary information, the accountant should include a separate paragraph in the accountant's compilation report on the financial statements or issue a separate report on the supplementary information that states (Ref: par. .A45 and .A47)

- a. the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b. the supplementary information is the responsibility of management;
- c. the supplementary information was subject to the compilation engagement; and
- d. the accountant has not audited or reviewed the supplementary information and does not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.36 When the accountant has performed a compilation engagement with respect to the financial statements but the supplementary information was not subject to the compilation engagement, the accountant should include a separate paragraph in the accountant's compilation report on the financial statements or issue a separate report on the supplementary information that states (Ref: par. .A46–.A47)

- a. the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b. the supplementary information is the responsibility of management; and
- c. the supplementary information was not subject to the compilation engagement and the accountant does not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Required Supplementary Information

.37 With regard to the requirement in paragraph .34, with respect to required supplementary information, the accountant should include a separate paragraph in the accountant's compilation report on the financial statements. The other-matter paragraph should include language to explain the following circumstances, as applicable: (Ref: par. .A48)

- a. The required supplementary information is included, and the accountant performed a compilation engagement on the required supplementary information.
- b. The required supplementary information is included, and the accountant did not perform a compilation, review, or audit on the required supplementary information.
- c. The required supplementary information is omitted.
- d. Some required supplementary information is missing, and some is presented in accordance with the prescribed guidelines. (Ref: par. .A49)
- e. The accountant has identified departures from the prescribed guidelines.

- f. The accountant has unresolved doubts about whether the required supplementary information is presented in accordance with prescribed guidelines.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.38 If the entity has presented all or some of the required supplementary information and the accountant did not perform a compilation engagement on the required supplementary information, the separate paragraph in the accountant's compilation report referred to in paragraph .34 should include the following elements: (Ref: par. .A50)

- a. A statement that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* requires that the *[identify the required supplementary information]* be presented to supplement the basic financial statements
- b. A statement that such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. A statement that the accountant did not perform a compilation, review, or audit on the required supplementary information and does not express an opinion, a conclusion, nor provide any assurance on the information
- d. If some of the required supplementary information is omitted:
 - i. A statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
 - ii. A statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- e. If the measurement or presentation of the required supplementary information departs materially from the prescribed guidelines, a statement that material departures from prescribed guidelines exist *[describe the material departures from the applicable financial reporting framework]*
- f. If the accountant has unresolved doubts about whether the required supplementary information is measured or presented in accordance with prescribed guidelines, a statement that the accountant has doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by *[identify designated accounting standards-setter]*

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.39 If all the required supplementary information is omitted, the separate paragraph in the accountant's compilation report should include the following elements:

- a. A statement that management has omitted [*description of the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements
- b. A statement that such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards-setter*], who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Documentation in a Compilation Engagement

.40 The accountant should prepare documentation in connection with each compilation engagement in sufficient detail to provide a clear understanding of the work performed which, at a minimum, includes the following:

- a. The engagement letter or other suitable form of written documentation with management, as described in paragraphs .10–.11 (Ref. par. .A14 and .A16)
- b. A copy of the financial statements
- c. A copy of the accountant's report

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 If the accountant is engaged to perform a compilation on prospective financial information or pro forma financial information, references in this section to *financial statements* are to be taken as a reference to such other financial information. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.A2 AICPA Guide *Prospective Financial Information* (the guide) provides comprehensive guidance regarding prospective financial information. Chapter 6, "Preparation Guidelines;" chapter 7, "Reasonably Objective Basis;" chapter 8, "Presentation Guidelines;" and chapter 9, "Illustrative Prospective Financial Statements," of the guide establish the preparation and presentation guidelines for financial forecasts and financial projections. The guide also includes information about the types and uses of prospective financial information. The guide provides suitable criteria for the preparation and presentation of prospective financial information. The accountant is not prohibited from preparing prospective financial information prepared and presented in accordance with other suitable criteria. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.A3 Other historical financial information to which this section applies includes the following:

- Specified elements, accounts, or items of a financial statement, such as schedules of rentals, royalties, profit participation, or provision for income taxes
- Supplementary information
- Required supplementary information

[Paragraph renumbered and amended, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.A4 In addition to the requirements of this section, in a compilation of pro forma financial information, the accountant is also required to adhere to the requirements of section 120, *Compilation of Pro Forma Financial Information*. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

Definitions (Ref: par. .05)

[.A5] [Paragraph deleted by the issuance of SSARS No. 25, February 2020.]

.A6 Supplementary information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources outside the accounting system or outside the entity. [Paragraph added to reflect conforming changes necessary due to the issuance of SSARS No. 23]

.A7 Supplementary information may be prepared in accordance with an applicable financial reporting framework, by regulatory or contractual requirements, in accordance with management's criteria, or in accordance with other requirements. [Paragraph added to reflect conforming changes necessary due to the issuance of SSARS No. 23]

Independence (Ref: par. .07)

.A8 The interpretations of the "Independence Rule" (ET sec. 1.200.001) of the AICPA Code of Professional Conduct provide authoritative guidance with respect to independence. It is in the public interest and, therefore, required by this section, that the accountant modify the accountant's compilation report when the accountant is not independent of the entity whose financial statements are the subject of the compilation engagement. The AICPA Code of Professional Conduct also defines *independence* as consisting of two elements, independence of mind and independence in appearance. Independence enhances the accountant's ability to act with integrity and be objective. Independence implies an impartiality that recognizes an obligation to be fair not only to management but also to users of the financial statements, who may rely upon the accountant's compilation report. In the absence of an interpretation of the "Independence Rule" that addresses a particular relationship or circumstance, a member should apply the "Conceptual Framework for Independence" interpretation (ET sec. 1.210.010). [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Acceptance and Continuance of Client Relationships and Compilation Engagements (Ref: par. .08)

.A9 A compilation in accordance with SSARs is conducted on the premise that management has acknowledged and understands that it has the responsibility set out in paragraph .26b of section 60A. The preparation of financial statements, in whole or in part, is a nonattest service subject to the provisions of the "Nonattest Services" subtopic of the "Independence Rule" (ET sec. 1.295). To avoid misunderstanding, agreement is reached with management that it acknowledges and understands that it has such responsibilities as part of agreeing and documenting the terms of the compilation engagement as required by paragraphs .10–.11. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A10 Documents containing financial statements that may include an indication that such financial statements have been subjected to a compilation engagement by the entity's accountant includes documents submitted to bonding companies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Agreement on Engagement Terms (Ref: par. .10–.11 and .40)

.A11 Both management and the accountant have an interest in documenting the terms of the compilation engagement before the commencement of the engagement to help avoid misunderstandings with respect to the engagement. For example, it reduces the risk that management may inappropriately rely on or expect the accountant to protect management against certain risks or perform certain functions, including those that are management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A12 The roles of management and those charged with governance in agreeing upon the terms of the compilation engagement for the entity depend on the governance structure of the entity and relevant law or regulation. Depending on the entity's structure, the agreement may be with management, those charged with governance, or both. Nonetheless, when the agreement on the terms of engagement is only with those charged with governance, in accordance with paragraph .26b of section 60A, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A13 When a third party has contracted for a compilation of the entity's financial statements, agreeing the terms of the compilation with management of the entity is necessary in order to establish that the preconditions for a compilation are present. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A14 The understanding with management regarding the services to be performed for compilation engagements is required by paragraph .10 to be in a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common and usually the most convenient method for documenting the understanding with management regarding the services

to be performed for compilation engagements. [Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A15 Although the accountant may prepare the financial statements, in whole or in part, the financial statements are representations of management, and the fairness of their presentation in accordance with the applicable financial reporting framework is management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A16 Illustrative examples of engagement letters for a compilation engagement are presented in exhibit A, "Illustrative Engagement Letters." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework (Ref: par. .12)

.A17 The requirement that the accountant obtain an understanding of the applicable financial reporting framework intended to be used in the preparation of the financial statements, and the significant accounting policies adopted by management, does not prevent the accountant from accepting a compilation engagement for an entity in an industry in which the accountant has no previous experience. The accountant may obtain such understanding, for example, by consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and periodicals, appropriate continuing professional education, or individuals who are knowledgeable about the framework or the industry. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Compilation Procedures (Ref: par. .14–.16, .26, and .32)

.A18 The accountant is not required to make inquiries or perform other procedures to verify, corroborate, or review information supplied by the entity. However, the accountant may have performed such inquiries or procedures and the results of those inquiries or procedures, knowledge gained from prior engagements, or the financial statements themselves may cause the accountant to become aware that information provided by management is incorrect, incomplete, or otherwise unsatisfactory. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A19 The financial statements may adequately refer to or describe the applicable financial reporting framework via

- the financial statement titles or
- the notes to the financial statements.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A20 Financial statements may be misleading, for example, if the applicable financial reporting framework includes the premise that the financial statements are prepared on the going concern basis, and undisclosed uncertainties exist regarding the entity's ability to continue as a going concern. If the accountant becomes aware that uncertainties exist regarding the entity's ability to continue as a going concern, the accountant may suggest additional disclosures concerning the entity's ability to continue as a going concern in order to avoid the financial statements being misleading. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A21 Disclosure of items, such as an uncertainty, is not required in financial statements in which substantially all the disclosures required by the applicable financial reporting framework are omitted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A22 In circumstances addressed by the requirements of this section in which withdrawal from the engagement is necessary, the responsibility to inform management of the reasons for withdrawing provides an opportunity to explain the accountant's ethical obligations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A23 When making a determination about whether and how to withdraw from an engagement, the accountant may wish to consult with legal counsel. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

The Accountant's Compilation Report (Ref: par. .17)

.A24 The accountant's written report may become unattached from the financial statements. To minimize the possibility that a user of the financial statements may infer an unintended level of reliance on the financial statements, the accountant may request that management include a reference on each page of the financial statements to the accountant's written report. An example of a reference to the accountant's written report included on each page of the financial statements is "See Accountant's Report" or "See Accountant's Compilation Report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

[.A25] [Paragraph deleted by the issuance of SSARS No. 23, October 2016.]

.A26 The city and state where the accountant practices may be indicated on letterhead that contains the issuing office's city and state. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A27 Illustrative examples of accountant's compilation reports are presented in exhibit B, "Illustrative Examples of the Accountant's Compilation Reports on Financial Statements." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

The Accountant's Compilation Report on Financial Statements Prepared in Accordance With a Special Purpose Framework (Ref: par. .08, .18, and .20)

.A28 Circumstances may exist in which a regulatory or contractual basis of accounting is based on a general purpose framework established by a designated accounting standard setter, such as GAAP, or by law or regulation, but does not comply with all the requirements of that framework. An example is a contract that requires financial statements to be prepared in accordance with most, but not all, of GAAP. If the financial statements purport to be prepared in accordance with a general purpose framework and such financial statements are materially misstated due to a departure from that framework, paragraphs .29–.33 apply. [Paragraph added, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A29 When it is acceptable in the circumstances of the engagement to report, in accordance with this section, on special purpose financial statements that purport to be prepared in accordance with a regulatory or contractual basis of accounting that is based on a general purpose framework, it is inappropriate for the description of the applicable financial reporting framework in the special purpose financial statements to imply that the special purpose framework includes all the requirements of, or is the same as, the financial reporting framework on which the special purpose framework is based. In the example of the contract in paragraph .A28, the description of the applicable financial reporting framework would refer to the financial reporting provisions of the contract. The requirement in paragraph .21 is designed to avoid misunderstandings about compliance with the general purpose framework. [Paragraph added, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A30 The description of the special purpose framework may be included in the financial statement titles, in the notes to the financial statements, or otherwise on the face of the financial statements. Although terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows*, or similar unmodified titles, are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in accordance with GAAP, such titles, with appropriate modification, may be used in connection with financial statements prepared in accordance with a special purpose framework. Suitable financial statement titles for financial statements prepared in accordance with a special purpose framework include, but are not limited to

- a modified cash basis financial statement that might be titled
 - "Income Statement — Modified Cash Basis," or
 - "Statement of Cash Receipts and Disbursements."
- financial statements prepared in accordance with the tax basis of accounting that might be titled
 - "Balance Sheet — Tax Basis,"
 - "Statement of Assets, Liabilities, and Equity — Tax Basis,"
 - "Statement of Operations — Tax Basis," or
 - "Statement of Revenue and Expenses — Tax Basis."

- a financial statement prepared in accordance with a regulatory basis of accounting that might be titled "Statement of Income — Regulatory Basis."

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A31 Financial statements prepared in accordance with a special purpose framework need not include a summary of significant accounting policies or a description about how the special purpose framework differs from GAAP if such financial statements omit substantially all disclosures, and the omission of substantially all disclosures is not, to the accountant's knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A32 The description of how the special purpose framework differs from GAAP ordinarily only includes the material differences between GAAP and the special purpose framework. For example, if several items are accounted for differently in accordance with the special purpose framework than they would be in accordance with GAAP, but only the differences in how depreciation is calculated are material, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described or quantified. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A33 Financial statements prepared when applying a special purpose framework are not considered appropriate in form unless the financial statements include informative disclosures similar to those required by GAAP if the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

[.A34] [Paragraph subsequently renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.A35 Special purpose financial statements may be used for purposes other than those for which they were intended. To avoid misunderstandings, paragraph .21 requires the accountant to include a separate paragraph in the accountant's compilation report that alerts users of the accountant's compilation report that the financial statements are prepared in accordance with a special purpose framework and that the basis of accounting is a basis of accounting other than GAAP. [Paragraph added, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A36 Financial statements prepared in accordance with a special purpose framework may be the only financial statements an entity prepares. Such special purpose financial statements may be used by users other than those for whom the financial reporting framework is designed. Despite the broad

distribution of the financial statements, the financial statements are still considered to be special purpose financial statements for purposes of SSARSs. The requirement in paragraph .21 is designed to avoid misunderstandings about the framework used to prepare the financial statements. [Paragraph added, effective for compilations of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Reporting When the Accountant Is Not Independent (Ref: par. .22)

.A37 An example of a disclosure that an accountant may make to indicate the accountant's lack of independence would be

I am (We are) not independent with respect to XYZ Company.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A38 The accountant is not precluded from disclosing a description about the reason(s) that the accountant's independence is impaired. The following are examples of descriptions the accountant may use:

- I am (We are) not independent with respect to XYZ Company as of and for the year ended December 31, 20XX, because I (a member of the engagement team) had a direct financial interest in XYZ Company.
- I am (We are) not independent with respect to XYZ Company as of and for the year ended December 31, 20XX, because an individual of my immediate family (an immediate family member of one of the members of the engagement team) was employed by XYZ Company.
- I am (We are) not independent with respect to XYZ Company as of and for the year ended December 31, 20XX, because I (we) performed certain accounting services (the accountant may include a specific description of those services) that impaired my (our) independence.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A39 Illustrative examples of accountant's compilation reports when the accountant's independence has been impaired are presented in exhibit B.² [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes

² Illustration 4, "An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When the Accountant's Independence Is Impaired, and the Accountant Determines to Not Disclose the Reasons for the Independence Impairment" and illustration 5, "An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With the AICPA's Financial Reporting Framework for Small- and Medium-Sized Entities When the Accountant's Independence Has Been Impaired Due to the Accountant Having a Financial Interest in the Entity, and the Accountant Decides to Disclose the Reasons for the Independence Impairment," of exhibit B, "Illustrative Examples of the Accountant's Compilation Report on Financial Statements."

necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Reporting on Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework (Ref: par. .27)

.A40 When management elects to include disclosures about only a few matters in the notes to the financial statements, such disclosures may be labeled "Selected Information — Substantially All Disclosures Required by *[the applicable financial reporting framework]* Are Not Included." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A41 An illustrative example of an accountant's compilation report on financial statements that omit substantially all disclosures required by the applicable financial reporting framework is presented in exhibit B.³ [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Reporting Known Departures From the Applicable Financial Reporting Framework (Ref: par. .30 and .33)

.A42 The accountant is precluded from including a statement that the financial statements are not in conformity with the applicable financial reporting framework because such a statement would be tantamount to expressing an adverse opinion on the financial statements as a whole. Such an opinion can be expressed only in the context of an audit engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A43 An illustrative example of an accountant's compilation report on financial statements that contain known departures from the applicable financial reporting framework that are not disclosed in the notes to the financial statements is presented in exhibit B.⁴ [Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

³ Illustration 3, "An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With the Tax Basis of Accounting, and Management Has Elected to Omit Substantially All Disclosures Ordinarily Included in Financial Statements Prepared in Accordance With the Tax Basis of Accounting," of exhibit B.

⁴ Illustration 6, "An Accountant's Compilation Report on Comparative Financial Statements, and the Accountant is Aware of Departures From Accounting Principles Generally Accepted in the United States of America," of exhibit B.

Supplementary Information That Accompanies Financial Statements and the Accountant's Compilation Report Thereon (Ref: par. .34–.36)

[.A44] [Paragraph deleted to reflect conforming changes necessary due to the issuance of SSARS No. 23, October 2016. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.A45 The following is an example of how an accountant may word a separate paragraph in the accountant's compilation report addressing supplementary information when the accountant has performed a compilation engagement on both the financial statements and the supplementary information:

The accompanying *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. The supplementary information was subject to our compilation engagement. I (We) have not audited or reviewed the supplementary information and do not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A46 The following is an example of how an accountant may word a separate paragraph in the accountant's compilation report addressing supplementary information when the accountant has performed a compilation engagement on the financial statements but has not performed a compilation on the supplementary information:

The accompanying *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. The supplementary information was not subject to our compilation engagement. I (We) do not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A47 Supplementary information may become unattached from the accountant's compilation report. To minimize the possibility that a user of the supplementary information may infer, through the accountant's association with such information, an unintended level of reliance on it, the accountant may request that management include a reference to the accountant's compilation report on each page of the supplementary information. An example of a reference to the accountant's compilation report included on each page of the supplementary information is "See Accountant's Report" or "See Accountant's Compilation Report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Required Supplementary Information (Ref: par. .37–.38)

.A48 Examples of required supplementary information that may accompany financial statements and the accountant's compilation report thereon include the following:

- With respect to common interest realty associations, estimates of current or future costs of major repairs and replacements of common property that will be required in the future as required by FASB *Accounting Standards Codification* 972-235-50-3
- Management's discussion and analysis and budgetary comparison statements as required by GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A49 *Prescribed guidelines* are the authoritative guidelines established by the designated accounting standards-setter for the methods of measurement and presentation of the required supplementary information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A50 Because the required supplementary information accompanies the basic financial statements, the accountant's compilation report on the financial statements includes a discussion of the responsibility taken by the accountant on that information. However, if the required supplementary information is omitted by the entity, the accountant does not have a responsibility to present that information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Exhibit A — Illustrative Engagement Letters (Ref: par. .A16)

Illustration 1 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 2 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America, Except the Financial Statements Omit the Statement of Cash Flows and Substantially All Disclosures Required by U.S. GAAP and in Which the Accountant's Independence Is Impaired

Illustration 3 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

The illustrative engagement letters in this exhibit are intended as illustrations that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances, and the illustrations are drafted to refer to a compilation engagement for a single reporting period. The accountant may seek legal advice about whether a proposed letter is suitable.

Illustration 1 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements, including related notes, subject to the compilation engagement.
- The financial statements will be prepared in accordance with accounting principles generally accepted in the United States of America and will include all related notes required by accounting principles generally accepted in the United States of America
- The accountant expects that his or her independence will not be impaired

To the appropriate representative of management of ABC Company:¹

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A12.

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and perform a compilation engagement with respect to those financial statements.^{3, 4} We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you and
- b. apply accounting and financial reporting expertise to assist you in the presentation of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion or a conclusion nor provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and assist you in the presentation of the financial statements in accordance with accounting principles generally accepted in the United States of

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ If the accountant is to be engaged to prepare financial statements that omit the statement of cash flows and the related notes and perform a compilation engagement with respect to those financial statements, the sentence may be revised to read, "You have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income and changes in stockholders' equity, and perform a compilation engagement with respect to those financial statements." The following additional sentence may then be added: "These financial statements will not include a statement of cash flows and related notes to the financial statements."

⁴ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

America. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of financial statements in accordance with accounting principles generally accepted in the United States of America and the inclusion of all informative disclosures that are appropriate for accounting principles generally accepted in the United States of America
- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities
- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the compilation engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

As part of our engagement, we will issue a report that will state that we did not audit or review the financial statements and that, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them. Circumstances may arise in which it is necessary for us to modify our report or withdraw from the engagement.

You agree to include our accountant's compilation report in any document containing financial statements that indicates that we have performed a compilation engagement on such financial statements and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services

[The accountant may include language, such as the following, regarding limitation of or other arrangements regarding the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing

misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a compilation engagement with respect to those same financial statements, and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

[Date]

[Revised, February 2015, to include additional required engagement letter elements.]

Illustration 2 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America, Except the Financial Statements Omit the Statement of Cash Flows and Substantially All Disclosures Required by U.S. GAAP and in Which the Accountant's Independence Is Impaired

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements subject to the compilation engagement.
- The financial statements will be prepared in accordance with accounting principles generally accepted in the United States of America, except the statement of cash flows and substantially all disclosures required by accounting principles generally accepted in the United States of America will be omitted.
- The accountant's independence will be impaired as a result of the performance of the nonattest preparation service.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A12.

² Throughout this engagement letter, references to *you*, *we*, *us*, *management*, and *accountant* would be used or amended as appropriate in the circumstances.

statements of income and changes in stockholders' equity for the year then ended, and perform a compilation engagement with respect to those financial statements.³ These financial statements will not include a statement of cash flows and related notes to the financial statements. We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you and
- b. apply accounting and financial reporting expertise to assist you in the presentation of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARSS) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion, a conclusion, nor provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

Your Responsibilities

The compilation engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and assist you in the presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARSS:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of financial statements in accordance with accounting principles generally accepted in the United States of America
- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial

³ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping service.

statements that are free from material misstatement, whether due to fraud or error

- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities
- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the compilation engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries

Our Report

As part of our engagement, we will issue a report that will state that we did not audit or review the financial statements and that, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them. We will disclose that we are not independent in our report. Circumstances may arise in which it is necessary for us to modify our report or withdraw from the engagement.

Our report will disclose that the Company's management has elected to omit the statement of cash flows and substantially all of the disclosures required by accounting principles generally accepted in the United States of America. If the statement of cash flows and omitted disclosures were to be included in the financial statements, they might influence the user's conclusions about the Company's financial position, results of operations, and cash flows. Accordingly, the financial statements will not be designed for those who are not informed about such matters.

You agree to include our accountant's compilation report in any document containing financial statements that indicates that we have performed a compilation engagement on such financial statements and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services

[The accountant may include language, such as the following, regarding limitation of, or other arrangements regarding, the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorneys' fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a compilation engagement with respect to those same financial statements, and our respective responsibilities.

Sincerely yours,

[Revised, February 2015, to include additional required engagement letter elements.]

Illustration 3 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements subject to the compilation engagement.
- The financial statements will be prepared in accordance with the tax basis of accounting.
- The accountant expects that his or her independence will not be impaired.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the statement of assets, liabilities, and equity — tax basis as of December 31, 20XX, and the related statements of operations and related earnings — tax basis, and cash flows — tax basis for the year then ended, and the related notes to the financial statements and perform a compilation engagement with respect to those financial statements.^{3, 4} We are pleased to confirm our acceptance and our understanding of this compilation engagement by means of this letter.

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A12.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ If the accountant is to be engaged to prepare financial statements that omit the statement of cash flows — tax basis and the related notes and perform a compilation engagement with respect to those financial statements, the sentence may be revised to read, "You have requested that we prepare the financial statements of ABC Company, which comprise the statement of assets, liabilities, and equity — tax basis as of December 31, 20XX, and the related statement of operations and retained earnings — tax basis, and perform a compilation engagement with respect to those financial statements." The following additional sentence may then be added: "These financial statements will not include a statement of cash flows — tax basis and related notes to the financial statements."

⁴ The accountant may include nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with the tax basis of accounting based on information provided by you and
- b. apply accounting and financial reporting expertise to assist you in the presentation of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with the tax basis of accounting.

We will conduct our compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARSS) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion, a conclusion, nor provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with the tax basis of accounting and assist you in the presentation of the financial statements in accordance with the tax basis of accounting. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARSS:

- a. The selection of the tax basis of accounting as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of financial statements in accordance with the tax basis of accounting
- c. The inclusion of all informative disclosures that is appropriate for the tax basis of accounting. This includes
 - i. a description of the tax basis of accounting, including a summary of significant accounting policies, and how the tax basis of accounting differs from accounting principles generally accepted in the United States of America, the effects of which need not be quantified and
 - ii. informative disclosures similar to those required by accounting principles generally accepted in the United States of America.⁵
- d. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial

⁵ The responsibility described in *c* need not be included if the financial statements omit substantially all disclosures required by the financial reporting framework.

statements that are free from material misstatement, whether due to fraud or error

- e. The prevention and detection of fraud
- f. To ensure that the entity complies with the laws and regulations applicable to its activities
- g. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the compilation engagement
- h. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the compilation engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

As part of our engagement, we will issue a report that will state that we did not audit or review the financial statements and that, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them. Circumstances may arise in which it is necessary for us to modify our report or withdraw from the engagement.

Our report will disclose that the financial statements are prepared in accordance with the tax basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

You agree to include our accountant's compilation report in any document containing financial statements that indicates that we have performed a compilation engagement on such financial statements and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services

[The accountant may include language, such as the following, regarding limitation of, or other arrangements regarding, the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorneys' fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and perform a compilation

engagement with respect to those same financial statements and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

[Date of the accountant's report]

Illustration 3 — An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With the Tax Basis of Accounting, and Management Has Elected to Omit Substantially All Disclosures Ordinarily Included in Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Management is responsible for the accompanying financial statements of XYZ Partnership, which comprise the statements of assets, liabilities, and partners' capital — tax basis as of December 31, 20X2 and 20X1 and the related statements of revenue and expenses — tax basis, and changes in partners' capital — tax basis for the years then ended in accordance with the tax basis of accounting, and for determining that the tax basis of accounting is an acceptable financial reporting framework. I (We) have performed compilation engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. I (We) did not audit or review the financial statements nor was (were) I (we) required to perform any procedures to verify the accuracy or completeness of the information provided by management. I (we) do not express an opinion, a conclusion, nor provide any assurance on these financial statements.

The financial statements are prepared in accordance with the tax basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Management has elected to omit substantially all the disclosures ordinarily included in financial statements prepared in accordance with the tax basis of accounting. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the company's assets, liabilities, equity, revenue, and expenses. Accordingly, the financial statements are not designed for those who are not informed about such matters.

AR-C Section 80B

Compilation Engagements

Source: SSARS No. 21; SSARS No. 23.

Effective for compilations of financial statements for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section applies when the accountant is engaged to perform a compilation of financial statements, prospective financial information, pro forma financial information, or other historical financial information. (Ref: par. .A1–.A4).^[1] [As amended, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

The Compilation Engagement

.02 Because a compilation engagement is not an assurance engagement, a compilation engagement does not require the accountant to verify the accuracy or completeness of the information provided by management or otherwise gather evidence to express an opinion or a conclusion on the financial statements.

Effective Date

.03 This section is effective for compilations of financial statements for periods ending on or after December 15, 2015. Early implementation is permitted.

Objective

.04 The objective of the accountant in a compilation engagement is to apply accounting and financial reporting expertise to assist management in the presentation of financial statements and report in accordance with this section without, undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with the applicable financial reporting framework.

Definitions

.05 For purposes of Statements on Standards for Accounting and Review Services (SSARSs), the following terms have the meanings attributed as follows:

Applicable financial reporting framework. The financial reporting framework adopted by management and, when appropriate, those charged with governance, in the preparation and fair presentation of the financial statements that is acceptable in view of the nature of the

^[1] [Footnote deleted by the issuance of SSARS No. 23, October 2016.]

entity and the objective of the financial statements or that is required by law or regulation.

Basic financial statements. Financial statements excluding supplementary information and required supplementary information.

Generally accepted accounting principles (GAAP). Reference to *generally accepted accounting principles* in SSARs means generally accepted accounting principles promulgated by bodies designated by the Council of the AICPA pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance (for example, executive members of a governance board or an owner-manager).

Misstatement. A difference between the amount, classification, presentation, or disclosure of a reported financial item and the amount, classification, presentation, or disclosure that is required for the item to be presented fairly in accordance with the applicable financial reporting framework. Misstatements can arise from fraud or error.

Misstatements also include those adjustments of amounts, classifications, presentations, or disclosures that, in the accountant's professional judgment, are necessary for the financial statements to be presented fairly, in all material respects.

Required supplementary information. Information that a designated accounting standards-setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting standards-setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

Special purpose framework. A financial reporting framework other than GAAP that is one of the following bases of accounting:

- a. **Cash basis.** A basis of accounting that the entity uses to record cash receipts and disbursements and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets).
- b. **Tax basis.** A basis of accounting that the entity uses to file its tax return for the period covered by the financial statements.
- c. **Regulatory basis.** A basis of accounting that the entity uses to comply with the requirements or financial reporting provisions of a regulatory agency to whose jurisdiction the entity is subject (for example, a basis of accounting that insurance companies use pursuant to the accounting practices prescribed or permitted by a state insurance commission). (Ref: par. .A5)
- d. **Contractual basis.** A basis of accounting that the entity uses to comply with an agreement between the entity and one or more third parties other than the accountant.

- e. **Other basis.** A basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements.

The cash basis, tax basis, regulatory basis, and other basis of accounting are commonly referred to as *other comprehensive bases of accounting* (OCBOA).

Supplementary information. Information presented outside the basic financial statements, excluding required supplementary information, that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the financial statements subjected to the compilation engagement or separate from the financial statements subjected to the compilation engagement. (Ref: par. .A6–.A7)

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of the entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

[Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Requirements

General Principles for Performing and Reporting on Compilation Engagements

.06 In addition to complying with this section, an accountant is required to comply with section 60A, *General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*.

Independence

.07 The accountant must determine whether the accountant is independent of the entity. (Ref: par. .A8)

Acceptance and Continuance of Client Relationships and Compilation Engagements

.08 As a condition for accepting an engagement to perform a compilation with respect to an entity's financial statements, in addition to the requirements in paragraph .26 of section 60A, the accountant should obtain the agreement of management that it acknowledges and understands its responsibility

- a. for the preparation and fair presentation of financial statements in accordance with the applicable financial reporting framework and the inclusion of all informative disclosures that are appropriate for the applicable financial reporting framework used to prepare the entity's financial statements. If the financial statements are prepared in accordance with a special purpose framework, this includes (Ref: par. .A9)

- i. a description of the special purpose framework, including a summary of significant accounting policies, and how the framework differs from GAAP, the effect of which need not be quantified, and informative disclosures similar to those required by GAAP, in the case of special purpose financial statements that contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, (Ref: par. .A28)
 - ii. a description of any significant interpretations of the contract on which the special purpose financial statements are prepared, in the case of financial statements prepared in accordance with a contractual basis of accounting, and
 - iii. additional disclosures beyond those specifically required by the framework that may be necessary for the special purpose framework to achieve fair presentation.
- b. to include the accountant's compilation report in any document containing financial statements that indicates that the entity's accountant has performed a compilation engagement on such financial statements unless a different understanding is reached. (Ref: par. .A10)

.09 If the accountant is not satisfied about any of the matters set out in paragraph .26 of section 60A or paragraph .08 of this section as preconditions for accepting a compilation engagement, the accountant should discuss the matter with management or those charged with governance. If changes cannot be made to satisfy the accountant about those matters, the accountant should not accept the proposed engagement.

Agreement on Engagement Terms

.10 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be documented in an engagement letter or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A11–.A16)

- a. The objectives of the engagement
- b. The responsibilities of management set forth in paragraph .26c of section 60A and paragraph .08 of this section
- c. The responsibilities of the accountant
- d. The limitations of the compilation engagement
- e. Identification of the applicable financial reporting framework for the preparation of the financial statements
- f. The expected form and content of the accountant's compilation report and a statement that there may be circumstances in which the report may differ from its expected form and content

[As amended, effective October 2016, by SSARS No. 23.]

.11 The engagement letter or other suitable form of written agreement should be signed by

- a. the accountant or the accountant's firm and
- b. management or those charged with governance, as appropriate. (Ref: par. .A12)

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework

.12 The accountant should obtain an understanding of the applicable financial reporting framework and the significant accounting policies intended to be used in the preparation of the financial statements. (Ref: par. .A17)

Compilation Procedures

.13 The accountant should read the financial statements in light of the accountant's understanding of the applicable financial reporting framework and the significant accounting policies adopted by management and consider whether such financial statements appear to be appropriate in form and free from obvious material misstatements.

.14 If, in the course of the engagement, the accountant becomes aware that the records, documents, explanations, or other information, including significant judgments, provided by management are incomplete, inaccurate, or otherwise unsatisfactory, the accountant should bring that to the attention of management and request additional or corrected information. (Ref: par. .A18)

.15 If the accountant becomes aware during the course of the engagement that

- a. the financial statements do not adequately refer to or describe the applicable financial reporting framework (Ref: par. .A19);
- b. revisions to the financial statements are required for the financial statements to be in accordance with the applicable financial reporting framework; or
- c. the financial statements are otherwise misleading (Ref: par. .A20–.A21)

the accountant should propose the appropriate revisions to management.

.16 The accountant should withdraw from the engagement and inform management of the reasons for withdrawing if (Ref: par. .A22–.A23)

- a. the accountant is unable to complete the engagement because management has failed to provide records, documents, explanations, or other information, including significant judgments, as requested, or
- b. management does not make appropriate revisions that are proposed by the accountant or does not disclose such departures in the financial statements, and the accountant determines to not disclose such departures in the accountant's compilation report.

The Accountant's Compilation Report

.17 The accountant's compilation report should be in writing and (Ref: par. .A24 and .A27)

- a. include a statement that management (owners) is (are) responsible for the financial statements.
- b. identify the financial statements that have been subjected to the compilation engagement.
- c. identify the entity whose financial statements have been subjected to the compilation engagement.
- d. specify the date or period covered by the financial statements.

- e. include a statement that the accountant performed the compilation engagement in accordance with SSARSs promulgated by the Accounting and Review Services Committee of the AICPA.
- f. include a statement that the accountant did not audit or review the financial statements nor was the accountant required to perform any procedures to verify the accuracy or completeness of the information provided by management and does not express an opinion, a conclusion, nor provide any assurance on the financial statements.
- g. include the signature of the accountant or the accountant's firm.
- h. include the city and state where the accountant practices. (Ref: par. A26)
- i. include the date of the report, which should be the date that the accountant has completed the procedures required by this section.

[Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

The Accountant's Compilation Report on Financial Statements Prepared in Accordance With a Special Purpose Framework

.18 Unless the entity elects to omit substantially all disclosures, the accountant should modify the compilation report when that accountant becomes aware that the financial statements do not include

- a. a description of the special purpose framework. (Ref: par. A28)
- b. a summary of significant accounting policies. (Ref: par. A29)
- c. an adequate description about how the special purpose framework differs from GAAP. The effects of these differences need not be quantified. (Ref: par. A28)
- d. informative disclosures similar to those required by GAAP when the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. (Ref: par. A31)

.19 In the case of financial statements prepared in accordance with a contractual basis of accounting, the accountant should modify the compilation report if the financial statements do not adequately describe any significant interpretations of the contract on which the financial statements are based.

.20 The accountant's compilation report on financial statements prepared in accordance with a special purpose framework should

- a. make reference to management's responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances when management has a choice of financial reporting frameworks in the preparation of such financial statements.
- b. describe the purpose for which the financial statements are prepared or refer to a note in the financial statements that contains that information when the financial statements are prepared in accordance with a regulatory or contractual basis of accounting. (Ref: par. A32)

.21 The accountant's compilation report on financial statements prepared in accordance with a special purpose framework should include a separate paragraph that

- a. indicates that the financial statements are prepared in accordance with the applicable special purpose framework,
- b. refers to the note to the financial statements that describes the framework, if applicable, and
- c. states that the special purpose framework is a basis of accounting other than GAAP.

Reporting When the Accountant Is Not Independent

.22 When the accountant is not independent with respect to the entity, the accountant should indicate the accountant's lack of independence in a final paragraph of the accountant's compilation report. (Ref: par. .A33–.A35)

.23 If the accountant elects to disclose a description about the reasons the accountant's independence is impaired, the accountant should include all such reasons in the description.

Reporting on Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework

.24 The summary of significant assumptions is essential to the user's understanding of prospective financial information. Accordingly, the accountant should not issue a compilation report on prospective financial information that excludes disclosure of the summary of significant assumptions. Also, the accountant should not issue a compilation report on a financial projection that excludes either (a) an identification of the hypothetical assumptions or (b) a description of the limitations on the usefulness of the presentation. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.25 In addition to the reporting elements required by paragraph .17, an accountant's compilation report on prospective financial information should include statements that

- a. the forecasted or projected results may not be achieved and
- b. the accountant assumes no responsibility to update the report for events and circumstances occurring after the date of the report.

[Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.26 The accountant should not issue an accountant's compilation report on financial statements that omit substantially all disclosures required by the applicable financial reporting framework unless the omission of substantially all disclosures is not, to the accountant's knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such financial statements. (Ref: par. .A21) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.27 When reporting on financial statements that omit substantially all disclosures required by the applicable financial reporting framework, the accountant should include a separate paragraph in the accountant's compilation report that includes the following elements: (Ref: par. .A36–.A37)

- a. A statement that management has elected to omit substantially all the disclosures (and the statement of cash flows, if applicable)

required by the applicable financial reporting framework (or ordinarily included in the financial statements if the financial statements are prepared in accordance with a special purpose framework)

- b. A statement that if the omitted disclosures (and the statement of cash flows, if applicable) were included in the financial statements, they might influence the user's conclusions about the entity's financial position, results of operations, and cash flows (or the equivalent for presentations other than GAAP)
- c. A statement that, accordingly, the financial statements are not designed for those who are not informed about such matters

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.28 The omission of one or more notes, when substantially all other disclosures are presented, should be treated in a compilation report like any other departure from the applicable financial reporting framework, and the nature of the departure and its effects, if known, should be disclosed in accordance with paragraphs .29–.33. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Reporting Known Departures From the Applicable Financial Reporting Framework

.29 When the accountant becomes aware of a departure from the applicable financial reporting framework (including inadequate disclosure) that is material to the financial statements and the financial statements are not revised, the accountant should consider whether modification of the standard report is adequate to disclose the departure. (Ref: par. .A39) [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.30 If the accountant concludes that modification of the standard report is adequate, the departure should be disclosed in a separate paragraph of the report. The effects of the departure on the financial statements should be disclosed if such effects have been determined by management or are readily known to the accountant as the result of the accountant's procedures. [Paragraph renumbered and amended, by SSARS No. 23, October 2016.]

.31 If the effects of the departure have not been determined by management or are not readily known to the accountant as a result of the accountant's procedures, the accountant is not required to determine the effects of a departure; however, in such circumstances, the accountant should state in the report that such determination has not been made by management. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.32 If the accountant believes that modification of the compilation report is not adequate to indicate the deficiencies in the financial statements as a whole, the accountant should withdraw from the engagement and provide no further services with respect to those financial statements. (Ref: par. .A23) [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.33 The accountant should not modify the compilation report to include a statement that the financial statements are not in conformity with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Supplementary Information That Accompanies Financial Statements and the Accountant's Compilation Report Thereon

.34 When supplementary information accompanies financial statements and the accountant's compilation report thereon, the accountant should clearly indicate the degree of responsibility, if any, the accountant is taking with respect to such information in either

- a. a separate paragraph in the accountant's compilation report on the financial statements or
- b. a separate report on the supplementary information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.35 When the accountant has performed a compilation engagement with respect to both the financial statements and the supplementary information, the accountant should include a separate paragraph in the accountant's compilation report on the financial statements or issue a separate report on the supplementary information that states (Ref: par. .A41 and .A43)

- a. the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b. the supplementary information is the responsibility of management;
- c. the supplementary information was subject to the compilation engagement; and
- d. the accountant has not audited or reviewed the supplementary information and does not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.36 When the accountant has performed a compilation engagement with respect to the financial statements but the supplementary information was not subject to the compilation engagement, the accountant should include a separate paragraph in the accountant's compilation report on the financial statements or issue a separate report on the supplementary information that states (Ref: par. .A42–.A43)

- a. the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b. the supplementary information is the responsibility of management; and
- c. the supplementary information was not subject to the compilation engagement and the accountant does not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Required Supplementary Information

.37 With regard to the requirement in paragraph .34, with respect to required supplementary information, the accountant should include a separate paragraph in the accountant's compilation report on the financial statements. The other-matter paragraph should include language to explain the following circumstances, as applicable: (Ref: par. .A44)

- a. The required supplementary information is included, and the accountant performed a compilation engagement on the required supplementary information.
- b. The required supplementary information is included, and the accountant did not perform a compilation, review, or audit on the required supplementary information.
- c. The required supplementary information is omitted.
- d. Some required supplementary information is missing, and some is presented in accordance with the prescribed guidelines. (Ref: par. .A45)
- e. The accountant has identified departures from the prescribed guidelines.
- f. The accountant has unresolved doubts about whether the required supplementary information is presented in accordance with prescribed guidelines.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.38 If the entity has presented all or some of the required supplementary information and the accountant did not perform a compilation engagement on the required supplementary information, the separate paragraph in the accountant's compilation report referred to in paragraph .34 should include the following elements: (Ref: par. .A46)

- a. A statement that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* requires that the *[identify the required supplementary information]* be presented to supplement the basic financial statements
- b. A statement that such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. A statement that the accountant did not perform a compilation, review, or audit on the required supplementary information and does not express an opinion, a conclusion, nor provide any assurance on the information
- d. If some of the required supplementary information is omitted:
 - i. A statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements

- ii. A statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- e. If the measurement or presentation of the required supplementary information departs materially from the prescribed guidelines, a statement that material departures from prescribed guidelines exist *[describe the material departures from the applicable financial reporting framework]*
- f. If the accountant has unresolved doubts about whether the required supplementary information is measured or presented in accordance with prescribed guidelines, a statement that the accountant has doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by *[identify designated accounting standards-setter]*

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.39 If all the required supplementary information is omitted, the separate paragraph in the accountant's compilation report should include the following elements:

- a. A statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
- b. A statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Documentation in a Compilation Engagement

.40 The accountant should prepare documentation in connection with each compilation engagement in sufficient detail to provide a clear understanding of the work performed which, at a minimum, includes the following:

- a. The engagement letter or other suitable form of written documentation with management, as described in paragraphs .10–.11 (Ref: par. .A14 and .A16)
- b. A copy of the financial statements
- c. A copy of the accountant's report

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 If the accountant is engaged to perform a compilation on prospective financial information or pro forma financial information, references in this section to *financial statements* are to be taken as a reference to such other financial information. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.A2 AICPA Guide *Prospective Financial Information* (the guide) provides comprehensive guidance regarding prospective financial information. Chapter 6, "Preparation Guidelines;" chapter 7, "Reasonably Objective Basis;" chapter 8, "Presentation Guidelines;" and chapter 9, "Illustrative Prospective Financial Statements," of the guide establish the preparation and presentation guidelines for financial forecasts and financial projections. The guide also includes information about the types and uses of prospective financial information. The guide provides suitable criteria for the preparation and presentation of prospective financial information. The accountant is not prohibited from preparing prospective financial information prepared and presented in accordance with other suitable criteria. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.A3 Other historical financial information to which this section applies includes the following:

- Specified elements, accounts, or items of a financial statement, such as schedules of rentals, royalties, profit participation, or provision for income taxes
- Supplementary information
- Required supplementary information

[Paragraph renumbered and amended, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

.A4 In addition to the requirements of this section, in a compilation of pro forma financial information, the accountant is also required to adhere to the requirements of section 120, *Compilation of Pro Forma Financial Information*. [Paragraph added, effective for compilation reports on prospective financial information dated on or after May 1, 2017, by SSARS No. 23.]

Definitions (Ref: par. .05)

.A5 Certain regulators, including state and local government legislators, regulatory agencies, or departments, require financial statements to be prepared in accordance with a financial reporting framework that is based on GAAP but does not comply with all the requirements of GAAP. Such frameworks are regulatory bases of accounting, as defined in paragraph .05. In some circumstances, however, the cash or tax basis of accounting may be permitted by a regulator. For purposes of this section, the cash and tax bases of accounting are not regulatory bases of accounting. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A6 Supplementary information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources

outside the accounting system or outside the entity. [Paragraph added to reflect conforming changes necessary due to the issuance of SSARS No. 23]

.A7 Supplementary information may be prepared in accordance with an applicable financial reporting framework, by regulatory or contractual requirements, in accordance with management's criteria, or in accordance with other requirements. [Paragraph added to reflect conforming changes necessary due to the issuance of SSARS No. 23]

Independence (Ref: par. .07)

.A8 The interpretations of the "Independence Rule" (ET sec. 1.200.001) of the AICPA Code of Professional Conduct provide authoritative guidance with respect to independence. It is in the public interest and, therefore, required by this section, that the accountant modify the accountant's compilation report when the accountant is not independent of the entity whose financial statements are the subject of the compilation engagement. The AICPA Code of Professional Conduct also defines *independence* as consisting of two elements, independence of mind and independence in appearance. Independence enhances the accountant's ability to act with integrity and be objective. Independence implies an impartiality that recognizes an obligation to be fair not only to management but also to users of the financial statements, who may rely upon the accountant's compilation report. In the absence of an interpretation of the "Independence Rule" that addresses a particular relationship or circumstance, a member should apply the "Conceptual Framework for Independence" interpretation (ET sec. 1.210.010). [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Acceptance and Continuance of Client Relationships and Compilation Engagements (Ref: par. .08)

.A9 A compilation in accordance with SSARSs is conducted on the premise that management has acknowledged and understands that it has the responsibility set out in paragraph .26c of section 60. The preparation of financial statements, in whole or in part, is a nonattest service subject to the provisions of the "Nonattest Services" subtopic of the "Independence Rule" (ET sec. 1.295). To avoid misunderstanding, agreement is reached with management that it acknowledges and understands that it has such responsibilities as part of agreeing and documenting the terms of the compilation engagement as required by paragraphs .10–.11. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A10 Documents containing financial statements that may include an indication that such financial statements have been subjected to a compilation engagement by the entity's accountant includes documents submitted to bonding companies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Agreement on Engagement Terms (Ref: par. .10–.11 and .40)

.A11 Both management and the accountant have an interest in documenting the terms of the compilation engagement before the commencement of the engagement to help avoid misunderstandings with respect to the engagement.

For example, it reduces the risk that management may inappropriately rely on or expect the accountant to protect management against certain risks or perform certain functions, including those that are management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A12 The roles of management and those charged with governance in agreeing upon the terms of the compilation engagement for the entity depend on the governance structure of the entity and relevant law or regulation. Depending on the entity's structure, the agreement may be with management, those charged with governance, or both. Nonetheless, when the agreement on the terms of engagement is only with those charged with governance, in accordance with paragraph .26c of section 60A, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A13 When a third party has contracted for a compilation of the entity's financial statements, agreeing the terms of the compilation with management of the entity is necessary in order to establish that the preconditions for a compilation are present. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A14 The understanding with management regarding the services to be performed for compilation engagements is required by paragraph .10 to be in a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common and usually the most convenient method for documenting the understanding with management regarding the services to be performed for compilation engagements. [Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph renumbered and amended, effective October 2016, by SSARS No. 23.]

.A15 Although the accountant may prepare the financial statements, in whole or in part, the financial statements are representations of management, and the fairness of their presentation in accordance with the applicable financial reporting framework is management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A16 Illustrative examples of engagement letters for a compilation engagement are presented in exhibit A, "Illustrative Engagement Letters." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework (Ref: par. .12)

.A17 The requirement that the accountant obtain an understanding of the applicable financial reporting framework intended to be used in the preparation of the financial statements, and the significant accounting policies adopted by management, does not prevent the accountant from accepting a compilation engagement for an entity in an industry in which the accountant has no

previous experience. The accountant may obtain such understanding, for example, by consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and periodicals, appropriate continuing professional education, or individuals who are knowledgeable about the framework or the industry. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Compilation Procedures (Ref: par. .14–.16, .26, and .32)

.A18 The accountant is not required to make inquiries or perform other procedures to verify, corroborate, or review information supplied by the entity. However, the accountant may have performed such inquiries or procedures and the results of those inquiries or procedures, knowledge gained from prior engagements, or the financial statements themselves may cause the accountant to become aware that information provided by management is incorrect, incomplete, or otherwise unsatisfactory. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A19 The financial statements may adequately refer to or describe the applicable financial reporting framework via

- the financial statement titles or
- the notes to the financial statements.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A20 Financial statements may be misleading, for example, if the applicable financial reporting framework includes the premise that the financial statements are prepared on the going concern basis, and undisclosed uncertainties exist regarding the entity's ability to continue as a going concern. If the accountant becomes aware that uncertainties exist regarding the entity's ability to continue as a going concern, the accountant may suggest additional disclosures concerning the entity's ability to continue as a going concern in order to avoid the financial statements being misleading. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A21 Disclosure of items, such as an uncertainty, is not required in financial statements in which substantially all the disclosures required by the applicable financial reporting framework are omitted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A22 In circumstances addressed by the requirements of this section in which withdrawal from the engagement is necessary, the responsibility to inform management of the reasons for withdrawing provides an opportunity to explain the accountant's ethical obligations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A23 When making a determination about whether and how to withdraw from an engagement, the accountant may wish to consult with legal counsel. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

The Accountant's Compilation Report (Ref: par. .17)

.A24 The accountant's written report may become unattached from the financial statements. To minimize the possibility that a user of the financial statements may infer an unintended level of reliance on the financial statements, the accountant may request that management include a reference on each page of the financial statements to the accountant's written report. An example of a reference to the accountant's written report included on each page of the financial statements is "See Accountant's Report" or "See Accountant's Compilation Report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

[**.A25**] [Paragraph deleted by the issuance of SSARS No. 23, October 2016.]

.A26 The city and state where the accountant practices may be indicated on letterhead that contains the issuing office's city and state. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A27 Illustrative examples of accountant's compilation reports are presented in exhibit B, "Illustrative Examples of the Accountant's Compilation Reports on Financial Statements." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

The Accountant's Compilation Report on Financial Statements Prepared in Accordance With a Special Purpose Framework (Ref: par. .08, .18, and .20)

.A28 The description of the special purpose framework may be included in the financial statement titles, in the notes to the financial statements, or otherwise on the face of the financial statements. Although terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows*, or similar unmodified titles, are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in accordance with GAAP, such titles, with appropriate modification, may be used in connection with financial statements prepared in accordance with a special purpose framework. Suitable financial statement titles for financial statements prepared in accordance with a special purpose framework include, but are not limited to

- a modified cash basis financial statement that might be titled
 - "Income Statement—Modified Cash Basis," or
 - "Statement of Cash Receipts and Disbursements."
- financial statements prepared in accordance with the tax basis of accounting that might be titled
 - "Balance Sheet—Tax Basis,"
 - "Statement of Assets, Liabilities, and Equity—Tax Basis,"

- "Statement of Operations—Tax Basis," or
- "Statement of Revenue and Expenses—Tax Basis."
- a financial statement prepared in accordance with a regulatory basis of accounting that might be titled "Statement of Income—Regulatory Basis."

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A29 Financial statements prepared in accordance with a special purpose framework need not include a summary of significant accounting policies or a description about how the special purpose framework differs from GAAP if such financial statements omit substantially all disclosures, and the omission of substantially all disclosures is not, to the accountant's knowledge, undertaken with the intention of misleading those who might reasonably be expected to use such financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A30 The description of how the special purpose framework differs from GAAP ordinarily only includes the material differences between GAAP and the special purpose framework. For example, if several items are accounted for differently in accordance with the special purpose framework than they would be in accordance with GAAP, but only the differences in how depreciation is calculated are material, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described or quantified. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A31 Financial statements prepared when applying a special purpose framework are not considered appropriate in form unless the financial statements include informative disclosures similar to those required by GAAP if the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A32 When the financial statements are prepared in accordance with a regulatory or contractual basis of accounting, the accountant is required by paragraph .20*b* to describe the purpose for which the financial statements are prepared or refer to a note in the financial statements that contains that information. This is necessary to avoid misunderstandings when the financial statements are used for purposes other than those for which they were intended. The note to the financial statements may also describe any significant interpretations of the contract on which the financial statements are based. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Reporting When the Accountant Is Not Independent (Ref: par. .22)

.A33 An example of a disclosure that an accountant may make to indicate the accountant's lack of independence would be

I am (We are) not independent with respect to XYZ Company.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A34 The accountant is not precluded from disclosing a description about the reason(s) that the accountant's independence is impaired. The following are examples of descriptions the accountant may use:

- I am (We are) not independent with respect to XYZ Company as of and for the year ended December 31, 20XX, because I (a member of the engagement team) had a direct financial interest in XYZ Company.
- I am (We are) not independent with respect to XYZ Company as of and for the year ended December 31, 20XX, because an individual of my immediate family (an immediate family member of one of the members of the engagement team) was employed by XYZ Company.
- I am (We are) not independent with respect to XYZ Company as of and for the year ended December 31, 20XX, because I (we) performed certain accounting services (the accountant may include a specific description of those services) that impaired my (our) independence.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A35 Illustrative examples of accountant's compilation reports when the accountant's independence has been impaired are presented in exhibit B.² [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Reporting on Financial Statements That Omit Substantially All the Disclosures Required by the Applicable Financial Reporting Framework (Ref: par. .27)

.A36 When management elects to include disclosures about only a few matters in the notes to the financial statements, such disclosures may be labeled "Selected Information—Substantially All Disclosures Required by *[the applicable financial reporting framework]* Are Not Included." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A37 An illustrative example of an accountant's compilation report on financial statements that omit substantially all disclosures required by the

² Illustration 4, "An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When the Accountant's Independence Is Impaired, and the Accountant Determines to Not Disclose the Reasons for the Independence Impairment" and illustration 5, "An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With the AICPA's Financial Reporting Framework for Small- and Medium-Sized Entities When the Accountant's Independence Has Been Impaired Due to the Accountant Having a Financial Interest in the Entity, and the Accountant Decides to Disclose the Reasons for the Independence Impairment," of exhibit B, "Illustrative Examples of the Accountant's Compilation Report on Financial Statements."

applicable financial reporting framework is presented in exhibit B.³ [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Reporting Known Departures From the Applicable Financial Reporting Framework (Ref: par. .30 and .33)

.A38 The accountant is precluded from including a statement that the financial statements are not in conformity with the applicable financial reporting framework because such a statement would be tantamount to expressing an adverse opinion on the financial statements as a whole. Such an opinion can be expressed only in the context of an audit engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A39 An illustrative example of an accountant's compilation report on financial statements that contain known departures from the applicable financial reporting framework that are not disclosed in the notes to the financial statements is presented in exhibit B.⁴ [Paragraph subsequently renumbered, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Supplementary Information That Accompanies Financial Statements and the Accountant's Compilation Report Thereon (Ref: par. .34–.36)

[.A40] [Paragraph deleted to reflect conforming changes necessary due to the issuance of SSARS No. 23, October 2016.]

.A41 The following is an example of how an accountant may word a separate paragraph in the accountant's compilation report addressing supplementary information when the accountant has performed a compilation engagement on both the financial statements and the supplementary information:

The accompanying [*identify the supplementary information*] is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. The supplementary information was subject to our compilation engagement. I (We) have not audited or reviewed the supplementary information and do not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

³ Illustration 3, "An Accountant's Compilation Report on Comparative Financial Statements Prepared in Accordance With the Tax Basis of Accounting, and Management Has Elected to Omit Substantially All Disclosures Ordinarily Included in Financial Statements Prepared in Accordance With the Tax Basis of Accounting," of exhibit B.

⁴ Illustration 6, "An Accountant's Compilation Report on Comparative Financial Statements, and the Accountant is Aware of Departures From Accounting Principles Generally Accepted in the United States of America," of exhibit B.

.A42 The following is an example of how an accountant may word a separate paragraph in the accountant's compilation report addressing supplementary information when the accountant has performed a compilation engagement on the financial statements but has not performed a compilation on the supplementary information:

The accompanying [*identify the supplementary information*] is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. The supplementary information was not subject to our compilation engagement. I (We) do not express an opinion, a conclusion, nor provide any assurance on such information.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A43 Supplementary information may become unattached from the accountant's compilation report. To minimize the possibility that a user of the supplementary information may infer, through the accountant's association with such information, an unintended level of reliance on it, the accountant may request that management include a reference to the accountant's compilation report on each page of the supplementary information. An example of a reference to the accountant's compilation report included on each page of the supplementary information is "See Accountant's Report" or "See Accountant's Compilation Report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

Required Supplementary Information (Ref: par. .37–.38)

.A44 Examples of required supplementary information that may accompany financial statements and the accountant's compilation report thereon include the following:

- With respect to common interest realty associations, estimates of current or future costs of major repairs and replacements of common property that will be required in the future as required by *FASB Accounting Standards Codification* 972-235-50-3
- Management's discussion and analysis and budgetary comparison statements as required by GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A45 *Prescribed guidelines* are the authoritative guidelines established by the designated accounting standards-setter for the methods of measurement and presentation of the required supplementary information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A46 Because the required supplementary information accompanies the basic financial statements, the accountant's compilation report on the financial statements includes a discussion of the responsibility taken by the accountant

on that information. However, if the required supplementary information is omitted by the entity, the accountant does not have a responsibility to present that information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and revised, October 2016, to reflect conforming changes necessary due to the issuance of SSARS No. 23.]

.A47

Exhibit A — Illustrative Engagement Letters (Ref: par. .A16)

Illustration 1 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 2 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America, Except the Financial Statements Omit the Statement of Cash Flows and Substantially All Disclosures Required by U.S. GAAP and in Which the Accountant's Independence Is Impaired

Illustration 3 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

The illustrative engagement letters in this exhibit are intended as illustrations that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances, and the illustrations are drafted to refer to a compilation engagement for a single reporting period. The accountant may seek legal advice about whether a proposed letter is suitable.

Illustration 1 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements, including related notes, subject to the compilation engagement.
- The financial statements will be prepared in accordance with accounting principles generally accepted in the United States of America and will include all related notes required by accounting principles generally accepted in the United States of America
- The accountant expects that his or her independence will not be impaired

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A12.

² Throughout this engagement letter, references to *you*, *we*, *us*, *management*, and *accountant* would be used or amended as appropriate in the circumstances.

statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and perform a compilation engagement with respect to those financial statements.^{3, 4} We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you and
- b. apply accounting and financial reporting expertise to assist you in the presentation of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion or a conclusion nor provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and assist you in the presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements

³ If the accountant is to be engaged to prepare financial statements that omit the statement of cash flows and the related notes and perform a compilation engagement with respect to those financial statements, the sentence may be revised to read, "You have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income and changes in stockholders' equity, and perform a compilation engagement with respect to those financial statements." The following additional sentence may then be added: "These financial statements will not include a statement of cash flows and related notes to the financial statements."

⁴ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

- b. The preparation and fair presentation of financial statements in accordance with accounting principles generally accepted in the United States of America and the inclusion of all informative disclosures that are appropriate for accounting principles generally accepted in the United States of America
- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities
- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the compilation engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

As part of our engagement, we will issue a report that will state that we did not audit or review the financial statements and that, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them. Circumstances may arise in which it is necessary for us to modify our report or withdraw from the engagement.

You agree to include our accountant's compilation report in any document containing financial statements that indicates that we have performed a compilation engagement on such financial statements and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services

[The accountant may include language, such as the following, regarding limitation of or other arrangements regarding the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by

third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a compilation engagement with respect to those same financial statements, and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Illustration 2 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America, Except the Financial Statements Omit the Statement of Cash Flows and Substantially All Disclosures Required by U.S. GAAP and in Which the Accountant's Independence Is Impaired

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements subject to the compilation engagement.
- The financial statements will be prepared in accordance with accounting principles generally accepted in the United States of America, except the statement of cash flows and substantially all disclosures required by accounting principles generally accepted in the United States of America will be omitted.
- The accountant's independence will be impaired as a result of the performance of the nonattest preparation service.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income and changes in stockholders' equity for the year then ended, and perform a compilation engagement with respect to those financial statements.³ These financial statements will not include a statement of cash

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A12.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping service.

flows and related notes to the financial statements. We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you and
- b. apply accounting and financial reporting expertise to assist you in the presentation of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARSS) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion, a conclusion, nor provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

Your Responsibilities

The compilation engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and assist you in the presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARSS:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of financial statements in accordance with accounting principles generally accepted in the United States of America
- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities

- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the compilation engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries

Our Report

As part of our engagement, we will issue a report that will state that we did not audit or review the financial statements and that, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them. We will disclose that we are not independent in our report. Circumstances may arise in which it is necessary for us to modify our report or withdraw from the engagement.

Our report will disclose that the Company's management has elected to omit the statement of cash flows and substantially all of the disclosures required by accounting principles generally accepted in the United States of America. If the statement of cash flows and omitted disclosures were to be included in the financial statements, they might influence the user's conclusions about the Company's financial position, results of operations, and cash flows. Accordingly, the financial statements will not be designed for those who are not informed about such matters.

You agree to include our accountant's compilation report in any document containing financial statements that indicates that we have performed a compilation engagement on such financial statements and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services

Illustration 3 — An Engagement Letter for a Compilation Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements subject to the compilation engagement.
- The financial statements will be prepared in accordance with the tax basis of accounting.
- The accountant expects that his or her independence will not be impaired.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the statement of assets, liabilities, and equity—tax basis as of December 31, 20XX, and the related statements of operations and related earnings—tax basis, and cash flows—tax basis for the year then ended, and the related notes to the financial statements and perform a compilation engagement with respect to those financial statements.^{3, 4} We are pleased to confirm our acceptance and our understanding of this compilation engagement by means of this letter.

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A12.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ If the accountant is to be engaged to prepare financial statements that omit the statement of cash flows—tax basis and the related notes and perform a compilation engagement with respect to those financial statements, the sentence may be revised to read, "You have requested that we prepare the financial statements of ABC Company, which comprise the statement of assets, liabilities, and equity—tax basis as of December 31, 20XX, and the related statement of operations and retained earnings—tax basis, and perform a compilation engagement with respect to those financial statements." The following additional sentence may then be added: "These financial statements will not include a statement of cash flows—tax basis and related notes to the financial statements."

⁴ The accountant may include nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

Our Responsibilities

The objective of our engagement is to

- a.* prepare financial statements in accordance with the tax basis of accounting based on information provided by you and
- b.* apply accounting and financial reporting expertise to assist you in the presentation of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements in order for them to be in accordance with the tax basis of accounting.

We will conduct our compilation engagement in accordance with Statements on Standards for Accounting and Review Services (SSARSs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion, a conclusion, nor provide any assurance on the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with the tax basis of accounting and assist you in the presentation of the financial statements in accordance with the tax basis of accounting. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARSs:

- a.* The selection of the tax basis of accounting as the financial reporting framework to be applied in the preparation of the financial statements
- b.* The preparation and fair presentation of financial statements in accordance with the tax basis of accounting
- c.* The inclusion of all informative disclosures that is appropriate for the tax basis of accounting. This includes
 - i.* a description of the tax basis of accounting, including a summary of significant accounting policies, and how the tax basis of accounting differs from accounting principles generally accepted in the United States of America, the effects of which need not be quantified and
 - ii.* informative disclosures similar to those required by accounting principles generally accepted in the United States of America.⁵

⁵ The responsibility described in *c* need not be included if the financial statements omit substantially all disclosures required by the financial reporting framework.

- d. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- e. The prevention and detection of fraud
- f. To ensure that the entity complies with the laws and regulations applicable to its activities
- g. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the compilation engagement
- h. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the compilation engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

As part of our engagement, we will issue a report that will state that we did not audit or review the financial statements and that, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on them. Circumstances may arise in which it is necessary for us to modify our report or withdraw from the engagement.

Our report will disclose that the financial statements are prepared in accordance with the tax basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

You agree to include our accountant's compilation report in any document containing financial statements that indicates that we have performed a compilation engagement on such financial statements and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services

[The accountant may include language, such as the following, regarding limitation of, or other arrangements regarding, the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorneys' fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and perform a compilation engagement with respect to those same financial statements and our respective responsibilities.

Sincerely yours,

AR-C Section 90

Review of Financial Statements

Source: SSARS No. 21; SSARS No. 23; SSARS No. 24; SSARS No. 25; SSARS No. 26.

Effective for reviews of financial statements for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope and Applicability of This Section

.01 This section applies when the accountant is engaged to perform a review of financial statements. This section also applies when the accountant is engaged to review other historical financial information, excluding pro forma financial information. Reviews of pro forma financial information are to be performed in accordance with Statements on Standards for Attestation Engagements. (Ref: par. .A1–.A3) [As amended, effective October 2016, by SSARS No. 23.]

.02 This section does not apply when the accountant is engaged to review interim financial information when

- a. the entity's latest annual financial statements have been audited by the accountant or a predecessor;
- b. the accountant either
 - i. has been engaged to audit the entity's current year financial statements or
 - ii. audited the entity's latest annual financial statements and, in situations in which it is expected that the current year financial statements will be audited, the engagement of another accountant to audit the current year financial statements is not effective prior to the beginning of the period covered by the review; and
- c. the entity prepares its interim financial information in accordance with the same financial reporting framework as that used to prepare the annual financial statements.

AU-C section 930, *Interim Financial Information*, provides guidance for review engagements when the conditions in a–c are met.

The Engagement to Review Financial Statements

.03 In a review of financial statements, the accountant expresses a conclusion regarding the entity's financial statements in accordance with an applicable financial reporting framework. The accountant's conclusion is based on the accountant obtaining limited assurance. The accountant's report includes a description of the nature of a review engagement as context for the readers of the report to be able to understand the conclusion. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.04 The accountant performs primarily analytical procedures and inquiries to obtain sufficient appropriate review evidence as the basis for a conclusion on the financial statements as a whole, expressed in accordance with the requirements of this section. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.05 If the accountant becomes aware of a matter that causes the accountant to believe the financial statements may be materially misstated, the accountant designs and performs additional procedures, as the accountant considers necessary in the circumstances, to be able to conclude on the financial statements in accordance with this section. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Effective Date

.06 This section is effective for reviews of financial statements for periods ending on or after December 15, 2015. Early implementation is permitted. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Objectives

.07 In conducting a review of financial statements, the objectives of the accountant are to

- a. obtain limited assurance, primarily by performing analytical procedures and inquiries, as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework and (Ref: par. .A4)
- b. report on the financial statements as a whole and communicate, as required by this section.

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Definitions

.08 For purposes of Statements on Standards for Accounting and Review Services (SSARSs), the following terms have the meanings attributed as follows:

Analytical procedures. Evaluations of financial information through analysis of plausible relationships among both financial and nonfinancial data. Analytical procedures also encompass such investigation, as is necessary, of identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount.

Comparative financial statements. A complete set of financial statements for one or more prior periods included for comparison with the financial statements of the current period.

Emphasis-of-matter paragraph. A paragraph included in the accountant's review report that is required by SSARSs, or is included at the accountant's discretion, and that refers to a matter appropriately

presented or disclosed in the financial statements that, in the accountant's professional judgment, is of such importance that it is fundamental to the users' understanding of the financial statements.

Error. Mistakes in the financial statements, including arithmetical or clerical mistakes, and mistakes in the application of accounting principles, including inadequate disclosures.

Experienced accountant. An individual (whether internal or external to the firm) who has practical review experience and a reasonable understanding of

- a. review processes;
- b. SSARs and applicable legal and regulatory requirements;
- c. the business environment in which the entity operates; and
- d. review and financial reporting issues relevant to the entity's industry.

Fraud. An intentional act that results in a misstatement in financial statements.

Generally accepted accounting principles (GAAP). References to GAAP in SSARs means generally accepted accounting principles promulgated by bodies designated by the Council of the AICPA pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Historical financial information. Information expressed in financial terms regarding a particular entity, derived primarily from that entity's accounting system, about economic events occurring in past time periods or about economic conditions or circumstances at points in time in the past.

Inquiry. Inquiry consists of seeking information of knowledgeable persons within or outside the entity.

Limited assurance. A level of assurance that is less than the reasonable assurance obtained in an audit engagement but is at an acceptable level as the basis for the conclusion expressed in the accountant's review report. (Ref: par. .A10)

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance, for example, executive members of a governance board or an owner-manager.

Misstatement. A difference between the amount, classification, presentation, or disclosure of a reported financial statement item and the amount, classification, presentation, or disclosure that is required for the item to be presented fairly in accordance with the applicable financial reporting framework. Misstatements can arise from fraud or error.

Misstatements also include those adjustments of amounts, classifications, presentations, or disclosures that, in the accountant's professional judgment, are necessary for the financial statements to be presented fairly, in all material respects.

Modified conclusion. A qualified conclusion or an adverse conclusion.

Noncompliance. Acts of omission or commission by the entity, either intentional or unintentional, which are contrary to the prevailing laws or regulations. Such acts include transactions entered into, by, or in the name of, the entity or on its behalf by those charged with governance, management, or employees. *Noncompliance* does not include personal misconduct (unrelated to the business activities of the entity) by those charged with governance, management, or employees of the entity.

