Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of [*identify the title of supplemental schedules and periods covered*] are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by⁴ and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

⁴ See footnote 3.

Illustration 4 — An Auditor's Report Containing a Qualified Opinion on Financial Statements for a Defined Contribution Retirement Plan Subject to ERISA When Management Elects an ERISA Section 103(a)(3)(C) Audit

Circumstances include the following:

- Management elected an ERISA Section 103(a)(3)(C) audit, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.⁵
- The auditor performed an ERISA Section 103(a)(3)(C) audit of a complete set of general purpose financial statements for a 401(k) plan subject to ERISA (comparative statements of net assets available for benefits and a single-year statement of changes in net assets available for benefits).
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America, as promulgated by Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The financial statements have inadequate disclosures. The auditor has concluded that (a) it is not practicable to present the required information, and (b) the effects are such that an adverse opinion is not appropriate. Accordingly, the auditor's report contains a qualified ERISA Section 103(a)(3)(C) audit opinion. [Note: For this example, the form of modified opinion is appropriate in the circumstances; however, generally, the DOL will reject Form 5500 filings that contain modified opinions.]
- There are no limitations on the scope of the audit.
- The auditor has concluded that a qualified ERISA Section 103(a)(3)(C) report is appropriate based on the audit evidence obtained.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the plan's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has not been engaged to communicate key audit matters.
- The report on the ERISA-required supplemental schedules is presented as an other-matter paragraph in accordance with paragraph .132. The auditor has concluded that the qualification has an effect on the supplemental schedules because it is information also required by DOL Rules and Regulations for Reporting and Disclosure under ERISA. The auditor has included a discussion

⁵ See footnote 1.

in the other-matter paragraph that describes the matter as discussed in paragraph .A151 of this section.

Independent Auditor's Report

[Appropriate Addressee]

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ABC 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 20X2 and 20X1, and the related statement of changes in net assets available for benefits for the year ended December 31, 20X2, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of ABC 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 20X2 and 20X1, and for the year ended December 31, 20X2, stating that the certified investment information, as described in Note X to the financial statements, is complete and accurate.⁶

Qualified Opinion

In our opinion, except for the omission of the information described in the Basis for Qualified Opinion section of our report, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by⁷ and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Qualified Opinion

ABC 401(k) Plan's financial statements do not disclose [describe the nature of the omitted information that is not practicable to present in the auditor's

⁶ See footnote 2.

⁷ See footnote 3.

report]. In our opinion, disclosure of this information is required by accounting principles generally accepted in the United States of America.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC 401(k) Plan's ability to continue as a going concern for [insert the time period set by the applicable financial reporting framework].

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of *[identify title of supplemental schedules and periods covered]* are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Schedule *[identify supplemental schedule]* that accompanies ABC 401(k) Plan's financial statements does not disclose *[describe the nature of the omitted information]*. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, except for the effects of *[describe the nature of the omitted information]* as described in the Basis for Qualified Opinion section, on Schedule *[identify the schedule]*

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by⁸ and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

⁸ See footnote 3.

Illustration 5 — An Auditor's Report Containing an Adverse Opinion on Financial Statements for a Defined Contribution Retirement Plan Subject to ERISA When Management Elects an ERISA Section 103(a)(3)(C) Audit

Circumstances include the following:

- Management elected an ERISA Section 103(a)(3)(C) audit, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA.⁹
- The auditor performed an ERISA Section 103(a)(3)(C) audit of a complete set of general purpose financial statements for a 401(k) plan subject to ERISA (comparative statements of net assets available for benefits and a single-year statement of changes in net assets available for benefits).
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America, as promulgated by Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The financial statements are materially misstated. The material misstatement is deemed to be pervasive to the financial statements. Accordingly, the auditor's report contains an adverse opinion. The effects of the misstatement on the financial statements have not been determined because it was not practicable to do so. [Note: For this example, the form of modified opinion is appropriate in the circumstances; however, generally, the DOL will reject Form 5500 filings that contain modified opinions.]
- There are no limitations on the scope of the audit.
- The auditor has concluded that an adverse ERISA Section 103(a)(3)(C) report is appropriate based on the audit evidence obtained.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the plan's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor is precluded from communicating key audit matters when issuing an adverse opinion.
- The report on the ERISA-required supplemental schedules is presented as an other-matter paragraph in accordance with paragraph .132. Because the auditor has issued an adverse ERISA Section 103(a)(3)(C) audit opinion, the auditor is precluded from issuing an opinion on the supplemental schedules.

⁹ See footnote 1.

Independent Auditor's Report

[Appropriate Addressee]

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ABC 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 20X2 and 20X1, and the related statement of changes in net assets available for benefits for the year ended December 31, 20X2, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of ABC 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 20X2 and 20X1, and for the year ended December 31, 20X2, stating that the certified investment information, as described in Note X to the financial statements, is complete and accurate.¹⁰

Adverse Opinion

In our opinion, because of the significance of the matter described in the Basis for Adverse Opinion section of our report, the accompanying financial statements do not present fairly the net assets available for benefits of ABC 401(k) Plan as of December 31, 20X2 and 20X1, and the changes in net assets available for benefits for the year ended December 31, 20X2, in accordance with accounting principles generally accepted in the United States of America.

Basis for Adverse Opinion

As described in Note X, ABC 401(k) Plan *[describe the material misstatement of the financial statements]*. Under accounting principles generally accepted in the United States of America *[describe how the matter should have been accounted for in accordance with accounting principles generally accepted in the United States of America]*. The effects on the financial statements have not been determined.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse ERISA Section 103(a)(3)(C) audit opinion.

¹⁰ See footnote 2.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC 401(k) Plan's ability to continue as a going concern for [insert the time period set by the applicable financial reporting framework].

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — ERISA-Required Supplemental Schedules

The supplemental schedules of [*identify title of supplemental schedules and periods covered*] are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Adverse Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

[*Signature of the auditor's firm*]

[*City and state where the auditor's report is issued*]

[*Date of the auditor's report*]

Illustration 6 — An Auditor's Report Containing a Disclaimer of Opinion, Due to the Auditor's Inability to Obtain Sufficient Appropriate Audit Evidence Because the Plan Has Not Maintained Sufficient Accounting Records, on Financial Statements of a Defined Contribution Retirement Plan Subject to ERISA When Management Elects an ERISA Section 103(a)(3)(C) Audit

Circumstances include the following:

- Management elected an ERISA Section 103(a)(3)(C) audit, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.¹¹
- The auditor was engaged to perform an ERISA Section 103(a)(3)(C) audit of a complete set of general purpose financial statements for a 401(k) plan subject to ERISA (comparative statements of net assets available for benefits and a single-year statement of changes in net assets available for benefits).
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- There are no known material misstatements to the financial statements.
- The auditor was unable to obtain sufficient appropriate audit evidence for certain participant account balances that merged into the plan in 20XX. This is a limitation on the scope of the audit in accordance with section 705. The possible effects of this inability to obtain sufficient appropriate audit evidence are deemed to be both material and pervasive to the financial statements. Accordingly, the auditor's report contains a disclaimer of opinion. [Note: For this example, the form of modified opinion is appropriate in the circumstances; however, generally, the DOL will reject Form 5500 filings that contain modified opinions.]
- The auditor has concluded that a disclaimer of opinion relating to the ERISA Section 103(a)(3)(C) audit is appropriate based on the audit evidence obtained.
- The auditor is precluded from communicating key audit matters when issuing a disclaimer of opinion.
- A more limited description of the Auditor's Responsibilities section is required because of the disclaimer of opinion.
- The report on the ERISA-required supplemental schedules is presented as an other-matter paragraph in accordance with paragraph .132. Because the auditor has disclaimed an opinion on the ERISA plan financial statements, the auditor is precluded from issuing an opinion on the supplemental schedules.

¹¹ See footnote 1.

Independent Auditor's Report

[Appropriate Addressee]

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of ABC 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 20X2 and 20X1, and the related statement of changes in net assets available for benefits for the year ended December 31, 20X2, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of ABC 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 20X2 and 20X1, and for the year ended December 31, 20X2, stating that the certified investment information, as described in Note X to the financial statements, is complete and accurate.¹²

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of ABC 401(k) Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

ABC 401(k) Plan does not have sufficient accounting records and supporting documents relating to certain participant account balances that merged into ABC 401(k) Plan in 20XX. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise

¹² See footnote 2.

substantial doubt about ABC 401(k) Plan's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of ABC 401(k) Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of ABC 401(k) Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of *[identify the title of supplemental schedules and periods covered]* are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

[Revised, January 2020, to reflect conforming changes necessary due to the issuance of SAS No. 138. As amended, effective for audits of ERISA plan financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

.A155

Exhibit B — Implementation Guidance for ERISA Section 103(a)(3)(C) Audits

ERISA requires a statement of assets and liabilities of the plan to be displayed in comparative form. Typically, a plan will present comparative statements of net assets available for benefits and a single-year statement of changes in net assets available for benefits (see paragraph .A95 for typical plan financial statements by type of plan). Accordingly, when this SAS is adopted, the auditor may be asked to perform an ERISA Section 103(a)(3)(C) audit for the current year when the auditor disclaimed an opinion on the financial statements in the prior year.

Paragraphs .A123–.A125 explain that because the auditor's report on comparative financial statements applies to the financial statements for each of the periods presented, the auditor may express a qualified opinion or an adverse opinion, disclaim an opinion, use the ERISA Section 103(a)(3)(C) audit report, or include an emphasis-of-matter paragraph with respect to one or more financial statements for one or more periods while expressing a different auditor's opinion on one or more financial statements of another period presented. Further, when issuing an updated report, the information considered by the continuing auditor is that which the auditor has become aware of during the audit of the current period financial statements. In addition, an updated report is issued in conjunction with the auditor's report on the current period financial statements.

The following illustration contains example reports for when the auditor has adopted this SAS for the first time and is performing an ERISA Section 103(a)(3)(C) audit for the current year and updating their audit from the prior year.

Illustration B-1 — Auditor's Reports on Financial Statements for a Defined Contribution Retirement Plan Subject to ERISA When Management Elects an ERISA Section 103(a)(3)(C) Audit in the Current Year (2020) and the Auditor Disclaimed an Opinion on the Financial Statements in the Prior Year (2019)

Circumstances include the following:

- Management elected an ERISA Section 103(a)(3)(C) audit for the 2020 plan financial statements, as permitted by Code of Federal Regulations (CFR), *Labor*, Title 29, Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.¹
- The audit is for a complete set of general purpose financial statements for a 401(k) plan subject to ERISA that is presenting comparative statements of net assets available for benefits and a single-year statement of changes in net assets available for benefits.
- The auditor performed an ERISA Section 103(a)(3)(C) audit as of and for the year ended December 31, 2020.
- The auditor disclaimed an opinion on the prior year financial statements (for the year ended December 31, 2019).
- The auditor is issuing two separate reports.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America, as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- There are no limitations on the scope of the audit for the current year, and the auditor has not identified any material misstatements of the ERISA plan financial statements in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*.
- The auditor has concluded that the ERISA Section 103(a)(3)(C) report is appropriate as of and for the year ended December 31, 2020 based on the audit evidence obtained.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the plan's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has not been engaged to communicate key audit matters.

¹ Although not as common, an ERISA Section 103(a)(3)(C) audit may relate to the audit of a 103-12 entity as permitted by 29 CFR 2520.103-12. Accordingly, the wording in this illustrative report may need to be revised to fit the circumstances of the engagement.

- The report on the ERISA-required supplemental schedules is presented as an other-matter paragraph for the year ended December 31, 2020.

Independent Auditor's Report

[Appropriate Addressee]

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of ABC 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of ABC 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2020, stating that the certified investment information, as described in Note X to the financial statements, is complete and accurate.²

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by³ and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

² If the note to the financial statements does not identify the names of the qualified certifying institutions and periods covered, then such information may be included in the auditor's report.

³ This sentence may need to be modified when the certification is provided by an insurance entity, which provides benefits under the plan or holds plan assets.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC 401(k) Plan's ability to continue as a going concern for [insert the time period set by the applicable financial reporting framework].

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the

circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of *[identify the title of supplemental schedules and periods covered]* are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented,

in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by⁴ and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Independent Auditor's Report

[Appropriate Addressee]

We were engaged to audit the accompanying statement of net assets available for benefits of ABC 401(k) Plan, as of December 31, 2019, and the related notes to the financial statement.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the 2019 financial statement based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note X, which was certified by ABC Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statement. We have been informed by the plan administrator that the trustee (or custodian) holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee (or custodian) as of December 31, 2019 that the information provided to the plan administrator by the trustee (or custodian) is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2019 financial statement. Accordingly, we do not express an opinion on the 2019 financial statement.

⁴ See footnote 3.

Report on Form and Content in Compliance With DOL Rules and Regulations for 2019 Financial Statement

The form and content of the information included in the 2019 financial statement, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

AU-C Section 705

Modifications to the Opinion in the Independent Auditor's Report

(Supersedes SAS No. 122 section 705.)

Source: SAS No. 134; SAS No. 137; SAS No. 141.

Effective for audits of financial statements for periods ending on or after December 15, 2021.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility to issue an appropriate report in circumstances in which, in forming an opinion in accordance with section 700, *Forming an Opinion and Reporting on Financial Statements*, or section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, the auditor concludes that a modification to the auditor's opinion on the financial statements is necessary. This section also deals with how the form and content of the auditor's report is affected when the auditor expresses a modified opinion. In all cases, the reporting requirements in section 700 or section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, apply; those requirements are not repeated in this section unless they are explicitly addressed or amended by the requirements of this section.

Types of Modified Opinions

.02 This section establishes three types of modified opinions, namely, a qualified opinion, an adverse opinion, and a disclaimer of opinion. The decision regarding which type of modified opinion is appropriate depends on the following:

- a. The nature of the matter giving rise to the modification, that is, whether the financial statements are materially misstated or, in the case of an inability to obtain sufficient appropriate audit evidence, may be materially misstated
- b. The auditor's judgment about the pervasiveness of the effects or possible effects of the matter on the financial statements (Ref: par. .A1)

.03 Section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, and section 701, *Communicating Key Audit Matters in the Independent Auditor's Report*, address additional communications in the auditor's report that are not modifications to the auditor's opinion.

Effective Date

.04 This section is effective for audits of financial statements for periods ending on or after December 15, 2021. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 141.]

Objective

.05 The objective of the auditor is to express clearly an appropriately modified opinion on the financial statements that is necessary in the following circumstances:

- a. The auditor concludes, based on the audit evidence obtained, that the financial statements as a whole are materially misstated.
- b. The auditor is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement.

Definitions

.06 For purposes of generally accepted auditing standards, the following terms have the meanings attributed as follows:

Modified opinion. A qualified opinion, an adverse opinion, or a disclaimer of opinion on the financial statements.

Pervasive. A term used, in the context of misstatements, to describe the effects on the financial statements of misstatements or the possible effects on the financial statements of misstatements, if any, that are undetected due to an inability to obtain sufficient appropriate audit evidence. Pervasive effects on the financial statements are those that, in the auditor's judgment,

- are not confined to specific elements, accounts, or items of the financial statements;
- if so confined, represent or could represent a substantial proportion of the financial statements; or
- regarding disclosures, are fundamental to users' understanding of the financial statements.

Requirements

Circumstances in Which a Modification to the Auditor's Opinion Is Required

.07 The auditor should modify the opinion in the auditor's report when

- a. the auditor concludes that, based on the audit evidence obtained, the financial statements as a whole are materially misstated or (Ref: par. A2–A8)
- b. the auditor is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement. (Ref: par. A9–A13)

Determining the Type of Modification to the Auditor's Opinion

Qualified Opinion

.08 The auditor should express a qualified opinion in the following circumstances:

- a. The auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are material but not pervasive to the financial statements.
- b. The auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, but the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be material but not pervasive.

Adverse Opinion

.09 The auditor should express an adverse opinion when the auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are both material and pervasive to the financial statements.

Disclaimer of Opinion

.10 The auditor should disclaim an opinion when the auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive. (Ref. par. .A14–.A15)

Consequence of an Inability to Obtain Sufficient Appropriate Audit Evidence Due to a Management-Imposed Limitation After the Auditor Has Accepted the Engagement

.11 If, after accepting the engagement, the auditor becomes aware that management has imposed a limitation on the scope of the audit that the auditor considers likely to result in the need to express a qualified opinion or to disclaim an opinion on the financial statements, the auditor should request that management remove the limitation.

.12 If management refuses to remove the limitation referred to in paragraph .11, the auditor should communicate the matter to those charged with governance, unless all of those charged with governance are involved in managing the entity,¹ and, if appropriate, determine whether it is possible to perform alternative procedures to obtain sufficient appropriate audit evidence.

.13 If the auditor is unable to obtain sufficient appropriate audit evidence, the auditor should determine the implications as follows:

- a. If the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be material but not pervasive, the auditor should qualify the opinion.
- b. If the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive so that a qualification of the opinion would

¹ Paragraph .09 of section 260, *The Auditor's Communication With Those Charged With Governance*.

be inadequate to communicate the severity of the situation, the auditor should

- i. disclaim an opinion on the financial statements or
- ii. withdraw from the audit, when practicable. (Ref: par. .A16–.A17)

.14 If the auditor decides to withdraw from the audit in accordance with paragraph .13bii, before doing so, the auditor should communicate to those charged with governance any matters regarding misstatements identified during the audit that would have given rise to a modification of the opinion. (Ref: par. .A17)

Other Considerations Relating to an Adverse Opinion or Disclaimer of Opinion

.15 When the auditor considers it necessary to express an adverse opinion or disclaim an opinion on the financial statements as a whole, the auditor's report should not also include an unmodified opinion with respect to the same financial reporting framework on a single financial statement or one or more specific elements, accounts, or items of a financial statement (piecemeal opinion). To include such an unmodified opinion in the same report² in these circumstances would contradict the auditor's adverse opinion or disclaimer of opinion on the financial statements as a whole. (Ref: par. .A18–.A19)

Auditor Is Not Independent But Is Required by Law or Regulation to Report on the Financial Statements

.16 When the auditor is not independent but is required by law or regulation to report on the financial statements, the auditor should disclaim an opinion and should specifically state that the auditor is not independent. The auditor is neither required to provide, nor precluded from providing, the reasons for the lack of independence; however, if the auditor chooses to provide the reasons for the lack of independence, the auditor should include all the reasons therefor. (Ref: par. .A20)

Form and Content of the Auditor's Report When the Opinion Is Modified

Auditor's Opinion

.17 When the auditor modifies the audit opinion, the auditor should use the heading "Qualified Opinion," "Adverse Opinion," or "Disclaimer of Opinion," as appropriate, for the "Opinion" section. (Ref: par. .A21–.A23)

Qualified Opinion

.18 When the auditor expresses a qualified opinion due to a material misstatement in the financial statements, the auditor should state that, in the auditor's opinion, except for the effects of the matters described in the "Basis for Qualified Opinion" section of the auditor's report, the accompanying financial statements present fairly, in all material respects, [...] in accordance with [*the applicable financial reporting framework*]. When the modification arises from an inability to obtain sufficient appropriate audit evidence, the auditor should

² Section 805, *Special Considerations — Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*, addresses special considerations relevant to an audit of a single financial statement or of a specific element, account, or item of a financial statement.

use the corresponding phrase "except for the possible effects of the matters..." for the modified opinion. (Ref: par. .A24–.A25)

Adverse Opinion

.19 When the auditor expresses an adverse opinion, the auditor should state that, in the auditor's opinion, because of the significance of the matters described in the "Basis for Adverse Opinion" section of the auditor's report, the accompanying financial statements do not present fairly [...] in accordance with [*the applicable financial reporting framework*].

Disclaimer of Opinion

.20 When the auditor disclaims an opinion due to an inability to obtain sufficient appropriate audit evidence, the auditor should do the following:

- a. State that the auditor does not express an opinion on the accompanying financial statements.
- b. State that, because of the significance of the matters described in the "Basis for Disclaimer of Opinion" section of the auditor's report, the auditor has not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.
- c. Amend the statement required by paragraph .25b of section 700, or paragraph .64b of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, as applicable, which indicates that the financial statements have been audited, to state that the auditor was engaged to audit the financial statements.

Basis for Opinion

.21 When the auditor modifies the opinion on the financial statements, the auditor should, in addition to including the specific elements required by section 700 or section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, do the following: (Ref: par. .A26)

- a. Amend the heading "Basis for Opinion" required by paragraph .28 of section 700 or paragraphs .67 or .107 of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, as applicable, to "Basis for Qualified Opinion," "Basis for Adverse Opinion," or "Basis for Disclaimer of Opinion," as appropriate.
- b. Within this section of the auditor's report, include a description of the matter giving rise to the modification.

.22 If there is a material misstatement of the financial statements that relates to specific amounts in the financial statements (including quantitative disclosures), the auditor should include in the "Basis for Opinion" section a description and quantification of the financial effects of the misstatement, unless impracticable. If it is not practicable to quantify the financial effects, the auditor should state that in the "Basis for Opinion" section. (Ref: par. .A27–.A28)

.23 If there is a material misstatement of the financial statements that relates to qualitative disclosures, the auditor should include an explanation of how the disclosures are misstated in the "Basis for Opinion" section.

.24 If there is a material misstatement of the financial statements that relates to the omission of information required to be presented or disclosed, the auditor should do the following:

- a. Discuss the omission of such information with those charged with governance.
- b. Describe in the "Basis for Opinion" section the nature of the omitted information.
- c. Include the omitted information, provided that it is practicable to do so and the auditor has obtained sufficient appropriate audit evidence about the omitted information. (Ref: par. .A29–.A30)

.25 If the modification results from an inability to obtain sufficient appropriate audit evidence, the auditor should include the reasons for that inability in the "Basis for Opinion" section. (Ref. par. .A31)

.26 When the auditor expresses a qualified or an adverse opinion, the auditor should amend the statement required by paragraph .28d of section 700 or paragraphs .67 or .107 of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, as applicable, about whether the audit evidence obtained is sufficient and appropriate to provide a basis for the auditor's opinion, to include the word "qualified" or "adverse," as appropriate.

.27 When the auditor disclaims an opinion on the financial statements, the auditor's report should not include the elements required by paragraphs .28b and .28d of section 700 or paragraphs .67b and .67d or .107b and .107d of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, as applicable. Those elements are

- a. a reference to the section of the auditor's report where the auditor's responsibilities are described and
- b. a statement about whether the audit evidence obtained is sufficient and appropriate to provide a basis for the auditor's opinion.

.28 Even if the auditor has expressed an adverse opinion or disclaimed an opinion on the financial statements, the auditor should describe the reasons for any other matters of which the auditor is aware that would have required a modification to the opinion, and the effects thereof, in the "Basis for Opinion" section. (Ref: par. .A32–.A33)

Description of Auditor's Responsibilities for the Audit of the Financial Statements When the Auditor Disclaims an Opinion on the Financial Statements

.29 When the auditor disclaims an opinion on the financial statements due to an inability to obtain sufficient appropriate audit evidence, the auditor should amend the description of the auditor's responsibilities required by paragraphs .35–.37 of section 700 or paragraphs .74–.76 or .115–.119 of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, as applicable, to include only the following: (Ref: par. .A34)

- a. A statement that the auditor's responsibility is to conduct an audit of the entity's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report

- b. A statement that, however, because of the matters described in the "Basis for Disclaimer of Opinion" section of the auditor's report, the auditor was not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements
- c. A statement that the auditor is required to be independent and to meet other ethical responsibilities, in accordance with the relevant ethical requirements relating to the audit, required by paragraph .28c of section 700 or paragraph .67c or .107c of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, as applicable

Considerations When the Auditor Expresses an Adverse Opinion or Disclaims an Opinion on the Financial Statements

.30 When the auditor expresses an adverse opinion or disclaims an opinion on the financial statements, the auditor's report should not include a "Key Audit Matters" section in accordance with section 701.³ (Ref: par. .A35–.A36) Also, when the auditor disclaims an opinion on the financial statements, the auditor's report should not include an "Other Information" section in accordance with section 720, *The Auditor's Responsibilities Relating to Other Information Included in Annual Reports*. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 137.]