Other-matter paragraph. A paragraph included in the accountant's review report that is required by SSARs, or is included at the accountant's discretion, and that refers to a matter other than those presented or disclosed in the financial statements that, in the accountant's professional judgment, is relevant to users' understanding of the review, the accountant's responsibilities, or the accountant's review report.

Pervasive. A term used, in the context of misstatements, to describe the effects on the financial statements of misstatements. Pervasive effects on the financial statements are those that, in the accountant's judgment

- are not confined to specific elements, accounts, or items of the financial statements;
- if so confined, represent or could represent a substantial portion of the financial statements; or
- with regard to disclosures, are fundamental to users' understanding of the financial statements.

Professional skepticism. An attitude that includes a questioning mind, being alert to conditions that may indicate possible misstatement due to fraud or error, and a critical assessment of review evidence.

Reasonable period of time. The period of time required by the applicable financial reporting framework or, if no such requirement exists, within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable). (Ref: par. .A11)

Report release date. The date the accountant grants the entity permission to use the accountant's review report in connection with the financial statements.

Required supplementary information. Information that a designated accounting standards-setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting standards-setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

Review documentation. The record of review procedures performed, relevant review evidence obtained, and conclusions the accountant reached (terms such as *working papers* or *workpapers* are also sometimes used).

Review evidence. Information used by the accountant to provide a reasonable basis for obtaining limited assurance. Review evidence includes both information contained in the accounting records underlying the financial statements and other information, which primarily consists of the results of analytical procedures and inquiries. Sufficiency of review evidence is the measure of the quantity of review evidence. Appropriateness of review evidence is the measure of the quality of review evidence, that is, its relevance and reliability in providing support for the conclusions on which the accountant's review report is based.

Specified parties. The intended users of the accountant's review report.

Subsequent events. Events occurring between the date of the financial statements and the date of the accountant's review report.

Subsequently discovered facts. Facts that become known to the accountant after the date of the accountant's review report that, had they been known to the accountant at that date, may have caused the accountant to revise the accountant's review report.

Supplementary information. Information presented outside the basic financial statements, excluding required supplementary information, that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the reviewed financial statements or separate from the reviewed financial statements. (Ref: par. .A13–.A14)

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of the entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

Updated report. A report issued by a continuing accountant that takes into consideration information that the accountant becomes aware of during the accountant's current engagement and that re-expresses the accountant's previous conclusions or, depending on the circumstances, expresses different conclusions on the financial statements of a prior period reviewed by the accountant as of the date of the accountant's current report.

Written representation. A written statement by management provided to the accountant to confirm certain matters or to support other review evidence. Written representations in this context do not include financial statements, the assertions therein, or supporting books and records.

[As amended, effective October 2016, by SSARS No. 23. As amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Requirements

General Principles for Performing and Reporting on Review Engagements

.09 In addition to complying with this section, an accountant is required to comply with section 60, *General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Independence

.10 The accountant must be independent of the entity when performing a review of financial statements in accordance with SSARSs. If, during the performance of the review engagement, the accountant determines that the accountant's independence is impaired, the accountant should withdraw from the review engagement. (Ref: par. .A15–.A16) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Professional Skepticism

.11 The accountant should plan and perform the review with professional skepticism, recognizing that circumstances may exist that cause the financial statements to be materially misstated. (Ref: par. .A17–.A21) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Acceptance and Continuance of Client Relationships and Review Engagements

.12 The accountant should not accept a review engagement if, in addition to the requirements in paragraph .31 of section 60, management or those charged with governance impose a limitation on the scope of the accountant's work in terms of a proposed review engagement such that the accountant believes the limitation will result in the accountant being unable to perform review procedures to provide an adequate basis for issuing a review report. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.13 As a condition for accepting an engagement to review an entity's financial statements, in addition to the requirements in paragraph .31 of section 60, the accountant should obtain the agreement of management that it acknowledges and understands its responsibility

- a. for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework and the inclusion of all informative disclosures that are appropriate for the applicable financial reporting framework used to prepare the entity's financial statements. If the financial statements are prepared in accordance with a special purpose framework, this includes (Ref: par. .A22)
 - i. a description of the special purpose framework, including a summary of significant accounting policies, and how the framework differs from GAAP, the effect of which need not be quantified, and informative disclosures similar to those required by GAAP in the case of special purpose

financial statements that contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP; (Ref: par. .A128)

- ii. a description of any significant interpretations of the contract on which the special purpose financial statements are based in the case of financial statements prepared in accordance with a contractual basis of accounting; and
 - iii. additional disclosures beyond those specifically required by the framework that may be necessary for the special purpose framework to achieve fair presentation.
- b. to provide the accountant, at the conclusion of the engagement, with a letter that confirms certain representations made during the review.
 - c. to include the accountant's review report in any document containing financial statements that indicates that such financial statements have been reviewed by the entity's accountant unless a different understanding is reached. (Ref: par. .A23)

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.14 If the accountant is not satisfied about any of the matters set out in paragraph .31 of section 60 or paragraph .13 of this section as preconditions for accepting a review engagement, the accountant should discuss the matter with management or those charged with governance. If changes cannot be made to satisfy the accountant about those matters, the accountant should not accept the proposed engagement. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.15 If it is discovered after the engagement has been accepted that the accountant is not satisfied regarding any of the preconditions in paragraph .31 of section 60 or paragraph .13 of this section, the accountant should discuss the matter with management or those charged with governance and should determine the following:

- a. Whether the matter can be resolved
- b. Whether it is appropriate to continue with the engagement
- c. Whether and how to communicate the matter in the accountant's report

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Agreement on Engagement Terms

.16 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be documented in an engagement letter or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A24–.A29)

- a. The objectives of the engagement
- b. The responsibilities of management set forth in paragraph .31b of section 60 and paragraph .13 of this section
- c. The responsibilities of the accountant
- d. The limitations of a review engagement, including a statement that a review is substantially less in scope than an audit and that

the accountant will not express an opinion on the financial statements

- e. Identification of the applicable financial reporting framework for the preparation of the financial statements
- f. The expected form and content of the accountant's review report and a statement that there may be circumstances in which the report may differ from its expected form and content

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. As amended, effective upon issuance for reviews of financial statements, by SSARS No. 26, June 2022.]

.17 The engagement letter or other suitable form of written agreement should be signed by

- a. the accountant or the accountant's firm and
- b. management or those charged with governance, as appropriate. (Ref: par. .A25)

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Communication With Management and Those Charged With Governance

.18 The accountant should communicate with management or those charged with governance, as appropriate, on a timely basis during the course of the review engagement, all matters concerning the review engagement that, in the accountant's professional judgment, are of significant importance to merit the attention of management or those charged with governance, as appropriate. (Ref: par. .A30–.A36) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Performing the Engagement

Materiality in a Review of Financial Statements

.19 The accountant should determine materiality for the financial statements as a whole and apply this materiality in designing the procedures and evaluating the results obtained from those procedures. (Ref: par. .A37–.A40) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.20 The accountant should revise materiality for the financial statements as a whole if the accountant becomes aware of information during the review that would have caused the accountant to have determined a different amount initially. (Ref: par. .A41) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Understanding of the Industry

.21 To perform the review engagement, the accountant should possess or obtain an understanding of the industry in which the entity operates, including the accounting principles and practices generally used in the industry, sufficient to enable the accountant to review financial statements that are

appropriate for an entity operating in that industry. (Ref: par. .A42) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Knowledge of the Entity

.22 The accountant should obtain knowledge about the entity, including an understanding of

- a.* the entity's business and
- b.* the accounting principles and practices used by the entity

sufficient to identify areas in the financial statements in which there is a greater likelihood that material misstatements may arise and to be able to design procedures to address those areas. (Ref: par. .A43–.A44) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.23 In obtaining the understanding of the entity's accounting policies and practices, the accountant should be alert to accounting policies and procedures that, based on the accountant's knowledge of the industry, are unusual. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Designing and Performing Review Procedures

.24 The accountant should design and perform analytical procedures and make inquiries and perform other procedures, as appropriate, to obtain sufficient appropriate review evidence as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework based on the accountant's (Ref: par. .A45)

- a.* understanding of the industry,
- b.* knowledge of the entity, and
- c.* awareness of the risk that the accountant may unknowingly issue an inappropriate accountant's review report. (Ref: par. .A46)

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.25 In obtaining sufficient appropriate review evidence as the basis for a conclusion on the financial statements as a whole, the accountant should design and perform the analytical procedures and inquiries to address the following: (Ref: par. .A47)

- a.* All material items in the financial statements, including disclosures
- b.* Areas in the financial statements where the accountant believes there are increased risks of material misstatements

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Analytical Procedures

.26 The accountant should apply analytical procedures to the financial statements to identify and provide a basis for inquiry about the relationships and individual items that appear to be unusual and that may indicate a material misstatement. Such analytical procedures should include the following: (Ref: par. .A48–.A50)

- a. Comparing the financial statements with comparable information for the prior period, giving consideration to knowledge about changes in the entity's business and specific transactions
- b. Considering plausible relationships among both financial and, when relevant, nonfinancial information (Ref: par. .A51)
- c. Comparing recorded amounts or ratios developed from recorded amounts to expectations developed by the accountant through identifying and using relationships that are reasonably expected to exist, based on the accountant's understanding of the entity and the industry in which the entity operates (Ref: par. .A52)
- d. Comparing disaggregated revenue data, as applicable (Ref: par. .A53)

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.27 When designing and performing analytical procedures, the accountant should (Ref: par. .A54)

- a. determine the suitability of particular analytical procedures;
- b. consider the reliability of data from which the accountant's expectation of recorded amounts or ratios is developed, taking into account the source, comparability, and nature and relevance of information available;
- c. develop an expectation of recorded amounts or ratios and evaluate whether the expectation is sufficiently precise to provide the accountant with limited assurance that a misstatement will be identified that, either individually or when aggregated with other misstatements, may cause the financial statements to be materially misstated; and
- d. determine the amount of any difference of recorded amounts from expected values that is acceptable without further investigation as required by paragraph .28 and compare the recorded amounts, or ratios developed from recorded amounts, with the expectations.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Investigating Results of Analytical Procedures

.28 If analytical procedures identify fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount, the accountant should investigate such differences by

- a. inquiring of management and
- b. performing other review procedures if considered necessary in the circumstances. (Ref: par. .A55)

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Inquiries of Members of Management Who Have Responsibility for Financial and Accounting Matters

.29 The accountant should inquire of members of management who have responsibility for financial and accounting matters concerning the financial statements, and others within the entity, as appropriate, about (Ref: par. .A56)

- a. whether the financial statements have been prepared and fairly presented in accordance with the applicable financial reporting

framework consistently applied, including how management determined that significant accounting estimates are reasonable in the circumstances.

- b.* the identification of related parties and related party transactions, including the purpose of those transactions
- c.* whether there are significant, unusual, or complex transactions, events, or matters that have affected or may affect the entity's financial statements, including the following: (Ref: par. .A57)
 - i.* Significant changes in the entity's business activities or operations
 - ii.* Significant changes to the terms of contracts that materially affect the entity's financial statements, including terms of finance and debt contracts or covenants
 - iii.* Significant journal entries or other adjustments to the financial statements
 - iv.* Significant transactions occurring or recognized during the period, particularly those in the last several days of the reporting period
 - v.* The status of any uncorrected misstatements identified during the previous review (that is, whether adjustments were recorded subsequent to the periods covered by the prior review and, if adjustments were recorded, the amounts recorded and period in which such adjustments were recorded)
 - vi.* Effects or possible implications for the entity of transactions or relationships with related parties
- d.* matters about which questions have arisen in the course of applying the review procedures.
- e.* the existence of any actual, suspected, or alleged
 - i.* fraud or noncompliance with laws and regulations affecting the entity and (Ref: par. .A58)
 - ii.* noncompliance with provisions of laws and regulations that are generally recognized to have a direct effect on the determination of material amounts and disclosures in the financial statements, such as tax and pension laws and regulations.
- f.* whether management has identified and addressed events subsequent to the date of the financial statements that require adjustment of, or disclosure in, the financial statements.
- g.* the basis for management's assessment of the entity's ability to continue as a going concern.
- h.* whether there are events or conditions that appear to cast doubt on the entity's ability to continue as a going concern.
- i.* material commitments, contractual obligations, or contingencies that have affected or may affect the entity's financial statements, including disclosures.
- j.* material nonmonetary transactions or transactions for no consideration in the financial reporting period under consideration.
- k.* communications from regulatory agencies, if applicable.

- l.* any litigation, claims, and assessments that existed at the date of the balance sheet being reported on and during the period from the balance sheet date to the date of management's response to the accountant's inquiry.
- m.* actions taken at meetings of stockholders, the board of directors, committees of the board of directors, or comparable meetings that may affect the financial statements. (Ref: par. .A59)
- n.* any other matters that the accountant may consider necessary.

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.30 The accountant should consider the reasonableness and consistency of management's responses in light of the results of other review procedures and the accountant's knowledge of the entity's business. However, the accountant is not required to corroborate management's responses with other evidence. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Reading the Financial Statements

.31 The accountant should read the financial statements and consider whether any information has come to the accountant's attention to indicate that such financial statements do not conform to the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Procedures to Address Specific Circumstances

Related Parties

.32 During the review, the accountant should remain alert for arrangements or information that may indicate the existence of related party relationships or transactions that management has not previously identified or disclosed to the accountant. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.33 If the accountant identifies significant transactions outside the entity's normal course of business when performing the review procedure required by paragraph .32 or through other review procedures, the accountant should inquire of management about the following:

- a.* The nature of these transactions (Ref: par. .A60)
- b.* Whether related parties could be involved

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Fraud and Noncompliance With Laws or Regulations

.34 When there is an indication that fraud or noncompliance with laws or regulations has occurred, or is suspected to have occurred, the effects of which should be considered when preparing financial statements, the accountant should do the following:

- a.* Communicate identified or suspected fraud as soon as practical to the appropriate level of senior management (at a level above those involved with the suspected fraud, if possible) or those charged with governance, as appropriate.

- b. Communicate to management identified or suspected noncompliance with laws and regulations whose effects should be considered when preparing financial statements, other than matters that are clearly inconsequential. (Ref: par. .A61)
- c. Request management's assessment of the effects, if any, on the financial statements.
- d. Consider the effect, if any, of management's assessment of the effects of fraud or noncompliance with laws or regulations communicated to the accountant on the accountant's conclusion on the financial statements and on the accountant's report.
- e. Determine whether there is a responsibility to report the occurrence or suspicion of fraud or noncompliance with laws and regulations to a party outside the entity. (Ref: par. .A62)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.35 If the fraud or noncompliance with laws or regulations involves senior management or results in a material misstatement of the financial statements, the accountant should communicate the matter directly to those charged with governance. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.36 The accountant should consider the need to obtain legal advice and take appropriate action, including potential withdrawal, if management or, as appropriate, those charged with governance do not provide sufficient information that supports either of the following: (Ref: par. .A63)

- a. The financial statements are not materially misstated due to fraud.
- b. The entity is in compliance with laws and regulations, and in the accountant's professional judgment, the effect of the suspected noncompliance may be material to the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Going Concern

.37 If the applicable financial reporting framework includes requirements for management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing financial statements, the accountant should perform review procedures related to the following: (Ref: par. .A64–.A65)

- a. Whether the going concern basis of accounting is appropriate
- b. Management's evaluation of whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern
- c. If there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern, management's plans to mitigate those matters
- d. The adequacy of the related disclosures in the financial statements

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.38 If the applicable financial reporting framework does not include a requirement for management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing financial statements, and conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time existed at the date of the prior period financial statements (regardless of whether the substantial doubt was alleviated by the accountant's consideration of management's plans) or, in the course of performing review procedures on the current period financial statements, the accountant becomes aware of conditions or events that raise substantial doubt about the entity's ability to continue as a going concern, the accountant should do the following: (Ref: par. .A66–.A67)

- a. Inquire of management whether the going concern basis of accounting is appropriate.
- b. Inquire of management about its plans for addressing the adverse effects of the conditions and events. (Ref: par. .A68)
- c. Consider the adequacy of the disclosure about such matters in the financial statements. (Ref: par. .A69)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Using the Work of Others

.39 In performing the review, it may be necessary for the accountant to use work performed by other accountants, or the work of an individual or organization possessing expertise in a field other than financial reporting. If the accountant uses work performed by another accountant or an expert in the course of performing the review, the accountant should take appropriate steps to be satisfied that the work performed is adequate for the accountant's purposes. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.40 If other accountants have issued a report on the financial statements of significant components, such as subsidiaries and investees, the accountant should obtain and read reports from such other accountants. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Reconciling the Financial Statements to the Underlying Accounting Records

.41 The accountant should obtain evidence that the financial statements agree or reconcile with the accounting records. (Ref: par. .A70) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Additional Procedures When the Accountant Becomes Aware That the Financial Statements May Be Materially Misstated

.42 If the accountant becomes aware of a matter or matters that cause the accountant to believe the financial statements may be materially misstated, the accountant should design and perform additional procedures sufficient to enable the accountant to (Ref: par. .A71–.A75)

- a. conclude that the matter or matters are not likely to cause the financial statements as a whole to be materially misstated or
- b. determine that the matter or matters cause the financial statements as a whole to be materially misstated.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Evaluating Review Evidence Obtained From the Procedures Performed

[.43–.44] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.45 If, during the performance of review procedures, the accountant becomes aware that information coming to the accountant's attention is incorrect, incomplete, or otherwise unsatisfactory, the accountant should

- a. request that management consider the effect of those matters on the financial statements and communicate the results of its consideration to the accountant and
- b. consider the results communicated to the accountant by management and whether such results indicate that the financial statements may be materially misstated.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

[.46] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.47 The accountant should evaluate whether sufficient appropriate review evidence has been obtained from the procedures performed and, if sufficient appropriate review evidence has not been obtained from the procedures performed, the accountant should perform other procedures that, in the accountant's professional judgment, are necessary in the circumstances to be able to form a conclusion on the financial statements. (Ref: par. .A78) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.48 If the accountant is not able to obtain sufficient appropriate review evidence to form a conclusion, the accountant should withdraw from the engagement. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequent Events and Subsequently Discovered Facts

Subsequent Events

.49 When evidence or information that subsequent events that require adjustment of, or disclosure in, the financial statements comes to the accountant's attention, the accountant should request that management consider whether each such event is appropriately reflected in the financial statements in accordance with the applicable financial reporting framework. (Ref: par. .A79) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.50 If the accountant determines that the subsequent event is not adequately accounted for in the financial statements or disclosed in the notes, the accountant should follow the guidance in paragraphs .69–.72. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequently Discovered Facts That Become Known to the Accountant Before the Report Release Date

.51 The accountant is not required to perform any review procedures regarding the financial statements after the date of the accountant's review report. However, if a subsequently discovered fact becomes known to the accountant before the report release date, the accountant should

- a. discuss the matter with management and, when appropriate, those charged with governance and
- b. determine whether the financial statements need revision and, if revision is needed, inquire how management intends to address the matter in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.52 If management revises the financial statements, the accountant should perform the review procedures necessary in the circumstances on the revision. The accountant should also do either of the following:

- a. Date the accountant's review report as of a later date.
- b. Include an additional date in the accountant's review report on the revised financial statements that is limited to the revision (that is, dual-date the accountant's review report for that revision), thereby indicating that the accountant's review procedures subsequent to the original date of the accountant's review report are limited solely to the revision described in the relevant note to the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.53 If management does not revise the financial statements in circumstances in which the accountant believes they need to be revised, the accountant should modify the accountant's review report or withdraw, as appropriate. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequently Discovered Facts That Become Known to the Accountant After the Report Release Date

.54 If a subsequently discovered fact becomes known to the accountant after the report release date, the accountant should (Ref: par. .A80–.A81)

- a. discuss the matter with management and, when appropriate, those charged with governance and
- b. determine whether the financial statements need revision and, if revision is needed, inquire how management intends to address the matter in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.55 If management revises the financial statements, the accountant should do the following:

- a. Apply the requirements of paragraph .52.
- b. If the reviewed financial statements (before revision) have been made available to third parties, assess whether the steps taken

by management are timely and appropriate to ensure that anyone in receipt of those financial statements is informed of the situation, including that the reviewed financial statements are not to be used. If management does not take the necessary steps, the accountant should apply the requirements of paragraph .56. (Ref: par. .A82)

- c. If the accountant's conclusion on the revised financial statements differs from the accountant's conclusion on the original financial statements, disclose in an emphasis-of-matter paragraph, in accordance with paragraphs .89–.90,
 - i. the date of the accountant's previous report,
 - ii. a description of the revisions, and
 - iii. the substantive reasons for the revisions.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.56 If management does not revise the financial statements in circumstances in which the accountant believes they need to be revised, then the accountant should do the following:

- a. If the reviewed financial statements have not been made available to third parties, notify management and those charged with governance (unless all of those charged with governance are involved in managing the entity) not to make the reviewed financial statements available to third parties before the necessary revisions have been made and a new accountant's review report on the revised financial statements has been provided. If the reviewed financial statements are, nevertheless, subsequently made available to third parties without the necessary revisions, the accountant should apply the requirements of paragraph .56b.
- b. If the reviewed financial statements have been made available to third parties, assess whether the steps taken by management are timely and appropriate to ensure that anyone in receipt of the reviewed financial statements is informed of the situation, including that the reviewed financial statements are not to be used. If management does not take the necessary steps, the accountant should apply the requirements of paragraph .57. (Ref: par. .A81)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.57 If management does not take the necessary steps to ensure that anyone in receipt of the financial statements is informed of the situation, as provided by paragraph .55b or paragraph .56b, the accountant should notify management and those charged with governance (unless all of those charged with governance are involved in managing the entity) that the accountant will seek to prevent future use of the accountant's review report. If, despite such notification, management or those charged with governance do not take the necessary steps, the accountant should take appropriate action to seek to prevent use of the accountant's review report. (Ref: par. .A83–.A86) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Written Representations

Written Representations as Review Evidence

.58 *Written representations* are necessary information that the accountant requires in connection with a review of the entity's financial statements. Accordingly, similar to responses to inquiries, written representations are review evidence. (Ref: par. .A87) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Management From Whom Written Representations Are Requested

.59 The accountant should request written representations from members of management who have appropriate responsibilities for the financial statements and knowledge of the matters concerned. (Ref: par. .A88–.A90) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Specific Written Representations

.60 For all financial statements presented and all periods covered by the review, the accountant should request management to provide written representations that are dated as of the date of the accountant's review report and that indicate that it has fulfilled its responsibilities, as set out in the terms of the engagement, including the following: (Ref: par. .A91–.A97)

- a. Management has fulfilled its responsibility for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework.
- b. Management acknowledges its responsibility for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of financial statements, including its responsibility to prevent and detect fraud.
- c. All transactions have been recorded and are reflected in the financial statements.
- d. Management has provided the accountant with all relevant information and access to information, as agreed upon in the terms of the engagement.
- e. Management has responded fully and truthfully to all of the accountant's inquiries
- f. Management has disclosed to the accountant the identity of the entity's related parties and all the related party relationships and transactions of which it is aware, and it has appropriately accounted for and disclosed such relationships and transactions.
- g. Management has disclosed to the accountant significant facts relating to any fraud or suspected fraud known to management that may have affected the entity involving
 - i. management,
 - ii. employees who have significant roles in internal control, or
 - iii. others, when the fraud could have a material effect on the financial statements.
- h. Management has disclosed to the accountant significant facts relating to any allegations of fraud or suspected fraud known to

management that may have affected the entity's financial statements communicated by employees, former employees, regulators, or others.

- i.* Management has disclosed to the accountant all known actual or possible instances of noncompliance with laws and regulations whose effects should be considered when preparing financial statements.
- j.* Management has disclosed to the accountant all information relevant to the use of the going concern assumption in the financial statements.
- k.* Management has properly accounted for all events occurring subsequent to the date of the financial statements and for which the applicable financial reporting framework requires adjustment or disclosure, and it has made the necessary adjustments or disclosures.
- l.* Management has disclosed to the accountant whether it believes that the effects of uncorrected misstatements are immaterial, individually and in the aggregate, to the financial statements as a whole. A summary of such items should be included in, or attached to, the written representation.
- m.* Management has disclosed to the accountant all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements, and it has appropriately accounted for and disclosed such litigation and claims in accordance with the applicable financial reporting framework.
- n.* Management has disclosed to the accountant whether it believes that significant assumptions it used in making accounting estimates are reasonable.

[As amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.61 If, in addition to the representations required by paragraph .60, the accountant determines that it is necessary to obtain one or more written representations to support other review evidence relevant to the financial statements, the accountant should request such other written representations. (Ref: par. .A98) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Form of Written Representations

.62 The written representations should be in the form of a representation letter addressed to the accountant. (Ref: par. .A99–.A100) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Concerns About the Reliability of Written Representations and Requested Written Representations Not Provided

.63 If, in relation to the written representations required by paragraphs .60–.61

- a.* management does not provide the written representations, or
- b.* the accountant concludes that there is cause to doubt management's integrity such that the written representations provided are not reliable

the accountant should discuss the matter with management and those charged with governance, as appropriate. If management does not provide the required representations or the accountant continues to doubt management's integrity such that the written representations provided may not be reliable, the accountant should withdraw from the engagement. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Forming the Accountant's Conclusion on the Financial Statements

Consideration of the Applicable Financial Reporting Framework in Relation to the Financial Statements

.64 In forming the conclusion on the financial statements, the accountant should do the following:

- a. Evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework. (Ref: par. .A101–.A102)
- b. Consider whether, in the context of the requirements of the applicable financial reporting framework and the results of procedures performed,
 - i. the terminology used in the financial statements, including the title of each financial statement, is appropriate;
 - ii. the financial statements adequately disclose the significant accounting policies selected and applied;
 - iii. the accounting policies selected and applied are consistent with the applicable financial reporting framework and are appropriate;
 - iv. accounting estimates made by management appear reasonable;
 - v. the information presented in the financial statements appears relevant, reliable, comparable, and understandable; and
 - vi. the financial statements provide adequate disclosures to enable the intended users to understand the effects of material transactions and events on the information conveyed in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.65 The accountant should consider the impact of the following:

- a. Uncorrected misstatements identified during the review, and in the previous year's review of the entity's financial statements, on the financial statements as a whole
- b. Qualitative aspects of the entity's accounting practices, including indicators of possible bias in management's judgments (Ref: par. .A103–.A104)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.66 The accountant's consideration should also include the following:

- a. The overall presentation, structure, and content of the financial statements
- b. Whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation (Ref: par. .A105)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Form of the Conclusion

Unmodified Conclusion

.67 The accountant should express an unmodified conclusion in the accountant's review report on the financial statements as a whole when the accountant has obtained limited assurance to be able to conclude that nothing has come to the accountant's attention that causes the accountant to believe that the financial statements are not prepared, in all material respects, in accordance with the applicable financial reporting framework. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.68 When the accountant expresses an unmodified conclusion, the accountant should, unless required by law or regulation, use the following language:

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements for them to be in accordance with *[the applicable financial reporting framework]*.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Modified Conclusion

.69 The accountant should express a modified conclusion in the accountant's review report on the financial statements as a whole when the accountant determines, based on the procedures performed and the review evidence obtained, that the financial statements are materially misstated. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.70 When the accountant modifies the conclusion expressed on the financial statements, the accountant should do the following:

- a. Use the heading "Qualified Conclusion" or "Adverse Conclusion," as appropriate, for the conclusion paragraph in the accountant's review report.
- b. Provide a description of the matter giving rise to the modification, under an appropriate heading (for example, "Basis for Qualified Conclusion," or "Basis for Adverse Conclusion," as appropriate), in a separate paragraph in the accountant's review report immediately before the conclusion paragraph (referred to as the *basis for conclusion paragraph*).

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Financial Statements Are Materially Misstated

.71 If the accountant, having obtained sufficient appropriate review evidence, determines, or is otherwise aware, that the financial statements are materially misstated, the accountant should express one of the following: (Ref: par. A106)

- a. A qualified conclusion, when the accountant concludes that the effects of the matter or matters giving rise to the modification are material but not pervasive to the financial statements
- b. An adverse conclusion, when the effects of the matter or matters giving rise to the modification are both material and pervasive to the financial statements

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.72 When the accountant expresses a qualified conclusion on the financial statements because of a material misstatement, the accountant should, unless otherwise required by law or regulation, use the following language:

Based on my (our) review, except for the effects of the matter(s) described in the Basis for Qualified Conclusion paragraph, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with *[the applicable financial reporting framework]*.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.73 When the accountant expresses an adverse conclusion on the financial statements, the accountant should, unless otherwise required by law or regulation, use the following language:

Based on my (our) review, due to the significance of the matter(s) described in the Basis for Adverse Conclusion paragraph, the financial statements are not in accordance with *[the applicable financial reporting framework]*.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.74 In the basis for conclusion paragraph, in relation to material misstatements that give rise to either a qualified conclusion or an adverse conclusion, the accountant should do the following:

- a. Describe and quantify the financial effects of the misstatement if the material misstatement relates to specific amounts in the financial statements (including quantitative disclosures) and the effects of the departure on the financial statements have been determined by management or are known to the accountant as a result of the accountant's procedures. If the effects of the departure have not been determined by management or are not known to the accountant as a result of the accountant's procedures, the accountant is not required to determine the effects of the departure; however, in such circumstances, the accountant should state in the report that such determination has not been made by management.
- b. Explain how disclosures are misstated if the material misstatement relates to narrative disclosures.
- c. Describe the nature of omitted information if the material misstatement relates to the nondisclosure of information required to

be disclosed. The accountant should include the omitted disclosures when practicable to do so.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Reporting on the Financial Statements

.75 The accountant's review report should be in writing. (Ref: par. .A107–.A109) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Accountant's Review Report

.76 The written review report should include the following: (Ref: par. .A126)

- a. A title that includes the word *independent* to clearly indicate that it is the report of an independent accountant for a review engagement. (Ref: par. .A110)
- b. An addressee, based on the circumstances of the engagement. (Ref: par. .A111)
- c. An introductory paragraph that (Ref: par. .A112–.A114)
 - i. identifies the entity whose financial statements have been reviewed,
 - ii. states that the financial statements identified in the report were reviewed,
 - iii. identifies the financial statements,
 - iv. specifies the date or period covered by each financial statement,
 - v. includes a statement that a review includes primarily applying analytical procedures to management's (owner's) financial data and making inquiries of company management (owners), and
 - vi. includes a statement that a review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole, and that, accordingly, the accountant does not express such an opinion.
- d. A section with the heading "Management's Responsibility for the Financial Statements" that includes an explanation that management is responsible for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework; this responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error. (Ref: par. .A115)
- e. A section with the heading "Accountant's Responsibility" that includes the following statements:
 - i. The accountant's responsibility is to conduct the review engagement in accordance with SSARSs promulgated by the Accounting and Review Services Committee of the AICPA. The accountant's review report should also explain that those standards require that the accountant perform the

- procedures to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework. (Ref: par. .A116–.A118)
- ii. The accountant believes that the results of the accountant's procedures provide a reasonable basis for the accountant's conclusion.
 - iii. The accountant is required to be independent of the entity and to meet the accountant's other ethical responsibilities, in accordance with the relevant ethical requirements relating to the review.
- f. A concluding section with an appropriate heading that includes the accountant's conclusion on the financial statements in accordance with paragraphs .67–.74, as appropriate, and that identifies the country of origin of the financial reporting framework, if applicable
 - g. When the accountant's conclusion on the financial statements is modified,
 - i. a paragraph, under the appropriate heading, that contains the accountant's modified conclusion in accordance with paragraphs .69–.74, as appropriate, and
 - ii. a paragraph, under an appropriate heading, that provides a description of the matter or matters giving rise to the modification (Ref: par. .A119)
 - h. The manual or printed signature of the accountant's firm. (Ref: par. .A120–.A121)
 - i. The city and state where the accountant practices. (Ref: par. .A122)
 - j. The date of the review report, which should be dated no earlier than the date on which the accountant has obtained sufficient appropriate review evidence as the basis for the accountant's conclusion on the financial statements, including being satisfied that
 - i. all the statements that the financial statements comprise, including the related notes, have been prepared and
 - ii. management has asserted that it has taken responsibility for those financial statements. (Ref: par. .A123–.A124)

[As amended, effective October 2016, by SSARS No. 23. As amended, effective May 2018, by SSARS No. 24. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. As amended, effective for reviews of financial statements for periods ending on or after December 15, 2025, by SSARS No. 26.]

Accountant's Review Report on Financial Statements Prepared in Accordance With a Special Purpose Framework

.77 The accountant should modify the review report when the accountant becomes aware that the financial statements do not include

- a. a description of the special purpose framework. (Ref: par. .A128)
- b. a summary of significant accounting policies.

- c. an adequate description about how the special purpose framework differs from GAAP. The effects of these differences need not be quantified. (Ref: par. .A129)
- d. informative disclosures similar to those required by GAAP when the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. (Ref: par. .A130)

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.78 In the case of financial statements prepared in accordance with the provisions of a contract, the accountant should evaluate whether the financial statements adequately describe any significant interpretations of the contract on which the financial statements are based and modify the review report if the financial statements do not adequately describe any significant interpretations of the contract on which the financial statements are based. [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.79 In the case of an accountant's review report on special purpose financial statements, if management has a choice of financial reporting frameworks in the preparation of the special purpose financial statements, the explanation of management's responsibility for the financial statements should also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances. [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.80 The accountant's review report on financial statements prepared in accordance with a special purpose framework should include an emphasis-of-matter paragraph, under an appropriate heading, that (Ref: par. .A132–.A133)

- a. indicates that the financial statements are prepared in accordance with the applicable special purpose framework,
- b. refers to the note to the financial statements that describes the framework, and
- c. states that the special purpose framework is a basis of accounting other than GAAP.

For special purpose financial statements prepared in accordance with a contractual basis of accounting, the emphasis-of-matter paragraph should also state that, as a result, the financial statements may not be suitable for another purpose. [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.81 If the special purpose financial statements are prepared in accordance with the contractual basis of accounting, the accountant's review report should include, in accordance with paragraph .104, an other-matter paragraph, under an appropriate heading, that, in accordance with paragraphs .106–.109, restricts the use of the accountant's review report (Ref: par. .A134) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Comparative Financial Statements

.82 Comparative financial statements may be required by the applicable financial reporting framework, or management may elect to provide such information. When comparative financial statements are presented, the

accountant's report should refer to each period for which financial statements are presented. (Ref: par. .A135–.A136) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Updating the Report

.83 When reporting on all periods presented, a continuing accountant should update the report on one or more prior periods presented on a comparative basis with those of the current period. The accountant's report on comparative financial statements should not be dated earlier than the date that the accountant completed procedures sufficient to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework with respect to the current period. (Ref: par. .A137) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.84 When issuing an updated report, the continuing accountant should consider information that the accountant has become aware of during the review of the current period financial statements. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.85 If, during the current engagement, circumstances or events come to the accountant's attention that may affect the prior-period financial statements presented, the accountant should consider the effects on the review report. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Changed Reference to a Departure From the Applicable Financial Reporting Framework

.86 When the accountant's report on the financial statements of the prior period contains a changed reference to a departure from the applicable financial reporting framework, the accountant's review report should include an other-matter paragraph indicating (Ref: par. .A138)

- a. the date of the accountant's previous review report.
- b. the circumstances or events that caused the reference to be changed.
- c. when applicable, that the financial statements of the prior period have been changed.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Reporting When One Period Is Audited

.87 When the prior period financial statements were audited and the auditor's report on the prior period financial statements is not reissued, the review report on the current period financial statements should include an other-matter paragraph indicating

- a. that the financial statements of the prior period were previously audited;
- b. the date of the auditor's report on the prior period financial statements;
- c. the type of opinion issued on the prior period financial statements;
- d. if the opinion was modified, the substantive reasons for the modification; and

- e. that no auditing procedures were performed after the date of the previous report.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.88 [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Emphasis-of-Matter and Other-Matter Paragraphs in the Accountant's Review Report

Emphasis-of-Matter Paragraphs in the Accountant's Review Report

.89 If the accountant considers it necessary to draw users' attention to a matter appropriately presented or disclosed in the financial statements that, in the accountant's professional judgment, is of such importance that it is fundamental to users' understanding of the financial statements, the accountant should include an emphasis-of-matter paragraph in the accountant's review report, provided that the accountant has obtained sufficient appropriate review evidence to conclude that the accountant is not aware of any material modifications that should be made to the financial statements with respect to such matter. Such a paragraph should refer only to information presented or disclosed in the financial statements. (Ref: par. .A143–.A145) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.90 When the accountant includes an emphasis-of-matter paragraph in the accountant's review report, the accountant should do the following:

- a. Include the paragraph within a separate section of the accountant's report with the heading "Emphasis of a Matter" or other appropriate heading. (Ref: par. .A146–.A147)
- b. Include in the paragraph a clear reference to the matter being emphasized and to where relevant disclosures that fully describe the matter can be found in the financial statements. The paragraph should refer only to information presented or disclosed in the financial statements.
- c. Indicate that the accountant's conclusion is not modified with respect to the matter emphasized. (Ref: par. .A148)

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Other-Matter Paragraphs in the Accountant's Review Report

.91 If the accountant considers it necessary to communicate a matter other than those that are presented or disclosed in the financial statements that, in the accountant's professional judgment, is relevant to the users' understanding of the review, the accountant's responsibilities, or the accountant's review report, the accountant should include an other-matter paragraph in the accountant's review report. [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.92 When the accountant includes an other-matter paragraph in the accountant's review report, the accountant should include the paragraph within a separate section with the heading "Other Matter" or other appropriate heading. (Ref: par. .A143, .A146, and .A149–.A151) [Paragraph added, effective for

reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Communication With Management

.93 If the accountant expects to include an emphasis-of-matter or other-matter paragraph in the accountant's review report, the accountant should communicate with management regarding this expectation and the proposed wording of this paragraph. (Ref: par. .A152–.A153) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Correction of a Material Misstatement in Previously Issued Financial Statements

.94 The accountant should include an emphasis-of-matter paragraph in the accountant's review report when there are adjustments to correct a material misstatement in previously issued financial statements. The accountant should include this type of emphasis-of-matter paragraph in the accountant's review report when the related financial statements are restated to correct the prior material misstatement. The paragraph need not be repeated in subsequent periods. (Ref: par. .A154–.A156) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.95 The emphasis-of-matter paragraph should include

- a. a statement that the previously issued financial statements have been restated for the correction of a material misstatement in the respective period and
- b. a reference to the entity's disclosure of the correction of the material misstatement. (Ref: par. .A157)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.96 If the financial statement disclosures relating to the restatement to correct a material misstatement in previously issued financial statements are not adequate, the accountant should address the inadequacy of disclosure as described in paragraphs .69–.72. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Other Reporting Responsibilities

.97 An accountant may be requested to address other reporting responsibilities in the accountant's review report on the financial statements that are in addition to the accountant's responsibilities in accordance with this section to report on the financial statements. In such situations, those other reporting responsibilities should be addressed by the accountant in a separate section in the accountant's review report, under the heading "Report on Other Legal and Regulatory Requirements," or otherwise, as appropriate to the content of the section, following the section of the report titled "Report on the Financial Statements." (Ref: par. .A158) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

[.98–.102] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Alert That Restricts the Use of the Accountant's Review Report

.103 An accountant's review report should include an alert, in a separate paragraph, that restricts its use when the subject matter of the accountant's review report is based on (Ref: par. .A165–.A167)

- a. measurement or disclosure criteria that are determined by the accountant to be suitable only for a limited number of users who can be presumed to have an adequate understanding of the criteria or
- b. measurement or disclosure criteria that are available only to the specified parties.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.104 The alert that restricts the use of the accountant's review report required by paragraph .103 should

- a. state that the accountant's review report is intended solely for the information and use of the specified parties.
- b. identify the specified parties for whom use is intended.
- c. state that the accountant's review report is not intended to be, and should not be, used by anyone other than the specified parties. (Ref: par. .A168)

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Adding Other Specified Parties

.105 When, in accordance with paragraph .103, the accountant includes an alert that restricts the use of the accountant's review report to certain specified parties and the accountant is requested to add other parties as specified parties, the accountant should determine whether to agree to add the other parties as specified parties. (Ref: par. .A169) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.106 If the other parties are added after the release of the accountant's review report, the accountant should either:

- a. Amend the accountant's review report to add the other parties and, in such circumstances, not change the original date of the accountant's review report.
- b. Provide a written acknowledgment to management and the other parties that such parties have been added as specified parties and state in the acknowledgment that no procedures were performed subsequent to the original date of the accountant's review report.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

The Accountant's Consideration of an Entity's Ability to Continue as a Going Concern

[.107–.108] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Implications for the Accountant's Review Report When Substantial Doubt Exists About the Entity's Ability to Continue as a Going Concern

.109 If, after considering conditions or events and management's plans, the accountant concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains, the accountant should include a separate section in the accountant's review report with the heading "Substantial Doubt About the Entity's Ability to Continue as a Going Concern" that does the following: (Ref: par. .A177–.A184)

- a. Draws attention to the note in the financial statements that discloses
 - i. the conditions or events identified and management's plans that deal with these conditions or events and
 - ii. that these conditions or events indicate that substantial doubt exists about the entity's ability to continue as a going concern for a reasonable period of time
- b. States that the accountant's conclusion is not modified with respect to the matter

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.110 The description in the "Going Concern" section about the entity's ability to continue as a going concern for a reasonable period of time should use terms consistent with those included in the applicable financial reporting framework. The accountant should not use conditional language concerning the existence of substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time. (Ref: par. .A183) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.111 If adequate disclosure about an entity's ability to continue as a going concern for a reasonable period of time is not made in the financial statements, the accountant should do the following:

- a. Express a qualified or adverse conclusion, as appropriate, in accordance with paragraphs .71–.74
- b. In the "Basis for Qualified (Adverse) Conclusion" section of the accountant's review report, state that
 - i. substantial doubt exists about the entity's ability to continue as a going concern and that the financial statements do not adequately disclose this matter or
 - ii. substantial doubt about the entity's ability to continue as a going concern has been alleviated by management's plans but the financial statements do not adequately disclose this matter.

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Management Unwilling to Perform or Extend Its Evaluation

.112 If management is unwilling to perform or extend its evaluation to meet the period of time required by the applicable financial reporting framework when requested to do so by the accountant, the accountant should consider the implications for the accountant's review report. (Ref: par. .A125) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

[.113–.121] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Reference to the Work of Other Accountants in an Accountant's Review Report

.122 If other accountants audited or reviewed the financial statements of significant components, such as consolidated and unconsolidated subsidiaries and investees, and the accountant of the reporting entity decides not to assume responsibility for the audit or review performed by the other accountants, the accountant of the reporting entity should make reference to the review or audit of such other accountants in the accountant's review report. In that instance, the accountant should clearly indicate in the accountant's review report that the accountant used the work of other accountants and should include the magnitude of the portion of the financial statements audited or reviewed by the other accountants. (Ref: par. .A193–.A195) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.123 Reference to the audit or review of other accountants in the accountant's review report on the reporting entity should not be made if the other accountants issued an auditor's or an accountant's review report that includes an alert that restricts the use of such report. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Determining Whether the Other Accountants Are Familiar with SSARSs or Auditing Standards Generally Accepted in the United States of America, as Applicable

.124 Regardless of whether the accountant of the reporting entity decides to make reference to the review or audit of other accountants, the accountant of the reporting entity should communicate with the other accountants and determine the following:

- a. The other accountants are aware that the financial statements of the component that the other accountants have audited or reviewed are to be included in the financial statements on which the accountant of the reporting entity will report and that the other accountants' report thereon will be relied upon and, where applicable, referred to by the accountant of the reporting entity.
- b. The other accountants are familiar with the applicable financial reporting framework and with SSARSs or auditing standards generally accepted in the United States of America, as applicable, and will conduct the review or audit in accordance therewith. (Ref: par. .A196)

- c. The other accountants understand the ethical requirements that are relevant to the engagement and, in particular, are independent. (Ref: par. .A197)
- d. A review will be made of matters affecting elimination of inter-company transactions and accounts and, if appropriate in the circumstances, the uniformity of accounting practices among the components included in the financial statements.

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Determining Whether to Make Reference When the Financial Reporting Framework Is Not the Same

.125 If the component's financial statements are prepared using a different financial reporting framework from that used for the financial statements of the reporting entity, reference to the review or audit of the other accountants in the review report of the accountant of the reporting entity should not be made unless the following apply:

- a. The accountant has determined that the measurement, recognition, presentation, and disclosure criteria that are applicable to all material items in the component's financial statements in accordance with the financial reporting framework used by the component are similar to the criteria that are applicable to all material items in the reporting entity's financial statements in accordance with the financial reporting framework used by the reporting entity.
- b. The accountant of the reporting entity has obtained sufficient appropriate review evidence for purposes of evaluating the appropriateness of the adjustments to convert the component's financial statements to the financial reporting framework used by the reporting entity without the need to assume responsibility for, and thus be involved in, the work of the other accountants. (Ref: par. .A198)

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Supplementary Information That Accompanies Reviewed Financial Statements and the Accountant's Review Report Thereon

.126 When supplementary information accompanies reviewed financial statements and the accountant's review report thereon, the accountant should clearly indicate the degree of responsibility, if any, the accountant is taking with respect to such information in either

- a. an other-matter paragraph in the accountant's review report on the financial statements or
- b. a separate report on the supplementary information

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.127 When the accountant has subjected the supplementary information to the review procedures applied in the accountant's review of the basic

financial statements, the other-matter paragraph in the accountant's review report on the financial statements or the separate report on the supplementary information should state that (Ref: par. .A200 and .A202)

- a.* the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b.* the supplementary information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements;
- c.* the supplementary information has been subjected to the review procedures applied in the accountant's review of the basic financial statements and whether the accountant is aware of any material modifications that should be made to the supplementary information; and
- d.* the accountant has not audited the supplementary information and does not express an opinion on such information.

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.128 When the accountant has not subjected the supplementary information to the review procedures applied in the accountant's review of the basic financial statements, the other-matter paragraph in the accountant's review report on the financial statements or the separate report on the supplementary information should state that (Ref: par. .A201–.A202)

- a.* the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b.* the supplementary information is the responsibility of management; and
- c.* the accountant has not audited or reviewed the supplementary information and, accordingly, does not express an opinion, a conclusion, nor provide any assurance on such information.

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Required Supplementary Information

.129 Concerning the requirement in paragraph .126, with respect to required supplementary information, the accountant should include an other-matter paragraph in the accountant's review report on the financial statements. The other-matter paragraph should include language to explain the following circumstances, as applicable: (Ref: par. .A203)

- a.* The required supplementary information is included, and the accountant performed a compilation engagement on the required supplementary information.
- b.* The required supplementary information is included, and the accountant reviewed the required supplementary information.
- c.* The required supplementary information is included, and the accountant did not perform a compilation, review, or audit on the required supplementary information.

- d. The required supplementary information is omitted.
- e. Some required supplementary information is missing, and some is presented in accordance with the prescribed guidelines (Ref: par. A204)
- f. The accountant has identified departures from the prescribed guidelines.
- g. The accountant has unresolved doubts about whether the required supplementary information is presented in accordance with prescribed guidelines.

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.130 If the entity has presented all or some of the required supplementary information and the accountant did not perform a compilation or review on the required supplementary information, the other-matter paragraph referred to in paragraph .126 should include the following elements: (Ref: par. A205)

- a. A statement that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require that the *[identify the required supplementary information]* be presented to supplement the basic financial statements
- b. A statement that such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. A statement that the accountant did not perform a compilation, review, or audit on the required supplementary information and does not express an opinion or provide any assurance on the information
- d. If some of the required supplementary information is omitted
 - i. a statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
 - ii. a statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- e. If the measurement or presentation of the required supplementary information departs materially from the prescribed guidelines, a statement that material departures from prescribed guidelines exist *[describe the material departures from the applicable financial reporting framework]*
- f. If the accountant has unresolved doubts about whether the required supplementary information is measured or presented in

accordance with prescribed guidelines, a statement that the accountant has doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by *[identify designated accounting standards-setter]*

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.131 If all the required supplementary information is omitted, the other-matter paragraph should include the following elements:

- a. A statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
- b. A statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Change in Engagement From Audit to Review

.132 If the accountant, who was engaged to perform an audit engagement in accordance with generally accepted auditing standards, has been requested to change the engagement to a review engagement, the accountant should consider the following before deciding whether to agree to the change: (Ref: par. .A206–.A207)

- a. The reason given for the request, particularly the implications of a restriction on the scope of the audit engagement, whether imposed by management or by circumstances (Ref: par. .A208)
- b. The additional audit effort required to complete the audit engagement
- c. The estimated additional cost to complete the audit engagement

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.133 In all circumstances, if the audit procedures are substantially complete or the cost to complete such procedures is relatively insignificant, the accountant should consider the propriety of accepting a change in the engagement. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.134 If the accountant concludes, based upon the accountant's professional judgment, that reasonable justification exists to change the engagement, and if the accountant complies with the standards applicable to a review engagement, the accountant should issue an appropriate review report. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

- .135** The report should not include reference to
- the original engagement,
 - any audit procedures that may have been performed, or
 - scope limitations that resulted in the changed engagement.

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.136 When the accountant has been engaged to audit an entity's financial statements and management refuses to allow the accountant to correspond with the entity's legal counsel, the accountant, except in rare circumstances, is precluded from accepting an engagement to review those financial statements. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Review Documentation

.137 The preparation of documentation for the review provides evidence that the review was performed in accordance with SSARSs and a sufficient and appropriate record of the basis for the accountant's report. The accountant should prepare review documentation in a timely manner that is sufficient to enable an experienced accountant, having no previous connection to the review, to understand the following: (Ref: par. .A209–.A213)

- The nature, timing, and extent of the review procedures performed to comply with SSARSs
- The review evidence obtained from the review procedures performed and the accountant's conclusions formed on the basis of that review evidence
- Significant matters arising during the review, the accountant's conclusions reached thereon, and significant professional judgments made in reaching those conclusions

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.138 In addition to the requirements in paragraph .137, the review documentation should include the following:

- The engagement letter or other suitable form of written documentation with management, as described in paragraphs .16–.17 (Ref: par. .A25 and .A27)
- Communications with management regarding the accountant's expectation to include an emphasis-of-matter or other-matter paragraph in the accountant's review report as required by paragraph .93
- Communications with management, those charged with governance, and others as relevant to the performance of the review of significant matters arising during the engagement, including the nature of those matters
- Communications with other accountants that have audited or reviewed the financial statements of significant components as required by paragraph .122
- If, in the course of the engagement, the accountant identified information that is inconsistent with the accountant's findings

regarding significant matters affecting the financial statements, how the inconsistency was addressed

- f. The representation letter
- g. A copy of the reviewed financial statements and the accountant's review report thereon

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.139 In documenting the nature, timing, and extent of procedures performed as required in this section, the accountant should record the following:

- a. Who performed the work and the date such work was completed
- b. Who reviewed the work performed and the date and extent of the review
- c. If the review engagement is subject to an engagement quality review
 - i. the identity of the engagement quality reviewer for the engagement and the date and extent of such review and
 - ii. that the engagement quality review has been completed before the release of the accountant's review report

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. As amended, effective for reviews of financial statements for periods ending on or after December 15, 2025, by SSARS No. 26.]

Application and Other Explanatory Material

Introduction

.A1 If the accountant is engaged to perform a review of historical financial information other than financial statements, references in this section to *financial statements* are to be taken as a reference to such other historical financial information. [Paragraph added, effective October 2016, by SSARS No. 23.]

.A2 Examples of other historical financial information that an accountant may be engaged to review include, but are not limited to, the following:

- Specified elements, accounts, or items of a financial statement, such as schedules of rentals, royalties, profit participation, or provision for income taxes
- Supplementary information
- Required supplementary information
- Financial information contained in a tax return

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A3 The accountant may review a single financial statement, such as a balance sheet, and not other related financial statements, such as the statements of income, retained earnings, and cash flows, if the scope of the accountant's inquiry and analytical procedures have not been restricted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Objectives (Ref: par. .07)

.A4 A review differs significantly from an audit of financial statements in which the auditor obtains reasonable assurance, which is a high, but not absolute, level of assurance, that the financial statements are free of material misstatement. A review does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed in an audit. Accordingly, in a review, the accountant does not obtain assurance that he or she will become aware of all significant matters that would be disclosed in an audit. Therefore, a review is designed to obtain only limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

[**.A5–.A9**] [Paragraphs deleted by the issuance of SSARS No. 25, February 2020.]

Definitions (Ref: par. .08)

.A10 Sufficient appropriate review evidence, consisting primarily of the results of the accountant's analytical procedures and inquiries, is required to obtain limited assurance to support the accountant's conclusion. Review evidence is cumulative in nature and primarily obtained from the procedures performed during the course of the review. The combination of the nature, timing, and extent of evidence-gathering procedures is limited compared to an audit engagement. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A11 Most financial reporting frameworks requiring an explicit management evaluation of the entity's ability to continue as a going concern specify the period of time to be evaluated. For example, the financial reporting frameworks of the following standard-setting bodies specify such period of time as follows:

- a. *FASB*. Within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable).¹
- b. *GASB*. 12 months beyond the date of the financial statements. GASB further requires that, if a governmental entity currently knows information that may raise substantial doubt shortly thereafter (for example, within an additional three months), such information should also be considered.²
- c. *International Accounting Standards Board*. At least, but not limited to, one year from the end of the reporting period.³

¹ "Pending Content" in *FASB Accounting Standards Codification (ASC) 205-40-50-1*. [Footnote added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

² Paragraph 16 of GASB Statement No. 56, *Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards*. [Footnote added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

³ Paragraph 26 of International Accounting Standard 1, *Presentation of Financial Statements*. [Footnote added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

[.A12] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.A13 Supplementary information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources outside the accounting system or outside the entity. [Paragraph added, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A14 Supplementary information may be prepared in accordance with an applicable financial reporting framework, by regulatory or contractual requirements, in accordance with management's criteria, or in accordance with other requirements. [Paragraph added, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Independence (Ref: par. .10)

.A15 The AICPA Code of Professional Conduct provides guidance with respect to independence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A16 Nothing prohibits an accountant who is unable to complete a review engagement due to a determination that the accountant's independence is impaired from performing a compilation engagement on those financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Professional Skepticism (Ref: par. .11)

.A17 Professional skepticism includes being alert to the following, for example:

- Review evidence that contradicts other review evidence obtained
- Information that brings into question the reliability of responses to inquiries and other information or records to be used as review evidence
- Circumstances that suggest the need for review procedures in addition to those required by this section

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A18 Maintaining professional skepticism throughout the review is necessary if the accountant is, for example, to reduce the risks of

- overlooking unusual circumstances.

- overgeneralizing when drawing conclusions from review observations.
- using inappropriate assumptions in determining the nature, timing, and extent of the review procedures and evaluating the results thereof.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A19 Professional skepticism is necessary to the critical assessment of review evidence. This includes questioning contradictory review evidence and the reliability of responses to inquiries and other information obtained from management and those charged with governance. It also includes consideration of the sufficiency and appropriateness of review evidence obtained in light of the circumstances. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A20 The accountant may accept records and documents as genuine unless the accountant has reason to believe the contrary. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A21 The accountant neither assumes that management is dishonest nor assumes unquestioned honesty. The accountant cannot be expected to disregard past experience of the honesty and integrity of management and those charged with governance. Nevertheless, a belief that management and those charged with governance are honest and have integrity does not relieve the accountant of the need to maintain professional skepticism or allow the accountant to be satisfied with less than persuasive review evidence when obtaining limited assurance. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Acceptance and Continuance of Client Relationships and Review Engagements (Ref: par. .13)

.A22 A review in accordance with SSARSs is conducted on the premise that management has acknowledged and understands that it has the responsibility set out in paragraph .31b of section 60. The preparation of financial statements, in whole or in part, is a nonattest service subject to the provisions of the "Nonattest Services" interpretation (ET sec. 1.295) of the "Independence Rule" of the AICPA Code of Professional Conduct. To avoid misunderstanding, agreement is reached with management that it acknowledges and understands that it has such responsibilities as part of agreeing and documenting the terms of the review engagement as required by paragraphs .16–.17. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A23 Documents containing financial statements that may include an indication that such financial statements have been reviewed by the entity's accountant includes documents submitted to bonding companies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Agreement on Engagement Terms (Ref: par. .16–.17 and .135)

.A24 Both management and the accountant have an interest in documenting the agreed-upon terms of the review engagement before the commencement of the review engagement to help avoid misunderstandings with respect to the review engagement. For example, it reduces the risk that management may inappropriately rely on or expect the accountant to protect management against certain risks or perform certain functions, including those that are management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A25 The roles of management and those charged with governance in agreeing upon the terms of the review engagement for the entity depend on the governance structure of the entity and relevant law or regulation. Depending on the entity's structure, the agreement may be with management, those charged with governance, or both. When the agreement on the terms of engagement is only with those charged with governance, nonetheless, in accordance with paragraph .31b of section 60, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A26 When a third party has contracted for a review of the entity's financial statements, agreeing the terms of the review with management of the entity is necessary in order to establish that the preconditions for a review are present. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A27 The understanding with management regarding the services to be performed for review engagements is required by paragraph .16 to be in a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common and usually the most convenient method for documenting the understanding with management regarding the services to be performed for review engagements. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A28 Although the accountant may prepare the financial statements, in whole or in part, the financial statements are representations of management, and the fairness of their presentation in accordance with the applicable financial reporting framework is management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A29 Illustrations of engagement letters for a review of financial statements are presented in exhibit A, "Illustrative Engagement Letters." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Communication With Management and Those Charged With Governance (Ref: par. .18)

.A30 In a review engagement, the accountant's communications with management and those charged with governance take the form of

- a. inquiries the accountant makes in the course of performing the procedures for the review and
- b. other communications, in the context of having effective two-way communication to understand matters arising and to develop a constructive working relationship for the engagement.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A31 The appropriate timing for communications will vary with the circumstances of the engagement. Relevant factors include the significance and nature of the matter and any action expected to be taken by management or those charged with governance. For example, it may be appropriate to communicate a significant difficulty encountered during the review as soon as practicable if management or those charged with governance are able to assist the accountant to overcome the difficulty. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A32 Law or regulation may restrict the accountant's communication of certain matters with those charged with governance. For example, law or regulation may specifically prohibit a communication, or other action, that might prejudice an investigation by an appropriate authority into an actual, or suspected, illegal act. In some circumstances, potential conflicts between the accountant's obligations of confidentiality and obligations to communicate may be complex. In such cases, the accountant may consider obtaining legal advice. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Communicating Matters Concerning the Review

.A33 Matters to be communicated to management or those charged with governance, as appropriate, in accordance with this section may include the following:

- The accountant's responsibilities in the review engagement, as included in the engagement letter or other suitable form of written agreement.
- Significant findings from the review, for example
 - the accountant's views about significant qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates, and financial statement disclosures.
 - significant findings from the performance of procedures, including situations when the accountant considered performance of additional procedures necessary in accordance

with this section. The accountant may need to confirm that those charged with governance have the same understanding of the facts and circumstances relevant to specific transactions or events.

- Matters arising that may lead to modification of the accountant's review report.
- Significant difficulties, if any, encountered during the review, for example, unavailability of expected information, unexpected inability to obtain evidence that the accountant considers necessary for the review, or restrictions imposed on the accountant by management. In some circumstances, such difficulties may lead to the accountant's withdrawal from the engagement.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A34 In some entities, different persons are responsible for the management and governance of an entity. In these circumstances, management may have the responsibility to communicate matters of governance interest to those charged with governance. Communication by management with those charged with governance of matters that the accountant is required to communicate does not relieve the accountant of the responsibility to also communicate with those charged with governance. However, communication of these matters by management may affect the form or timing of the accountant's communication with those charged with governance. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Communication With Third Parties

.A35 The accountant may be required by law or regulation to, for example

- notify a regulatory or enforcement body of certain matters communicated with those charged with governance.
- submit copies of certain reports prepared for those charged with governance to relevant regulatory or funding bodies or, in some cases, make such reports publicly available.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A36 Unless required by law or regulation to provide a third party with a copy of the accountant's written communications with those charged with governance, the accountant may need the prior consent of management or those charged with governance before doing so. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Performing the Engagement

Materiality in a Review of Financial Statements (Ref: par. .19)

.A37 The accountant's consideration of materiality is made in the context of the applicable financial reporting framework. Financial reporting frameworks often discuss the concept of materiality in the context of the preparation and presentation of financial statements. Although financial reporting frameworks may discuss materiality in different terms, they generally explain that

- misstatements, including omissions, are considered to be material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.
- judgments about materiality are made in light of surrounding circumstances and affected by the size or nature of a misstatement or a combination of both.
- judgments about materiality involve both qualitative and quantitative considerations.
- judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group. The possible effect of misstatements on specific individual users, whose needs may vary widely, is not considered.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A38 If the applicable financial reporting framework does not include a discussion of the concept of materiality, the characteristics referred to in paragraph .A37 provide the accountant with such a frame of reference. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A39 The accountant's determination of materiality is a matter of professional judgment and is affected by the accountant's perception of the financial information needs of users of the financial statements. For purposes of determining materiality, the accountant may assume that reasonable users

- have a reasonable knowledge of business and economic activities and accounting and a willingness to study the information in the financial statements with reasonable diligence;
- understand that financial statements are prepared, presented, and reviewed to levels of materiality;
- recognize the uncertainties inherent in the measurement of amounts based on the use of estimates, judgment, and the consideration of future events; and
- make reasonable judgments based on the information in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A40 The accountant's judgment about what is material in relation to the financial statements as a whole is the same regardless of the level of assurance obtained by the accountant as a basis for expressing a conclusion on the financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A41 The accountant's determination of materiality for the financial statements as a whole may need to be revised during the engagement as a result of the following:

- A change in the circumstances that occurred during the review (for example, a decision to dispose of a major part of the entity's business)
- New information, or a change in the accountant's understanding of the entity and its environment as a result of performing review procedures (for example, if during the review it appears that actual financial results are likely to be substantially different from anticipated period-end financial results that were used initially to consider materiality for the financial statements as a whole)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Understanding of the Industry (Ref: par. .21)

.A42 The requirement that the accountant possess a level of knowledge of the industry in which the entity operates does not prevent the accountant from accepting a review engagement for an entity in an industry with which the accountant has no previous experience. It does, however, place upon the accountant a responsibility to obtain the required level of knowledge. The accountant may do so, for example, by consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and periodicals, appropriate continuing professional education, or individuals knowledgeable about the industry. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Knowledge of the Entity (Ref: par. .22)

.A43 The accountant may obtain knowledge of the entity through inquiry of the entity's personnel, the review of documents prepared by the entity, or experience with the entity or the entity's industry. Such knowledge includes the following:

- An understanding of the entity's business
- An understanding of the accounting principles and practices used by the entity in measuring, recognizing, recording, and disclosing all significant accounts and disclosures in the financial statements

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A44 The accountant's understanding of the entity's business encompasses a general understanding of the entity's organization; its operating characteristics; and the nature of its assets, liabilities, revenues, and expenses. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Designing and Performing Review Procedures (Ref: par. .24–.25)

.A45 Review evidence obtained through the performance of analytical procedures and inquiry will ordinarily provide the accountant with a reasonable basis for obtaining limited assurance. However, in addition to analytical procedures and inquiries, in certain circumstances and based on the accountant's professional judgment, the accountant may perform procedures ordinarily performed in an audit. In such instances, the engagement remains a review, and the accountant is not required to perform an audit of the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A46 The results of the accountant's analytical procedures and inquiries may modify the accountant's risk awareness. For example, the response to an inquiry that a related party transaction is not disclosed may revise the accountant's awareness of risk relative to related party transactions. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A47 Both quantitative and qualitative factors are considered when determining which items are material to the financial statements, including disclosures, and which areas include increased risk of material misstatement. For example, disclosure of the implementation status of a new accounting standard may not include quantitatively material disclosures but may be qualitatively material such that the accountant would perform inquiry procedures to validate the disclosures presented. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Analytical Procedures (Ref: par. .26–.27)

.A48 Examples of analytical procedures that an accountant may consider performing when conducting a review of financial statements are contained in appendix A, "Analytical Procedures the Accountant May Consider Performing When Conducting a Review of Financial Statements." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A49 Analytical procedures include the consideration of comparisons of the entity's financial information with, for example:

- Comparable information for prior periods
- Anticipated results of the entity, such as budgets or forecasts, or expectations of the accountant, such as an estimation of depreciation
- Similar industry information, such as a comparison of the entity's ratio of sales to accounts receivable and gross margin percentages with industry averages or other entities of comparable size in the same industry

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A50 Analytical procedures also include consideration of relationships, for example:

- Among elements of financial information, such as gross margin percentages, that would be expected to conform to a predictable pattern based on recent history of the entity and industry
- Between financial information and relevant nonfinancial information, such as payroll costs to number of employees

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A51 When considering plausible relationships, the accountant may wish to consider information developed and used by the entity (for example, analyses prepared for management or those charged with governance). [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A52 Expectations developed by the accountant in performing analytical procedures in connection with a review of financial statements may be less precise than those developed in an audit. Also, in a review, the accountant is not required to corroborate management's responses with other evidence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A53 To compare disaggregated revenue data, the accountant may compare, for example, revenue reported by month and product line or operating segment during the current period with that of comparable prior periods. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A54 Various methods may be used to perform analytical procedures. These methods range from performing simple comparisons to performing complex analyses. Analytical procedures may be performed at the financial statement level or at the detailed account level. The nature, timing, and extent of analytical procedures are a matter of professional judgment. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Investigating Results of Analytical Procedures (Ref: par. .28b)

.A55 Although the accountant is not required to corroborate management's responses with other evidence, the need to perform other review procedures may arise when, for example, management is unable to provide an explanation, or the explanation is not considered adequate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Inquiries of Members of Management Who Have Responsibility for Financial and Accounting Matters (Ref: par. .29)

.A56 In addition to members of management who have responsibility for financial and accounting matters, the accountant may determine to direct inquiries to others within the entity and those charged with governance, if appropriate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A57 Additional examples of unusual or complex transactions, events, or matters about which the accountant may inquire of management are as follows:

- Correction of an error
- Business combinations
- New or complex revenue recognition methods
- Impairment of assets
- Disposal of a segment of a business
- Use of derivative instruments and hedging activities
- Sales and transfers that may call into question the classification of investments in securities, including management's intent and ability with respect to the remaining securities classified as held to maturity
- Adoption of new stock compensation plans or changes to existing plans
- Restructuring charges taken in the current and prior periods
- Significant, unusual, or infrequently occurring transactions
- Changes in litigation or contingencies
- Application of new accounting principles
- Changes in accounting principles or the methods of applying them
- Trends and developments affecting accounting estimates, such as allowances for bad debts and excess or obsolete inventories, provisions for warranties and employee benefits, and realization of unearned income and deferred charges
- Compliance with debt covenants
- Material off-balance-sheet transactions, variable interest entities, and other equity investments
- Unique terms for debt or capital stock that could affect classification

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A58 Management may obtain knowledge of fraud or suspected fraud affecting the entity involving management or others when the fraud could have a material effect on the financial statements through, among other things, communications received from employees, former employees, or others. [Paragraph

renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A59 The accountant may obtain and read minutes from meetings of stockholders, the board of directors, committees of the board of directors, or comparable meetings that may affect the financial statements as an effective and efficient procedure to meet the requirement in paragraph .29m to inquire of members of management who have responsibility for financial and accounting matters concerning the financial statements about actions taken at such meetings. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Procedures to Address Specific Circumstances

Related Parties

Understanding the Nature of Significant Transactions Outside the Normal Course of Business (Ref: par. .33a)

.A60 Inquiring into the nature of the significant transactions outside the entity's normal course of business involves obtaining an understanding of the business rationale of the transactions and the terms and conditions under which these have been entered into. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Fraud and Noncompliance With Laws or Regulations (Ref: par. .34)

.A61 The communication of matters involving identified or suspected noncompliance may describe the act of identified or suspected noncompliance, the circumstances of its occurrence, and the effect on the financial statements. The accountant may reach agreement in advance with management and those charged with governance, if applicable, on the nature and amount of matters that would be considered not material and, thus, need not be communicated. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A62 The accountant's professional duty to maintain the confidentiality of client information may preclude reporting identified or suspected noncompliance with laws and regulations to a party outside the entity. However, the accountant's legal responsibilities vary by jurisdiction, and in certain circumstances, the duty of confidentiality may be overridden by statute, the law, or courts of law. In the following circumstances, a duty to notify parties outside the entity may exist:

- In response to a court order
- In compliance with requirements for the reviews of entities that receive financial assistance from a government agency

Because potential conflicts with the accountant's ethical and legal obligations regarding confidentiality may be complex, the accountant may consult with legal counsel before discussing noncompliance with parties outside the entity. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A63 The accountant may consider whether withdrawal from the engagement is necessary when

- management or those charged with governance do not take the remedial action that the accountant considers necessary in the circumstances or
- matters regarding fraud or noncompliance with laws or regulations involve an owner of the business.

When deciding whether withdrawal from the engagement is necessary, the accountant may consider seeking legal advice. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Going Concern (Ref: par. .37–.38)

.A64 The nature and extent of the accountant's review procedures are matters of the accountant's professional judgment. For example, when a history of profitable operations and ready access to financing exists, inquiry alone might be sufficient to review the entity's ability to continue as a going concern for a reasonable period of time. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A65 Certain financial reporting frameworks require management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing financial statements. For example, FASB *Accounting Standards Codification*® (ASC) requires management to evaluate whether there are conditions and events, considered in the aggregate, that raise substantial doubt about an entity's ability to continue as a going concern. Under FASB ASC, the evaluation period is within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable). [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A66 A review of financial statements is not designed to identify conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time. However, conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time may have existed at the date of the prior period financial statements or may be identified as a result of inquiries of management or in the course of performing other review procedures. The significance of such conditions and events will depend on the circumstances, and some may have significance only when viewed in conjunction with others. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A67 The following are examples of conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time:

- *Negative trends.* For example, recurring operating losses, working capital deficiencies, negative cash flows from operating activities, and other adverse key financial ratios
- *Other indications of possible financial difficulties.* For example, defaults on loans or similar agreements, arrearages in dividends, denial of usual trade credit from suppliers, a need to restructure debt to avoid default, noncompliance with statutory capital requirements, and a need to seek new sources or methods of financing or to dispose of substantial assets

- *Internal matters.* For example, work stoppages or other labor difficulties, substantial dependence on the success of a particular project, uneconomic long-term commitments, and a need to significantly revise operations
- *External matters.* For example, legal proceedings, legislation, or similar matters that might jeopardize an entity's ability to operate; loss of a key franchise, license, or patent; loss of a principal customer or supplier; and an uninsured or underinsured catastrophe such as a hurricane, tornado, earthquake, or flood

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A68 The significance of such conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time can often be mitigated by other factors. The following list includes examples of plans that management may implement to mitigate conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time. The examples are not all-inclusive. Following each example is a list of the types of information that management should consider at the date that the financial statements are issued in evaluating the feasibility of the plans to determine whether it is probable⁴ that the plan will be effectively implemented within one year after the date that the financial statements are issued.⁵

- a. Plans to dispose of an asset or business
 - i. Restrictions on disposal of an asset or business, such as covenants that limit those transactions in loans or similar agreements, or encumbrances against the asset or business
 - ii. Marketability of the asset or business that management plans to sell
 - iii. Possible direct or indirect effects of disposal of the asset or business
- b. Plans to borrow money or restructure debt
 - i. Availability and terms of new debt financing or availability and terms of existing debt refinancing, such as term debt, lines of credit, or arrangements for factoring receivables or sale-leaseback of assets
 - ii. Existing or committed arrangements to restructure or subordinate debt or to guarantee loans to the entity
 - iii. Possible effects on management's borrowing plans of existing restrictions on additional borrowing or the sufficiency of available collateral
- c. Plans to reduce or delay expenditures
 - i. Feasibility of plans to reduce overhead or administrative expenditures, to postpone maintenance or research and development projects, or to lease rather than purchase assets

⁴ The FASB ASC Master Glossary defines *probable* as "the future event or events are likely to occur." [Footnote renumbered by the issuance of SSARS No. 24, May 2018.]

⁵ "Pending Content" in FASB ASC 205-40-55-3. [Footnote renumbered by the issuance of SSARS No. 24, May 2018.]

- ii. Possible direct or indirect effects on the entity and its cash flows of reduced or delayed expenditures
- d. Plans to increase ownership equity
 - i. Feasibility of plans to increase ownership equity, including existing or committed arrangements to raise additional capital
 - ii. Existing or committed arrangements to reduce current dividend requirements or to accelerate cash infusions from affiliates or other investors

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A69 In considering the adequacy of disclosure, some of the information that may be disclosed, depending on the requirements of the financial reporting framework, includes the following:

- Principal conditions and events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time
- The possible effects of such conditions and events
- Management's evaluation of the significance of those conditions and events in relation to the entity's ability to meet its obligations and any mitigating factors
- Possible discontinuance of operations
- Management's plans (including relevant prospective financial information) that are intended to mitigate the conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time
- Information about the recoverability or classification of recorded asset amounts or the amounts or classification of liabilities

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Reconciling the Financial Statements to the Underlying Accounting Records (Ref: par. .41)

.A70 To obtain evidence that the financial statements agree or reconcile with the accounting records, the accountant may compare the financial statements to

- the accounting records, such as the general ledger;
- a consolidating schedule derived from the accounting records; or
- other supporting data in the entity's records.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Additional Procedures When the Accountant Becomes Aware That the Financial Statements May Be Materially Misstated (Ref: par. .42)

.A71 Additional procedures are required in accordance with this section if the accountant becomes aware of a matter that causes the accountant to believe the financial statements may be materially misstated. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A72 The accountant's response in undertaking additional procedures with respect to an item the accountant has cause to believe may be materially misstated in the financial statements will vary, depending on the circumstances, and is a matter for the accountant's professional judgment. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A73 The accountant's judgment about the nature, timing, and extent of additional procedures that are needed to obtain review evidence to either conclude that a material misstatement is not likely, or determine that a material misstatement exists, is guided by the following:

- Information obtained from the accountant's evaluation of the results of the procedures already performed
- The accountant's updated understanding of the entity and its environment obtained throughout the course of the engagement
- The accountant's view on the persuasiveness of review evidence needed to address the matter that causes the accountant to believe that the financial statements may be materially misstated

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A74 Additional procedures focus on obtaining sufficient appropriate review evidence to enable the accountant to form a conclusion on matters that the accountant believes may cause the financial statements to be materially misstated. Such procedures may consist of the following:

- Additional inquiry or analytical procedures, for example, being performed in greater detail or focused on the affected items (that is, amounts or disclosures concerning the affected accounts or transactions as reflected in the financial statements)
- Other types of procedures, for example, a substantive test of details or external confirmations

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A75 The following example illustrates the accountant's evaluation of the need to perform additional procedures and the accountant's response when the accountant believes additional procedures are necessary:

In the course of performing the inquiry and analytical procedures for the review, the accountant's analysis of accounts receivable shows a material amount of past due accounts receivable for which there is no allowance for bad or doubtful accounts. This causes the accountant to believe that the accounts receivable balance in the financial statements may be materially misstated. The accountant then inquires of management whether there are uncollectible accounts receivable that would need to be shown as being impaired. Depending on

management's response, the accountant's evaluation of the response may do the following:

- a. Enable the accountant to conclude that the accounts receivable balance is not likely to be materially misstated. In that case, no further procedures are required.
- b. Enable the accountant to determine that the matter causes the financial statements to be materially misstated. No further procedures are required, and the accountant would form the conclusion that the financial statements as a whole are materially misstated.
- c. Lead the accountant to continue to believe that the accounts receivable balance is likely to be materially misstated, while not providing sufficient appropriate review evidence for the accountant to determine that it is, in fact, misstated. In that case, the accountant is required to perform additional procedures, for example, requesting from management an analysis of amounts received for those accounts after the balance sheet date to identify uncollectible accounts receivable. The evaluation of the results of the additional procedures may enable the accountant to get to (a) or (b) preceding. If not, the accountant is required to do one of the following:
 - i. Continue performing additional procedures until the accountant reaches either (a) or (b) preceding
 - ii. If the accountant is not able to either conclude that the matter is not likely to cause the financial statements as a whole to be materially misstated or to determine that the matter does cause the financial statements as a whole to be materially misstated, then, in accordance with paragraph .48, withdraw from the engagement

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Evaluating Review Evidence Obtained From the Procedures Performed (Ref: par. .47)

[.A76–.A77] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.A78 In some circumstances, the accountant may not have obtained the evidence that the accountant had expected to obtain through the design of primarily inquiry and analytical procedures and procedures addressing specific circumstances. In these circumstances, the accountant considers that the review evidence obtained from the procedures performed is not sufficient and appropriate to be able to form a conclusion on the financial statements. The accountant may

- extend the work performed or
- perform other procedures judged by the accountant to be necessary in the circumstances.

When neither of these is practicable in the circumstances, the accountant will not be able to obtain sufficient appropriate review evidence to be able to form a conclusion and is required by this section to determine the effect on the accountant's ability to complete the engagement. This situation may arise even though the accountant has not become aware of a matter or matters that cause

the accountant to believe the financial statements may be materially misstated. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequent Events and Subsequently Discovered Facts

Subsequent Events (Ref: par. .49)

.A79 Evidence or information that subsequent events that require adjustment of, or disclosure in, the financial statements may come to the accountant's attention in the following ways:

- During the performance of review procedures
- Subsequent to the date of the accountant's review report but prior to the release of the report

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequently Discovered Facts That Become Known to the Accountant After the Report Release Date (Ref: par. .54–.57)

.A80 New information may come to the accountant's attention that, had such information been known to the accountant at the date of the accountant's review report, may have caused the accountant to revise the accountant's review report. When such information becomes known to the accountant after the report release date, the requirements in paragraphs .54–.57 apply, even if the accountant has withdrawn or been discharged. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A81 Because of the variety of conditions that might be encountered, the specific procedures or actions to be taken in a particular case may vary somewhat in light of the circumstances. For example, when determining whether the financial statements need revision, as required by paragraph .54b, the accountant may consider, in addition to the requirements of the applicable financial reporting framework, whether the accountant believes persons are currently using, or are likely to use, the financial statements and who would attach importance to the subsequently discovered facts. Consideration may be given, among other things, to the issuance of reviewed or audited financial statements for a subsequent period, the time elapsed since the financial statements were issued, the date of the accountant's review report released, and any legal implications. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A82 The steps taken by management to ensure that anyone in receipt of the reviewed financial statements is informed of the situation, including that the reviewed financial statements are not to be used, depend on the circumstances. Management's steps may include the following:

- Notify anyone who is known to be using, or who is likely to use, the financial statements and the accountant's review report that they are not to be used and that revised financial statements, together with a new accountant's review report, will be issued. This may be

necessary when the issuance of revised financial statements and a new accountant's review report is not imminent.

- Issue, as soon as practicable, revised financial statements with appropriate disclosure of the matter.
- Issue the subsequent period's financial statements with appropriate disclosure of the matter. This may be appropriate when issuance of the subsequent period's reviewed or audited financial statements is imminent.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A83 If management made the reviewed financial statements available to third parties despite the accountant's notification not to do so, or if the accountant believes that management or those charged with governance have failed to take the necessary steps to prevent use of the accountant's review report on the previously issued reviewed financial statements despite the accountant's prior notification that the accountant will take action to seek to prevent such use, the accountant's course of action depends on the accountant's legal and ethical rights and obligations. Consequently, the accountant may consider it appropriate to seek legal advice. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A84 The actions that the accountant may take to seek to prevent use of the accountant's review report may depend on the degree of certainty of the accountant's knowledge that persons or entities exist who are currently using, or who will use, the reviewed financial statements, and who would attach importance to the information, and on the accountant's ability as a practical matter to communicate with them. In addition to seeking legal advice, the accountant may consider taking the following steps to the extent applicable:

- Notify management and those charged with governance that the accountant's review report is not to be used.
- Notify regulatory agencies having jurisdiction over the entity that the accountant's review report is not to be used, including a request that the agency take whatever steps it may deem appropriate to accomplish the necessary disclosure.
- Notify anyone known to the accountant to be using the financial statements that the accountant's review report is not to be used. In some instances, it will not be practicable for the accountant to give appropriate individual notification to stockholders or investors at large whose identities are unknown to the accountant; notification to a regulatory agency having jurisdiction over the entity will usually be the only practical means for the accountant to provide appropriate disclosure, together with a request that the agency take whatever steps it may deem appropriate to accomplish the necessary disclosure.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A85 Depending on the circumstances, if the accountant is able to determine that the financial statements need revision, the accountant's notification to anyone in receipt of the reviewed financial statements may, if permitted by law, regulation, and relevant ethical requirements,

- include a description of the nature of the matter and of its effect on the financial statements, avoiding comments concerning the conduct or motives of any person.
- describe the effect that the matter would have had on the accountant's review report if it had been known to the accountant at the date of the report and had not been reflected in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A86 If the accountant is not able to determine whether the financial statements need revision, the notification to anyone in receipt of the reviewed financial statements may indicate that information became known to the accountant and that, if the information is true, the accountant believes that the accountant's review report is not to be used. The specific matter may not be permitted by law, regulation, and ethical requirements to be detailed in the notification. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Written Representations

Written Representations as Review Evidence (Ref: par. .58)

.A87 Written representations are an important source of review evidence. If management modifies or does not provide the requested written representations, it may alert the accountant to the possibility that one or more significant issues may exist. Further, a request for written, rather than oral, representations, in many cases, may prompt management to consider such matters more rigorously, thereby enhancing the quality of the representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Management From Whom Written Representations Are Requested (Ref: par. .59)

.A88 Written representations are requested from those with overall responsibility for financial and operating matters whom the accountant believes are responsible for, and knowledgeable about, directly or through others in the organization, the matters covered by the representations, including the preparation and fair presentation of the financial statements. Those individuals may vary depending on the governance structure of the entity; however, management (rather than those charged with governance) is often the responsible party. Written representations may, therefore, be requested from the entity's CEO and CFO or other equivalent persons in entities that do not use such titles. However, in some circumstances, other parties, such as those charged with governance, also are responsible for the preparation and fair presentation of the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A89 Due to its responsibility for the preparation and fair presentation of the financial statements and its responsibility for the conduct of the entity's business, management would be expected to have sufficient knowledge of the process followed by the entity in preparing the financial statements on which to base the written representations. [Paragraph renumbered by the issuance

of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A90 In some cases, management may include in the written representations qualifying language to the effect that representations are made to the best of its knowledge and belief. It is reasonable for the accountant to accept such wording if, in the accountant's judgment, the representations are being made by those with appropriate responsibilities and knowledge of the matters included in the representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Specific Written Representations (Ref: par. .60–.61)

.A91 Review evidence obtained during the review that management has acknowledged the responsibilities referred to in paragraph .60a–b is not sufficient without obtaining representation from management that it believes that it has fulfilled those responsibilities. This is because the accountant is not able to judge solely on other review evidence whether management has prepared and fairly presented the financial statements and provided information to the accountant on the basis of the agreed acknowledgment and understanding of its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A92 The written representations relating to fraud required by paragraph .60g–h are important for the accountant to obtain, regardless of the size of the entity, because of the nature of fraud and the difficulties encountered by accountants in detecting material misstatements in the financial statements resulting from fraud. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A93 Because the preparation of financial statements requires management to adjust the financial statements to correct material misstatements, the accountant is required to request that management provide a written representation about uncorrected misstatements. In some circumstances, management may not believe that certain uncorrected misstatements are misstatements. For that reason, management may want to add to their written representation words such as "We do not agree that items ... and ... constitute misstatements because [*description of reasons*]." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A94 Circumstances in which it may be appropriate to obtain written representations about related parties from those charged with governance in addition to management include the following:

- When they have approved specific related party transactions that
 - materially affect the financial statements or
 - involve management
- When they have made specific oral representations to the accountant on details of certain related party transactions

- When they have financial or other interests in the related parties or the related party transactions

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A95 Because written representations are necessary review evidence, the accountant has not obtained limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework and the accountant's review report cannot be dated before the date of the written representations. Furthermore, because the accountant is concerned with events occurring up to the date of the accountant's review report that may require adjustment to, or disclosure in, the financial statements, the written representations are dated as of the date of the accountant's review report on the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A96 The written representations cover all periods referred to in the accountant's review report because management needs to reaffirm that the written representations it previously made with respect to the prior periods remain appropriate. The accountant and management may agree to a form of written representation that updates written representations relating to the prior periods by addressing whether there are any changes to such written representations and, if so, what they are. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A97 Situations may arise in which current management was not present during all periods referred to in the accountant's review report. Such persons may assert that they are not in a position to provide some or all of the written representations because they were not in place during the period. This fact, however, does not diminish such persons' responsibilities for the financial statements as a whole. Accordingly, the requirement for the accountant to request from them written representations that cover the whole of the relevant period(s) still applies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A98 The accountant may request additional representations regarding matters specific to the entity's business or industry. In addition, the accountant is not precluded from obtaining representations regarding services performed in addition to the review engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Form of Written Representations (Ref: par. .62)

.A99 Occasionally, circumstances may prevent management from signing the representation letter and returning it to the accountant on the date of the accountant's review report. In those circumstances, the accountant may accept management's oral confirmation, on or before the date of the accountant's

review report, that management has reviewed the final representation letter and will sign the representation letter without exception as of the date of the accountant's review report. Possession of the signed management representation letter prior to releasing the accountant's review report is necessary because paragraph .62 requires that the representations be in the form of a written letter from management. Furthermore, when there are delays in releasing the report, a fact may become known to the accountant that, had it been known to the accountant at the date of the accountant's review report, might affect the accountant's review report and result in the need for updated representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A100 Exhibit B, "Illustrative Representation Letter," provides an illustrative example of a representation letter. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Forming the Accountant's Conclusion on the Financial Statements

Consideration of the Applicable Financial Reporting Framework in Relation to the Financial Statements (Ref: par. .64--.66)

.A101 The description of the applicable financial reporting framework in the financial statements is important because it advises users of the financial statements of the framework on which the financial statements are based. If the financial statements are special purpose financial statements, they may be prepared under a special purpose financial reporting framework that is available only to the engaging party and the accountant. Description of the special purpose financial reporting framework used is important because the special purpose financial statements may not be appropriate for any use other than the intended use identified. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A102 A description of the applicable financial reporting framework that contains imprecise qualifying or limiting language (for example, "the financial statements are in substantial compliance with accounting principles generally accepted in the United States") is not an adequate description of that framework because it may mislead users of the financial statements. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A103 In considering the qualitative aspects of the entity's accounting practices, the accountant may become aware of possible bias in management's judgments. The accountant may conclude that the cumulative effect of a lack of neutrality, together with the effect of apparent uncorrected misstatements, causes the financial statements as a whole to be materially misstated. Indicators of a lack of neutrality that may affect the accountant's evaluation of whether the financial statements as a whole may be materially misstated include the following:

- The selective correction of apparent misstatements brought to management's attention during the review (for example,

correcting misstatements with the effect of increasing reported earnings but not correcting misstatements that have the effect of decreasing reported earnings)

- Possible management bias in the making of accounting estimates

[Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A104 Indicators of possible management bias do not necessarily mean there are misstatements for purposes of drawing conclusions on the reasonableness of individual accounting estimates. They may, however, affect the accountant's consideration of whether the financial statements as a whole may be materially misstated. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Evaluation of Whether the Financial Statements Achieve Fair Presentation (Ref: par. .66b)

.A105 The accountant's professional judgment concerning the fairness of the presentation of the financial statements is applied within the context of the financial reporting framework. Without that framework, the accountant would have no consistent standard for evaluating the presentation of financial position, results of operations, and cash flows in financial statements. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Financial Statements Are Materially Misstated (Ref: par. .71)

.A106 Unless prohibited by law or regulation, the accountant may determine it appropriate to withdraw from the engagement when the accountant has determined, based on the procedures performed and the review evidence obtained, that the financial statements are materially misstated. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Reporting on the Financial Statements (Ref: par. .75)

.A107 A written report encompasses reports issued in hard copy format and those using an electronic medium. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A108 Financial statements that the accountant has reviewed may become unattached from the accountant's review report. To minimize the possibility that a user of the reviewed financial statements may infer, through the accountant's association with the reviewed financial statements, an unintended level of reliance on the reviewed financial statements, the accountant may consider including a reference on each page of the reviewed financial statements to the accountant's review report. An example of a reference to the accountant's review report included on each page of the reviewed financial statements is "See independent accountant's review report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A109 When the accountant is unable to perform the inquiry, analytical procedures, and other review procedures the accountant considers necessary

to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework, or management does not provide the accountant with a representation letter, the review will be incomplete. A review that is incomplete does not provide an adequate basis for issuing a review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Accountant's Review Report (Ref: par. .76)

Title

.A110 An appropriate title would be "Independent Accountant's Review Report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Addressee

.A111 The accountant's review report is normally addressed to those for whom the report is prepared. The report may be addressed to the entity whose financial statements are being reviewed or to those charged with governance. A report on financial statements of an unincorporated entity may be addressed as circumstances dictate (for example, to the partners, general partner, or proprietor). Occasionally, an accountant may be retained to review the financial statements of an entity that is not a client; in such a case, the report may be addressed to the entity and not to those charged with governance of the entity whose financial statements are being reviewed. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Introductory Paragraph

.A112 The introductory paragraph states, for example, that the accountant has "reviewed the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity and cash flows for the year then ended, and the related notes to the financial statements." If the financial statements include a separate statement of changes in stockholders' equity accounts or a separate statement of comprehensive income, paragraph .76ciii requires such statements to be identified in the introductory paragraph of the report as a statement to which the financial statements are comprised. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A113 When the accountant is aware that the reviewed financial statements will be included in a document that contains other information, such as an annual report, the accountant may consider, if the form of presentation allows, identifying the page numbers on which the reviewed financial statements are presented. This helps users identify the financial statements to which the accountant's review report relates. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the

issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A114 The identification of the title for each statement that the financial statements comprise may be achieved by referencing the table of contents. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Management's Responsibility

.A115 Management, and when appropriate, those charged with governance, accept responsibility for the preparation of the financial statements in accordance with the applicable financial reporting framework, including their fair presentation. Management also accepts responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. The description of management's responsibilities in the accountant's review report includes reference to both responsibilities because it helps explain to users the premise on which a review is conducted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Accountant's Responsibility

.A116 The accountant's review report states that the accountant's responsibility is to conduct the review engagement in accordance with SSARSs promulgated by the Accounting and Review Services Committee of the AICPA in order to contrast it to management's responsibility for the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A117 The reference to the standards used conveys to users of the accountant's review report that the review engagement has been conducted in accordance with established standards. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A118 The accountant is not permitted to represent compliance with SSARSs in the accountant's review report unless the accountant has complied with the relevant requirements within the body of SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Basis for Modification Paragraph When the Conclusion Is Modified

.A119 An adverse conclusion relating to a specific matter described in the basis for modification paragraph does not justify the omission of a description of other identified matters that would have otherwise required a modification of the accountant's conclusion. In instances in which other identified matters would have otherwise required a modification of the accountant's conclusion, the disclosure of such other matters of which the accountant is aware may be relevant to users of the financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Signature of the Auditor

.A120 In some cases, law or regulation may allow for the use of electronic signatures in the accountant's review report. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2025, by SSARS No. 26.]

.A121 In certain situations, the accountant's review report may be required by law or regulation to include the personal name and signature of the accountant, in addition to the accountant's firm. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2025, by SSARS No. 26.]

Accountant's Address

.A122 The city and state where the accountant practices may be indicated on letterhead that contains the issuing office's city and state. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Date of the Accountant's Review Report

.A123 The date of the accountant's review report informs users of the accountant's review report that the accountant has considered the effect of events and transactions of which the accountant became aware and that occurred up to that date. The accountant's responsibility for events and transactions after the date of the accountant's review report is addressed in paragraphs .49–.57. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A124 Because the accountant's conclusion is provided on the financial statements, and the financial statements are the responsibility of management, the accountant is not in a position to conclude that the accountant has obtained limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework until evidence is obtained that all the statements that the financial statements comprise, including the related notes, have been prepared, and management has accepted responsibility for them. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A125 Exhibit C, "Illustrations of Accountant's Review Reports on Financial Statements," contains illustrations of accountant's review reports on financial statements incorporating the elements required by paragraph .76. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Accountant's Review Report on Financial Statements Prepared in Accordance With a Special Purpose Framework (Ref: par. .13, .77, and .80–.81)

.A126 There may be circumstances in which a regulatory or contractual basis of accounting is based on a general purpose framework established by a designated accounting standard setter, such as GAAP, or by law or regulation but does not comply with all the requirements of that framework. An example is a contract that requires financial statements to be prepared in accordance with most, but not all, of GAAP. If the financial statements purport to be prepared in accordance with a general purpose framework and such financial statements are materially misstated due to a departure from that framework, paragraphs .71–.72 apply. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A127 When it is acceptable in the circumstances of the engagement to report, in accordance with this section, on special purpose financial statements that purport to be prepared in accordance with a regulatory or contractual basis of accounting that is based on a general purpose framework, it is inappropriate for the description of the applicable financial reporting framework in the special purpose financial statements to imply that the special purpose framework includes all the requirements of, or is the same as, the financial reporting framework on which the special purpose framework is based. In the example of the contract in paragraph .A126, the description of the applicable financial reporting framework may refer to the financial reporting provisions of the contract. The requirements in paragraphs .80–.81 are designed to avoid misunderstandings about compliance with the general purpose framework. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A128 The description of the special purpose framework may be included in the financial statement titles, in the notes to the financial statements, or otherwise on the face of the financial statements. Although terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows* or similar unmodified titles, are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in accordance with GAAP, such titles, with appropriate modification, may be used in connection with financial statements prepared in accordance with a special purpose framework. Suitable financial statement titles for financial statements prepared in accordance with a special purpose framework include, but are not limited to

- a modified cash basis financial statement that might be titled
 - "Income Statement—Modified Cash Basis," or
 - "Statement of Cash Receipts and Disbursements."
- financial statements prepared in accordance with the tax basis of accounting that might be titled
 - "Balance Sheet—Tax Basis,"
 - "Statement of Assets, Liabilities, and Equity—Tax Basis,"
 - "Statement of Operations—Tax Basis," or
 - "Statement of Revenue and Expenses—Tax Basis."

- a financial statement prepared in accordance with a regulatory basis of accounting that might be titled "Statement of Income—Regulatory Basis."

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A129 The description of how the special purpose framework differs from GAAP ordinarily includes only the material differences between GAAP and the special purpose framework. For example, if several items are accounted for differently in accordance with the special purpose framework than they would be in accordance with GAAP, but only the differences in how depreciation is calculated are material, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described. The differences need not be quantified. [Paragraph subsequently renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A130 Financial statements prepared when applying a special purpose framework are not considered appropriate in form unless the financial statements include informative disclosures similar to those required by GAAP if the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

[.A131] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A132 Special purpose financial statements may be used for purposes other than those for which they were intended. To avoid misunderstandings, paragraph .80 requires the accountant to include an emphasis-of-matter paragraph in the accountant's review report that alerts users of the accountant's review report that the financial statements are prepared in accordance with a special purpose framework and that the basis of accounting is a basis of accounting other than GAAP. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A133 Financial statements prepared in accordance with a special purpose framework may be the only financial statements an entity prepares. Such special purpose financial statements may be used by users other than those for whom the financial reporting framework is designed. Despite the broad distribution of the financial statements, the financial statements are still considered to be special purpose financial statements for purposes of SSARSs. The requirement in paragraph .80 is designed to avoid misunderstandings about the framework used to prepare the financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A134 If the special purpose financial statements are prepared in accordance with a contractual basis of accounting, paragraph .81 requires the accountant to include an other-matter paragraph in the accountant's review report, under an appropriate heading, that restricts the use of the accountant's review report to specified parties pursuant to paragraphs .103–.104. In the case of special purpose financial statements prepared in accordance with a basis of accounting other than a contractual basis, the accountant may consider it necessary in the circumstances of the engagement to include an alert that restricts the use of the accountant's review report but is not required to do so. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Comparative Financial Statements (Ref: par. .82)

.A135 The level of information included for the prior periods in comparative financial statements is comparable with that of financial statements of the current period. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A136 If one firm of accountants merges with another firm, and the new firm becomes the accountant of a client of one of the two former firms, the new firm may accept responsibility and issue a review report on the financial statements for the prior period(s) as well as for those of the current period. The new firm may indicate in the accountant's review report or as part of the signature that a merger took place and may name the firm with whom it was merged. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Updating the Report (Ref: par. .83)

.A137 An updated report is issued in conjunction with the continuing accountant's report on the current period financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Changed Reference to a Departure From the Applicable Financial Reporting Framework (Ref: par. .86)

.A138 A changed reference includes the removal of a prior reference or the inclusion of a new reference. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

[**A139–A142**] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020. Paragraphs subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Emphasis-of-Matter and Other-Matter Paragraphs in the Accountant's Review Report (Ref: par. .89 and .91)

.A143 The accountant is required to include an emphasis-of-matter or other-matter paragraph in the accountant's review report relating to the following matters:

- In accordance with paragraph .55c with respect to reporting when management revises financial statements for a subsequently discovered fact that became known to the accountant after the report release date and the accountant's review report on the revised financial statements differs from the accountant's review report on the original financial statements
- In accordance with paragraphs .80–.81 with respect to financial statements prepared in accordance with a special purpose framework
- In accordance with paragraph .86 with respect to a changed reference to a departure from the applicable financial reporting framework when reporting on comparative financial statements
- In accordance with paragraph .87 with respect to reporting on comparative financial statements when the prior period is audited
- In accordance with paragraph .109 when, after considering conditions or events and management's plans, the accountant concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains
- In accordance with paragraph .123 with respect to supplementary information that accompanies reviewed financial statements and the accountant's review report thereon
- In accordance with paragraph .124 with respect to required supplementary information

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Emphasis-of-Matter Paragraphs in the Accountant's Review Report (Ref: par. .89–.90)

.A144 In addition to the required emphasis-of-matter paragraphs listed in paragraph .A143, the following are examples of circumstances when the accountant may consider it necessary to include an emphasis-of-matter paragraph:

- An uncertainty relating to the future outcome of unusually important litigation or regulatory action
- A major catastrophe that has had, or continues to have, a significant effect on the entity's financial position

- Significant transactions with related parties
- Unusually important subsequent events

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A145 Paragraph .89 requires that an emphasis-of-matter paragraph refer only to matters appropriately presented or disclosed in the financial statements. To include information in an emphasis-of-matter paragraph about a matter beyond what is presented or disclosed in the financial statements may raise questions about the appropriateness of such presentation or disclosure. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A146 Another heading may be considered appropriate if it adequately describes the nature of the matter being disclosed or communicated. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A147 The accountant may add further context to the heading "Emphasis of Matter" (for example, "Emphasis of Matter — Subsequent Event") to further describe the nature of the matter addressed by the emphasis-of-matter paragraph. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A148 The inclusion of an emphasis-of-matter paragraph in the accountant's review report does not affect the accountant's conclusion. An emphasis-of-matter paragraph is not a substitute for the following:

- A modified conclusion in accordance with paragraphs .69–.74 when required by the circumstances of a specific review engagement
- Disclosures in the financial statements that the applicable financial reporting framework requires management to make
- Reporting in accordance with paragraphs .109–.112 when, after considering identified conditions or events and management's plans, the accountant concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains, in which case the accountant is required to include a separate section in the accountant's report

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Other-Matter Paragraphs in the Accountant's Review Report (Ref: par. .91)

.A149 If not properly presented or disclosed in the financial statements, a matter cannot be included in an emphasis-of-matter paragraph. However, if the matter is relevant to users' understanding of the review, the accountant's responsibilities, or the accountant's review report, the matter can be disclosed in an other-matter paragraph. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A150 An entity may prepare one set of financial statements in accordance with a general purpose framework (for example, accounting principles generally accepted in the United States of America) and another set of financial statements in accordance with another general purpose framework (for example, International Financial Reporting Standards promulgated by the International Accounting Standards Board) and may engage the accountant to review both sets of financial statements. If the accountant has determined that the frameworks are acceptable in the respective circumstances, the accountant may include an other-matter paragraph in the accountant's review report referring to the fact that another set of financial statements has been prepared by the same entity in accordance with another general purpose framework and that the accountant has issued a review report on those financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A151 The content of an other-matter paragraph reflects clearly that such other matter is not required to be presented and disclosed in the financial statements. An other-matter paragraph does not include information that the accountant is prohibited from providing by law, regulation, or other professional standards (for example, ethical standards relating to the confidentiality of information). An other-matter paragraph does not include information that is required to be provided by management. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Communication With Management (Ref: par. .93)

.A152 The accountant's communication with management, as described in paragraph .93, enables management to be made aware of the nature of any specific matters that the accountant intends to highlight in the accountant's review report and provides them with an opportunity to obtain further clarification from the accountant, when necessary. When the inclusion of an other-matter paragraph on a particular matter in the accountant's review report recurs on each successive engagement, the accountant may determine that it is unnecessary to repeat the communication on each engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A153 In addition to management, the accountant may also consider it appropriate to communicate with those charged with governance regarding the expectation of including an other-matter paragraph in the accountant's review

report and the proposed wording of this paragraph. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Correction of a Material Misstatement in Previously Issued Financial Statements (Ref: par. .94–.95)

.A154 The requirement for the accountant to include an emphasis-of-matter paragraph in the accountant's review report when there are adjustments to correct a material misstatement in previously issued financial statements applies when comparative or single-year financial statements are presented. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A155 A change from an accounting principle that is not in accordance with the applicable financial reporting framework to one that is in accordance with the applicable financial reporting framework is a correction of a misstatement. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A156 Paragraphs .54–.55 address the accountant's responsibilities when adjustments have been made to correct a material misstatement in previously issued financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A157 The following is an example of an emphasis-of-matter paragraph when there has been a correction of a material misstatement in previously issued financial statements:

Emphasis of Matter

As discussed in Note X to the financial statements, the 20X2 financial statements have been restated to correct a misstatement. Our conclusion is not modified with respect to this matter.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

Other Reporting Responsibilities (Ref: par. .97)

.A158 These other reporting responsibilities are addressed in a separate section of the accountant's report, to clearly distinguish them from the accountant's responsibility in accordance with this section to report on the financial statements. Where relevant, this section may contain subheadings that describe the content of the other reporting responsibilities paragraph or paragraphs. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

[.A159–.A164]⁶ [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020. Paragraphs subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

⁶ [Footnote renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Alert That Restricts the Use of the Accountant's Review Report (Ref: par. .103)

.A165 The need for an alert that restricts the use of the accountant's review report arises from the potential for the accountant's review report to be misunderstood if taken out of the context in which the accountant's review report is intended to be used. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A166 Accountant's review reports on financial statements prepared in accordance with a general purpose framework ordinarily do not include an alert that restricts their use. A general purpose framework is a financial reporting framework designed to meet the common financial information needs of a wide range of users. However, nothing in SSARSs precludes an accountant from including an alert in any accountant's review report. For example, financial statements prepared specifically for use in an acquisition may be prepared in accordance with a general purpose framework because the parties involved in the transaction have agreed that such general purpose financial statements are appropriate for their purposes. Nevertheless, when the terms of the engagement to review those financial statements require the accountant to supply the accountant's review report only to specified parties, the accountant may consider it necessary in the circumstances to include an other-matter paragraph in the accountant's review report that restricts the use of the accountant's review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Distribution of the Accountant's Review Report (Ref: par. .103)

.A167 An accountant is not responsible for controlling, and cannot control, distribution of the accountant's review report after its release. The alert that restricts the use of the accountant's review report is designed to avoid misunderstandings related to the use of the accountant's review report, particularly if the accountant's review report is taken out of the context in which the accountant's review report is intended to be used. An accountant may consider informing the entity or other specified parties that the accountant's review report is not intended for distribution to parties other than those specified in the accountant's review report. The accountant may, in connection with establishing the terms of the engagement, reach an understanding with the entity that the intended use of the accountant's review report will be restricted and may obtain the entity's agreement that the entity and specified parties will not distribute such accountant's review report to parties other than those identified therein. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Illustrative Alert Language (Ref: par. .104)

.A168 The alert that restricts the use of the accountant's review report may list the specified parties or refer to the specified parties listed elsewhere in

the accountant's review report. The following illustrates language that includes the elements required by paragraph .104:

This report is intended solely for the information and use of *[list or refer to the specified parties]* and is not intended to be, and should not be, used by anyone other than these specified parties.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Adding Other Specified Parties (Ref: par. .105)

.A169 When the accountant is requested to add other parties as specified parties, the accountant may agree to add other parties as specified parties based on the accountant's consideration of factors such as the identity of the other parties and the intended use of the accountant's review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

The Accountant's Consideration of an Entity's Ability to Continue as a Going Concern

[.A170–.A175]^{7–8} [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020. Paragraphs subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Implications for the Accountant's Review Report When Substantial Doubt Exists About the Entity's Ability to Continue as a Going Concern (Ref: .109–.110 and .112)

[.A176] [Paragraph renumbered and deleted by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A177 The identification of substantial doubt is a matter that is important to users' understanding of the financial statements. The use of a separate section with a heading that includes reference to the fact that substantial doubt exists about the entity's ability to continue as going concern alerts users to this circumstance. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A178 The following are illustrations of the statements that are required to be included in the accountant's review report on the financial statements. The following illustrations provide examples in which FASB ASC is the applicable financial reporting framework. If an applicable financial reporting framework other than FASB ASC is used, the wording in the illustrations may need to be adapted to reflect the application of the other financial reporting framework in the circumstances.

^{7–8} [Footnote renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Illustration 1 — An Accountant's Review Report Containing an Unmodified Conclusion and Including a Going Concern Section When Management Is Required Under the Applicable Financial Reporting Framework to Include a Statement in the Notes to the Financial Statements That Conditions or Events Have Been Identified and Substantial Doubt Exists and Disclosure in The Financial Statements Is Adequate

Substantial Doubt About the Company's Ability to Continue as a Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations, has a net capital deficiency, and has stated that substantial doubt exists about the Company's ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding these matters are also described in Note X. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our conclusion is not modified with respect to this matter.

Illustration 2 — An Accountant's Review Report Containing an Unmodified Opinion Conclusion and Including an Emphasis-of-Matter Paragraph Because Substantial Doubt Has Been Alleviated

Emphasis of Matter

As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency. Management's evaluation of the events and conditions and management's plans to mitigate these matters are also described in Note X. Our conclusion is not modified with respect to this matter.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

[A179] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A180 When FASB ASC or the GASB statements are the applicable financial reporting framework used in the preparation of the financial statements, the accountant's conclusion about the entity's ability to continue as a going concern is expressed through the use of the phrase "substantial doubt about its (the entity's) ability to continue as a going concern." In other financial reporting frameworks, a similar term or phrase may be appropriate depending on the requirements of the applicable financial reporting framework. If the applicable financial reporting framework does not include comparable terms, then wording that includes the terms *substantial doubt* and *going concern* may be appropriate. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A181 If conditions or events, considered in the aggregate, have been identified that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time but, based on the review evidence obtained, the accountant concludes that substantial doubt has been alleviated by management's plans and adequate disclosure has been made in the financial statements, the accountant may include an emphasis-of-matter paragraph in

accordance with paragraphs .89–.90, making reference to management's disclosures related to the conditions and events and management's plans related to those conditions or events. In this circumstance, the use of an emphasis-of-matter paragraph is to draw users' attention to the disclosures of the conditions and events and management's plans. It is distinguished from the situation in which the accountant concludes, after considering identified conditions or events and management's plans, that substantial doubt about the entity's ability to continue as a going concern remains, in which case the accountant is required by paragraph .109 to include a separate "Going Concern" section in the accountant's review report.

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A182 As indicated in paragraph .71, in circumstances in which conditions and events have been identified and the accountant concludes that, based on the review evidence obtained, the disclosures are materially misstated, the accountant is required to modify the accountant's review report. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

.A183 Examples of conditional language that are inappropriate to use in the "Going Concern" section include the following:

- If the Company continues to suffer recurring losses from operations and continues to have a net capital deficiency, there may be substantial doubt about its ability to continue as a going concern.
- The Company has been unable to renegotiate its expiring credit agreements. Unless the entity is able to obtain financial support, there is substantial doubt about its ability to continue as a going concern.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A184 In certain circumstances, the accountant may believe it necessary to request that management perform or extend its evaluation to meet the period of time required by the applicable financial reporting framework. If management is unwilling to do so, a qualified or adverse conclusion in the accountant's review report may be appropriate. For example, management may be unwilling to extend its evaluation because it believes it has satisfied the requirements to conclude whether substantial doubt exists about the entity's ability to continue as a going concern for a reasonable period of time when the applicable financial reporting framework requires management to make this evaluation. If, in the accountant's judgment, management's conclusion is not adequately supported, the accountant may conclude that a qualified or adverse conclusion for a departure from the applicable financial reporting framework is appropriate in the circumstances. Paragraphs .69–.74 provide guidance related to the modification of the accountant's conclusion. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by

SSARS No. 25. Paragraph renumbered by the issuance of SSARS No. 26, June 2022.]

[**A185–A192**] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Reference to the Work of Other Accountants in an Accountant's Review Report (Ref: par. .122)

.A193 The accountant of the reporting entity may make reference to any or all other accountants who audited or reviewed significant components. For example, if a significant component is audited or reviewed by an other accountant and a second significant component is audited or reviewed by a different other accountant, the accountant of the reporting entity may decide to make reference to one of the other accountants, both of the other accountants, or neither. The decision is solely at the discretion and judgment of the accountant of the reporting entity. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A194 The disclosure of the magnitude of the portion of the financial statements audited or reviewed by other accountants may be achieved by stating the dollar amounts or percentages of total assets, total revenues, other appropriate criteria, or a combination of these, whichever most clearly describes the portion of the financial statements audited or reviewed by other accountants. When two or more other accountants participate in the audit or review, the dollar amounts or the percentages covered by the other accountants may be stated in the aggregate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A195 Exhibit C contains an example of appropriate reporting in the accountant's review report when reference is made to the audit or review of significant components, such as consolidated and unconsolidated subsidiaries and investees, by other accountants.⁹ [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Determining Whether the Other Accountants Are Familiar with SSARSs or Auditing Standards Generally Accepted in the United States of America, as Applicable (Ref: par. .124b)

.A196 An other accountant's review report stating that the review was conducted in accordance with SSARSs or an auditor's report stating that the audit was conducted in accordance with generally accepted auditing standards (GAAS) is sufficient to make the determination required by paragraph .124b.

⁹ Illustration 6, "An Accountant's Review Report on Comparative Consolidated Financial Statements in Which the Accountant Makes Reference to the Work of Other Accountants Who Were Engaged to Review the Financial Statements of a Significant Component," of exhibit C. [Footnote renumbered by the issuance of SSARS No. 24, May 2018. Footnote subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

When the other accountant has performed a review of the component financial statements in accordance with standards other than SSARSs or an audit of the component financial statements in accordance with auditing standards other than GAAS, the accountant of the reporting entity may evaluate, exercising professional judgment, whether the engagement performed by the other accountant meets the relevant requirements of SSARSs or GAAS, as applicable. For the purposes of complying with paragraph .124*b*, relevant requirements of SSARSs or GAAS are those that pertain to planning and performing the engagement on the component financial statements and do not include those related to the form of the accountant's review or the auditor's report. Reviews performed in accordance with International Standard on Review Engagements 2400 (Revised), *Engagements to Review Historical Financial Statements*, and audits performed in accordance with International Standards on Auditing (ISAs), both of which are promulgated by the International Auditing and Assurance Standards Board (IAASB), are likely to meet the relevant requirements of SSARSs and GAAS, respectively. The other accountants may perform additional procedures in order to meet the relevant requirements of SSARSs or GAAS. The accountant of the reporting entity, having determined that all relevant requirements of SSARSs or GAAS have been met by the other accountant, may decide to make reference to the review or audit of that other accountant in the accountant's review report on the reporting entity's financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A197 When the other accountants are not subject to the AICPA Code of Professional Conduct, compliance by the other accountants with the ethics and independence requirements set forth in the International Ethics Standards Board's *Code of Ethics for Professional Accountants* is sufficient to fulfill the other accountants' ethical responsibilities. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Determining Whether to Make Reference When the Financial Reporting Framework Is Not the Same (Ref: par. .125*b*)

.A198 The greater the number of differences or the greater the significance of the differences between the criteria used for measurement, recognition, presentation, and disclosure of all material items in the component's financial statements in accordance with the financial reporting framework used by the component and the financial reporting framework used by the reporting entity, the less similar the financial reporting frameworks. Financial statements prepared and presented in accordance with International Financial Reporting Standards (IFRS) and *International Financial Reporting Standard for Small- and Medium-Sized Entities*, as issued by the International Accounting Standards Board, are generally viewed as similar to financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). In most cases, special purpose frameworks are not similar to GAAP. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Supplementary Information That Accompanies Reviewed Financial Statements (Ref: par. .126-.128)

[A199] [Paragraph renumbered and deleted by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

A200 The following is an example of how an accountant may word an other-matter paragraph addressing supplementary information when the supplementary information has been subjected to the review procedures applied in the accountant's review of the basic financial statements:

Other Matter

The accompanying *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the review procedures applied in my (our) review of the basic financial statements. I am (We are) not aware of any material modifications that should be made to the supplementary information. I (We) have not audited the supplementary information and do not express an opinion on such information.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

A201 The following is an example of how an accountant may word an other-matter paragraph addressing supplementary information when the supplementary information has not been subjected to the review procedures applied in the review of the basic financial statements:

Other Matter

The accompanying *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. I (We) have not audited or reviewed such information and I (we) do not express an opinion, a conclusion, nor provide any assurance on it.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

A202 Supplementary information may become unattached from the accountant's review report. To minimize the possibility that a user of the supplementary information may infer, through the accountant's association with such information, an unintended level of reliance on it, the accountant may consider including a reference to the accountant's review report on each page of the supplementary information. An example of a reference to the accountant's review report included on each page of the supplementary information is "See independent accountant's review report." [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered

by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Required Supplementary Information (Ref: par. .129–.130)

.A203 Examples of required supplementary information that may accompany reviewed financial statements include the following:

- With respect to common interest realty associations, estimates of current or future costs of major repairs and replacements of common property that will be required in the future as required by FASB *Accounting Standards Codification* 972-235-50-3
- Management's discussion and analysis and budgetary comparison statements as required by GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A204 *Prescribed guidelines* are the authoritative guidelines established by the designated accounting standard-setter for the methods of measurement and presentation of the required supplementary information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A205 Because the required supplementary information accompanies the basic financial statements, the accountant's review report on the financial statements includes a discussion of the responsibility taken by the accountant on that information. However, if the required supplementary information is omitted by the entity, the accountant does not have a responsibility to present that information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Change in Engagement From Audit to Review (Ref: par. .132)

.A206 A request to change the engagement may result from a change in circumstances affecting the entity's requirement for an audit engagement; a misunderstanding regarding the nature of an audit or review engagement; or a restriction on the scope of the audit engagement, whether imposed by management or caused by circumstances. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A207 A change in circumstances that affects the entity's requirement for an audit engagement or a misunderstanding concerning the nature of an audit

or review engagement would ordinarily be considered a reasonable basis for requesting a change in the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A208 The implications of a restriction on the scope of the audit engagement include the possibility that information affected by the scope restriction may be incorrect, incomplete, or otherwise unsatisfactory. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Review Documentation (Ref: par. .137)

.A209 Review documentation may be recorded on paper or on electronic or other media. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A210 The accountant need not include in review documentation superseded drafts of working papers and financial statements, notes that reflect incomplete or preliminary thinking, previous copies of documents corrected for typographical or other errors, and duplicates of documents. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A211 The accountant is not precluded from supporting the review report by other means in addition to the review documentation. Such other means might include written documentation contained in other engagement files (for example, compilation or nonattest services) or quality control files (for example, consultation files) and, in limited situations, oral explanations. On their own, oral explanations by the accountant do not represent adequate support for the work the accountant performed or conclusions reached, but they may be used to explain or clarify information contained in the review documentation. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A212 In the case of a review in which the engagement partner performs all the review work, the engagement partner is still required to comply with the overriding requirement in paragraph .137 to prepare review documentation that can be understood by an experienced accountant because the review documentation may be subject to review by external parties. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

.A213 Findings or issues that, in the accountant's professional judgment, are significant may include the results of review procedures that indicate that

the financial statements could be materially misstated, including actions taken to address such findings and the basis for the final conclusions. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Appendix A — Analytical Procedures the Accountant May Consider Performing When Conducting a Review of Financial Statements (Ref: par. .A29)

Analytical procedures are designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement of the financial statements. Examples of analytical procedures that an accountant may consider performing in a review of financial statements include the following:

- Comparing current financial statements with the financial statements of the prior period.
- Comparing current financial statements with anticipated results, such as budgets or forecasts (for example, comparing tax balances and the relationship between the provision for income taxes and pretax income in the current financial statements with corresponding information in [a] budgets, using expected rates, and [b] financial statements for prior periods). Caution is necessary when comparing and evaluating current financial statements with budgets, forecasts, or other anticipated results because of the inherent lack of precision in estimating the future and the susceptibility of such information to manipulation and misstatement by management to reflect desired results.
- Comparing current financial statements with relevant nonfinancial information.
- Comparing ratios and indicators for the current period with expectations based on prior periods (for example, performing gross profit analysis by product line and operating segment using elements of the current financial statements and comparing the results with corresponding information for prior periods). Examples of key ratios and indicators are the current ratio, receivable turnover or days sales outstanding, inventory turnover, depreciation to average fixed assets, debt to equity, gross profit percentage, net income percentage, and plant operating rates.
- Comparing ratios and indicators for the current period with those of entities in the same industry.
- Comparing relationships among elements in the current financial statements with corresponding relationships in the financial statements of prior periods (for example, expense by type as a percentage of sales, assets by type as a percentage of total assets, and percentage of change in sales to percentage of change in receivables).
- Comparing disaggregated data. The following are examples of how data may be disaggregated:
 - By period (for example, financial statement items disaggregated into quarterly, monthly, or weekly amounts)
 - By product line or operating segment
 - By location (for example, subsidiary, division, or branch)

Analytical procedures may include such statistical techniques as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

[.A215] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

Exhibit A — Illustrative Engagement Letters (Ref: par. .A29)

Illustration 1 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 2 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

The illustrative engagement letters in this exhibit are intended as illustrations that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances, and the illustrations are drafted to refer to a review engagement for a single reporting period. The accountant may seek legal advice about whether a proposed letter is suitable.

Illustration 1 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements, including related notes, subject to the review engagement.
- The financial statements will be prepared in accordance with accounting principles generally accepted in the United States of America.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements and perform a review engagement with respect to those financial statements.³ We are pleased to confirm our acceptance and understanding of this engagement by means of this letter.

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the review engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A25.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you and
- b. obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including ethical principles of integrity, objectivity, professional competence, and due care.

A review engagement includes primarily applying analytical procedures to your financial data and making inquiries of company management. A review engagement is substantially less in scope than an audit engagement, the objective of which is the expression of an opinion regarding the financial statements as a whole. A review engagement does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed in an audit engagement. Accordingly, we will not express an opinion regarding the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by error or fraud, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations. However, we will inform the appropriate level of management of any material errors and any evidence or information that comes to our attention during the performance of our review procedures that indicates fraud may have occurred. In addition, we will report to you any evidence or information that comes to our attention during the performance of our review procedures regarding noncompliance with laws and regulations that may have occurred, unless they are clearly inconsequential.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with accounting principles generally accepted in the United States of America. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and the inclusion of all informative disclosures that are appropriate for accounting principles generally accepted in the United States of America

- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities
- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the review engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries
- h. To provide us, at the conclusion of the engagement, with a letter that confirms certain representations made during the review

You are also responsible for all management decisions and responsibilities, and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of services performed and accepting responsibility for such services.

Our Report

[Insert appropriate reference to the expected form and content of the accountant's review report. Example follows.]

We will issue a written report upon completion of our review of ABC Company's financial statements. Our report will be addressed to the board of directors of ABC Company. We cannot provide assurance that an unmodified accountant's review report will be issued. Circumstances may arise in which it is necessary for us to report known departures from accounting principles generally accepted in the United States of America, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement. If, for any reason, we are unable to complete the review of your financial statements, we will not issue a report on such statements as a result of this engagement.

You agree to include our accountant's review report in any document containing financial statements that indicates that such financial statements have been reviewed by us and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services. . .

[The accountant may include language, such as the following, regarding limitation of or other arrangements regarding the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's

knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a review of those same financial statements and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

[Signed]

[Name and Title]

[Date]

[Revised, February 2015, to include additional required engagement letter elements; Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Illustration 2 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements, including related notes, subject to the review engagement.
- The financial statements will be prepared in accordance with the tax basis of accounting.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the statement of assets, liabilities, and equity—tax basis as of December 31, 20XX, and the related statements of operations and retained earnings—tax basis, and cash flows—tax basis for the year then ended, and the related notes to the financial statements and to perform a review engagement with respect to those financial statements.³ We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the review engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A25.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with the tax basis of accounting based on information provided by you and
- b. obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the tax basis of accounting.

We will conduct our review engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including ethical principles of integrity, objectivity, professional competence, and due care.

A review engagement includes primarily applying analytical procedures to your financial data and making inquiries of company management. A review engagement is substantially less in scope than an audit engagement, the objective of which is the expression of an opinion regarding the financial statements as a whole. A review engagement does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed in an audit engagement. Accordingly, we will not express an opinion regarding the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by error or fraud, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations. However, we will inform the appropriate level of management of any material errors and any evidence or information that comes to our attention during the performance of our review procedures that indicates fraud may have occurred. In addition, we will report to you any evidence or information that comes to our attention during the performance of our review procedures regarding noncompliance with laws and regulations that may have occurred, unless they are clearly inconsequential.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with the tax basis of accounting and to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the tax basis of accounting. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- a. The selection of the tax basis of accounting as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of the financial statements in accordance with the tax basis of accounting and the inclusion of all informative disclosures that are appropriate for the tax basis of accounting. This includes
 - i. a description of the tax basis of accounting, including a summary of significant accounting policies, and how the tax basis of accounting differs from accounting principles

generally accepted in the United States of America, the effects of which need not be qualified

- ii. informative disclosures similar to those required by accounting principles generally accepted in the United States of America
- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities
- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the review engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries
- h. To provide us, at the conclusion of the engagement, with a letter that confirms certain representations made during the review

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

[Insert appropriate reference to the expected form and content of the accountant's review report. Example follows.]

We will issue a written report upon completion of our review of ABC Company's financial statements. Our report will be addressed to the board of directors of ABC Company. We cannot provide assurance that an unmodified accountant's review report will be issued. Circumstances may arise in which it is necessary of us to report known departures from the tax basis of accounting, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement. If, for any reason, we are unable to complete the review of your financial statements, we will not issue a report on such statements as a result of this engagement.

Our report will state that the financial statements are prepared in accordance with tax basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our conclusion will not be modified with respect to this matter.

You agree to include our accountant's review report in any document containing financial statements that indicates that such financial statements have been reviewed by us and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services. . .

[The accountant may include language, such as the following, regarding limitation of or other arrangements regarding the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a review with respect to those same financial statements and our respective responsibilities. Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

[Signed]

Exhibit B — Illustrative Representation Letter (Ref: par. .A97)

The following illustrative letter is intended as an illustration that may be used to comply with the requirements of section 90. The representation letter will vary according to individual requirements and circumstances.

It is assumed in this illustration that the applicable financial reporting framework is accounting principles generally accepted in the United States of America, that no conditions or events exist that might be indicative of the entity's inability to continue as a going concern, and that no exceptions exist to the requested written representations. If circumstances differ from these assumptions, the representations would need to be modified to reflect the actual circumstances.

(Entity Letterhead)

(To Accountant)

(Date)

This representation letter is provided in connection with your review of the financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity and cash flows for the years then ended, and the related notes to the financial statements, for the purpose of obtaining limited assurance as a basis for reporting whether you are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with accounting principles generally accepted in the United States of America.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We represent that *[to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves]* *[as of (date of accountant's review report)]*:

Financial Statements

- We acknowledge our responsibility and have fulfilled our responsibilities for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America.
- We acknowledge our responsibility and have fulfilled our responsibilities for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
- We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.

- Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.
- Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of accounting principles generally accepted in the United States of America.
- Guarantees, whether written or oral, under which the company is contingently liable have been properly accounted for and disclosed in accordance with the requirements of accounting principles generally accepted in the United States of America.
- Significant estimates and material concentrations known to management that are required to be disclosed in accordance with FASB *Accounting Standards Codification* (ASC) 275, *Risks and Uncertainties*, have been properly accounted for and disclosed in accordance with the requirements of accounting principles generally accepted in the United States of America. [Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.]
- All events occurring subsequent to the date of the financial statements and for which accounting principles generally accepted in the United States of America requires adjustment or disclosure have been properly accounted for.
- The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the financial statements as a whole.
- The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with accounting principles generally accepted in the United States of America.

[Any other matters that the accountant may consider appropriate.]

Information Provided

- We have responded fully and truthfully to all inquiries made to us by you during your review.
- We have provided you with
 - access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters;
 - minutes of meetings of stockholders, directors, and committees of directors or summaries of actions of recent meetings for which minutes have not yet been prepared;
 - additional information that you have requested from us for the purpose of the review; and
 - unrestricted access to persons within the entity from whom you determined it necessary to obtain review evidence.
- All transactions have been recorded in the accounting records and are reflected in the financial statements.

- We have *[no knowledge of any]* *[disclosed to you all information that we are aware of regarding]* fraud or suspected fraud that affects the entity and involves
 - management,
 - employees who have significant roles in internal control, or
 - others when the fraud could have a material effect on the financial statements.
- We have *[no knowledge of any]* *[disclosed to you all information that we are aware of regarding]* allegations of fraud, or suspected fraud, affecting the entity's financial statements as a whole communicated by employees, former employees, analysts, regulators, or others.
- We have no plans or intentions that may materially affect the carrying amounts or classification of assets and liabilities.
- We have disclosed to you all known instances of noncompliance or suspected noncompliance with laws or regulations whose effects should be considered when preparing financial statements.
- We *[have disclosed to you all known actual or possible]* *[are not aware of any pending or threatened]* litigation and claims whose effects should be considered when preparing the financial statements *[and we have not consulted legal counsel concerning litigation or claims]*
- We have disclosed to you any other material liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB ASC 450, *Contingencies*.
- We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.
- We have disclosed to you all information relevant to the use of the going concern assumption in the financial statements.
- No material losses exist (such as from obsolete inventory or purchase or sale commitments) that have not been properly accrued or disclosed in the financial statements.
- The company has satisfactory title to all owned assets, and no liens or encumbrances on such assets exist, nor has any asset been pledged as collateral, except as disclosed to you and reported in the financial statements.
- We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
- We are in agreement with the adjusting journal entries that you have recommended, and they have been posted to the company's accounts (if applicable).

[Any other matters that the accountant may consider necessary.]

[Name of Chief Executive Officer and Title]

[Name of Chief Financial Officer and Title]

Representation letters ordinarily are tailored to include additional appropriate representations from management relating to matters specific to the entity's business or industry.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Exhibit C — Illustrations of Accountant's Review Reports on Financial Statements (Ref: par. .A125 and .A193)

The illustrative accountant's review reports in this exhibit are intended as illustrations that may be used to comply with the requirements of section 90. The accountant's review report will vary according to individual requirements and circumstances.

Illustration 1 — An Accountant's Review Report on Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When a Review Has Been Performed for Both Periods

Illustration 2 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 3 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Illustration 4 — An Accountant's Review Report on Interim Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 5 — An Accountant's Review Report on Comparative Financial Statements Disclosing a Departure From Accounting Principles Generally Accepted in the United States of America

Illustration 6 — An Accountant's Review Report on Comparative Consolidated Financial Statements in Which the Accountant Makes Reference to the Work of Other Accountants Who Were Engaged to Review the Financial Statements of a Significant Component

Illustration 7 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America Containing an Adverse Conclusion Due to a Misstatement of the Financial Statements That Is Both Material and Pervasive to the Financial Statements

Illustration 1 — An Accountant's Review Report on Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When a Review Has Been Performed for Both Periods

Circumstances include the following:

- Review of a complete set of comparative financial statements.
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

Accountant's Conclusion

Based on my (our) reviews, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 2 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Review of a complete set of financial statements (single year).
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 3 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- Review of a complete set of financial statements (single year).
- The financial statements are of a partnership and prepared in accordance with the basis of accounting the partnership uses for income tax purposes (that is, a special purpose framework).
- Management has a choice of financial reporting frameworks.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Partnership, which comprise the statement of assets, liabilities, and partners' capital—tax basis as of December 31, 20XX, and the related statements of revenue and expenses—tax basis, and partners' capital—tax basis for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (partners') financial data and making inquiries of partnership management (partners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Partners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting the partnership uses for income tax purposes; this includes determining that the basis of accounting the partnership uses for income tax purposes is an acceptable basis for the preparation of financial statements in the circumstances. Management (Partners) is (are) also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with the basis of accounting the partnership uses for income tax purposes. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Partnership and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with the basis of accounting the partnership uses for income tax purposes.

Basis of Accounting

I (We) draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared in accordance with the basis of accounting the partnership uses for income tax purposes, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our conclusion is not modified with respect to this matter.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 4 — An Accountant's Review Report on Interim Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Review of a complete set of interim financial statements for the period ended September 30, 20XX, and for the three and nine months then ended.
- The interim financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.
- The accountant appropriately performs the engagement in accordance with SSARs (that is, AU-C section 930, *Interim Financial Information*, is not applicable).

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying interim financial statements of XYZ Company, which comprise the balance sheet as of September 30, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the three and nine months then ended, and the related notes to the interim financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the interim financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these interim financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the interim financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying interim financial statements in order

for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 5 — An Accountant's Review Report on Comparative Financial Statements Disclosing a Departure From Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Review of a complete set of comparative financial statements.
- The financial statements contain a departure from accounting principles generally accepted in the United States of America.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

Basis for Qualified Conclusion

As disclosed in Note X to these financial statements, accounting principles generally accepted in the United States of America require that inventory cost consist of material, labor, and overhead. Management has informed me (us) that

the inventory of finished goods and work in process is stated in the accompanying financial statements at material and labor cost only, and that the effects of this departure from accounting principles generally accepted in the United States of America on financial position, results of operations, and cash flows have not been determined.

or

As disclosed in Note X to these financial statements, the company has adopted *[description of newly adopted method]*, whereas it previously used *[description of previous method]*. Although the *[description of newly adopted method]* is in accordance with accounting principles generally accepted in the United States of America, the company does not appear to have reasonable justification for making a change as required by FASB *Accounting Standards Codification 250, Accounting Changes and Error Corrections*.

Qualified Conclusion

Based on my (our) reviews, except for the effect of the matter described in the Basis for Qualified Conclusion paragraph, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 6 — An Accountant's Review Report on Comparative Consolidated Financial Statements in Which the Accountant Makes Reference to the Work of Other Accountants Who Were Engaged to Review the Financial Statements of a Significant Component

Circumstances include the following:

- Review of a complete set of comparative consolidated financial statements.
- The financial statements of B Company, a wholly-owned subsidiary, whose financial statements reflect total assets constituting 20 percent and 22 percent, respectively, of consolidated total assets at December 31, 20X2 and 20X1, and total revenues constituting 18 percent and 20 percent, respectively, of consolidated total revenues for the years then ended, were reviewed by other accountants, and the accountant has decided to make reference to the work of other accountants in the accountant's review report.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying consolidated financial statements of XYZ Company and its subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X2 and 20X1, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services (SSARSs) promulgated by the Accounting and Review Services Committee of the AICPA. We have not reviewed the financial statements of B Company, a wholly-owned subsidiary, whose financial statements reflect total assets constituting 20 percent and 22 percent, respectively, of consolidated total assets at December 31, 20X2 and 20X1, and total revenues constituting 18 percent and 20 percent, respectively, of consolidated total revenues for the years then ended. These statements were reviewed by other accountants, whose report has been furnished to me (us), and our conclusion, insofar as it relates to the amounts included for B Company, is based solely on the report of the other accountants.

SSARSs require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the consolidated financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

Accountant's Conclusion

Based on my (our) reviews, and the report of other accountants, I am (we are) not aware of any material modifications that should be made to the accompanying consolidated financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 7 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America Containing an Adverse Conclusion Due to a Misstatement of the Financial Statements That Is Both Material and Pervasive to the Financial Statements

Circumstances include the following:

- Review of a complete set of comparative financial statements.
- The financial statements contain a departure from accounting principles generally accepted in the United States of America that is both material and pervasive to the financial statements due to nonconsolidation of a subsidiary.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

Basis for Adverse Conclusion

As disclosed in Note X to these financial statements, the Company has not consolidated the financial statements of subsidiary ABC Company it acquired during 20X1 because it has not yet been able to ascertain the fair values of certain of the subsidiary's material assets and liabilities at the acquisition date. This investment is therefore accounted for on a cost basis by the Company. Under accounting principles generally accepted in the United States of America, the subsidiary should have been consolidated because it is controlled by the Company. Had XYZ Company been consolidated, many elements in the accompanying consolidated financial statements would have been materially affected. The effects on the consolidated financial statements of the failure to consolidate have not been determined.

Adverse Conclusion

Based on my (our) review, due to the significance of the matter described in the Basis for Adverse Conclusion paragraph, the financial statements are not in accordance with accounting principles generally accepted in the United States

3414 Statements on Standards for Accounting and Review Services

of America. [Had we been engaged to perform an audit, other matters might have come to our attention.]

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. Paragraph subsequently renumbered by the issuance of SSARS No. 26, June 2022.]

AR-C Section 90A

Review of Financial Statements

Source: SSARS No. 21; SSARS No. 23; SSARS No. 24; SSARS No. 25.

Effective for reviews of financial statements for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope and Applicability of This Section

.01 This section applies when the accountant is engaged to perform a review of financial statements. This section also applies when the accountant is engaged to review other historical financial information, excluding pro forma financial information. Reviews of pro forma financial information are to be performed in accordance with Statements on Standards for Attestation Engagements. (Ref: par. .A1–.A3) [As amended, effective October 2016, by SSARS No. 23.]

.02 This section does not apply when the accountant is engaged to review interim financial information when

- a. the entity's latest annual financial statements have been audited by the accountant or a predecessor;
- b. the accountant either
 - i. has been engaged to audit the entity's current year financial statements or
 - ii. audited the entity's latest annual financial statements and, in situations in which it is expected that the current year financial statements will be audited, the engagement of another accountant to audit the current year financial statements is not effective prior to the beginning of the period covered by the review; and
- c. the entity prepares its interim financial information in accordance with the same financial reporting framework as that used to prepare the annual financial statements.

AU-C section 930, *Interim Financial Information*, provides guidance for review engagements when the conditions in a–c are met.

The Engagement to Review Financial Statements

.03 In a review of financial statements, the accountant expresses a conclusion regarding the entity's financial statements in accordance with an applicable financial reporting framework. The accountant's conclusion is based on the accountant obtaining limited assurance. The accountant's report includes a description of the nature of a review engagement as context for the readers of the report to be able to understand the conclusion. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.04 The accountant performs primarily analytical procedures and inquiries to obtain sufficient appropriate review evidence as the basis for a conclusion on the financial statements as a whole, expressed in accordance with the requirements of this section. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.05 If the accountant becomes aware of a matter that causes the accountant to believe the financial statements may be materially misstated, the accountant designs and performs additional procedures, as the accountant considers necessary in the circumstances, to be able to conclude on the financial statements in accordance with this section. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Effective Date

.06 This section is effective for reviews of financial statements for periods ending on or after December 15, 2015. Early implementation is permitted. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Objectives

.07 In conducting a review of financial statements, the objectives of the accountant are to

- a. obtain limited assurance, primarily by performing analytical procedures and inquiries, as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework and (Ref: par. .A4)
- b. report on the financial statements as a whole and communicate, as required by this section.

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Definitions

.08 For purposes of Statements on Standards for Accounting and Review Services (SSARSS), the following terms have the meanings attributed as follows:

Analytical procedures. Evaluations of financial information through analysis of plausible relationships among both financial and nonfinancial data. Analytical procedures also encompass such investigation, as is necessary, of identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount.

Comparative financial statements. A complete set of financial statements for one or more prior periods included for comparison with the financial statements of the current period.

Emphasis-of-matter paragraph. A paragraph included in the accountant's review report that is required by SSARSS, or is included at the

accountant's discretion, and that refers to a matter appropriately presented or disclosed in the financial statements that, in the accountant's professional judgment, is of such importance that it is fundamental to the users' understanding of the financial statements.

Error. Mistakes in the financial statements, including arithmetical or clerical mistakes, and mistakes in the application of accounting principles, including inadequate disclosures.

Experienced accountant. An individual (whether internal or external to the firm) who has practical review experience and a reasonable understanding of

- a. review processes;
- b. SSARs and applicable legal and regulatory requirements;
- c. the business environment in which the entity operates; and
- d. review and financial reporting issues relevant to the entity's industry.

Fraud. An intentional act that results in a misstatement in financial statements.

Generally accepted accounting principles (GAAP). References to GAAP in SSARs means generally accepted accounting principles promulgated by bodies designated by the Council of the AICPA pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Historical financial information. Information expressed in financial terms regarding a particular entity, derived primarily from that entity's accounting system, about economic events occurring in past time periods or about economic conditions or circumstances at points in time in the past.

Inquiry. Inquiry consists of seeking information of knowledgeable persons within or outside the entity.

Limited assurance. A level of assurance that is less than the reasonable assurance obtained in an audit engagement but is at an acceptable level as the basis for the conclusion expressed in the accountant's review report. (Ref: par. .A10)

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance, for example, executive members of a governance board or an owner-manager.

Misstatement. A difference between the amount, classification, presentation, or disclosure of a reported financial statement item and the amount, classification, presentation, or disclosure that is required for the item to be presented fairly in accordance with the applicable financial reporting framework. Misstatements can arise from fraud or error.

Misstatements also include those adjustments of amounts, classifications, presentations, or disclosures that, in the accountant's professional judgment, are necessary for the financial statements to be presented fairly, in all material respects.

Modified conclusion. A qualified conclusion or an adverse conclusion.