Communication With Those Charged With Governance

.31 When the auditor expects to modify the opinion in the auditor's report, the auditor should communicate with those charged with governance the circumstances that led to the expected modification and the wording of the modification. (Ref: par. .A37)

Application and Other Explanatory Material

Types of Modified Opinions (Ref: par. .02)

.A1 The following table illustrates how the auditor's professional judgment about the nature of the matter giving rise to the modification, and the pervasiveness of its effects or possible effects on the financial statements, affects the type of opinion to be expressed:

<i>Nature of Matter Giving Rise to the Modification</i>	<i>Auditor's Professional Judgment About the Pervasiveness of the Effects or Possible Effects on the Financial Statements</i>	
	<i>Material but Not Pervasive</i>	<i>Material and Pervasive</i>
Financial statements are materially misstated	Qualified opinion	Adverse opinion
Inability to obtain sufficient appropriate audit evidence	Qualified opinion	Disclaimer of opinion

³ Paragraphs .10–.12 of section 701, *Communicating Key Audit Matters in the Independent Auditor's Report*.

Circumstances in Which a Modification to the Auditor's Opinion Is Required

Nature of Material Misstatements (Ref: par. .07a)

.A2 Sections 700 and 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, require the auditor, in order to form an opinion on the financial statements, to conclude whether reasonable assurance has been obtained about whether the financial statements as a whole are free from material misstatement.⁴ This conclusion takes into account the auditor's evaluation of uncorrected misstatements, if any, on the financial statements, in accordance with section 450, *Evaluation of Misstatements Identified During the Audit*.

.A3 Section 450 defines a *misstatement* as a difference between the reported amount, classification, presentation, or disclosure of a financial statement item and the amount, classification, presentation, or disclosure that is required for the item to be in accordance with the applicable financial reporting framework. Accordingly, a material misstatement of the financial statements may arise in relation to the following:

- The appropriateness of the selected accounting policies
- The application of the selected accounting policies
- The appropriateness of the financial statement presentation, or the appropriateness or adequacy of disclosures in the financial statements

Appropriateness of the Selected Accounting Policies

.A4 Regarding the appropriateness of the accounting policies management has selected, material misstatements of the financial statements may arise, for example, when

- the selected accounting policies are not consistent with the applicable financial reporting framework,
- the financial statements do not correctly describe an accounting policy relating to a significant item therein, or
- the financial statements do not represent or disclose the underlying transactions and events in a manner that achieves fair presentation.

.A5 Financial reporting frameworks often contain requirements for the accounting for, and disclosure of, changes in accounting policies. When the entity has changed its selection of significant accounting policies, a material misstatement of the financial statements may arise when the entity has not complied with these requirements. If a change in accounting policy does not meet the conditions described in section 708, *Consistency of Financial Statements*, then a material misstatement of the financial statements may arise.

Application of the Selected Accounting Policies

.A6 Regarding the application of the selected accounting policies, material misstatements of the financial statements may arise

⁴ Paragraph .13 of section 700, *Forming an Opinion and Reporting on Financial Statements* and paragraph .38 of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*.

- when management has not applied the selected accounting policies consistently with the financial reporting framework, including when management has not applied the selected accounting policies consistently between periods or to similar transactions and events (consistency in application).
- due to the method of application of the selected accounting policies (such as an unintentional error in application).

Appropriateness of the Financial Statement Presentation or Appropriateness or Adequacy of Disclosures in the Financial Statements

.A7 Regarding the appropriateness of the financial statement presentation or the appropriateness or adequacy of disclosures in the financial statements, material misstatements of the financial statements may arise when the following occur:

- The financial statements do not include all the disclosures required by the applicable financial reporting framework.
- The disclosures in the financial statements are not presented in accordance with the applicable financial reporting framework.
- The financial statements do not provide the additional disclosures necessary to achieve fair presentation beyond disclosures specifically required by the applicable financial reporting framework.
- Information required to be presented in accordance with the applicable financial reporting framework is omitted either because a required statement (for example, a statement of cash flows) has not been included or because the information has not otherwise been disclosed in the financial statements.

Paragraph .A23 of section 450 provides further examples of material misstatements that may arise in qualitative disclosures.

.A8 Adequate disclosures relate to the presentation of the financial statements and the related notes, including, for example, the terminology used, the amount of detail given, the classification of items in the statements, and the bases of amounts set forth.

Nature of an Inability to Obtain Sufficient Appropriate Audit Evidence (Ref: par. .07b)

.A9 The auditor's inability to obtain sufficient appropriate audit evidence (also referred to as a limitation on the scope of the audit) may arise from the following:

- Circumstances beyond the control of the entity
- Circumstances relating to the nature or timing of the auditor's work
- Limitations imposed by management

.A10 An inability to perform a specific procedure does not constitute a limitation on the scope of the audit if the auditor is able to obtain sufficient appropriate audit evidence by performing alternative procedures. If this is not possible, the requirements in paragraphs .08b and .10 apply as appropriate. Limitations imposed by management may have other implications for the audit, such as for the auditor's assessment of risks of material misstatement due to fraud and consideration of engagement continuance.

.A11 Examples of circumstances beyond the control of the entity include the following:

- The entity's accounting records have been destroyed.
- The accounting records of a significant component have been seized indefinitely by governmental authorities.

.A12 Examples of circumstances relating to the nature or timing of the auditor's work include the following:

- The entity is required to use the equity method of accounting for an investee, and the auditor is unable to obtain sufficient appropriate audit evidence about the latter's financial information to evaluate whether the equity method has been appropriately applied.
- The timing of the auditor's appointment is such that the auditor is unable to observe the counting of the physical inventories, and the auditor is unable to obtain sufficient appropriate audit evidence through other appropriate procedures, such as performing a rollback of inventory.
- The auditor determines that performing substantive procedures alone is not sufficient, but the entity's controls are not effective.

.A13 Examples of an inability to obtain sufficient appropriate audit evidence arising from a limitation on the scope of the audit imposed by management include the following:

- Management prevents the auditor from observing the counting of the physical inventory.
- Management prevents the auditor from requesting external confirmation of specific account balances.

Determining the Type of Modification to the Auditor's Opinion

Effect of Uncertainties (Ref: par. .10)

.A14 Absence of the existence of information related to the outcome of an uncertainty does not necessarily lead to a conclusion that the audit evidence supporting management's assertion is not sufficient. Rather, the auditor's professional judgment regarding the sufficiency of the audit evidence is based on the audit evidence that is, or should be, available. If, after considering the existing conditions and available evidence, the auditor concludes that sufficient appropriate audit evidence supports management's assertions about the nature of a matter involving an uncertainty and its presentation or disclosure in the financial statements, an unmodified opinion ordinarily is appropriate.

.A15 In cases involving multiple uncertainties, the auditor may conclude that it is not possible to form an opinion on whether the financial statements as a whole are fairly presented in accordance with the applicable financial reporting framework due to the interaction and possible cumulative effects of the uncertainties.

Consequence of an Inability to Obtain Sufficient Appropriate Audit Evidence Due to a Management-Imposed Limitation After the Auditor Has Accepted the Engagement (Ref: par. .13)

.A16 The practicality of withdrawing from the audit may depend on the stage of completion of the engagement at the time that management imposes the scope limitation. If the auditor has substantially completed the audit, the auditor may decide to complete the audit to the extent possible, disclaim an

opinion, and explain the scope limitation in the "Basis for Disclaimer of Opinion" section.

.A17 In certain circumstances, withdrawal from the audit may not be possible if the auditor is required by law or regulation to continue the audit engagement. This may be the case for an auditor who is appointed or elected to audit the financial statements of governmental entities. It may also be the case in circumstances in which the auditor is appointed to audit the financial statements covering a specific period or is appointed for a specific period and is prohibited from withdrawing before the completion of the audit of those financial statements or before the end of that period. In such circumstances, the auditor may consider it necessary to include an other-matter paragraph in the auditor's report.⁵

Other Considerations Relating to an Adverse Opinion or Disclaimer of Opinion (Ref: par. .15)

.A18 The following are examples of reporting circumstances that would not contradict the auditor's adverse opinion or disclaimer of opinion:

- In an initial audit, the expression of an unmodified opinion regarding the financial position and a disclaimer of opinion regarding the results of operations and cash flows, when relevant. In this case, the auditor has not disclaimed an opinion on the financial statements as a whole.
- The expression of an unmodified opinion on financial statements prepared under a given financial reporting framework and, within the same report, the expression of an adverse opinion on the same financial statements under a different financial reporting framework.

Considerations Specific to Audits of Governmental Entities

.A19 Because the auditor of a state or local governmental entity expresses an opinion or disclaims an opinion for each opinion unit,⁶ an auditor's report in these circumstances may include an unmodified opinion with respect to one or more opinion units and a modified opinion for one or more other opinion units.

Auditor Is Not Independent but Is Required by Law or Regulation to Report on the Financial Statements (Ref: par. .16)

Considerations Specific to Governmental Entities

.A20 The nature of a government auditor's lack of independence may have a limited effect because the impairment may result from the government auditor's association with only a component of the overall governmental entity. A government auditor may determine that the lack of independence affects only one or more, but not all, of the governmental entity's opinion units, and in such circumstances, the auditor may disclaim an opinion on the affected opinion units while expressing unmodified, qualified, or adverse opinions on other opinion units. The more significant the affected opinion units are to the overall governmental entity, the more likely that it will be appropriate for the auditor to disclaim an opinion on the financial statements of the overall governmental entity.

⁵ Paragraphs .10–.11 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

⁶ Paragraph .A6 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

Form and Content of the Auditor's Report When the Opinion Is Modified

Illustrative Auditor's Reports (Ref: par. .17)

.A21 Illustrations 1 and 3 in the exhibit to this section contain auditor's reports with qualified and adverse opinions, respectively, because the financial statements are materially misstated.

.A22 Illustration 4 in the exhibit contains an auditor's report with a qualified opinion because the auditor is unable to obtain sufficient appropriate audit evidence. Illustration 5 contains a disclaimer of opinion due to an inability to obtain sufficient appropriate audit evidence about a single element of the financial statements. Illustration 6 contains a disclaimer of opinion due to an inability to obtain sufficient appropriate audit evidence about multiple elements of the financial statements. In each of the latter two cases, the possible effects on the financial statements of the inability to obtain sufficient appropriate audit evidence are both material and pervasive. The exhibits to other AU-C sections that include reporting requirements also include illustrations of auditor's reports with modified opinions.

Auditor's Opinion (Ref: par. .17)

.A23 Amending the heading required by paragraph .17 makes it clear to the user that the auditor's opinion is modified and indicates the type of modification.

Qualified Opinion (Ref: par. .18)

.A24 When the auditor expresses a qualified opinion, it would not be appropriate to use phrases such as "with the foregoing explanation" or "subject to" in the "Opinion" section because these are not sufficiently clear or forceful. Because accompanying notes are part of the financial statements, wording such as "fairly presented, in all material respects, when read in conjunction with note 1" is likely to be misunderstood and would also not be appropriate.

.A25 When the auditor expresses a qualified opinion due to a scope limitation, paragraph .18 requires that the auditor state in the opinion paragraph that the qualification pertains to the possible effects of the matter on the financial statements and not to the scope limitation itself. Wording such as "In our opinion, except for the above-mentioned limitation on the scope of our audit..." bases the exception on the restriction itself rather than on the possible effects on the financial statements and, therefore, is unacceptable.

Basis for Opinion (Ref: par. .21, .22, .24, .28)

.A26 Consistency in the auditor's report helps promote users' understanding and helps users identify unusual circumstances when they occur. Accordingly, although uniformity in the wording of a modified opinion and the description of the reasons for the modification may not be possible, consistency in both the form and content of the auditor's report is desirable.

.A27 An example of the financial effects of misstatements that the auditor may describe within the "Basis for Opinion" section in the auditor's report is the quantification of the effects on income before taxes, income taxes, net income, and equity if inventory is overstated. If such disclosures are made in a note to the financial statements, the "Basis for Opinion" section may refer to the note.

.A28 In considering the adequacy of disclosure, and in other aspects of the audit, the auditor uses information received in confidence from management. Without such confidence, the auditor would find it difficult to obtain information necessary to form an opinion on the financial statements. The "Confidential Client Information Rule" (ET sec. 1.700.001) of the AICPA Code of Professional Conduct states that the auditor should not disclose any confidential client information without the specific consent of the client. Accordingly, the auditor may not make available, without management's consent, information that is not required to be disclosed in the financial statements to comply with the applicable financial reporting framework.

.A29 *Practicable*, as used in the context of paragraphs .22 and .24c, means that the information is reasonably obtainable from management's accounts and records and that providing the information in the report does not require the auditor to assume the position of a preparer of financial information. For example, the auditor would not be expected to prepare a basic financial statement and include it in the auditor's report when management omits such information.

.A30 Disclosing the omitted information within the "Basis for Opinion" section would not be practicable if

- the information has not been prepared by management or the information is otherwise not readily available to the auditor or,
- in the auditor's judgment, the information would be unduly voluminous in relation to the auditor's report.

.A31 When the auditor modifies the opinion due to an inability to obtain sufficient appropriate audit evidence, it is not appropriate for the scope of the audit to be explained in a note to the financial statements because the description of the audit scope is the responsibility of the auditor and not that of management.

.A32 An adverse opinion or a disclaimer of opinion relating to a specific matter described within the "Basis for Opinion" section does not justify the omission of a description of other identified matters that would have otherwise required a modification of the auditor's opinion. In such cases, the disclosure of such other matters of which the auditor is aware may be relevant to users of the financial statements.

.A33 The auditor may consider whether there is a need to describe in an emphasis-of-matter or other-matter paragraph⁷ any other matters of which the auditor is aware that would not require a modification of the auditor's opinion.

Description of Auditor's Responsibilities for the Audit of the Financial Statements When the Auditor Disclaims an Opinion on the Financial Statements (Ref: par. .29)

.A34 When the auditor disclaims an opinion on the financial statements, the following statements are better positioned within the "Auditor's Responsibilities for the Audit of the Financial Statements" section of the auditor's report, as illustrated in illustrations 5–6 of the exhibit to this section:

⁷ See section 706.

- The statement required by paragraph .28a of section 700 or paragraph .67a or .107a of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, as applicable, amended to state that the auditor's responsibility is to conduct an audit of the entity's financial statements in accordance with auditing standards generally accepted in the United States of America
- The statement required by paragraph .28c of section 700 or paragraph .67c or .107c of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, as applicable, about independence and other ethical responsibilities

Considerations When the Auditor Issues an Adverse Opinion or Disclaims an Opinion on the Financial Statements (Ref: par. .30)

.A35 Describing the reasons for the modification of the opinion within the "Basis for Opinion" section of the auditor's report provides information to users that is useful in understanding why the auditor has expressed an adverse opinion or disclaimed an opinion on the financial statements. Furthermore, describing these reasons may guard against inappropriate reliance on the financial statements. However, providing further details about the audit may overshadow the reasons for the modification of the opinion and may potentially be confusing to users.

.A36 When the auditor expresses an adverse opinion, the communication of any key audit matters other than the matters giving rise to the modified opinion may overshadow the fact that the financial statements as a whole are materially misstated. When the auditor disclaims an opinion, the communication of any key audit matters other than the matters giving rise to the disclaimer of opinion may suggest that the financial statements are more credible in relation to those matters than would be appropriate in the circumstances and would be inconsistent with the disclaimer of opinion on the financial statements as a whole. Similarly, it would not be appropriate for the auditor to make any statements about the auditor's consideration of the consistency of other information in an annual report with the financial statements. Accordingly, paragraph .30 of this section prohibits the inclusion of a "Key Audit Matters" section in the auditor's report when the auditor issues an adverse opinion or disclaims an opinion on the financial statements and also prohibits the inclusion of an "Other Information" section in the auditor's report when the auditor disclaims an opinion on the financial statements. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 137.]

Communication With Those Charged With Governance (Ref: par. .31)

.A37 Communicating with those charged with governance the circumstances that lead to an expected modification to the auditor's opinion and the proposed wording of the modification enables the following:

- The auditor to give notice to those charged with governance of the intended modification and the reasons (or circumstances) for the modification
- The auditor to seek the concurrence of those charged with governance regarding the facts of the matters giving rise to the expected

modification, or to confirm matters of disagreement with management as such

- Those charged with governance to have an opportunity, when appropriate, to provide the auditor with further information and explanations regarding the matters giving rise to the expected modification

.A38

Illustration 1 — An Auditor's Report Containing a Qualified Opinion Due to a Material Misstatement of the Financial Statements

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- Inventories are misstated. The misstatement is deemed to be material but not pervasive to the financial statements. Accordingly, the auditor's report contains a qualified opinion.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has obtained all the other information prior to the date of the auditor's report, and the matter giving rise to the qualified opinion on the financial statements also affects the other information included in the annual report.
- The auditor has not been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements¹

Qualified Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

¹ The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

Basis for Qualified Opinion

ABC Company has stated inventories at cost in the accompanying balance sheets. Accounting principles generally accepted in the United States of America require inventories to be stated at the lower of cost or market. If the Company stated inventories at the lower of cost or market, a write down of \$XXX and \$XXX would have been required as of December 31, 20X1 and 20X0, respectively. Accordingly, cost of sales would have been increased by \$XXX and \$XXX, and net income, income taxes, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, and \$XXX, \$XXX, and \$XXX, as of and for the years ended December 31, 20X1 and 20X0, respectively.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for [insert the time period set by the applicable financial reporting framework].

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the

circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.²

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information [or another title, if appropriate, such as "Information Other Than the Financial Statements and Auditor's Report Thereon"]

[Reporting in accordance with the reporting requirements in section 720, The Auditor's Responsibilities Relating to Other Information Included in Annual Reports.]

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

² In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

Illustration 2 — An Auditor's Report Containing a Qualified Opinion for Inadequate Disclosure

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The financial statements have inadequate disclosures. The auditor has concluded that (a) it is not practicable to present the required information and (b) the effects are such that an adverse opinion is not appropriate. Accordingly, the auditor's report contains a qualified opinion.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has obtained all the other information prior to the date of the auditor's report, and the matter giving rise to the qualified opinion on the financial statements also affects the other information included in the annual report.
- The auditor has been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements³

Qualified Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, except for the omission of the information described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinion

ABC Company's financial statements do not disclose [describe the nature of the omitted information that is not practicable to present in the auditor's report]. In

³ The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

our opinion, disclosure of this information is required by accounting principles generally accepted in the United States of America.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Key Audit Matters

Key audit matters are those matters that were communicated with those charged with governance and, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Basis for Qualified Opinion* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

[Description of each key audit matter in accordance with section 701, Communicating Key Audit Matters in the Independent Auditor's Report]

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and

perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.⁴
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information [or another title, if appropriate, such as "Information Other Than the Financial Statements and Auditor's Report Thereon"]

[Reporting in accordance with the reporting requirements in section 720, The Auditor's Responsibilities Relating to Other Information Included in Annual Reports.]

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

⁴ In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

Illustration 3 — An Auditor's Report Containing an Adverse Opinion Due to a Material Misstatement of the Financial Statements

Circumstances include the following:

- Audit of a complete set of consolidated general purpose financial statements (single year). The audit is a group audit. The auditor is not making reference to a component auditor in the auditor's report.
- Management is responsible for the preparation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The financial statements are materially misstated due to the nonconsolidation of a subsidiary. The material misstatement is deemed to be pervasive to the financial statements. Accordingly, the auditor's report contains an adverse opinion. The effects of the misstatement on the financial statements have not been determined because it was not practicable to do so.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has obtained all the other information prior to the date of the auditor's report, and the matter giving rise to the qualified opinion on the financial statements also affects the other information included in the annual report.
- The auditor is precluded from communicating key audit matters when issuing an adverse opinion.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Consolidated Financial Statements⁵

Adverse Opinion

We have audited the consolidated financial statements of ABC Company and its subsidiaries, which comprise the consolidated balance sheet as of December 31, 20X1, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying consolidated

⁵ The subtitle "Report on the Audit of the Consolidated Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

financial statements do not present fairly the financial position of ABC Company and its subsidiaries as of December 31, 20X1, or the results of their operations or their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Adverse Opinion

As described in Note X, ABC Company has not consolidated the financial statements of subsidiary XYZ Company that it acquired during 20X1 because it has not yet been able to ascertain the fair values of certain of the subsidiary's material assets and liabilities at the acquisition date. This investment is therefore accounted for on a cost basis by the Company. Under accounting principles generally accepted in the United States of America, the subsidiary should have been consolidated because it is controlled by the Company. Had XYZ Company been consolidated, many elements in the accompanying consolidated financial statements would have been materially affected. The effects on the consolidated financial statements of the failure to consolidate have not been determined.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.⁶
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Information [or another title, if appropriate, such as "Information Other Than the Financial Statements and Auditor's Report Thereon"]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

⁶ In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the consolidated financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

Illustration 4 — An Auditor's Report Containing a Qualified Opinion Due to the Auditor's Inability to Obtain Sufficient Appropriate Audit Evidence

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The auditor was unable to obtain sufficient appropriate audit evidence regarding an investment in a foreign affiliate. The possible effects of the inability to obtain sufficient appropriate audit evidence are deemed to be material but not pervasive to the financial statements. Accordingly, the auditor's report contains a qualified opinion.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has obtained all the other information prior to the date of the auditor's report, and the matter giving rise to the qualified opinion on the financial statements also affects the other information included in the annual report.
- The auditor has not been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements⁷

Qualified Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

⁷ The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

Basis for Qualified Opinion

ABC Company's investment in XYZ Company, a foreign affiliate acquired during the year and accounted for under the equity method, is carried at \$XXX on the balance sheet at December 31, 20X1, and ABC Company's share of XYZ Company's net income of \$XXX is included in ABC Company's net income for the year then ended. We were unable to obtain sufficient appropriate audit evidence about the carrying amount of ABC Company's investment in XYZ Company as of December 31, 20X1, and ABC Company's share of XYZ Company's net income for the year then ended because we were denied access to the financial information, management, and the auditors of XYZ Company. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for [insert the time period set by the applicable financial reporting framework].

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.⁸
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Information [or another title, if appropriate, such as "Information Other Than the Financial Statements and Auditor's Report Thereon"]

[Reporting in accordance with the reporting requirements in section 720, The Auditor's Responsibilities Relating to Other Information Included in Annual Reports.]