Noncompliance. Acts of omission or commission by the entity, either intentional or unintentional, which are contrary to the prevailing laws or regulations. Such acts include transactions entered into, by, or in the name of, the entity or on its behalf by those charged with governance, management, or employees. *Noncompliance* does not include personal misconduct (unrelated to the business activities of the entity) by those charged with governance, management, or employees of the entity.

Other-matter paragraph. A paragraph included in the accountant's review report that is required by SSARs, or is included at the accountant's discretion, and that refers to a matter other than those presented or disclosed in the financial statements that, in the accountant's professional judgment, is relevant to users' understanding of the review, the accountant's responsibilities, or the accountant's review report.

Pervasive. A term used, in the context of misstatements, to describe the effects on the financial statements of misstatements. Pervasive effects on the financial statements are those that, in the accountant's judgment

- are not confined to specific elements, accounts, or items of the financial statements;
- if so confined, represent or could represent a substantial portion of the financial statements; or
- with regard to disclosures, are fundamental to users' understanding of the financial statements.

Professional skepticism. An attitude that includes a questioning mind, being alert to conditions that may indicate possible misstatement due to fraud or error, and a critical assessment of review evidence.

Reasonable period of time. The period of time required by the applicable financial reporting framework or, if no such requirement exists, within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable). (Ref: par. .A11)

Report release date. The date the accountant grants the entity permission to use the accountant's review report in connection with the financial statements.

Required supplementary information. Information that a designated accounting standards-setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting standards-setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

Review documentation. The record of review procedures performed, relevant review evidence obtained, and conclusions the accountant

reached (terms such as *working papers* or *workpapers* are also sometimes used).

Review evidence. Information used by the accountant to provide a reasonable basis for obtaining limited assurance. Review evidence includes both information contained in the accounting records underlying the financial statements and other information, which primarily consists of the results of analytical procedures and inquiries. Sufficiency of review evidence is the measure of the quantity of review evidence. Appropriateness of review evidence is the measure of the quality of review evidence, that is, its relevance and reliability in providing support for the conclusions on which the accountant's review report is based.

Specified parties. The intended users of the accountant's review report.

Subsequent events. Events occurring between the date of the financial statements and the date of the accountant's review report.

Subsequently discovered facts. Facts that become known to the accountant after the date of the accountant's review report that, had they been known to the accountant at that date, may have caused the accountant to revise the accountant's review report.

Supplementary information. Information presented outside the basic financial statements, excluding required supplementary information, that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the reviewed financial statements or separate from the reviewed financial statements. (Ref: par. A13–A14)

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of the entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

Updated report. A report issued by a continuing accountant that takes into consideration information that the accountant becomes aware of during the accountant's current engagement and that re-expresses the accountant's previous conclusions or, depending on the circumstances, expresses different conclusions on the financial statements of a prior period reviewed by the accountant as of the date of the accountant's current report.

Written representation. A written statement by management provided to the accountant to confirm certain matters or to support other review evidence. Written representations in this context do not include financial statements, the assertions therein, or supporting books and records.

[As amended, effective October 2016, by SSARS No. 23. As amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Requirements

General Principles for Performing and Reporting on Review Engagements

.09 In addition to complying with this section, an accountant is required to comply with section 60A, *General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Independence

.10 The accountant must be independent of the entity when performing a review of financial statements in accordance with SSARSs. If, during the performance of the review engagement, the accountant determines that the accountant's independence is impaired, the accountant should withdraw from the review engagement. (Ref: par. .A15–.A16) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Professional Skepticism

.11 The accountant should plan and perform the review with professional skepticism, recognizing that circumstances may exist that cause the financial statements to be materially misstated. (Ref: par. .A17–.A21) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Acceptance and Continuance of Client Relationships and Review Engagements

.12 The accountant should not accept a review engagement if, in addition to the requirements in paragraph .25 of section 60A, management or those charged with governance impose a limitation on the scope of the accountant's work in terms of a proposed review engagement such that the accountant believes the limitation will result in the accountant being unable to perform review procedures to provide an adequate basis for issuing a review report. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.13 As a condition for accepting an engagement to review an entity's financial statements, in addition to the requirements in paragraph .26 of section 60A, the accountant should obtain the agreement of management that it acknowledges and understands its responsibility

- a. for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework and the inclusion of all informative disclosures that are appropriate for the applicable financial reporting framework used to prepare the entity's financial statements. If the financial statements are prepared in accordance with a special purpose framework, this includes (Ref: par. .A22)
 - i. a description of the special purpose framework, including a summary of significant accounting policies, and how the framework differs from GAAP, the effect of which need not be quantified, and informative disclosures similar to those

required by GAAP in the case of special purpose financial statements that contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP; (Ref: par. .A126)

- ii. a description of any significant interpretations of the contract on which the special purpose financial statements are based in the case of financial statements prepared in accordance with a contractual basis of accounting; and
 - iii. additional disclosures beyond those specifically required by the framework that may be necessary for the special purpose framework to achieve fair presentation.
- b. to provide the accountant, at the conclusion of the engagement, with a letter that confirms certain representations made during the review.
 - c. to include the accountant's review report in any document containing financial statements that indicates that such financial statements have been reviewed by the entity's accountant unless a different understanding is reached. (Ref: par. .A23)

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.14 If the accountant is not satisfied about any of the matters set out in paragraph .26 of section 60A or paragraph .13 of this section as preconditions for accepting a review engagement, the accountant should discuss the matter with management or those charged with governance. If changes cannot be made to satisfy the accountant about those matters, the accountant should not accept the proposed engagement. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.15 If it is discovered after the engagement has been accepted that the accountant is not satisfied regarding any of the preconditions in paragraph .26 of section 60A or paragraph .13 of this section, the accountant should discuss the matter with management or those charged with governance and should determine the following:

- a. Whether the matter can be resolved
- b. Whether it is appropriate to continue with the engagement
- c. Whether and how to communicate the matter in the accountant's report

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Agreement on Engagement Terms

.16 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be documented in an engagement letter or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A24–.A29)

- a. The objectives of the engagement
- b. The responsibilities of management set forth in paragraph .26b of section 60A and paragraph .13 of this section
- c. The responsibilities of the accountant

- d. The limitations of a review engagement, including a statement that a review is substantially less in scope than an audit and that the accountant will not express an opinion on the financial statements
- e. Identification of the applicable financial reporting framework for the preparation of the financial statements
- f. The expected form and content of the accountant's review report and a statement that there may be circumstances in which the report may differ from its expected form and content

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25. As amended, effective upon issuance for reviews of financial statements, by SSARS No. 26, June 2022.]

.17 The engagement letter or other suitable form of written agreement should be signed by

- a. the accountant or the accountant's firm and
- b. management or those charged with governance, as appropriate.
(Ref: par. .A25)

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Communication With Management and Those Charged With Governance

.18 The accountant should communicate with management or those charged with governance, as appropriate, on a timely basis during the course of the review engagement, all matters concerning the review engagement that, in the accountant's professional judgment, are of significant importance to merit the attention of management or those charged with governance, as appropriate. (Ref: par. .A30–.A36) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Performing the Engagement

Materiality in a Review of Financial Statements

.19 The accountant should determine materiality for the financial statements as a whole and apply this materiality in designing the procedures and evaluating the results obtained from those procedures. (Ref: par. .A37–.A40) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.20 The accountant should revise materiality for the financial statements as a whole if the accountant becomes aware of information during the review that would have caused the accountant to have determined a different amount initially. (Ref: par. .A41) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Understanding of the Industry

.21 To perform the review engagement, the accountant should possess or obtain an understanding of the industry in which the entity operates, including the accounting principles and practices generally used in the industry,

sufficient to enable the accountant to review financial statements that are appropriate for an entity operating in that industry. (Ref: par. .A42) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Knowledge of the Entity

.22 The accountant should obtain knowledge about the entity, including an understanding of

- a. the entity's business and
- b. the accounting principles and practices used by the entity

sufficient to identify areas in the financial statements in which there is a greater likelihood that material misstatements may arise and to be able to design procedures to address those areas. (Ref: par. .A43–.A44) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.23 In obtaining the understanding of the entity's accounting policies and practices, the accountant should be alert to accounting policies and procedures that, based on the accountant's knowledge of the industry, are unusual. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Designing and Performing Review Procedures

.24 The accountant should design and perform analytical procedures and make inquiries and perform other procedures, as appropriate, to obtain sufficient appropriate review evidence as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework based on the accountant's (Ref: par. .A45)

- a. understanding of the industry,
- b. knowledge of the entity, and
- c. awareness of the risk that the accountant may unknowingly issue an inappropriate accountant's review report. (Ref: par. .A46)

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.25 In obtaining sufficient appropriate review evidence as the basis for a conclusion on the financial statements as a whole, the accountant should design and perform the analytical procedures and inquiries to address the following: (Ref: par. .A47)

- a. All material items in the financial statements, including disclosures
- b. Areas in the financial statements where the accountant believes there are increased risks of material misstatements

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Analytical Procedures

.26 The accountant should apply analytical procedures to the financial statements to identify and provide a basis for inquiry about the relationships and individual items that appear to be unusual and that may indicate a material misstatement. Such analytical procedures should include the following: (Ref: par. .A48–.A50)

- a. Comparing the financial statements with comparable information for the prior period, giving consideration to knowledge about changes in the entity's business and specific transactions
- b. Considering plausible relationships among both financial and, when relevant, nonfinancial information (Ref: par. .A51)
- c. Comparing recorded amounts or ratios developed from recorded amounts to expectations developed by the accountant through identifying and using relationships that are reasonably expected to exist, based on the accountant's understanding of the entity and the industry in which the entity operates (Ref: par. .A52)
- d. Comparing disaggregated revenue data, as applicable (Ref: par. .A53)

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.27 When designing and performing analytical procedures, the accountant should (Ref: par. .A54)

- a. determine the suitability of particular analytical procedures;
- b. consider the reliability of data from which the accountant's expectation of recorded amounts or ratios is developed, taking into account the source, comparability, and nature and relevance of information available;
- c. develop an expectation of recorded amounts or ratios and evaluate whether the expectation is sufficiently precise to provide the accountant with limited assurance that a misstatement will be identified that, either individually or when aggregated with other misstatements, may cause the financial statements to be materially misstated; and
- d. determine the amount of any difference of recorded amounts from expected values that is acceptable without further investigation as required by paragraph .28 and compare the recorded amounts, or ratios developed from recorded amounts, with the expectations.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Investigating Results of Analytical Procedures

.28 If analytical procedures identify fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount, the accountant should investigate such differences by

- a. inquiring of management and
- b. performing other review procedures if considered necessary in the circumstances. (Ref: par. .A55)

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Inquiries of Members of Management Who Have Responsibility for Financial and Accounting Matters

.29 The accountant should inquire of members of management who have responsibility for financial and accounting matters concerning the financial statements, and others within the entity, as appropriate, about (Ref: par. .A56)

- a. whether the financial statements have been prepared and fairly presented in accordance with the applicable financial reporting

framework consistently applied, including how management determined that significant accounting estimates are reasonable in the circumstances.

- b.* the identification of related parties and related party transactions, including the purpose of those transactions
- c.* whether there are significant, unusual, or complex transactions, events, or matters that have affected or may affect the entity's financial statements, including the following: (Ref: par. .A57)
 - i.* Significant changes in the entity's business activities or operations
 - ii.* Significant changes to the terms of contracts that materially affect the entity's financial statements, including terms of finance and debt contracts or covenants
 - iii.* Significant journal entries or other adjustments to the financial statements
 - iv.* Significant transactions occurring or recognized during the period, particularly those in the last several days of the reporting period
 - v.* The status of any uncorrected misstatements identified during the previous review (that is, whether adjustments were recorded subsequent to the periods covered by the prior review and, if adjustments were recorded, the amounts recorded and period in which such adjustments were recorded)
 - vi.* Effects or possible implications for the entity of transactions or relationships with related parties
- d.* matters about which questions have arisen in the course of applying the review procedures.
- e.* the existence of any actual, suspected, or alleged
 - i.* fraud or noncompliance with laws and regulations affecting the entity and (Ref: par. .A58)
 - ii.* noncompliance with provisions of laws and regulations that are generally recognized to have a direct effect on the determination of material amounts and disclosures in the financial statements, such as tax and pension laws and regulations.
- f.* whether management has identified and addressed events subsequent to the date of the financial statements that require adjustment of, or disclosure in, the financial statements.
- g.* the basis for management's assessment of the entity's ability to continue as a going concern.
- h.* whether there are events or conditions that appear to cast doubt on the entity's ability to continue as a going concern.
- i.* material commitments, contractual obligations, or contingencies that have affected or may affect the entity's financial statements, including disclosures.
- j.* material nonmonetary transactions or transactions for no consideration in the financial reporting period under consideration.
- k.* communications from regulatory agencies, if applicable.

- l.* any litigation, claims, and assessments that existed at the date of the balance sheet being reported on and during the period from the balance sheet date to the date of management's response to the accountant's inquiry.
- m.* actions taken at meetings of stockholders, the board of directors, committees of the board of directors, or comparable meetings that may affect the financial statements. (Ref: par. .A59)
- n.* any other matters that the accountant may consider necessary.

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.30 The accountant should consider the reasonableness and consistency of management's responses in light of the results of other review procedures and the accountant's knowledge of the entity's business. However, the accountant is not required to corroborate management's responses with other evidence. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Reading the Financial Statements

.31 The accountant should read the financial statements and consider whether any information has come to the accountant's attention to indicate that such financial statements do not conform to the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Procedures to Address Specific Circumstances

Related Parties

.32 During the review, the accountant should remain alert for arrangements or information that may indicate the existence of related party relationships or transactions that management has not previously identified or disclosed to the accountant. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.33 If the accountant identifies significant transactions outside the entity's normal course of business when performing the review procedure required by paragraph .32 or through other review procedures, the accountant should inquire of management about the following:

- a.* The nature of these transactions (Ref: par. .A60)
- b.* Whether related parties could be involved

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Fraud and Noncompliance With Laws or Regulations

.34 When there is an indication that fraud or noncompliance with laws or regulations has occurred, or is suspected to have occurred, the effects of which should be considered when preparing financial statements, the accountant should do the following:

- a.* Communicate identified or suspected fraud as soon as practical to the appropriate level of senior management (at a level above those involved with the suspected fraud, if possible) or those charged with governance, as appropriate.

- b. Communicate to management identified or suspected noncompliance with laws and regulations whose effects should be considered when preparing financial statements, other than matters that are clearly inconsequential. (Ref: par. .A61)
- c. Request management's assessment of the effects, if any, on the financial statements.
- d. Consider the effect, if any, of management's assessment of the effects of fraud or noncompliance with laws or regulations communicated to the accountant on the accountant's conclusion on the financial statements and on the accountant's report.
- e. Determine whether there is a responsibility to report the occurrence or suspicion of fraud or noncompliance with laws and regulations to a party outside the entity. (Ref: par. .A62)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.35 If the fraud or noncompliance with laws or regulations involves senior management or results in a material misstatement of the financial statements, the accountant should communicate the matter directly to those charged with governance. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.36 The accountant should consider the need to obtain legal advice and take appropriate action, including potential withdrawal, if management or, as appropriate, those charged with governance do not provide sufficient information that supports either of the following: (Ref: par. .A63)

- a. The financial statements are not materially misstated due to fraud.
- b. The entity is in compliance with laws and regulations, and in the accountant's professional judgment, the effect of the suspected noncompliance may be material to the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Going Concern

.37 If the applicable financial reporting framework includes requirements for management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing financial statements, the accountant should perform review procedures related to the following: (Ref: par. .A64–.A65)

- a. Whether the going concern basis of accounting is appropriate
- b. Management's evaluation of whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern
- c. If there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern, management's plans to mitigate those matters
- d. The adequacy of the related disclosures in the financial statements

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.38 If the applicable financial reporting framework does not include a requirement for management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing financial statements, and conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time existed at the date of the prior period financial statements (regardless of whether the substantial doubt was alleviated by the accountant's consideration of management's plans) or, in the course of performing review procedures on the current period financial statements, the accountant becomes aware of conditions or events that raise substantial doubt about the entity's ability to continue as a going concern, the accountant should do the following: (Ref: par. .A66–.A67)

- a. Inquire of management whether the going concern basis of accounting is appropriate.
- b. Inquire of management about its plans for addressing the adverse effects of the conditions and events. (Ref: par. .A68)
- c. Consider the adequacy of the disclosure about such matters in the financial statements. (Ref: par. .A69)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Using the Work of Others

.39 In performing the review, it may be necessary for the accountant to use work performed by other accountants, or the work of an individual or organization possessing expertise in a field other than financial reporting. If the accountant uses work performed by another accountant or an expert in the course of performing the review, the accountant should take appropriate steps to be satisfied that the work performed is adequate for the accountant's purposes. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.40 If other accountants have issued a report on the financial statements of significant components, such as subsidiaries and investees, the accountant should obtain and read reports from such other accountants. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Reconciling the Financial Statements to the Underlying Accounting Records

.41 The accountant should obtain evidence that the financial statements agree or reconcile with the accounting records. (Ref: par. .A70) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Additional Procedures When the Accountant Becomes Aware That the Financial Statements May Be Materially Misstated

.42 If the accountant becomes aware of a matter or matters that cause the accountant to believe the financial statements may be materially misstated, the accountant should design and perform additional procedures sufficient to enable the accountant to (Ref: par. .A71–.A75)

- a. conclude that the matter or matters are not likely to cause the financial statements as a whole to be materially misstated or
- b. determine that the matter or matters cause the financial statements as a whole to be materially misstated.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Evaluating Review Evidence Obtained From the Procedures Performed

[.43–.44] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.45 If, during the performance of review procedures, the accountant becomes aware that information coming to the accountant's attention is incorrect, incomplete, or otherwise unsatisfactory, the accountant should

- a.* request that management consider the effect of those matters on the financial statements and communicate the results of its consideration to the accountant and
- b.* consider the results communicated to the accountant by management and whether such results indicate that the financial statements may be materially misstated.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

[.46] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.47 The accountant should evaluate whether sufficient appropriate review evidence has been obtained from the procedures performed and, if sufficient appropriate review evidence has not been obtained from the procedures performed, the accountant should perform other procedures that, in the accountant's professional judgment, are necessary in the circumstances to be able to form a conclusion on the financial statements. (Ref: par. .A78) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.48 If the accountant is not able to obtain sufficient appropriate review evidence to form a conclusion, the accountant should withdraw from the engagement. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequent Events and Subsequently Discovered Facts

Subsequent Events

.49 When evidence or information that subsequent events that require adjustment of, or disclosure in, the financial statements comes to the accountant's attention, the accountant should request that management consider whether each such event is appropriately reflected in the financial statements in accordance with the applicable financial reporting framework. (Ref: par. .A79) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.50 If the accountant determines that the subsequent event is not adequately accounted for in the financial statements or disclosed in the notes, the accountant should follow the guidance in paragraphs .69–.72. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequently Discovered Facts That Become Known to the Accountant Before the Report Release Date

.51 The accountant is not required to perform any review procedures regarding the financial statements after the date of the accountant's review report. However, if a subsequently discovered fact becomes known to the accountant before the report release date, the accountant should

- a. discuss the matter with management and, when appropriate, those charged with governance and
- b. determine whether the financial statements need revision and, if revision is needed, inquire how management intends to address the matter in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.52 If management revises the financial statements, the accountant should perform the review procedures necessary in the circumstances on the revision. The accountant should also do either of the following:

- a. Date the accountant's review report as of a later date.
- b. Include an additional date in the accountant's review report on the revised financial statements that is limited to the revision (that is, dual-date the accountant's review report for that revision), thereby indicating that the accountant's review procedures subsequent to the original date of the accountant's review report are limited solely to the revision described in the relevant note to the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.53 If management does not revise the financial statements in circumstances in which the accountant believes they need to be revised, the accountant should modify the accountant's review report or withdraw, as appropriate. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequently Discovered Facts That Become Known to the Accountant After the Report Release Date

.54 If a subsequently discovered fact becomes known to the accountant after the report release date, the accountant should (Ref: par. .A80–.A81)

- a. discuss the matter with management and, when appropriate, those charged with governance and
- b. determine whether the financial statements need revision and, if revision is needed, inquire how management intends to address the matter in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.55 If management revises the financial statements, the accountant should do the following:

- a. Apply the requirements of paragraph .52.
- b. If the reviewed financial statements (before revision) have been made available to third parties, assess whether the steps taken

by management are timely and appropriate to ensure that anyone in receipt of those financial statements is informed of the situation, including that the reviewed financial statements are not to be used. If management does not take the necessary steps, the accountant should apply the requirements of paragraph .56. (Ref: par. .A82)

- c. If the accountant's conclusion on the revised financial statements differs from the accountant's conclusion on the original financial statements, disclose in an emphasis-of-matter paragraph, in accordance with paragraphs .89–.90,
 - i. the date of the accountant's previous report,
 - ii. a description of the revisions, and
 - iii. the substantive reasons for the revisions.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.56 If management does not revise the financial statements in circumstances in which the accountant believes they need to be revised, then the accountant should do the following:

- a. If the reviewed financial statements have not been made available to third parties, notify management and those charged with governance (unless all of those charged with governance are involved in managing the entity) not to make the reviewed financial statements available to third parties before the necessary revisions have been made and a new accountant's review report on the revised financial statements has been provided. If the reviewed financial statements are, nevertheless, subsequently made available to third parties without the necessary revisions, the accountant should apply the requirements of paragraph .56*b*.
- b. If the reviewed financial statements have been made available to third parties, assess whether the steps taken by management are timely and appropriate to ensure that anyone in receipt of the reviewed financial statements is informed of the situation, including that the reviewed financial statements are not to be used. If management does not take the necessary steps, the accountant should apply the requirements of paragraph .57. (Ref: par. .A81)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.57 If management does not take the necessary steps to ensure that anyone in receipt of the financial statements is informed of the situation, as provided by paragraph .55*b* or paragraph .56*b*, the accountant should notify management and those charged with governance (unless all of those charged with governance are involved in managing the entity) that the accountant will seek to prevent future use of the accountant's review report. If, despite such notification, management or those charged with governance do not take the necessary steps, the accountant should take appropriate action to seek to prevent use of the accountant's review report. (Ref: par. .A83–.A86) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Written Representations

Written Representations as Review Evidence

.58 *Written representations* are necessary information that the accountant requires in connection with a review of the entity's financial statements. Accordingly, similar to responses to inquiries, written representations are review evidence. (Ref: par. .A87) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Management From Whom Written Representations Are Requested

.59 The accountant should request written representations from members of management who have appropriate responsibilities for the financial statements and knowledge of the matters concerned. (Ref: par. .A88–.A90) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Specific Written Representations

.60 For all financial statements presented and all periods covered by the review, the accountant should request management to provide written representations that are dated as of the date of the accountant's review report and that indicate that it has fulfilled its responsibilities, as set out in the terms of the engagement, including the following: (Ref: par. .A91–.A97)

- a. Management has fulfilled its responsibility for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework.
- b. Management acknowledges its responsibility for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of financial statements, including its responsibility to prevent and detect fraud.
- c. All transactions have been recorded and are reflected in the financial statements.
- d. Management has provided the accountant with all relevant information and access to information, as agreed upon in the terms of the engagement.
- e. Management has responded fully and truthfully to all of the accountant's inquiries
- f. Management has disclosed to the accountant the identity of the entity's related parties and all the related party relationships and transactions of which it is aware, and it has appropriately accounted for and disclosed such relationships and transactions.
- g. Management has disclosed to the accountant significant facts relating to any fraud or suspected fraud known to management that may have affected the entity involving
 - i. management,
 - ii. employees who have significant roles in internal control, or
 - iii. others, when the fraud could have a material effect on the financial statements.
- h. Management has disclosed to the accountant significant facts relating to any allegations of fraud or suspected fraud known to

management that may have affected the entity's financial statements communicated by employees, former employees, regulators, or others.

- i.* Management has disclosed to the accountant all known actual or possible instances of noncompliance with laws and regulations whose effects should be considered when preparing financial statements.
- j.* Management has disclosed to the accountant all information relevant to the use of the going concern assumption in the financial statements.
- k.* Management has properly accounted for all events occurring subsequent to the date of the financial statements and for which the applicable financial reporting framework requires adjustment or disclosure, and it has made the necessary adjustments or disclosures.
- l.* Management has disclosed to the accountant whether it believes that the effects of uncorrected misstatements are immaterial, individually and in the aggregate, to the financial statements as a whole. A summary of such items should be included in, or attached to, the written representation.
- m.* Management has disclosed to the accountant all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements, and it has appropriately accounted for and disclosed such litigation and claims in accordance with the applicable financial reporting framework.
- n.* Management has disclosed to the accountant whether it believes that significant assumptions it used in making accounting estimates are reasonable.

[As amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.61 If, in addition to the representations required by paragraph .60, the accountant determines that it is necessary to obtain one or more written representations to support other review evidence relevant to the financial statements, the accountant should request such other written representations. (Ref: par. .A98) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Form of Written Representations

.62 The written representations should be in the form of a representation letter addressed to the accountant. (Ref: par. .A99–.A100) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Concerns About the Reliability of Written Representations and Requested Written Representations Not Provided

.63 If, in relation to the written representations required by paragraphs .60–.61

- a.* management does not provide the written representations, or
- b.* the accountant concludes that there is cause to doubt management's integrity such that the written representations provided are not reliable

the accountant should discuss the matter with management and those charged with governance, as appropriate. If management does not provide the required representations or the accountant continues to doubt management's integrity such that the written representations provided may not be reliable, the accountant should withdraw from the engagement. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Forming the Accountant's Conclusion on the Financial Statements

Consideration of the Applicable Financial Reporting Framework in Relation to the Financial Statements

.64 In forming the conclusion on the financial statements, the accountant should do the following:

- a. Evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework. (Ref: par. .A101–.A102)
- b. Consider whether, in the context of the requirements of the applicable financial reporting framework and the results of procedures performed,
 - i. the terminology used in the financial statements, including the title of each financial statement, is appropriate;
 - ii. the financial statements adequately disclose the significant accounting policies selected and applied;
 - iii. the accounting policies selected and applied are consistent with the applicable financial reporting framework and are appropriate;
 - iv. accounting estimates made by management appear reasonable;
 - v. the information presented in the financial statements appears relevant, reliable, comparable, and understandable; and
 - vi. the financial statements provide adequate disclosures to enable the intended users to understand the effects of material transactions and events on the information conveyed in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.65 The accountant should consider the impact of the following:

- a. Uncorrected misstatements identified during the review, and in the previous year's review of the entity's financial statements, on the financial statements as a whole
- b. Qualitative aspects of the entity's accounting practices, including indicators of possible bias in management's judgments (Ref: par. .A103–.A104)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.66 The accountant's consideration should also include the following:

- a. The overall presentation, structure, and content of the financial statements

- b. Whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation (Ref: par. .A105)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Form of the Conclusion

Unmodified Conclusion

.67 The accountant should express an unmodified conclusion in the accountant's review report on the financial statements as a whole when the accountant has obtained limited assurance to be able to conclude that nothing has come to the accountant's attention that causes the accountant to believe that the financial statements are not prepared, in all material respects, in accordance with the applicable financial reporting framework. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.68 When the accountant expresses an unmodified conclusion, the accountant should, unless required by law or regulation, use the following language:

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements for them to be in accordance with *[the applicable financial reporting framework]*.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Modified Conclusion

.69 The accountant should express a modified conclusion in the accountant's review report on the financial statements as a whole when the accountant determines, based on the procedures performed and the review evidence obtained, that the financial statements are materially misstated. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.70 When the accountant modifies the conclusion expressed on the financial statements, the accountant should do the following:

- a. Use the heading "Qualified Conclusion" or "Adverse Conclusion," as appropriate, for the conclusion paragraph in the accountant's review report.
- b. Provide a description of the matter giving rise to the modification, under an appropriate heading (for example, "Basis for Qualified Conclusion," or "Basis for Adverse Conclusion," as appropriate), in a separate paragraph in the accountant's review report immediately before the conclusion paragraph (referred to as the *basis for conclusion paragraph*).

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Financial Statements Are Materially Misstated

.71 If the accountant, having obtained sufficient appropriate review evidence, determines, or is otherwise aware, that the financial statements are materially misstated, the accountant should express one of the following: (Ref: par. .A106)

- a. A qualified conclusion, when the accountant concludes that the effects of the matter or matters giving rise to the modification are material but not pervasive to the financial statements
- b. An adverse conclusion, when the effects of the matter or matters giving rise to the modification are both material and pervasive to the financial statements

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.72 When the accountant expresses a qualified conclusion on the financial statements because of a material misstatement, the accountant should, unless otherwise required by law or regulation, use the following language:

Based on my (our) review, except for the effects of the matter(s) described in the Basis for Qualified Conclusion paragraph, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with *[the applicable financial reporting framework]*.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.73 When the accountant expresses an adverse conclusion on the financial statements, the accountant should, unless otherwise required by law or regulation, use the following language:

Based on my (our) review, due to the significance of the matter(s) described in the Basis for Adverse Conclusion paragraph, the financial statements are not in accordance with *[the applicable financial reporting framework]*.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.74 In the basis for conclusion paragraph, in relation to material misstatements that give rise to either a qualified conclusion or an adverse conclusion, the accountant should do the following:

- a. Describe and quantify the financial effects of the misstatement if the material misstatement relates to specific amounts in the financial statements (including quantitative disclosures) and the effects of the departure on the financial statements have been determined by management or are known to the accountant as a result of the accountant's procedures. If the effects of the departure have not been determined by management or are not known to the accountant as a result of the accountant's procedures, the accountant is not required to determine the effects of the departure; however, in such circumstances, the accountant should state in the report that such determination has not been made by management.
- b. Explain how disclosures are misstated if the material misstatement relates to narrative disclosures.
- c. Describe the nature of omitted information if the material misstatement relates to the nondisclosure of information required to be disclosed. The accountant should include the omitted disclosures when practicable to do so.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Reporting on the Financial Statements

.75 The accountant's review report should be in writing. (Ref: par. .A107–.A109) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Accountant's Review Report

.76 The written review report should include the following: (Ref: par. .A123)

- a. A title that includes the word *independent* to clearly indicate that it is the report of an independent accountant for a review engagement. (Ref: par. .A110)
- b. An addressee, based on the circumstances of the engagement. (Ref: par. .A111)
- c. An introductory paragraph that (Ref: par. .A112–.A114)
 - i. identifies the entity whose financial statements have been reviewed,
 - ii. states that the financial statements identified in the report were reviewed,
 - iii. identifies the financial statements,
 - iv. specifies the date or period covered by each financial statement,
 - v. includes a statement that a review includes primarily applying analytical procedures to management's (owner's) financial data and making inquiries of company management (owners), and
 - vi. includes a statement that a review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole, and that, accordingly, the accountant does not express such an opinion.
- d. A section with the heading "Management's Responsibility for the Financial Statements" that includes an explanation that management is responsible for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework; this responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error. (Ref: par. .A115)
- e. A section with the heading "Accountant's Responsibility" that includes the following statements:
 - i. The accountant's responsibility is to conduct the review engagement in accordance with SSARSs promulgated by the Accounting and Review Services Committee of the AICPA. The accountant's review report should also explain that those standards require that the accountant perform the procedures to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework. (Ref: par. .A116–.A118)

- ii. The accountant believes that the results of the accountant's procedures provide a reasonable basis for the accountant's conclusion.
 - iii. The accountant is required to be independent of the entity and to meet the accountant's other ethical responsibilities, in accordance with the relevant ethical requirements relating to the review.
- f. A concluding section with an appropriate heading that includes the accountant's conclusion on the financial statements in accordance with paragraphs .67–.74, as appropriate, and that identifies the country of origin of the financial reporting framework, if applicable
- g. When the accountant's conclusion on the financial statements is modified,
 - i. a paragraph, under the appropriate heading, that contains the accountant's modified conclusion in accordance with paragraphs .69–.74, as appropriate, and
 - ii. a paragraph, under an appropriate heading, that provides a description of the matter or matters giving rise to the modification (Ref: par. .A119)
- h. The signature of the accountant or the accountant's firm.
- i. The city and state where the accountant practices. (Ref: par. .A120)
- j. The date of the review report, which should be dated no earlier than the date on which the accountant has obtained sufficient appropriate review evidence as the basis for the accountant's conclusion on the financial statements, including being satisfied that
 - i. all the statements that the financial statements comprise, including the related notes, have been prepared and
 - ii. management has asserted that it has taken responsibility for those financial statements. (Ref: par. .A121–A122)

[As amended, effective October 2016, by SSARS No. 23. As amended, effective May 2018, by SSARS No. 24. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Accountant's Review Report on Financial Statements Prepared in Accordance With a Special Purpose Framework

.77 The accountant should modify the review report when the accountant becomes aware that the financial statements do not include

- a. a description of the special purpose framework. (Ref: par. .A126)
- b. a summary of significant accounting policies.
- c. an adequate description about how the special purpose framework differs from GAAP. The effects of these differences need not be quantified. (Ref: par. .A127)
- d. informative disclosures similar to those required by GAAP when the financial statements contain items that are the same as, or

similar to, those in financial statements prepared in accordance with GAAP. (Ref: par. .A128)

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.78 In the case of financial statements prepared in accordance with the provisions of a contract, the accountant should evaluate whether the financial statements adequately describe any significant interpretations of the contract on which the financial statements are based and modify the review report if the financial statements do not adequately describe any significant interpretations of the contract on which the financial statements are based. [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.79 In the case of an accountant's review report on special purpose financial statements, if management has a choice of financial reporting frameworks in the preparation of the special purpose financial statements, the explanation of management's responsibility for the financial statements should also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances. [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.80 The accountant's review report on financial statements prepared in accordance with a special purpose framework should include an emphasis-of-matter paragraph, under an appropriate heading, that (Ref: par. .A130–.A131)

- a. indicates that the financial statements are prepared in accordance with the applicable special purpose framework,
- b. refers to the note to the financial statements that describes the framework, and
- c. states that the special purpose framework is a basis of accounting other than GAAP.

For special purpose financial statements prepared in accordance with a contractual basis of accounting, the emphasis-of-matter paragraph should also state that, as a result, the financial statements may not be suitable for another purpose. [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.81 If the special purpose financial statements are prepared in accordance with the contractual basis of accounting, the accountant's review report should include, in accordance with paragraph .104, an other-matter paragraph, under an appropriate heading, that, in accordance with paragraphs .106–.109, restricts the use of the accountant's review report (Ref: par. .A132) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Comparative Financial Statements

.82 Comparative financial statements may be required by the applicable financial reporting framework, or management may elect to provide such information. When comparative financial statements are presented, the accountant's report should refer to each period for which financial statements are presented. (Ref: par. .A133–.A134) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Updating the Report

.83 When reporting on all periods presented, a continuing accountant should update the report on one or more prior periods presented on a comparative basis with those of the current period. The accountant's report on comparative financial statements should not be dated earlier than the date that the accountant completed procedures sufficient to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework with respect to the current period. (Ref: par. .A135) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.84 When issuing an updated report, the continuing accountant should consider information that the accountant has become aware of during the review of the current period financial statements. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.85 If, during the current engagement, circumstances or events come to the accountant's attention that may affect the prior-period financial statements presented, the accountant should consider the effects on the review report. [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Changed Reference to a Departure From the Applicable Financial Reporting Framework

.86 When the accountant's report on the financial statements of the prior period contains a changed reference to a departure from the applicable financial reporting framework, the accountant's review report should include an other-matter paragraph indicating (Ref: par. .A136)

- a. the date of the accountant's previous review report.
- b. the circumstances or events that caused the reference to be changed.
- c. when applicable, that the financial statements of the prior period have been changed.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Reporting When One Period Is Audited

.87 When the prior period financial statements were audited and the auditor's report on the prior period financial statements is not reissued, the review report on the current period financial statements should include an other-matter paragraph indicating

- a. that the financial statements of the prior period were previously audited;
- b. the date of the auditor's report on the prior period financial statements;
- c. the type of opinion issued on the prior period financial statements;
- d. if the opinion was modified, the substantive reasons for the modification; and
- e. that no auditing procedures were performed after the date of the previous report.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

[.88] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Emphasis-of-Matter and Other-Matter Paragraphs in the Accountant's Review Report

Emphasis-of-Matter Paragraphs in the Accountant's Review Report

.89 If the accountant considers it necessary to draw users' attention to a matter appropriately presented or disclosed in the financial statements that, in the accountant's professional judgment, is of such importance that it is fundamental to users' understanding of the financial statements, the accountant should include an emphasis-of-matter paragraph in the accountant's review report, provided that the accountant has obtained sufficient appropriate review evidence to conclude that the accountant is not aware of any material modifications that should be made to the financial statements with respect to such matter. Such a paragraph should refer only to information presented or disclosed in the financial statements. (Ref: par. .A141–.A143) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.90 When the accountant includes an emphasis-of-matter paragraph in the accountant's review report, the accountant should do the following:

- a. Include the paragraph within a separate section of the accountant's report with the heading "Emphasis of a Matter" or other appropriate heading. (Ref: par. .A144–.A145)
- b. Include in the paragraph a clear reference to the matter being emphasized and to where relevant disclosures that fully describe the matter can be found in the financial statements. The paragraph should refer only to information presented or disclosed in the financial statements.
- c. Indicate that the accountant's conclusion is not modified with respect to the matter emphasized. (Ref: par. .A146)

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Other-Matter Paragraphs in the Accountant's Review Report

.91 If the accountant considers it necessary to communicate a matter other than those that are presented or disclosed in the financial statements that, in the accountant's professional judgment, is relevant to the users' understanding of the review, the accountant's responsibilities, or the accountant's review report, the accountant should include an other-matter paragraph in the accountant's review report. [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.92 When the accountant includes an other-matter paragraph in the accountant's review report, the accountant should include the paragraph within a separate section with the heading "Other Matter" or other appropriate heading. (Ref: par. .A141, .A144, and .A147–.A149) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Communication With Management

.93 If the accountant expects to include an emphasis-of-matter or other-matter paragraph in the accountant's review report, the accountant should communicate with management regarding this expectation and the proposed

wording of this paragraph. (Ref: par. .A150–.A151) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Correction of a Material Misstatement in Previously Issued Financial Statements

.94 The accountant should include an emphasis-of-matter paragraph in the accountant's review report when there are adjustments to correct a material misstatement in previously issued financial statements. The accountant should include this type of emphasis-of-matter paragraph in the accountant's review report when the related financial statements are restated to correct the prior material misstatement. The paragraph need not be repeated in subsequent periods. (Ref: par. .A152–.A154) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.95 The emphasis-of-matter paragraph should include

- a. a statement that the previously issued financial statements have been restated for the correction of a material misstatement in the respective period and
- b. a reference to the entity's disclosure of the correction of the material misstatement. (Ref: par. .A155)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.96 If the financial statement disclosures relating to the restatement to correct a material misstatement in previously issued financial statements are not adequate, the accountant should address the inadequacy of disclosure as described in paragraphs .69–.72. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Other Reporting Responsibilities

.97 An accountant may be requested to address other reporting responsibilities in the accountant's review report on the financial statements that are in addition to the accountant's responsibilities in accordance with this section to report on the financial statements. In such situations, those other reporting responsibilities should be addressed by the accountant in a separate section in the accountant's review report, under the heading "Report on Other Legal and Regulatory Requirements," or otherwise, as appropriate to the content of the section, following the section of the report titled "Report on the Financial Statements." (Ref: par. .A156) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

[.98–.102] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Alert That Restricts the Use of the Accountant's Review Report

.103 An accountant's review report should include an alert, in a separate paragraph, that restricts its use when the subject matter of the accountant's review report is based on (Ref: par. .A163–.A165)

- a. measurement or disclosure criteria that are determined by the accountant to be suitable only for a limited number of users who can be presumed to have an adequate understanding of the criteria or

- b. measurement or disclosure criteria that are available only to the specified parties.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.104 The alert that restricts the use of the accountant's review report required by paragraph .103 should

- a. state that the accountant's review report is intended solely for the information and use of the specified parties.
- b. identify the specified parties for whom use is intended.
- c. state that the accountant's review report is not intended to be, and should not be, used by anyone other than the specified parties. (Ref: par. .A166)

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Adding Other Specified Parties

.105 When, in accordance with paragraph .103, the accountant includes an alert that restricts the use of the accountant's review report to certain specified parties and the accountant is requested to add other parties as specified parties, the accountant should determine whether to agree to add the other parties as specified parties. (Ref: par. .A167) [Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

.106 If the other parties are added after the release of the accountant's review report, the accountant should either:

- a. Amend the accountant's review report to add the other parties and, in such circumstances, not change the original date of the accountant's review report.
- b. Provide a written acknowledgment to management and the other parties that such parties have been added as specified parties and state in the acknowledgment that no procedures were performed subsequent to the original date of the accountant's review report.

[Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

The Accountant's Consideration of an Entity's Ability to Continue as a Going Concern

[.107–.108] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Implications for the Accountant's Review Report When Substantial Doubt Exists About the Entity's Ability to Continue as a Going Concern

.109 If, after considering conditions or events and management's plans, the accountant concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains, the accountant should include a separate section in the accountant's review report with the heading "Substantial Doubt About the Entity's Ability to Continue as a Going Concern" that does the following: (Ref: par. .A175–.A182)

- a. Draws attention to the note in the financial statements that discloses

- i. the conditions or events identified and management's plans that deal with these conditions or events and
 - ii. that these conditions or events indicate that substantial doubt exists about the entity's ability to continue as a going concern for a reasonable period of time
- b. States that the accountant's conclusion is not modified with respect to the matter

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.110 The description in the "Going Concern" section about the entity's ability to continue as a going concern for a reasonable period of time should use terms consistent with those included in the applicable financial reporting framework. The accountant should not use conditional language concerning the existence of substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time. (Ref: par. .A181) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.111 If adequate disclosure about an entity's ability to continue as a going concern for a reasonable period of time is not made in the financial statements, the accountant should do the following:

- a. Express a qualified or adverse conclusion, as appropriate, in accordance with paragraphs .71–.74
- b. In the "Basis for Qualified (Adverse) Conclusion" section of the accountant's review report, state that
 - i. substantial doubt exists about the entity's ability to continue as a going concern and that the financial statements do not adequately disclose this matter or
 - ii. substantial doubt about the entity's ability to continue as a going concern has been alleviated by management's plans but the financial statements do not adequately disclose this matter.

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Management Unwilling to Perform or Extend Its Evaluation

.112 If management is unwilling to perform or extend its evaluation to meet the period of time required by the applicable financial reporting framework when requested to do so by the accountant, the accountant should consider the implications for the accountant's review report. (Ref: par. .A123) [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

[.113–.121] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Reference to the Work of Other Accountants in an Accountant's Review Report

.122 If other accountants audited or reviewed the financial statements of significant components, such as consolidated and unconsolidated subsidiaries and investees, and the accountant of the reporting entity decides not to assume responsibility for the audit or review performed by the other accountants, the accountant of the reporting entity should make reference to the review or audit of such other accountants in the accountant's review report. In that instance, the accountant should clearly indicate in the accountant's review report that the accountant used the work of other accountants and should include the magnitude of the portion of the financial statements audited or reviewed by the other accountants. (Ref: par. .A191–.A193) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.123 Reference to the audit or review of other accountants in the accountant's review report on the reporting entity should not be made if the other accountants issued an auditor's or an accountant's review report that includes an alert that restricts the use of such report. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Determining Whether the Other Accountants Are Familiar with SSARSs or Auditing Standards Generally Accepted in the United States of America, as Applicable

.124 Regardless of whether the accountant of the reporting entity decides to make reference to the review or audit of other accountants, the accountant of the reporting entity should communicate with the other accountants and determine the following:

- a. The other accountants are aware that the financial statements of the component that the other accountants have audited or reviewed are to be included in the financial statements on which the accountant of the reporting entity will report and that the other accountants' report thereon will be relied upon and, where applicable, referred to by the accountant of the reporting entity.
- b. The other accountants are familiar with the applicable financial reporting framework and with SSARSs or auditing standards generally accepted in the United States of America, as applicable, and will conduct the review or audit in accordance therewith. (Ref: par. .A194)
- c. The other accountants understand the ethical requirements that are relevant to the engagement and, in particular, are independent. (Ref: par. .A195)
- d. A review will be made of matters affecting elimination of intercompany transactions and accounts and, if appropriate in the circumstances, the uniformity of accounting practices among the components included in the financial statements.

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Determining Whether to Make Reference When the Financial Reporting Framework Is Not the Same

.125 If the component's financial statements are prepared using a different financial reporting framework from that used for the financial statements of the reporting entity, reference to the review or audit of the other accountants in the review report of the accountant of the reporting entity should not be made unless the following apply:

- a. The accountant has determined that the measurement, recognition, presentation, and disclosure criteria that are applicable to all material items in the component's financial statements in accordance with the financial reporting framework used by the component are similar to the criteria that are applicable to all material items in the reporting entity's financial statements in accordance with the financial reporting framework used by the reporting entity.
- b. The accountant of the reporting entity has obtained sufficient appropriate review evidence for purposes of evaluating the appropriateness of the adjustments to convert the component's financial statements to the financial reporting framework used by the reporting entity without the need to assume responsibility for, and thus be involved in, the work of the other accountants. (Ref: par. .A196)

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

Supplementary Information That Accompanies Reviewed Financial Statements and the Accountant's Review Report Thereon

.126 When supplementary information accompanies reviewed financial statements and the accountant's review report thereon, the accountant should clearly indicate the degree of responsibility, if any, the accountant is taking with respect to such information in either

- a. an other-matter paragraph in the accountant's review report on the financial statements or
- b. a separate report on the supplementary information

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.127 When the accountant has subjected the supplementary information to the review procedures applied in the accountant's review of the basic financial statements, the other-matter paragraph in the accountant's review report on the financial statements or the separate report on the supplementary information should state that (Ref: par. .A198 and .A200)

- a. the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b. the supplementary information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements;

- c. the supplementary information has been subjected to the review procedures applied in the accountant's review of the basic financial statements and whether the accountant is aware of any material modifications that should be made to the supplementary information; and
- d. the accountant has not audited the supplementary information and does not express an opinion on such information.

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.128 When the accountant has not subjected the supplementary information to the review procedures applied in the accountant's review of the basic financial statements, the other-matter paragraph in the accountant's review report on the financial statements or the separate report on the supplementary information should state that (Ref: par. .A199–.A200)

- a. the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b. the supplementary information is the responsibility of management; and
- c. the accountant has not audited or reviewed the supplementary information and, accordingly, does not express an opinion, a conclusion, nor provide any assurance on such information.

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Required Supplementary Information

.129 Concerning the requirement in paragraph .126, with respect to required supplementary information, the accountant should include an other-matter paragraph in the accountant's review report on the financial statements. The other-matter paragraph should include language to explain the following circumstances, as applicable: (Ref: par. .A201)

- a. The required supplementary information is included, and the accountant performed a compilation engagement on the required supplementary information.
- b. The required supplementary information is included, and the accountant reviewed the required supplementary information.
- c. The required supplementary information is included, and the accountant did not perform a compilation, review, or audit on the required supplementary information.
- d. The required supplementary information is omitted.
- e. Some required supplementary information is missing, and some is presented in accordance with the prescribed guidelines (Ref: par. .A202)
- f. The accountant has identified departures from the prescribed guidelines.
- g. The accountant has unresolved doubts about whether the required supplementary information is presented in accordance with prescribed guidelines.

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.130 If the entity has presented all or some of the required supplementary information and the accountant did not perform a compilation or review on the required supplementary information, the other-matter paragraph referred to in paragraph .126 should include the following elements: (Ref: par. .A203)

- a. A statement that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require that the *[identify the required supplementary information]* be presented to supplement the basic financial statements
- b. A statement that such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. A statement that the accountant did not perform a compilation, review, or audit on the required supplementary information and does not express an opinion or provide any assurance on the information
- d. If some of the required supplementary information is omitted
 - i. a statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
 - ii. a statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- e. If the measurement or presentation of the required supplementary information departs materially from the prescribed guidelines, a statement that material departures from prescribed guidelines exist *[describe the material departures from the applicable financial reporting framework]*
- f. If the accountant has unresolved doubts about whether the required supplementary information is measured or presented in accordance with prescribed guidelines, a statement that the accountant has doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by *[identify designated accounting standards-setter]*

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.131 If all the required supplementary information is omitted, the other-matter paragraph should include the following elements:

- a. A statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
- b. A statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Change in Engagement From Audit to Review

.132 If the accountant, who was engaged to perform an audit engagement in accordance with generally accepted auditing standards, has been requested to change the engagement to a review engagement, the accountant should consider the following before deciding whether to agree to the change: (Ref: par. .A204–.A205)

- a. The reason given for the request, particularly the implications of a restriction on the scope of the audit engagement, whether imposed by management or by circumstances (Ref: par. .A206)
- b. The additional audit effort required to complete the audit engagement
- c. The estimated additional cost to complete the audit engagement

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.133 In all circumstances, if the audit procedures are substantially complete or the cost to complete such procedures is relatively insignificant, the accountant should consider the propriety of accepting a change in the engagement. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.134 If the accountant concludes, based upon the accountant's professional judgment, that reasonable justification exists to change the engagement, and if the accountant complies with the standards applicable to a review engagement, the accountant should issue an appropriate review report. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.135 The report should not include reference to

- a. the original engagement,
- b. any audit procedures that may have been performed, or
- c. scope limitations that resulted in the changed engagement.

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.136 When the accountant has been engaged to audit an entity's financial statements and management refuses to allow the accountant to correspond with the entity's legal counsel, the accountant, except in rare circumstances, is

precluded from accepting an engagement to review those financial statements. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Review Documentation

.137 The preparation of documentation for the review provides evidence that the review was performed in accordance with SSARSs and a sufficient and appropriate record of the basis for the accountant's report. The accountant should prepare review documentation in a timely manner that is sufficient to enable an experienced accountant, having no previous connection to the review, to understand the following: (Ref: par. .A207–.A211)

- a. The nature, timing, and extent of the review procedures performed to comply with SSARSs
- b. The review evidence obtained from the review procedures performed and the accountant's conclusions formed on the basis of that review evidence
- c. Significant matters arising during the review, the accountant's conclusions reached thereon, and significant professional judgments made in reaching those conclusions

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.138 In addition to the requirements in paragraph .137, the review documentation should include the following:

- a. The engagement letter or other suitable form of written documentation with management, as described in paragraphs .16–.17 (Ref: par. .A25 and .A27)
- b. Communications with management regarding the accountant's expectation to include an emphasis-of-matter or other-matter paragraph in the accountant's review report as required by paragraph .93
- c. Communications with management, those charged with governance, and others as relevant to the performance of the review of significant matters arising during the engagement, including the nature of those matters
- d. Communications with other accountants that have audited or reviewed the financial statements of significant components as required by paragraph .122
- e. If, in the course of the engagement, the accountant identified information that is inconsistent with the accountant's findings regarding significant matters affecting the financial statements, how the inconsistency was addressed
- f. The representation letter
- g. A copy of the reviewed financial statements and the accountant's review report thereon

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.139 In documenting the nature, timing, and extent of procedures performed as required in this section, the accountant should record the following:

- a. Who performed the work and the date such work was completed
- b. Who reviewed the work performed for the purpose of quality control for the engagement and the date and extent of the review

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Application and Other Explanatory Material

Introduction

.A1 If the accountant is engaged to perform a review of historical financial information other than financial statements, references in this section to *financial statements* are to be taken as a reference to such other historical financial information. [Paragraph added, effective October 2016, by SSARS No. 23.]

.A2 Examples of other historical financial information that an accountant may be engaged to review include, but are not limited to, the following:

- Specified elements, accounts, or items of a financial statement, such as schedules of rentals, royalties, profit participation, or provision for income taxes
- Supplementary information
- Required supplementary information
- Financial information contained in a tax return

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A3 The accountant may review a single financial statement, such as a balance sheet, and not other related financial statements, such as the statements of income, retained earnings, and cash flows, if the scope of the accountant's inquiry and analytical procedures have not been restricted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Objectives (Ref: par. .07)

.A4 A review differs significantly from an audit of financial statements in which the auditor obtains reasonable assurance, which is a high, but not absolute, level of assurance, that the financial statements are free of material misstatement. A review does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed in an audit. Accordingly, in a review, the accountant does not obtain assurance that he or she will become aware of all significant matters that would be disclosed in an audit. Therefore, a review is designed to obtain only limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

[.A5–.A9] [Paragraphs deleted by the issuance of SSARS No. 25, February 2020.]

Definitions (Ref: par. .08)

.A10 Sufficient appropriate review evidence, consisting primarily of the results of the accountant's analytical procedures and inquiries, is required to obtain limited assurance to support the accountant's conclusion. Review evidence is cumulative in nature and primarily obtained from the procedures performed during the course of the review. The combination of the nature, timing, and extent of evidence-gathering procedures is limited compared to an audit engagement. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A11 Most financial reporting frameworks requiring an explicit management evaluation of the entity's ability to continue as a going concern specify the period of time to be evaluated. For example, the financial reporting frameworks of the following standard-setting bodies specify such period of time as follows:

- a. *FASB*. Within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable).¹
- b. *GASB*. 12 months beyond the date of the financial statements. GASB further requires that, if a governmental entity currently knows information that may raise substantial doubt shortly thereafter (for example, within an additional three months), such information should also be considered.²
- c. *International Accounting Standards Board*. At least, but not limited to, one year from the end of the reporting period.³

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered by the issuance of SSARS No. 25, February 2020.]

[.A12] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.A13 Supplementary information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources outside the accounting system or outside the entity. [Paragraph added, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A14 Supplementary information may be prepared in accordance with an applicable financial reporting framework, by regulatory or contractual requirements, in accordance with management's criteria, or in accordance with other requirements. [Paragraph added, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

¹ "Pending Content" in *FASB Accounting Standards Codification (ASC) 205-40-50-1*. [Footnote added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

² Paragraph 16 of GASB Statement No. 56, *Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards*. [Footnote added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Independence (Ref: par. .10)

.A15 The AICPA Code of Professional Conduct provides guidance with respect to independence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A16 Nothing prohibits an accountant who is unable to complete a review engagement due to a determination that the accountant's independence is impaired from performing a compilation engagement on those financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Professional Skepticism (Ref: par. .11)

.A17 Professional skepticism includes being alert to the following, for example:

- Review evidence that contradicts other review evidence obtained
- Information that brings into question the reliability of responses to inquiries and other information or records to be used as review evidence
- Circumstances that suggest the need for review procedures in addition to those required by this section

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A18 Maintaining professional skepticism throughout the review is necessary if the accountant is, for example, to reduce the risks of

- overlooking unusual circumstances.
- overgeneralizing when drawing conclusions from review observations.
- using inappropriate assumptions in determining the nature, timing, and extent of the review procedures and evaluating the results thereof.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A19 Professional skepticism is necessary to the critical assessment of review evidence. This includes questioning contradictory review evidence and the reliability of responses to inquiries and other information obtained from management and those charged with governance. It also includes consideration of the sufficiency and appropriateness of review evidence obtained in light of the circumstances. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A20 The accountant may accept records and documents as genuine unless the accountant has reason to believe the contrary. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A21 The accountant neither assumes that management is dishonest nor assumes unquestioned honesty. The accountant cannot be expected to disregard past experience of the honesty and integrity of management and those charged

with governance. Nevertheless, a belief that management and those charged with governance are honest and have integrity does not relieve the accountant of the need to maintain professional skepticism or allow the accountant to be satisfied with less than persuasive review evidence when obtaining limited assurance. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Acceptance and Continuance of Client Relationships and Review Engagements (Ref: par. .13)

.A22 A review in accordance with SSARSs is conducted on the premise that management has acknowledged and understands that it has the responsibility set out in paragraph .26b of section 60. The preparation of financial statements, in whole or in part, is a nonattest service subject to the provisions of the "Nonattest Services" interpretation (ET sec. 1.295) of the "Independence Rule" of the AICPA Code of Professional Conduct. To avoid misunderstanding, agreement is reached with management that it acknowledges and understands that it has such responsibilities as part of agreeing and documenting the terms of the review engagement as required by paragraphs .16–.17. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A23 Documents containing financial statements that may include an indication that such financial statements have been reviewed by the entity's accountant includes documents submitted to bonding companies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Agreement on Engagement Terms (Ref: par. .16–.17 and .135)

.A24 Both management and the accountant have an interest in documenting the agreed-upon terms of the review engagement before the commencement of the review engagement to help avoid misunderstandings with respect to the review engagement. For example, it reduces the risk that management may inappropriately rely on or expect the accountant to protect management against certain risks or perform certain functions, including those that are management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A25 The roles of management and those charged with governance in agreeing upon the terms of the review engagement for the entity depend on the governance structure of the entity and relevant law or regulation. Depending on the entity's structure, the agreement may be with management, those charged with governance, or both. When the agreement on the terms of engagement is only with those charged with governance, nonetheless, in accordance with paragraph .26b of section 60A, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A26 When a third party has contracted for a review of the entity's financial statements, agreeing the terms of the review with management of the entity is necessary in order to establish that the preconditions for a review are present. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A27 The understanding with management regarding the services to be performed for review engagements is required by paragraph .16 to be in a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common and usually the most convenient method for documenting the understanding with management regarding the services to be performed for review engagements. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A28 Although the accountant may prepare the financial statements, in whole or in part, the financial statements are representations of management, and the fairness of their presentation in accordance with the applicable financial reporting framework is management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A29 Illustrations of engagement letters for a review of financial statements are presented in exhibit A, "Illustrative Engagement Letters." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Communication With Management and Those Charged With Governance (Ref: par. .18)

.A30 In a review engagement, the accountant's communications with management and those charged with governance take the form of

- a. inquiries the accountant makes in the course of performing the procedures for the review and
- b. other communications, in the context of having effective two-way communication to understand matters arising and to develop a constructive working relationship for the engagement.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A31 The appropriate timing for communications will vary with the circumstances of the engagement. Relevant factors include the significance and nature of the matter and any action expected to be taken by management or those charged with governance. For example, it may be appropriate to communicate a significant difficulty encountered during the review as soon as practicable if management or those charged with governance are able to assist the accountant to overcome the difficulty. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the

issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A32 Law or regulation may restrict the accountant's communication of certain matters with those charged with governance. For example, law or regulation may specifically prohibit a communication, or other action, that might prejudice an investigation by an appropriate authority into an actual, or suspected, illegal act. In some circumstances, potential conflicts between the accountant's obligations of confidentiality and obligations to communicate may be complex. In such cases, the accountant may consider obtaining legal advice. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Communicating Matters Concerning the Review

.A33 Matters to be communicated to management or those charged with governance, as appropriate, in accordance with this section may include the following:

- The accountant's responsibilities in the review engagement, as included in the engagement letter or other suitable form of written agreement.
- Significant findings from the review, for example
 - the accountant's views about significant qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates, and financial statement disclosures.
 - significant findings from the performance of procedures, including situations when the accountant considered performance of additional procedures necessary in accordance with this section. The accountant may need to confirm that those charged with governance have the same understanding of the facts and circumstances relevant to specific transactions or events.
 - Matters arising that may lead to modification of the accountant's review report.
 - Significant difficulties, if any, encountered during the review, for example, unavailability of expected information, unexpected inability to obtain evidence that the accountant considers necessary for the review, or restrictions imposed on the accountant by management. In some circumstances, such difficulties may lead to the accountant's withdrawal from the engagement.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A34 In some entities, different persons are responsible for the management and governance of an entity. In these circumstances, management may have the responsibility to communicate matters of governance interest to those charged with governance. Communication by management with those charged with governance of matters that the accountant is required to communicate does not relieve the accountant of the responsibility to also communicate with

those charged with governance. However, communication of these matters by management may affect the form or timing of the accountant's communication with those charged with governance. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Communication With Third Parties

.A35 The accountant may be required by law or regulation to, for example

- notify a regulatory or enforcement body of certain matters communicated with those charged with governance.
- submit copies of certain reports prepared for those charged with governance to relevant regulatory or funding bodies or, in some cases, make such reports publicly available.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A36 Unless required by law or regulation to provide a third party with a copy of the accountant's written communications with those charged with governance, the accountant may need the prior consent of management or those charged with governance before doing so. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Performing the Engagement

Materiality in a Review of Financial Statements (Ref: par. .19)

.A37 The accountant's consideration of materiality is made in the context of the applicable financial reporting framework. Financial reporting frameworks often discuss the concept of materiality in the context of the preparation and presentation of financial statements. Although financial reporting frameworks may discuss materiality in different terms, they generally explain that

- misstatements, including omissions, are considered to be material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.
- judgments about materiality are made in light of surrounding circumstances and affected by the size or nature of a misstatement or a combination of both.
- judgments about materiality involve both qualitative and quantitative considerations.
- judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group. The possible effect of misstatements on specific individual users, whose needs may vary widely, is not considered.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A38 If the applicable financial reporting framework does not include a discussion of the concept of materiality, the characteristics referred to in paragraph .A37 provide the accountant with such a frame of reference. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A39 The accountant's determination of materiality is a matter of professional judgment and is affected by the accountant's perception of the financial information needs of users of the financial statements. For purposes of determining materiality, the accountant may assume that reasonable users

- have a reasonable knowledge of business and economic activities and accounting and a willingness to study the information in the financial statements with reasonable diligence;
- understand that financial statements are prepared, presented, and reviewed to levels of materiality;
- recognize the uncertainties inherent in the measurement of amounts based on the use of estimates, judgment, and the consideration of future events; and
- make reasonable judgments based on the information in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A40 The accountant's judgment about what is material in relation to the financial statements as a whole is the same regardless of the level of assurance obtained by the accountant as a basis for expressing a conclusion on the financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A41 The accountant's determination of materiality for the financial statements as a whole may need to be revised during the engagement as a result of the following:

- A change in the circumstances that occurred during the review (for example, a decision to dispose of a major part of the entity's business)
- New information, or a change in the accountant's understanding of the entity and its environment as a result of performing review procedures (for example, if during the review it appears that actual financial results are likely to be substantially different from anticipated period-end financial results that were used initially to consider materiality for the financial statements as a whole)

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Understanding of the Industry (Ref: par. .21)

.A42 The requirement that the accountant possess a level of knowledge of the industry in which the entity operates does not prevent the accountant from accepting a review engagement for an entity in an industry with which the accountant has no previous experience. It does, however, place upon the accountant a responsibility to obtain the required level of knowledge. The accountant may do so, for example, by consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and periodicals, appropriate continuing professional education, or individuals

knowledgeable about the industry. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Knowledge of the Entity (Ref: par. .22)

.A43 The accountant may obtain knowledge of the entity through inquiry of the entity's personnel, the review of documents prepared by the entity, or experience with the entity or the entity's industry. Such knowledge includes the following:

- An understanding of the entity's business
- An understanding of the accounting principles and practices used by the entity in measuring, recognizing, recording, and disclosing all significant accounts and disclosures in the financial statements

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A44 The accountant's understanding of the entity's business encompasses a general understanding of the entity's organization; its operating characteristics; and the nature of its assets, liabilities, revenues, and expenses. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Designing and Performing Review Procedures (Ref: par. .24–.25)

.A45 Review evidence obtained through the performance of analytical procedures and inquiry will ordinarily provide the accountant with a reasonable basis for obtaining limited assurance. However, in addition to analytical procedures and inquiries, in certain circumstances and based on the accountant's professional judgment, the accountant may perform procedures ordinarily performed in an audit. In such instances, the engagement remains a review, and the accountant is not required to perform an audit of the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A46 The results of the accountant's analytical procedures and inquiries may modify the accountant's risk awareness. For example, the response to an inquiry that a related party transaction is not disclosed may revise the accountant's awareness of risk relative to related party transactions. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A47 Both quantitative and qualitative factors are considered when determining which items are material to the financial statements, including disclosures, and which areas include increased risk of material misstatement. For example, disclosure of the implementation status of a new accounting standard may not include quantitatively material disclosures but may be qualitatively material such that the accountant would perform inquiry procedures to

validate the disclosures presented. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Analytical Procedures (Ref: par. .26–.27)

.A48 Examples of analytical procedures that an accountant may consider performing when conducting a review of financial statements are contained in appendix A, "Analytical Procedures the Accountant May Consider Performing When Conducting a Review of Financial Statements." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A49 Analytical procedures include the consideration of comparisons of the entity's financial information with, for example:

- Comparable information for prior periods
- Anticipated results of the entity, such as budgets or forecasts, or expectations of the accountant, such as an estimation of depreciation
- Similar industry information, such as a comparison of the entity's ratio of sales to accounts receivable and gross margin percentages with industry averages or other entities of comparable size in the same industry

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A50 Analytical procedures also include consideration of relationships, for example:

- Among elements of financial information, such as gross margin percentages, that would be expected to conform to a predictable pattern based on recent history of the entity and industry
- Between financial information and relevant nonfinancial information, such as payroll costs to number of employees

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A51 When considering plausible relationships, the accountant may wish to consider information developed and used by the entity (for example, analyses prepared for management or those charged with governance). [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A52 Expectations developed by the accountant in performing analytical procedures in connection with a review of financial statements may be less precise than those developed in an audit. Also, in a review, the accountant is not required to corroborate management's responses with other evidence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.

Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A53 To compare disaggregated revenue data, the accountant may compare, for example, revenue reported by month and product line or operating segment during the current period with that of comparable prior periods. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A54 Various methods may be used to perform analytical procedures. These methods range from performing simple comparisons to performing complex analyses. Analytical procedures may be performed at the financial statement level or at the detailed account level. The nature, timing, and extent of analytical procedures are a matter of professional judgment. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Investigating Results of Analytical Procedures (Ref: par. .28b)

.A55 Although the accountant is not required to corroborate management's responses with other evidence, the need to perform other review procedures may arise when, for example, management is unable to provide an explanation, or the explanation is not considered adequate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Inquiries of Members of Management Who Have Responsibility for Financial and Accounting Matters (Ref: par. .29)

.A56 In addition to members of management who have responsibility for financial and accounting matters, the accountant may determine to direct inquiries to others within the entity and those charged with governance, if appropriate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A57 Additional examples of unusual or complex transactions, events, or matters about which the accountant may inquire of management are as follows:

- Correction of an error
- Business combinations
- New or complex revenue recognition methods
- Impairment of assets
- Disposal of a segment of a business
- Use of derivative instruments and hedging activities
- Sales and transfers that may call into question the classification of investments in securities, including management's intent and ability with respect to the remaining securities classified as held to maturity
- Adoption of new stock compensation plans or changes to existing plans

- Restructuring charges taken in the current and prior periods
- Significant, unusual, or infrequently occurring transactions
- Changes in litigation or contingencies
- Application of new accounting principles
- Changes in accounting principles or the methods of applying them
- Trends and developments affecting accounting estimates, such as allowances for bad debts and excess or obsolete inventories, provisions for warranties and employee benefits, and realization of unearned income and deferred charges
- Compliance with debt covenants
- Material off-balance-sheet transactions, variable interest entities, and other equity investments
- Unique terms for debt or capital stock that could affect classification

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A58 Management may obtain knowledge of fraud or suspected fraud affecting the entity involving management or others when the fraud could have a material effect on the financial statements through, among other things, communications received from employees, former employees, or others. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A59 The accountant may obtain and read minutes from meetings of stockholders, the board of directors, committees of the board of directors, or comparable meetings that may affect the financial statements as an effective and efficient procedure to meet the requirement in paragraph .29m to inquire of members of management who have responsibility for financial and accounting matters concerning the financial statements about actions taken at such meetings. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Procedures to Address Specific Circumstances

Related Parties

Understanding the Nature of Significant Transactions Outside the Normal Course of Business (Ref: par. .33a)

.A60 Inquiring into the nature of the significant transactions outside the entity's normal course of business involves obtaining an understanding of the business rationale of the transactions and the terms and conditions under which these have been entered into. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Fraud and Noncompliance With Laws or Regulations (Ref: par. .34)

.A61 The communication of matters involving identified or suspected non-compliance may describe the act of identified or suspected noncompliance, the circumstances of its occurrence, and the effect on the financial statements. The accountant may reach agreement in advance with management and those charged with governance, if applicable, on the nature and amount of matters that would be considered not material and, thus, need not be communicated. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A62 The accountant's professional duty to maintain the confidentiality of client information may preclude reporting identified or suspected noncompliance with laws and regulations to a party outside the entity. However, the accountant's legal responsibilities vary by jurisdiction, and in certain circumstances, the duty of confidentiality may be overridden by statute, the law, or courts of law. In the following circumstances, a duty to notify parties outside the entity may exist:

- In response to a court order
- In compliance with requirements for the reviews of entities that receive financial assistance from a government agency

Because potential conflicts with the accountant's ethical and legal obligations regarding confidentiality may be complex, the accountant may consult with legal counsel before discussing noncompliance with parties outside the entity. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A63 The accountant may consider whether withdrawal from the engagement is necessary when

- management or those charged with governance do not take the remedial action that the accountant considers necessary in the circumstances or
- matters regarding fraud or noncompliance with laws or regulations involve an owner of the business.

When deciding whether withdrawal from the engagement is necessary, the accountant may consider seeking legal advice. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Going Concern (Ref: par. .37–.38)

.A64 The nature and extent of the accountant's review procedures are matters of the accountant's professional judgment. For example, when a history of profitable operations and ready access to financing exists, inquiry alone might be sufficient to review the entity's ability to continue as a going concern for a reasonable period of time. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A65 Certain financial reporting frameworks require management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing financial statements. For example, FASB *Accounting Standards Codification*® (ASC) requires management to evaluate whether there are conditions and events, considered in the aggregate, that raise substantial doubt about an entity's ability to continue as a going concern. Under FASB ASC, the evaluation period is within one year after the date that the financial statements

are issued (or within one year after the date that the financial statements are available to be issued, when applicable). [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A66 A review of financial statements is not designed to identify conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time. However, conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time may have existed at the date of the prior period financial statements or may be identified as a result of inquiries of management or in the course of performing other review procedures. The significance of such conditions and events will depend on the circumstances, and some may have significance only when viewed in conjunction with others. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A67 The following are examples of conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time:

- *Negative trends.* For example, recurring operating losses, working capital deficiencies, negative cash flows from operating activities, and other adverse key financial ratios
- *Other indications of possible financial difficulties.* For example, defaults on loans or similar agreements, arrearages in dividends, denial of usual trade credit from suppliers, a need to restructure debt to avoid default, noncompliance with statutory capital requirements, and a need to seek new sources or methods of financing or to dispose of substantial assets
- *Internal matters.* For example, work stoppages or other labor difficulties, substantial dependence on the success of a particular project, uneconomic long-term commitments, and a need to significantly revise operations
- *External matters.* For example, legal proceedings, legislation, or similar matters that might jeopardize an entity's ability to operate; loss of a key franchise, license, or patent; loss of a principal customer or supplier; and an uninsured or underinsured catastrophe such as a hurricane, tornado, earthquake, or flood

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A68 The significance of such conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time can often be mitigated by other factors. The following list includes examples of plans that management may implement to mitigate conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time. The examples are not all-inclusive. Following each example is a list of the types of information that management should consider at the date that the financial statements are issued in evaluating the feasibility of the plans to determine whether it is probable⁴ that the

⁴ The FASB ASC Master Glossary defines *probable* as "the future event or events are likely to occur." [Footnote renumbered by the issuance of SSARS No. 24, May 2018.]

plan will be effectively implemented within one year after the date that the financial statements are issued.⁵

- a. Plans to dispose of an asset or business
 - i. Restrictions on disposal of an asset or business, such as covenants that limit those transactions in loans or similar agreements, or encumbrances against the asset or business
 - ii. Marketability of the asset or business that management plans to sell
 - iii. Possible direct or indirect effects of disposal of the asset or business
- b. Plans to borrow money or restructure debt
 - i. Availability and terms of new debt financing or availability and terms of existing debt refinancing, such as term debt, lines of credit, or arrangements for factoring receivables or sale-leaseback of assets
 - ii. Existing or committed arrangements to restructure or subordinate debt or to guarantee loans to the entity
 - iii. Possible effects on management's borrowing plans of existing restrictions on additional borrowing or the sufficiency of available collateral
- c. Plans to reduce or delay expenditures
 - i. Feasibility of plans to reduce overhead or administrative expenditures, to postpone maintenance or research and development projects, or to lease rather than purchase assets
 - ii. Possible direct or indirect effects on the entity and its cash flows of reduced or delayed expenditures
- d. Plans to increase ownership equity
 - i. Feasibility of plans to increase ownership equity, including existing or committed arrangements to raise additional capital
 - ii. Existing or committed arrangements to reduce current dividend requirements or to accelerate cash infusions from affiliates or other investors

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A69 In considering the adequacy of disclosure, some of the information that may be disclosed, depending on the requirements of the financial reporting framework, includes the following:

- Principal conditions and events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time
- The possible effects of such conditions and events
- Management's evaluation of the significance of those conditions and events in relation to the entity's ability to meet its obligations and any mitigating factors

⁵ "Pending Content" in FASB ASC 205-40-55-3. [Footnote renumbered by the issuance of SSARS No. 24, May 2018.]

- Possible discontinuance of operations
- Management's plans (including relevant prospective financial information) that are intended to mitigate the conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time
- Information about the recoverability or classification of recorded asset amounts or the amounts or classification of liabilities

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Reconciling the Financial Statements to the Underlying Accounting Records (Ref: par. .41)

.A70 To obtain evidence that the financial statements agree or reconcile with the accounting records, the accountant may compare the financial statements to

- the accounting records, such as the general ledger;
- a consolidating schedule derived from the accounting records; or
- other supporting data in the entity's records.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Additional Procedures When the Accountant Becomes Aware That the Financial Statements May Be Materially Misstated (Ref: par. .42)

.A71 Additional procedures are required in accordance with this section if the accountant becomes aware of a matter that causes the accountant to believe the financial statements may be materially misstated. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A72 The accountant's response in undertaking additional procedures with respect to an item the accountant has cause to believe may be materially misstated in the financial statements will vary, depending on the circumstances, and is a matter for the accountant's professional judgment. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A73 The accountant's judgment about the nature, timing, and extent of additional procedures that are needed to obtain review evidence to either conclude that a material misstatement is not likely, or determine that a material misstatement exists, is guided by the following:

- Information obtained from the accountant's evaluation of the results of the procedures already performed
- The accountant's updated understanding of the entity and its environment obtained throughout the course of the engagement
- The accountant's view on the persuasiveness of review evidence needed to address the matter that causes the accountant to believe that the financial statements may be materially misstated

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A74 Additional procedures focus on obtaining sufficient appropriate review evidence to enable the accountant to form a conclusion on matters that the accountant believes may cause the financial statements to be materially misstated. Such procedures may consist of the following:

- Additional inquiry or analytical procedures, for example, being performed in greater detail or focused on the affected items (that is, amounts or disclosures concerning the affected accounts or transactions as reflected in the financial statements)
- Other types of procedures, for example, a substantive test of details or external confirmations

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A75 The following example illustrates the accountant's evaluation of the need to perform additional procedures and the accountant's response when the accountant believes additional procedures are necessary:

In the course of performing the inquiry and analytical procedures for the review, the accountant's analysis of accounts receivable shows a material amount of past due accounts receivable for which there is no allowance for bad or doubtful accounts. This causes the accountant to believe that the accounts receivable balance in the financial statements may be materially misstated. The accountant then inquires of management whether there are uncollectible accounts receivable that would need to be shown as being impaired. Depending on management's response, the accountant's evaluation of the response may do the following:

- a. Enable the accountant to conclude that the accounts receivable balance is not likely to be materially misstated. In that case, no further procedures are required.
- b. Enable the accountant to determine that the matter causes the financial statements to be materially misstated. No further procedures are required, and the accountant would form the conclusion that the financial statements as a whole are materially misstated.
- c. Lead the accountant to continue to believe that the accounts receivable balance is likely to be materially misstated, while not providing sufficient appropriate review evidence for the accountant to determine that it is, in fact, misstated. In that case, the accountant is required to perform additional procedures, for example, requesting from management an analysis of amounts received for those accounts after the balance sheet date to identify uncollectible accounts receivable. The evaluation of the results of the additional procedures may enable the accountant to get to (a) or (b) preceding. If not, the accountant is required to do one of the following:
 - i. Continue performing additional procedures until the accountant reaches either (a) or (b) preceding
 - ii. If the accountant is not able to either conclude that the matter is not likely to cause the financial statements as a whole to be materially misstated or to determine that the matter does cause the financial statements as a whole to be materially misstated, then, in accordance with paragraph .48, withdraw from the engagement

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Evaluating Review Evidence Obtained From the Procedures Performed (Ref: par. .47)

[.A76–.A77] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.A78 In some circumstances, the accountant may not have obtained the evidence that the accountant had expected to obtain through the design of primarily inquiry and analytical procedures and procedures addressing specific circumstances. In these circumstances, the accountant considers that the review evidence obtained from the procedures performed is not sufficient and appropriate to be able to form a conclusion on the financial statements. The accountant may

- extend the work performed or
- perform other procedures judged by the accountant to be necessary in the circumstances.

When neither of these is practicable in the circumstances, the accountant will not be able to obtain sufficient appropriate review evidence to be able to form a conclusion and is required by this section to determine the effect on the accountant's ability to complete the engagement. This situation may arise even though the accountant has not become aware of a matter or matters that cause the accountant to believe the financial statements may be materially misstated. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequent Events and Subsequently Discovered Facts

Subsequent Events (Ref: par. .49)

.A79 Evidence or information that subsequent events that require adjustment of, or disclosure in, the financial statements may come to the accountant's attention in the following ways:

- During the performance of review procedures
- Subsequent to the date of the accountant's review report but prior to the release of the report

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Subsequently Discovered Facts That Become Known to the Accountant After the Report Release Date (Ref: par. .54–.57)

.A80 New information may come to the accountant's attention that, had such information been known to the accountant at the date of the accountant's review report, may have caused the accountant to revise the accountant's review report. When such information becomes known to the accountant after the report release date, the requirements in paragraphs .54–.57 apply, even if

the accountant has withdrawn or been discharged. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A81 Because of the variety of conditions that might be encountered, the specific procedures or actions to be taken in a particular case may vary somewhat in light of the circumstances. For example, when determining whether the financial statements need revision, as required by paragraph .54*b*, the accountant may consider, in addition to the requirements of the applicable financial reporting framework, whether the accountant believes persons are currently using, or are likely to use, the financial statements and who would attach importance to the subsequently discovered facts. Consideration may be given, among other things, to the issuance of reviewed or audited financial statements for a subsequent period, the time elapsed since the financial statements were issued, the date of the accountant's review report released, and any legal implications. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A82 The steps taken by management to ensure that anyone in receipt of the reviewed financial statements is informed of the situation, including that the reviewed financial statements are not to be used, depend on the circumstances. Management's steps may include the following:

- Notify anyone who is known to be using, or who is likely to use, the financial statements and the accountant's review report that they are not to be used and that revised financial statements, together with a new accountant's review report, will be issued. This may be necessary when the issuance of revised financial statements and a new accountant's review report is not imminent.
- Issue, as soon as practicable, revised financial statements with appropriate disclosure of the matter.
- Issue the subsequent period's financial statements with appropriate disclosure of the matter. This may be appropriate when issuance of the subsequent period's reviewed or audited financial statements is imminent.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A83 If management made the reviewed financial statements available to third parties despite the accountant's notification not to do so, or if the accountant believes that management or those charged with governance have failed to take the necessary steps to prevent use of the accountant's review report on the previously issued reviewed financial statements despite the accountant's prior notification that the accountant will take action to seek to prevent such use, the accountant's course of action depends on the accountant's legal and ethical rights and obligations. Consequently, the accountant may consider it appropriate to seek legal advice. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A84 The actions that the accountant may take to seek to prevent use of the accountant's review report may depend on the degree of certainty of the accountant's knowledge that persons or entities exist who are currently using, or who will use, the reviewed financial statements, and who would attach importance to the information, and on the accountant's ability as a practical matter

to communicate with them. In addition to seeking legal advice, the accountant may consider taking the following steps to the extent applicable:

- Notify management and those charged with governance that the accountant's review report is not to be used.
- Notify regulatory agencies having jurisdiction over the entity that the accountant's review report is not to be used, including a request that the agency take whatever steps it may deem appropriate to accomplish the necessary disclosure.
- Notify anyone known to the accountant to be using the financial statements that the accountant's review report is not to be used. In some instances, it will not be practicable for the accountant to give appropriate individual notification to stockholders or investors at large whose identities are unknown to the accountant; notification to a regulatory agency having jurisdiction over the entity will usually be the only practical means for the accountant to provide appropriate disclosure, together with a request that the agency take whatever steps it may deem appropriate to accomplish the necessary disclosure.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A85 Depending on the circumstances, if the accountant is able to determine that the financial statements need revision, the accountant's notification to anyone in receipt of the reviewed financial statements may, if permitted by law, regulation, and relevant ethical requirements,

- include a description of the nature of the matter and of its effect on the financial statements, avoiding comments concerning the conduct or motives of any person.
- describe the effect that the matter would have had on the accountant's review report if it had been known to the accountant at the date of the report and had not been reflected in the financial statements.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A86 If the accountant is not able to determine whether the financial statements need revision, the notification to anyone in receipt of the reviewed financial statements may indicate that information became known to the accountant and that, if the information is true, the accountant believes that the accountant's review report is not to be used. The specific matter may not be permitted by law, regulation, and ethical requirements to be detailed in the notification. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Written Representations

Written Representations as Review Evidence (Ref: par. .58)

.A87 Written representations are an important source of review evidence. If management modifies or does not provide the requested written representations, it may alert the accountant to the possibility that one or more significant issues may exist. Further, a request for written, rather than oral, representations, in many cases, may prompt management to consider such matters more rigorously, thereby enhancing the quality of the representations. [Paragraph

renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Management From Whom Written Representations Are Requested
(Ref: par. .59)

.A88 Written representations are requested from those with overall responsibility for financial and operating matters whom the accountant believes are responsible for, and knowledgeable about, directly or through others in the organization, the matters covered by the representations, including the preparation and fair presentation of the financial statements. Those individuals may vary depending on the governance structure of the entity; however, management (rather than those charged with governance) is often the responsible party. Written representations may, therefore, be requested from the entity's CEO and CFO or other equivalent persons in entities that do not use such titles. However, in some circumstances, other parties, such as those charged with governance, also are responsible for the preparation and fair presentation of the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A89 Due to its responsibility for the preparation and fair presentation of the financial statements and its responsibility for the conduct of the entity's business, management would be expected to have sufficient knowledge of the process followed by the entity in preparing the financial statements on which to base the written representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A90 In some cases, management may include in the written representations qualifying language to the effect that representations are made to the best of its knowledge and belief. It is reasonable for the accountant to accept such wording if, in the accountant's judgment, the representations are being made by those with appropriate responsibilities and knowledge of the matters included in the representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Specific Written Representations (Ref: par. .60–.61)

.A91 Review evidence obtained during the review that management has acknowledged the responsibilities referred to in paragraph .60a–b is not sufficient without obtaining representation from management that it believes that it has fulfilled those responsibilities. This is because the accountant is not able to judge solely on other review evidence whether management has prepared and fairly presented the financial statements and provided information to the accountant on the basis of the agreed acknowledgment and understanding of its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A92 The written representations relating to fraud required by paragraph .60g–h are important for the accountant to obtain, regardless of the size of the entity, because of the nature of fraud and the difficulties encountered by

accountants in detecting material misstatements in the financial statements resulting from fraud. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A93 Because the preparation of financial statements requires management to adjust the financial statements to correct material misstatements, the accountant is required to request that management provide a written representation about uncorrected misstatements. In some circumstances, management may not believe that certain uncorrected misstatements are misstatements. For that reason, management may want to add to their written representation words such as "We do not agree that items... and... constitute misstatements because *[description of reasons]*." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A94 Circumstances in which it may be appropriate to obtain written representations about related parties from those charged with governance in addition to management include the following:

- When they have approved specific related party transactions that
 - materially affect the financial statements or
 - involve management
- When they have made specific oral representations to the accountant on details of certain related party transactions
- When they have financial or other interests in the related parties or the related party transactions

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A95 Because written representations are necessary review evidence, the accountant has not obtained limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework and the accountant's review report cannot be dated before the date of the written representations. Furthermore, because the accountant is concerned with events occurring up to the date of the accountant's review report that may require adjustment to, or disclosure in, the financial statements, the written representations are dated as of the date of the accountant's review report on the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A96 The written representations cover all periods referred to in the accountant's review report because management needs to reaffirm that the written representations it previously made with respect to the prior periods remain appropriate. The accountant and management may agree to a form of written representation that updates written representations relating to the prior periods by addressing whether there are any changes to such written representations and, if so, what they are. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the

issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A97 Situations may arise in which current management was not present during all periods referred to in the accountant's review report. Such persons may assert that they are not in a position to provide some or all of the written representations because they were not in place during the period. This fact, however, does not diminish such persons' responsibilities for the financial statements as a whole. Accordingly, the requirement for the accountant to request from them written representations that cover the whole of the relevant period(s) still applies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A98 The accountant may request additional representations regarding matters specific to the entity's business or industry. In addition, the accountant is not precluded from obtaining representations regarding services performed in addition to the review engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Form of Written Representations (Ref: par. .62)

.A99 Occasionally, circumstances may prevent management from signing the representation letter and returning it to the accountant on the date of the accountant's review report. In those circumstances, the accountant may accept management's oral confirmation, on or before the date of the accountant's review report, that management has reviewed the final representation letter and will sign the representation letter without exception as of the date of the accountant's review report. Possession of the signed management representation letter prior to releasing the accountant's review report is necessary because paragraph .62 requires that the representations be in the form of a written letter from management. Furthermore, when there are delays in releasing the report, a fact may become known to the accountant that, had it been known to the accountant at the date of the accountant's review report, might affect the accountant's review report and result in the need for updated representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A100 Exhibit B, "Illustrative Representation Letter," provides an illustrative example of a representation letter. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Forming the Accountant's Conclusion on the Financial Statements

Consideration of the Applicable Financial Reporting Framework in Relation to the Financial Statements (Ref: par. .64–.66)

.A101 The description of the applicable financial reporting framework in the financial statements is important because it advises users of the financial

statements of the framework on which the financial statements are based. If the financial statements are special purpose financial statements, they may be prepared under a special purpose financial reporting framework that is available only to the engaging party and the accountant. Description of the special purpose financial reporting framework used is important because the special purpose financial statements may not be appropriate for any use other than the intended use identified. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A102 A description of the applicable financial reporting framework that contains imprecise qualifying or limiting language (for example, "the financial statements are in substantial compliance with accounting principles generally accepted in the United States") is not an adequate description of that framework because it may mislead users of the financial statements. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A103 In considering the qualitative aspects of the entity's accounting practices, the accountant may become aware of possible bias in management's judgments. The accountant may conclude that the cumulative effect of a lack of neutrality, together with the effect of apparent uncorrected misstatements, causes the financial statements as a whole to be materially misstated. Indicators of a lack of neutrality that may affect the accountant's evaluation of whether the financial statements as a whole may be materially misstated include the following:

- The selective correction of apparent misstatements brought to management's attention during the review (for example, correcting misstatements with the effect of increasing reported earnings but not correcting misstatements that have the effect of decreasing reported earnings)
- Possible management bias in the making of accounting estimates

[Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A104 Indicators of possible management bias do not necessarily mean there are misstatements for purposes of drawing conclusions on the reasonableness of individual accounting estimates. They may, however, affect the accountant's consideration of whether the financial statements as a whole may be materially misstated. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Evaluation of Whether the Financial Statements Achieve Fair Presentation (Ref: par. .66b)

.A105 The accountant's professional judgment concerning the fairness of the presentation of the financial statements is applied within the context of the financial reporting framework. Without that framework, the accountant would have no consistent standard for evaluating the presentation of financial position, results of operations, and cash flows in financial statements. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Financial Statements Are Materially Misstated (Ref: par. .71)

.A106 Unless prohibited by law or regulation, the accountant may determine it appropriate to withdraw from the engagement when the accountant

has determined, based on the procedures performed and the review evidence obtained, that the financial statements are materially misstated. [Paragraph added, effective for engagements performed in accordance with SSARSs for periods ending on or after December 15, 2021, by SSARS No. 25.]

Reporting on the Financial Statements (Ref: par. .75)

.A107 A written report encompasses reports issued in hard copy format and those using an electronic medium. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A108 Financial statements that the accountant has reviewed may become unattached from the accountant's review report. To minimize the possibility that a user of the reviewed financial statements may infer, through the accountant's association with the reviewed financial statements, an unintended level of reliance on the reviewed financial statements, the accountant may consider including a reference on each page of the reviewed financial statements to the accountant's review report. An example of a reference to the accountant's review report included on each page of the reviewed financial statements is "See independent accountant's review report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A109 When the accountant is unable to perform the inquiry, analytical procedures, and other review procedures the accountant considers necessary to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework, or management does not provide the accountant with a representation letter, the review will be incomplete. A review that is incomplete does not provide an adequate basis for issuing a review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Accountant's Review Report (Ref: par. .76)

Title

.A110 An appropriate title would be "Independent Accountant's Review Report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Addressee

.A111 The accountant's review report is normally addressed to those for whom the report is prepared. The report may be addressed to the entity whose financial statements are being reviewed or to those charged with governance. A report on financial statements of an unincorporated entity may be addressed as circumstances dictate (for example, to the partners, general partner, or proprietor). Occasionally, an accountant may be retained to review the financial statements of an entity that is not a client; in such a case, the report may be addressed to the entity and not to those charged with governance of the entity

whose financial statements are being reviewed. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Introductory Paragraph

.A112 The introductory paragraph states, for example, that the accountant has "reviewed the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity and cash flows for the year then ended, and the related notes to the financial statements." If the financial statements include a separate statement of changes in stockholders' equity accounts or a separate statement of comprehensive income, paragraph .76c(iii) requires such statements to be identified in the introductory paragraph of the report as a statement to which the financial statements are comprised. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A113 When the accountant is aware that the reviewed financial statements will be included in a document that contains other information, such as an annual report, the accountant may consider, if the form of presentation allows, identifying the page numbers on which the reviewed financial statements are presented. This helps users identify the financial statements to which the accountant's review report relates. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A114 The identification of the title for each statement that the financial statements comprise may be achieved by referencing the table of contents. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Management's Responsibility

.A115 Management, and when appropriate, those charged with governance, accept responsibility for the preparation of the financial statements in accordance with the applicable financial reporting framework, including their fair presentation. Management also accepts responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. The description of management's responsibilities in the accountant's review report includes reference to both responsibilities because it helps explain to users the premise on which a review is conducted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Accountant's Responsibility

.A116 The accountant's review report states that the accountant's responsibility is to conduct the review engagement in accordance with SSARSs promulgated by the Accounting and Review Services Committee of the AICPA in order to contrast it to management's responsibility for the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.

Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A117 The reference to the standards used conveys to users of the accountant's review report that the review engagement has been conducted in accordance with established standards. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A118 The accountant is not permitted to represent compliance with SSARSs in the accountant's review report unless the accountant has complied with the relevant requirements within the body of SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Basis for Modification Paragraph When the Conclusion Is Modified

.A119 An adverse conclusion relating to a specific matter described in the basis for modification paragraph does not justify the omission of a description of other identified matters that would have otherwise required a modification of the accountant's conclusion. In instances in which other identified matters would have otherwise required a modification of the accountant's conclusion, the disclosure of such other matters of which the accountant is aware may be relevant to users of the financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Accountant's Address

.A120 The city and state where the accountant practices may be indicated on letterhead that contains the issuing office's city and state. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Date of the Accountant's Review Report

.A121 The date of the accountant's review report informs users of the accountant's review report that the accountant has considered the effect of events and transactions of which the accountant became aware and that occurred up to that date. The accountant's responsibility for events and transactions after the date of the accountant's review report is addressed in paragraphs .49–.57. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A122 Because the accountant's conclusion is provided on the financial statements, and the financial statements are the responsibility of management, the accountant is not in a position to conclude that the accountant has obtained limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework until evidence is obtained that all the statements that the financial statements comprise, including the related notes, have been prepared, and management has accepted responsibility for them. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A123 Exhibit C, "Illustrations of Accountant's Review Reports on Financial Statements," contains illustrations of accountant's review reports on financial statements incorporating the elements required by paragraph .76. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Accountant's Review Report on Financial Statements Prepared in Accordance With a Special Purpose Framework (Ref: par. .13, .77, and .80–.81)

.A124 There may be circumstances in which a regulatory or contractual basis of accounting is based on a general purpose framework established by a designated accounting standard setter, such as GAAP, or by law or regulation but does not comply with all the requirements of that framework. An example is a contract that requires financial statements to be prepared in accordance with most, but not all, of GAAP. If the financial statements purport to be prepared in accordance with a general purpose framework and such financial statements are materially misstated due to a departure from that framework, paragraphs .71–.72 apply. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A125 When it is acceptable in the circumstances of the engagement to report, in accordance with this section, on special purpose financial statements that purport to be prepared in accordance with a regulatory or contractual basis of accounting that is based on a general purpose framework, it is inappropriate for the description of the applicable financial reporting framework in the special purpose financial statements to imply that the special purpose framework includes all the requirements of, or is the same as, the financial reporting framework on which the special purpose framework is based. In the example of the contract in paragraph .A124, the description of the applicable financial reporting framework may refer to the financial reporting provisions of the contract. The requirements in paragraphs .80–.81 are designed to avoid misunderstandings about compliance with the general purpose framework. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A126 The description of the special purpose framework may be included in the financial statement titles, in the notes to the financial statements, or otherwise on the face of the financial statements. Although terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows* or similar unmodified titles, are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in accordance with GAAP, such titles, with appropriate modification, may be used in connection with financial statements prepared in accordance with a special purpose framework. Suitable financial statement titles for financial statements prepared in accordance with a special purpose framework include, but are not limited to

- a modified cash basis financial statement that might be titled
 - "Income Statement—Modified Cash Basis," or
 - "Statement of Cash Receipts and Disbursements."

- financial statements prepared in accordance with the tax basis of accounting that might be titled
 - "Balance Sheet—Tax Basis,"
 - "Statement of Assets, Liabilities, and Equity—Tax Basis,"
 - "Statement of Operations—Tax Basis," or
 - "Statement of Revenue and Expenses—Tax Basis."
- a financial statement prepared in accordance with a regulatory basis of accounting that might be titled "Statement of Income—Regulatory Basis."

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A127 The description of how the special purpose framework differs from GAAP ordinarily includes only the material differences between GAAP and the special purpose framework. For example, if several items are accounted for differently in accordance with the special purpose framework than they would be in accordance with GAAP, but only the differences in how depreciation is calculated are material, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described. The differences need not be quantified. [Paragraph subsequently renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A128 Financial statements prepared when applying a special purpose framework are not considered appropriate in form unless the financial statements include informative disclosures similar to those required by GAAP if the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

[.A129] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.A130 Special purpose financial statements may be used for purposes other than those for which they were intended. To avoid misunderstandings, paragraph .80 requires the accountant to include an emphasis-of-matter paragraph in the accountant's review report that alerts users of the accountant's review report that the financial statements are prepared in accordance with a special purpose framework and that the basis of accounting is a basis of accounting other than GAAP. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A131 Financial statements prepared in accordance with a special purpose framework may be the only financial statements an entity prepares. Such special purpose financial statements may be used by users other than those for whom the financial reporting framework is designed. Despite the broad distribution of the financial statements, the financial statements are still considered to be special purpose financial statements for purposes of SSARSs. The requirement in paragraph .80 is designed to avoid misunderstandings about the

framework used to prepare the financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A132 If the special purpose financial statements are prepared in accordance with a contractual basis of accounting, paragraph .81 requires the accountant to include an other-matter paragraph in the accountant's review report, under an appropriate heading, that restricts the use of the accountant's review report to specified parties pursuant to paragraphs .103–.104. In the case of special purpose financial statements prepared in accordance with a basis of accounting other than a contractual basis, the accountant may consider it necessary in the circumstances of the engagement to include an alert that restricts the use of the accountant's review report but is not required to do so. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Comparative Financial Statements (Ref: par. .82)

.A133 The level of information included for the prior periods in comparative financial statements is comparable with that of financial statements of the current period. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A134 If one firm of accountants merges with another firm, and the new firm becomes the accountant of a client of one of the two former firms, the new firm may accept responsibility and issue a review report on the financial statements for the prior period(s) as well as for those of the current period. The new firm may indicate in the accountant's review report or as part of the signature that a merger took place and may name the firm with whom it was merged. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Updating the Report (Ref: par. .83)

.A135 An updated report is issued in conjunction with the continuing accountant's report on the current period financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Changed Reference to a Departure From the Applicable Financial Reporting Framework (Ref: par. .86)

.A136 A changed reference includes the removal of a prior reference or the inclusion of a new reference. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

[.A137–.A140] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Emphasis-of-Matter and Other-Matter Paragraphs in the Accountant's Review Report (Ref: par. .89 and .91)

.A141 The accountant is required to include an emphasis-of-matter or other-matter paragraph in the accountant's review report relating to the following matters:

- In accordance with paragraph .55c with respect to reporting when management revises financial statements for a subsequently discovered fact that became known to the accountant after the report release date and the accountant's review report on the revised financial statements differs from the accountant's review report on the original financial statements
- In accordance with paragraphs .80–.81 with respect to financial statements prepared in accordance with a special purpose framework
- In accordance with paragraph .86 with respect to a changed reference to a departure from the applicable financial reporting framework when reporting on comparative financial statements
- In accordance with paragraph .87 with respect to reporting on comparative financial statements when the prior period is audited
- In accordance with paragraph .109 when, after considering conditions or events and management's plans, the accountant concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains
- In accordance with paragraph .123 with respect to supplementary information that accompanies reviewed financial statements and the accountant's review report thereon
- In accordance with paragraph .124 with respect to required supplementary information

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Emphasis-of-Matter Paragraphs in the Accountant's Review Report (Ref: par. .89–.90)

.A142 In addition to the required emphasis-of-matter paragraphs listed in paragraph .A141, the following are examples of circumstances when the accountant may consider it necessary to include an emphasis-of-matter paragraph:

- An uncertainty relating to the future outcome of unusually important litigation or regulatory action
- A major catastrophe that has had, or continues to have, a significant effect on the entity's financial position
- Significant transactions with related parties
- Unusually important subsequent events

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of

financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A143 Paragraph .89 requires that an emphasis-of-matter paragraph refer only to matters appropriately presented or disclosed in the financial statements. To include information in an emphasis-of-matter paragraph about a matter beyond what is presented or disclosed in the financial statements may raise questions about the appropriateness of such presentation or disclosure. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A144 Another heading may be considered appropriate if it adequately describes the nature of the matter being disclosed or communicated. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A145 The accountant may add further context to the heading "Emphasis of Matter" (for example, "Emphasis of Matter — Subsequent Event") to further describe the nature of the matter addressed by the emphasis-of-matter paragraph. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A146 The inclusion of an emphasis-of-matter paragraph in the accountant's review report does not affect the accountant's conclusion. An emphasis-of-matter paragraph is not a substitute for the following:

- A modified conclusion in accordance with paragraphs .69–.74 when required by the circumstances of a specific review engagement
- Disclosures in the financial statements that the applicable financial reporting framework requires management to make
- Reporting in accordance with paragraphs .109–.112 when, after considering identified conditions or events and management's plans, the accountant concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains, in which case the accountant is required to include a separate section in the accountant's report

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Other-Matter Paragraphs in the Accountant's Review Report (Ref: par. .91)

.A147 If not properly presented or disclosed in the financial statements, a matter cannot be included in an emphasis-of-matter paragraph. However, if the matter is relevant to users' understanding of the review, the accountant's responsibilities, or the accountant's review report, the matter can be disclosed in an other-matter paragraph. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A148 An entity may prepare one set of financial statements in accordance with a general purpose framework (for example, accounting principles

generally accepted in the United States of America) and another set of financial statements in accordance with another general purpose framework (for example, International Financial Reporting Standards promulgated by the International Accounting Standards Board) and may engage the accountant to review both sets of financial statements. If the accountant has determined that the frameworks are acceptable in the respective circumstances, the accountant may include an other-matter paragraph in the accountant's review report referring to the fact that another set of financial statements has been prepared by the same entity in accordance with another general purpose framework and that the accountant has issued a review report on those financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A149 The content of an other-matter paragraph reflects clearly that such other matter is not required to be presented and disclosed in the financial statements. An other-matter paragraph does not include information that the accountant is prohibited from providing by law, regulation, or other professional standards (for example, ethical standards relating to the confidentiality of information). An other-matter paragraph does not include information that is required to be provided by management. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Communication With Management (Ref: par. .93)

.A150 The accountant's communication with management, as described in paragraph .93, enables management to be made aware of the nature of any specific matters that the accountant intends to highlight in the accountant's review report and provides them with an opportunity to obtain further clarification from the accountant, when necessary. When the inclusion of an other-matter paragraph on a particular matter in the accountant's review report recurs on each successive engagement, the accountant may determine that it is unnecessary to repeat the communication on each engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A151 In addition to management, the accountant may also consider it appropriate to communicate with those charged with governance regarding the expectation of including an other-matter paragraph in the accountant's review report and the proposed wording of this paragraph. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Correction of a Material Misstatement in Previously Issued Financial Statements (Ref: par. .94–.95)

.A152 The requirement for the accountant to include an emphasis-of-matter paragraph in the accountant's review report when there are adjustments to correct a material misstatement in previously issued financial statements applies when comparative or single-year financial statements are presented. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A153 A change from an accounting principle that is not in accordance with the applicable financial reporting framework to one that is in accordance with the applicable financial reporting framework is a correction of a misstatement. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A154 Paragraphs .54–.55 address the accountant's responsibilities when adjustments have been made to correct a material misstatement in previously issued financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A155 The following is an example of an emphasis-of-matter paragraph when there has been a correction of a material misstatement in previously issued financial statements:

Emphasis of Matter

As discussed in Note X to the financial statements, the 20X2 financial statements have been restated to correct a misstatement. Our conclusion is not modified with respect to this matter.

[Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

Other Reporting Responsibilities (Ref: par. .97)

.A156 These other reporting responsibilities are addressed in a separate section of the accountant's report, to clearly distinguish them from the accountant's responsibility in accordance with this section to report on the financial statements. Where relevant, this section may contain subheadings that describe the content of the other reporting responsibilities paragraph or paragraphs. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

[.A157–.A162]^[6] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Alert That Restricts the Use of the Accountant's Review Report (Ref: par. .103)

.A163 The need for an alert that restricts the use of the accountant's review report arises from the potential for the accountant's review report to be misunderstood if taken out of the context in which the accountant's review report is intended to be used. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A164 Accountant's review reports on financial statements prepared in accordance with a general purpose framework ordinarily do not include an alert that restricts their use. A general purpose framework is a financial reporting framework designed to meet the common financial information needs of a wide range of users. However, nothing in SSARSs precludes an accountant from including an alert in any accountant's review report. For example, financial statements prepared specifically for use in an acquisition may be prepared in accordance with a general purpose framework because the parties involved in the

^[6] [Footnote renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

transaction have agreed that such general purpose financial statements are appropriate for their purposes. Nevertheless, when the terms of the engagement to review those financial statements require the accountant to supply the accountant's review report only to specified parties, the accountant may consider it necessary in the circumstances to include an other-matter paragraph in the accountant's review report that restricts the use of the accountant's review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Distribution of the Accountant's Review Report (Ref: par. .103)

.A165 An accountant is not responsible for controlling, and cannot control, distribution of the accountant's review report after its release. The alert that restricts the use of the accountant's review report is designed to avoid misunderstandings related to the use of the accountant's review report, particularly if the accountant's review report is taken out of the context in which the accountant's review report is intended to be used. An accountant may consider informing the entity or other specified parties that the accountant's review report is not intended for distribution to parties other than those specified in the accountant's review report. The accountant may, in connection with establishing the terms of the engagement, reach an understanding with the entity that the intended use of the accountant's review report will be restricted and may obtain the entity's agreement that the entity and specified parties will not distribute such accountant's review report to parties other than those identified therein. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Illustrative Alert Language (Ref: par. .104)

.A166 The alert that restricts the use of the accountant's review report may list the specified parties or refer to the specified parties listed elsewhere in the accountant's review report. The following illustrates language that includes the elements required by paragraph .104:

This report is intended solely for the information and use of *[list or refer to the specified parties]* and is not intended to be, and should not be, used by anyone other than these specified parties.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Adding Other Specified Parties (Ref: par. .105)

.A167 When the accountant is requested to add other parties as specified parties, the accountant may agree to add other parties as specified parties based on the accountant's consideration of factors such as the identity of the other parties and the intended use of the accountant's review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

The Accountant's Consideration of an Entity's Ability to Continue as a Going Concern

[~~A.168–A.173~~]^{7–8} [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Implications for the Accountant's Review Report When Substantial Doubt Exists About the Entity's Ability to Continue as a Going Concern ***(Ref: .109–.110 and .112)***

[~~A.174~~] [Paragraph renumbered and deleted by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A175 The identification of substantial doubt is a matter that is important to users' understanding of the financial statements. The use of a separate section with a heading that includes reference to the fact that substantial doubt exists about the entity's ability to continue as going concern alerts users to this circumstance. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A176 The following are illustrations of the statements that are required to be included in the accountant's review report on the financial statements. The following illustrations provide examples in which FASB ASC is the applicable financial reporting framework. If an applicable financial reporting framework other than FASB ASC is used, the wording in the illustrations may need to be adapted to reflect the application of the other financial reporting framework in the circumstances.

Illustration 1 — An Accountant's Review Report Containing an Unmodified Conclusion and Including a Going Concern Section When Management Is Required Under the Applicable Financial Reporting Framework to Include a Statement in the Notes to the Financial Statements That Conditions or Events Have Been Identified and Substantial Doubt Exists and Disclosure in The Financial Statements Is Adequate

Substantial Doubt About the Company's Ability to Continue as a Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations, has a net capital deficiency, and has stated that substantial doubt exists about the Company's ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding these matters are also described in Note X. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our conclusion is not modified with respect to this matter.

Illustration 2 — An Accountant's Review Report Containing an Unmodified Opinion Conclusion and Including an Emphasis-of-Matter Paragraph Because Substantial Doubt Has Been Alleviated

Emphasis of Matter

As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency. Management's evaluation of the events and conditions and management's plans to mitigate these matters are also described in Note X. Our conclusion is not modified with respect to this matter.

^{7–8} [Footnote renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

[.A177] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

.A178 When FASB ASC or the GASB statements are the applicable financial reporting framework used in the preparation of the financial statements, the accountant's conclusion about the entity's ability to continue as a going concern is expressed through the use of the phrase "substantial doubt about its (the entity's) ability to continue as a going concern." In other financial reporting frameworks, a similar term or phrase may be appropriate depending on the requirements of the applicable financial reporting framework. If the applicable financial reporting framework does not include comparable terms, then wording that includes the terms *substantial doubt* and *going concern* may be appropriate. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A179 If conditions or events, considered in the aggregate, have been identified that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time but, based on the review evidence obtained, the accountant concludes that substantial doubt has been alleviated by management's plans and adequate disclosure has been made in the financial statements, the accountant may include an emphasis-of-matter paragraph in accordance with paragraphs .89–.90, making reference to management's disclosures related to the conditions and events and management's plans related to those conditions or events. In this circumstance, the use of an emphasis-of-matter paragraph is to draw users' attention to the disclosures of the conditions and events and management's plans. It is distinguished from the situation in which the accountant concludes, after considering identified conditions or events and management's plans, that substantial doubt about the entity's ability to continue as a going concern remains, in which case the accountant is required by paragraph .109 to include a separate "Going Concern" section in the accountant's review report.

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A180 As indicated in paragraph .71, in circumstances in which conditions and events have been identified and the accountant concludes that, based on the review evidence obtained, the disclosures are materially misstated, the accountant is required to modify the accountant's review report. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A181 Examples of conditional language that are inappropriate to use in the "Going Concern" section include the following:

- If the Company continues to suffer recurring losses from operations and continues to have a net capital deficiency, there may be substantial doubt about its ability to continue as a going concern.
- The Company has been unable to renegotiate its expiring credit agreements. Unless the entity is able to obtain financial support, there is substantial doubt about its ability to continue as a going concern.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered and amended, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

.A182 In certain circumstances, the accountant may believe it necessary to request that management perform or extend its evaluation to meet the period of time required by the applicable financial reporting framework. If management is unwilling to do so, a qualified or adverse conclusion in the accountant's review report may be appropriate. For example, management may be unwilling to extend its evaluation because it believes it has satisfied the requirements to conclude whether substantial doubt exists about the entity's ability to continue as a going concern for a reasonable period of time when the applicable financial reporting framework requires management to make this evaluation. If, in the accountant's judgment, management's conclusion is not adequately supported, the accountant may conclude that a qualified or adverse conclusion for a departure from the applicable financial reporting framework is appropriate in the circumstances. Paragraphs .69–.74 provide guidance related to the modification of the accountant's conclusion. [Paragraph added, effective for reviews of financial statements for periods ending on or after December 15, 2021, by SSARS No. 25.]

[.A183–.A190] [Paragraphs renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Reference to the Work of Other Accountants in an Accountant's Review Report (Ref: par. .122)

.A191 The accountant of the reporting entity may make reference to any or all other accountants who audited or reviewed significant components. For example, if a significant component is audited or reviewed by an other accountant and a second significant component is audited or reviewed by a different other accountant, the accountant of the reporting entity may decide to make reference to one of the other accountants, both of the other accountants, or neither. The decision is solely at the discretion and judgment of the accountant of the reporting entity. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A192 The disclosure of the magnitude of the portion of the financial statements audited or reviewed by other accountants may be achieved by stating the dollar amounts or percentages of total assets, total revenues, other appropriate criteria, or a combination of these, whichever most clearly describes the portion of the financial statements audited or reviewed by other accountants. When two or more other accountants participate in the audit or review, the dollar amounts or the percentages covered by the other accountants may be stated in the aggregate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A193 Exhibit C contains an example of appropriate reporting in the accountant's review report when reference is made to the audit or review of significant components, such as consolidated and unconsolidated subsidiaries and

investees, by other accountants.⁹ [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Determining Whether the Other Accountants Are Familiar with SSARSs or Auditing Standards Generally Accepted in the United States of America, as Applicable (Ref: par. .124b)

.A194 An other accountant's review report stating that the review was conducted in accordance with SSARSs or an auditor's report stating that the audit was conducted in accordance with generally accepted auditing standards (GAAS) is sufficient to make the determination required by paragraph .124b. When the other accountant has performed a review of the component financial statements in accordance with standards other than SSARSs or an audit of the component financial statements in accordance with auditing standards other than GAAS, the accountant of the reporting entity may evaluate, exercising professional judgment, whether the engagement performed by the other accountant meets the relevant requirements of SSARSs or GAAS, as applicable. For the purposes of complying with paragraph .124b, relevant requirements of SSARSs or GAAS are those that pertain to planning and performing the engagement on the component financial statements and do not include those related to the form of the accountant's review or the auditor's report. Reviews performed in accordance with International Standard on Review Engagements 2400 (Revised), *Engagements to Review Historical Financial Statements*, and audits performed in accordance with International Standards on Auditing (ISAs), both of which are promulgated by the International Auditing and Assurance Standards Board (IAASB), are likely to meet the relevant requirements of SSARSs and GAAS, respectively. The other accountants may perform additional procedures in order to meet the relevant requirements of SSARSs or GAAS. The accountant of the reporting entity, having determined that all relevant requirements of SSARSs or GAAS have been met by the other accountant, may decide to make reference to the review or audit of that other accountant in the accountant's review report on the reporting entity's financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A195 When the other accountants are not subject to the AICPA Code of Professional Conduct, compliance by the other accountants with the ethics and independence requirements set forth in the International Ethics Standards Board's *Code of Ethics for Professional Accountants* is sufficient to fulfill the other accountants' ethical responsibilities. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Determining Whether to Make Reference When the Financial Reporting Framework Is Not the Same (Ref: par. .125b)

.A196 The greater the number of differences or the greater the significance of the differences between the criteria used for measurement,

⁹ Illustration 6, "An Accountant's Review Report on Comparative Consolidated Financial Statements in Which the Accountant Makes Reference to the Work of Other Accountants Who Were Engaged to Review the Financial Statements of a Significant Component," of exhibit C. [Footnote renumbered by the issuance of SSARS No. 24, May 2018. Footnote subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

recognition, presentation, and disclosure of all material items in the component's financial statements in accordance with the financial reporting framework used by the component and the financial reporting framework used by the reporting entity, the less similar the financial reporting frameworks. Financial statements prepared and presented in accordance with International Financial Reporting Standards (IFRS) and *International Financial Reporting Standard for Small- and Medium-Sized Entities*, as issued by the International Accounting Standards Board, are generally viewed as similar to financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). In most cases, special purpose frameworks are not similar to GAAP. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Supplementary Information That Accompanies Reviewed Financial Statements (Ref: par. .126–.128)

[A197] [Paragraph renumbered and deleted by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

A198 The following is an example of how an accountant may word an other-matter paragraph addressing supplementary information when the supplementary information has been subjected to the review procedures applied in the accountant's review of the basic financial statements:

Other Matter

The accompanying *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the review procedures applied in my (our) review of the basic financial statements. I am (We are) not aware of any material modifications that should be made to the supplementary information. I (We) have not audited the supplementary information and do not express an opinion on such information.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

A199 The following is an example of how an accountant may word an other-matter paragraph addressing supplementary information when the supplementary information has not been subjected to the review procedures applied in the review of the basic financial statements:

Other Matter

The accompanying *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. I (We) have not audited or reviewed such information and I (we) do not express an opinion, a conclusion, nor provide any assurance on it.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A200 Supplementary information may become unattached from the accountant's review report. To minimize the possibility that a user of the supplementary information may infer, through the accountant's association with such information, an unintended level of reliance on it, the accountant may consider including a reference to the accountant's review report on each page of the supplementary information. An example of a reference to the accountant's review report included on each page of the supplementary information is "See independent accountant's review report." [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Required Supplementary Information (Ref: par. .129–.130)

.A201 Examples of required supplementary information that may accompany reviewed financial statements include the following:

- With respect to common interest realty associations, estimates of current or future costs of major repairs and replacements of common property that will be required in the future as required by *FASB Accounting Standards Codification 972-235-50-3*
- Management's discussion and analysis and budgetary comparison statements as required by GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A202 *Prescribed guidelines* are the authoritative guidelines established by the designated accounting standard-setter for the methods of measurement and presentation of the required supplementary information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A203 Because the required supplementary information accompanies the basic financial statements, the accountant's review report on the financial statements includes a discussion of the responsibility taken by the accountant on that information. However, if the required supplementary information is omitted by the entity, the accountant does not have a responsibility to present that information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Change in Engagement From Audit to Review (Ref: par. .132)

.A204 A request to change the engagement may result from a change in circumstances affecting the entity's requirement for an audit engagement; a misunderstanding regarding the nature of an audit or review engagement; or

a restriction on the scope of the audit engagement, whether imposed by management or caused by circumstances. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A205 A change in circumstances that affects the entity's requirement for an audit engagement or a misunderstanding concerning the nature of an audit or review engagement would ordinarily be considered a reasonable basis for requesting a change in the engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A206 The implications of a restriction on the scope of the audit engagement include the possibility that information affected by the scope restriction may be incorrect, incomplete, or otherwise unsatisfactory. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Review Documentation (Ref: par. .137)

.A207 Review documentation may be recorded on paper or on electronic or other media. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A208 The accountant need not include in review documentation superseded drafts of working papers and financial statements, notes that reflect incomplete or preliminary thinking, previous copies of documents corrected for typographical or other errors, and duplicates of documents. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A209 The accountant is not precluded from supporting the review report by other means in addition to the review documentation. Such other means might include written documentation contained in other engagement files (for example, compilation or nonattest services) or quality control files (for example, consultation files) and, in limited situations, oral explanations. On their own, oral explanations by the accountant do not represent adequate support for the work the accountant performed or conclusions reached, but they may be used to explain or clarify information contained in the review documentation. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A210 In the case of a review in which the engagement partner performs all the review work, the engagement partner is still required to comply with the overriding requirement in paragraph .137 to prepare review documentation that can be understood by an experienced accountant because the review documentation may be subject to review by external parties. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

.A211 Findings or issues that, in the accountant's professional judgment, are significant may include the results of review procedures that indicate that the financial statements could be materially misstated, including actions taken to address such findings and the basis for the final conclusions. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Appendix A — Analytical Procedures the Accountant May Consider Performing When Conducting a Review of Financial Statements (Ref: par. .A29)

Analytical procedures are designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement of the financial statements. Examples of analytical procedures that an accountant may consider performing in a review of financial statements include the following:

- Comparing current financial statements with the financial statements of the prior period.
- Comparing current financial statements with anticipated results, such as budgets or forecasts (for example, comparing tax balances and the relationship between the provision for income taxes and pretax income in the current financial statements with corresponding information in [a] budgets, using expected rates, and [b] financial statements for prior periods). Caution is necessary when comparing and evaluating current financial statements with budgets, forecasts, or other anticipated results because of the inherent lack of precision in estimating the future and the susceptibility of such information to manipulation and misstatement by management to reflect desired results.
- Comparing current financial statements with relevant nonfinancial information.
- Comparing ratios and indicators for the current period with expectations based on prior periods (for example, performing gross profit analysis by product line and operating segment using elements of the current financial statements and comparing the results with corresponding information for prior periods). Examples of key ratios and indicators are the current ratio, receivable turnover or days sales outstanding, inventory turnover, depreciation to average fixed assets, debt to equity, gross profit percentage, net income percentage, and plant operating rates.
- Comparing ratios and indicators for the current period with those of entities in the same industry.
- Comparing relationships among elements in the current financial statements with corresponding relationships in the financial statements of prior periods (for example, expense by type as a percentage of sales, assets by type as a percentage of total assets, and percentage of change in sales to percentage of change in receivables).
- Comparing disaggregated data. The following are examples of how data may be disaggregated:
 - By period (for example, financial statement items disaggregated into quarterly, monthly, or weekly amounts)
 - By product line or operating segment
 - By location (for example, subsidiary, division, or branch)

Analytical procedures may include such statistical techniques as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

[.A213] [Paragraph renumbered and deleted by the issuance of SSARS No. 25, February 2020.]

Exhibit A — Illustrative Engagement Letters (Ref: par. .A29)

Illustration 1 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 2 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

The illustrative engagement letters in this exhibit are intended as illustrations that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances, and the illustrations are drafted to refer to a review engagement for a single reporting period. The accountant may seek legal advice about whether a proposed letter is suitable.

Illustration 1 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements, including related notes, subject to the review engagement.
- The financial statements will be prepared in accordance with accounting principles generally accepted in the United States of America.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements and perform a review engagement with respect to those financial statements.³ We are pleased to confirm our acceptance and understanding of this engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the review engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A25.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

- a. prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you and
- b. obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including ethical principles of integrity, objectivity, professional competence, and due care.

A review engagement includes primarily applying analytical procedures to your financial data and making inquiries of company management. A review engagement is substantially less in scope than an audit engagement, the objective of which is the expression of an opinion regarding the financial statements as a whole. A review engagement does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed in an audit engagement. Accordingly, we will not express an opinion regarding the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by error or fraud, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations. However, we will inform the appropriate level of management of any material errors and any evidence or information that comes to our attention during the performance of our review procedures that indicates fraud may have occurred. In addition, we will report to you any evidence or information that comes to our attention during the performance of our review procedures regarding noncompliance with laws and regulations that may have occurred, unless they are clearly inconsequential.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with accounting principles generally accepted in the United States of America. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and the inclusion of all informative disclosures that are appropriate for accounting principles generally accepted in the United States of America
- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial

- statements that are free from material misstatement, whether due to fraud or error
- d. The prevention and detection of fraud
 - e. To ensure that the entity complies with the laws and regulations applicable to its activities
 - f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
 - g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the review engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries
 - h. To provide us, at the conclusion of the engagement, with a letter that confirms certain representations made during the review

You are also responsible for all management decisions and responsibilities, and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of services performed and accepting responsibility for such services.

Our Report

[Insert appropriate reference to the expected form and content of the accountant's review report. Example follows.]

We will issue a written report upon completion of our review of ABC Company's financial statements. Our report will be addressed to the board of directors of ABC Company. We cannot provide assurance that an unmodified accountant's review report will be issued. Circumstances may arise in which it is necessary for us to report known departures from accounting principles generally accepted in the United States of America, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement. If, for any reason, we are unable to complete the review of your financial statements, we will not issue a report on such statements as a result of this engagement.

You agree to include our accountant's review report in any document containing financial statements that indicates that such financial statements have been reviewed by us and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services. . .

[The accountant may include language, such as the following, regarding limitation of or other arrangements regarding the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by

third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a review of those same financial statements and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

[Signed]

[Name and Title]

[Date]

[Revised, February 2015, to include additional required engagement letter elements; Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Illustration 2 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements, including related notes, subject to the review engagement.
- The financial statements will be prepared in accordance with the tax basis of accounting.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the statement of assets, liabilities, and equity—tax basis as of December 31, 20XX, and the related statements of operations and retained earnings—tax basis, and cash flows—tax basis for the year then ended, and the related notes to the financial statements and to perform a review engagement with respect to those financial statements.³ We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

- a.* prepare financial statements in accordance with the tax basis of accounting based on information provided by you and

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the review engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A25.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

- We will conduct our review engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including ethical principles of integrity, objectivity, professional competence, and due care.

A review engagement includes primarily applying analytical procedures to your financial data and making inquiries of company management. A review engagement is substantially less in scope than an audit engagement, the objective of which is the expression of an opinion regarding the financial statements as a whole. A review engagement does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed in an audit engagement. Accordingly, we will not express an opinion regarding the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by error or fraud, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations. However, we will inform the appropriate level of management of any material errors and any evidence or information that comes to our attention during the performance of our review procedures that indicates fraud may have occurred. In addition, we will report to you any evidence or information that comes to our attention during the performance of our review procedures regarding noncompliance with laws and regulations that may have occurred, unless they are clearly inconsequential.

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with the tax basis of accounting and to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the tax basis of accounting. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- ©2022. AICPA

- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities
- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the review engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries
- h. To provide us, at the conclusion of the engagement, with a letter that confirms certain representations made during the review

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

[Insert appropriate reference to the expected form and content of the accountant's review report. Example follows.]

We will issue a written report upon completion of our review of ABC Company's financial statements. Our report will be addressed to the board of directors of ABC Company. We cannot provide assurance that an unmodified accountant's review report will be issued. Circumstances may arise in which it is necessary of us to report known departures from the tax basis of accounting, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement. If, for any reason, we are unable to complete the review of your financial statements, we will not issue a report on such statements as a result of this engagement.

Our report will state that the financial statements are prepared in accordance with tax basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our conclusion will not be modified with respect to this matter.

You agree to include our accountant's review report in any document containing financial statements that indicates that such financial statements have been reviewed by us and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services. . .

[The accountant may include language, such as the following, regarding limitation of or other arrangements regarding the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing

misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a review with respect to those same financial statements and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

[Signed]

Exhibit B — Illustrative Representation Letter (Ref: par. .A97)

The following illustrative letter is intended as an illustration that may be used to comply with the requirements of section 90. The representation letter will vary according to individual requirements and circumstances.

It is assumed in this illustration that the applicable financial reporting framework is accounting principles generally accepted in the United States of America, that no conditions or events exist that might be indicative of the entity's inability to continue as a going concern, and that no exceptions exist to the requested written representations. If circumstances differ from these assumptions, the representations would need to be modified to reflect the actual circumstances.

(Entity Letterhead)

(To Accountant)

(Date)

This representation letter is provided in connection with your review of the financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity and cash flows for the years then ended, and the related notes to the financial statements, for the purpose of obtaining limited assurance as a basis for reporting whether you are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with accounting principles generally accepted in the United States of America.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We represent that *[to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves]* *[as of (date of accountant's review report)]*:

Financial Statements

- We acknowledge our responsibility and have fulfilled our responsibilities for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America.
- We acknowledge our responsibility and have fulfilled our responsibilities for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
- We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.

- Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.
- Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of accounting principles generally accepted in the United States of America.
- Guarantees, whether written or oral, under which the company is contingently liable have been properly accounted for and disclosed in accordance with the requirements of accounting principles generally accepted in the United States of America.
- Significant estimates and material concentrations known to management that are required to be disclosed in accordance with FASB *Accounting Standards Codification* (ASC) 275, *Risks and Uncertainties*, have been properly accounted for and disclosed in accordance with the requirements of accounting principles generally accepted in the United States of America. [Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.]
- All events occurring subsequent to the date of the financial statements and for which accounting principles generally accepted in the United States of America requires adjustment or disclosure have been properly accounted for.
- The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the financial statements as a whole.
- The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with accounting principles generally accepted in the United States of America.

[Any other matters that the accountant may consider appropriate.]

Information Provided

- We have responded fully and truthfully to all inquiries made to us by you during your review.
- We have provided you with
 - access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters;
 - minutes of meetings of stockholders, directors, and committees of directors or summaries of actions of recent meetings for which minutes have not yet been prepared;
 - additional information that you have requested from us for the purpose of the review; and
 - unrestricted access to persons within the entity from whom you determined it necessary to obtain review evidence.
- All transactions have been recorded in the accounting records and are reflected in the financial statements.

- We have *[no knowledge of any]* *[disclosed to you all information that we are aware of regarding]* fraud or suspected fraud that affects the entity and involves
 - management,
 - employees who have significant roles in internal control, or
 - others when the fraud could have a material effect on the financial statements.
- We have *[no knowledge of any]* *[disclosed to you all information that we are aware of regarding]* allegations of fraud, or suspected fraud, affecting the entity's financial statements as a whole communicated by employees, former employees, analysts, regulators, or others.
- We have no plans or intentions that may materially affect the carrying amounts or classification of assets and liabilities.
- We have disclosed to you all known instances of noncompliance or suspected noncompliance with laws or regulations whose effects should be considered when preparing financial statements.
- We *[have disclosed to you all known actual or possible]* *[are not aware of any pending or threatened]* litigation and claims whose effects should be considered when preparing the financial statements *[and we have not consulted legal counsel concerning litigation or claims]*
- We have disclosed to you any other material liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB ASC 450, *Contingencies*.
- We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.
- We have disclosed to you all information relevant to the use of the going concern assumption in the financial statements.
- No material losses exist (such as from obsolete inventory or purchase or sale commitments) that have not been properly accrued or disclosed in the financial statements.
- The company has satisfactory title to all owned assets, and no liens or encumbrances on such assets exist, nor has any asset been pledged as collateral, except as disclosed to you and reported in the financial statements.
- We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
- We are in agreement with the adjusting journal entries that you have recommended, and they have been posted to the company's accounts (if applicable).

[Any other matters that the accountant may consider necessary.]

[Name of Chief Executive Officer and Title]

[Name of Chief Financial Officer and Title]

Representation letters ordinarily are tailored to include additional appropriate representations from management relating to matters specific to the entity's business or industry.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018. Paragraph subsequently renumbered by the issuance of SSARS No. 25, February 2020.]

Illustration 1 — An Accountant's Review Report on Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When a Review Has Been Performed for Both Periods

Circumstances include the following:

- Review of a complete set of comparative financial statements.
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the

related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

Accountant's Conclusion

Based on my (our) reviews, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 2 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Review of a complete set of financial statements (single year).
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements. A review

includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 3 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- Review of a complete set of financial statements (single year).
- The financial statements are of a partnership and prepared in accordance with the basis of accounting the partnership uses for income tax purposes (that is, a special purpose framework).
- Management has a choice of financial reporting frameworks.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Partnership, which comprise the statement of assets, liabilities, and partners' capital—tax basis as of December 31, 20XX, and the related statements of revenue and expenses—tax basis, and partners' capital—tax basis for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (partners') financial data and

making inquiries of partnership management (partners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Partners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting the partnership uses for income tax purposes; this includes determining that the basis of accounting the partnership uses for income tax purposes is an acceptable basis for the preparation of financial statements in the circumstances. Management (Partners) is (are) also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with the basis of accounting the partnership uses for income tax purposes. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Partnership and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with the basis of accounting the partnership uses for income tax purposes.

Basis of Accounting

I (We) draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared in accordance with the basis of accounting the partnership uses for income tax purposes, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our conclusion is not modified with respect to this matter.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 4 — An Accountant's Review Report on Interim Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Review of a complete set of interim financial statements for the period ended September 30, 20XX, and for the three and nine months then ended.

- The interim financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.
- The accountant appropriately performs the engagement in accordance with SSARs (that is, AU-C section 930, *Interim Financial Information*, is not applicable).

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying interim financial statements of XYZ Company, which comprise the balance sheet as of September 30, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the three and nine months then ended, and the related notes to the interim financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the interim financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these interim financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the interim financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying interim financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 5 — An Accountant's Review Report on Comparative Financial Statements Disclosing a Departure From Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Review of a complete set of comparative financial statements.
- The financial statements contain a departure from accounting principles generally accepted in the United States of America.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

Basis for Qualified Conclusion

As disclosed in Note X to these financial statements, accounting principles generally accepted in the United States of America require that inventory cost consist of material, labor, and overhead. Management has informed me (us) that the inventory of finished goods and work in process is stated in the accompanying financial statements at material and labor cost only, and that the effects of this departure from accounting principles generally accepted in the United States of America on financial position, results of operations, and cash flows have not been determined.

or

As disclosed in Note X to these financial statements, the company has adopted *[description of newly adopted method]*, whereas it previously used *[description*

of previous method]. Although the [*description of newly adopted method*] is in accordance with accounting principles generally accepted in the United States of America, the company does not appear to have reasonable justification for making a change as required by FASB *Accounting Standards Codification* 250, *Accounting Changes and Error Corrections*.

Qualified Conclusion

Based on my (our) reviews, except for the effect of the matter described in the Basis for Qualified Conclusion paragraph, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[*Signature of accounting firm or accountant, as appropriate*]

[*Accountant's city and state*]

[*Date of the accountant's review report*]

Illustration 6 — An Accountant's Review Report on Comparative Consolidated Financial Statements in Which the Accountant Makes Reference to the Work of Other Accountants Who Were Engaged to Review the Financial Statements of a Significant Component

Circumstances include the following:

- Review of a complete set of comparative consolidated financial statements.
- The financial statements of B Company, a wholly-owned subsidiary, whose financial statements reflect total assets constituting 20 percent and 22 percent, respectively, of consolidated total assets at December 31, 20X2 and 20X1, and total revenues constituting 18 percent and 20 percent, respectively, of consolidated total revenues for the years then ended, were reviewed by other accountants, and the accountant has decided to make reference to the work of other accountants in the accountant's review report.

Independent Accountant's Review Report

[*Appropriate Addressee*]

I (We) have reviewed the accompanying consolidated financial statements of XYZ Company and its subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X2 and 20X1, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services (SSARSS) promulgated by the Accounting and Review Services Committee of the AICPA. We have not reviewed the financial statements of B Company, a wholly-owned subsidiary, whose financial statements reflect total assets constituting 20 percent and 22 percent, respectively, of consolidated total assets at December 31, 20X2 and 20X1, and total revenues constituting 18 percent and 20 percent, respectively, of consolidated total revenues for the years then ended. These statements were reviewed by other accountants, whose report has been furnished to me (us), and our conclusion, insofar as it relates to the amounts included for B Company, is based solely on the report of the other accountants.

SSARSS require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the consolidated financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

Accountant's Conclusion

Based on my (our) reviews, and the report of other accountants, I am (we are) not aware of any material modifications that should be made to the accompanying consolidated financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 7 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America Containing an Adverse Conclusion Due to a Misstatement of the Financial Statements That Is Both Material and Pervasive to the Financial Statements

Circumstances include the following:

- Review of a complete set of comparative financial statements.
- The financial statements contain a departure from accounting principles generally accepted in the United States of America that is both material and pervasive to the financial statements due to nonconsolidation of a subsidiary.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

We are required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

Basis for Adverse Conclusion

As disclosed in Note X to these financial statements, the Company has not consolidated the financial statements of subsidiary ABC Company it acquired during 20X1 because it has not yet been able to ascertain the fair values of certain of the subsidiary's material assets and liabilities at the acquisition date. This investment is therefore accounted for on a cost basis by the Company. Under accounting principles generally accepted in the United States of America, the subsidiary should have been consolidated because it is controlled by the Company. Had XYZ Company been consolidated, many elements in the accompanying consolidated financial statements would have been materially affected. The effects on the consolidated financial statements of the failure to consolidate have not been determined.

Adverse Conclusion

Based on my (our) review, due to the significance of the matter described in the Basis for Adverse Conclusion paragraph, the financial statements are not in accordance with accounting principles generally accepted in the United States of America. [Had we been engaged to perform an audit, other matters might have come to our attention.]

[Signature of accounting firm or accountant, as appropriate]

AR-C Section 90B

Review of Financial Statements

Source: SSARS No. 21; SSARS No. 23; SSARS No. 24.

Effective for reviews of financial statements for periods ending on or after December 15, 2015, unless otherwise indicated.

Introduction

Scope and Applicability of This Section

.01 This section applies when the accountant is engaged to perform a review of financial statements. This section also applies when the accountant is engaged to review other historical financial information, excluding pro forma financial information. Reviews of pro forma financial information are to be performed in accordance with Statements on Standards for Attestation Engagements. (Ref: par. .A1–.A3) [As amended, effective October 2016, by SSARS No. 23.]

.02 This section does not apply when the accountant is engaged to review interim financial information when

- a. the entity's latest annual financial statements have been audited by the accountant or a predecessor;
- b. the accountant either
 - i. has been engaged to audit the entity's current year financial statements or
 - ii. audited the entity's latest annual financial statements and, in situations in which it is expected that the current year financial statements will be audited, the engagement of another accountant to audit the current year financial statements is not effective prior to the beginning of the period covered by the review; and
- c. the entity prepares its interim financial information in accordance with the same financial reporting framework as that used to prepare the annual financial statements.

AU-C section 930, *Interim Financial Information*, provides guidance for review engagements when the conditions in a–c are met.

Effective Date

.03 This section is effective for reviews of financial statements for periods ending on or after December 15, 2015. Early implementation is permitted.

Objective

.04 The objective of the accountant when performing a review of financial statements is to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the

financial statements for them to be in accordance with the applicable financial reporting framework, primarily through the performance of inquiry and analytical procedures. (Ref: par. .A4–.A9)

Definitions

.05 For purposes of Statements on Standards for Accounting and Review Services (SSARs), the following terms have the meanings attributed as follows:

Analytical procedures. Evaluations of financial information through analysis of plausible relationships among both financial and nonfinancial data. Analytical procedures also encompass such investigation, as is necessary, of identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount.

Applicable financial reporting framework. The financial reporting framework adopted by management and, when appropriate, those charged with governance in the preparation and fair presentation of the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements, or that is required by law or regulation.

Comparative financial statements. A complete set of financial statements for one or more prior periods included for comparison with the financial statements of the current period.

Designated accounting standard-setter. A body designated by the Council of the AICPA to promulgate accounting principles generally accepted in the United States of America pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Emphasis-of-matter paragraph. A paragraph included in the accountant's review report that is required by SSARs, or is included at the accountant's discretion, and that refers to a matter appropriately presented or disclosed in the financial statements that, in the accountant's professional judgment, is of such importance that it is fundamental to the users' understanding of the financial statements.

Error. Mistakes in the financial statements, including arithmetical or clerical mistakes, and mistakes in the application of accounting principles, including inadequate disclosures.

Experienced accountant. An individual (whether internal or external to the firm) who has practical review experience and a reasonable understanding of

- a. review processes;
- b. SSARs and applicable legal and regulatory requirements;
- c. the business environment in which the entity operates; and
- d. review and financial reporting issues relevant to the entity's industry.

Fraud. An intentional act that results in a misstatement in financial statements.

Generally accepted accounting principles (GAAP). References to GAAP in SSARs means generally accepted accounting principles promulgated by bodies designated by the Council of the AICPA pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Historical financial information. Information expressed in financial terms regarding a particular entity, derived primarily from that entity's accounting system, about economic events occurring in past time periods or about economic conditions or circumstances at points in time in the past.

Management. The person(s) with executive responsibility for the conduct of the entity's operations. For some entities, management includes some or all of those charged with governance, for example, executive members of a governance board or an owner-manager.

Misstatement. A difference between the amount, classification, presentation, or disclosure of a reported financial statement item and the amount, classification, presentation, or disclosure that is required for the item to be presented fairly in accordance with the applicable financial reporting framework. Misstatements can arise from fraud or error.

Misstatements also include those adjustments of amounts, classifications, presentations, or disclosures that, in the accountant's professional judgment, are necessary for the financial statements to be presented fairly, in all material respects.

Noncompliance. Acts of omission or commission by the entity, either intentional or unintentional, which are contrary to the prevailing laws or regulations. Such acts include transactions entered into, by, or in the name of, the entity or on its behalf by those charged with governance, management, or employees. *Noncompliance* does not include personal misconduct (unrelated to the business activities of the entity) by those charged with governance, management, or employees of the entity.

Other-matter paragraph. A paragraph included in the accountant's review report that is required by SSARs, or is included at the accountant's discretion, and that refers to a matter other than those presented or disclosed in the financial statements that, in the accountant's professional judgment, is relevant to users' understanding of the review, the accountant's responsibilities, or the accountant's review report.

Reasonable period of time. The period of time required by the applicable financial reporting framework or, if no such requirement exists, within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable). (Ref: par. A10)

Report release date. The date the accountant grants the entity permission to use the accountant's review report in connection with the financial statements.

Required supplementary information. Information that a designated accounting standards-setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting

standards-setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

Review documentation. The record of review procedures performed, relevant review evidence obtained, and conclusions the accountant reached (terms such as *working papers* or *workpapers* are also sometimes used).

Review evidence. Information used by the accountant to provide a reasonable basis for obtaining limited assurance.

Special purpose framework. A financial reporting framework other than GAAP that is one of the following bases of accounting:

- a. **Cash basis.** A basis of accounting that the entity uses to record cash receipts and disbursements and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets).
- b. **Tax basis.** A basis of accounting that the entity uses to file its tax return for the period covered by the financial statements.
- c. **Regulatory basis.** A basis of accounting that the entity uses to comply with the requirements or financial reporting provisions of a regulatory agency to whose jurisdiction the entity is subject (for example, a basis of accounting that insurance companies use pursuant to the accounting practices prescribed or permitted by a state insurance commission). (Ref: par. .A11)
- d. **Contractual basis.** A basis of accounting that the entity uses to comply with an agreement between the entity and one or more third parties other than the accountant.
- e. **Other basis.** A basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements.