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

⁸ In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

Illustration 5 — An Auditor's Report Containing a Disclaimer of Opinion Due to the Auditor's Inability to Obtain Sufficient Appropriate Audit Evidence About a Single Element of the Financial Statements

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The auditor was unable to obtain sufficient appropriate audit evidence about a single element of the financial statements. That is, the auditor was unable to obtain audit evidence about the financial information of a joint venture investment accounted for under the proportionate consolidation approach. The investment represents over 90 percent of the Company's net assets. The possible effects of this inability to obtain sufficient appropriate audit evidence are deemed to be both material and pervasive to the financial statements. Accordingly, the auditor's report contains a disclaimer of opinion.
- The auditor concluded that it was unnecessary to include in the auditor's report specific amounts for the Company's proportional share of the assets, liabilities, income, and expenses of the joint venture investment because the investment represents over 90 percent of the Company's net assets, and that fact is disclosed in the auditor's report.
- The auditor is precluded from including an Other Information section in the auditor's report when disclaiming an opinion on the financial statements.
- The auditor is precluded from communicating key audit matters when disclaiming an opinion on the financial statements.
- A more limited description of the Auditor's Responsibilities section is required because of the disclaimer of opinion.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements⁹

Disclaimer of Opinion

We were engaged to audit the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

⁹ The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

We do not express an opinion on the accompanying financial statements of ABC Company. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

ABC Company's investment in XYZ Company, a joint venture, is carried at \$XXX on the Company's balance sheet, which represents over 90 percent of the Company's net assets as of December 31, 20X1. We were not allowed access to the management and the auditors of XYZ Company. As a result, we were unable to determine whether any adjustments were necessary relating to the Company's proportional share of XYZ Company's assets that it controls jointly, its proportional share of XYZ Company's liabilities for which it is jointly responsible, its proportional share of XYZ Company's income and expenses for the year, and the elements making up the statements of changes in stockholders' equity and cash flows.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of ABC Company's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 6 — An Auditor's Report Containing a Disclaimer of Opinion Due to the Auditor's Inability to Obtain Sufficient Appropriate Audit Evidence About Multiple Elements of the Financial Statements

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The auditor was unable to obtain sufficient appropriate audit evidence about multiple elements of the financial statements. That is, the auditor was unable to obtain audit evidence about the entity's inventories and accounts receivable at year-end because at that time the auditor had not been engaged. The possible effects of this inability to obtain sufficient appropriate audit evidence are deemed to be both material and pervasive to the financial statements. Accordingly, the auditor's opinion contains a disclaimer of opinion.
- The auditor is precluded from including an Other Information section in the auditor's report when disclaiming an opinion on the financial statements.
- The auditor is precluded from communicating key audit matters when disclaiming an opinion on the financial statements.
- A more limited description of the Auditor's Responsibilities section is required because of the disclaimer of opinion.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements¹⁰

Disclaimer of Opinion

We were engaged to audit the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

We do not express an opinion on the accompanying financial statements of ABC Company. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

¹⁰ The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

Basis for Disclaimer of Opinion

We were not engaged as auditors of ABC Company until after December 31, 20X1, and, therefore, did not observe the counting of physical inventories at the beginning or end of the year. We were unable to satisfy ourselves by other auditing procedures concerning the inventory held at December 31, 20X1, which is stated in the balance sheet at \$XXX. In addition, the introduction of a new computerized accounts receivable system in September 20X1 resulted in numerous misstatements in accounts receivable. As of the date of our audit report, management was still in the process of rectifying the system deficiencies and correcting the misstatements. We were unable to confirm or verify by alternative means accounts receivable included in the balance sheet at a total amount of \$XXX at December 31, 20X1. As a result of these matters, we were unable to determine whether any adjustments might have been found necessary in respect of recorded or unrecorded inventories and accounts receivable, and the elements making up the statements of income, changes in stockholders' equity, and cash flows.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of ABC Company's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 7 — An Auditor's Report in Which the Auditor Is Expressing an Unmodified Opinion in the Prior Year and a Modified Opinion (Qualified Opinion) in the Current Year

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- Certain lease obligations have been excluded from the financial statements in the current year. The effect of the exclusion is material but not pervasive. The auditor expressed an unmodified opinion in the prior year and is expressing a modified opinion (qualified opinion) in the current year.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has not been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements¹¹

Qualified Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, except for the effects on the accompanying 20X1 financial statements of not capitalizing certain lease obligations as described in the Basis for Qualified Opinion section of our report, the financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinion on the 20X1 Financial Statements

ABC Company has excluded, from property and debt in the accompanying 20X1 balance sheet, certain lease obligations that were entered into in 20X1 that, in

¹¹ The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

our opinion, should be capitalized in accordance with accounting principles generally accepted in the United States of America. If these lease obligations were capitalized, property would be increased by \$XXX, long-term debt by \$XXX, and retained earnings by \$XXX as of December 31, 20X1, and net income and earnings per share would be increased (decreased) by \$XXX and \$XXX, respectively, for the year then ended.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the 20X1 financial statements and for our opinion on the 20X0 financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on

the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.¹²

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

¹² In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

Illustration 8 — An Auditor's Report in Which the Auditor Is Expressing an Unmodified Opinion in the Current Year and a Disclaimer of Opinion on the Prior-Year Statements of Income, Changes in Stockholders' Equity, and Cash Flows

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The auditor was unable to observe the physical inventory as of December 31, 20X0, because at that time the auditor had not been engaged. Accordingly, the auditor was unable to obtain sufficient appropriate audit evidence regarding the net income and cash flows for the year ended December 31, 20X1. The effects of the inability to obtain sufficient appropriate audit evidence are deemed material and pervasive.
- In accordance with paragraph .A26 of section 700, the opinion does not separately refer to the statement of changes in stockholders' equity because changes in stockholders' equity accounts are considered part of the presentation of financial position, results of operations, and cash flows.
- The auditor expressed an unmodified opinion on the December 31, 20X2 and 20X1, balance sheets and a disclaimer of opinion on the 20X1 statements of income, changes in stockholders' equity, and cash flows.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has not been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements¹³

Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X2 and 20X1, and the related statements

¹³ The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying balance sheets of ABC Company as of December 31, 20X2 and 20X1, and the statements of income, changes in stockholders' equity, and cash flows for the year ended December 31, 20X2, present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X2 and 20X1, and the results of its operations and its cash flows for the year ended December 31, 20X2, in accordance with accounting principles generally accepted in the United States of America.

Disclaimer of Opinion on 20X1 Operations and Cash Flows

We do not express an opinion on the accompanying results of operations and cash flows for the year ended December 31, 20X1. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the results of operations and cash flows.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the balance sheets as of December 31, 20X2 and 20X1, and the statements of income, changes in stockholders' equity, and cash flows for the year ended December 31, 20X2.

Basis for Disclaimer of Opinion on 20X1 Operations and Cash Flows

We did not observe the taking of the physical inventory as of December 31, 20X0, because that date was prior to our engagement as auditors for ABC Company, and we were unable to satisfy ourselves regarding inventory quantities by means of other auditing procedures. Inventory amounts as of December 31, 20X0, enter into the determination of net income and cash flows for the year ended December 31, 20X1.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for [insert the time period set by the applicable financial reporting framework].

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one

resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.¹⁴
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Report on Other Legal and Regulatory Requirements

Scope of This Section

.01 This section addresses additional communications in the auditor's report when the auditor considers it necessary to

- a. draw users' attention to a matter or matters presented or disclosed in the financial statements that are of such importance that they are fundamental to users' understanding of the financial statements (emphasis-of-matter paragraph); or
- b. draw users' attention to any matters other than those presented or disclosed in the financial statements that are relevant to users' understanding of the audit, the auditor's responsibilities or the auditor's report (other-matter paragraph).

.02 The communication of key audit matters is not required by section 700, *Forming an Opinion and Reporting on Financial Statements*, section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, or section 701, *Communicating Key Audit Matters in the Independent Auditor's Report*. However, when the auditor is engaged to communicate key audit matters, this section addresses the relationship between key audit matters and any additional communication in the auditor's report in accordance with this section. (Ref: par. .A1)

.03 Section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, and section 720, *The Auditor's Responsibilities Relating to Other Information Included in Annual Reports*, addresses communication in the auditor's report relating to going concern and other information, respectively. (Ref. par. .A2) [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 137.]

.04 Exhibit B, "List of AU-C Sections Containing Requirements for Emphasis-of-Matter Paragraphs," and exhibit C, "List of AU-C Sections Containing Requirements for Other-Matter Paragraphs," of this section identify AU-C sections containing specific requirements for the auditor to include an emphasis-of-matter paragraph or other-matter paragraph, respectively, in the auditor's report. When an emphasis-of-matter or other-matter paragraph is required, the requirements in this section regarding the form of such paragraphs apply. (Ref: par. .A3)

Effective Date

.05 This section is effective for audits of financial statements for periods ending on or after December 15, 2021. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 141.]

Objective

.06 The objective of the auditor, having formed an opinion on the financial statements, is to draw users' attention, when in the auditor's judgment it is necessary to do so, by way of clear additional communication in the auditor's report, to the following:

- a. A matter, although appropriately presented or disclosed in the financial statements, that is of such importance that it is fundamental to users' understanding of the financial statements
- b. As appropriate, any other matter that is relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report

Definitions

.07 For purposes of generally accepted auditing standards (GAAS), the following terms have the meanings attributed as follows:

Emphasis-of-matter paragraph. A paragraph included in the auditor's report that is required by GAAS, or is included at the auditor's discretion, and that refers to a matter appropriately presented or disclosed in the financial statements that, in the auditor's professional judgment, is of such importance that it is fundamental to users' understanding of the financial statements.

Other-matter paragraph. A paragraph included in the auditor's report that is required by GAAS, or is included at the auditor's discretion, and that refers to a matter other than those presented or disclosed in the financial statements that, in the auditor's professional judgment, is relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report.

Requirements

Emphasis-of-Matter Paragraphs in the Auditor's Report

.08 If the auditor considers it necessary to draw users' attention to a matter appropriately presented or disclosed in the financial statements that, in the auditor's professional judgment, is of such importance that it is fundamental to users' understanding of the financial statements, the auditor should include an emphasis-of-matter paragraph in the auditor's report, provided that the following apply: (Ref: par. .A4–.A5)

- a. The auditor would not be required to modify the opinion in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*, as a result of the matter.
- b. When section 701 applies, the matter has not been determined to be a key audit matter to be communicated in the auditor's report. (Ref: par. .A1)

.09 When the auditor includes an emphasis-of-matter paragraph in the auditor's report, the auditor should do the following:

- a. Include the paragraph within a separate section of the auditor's report with an appropriate heading. When key audit matters are communicated in the auditor's report, the heading should include the term "Emphasis of Matter." (Ref: par. .A6)
- b. Include in the paragraph a clear reference to the matter being emphasized and to where relevant disclosures that fully describe the matter can be found in the financial statements. The paragraph should refer only to information presented or disclosed in the financial statements.
- c. Indicate that the auditor's opinion is not modified with respect to the matter emphasized. (Ref: par. .A7–.A8, .A14–.A15)

Other-Matter Paragraphs in the Auditor's Report

.10 If the auditor considers it necessary to communicate a matter other than those that are presented or disclosed in the financial statements that, in the auditor's professional judgment, is relevant to users' understanding of the audit, the auditor's responsibilities, or the auditor's report, the auditor should include an other-matter paragraph in the auditor's report, provided that, when section 701 applies, the matter has not been determined to be a key audit matter to be communicated in the auditor's report. (Ref: par. .A9–.A12)

.11 When the auditor includes an other-matter paragraph in the auditor's report, the auditor should include the paragraph within a separate section with the heading "Other Matter" or other appropriate heading. (Ref: par. .A13–.A15)

Communication With Those Charged With Governance

.12 If the auditor expects to include an emphasis-of-matter or other-matter paragraph in the auditor's report, the auditor should communicate with those charged with governance regarding this expectation and the wording of the paragraph. (Ref: par. .A16)

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01–.04)

The Relationship Between Emphasis-of-Matter Paragraphs and Key Audit Matters in the Auditor's Report (Ref: par. .02–.04, .08b)

.A1 *Key audit matters* are defined in section 701 as those matters that, in the auditor's professional judgment, were of most significance in the audit of the financial statements of the current period. Key audit matters are selected from matters communicated with those charged with governance, which include significant findings from the audit of the financial statements of the current period.¹ Communicating key audit matters provides additional information to intended users of the financial statements to assist them in understanding those matters that, in the auditor's professional judgment, were of most significance in the audit and may also assist them in understanding the entity

¹ Paragraph .14 of section 260, *The Auditor's Communication With Those Charged With Governance*.

and areas of significant management judgment in the audited financial statements. When section 701 applies, the use of emphasis-of-matter paragraphs is not a substitute for a description of individual key audit matters.

.A2 If, after considering identified conditions or events and management's plans, the auditor concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains, the auditor is required to include a separate section in the auditor's report under the heading "Substantial Doubt About the Entity's Ability to Continue as a Going Concern."² If conditions or events, considered in the aggregate, have been identified that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time but, based on the audit evidence obtained, the auditor concludes that substantial doubt has been alleviated by management's plans and adequate disclosure has been made in the financial statements, the auditor may include an emphasis-of-matter paragraph in accordance with this section, making reference to management's disclosures related to the conditions and events and management's plans related to those conditions and events.³

.A3 The AU-C sections identified in exhibits B and C require the auditor to include an emphasis-of-matter paragraph or other-matter paragraph, respectively, in the auditor's report relating to certain matters. The nature of these matters is such that they are brought to the attention of users of the auditor's report in all instances rather than at the discretion of the auditor. The explanatory language provided by such required paragraphs achieves the same objective as an emphasis-of-matter or other-matter paragraph that is included based on the professional judgment of the auditor (that is, to provide additional communication to the users of the auditor's report). Therefore, the auditor follows the requirements in this section regarding the form of these required paragraphs.

Emphasis-of-Matter Paragraphs in the Auditor's Report

Circumstances in Which an Emphasis-of-Matter Paragraph May Be Necessary (Ref: par. .08)

.A4 In addition to the required emphasis-of-matter paragraphs listed in exhibit B, the following are examples of circumstances in which the auditor may consider it necessary to include an emphasis-of-matter paragraph:

- An uncertainty relating to the future outcome of unusually important litigation or regulatory action
- A significant subsequent event that occurs between the date of the financial statements and the date of the auditor's report⁴
- A major catastrophe that has had, or continues to have, a significant effect on the entity's financial position or results of operations
- Significant transactions with related parties

.A5 Paragraph .08 requires that an emphasis-of-matter paragraph refer only to matters appropriately presented or disclosed in the financial statements. To include information in an emphasis-of-matter paragraph about a

² Paragraph .24 of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.

³ Paragraphs .A54–.A56 of section 570.

⁴ Paragraph .07 of section 560, *Subsequent Events and Subsequently Discovered Facts*.

matter beyond what is presented or disclosed in the financial statements may raise questions about the appropriateness of such presentation or disclosure.

Including an Emphasis-of-Matter Paragraph in the Auditor's Report
(Ref: par. .09)

.A6 The term "Emphasis of Matter" is required to be included in the heading when key audit matters are communicated to clearly differentiate the matter in the emphasis-of-matter paragraph from those included in the Key Audit Matters section of the auditor's report. The auditor may add further context to the heading "Emphasis of Matter" (for example, "Emphasis of Matter — Subsequent Event") to further describe the nature of the matter addressed by the emphasis-of-matter paragraph.

.A7 The inclusion of an emphasis-of-matter paragraph in the auditor's report does not affect the auditor's opinion. An emphasis-of-matter paragraph is not a substitute for the following:

- A modified opinion in accordance with section 705 when required by the circumstances of a specific audit engagement
- Disclosures in the financial statements that the applicable financial reporting framework requires management to make or that are otherwise necessary to achieve fair presentation
- Reporting in accordance with section 570 when, after considering identified conditions or events and management's plans, the auditor concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains, in which case the auditor is required to include a separate section in the auditor's report (see paragraph .A2)

.A8 Paragraphs .A14–.A15 provide further guidance on the placement of emphasis-of-matter paragraphs in particular circumstances.

Other-Matter Paragraphs in the Auditor's Report
(Ref: par. .10–.11)

Circumstances in Which an Other-Matter Paragraph May Be Necessary

Relevant to Users' Understanding of the Audit

.A9 When the auditor is unable to withdraw from an engagement, even though the possible effect of an inability to obtain sufficient appropriate audit evidence due to a limitation on the scope of the audit imposed by management is pervasive,⁵ the auditor may consider it necessary to include an other-matter paragraph in the auditor's report to explain why it is not possible for the auditor to withdraw from the engagement.

Relevant to Users' Understanding of the Auditor's Responsibilities or the Auditor's Report

.A10 Law, regulation, or generally accepted practice may require or permit the auditor to elaborate on matters that provide further explanation of the auditor's responsibilities in the audit of the financial statements or of the auditor's report thereon. When the "Other Matter" section includes more than one matter that, in the auditor's judgment, is relevant to users' understanding of

⁵ See paragraph .13 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*, for a discussion of this circumstance.

the audit, the auditor's responsibilities, or the auditor's report, it may be helpful to use different subheadings for each matter.

.A11 An other-matter paragraph does not address circumstances in which the auditor has other reporting responsibilities that are in addition to the auditor's responsibility under GAAS (see the section "Other Reporting Responsibilities" in section 700) or when the auditor has been asked to perform and report on additional specified procedures or to express an opinion on specific matters.

Reporting on More Than One Set of Financial Statements

.A12 An entity may prepare one set of financial statements in accordance with a general purpose framework (for example, accounting principles generally accepted in the United States of America) and another set of financial statements in accordance with another general purpose framework (for example, International Financial Reporting Standards promulgated by the International Accounting Standards Board) and engage the auditor to report on both sets of financial statements. If the auditor has determined that the frameworks are acceptable in the respective circumstances, the auditor may include an other-matter paragraph in the auditor's report, referring to the fact that another set of financial statements has been prepared by the same entity in accordance with another general purpose framework and that the auditor has issued a report on those financial statements.

Including an Other-Matter Paragraph in the Auditor's Report

.A13 The content of an other-matter paragraph clearly reflects that such other matter is not required to be presented and disclosed in the financial statements. An other-matter paragraph does not include information that the auditor is prohibited from providing by law, regulation, or other professional standards (for example, ethical standards relating to confidentiality of information). An other-matter paragraph also does not include information that is required to be provided by management.

Placement of Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Auditor's Report (Ref: par. .09, .11)

.A14 This section does not specify the placement of an emphasis-of-matter paragraph or other-matter paragraph in the auditor's report. Rather, the placement depends on the nature of the information to be communicated and the auditor's judgment about the relative significance of such information to intended users compared to other elements required to be reported in accordance with section 700. The following are examples of considerations related to the placement of emphasis-of-matter and other-matter paragraphs:

- *Emphasis-of-Matter Paragraphs.* When a "Key Audit Matters" section is presented in the auditor's report, an emphasis-of-matter paragraph may be presented either directly before or after the "Key Audit Matters" section, based on the auditor's judgment about the relative significance of the information included in the emphasis-of-matter paragraph. The auditor may also add further context to the heading "Emphasis of Matter," such as "Emphasis of Matter — Subsequent Event," to differentiate the emphasis-of-matter paragraph from the individual matters described in the "Key Audit Matters" section.
- *Other-Matter Paragraphs.*
 - When a "Key Audit Matters" section is presented in the auditor's report and an other-matter paragraph is also

considered necessary, the auditor may add further context to the heading "Other Matter," such as "Other Matter — Scope of the Audit," to differentiate the other-matter paragraph from the individual matters described in the "Key Audit Matters" section.

- When an other-matter paragraph is included to draw users' attention to a matter relating to other reporting responsibilities addressed in the auditor's report, the paragraph may be included in the section "Report on Other Legal and Regulatory Requirements."
- When it is relevant to all the auditor's responsibilities or to users' understanding of the auditor's report, the other-matter paragraph may be included as a separate section following the sections "Report on the Audit of the Financial Statements" and "Report on Other Legal and Regulatory Requirements."

.A15 Illustration 2 in exhibit A shows the interaction between the "Key Audit Matters" section, an emphasis-of-matter paragraph, and an other-matter paragraph when all are presented in the auditor's report.

Communication With Those Charged With Governance (Ref. par. .12)

.A16 The auditor's communication with those charged with governance required by paragraph .12 enables those charged with governance to be made aware of the nature of any specific matters that the auditor intends to highlight in the auditor's report and provides them with an opportunity to obtain further clarification from the auditor when necessary. As discussed in paragraph .A50 of section 260, *The Auditor's Communication With Those Charged With Governance*, certain matters may be important to communicate prior to the issuance of the auditor's report. When the inclusion of an other-matter paragraph on a particular matter in the auditor's report recurs on each successive engagement, the auditor may determine that it is unnecessary to repeat the communication on each engagement.

.A17

Exhibit A — Illustrations of Auditor's Reports With Emphasis-of-Matter or Other-Matter Paragraphs

Illustration 1 — An Auditor's Report With an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter

Illustration 2 — An Auditor's Report That Includes a Key Audit Matters Section, an Emphasis-of-Matter Paragraph, and an Other-Matter Paragraph

Illustration 3 — An Auditor's Report With an Other-Matter Paragraph That May Be Appropriate When an Auditor Issues an Updated Report on the Financial Statements of a Prior Period That Contains an Opinion Different From the Opinion Previously Expressed

Illustration 4 — An Auditor's Report With a Qualified Opinion Due to a Material Misstatement of the Financial Statements and an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter

Illustration 1 — An Auditor's Report With an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The auditor has concluded that an unmodified (that is, "clean") opinion is appropriate based on the audit evidence obtained.
- There is uncertainty relating to a pending unusually important litigation matter.
- The auditor's report includes an emphasis-of-matter paragraph.¹
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has not been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements²

Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the

¹ Paragraph .A14 of this section provides guidance about the placement of an emphasis-of-matter or other-matter paragraph in the auditor's report.

² The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note X to the financial statements, ABC Company is a defendant in a lawsuit [*briefly describe the nature of the litigation consistent with the Company's description in the note to the financial statements*]. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for [*insert the time period set by the applicable financial reporting framework*].

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.³

³ In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 2 — An Auditor's Report That Includes a Key Audit Matters Section, an Emphasis-of-Matter Paragraph, and an Other-Matter Paragraph

Circumstances include the following:

- Audit of a complete set of general purpose financial statements. The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The auditor has concluded that an unmodified (that is, "clean") opinion is appropriate based on the audit evidence obtained.
- Between the date of the financial statements and the date of the auditor's report, there was a fire in the entity's production facilities, which was disclosed by the entity as a subsequent event. In the auditor's judgment, the matter is of such importance that it is fundamental to users' understanding of the financial statements. The matter did not require significant auditor attention in the audit of the financial statements in the current period.¹
- The prior period financial statements were audited by a predecessor auditor.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has obtained all the other information prior to the date of the auditor's report and has not identified an uncorrected material misstatement of the other information included in the annual report.
- The auditor has been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements²

Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

¹ Paragraph .A14 of this section provides guidance about the placement of an emphasis-of-matter or other-matter paragraph in the auditor's report.

² The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter³

As discussed in Note X to the financial statements, subsequent to the date of the financial statements, there was a fire in ABC Company's production facilities. Our opinion is not modified with respect to this matter.

Key Audit Matters

Key audit matters are those matters that were communicated with those charged with governance and, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

[Description of each key audit matter in accordance with section 701, Communicating Key Audit Matters in the Independent Auditor's Report]

Other Matter

The financial statements of ABC Company for the year ended December 31, 20X0, were audited by another auditor, who expressed an unmodified opinion on those statements on March 31, 20X1.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and

³ As noted in paragraph .A14, an emphasis-of-matter paragraph may be presented either directly before or after the "Key Audit Matters" section, based on the auditor's judgment about the relative significance of the information included in the emphasis-of-matter paragraph.

therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.⁴
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Information [or another title, if appropriate, such as "Information Other Than the Financial Statements and Auditor's Report Thereon"]

[Reporting in accordance with the reporting requirements in section 720, The Auditor's Responsibilities Relating to Other Information Included in Annual Reports.]

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

⁴ In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

Illustration 3 — An Auditor's Report With an Other-Matter Paragraph That May Be Appropriate When an Auditor Issues an Updated Report on the Financial Statements of a Prior Period That Contains an Opinion Different From the Opinion Previously Expressed

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (comparative). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The auditor's report on the prior period financial statements expressed an adverse opinion due to identified departures from accounting principles generally accepted in the United States of America that resulted in the financial statements being materially misstated. The entity has elected to change its method of accounting for the matters that gave rise to the adverse opinion in the prior period and has restated the prior period financial statements. Therefore, the auditor has expressed an unmodified opinion on the comparative financial statements.
- The auditor's report includes an other-matter paragraph indicating that the updated report on the financial statements of the prior period contains an opinion different from the opinion previously expressed, as required by section 700. Although the entity changed its method of accounting for the matters that gave rise to the adverse opinion in the prior period and corrected the material misstatement in the 20X0 financial statements, the principal objective of the communication in the other-matter paragraph is to draw users' attention to the change in the auditor's opinion on the prior period financial statements. The other-matter paragraph refers to the change in accounting principle and the related disclosure in the financial statements. Therefore, the other-matter paragraph also meets the objective of communicating the change in accounting principle as required by section 708, *Consistency of Financial Statements*, and a separate emphasis-of-matter paragraph is not considered necessary.¹
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.

¹ Paragraph .A14 of this section provides guidance about the placement of an emphasis-of-matter or other-matter paragraph in the auditor's report

- The auditor has not been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements²

Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matter

In our report dated March 1, 20X1, we expressed an opinion that the 20X0 financial statements did not fairly present the financial position, results of operations, and cash flows of ABC Company in accordance with accounting principles generally accepted in the United States of America because of two departures from such principles: (1) ABC Company carried its property, plant, and equipment at appraisal values, and provided for depreciation on the basis of such values, and (2) ABC Company did not provide for deferred income taxes with respect to differences between income for financial reporting purposes and taxable income. As described in Note X, the Company has changed its method of accounting for these items and restated its 20X0 financial statements to conform with accounting principles generally accepted in the United States of America. Accordingly, our present opinion on the restated 20X0 financial statements, as presented herein, is different from that expressed in our previous report.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise

² The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

substantial doubt about ABC Company's ability to continue as a going concern for [insert the time period set by the applicable financial reporting framework].