The cash basis, tax basis, regulatory basis, and other basis of accounting are commonly referred to as *other comprehensive bases of accounting*.

Specified parties. The intended users of the accountant's review report.

Subsequent events. Events occurring between the date of the financial statements and the date of the accountant's review report.

Subsequently discovered facts. Facts that become known to the accountant after the date of the accountant's review report that, had they been known to the accountant at that date, may have caused the accountant to revise the accountant's review report.

Supplementary information. Information presented outside the basic financial statements, excluding required supplementary information, that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the reviewed financial statements or separate from the reviewed financial statements. (Ref: par. .A12–.A13)

Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of the entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

Updated report. A report issued by a continuing accountant that takes into consideration information that the accountant becomes aware of during the accountant's current engagement and that re-expresses the accountant's previous conclusions or, depending on the circumstances, expresses different conclusions on the financial statements of a prior period reviewed by the accountant as of the date of the accountant's current report.

Written representation. A written statement by management provided to the accountant to confirm certain matters or to support other review evidence. Written representations in this context do not include financial statements, the assertions therein, or supporting books and records.

[As amended, effective October 2016, by SSARS No. 23. As amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Requirements

General Principles for Performing and Reporting on Review Engagements

.06 In addition to complying with this section, an accountant is required to comply with section 60A, *General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*.

Independence

.07 The accountant must be independent of the entity when performing a review of financial statements in accordance with SSARSs. If, during the performance of the review engagement, the accountant determines that the accountant's independence is impaired, the accountant should withdraw from the review engagement. (Ref: par. .A14–.A15)

Acceptance and Continuance of Client Relationships and Review Engagements

.08 The accountant should not accept a review engagement if, in addition to the requirements in paragraph .25 of section 60A, management or those charged with governance impose a limitation on the scope of the accountant's work in terms of a proposed review engagement such that the accountant believes the limitation will result in the accountant being unable to perform review procedures to provide an adequate basis for issuing a review report.

.09 As a condition for accepting an engagement to review an entity's financial statements, in addition to the requirements in paragraph .26 of

section 60A, the accountant should obtain the agreement of management that it acknowledges and understands its responsibility

- a. for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework and the inclusion of all informative disclosures that are appropriate for the applicable financial reporting framework used to prepare the entity's financial statements. If the financial statements are prepared in accordance with a special purpose framework, this includes (Ref: par. .A16)
 - i. a description of the special purpose framework, including a summary of significant accounting policies, and how the framework differs from GAAP, the effect of which need not be quantified, and informative disclosures similar to those required by GAAP in the case of special purpose financial statements that contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, (Ref: par. .A82)
 - ii. a description of any significant interpretations of the contract on which the special purpose financial statements are prepared in the case of financial statements prepared in accordance with a contractual basis of accounting, and
 - iii. additional disclosures beyond those specifically required by the framework that may be necessary for the special purpose framework to achieve fair presentation.
- b. to provide the accountant, at the conclusion of the engagement, with a letter that confirms certain representations made during the review.
- c. to include the accountant's review report in any document containing financial statements that indicates that such financial statements have been reviewed by the entity's accountant unless a different understanding is reached. (Ref: par. .A17)

.10 If the accountant is not satisfied about any of the matters set out in paragraph .26 of section 60A or paragraph .09 of this section as preconditions for accepting a review engagement, the accountant should discuss the matter with management or those charged with governance. If changes cannot be made to satisfy the accountant about those matters, the accountant should not accept the proposed engagement.

Agreement on Engagement Terms

.11 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be documented in an engagement letter or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A18–.A23)

- a. The objectives of the engagement
- b. The responsibilities of management set forth in paragraph .26c of section 60A and paragraph .09 of this section
- c. The responsibilities of the accountant
- d. The limitations of a review engagement
- e. Identification of the applicable financial reporting framework for the preparation of the financial statements

- f.* The expected form and content of the accountant's review report and a statement that there may be circumstances in which the report may differ from its expected form and content

[As amended, effective October 2016, by SSARS No. 23.]

.12 The engagement letter or other suitable form of written agreement should be signed by

- a.* the accountant or the accountant's firm and
- b.* management or those charged with governance, as appropriate. (Ref: par. .A19)

[As amended, effective October 2016, by SSARS No. 23.]

Communication With Management and Those Charged With Governance

.13 The accountant should communicate with management or those charged with governance, as appropriate, on a timely basis during the course of the review engagement, all matters concerning the review engagement that, in the accountant's professional judgment, are of significant importance to merit the attention of management or those charged with governance, as appropriate. (Ref: par. .A24–.A30)

Understanding of the Industry

.14 To perform the review engagement, the accountant should possess or obtain an understanding of the industry in which the entity operates, including the accounting principles and practices generally used in the industry, sufficient to enable the accountant to review financial statements that are appropriate for an entity operating in that industry. (Ref: par. .A31)

Knowledge of the Entity

.15 The accountant should obtain knowledge about the entity, including an understanding of

- a.* the entity's business and
- b.* the accounting principles and practices used by the entity

sufficient to identify areas in the financial statements in which there is a greater likelihood that material misstatements may arise and to be able to design procedures to address those areas. (Ref: par. .A32–.A33)

.16 In obtaining the understanding of the entity's accounting policies and practices, the accountant should be alert to accounting policies and procedures that, based on the accountant's knowledge of the industry, are unusual.

Designing and Performing Review Procedures

.17 The accountant should design and perform analytical procedures and make inquiries and perform other procedures, as appropriate, to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework based on the accountant's (Ref: par. .A34)

- a.* understanding of the industry,
- b.* knowledge of the entity, and

- c. awareness of the risk that the accountant may unknowingly fail to modify the accountant's review report on financial statements that are materially misstated. (Ref: par. .A35)

.18 The accountant should focus the analytical procedures and inquiries in those areas where the accountant believes there are increased risks of material misstatements.

Analytical Procedures

.19 The accountant should apply analytical procedures to the financial statements to identify and provide a basis for inquiry about the relationships and individual items that appear to be unusual and that may indicate a material misstatement. Such analytical procedures should include the following: (Ref: par. .A36–.A38)

- a. Comparing the financial statements with comparable information for the prior period, giving consideration to knowledge about changes in the entity's business and specific transactions
- b. Considering plausible relationships among both financial and, when relevant, nonfinancial information (Ref: par. .A39)
- c. Comparing recorded amounts or ratios developed from recorded amounts to expectations developed by the accountant through identifying and using relationships that are reasonably expected to exist, based on the accountant's understanding of the entity and the industry in which the entity operates (Ref: par. .A40)
- d. Comparing disaggregated revenue data, as applicable (Ref: par. .A41)

.20 When designing and performing analytical procedures, the accountant should (Ref: par. .A42)

- a. determine the suitability of particular analytical procedures;
- b. consider the reliability of data from which the accountant's expectation of recorded amounts or ratios is developed, taking into account the source, comparability, and nature and relevance of information available;
- c. develop an expectation of recorded amounts or ratios and evaluate whether the expectation is sufficiently precise to provide the accountant with limited assurance that a misstatement will be identified that, either individually or when aggregated with other misstatements, may cause the financial statements to be materially misstated; and
- d. determine the amount of any difference of recorded amounts from expected values that is acceptable without further investigation as required by paragraph .21 and compare the recorded amounts, or ratios developed from recorded amounts, with the expectations.

Investigating Results of Analytical Procedures

.21 If analytical procedures identify fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount, the accountant should investigate such differences by

- a. inquiring of management and
- b. performing other review procedures if considered necessary in the circumstances. (Ref: par. .A43)

Inquiries of Members of Management Who Have Responsibility for Financial and Accounting Matters

.22 The accountant should inquire of members of management who have responsibility for financial and accounting matters concerning the financial statements about (Ref: par. .A44)

- a.* whether the financial statements have been prepared and fairly presented in accordance with the applicable financial reporting framework consistently applied.
- b.* unusual or complex situations that may have an effect on the financial statements. (Ref: par. .A45)
- c.* significant transactions occurring or recognized during the period, particularly those in the last several days of the period.
- d.* the status of uncorrected misstatements identified during the previous review (that is, whether adjustments had been recorded subsequent to the periods covered by the prior review and, if so, the amounts recorded and period in which such adjustments were recorded).
- e.* matters about which questions have arisen in the course of applying the review procedures.
- f.* events subsequent to the date of the financial statements that could have a material effect on the fair presentation of such financial statements.
- g.* its knowledge of any fraud or suspected fraud affecting the entity involving
 - i.* management,
 - ii.* employees who have significant roles in internal control, or
 - iii.* others, when the fraud could have a material effect on the financial statements. (Ref: par. .A46)
- h.* whether management is aware of allegations of fraud or suspected fraud affecting the entity communicated by employees, former employees, regulators, or others.
- i.* whether management has disclosed to the accountant all known instances of noncompliance or suspected noncompliance with laws and regulations whose effects should be considered when preparing financial statements.
- j.* significant journal entries and other adjustments.
- k.* communications from regulatory agencies, if applicable.
- l.* related parties and significant new related party transactions.
- m.* any litigation, claims, and assessments that existed at the date of the balance sheet being reported on and during the period from the balance sheet date to the date of management's response to the accountant's inquiry.
- n.* whether management believes that significant assumptions used by it in making accounting estimates are reasonable.
- o.* actions taken at meetings of stockholders, the board of directors, committees of the board of directors, or comparable meetings that may affect the financial statements. (Ref: par. .A47)
- p.* any other matters that the accountant may consider necessary.

.23 The accountant should consider the reasonableness and consistency of management's responses in light of the results of other review procedures and the accountant's knowledge of the entity's business. However, the accountant is not required to corroborate management's responses with other evidence.

Reading the Financial Statements

.24 The accountant should read the financial statements and consider whether any information has come to the accountant's attention to indicate that such financial statements do not conform to the applicable financial reporting framework.

Using the Work of Other Accountants

.25 If other accountants have issued a report on the financial statements of significant components, such as subsidiaries and investees, the accountant should obtain and read reports from such other accountants.

Reconciling the Financial Statements to the Underlying Accounting Records

.26 The accountant should obtain evidence that the financial statements agree or reconcile with the accounting records. (Ref: par. .A48)

Evaluating Evidence Obtained From the Procedures Performed

.27 The accountant should accumulate uncorrected misstatements, including inadequate disclosure, identified by the accountant in performing the review procedures or brought to the accountant's attention during the performance of the review.

.28 The accountant should evaluate whether the uncorrected misstatements accumulated in accordance with paragraph .27 are, individually and in the aggregate, material to the financial statements in order to determine whether any modifications should be made to the financial statements for them to be in accordance with the applicable financial reporting framework. (Ref: par. .A6 and .A49–.A50)

.29 If, during the performance of review procedures, the accountant becomes aware that information coming to the accountant's attention is incorrect, incomplete, or otherwise unsatisfactory, the accountant should

- a. request that management consider the effect of those matters on the financial statements and communicate the results of its consideration to the accountant and
- b. consider the results communicated to the accountant by management and whether such results indicate that the financial statements may be materially misstated.

.30 If the accountant believes that the financial statements may be materially misstated, the accountant should perform additional procedures deemed necessary to obtain limited assurance that there are no material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework.

.31 The accountant should evaluate whether sufficient appropriate review evidence has been obtained from the procedures performed and, if not, the accountant should perform other procedures judged by the accountant to be

necessary in the circumstances to be able to form a conclusion on the financial statements. (Ref: par. .A51)

Written Representations

Written Representations as Review Evidence

.32 *Written representations* are necessary information that the accountant requires in connection with a review of the entity's financial statements. Accordingly, similar to responses to inquiries, written representations are review evidence. (Ref: par. .A52)

Management From Whom Written Representations Are Requested

.33 The accountant should request written representations from members of management who have appropriate responsibilities for the financial statements and knowledge of the matters concerned. (Ref: par. .A53–.A55)

Specific Written Representations

.34 For all financial statements presented and all periods covered by the review, the accountant should request management to provide written representations that are dated as of the date of the accountant's review report stating the following: (Ref: par. .A56–.A62)

- a. Management has fulfilled its responsibility for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework, as set out in the terms of the engagement.
- b. Management acknowledges its responsibility for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of financial statements, including its responsibility to prevent and detect fraud.
- c. Management has provided the accountant with all relevant information and access, as agreed upon in the terms of the engagement.
- d. Management has responded fully and truthfully to all of the accountant's inquiries
- e. All transactions have been recorded and are reflected in the financial statements.
- f. Management has disclosed to the accountant its knowledge of fraud or suspected fraud affecting the entity involving
 - i. management,
 - ii. employees who have significant roles in internal control, or
 - iii. others, when the fraud could have a material effect on the financial statements.
- g. Management has disclosed to the accountant its knowledge of any allegations of fraud or suspected fraud affecting the entity's financial statements communicated by employees, former employees, regulators, or others.
- h. Management has disclosed to the accountant all known instances of noncompliance or suspected noncompliance with laws and regulations whose effects should be considered when preparing financial statements.

- i. Management has disclosed to the accountant whether it believes that the effects of uncorrected misstatements are immaterial, individually and in the aggregate, to the financial statements as a whole. A summary of such items should be included in, or attached to, the written representation.
- j. Management has disclosed to the accountant all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements, and it has appropriately accounted for and disclosed such litigation and claims in accordance with the applicable financial reporting framework.
- k. Management has disclosed to the accountant whether it believes that significant assumptions it used in making accounting estimates are reasonable.
- l. Management has disclosed to the accountant the identity of the entity's related parties and all of the related party relationships and transactions of which it is aware, and it has appropriately accounted for and disclosed such relationships and transactions.
- m. Management has disclosed to the accountant all information relevant to use of the going concern assumption in the financial statements.
- n. Management has properly accounted for all events occurring subsequent to the date of the financial statements and for which the applicable financial reporting framework requires adjustment or disclosure.

[As amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.35 If, in addition to the representations required by paragraph .34, the accountant determines that it is necessary to obtain one or more written representations to support other review evidence relevant to the financial statements, the accountant should request such other written representations. (Ref: par. .A63)

Form of Written Representations

.36 The written representations should be in the form of a representation letter addressed to the accountant. (Ref: par. .A64–.A65)

Concerns About the Reliability of Written Representations and Requested Written Representations Not Provided

.37 If, in relation to the written representations required by paragraphs .34–.35

- a. management does not provide the written representations, or
- b. the accountant concludes that there is cause to doubt management's integrity such that the written representations provided are not reliable

the accountant should discuss the matter with management and those charged with governance, as appropriate. If management does not provide the required representations or the accountant continues to doubt management's integrity such that the written representations provided may not be reliable, the accountant should withdraw from the engagement.

Reporting on the Financial Statements

.38 The accountant's review report should be in writing. (Ref: par. .A66–.A68)

Accountant's Review Report

.39 The written review report should include the following: (Ref: par. .A81)

- a. A title that includes the word *independent* to clearly indicate that it is the report of an independent accountant. (Ref: par. .A69)
- b. An addressee, as appropriate for the circumstances of the engagement. (Ref: par. .A70)
- c. An introductory paragraph that (Ref: par. .A71–.A73)
 - i. identifies the entity whose financial statements have been reviewed,
 - ii. states that the financial statements identified in the report were reviewed,
 - iii. identifies the financial statements,
 - iv. specifies the date or period covered by each financial statement,
 - v. includes a statement that a review includes primarily applying analytical procedures to management's (owner's) financial data and making inquiries of company management (owners), and
 - vi. includes a statement that a review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole, and that, accordingly, the accountant does not express such an opinion.
- d. A section with the heading "Management's Responsibility for the Financial Statements" that includes an explanation that management is responsible for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework; this responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error. (Ref: par. .A74)
- e. A section with the heading "Accountant's Responsibility" that includes the following statements:
 - i. The accountant's responsibility is to conduct the review engagement in accordance with SSARs promulgated by the Accounting and Review Services Committee of the AICPA. The accountant's review report should also explain that those standards require that the accountant perform the procedures to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework. (Ref: par. .A75–.A77)
 - ii. The accountant believes that the results of the accountant's procedures provide a reasonable basis for the accountant's conclusion.

- f.* A concluding section with an appropriate heading that includes a statement about whether the accountant is aware of any material modifications that should be made to the accompanying financial statements for them to be in accordance with the applicable financial reporting framework and that identifies the country of origin of those accounting principles, if applicable. (Ref: par. .A50)
- g.* The signature of the accountant or the accountant's firm.
- h.* The city and state where the accountant practices. (Ref: par. .A78)
- i.* The date of the review report, which should be dated no earlier than the date on which the accountant completed procedures sufficient to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework, including evidence that
 - i.* all the statements that the financial statements comprise, including the related notes, have been prepared and
 - ii.* management has asserted that they have taken responsibility for those financial statements. (Ref: par. .A79–.A80)

[As amended, effective October 2016, by SSARS No. 23. As amended, effective May 2018, by SSARS No. 24.]

Accountant's Review Report on Financial Statements Prepared in Accordance With a Special Purpose Framework

.40 The accountant should modify the review report when the accountant becomes aware that the financial statements do not include

- a.* a description of the special purpose framework. (Ref: par. .A82)
- b.* a summary of significant accounting policies.
- c.* an adequate description about how the special purpose framework differs from GAAP. The effects of these differences need not be quantified. (Ref: par. .A83)
- d.* informative disclosures similar to those required by GAAP when the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. (Ref: par. .A84)

.41 In the case of financial statements prepared in accordance with a contractual basis of accounting, the accountant should modify the review report if the financial statements do not adequately describe any significant interpretations of the contract on which the financial statements are based.

.42 The accountant's review report on financial statements prepared in accordance with a special purpose framework should

- a.* make reference to management's responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances when management has a choice of financial reporting frameworks in the preparation of such financial statements.
- b.* describe the purpose for which the financial statements are prepared or refer to a note in the financial statements that contains that information when the financial statements are prepared in

accordance with a regulatory or contractual basis of accounting.
(Ref: par. .A85)

.43 The accountant's review report on financial statements prepared in accordance with a special purpose framework should include an emphasis-of-matter paragraph, under an appropriate heading, that

- a. indicates that the financial statements are prepared in accordance with the applicable special purpose framework,
- b. refers to the note to the financial statements that describes the framework, and
- c. states that the special purpose framework is a basis of accounting other than GAAP.

.44 The accountant's review report on special purpose financial statements should include, in accordance with paragraph .54, an other-matter paragraph, under an appropriate heading, that, in accordance with paragraphs .61–.62, restricts the use of the accountant's review report when the special purpose financial statements are prepared in accordance with (Ref: par. .A86)

- a. a contractual basis of accounting,
- b. a regulatory basis of accounting, or
- c. an other basis of accounting when required pursuant to paragraph .61a–b.

Comparative Financial Statements

.45 Comparative financial statements may be required by the applicable financial reporting framework, or management may elect to provide such information. When comparative financial statements are presented, the accountant's report should refer to each period for which financial statements are presented. (Ref: par. .A87–.A88)

Updating the Report

.46 When reporting on all periods presented, a continuing accountant should update the report on one or more prior periods presented on a comparative basis with those of the current period. The accountant's report on comparative financial statements should not be dated earlier than the date that the accountant completed procedures sufficient to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework with respect to the current period. (Ref: par. .A89)

.47 When issuing an updated report, the continuing accountant should consider information that the accountant has become aware of during the review of the current period financial statements.

.48 If, during the current engagement, circumstances or events come to the accountant's attention that may affect the prior-period financial statements presented, the accountant should consider the effects on the review report.

Changed Reference to a Departure From the Applicable Financial Reporting Framework

.49 When the accountant's report on the financial statements of the prior period contains a changed reference to a departure from the applicable financial reporting framework, the accountant's review report should include an other-matter paragraph indicating (Ref: par. .A90)

- a. the date of the accountant's previous review report.
- b. the circumstances or events that caused the reference to be changed.
- c. when applicable, that the financial statements of the prior period have been changed.

Reporting When One Period Is Audited

.50 When the prior period financial statements were audited and the auditor's report on the prior period financial statements is not reissued, the review report on the current period financial statements should include an other-matter paragraph indicating

- a. that the financial statements of the prior period were previously audited;
- b. the date of the auditor's report on the prior period financial statements;
- c. the type of opinion issued on the prior period financial statements;
- d. if the opinion was modified, the substantive reasons for the modification; and
- e. that no auditing procedures were performed after the date of the previous report.

Communicating to Management and Others Regarding Fraud or Noncompliance With Laws and Regulations

.51 If the accountant becomes aware that fraud (including misappropriation of assets) may have occurred, the accountant should communicate the matter as soon as practicable to the appropriate level of management (at a level above those involved with the suspected fraud, if possible). If the accountant becomes aware of matters involving identified or suspected noncompliance with laws and regulations whose effects should be considered when preparing financial statements, the accountant should communicate the matters to management, other than when matters are clearly inconsequential. If the fraud or noncompliance with laws or regulations involves senior management or results in a material misstatement of the financial statements, the accountant should communicate the matter directly to those charged with governance. If management or, as appropriate, those charged with governance do not provide sufficient information that supports that (Ref: par. .A91–.A93)

- a. the financial statements are not materially misstated due to fraud or
- b. the entity is in compliance with laws and regulations, and in the accountant's professional judgment, the effect of the suspected noncompliance may be material to the financial statements

the accountant should consider the need to obtain legal advice and take appropriate action, including potential withdrawal. (Ref: par. .A94)

Emphasis-of-Matter and Other-Matter Paragraphs in the Accountant's Review Report

Emphasis-of-Matter Paragraphs in the Accountant's Review Report

.52 If the accountant considers it necessary to draw users' attention to a matter appropriately presented or disclosed in the financial statements that,

in the accountant's professional judgment, is of such importance that it is fundamental to users' understanding of the financial statements, the accountant should include an emphasis-of-matter paragraph in the accountant's review report, provided that the accountant does not believe that the financial statements may be materially misstated. Such a paragraph should refer only to information presented or disclosed in the financial statements. (Ref: par. .A95–.A97)

.53 When the accountant includes an emphasis-of-matter paragraph in the accountant's review report, the accountant should

- a. include it immediately after the accountant's conclusion paragraph in the accountant's review report,
- b. use the heading "Emphasis of a Matter" or other appropriate heading, (Ref: par. .A98)
- c. include in the paragraph a clear reference to the matter being emphasized and to where relevant disclosures that fully describe the matter can be found in the financial statements, and
- d. indicate that the accountant's conclusion is not modified with respect to the matter emphasized. (Ref: par. .A99)

Other-Matter Paragraphs in the Accountant's Review Report

.54 If the accountant considers it necessary to communicate a matter other than those that are presented or disclosed in the financial statements that, in the accountant's professional judgment, is relevant to the users' understanding of the review, the accountant's responsibilities, or the accountant's review report, the accountant should do so in a paragraph in the accountant's review report with the heading "Other Matter" or other appropriate heading. The accountant should include this paragraph immediately after the accountant's conclusion paragraph and any emphasis-of-matter paragraph. (Ref: .A95, .A98, and .A100–.A102)

Communication With Management

.55 If the accountant expects to include an emphasis-of-matter or other-matter paragraph in the accountant's review report, the accountant should communicate with management regarding this expectation and the proposed wording of this paragraph. (Ref: par. .A103–.A104)

Known Departures From the Applicable Financial Reporting Framework

.56 When the accountant becomes aware of a departure from the applicable financial reporting framework (including inadequate disclosure) that is material to the financial statements and if the financial statements are not revised, the accountant should consider whether modification of the standard report is adequate to disclose the departure.

.57 If the accountant concludes that modification of the standard report is adequate, the departure should be disclosed in a separate paragraph of the report under the heading "Known Departures From the [*identify the applicable financial reporting framework*]," including disclosure of the effects of the departure on the financial statements if such effects have been determined by

management or are known to the accountant as the result of the accountant's procedures. (Ref: par. .A105 and .A110)

.58 If the effects of the departure have not been determined by management or are not known to the accountant as a result of the accountant's procedures, the accountant is not required to determine the effects of a departure; however, in such circumstances, the accountant should state in the report that such determination has not been made.

.59 If the accountant believes that modification of the standard report is not adequate to indicate the deficiencies in the financial statements as a whole, the accountant should withdraw from the review engagement. (Ref: par. .A106)

.60 The accountant should not modify the standard report to include a statement that the financial statements are not in accordance with the applicable financial reporting framework. (Ref: par. .A107–.A109)

Alert That Restricts the Use of the Accountant's Review Report

.61 An accountant's review report should include an alert, in a separate paragraph, that restricts its use when the subject matter of the accountant's review report is based on (Ref: par. .A111–.A113)

- a. measurement or disclosure criteria that are determined by the accountant to be suitable only for a limited number of users who can be presumed to have an adequate understanding of the criteria or
- b. measurement or disclosure criteria that are available only to the specified parties.

.62 The alert that restricts the use of the accountant's review report required by paragraph .61 should

- a. state that the accountant's review report is intended solely for the information and use of the specified parties.
- b. identify the specified parties for whom use is intended.
- c. state that the accountant's review report is not intended to be, and should not be, used by anyone other than the specified parties. (Ref: par. .A114)

Adding Other Specified Parties

.63 When, in accordance with paragraph .61, the accountant includes an alert that restricts the use of the accountant's review report to certain specified parties and the accountant is requested to add other parties as specified parties, the accountant should determine whether to agree to add the other parties as specified parties. (Ref: par. .A115)

.64 If the other parties are added after the release of the accountant's review report, the accountant should either:

- a. Amend the accountant's review report to add the other parties and, in such circumstances, not change the original date of the accountant's review report.
- b. Provide a written acknowledgment to management and the other parties that such parties have been added as specified parties and state in the acknowledgment that no procedures were performed subsequent to the original date of the accountant's review report.

The Accountant's Consideration of an Entity's Ability to Continue as a Going Concern

Inquiry Concerning an Entity's Ability to Continue as a Going Concern

.65 If the applicable financial reporting framework includes requirements for management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing financial statements, the accountant should perform review procedures related to the following: (Ref: par. .A116–.A117)

- a. Whether the going concern basis of accounting is appropriate
- b. Management's evaluation of whether there are conditions or events that raised substantial doubt about the entity's ability to continue as a going concern
- c. If there are conditions or events that raised substantial doubt about the entity's ability to continue as a going concern, management's plans to mitigate those matters
- d. The adequacy of the related disclosures in the financial statements

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.66 If the applicable financial reporting framework does not include a requirement for management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing financial statements and conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time existed at the date of the prior period financial statements (regardless of whether the substantial doubt was alleviated by the accountant's consideration of management's plans) or, in the course of performing review procedures on the current period financial statements, the accountant becomes aware of conditions or events that raise substantial doubt about the entity's ability to continue as a going concern, the accountant should do the following: (Ref: par. .A118–.A119)

- a. Inquire of management whether the going concern basis of accounting is appropriate.
- b. Inquire of management about its plans for dealing with the adverse effects of the conditions and events. (Ref: par. .A120)
- c. Consider the adequacy of the disclosure about such matters in the financial statements. (Ref: par. .A121)

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Consideration of the Effects on the Accountant's Review Report

.67 If, after considering conditions or events and management's plans, the accountant concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains, the accountant should include an emphasis-of-matter paragraph in the accountant's review report. (Ref: par. .A123–.A125) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.68 The emphasis-of-matter paragraph about the entity's ability to continue as a going concern for a reasonable period of time should be expressed through the use of terms consistent with those included in the applicable financial reporting framework. In a going concern emphasis-of-matter paragraph, the accountant should not use conditional language concerning the existence of substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time. (Ref: par. .A126) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.69 If adequate disclosure about an entity's ability to continue as a going concern for a reasonable period of time is not made in the financial statements, the accountant should apply paragraphs .56–.60 regarding known departures from the applicable financial reporting framework. [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Subsequent Events and Subsequently Discovered Facts

Subsequent Events

.70 When evidence or information that subsequent events that require adjustment of, or disclosure in, the financial statements comes to the accountant's attention, the accountant should request that management consider whether each such event is appropriately reflected in the financial statements in accordance with the applicable financial reporting framework. (Ref: par. .A127) [Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.71 If the accountant determines that the subsequent event is not adequately accounted for in the financial statements or disclosed in the notes, the accountant should follow the guidance in paragraphs .56–.60. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

Subsequently Discovered Facts That Become Known to the Accountant Before the Report Release Date

.72 The accountant is not required to perform any review procedures regarding the financial statements after the date of the accountant's review report. However, if a subsequently discovered fact becomes known to the accountant before the report release date, the accountant should

- a. discuss the matter with management and, when appropriate, those charged with governance and
- b. determine whether the financial statements need revision and, if so, inquire how management intends to address the matter in the financial statements.

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.73 If management revises the financial statements, the accountant should perform the review procedures necessary in the circumstances on the revision. The accountant also should either

- a. date the accountant's review report as of a later date or
- b. include an additional date in the accountant's review report on the revised financial statements that is limited to the revision (that is, dual-date the accountant's review report for that revision), thereby indicating that the accountant's review procedures subsequent to the original date of the accountant's review report

are limited solely to the revision of the financial statements described in the relevant note to the financial statements.

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.74 If management does not revise the financial statements in circumstances when the accountant believes they need to be revised, the accountant should modify the accountant's review report, as appropriate. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

Subsequently Discovered Facts That Become Known to the Accountant After the Report Release Date

.75 If a subsequently discovered fact becomes known to the accountant after the report release date, the accountant should (Ref: par. .A128–.A129)

- a. discuss the matter with management and, when appropriate, those charged with governance and
- b. determine whether the financial statements need revision and, if so, inquire how management intends to address the matter in the financial statements.

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.76 If management revises the financial statements, the accountant should

- a. apply the requirements of paragraph .73.
- b. if the reviewed financial statements (before revision) have been made available to third parties, assess whether the steps taken by management are timely and appropriate to ensure that anyone in receipt of those financial statements is informed of the situation, including that the reviewed financial statements are not to be used. If management does not take the necessary steps, the accountant should apply the requirements of paragraph .77. (Ref: par. .A130)
- c. if the accountant's conclusion on the revised financial statements differs from the accountant's conclusion on the original financial statements, disclose in an emphasis-of-matter paragraph, in accordance with paragraphs .52–.53
 - i. the date of the accountant's previous report,
 - ii. a description of the revisions, and
 - iii. the substantive reasons for the revisions.

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.77 If management does not revise the financial statements in circumstances when the accountant believes they need to be revised, then

- a. if the reviewed financial statements have not been made available to third parties, the accountant should notify management and those charged with governance, unless all of those charged with governance are involved in managing the entity, not to make the reviewed financial statements available to third parties before the necessary revisions have been made and a new accountant's review report on the revised financial statements has been provided. If the reviewed financial statements are, nevertheless, subsequently made available to third parties without the necessary revisions, the accountant should apply the requirements of paragraph .76b.

- b. if the reviewed financial statements have been made available to third parties, the accountant should assess whether the steps taken by management are timely and appropriate to ensure that anyone in receipt of the reviewed financial statements is informed of the situation, including that the reviewed financial statements are not to be used. If management does not take the necessary steps, the accountant should apply the requirements of paragraph .78. (Ref: par. .A128)

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.78 If management does not take the necessary steps to ensure that anyone in receipt of the financial statements is informed of the situation, as provided by paragraph .76*b* or paragraph .77*b*, the accountant should notify management and those charged with governance, unless all of those charged with governance are involved in managing the entity, that the accountant will seek to prevent future use of the accountant's review report. If, despite such notification, management or those charged with governance do not take the necessary steps, the accountant should take appropriate action to seek to prevent use of the accountant's review report. (Ref: par. .A131–.A134) [Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

Reference to the Work of Other Accountants in an Accountant's Review Report

.79 If other accountants audited or reviewed the financial statements of significant components, such as consolidated and unconsolidated subsidiaries and investees, and the accountant of the reporting entity decides not to assume responsibility for the audit or review performed by the other accountants, the accountant of the reporting entity should make reference to the review or audit of such other accountants in the accountant's review report. In that instance, the accountant should clearly indicate in the accountant's review report that the accountant used the work of other accountants and should include the magnitude of the portion of the financial statements audited or reviewed by the other accountants. (Ref: par. .A135–.A137) [Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.80 Reference to the audit or review of other accountants in the accountant's review report on the reporting entity should not be made if the other accountants issued an auditor's or an accountant's review report that includes an alert that restricts the use of such report. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Determining Whether the Other Accountants Are Familiar with SSARs or Auditing Standards Generally Accepted in the United States of America, as Applicable

.81 Regardless of whether the accountant of the reporting entity decides to make reference to the review or audit of other accountants, the accountant of the reporting entity should communicate with the other accountants and determine the following:

- a. The other accountants are aware that the financial statements of the component that the other accountants have audited or reviewed are to be included in the financial statements on which the accountant of the reporting entity will report and that the

other accountants' report thereon will be relied upon and, where applicable, referred to by the accountant of the reporting entity.

- b. The other accountants are familiar with the applicable financial reporting framework and with SSARs or auditing standards generally accepted in the United States of America, as applicable, and will conduct the review or audit in accordance therewith. (Ref: par. .A138)
- c. The other accountants understand the ethical requirements that are relevant to the engagement and, in particular, are independent. (Ref: par. .A139)
- d. A review will be made of matters affecting elimination of inter-company transactions and accounts and, if appropriate in the circumstances, the uniformity of accounting practices among the components included in the financial statements.

[Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Determining Whether to Make Reference When the Financial Reporting Framework Is Not the Same

.82 If the component's financial statements are prepared using a different financial reporting framework from that used for the financial statements of the reporting entity, reference to the review or audit of the other accountants in the review report of the accountant of the reporting entity should not be made unless the following apply:

- a. The accountant has determined that the measurement, recognition, presentation, and disclosure criteria that are applicable to all material items in the component's financial statements in accordance with the financial reporting framework used by the component are similar to the criteria that are applicable to all material items in the reporting entity's financial statements in accordance with the financial reporting framework used by the reporting entity.
- b. The accountant of the reporting entity has obtained sufficient appropriate review evidence for purposes of evaluating the appropriateness of the adjustments to convert the component's financial statements to the financial reporting framework used by the reporting entity without the need to assume responsibility for, and thus be involved in, the work of the other accountants. (Ref: par. .A140)

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Supplementary Information That Accompanies Reviewed Financial Statements and the Accountant's Review Report Thereon

.83 When supplementary information accompanies reviewed financial statements and the accountant's review report thereon, the accountant should clearly indicate the degree of responsibility, if any, the accountant is taking with respect to such information in either

- a. an other-matter paragraph in the accountant's review report on the financial statements or
- b. a separate report on the supplementary information

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.84 When the accountant has subjected the supplementary information to the review procedures applied in the accountant's review of the basic financial statements, the other-matter paragraph in the accountant's review report on the financial statements or the separate report on the supplementary information should state that (Ref: par. .A142 and .A144)

- a. the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b. the supplementary information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements;
- c. the supplementary information has been subjected to the review procedures applied in the accountant's review of the basic financial statements and whether the accountant is aware of any material modifications that should be made to the supplementary information; and
- d. the accountant has not audited the supplementary information and does not express an opinion on such information.

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.85 When the accountant has not subjected the supplementary information to the review procedures applied in the accountant's review of the basic financial statements, the other-matter paragraph in the accountant's review report on the financial statements or the separate report on the supplementary information should state that (Ref: par. .A143–.A144)

- a. the supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements;
- b. the supplementary information is the responsibility of management; and
- c. the accountant has not audited or reviewed the supplementary information and, accordingly, does not express an opinion, a conclusion, nor provide any assurance on such information.

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

Required Supplementary Information

.86 Concerning the requirement in paragraph .83, with respect to required supplementary information, the accountant should include an other-matter paragraph in the accountant's review report on the financial statements. The other-matter paragraph should include language to explain the following circumstances, as applicable: (Ref: par. .A145)

- a. The required supplementary information is included, and the accountant performed a compilation engagement on the required supplementary information.

- b. The required supplementary information is included, and the accountant reviewed the required supplementary information.
- c. The required supplementary information is included, and the accountant did not perform a compilation, review, or audit on the required supplementary information.
- d. The required supplementary information is omitted.
- e. Some required supplementary information is missing, and some is presented in accordance with the prescribed guidelines (Ref: par. .A146)
- f. The accountant has identified departures from the prescribed guidelines.
- g. The accountant has unresolved doubts about whether the required supplementary information is presented in accordance with prescribed guidelines.

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.87 If the entity has presented all or some of the required supplementary information and the accountant did not perform a compilation or review on the required supplementary information, the other-matter paragraph referred to in paragraph .83 should include the following elements: (Ref: par. .A147)

- a. A statement that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require that the *[identify the required supplementary information]* be presented to supplement the basic financial statements
- b. A statement that such information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. A statement that the accountant did not perform a compilation, review, or audit on the required supplementary information and does not express an opinion or provide any assurance on the information
- d. If some of the required supplementary information is omitted
 - i. a statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
 - ii. a statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- e. If the measurement or presentation of the required supplementary information departs materially from the prescribed guidelines, a statement that material departures from prescribed

guidelines exist *[describe the material departures from the applicable financial reporting framework]*

- f. If the accountant has unresolved doubts about whether the required supplementary information is measured or presented in accordance with prescribed guidelines, a statement that the accountant has doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by *[identify designated accounting standards-setter]*

[As amended, effective October 2016, by SSARS No. 23. Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.88 If all the required supplementary information is omitted, the other-matter paragraph should include the following elements:

- a. A statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
- b. A statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards-setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

Change in Engagement From Audit to Review

.89 If the accountant, who was engaged to perform an audit engagement in accordance with generally accepted auditing standards, has been requested to change the engagement to a review engagement, the accountant should consider the following before deciding whether to agree to the change: (Ref: par. .A148–.A149)

- a. The reason given for the request, particularly the implications of a restriction on the scope of the audit engagement, whether imposed by management or by circumstances (Ref: par. .A150)
- b. The additional audit effort required to complete the audit engagement
- c. The estimated additional cost to complete the audit engagement

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.90 In all circumstances, if the audit procedures are substantially complete or the cost to complete such procedures is relatively insignificant, the accountant should consider the propriety of accepting a change in the engagement. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.91 If the accountant concludes, based upon the accountant's professional judgment, that reasonable justification exists to change the engagement, and if the accountant complies with the standards applicable to a review engagement, the accountant should issue an appropriate review report. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.92 The report should not include reference to

- a.* the original engagement,
- b.* any audit procedures that may have been performed, or
- c.* scope limitations that resulted in the changed engagement.

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.93 When the accountant has been engaged to audit an entity's financial statements and management refuses to allow the accountant to correspond with the entity's legal counsel, the accountant, except in rare circumstances, is precluded from accepting an engagement to review those financial statements. [Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

Review Documentation

.94 The accountant should prepare review documentation that is sufficient to enable an experienced accountant, having no previous connection to the review, to understand (Ref: par. .A151–.A155)

- a.* the nature, timing, and extent of the review procedures performed to comply with SSARSs;
- b.* the results of the review procedures performed and the review evidence obtained; and
- c.* significant findings or issues arising during the review, the conclusions reached thereon, and significant professional judgments made in reaching those conclusions.

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.95 In addition to the requirements in paragraph .94, the review documentation should include the following:

- a.* The engagement letter or other suitable form of written documentation with management, as described in paragraphs .11–.12 (Ref: par. .A21 and .A23)
- b.* Communications to management and others regarding fraud or noncompliance with laws and regulations as required by paragraph .51
- c.* Communications with management regarding the accountant's expectation to include an emphasis-of-matter or other-matter paragraph in the accountant's review report as required by paragraph .55
- d.* Communications with other accountants that have audited or reviewed the financial statements of significant components as required by paragraph .81
- e.* The representation letter
- f.* A copy of the reviewed financial statements and the accountant's review report thereon

[Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

Application and Other Explanatory Material

Scope and Applicability of This Section (Ref: par. .01)

.A1 If the accountant is engaged to perform a review of historical financial information other than financial statements, references in this section to *financial statements* are to be taken as a reference to such other historical financial information. [Paragraph added, effective October 2016, by SSARS No. 23.]

.A2 Examples of other historical financial information that an accountant may be engaged to review include, but are not limited to, the following:

- Specified elements, accounts, or items of a financial statement, such as schedules of rentals, royalties, profit participation, or provision for income taxes
- Supplementary information
- Required supplementary information
- Financial information contained in a tax return

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A3 The accountant may review a single financial statement, such as a balance sheet, and not other related financial statements, such as the statements of income, retained earnings, and cash flows, if the scope of the accountant's inquiry and analytical procedures have not been restricted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Objective (Ref: par. .04 and .28)

.A4 A review differs significantly from an audit of financial statements in which the auditor obtains reasonable assurance, which is a high, but not absolute, level of assurance, that the financial statements are free of material misstatement. A review does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed in an audit. Accordingly, in a review, the accountant does not obtain assurance that he or she will become aware of all significant matters that would be disclosed in an audit. Therefore, a review is designed to obtain only limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Materiality

.A5 The accountant's consideration of materiality is made in the context of the applicable financial reporting framework. Some financial reporting frameworks discuss the concept of materiality in the context of the preparation and presentation of financial statements. Although financial reporting frameworks may discuss materiality in different terms, they generally explain that

- misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements;

- judgments about materiality are made in light of surrounding circumstances and are affected by the size or nature of a misstatement or a combination of both; and
- judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group. The possible effect of misstatements on specific individual users, whose needs may vary widely, is not considered.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A6 If present in the applicable financial reporting framework, a discussion of the concept of materiality provides a frame of reference to the accountant in determining, as required by paragraph .28, whether there are any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework. If the applicable financial reporting framework does not include a discussion of the concept of materiality, the characteristics referred to in paragraph .A5 provide the accountant with such a frame of reference. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A7 The accountant's determination of materiality is a matter of professional judgment and is affected by the accountant's perception of the needs of the intended users of the financial statements. In this context, it is reasonable for the accountant to assume that users

- have a reasonable knowledge of business and economic activities and accounting and a willingness to study the information in the financial statements with reasonable diligence;
- understand that financial statements are prepared, presented, and reviewed to levels of materiality;
- recognize the uncertainties inherent in the measurement of amounts based on the use of estimates, judgment, and the consideration of future events; and
- make reasonable economic decisions on the basis of the information in the financial statements.

Further, unless the review engagement is undertaken for financial statements that are intended to meet the particular needs of specific users, the possible effect of misstatements on specific users, whose information needs may vary widely, is not ordinarily considered. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

.A8 The accountant's judgment about what is material in relation to the financial statements as a whole is the same regardless of the level of assurance obtained by the accountant as a basis for expressing a conclusion on the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Revising Materiality

.A9 The accountant's determination of materiality for the financial statements as a whole may need to be revised during the engagement as a result of

- a change in the circumstances that occurred during the review (for example, a decision to dispose of a major part of the entity's business).

- new information, or a change in the accountant's understanding of the entity and its environment as a result of performing review procedures (for example, if during the review it appears actual financial results are likely to be substantially different from anticipated period-end financial results that were used initially to consider materiality for the financial statements as a whole).

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016.]

Definitions (Ref: par. .05)

.A10 Most financial reporting frameworks requiring an explicit management evaluation of the entity's ability to continue as a going concern specify the period of time to be evaluated. For example, the financial reporting frameworks of the following standard-setting bodies specify such period of time as follows:

- FASB*. Within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable).¹
- GASB*. 12 months beyond the date of the financial statements. GASB further requires that, if a governmental entity currently knows information that may raise substantial doubt shortly thereafter (for example, within an additional three months), such information should also be considered.²
- International Accounting Standards Board*. At least, but not limited to, one year from the end of the reporting period.³

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A11 Certain regulators, including state and local government legislators, regulatory agencies, or departments, require financial statements to be prepared in accordance with a financial reporting framework that is based on GAAP but does not comply with all of the requirements of GAAP. Such frameworks are regulatory bases of accounting, as defined in paragraph .05. In some circumstances, however, the cash or tax basis of accounting may be permitted by a regulator. For purposes of this section, the cash and tax bases of accounting are not regulatory bases of accounting. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A12 Supplementary information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources outside the accounting system or outside the entity. [Paragraph added, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

¹ "Pending Content" in *FASB Accounting Standards Codification (ASC) 205-40-50-1*. [Footnote added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

² Paragraph 16 of GASB Statement No. 56, *Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards*. [Footnote added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

³ Paragraph 26 of International Accounting Standard 1, *Presentation of Financial Statements*. [Footnote added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A13 Supplementary information may be prepared in accordance with an applicable financial reporting framework, by regulatory or contractual requirements, in accordance with management's criteria, or in accordance with other requirements. [Paragraph added, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Independence (Ref: par. .07)

.A14 The AICPA Code of Professional Conduct provides guidance with respect to independence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A15 Nothing prohibits an accountant who is unable to complete a review engagement due to a determination that the accountant's independence is impaired from performing a compilation engagement on those financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Acceptance and Continuance of Client Relationships and Review Engagements (Ref: par. .09)

.A16 A review in accordance with SSARSs is conducted on the premise that management has acknowledged and understands that it has the responsibility set out in paragraph .26c of section 60. The preparation of financial statements, in whole or in part, is a nonattest service subject to the provisions of the "Nonattest Services" interpretation (ET sec. 1.295) of the "Independence Rule" of the AICPA Code of Professional Conduct. To avoid misunderstanding, agreement is reached with management that it acknowledges and understands that it has such responsibilities as part of agreeing and documenting the terms of the review engagement as required by paragraphs .11–.12. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A17 Documents containing financial statements that may include an indication that such financial statements have been reviewed by the entity's accountant includes documents submitted to bonding companies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Agreement on Engagement Terms (Ref: par. .11–.12 and .92)

.A18 Both management and the accountant have an interest in documenting the agreed-upon terms of the review engagement before the commencement of the review engagement to help avoid misunderstandings with respect to the review engagement. For example, it reduces the risk that management may inappropriately rely on or expect the accountant to protect management against certain risks or perform certain functions, including those that are management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A19 The roles of management and those charged with governance in agreeing upon the terms of the review engagement for the entity depend on the governance structure of the entity and relevant law or regulation. Depending

on the entity's structure, the agreement may be with management, those charged with governance, or both. When the agreement on the terms of engagement is only with those charged with governance, nonetheless, in accordance with paragraph .26c of section 60A, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A20 When a third party has contracted for a review of the entity's financial statements, agreeing the terms of the review with management of the entity is necessary in order to establish that the preconditions for a review are present. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A21 The understanding with management regarding the services to be performed for review engagements is required by paragraph .11 to be in a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common and usually the most convenient method for documenting the understanding with management regarding the services to be performed for review engagements. [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A22 Although the accountant may prepare the financial statements, in whole or in part, the financial statements are representations of management, and the fairness of their presentation in accordance with the applicable financial reporting framework is management's responsibility. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A23 Illustrations of engagement letters for a review of financial statements are presented in exhibit A, "Illustrative Engagement Letters." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Communication With Management and Those Charged With Governance (Ref: par. .13)

.A24 In a review engagement, the accountant's communications with management and those charged with governance take the form of

- a. inquiries the accountant makes in the course of performing the procedures for the review and
- b. other communications, in the context of having effective two-way communication to understand matters arising and to develop a constructive working relationship for the engagement.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A25 The appropriate timing for communications will vary with the circumstances of the engagement. Relevant factors include the significance and nature of the matter and any action expected to be taken by management or those charged with governance. For example, it may be appropriate to communicate a significant difficulty encountered during the review as soon as practicable if management or those charged with governance are able to assist the accountant to overcome the difficulty. [Paragraph renumbered by the issuance

of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A26 Law or regulation may restrict the accountant's communication of certain matters with those charged with governance. For example, law or regulation may specifically prohibit a communication, or other action, that might prejudice an investigation by an appropriate authority into an actual, or suspected, illegal act. In some circumstances, potential conflicts between the accountant's obligations of confidentiality and obligations to communicate may be complex. In such cases, the accountant may consider obtaining legal advice. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Communicating Matters Concerning the Review

.A27 Matters to be communicated to management or those charged with governance, as appropriate, in accordance with this section may include the following:

- The accountant's responsibilities in the review engagement, as included in the engagement letter or other suitable form of written agreement.
- Significant findings from the review, for example
 - the accountant's views about significant qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates, and financial statement disclosures.
 - significant findings from the performance of procedures, including situations when the accountant considered performance of additional procedures necessary in accordance with this section. The accountant may need to confirm that those charged with governance have the same understanding of the facts and circumstances relevant to specific transactions or events.
 - Matters arising that may lead to modification of the accountant's review report.
 - Significant difficulties, if any, encountered during the review, for example, unavailability of expected information, unexpected inability to obtain evidence that the accountant considers necessary for the review, or restrictions imposed on the accountant by management. In some circumstances, such difficulties may lead to the accountant's withdrawal from the engagement.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A28 In some entities, different persons are responsible for the management and governance of an entity. In these circumstances, management may have the responsibility to communicate matters of governance interest to those charged with governance. Communication by management with those charged with governance of matters that the accountant is required to communicate does not relieve the accountant of the responsibility to also communicate with those charged with governance. However, communication of these matters by management may affect the form or timing of the accountant's communication with those charged with governance. [Paragraph renumbered by the issuance

of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Communication With Third Parties

.A29 The accountant may be required by law or regulation to, for example

- notify a regulatory or enforcement body of certain matters communicated with those charged with governance.
- submit copies of certain reports prepared for those charged with governance to relevant regulatory or funding bodies or, in some cases, make such reports publicly available.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A30 Unless required by law or regulation to provide a third party with a copy of the accountant's written communications with those charged with governance, the accountant may need the prior consent of management or those charged with governance before doing so. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Understanding of the Industry (Ref: par. .14)

.A31 The requirement that the accountant possess a level of knowledge of the industry in which the entity operates does not prevent the accountant from accepting a review engagement for an entity in an industry with which the accountant has no previous experience. It does, however, place upon the accountant a responsibility to obtain the required level of knowledge. The accountant may do so, for example, by consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and periodicals, appropriate continuing professional education, or individuals knowledgeable about the industry. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Knowledge of the Entity (Ref: par. .15)

.A32 The accountant may obtain knowledge of the entity through inquiry of the entity's personnel, the review of documents prepared by the entity, or experience with the entity or the entity's industry. Such knowledge includes the following:

- An understanding of the entity's business
- An understanding of the accounting principles and practices used by the entity in measuring, recognizing, recording, and disclosing all significant accounts and disclosures in the financial statements

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A33 The accountant's understanding of the entity's business encompasses a general understanding of the entity's organization; its operating characteristics; and the nature of its assets, liabilities, revenues, and expenses. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Designing and Performing Review Procedures (Ref: par. .17)

.A34 Review evidence obtained through the performance of analytical procedures and inquiry will ordinarily provide the accountant with a reasonable basis for obtaining limited assurance. However, in addition to analytical procedures and inquiries, in certain circumstances and based on the accountant's professional judgment, the accountant may perform procedures ordinarily performed in an audit. In such instances, the engagement remains a review, and the accountant is not required to perform an audit of the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A35 The results of the accountant's analytical procedures and inquiries may modify the accountant's risk awareness. For example, the response to an inquiry that a related party transaction is not disclosed may revise the accountant's awareness of risk relative to related party transactions. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Analytical Procedures (Ref: par. .19–.20)

.A36 Examples of analytical procedures that an accountant may consider performing when conducting a review of financial statements are contained in appendix A, "Analytical Procedures the Accountant May Consider Performing When Conducting a Review of Financial Statements." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A37 Analytical procedures include the consideration of comparisons of the entity's financial information with, for example:

- Comparable information for prior periods
- Anticipated results of the entity, such as budgets or forecasts, or expectations of the accountant, such as an estimation of depreciation
- Similar industry information, such as a comparison of the entity's ratio of sales to accounts receivable and gross margin percentages with industry averages or other entities of comparable size in the same industry

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A38 Analytical procedures also include consideration of relationships, for example:

- Among elements of financial information, such as gross margin percentages, that would be expected to conform to a predictable pattern based on recent history of the entity and industry
- Between financial information and relevant nonfinancial information, such as payroll costs to number of employees

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A39 When considering plausible relationships, the accountant may wish to consider information developed and used by the entity (for example, analyses prepared for management or those charged with governance). [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A40 Expectations developed by the accountant in performing analytical procedures in connection with a review of financial statements may be less precise than those developed in an audit. Also, in a review, the accountant is not required to corroborate management's responses with other evidence. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A41 To compare disaggregated revenue data, the accountant may compare, for example, revenue reported by month and product line or operating segment during the current period with that of comparable prior periods. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A42 Various methods may be used to perform analytical procedures. These methods range from performing simple comparisons to performing complex analyses. Analytical procedures may be performed at the financial statement level or at the detailed account level. The nature, timing, and extent of analytical procedures are a matter of professional judgment. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Investigating Results of Analytical Procedures (Ref: par. .21b)

.A43 Although the accountant is not required to corroborate management's responses with other evidence, the need to perform other review procedures may arise when, for example, management is unable to provide an explanation, or the explanation is not considered adequate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Inquiries of Members of Management Who Have Responsibility for Financial and Accounting Matters (Ref: par. .22)

.A44 In addition to members of management who have responsibility for financial and accounting matters, the accountant may determine to direct inquiries to others within the entity and those charged with governance, if appropriate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A45 Examples of unusual or complex situations about which the accountant may inquire of management are contained in appendix B, "Unusual or Complex Situations to Be Considered by the Accountant When Performing Inquiry Procedures in a Review of Financial Statements." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A46 Management may obtain knowledge of fraud or suspected fraud affecting the entity involving management or others when the fraud could have a material effect on the financial statements through, among other things, communications received from employees, former employees, or others. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A47 The accountant may obtain and read minutes from meetings of stockholders, the board of directors, committees of the board of directors, or comparable meetings that may affect the financial statements as an effective and efficient procedure to meet the requirement in paragraph .22o to inquire of members of management who have responsibility for financial and accounting

matters concerning the financial statements about actions taken at such meetings. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Reconciling the Financial Statements to the Underlying Accounting Records (Ref: par. .26)

.A48 To obtain evidence that the financial statements agree or reconcile with the accounting records, the accountant may compare the financial statements to

- the accounting records, such as the general ledger;
- a consolidating schedule derived from the accounting records; or
- other supporting data in the entity's records.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Evaluating Evidence Obtained From the Procedures Performed (Ref: par. .28, .31, and .39A)

.A49 Considerations that may affect the evaluation of whether uncorrected misstatements, individually or in the aggregate, are material include the following:

- The nature, cause (if known), and amount of the misstatements
- Whether the misstatements originated in the preceding year
- The potential effect of the misstatements on future periods
- The appropriateness of offsetting a misstatement of an estimated amount with a misstatement of an item capable of precise measurement
- Recognition that an accumulation of immaterial misstatements in the balance sheet could contribute to material misstatements in future periods

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A50 The accountant's reporting responsibilities when the accountant concludes that the financial statements are materially misstated are addressed in paragraphs .56–.60 with respect to known departures from the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A51 In some circumstances, the accountant may not have obtained the evidence that the accountant had expected to obtain through the design of primarily inquiry and analytical procedures and procedures addressing specific circumstances. In these circumstances, the accountant considers that the evidence obtained from the procedures performed is not sufficient and appropriate to be able to form a conclusion on the financial statements. The accountant may

- extend the work performed or
- perform other procedures judged by the practitioner to be necessary in the circumstances.

When neither of these is practicable in the circumstances, the accountant will not be able to obtain sufficient appropriate evidence to be able to form a conclusion and is required by this section to determine the effect on the accountant's ability to complete the engagement. This situation may arise even though the accountant has not become aware of a matter(s) that causes the accountant to believe the financial statements may be materially misstated. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Written Representations

Written Representations as Review Evidence (Ref: par. .32)

.A52 Written representations are an important source of review evidence. If management modifies or does not provide the requested written representations, it may alert the accountant to the possibility that one or more significant issues may exist. Further, a request for written, rather than oral, representations, in many cases, may prompt management to consider such matters more rigorously, thereby enhancing the quality of the representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Management From Whom Written Representations Are Requested (Ref: par. .33)

.A53 Written representations are requested from those with overall responsibility for financial and operating matters whom the accountant believes are responsible for, and knowledgeable about, directly or through others in the organization, the matters covered by the representations, including the preparation and fair presentation of the financial statements. Those individuals may vary depending on the governance structure of the entity; however, management (rather than those charged with governance) is often the responsible party. Written representations may, therefore, be requested from the entity's CEO and CFO or other equivalent persons in entities that do not use such titles. However, in some circumstances, other parties, such as those charged with governance, also are responsible for the preparation and fair presentation of the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A54 Due to its responsibility for the preparation and fair presentation of the financial statements and its responsibility for the conduct of the entity's business, management would be expected to have sufficient knowledge of the process followed by the entity in preparing the financial statements on which to base the written representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A55 In some cases, management may include in the written representations qualifying language to the effect that representations are made to the best of its knowledge and belief. It is reasonable for the accountant to accept such wording if, in the accountant's judgment, the representations are being made by those with appropriate responsibilities and knowledge of the matters included in the representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Specific Written Representations (Ref: par. .34-.35)

.A56 Review evidence obtained during the review that management has acknowledged the responsibilities referred to in paragraph .34a-b is not sufficient without obtaining representation from management that it believes that it has fulfilled those responsibilities. This is because the accountant is not able to judge solely on other review evidence whether management has prepared and fairly presented the financial statements and provided information to the accountant on the basis of the agreed acknowledgment and understanding of its responsibilities. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A57 The written representations relating to fraud required by paragraph .34f-g are important for the accountant to obtain, regardless of the size of the entity, because of the nature of fraud and the difficulties encountered by accountants in detecting material misstatements in the financial statements resulting from fraud. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A58 Because the preparation of financial statements requires management to adjust the financial statements to correct material misstatements, the accountant is required to request that management provide a written representation about uncorrected misstatements. In some circumstances, management may not believe that certain uncorrected misstatements are misstatements. For that reason, management may want to add to their written representation words such as "We do not agree that items... and... constitute misstatements because [description of reasons]." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A59 Circumstances in which it may be appropriate to obtain written representations about related parties from those charged with governance in addition to management include the following:

- When they have approved specific related party transactions that
 - materially affect the financial statements or
 - involve management
- When they have made specific oral representations to the accountant on details of certain related party transactions
- When they have financial or other interests in the related parties or the related party transactions

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A60 Because written representations are necessary review evidence, the accountant has not obtained limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework and the accountant's review report cannot be dated before the date of the written representations. Furthermore, because the accountant is concerned with events occurring up to the date of the accountant's review report that may require adjustment to, or disclosure in, the financial statements, the written representations are dated as of the date of the accountant's review report on the financial statements. [Paragraph

renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A61 The written representations cover all periods referred to in the accountant's review report because management needs to reaffirm that the written representations it previously made with respect to the prior periods remain appropriate. The accountant and management may agree to a form of written representation that updates written representations relating to the prior periods by addressing whether there are any changes to such written representations and, if so, what they are. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A62 Situations may arise in which current management was not present during all periods referred to in the accountant's review report. Such persons may assert that they are not in a position to provide some or all of the written representations because they were not in place during the period. This fact, however, does not diminish such persons' responsibilities for the financial statements as a whole. Accordingly, the requirement for the accountant to request from them written representations that cover the whole of the relevant period(s) still applies. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A63 The accountant may request additional representations regarding matters specific to the entity's business or industry. In addition, the accountant is not precluded from obtaining representations regarding services performed in addition to the review engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Form of Written Representations (Ref: par. .36)

.A64 Occasionally, circumstances may prevent management from signing the representation letter and returning it to the accountant on the date of the accountant's review report. In those circumstances, the accountant may accept management's oral confirmation, on or before the date of the accountant's review report, that management has reviewed the final representation letter and will sign the representation letter without exception as of the date of the accountant's review report. Possession of the signed management representation letter prior to releasing the accountant's review report is necessary because paragraph .36 requires that the representations be in the form of a written letter from management. Furthermore, when there are delays in releasing the report, a fact may become known to the accountant that, had it been known to the accountant at the date of the accountant's review report, might affect the accountant's review report and result in the need for updated representations. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A65 Exhibit B, "Illustrative Representation Letter," provides an illustrative example of a representation letter. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Reporting on the Financial Statements (Ref: par. .38)

.A66 A written report encompasses reports issued in hard copy format and those using an electronic medium. [Paragraph renumbered by the issuance of

SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A67 Financial statements that the accountant has reviewed may become unattached from the accountant's review report. To minimize the possibility that a user of the reviewed financial statements may infer, through the accountant's association with the reviewed financial statements, an unintended level of reliance on the reviewed financial statements, the accountant may consider including a reference on each page of the reviewed financial statements to the accountant's review report. An example of a reference to the accountant's review report included on each page of the reviewed financial statements is "See independent accountant's review report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A68 When the accountant is unable to perform the inquiry, analytical procedures, and other review procedures the accountant considers necessary to obtain limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the applicable financial reporting framework, or management does not provide the accountant with a representation letter, the review will be incomplete. A review that is incomplete does not provide an adequate basis for issuing a review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Accountant's Review Report (Ref: par. .39)

Title

.A69 An appropriate title would be "Independent Accountant's Review Report." [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Addressee

.A70 The accountant's review report is normally addressed to those for whom the report is prepared. The report may be addressed to the entity whose financial statements are being reviewed or to those charged with governance. A report on financial statements of an unincorporated entity may be addressed as circumstances dictate (for example, to the partners, general partner, or proprietor). Occasionally, an accountant may be retained to review the financial statements of an entity that is not a client; in such a case, the report may be addressed to the entity and not to those charged with governance of the entity whose financial statements are being reviewed. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Introductory Paragraph

.A71 The introductory paragraph states, for example, that the accountant has "reviewed the accompanying financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity and cash flows for the year then ended, and the related notes to the financial statements." If the financial statements include a separate statement of changes in stockholders' equity accounts or a separate statement of comprehensive income, paragraph .39c(iii) requires such statements to be identified in the introductory paragraph of the report as a statement to which the financial statements are comprised.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A72 When the accountant is aware that the reviewed financial statements will be included in a document that contains other information, such as an annual report, the accountant may consider, if the form of presentation allows, identifying the page numbers on which the reviewed financial statements are presented. This helps users identify the financial statements to which the accountant's review report relates. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A73 The identification of the title for each statement that the financial statements comprise may be achieved by referencing the table of contents. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

Management's Responsibility

.A74 Management, and when appropriate, those charged with governance, accept responsibility for the preparation of the financial statements in accordance with the applicable financial reporting framework, including their fair presentation. Management also accepts responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. The description of management's responsibilities in the accountant's review report includes reference to both responsibilities because it helps explain to users the premise on which a review is conducted. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Accountant's Responsibility

.A75 The accountant's review report states that the accountant's responsibility is to conduct the review engagement in accordance with SSARSs promulgated by the Accounting and Review Services Committee of the AICPA in order to contrast it to management's responsibility for the financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A76 The reference to the standards used conveys to users of the accountant's review report that the review engagement has been conducted in accordance with established standards. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A77 The accountant is not permitted to represent compliance with SSARSs in the accountant's review report unless the accountant has complied with the relevant requirements within the body of SSARSs. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Accountant's Address

.A78 The city and state where the accountant practices may be indicated on letterhead that contains the issuing office's city and state. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Date of the Accountant's Review Report

.A79 The date of the accountant's review report informs users of the accountant's review report that the accountant has considered the effect of events and transactions of which the accountant became aware and that occurred up to that date. The accountant's responsibility for events and transactions after the date of the accountant's review report is addressed in paragraphs .72–.78. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A80 Because the accountant's conclusion is provided on the financial statements, and the financial statements are the responsibility of management, the accountant is not in a position to conclude that the accountant has obtained limited assurance as a basis for reporting whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework until evidence is obtained that all the statements that the financial statements comprise, including the related notes, have been prepared, and management has accepted responsibility for them. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A81 Exhibit C, "Illustrations of Accountant's Review Reports on Financial Statements," contains illustrations of accountant's review reports on financial statements incorporating the elements required by paragraph .39. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Accountant's Review Report on Financial Statements Prepared in Accordance With a Special Purpose Framework (Ref: par. .09, .40, .42, and .44)

.A82 The description of the special purpose framework may be included in the financial statement titles, in the notes to the financial statements, or otherwise on the face of the financial statements. Although terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows* or similar unmodified titles, are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in accordance with GAAP, such titles, with appropriate modification, may be used in connection with financial statements prepared in accordance with a special purpose framework. Suitable financial statement titles for financial statements prepared in accordance with a special purpose framework include, but are not limited to

- a modified cash basis financial statement that might be titled
 - "Income Statement—Modified Cash Basis," or
 - "Statement of Cash Receipts and Disbursements."
- financial statements prepared in accordance with the tax basis of accounting that might be titled
 - "Balance Sheet—Tax Basis,"
 - "Statement of Assets, Liabilities, and Equity—Tax Basis,"
 - "Statement of Operations—Tax Basis," or
 - "Statement of Revenue and Expenses—Tax Basis."

- a financial statement prepared in accordance with a regulatory basis of accounting that might be titled "Statement of Income—Regulatory Basis."

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A83 The description of how the special purpose framework differs from GAAP ordinarily includes only the material differences between GAAP and the special purpose framework. For example, if several items are accounted for differently in accordance with the special purpose framework than they would be in accordance with GAAP, but only the differences in how depreciation is calculated are material, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described. The differences need not be quantified. [Paragraph subsequently renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered by the issuance of SSARS No. 24, May 2018.]

.A84 Financial statements prepared when applying a special purpose framework are not considered appropriate in form unless the financial statements include informative disclosures similar to those required by GAAP if the financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A85 When the financial statements are prepared in accordance with a regulatory or contractual basis of accounting or an other basis of accounting that requires an alert that restricts the use of the accountant's review report pursuant to paragraph .61a–b, the accountant is required by paragraph .42 to describe the purpose for which the financial statements are prepared or refer to a note in the financial statements that contains that information. This is necessary to avoid misunderstandings when the financial statements are used for purposes other than those for which they were intended. The note to the financial statements may also describe any significant interpretations of the contract on which the financial statements are based. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A86 When use of the accountant's review report is restricted, the intended users are the specified parties. The restriction on use of the accountant's review report is necessary due to the nature of the report and the potential for the report to be misunderstood when taken out of the context in which it was intended to be used. For example, special purpose financial statements prepared in accordance with a contractual basis of accounting are developed for and directed only to the parties to the contract or agreement. Paragraphs .63–.64 address the addition of other parties as specified parties. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Comparative Financial Statements (Ref: par. .45)

.A87 The level of information included for the prior periods in comparative financial statements is comparable with that of financial statements of the current period. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A88 If one firm of accountants merges with another firm, and the new firm becomes the accountant of a client of one of the two former firms, the new firm may accept responsibility and issue a review report on the financial statements for the prior period(s) as well as for those of the current period. The new firm may indicate in the accountant's review report or as part of the signature that a merger took place and may name the firm with whom it was merged. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Updating the Report (Ref: par. .46)

.A89 An updated report is issued in conjunction with the continuing accountant's report on the current period financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Changed Reference to a Departure From the Applicable Financial Reporting Framework (Ref: par. .49)

.A90 A changed reference includes the removal of a prior reference or the inclusion of a new reference. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Communicating to Management and Others Regarding Fraud or Noncompliance With Laws and Regulations (Ref: par. .51)

.A91 The communication of matters involving identified or suspected non-compliance may describe the act of identified or suspected noncompliance, the circumstances of its occurrence, and the effect on the financial statements. The accountant may reach agreement in advance with management and those charged with governance, if applicable, on the nature and amount of matters that would be considered not material and, thus, need not be communicated. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A92 The disclosure of any evidence or information that comes to the accountant's attention during the performance of review procedures that fraud or noncompliance with laws or regulations may have occurred to parties other than the entity's senior management (or those charged with governance, if applicable) ordinarily is not part of the accountant's responsibility and, ordinarily, would be precluded by the accountant's ethical or legal obligations of confidentiality. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A93 A duty to disclose to parties outside of the entity may exist in the following circumstances:

- To comply with certain legal and regulatory requirements
- To a successor accountant when management has given permission for communication between the predecessor accountant and the successor accountant
- In response to a subpoena

In such circumstances, the accountant may consider it appropriate to consult with legal counsel. [Paragraph renumbered by the issuance of SSARS No. 23,

October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A94 The accountant may consider whether withdrawal from the engagement is necessary when

- management or those charged with governance do not take the remedial action that the accountant considers necessary in the circumstances, or
- matters regarding fraud or noncompliance with laws or regulations involve an owner of the business.

When deciding whether withdrawal from the engagement is necessary, the accountant may consider seeking legal advice. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Emphasis-of-Matter and Other-Matter Paragraphs in the Accountant's Review Report (Ref: par. .52 and .54)

.A95 The accountant is required to include an emphasis-of-matter or other-matter paragraph in the accountant's review report relating to the following matters:

- In accordance with paragraphs .43–.44 with respect to financial statements prepared in accordance with a special purpose framework
- In accordance with paragraph .49 with respect to a changed reference to a departure from the applicable financial reporting framework when reporting on comparative financial statements
- In accordance with paragraph .50 with respect to reporting on comparative financial statements when the prior period is audited
- In accordance with paragraph .57 with respect to reporting a known departure from the applicable financial reporting framework that is material to the financial statements
- In accordance with paragraph .76c with respect to reporting when management revises financial statements for a subsequently discovered fact that became known to the accountant after the report release date and the accountant's review report on the revised financial statements differs from the accountant's review report on the original financial statements
- In accordance with paragraph .83 with respect to supplementary information that accompanies reviewed financial statements and the accountant's review report thereon
- In accordance with paragraph .86 with respect to required supplementary information

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Emphasis-of-Matter Paragraphs in the Accountant's Review Report (Ref: par. .52–.54)

.A96 In addition to the required emphasis-of-matter paragraphs listed in paragraph .A92, the following are examples of circumstances when the accountant may consider it necessary to include an emphasis-of-matter paragraph:

- An uncertainty regarding the entity's ability to continue as a going concern for a reasonable period of time
- An uncertainty relating to the future outcome of unusually important litigation or regulatory action
- A major catastrophe that has had, or continues to have, a significant effect on the entity's financial position
- Significant transactions with related parties
- Unusually important subsequent events

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A97 Paragraph .52 requires that an emphasis-of-matter paragraph refer only to matters appropriately presented or disclosed in the financial statements. To include information in an emphasis-of-matter paragraph about a matter beyond what is presented or disclosed in the financial statements may raise questions about the appropriateness of such presentation or disclosure. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A98 Another heading may be considered appropriate if it adequately describes the nature of the matter being disclosed or communicated. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A99 The inclusion of an emphasis-of-matter paragraph in the accountant's review report does not affect the accountant's conclusion. An emphasis-of-matter paragraph is not a substitute for disclosures in the financial statements that the applicable financial reporting framework requires management to make. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Other-Matter Paragraphs in the Accountant's Review Report (Ref: par. .54)

.A100 If not properly presented or disclosed in the financial statements, a matter cannot be included in an emphasis-of-matter paragraph. However, if the matter is relevant to users' understanding of the review, the accountant's responsibilities, or the accountant's review report, the matter can be disclosed in an other-matter paragraph. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A101 An entity may prepare one set of financial statements in accordance with a general purpose framework (for example, accounting principles generally accepted in the United States of America) and another set of financial statements in accordance with another general purpose framework (for example, International Financial Reporting Standards promulgated by the International Accounting Standards Board) and may engage the accountant to review both sets of financial statements. If the accountant has determined that the frameworks are acceptable in the respective circumstances, the accountant may include an other-matter paragraph in the accountant's review report referring to the fact that another set of financial statements has been prepared by the same entity in accordance with another general purpose framework and that the accountant has issued a review report on those financial statements. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A102 The content of an other-matter paragraph reflects clearly that such other matter is not required to be presented and disclosed in the financial statements. An other-matter paragraph does not include information that the accountant is prohibited from providing by law, regulation, or other professional standards (for example, ethical standards relating to the confidentiality of information). An other-matter paragraph does not include information that is required to be provided by management. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Communication With Management (Ref: par. .55)

.A103 The accountant's communication with management, as described in paragraph .55, enables management to be made aware of the nature of any specific matters that the accountant intends to highlight in the accountant's review report and provides them with an opportunity to obtain further clarification from the accountant, when necessary. When the inclusion of an other-matter paragraph on a particular matter in the accountant's review report recurs on each successive engagement, the accountant may determine that it is unnecessary to repeat the communication on each engagement. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A104 In addition to management, the accountant may also consider it appropriate to communicate with those charged with governance regarding the expectation of including an other-matter paragraph in the accountant's review report and the proposed wording of this paragraph. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Known Departures From the Applicable Financial Reporting Framework (Ref: par. .57 and .59–.60)

.A105 Examples of headings that an accountant may use to disclose departures from an applicable financial reporting framework in the accountant's review report include the following:

- Known Departures From Accounting Principles Generally Accepted in the United States of America
- Known Departures From International Financial Reporting Standards as Promulgated by the International Accounting Standards Board
- Known Departures From the Cash Basis of Accounting
- Known Departures From the Tax Basis of Accounting

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A106 Prior to withdrawing from a review engagement in those circumstances when the accountant believes that modification of the standard report is not adequate to indicate the deficiencies in the financial statements as a whole, the accountant may wish to consult with legal counsel. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A107 Including a statement that the financial statements are not in accordance with the applicable financial reporting framework would be tantamount to expressing an adverse opinion on the financial statements. Such an opinion can be expressed only in the context of an audit engagement. Furthermore, such a statement in an accountant's review report may confuse users because it would contradict the statement required in paragraph .39f about whether the accountant is aware of any material modifications that should be made to the financial statements for them to be in accordance with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A108 Depending on the accountant's assessment of the possible dollar magnitude of the effect of the departures, the significance of the affected items to the entity, the pervasiveness and overall impact of the misstatements, and whether disclosure has been made of the effect of the departures, the accountant may, in accordance with paragraphs .52–.55, include a separate paragraph in the accountant's review report stating the limitations of the financial statements. The following is an illustration of such a separate paragraph with respect to an accountant's review report on financial statements prepared in accordance with accounting principles generally accepted in the United States of America:

Limitations of the financial statements

Because of the significance and pervasiveness of the matters described in the Known Departures From Accounting Principles Generally Accepted in the United States of America paragraphs, we cannot assess their impact on the financial statements. Users of the accompanying financial statements should recognize that they might reach different conclusions about the company's financial position, results of operations, and cash flows if they had access to revised financial statements prepared in accordance with accounting principles generally accepted in the United States of America.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A109 Inclusion of a separate paragraph, such as that illustrated in paragraph .A105 in the accountant's review report is not a substitute for disclosure of the specific departures or the effects of such departures if such effects have been determined by management or are known as a result of the accountant's procedures. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A110 Exhibit C, "Illustrations of Accountant's Review Reports on Financial Statements," contains an illustrative example of an accountant's review report that discloses a departure from the applicable financial reporting framework.⁴ [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

⁴ Illustration 5, "An Accountant's Review Report on Comparative Financial Statements Disclosing a Departure From Accounting Principles Generally Accepted in the United States of America," of exhibit C, "Illustrations of Accountant's Review Reports on Financial Statements." [Footnote renumbered by the issuance of SSARS No. 24, May 2018.]

Alert That Restricts the Use of the Accountant's Review Report (Ref: par. .61)

.A111 The need for an alert that restricts the use of the accountant's review report arises from the potential for the accountant's review report to be misunderstood if taken out of the context in which the accountant's review report is intended to be used. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A112 Accountant's review reports on financial statements prepared in accordance with a general purpose framework ordinarily do not include an alert that restricts their use. A general purpose framework is a financial reporting framework designed to meet the common financial information needs of a wide range of users. However, nothing in SSARSs precludes an accountant from including an alert in any accountant's review report. For example, financial statements prepared specifically for use in an acquisition may be prepared in accordance with a general purpose framework because the parties involved in the transaction have agreed that such general purpose financial statements are appropriate for their purposes. Nevertheless, when the terms of the engagement to review those financial statements require the accountant to supply the accountant's review report only to specified parties, the accountant may consider it necessary in the circumstances to include an other-matter paragraph in the accountant's review report that restricts the use of the accountant's review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Distribution of the Accountant's Review Report (Ref: par. .61)

.A113 An accountant is not responsible for controlling, and cannot control, distribution of the accountant's review report after its release. The alert that restricts the use of the accountant's review report is designed to avoid misunderstandings related to the use of the accountant's review report, particularly if the accountant's review report is taken out of the context in which the accountant's review report is intended to be used. An accountant may consider informing the entity or other specified parties that the accountant's review report is not intended for distribution to parties other than those specified in the accountant's review report. The accountant may, in connection with establishing the terms of the engagement, reach an understanding with the entity that the intended use of the accountant's review report will be restricted and may obtain the entity's agreement that the entity and specified parties will not distribute such accountant's review report to parties other than those identified therein. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Illustrative Alert Language (Ref: par. .62)

.A114 The alert that restricts the use of the accountant's review report may list the specified parties or refer to the specified parties listed elsewhere in the accountant's review report. The following illustrates language that includes the elements required by paragraph .62:

This report is intended solely for the information and use of [list or refer to the specified parties] and is not intended to be, and should not be, used by anyone other than these specified parties.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Adding Other Specified Parties (Ref: par. .63)

.A115 When the accountant is requested to add other parties as specified parties, the accountant may agree to add other parties as specified parties based on the accountant's consideration of factors such as the identity of the other parties and the intended use of the accountant's review report. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

The Accountant's Consideration of an Entity's Ability to Continue as a Going Concern

Inquiry Concerning an Entity's Ability to Continue as a Going Concern (Ref: par. .65–.66)

.A116 The nature and extent of the accountant's review procedures are matters of the accountant's professional judgment. For example, when a history of profitable operations and ready access to financing exists, inquiry alone might be sufficient to review the entity's ability to continue as a going concern for a reasonable period of time. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A117 Certain financial reporting frameworks require management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing financial statements. For example, FASB *Accounting Standards Codification*¹ (ASC) requires management to evaluate whether there are conditions and events, considered in the aggregate, that raise substantial doubt about an entity's ability to continue as a going concern. Under FASB ASC, the evaluation period is within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable). [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A118 A review of financial statements is not designed to identify conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time. However, conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time may have existed at the date of the prior period financial statements or may be identified as a result of inquiries of management or in the course of performing other review procedures. The significance of such conditions and events will depend on the circumstances, and some may have significance only when viewed in conjunction with others. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A119 The following are examples of conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time:

- **Negative trends.** For example, recurring operating losses, working capital deficiencies, negative cash flows from operating activities, and other adverse key financial ratios

- *Other indications of possible financial difficulties.* For example, default on loan or similar agreements, arrearages in dividends, denial of usual trade credit from suppliers, noncompliance with statutory capital requirements, a need to restructure debt to avoid default, and a need to seek new sources or methods of financing or to dispose of substantial assets
- *Internal matters.* For example, work stoppages or other labor difficulties, substantial dependence on the success of a particular project, uneconomic long-term commitments, and a need to significantly revise operations
- *External matters.* For example, legal proceedings, legislation, or similar matters that might jeopardize an entity's ability to operate; loss of a key franchise, license, or patent; loss of a principal customer or supplier; and an uninsured or underinsured catastrophe, such as a hurricane, tornado, earthquake, or flood

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

A120 The significance of such conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time can often be mitigated by other factors. The following list includes examples of plans that management may implement to mitigate conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time. The examples are not all-inclusive. Following each example is a list of the types of information that management should consider at the date that the financial statements are issued in evaluating the feasibility of the plans to determine whether it is probable⁵ that the plan will be effectively implemented within one year after the date that the financial statements are issued.⁶

- a. Plans to dispose of an asset or business
 - i. Restrictions on disposal of an asset or business, such as covenants that limit those transactions in loan or similar agreements, or encumbrances against the asset or business
 - ii. Marketability of the asset or business that management plans to sell
 - iii. Possible direct or indirect effects of disposal of the asset or business
- b. Plans to borrow money or restructure debt
 - i. Availability and terms of new debt financing or availability and terms of existing debt refinancing, such as term debt, lines of credit, or arrangements for factoring receivables or sale-leaseback of assets
 - ii. Existing or committed arrangements to restructure or subordinate debt or to guarantee loans to the entity

⁵ The FASB ASC Master Glossary defines probable as "the future event or events are likely to occur." [Footnote renumbered by the issuance of SSARS No. 24, May 2018.]

⁶ "Pending Content" in FASB ASC 205-40-55-3. [Footnote renumbered by the issuance of SSARS No. 24, May 2018.]

- iii. Possible effects on management's borrowing plans of existing restrictions on additional borrowing or the sufficiency of available collateral
- c. Plans to reduce or delay expenditures
 - i. Feasibility of plans to reduce overhead or administrative expenditures, to postpone maintenance or research and development projects, or to lease rather than purchase assets
 - ii. Possible direct or indirect effects on the entity and its cash flows of reduced or delayed expenditures
- d. Plans to increase ownership equity
 - i. Feasibility of plans to increase ownership equity, including existing or committed arrangements to raise additional capital
 - ii. Existing or committed arrangements to reduce current dividend requirements or to accelerate cash infusions from affiliates or other investors

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A121 In considering the adequacy of disclosure, some of the information that may be disclosed, depending on the requirements of the financial reporting framework, includes the following:

- Principal conditions and events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time
- The possible effects of such conditions and events
- Management's evaluation of the significance of those conditions and events in relation to the entity's ability to meet its obligations and any mitigating factors
- Possible discontinuance of operations
- Management's plans (including relevant prospective financial information) that are intended to mitigate the conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time
- Information about the recoverability or classification of recorded asset amounts or the amounts or classification of liabilities

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Consideration of the Effects on the Accountant's Review Report ***(Ref: par. .67)***

[.A122] [Paragraph renumbered and deleted by the issuance of SSARS No. 24, May 2018.]

.A123 The following is an illustration of a going concern emphasis-of-matter paragraph when (a) the accountant concludes that substantial doubt exists about the entity's ability to continue as a going concern for a reasonable period of time, (b) management's plans do not alleviate the substantial doubt, and (c) the entity is required under the applicable financial reporting framework to include a statement in the notes to the financial statements:

Emphasis of Matter Regarding Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations, has a net capital deficiency, and has stated that substantial doubt exists about the Company's ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding these matters are also described in Note X. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our conclusion is not modified with respect to this matter.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A124 The following is an illustration of a going concern emphasis-of-matter paragraph when (a) the accountant concludes that substantial doubt exists about the entity's ability to continue as a going concern for a reasonable period of time, (b) management's plans do not alleviate the substantial doubt, and (c) the entity is not required under the applicable financial reporting framework to include a statement in the notes to the financial statements that substantial doubt exists.

Emphasis of Matter Regarding Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency, which raises substantial doubt about its ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding these matters are also described in Note X. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our conclusion is not modified with respect to this matter.

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A125 If conditions or events, considered in the aggregate, have been identified that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time but, based on the review evidence obtained, the accountant concludes that substantial doubt has been alleviated by management's plans, the accountant may include an emphasis-of-matter paragraph making reference to management's disclosures related to the conditions and events and management's plans related to those conditions or events. The following is an illustration of an emphasis-of-matter paragraph when management has disclosed (a) conditions or events, considered in the aggregate, that raised substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time; (b) its evaluation of the significance of those conditions or events, considered in the aggregate, in relation to the entity's ability to meet its obligations; and (c) that the substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time has been alleviated by management's plans.

Emphasis of Matter Regarding Going Concern

As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency. Management's evaluation of the events and conditions and management's plans to mitigate

these matters are also described in Note X. Our conclusion is not modified with respect to this matter.

[Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A126 Examples of inappropriate use of conditional language in an emphasis-of-matter paragraph when the accountant concludes that management has adequately disclosed that conditions or events have been identified and substantial doubt exists include the following:

- If the entity continues to experience recurring losses from operations and continues to have a net capital deficiency, there may be substantial doubt about its ability to continue as a going concern.
- The entity has been unable to renegotiate its expiring credit agreements. Unless the entity is able to obtain financial support, there is substantial doubt about its ability to continue as a going concern.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph renumbered and amended, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Subsequent Events and Subsequently Discovered Facts

Subsequent Events (Ref: par. .70)

.A127 Evidence or information that subsequent events that require adjustment of, or disclosure in, the financial statements may come to the accountant's attention in the following ways:

- During the performance of review procedures
- Subsequent to the date of the accountant's review report but prior to the release of the report

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Subsequently Discovered Facts That Became Known to the Accountant After the Report Release Date (Ref: par. .75–.78)

.A128 New information may come to the accountant's attention that, had such information been known to the accountant at the date of the accountant's review report, may have caused the accountant to revise the accountant's review report. When such information becomes known to the accountant after the report release date, the requirements in paragraphs .75–.78 apply, even if the accountant has withdrawn or been discharged. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A129 Because of the variety of conditions that might be encountered, the specific procedures or actions to be taken in a particular case may vary somewhat in light of the circumstances. For example, when determining whether the financial statements need revision, as required by paragraph .75b, the accountant may consider, in addition to the requirements of the applicable financial reporting framework, whether the accountant believes persons are currently using, or are likely to use, the financial statements and who would attach importance to the subsequently discovered facts. Consideration may be given, among other things, to the issuance of reviewed or audited financial statements for a subsequent period, the time elapsed since the financial statements were issued

and the date of the accountant's review report released, and any legal implications. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A130 The steps taken by management to ensure that anyone in receipt of the reviewed financial statements is informed of the situation, including that the reviewed financial statements are not to be used, depend on the circumstances. Management's steps may include the following:

- Notify anyone who is known to be using, or who is likely to use, the financial statements and the accountant's review report that they are not to be used and that revised financial statements, together with a new accountant's review report, will be issued. This may be necessary when the issuance of revised financial statements and a new accountant's review report is not imminent.
- Issue, as soon as practicable, revised financial statements with appropriate disclosure of the matter.
- Issue the subsequent period's financial statements with appropriate disclosure of the matter. This may be appropriate when issuance of the subsequent period's reviewed or audited financial statements is imminent.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A131 If management made the reviewed financial statements available to third parties despite the accountant's notification not to do so, or if the accountant believes that management or those charged with governance have failed to take the necessary steps to prevent use of the accountant's review report on the previously issued reviewed financial statements despite the accountant's prior notification that the accountant will take action to seek to prevent such use, the accountant's course of action depends upon the accountant's legal and ethical rights and obligations. Consequently, the accountant may consider it appropriate to seek legal advice. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A132 The actions that the accountant may take to seek to prevent use of the accountant's review report may depend upon the degree of certainty of the accountant's knowledge that persons or entities exist who are currently using, or who will use, the reviewed financial statements, and who would attach importance to the information, and the accountant's ability as a practical matter to communicate with them. In addition to seeking legal advice, the accountant may consider taking the following steps to the extent applicable:

- Notify management and those charged with governance that the accountant's review report is not to be used.
- Notify regulatory agencies having jurisdiction over the entity that the accountant's review report is not to be used, including a request that the agency take whatever steps it may deem appropriate to accomplish the necessary disclosure.
- Notify anyone known to the accountant to be using the financial statements that the accountant's review report is not to be used. In some instances, it will not be practicable for the accountant to give appropriate individual notification to stockholders or investors at large whose identities are unknown to the accountant; notification to a regulatory agency having jurisdiction over the entity will

usually be the only practical means for the accountant to provide appropriate disclosure, together with a request that the agency take whatever steps it may deem appropriate to accomplish the necessary disclosure.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A133 Depending on the circumstances, if the accountant is able to determine that the financial statements need revision, the accountant's notification to anyone in receipt of the reviewed financial statements may, if permitted by law, regulation, and relevant ethical requirements

- include a description of the nature of the matter and of its effect on the financial statements, avoiding comments concerning the conduct or motives of any person.
- describe the effect that the matter would have had on the accountant's review report if it had been known to the accountant at the date of the report and had not been reflected in the financial statements.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A134 If the accountant was not able to determine whether the financial statements need revision, the notification to anyone in receipt of the reviewed financial statements may indicate that information became known to the accountant and that, if the information is true, the accountant believes that the accountant's review report is not to be used. The specific matter may not be permitted by law, regulation, and ethical requirement to be detailed in the notification. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Reference to the Work of Other Accountants in an Accountant's Review Report (Ref: par. .79)

.A135 The accountant of the reporting entity may make reference to any or all other accountants who audited or reviewed significant components. For example, if a significant component is audited or reviewed by an other accountant and a second significant component is audited or reviewed by a different other accountant, the accountant of the reporting entity may decide to make reference to one of the other accountants, both of the other accountants, or neither. The decision is solely at the discretion and judgment of the accountant of the reporting entity. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A136 The disclosure of the magnitude of the portion of the financial statements audited or reviewed by other accountants may be achieved by stating the dollar amounts or percentages of total assets, total revenues, other appropriate criteria, or a combination of these, whichever most clearly describes the portion of the financial statements audited or reviewed by other accountants. When two or more other accountants participate in the audit or review, the dollar amounts or the percentages covered by the other accountants may be stated in the aggregate. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A137 Exhibit C contains an example of appropriate reporting in the accountant's review report when reference is made to the audit or review of significant components, such as consolidated and unconsolidated subsidiaries and investees, by other accountants.⁷ [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Determining Whether the Other Accountants Are Familiar with SSARSs or Auditing Standards Generally Accepted in the United States of America, as Applicable (Ref: par. .81b)

.A138 An other accountant's review report stating that the review was conducted in accordance with SSARSs or an auditor's report stating that the audit was conducted in accordance with generally accepted auditing standards (GAAS) is sufficient to make the determination required by paragraph .81b. When the other accountant has performed a review of the component financial statements in accordance with standards other than SSARSs or an audit of the component financial statements in accordance with auditing standards other than GAAS, the accountant of the reporting entity may evaluate, exercising professional judgment, whether the engagement performed by the other accountant meets the relevant requirements of SSARSs or GAAS, as applicable. For the purposes of complying with paragraph .81b, relevant requirements of SSARSs or GAAS are those that pertain to planning and performing the engagement on the component financial statements and do not include those related to the form of the accountant's review or the auditor's report. Reviews performed in accordance with International Standard on Review Engagements 2400 (Revised), *Engagements to Review Historical Financial Statements*, and audits performed in accordance with International Standards on Auditing (ISAs), both of which are promulgated by the International Auditing and Assurance Standards Board (IAASB), are likely to meet the relevant requirements of SSARSs and GAAS, respectively. The other accountants may perform additional procedures in order to meet the relevant requirements of SSARSs or GAAS. The accountant of the reporting entity, having determined that all relevant requirements of SSARSs or GAAS have been met by the other accountant, may decide to make reference to the review or audit of that other accountant in the accountant's review report on the reporting entity's financial statements. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

.A139 When the other accountants are not subject to the AICPA Code of Professional Conduct, compliance by the other accountants with the ethics and independence requirements set forth in the International Ethics Standards Board's *Code of Ethics for Professional Accountants* is sufficient to fulfill the other accountants' ethical responsibilities. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Determining Whether to Make Reference When the Financial Reporting Framework Is Not the Same (Ref: par. .82b)

.A140 The greater the number of differences or the greater the significance of the differences between the criteria used for measurement, recognition,

⁷ Illustration 6, "An Accountant's Review Report on Comparative Consolidated Financial Statements in Which the Accountant Makes Reference to the Work of Other Accountants Who Were Engaged to Review the Financial Statements of a Significant Component," of exhibit C. [Footnote renumbered by the issuance of SSARS No. 24, May 2018.]

presentation, and disclosure of all material items in the component's financial statements in accordance with the financial reporting framework used by the component and the financial reporting framework used by the reporting entity, the less similar the financial reporting frameworks. Financial statements prepared and presented in accordance with International Financial Reporting Standards (IFRS) and *International Financial Reporting Standard for Small- and Medium-Sized Entities*, as issued by the International Accounting Standards Board, are generally viewed as similar to financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). In most cases, special purpose frameworks are not similar to GAAP. [Paragraph added, effective for reviews of financial statements for periods ending on or after June 15, 2019, by SSARS No. 24.]

Supplementary Information That Accompanies Reviewed Financial Statements (Ref: par. .83–.85)

[A141] [Paragraph renumbered and deleted by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A142 The following is an example of how an accountant may word an other-matter paragraph addressing supplementary information when the supplementary information has been subjected to the review procedures applied in the accountant's review of the basic financial statements:

Other Matter

The accompanying [*identify the supplementary information*] is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the review procedures applied in my (our) review of the basic financial statements. I am (We are) not aware of any material modifications that should be made to the supplementary information. I (We) have not audited the supplementary information and do not express an opinion on such information.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A143 The following is an example of how an accountant may word an other-matter paragraph addressing supplementary information when the supplementary information has not been subjected to the review procedures applied in the review of the basic financial statements:

Other Matter

The accompanying [*identify the supplementary information*] is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. I (We) have not audited or reviewed such information and I (we) do not express an opinion, a conclusion, nor provide any assurance on it.

[Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A144 Supplementary information may become unattached from the accountant's review report. To minimize the possibility that a user of the supplementary information may infer, through the accountant's association with such information, an unintended level of reliance on it, the accountant may consider including a reference to the accountant's review report on each page of the supplementary information. An example of a reference to the accountant's review report included on each page of the supplementary information is "See independent accountant's review report." [Paragraph renumbered and amended, effective October 2016, by SSARS No. 23. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Required Supplementary Information (Ref: par. .86–.87)

.A145 Examples of required supplementary information that may accompany reviewed financial statements include the following:

- With respect to common interest realty associations, estimates of current or future costs of major repairs and replacements of common property that will be required in the future as required by *FASB Accounting Standards Codification* 972-235-50-3
- Management's discussion and analysis and budgetary comparison statements as required by GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A146 *Prescribed guidelines* are the authoritative guidelines established by the designated accounting standard-setter for the methods of measurement and presentation of the required supplementary information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A147 Because the required supplementary information accompanies the basic financial statements, the accountant's review report on the financial statements includes a discussion of the responsibility taken by the accountant on that information. However, if the required supplementary information is omitted by the entity, the accountant does not have a responsibility to present that information. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Change in Engagement From Audit to Review (Ref: par. .89)

.A148 A request to change the engagement may result from a change in circumstances affecting the entity's requirement for an audit engagement; a misunderstanding regarding the nature of an audit or review engagement; or a restriction on the scope of the audit engagement, whether imposed by management or caused by circumstances. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A149 A change in circumstances that affects the entity's requirement for an audit engagement or a misunderstanding concerning the nature of an audit or review engagement would ordinarily be considered a reasonable basis for requesting a change in the engagement. [Paragraph renumbered by the issuance

of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A150 The implications of a restriction on the scope of the audit engagement include the possibility that information affected by the scope restriction may be incorrect, incomplete, or otherwise unsatisfactory. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Review Documentation (Ref: par. .94)

.A151 Review documentation may be recorded on paper or on electronic or other media. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A152 The accountant need not include in review documentation superseded drafts of working papers and financial statements, notes that reflect incomplete or preliminary thinking, previous copies of documents corrected for typographical or other errors, and duplicates of documents. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A153 The accountant is not precluded from supporting the review report by other means in addition to the review documentation. Such other means might include written documentation contained in other engagement files (for example, compilation or nonattest services) or quality control files (for example, consultation files) and, in limited situations, oral explanations. On their own, oral explanations by the accountant do not represent adequate support for the work the accountant performed or conclusions reached, but they may be used to explain or clarify information contained in the review documentation. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A154 In the case of a review in which the engagement partner performs all the review work, the engagement partner is still required to comply with the overriding requirement in paragraph .94 to prepare review documentation that can be understood by an experienced accountant because the review documentation may be subject to review by external parties. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A155 Findings or issues that, in the accountant's professional judgment, are significant may include the results of review procedures that indicate that the financial statements could be materially misstated, including actions taken to address such findings and the basis for the final conclusions. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Appendix A — Analytical Procedures the Accountant May Consider Performing When Conducting a Review of Financial Statements (Ref: par. .A33)

Analytical procedures are designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement of the financial statements. Examples of analytical procedures that an accountant may consider performing in a review of financial statements include the following:

- Comparing current financial statements with the financial statements of the prior period.
- Comparing current financial statements with anticipated results, such as budgets or forecasts (for example, comparing tax balances and the relationship between the provision for income taxes and pretax income in the current financial statements with corresponding information in [a] budgets, using expected rates, and [b] financial statements for prior periods). Caution is necessary when comparing and evaluating current financial statements with budgets, forecasts, or other anticipated results because of the inherent lack of precision in estimating the future and the susceptibility of such information to manipulation and misstatement by management to reflect desired results.
- Comparing current financial statements with relevant nonfinancial information.
- Comparing ratios and indicators for the current period with expectations based on prior periods (for example, performing gross profit analysis by product line and operating segment using elements of the current financial statements and comparing the results with corresponding information for prior periods). Examples of key ratios and indicators are the current ratio, receivable turnover or days sales outstanding, inventory turnover, depreciation to average fixed assets, debt to equity, gross profit percentage, net income percentage, and plant operating rates.
- Comparing ratios and indicators for the current period with those of entities in the same industry.
- Comparing relationships among elements in the current financial statements with corresponding relationships in the financial statements of prior periods (for example, expense by type as a percentage of sales, assets by type as a percentage of total assets, and percentage of change in sales to percentage of change in receivables).
- Comparing disaggregated data. The following are examples of how data may be disaggregated:
 - By period (for example, financial statement items disaggregated into quarterly, monthly, or weekly amounts)
 - By product line or operating segment
 - By location (for example, subsidiary, division, or branch)

Analytical procedures may include such statistical techniques as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques. [Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Appendix B — Unusual or Complex Situations to Be Considered by the Accountant When Performing Inquiry Procedures in a Review of Financial Statements (Ref: par. .A42)

The following are examples of situations about which the accountant may inquire of management:

- Business combinations
- New or complex revenue recognition methods
- Impairment of assets
- Disposal of a segment of a business
- Use of derivative instruments and hedging activities
- Sales and transfers that may call into question the classification of investments in securities, including management's intent and ability with respect to the remaining securities classified as held to maturity
- Adoption of new stock compensation plans or changes to existing plans
- Restructuring charges taken in the current and prior periods
- Significant, unusual, or infrequently occurring transactions
- Changes in litigation or contingencies
- Changes in major contracts with customers or suppliers
- Application of new accounting principles
- Changes in accounting principles or the methods of applying them
- Trends and developments affecting accounting estimates, such as allowances for bad debts and excess or obsolete inventories, provisions for warranties and employee benefits, and realization of unearned income and deferred charges
- Compliance with debt covenants
- Changes in related parties or significant new related party transactions
- Material off-balance sheet transactions, special purpose entities, and other equity investments
- Unique terms for debt or capital stock that could affect classification

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

.A158

Exhibit A — Illustrative Engagement Letters (Ref: par. .A20)

Illustration 1 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 2 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

The illustrative engagement letters in this exhibit are intended as illustrations that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances, and the illustrations are drafted to refer to a review engagement for a single reporting period. The accountant may seek legal advice about whether a proposed letter is suitable.

Illustration 1 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements, including related notes, subject to the review engagement.
- The financial statements will be prepared in accordance with accounting principles generally accepted in the United States of America.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements and perform a review engagement with respect to those financial statements.³ We are pleased to confirm our acceptance and understanding of this engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the review engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A19.

² Throughout this engagement letter, references to *you*, *we*, *us*, *management*, and *accountant* would be used or amended as appropriate in the circumstances.

³ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

- a. prepare financial statements in accordance with accounting principles generally accepted in the United States of America based on information provided by you and
- b. obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including ethical principles of integrity, objectivity, professional competence, and due care.

A review engagement includes primarily applying analytical procedures to your financial data and making inquiries of company management. A review engagement is substantially less in scope than an audit engagement, the objective of which is the expression of an opinion regarding the financial statements as a whole. A review engagement does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed in an audit engagement. Accordingly, we will not express an opinion regarding the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by error or fraud, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations. However, we will inform the appropriate level of management of any material errors and any evidence or information that comes to our attention during the performance of our review procedures that indicates fraud may have occurred. In addition, we will report to you any evidence or information that comes to our attention during the performance of our review procedures regarding noncompliance with laws and regulations that may have occurred, unless they are clearly inconsequential.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with accounting principles generally accepted in the United States of America and to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with accounting principles generally accepted in the United States of America. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- a. The selection of accounting principles generally accepted in the United States of America as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and the inclusion of all informative disclosures that are appropriate for accounting principles generally accepted in the United States of America
- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial

statements that are free from material misstatement, whether due to fraud or error

- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities
- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the review engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries
- h. To provide us, at the conclusion of the engagement, with a letter that confirms certain representations made during the review

You are also responsible for all management decisions and responsibilities, and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of services performed and accepting responsibility for such services.

Our Report

[Insert appropriate reference to the expected form and content of the accountant's review report. Example follows.]

We will issue a written report upon completion of our review of ABC Company's financial statements. Our report will be addressed to the board of directors of ABC Company. We cannot provide assurance that an unmodified accountant's review report will be issued. Circumstances may arise in which it is necessary for us to report known departures from accounting principles generally accepted in the United States of America, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement. If, for any reason, we are unable to complete the review of your financial statements, we will not issue a report on such statements as a result of this engagement.

You agree to include our accountant's review report in any document containing financial statements that indicates that such financial statements have been reviewed by us and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services. . .

[The accountant may include language, such as the following, regarding limitation of or other arrangements regarding the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by

third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a review of those same financial statements and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

[Revised, February 2015, to include additional required engagement letter elements; Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Illustration 2 — An Engagement Letter for a Review Engagement With Respect to Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the financial statements, including related notes, subject to the review engagement.
- The financial statements will be prepared in accordance with the tax basis of accounting.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the financial statements of ABC Company, which comprise the statement of assets, liabilities, and equity—tax basis as of December 31, 20XX, and the related statements of operations and retained earnings—tax basis, and cash flows—tax basis for the year then ended, and the related notes to the financial statements and to perform a review engagement with respect to those financial statements.³ We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

Our Responsibilities

The objective of our engagement is to

- a. prepare financial statements in accordance with the tax basis of accounting based on information provided by you and

¹ The addresses and references in the engagement letter would be those that are appropriate in the circumstances of the review engagement, including the relevant jurisdiction. It is important to refer to the appropriate persons. See paragraph .A19.

² Throughout this engagement letter, references to *you, we, us, management, and accountant* would be used or amended as appropriate in the circumstances.

³ The accountant may include other nonattest services to be performed as part of the engagement, such as income tax preparation and bookkeeping services.

- b. obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the tax basis of accounting.

We will conduct our review engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA and comply with the AICPA's Code of Professional Conduct, including ethical principles of integrity, objectivity, professional competence, and due care.

A review engagement includes primarily applying analytical procedures to your financial data and making inquiries of company management. A review engagement is substantially less in scope than an audit engagement, the objective of which is the expression of an opinion regarding the financial statements as a whole. A review engagement does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate audit evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed in an audit engagement. Accordingly, we will not express an opinion regarding the financial statements.

Our engagement cannot be relied upon to identify or disclose any financial statement misstatements, including those caused by error or fraud, or to identify or disclose any wrongdoing within the entity or noncompliance with laws and regulations. However, we will inform the appropriate level of management of any material errors and any evidence or information that comes to our attention during the performance of our review procedures that indicates fraud may have occurred. In addition, we will report to you any evidence or information that comes to our attention during the performance of our review procedures regarding noncompliance with laws and regulations that may have occurred, unless they are clearly inconsequential.

Your Responsibilities

The engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to prepare financial statements in accordance with the tax basis of accounting and to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with the tax basis of accounting. You have the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- a. The selection of the tax basis of accounting as the financial reporting framework to be applied in the preparation of the financial statements
- b. The preparation and fair presentation of the financial statements in accordance with the tax basis of accounting and the inclusion of all informative disclosures that are appropriate for the tax basis of accounting. This includes
 - i. a description of the tax basis of accounting, including a summary of significant accounting policies, and how the tax basis of accounting differs from accounting principles generally accepted in the United States of America, the effects of which need not be qualified
 - ii. informative disclosures similar to those required by accounting principles generally accepted in the United States of America

- c. The design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error
- d. The prevention and detection of fraud
- e. To ensure that the entity complies with the laws and regulations applicable to its activities
- f. The accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- g. To provide us with
 - i. access to all information of which you are aware is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters
 - ii. additional information that we may request from you for the purpose of the review engagement
 - iii. unrestricted access to persons within the entity of whom we determine it necessary to make inquiries
- h. To provide us, at the conclusion of the engagement, with a letter that confirms certain representations made during the review

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and experience to oversee our preparation of your financial statements. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

[Insert appropriate reference to the expected form and content of the accountant's review report. Example follows.]

We will issue a written report upon completion of our review of ABC Company's financial statements. Our report will be addressed to the board of directors of ABC Company. We cannot provide assurance that an unmodified accountant's review report will be issued. Circumstances may arise in which it is necessary of us to report known departures from the tax basis of accounting, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement. If, for any reason, we are unable to complete the review of your financial statements, we will not issue a report on such statements as a result of this engagement.

Our report will state that the financial statements are prepared in accordance with tax basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our conclusion will not be modified with respect to this matter.

You agree to include our accountant's review report in any document containing financial statements that indicates that such financial statements have been reviewed by us and, prior to inclusion of the report, to ask our permission to do so.

Other Relevant Information

Our fees for these services. . .

[The accountant may include language, such as the following, regarding limitation of or other arrangements regarding the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing

misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the financial statements described herein except for our own intentional wrongdoing.]

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the financial statements described herein and to perform a review with respect to those same financial statements and our respective responsibilities.

Sincerely yours,

Exhibit B — Illustrative Representation Letter (Ref: par. .A62)

The following illustrative letter is intended as an illustration that may be used to comply with the requirements of section 90. The representation letter will vary according to individual requirements and circumstances.

It is assumed in this illustration that the applicable financial reporting framework is accounting principles generally accepted in the United States of America, that no conditions or events exist that might be indicative of the entity's inability to continue as a going concern, and that no exceptions exist to the requested written representations. If circumstances differ from these assumptions, the representations would need to be modified to reflect the actual circumstances.

(Entity Letterhead)

(To Accountant)

(Date)

This representation letter is provided in connection with your review of the financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity and cash flows for the years then ended, and the related notes to the financial statements, for the purpose of obtaining limited assurance as a basis for reporting whether you are aware of any material modifications that should be made to the financial statements in order for the statements to be in accordance with accounting principles generally accepted in the United States of America.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We represent that *[to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves] [as of (date of accountant's review report)]*:

Financial Statements

- We acknowledge our responsibility and have fulfilled our responsibilities for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America.
- We acknowledge our responsibility and have fulfilled our responsibilities for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
- We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.

- Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.
- Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of accounting principles generally accepted in the United States of America.
- Guarantees, whether written or oral, under which the company is contingently liable have been properly accounted for and disclosed in accordance with the requirements of accounting principles generally accepted in the United States of America.
- Significant estimates and material concentrations known to management that are required to be disclosed in accordance with FASB *Accounting Standards Codification* (ASC) 275, *Risks and Uncertainties*, have been properly accounted for and disclosed in accordance with the requirements of accounting principles generally accepted in the United States of America. [Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.]
- All events occurring subsequent to the date of the financial statements and for which accounting principles generally accepted in the United States of America requires adjustment or disclosure have been properly accounted for.
- The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the financial statements as a whole.
- The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with accounting principles generally accepted in the United States of America.

[Any other matters that the accountant may consider appropriate.]

Information Provided

- We have responded fully and truthfully to all inquiries made to us by you during your review.
- We have provided you with
 - access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters;
 - minutes of meetings of stockholders, directors, and committees of directors or summaries of actions of recent meetings for which minutes have not yet been prepared;
 - additional information that you have requested from us for the purpose of the review; and
 - unrestricted access to persons within the entity from whom you determined it necessary to obtain review evidence.
- All transactions have been recorded in the accounting records and are reflected in the financial statements.

- We have *[no knowledge of any]* *[disclosed to you all information that we are aware of regarding]* fraud or suspected fraud that affects the entity and involves
 - management,
 - employees who have significant roles in internal control, or
 - others when the fraud could have a material effect on the financial statements.
- We have *[no knowledge of any]* *[disclosed to you all information that we are aware of regarding]* allegations of fraud, or suspected fraud, affecting the entity's financial statements as a whole communicated by employees, former employees, analysts, regulators, or others.
- We have no plans or intentions that may materially affect the carrying amounts or classification of assets and liabilities.
- We have disclosed to you all known instances of noncompliance or suspected noncompliance with laws or regulations whose effects should be considered when preparing financial statements.
- We *[have disclosed to you all known actual or possible]* *[are not aware of any pending or threatened]* litigation and claims whose effects should be considered when preparing the financial statements *[and we have not consulted legal counsel concerning litigation or claims]*
- We have disclosed to you any other material liabilities or gain or loss contingencies that are required to be accrued or disclosed by FASB ASC 450, *Contingencies*.
- We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.
- We have disclosed to you all information relevant to the use of the going concern assumption in the financial statements.
- No material losses exist (such as from obsolete inventory or purchase or sale commitments) that have not been properly accrued or disclosed in the financial statements.
- The company has satisfactory title to all owned assets, and no liens or encumbrances on such assets exist, nor has any asset been pledged as collateral, except as disclosed to you and reported in the financial statements.
- We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
- We are in agreement with the adjusting journal entries that you have recommended, and they have been posted to the company's accounts (if applicable).

[Any other matters that the accountant may consider necessary.]

[Name of Chief Executive Officer and Title]

[Name of Chief Financial Officer and Title]

Representation letters ordinarily are tailored to include additional appropriate representations from management relating to matters specific to the entity's business or industry.

[Paragraph renumbered by the issuance of SSARS No. 23, October 2016. Paragraph subsequently renumbered by the issuance of SSARS No. 24, May 2018.]

Exhibit C — Illustrations of Accountant's Review Reports on Financial Statements (Ref: par. .A78, .A107, and .A134)

The illustrative accountant's review reports in this exhibit are intended as illustrations that may be used to comply with the requirements of section 90. The accountant's review report will vary according to individual requirements and circumstances.

Illustration 1 — An Accountant's Review Report on Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When a Review Has Been Performed for Both Periods

Illustration 2 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 3 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Illustration 4 — An Accountant's Review Report on Interim Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Illustration 5 — An Accountant's Review Report on Comparative Financial Statements Disclosing a Departure From Accounting Principles Generally Accepted in the United States of America

Illustration 6 — An Accountant's Review Report on Comparative Consolidated Financial Statements in Which the Accountant Makes Reference to the Work of Other Accountants Who Were Engaged to Review the Financial Statements of a Significant Component

Illustration 1 — An Accountant's Review Report on Comparative Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America When a Review Has Been Performed for Both Periods

Circumstances include the following:

- Review of a complete set of comparative financial statements.
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's

(owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

Accountant's Conclusion

Based on my (our) reviews, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 2 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Review of a complete set of financial statements (single year).
- The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

Accountant's Conclusion

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 3 — An Accountant's Review Report on Single Year Financial Statements Prepared in Accordance With the Tax Basis of Accounting

Circumstances include the following:

- Review of a complete set of financial statements (single year).
- The financial statements are of a partnership and prepared in accordance with the basis of accounting the partnership uses for income tax purposes (that is, a special purpose framework).
- Management has a choice of financial reporting frameworks.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Partnership, which comprise the statement of assets, liabilities, and partners' capital—tax basis as of December 31, 20XX, and the related statements of revenue and expenses—tax basis, and partners' capital—tax basis for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (partners') financial data and making inquiries of partnership management (partners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Partners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting the partnership uses for income tax purposes; this includes determining that

the basis of accounting the partnership uses for income tax purposes is an acceptable basis for the preparation of financial statements in the circumstances. Management (Partners) is (are) also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with the basis of accounting the partnership uses for income tax purposes. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

Accountant's Conclusion

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with the basis of accounting the partnership uses for income tax purposes.

Basis of Accounting

I (We) draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared in accordance with the basis of accounting the partnership uses for income tax purposes, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our conclusion is not modified with respect to this matter.

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

[Date of the accountant's review report]

Illustration 4 — An Accountant's Review Report on Interim Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Review of a complete set of interim financial statements for the period ended September 30, 20XX, and for the three and nine months then ended.
- The interim financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.
- The accountant appropriately performs the engagement in accordance with SSARs (that is, AU-C section 930, *Interim Financial Information* [AICPA, *Professional Standards*], is not applicable).

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying interim financial statements of XYZ Company, which comprise the balance sheet as of September 30, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows

for the three and nine months then ended, and the related notes to the interim financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the interim financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these interim financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the interim financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

Accountant's Conclusion

Based on my (our) review, I am (we are) not aware of any material modifications that should be made to the accompanying interim financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

Illustration 5 — An Accountant's Review Report on Comparative Financial Statements Disclosing a Departure From Accounting Principles Generally Accepted in the United States of America

Circumstances include the following:

- Review of a complete set of comparative financial statements.
- The financial statements contain a departure from accounting principles generally accepted in the United States of America.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which

is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

Accountant's Conclusion

Based on my (our) reviews, except for the issue noted in the Known Departure From Accounting Principles Generally Accepted in the United States of America paragraph, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Known Departure From Accounting Principles Generally Accepted in the United States of America

As disclosed in Note X to these financial statements, accounting principles generally accepted in the United States of America require that inventory cost consist of material, labor, and overhead. Management has informed me (us) that the inventory of finished goods and work in process is stated in the accompanying financial statements at material and labor cost only, and that the effects of this departure from accounting principles generally accepted in the United States of America on financial position, results of operations, and cash flows have not been determined.

or

As disclosed in Note X to these financial statements, the company has adopted [description of newly adopted method], whereas it previously used [description of previous method]. Although the [description of newly adopted method] is in accordance with accounting principles generally accepted in the United States of America, the company does not appear to have reasonable justification for making a change as required by FASB *Accounting Standards Codification* 250, *Accounting Changes and Error Corrections*.

[Date of the accountant's review report]

Illustration 6 — An Accountant's Review Report on Comparative Consolidated Financial Statements in Which the Accountant Makes Reference to the Work of Other Accountants Who Were Engaged to Review the Financial Statements of a Significant Component

Circumstances include the following:

- Review of a complete set of comparative consolidated financial statements.
- The financial statements of B Company, a wholly-owned subsidiary, whose financial statements reflect total assets constituting 20 percent and 22 percent, respectively, of consolidated total assets at December 31, 20X2 and 20X1, and total revenues constituting 18 percent and 20 percent, respectively, of consolidated total revenues for the years then ended, were reviewed by other accountants, and the accountant has decided to make reference to the work of other accountants in the accountant's review report.

Independent Accountant's Review Report

[Appropriate Addressee]

I (We) have reviewed the accompanying consolidated financial statements of XYZ Company and its subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X2 and 20X1, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the AICPA. We have not reviewed the financial statements of B Company, a wholly-owned subsidiary, whose financial statements reflect total assets constituting 20 percent and 22 percent, respectively, of consolidated total assets at December 31, 20X2 and 20X1, and total revenues constituting 18 percent and 20 percent, respectively, of consolidated total revenues for the years then ended. These statements were reviewed by other accountants, whose report has been furnished to me (us), and our conclusion, insofar as it relates to the amounts included for B Company, is based solely on the report of the other accountants.

SSARs require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the consolidated financial statements for them to be in accordance with accounting principles generally accepted in the United States

of America. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

Accountant's Conclusion

Based on my (our) reviews, and the report of other accountants, I am (we are) not aware of any material modifications that should be made to the accompanying consolidated financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

[Signature of accounting firm or accountant, as appropriate]

AR-C Section 100

Special Considerations—International Reporting Issues

Source: SSARS No. 24.

Effective for compilations and reviews of financial statements for periods ending on or after June 15, 2019.

Introduction

Scope of This Section

.01 This section addresses situations in which an accountant is engaged to perform a compilation or review of financial statements in accordance with Statements on Standards for Accounting and Review Services (SSARSs) in either of the following circumstances:

- a. The financial statements have been prepared in accordance with a financial reporting framework generally accepted in another country not adopted by a body designated by the Council of the AICPA (Council) to establish generally accepted accounting principles (GAAP) (hereinafter referred to as a financial reporting framework generally accepted in another country).
- b. The compilation or review engagement is to be performed in accordance with both SSARSs and another set of compilation or review standards, such as International Standard on Related Services (ISRS) 4410 (Revised), *Compilation Engagements*, or International Standard on Review Engagements (ISRE) 2400 (Revised), *Engagements to Review Historical Financial Statements*.

.02 Pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001), the Council of the AICPA designates the bodies to establish GAAP. This section does not apply to financial statements prepared in accordance with financial reporting frameworks established by the bodies designated by the Council. (Ref. par. .A2–.A3)

Effective Date

.03 This section is effective for compilations and reviews of financial statements for periods ending on or after June 15, 2019.

Objective

.04 The objective of the accountant, when performing a compilation or review of financial statements prepared in accordance with a financial reporting framework generally accepted in another country or in accordance with both

SSARs and another set of compilation or review standards, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement,
- b. the planning and performance of the engagement, and
- c. reporting on the financial statements.

Requirements

Considerations When Accepting the Engagement

.05 In a compilation or review of financial statements prepared in accordance with a financial reporting framework generally accepted in another country, in complying with paragraph .26b of section 60B, *General Principles for Engagements Performed in Accordance With Statements on Standards for Accounting and Review Services*, which requires the accountant, as a condition for accepting an engagement to be performed in accordance with SSARs, to determine whether the financial reporting framework selected by management to be applied in the preparation of the financial statements is acceptable, the accountant should obtain an understanding of the following: (Ref: par. .A4)

- a. The purpose for which the financial statements are prepared and whether the financial reporting framework applied in the preparation of the financial statements is a fair presentation framework
- b. The intended users of the financial statements
- c. The steps taken by management to determine that the applicable financial reporting framework is acceptable in the circumstances

.06 The accountant should obtain an understanding of the applicable legal responsibilities involved when the compilation or review engagement is to be performed in accordance with both SSARs and another set of compilation or review standards and both of the following are true: (Ref: par. .A5)

- a. The financial statements are intended for use only outside of the United States.
- b. The accountant plans to use the form and content of the accountant's compilation or review report of the other set of compilation or review standards.

Compilation or Review of Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country

.07 When performing a compilation or review on financial statements prepared in accordance with a financial reporting framework generally accepted in another country, the accountant should obtain an understanding of such framework. (Ref: par. .A6–.A7)

.08 The accountant should comply with section 80B, *Compilation Engagements*, and section 90B, *Review of Financial Statements*, with respect to compilations or reviews, respectively, of financial statements prepared in accordance with a financial reporting framework generally accepted in another country. When the financial statements are intended for use only outside of the United States, the accountant may use the report form and content of the other country in accordance with paragraph .10b.

Application of Another Set of Compilation or Review Standards

.09 If the accountant is engaged to perform a compilation or review of financial statements and the agreed-upon terms of the engagement require the accountant to apply another set of compilation or review standards in addition to SSARs, the accountant should obtain an understanding of and apply those relevant standards, as well as SSARs, except for requirements related to the form and content of the report in the situation described in paragraph .10a. (Ref: par. .A8–.A10)

Reporting

Reporting—Intended for Use Only Outside the United States

.10 If the accountant is issuing an accountant's compilation or review report on financial statements and such financial statements are intended for use only outside the United States, the accountant should use either of the following:

- a. A report in accordance with SSARs, the content of which includes the following: (Ref: par. .A11)
 - i. The elements required by section 80B or section 90B, as applicable, excluding the requirement from paragraph .21 of section 80B or paragraph .43 of section 90B to include a paragraph regarding financial statements prepared in accordance with a special purpose framework
 - ii. A statement that refers to the note to the financial statements, if applicable, that describes the basis of presentation of the financial statements on which the accountant is reporting, including identification of the country of origin of the accounting principles if the financial statements are prepared in accordance with a financial reporting framework generally accepted in another country
- b. The report form and content in accordance with another set of compilation or review standards (for example, as set forth in ISRS 4410 (Revised) or ISRE 2400 (Revised)), provided that the following are true:
 - i. Such a report would be issued by accountants in the other country in similar circumstances.
 - ii. If a review engagement is performed, the accountant has obtained sufficient appropriate review evidence to support the conclusion expressed in the review report.
 - iii. The accountant has complied with the reporting standards of the other set of compilation or review standards and identifies such standards in the report. (Ref: par. .A5)

Reporting—Use in the United States

.11 If the financial statements will be used in the United States, the accountant should report in accordance with SSARs, including the requirements related to financial statements prepared in accordance with a special purpose framework from paragraph .21 of section 80B and paragraph .43 of section 90B for compilations and reviews, respectively. (Ref: par. .A12–.A13)

Accountant's Report for Compilations or Reviews Conducted in Accordance With Both SSARs and Another Set of Compilation or Review Standards

.12 The accountant should not refer to having conducted a compilation or review in accordance with another set of compilation or review standards in addition to SSARs unless the compilation or review was conducted in accordance with both sets of standards in their entirety.

.13 When the accountant's compilation or review report refers to both SSARs and another set of compilation or review standards, the accountant's compilation or review report should identify the other set of compilation or review standards, as well as its origin.

Application and Other Explanatory Material**Scope of This Section (Ref: par. .01–.02)**

.A1 Pursuant to paragraph .10 of section 60B, the accountant must perform a review or compilation in accordance with SSARs, except for certain reviews of interim financial information as discussed in section 90B.

.A2 Sections 80B and 90B apply to compilations and reviews, respectively, of financial statements prepared in accordance with financial reporting frameworks established by the bodies designated by the Council, including financial statements prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

.A3 This section applies to compilations and reviews of financial statements prepared in accordance with a jurisdictional variation of IFRS such that the entity's financial statements do not contain an explicit and unreserved statement in an appropriate note to the financial statements that such financial statements are in compliance with IFRS as promulgated by the IASB.

**Considerations When Accepting the Engagement
(Ref: par. .05b, .06, and .10biii)**

.A4 In obtaining an understanding of the purpose for which the financial statements are prepared and of the intended users, the accountant may consider whether the intended users are likely to be familiar with the applicable financial reporting framework. For example, if the financial statements are to be used in the United States in addition to the other country or countries for which they are intended, the accountant may consider whether intended users within the United States deal directly with the entity and whether the financial statements are to be used in a manner that permits such users to discuss with the entity differences from accounting and reporting practices in the United States and their significance. Accordingly, an accountant may conclude that financial statements prepared in accordance with a financial reporting framework generally accepted in another country are not appropriate for wide distribution in the United States.

.A5 Even when the form and content of the accountant's compilation or review report presented in accordance with another set of compilation or review standards appears similar to that used in the United States, the report may convey a different meaning and entail different legal responsibilities for the accountant due to custom or culture. Issuing such a compilation or review report may require the accountant to report on statutory compliance or

otherwise require an understanding of local laws and regulations. When issuing such an accountant's compilation or review report, the accountant is required by paragraph .06 to obtain an understanding of applicable legal responsibilities, in addition to the compilation or review standards and the financial reporting framework, as required by paragraphs .05 and .08–.09. Accordingly, depending on the nature and extent of the accountant's knowledge and experience, the accountant may consult with persons having expertise in the compilation or review reporting requirements in the other set of compilation or review standards and associated legal responsibilities to obtain the understanding needed to issue the compilation or review report in accordance with the other set of compilation or review standards.

Compilation or Review of Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country (Ref: par. .07)

.A6 Paragraph .13 of section 80B requires the accountant, as part of the compilation engagement, to obtain an understanding of the applicable financial reporting framework and the significant accounting policies intended to be used in the preparation of the financial statements. Paragraphs .15–.16 of section 90B require the accountant, as part of the review engagement, to obtain an understanding of the accounting principles and practices used by the entity sufficient to identify areas in the financial statements in which there is a greater likelihood that material misstatements may arise and to be able to design procedures to address those areas.

.A7 An understanding of the financial reporting framework generally accepted in another country may be obtained by reading the statutes or professional literature, or codifications thereof, which establish or describe the financial reporting framework generally accepted in the other country. Often, the application of accounting principles to a particular situation requires practical experience and, accordingly, the accountant may consult with persons having expertise in applying the financial reporting framework of the other country.

Application of Another Set of Compilation or Review Standards (Ref: par. .09)

.A8 When an accountant is applying another set of compilation or review standards, such as ISRS 4410 (Revised) or ISRE 2400 (Revised), the accountant may be required to perform procedures in addition to those procedures required by SSARSS.

.A9 An understanding of another set of compilation or review standards may be obtained by reading the statutes or professional literature, or codifications thereof, which establish or describe such standards.

.A10 Statutes or professional literature, or codifications thereof, however, may not include a complete description of another set of compilation or review standards. The accountant may consult with persons having expertise, including practical experience, in applying another set of compilation or review standards, as relevant.

Reporting (Ref: par. .10a and .11)

.A11 The exhibit "Illustrations of Accountant's Compilation and Review Reports on Financial Statements Prepared in Accordance With a Financial

Reporting Framework Generally Accepted in Another Country Performed in Accordance With SSARs and Another Set of Compilation or Review Standards" contains illustrations of auditor's reports on financial statements incorporating the elements required by paragraphs .10–.11.

Reporting—Use in the United States (Ref: par. .11)

.A12 When reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country that will be used both inside and outside the United States, the accountant may issue two reports: one of the reports described in paragraph .10 for use outside the United States and a report in accordance with SSARs to be used in the United States.

.A13 An entity that prepares financial statements in accordance with GAAP may also prepare financial statements in accordance with a financial reporting framework generally accepted in another country for use outside the United States (for example, financial statements prepared in accordance with a jurisdictional variation of IFRS such that the entity's financial statements do not contain an explicit and unreserved statement of compliance with IFRS as issued by the IASB). The accountant may report on the financial statements that are in accordance with a financial reporting framework generally accepted in another country by reporting in accordance with paragraph .10. The accountant may include in the reports that another report has been issued on the entity's financial statements that have been prepared in accordance with a financial reporting framework generally accepted in another country. The accountant's statement may also reference any note disclosure in the financial statements that describes significant differences between the accounting principles used and GAAP. Such a statement may be included in a separate paragraph to the accountant's compilation or review report (this paragraph would be an emphasis-of-matter paragraph in an accountant's review report). The following is an example:

We also have reported separately on the financial statements of ABC Company for the same period presented in accordance with [*specify the financial reporting framework generally accepted*] in [*name of country*]. (Note X summarizes the significant differences between the [*specify the financial reporting framework generally accepted*] in [*name of country*] and accounting principles generally accepted in the United States of America.)

Independent Accountant's Review Report

[*Appropriate addressee*]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's (owners') financial data and making inquiries of company management (owners). A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I (we) do not express such an opinion.

Management's Responsibility for the Financial Statements

Management (Owners) is (are) responsible for the preparation and fair presentation of these financial statements, which, as described in Note X to the financial statements, have been prepared in accordance with [*specify the financial reporting framework generally accepted*] in [*name of country*]; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My (Our) responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA and in accordance with [*identify the other review standards*]. Those standards require me (us) to perform procedures to obtain limited assurance as a basis for reporting whether I am (we are) aware of any material modifications that should be made to the financial statements for them to be in accordance with [*specify the financial reporting framework generally accepted*] in [*name of country*]. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.

Accountant's Conclusion

Based on my (our) reviews, I am (we are) not aware of any material modifications that should be made to the accompanying financial statements in order

for them to be in accordance with [*specify the financial reporting framework generally accepted*] in [*name of country*].

[*Signature of accounting firm or accountant, as appropriate*]

AR-C Section 120

Compilation of Pro Forma Financial Information

(Supersedes SSARS No. 14)

Source: SSARS No. 22

Effective for compilation reports on pro forma financial information dated on or after May 1, 2017.

Introduction

Scope of This Section

.01 This section contains performance and reporting requirements and application guidance for accountants engaged to perform a compilation engagement on pro forma financial information. (Ref: par. .A1)

Effective Date

.02 This section is effective for compilation reports on pro forma financial information dated on or after May 1, 2017.

Objective

.03 The objective of the accountant in a compilation of pro forma financial information is to apply accounting and financial reporting expertise to assist management in the presentation of pro forma financial information and report in accordance with this section without undertaking to obtain or provide any assurance on the pro forma financial information.

Definition

.04 For purposes of this section, the following term has the meaning attributed as follows:

Pro forma financial information. A presentation that shows what the significant effects on historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date. (Ref: par. .A2–.A5)

Requirements

General Principles for Compilations of Pro Forma Financial Information

.05 In addition to complying with this section, an accountant is required to comply with section 60B, *General Principles for Engagements Performed in*

Accordance With Statements on Standards for Accounting and Review Services, adapted as necessary.

Independence

.06 In a compilation of pro forma financial information, the accountant must determine whether the accountant is independent of the entity. (Ref: par. .A6)

Acceptance and Continuance of Client Relationships

.07 As a condition for accepting an engagement to perform a compilation on pro forma financial information, in addition to the requirements in paragraph .25 of section 60B, adapted as necessary, the accountant should obtain the agreement of management that it acknowledges and understands its responsibility for the following: (Ref: par. .A7)

- a. The preparation and fair presentation of pro forma financial information in accordance with the applicable financial reporting framework (Ref: par. .A8)
- b. To include the following in any document that contains the pro forma financial information:
 - i. The complete financial statements of the entity for the most recent year (or for the preceding year if financial statements for the most recent year are not yet available) or such financial statements are readily available (Ref: par. .A9)
 - ii. If pro forma financial information is presented for an interim period, either historical interim financial information for that period (which may be in condensed form) or that such interim information is readily available (Ref: par. .A10)
 - iii. In the case of a business combination, the relevant historical financial information for the significant constituent parts of the combined entity
- c. To ensure that the financial statements of the entity (or, in the case of a business combination, of each significant constituent part of the combined entity) on which the pro forma financial information is based have been subjected to a compilation, review, or an audit engagement
- d. To include the accountant's compilation or review report or the auditor's report on the financial statements (or to have readily available) in any document containing the pro forma financial information
- e. To present a summary of significant assumptions with the pro forma financial information
- f. To obtain the accountant's permission prior to including the accountant's compilation report in any document containing the pro forma financial information that indicates that the entity's accountant has performed a compilation engagement on such pro forma financial information

.08 If the accountant is not satisfied about any of the matters set out in paragraph .25 of section 60B or paragraph .07 of this section as preconditions for accepting a compilation engagement with respect to pro forma financial

information, the accountant should discuss the matter with management. If changes cannot be made to satisfy the accountant about those matters, the accountant should not accept the proposed compilation engagement.

Agreement on Engagement Terms

.09 The accountant should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be documented in an engagement letter or other suitable form of written agreement between the parties and should include the following: (Ref: par. .A11–.A16)

- a.* The objectives of the engagement
- b.* The responsibilities of management set forth in paragraph .25c of section 60B and paragraph .07 of this section
- c.* The responsibilities of the accountant
- d.* The limitations of the compilation engagement
- e.* Identification of the applicable financial reporting framework for the preparation of the pro forma financial information
- f.* The expected form and content of the accountant's compilation report and a statement that there may be circumstances in which the report may differ from its expected form and content

.10 The engagement letter or other suitable form of written agreement should be signed by

- a.* the accountant or the accountant's firm, and
- b.* management or those charged with governance, as appropriate. (Ref: par. .A12)

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework

.11 The accountant should obtain an understanding of the applicable financial reporting framework and the significant accounting policies intended to be used in the preparation of the pro forma financial information. If the entity is a combined entity, the accountant should obtain an understanding of the significant accounting policies adopted by management of each significant constituent part of the combined entity that would have been required to have been obtained by the accountant performing a compilation engagement with respect to the financial statements of each entity for the most recent annual or interim period for which the pro forma financial information is presented. (Ref: par. .A17–.A18)

Compilation Procedures

.12 In performing a compilation of pro forma financial information, the accountant should do the following:

- a.* Comply with the requirements set forth in paragraphs .13–.16 of section 80B, adapted as necessary. (Ref: par. .A19)
- b.* Obtain an understanding of the underlying transaction or event.
- c.* Ascertain that management has fulfilled its agreement pursuant to paragraph .07b of this section to include the following in any document that contains the pro forma financial information:

- i. The complete financial statements of the entity for the most recent year (or for the preceding year if financial statements for the most recent year are not yet available) or such financial statements are readily available
 - ii. If pro forma financial information is presented for an interim period, either historical interim financial information for that period (which may be in condensed form) or that such interim information is readily available
 - iii. In the case of a business combination, the relevant financial information for the significant constituent parts of the combined entity
- d. Ascertain that management has fulfilled its agreement pursuant to paragraph .07c of this section to ensure that the financial statements of the entity (or, in the case of a business combination, of each significant constituent part of the combined entity) on which the pro forma financial information is based have been subjected to a compilation, review, or an audit engagement.
- e. Ascertain that management has fulfilled its agreement pursuant to paragraph .07d of this section to include the accountant's compilation or review report or the auditor's report on the financial statements (or have readily available) in any document containing the pro forma financial information.

The Accountant's Compilation Report on Pro Forma Financial Information

.13 The accountant's compilation report should be in writing and comply with the requirements set forth in paragraphs .17–.31 of section 80B (Ref: par. .A20–.A22)

.14 In addition to the report elements required by paragraph .17 of section 80B, an accountant's compilation report on pro forma financial information should include the following:

- a. A reference to the financial statements from which the historical financial information is derived and a statement as to whether such financial statements were subjected to an audit, a review, or a compilation engagement
- b. A reference to any modification of the audit, review, or compilation report on the historical financial information
- c. A description of the nature and limitations of pro forma financial information

Documentation

.15 The accountant should prepare documentation in connection with each compilation of pro forma financial information in sufficient detail to provide a clear understanding of the work performed, which, at a minimum, includes the following: (Ref: par. .A23)

- a. The engagement letter or other suitable form of written documentation with management, as described in paragraphs .09–.10
- b. The results of procedures performed in accordance with paragraph .12

- c. A copy of the pro forma financial information
- d. A copy of the accountant's compilation report

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 A compilation engagement on pro forma financial information may be undertaken as a separate engagement or in conjunction with a compilation, a review, or an audit of financial statements.

Definition (Ref: par. .04)

.A2 Pro forma financial information is developed by applying pro forma adjustments to historical financial information. Appropriate pro forma adjustments are based on management's assumptions, give effect to all significant effects directly attributable to the transaction (or event), and are stated on a basis consistent with the financial reporting framework of the reporting entity and its accounting policies under that framework.

.A3 Pro forma financial information is commonly used to show the effects of a transaction (or event) such as the following:

- Business combination
- Change in capitalization
- Disposition of a significant portion of the business
- Change in the form of business organization or status as an autonomous entity
- Proposed sale of securities and the application of the proceeds

.A4 Adequately disclosed pro forma financial information is labeled as such to distinguish it from other historical financial information. In addition, adequately disclosed financial information

- describes the transaction (or event) that is reflected in the pro forma financial information, the date on which the transaction (or event) is assumed to occur, the financial reporting framework of the financial statements, the source of the historical financial information on which it is based, the significant assumptions used to develop the pro forma adjustments, and any significant uncertainties about those assumptions.
- indicates that the pro forma financial information should be read in conjunction with the related historical financial information and that the pro forma financial information is not necessarily indicative of the results (such as financial position, results of operations, and cash flows, as applicable) that would have been attained had the transaction (or event) actually taken place earlier.

.A5 Article 11 of Regulation S-X provides further guidance on the presentation of pro forma financial information included in filings with the SEC.

Independence (Ref: par. .06)

.A6 The interpretations of the "Independence Rule", (ET sec. 1.200.001) of the AICPA Code of Professional Conduct provide authoritative guidance on independence. It is in the public interest and, therefore, required by this section,

that the accountant modify the accountant's compilation report when the accountant is not independent of the entity whose pro forma financial information is the subject of the compilation engagement. The AICPA Code of Professional Conduct also defines *independence* as consisting of two elements, independence of mind and independence in appearance. Independence enhances the accountant's ability to act with integrity and be objective. Independence implies an impartiality that recognizes an obligation to be fair not only to the responsible party but also to users of the pro forma financial information who may rely upon the accountant's compilation report. In the absence of an interpretation of the "Independence Rule" that addresses a particular relationship or circumstance, a member should apply the "Conceptual Framework for Independence" interpretation (ET sec. 1.210.010).

Acceptance and Continuance of Client Relationships (Ref: par. .07)

.A7 Financial statements and historical interim financial information are deemed to be *readily available* if they are obtainable by a third-party user without any further action by the entity. For example, historical interim financial information on an entity's website may be considered readily available; however being available upon request is not considered readily available.

.A8 A compilation in accordance with SSARs is conducted on the premise that management has acknowledged and understands that it has the responsibility set out in paragraph .25c of section 60B. The preparation of pro forma financial information, in whole or in part, is a nonattest service subject to the provisions of the "Nonattest Services" subtopic (ET section 1.295) of the "Independence Rule." To avoid misunderstanding, agreement is reached with management that it acknowledges and understands that it has such responsibilities as part of agreeing and documenting the terms of the compilation engagement as required by paragraphs .13–.15.

.A9 For purposes of this standard, *complete financial statements* means the financial statement or financial statements, including related notes if presented, that have been subjected to a compilation, a review, or an audit engagement. For example, if a balance sheet, income statement, statement of cash flows, and related notes were subjected to a compilation, a review, or an audit engagement, all are presented. If only a single financial statement is subjected to a compilation, a review, or an audit engagement or financial statements that omit all or substantially all disclosures are subjected to a compilation engagement, only that financial statement is (or those statements are) presented.

.A10 Interim historical financial information may be presented as a column in the pro forma financial information.

Agreement on Engagement Terms (Ref: par. .09–.10)

.A11 Both management and the accountant have an interest in documenting the terms of the compilation engagement before the commencement of the engagement to help avoid misunderstandings about the engagement. For example, it reduces the risk that management may inappropriately rely on or expect the accountant to protect management against certain risks or perform certain functions, including those that are management's responsibility.

.A12 The roles of management and those charged with governance in agreeing upon the terms of the compilation engagement for the entity depend on the governance structure of the entity and relevant law or regulation. Depending on the entity's structure, the agreement may be with management,

those charged with governance, or both. Nonetheless, when the agreement on the terms of engagement is with only those charged with governance, in accordance with paragraph .25c of section 60B, the accountant is required to obtain management's agreement that it acknowledges and understands its responsibilities.

.A13 When a third party has contracted for a compilation of the entity's pro forma financial information, agreeing on the terms of the compilation with management of the entity is necessary in order to establish that the preconditions for a compilation are present.