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.³
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

³ In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

Illustration 4 — An Auditor's Report With a Qualified Opinion Due to a Material Misstatement of the Financial Statements and an Emphasis-of-Matter Paragraph Because There Is Uncertainty Relating to a Pending Unusually Important Litigation Matter

Circumstances include the following:

- Audit of a complete set of general purpose financial statements (single year). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- Inventories are misstated. The misstatement is deemed to be material but not pervasive to the financial statements.
- There is uncertainty relating to a pending unusually important litigation matter.
- The auditor's report includes a qualified opinion and also includes an emphasis-of-matter paragraph.¹
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has not been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements²

Qualified Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

¹ Paragraph .A14 of this section provides guidance about the placement of an emphasis-of-matter or other-matter paragraph in the auditor's report.

² The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

Basis for Qualified Opinion

ABC Company has stated inventories at cost in the accompanying balance sheet. Accounting principles generally accepted in the United States of America require inventories to be stated at the lower of cost or market. If the Company stated inventories at the lower of cost or market, a write down of \$XXX would have been required as of December 31, 20X1. Accordingly, cost of sales would have been increased by \$XXX and net income, income taxes, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, as of and for the year ended December 31, 20X1, respectively.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Emphasis of Matter — Litigation

As discussed in Note X to the financial statements, the Company is a defendant in a lawsuit *[briefly describe the nature of the litigation consistent with the Company's description in the note to the financial statements]*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and

perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.³
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 137.]

³ In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

Exhibit B — List of AU-C Sections Containing Requirements for Emphasis-of-Matter Paragraphs (Ref: par. .04)

This exhibit identifies paragraphs in other AU-C sections that require the auditor to include an emphasis-of-matter paragraph in the auditor's report in certain circumstances. The list is not a substitute for considering the requirements and related application and other explanatory material in specific AU-C sections.

- Paragraph .16c of section 560, *Subsequent Events and Subsequently Discovered Facts*
- Paragraphs .08–.09 and .11–.13 of section 708, *Consistency of Financial Statements*
- Paragraphs .19 and .21 of section 800, *Special Considerations — Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*

.A19

Exhibit C — List of AU-C Sections Containing Requirements for Other-Matter Paragraphs (Ref: par. .04)

This exhibit identifies paragraphs in other AU-C sections that require the auditor to include an other-matter paragraph in the auditor's report in certain circumstances. The list is not a substitute for considering the requirements and related application and other explanatory material in specific AU-C sections.

- Paragraph .16c of section 560, *Subsequent Events and Subsequently Discovered Facts*
- Paragraphs .55–.56 and .58–.59 of section 700, *Forming an Opinion and Reporting on Financial Statements*
- Paragraphs .53, .92–.93, .95–.96, .121, and .133 of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*
- Paragraph .20 of section 800, *Special Considerations — Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*
- Paragraph .13 of section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*
- Paragraph .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*

[Revised, June 2020, to reflect conforming changes necessary due to the issuance of SAS No. 138. As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

AU-C Section 708

Consistency of Financial Statements

Source: SAS No. 122; SAS No. 136.

Effective for audits of financial statements for periods ending on or after December 15, 2012, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section addresses the auditor's evaluation of the consistency of the financial statements between periods, including changes to previously issued financial statements and the effect of that evaluation on the auditor's report on the financial statements.

Effective Date

.02 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objectives

.03 The objectives of the auditor are to

- a. evaluate the consistency of the financial statements for the periods presented and
- b. communicate appropriately in the auditor's report when the comparability of financial statements between periods has been materially affected by a change in accounting principle or by adjustments to correct a material misstatement in previously issued financial statements.

Definition

.04 For purposes of generally accepted auditing standards, the following term has the meaning attributed as follows:

Current period. The most recent period upon which the auditor is reporting.

Requirements

Evaluating Consistency

.05 The auditor should evaluate whether the comparability of the financial statements between periods has been materially affected by a change in accounting principle or by adjustments to correct a material misstatement in previously issued financial statements. (Ref: par. .A1)

.06 The periods included in the auditor's evaluation of consistency depend on the periods covered by the auditor's opinion on the financial statements. When the auditor's opinion covers only the current period, the auditor should

evaluate whether the current-period financial statements are consistent with those of the preceding period, regardless of whether financial statements for the preceding period are presented. When the auditor's opinion covers two or more periods, the auditor should evaluate consistency between such periods and the consistency of the earliest period covered by the auditor's opinion with the period prior thereto, if such prior period is presented with the financial statements being reported upon. The auditor also should evaluate whether the financial statements for the periods being reported upon are consistent with previously issued financial statements for the relevant periods. (Ref: par. .A2–.A3)

Change in Accounting Principle

.07 The auditor should evaluate a change in accounting principle to determine whether (Ref: par. .A4–.A6)

- a. the newly adopted accounting principle is in accordance with the applicable financial reporting framework,
- b. the method of accounting for the effect of the change is in accordance with the applicable financial reporting framework,
- c. the disclosures related to the accounting change are appropriate and adequate, and
- d. the entity has justified that the alternative accounting principle is preferable.

.08 If the auditor concludes that the criteria in paragraph .07 have been met, and the change in accounting principle has a material effect on the financial statements, the auditor should include an emphasis-of-matter paragraph¹ in the auditor's report that describes the change in accounting principle and provides a reference to the entity's disclosure. If the criteria in paragraph .07 are not met, the auditor should evaluate whether the accounting change results in a material misstatement and whether the auditor should modify the opinion accordingly.² (Ref: par. .A7–.A9)

.09 The auditor should include an emphasis-of-matter paragraph relating to a change in accounting principle in reports on financial statements in the period of the change, and in subsequent periods, until the new accounting principle is applied in all periods presented. If the change in accounting principle is accounted for by retrospective application to the financial statements of all prior periods presented, the emphasis-of-matter paragraph is needed only in the period of such change.

.10 The auditor should evaluate and report on a change in accounting estimate that is inseparable from the effect of a related change in accounting principle like other changes in accounting principle, as required by paragraphs .08–.09. (Ref: par. .A10)

.11 When a change in the reporting entity results in financial statements that, in effect, are those of a different reporting entity, the auditor should include an emphasis-of-matter paragraph in the auditor's report that describes the change in the reporting entity and provides a reference to the entity's disclosure, unless the change in reporting entity results from a transaction or event. The requirements in paragraph .09 also apply. (Ref: par. .A11)

¹ Paragraphs .06–.07 of section 706A, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

² See section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

.12 If an entity's financial statements contain an investment accounted for by the equity method, the auditor's evaluation of consistency should include consideration of the investee. If the investee makes a change in accounting principle that is material to the investing entity's financial statements, the auditor should include an emphasis-of-matter paragraph in the auditor's report to describe the change in accounting principle. The requirements in paragraph .09 also apply.

Correction of a Material Misstatement in Previously Issued Financial Statements

.13 The auditor should include an emphasis-of-matter paragraph in the auditor's report when there are adjustments to correct a material misstatement in previously issued financial statements. The auditor should include this type of emphasis-of-matter paragraph in the auditor's report when the related financial statements are restated to correct the prior material misstatement. The paragraph need not be repeated in subsequent periods. (Ref: par. .A12–.A13)

.14 The emphasis-of-matter paragraph should include

- a. a statement that the previously issued financial statements have been restated for the correction of a material misstatement in the respective period and
- b. a reference to the entity's disclosure of the correction of the material misstatement. (Ref: par. .A14)

.15 If the financial statement disclosures relating to the restatement to correct a material misstatement in previously issued financial statements are not adequate, the auditor should address the inadequacy of disclosure as described in section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

Change in Classification

.16 The auditor should evaluate a material change in financial statement classification and the related disclosure to determine whether such a change is also either a change in accounting principle or an adjustment to correct a material misstatement in previously issued financial statements. If so, the requirements of paragraphs .07–.15 apply. (Ref: par. .A15–.A16)

Application and Other Explanatory Material

Evaluating Consistency (Ref: par. .05–.06)

.A1 Unless the auditor's report explicitly states otherwise, the auditor's report implies that the auditor is satisfied that the comparability of financial statements between periods has not been materially affected by a change in accounting principle or by adjustments to correct a material misstatement in previously issued financial statements. There may be no effect on comparability between or among periods because either (a) no change in an accounting principle has occurred, or (b) there has been a change in an accounting principle or in the method of application, but the effect of the change on the comparability of the financial statements is not material. When no material effect on comparability results from a change in accounting principle or an adjustment to previously issued financial statements, the auditor need not refer to consistency in the auditor's report.

.A2 The periods covered in the auditor's evaluation of consistency depend on the periods covered by the auditor's opinion on the financial statements. If an entity presents comparative financial statements and has a change in auditors in the current year, the auditor evaluates consistency between the year covered by the auditor's opinion and the immediately preceding year in accordance with the requirements in paragraph .06.

.A3 When an entity accounts for a change in accounting principle by applying the principle to one or more prior periods that were included in previously issued financial statements, as if that principle had always been used (commonly referred to as *retrospective application*), the financial statements presented generally will be consistent. However, the previous periods' financial statements presented with the current period's financial statements will reflect the change in accounting principle and, therefore, will appear different from those previous periods' financial statements on which the auditor previously reported. The evaluation required by paragraph .06 encompasses previously issued financial statements for the relevant periods.

Change in Accounting Principle (Ref: par. .07)

.A4 A change in accounting principle is a change from one accounting principle in accordance with the applicable financial reporting framework to another accounting principle in accordance with the applicable financial reporting framework when (1) two or more accounting principles apply or (2) the accounting principle formerly used is no longer in accordance with the applicable financial reporting framework. A change in the method of applying an accounting principle also is considered a change in accounting principle.

.A5 The applicable financial reporting framework usually sets forth the method of accounting for the effects of a change in accounting principle and the related disclosures.

.A6 The issuance of an accounting pronouncement that requires use of a new accounting principle, interprets an existing principle, expresses a preference for an accounting principle, or rejects a specific principle is sufficient justification for a change in accounting principle, as long as the change in accounting principle is made in accordance with the applicable financial reporting framework.

Reporting on Changes in Accounting Principles (Ref: par. .08-.11)

.A7 The following is an example of an emphasis-of-matter paragraph for a change in accounting principle resulting from the adoption of a new accounting pronouncement:

Emphasis of Matter

As discussed in Note X to the financial statements, in [insert year(s) of financial statements that reflect the accounting method change], the entity adopted new accounting guidance [insert description of new accounting guidance]. Our opinion is not modified with respect to this matter.

.A8 The following is an example of an emphasis-of-matter paragraph when the entity has made a voluntary change in accounting principle (that is, other than a change due to the adoption of a new accounting pronouncement).

Emphasis of Matter

As discussed in Note X to the financial statements, the entity has elected to change its method of accounting for [describe accounting method change] in

[insert year(s) of financial statements that reflect the accounting method change].
Our opinion is not modified with respect to this matter.

.A9 If a change in accounting principle does not have a material effect on the financial statements in the current year but the change is expected to have a material effect in later years, the auditor is not required to recognize the change in the auditor's report in the current year. The applicable financial reporting framework may include a requirement for the entity to disclose such situations in the notes to the financial statements. Section 700, *Forming an Opinion and Reporting on Financial Statements*, section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, as applicable, and section 705 require the auditor to evaluate the appropriateness and adequacy of disclosures in connection with forming an opinion and reporting on the financial statements.³ [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 136.]

.A10 Paragraph .10 requires the auditor to evaluate and report on a change in accounting estimate that is inseparable from the effect of a related change in accounting principle like other changes in accounting principle. It is sometimes difficult to differentiate between a change in an accounting estimate and a change in an accounting principle because the change in accounting estimate may be inseparable from the effect of a related change in accounting principle. For example, when a change is made to the method of depreciation of an asset to reflect a change in the estimated future benefit of the asset or the pattern of consumption for those benefits, such change in accounting may be inseparable from a change in estimate.

Change in Reporting Entity

.A11 A change in reporting entity that results from a transaction or event, such as the creation, cessation, or complete or partial purchase or disposition of a subsidiary or other business unit, does not require recognition in the auditor's report. Examples of a change in the reporting entity that is not a result of a transaction or event include

- a. presenting consolidated or combined financial statements in place of financial statements of individual entities.
- b. changing specific subsidiaries that make up the group of entities for which consolidated financial statements are presented.
- c. changing the entities included in combined financial statements.

Correction of a Material Misstatement in Previously Issued Financial Statements (Ref: par. .13–.14)

.A12 A change from an accounting principle that is not in accordance with the applicable financial reporting framework to one that is in accordance with the applicable financial reporting framework is a correction of a misstatement.

.A13 Section 560, *Subsequent Events and Subsequently Discovered Facts*, addresses the auditor's responsibilities when adjustments have been made to correct a material misstatement in previously issued financial statements.

³ Paragraph .15 of section 700, *Forming an Opinion and Reporting on Financial Statements*, paragraph .40 of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, and paragraphs .07 and .A7 of section 705. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 136.]

Reporting on a Correction of a Material Misstatement in Previously Issued Financial Statements

.A14 The following is an example of an emphasis-of-matter paragraph when there has been a correction of a material misstatement in previously issued financial statements:

Emphasis of Matter

As discussed in Note X to the financial statements, the 20X2 financial statements have been restated to correct a misstatement. Our opinion is not modified with respect to this matter.

Change in Classification (Ref: par. .16)

.A15 Changes in classification in previously issued financial statements do not require recognition in the auditor's report unless the change represents the correction of a material misstatement or a change in accounting principle. For example, certain reclassifications in previously issued financial statements, such as reclassifications of debt from long-term to short-term or reclassifications of cash flows from the operating activities category to the financing activities category, might occur because those items were classified incorrectly in the previously issued financial statements. In such situations, the reclassification also is the correction of a misstatement.

.A16 In some cases, changes in classification in previously issued financial statements may result from changes in the entity's business or operating structure. The auditor may need to obtain a further understanding of the underlying rationale for such reclassifications to determine whether the requirements of paragraph .16 apply.

AU-C Section 720

The Auditor's Responsibilities Relating to Other Information Included in Annual Reports

Source: SAS No. 137; SAS No. 141.

Effective for audits of financial statements for periods ending on or after December 15, 2021.

NOTE

In October 2021, the Auditing Standards Board (ASB) issued Statement on Auditing Standards (SAS) No. 145, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, which contains amendments to this section.

The amendments are effective for audits of financial statements for periods ending on or after December 15, 2023, and can be viewed in appendix G of section 315 until the effective date, when they will be applied to this section.

In June 2022, the ASB issued SAS No. 146, *Quality Management for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, which contains amendments to this section.

The amendments are effective for engagements conducted in accordance with generally accepted auditing standards for periods beginning on or after December 15, 2025, and can be viewed in the appendix of section 220 until the effective date, when they will be applied to this section.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibilities relating to other information, whether financial or nonfinancial information (other than financial statements and the auditor's report thereon), included in an entity's annual report. An entity's annual report may be a single document or a combination of documents that serve the same purpose.

.02 This section also may be applied, and adapted as necessary in the circumstances, to other documents to which the auditor, at management's request, devotes attention. (Ref: par. .A1–.A3)

.03 This section is written in the context of an audit of financial statements by an independent auditor. Accordingly, the objectives of the auditor in this section are to be understood in the context of the overall objectives of the auditor as stated in section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.¹ The requirements in the standards are designed to enable the auditor to achieve the objectives specified in the standards, and thereby the overall

¹ Paragraph .12 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.

objectives of the auditor. The auditor's opinion on the financial statements does not cover the other information, nor does this section require the auditor to obtain audit evidence beyond that required to form an opinion on the financial statements.

.04 This section requires the auditor to read and consider the other information because other information that is materially inconsistent with the financial statements or the auditor's knowledge obtained in the audit may indicate that a material misstatement of the financial statements or that a material misstatement of the other information exists, either of which may undermine the credibility of the financial statements and the auditor's report thereon.

.05 Other information may include amounts or other items that are intended to be the same as, to summarize, or to provide greater detail about amounts or other items in the financial statements and other amounts or other items about which the auditor has obtained knowledge in the audit. Other information may include nonfinancial information.

.06 The auditor's responsibilities relating to other information, other than applicable reporting requirements, apply regardless of whether the other information is obtained by the auditor prior to or after the date of the auditor's report.

.07 The auditor's responsibilities under this section do not constitute an assurance engagement on other information or impose an obligation on the auditor to obtain assurance about the other information.

.08 Law or regulation may impose additional obligations on the auditor in relation to other information that are beyond the scope of this section.

.09 This section does not apply to supplemental information addressed by section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, or required supplementary information addressed by section 730, *Required Supplementary Information*. (Ref: par. .A2)

Effective Date

.10 This section is effective for audits of financial statements for periods ending on or after December 15, 2021. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 141.]

Objectives

.11 The objectives of the auditor, having read the other information, are as follows:

- a. To consider whether a material inconsistency exists between the other information and the financial statements
- b. To remain alert for indications that
 - i. a material inconsistency exists between the other information and the auditor's knowledge obtained in the audit or
 - ii. a material misstatement of fact exists or the other information is otherwise misleading
- c. To respond appropriately when the auditor identifies that such material inconsistencies appear to exist, or when the auditor otherwise becomes aware that other information appears to be materially misstated
- d. To report in accordance with this section

Definitions

.12 For purposes of the auditing standards, the following terms have the meanings attributed:

Annual report. A document, or combination of documents, typically prepared on an annual basis by management or those charged with governance in accordance with law, regulation, or custom, the purpose of which is to provide owners (or similar stakeholders) with information on the entity's operations and the entity's financial results and financial position as set out in the financial statements. An annual report contains, accompanies, or incorporates by reference the financial statements and the auditor's report thereon and usually includes information about the entity's developments, its future outlook and risks and uncertainties, a statement by the entity's governing body, and reports covering governance matters. Annual reports include annual reports of governments and organizations for charitable or philanthropic purposes that are available to the public. (Ref: par. .A4–.A10)

Misstatement of the other information. A misstatement of the other information exists when the other information is incorrectly stated or otherwise misleading. (Ref: par. .A11–.A12)

Other information. Financial or nonfinancial information (other than financial statements and the auditor's report thereon) included in an entity's annual report. (Ref: par. .A13)

Requirements

Obtaining the Other Information

.13 The auditor should do the following: (Ref: par. .A14–.A24)

- a. Through discussion with management, determine and obtain management's written acknowledgment regarding which document or documents comprise the annual report and the entity's planned manner and timing of the issuance of such documents.
- b. Make appropriate arrangements with management to obtain in a timely manner and, if possible, prior to the date of the auditor's report, the final version of the document or documents comprising the annual report.
- c. When some or all the documents determined in (a) will not be available until after the date of the auditor's report on the financial statements, request management to provide a written representation that the final version of the documents will be provided to the auditor when available, and prior to the document's issuance by the entity, such that the auditor can complete the procedures required by this section. (Ref: par. .A23–.A24)

.14 If the auditor becomes aware that the entity did not provide the auditor with the final version of documents determined in accordance with paragraph .13a to be part of the annual report prior to the issuance of those documents to third parties, the auditor should take appropriate action. (Ref: par. .A25)

Communication With Those Charged With Governance

.15 The auditor should communicate with those charged with governance the auditor's responsibility with respect to other information, the procedures performed related to the other information, and the results.

Reading and Considering the Other Information

.16 The auditor should read the other information and consider whether a material inconsistency exists between the other information and the financial statements. As the basis for this consideration, to evaluate their consistency, the auditor should compare selected amounts or other items in the other information (that are intended to be the same as, to summarize, or to provide greater detail about the amounts or other items in the financial statements) with such amounts or other items in the financial statements. (Ref: par. .A26–.A32)

.17 While reading the other information in accordance with paragraph .16, the auditor should remain alert for indications that (Ref: par. .A33–.A42)

- a. a material inconsistency exists between the other information and the auditor's knowledge obtained in the audit.
- b. a material misstatement of fact exists or the other information is otherwise misleading.

.18 The auditor is not responsible for searching for omitted information or for the completeness of the other information.

Responding When a Material Inconsistency Appears to Exist or Other Information Appears to Be Materially Misstated

.19 If the auditor identifies that a material inconsistency appears to exist (or becomes aware that the other information appears to be materially misstated), the auditor should discuss the matter with management and, if necessary, perform other procedures to conclude the following: (Ref: par. .A43–.A47)

- a. Whether a material misstatement of the other information exists
- b. Whether a material misstatement of the financial statements exists
- c. Whether the auditor's understanding of the entity and its environment needs to be updated

Responding When the Auditor Concludes That a Material Misstatement of the Other Information Exists

.20 If the auditor concludes that a material misstatement of the other information exists, the auditor should request management to correct the other information and

- a. if management agrees to make the correction, determine that the correction has been made.
- b. if management refuses to make the correction, communicate the matter to those charged with governance and request that the correction be made.

.21 If the auditor concludes that a material misstatement exists in other information obtained prior to the date of the auditor's report, and the other information is not corrected after communicating with those charged with governance, the auditor should (Ref: par. .A48)

- a. consider the implications for the auditor's report and communicate to those charged with governance about how the auditor plans to address the material misstatement in the auditor's report (see paragraph .24cii); (Ref: par. .A49)
- b. withhold the auditor's report; or (Ref: par. .A51)
- c. withdraw from the engagement, when withdrawal is possible under applicable law or regulation. (Ref: par. .A50–.A51)

.22 If the auditor concludes that a material misstatement exists in other information obtained after the date of the auditor's report, the auditor should do the following:

- a. If the other information is corrected, perform the procedures necessary in the circumstances. (Ref: par. .A52)
- b. If the other information is not corrected after communicating with those charged with governance, take appropriate action considering the auditor's legal rights and obligations to seek to have the uncorrected material misstatement appropriately brought to the attention of anyone in receipt of the financial statements and the auditor's report. (Ref: par. .A53–.A54)

Responding When a Material Misstatement in the Financial Statements Exists or the Auditor's Understanding of the Entity and Its Environment Needs to Be Updated

.23 If, as a result of performing the procedures in paragraphs .16–.18, the auditor concludes that a material misstatement in the financial statements exists or the auditor's understanding of the entity and its environment needs to be updated, the auditor should respond appropriately in accordance with other relevant AU-C sections. (Ref: par. .A55)

Reporting

.24 At the date of the auditor's report, when the auditor has obtained all the other information, the composition of which was determined through discussion with management and for which the auditor obtained management's written acknowledgment (pursuant to paragraph .13a), the auditor should include a separate section in the auditor's report on the financial statements with the heading "Other Information" or other appropriate heading. The "Other Information" section in the auditor's report on the financial statements should include the following: (Ref: par. .A56)

- a. A statement that management is responsible for the other information
- b. An identification of other information and a statement that the other information does not include the financial statements and the auditor's report thereon
- c. A statement that the auditor's opinion on the financial statements does not cover the other information and that the auditor does not express an opinion or any form of assurance thereon
- d. A statement that, in connection with the audit of the financial statements, the auditor is responsible to read the other information and consider whether a material inconsistency exists

between the other information and the financial statements or the other information otherwise appears to be materially misstated

- e. A statement that, if, based on the work performed, the auditor concludes that an uncorrected material misstatement of the other information exists, the auditor is required to describe it in the auditor's report
- f. If the auditor has concluded that an uncorrected material misstatement of the other information exists, a statement that the auditor has concluded that an uncorrected material misstatement of the other information exists and a description of it in the auditor's report

.25 When the auditor expresses a qualified or adverse opinion in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*, the auditor should consider the implications of the matter giving rise to the modification of opinion for the statement required in paragraph .24f of this section. (Ref: par. .A57–.A61)

Documentation

.26 In addressing the requirements in section 230, *Audit Documentation*,² as those requirements apply to this section, the auditor should include the following in the audit documentation:

- a. The procedures performed under this section
- b. The final version of the other information on which the auditor has performed the work required under this section

Application and Other Explanatory Material

Scope of This Section (Ref: par. .02 and .09)

.A1 In instances in which the auditor applies this section to other documents to which the auditor, at management's request, devotes attention, the requirements of this section are applicable, adapted as necessary in the circumstances.

.A2 Other AU-C sections provide requirements and guidance with respect to information in certain documents other than annual reports. For example, section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*; section 945, *Auditor Involvement With Exempt Offering Documents*; and Statement on Auditing Standards No. 136, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA* (sec. 703).³

.A3 This section also addresses other information for which a designated accounting standard setter⁴ has issued standards or guidance regarding the

² Paragraphs .08–.11 of section 230, *Audit Documentation*.

³ Statement on Auditing Standards No. 136, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA* (sec. 703), is effective for audits of financial statements for periods ending on or after December 15, 2021.

⁴ Designated accounting standards setter is defined in paragraph .04 of section 730, *Required Supplementary Information*.

format to be used and content to be included when such information is voluntarily presented in an annual report — for example, GASB Statement No. 44, *Economic Condition Reporting: The Statistical Section*.

Definitions

Annual Report (Ref: par. .12)

.A4 Law, regulation, or custom may define the content of an annual report and the name by which it is to be referred.

.A5 An annual report is typically prepared on an annual basis. However, when the financial statements being audited are prepared for a period less than or more than a year, an annual report may also be prepared that covers the same period as the financial statements.

.A6 In some cases, an entity's annual report may be a single document and referred to by the title "Annual Report" or by some other title. In other cases, law, regulation, or custom may require the entity to report to owners (or similar stakeholders) information on the entity's operations and the entity's financial results and financial position as set out in the financial statements (that is, an annual report) by way of a single document or by way of two or more separate documents that, in combination, serve the same purpose.

.A7 An annual report may be made available to users in printed form, or electronically, including on the entity's website. A document (or combination of documents) may meet the definition of an *annual report*, irrespective of the manner in which it is made available to users.

.A8 An annual report is different in nature, purpose, and content from other reports, such as a report prepared to meet the information needs of a specific stakeholder group or a report prepared to comply with a specific regulatory reporting objective (even when such a report is required to be publicly available). Examples of reports that, when issued as stand-alone documents, are not typically part of the combination of documents that comprise an annual report (subject to law, regulation, or custom), and, therefore, are not other information within the scope of this section, include the following:

- IRS Form 990, *Return of Organization Exempt From Income Tax*
- IRS Form 5500, *Annual Return/Report of Employee Benefit Plan*
- Annual statement filed with National Association of Insurance Commissioners
- Separate industry or regulatory reports (for example, capital adequacy reports), such as those prepared in the banking, insurance, and pension industries
- Corporate social responsibility reports
- Sustainability reports
- Diversity and equal opportunity reports
- Product responsibility reports
- Labor practices and working conditions reports
- Human rights reports

.A9 Though a document may be referred to as an *annual report*, such document may not meet the definition of an *annual report* for purposes of this section.

Considerations Specific to Governmental Entities

.A10 The term *annual reports of governments* is intended to include comprehensive annual financial reports or other annual financial reports that include the government's financial statements and the auditor's report thereon.

Misstatement of the Other Information (Ref: par. .12)

.A11 A misstatement of the other information may be

- an inconsistency;
- a misstatement of fact; or
- information that is otherwise misleading, including because it omits or obscures information necessary for a user to appropriately understand a matter disclosed in the other information.

An inconsistency exists when other information conflicts with information contained in the financial statements. A material inconsistency may raise doubt about the audit conclusions drawn from audit evidence previously obtained and, possibly, about the basis for the auditor's opinion on the financial statements. A misstatement of fact exists when other information that is unrelated to matters appearing in the financial statements is incorrectly stated or presented. A material misstatement of fact may undermine the credibility of the annual report. Information that is otherwise misleading, including because it omits or obscures information necessary for a user to appropriately understand a matter disclosed in the other information, could result in a material misstatement of the other information.

.A12 The concept of materiality may be discussed in a framework applicable to the other information and, if so, such a framework may provide a frame of reference for the auditor in making judgments about materiality under this section. In many cases, however, there may be no applicable framework that includes a discussion of the concept of materiality as it applies to the other information. In such circumstances, the following characteristics provide the auditor with a frame of reference in determining if a misstatement of the other information is material:

- Materiality is considered in the context of the common information needs of users as a group. The users of the other information are expected to be the same as the users of the financial statements because such users may be expected to read the other information to provide context to the financial statements.
- Judgments about materiality take into account the specific circumstances of the misstatement, considering whether users would be influenced by the effect of the uncorrected misstatement. Not all misstatements will influence the economic decisions of users.
- Judgments about materiality involve both qualitative and quantitative considerations. Accordingly, such judgments may take into account the nature or magnitude of the items that the other information addresses in the context of the entity's annual report.

Other Information (Ref: par. .12)

.A13 The following are examples of amounts and other items that may be included in other information. This list is not intended to be exhaustive:

- Management report, management commentary, or operating and financial review or similar reports by those charged with governance (for example, a directors' report)
- Chairman's statement
- Corporate governance statement
- Management's internal control and risk assessment reports
- Financial summaries or highlights
- Employment data
- Planned capital expenditures
- Financial ratios
- Names of officers and directors
- Selected quarterly data

Obtaining the Other Information (Ref: par. .13–.14)

.A14 Determining the document or documents that comprise the annual report is often clear based on law, regulation, or custom. In many cases, management or those charged with governance may have customarily issued a package of documents that, together, comprise the annual report or may have committed to do so. In some cases, it may not be clear which documents comprise the annual report. In such cases, the timing and purpose of the documents (and for whom they are intended) are matters that may be relevant to the auditor's determination of which documents are the annual report.

.A15 In accordance with paragraph .13a, management's written acknowledgment may be included in the engagement letter, an amendment to the engagement letter, a representation letter, or some other written communication.

.A16 Management, or those charged with governance, is responsible for preparing the annual report. The auditor may communicate the following to management or those charged with governance:

- The auditor's expectations in relation to obtaining the final version of the annual report (including a combination of documents that, together, comprise the annual report) in a timely manner prior to the date of the auditor's report such that the auditor can complete the procedures required by this section before the date of the auditor's report, or if that is not possible, as soon as practicable and, in any case, prior to the entity's issuance of such information
- The possible implications when the other information is obtained after the date of the auditor's report

.A17 The communications referred to in paragraph .A16 may be particularly appropriate in the following instances:

- In an initial audit engagement
- When there has been a change in management or those charged with governance
- When other information is expected to be obtained after the date of the auditor's report

.A18 When those charged with governance are to approve the other information prior to its issuance by the entity, the final version of such other information is the version that has been approved by those charged with governance for issuance.

.A19 In some cases, the entity's annual report may be a single document to be released, in accordance with law or regulation or the entity's reporting practice, shortly after the entity's financial reporting period such that it is available to the auditor prior to the date of the auditor's report. In other cases, such a document may not be required to be released until a later time, or at a time of the entity's choosing. There may also be circumstances in which the entity's annual report is a combination of documents, each subject to different requirements or reporting practices by the entity with respect to the timing of their release.

.A20 Obtaining the other information in a timely manner prior to the date of the auditor's report enables any revisions that are found to be necessary to the financial statements, the auditor's report, or the other information prior to their issuance. The audit engagement letter⁵ may make reference to an agreement with management to make available to the auditor the other information in a timely manner, and, if possible, prior to the date of the auditor's report.

.A21 When other information is made available to users only via the entity's website, the version of the other information obtained from the entity, rather than directly from the entity's website, is the relevant document on which the auditor would perform procedures in accordance with this section. The auditor has no responsibility in accordance with this section to search for other information, including other information that may be on the entity's website, nor to perform any procedures to confirm that other information is appropriately displayed on the entity's website or otherwise has been appropriately transmitted or displayed electronically.

.A22 The auditor is not precluded from dating or issuing the auditor's report if the auditor has not obtained some or all of the other information.

.A23 When the other information is obtained after the date of the auditor's report, the auditor is not required to update the procedures performed in accordance with section 560, *Subsequent Events and Subsequently Discovered Facts*.⁶

.A24 Section 580, *Written Representations*, establishes requirements and provides guidance on the use of written representations. The written representation regarding other information that will be available only after the date of the auditor's report is intended to support the auditor's ability to complete the procedures required by this section with respect to such information. In addition, the auditor may find it useful to request other written representations, such as the following:

- That management has informed the auditor of all the documents that it expects to issue that may be other information
- That the financial statements and any other information obtained by the auditor prior to the date of the auditor's report are consistent with one another, and the other information does not contain any material misstatements

⁵ Paragraph .A23 of section 210A, *Terms of Engagement*.

⁶ Paragraphs .09–.11 of section 560, *Subsequent Events and Subsequently Discovered Facts*.

- With regard to other information that has not been obtained by the auditor prior to the date of the auditor's report, that management intends to prepare and issue such other information and the expected timing of such issuance

.A25 In accordance with paragraph .14, appropriate actions that the auditor may take include the following:

- Obtaining those documents from management and performing the procedures required by this section as soon as practical
- Communicating the matter to those charged with governance, if applicable
- Considering the need to obtain legal advice

Reading and Considering the Other Information (Ref: par. .16–.17)

.A26 Section 200⁷ requires the auditor to plan and perform the audit with professional skepticism. Maintaining professional skepticism when reading and considering the other information includes, for example, recognizing that management may be overly optimistic about the success of its plans.

.A27 In accordance with section 220A, *Quality Control for an Engagement Performed in Accordance With Generally Accepted Auditing Standards*,⁸ the engagement partner is required to take responsibility for the direction, supervision, and performance of the audit engagement in compliance with professional standards and applicable legal and regulatory requirements. In the context of this section, factors that may be considered when determining the appropriate engagement team members to address the requirements of paragraphs .16–.17 of this section include the following:

- The relative experience of engagement team members
- Whether the engagement team members have the relevant knowledge obtained in the audit to identify inconsistencies between the other information and that knowledge
- The degree of judgment involved in addressing the requirements of paragraphs .16–.17 of this section, for example, performing procedures to evaluate the consistency of amounts in the other information that are intended to be the same as amounts in the financial statements may be carried out by less experienced engagement team members
- Whether, in the case of a group audit, it is necessary to make inquiries of a component auditor in addressing the other information related to that component

.A28 Other information may include amounts or other items that are intended to be the same as, to summarize, or to provide greater detail about the amounts or other items in the financial statements. Examples of such amounts or other items may include the following:

- Tables, charts, or graphs containing extracts of the financial statements

⁷ Paragraph .17 of section 200.

⁸ Paragraph .17a of section 220A, *Quality Control for an Engagement Performed in Accordance With Generally Accepted Auditing Standards*.

- A disclosure providing greater detail about a balance or account shown in the financial statements, such as "Revenue for 20X1 was XXX million from product X and YYY million from product Y"
- Descriptions of the financial results, such as "Total research and development expense was XXX in 20X1"

.A29 In evaluating the consistency of selected amounts or other items in the other information with the financial statements, the auditor is not required to compare all amounts or other items in the other information that are intended to be the same as, to summarize, or to provide greater detail about the amounts or other items in the financial statements, with such amounts or other items in the financial statements.

.A30 Selecting the amounts or other items to compare is a matter of professional judgment. Factors relevant to this judgment include the following:

- The significance of the amount or other item in the context in which it is presented, which may affect the importance that users would attach to the amount or other item (for example, a key ratio or amount)
- If quantitative, the relative size of the amount compared with accounts or items in the financial statements or the other information to which they relate
- The sensitivity of the particular amount or other item in the other information, for example, share-based payments for senior management

.A31 Determining the nature and extent of procedures to address the requirement in paragraph .16 is a matter of professional judgment, recognizing that the auditor's responsibilities under this section do not constitute an assurance engagement on the other information or impose an obligation to obtain assurance about the other information. Examples of such procedures include the following:

- For information that is intended to be the same as information in the financial statements, comparing the information to the financial statements
- For information intended to convey the same meaning as disclosures in the financial statements, comparing the words used and considering the significance of differences in wording used and whether such differences imply different meanings
- Obtaining a reconciliation between an amount within the other information and the financial statements from management
- Comparing items in the reconciliation to the financial statements and the other information
- Checking whether the calculations within the reconciliation are arithmetically accurate

.A32 Evaluating the consistency of selected amounts or other items in the other information with the financial statements includes, when relevant given the nature of the other information, the manner of their presentation compared to the financial statements.

.A33 Other information may include amounts or items that are related to the auditor's knowledge obtained in the audit (other than those in paragraph .16). Examples of such amounts or items may include the following:

- A disclosure of the units produced or a table summarizing such production by geographical region
- A statement that "the company introduced product X and product Y during the year"
- A summary of the locations of the entity's major operations, such as "the entity's major center of operation is in country X, and there are also operations in countries Y and Z"

.A34 The auditor's knowledge obtained in the audit includes the auditor's understanding of the entity and its environment, including the entity's internal control, obtained in accordance with section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.⁹ Section 315A sets out the auditor's required understanding, which includes such matters as obtaining an understanding of the following:

- a. The relevant industry, regulatory, and other external factors
- b. The nature of the entity
- c. The entity's selection and application of accounting policies
- d. The entity's objectives and strategies
- e. The measurement and review of the entity's financial performance
- f. The entity's internal control

.A35 The auditor's knowledge obtained in the audit may also include matters that are prospective in nature. Such matters may include, for example, business prospects and future cash flows that the auditor considered when evaluating the assumptions used by management in performing impairment tests on intangible assets such as goodwill, or when evaluating management's evaluation of whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.

.A36 In the case of a group audit, though the group auditor is required to read the entirety of the other information if, in accordance with section 600, *Special Considerations — Audits of Group Financial Statements (Including the Work of Component Auditors)*,¹⁰ the group auditor decides to make reference to a component auditor in the auditor's report on the group financial statements, the group auditor's knowledge does not extend beyond that obtained by the group auditor during the audit of the group financial statements.

.A37 While remaining alert for indications that a material inconsistency exists between the other information and the auditor's knowledge obtained in the audit, the auditor may focus on those matters in the other information that are of sufficient importance that a misstatement of the other information in relation to those matters could be material.

.A38 In relation to many matters in the other information, the auditor's recollection of the audit evidence obtained and conclusions reached during the audit may be sufficient to enable the auditor to consider whether a material inconsistency exists between the other information and the auditor's knowledge obtained in the audit. For example, the auditor may be able to consider whether

⁹ Paragraphs .12–.13 of section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

¹⁰ Paragraph .24 of section 600, *Special Considerations — Audits of Group Financial Statements (Including the Work of Component Auditors)*

a material inconsistency exists between the other information and the auditor's knowledge obtained in the audit in light of the auditor's recollection of discussions held with management or those charged with governance or findings from procedures carried out during the audit, such as the reading of board minutes, without the need to take further action.

.A39 The manner in which an auditor resolves a concern regarding whether other information is materially inconsistent with the auditor's knowledge obtained in the audit, is a matter of professional judgment. The auditor may determine that referring to relevant audit documentation or making inquiries of relevant members of the engagement team or relevant component auditors is appropriate as a basis for the auditor's consideration of whether a material misstatement exists. Whether, and if so, the extent to which, the auditor refers to relevant audit documentation or makes inquiries of relevant members of the engagement team or relevant component auditors is a matter of professional judgment.

.A40 It may not be necessary for the auditor to refer to relevant audit documentation or to make inquiries of relevant members of the engagement team or relevant component auditors about any matter included in the other information. This may be the case, for example, when the group auditor decides to make reference to a component auditor in the auditor's report in accordance with section 600,¹¹ and the group auditor has obtained sufficient knowledge in connection with the group audit about matters in the other information relating to the significant component with respect to which the component auditor has performed an audit of the financial statements.

.A41 Other information may include discussion of matters that are not related to the financial statements and may also extend beyond the auditor's knowledge obtained in the audit. For example, the other information may include statements about the entity's greenhouse gas emissions.

.A42 Remaining alert for indications that a material misstatement of fact exists or the other information is otherwise misleading could potentially result in the auditor identifying such matters as the following:

- Information that omits or obscures information necessary for a user to appropriately understand a matter disclosed in the other information
- Differences between the other information and the general knowledge, apart from the knowledge obtained in the audit, of the engagement team member reading the other information that leads the auditor to believe that the other information appears to be materially misstated
- An internal inconsistency in the other information that leads the auditor to believe that the other information appears to be materially misstated

Responding When a Material Inconsistency Appears to Exist or Other Information Appears to Be Materially Misstated (Ref: par. .19)

.A43 The auditor's discussion with management about a material inconsistency (or other information that appears to be materially misstated) may

¹¹ Paragraph .24 of section 600.

include requesting management to provide support for the basis of management's statements in the other information. Based on management's further information or explanations, the auditor may be satisfied that the other information is not materially misstated. For example, management's explanations may indicate reasonable and sufficient grounds for valid differences of judgment.

.A44 Conversely, the discussion with management may provide further information that supports the auditor's conclusion that a material misstatement of the other information exists.

.A45 It may be more difficult for the auditor to challenge management on matters of judgment than on those of a more factual nature. However, there may be circumstances in which the auditor concludes that the other information contains a statement that is not consistent with the financial statements or the auditor's knowledge obtained in the audit. These circumstances may raise doubt about the other information, the financial statements, or the auditor's knowledge obtained in the audit.

.A46 Because there is a wide range of possible material misstatements of the other information, the nature and extent of other procedures the auditor may perform to conclude whether a material misstatement of the other information exists are matters of the auditor's professional judgment in the circumstances.

.A47 When a matter is unrelated to the financial statements or the auditor's knowledge obtained in the audit, the auditor may not be able to fully assess management's responses to the auditor's inquiries. Nevertheless, based on management's further information or explanations, or following changes made by management to the other information, the auditor may be satisfied that a material inconsistency no longer appears to exist or that the other information no longer appears to be materially misstated. When the auditor is unable to conclude that a material inconsistency no longer appears to exist or that the other information no longer appears to be materially misstated, the auditor may request management to consult with a qualified third party (for example, management's expert or legal counsel). In certain cases, after considering the responses from management's consultation, the auditor may not be able to conclude whether a material misstatement of the other information exists. Actions the auditor may then take include one or more of the following:

- Obtaining advice from the auditor's legal counsel
- Considering the implications for the auditor's report, for example, whether to describe the circumstances when there is a limitation imposed by management
- Withdrawing from the audit, when withdrawal is possible under applicable law or regulation

Responding When the Auditor Concludes That a Material Misstatement of the Other Information Exists

Responding When the Auditor Concludes That a Material Misstatement Exists in Other Information Obtained Prior to the Date of the Auditor's Report (Ref: par. .21)

.A48 The actions the auditor takes if the other information is not corrected after communicating with those charged with governance are a matter of the

auditor's professional judgment. The auditor may consider whether the rationale given by management and those charged with governance for not making the correction raises doubt about the integrity or honesty of management or those charged with governance, such as when the auditor suspects an intention to mislead. The auditor may also consider it appropriate to seek legal advice. In some cases, the auditor may be required by law, regulation, or other professional standards to communicate the matter to a regulator or relevant professional body.

Reporting Implications (Ref: par. .21a)

.A49 In rare circumstances, a disclaimer of opinion on the financial statements may be appropriate when the refusal to correct the material misstatement of the other information casts such doubt on the integrity of management and those charged with governance that it calls into question the reliability of audit evidence in general.

Withdrawal From the Engagement (Ref: par. .21c)

.A50 Withdrawal from the engagement, when withdrawal is possible under applicable law or regulation, may be appropriate when the circumstances surrounding the refusal to correct the material misstatement of the other information cast such doubt on the integrity of management and those charged with governance that it calls into question the reliability of representations obtained from them during the audit.

Considerations Specific to Governmental Entities (Ref: par. .21b–c)

.A51 In audits of governmental entities, withdrawal from the engagement or withholding the auditor's report may not be possible under law or regulation. In such cases, the auditor may issue a report or written communication to those charged with governance and the appropriate statutory body, if applicable, giving details of the material misstatement.

Responding When the Auditor Concludes That a Material Misstatement Exists in Other Information Obtained After the Date of the Auditor's Report (Ref: par. .22)

.A52 If the auditor concludes that a material misstatement exists in other information obtained after the date of the auditor's report, and such a material misstatement has been corrected, the auditor's procedures necessary in the circumstances include determining that the correction has been made (in accordance with paragraph .20a) and may include reviewing the steps taken by management to communicate with those in receipt of the other information, if previously issued, to inform them of the revision.

.A53 If those charged with governance do not agree to revise the other information, taking appropriate action to seek to have the uncorrected misstatement appropriately brought to the attention of anyone in receipt of the financial statements and the auditor's report requires the exercise of professional judgment and may be affected by relevant law or regulation in the jurisdiction. Accordingly, the auditor may consider it appropriate to seek legal advice about the auditor's legal rights and obligations.

.A54 When a material misstatement of the other information remains uncorrected, appropriate actions that the auditor may take to seek to have the uncorrected material misstatement appropriately brought to the attention of anyone in receipt of the financial statements and the auditor's report, when permitted by law or regulation, include, for example, the following:

- Providing a new or amended auditor's report to management, including a modified section in accordance with paragraph .25, and requesting management to provide this new or amended auditor's report to anyone in receipt of the financial statements and the auditor's report. In doing so, the auditor may need to consider the effect, if any, on the date of the new or amended auditor's report, in view of the requirements of GAAS or applicable law or regulation. The auditor may also review the steps taken by management to provide the new or amended auditor's report to such users.
- Bringing the material misstatement of the other information to the attention of known users of the financial statements and the auditor's report.
- Communicating with a regulator or relevant professional body about the uncorrected material misstatement.
- Considering the implications for engagement continuance (see also paragraph .A51).

Responding When a Material Misstatement in the Financial Statements Exists or the Auditor's Understanding of the Entity and Its Environment Needs to Be Updated (Ref: par. .23)

.A55 In reading the other information, the auditor may become aware of new information that has implications for the following:

- The auditor's understanding of the entity and its environment, which may indicate the need to revise the auditor's risk assessment¹²
- The auditor's responsibility to evaluate the effect of identified misstatements on the audit and of uncorrected misstatements, if any, on the financial statements¹³
- The auditor's responsibilities relating to subsequent events¹⁴

Reporting (Ref: par. .24–.25)

.A56 Illustrative examples of the "Other Information" section in the auditor's report are included in the exhibit.

Reporting Implications When the Auditor's Opinion on the Financial Statements Is Qualified or Adverse (Ref: par. .25)

.A57 A qualified or adverse auditor's opinion on the financial statements may not have an impact on the statement required by paragraph .24f if the matter with respect to the auditor's opinion has been modified is not included or otherwise addressed in the other information, and the matter does not affect any part of the other information. For example, a qualified opinion on the financial statements because of nondisclosure of directors' remuneration as required by the applicable financial reporting framework may have no implications for the reporting required under this section. In other circumstances, there may be implications for such reporting as described in paragraphs .A58–.A61.

¹² Paragraphs .11, .31, and .A1 of section 315A.

¹³ Section 450, *Evaluation of Misstatements Identified During the Audit*.

¹⁴ Paragraphs .10 and .14 of section 560.

Qualified Opinion Due to a Material Misstatement in the Financial Statements

.A58 In circumstances in which the auditor's opinion is qualified, consideration may be given to whether the other information is also materially misstated for the same matter as, or a matter related to, the matter giving rise to the qualified opinion on the financial statements.

Qualified Opinion Due to Limitation of Scope

.A59 When there is a limitation of scope with respect to a material item in the financial statements, the auditor will not have obtained sufficient appropriate audit evidence about that matter. In these circumstances, the auditor may be unable to conclude whether the amounts or other items in the other information related to this matter result in a material misstatement of the other information. Accordingly, the auditor may need to modify the statement required by paragraph .24f to refer to the auditor's inability to consider management's description of the matter in the other information with respect to which the auditor's opinion on the financial statements has been qualified, as explained in the Basis for Qualified Opinion paragraph. The auditor is, nevertheless, required to report any other uncorrected material misstatements of the other information that have been identified.

Adverse Opinion

.A60 An adverse opinion on the financial statements relating to a specific matter or matters described in the Basis for Adverse Opinion paragraph does not justify the omission of reporting of material misstatements of the other information that the auditor has identified in the auditor's report in accordance with paragraph .24f. When an adverse opinion has been expressed on the financial statements, the auditor may need to appropriately modify the statement required by paragraph .24f, for example, to indicate that amounts or items in the other information are materially misstated for the same matter as, or a related matter to, the matter giving rise to the adverse opinion on the financial statements.

Disclaimer of Opinion

.A61 When the auditor disclaims an opinion on the financial statements, providing further details about the audit, including a section to address other information, may overshadow the disclaimer of opinion on the financial statements as a whole. Accordingly, in those circumstances, as required by section 705,¹⁵ the auditor's report does not include a section addressing the reporting requirements under this section.

¹⁵ Paragraph .30 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

Exhibit — Illustrations of Other Information Sections to Be Included in Auditor's Reports Relating to Other Information Included in the Annual Report

Illustration 1 — The auditor has not identified an uncorrected material misstatement of the other information.

Illustration 2 — The auditor has concluded that an uncorrected material misstatement of the other information exists.

Illustration 1: The Auditor Has Not Identified an Uncorrected Material Misstatement of the Other Information

Other Information [Included in the Annual Report]

Management is responsible for the other information [*included in the annual report*]. The other information comprises the [*information included in the annual report*]¹ but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

¹ A more specific description of the other information, such as "the management report and chairman's statement," may be used to identify the other information.

Illustration 2: The Auditor Has Concluded That an Uncorrected Material Misstatement of the Other Information Exists***Other Information [Included in the Annual Report]***

Management is responsible for the other information [*included in the annual report*]. The other information comprises the [*information included in the annual report*]² but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report. As described below, we have concluded that such an uncorrected material misstatement of the other information exists.

[Description of material misstatement of the other information]

AU-C Section 725

Supplementary Information in Relation to the Financial Statements as a Whole

(With SAS No. 118 supersedes SAS No. 29.)

Source: SAS No. 119; SAS No. 122; SAS No. 125; SAS No. 136; SAS No. 137; SAS No. 140.

See section 9725 for interpretations of this section.

Effective for audits of financial statements for periods beginning on or after December 15, 2010, unless otherwise indicated. Early application is permitted.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility when engaged to report on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. The information covered by this section is presented outside the basic financial statements and is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. This section also may be applied, with the report wording adapted as necessary, when an auditor has been engaged to report on whether required supplementary information¹ is fairly stated, in all material respects, in relation to the financial statements as a whole. When the auditor is performing an audit of an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, applies. Accordingly, the requirements in paragraph .09 of this section are replaced by the requirements in section 703, for such audits only. (Ref: par. .A1–.A6) [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 136.]

Effective Date

.02 This section is effective for audits of financial statements for periods beginning on or after December 15, 2010. Early application is permitted.

Objective

.03 The objective of the auditor, when engaged to report on supplementary information in relation to the financial statements as a whole, is to

¹ Required supplementary information is defined in paragraph .04 of section 730, *Required Supplementary Information*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

- a. evaluate the presentation of the supplementary information in relation to the financial statements as a whole and
- b. report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Definition

.04 For purposes of generally accepted auditing standards, the following term has the meaning attributed as follows:

Supplementary information. Information presented outside the basic financial statements, excluding required supplementary information that is not considered necessary for the financial statements to be fairly presented in accordance with the applicable financial reporting framework. Such information may be presented in a document containing the audited financial statements or separate from the financial statements. (Ref: par. .A7–.A8)

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Requirements

Procedures to Determine Whether Supplementary Information Is Fairly Stated, in All Material Respects, in Relation to the Financial Statements as a Whole (Ref: par. .A9–.A15)

.05 In order to opine on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, the auditor should determine that all of the following conditions are met:

- a. The supplementary information was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements.
- b. The supplementary information relates to the same period as the financial statements.
- c. The auditor issued an audit report on the financial statements that contained neither an adverse opinion nor a disclaimer of opinion. (Paragraph .11 addresses reporting while not opining on supplementary information when the report on the financial statements contains an adverse opinion or a disclaimer of opinion.)
- d. The supplementary information will accompany the entity's audited financial statements, or such audited financial statements will be made readily available by the entity. (Ref: par. .A9)

[Revised, April 2012 and January 2013, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.06 The auditor should obtain the agreement of management that it acknowledges and understands its responsibility

- a. for the preparation of the supplementary information in accordance with the applicable criteria.

- b. to provide the auditor with the written representations described in paragraph .07g.
- c. to include the auditor's report on the supplementary information in any document that contains the supplementary information and that indicates that the auditor has reported on such supplementary information.
- d. to present the supplementary information with the audited financial statements or, if the supplementary information will not be presented with the audited financial statements, to make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by the entity of the supplementary information and the auditor's report thereon. (Ref: par. .A9)

.07 In addition to the procedures performed during the audit of the financial statements, in order to opine on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, the auditor should perform the following procedures using the same materiality level used in the audit of the financial statements:

- a. Inquire of management about the purpose of the supplementary information and the criteria used by management to prepare the supplementary information, such as an applicable financial reporting framework, criteria established by a regulator, a contractual agreement, or other requirements
- b. Determine whether the form and content of the supplementary information complies with the applicable criteria
- c. Obtain an understanding about the methods of preparing the supplementary information and determine whether the methods of preparing the supplementary information have changed from those used in the prior period and, if the methods have changed, the reasons for such changes
- d. Compare and reconcile the supplementary information to the underlying accounting and other records used in preparing the financial statements or to the financial statements themselves
- e. Inquire of management about any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information
- f. Evaluate the appropriateness and completeness of the supplementary information, considering the results of the procedures performed and other knowledge obtained during the audit of the financial statements (Ref: par. .A13)
- g. Obtain written representations from management
 - i. that it acknowledges its responsibility for the presentation of the supplementary information in accordance with the applicable criteria;
 - ii. that it believes the supplementary information, including its form and content, is fairly presented in accordance with the applicable criteria;
 - iii. that the methods of measurement or presentation have not changed from those used in the prior period or, if the methods of measurement or presentation have changed, the reasons for such changes;

- iv. about any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information; and
- v. that when the supplementary information is not presented with the audited financial statements, management will make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by the entity of the supplementary information and the auditor's report thereon. (Ref: par. .A9)

.08 The auditor has no responsibility for the consideration of subsequent events with respect to the supplementary information. However, if information comes to the auditor's attention

- a. prior to the release of the auditor's report on the financial statements regarding subsequent events that affect the financial statements, or
- b. subsequent to the release of the auditor's report on the financial statements regarding facts that, had they been known to the auditor at the date of the auditor's report, may have caused the auditor to revise the auditor's report,

the auditor should apply the relevant requirements in section 560, *Subsequent Events and Subsequently Discovered Facts*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Reporting

.09 When the entity presents the supplementary information with the financial statements, the auditor should report on the supplementary information in either (a) a separate section in the auditor's report on the financial statements with the heading "Supplementary Information," or other appropriate heading, or (b) in a separate report on the supplementary information.^[2] The supplementary information section in the auditor's report on the financial statements or separate report should include the following elements:

- a. A statement that the audit was conducted for the purpose of forming an opinion on the financial statements as a whole
- b. A statement that the supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements
- c. A statement that the supplementary information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements
- d. A statement that the supplementary information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and

^[2] [Footnote deleted by the issuance of SAS No. 140, April 2020.]

other additional procedures, in accordance with auditing standards generally accepted in the United States of America

- e. If the auditor issues an unmodified opinion on the financial statements and the auditor has concluded that the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, a statement that, in the auditor's opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole
- f. If the auditor issues a qualified opinion on the financial statements and the qualification has an effect on the supplementary information, a statement that, in the auditor's opinion, except for the effects on the supplementary information of (refer to the paragraph in the auditor's report explaining the qualification), such information is fairly stated, in all material respects, in relation to the financial statements as a whole

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

.10 When the audited financial statements are not presented with the supplementary information, the auditor should report on the supplementary information in a separate report. When reporting separately on the supplementary information, the report should include, in addition to the elements in paragraph .09, a reference to the report on the financial statements, the date of that report, the nature of the opinion expressed on the financial statements, and any report modifications. (Ref: par. A16)

.11 When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion and the auditor has been engaged to report on whether supplementary information is fairly stated, in all material respects, in relation to such financial statements as a whole, the auditor is precluded from expressing an opinion on the supplementary information. When permitted by law or regulation, the auditor may withdraw from the engagement to report on the supplementary information. If the auditor does not withdraw, the auditor's report on the supplementary information should state that because of the significance of the matter disclosed in the auditor's report, it is inappropriate to, and the auditor does not, express an opinion on the supplementary information.

.12 The date of the auditor's report on the supplementary information in relation to the financial statements as a whole should not be earlier than the date on which the auditor completed the procedures required in paragraph .07.

.13 If the auditor concludes, on the basis of the procedures performed, that the supplementary information is materially misstated in relation to the financial statements as a whole, the auditor should discuss the matter with management and propose appropriate revision of the supplementary information. If management does not revise the supplementary information, the auditor should either

- a. modify the auditor's opinion on the supplementary information and describe the misstatement in the auditor's report or
- b. if a separate report is being issued on the supplementary information, withhold the auditor's report on the supplementary information.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 The auditor's responsibility for information that a designated accounting standard setter³ requires to accompany an entity's basic financial statements is addressed in section 730, *Required Supplementary Information*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A2 The auditor's responsibility relating to other information whether financial or nonfinancial information (other than the financial statements and the auditor's report thereon), included in an entity's annual report, excluding required supplementary information, is addressed in section 720, *The Auditor's Responsibilities Relating to Other Information Included in Annual Reports*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 137.]

.A3 The supplementary information need not be presented with the audited financial statements in order for the auditor to express an opinion on whether such supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. However, in accordance with paragraph .10, if the supplementary information is not presented with the audited financial statements, the auditor's report on the supplementary information is required to make reference to the auditor's report on the financial statements.

.A4 The auditor may be engaged to audit a specified element, account, or item of a financial statement for the purpose of a separate presentation, in accordance with section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*. In such an engagement, the auditor's procedures are designed to provide the auditor with reasonable assurance that the supplementary information is not misstated by an amount that would be material to the information itself. An engagement to examine the supplementary information or an assertion related to the supplementary information also may be performed in accordance with AT-C section 205, *Examination Engagements*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

.A5 Although an auditor has no obligation to apply auditing procedures to supplementary information presented outside the basic financial statements, the auditor may choose to modify or redirect certain of the procedures to be applied in the audit of the basic financial statements so that the auditor may express an opinion on the supplementary information in relation to the financial statements as a whole.

.A6 Management may include nonaccounting information and accounting information that is not directly related to the basic financial statements in a document containing the basic financial statements. Ordinarily, such information would not have been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, the auditor would be

³ *Designated accounting standards setter* is defined in paragraph .04 of section 730. [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

unable to opine on the information in relation to the financial statements as a whole. In some circumstances, however, such information may have been obtained or derived from accounting records that have been tested by the auditor (for example, number of units produced related to royalties under a license agreement or number of employees related to a given payroll period). Accordingly, the auditor may be in a position to express an opinion on such information in relation to the financial statements as a whole.

Definition (Ref: par. .04)

.A7 Supplementary information includes additional details or explanations of items in or related to the basic financial statements, consolidating information, historical summaries of items extracted from the basic financial statements, statistical data, and other material, some of which may be from sources outside the accounting system or outside the entity.

.A8 Supplementary information may be prepared in accordance with an applicable financial reporting framework, by regulatory or contractual requirements, in accordance with management's criteria, or in accordance with other requirements.

Procedures to Determine Whether Supplementary Information Is Fairly Stated, in All Material Respects, in Relation to the Financial Statements as a Whole (Ref: par. .05–.08)

The Meaning of Readily Available (Ref: par. .05e, .06d, and .07f)

.A9 Audited financial statements are deemed to be readily available if a third party user can obtain the audited financial statements without any further action by the entity. For example, financial statements on an entity's website may be considered readily available, but being available upon request is not considered readily available.

Procedures Performed on Supplementary Information (Ref: par. .07)

.A10 When engaged to report on supplementary information in relation to the financial statements as a whole, the auditor need not apply procedures as extensive as would be necessary to express an opinion on the information on a stand-alone basis.

.A11 With respect to the supplementary information, the auditor is not required to obtain a separate understanding of the entity's internal control or to assess fraud risk.

.A12 The auditor may consider materiality in determining which information to compare and reconcile to the underlying accounting and other records used in preparing the financial statements or to the financial statements themselves.

.A13 In evaluating the appropriateness and completeness of the supplementary information as required by paragraph 07f, the auditor may consider testing accounting or other records through observation or examination of source documents or other procedures ordinarily performed in an audit of the financial statements.

.A14 The auditor may consider whether it is appropriate to address the supplementary information in procedures that the auditor performs in auditing the financial statements, including, but not limited to, the following:

- a. Obtaining an updated representation letter, in accordance with section 580, *Written Representations*⁴
- b. Performing subsequent events procedures, in accordance with section 560
- c. Sending a letter of audit inquiry to the client's lawyer specifically regarding the information contained in the supplementary information, in accordance with section 501, *Audit Evidence—Specific Considerations for Selected Items*⁵

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Considerations Specific to Audits of Governmental Entities

.A15 For most state and local governments, the auditor's report on the financial statements includes multiple opinions to address individual reporting units or aggregation of reporting units of the governmental entity. Accordingly, materiality is considered by the auditor for each opinion unit. However, in the context of this section, the auditor's opinion on the supplementary information is in relation to the financial statements as a whole. Accordingly, in this situation, materiality is considered at a level that represents the entire governmental entity.

Reporting (Ref: par. .09–.13)

.A16 When reporting on supplementary information in a separate report, the auditor may consider including an alert that restricts the use of the separate report solely to the appropriate specified parties, in accordance with section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, to avoid potential misinterpretation or misunderstanding of the supplementary information that is not presented with the financial statements. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

⁴ Paragraph .A24 of section 580, *Written Representations*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

⁵ Paragraphs .18–.24 of section 501, *Audit Evidence—Specific Considerations for Selected Items*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Exhibit—Illustrative Reporting Examples When the Auditor Is Reporting on Supplementary Information in Relation to the Financial Statements as a Whole

Illustration 1 — Supplementary Information Section in the Auditor's Report on the Financial Statements When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information

Illustration 2 — Supplementary Information Section in the Auditor's Report on the Financial Statements When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information

Illustration 3 — Supplementary Information Section in the Auditor's Report on the Financial Statements When the Auditor Is Disclaiming an Opinion on the Financial Statements

Illustration 4 — Supplementary Information Section in the Auditor's Report on the Financial Statements When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

Illustration 5 — A Separate Report When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information

Illustration 6 — A Separate Report When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information

Illustration 7 — A Separate Report When the Auditor Is Disclaiming an Opinion on the Financial Statements

Illustration 8 — A Separate Report When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

Illustration 1 — Supplementary Information Section in the Auditor's Report on the Financial Statements When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The [*identify accompanying supplementary information*] is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Illustration 2 — Supplementary Information Section in the Auditor's Report on the Financial Statements When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The *[identify accompanying supplementary information]* is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effect on the supplementary information of *[describe reason for qualification of the auditor's opinion on the financial statements and reference the other-matter paragraph]*, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Illustration 3 — Supplementary Information Section in the Auditor's Report on the Financial Statements When the Auditor Is Disclaiming an Opinion on the Financial Statements

We were engaged for the purpose of forming an opinion on the basic financial statements as a whole. The [*identify accompanying supplementary information*] is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described above [*the auditor may describe the basis for the disclaimer of opinion*], it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

Illustration 4 — Supplementary Information Section in the Auditor's Report on the Financial Statements When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The [*identify accompanying supplementary information*] is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described above [*the auditor may describe the basis for the adverse opinion*], it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

Illustration 5—A Separate Report When the Auditor Is Issuing an Unmodified Opinion on the Financial Statements and an Unmodified Opinion on the Supplementary Information

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated *[date of the auditor's report on the financial statements]* which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The *[identify supplementary information]* is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Illustration 6—A Separate Report When the Auditor Is Issuing a Qualified Opinion on the Financial Statements and a Qualified Opinion on the Supplementary Information

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated *[date of the auditor's report on the financial statements, the nature of the opinion expressed on the financial statements, and a description of the report modifications]*. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The *[identify supplementary information]* is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effect on the accompanying information of the qualified opinion on the financial statements as described above, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Illustration 7—A Separate Report When the Auditor Is Disclaiming an Opinion on the Financial Statements

We were engaged to audit the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated *[date of the auditor's report on the financial statements]*. However, the scope of our audit of the financial statements was not sufficient to enable us to express an opinion because *[describe reasons]* and accordingly we did not express an opinion on such financial statements. The *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Because of the significance of the matter discussed above, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

Illustration 8—A Separate Report When the Auditor Is Issuing an Adverse Opinion on the Financial Statements

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated *[date of the auditor's report on the financial statements]* which stated that the financial statements are not presented fairly in accordance with *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America [GAAP])]* because *[describe reasons]*. The *[identify the supplementary information]* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Because of the significance of the matter discussed above, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

AU-C Section 9725***Supplementary Information in Relation to the Financial Statements as a Whole: Auditing Interpretations of Section 725*****1. Dating the Auditor's Report on Supplementary Information**

.01 Question—In accordance with section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, the auditor's report on supplementary information should not be dated earlier than the date on which the auditor completed the procedures required by section 725.¹ When the auditor completes those procedures subsequent to the date of the auditor's report on the audited financial statements, the auditor is not required to obtain additional evidence with respect to the audited financial statements. When reporting on the supplementary information (either in a separate report or in a separate section within the auditor's report on the financial statements) after the date of the auditor's report on the financial statements, how may an auditor make it clear that no additional procedures were performed on the audited financial statements subsequent to the date of the auditor's report on those financial statements?

.02 Interpretation—Although not required, an auditor may

- a. when issuing a separate report on the supplementary information, include in such report a statement that the auditor has not performed any auditing procedures with respect to the audited financial statements subsequent to the date of the auditor's report on those audited financial statements (see paragraph .03 of this interpretation), or
- b. when reissuing a report on the audited financial statements to include a separate section to report on the supplementary information, include two report dates to indicate that the date of reporting on the supplementary information is as of the later date (see paragraph .04 of this interpretation).

.03 The following illustrative separate report on supplementary information includes additional language intended to make it clear that no procedures were performed subsequent to the date of the auditor's report on the audited financial statements.

Independent Auditor's Report on [Identify Supplementary Information]

[Appropriate Addressee]

We have audited the financial statements of XYZ Entity as of and for the year ended June 30, 20X1, and have issued our report thereon dated [date of the

¹ Paragraph .12 of section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*.

auditor's report on the financial statements, for example, "September 15, 20X1"] which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. We have not performed any procedures with respect to the audited financial statements subsequent to [date of the auditor's report on the financial statements, for example, "September 15, 20X1"].

The [identify supplementary information] is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

[Auditor's signature]

[Auditor's city and state]

December 1, 20X1 [Date of the auditor's report on the supplementary information—not to be earlier than the date on which the auditor completed the procedures required by section 725]²

.04 The following illustrative report on the audited financial statements includes a separate section to report on supplementary information subsequent to the date of the report on the audited financial statements. For this illustration, March 31, 20X2, is the original date of the report on the audited financial statements.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheets as of December 31, 20X1 and 20X0, and the related statements of income, changes in stockholders' equity and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1 and 20X0, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities,

² Paragraph .07 of section 725.

in accordance with relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing these financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.³
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about

³ In circumstances in which the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Report on *[Identify Supplementary Information]*

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The *[identify accompanying supplementary information]* is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

[Auditor's signature]

[Auditor's city and state]

March 31, 20X2, except for our report on the supplementary information for which the date is June 1, 20X2 [Date of the auditor's report on the audited financial statements, with a later date used for the paragraph labeled "Report on *[identify supplementary information]*," which is as of a date not earlier than the date on which the auditor completed the procedures required by paragraph .07 of section 725.

[Issue Date: July 2011; Revised: October 2011.]

AU-C Section 730

Required Supplementary Information

(Supersedes SAS No. 52 section 558.)

Source: SAS No. 120; SAS No. 122; SAS No. 137; SAS No. 140.

Effective for audits of financial statements for periods beginning on or after December 15, 2010, unless otherwise indicated. Early application is permitted.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility with respect to information that a designated accounting standards setter requires to accompany an entity's basic financial statements (hereinafter referred to as *required supplementary information*). In the absence of any separate requirement in the particular circumstances of the engagement, the auditor's opinion on the basic financial statements does not cover required supplementary information. (Ref: par. .A1) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Effective Date

.02 This section is effective for audits of financial statements for periods beginning on or after December 15, 2010. Early application is permitted.

Objective

.03 The objectives of the auditor when a designated accounting standards setter requires information to accompany an entity's basic financial statements are to perform specified procedures in order to

- a. describe, in the auditor's report, whether required supplementary information is presented and
- b. communicate therein when some or all of the required supplementary information has not been presented in accordance with guidelines established by a designated accounting standards setter or when the auditor has identified material modifications that should be made to the required supplementary information for it to be in accordance with guidelines established by the designated accounting standards setter.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Definitions

.04 For purposes of this section, the following terms have the meanings attributed as follows:

Applicable financial reporting framework. The financial reporting framework adopted by management and, when appropriate, those charged with governance in the preparation and fair presentation of the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements, or that is required by law or regulation.

Basic financial statements. Financial statements presented in accordance with an applicable financial reporting framework as established by a designated accounting standards setter, excluding required supplementary information.

Designated accounting standards setter. A body designated by the Council of the AICPA to promulgate GAAP pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct.

Prescribed guidelines. The authoritative guidelines established by the designated accounting standards setter for the methods of measurement and presentation of the required supplementary information.

Required supplementary information. Information that a designated accounting standards setter requires to accompany an entity's basic financial statements. Required supplementary information is not part of the basic financial statements; however, a designated accounting standards setter considers the information to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, authoritative guidelines for the methods of measurement and presentation of the information have been established.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

Requirements

Procedures

.05 The auditor should apply the following procedures to required supplementary information:

- a. Inquire of management about the methods of preparing the information, including (i) whether it has been measured and presented in accordance with prescribed guidelines, (ii) whether methods of measurement or presentation have been changed from those used in the prior period and the reasons for any such changes, and (iii) whether there were any significant assumptions or interpretations underlying the measurement or presentation of the information
- b. Compare the information for consistency with (i) management's responses to the foregoing inquiries, (ii) the basic financial statements, and (iii) other knowledge obtained during the audit of the basic financial statements

- c. Obtain written representations from management (i) that it acknowledges its responsibility for the required supplementary information; (ii) about whether the required supplementary information is measured and presented in accordance with prescribed guidelines; (iii) about whether the methods of measurement or presentation have changed from those used in the prior period and, if so, the reasons for such changes; and (iv) about any significant assumptions or interpretations underlying the measurement or presentation of the required supplementary information¹

.06 If the auditor is unable to complete the procedures in paragraph .05, the auditor should consider whether management contributed to the auditor's inability to complete the procedures. If the auditor concludes that the inability to complete the procedures was due to significant difficulties encountered in dealing with management, the auditor should inform those charged with governance.²

Reporting

.07 The auditor should include a separate section in the auditor's report on the financial statements with the heading "Required Supplementary Information," or other appropriate heading.^[3] The required supplementary information section in the auditor's report on the financial statements should include language to explain the following circumstances, as applicable:

- a. The required supplementary information is included, and the auditor has applied the procedures in paragraph .05 of this section.
- b. The required supplementary information is omitted.
- c. Some required supplementary information is missing and some is presented in accordance with the prescribed guidelines.
- d. The auditor has identified material departures from the prescribed guidelines.
- e. The auditor is unable to complete the procedures in paragraph .05 of this section.
- f. The auditor has unresolved doubts about whether the required supplementary information is presented in accordance with prescribed guidelines.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

.08 If the entity has presented all or some of the required supplementary information, the required supplementary information section in the auditor's report on the financial statements referred to in paragraph .07 should include the following elements: (Ref: par. .A2)

¹ See section 580, *Written Representations*, for additional requirements and guidance with respect to obtaining written representations from management as part of an audit of financial statements performed in accordance with generally accepted auditing standards. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

² See paragraph .12 of section 260, *The Auditor's Communication With Those Charged With Governance*, for additional guidance when the auditor encounters significant difficulties in dealing with management during the audit. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

^[3] [Footnote deleted by the issuance of SAS No. 140, April 2020.]

- a. A statement that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require that the *[identify the required supplementary information]* be presented to supplement the basic financial statements
- b. A statement that such information is the responsibility of management and, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. If the auditor is able to complete the procedures in paragraph .05,
 - i. a statement that the auditor has applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to the auditor's inquiries, the basic financial statements, and other knowledge the auditor obtained during the audit of the basic financial statements
 - ii. a statement that the auditor does not express an opinion or provide any assurance on the information because the limited procedures do not provide the auditor with sufficient evidence to express an opinion or provide any assurance
- d. If the auditor is unable to complete the procedures in paragraph .05,
 - i. a statement that the auditor was unable to apply certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States because *[state the reasons]*
 - ii. a statement that the auditor does not express an opinion or provide any assurance on the information
- e. If some of the required supplementary information is omitted,
 - i. a statement that management has omitted *[description of the missing required supplementary information]* that *[identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)]* require to be presented to supplement the basic financial statements
 - ii. a statement that such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
 - iii. a statement that the auditor's opinion on the basic financial statements is not affected by the missing information
- f. If the measurement or presentation of the required supplementary information departs materially from the prescribed guidelines, a statement that although the auditor's opinion on the basic financial statements is not affected, material departures from

prescribed guidelines exist [*describe the material departures from the applicable financial reporting framework*]

- g. If the auditor has unresolved doubts about whether the required supplementary information is measured or presented in accordance with prescribed guidelines, a statement that although the auditor's opinion on the basic financial statements is not affected, the results of the limited procedures have raised doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by [*identify designated accounting standards setter*]

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

.09 If all of the required supplementary information is omitted, the required supplementary information section in the auditor's report on the financial statements should include the following elements:

- a. A statement that management has omitted [*description of the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements
- b. A statement that such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*], who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context
- c. A statement that the auditor's opinion on the basic financial statements is not affected by the missing information

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 The auditor's responsibility relating to other information whether financial or nonfinancial information (other than the financial statements and the auditor's report thereon), included in an entity's annual report, excluding required supplementary information, is addressed in section 720, *The Auditor's Responsibilities Relating to Other Information Included in Annual Reports*. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 137.]

Reporting (Ref: par. .07–.09)

.A2 Because the required supplementary information accompanies the basic financial statements, the auditor's report on the financial statements

includes a discussion of the responsibility taken by the auditor on that information. However, because the required supplementary information is not part of the basic financial statements, the auditor's opinion on the fairness of presentation of such financial statements in accordance with the applicable financial reporting framework is not affected by the presentation by the entity of the required supplementary information or the failure to present some or all of such required supplementary information. Furthermore, if the required supplementary information is omitted by the entity, the auditor does not have a responsibility to present that information.

.A3

Exhibit — Examples of Required Supplementary Information Sections in the Auditor's Report on the Financial Statements

Illustration 1 — The Required Supplementary Information Is Included, the Auditor Has Applied the Specified Procedures, and No Material Departures From Prescribed Guidelines Have Been Identified

Illustration 2 — All Required Supplementary Information Omitted

Illustration 3 — Some Required Supplementary Information Is Omitted and Some Is Presented in Accordance With the Prescribed Guidelines

Illustration 4 — Material Departures From Prescribed Guidelines Identified

Illustration 5 — Specified Procedures Not Completed

Illustration 6 — Unresolved Doubts About Whether the Required Supplementary Information Is in Accordance With Prescribed Guidelines

Illustration 1 — The Required Supplementary Information Is Included, the Auditor Has Applied the Specified Procedures, and No Material Departures From Prescribed Guidelines Have Been Identified

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that the *[identify the required supplementary information]* on page XX be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Illustration 2 — All Required Supplementary Information Omitted

Management has omitted [*describe the missing required supplementary information*] that [*identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)*] require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by [*identify designated accounting standards setter*] who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Illustration 3 — Some Required Supplementary Information Is Omitted and Some Is Presented in Accordance With the Prescribed Guidelines

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that *[identify the included supplementary information]* be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Management has omitted *[describe the missing required supplementary information]* that *[identify the applicable financial reporting framework]* require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Illustration 4 — Material Departures From Prescribed Guidelines Identified

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that the *[identify the supplementary information]* on page XX be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. Although our opinion on the basic financial statements is not affected, the following material departures from the prescribed guidelines exist *[identify the required supplementary information and describe the material departures from the prescribed guidelines]*. We do not express an opinion or provide any assurance on the information.

Illustration 5 — Specified Procedures Not Completed

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that the *[identify the supplementary information]* on page XX be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We were unable to apply certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America because *[state the reasons]*. We do not express an opinion or provide any assurance on the information.

Illustration 6 — Unresolved Doubts About Whether the Required Supplementary Information Is in Accordance With Prescribed Guidelines

[Identify the applicable financial reporting framework (for example, accounting principles generally accepted in the United States of America)] require that the *[identify the supplementary information]* on page XX be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by *[identify designated accounting standards setter]* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. Although our opinion on the basic financial statements is not affected, the results of the limited procedures have raised doubts about whether material modifications should be made to the required supplementary information for it to be presented in accordance with guidelines established by *[identify designated accounting standards setter]*. *[The auditor may consider including in the report the reason(s) he or she was unable to resolve his or her doubts.]*

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

AU-C Section 800

Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks

Source: SAS No. 122; SAS No. 125; SAS No. 127; SAS No. 132; SAS No. 139.

Effective for audits of financial statements for periods ending on or after December 15, 2012, unless otherwise indicated.

Introduction

Scope of This Section

.01 AU-C sections 200–700 apply to an audit of financial statements. This section addresses special considerations in the application of those AU-C sections to an audit of financial statements prepared in accordance with a special purpose framework, which is a cash, a tax, a regulatory, a contractual, or an other basis of accounting. This section does not purport to address all special considerations that may be relevant in the circumstances. (Ref: par. .A1–.A5) [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. As amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.02 This section is written in the context of a complete set of financial statements prepared in accordance with a special purpose framework. Section 805, *Special Considerations — Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*, addresses special considerations relevant to an audit of a single financial statement or of a specific element, account, or item of a financial statement.

.03 Section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, applies to audits of special purpose financial statements, as discussed in paragraph .14 of this section. [As amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.04 Section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*, addresses the auditor's responsibility and the form and content of the report when the auditor is requested to report on the entity's compliance with aspects of contractual agreements or regulatory requirements in connection with the audit of financial statements.

Effective Date

.05 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objective

.06 The objective of the auditor, when applying generally accepted auditing standards (GAAS) in an audit of financial statements prepared in accordance with a special purpose framework, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement,
- b. the planning and performance of that engagement, and
- c. forming an opinion and reporting on the financial statements.

Definitions

.07 For purposes of GAAS, the following terms have the meanings attributed as follows:

Special purpose financial statements. Financial statements prepared in accordance with a special purpose framework.

Special purpose framework. A financial reporting framework other than generally accepted accounting principles (GAAP) that is one of the following bases of accounting: (Ref: par. .A6)

- a. **Cash basis.** A basis of accounting that the entity uses to record cash receipts and disbursements and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets).
- b. **Tax basis.** A basis of accounting that the entity uses to file its tax return for the period covered by the financial statements.
- c. **Regulatory basis.** A basis of accounting that the entity uses to comply with the requirements or financial reporting provisions of a regulatory agency to whose jurisdiction the entity is subject (for example, a basis of accounting that insurance companies use pursuant to the accounting practices prescribed or permitted by a state insurance commission).
- d. **Contractual basis.** A basis of accounting that the entity uses to comply with an agreement between the entity and one or more third parties other than the auditor.
- e. **Other basis.** A basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements.

The cash basis, tax basis, regulatory basis, and other basis of accounting are commonly referred to as *other comprehensive bases of accounting*.

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. As amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.08 Reference to *financial statements* in this section means "a complete set of special purpose financial statements."¹ The requirements of the applicable

¹ Paragraphs .14 and .A9 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.

financial reporting framework determine the presentation, structure, and content of the financial statements and what constitutes a complete set of financial statements. [As amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.09 Reference to *GAAP* in GAAS means generally accepted accounting principles promulgated by bodies designated by the Council of the AICPA (Council) pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct. [Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014. As amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Requirements

Considerations When Accepting the Engagement

Acceptability of the Financial Reporting Framework (Ref: par. .A7–.A10)

.10 Section 210A, *Terms of Engagement*, requires the auditor to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements.² In an audit of special purpose financial statements, the auditor should obtain an understanding of

- a. the purpose for which the financial statements are prepared,
- b. the intended users, and
- c. the steps taken by management to determine that the applicable financial reporting framework is acceptable in the circumstances.

Preconditions for an Audit (Ref: par. .A11)

.11 Section 210A requires the auditor to establish whether the preconditions for an audit are present, including determining whether the financial reporting framework to be applied in the preparation of the financial statements is acceptable.³ In an audit of special purpose financial statements, the auditor should obtain the agreement of management that it acknowledges and understands its responsibility to include all informative disclosures that are appropriate for the special purpose framework used to prepare the entity's financial statements, including

- a. a description of the special purpose framework, including a summary of significant accounting policies, and how the framework differs from GAAP, the effects of which need not be quantified.
- b. informative disclosures similar to those required by GAAP, in the case of special purpose financial statements that contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP.
- c. a description of any significant interpretations of the contract on which the special purpose financial statements are based, in the

² Paragraph .06a of section 210A, *Terms of Engagement*.

³ Paragraph .06 of section 210A.

case of special purpose financial statements prepared in accordance with a contractual basis of accounting.

- d. additional disclosures beyond those specifically required by the framework that may be necessary for the special purpose financial statements to achieve fair presentation. (Ref: par. .A12)

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127.]

Considerations When Planning and Performing the Audit (Ref: par. .A13–.A17)

.12 Section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, requires the auditor to comply with all AU-C sections relevant to the audit.⁴ In planning and performing an audit of special purpose financial statements, the auditor should adapt and apply all AU-C sections relevant to the audit as necessary in the circumstances of the engagement.

.13 Section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, requires the auditor to obtain an understanding of the entity's selection and application of accounting policies.⁵ In the case of special purpose financial statements prepared in accordance with a contractual basis of accounting, the auditor should obtain an understanding of any significant interpretations of the contract that management made in the preparation of those financial statements. An interpretation is significant when adoption of another reasonable interpretation would have produced a material difference in the information presented in the financial statements.

Auditor's Responsibilities Regarding the Entity's Ability to Continue as a Going Concern

.14 Irrespective of whether the going concern basis of accounting is relevant to the preparation of the special purpose financial statements, the requirements of section 570 apply regarding the auditor's responsibilities to perform the following tasks: (Ref: par. .A18)

- a. Based on the audit evidence obtained, conclude whether, in the auditor's judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time.
- b. When such substantial doubt exists, evaluate the adequacy of the financial statement disclosures.⁶

[Paragraph added, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

⁴ Paragraph .20 of section 200.

⁵ Paragraph .12c of section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

⁶ Paragraphs .20–.22 and .A46 of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*. [Footnote added, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139]

Forming an Opinion and Reporting Considerations

.15 When forming an opinion and reporting on special purpose financial statements, the auditor should apply the requirements in section 700, *Forming an Opinion and Reporting on Financial Statements*, or section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*. When, in forming an opinion, the auditor concludes that a modification to the auditor's opinion on the financial statements is necessary, the auditor should apply the requirements in section 705, *Modifications to the Opinion in the Independent Auditor's Report*. (Ref: par. .A19–.A22) [Paragraph renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Description of the Applicable Financial Reporting Framework (Ref: par. .A23–.A24)

.16 Section 700 requires the auditor to evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework.⁷ In an audit of special purpose financial statements, the auditor should evaluate whether the financial statements are suitably titled, include a summary of significant accounting policies, and adequately describe how the special purpose framework differs from GAAP. The effects of these differences need not be quantified. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.17 In the case of special purpose financial statements prepared in accordance with a contractual basis of accounting, the auditor should also evaluate whether the financial statements adequately describe any significant interpretations of the contract on which the financial statements are based. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Fair Presentation (Ref: par. .A25–.A29)

.18 Section 700 requires the auditor to evaluate whether the financial statements achieve fair presentation.⁸ In an audit of special purpose financial statements when the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, the auditor should evaluate whether

- a. the financial statements include informative disclosures similar to those required by GAAP, and
- b. additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures are necessary for the financial statements to achieve fair presentation.

[Paragraph renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

⁷ Paragraph .15 of section 700, *Forming an Opinion and Reporting on Financial Statements*. [Footnote renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139].

⁸ Paragraph .16 or section 700. [Footnote renumbered by the issuance of SAS No. 139, March 2020.]

Auditor's Report

.19 Section 700 addresses the form and content of the auditor's report, including the specific ordering for certain elements. In the case of an auditor's report on special purpose financial statements

- a. the auditor's report should describe the purpose for which the financial statements are prepared or refer to a note in the special purpose financial statements that contains that information, when the financial statements are prepared in accordance with
 - i. a regulatory or contractual basis of accounting or
 - ii. an other basis of accounting, and the auditor is required to restrict use of the auditor's report pursuant to paragraph .06a–b of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. (Ref: par. .A30)
- b. if management has a choice of financial reporting frameworks in the preparation of the special purpose financial statements, the explanation of management's responsibility for the financial statements should also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. Paragraph subsequently renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Alerting Readers in an Emphasis-of-Matter Paragraph That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework (Ref: par. .A31)

.20 Except for the circumstances described in paragraph .22, the auditor's report on special purpose financial statements should include an *emphasis-of-matter* paragraph,⁹ under an appropriate heading, that includes the following:

- a. A statement that the financial statements are prepared in accordance with a special purpose framework
- b. A reference to the note to the financial statements that describes that framework
- c. A statement that the special purpose framework is a basis of accounting other than GAAP.
- d. When a description of the purpose for which the financial statements are prepared or a reference to a note in the special purpose financial statements that contains that information is required pursuant to paragraph .19a, a statement that, as a result, the financial statements may not be suitable for another purpose.¹⁰

[Paragraph renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

⁹ Paragraphs .06–.07 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

¹⁰ Paragraph .06 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote added, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Restricting the Use of the Auditor's Report in an Other-Matter Paragraph (Ref: par. .A32–.A33)

.21 Except for the circumstances described in paragraph .22, the auditor's report on special purpose financial statements should include an *other-matter* paragraph,¹¹ under an appropriate heading, that restricts¹² the use of the auditor's report when the special purpose financial statements are prepared in accordance with

- a. a contractual basis of accounting,
- b. a regulatory basis of accounting, or
- c. an other basis of accounting when required pursuant to paragraph .06a–b of section 905.

[As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125. As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. Paragraph subsequently renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Regulatory Basis Financial Statements Intended for General Use (Ref: par. .A34)

.22 If the special purpose financial statements are prepared in accordance with a regulatory basis of accounting, and the special purpose financial statements together with the auditor's report are intended for general use, the auditor should not include the *emphasis-of-matter* or *other-matter* paragraphs required by paragraphs .20–.21. Instead, the auditor should express an opinion about whether the special purpose financial statements are presented fairly, in all material respects, in accordance with GAAP. The auditor should also, in a separate paragraph, express an opinion about whether the financial statements are prepared in accordance with the special purpose framework. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Auditor's Report Prescribed by Law or Regulation (Ref: par. .A35–.A38)

.23 If the auditor is required by law or regulation to use a specific layout, form, or wording of the auditor's report, the auditor's report should refer to GAAS only if the auditor's report includes, at a minimum, each of the following elements:

- a. A title that clearly indicates that it is the report of an independent auditor
- b. An addressee
- c. An opinion section that
 - i. identifies the special purpose financial statements that have been audited and

¹¹ Paragraph .07 of section 706. [Footnote renumbered by the issuance of SAS No. 139, March 2020.]

¹² See paragraphs .06a–b and .07 of section 905. [Footnote amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125. Footnote renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

- ii. contains an expression of opinion on the special purpose financial statements and a reference to the special purpose framework used to prepare the financial statements and, if applicable, an opinion on whether the special purpose financial statements are presented fairly, in all material respects, in accordance with GAAP when required by paragraph .22
- d. A description of the purpose for which the financial statements are prepared when required by paragraph .19a
- e. A statement that the auditor is required to be independent of the entity and to meet the auditor's other ethical responsibilities, in accordance with the relevant ethical requirements relating to the audit
- f. When applicable, a section that addresses the reporting requirements in paragraphs .24–.27 of section 570
- g. A description of management's responsibilities for the preparation and fair presentation of the special purpose financial statements that addresses, and is consistent with, the requirements in paragraphs .31–.33 of section 700
- h. A reference to management's responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances when required by paragraph .19b
- i. If applicable, a reference to the law or regulation and a description of the auditor's responsibilities for an audit of financial statements that addresses, and is consistent with, the requirements in paragraphs .35–.37 of section 700
- j. When applicable, a section that addresses the reporting requirements in paragraph .24 of section 720, *The Auditor's Responsibilities Relating to Other Information Included in Annual Reports*
- k. An emphasis-of-matter paragraph that
 - i. when required by paragraph .20
 - (1) indicates that the financial statements are prepared in accordance with a special purpose framework
 - (2) refers to the note to the financial statements that describes that framework
 - (3) states that the special purpose framework is a basis of accounting other than GAAP, and
 - ii. when required by paragraph .20d
 - (1) describes the purpose for which the financial statements are prepared or refers to a note in the special purpose financial statements that contains that information, and
 - (2) states that, as a result, the financial statements may not be suitable for another purpose¹³
- l. An *other-matter* paragraph that restricts the use of the auditor's report when required by paragraph .21
- m. The signature of the auditor's firm

¹³ Paragraph .06 of section 905.

- n. The city and state where the auditor's report is issued
- o. The date of the auditor's report

[Paragraph renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.24 If the prescribed specific layout, form, or wording of the auditor's report is not acceptable or would cause an auditor to make a statement that the auditor has no basis to make, the auditor should reword the prescribed form of report or attach an appropriately worded separate report. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Application and Other Explanatory Material

Introduction

Scope of This Section (Ref: par. .01)

.A1 Special purpose financial statements may be prepared for use by regulatory bodies, the parties to a contract or agreement, or other specified parties. For example, a loan agreement may require the borrower to prepare consolidated financial statements for the lender presented on a contractual basis of accounting, which is not in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) or International Financial Reporting Standards promulgated by the International Accounting Standards Board.

.A2 There may be circumstances in which a regulatory or contractual basis of accounting is based on a general purpose framework, such as U.S. GAAP, established by an authorized or recognized standard-setting organization or by law or regulation, but does not comply with all the requirements of that framework.¹⁴ An example is a contract that requires financial statements to be prepared in accordance with most, but not all, of U.S. GAAP. If the financial statements purport to be prepared in accordance with a general purpose framework and such financial statements are materially misstated due to a departure from that framework, section 705 applies. [As amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.A3 When it is acceptable in the circumstances of the engagement to report, in accordance with this section, on special purpose financial statements that purport to be prepared in accordance with a regulatory or contractual basis of accounting that is based on a general purpose framework, it is inappropriate for the description of the applicable financial reporting framework in the special purpose financial statements to imply that the special purpose framework includes all requirements of, or is the same as, the financial reporting framework on which the special purpose framework is based. In the example of the contract in paragraph .A2, the description of the applicable financial reporting framework would refer to the financial reporting provisions of the contract, rather than make reference to U.S. GAAP. The requirements in paragraphs .20–.22 are designed to avoid misunderstandings about compliance with the general purpose framework. [As amended, effective for audits of financial statements

¹⁴ The term *general purpose framework* is defined in paragraph .10 of section 700. [Footnote renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.A4 Financial statements prepared in accordance with a special purpose framework may be the only financial statements an entity prepares. Such special purpose financial statements may be used by users other than those for whom the financial reporting framework is designed. Despite the broad distribution of the financial statements, the financial statements are still considered to be special purpose financial statements for purposes of GAAS. The requirement in paragraph .20 is designed to avoid misunderstandings about the framework used to prepare the financial statements. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. As amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.A5 Section 910, *Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country*, addresses circumstances in which an auditor practicing in the United States is engaged to report on financial statements that have been prepared in accordance with a financial reporting framework generally accepted in another country not adopted by a body designated by the Council of the AICPA (Council) to promulgate generally accepted accounting principles (GAAP) when such audited financial statements are intended for use outside the United States. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. Paragraph subsequently renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Definitions

Special Purpose Financial Statements and Special Purpose Frameworks **(Ref: par. .07)**

.A6 Certain regulators, including state and local government legislators, regulatory agencies, or departments, require financial statements to be prepared in accordance with a financial reporting framework that is based on a framework promulgated by an authorized or recognized standard-setting organization (for example, FASB or GASB), but does not include all of the requirements of that framework. Such frameworks are regulatory bases of accounting, as described in paragraph .07. In some circumstances, however, the cash or tax basis of accounting may be permitted by a regulator. For purposes of this section, the cash and tax bases of accounting are not regulatory bases of accounting. [Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. Paragraph subsequently renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Considerations When Accepting the Engagement

Acceptability of the Financial Reporting Framework (Ref: par. .10)

.A7 In the case of special purpose financial statements, the financial information needs of the intended users are a factor in determining the acceptability

of the financial reporting framework applied in the preparation of the financial statements. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A8 The applicable financial reporting framework may encompass the financial reporting standards established by an organization that is authorized or recognized to promulgate standards for special purpose financial statements. In that case, those standards will be presumed acceptable for that purpose if the organization follows an established and transparent process involving deliberation and consideration of the views of relevant stakeholders. In some circumstances, law or regulation may prescribe the financial reporting framework to be used by management in the preparation of special purpose financial statements for a certain type of entity. For example, a regulator may establish financial reporting provisions to meet the requirements of that regulator. In the absence of indications to the contrary, such a financial reporting framework is presumed acceptable for special purpose financial statements prepared by such an entity. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A9 The acceptability of the financial reporting framework in the circumstances of the engagement is determined by considering whether the framework exhibits attributes normally exhibited by acceptable financial reporting frameworks. Section 210A discusses the attributes of acceptable financial reporting frameworks, which provide management with an appropriate basis for preparing the financial statements and the auditor with suitable criteria for auditing the financial statements.¹⁵ In the case of a special purpose framework, the relative importance to a particular engagement of each of the attributes normally exhibited by acceptable financial reporting frameworks is a matter of professional judgment. For example, for purposes of establishing the value of net assets of an entity at the date of its sale, the seller and purchaser may have agreed that conservative estimates of allowances for uncollectible accounts receivable are appropriate for their needs, even though such financial information may be biased when compared with financial information prepared in accordance with a general purpose framework. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A10 In the case of financial statements prepared in accordance with a contractual basis of accounting, the parties to the contract or agreement may need to agree on the significant interpretations of the contract on which the special purpose financial statements are based. If agreement cannot be reached, the auditor may determine that the framework is not acceptable. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Preconditions for an Audit (Ref: par. .11)

.A11 Section 210A also requires the agreed-upon terms of the audit engagement to include references to the expected form and content of any reports to be issued by the auditor and a statement that there may be circumstances in which a report may differ from its expected form and content.¹⁶ The auditor may discuss with management and, when appropriate, those charged with governance how an auditor's report on financial statements prepared in accordance with a special purpose framework differs from an auditor's report on financial statements prepared in accordance with a general purpose framework.

¹⁵ Paragraphs .A2–.A3 of section 210A, *Terms of Engagement*. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. Footnote renumbered by the issuance of SAS No. 139, March 2020.]

¹⁶ Paragraph .10f of section 210A.

Discussing the expected form and content of the auditor's report may assist management in understanding its responsibilities related to the audit engagement. [Paragraph renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Achieving Fair Presentation (Ref: par. .11d)

.A12 In accordance with section 700, the auditor's evaluation about whether the financial statements achieve fair presentation in accordance with the applicable financial reporting framework requires consideration of the following:¹⁷

- a. The overall presentation, structure and content of the financial statements
- b. Whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Also see paragraphs .A25–.A29 of this section. [Paragraph renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Considerations When Planning and Performing the Audit (Ref: par. .12–.13)

.A13 Section 200 requires the auditor to comply with (a) relevant ethical requirements relating to financial statement audit engagements and (b) all AU-C sections relevant to the audit. It also requires the auditor to comply with each requirement of an AU-C section unless, in the circumstances of the audit, the entire AU-C section is not relevant or the requirement is not relevant because it is conditional and the condition does not exist. In rare circumstances, the auditor may judge it necessary to depart from a relevant presumptively mandatory requirement in an AU-C section by performing alternative audit procedures to achieve the intent of that requirement.¹⁸ [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A14 An AU-C section is relevant to the audit when the AU-C section is in effect and the circumstances addressed by the AU-C section exist.¹⁹ In an audit of special purpose financial statements, some of the requirements within the relevant AU-C sections may need to be adapted by the auditor. For example, in section 320, *Materiality in Planning and Performing an Audit*, judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group.²⁰ In an audit of special purpose financial statements, those judgments may be

¹⁷ Paragraph .14 of section 200. [Footnote renumbered by the issuance of SAS No. 127, January 2013. Footnote renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

¹⁸ Paragraphs .16, .20, and .24–.26 of section 200. [Footnote renumbered by the issuance of SAS No. 127, January 2013. Footnote subsequently renumbered by the issuance of SAS No. 139, March 2020.]

¹⁹ Paragraph .20 of section 200. [Footnote renumbered by the issuance of SAS No. 127, January 2013. Footnote renumbered by the issuance of SAS No. 127, January 2013. Footnote subsequently renumbered by the issuance of SAS No. 139, March 2020.]

²⁰ Paragraph .02 of section 320, *Materiality in Planning and Performing an Audit*. [Footnote renumbered by the issuance of SAS No. 127, January 2013. Footnote subsequently renumbered by the issuance of SAS No. 139, March 2020.]

based on a consideration of the financial information needs of the intended users. [Paragraph added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132. Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A15 [Paragraph renumbered and deleted by the issuance of SAS No. 139, March 2020.]^[21]

.A16 In the case of special purpose financial statements, such as those prepared in accordance with a contractual basis of accounting, management may agree with the intended users on a threshold below which misstatements identified during the audit will not be corrected or otherwise adjusted. The existence of such a threshold does not relieve the auditor from the requirement to determine materiality in accordance with section 320 for purposes of planning and performing the audit of the special purpose financial statements. With respect to interpretations of the contract on which the special purpose financial statements are based, the auditor may determine that an interpretation is significant based on qualitative considerations. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

.A17 Communication with those charged with governance in accordance with GAAS is based on the relationship between those charged with governance and the financial statements subject to audit, in particular, whether those charged with governance are responsible for overseeing the preparation of those financial statements. In the case of special purpose financial statements, those charged with governance may not have such a responsibility; for example, when the financial information is prepared solely for management's use. In such cases, the requirements of section 260, *The Auditor's Communication With Those Charged With Governance*, may not be relevant to the audit of the special purpose financial statements, except when the auditor is also responsible for the audit of the entity's general purpose financial statements or, for example, has agreed to communicate with those charged with governance of the entity relevant matters identified during the audit of the special purpose financial statements. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

Auditor's Responsibilities Regarding the Entity's Ability to Continue as a Going Concern (Ref: par. .14)

Relevance of Going Concern Basis of Accounting to a Special Purpose Framework

.A18 Special purpose financial statements may or may not be prepared in accordance with an applicable financial reporting framework for which the going concern basis of accounting is relevant. The going concern basis of accounting is relevant to a special purpose framework if the special purpose framework requires management, in specified circumstances, to use a basis of accounting other than the going concern basis of accounting. For example, the AICPA's Financial Reporting Framework for Small- and Medium-Sized Entities requires management to assess whether the going concern basis of accounting is appropriate, and if not, to use the liquidation basis of accounting. In contrast, the

^[21] [Footnote renumbered and deleted by the issuance of SAS No. 139, March 2020.]

cash or tax bases of accounting do not specify any alternative basis of accounting to be considered and, thus, do not require management to assess whether the going concern basis of accounting is appropriate. Therefore, the going concern basis of accounting is not relevant to special purpose financial statements prepared using those bases of accounting. Depending on the applicable financial reporting framework used in the preparation of the special purpose financial statements, the description in the auditor's report of management's responsibilities relating to going concern may need to be adapted as necessary.²² The description in the auditor's report of the auditor's responsibilities may also need to be adapted as necessary depending on how section 570 applies in the circumstances of the engagement.²³ [Paragraph added, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.A19 Appendix A, "Overview of Reporting Requirements," provides an overview of the reporting requirements depending on the special purpose framework. The exhibit, "Illustrations of Auditor's Reports on Special Purpose Financial Statements," contains illustrations of auditor's reports on special purpose financial statements. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

Application of Section 700 or Section 703 When Reporting on Special Purpose Financial Statements

.A20 Paragraph .15 of this section requires the auditor to apply the requirements in section 700 or section 703 when forming an opinion and reporting on special purpose financial statements. In doing so, the auditor is also required to apply the reporting requirements in other AU-C sections and may find the special considerations addressed in paragraphs .A18 and .A21–.A22 of this section helpful. [Paragraph added, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Key Audit Matters

.A21 For audits of special purpose financial statements, section 701, *Communicating Key Audit Matters in the Independent Auditor's Report*, applies only when the auditor is engaged to communicate key audit matters. [Paragraph added, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Other Information

.A22 Section 720 addresses the auditor's responsibilities relating to other information in an entity's annual report. In the context of this section, an annual report is a document or combination of documents, the purpose of which is to provide owners (or similar stakeholders) with information on matters presented in the special purpose financial statements. The term similar stakeholders includes specific users whose financial information needs are met by the special purpose framework used to prepare the special purpose financial statements. When the auditor determines that the entity has issued or plans to issue an annual report, the requirements in section 720 apply to the audit of the special purpose financial statements. [Paragraph added, effective for audits of

²² Paragraph .32b of section 700.

²³ Paragraph .36e of section 700.

financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Forming an Opinion and Reporting Considerations (Ref: par. .14)

Description of the Applicable Financial Reporting Framework (Ref: par. .16–.17)

.A23 Terms such as *balance sheet*, *statement of financial position*, *statement of income*, *statement of operations*, and *statement of cash flows*, or similar unmodified titles, are generally understood to be applicable only to financial statements that are intended to present financial position, results of operations, or cash flows in accordance with GAAP. Accordingly, the auditor is required by paragraph .16 to evaluate whether the financial statements are suitably titled. For example, cash basis financial statements might be titled as a statement of assets and liabilities arising from cash transactions or as a statement of revenue collected and expenses paid; a financial statement prepared on a regulatory basis of accounting might be titled as a statement of income — regulatory basis. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

.A24 The description of how the special purpose framework differs from GAAP ordinarily only includes the material differences between GAAP and the special purpose framework. For example, if several items are accounted for differently under the special purpose framework than they would be under U.S. GAAP, but only the differences in how depreciation is calculated are material, a brief description of the depreciation differences is all that would be necessary, and the remaining differences need not be described. The differences need not be quantified. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

Fair Presentation (Ref: par. .18)

.A25 Financial statements that achieve a fair presentation include all informative disclosures that are appropriate for the applicable financial reporting framework, including matters that affect their use, understanding, and interpretation. Also refer to paragraph .A12. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.A26 When the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP, informative disclosures similar to those required by GAAP are necessary to achieve fair presentation. For example, financial statements prepared on a tax basis or on a modified cash basis of accounting usually reflect depreciation, long-term debt, and owners' equity. Thus, the informative disclosures for depreciation, long-term debt, and owners' equity in such financial statements would be comparable to those in financial statements prepared in accordance with GAAP. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

.A27 Disclosures in special purpose financial statements may substitute qualitative information for some of the quantitative information required by GAAP or may provide information that communicates the substance of those requirements. For example, disclosing estimated percentages of revenues, rather than amounts that GAAP presentations would require, may sufficiently convey the significance of sales or leasing to related parties or major customers. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

.A28 The auditor is also required by paragraph .18*b* to evaluate whether additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures may be necessary for the special purpose financial statements to achieve fair presentation. For example, these disclosures may include matters about related party transactions, restrictions on assets and owners' equity, subsequent events, and significant uncertainties. In such circumstances, the special purpose financial statements would include the same disclosure required by GAAP or disclosure that communicates the substance of those requirements. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

.A29 Appendix B, "Fair Presentation and Adequate Disclosures," provides additional guidance on evaluating the adequacy of disclosures in financial statements prepared in accordance with a special purpose framework, including matters related to the presentation of financial statements. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

Auditor's Report (Ref: par. .18*b*)

.A30 When the special purpose financial statements are prepared in accordance with a regulatory or contractual basis of accounting or an other basis of accounting that requires an alert that restricts the use of the auditor's report pursuant to paragraph .06*a–b* of section 905, the auditor is required by paragraph .19*a* to describe the purpose for which the financial statements are prepared or refer to a note in the financial statements that contains that information. This is necessary to avoid misunderstandings when the special purpose financial statements are used for purposes other than those for which they were intended. The note to the financial statements may also describe any significant interpretations of the contract on which the financial statements are based. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 127. Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

Alerting Readers in an Emphasis-of-Matter Paragraph That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework (Ref: par. .20)

.A31 Special purpose financial statements may be used for purposes other than those for which they were intended. To avoid misunderstandings, paragraph .20 requires the auditor to include an *emphasis-of-matter* paragraph in the auditor's report that alerts users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework and that the basis of accounting is a basis of accounting other than GAAP.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

Restricting the Use of the Auditor's Report in an Other-Matter Paragraph
(Ref: par. .21)

.A32 Special purpose financial statements prepared in accordance with a contractual or regulatory basis of accounting are suitable only for a limited number of users who can be presumed to have an adequate understanding of such bases of accounting. For example, special purpose financial statements prepared in accordance with a contractual basis of accounting are developed for and directed only to the parties to the contract or agreement. Accordingly, the alert that restricts the use of the auditor's report is required due to the nature of the report and the potential for the report to be taken out of the context in which the auditor's report was intended to be used. Section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, addresses adding other parties as specified parties. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125. Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

.A33 In the case of special purpose financial statements prepared in accordance with a cash or tax basis of accounting, the auditor may consider it necessary in the circumstances of the engagement to include an alert that restricts the use of the auditor's report. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125. Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

Regulatory Basis Financial Statements Intended for General Use
(Ref: par. .22)

.A34 Special purpose financial statements prepared in accordance with a regulatory basis of accounting may be intended for general use. Such special purpose financial statements are intended for general use when the financial statements together with the auditor's report are intended for use by parties other than those within the entity and the regulatory agencies to whose jurisdiction the entity is subject or when the financial statements together with the auditor's report are distributed by the entity to parties other than the regulatory agencies to whose jurisdiction the entity is subject, either voluntarily or upon specific request. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

Auditor's Report Prescribed by Law or Regulation (Ref: par. .23–.24)

.A35 The auditor may be required to comply with legal or regulatory requirements in addition to GAAS. When this is the case, the auditor may be required to use a layout, form, or wording in the auditor's report that differs from that described in this section, such as when printed forms or schedules designed or adopted by the bodies with which they are to be filed prescribe the wording of the auditor's report. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

.A36 When the differences between the legal or regulatory requirements and GAAS relate only to the layout, form, and wording of the auditor's report and, at a minimum, each of the elements identified in paragraph .23 are included in the auditor's report, the auditor's report may refer to GAAS. Accordingly, in such circumstances the auditor is considered to have complied with the requirements of GAAS, even when the layout, form, and wording used in the auditor's report are specified by legal or regulatory reporting requirements. Section 210A addresses circumstances in which law or regulation prescribes the layout, form, or wording of the auditor's report in terms that are significantly different from the requirements of GAAS.²⁴

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

.A37 Some report forms can be made acceptable by inserting additional wording to include the elements identified in paragraph .23. Other report forms can be made acceptable only by complete revision because the prescribed language of the report calls for statements by the auditor that are not consistent with the auditor's function or responsibility; for example, a report form that requests the auditor to certify the financial statements. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

.A38 This guidance can be applied to other circumstances, for example, reports on financial statements prepared in accordance with a general purpose framework for which a specific layout, form, or wording of the auditor's report is required. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 139, March 2020.]

²⁴ Paragraph .18 of section 210A. [Footnote renumbered by the issuance of SAS No. 127, January 2013. Footnote subsequently renumbered by the issuance of SAS No. 132, February 2017. Footnote renumbered by the issuance of SAS No. 139, March 2020.]

.A40

Appendix B — Fair Presentation and Adequate Disclosures (Ref: par. .A25–.A28)

When special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with generally accepted accounting principles (GAAP), paragraph .18 requires the auditor to evaluate whether, the financial statements include informative disclosures similar to those required by GAAP. The auditor is also required to evaluate whether additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures are necessary for the financial statements to achieve fair presentation. This appendix provides guidance, in addition to paragraphs .A25–.A28, on evaluating the adequacy of disclosures in financial statements prepared in accordance with a special purpose framework, including matters related to the presentation of financial statements.

If special purpose financial statements contain items for which GAAP would require disclosure, the financial statements may either provide the relevant disclosure that would be required for those items in a GAAP presentation or provide information that communicates the substance of that disclosure. Likewise, if GAAP sets forth requirements that apply to the presentation of financial statements, special purpose financial statements may either comply with those requirements or provide information that communicates the substance of those requirements, without modifying the format of the special purpose financial statements. This may result in substituting qualitative information for some of the quantitative information required for GAAP presentations, as in the following examples:

- Disclosure of the repayment terms of significant long-term borrowings may sufficiently communicate information about future principal reduction without providing the summary of principal reduction during each of the next five years.
- Information about the effects of accounting changes, discontinued operations, and extraordinary items, if applicable, could be disclosed in a note to the financial statements without following the GAAP presentation requirements in the statement of results of operations, using those terms, or disclosing net-of-tax effects.¹
- Instead of showing expenses by their functional classifications in certain industries, a statement of activities could present expenses according to their natural classifications, and a note to the statement could use estimated percentages to communicate information about expenses incurred by the major program and supporting services.
- Instead of showing the amounts of, and changes in, classes of net assets without donor-imposed restrictions and with donor-imposed restrictions in certain industries, a statement of assets and liabilities could report total net assets, a related statement of activities could report changes in those totals, and a note to the

¹ FASB Accounting Standards Update (ASU) No. 2015-01 eliminated the concept of extraordinary items. However, GASB generally accepted accounting principles still retain this concept. [Footnote added, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

financial statements could provide information, using estimated or actual amounts or percentages, about the restrictions on those amounts and on any deferred restricted amounts, describe the major restrictions, and provide information about significant changes in restricted amounts.²

For special purpose financial statements, GAAP disclosure requirements that are not relevant to the measurement of the item need not be considered, as illustrated by the following:

- Fair value disclosures for debt and equity securities would not be relevant when the basis of presentation does not adjust the cost of such securities to their fair value.
- For a sponsor of a defined benefit plan, disclosures related to actuarial calculations for contributions to defined benefit plans would not be relevant in financial statements prepared in accordance with the cash or tax basis of accounting.
- Disclosures related to the use of estimates would not be relevant in a presentation that has no estimates.

Special purpose financial statements may not include a statement of cash flows. If a presentation of cash receipts and disbursements is presented in a format similar to a statement of cash flows or if the entity chooses to present such a statement, the statement would either conform to the requirements for a GAAP presentation or communicate their substance. As an example, the statement of cash flows might disclose noncash acquisitions through captions on its face.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered and amended, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

² FASB ASU No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*. [Footnote added, effective for audits of financial statements prepared in accordance with a special purpose framework for periods ending on or after December 15, 2021, by SAS No. 139.]

- Management has a choice of financial reporting frameworks.¹

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of Financial Statements²

Opinion

We have audited the financial statements of ABC Partnership, which comprise the statement of assets and liabilities arising from cash transactions as of December 31, 20X1, and the related statement of revenue collected and expenses paid for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the assets and liabilities arising from cash transactions of ABC Partnership as of December 31, 20X1, and its revenue collected and expenses paid during the year then ended in accordance with the cash basis of accounting described in Note X.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Partnership, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter — Basis of Accounting³

We draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting described

¹ If management does not have a choice of financial reporting frameworks, the auditor is not required by paragraph .19b to make reference to management's responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

² The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

³ Another appropriate heading may be used.

in Note X, and for determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Partnership's internal control. Accordingly, no such opinion is expressed.⁴
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Partnership's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

⁴ In circumstances in which the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Partnership's internal control. Accordingly, no such opinion is expressed."

Report on Other Legal and Regulatory Requirements

*Report on the Audit of the Financial Statements*²

Opinion

We have audited the financial statements of ABC Partnership, which comprise the statements of assets, liabilities, and capital—income tax basis as of December 31, 20X1, and the related statements of revenue and expenses—income tax basis and of changes in partners' capital accounts—income tax basis for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the assets, liabilities, and capital of ABC Partnership as of December 31, 20X1, and its revenue and expenses and changes in partners' capital accounts for the year then ended in accordance with the basis of accounting ABC Partnership uses for income tax purposes described in Note X.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Partnership, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter — Basis of Accounting³

We draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared on the basis of accounting ABC Partnership uses for income tax purposes, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

¹ If management has a choice of financial reporting frameworks, paragraph .18b requires that the explanation of management's responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

² The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

³ Another appropriate heading may be used.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the basis of accounting ABC Partnership uses for income tax purposes and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Partnership's internal control. Accordingly, no such opinion is expressed.⁴
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Partnership's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

⁴ In circumstances in which the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Partnership's internal control. Accordingly, no such opinion is expressed."

Report on Other Legal and Regulatory Requirements

Illustration 3 — An Auditor's Report on a Complete Set of Financial Statements Prepared in Accordance With a Regulatory Basis of Accounting (the Financial Statements Together With the Auditor's Report Are Not Intended for General Use)

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with a regulatory basis of accounting prescribed by state statutes applicable to the government entity (that is, a special purpose framework).
- The financial statements together with the auditor's report are not intended for general use.
- Based on the regulatory requirements, management does not have a choice of financial reporting frameworks.¹

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements²

Opinion

We have audited the financial statements of ABC Government Authority, which comprise the statement of net position—regulatory basis as of December 31, 20X1, and the related statements of revenues, expenses, and changes in net position — regulatory basis; and statement of cash flows — regulatory basis for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the regulatory basis net position of ABC Government Authority as of December 31, 20XX, and the regulatory basis changes in net position and regulatory basis cash flows thereof for the year then ended in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State Statutes described in Note X.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Government Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter — Basis of Accounting³

We draw attention to Note X of the financial statements, which describes the basis of accounting. As described in Note X to the financial statements, the financial statements are prepared by ABC Government Authority on the basis

¹ If management has a choice of financial reporting frameworks, paragraph .18b requires that the explanation of management's responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

² The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

³ Another appropriate heading may be used.

of the financial reporting provisions of Section Y of Regulation Z of Any State Statutes, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Any State Statutes. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements⁴

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State Statutes. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Government Authority's internal control. Accordingly, no such opinion is expressed.⁵
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about

⁴ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700 may need to be included in this section of the report, adapted as necessary, depending on whether the going concern basis of accounting is relevant. See paragraph .A18 of this section.

⁵ In circumstances in which the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Government Authority's internal control. Accordingly, no such opinion is expressed."

ABC Government Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Restriction on Use⁶

Our report is intended solely for the information and use of ABC Government Authority and is not intended to be and should not be used by anyone other than these specified parties.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

Illustration 4 — An Auditor's Report on a Complete Set of Financial Statements Prepared in Accordance With a Regulatory Basis of Accounting (the Financial Statements Together With the Auditor's Report Are Intended for General Use)

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with a regulatory basis of accounting prescribed by state statutes applicable to the government entity (that is, a special purpose framework).
- The regulatory basis financial statements together with the auditor's report are intended for general use.
- Based on the regulatory requirements, management does not have a choice of financial reporting frameworks.¹
- The variances between the regulatory basis of accounting and accounting principles generally accepted in the United States of America (U.S. GAAP) are not reasonably determinable and are presumed to be material.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements²

Opinions

We have audited the financial statements of ABC Government Authority, which comprise the statement of net position—regulatory basis as of December 31, 20X1, and the related statements of revenues, expenses, and changes in net position—regulatory basis and cash flows—regulatory basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the regulatory basis net position of ABC Government Authority as of December 31, 20X1, and the regulatory basis revenues, expenses, and changes in net position and regulatory basis cash flows thereof for the year then ended in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State Statutes described in Note X.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of ABC Government Authority as of December 31, 20X1, or the changes in net position and cash flows thereof for the year then ended.

¹ If management has a choice of financial reporting frameworks, paragraph .18b requires that the explanation of management's responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

² The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Government Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note X of the financial statements, the financial statements are prepared by ABC Government Authority on the basis of the financial reporting provisions of Section Y of Regulation Z of Any State Statutes, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Any State Statutes. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note X and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

***Responsibilities of Management for the Financial Statements*³**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the financial reporting provisions of Section Y of Regulation Z of Any State Statutes. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

³ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700 may need to be included in this section of the report, adapted as necessary, depending on whether the going concern basis of accounting is relevant. See paragraph .A18 of this section.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Government Authority's internal control. Accordingly, no such opinion is expressed.⁴
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Government Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

[Signature of the auditor's firm]

[Auditor's city and state]

[Date of the auditor's report]

⁴ In circumstances in which the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Partnership's internal control. Accordingly, no such opinion is expressed."

Illustration 5 — An Auditor's Report on a Complete Set of Financial Statements Prepared in Accordance With a Contractual Basis of Accounting

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with a contractual basis of accounting (that is, a special purpose framework) to comply with the provisions of that contract.
- Based on the provisions of the contract, management does not have a choice of financial reporting frameworks.¹

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements²

Opinion

We have audited the financial statements of ABC Company, which comprise the assets and liabilities — contractual basis as of December 31, 20X1, and the revenues and expenses — contractual basis, changes in equity — contractual basis, and cash flows — contractual basis for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the assets and liabilities of ABC Company as of December 31, 20X1, and revenues, expenses, changes in equity, and cash flows for the year then ended in accordance with the financial reporting provisions of Section Z of the contract between ABC Company and DEF Company dated January 1, 20X1 (the contract).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter — Basis of Accounting³

We draw attention to Note X of the financial statements, which describes the basis of accounting. The financial statements are prepared by ABC Company on the basis of the financial reporting provisions of Section Z of the contract, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the contract referred to above. As a result, the financial statements may not

¹ If management has a choice of financial reporting frameworks, paragraph .18b requires that the explanation of management's responsibility for the financial statements also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

² The subtitle "Report on the Financial Statements" is unnecessary in circumstances when the second subtitle "Report on Other Legal and Regulatory Requirements" is not applicable.

³ Another appropriate heading may be used.

be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements⁴

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the financial reporting provisions of Section Z of the contract. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.⁵
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

⁴ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700 may need to be included in this section of the report, adapted as necessary, depending on whether the going concern basis of accounting is relevant. See paragraph .A18 of this section.

⁵ In circumstances in which the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Restriction on Use⁶

Our report is intended solely for the information and use of ABC Company and DEF Company and is not intended to be and should not be used by anyone other than these specified parties.

AU-C Section 805

Special Considerations — Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement

Source: SAS No. 122; SAS No. 139.

See section 9805 for interpretations of this section.

Effective for audits of single financial statements or specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2012, unless otherwise indicated.

NOTE

In October 2021, the Auditing Standards board issued Statement on Auditing Standards No. 145, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, which contains amendments to this section.

The amendments are effective for audits of financial statements for periods ending on or after December 15, 2023, and can be viewed in appendix G of section 315 until the effective date, when they will be applied to this section.

Introduction

Scope of This Section

.01 AU-C sections 200–700 apply to an audit of financial statements and are to be adapted as necessary in the circumstances when applied to audits of other historical financial information. This section addresses special considerations in the application of those AU-C sections to an audit of a single financial statement or of a specific element, account, or item of a financial statement. The single financial statement or the specific element, account, or item of a financial statement may be prepared in accordance with a general or special purpose framework. If prepared in accordance with a special purpose framework, section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, also applies to the audit. (Ref: par. .A1–.A4)

.02 This section does not apply to the report of a component auditor issued as a result of work performed on the financial information of a component at the request of a group engagement team for purposes of an audit of group financial statements (see section 600, *Special Considerations—Audits of Group Financial Statements [Including the Work of Component Auditors]*).

.03 This section does not override the requirements of the other AU-C sections nor does it purport to address all special considerations that may be relevant in the circumstances of the engagement.

Effective Date

.04 This section is effective for audits of single financial statements or specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2012.

Objective

.05 The objective of the auditor, when applying generally accepted auditing standards (GAAS) in an audit of a single financial statement or of a specific element, account, or item of a financial statement, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement;
- b. the planning and performance of that engagement; and
- c. forming an opinion and reporting on the single financial statement or the specific element, account, or item of a financial statement.

Definitions

.06 For purposes of this section, reference to

- a. an *element of a financial statement* or an *element* means an *element, account, or item of a financial statement*. (Ref: par. A5)
- b. a *single financial statement* or a *specific element of a financial statement* includes the related disclosures. (Ref: par. A2)

[As amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.07 Reference to *generally accepted accounting principles* (GAAP) in GAAS means GAAP promulgated by bodies designated by the Council of the AICPA pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 203 1.320.001) of the AICPA Code of Professional Conduct. [