.A14 The understanding with management regarding the services to be performed for compilation engagements is required by paragraph .09 to be in a documented form, and, accordingly, an oral understanding is insufficient. An engagement letter is the most common and usually the most convenient method for documenting the understanding with management regarding the services to be performed for compilation engagements.

.A15 Although the accountant may prepare the pro forma financial information, in whole or in part, the pro forma financial information is a representation of the management, and the fairness of its presentation in accordance with the applicable financial reporting framework is management's responsibility.

.A16 Exhibit A, "Illustrative Engagement Letter," provides an example of an engagement letter for a compilation of pro forma financial information.

The Accountant's Knowledge and Understanding of the Entity's Financial Reporting Framework (Ref: par. .11)

.A17 The requirement that the accountant obtain an understanding of the applicable financial reporting framework intended to be used in the preparation of the pro forma financial information and the significant accounting policies adopted by management does not prevent the accountant from accepting a compilation engagement for an entity in an industry in which the accountant has no previous experience. The accountant may obtain such understanding by, for example, consulting AICPA guides, industry publications, financial statements of other entities in the industry, textbooks and periodicals, appropriate continuing professional education, or individuals who are knowledgeable about the framework or the industry.

.A18 If another accountant has performed a compilation engagement on the financial statements of a significant constituent part of the combined entity, the need for the accountant to obtain an understanding of the significant accounting policies adopted by management is not diminished.

Compilation Procedures (Ref: par. .12)

.A19 The requirement in paragraph .13 of section 80B that the accountant read the financial statements in light of the accountant's understanding of the applicable financial reporting framework and the significant accounting policies adopted by management and consider whether such financial statements appear to be appropriate in form and free from obvious material misstatements requires the accountant to also read the pro forma financial information and consider the following:

- Whether the underlying transaction (or event), the pro forma adjustments, the significant assumptions, and the significant uncertainties, if any, about those assumptions have been appropriately described

- Whether the source of the historical financial information on which the pro forma financial information is based has been appropriately identified

The Accountant's Compilation Report on Pro Forma Financial Information (Ref: par. .13)

.A20 The accountant's compilation report on pro forma financial information may be added to the accountant's report on financial statements or it may appear separately.

.A21 An uncertainty about whether the underlying transaction (or event) will be consummated would not require a report modification.

.A22 Exhibit B, "Illustrative Accountant's Compilation Report on Pro Forma Financial Information," provides an example of an accountant's compilation report on pro forma financial information.

Documentation (Ref: par. .15)

.A23 Documentation may include significant consultations or significant professional judgments made throughout the engagement.

.A24

Exhibit A—Illustrative Engagement Letter (Ref: par. .A16)

The illustrative engagement letter in this exhibit is intended as an illustration that may be used in conjunction with the considerations outlined in Statements on Standards for Accounting and Review Services. The engagement letter will vary according to individual requirements and circumstances. The accountant may seek legal advice about whether a proposed letter is suitable.

Circumstances include the following:

- The accountant will prepare, as a nonattest service, the pro forma financial information and perform a compilation on the pro forma financial information the accountant prepared.
- The pro forma financial information is presented in accordance with accounting principles generally accepted in the United States of America.
- The accountant expects that his or her independence will not be impaired.

To the appropriate representative of management of ABC Company:¹

You² have requested that we prepare the pro forma financial information of ABC Company (the Company) and perform a compilation engagement with respect to that pro forma financial information. We are pleased to confirm our acceptance and our understanding of this engagement by means of this letter.

Pro forma financial information is a presentation that shows what the significant effects on historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date.

Our Responsibilities

The objective of our engagement is to

- a. prepare the pro forma financial information in accordance with accounting principles generally accepted in the United States of America, and
- b. perform a compilation engagement on the pro forma financial information we prepared in which we will apply accounting and financial reporting expertise to assist you in the presentation of the pro forma financial information and report without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the pro forma financial information in order for it to be in accordance with accounting principles generally accepted in the United States of America.

We will conduct our engagement in accordance with Statements on Standards for Accounting and Review Services (SSARs) promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public

¹ The addresses and references in the engagement letter will be those that are appropriate in the circumstances of the compilation of pro forma financial information, including the relevant jurisdiction. It is important to refer to the appropriate persons.

² Throughout this engagement letter, references to *you*, *we*, *us*, *management*, and *accountant* will be used or amended as appropriate in the circumstances.

Accountants (AICPA) and comply with the AICPA's Code of Professional Conduct, including the ethical principles of integrity, objectivity, professional competence, and due care.

We are not required to, and will not, verify the accuracy or completeness of the information you will provide to us for the engagement or otherwise gather evidence for the purpose of expressing an opinion or a conclusion. Accordingly, we will not express an opinion or provide any assurance on the pro forma financial information.

Our engagement cannot be relied upon to identify or disclose any pro forma financial information misstatements, including those caused by fraud or error, or to identify or disclose any wrongdoing within the Company or noncompliance with laws and regulations.

Management Responsibilities

The engagement to be performed is conducted on the basis that management acknowledges and understands that our role is to prepare the pro forma financial information in accordance with accounting principles generally accepted in the United States of America and perform a compilation engagement on the pro forma financial information we prepared. Management has the following overall responsibilities that are fundamental to our undertaking the engagement in accordance with SSARs:

- a. For the preparation and fair presentation of the pro forma financial information in accordance with accounting principles generally accepted in the United States of America and for the selection of accounting principles generally accepted in the United States of America as the applicable financial reporting framework
- b. To include the following in any document that contains the pro forma financial information:
 - i. The complete financial statements of the entity for the most recent year (or for the preceding year if financial statements for the most recent year are not yet available) or such financial statements are readily available
 - ii. If pro forma financial information is presented for an interim period, either historical interim financial information for that period (which may be in condensed form) or that such interim information is readily available
 - iii. In the case of a business combination, the relevant historical financial information for the significant constituent parts of the combined entity
- c. To ensure that the financial statements of the entity (or, in the case of a business combination, of each significant constituent part of the combined entity) on which the pro forma financial information is based have been subjected to a compilation, review, or an audit engagement.
- d. To include the accountant's compilation or review report or the auditor's report on the financial statements (or make readily available) in any document containing the pro forma financial information
- e. To present a summary of significant assumptions with the pro forma financial information
- f. To obtain the accountant's permission prior to including the accountant's compilation report in any document containing the pro

forma financial information that indicates that the entity's accountant has performed a compilation engagement on such pro forma financial information

- g. To prevent and detect fraud
- h. To ensure that the Company complies with the laws and regulations applicable to its activities
- i. For the accuracy and completeness of the records, documents, explanations, and other information, including significant judgments, you provide to us for the engagement
- j. To provide us with the following:
 - i. Assumptions that provide a reasonable basis for presenting the significant effects directly attributable to the underlying transaction (or event)
 - ii. Documentation and other related information that is relevant to the preparation and presentation of the pro forma financial information
 - iii. Additional information that may be requested for the purpose of the preparation of the pro forma financial information
 - iv. Unrestricted access to persons within the Company of whom we determine necessary to communicate

You are also responsible for all management decisions and responsibilities and for designating an individual with suitable skills, knowledge, and expertise to oversee our preparation of your pro forma financial information. You are responsible for evaluating the adequacy and results of the services performed and accepting responsibility for such services.

Our Report

As part of our engagement, we will issue a report that will state that we did not examine or review the pro forma financial information and that, accordingly, we do not express an opinion nor provide any assurance on it. There may be circumstances in which the report differs from the expected form and content.

We have no responsibility to update our report for events and circumstances occurring after the date of such report.

If management intends to reproduce and publish the pro forma financial information and our report thereon, they must be reproduced in their entirety, and both the first and subsequent corrected drafts of the document containing the pro forma financial information and any accompanying material must be submitted to us for approval.

Other Relevant Information

Our fees for these services . . .

[The accountant may include language, such as the following, regarding limitation of, or other arrangements regarding, the liability of the accountant or the entity, such as indemnification to the accountant for liability arising from knowing misrepresentations to the accountant by management (regulators may restrict or prohibit such liability limitation arrangements):

You agree to hold us harmless and to release, indemnify, and defend us from any liability or costs, including attorney's fees, resulting from management's knowing misrepresentations to us or resulting from any actions against us by third parties relying on the pro forma financial information described herein except for our own intentional wrongdoing.]

3624 Statements on Standards for Accounting and Review Services

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to prepare the pro forma financial information described herein and to perform a compilation engagement with respect to that same pro forma financial information, and our respective responsibilities.

Sincerely yours,

[Signature of accountant or accountant's firm]

Acknowledged and agreed on behalf of ABC Company by:

Exhibit B—Illustrative Accountant's Compilation Report on Pro Forma Financial Information (Ref: par. .A22)

Management is responsible for the accompanying pro forma condensed balance sheet of XYZ Company as of December 31, 20X1, and the related pro forma condensed statement of income for the year then ended (pro forma financial information), based on the criteria in Note 1. The historical condensed financial statements are derived from the financial statements of XYZ Company, on which I (we) performed a compilation engagement, and of ABC Company, on which other accountants performed a compilation engagement. The pro forma adjustments are based on management's assumptions described in Note 1. (We) have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. I (we) did not examine or review the pro forma financial information nor was (were) I (we) required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, I (we) do not express an opinion, a conclusion, nor provide any form of assurance on the pro forma financial information.

The objective of this pro forma financial information is to show what the significant effects on the historical financial information might have been had the underlying transaction (or event) occurred at an earlier date. However, the pro forma condensed financial statements are not necessarily indicative of the results of operations or related effects on financial position that would have been attained had the above mentioned transaction (or event) actually occurred at such earlier date.

[Additional paragraph(s) may be added to emphasize certain matters relating to the compilation engagement or the subject matter.]

[Signature of accounting firm or accountant, as appropriate]

[Accountant's city and state]

0.100 Overview of the Code of Professional Conduct

.01 The AICPA Code of Professional Conduct (the code) begins with this preface, which applies to all *members*. The term *member*, when used in part 1 of the code, applies to and means a *member in public practice*; when used in part 2 of the code, applies to and means a *member in business*; and when used in part 3 of the code, applies to and means all other *members*, such as those *members* who are retired or unemployed.

.02 A *member* may have multiple roles, such as a *member in business* and a *member in public practice*. In such circumstances, the *member* should consult all applicable parts of the code and apply the most restrictive provisions. [No prior reference: new content]

Effective Date

.03 Effective December 15, 2014.

0.100.010 Principles and Rules of Conduct

.01 The AICPA membership adopted the Code of Professional Conduct (the code) to provide guidance and rules to all *members* in the performance of their professional responsibilities. The code consists of principles and rules as well as *interpretations* and other guidance which are discussed in 0.100.020. The principles provide the framework for the rules that govern the performance of their professional responsibilities.

.02 The AICPA bylaws require that *members* adhere to the rules of the code. Compliance with the rules depends primarily on *members'* understanding and voluntary actions; secondarily on reinforcement by peers and public opinion; and ultimately on disciplinary proceedings, when necessary, against *members* who fail to comply with the rules. *Members* must be prepared to justify departures from these rules.

0.100.020 Interpretations and Other Guidance

.01 *Interpretations* of the rules of conduct are adopted after exposure to the membership, state societies, state boards, and other interested parties. The *interpretations* of the rules of conduct, "Definitions" [0.400], "Application of the AICPA Code" [0.200.020], and "Citations" [0.200.030], provide guidelines about the scope and application of the rules but are not intended to limit such scope or application. A *member* who departs from the *interpretations* shall have the burden of justifying such departure in any disciplinary hearing. *Interpretations* that existed before the adoption of the code on January 12, 1988, will remain in effect until further action is deemed necessary by the appropriate senior committee.

.02 A *member* should also consult the following, if applicable:

- The ethical requirements of the *member's* state CPA society and authoritative regulatory bodies such as state board(s) of accountancy
- The Securities and Exchange Commission (SEC)
- The Public Company Accounting Oversight Board (PCAOB)
- The Government Accountability Office (GAO)
- The Department of Labor (DOL)
- Federal, state and local taxing authorities

- Any other body that regulates a *member* who performs *professional services* for an entity when the *member* or entity is subject to the rules and regulations of such regulatory body. [Prior reference: Introduction]

0.200 Structure and Application of the AICPA Code

0.200.010 Structure of the AICPA Code

.01 A variety of topics appear in parts 1–3 of the code. When applicable, topics are aligned with the relevant rule or rules of conduct. Topics may be further divided into subtopics, and some subtopics include one or more sections. Topics, subtopics, and sections interpret the rules of conduct (see "Interpretations and Other Guidance" [0.100.020]).

.02 Defined terms (see "Definitions" [0.400]) as well as the plurals and possessives thereof, are shown in *italics* throughout the code. When a defined term is used in the code but is not shown in *italics*, the definition in 0.400 should not be applied. [No prior reference: new content]

Effective Date

.03 Effective December 15, 2014.

0.200.020 Application of the AICPA Code

.01 The Code of Professional Conduct (the code) was originally adopted on January 12, 1988, and was periodically revised through June 1, 2014. On June 1, 2014, the AICPA issued a codification of the code's principles, rules, *interpretations* and rulings (revised code). The revised code will be effective December 15, 2014, excluding the Conceptual Framework sections. These sections, "Conceptual Framework for Members in Public Practice" [1.000.010] and "Conceptual Framework for Members in Business" [2.000.010], will be effective December 15, 2015. *Members* are permitted to implement the revised code prior to December 15, 2014, but a member may not implement the relevant Conceptual Framework prior to implementing the entire revised code. Revisions made subsequent to June 1, 2014, are identified in appendix C, the Revision History Table, which notes the month and year of the change, the effective date of the change, the purpose for the revision, and when possible, a link to the marked revision of the content that appeared in the *Journal of Accountancy*. If the interpretation or paragraph does not contain a specific effective date or a reference to the revision history table, then the content was effective prior to June 1, 2014. [No prior reference: new content.]

.02 When used in the preface of the code, the term *member* includes *members*, *associate members*, and *affiliate members*, as well as international associates of the AICPA.

.03 The rules of conduct apply to all *professional services* performed, except

- a. when the wording of the rule indicates otherwise.
- b. that a *member* who is practicing outside the United States will not be considered in violation of a particular rule for departing from any of the rules stated herein, as long as the *member's* conduct is in accordance with the rules of the organized accounting profession in the country in which he or she is practicing. However,

when a *member* is associated with *financial statements* under circumstances that would lead the reader to assume that practices of the United States were followed, the *member* must comply with the "Compliance With Standards Rule" [1.310.001 for *members in public practice* and 2.310.001 for *members in business*] and the "Accounting Principles Rule" [1.320.001 for *members in public practice* and 2.320.001 for *members in business*].

- c. that a *member* who is a member of a group engagement team (see the clarified Statement on Auditing Standards *Special Considerations—Audits of Group Financial Statements [Including the Work of Component Auditors]* [AICPA, *Professional Standards*, AU-C sec. 600]) will not be considered in violation of a particular rule if a foreign component auditor (accountant) departed from any of the rules stated herein with respect to the audit or review of group *financial statements* or other *attest engagement*, as long as the foreign component auditor's (accountant's) conduct, at a minimum, is in accordance with the ethics and *independence* requirements set forth in the International Ethics Standards Board for Accountants' (IESBA's) Code of Ethics for Professional Accountants, and the members of the group engagement team are in compliance with the rules stated therein.
- d. that the *independence* of the *member's firm* will not be considered *impaired* if another *firm* or entity located outside the United States that is within the *member firm's network* departed from any of the rules stated herein, as long as the other *firm* or entity's conduct, at a minimum, is in accordance with the *independence* requirements set forth in the IESBA's Code of Ethics for Professional Accountants.

.04 A *member* shall not knowingly permit a person whom the *member* has the authority or capacity to control to carry out on his or her behalf, either with or without compensation, acts that, if carried out by the *member*, would place the *member* in violation of the rules. Further, a *member* may be held responsible for the acts of all persons associated with the *member in public practice* whom the *member* has the authority or capacity to control.

.05 The *independence* of a *member in public practice* or a *covered member* may be *impaired* with respect to a *client* as the result of the actions or relationships, as described in the "Independence Rule" [1.200.001] and its *interpretations*, of certain persons or entities whom the *member* or *covered member* does not have the authority or capacity to control. Even if the *member* is unable to control the actions or relationships of such persons or entities, the *member's independence* may still be *impaired*. [Prior reference: ET section 91]

.06 The "Breach of an Independence Interpretation" [1.298.010] of the "Independence Rule" [1.200.001] contains guidance with which a *member* should comply if the *member* identifies a breach of an *independence interpretation* of the code. If a *member* identifies a breach of any other provision of this code, the *member* should evaluate the significance of the breach and its effect on the *member's* ability to comply with the rules of the code. The *member* should take whatever actions may be available, as soon as practicable, to satisfactorily address the consequences of the breach. The *member* should determine whether to report the breach, for example, to those who may have been affected by the breach, a professional body, relevant regulator, or oversight authority. In

making the evaluation and in determining what actions should be taken, the *member* should exercise professional judgment and take into account whether a reasonable and informed third party, weighing the significance of the breach, the action to be taken, and all the specific facts and circumstances available to the *member* at that time, would be likely to conclude that the *member* is able to comply with the rules of the code. A *member's* determination that the *member* has satisfactorily addressed the consequences of the breach will not, however, preclude an investigation or enforcement action concerning the underlying breach of the code and the *member* should be prepared to justify such determination.

Effective Date

.07 Paragraph .01 is effective December 15, 2014. Paragraph .06 is effective March 31, 2016, with early implementation allowed.

[See Revision History Table.]

0.200.030 Citations

Prior ET Sections

.01 The code was revised by codifying the principles, rules, *interpretations*, and rulings. These revisions were effective December 15, 2014. To facilitate implementation of the revised code, the prior ET references from the professional standards of the AICPA are included in Appendix D, "Mapping Document," and in bracketed text at the end of standards, where applicable.

[See Revision History Table.]

Numeric Citations

.02 The numbering system for the code is "ET section X.XXX.XXX." The single digit that begins the citation identifies the part wherein the content resides. Accordingly, content from the preface begins with the single digit 0.XXX.XXX, whereas content for part 1 begins with a 1.XXX.XXX, part 2 with 2.XXX.XXX, and part 3 with a 3.XXX.XXX.

.03 Next are two sets of three digit numbers that identify the topics and, when applicable, subtopics or sections. When a topic, subtopic or section appears in two or more parts of the code, the same number is used. For example, the "Acts Discreditable Rule" appears in parts 1, 2, and 3 and the citations for this rule are 1.400.001, 2.400.001, and 3.400.001, respectively. Accordingly, the two sets of three digit numbers remain the same with only the first digit changing.

.04 When only two digits appear, those digits represent the paragraph number. For example, the complete citation for this paragraph would be 0.200.030.04.

.05 All bracketed section references, such as [0.200.030.04] refer to sections within the Code of Professional Conduct. [No prior reference: new content]

Effective Date

.06 Effective December 15, 2014.

0.200.040 Transition Provisions

.01 The text of the transition provisions in effect as of May 31, 2013, has not been codified because the transition provisions apply to a limited number of situations. Nevertheless, these transition provisions are still authoritative. The texts of these transition provisions are available at <https://us.aicpa.org/InterestAreas/ProfessionalEthics/Community/DownloadableDocuments/Transition%20Periods.pdf>. [No prior reference: new content]

Effective Date

.02 Effective December 15, 2014.

0.200.050 Drafting Conventions

.01 The code utilizes certain drafting conventions to enhance the clarity of the interpretations and definitions. For example, when the term "should consider" is used in connection with a specified procedure or action, consideration of the procedure or action by the member is presumptively required. Actual performance of the action or procedure is up to the member, based upon the outcome of the member's consideration and the member's professional judgment. Other drafting conventions used in the code include use of the terms "consider," "evaluate," and "determine," as follows:

- a. "Consider" is used when the member is required to think about several matters.
- b. "Evaluate" is used when the member has to assess and weigh the significance of a matter.
- c. "Determine" is used when the member has to come to a conclusion and make a decision on a matter. [No prior reference: new content]

Effective Date

.02 Effective December 15, 2014.

A complete nonauthoritative guide, *Drafting Guide—Drafting Guidelines for Integrating the Conceptual Framework and Drafting Conventions and Style Guidance*, is also available at <https://us.aicpa.org/InterestAreas/ProfessionalEthics/Community/DownloadableDocuments/Drafting%20Guide.pdf>.

0.300 Principles of Professional Conduct

0.300.010 Preamble

.01 Membership in the American Institute of Certified Public Accountants is voluntary. By accepting membership, a *member* assumes an obligation of self-discipline above and beyond the requirements of laws and regulations.

.02 These Principles of the Code of Professional Conduct of the American Institute of Certified Public Accountants express the profession's recognition of its responsibilities to the public, to *clients*, and to colleagues. They guide *members* in the performance of their professional responsibilities and express

the basic tenets of ethical and professional conduct. The Principles call for an unswerving commitment to honorable behavior, even at the sacrifice of personal advantage. [Prior reference: ET section 51]

0.300.020 Responsibilities

.01 *Responsibilities principle.* In carrying out their responsibilities as professionals, *members* should exercise sensitive professional and moral judgments in all their activities.

.02 As professionals, *members* perform an essential role in society. Consistent with that role, *members* of the American Institute of Certified Public Accountants have responsibilities to all those who use their *professional services*. *Members* also have a continuing responsibility to cooperate with each other to improve the art of accounting, maintain the public's confidence, and carry out the profession's special responsibilities for self-governance. The collective efforts of all *members* are required to maintain and enhance the traditions of the profession. [Prior reference: ET section 52]

0.300.030 The Public Interest

.01 *The public interest principle.* *Members* should accept the obligation to act in a way that will serve the public interest, honor the public trust, and demonstrate a commitment to professionalism.

.02 A distinguishing mark of a profession is acceptance of its responsibility to the public. The accounting profession's public consists of *clients*, credit grantors, governments, employers, investors, the business and financial community, and others who rely on the objectivity and integrity of *members* to maintain the orderly functioning of commerce. This reliance imposes a public interest responsibility on *members*. The public interest is defined as the collective well-being of the community of people and institutions that the profession serves.

.03 In discharging their professional responsibilities, *members* may encounter conflicting pressures from each of those groups. In resolving those conflicts, *members* should act with integrity, guided by the precept that when *members* fulfill their responsibility to the public, *clients'* and employers' interests are best served.

.04 Those who rely on *members* expect them to discharge their responsibilities with integrity, objectivity, due professional care, and a genuine interest in serving the public. They are expected to provide quality services, enter into fee arrangements, and offer a range of services—all in a manner that demonstrates a level of professionalism consistent with these Principles of the Code of Professional Conduct.

.05 All who accept membership in the American Institute of Certified Public Accountants commit themselves to honor the public trust. In return for the faith that the public reposes in them, *members* should seek to continually demonstrate their dedication to professional excellence. [Prior reference: ET section 53]

0.300.040 Integrity

.01 *Integrity principle.* To maintain and broaden public confidence, *members* should perform all professional responsibilities with the highest sense of integrity.

.02 Integrity is an element of character fundamental to professional recognition. It is the quality from which the public trust derives and the benchmark against which a *member* must ultimately test all decisions.

.03 Integrity requires a *member* to be, among other things, honest and candid within the constraints of *client* confidentiality. Service and the public trust should not be subordinated to personal gain and advantage. Integrity can accommodate the inadvertent error and honest difference of opinion; it cannot accommodate deceit or subordination of principle.

.04 Integrity is measured in terms of what is right and just. In the absence of specific rules, standards, or guidance or in the face of conflicting opinions, a *member* should test decisions and deeds by asking: "Am I doing what a person of integrity would do? Have I retained my integrity?" Integrity requires a *member* to observe both the form and the spirit of technical and ethical standards; circumvention of those standards constitutes subordination of judgment.

.05 Integrity also requires a *member* to observe the principles of objectivity and independence and of due care. [Prior reference: ET section 54]

0.300.050 Objectivity and Independence

.01 *Objectivity and independence principle.* A *member* should maintain objectivity and be free of conflicts of interest in discharging professional responsibilities. A *member* in public practice should be independent in fact and appearance when providing auditing and other attestation services.

.02 Objectivity is a state of mind, a quality that lends value to a *member's* services. It is a distinguishing feature of the profession. The principle of objectivity imposes the obligation to be impartial, intellectually honest, and free of conflicts of interest. *Independence* precludes relationships that may appear to impair a *member's* objectivity in rendering attestation services.

.03 *Members* often serve multiple interests in many different capacities and must demonstrate their objectivity in varying circumstances. *Members* in public practice render attest, tax, and management advisory services. Other *members* prepare *financial statements* in the employment of others, perform internal auditing services, and serve in financial and management capacities in industry, education, and government. They also educate and train those who aspire to admission into the profession. Regardless of service or capacity, *members* should protect the integrity of their work, maintain objectivity, and avoid any subordination of their judgment.

.04 For a *member* in public practice, the maintenance of objectivity and *independence* requires a continuing assessment of *client* relationships and public responsibility. Such a *member* who provides auditing and other attestation services should be independent in fact and appearance. In providing all other services, a *member* should maintain objectivity and avoid conflicts of interest.

.05 Although *members* not in public practice cannot maintain the appearance of *independence*, they nevertheless have the responsibility to maintain objectivity in rendering *professional services*. *Members* employed by others to prepare *financial statements* or to perform auditing, tax, or consulting services are charged with the same responsibility for objectivity as *members* in public practice and must be scrupulous in their application of generally accepted accounting principles and candid in all their dealings with *members* in public practice. [Prior reference: ET section 55]

0.300.060 Due Care

.01 *Due care principle.* A *member* should observe the profession's technical and ethical standards, strive continually to improve competence and the quality of services, and discharge professional responsibility to the best of the *member's* ability.

.02 The quest for excellence is the essence of due care. Due care requires a *member* to discharge professional responsibilities with competence and diligence. It imposes the obligation to perform *professional services* to the best of a *member's* ability, with concern for the best interest of those for whom the services are performed, and consistent with the profession's responsibility to the public.

.03 Competence is derived from a synthesis of education and experience. It begins with a mastery of the common body of knowledge required for designation as a certified public accountant. The maintenance of competence requires a commitment to learning and professional improvement that must continue throughout a *member's* professional life. It is a *member's* individual responsibility. In all engagements and in all responsibilities, each *member* should undertake to achieve a level of competence that will assure that the quality of the *member's* services meets the high level of professionalism required by these Principles.

.04 Competence represents the attainment and maintenance of a level of understanding and knowledge that enables a *member* to render services with facility and acumen. It also establishes the limitations of a *member's* capabilities by dictating that consultation or referral may be required when a professional engagement exceeds the personal competence of a *member* or a *member's* firm. Each *member* is responsible for assessing his or her own competence of evaluating whether education, experience, and judgment are adequate for the responsibility to be assumed.

.05 *Members* should be diligent in discharging responsibilities to *clients*, employers, and the public. Diligence imposes the responsibility to render services promptly and carefully, to be thorough, and to observe applicable technical and ethical standards.

.06 Due care requires a *member* to plan and supervise adequately any professional activity for which he or she is responsible. [Prior reference: ET section 56]

0.300.070 Scope and Nature of Services

.01 *Scope and nature of services principle.* A *member* in public practice should observe the Principles of the Code of Professional Conduct in determining the scope and nature of services to be provided.

.02 The public interest aspect of *members'* services requires that such services be consistent with acceptable professional behavior for *members*. Integrity requires that service and the public trust not be subordinated to personal gain and advantage. Objectivity and *independence* require that *members* be free from conflicts of interest in discharging professional responsibilities. Due care requires that services be provided with competence and diligence.

.03 Each of these Principles should be considered by *members* in determining whether or not to provide specific services in individual circumstances. In some instances, they may represent an overall constraint on the nonaudit services that might be offered to a specific *client*. No hard-and-fast rules can be

developed to help *members* reach these judgments, but they must be satisfied that they are meeting the spirit of the Principles in this regard.

.04 In order to accomplish this, *members* should

- a. Practice in *firms* that have in place internal quality control procedures to ensure that services are competently delivered and adequately supervised.
- b. Determine, in their individual judgments, whether the scope and nature of other services provided to an audit *client* would create a conflict of interest in the performance of the audit function for that *client*.
- c. Assess, in their individual judgments, whether an activity is consistent with their role as professionals. [Prior reference: ET section 57]

0.400 Definitions

Pursuant to its authority under the bylaws (paragraph .01 [3.6.2.2] of BL section 360, *Committees* [AICPA, *Professional Standards*]) to interpret the code, the Professional Ethics Executive Committee has issued the following definitions of terms appearing in the code.

.01 Acceptable level. In connection with *independence*, an acceptable level is a level at which a reasonable and informed third party who is aware of the relevant information would be expected to conclude that a *member's independence* is not *impaired*. When used in connection with any rule but the "Independence Rule" [1.200.001] an acceptable level is a level at which a reasonable and informed third party who is aware of the relevant information would be expected to conclude that a *member's* compliance with the rules is not compromised. [Prior reference: ET section 100-1 and new content]

Effective Date

When this definition is used in connection with any rule but the "Independence Rule" [1.200.001] it is effective December 15, 2014.

.02 Affiliate. The following entities are affiliates of a *financial statement attest client*:

- a. An entity (for example, subsidiary, partnership, or limited liability company [LLC]) that a *financial statement attest client* can control.
- b. An entity in which a *financial statement attest client* or an entity controlled by the *financial statement attest client* has a *direct financial interest* that gives the *financial statement attest client* *significant influence* over such entity and that is material to the *financial statement attest client*.
- c. An entity (for example, parent, partnership, or LLC) that controls a *financial statement attest client* when the *financial statement attest client* is material to such entity.
- d. An entity with a *direct financial interest* in the *financial statement attest client* when that entity has *significant influence* over the *financial statement attest client*, and the interest in the *financial statement attest client* is material to such entity.

- e. A sister entity of a *financial statement attest client* if the *financial statement attest client* and sister entity are each material to the entity that *controls* both.
- f. A trustee that is deemed to *control* a trust *financial statement attest client* that is not an investment company.
- g. The sponsor of a single employer employee benefit plan *financial statement attest client*.
- h. Any entity, such as a union, participating employer, or a group association of employers, that has *significant influence* over a multiemployer employee benefit plan *financial statement attest client* and the plan is material to such entity.
- i. The participating employer that is the plan administrator of a multiple employer employee benefit plan *financial statement attest client*.
- j. A single or multiple employer employee benefit plan sponsored by either a *financial statement attest client* or an entity *controlled* by the *financial statement attest client*. All participating employers of a multiple employer employee benefit plan are considered sponsors of the plan.
- k. A multiemployer employee benefit plan when a *financial statement attest client* or entity *controlled* by the *financial statement attest client* has *significant influence* over the plan and the plan is material to the *financial statement attest client*.
- l. An investment adviser, a general partner, or a trustee of an investment company *financial statement attest client* (fund) if the fund is material to the investment adviser, general partner, or trustee that is deemed to have either *control* or *significant influence* over the fund. When considering materiality, *members* should consider investments in, and fees received from, the fund.

See the "State and Local Government Client Affiliates" interpretation [1.224.020] for guidance related to identifying affiliates of a financial statement attest client that is a state and local government. [Prior reference: paragraph .20 of ET section 101]

[See Revision History Table.]

Nonauthoritative questions and answers related to the application of the independence rules to affiliates of employee benefit plans are available at <https://us.aicpa.org/content/dam/aicpa/interestareas/professionalethics/resources/tools/downloadabledocuments/faqs-application-independence-rules-affiliates-of-employee-benefit-plans.pdf>.

Nonauthoritative question and answer related to the application of the affiliate definition to individuals is available at <https://us.aicpa.org/content/dam/aicpa/interestareas/professionalethics/resources/tools/downloadabledocuments/ethics-general-faqs.pdf>

.03 Attest client. A person or entity with respect to which an *attest engagement* is performed. [No prior reference: new content]

If the person or entity that engages a *member* or *member's firm* (member) to perform *professional services* (engaging entity) is not also the *attest client*, the member should refer to the "Client Affiliate" interpretation [1.224.010] to determine whether the engaging entity is an *affiliate* from which the member should be independent. However, because threats to the member's compliance

with the "Integrity and Objectivity Rule" [1.100.001] and the "Conflicts of Interest for Members in Public Practice" interpretation [1.110.010] may still exist with respect to the engaging entity, members should comply with this rule and interpretation.

See paragraph .06 of the "Client Affiliate" interpretation [1.224.010] for acquisitions and business combinations that involve a *financial statement attest client*.

See paragraph .03 of the "Simultaneous Employment or Association With an Attest Client" interpretation [1.275.005] for independence guidance related to a member in a government audit organization that performs an *attest engagement* with respect to the government entity.

Effective Date

This definition is effective December 15, 2014.

[See Revision History Table.]

.04 Attest engagement. An engagement that requires *independence*, as set forth in the AICPA Statements on Auditing Standards (SASs), Statements on Standards for Accounting and Review Services (SSARs), and Statements on Standards for Attestation Engagements (SSAEs). [Prior reference: paragraph .01 of ET section 92]

.05 Attest engagement team. Those individuals participating in the *attest engagement*, including those who perform concurring and engagement quality reviews. The attest engagement team includes all employees and contractors retained by the *firm* who participate in the *attest engagement*, regardless of their functional classification (for example, audit, tax, or management consulting services). The attest engagement team excludes specialists, as discussed in AU-C section 620, *Using the Work of an Auditor's Specialist* (AICPA, *Professional Standards*), and individuals who perform only routine clerical functions, such as word processing and photocopying. [Prior reference: paragraph .02 of ET section 92]

.06 Beneficially owned, beneficial ownership interest. Describes a *financial interest* providing an individual or entity the right to some or all of the underlying benefits of ownership. These benefits include the authority to direct the voting or disposition of the interest or to receive the economic benefits of the ownership of the interest. [Prior reference: paragraph .17 of ET section 101]

.07 Client. Any person or entity, other than the *member's* employer that engages a *member* or *member's firm* to perform *professional services* (engaging entity) and also, a person or entity with respect to which a *member* or *member's firm* performs *professional services* (subject entity). When the engaging entity and the subject entity are different, while there is only one engagement, they are separate clients.

[Prior reference: paragraph .03 of ET section 92]

See paragraph .03 of the "Simultaneous Employment or Association With an Attest Client" interpretation [1.275.005] for independence guidance related to a *member* in a government audit organization that performs an *attest engagement* with respect to the government entity.

[See Revision History Table.]

.08 Close relative. A parent, sibling, or nondependent child. [Prior reference: paragraph .04 of ET section 92]

.09 Confidential client information. Any information obtained from the *client* that is not available to the public. Information that is available to the public includes, but is not limited to, information

- a. in a book, periodical, newspaper, or similar publication;
- b. in a *client* document that has been released by the *client* to the public or that has otherwise become a matter of public knowledge;
- c. on publicly accessible websites, databases, online discussion forums, or other electronic media by which members of the public can access the information;
- d. released or disclosed by the *client* or other third parties in media interviews, speeches, testimony in a public forum, presentations made at seminars or trade association meetings, panel discussions, earnings press release calls, investor calls, analyst sessions, investor conference presentations, or a similar public forum;
- e. maintained by, or filed with, regulatory or governmental bodies that is available to the public; or
- f. obtained from other public sources.

Unless the particular *client* information is available to the public, such information should be considered confidential client information. *Members* are advised that federal, state, or local statutes, rules, or regulations concerning confidentiality of *client* information may be more restrictive than the requirements in the code. [Prior reference: paragraph .05 of ET section 92]

.10 Control (s) (led). As used in FASB *Accounting Standards Codification* (ASC) 810, *Consolidation*. When used in the "Client Affiliates" interpretation [1.224.010] of the "Independence Rule" [1.200.001], control depends upon the entity in question. For example, when used for not-for-profit entities, control is as used in FASB ASC 958-805-20; for commercial entities, control is as used in FASB ASC 810. [Prior reference: numerous ET sections; also see "Breakdown of the Term Control in the Code" at <https://us.aicpa.org/interestareas/professionalethics/community/downloadabledocuments/breakdown-of-the-term-control.pdf>]

.11 Council. The AICPA Council. [Prior reference: paragraph .06 of ET section 92]

.12 Covered member. All of the following:

- a. an individual on the *attest engagement team*.
- b. an *individual in a position to influence the attest engagement*.
- c. a *partner, partner equivalent, or manager* who provides 10 or more hours of nonattest services to the who provides more than 10 hours of nonattest services to the *attest client* within any fiscal year. Designation as *covered member* ends on the later of (i) the date that the *firm* signs the report on the *financial statements* for the fiscal year during which those services were provided or (ii) the date he or she no longer expects to provide 10 or more hours of nonattest services to the *attest client* on a recurring basis.
- d. a *partner or partner equivalent* in the *office* in which the lead *attest engagement partner or partner equivalent* primarily practices in connection with the *attest engagement*.
- e. the *firm*, including the *firm's* employee benefit plans.

- f. an entity whose operating, financial, or accounting policies can be *controlled* by any of the individuals or entities described in items a–e or two or more such individuals or entities if they act together. [Prior reference: paragraph .07 of ET section 92]

Effective Date

The addition of partner equivalents to this definition is effective for engagements covering periods beginning on or after December 15, 2014.

.13 Direct financial interest. A *financial interest* that is

- a. owned directly by an individual or entity, including those managed on a discretionary basis by others.
- b. under the control of an individual or entity, including those managed on a discretionary basis by others.
- c. *beneficially owned* through an investment vehicle, estate, trust, or other intermediary when the beneficiary
 - i. controls the intermediary or
 - ii. has the authority to supervise or participate in the intermediary's investment decisions.

When used in this definition, the term control includes situations in which the *covered member* has the ability to exercise such control, either individually or acting together with his or her *firm* or other *partners* or professional employees of his or her *firm*. [Prior reference: paragraph .17 of ET section 101]

.14 Employing organization. Any entity that employs the *member* or engages the *member* on a contractual or volunteer basis in an executive, a staff, a governance, an advisory, or an administrative capacity to provide *professional services*. [No prior reference: new content]

Effective Date

This definition is effective December 15, 2014.

.15 Financial interest. An ownership interest in an equity or a debt security issued by an entity, including rights and obligations to acquire such an interest and derivatives directly related to such interest. [Prior reference: paragraph .17 of ET section 101]

.16 Financial statement attest client. An entity whose *financial statements* are audited, reviewed, or compiled when the *member's* compilation report does not disclose a lack of *independence*. [Prior reference: paragraph .20 of ET section 101]

.17 Financial statements. A presentation of financial data, including accompanying disclosures, if any, intended to communicate an entity's economic resources or obligations, or both, at a point in time or the changes therein for a period of time, in accordance with the applicable financial reporting framework. Incidental financial data to support recommendations to a *client* or in (a) documents for which the reporting is governed by SSAEs and (b) tax returns and supporting schedules do not, for this purpose, constitute financial statements. The statement, affidavit, or signature of preparers required on tax returns neither constitutes an opinion on financial statements nor requires a disclaimer of such opinion. [Prior reference: paragraph .10 of ET section 92]

.18 Firm. A form of organization permitted by law or regulation whose characteristics conform to resolutions of the *Council* and that is engaged in *public practice*. A firm includes the individual *partners* thereof, except for purposes of applying the "Independence Rule" [1.200.001] and related *interpretations*. For purposes of applying the "Independence Rule," a firm includes a *network*

firm when the engagement is either a *financial statement* audit or review engagement and the audit or review report is not restricted, as set forth in the AICPA SASs and SSARs (AICPA, *Professional Standards*). [Prior reference: paragraph .11 of ET section 92]

.19 Immediate family. A spouse, spousal equivalent, or dependent (regardless of whether the dependent is related). [Prior reference: paragraph .13 of ET section 92]

.20 Impair(ed)(ing). In connection with *independence*, to effectively extinguish *independence*. When a *member's independence* is impaired, the *member* is not independent. [Prior reference: paragraph .09 of ET section 100-1]

.21 Independence. Consists of two elements, defined as follows:

- a. Independence of mind is the state of mind that permits a *member* to perform an attest service without being affected by influences that compromise professional judgment, thereby allowing an individual to act with integrity and exercise objectivity and professional skepticism.
- b. Independence in appearance is the avoidance of circumstances that would cause a reasonable and informed third party who has knowledge of all relevant information, including the *safeguards* applied, to reasonably conclude that the integrity, objectivity, or professional skepticism of a *firm* or member of the *attest engagement team* is compromised.

This definition should not be interpreted as an absolute. For example, the phrase "without being affected by influences that compromise professional judgment" is not intended to convey that the *member* must be free of any and all influences that might compromise objective judgment. Instead, the *member* should determine whether such influences, if present, create a *threat* that is not at an *acceptable level* that a *member* would not act with integrity and exercise objectivity and professional skepticism in the conduct of a particular engagement or would be perceived as not being able to do so by a reasonable and informed third party with knowledge of all relevant information. [Prior reference: paragraphs .06–.08 of ET section 100-1]

.22 Indirect financial interest. A *financial interest* *beneficially owned* through an investment vehicle, an estate, a trust, or an other intermediary when the beneficiary neither controls the intermediary nor has the authority to supervise or participate in the intermediary's investment decisions. When used in this definition, control includes situations in which the *covered member* has the ability to exercise such control, either individually or acting together with his or her *firm* or other *partners* or professional employees of his or her *firm*. [Prior reference: paragraph .17 of ET section 101]

.23 Individual in a position to influence the attest engagement. One who

- a. evaluates the performance or recommends the compensation of the *attest engagement partner*;
- b. directly supervises or manages the *attest engagement partner*, including all successively senior levels above that individual through the *firm's* chief executive;
- c. consults with the *attest engagement team* regarding technical or industry-related issues specific to the *attest engagement*; or

- d. participates in or oversees, at all successively senior levels, quality control activities, including internal monitoring, with respect to the specific *attest engagement*.

[Prior reference: paragraph .14 of ET section 92]

.24 Institute. The AICPA. [Prior reference: paragraph .15 of ET section 92]

.25 Interpretation. Pronouncements issued by the division of professional ethics to provide guidelines concerning the scope and application of the rules of conduct. [Prior reference: paragraph .16 of ET section 92]

.26 Joint closely held investment. An investment in an entity or a property by the *member* and the *attest client* (or the *attest client's* officers or directors or any owner who has the ability to exercise *significant influence* over the *attest client*) that enables them to *control* the entity or property. [Prior reference: paragraph .17 of ET section 92]

[See Revision History Table.]

.27 Key position. A position in which an individual has

- a. primary responsibility for significant accounting functions that support material components of the *financial statements*;
- b. primary responsibility for the preparation of the *financial statements*; or
- c. the ability to exercise influence over the contents of the *financial statements*, including when the individual is a member of the board of directors or similar governing body, chief executive officer, president, chief financial officer, chief operating officer, general counsel, chief accounting officer, controller, director of internal audit, director of financial reporting, treasurer, or any equivalent position.

For purposes of *attest engagements* not involving *financial statements*, a key position is one in which an individual is primarily responsible for, or able to influence, the subject matter of the *attest engagement*, as previously described. [Prior reference: paragraph .18 of ET section 92]

[See Revision History Table.]

.28 Lending institution. An entity that, as part of its normal business operations, makes *loans*. This definition is not meant to include an organization that might schedule payment for services for a client over a period of time. Examples of such entities are banks, credit unions, certain retailers, and insurance and finance companies. For example, for automobile leases addressed by the "Loans and Leases With Lending Institutions" interpretation [1.260.020] of the "Independence Rule" [1.200.001], an entity is considered a lending institution if it leases automobiles as part of its normal business operations. [Prior reference: paragraph .09 of ET section 92]

Effective Date

This revised definition is effective December 15, 2014.

.29 Loan. A contractual obligation to pay or right to receive money on demand or on a fixed or determinable date and includes a stated or implied rate of return to the lender. For purposes of this definition, loans include, among other things, a guarantee of a loan, a letter of credit, a line of credit, or a loan commitment. However, for purposes of this definition, a loan would not include debt

securities (which are considered a *financial interest*) or lease arrangements. [Prior reference: paragraph .19 of ET section 92]

Effective Date

This revised definition is effective December 15, 2014.

.30 Manager. A professional employee of the *firm* who has continuing responsibility for the planning and supervision of engagements for specified *clients*. [Prior reference: paragraph .20 of ET section 92]

.31 Member. A member, associate member, affiliate member, or international associate of the AICPA. When the term member is used in part 1 of the code, it means a member in *public practice*; when used in part 2 of the code, it means a *member in business*; and when used in part 3 of the code, it means all other members. [Prior reference: paragraph .21 of ET section 92]

.32 Member(s) in business. A *member* who is employed or engaged on a contractual or volunteer basis in a(n) executive, staff, governance, advisory, or administrative capacity in such areas as industry, the public sector, education, the not-for-profit sector, and regulatory or professional bodies. This does not include a *member* engaged in *public practice*. [Prior reference: paragraph .22 of ET section 92]

.33 Network. For purposes of the "Network and Network Firms" interpretation [1.220.010] of the "Independence Rule" [1.200.001], a network is an association of entities that includes one or more *firms* that (a) cooperate for the purpose of enhancing the *firms'* capabilities to provide *professional services* and (b) share one or more of the following characteristics:

- a. The use of a common brand name, including common initials, as part of the *firm* name
- b. Common *control* among the *firms* through ownership, management, or other means
- c. Profits or costs, excluding costs of operating the association; costs of developing audit methodologies, manuals, and training courses; and other costs that are immaterial to the *firm*
- d. A common business strategy that involves ongoing collaboration amongst the *firms* whereby the *firms* are responsible for implementing the association's strategy and are held accountable for performance pursuant to that strategy
- e. A significant part of professional resources
- f. Common quality control policies and procedures that *firms* are required to implement and that are monitored by the association

A network may comprise a subset of entities within an association only if that subset of entities cooperates and shares one or more of the characteristics set forth in the preceding list. [Prior reference: paragraph .23 of ET section 92]

.34 Network firm. A *firm* or other entity that belongs to a *network*. This includes any entity (including another *firm*) that the network firm, by itself or through one or more of its owners, *controls*, is *controlled* by, or is under common *control* with. [Prior reference: paragraph .24 of ET section 92]

.35 Normal lending procedures, terms, and requirements. In connection with a *covered member's* loan from a *lending institution*, lending procedures, terms, and requirements that are reasonably comparable with those relating to *loans* of a similar character committed to other borrowers during the period in which the *loan* to the *covered member* is committed. Accordingly, in

making such comparison and evaluating whether a *loan* was made under normal lending procedures, terms, and requirements, the *covered member* should consider all the circumstances under which the *loan* was granted, including the following:

- a. The amount of the *loan* in relation to the value of the collateral pledged as security and the credit standing of the *covered member*
- b. Repayment terms
- c. Interest rate, including points
- d. Closing costs
- e. General availability of such *loans* to the public

Related prohibitions that may be more restrictive are prescribed by certain state and federal agencies having regulatory authority over such *lending institutions*. Broker-dealers, for example, are subject to regulation by the SEC. [Prior reference: paragraph .25 of ET section 92]

.36 Office. A reasonably distinct subgroup within a *firm*, whether constituted by formal organization or informal practice, in which personnel who make up the subgroup generally serve the same group of *clients* or work on the same categories of matters. Substance should govern the office classification. For example, the expected regular personnel interactions and assigned reporting channels of an individual may well be more important than an individual's physical location. [Prior reference: paragraph .26 of ET section 92]

.37 Partner. A proprietor, a shareholder, an equity or a nonequity partner, or any individual who assumes the risks and benefits of *firm* ownership or is otherwise held out by the *firm* to be the equivalent of any of the aforementioned. [Prior reference: paragraph .27 of ET section 92]

.38 Partner equivalent. A professional employee who is not a *partner* of the *firm* but who either

- a. has the ultimate responsibility for the conduct of an *attest engagement*, including the authority to sign or affix the *firm's* name to an attest report or issue, or authorize others to issue, an attest report on behalf of the *firm* without *partner* approval; or
- b. has the authority to bind the *firm* to conduct an *attest engagement* without *partner* approval. For example, the professional employee has the authority to sign or affix the *firm's* name to an *attest engagement* letter or contract to conduct an *attest engagement* without *partner* approval.

Firms may use different titles to refer to professional employees with this authority, although a title is not determinative of a partner equivalent. For purposes of this definition, *partner* approval does not include any partner approvals that are part of the *firm's* normal approval and quality control review procedures applicable to a partner.

This definition is solely for the purpose of applying the "Independence Rule" [1.200.001] and its *interpretations* and should not be used or relied upon in any other context, including the determination of whether the partner equivalent is an owner of the *firm*. [Prior reference: paragraph .28 of ET section 92.]

Effective Date

This definition is effective for engagements covering periods beginning on or after December 15, 2014.

.39 Period of the professional engagement. The period begins when a *member* either signs an initial engagement letter or other agreement to perform attest services or begins to perform an *attest engagement*, whichever is earlier. The period lasts for the entire duration of the professional relationship, which could cover many periods, and ends with the formal or informal notification, either by the *member* or *client*, of the termination of the professional relationship or by the issuance of a report, whichever is later. Accordingly, the period does not end with the issuance of a report and recommence with the beginning of the following year's *attest engagement*. [Prior reference: paragraph .29 of ET section 92]

[See Revision History Table.]

.40 Professional services. Include all services requiring accountancy or related skills that are performed by a *member* for a *client*, an employer, or on a volunteer basis. These services include, but are not limited to accounting, audit and other attest services, tax, bookkeeping, management consulting, financial management, corporate governance, personal financial planning, business valuation, litigation support, educational, and those services for which standards are promulgated by bodies designated by *Council*. [Prior reference: paragraph .31 of ET section 92]

.41 Public interest entities. All of the following:

- a. All listed entities, including entities that are outside the United States whose shares, stock, or debt are quoted or listed on a recognized stock exchange or marketed under the regulations of a recognized stock exchange or other equivalent body.
- b. Any entity for which an audit is required by regulation or legislation to be conducted in compliance with the same *independence* requirements that apply to an audit of listed entities (for example, requirements of the SEC, the PCAOB, or other similar regulators or standard setters).

Members may wish to consider whether additional entities should also be treated as public interest entities because they have a large number and wide range of stakeholders. Factors to be considered may include

- the nature of the business, such as the holding of assets in a fiduciary capacity for a large number of stakeholders;
- size; and
- number of employees.

Members should refer to the *independence* regulations of applicable authoritative regulatory bodies when a *member* performs attest services and is required to be independent of the *attest client* under such regulations. [Prior reference: paragraph .20 of ET section 100-1]

[See Revision History Table.]

.42 Public practice. Consists of the performance of *professional services* for a *client* by a *member* or *member's firm*. [Prior reference: paragraph .30 of ET section 92]

.43 Safeguards. Actions or other measures that may eliminate a *threat* or reduce a *threat* to an *acceptable level*. [Prior reference: paragraph .20 of ET section 100-1]

.44 Share-based compensation arrangements. As defined in the FASB ASC glossary under the term share-based payment arrangements. [Prior reference: paragraph .02 ET section 101]

.45 Significant influence. As defined in FASB ASC 323-10-15. [Prior reference: paragraph .32 of ET section 92]

.46 Source documents. The documents upon which evidence of an accounting transaction are initially recorded. Source documents are often followed by the creation of many additional records and reports that do not, however, qualify as initial recordings. Examples of source documents are purchase orders, payroll time cards, and customer orders. [Prior reference: footnote 17 in paragraph .05 of ET section 101]

.47 Third-party service provider. All of the following:

- a. An entity that the *member* does not *control*, individually or collectively with his or her *firm* or with *members* of his or her *firm*.
- b. An individual not employed by the *member* who assists the *member* in providing *professional services* to *clients* (for example, bookkeeping, tax return preparation, consulting, or attest services, including related clerical and data entry functions). [Prior reference: paragraphs .224–.225 of ET section 191, .023–.024 of ET section 291, and .001–.002 of ET section 391]

.48 Those charged with governance. The person(s) or organization(s) (for example, a corporate trustee) with responsibility for overseeing the strategic direction of the entity and the obligations related to the accountability of the entity. This includes overseeing the financial reporting process. Those charged with governance may include management personnel (for example, executive members of a governance board or an owner-manager).

When an *interpretation* requires communicating with those charged with governance, the *member* should determine the appropriate person(s) within the entity's governance structure with whom to communicate, based on the nature and importance of the particular circumstances and matter to be communicated. If the *member* communicates with a subgroup of those charged with governance (for example, an audit committee or an individual), the *member* should determine whether communication with all of those charged with governance is also necessary, so that they are adequately informed. [Prior reference: paragraph .33 of ET section 92]

Effective Date

This definition is effective April 30, 2014.

.49 Threat(s). In connection with independence, threats are relationships or circumstances that could *impair independence*. In connection with any rule but the "Independence Rule" [1.200.001], threats are relationships or circumstances that could compromise a *member's* compliance with the rules. [Prior reference: paragraph .10 of ET section 100-1]

Effective Date

When this definition is used in connection with any rule but the "Independence Rule" it is effective December 15, 2014.

0.500 Nonauthoritative Guidance

.01 The code is the only authoritative source of AICPA ethics rules and *interpretations*. The staff of the Professional Ethics Division has issued nonauthoritative guidance to assist *members* and others in their implementation of the code. Such guidance does not amend or override the code. Further, the guidance is not meant to be exhaustive and does not establish best practices, set

standards, or serve as official pronouncements of the AICPA. These documents were not approved in accordance with normal due process, which requires proposed changes to be exposed to the public and requires consideration of *members'* and others' comments.

.02 References to relevant nonauthoritative guidance, when available, are provided throughout the code in boxed text at the end of the applicable *interpretation*. [No prior reference: new content]

Effective Date

.03 Effective December 15, 2014.

0.600 New, Revised, and Pending Interpretations and Other Guidance

0.600.010 New and Revised Interpretations and Other Guidance

.01 Periodically, new or revised authoritative ethics *interpretations* and other guidance are issued. Publication of the text of a new or revised pronouncement or a notice with a link to the text of a new or revised authoritative *interpretation* and other guidance in the *Journal of Accountancy* constitutes notice to *members*. Hence, the effective date of the *interpretation* and other guidance is the last day of the month in which the pronouncement or notice is published in the *Journal of Accountancy*, unless otherwise noted. The Professional Ethics Division takes into consideration the time that would have been reasonable for the *member* to comply with the pronouncement. This section lists the citation and title of any new or revised *interpretation* or other guidance for a period of 12 months after its effective date. When an *interpretation* or other guidance is not yet effective, it will appear as a pending *interpretation* or other guidance (see "Pending Interpretations and Other Guidance" [0.600.020]).

- "Information Systems Services" [1.295.145] (Revised June 2019. Effective January 1, 2023. Early implementation permitted.)
- "State and Local Government Client Affiliates" [1.224.020] (Revised June 2019. Effective for years beginning after December 15, 2021.)
- Temporary Enforcement Policies [0.600.030.03] (Added December 21, 2021. Effective November 16, 2021.)
- Staff Augmentation Arrangements [1.275.007] (Added March 2021. Effective November 30, 2021.)
- Client Affiliates [1.224.010] (Revised March 2021. Effective November 30, 2021.)
- Agreed-Upon Procedure Engagements Performed in Accordance With SSAEs [1.297.020] (Revised March 2021. Effective November 30, 2021.)
- Scope and Applicability of Nonattest Services [1.295.010] (Revised March 2021. Effective November 30, 2021.)
- Records Requests [1.400.200] (Revised March 2021. Effective July 31, 2021.)
- "Responding to Noncompliance With Laws and Regulations" [1.180.010 and 2.180.010] (Added May 2022. Effective June 30, 2023. Early implementation permitted.)

- "Ethical Conflicts" [1.000.020 and 2.000.020] (Revised May 2022. Effective June 30, 2023. Early implementation permitted.)
- "Assisting Attest Clients With Implementing Accounting Standards" [1.295.113] (Added May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Unpaid Fees" [1.230.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- Definition of "beneficially owned" [0.400.06] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Conceptual Framework for Independence" [1.210.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Client Affiliates" [1.224.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Loans" [1.260.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Loans and Leases With Lending Institutions" [1.260.020] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Immediate Family Members" [1.270.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)

Effective Date

.02 Paragraph .01, excluding the bulleted text, is effective December 15, 2014.

0.600.020 Pending Interpretations and Other Guidance

.01 Periodically, new or revised authoritative ethics *interpretations* and other guidance are issued. This section lists the titles and citations of any pending new or revised *interpretations* or other guidance until they are effective and notes whether early application is permitted or encouraged. Once the *interpretation* or other guidance becomes effective, it will appear under the "New and Revised Interpretation and Other Guidance" section of the preface [0.600.010].

- "Information Systems Services" [1.295.145] (Revised June 2019. Effective January 1, 2023. Early implementation permitted.)
- "Responding to Noncompliance With Laws and Regulations" [1.180.010 and 2.180.010] (Added May 2022. Effective June 30, 2023. Early implementation permitted.)
- "Ethical Conflicts" [1.000.020 and 2.000.020] (Revised May 2022. Effective December 15, 2014.)
- "Assisting Attest Clients With Implementing Accounting Standards" [1.295.113] (Added May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Unpaid Fees" [1.230.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- Definition of "beneficially owned" [0.400.06] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)

- "Conceptual Framework for Independence" [1.210.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Client Affiliates" [1.224.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Loans" [1.260.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Loans and Leases With Lending Institutions" [1.260.020] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)
- "Immediate Family Members" [1.270.010] (Revised May 2022. Effective December 31, 2022. Early implementation permitted.)

Effective Date

.02 Paragraph .01, excluding the bulleted text, is effective December 15, 2014.

0.600.030 Temporary Enforcement Policies

.01 Periodically the Professional Ethics Executive Committee (PEEC) may publicly agree not to take enforcement action in certain circumstances and may issue a temporary enforcement policy. This section sets forth any temporary enforcement policies that are in effect.

.02 Temporary Policy Statement of the AICPA Professional Ethics Executive Committee Related to Amendments of Rule 2-01 of Regulation S-X.

On October 16, 2020, the SEC announced that it adopted final amendments to certain auditor independence requirements in Rule 2-01 of Regulation S-X (SEC amendments). The SEC amendments will be effective on June 9, 2021, with early adoption permitted. PEEC has agreed to evaluate the SEC amendments and determine if any revisions should be made to the AICPA Code of Professional Conduct (code) in light of the SEC amendments. While this evaluation is underway, PEEC will consider a member to be in compliance with the code if the member implements and complies with the SEC amendments or complies with the existing code. This temporary enforcement policy will be effective until PEEC rescinds it. [Adopted December 21, 2020.]

.03 Temporary policy statement of the AICPA Professional Ethics Executive Committee related to simultaneous employment or association with an attest client and the Uniformed Services Employment and Reemployment Rights Act (USERRA) and parallel state statutes.

USERRA and parallel state statutes provide certain employment protections to individuals who serve, may serve, or have served in the armed services. On November 16, 2021, PEEC agreed it will consider a member or member's firm to be in compliance with the code if the member or member's firm employs individuals who serve in federal or state armed services and provides attest services to the armed services, as long as the individual is not in a key position with the armed services attest client, is not in a position to influence the attest engagement and is not on the attest engagement team. This temporary enforcement policy will be effective until PEEC rescinds it. [Adopted November 16, 2021]

Effective Date

.04 Paragraph .01 is effective December 21, 2020.

[See Revision History Table.]

0.700 Deleted Interpretations and Other Guidance

.01 The following interpretations and other guidance were deleted from the code during the 10 years prior to the 2014 edition:

- Definition of *holding out* (ET sec. 92 par. .12) (Deleted March 2013, effective May 31, 2013)
- Ethics Ruling No. 65, "Use of the CPA Designation by Member Not in Public Practice" (ET sec. 191 par. .130) (Deleted March 2013, effective May 31, 2013)
- Ethics Ruling No. 38, "CPA Title, Controller of Bank" (ET sec. 591 par. .075–.076) (Deleted March 2013, effective May 31, 2013)
- Ethics Ruling No. 78, "Letterhead: Lawyer-CPA" (ET sec. 591 par. .155–.156) (Deleted March 2013, effective May 31, 2013)
- Ethics Ruling No. 134, "Association of Accountants Not Partners" (ET sec. 591 par. .267–.268) (Deleted August 2012)
- Ethics Ruling No. 74, "Audits, Reviews, or Compilations and a Lack of Independence" (ET sec. 191 par. .148–.149) (Deleted April 2012).
- Ethics Ruling No. 135, "Association of Firms Not Partners" (ET sec. 591 par. .269–.270) (Deleted April 2012).
- Interpretation No. 101-8, "Effect on Independence of Financial Interests in Nonclients Having Investor or Investee Relationships With a Covered Member's Client" (ET sec. 101 par. .10) (Deleted November 2011. ***Reestablished and effective October 31, 2012 until the earlier of January 1, 2014, or adoption of Interpretation 101-18.***)
- Ethics Ruling No. 9, "Member as Representative of Creditor's Committee" (ET sec. 191 par. .017–.018) (Deleted November 2011)
- Ethics Ruling No. 10, "Member as Legislator" (ET sec. 191 par. .019–.020) (Deleted November 2011)
- Ethics Ruling No. 12, "Member as Trustee of Charitable Foundation" (ET sec. 191 par. .023–.024) (Deleted November 2011)
- Ethics Ruling No. 16, "Member on Board of Directors of Nonprofit Social Club" (ET sec. 191 par. .031–.032) (Deleted November 2011)
- Ethics Ruling No. 19, "Member on Deferred Compensation Committee" (ET sec. 191 par. .037–.038) (Deleted November 2011)
- Ethics Ruling No. 21, "Member as Director and Auditor of an Entity's Profit Sharing and Retirement Trust" (ET sec. 191 par. .041–.042) (Deleted November 2011. ***Reestablished and effective October 31, 2012 until the earlier of January 1, 2014, or adoption of Interpretation 101-18***)
- Ethics Ruling No. 29, "Member as Bondholder" (ET sec. 191 par. .057–.058) (Deleted November 2011)
- Ethics Ruling No. 38, "Member as Co-Fiduciary With Client Bank" (ET sec. 191 par. .075–.076) (Deleted November 2011. ***Reestablished and effective October 31, 2012 until the earlier of January 1, 2014, or adoption of Interpretation 101-18***)
- Ethics Ruling No. 48, "Faculty Member as Auditor of a Student Fund" (ET sec. 191 par. .095–.096) (Deleted November 2011)

- Ethics Ruling No. 60, "Employee Benefit Plans—Member's Relationships With Participating Employer," (ET sec. 191 par. .119–.120) (Deleted November 2011. ***Reestablished and effective October 31, 2012 until the earlier of January 1, 2014, or adoption of Interpretation 101-18***)
- Ethics Ruling No. 69, "Investment With a General Partner" (ET sec. 191 par. .138–.139) (Deleted November 2011. ***Reestablished and effective October 31, 2012 until the earlier of January 1, 2014, or adoption of Interpretation 101-18***)
- Ethics Ruling No. 81, "Member's Investment in a Limited Partnership" (ET sec. 191 par. .162–.163) (Deleted November 2011. ***Reestablished and effective October 31, 2012 until the earlier of January 1, 2014, or adoption of Interpretation 101-18***)
- Ethics Ruling No. 98, "Member's Loan From a Nonclient Subsidiary or Parent of an Attest Client" (ET sec. 191 par. .196–.197) (Deleted November 2011. ***Reestablished and effective October 31, 2012 until the earlier of January 1, 2014, or adoption of Interpretation 101-18***)
- Ethics Ruling No. 103, "Attest Report on Internal Controls" (ET sec. 191 par. .206–.207) (Deleted November 2011)
- Ethics Ruling No. 106, "Member Has Significant Influence Over an Entity That Has Significant Influence Over a Client" (ET sec. 191 par. .212–.213) (Deleted November 2011. ***Reestablished and effective October 31, 2012 until the earlier of January 1, 2014, or adoption of Interpretation 101-18***)
- Ethics Ruling No. 111, "Employee Benefit Plan Sponsored by Client" (ET sec. 191 par. .222–.223) (Deleted November 2011. ***Reestablished and effective October 31, 2012 until the earlier of January 1, 2014, or adoption of Interpretation 101-18***)
- Ethics Ruling No. 11, "Applicability of Rule 203 to Members Performing Litigation Support Services" (ET sec. 291 par. .021–.022) (Deleted November 2011)
- Ethics Ruling No. 2, "Fees: Collection of Notes Issued in Payment" (ET sec. 591 par. .003–.004) (Deleted November 2011)
- Ethics Ruling No. 33, "Course Instructor" (ET sec. 591 par. .065–.066) (Deleted November 2011)
- Ethics Ruling No. 108, "Member Interviewed by the Press" (ET sec. 591 par. .215–.216) (Deleted November 2011)
- Ethics Ruling No. 117, "Consumer Credit Company Director" (ET sec. 591 par. .233–.234) (Deleted November 2011)
- Ethics Ruling No. 140, "Political Election" (ET sec. 591 par. .279–.280) (Deleted November 2011)
- Ethics Ruling No. 144, "Title: Partnership Roster" (ET sec. 591 par. .287–.288) (Deleted November 2011)
- Ethics Ruling No. 176, "Member's Association With Newsletters and Publications" (ET sec. 591 par. .351–.352) (Deleted November 2011)
- Ethics Ruling No. 177, "Data Processing: Billing Services" (ET sec. 591 par. .353–.354) (Deleted November 2011)

- Ethics Ruling No. 179, "Practice of Public Accounting Under Name of Association or Group" (ET sec. 591 par. .357–.358) (Deleted November 2011)
- Ethics Ruling No. 101, "Client advocacy and Expert Witness Services" (ET sec. 191 par. .202–.203) (Deleted July 2007)
- Ethics Ruling No. 182, "Termination of Engagement Prior to Completion" (ET sec. 591 par. .363–.364) (Deleted April 2006).
- Ethics Ruling No. 1, "Acceptance of a Gift" (ET sec. 191 par. .001–.002) (Deleted January 2006).
- Ethics Ruling No. 35, "Stockholder in Mutual Funds" (ET sec. 191 par. .069–.070) (Deleted December 2005).
- Ethics Ruling No. 36, "Participant in Investment Club" (ET sec. 191 par. .071–.072) (Deleted December 2005).
- Ethics Ruling No. 79, "Member's Investment in a Partnership That Invests in Client" (ET sec. 191 par. .158–.159) (Deleted December 2005).
- Ethics Ruling No. 109, "Member's Investment in Financial Services Products that Invest in Clients" (ET sec. 191 par. .218–.219) (Deleted December 2005).
- Ethics Ruling No. 66, "Member's Retirement or Savings Plan Has Financial Interest in Client" (ET sec. 191 par. .132–.133) (Deleted December 2005).
- Ethics Ruling No. 68, "Blind Trust" (ET sec. 191 par. .136–.137) (Deleted December 2005).

1.000 Introduction

.01 Part 1 of the Code of Professional Conduct (the code) applies to *members in public practice*. Accordingly, when the term *member* is used in part 1 of the code, the requirements apply only to *members in public practice*. When a *member in public practice* is also a *member in business* (for example, serves as a member of an entity's board of directors), the *member* should also consult part 2 of the code, which applies to a *member in business*.

.02 Government auditors within a government audit organization who audit federal, state, or local governments or component units thereof, that are structurally located within the government audit organization, are considered in *public practice* with respect to those entities provided the head of the government audit organization meets at least one of the following criteria:

- a. Is directly elected by voters of the government entity with respect to which attest engagements are performed
- b. Is appointed by a legislative body and is subject to removal by a legislative body
- c. Is appointed by someone other than the legislative body, as long as the appointment is confirmed by the legislative body and removal is subject to oversight or approval by the legislative body

Effective Date

.03 Effective December 15, 2014.

[See Revision History Table.]

1.000.010 Conceptual Framework for Members in Public Practice

Introduction

.01 *Members* may encounter various relationships or circumstances that create *threats* to the *member's* compliance with the rules. The rules and *interpretations* seek to address many situations; however, they cannot address all relationships or circumstances that may arise. Thus, in the absence of an *interpretation* that addresses a particular relationship or circumstance, a *member* should evaluate whether that relationship or circumstance would lead a reasonable and informed third party who is aware of the relevant information to conclude that there is a *threat* to the *member's* compliance with the rules that is not at an *acceptable level*. When making that evaluation, the *member* should apply the conceptual framework approach as outlined in this interpretation.

.02 The code specifies that in some circumstances no *safeguards* can reduce a *threat* to an *acceptable level*. For example, the code specifies that a *member* may not subordinate the *member's* professional judgment to others without violating the "Integrity and Objectivity Rule" [1.100.001]. A member may not use the conceptual framework to overcome this prohibition or any other prohibition or requirement in the code.

.03 The "Conceptual Framework for Independence" interpretation [1.210.010] of the "Independence Rule" [1.200.001] provides authoritative guidance that *members* should use when making decisions on *independence* matters that are not explicitly addressed by the "Independence Rule" and its *interpretations*.

Definitions Used in Applying the Conceptual Framework

.04 Acceptable level. A level at which a reasonable and informed third party who is aware of the relevant information would be expected to conclude that a *member's* compliance with the rules is not compromised.

.05 Safeguards. Actions or other measures that may eliminate a *threat* or reduce a *threat* to an *acceptable level*.

.06 Threats. Relationships or circumstances that could compromise a *member's* compliance with the rules.

Conceptual Framework Approach
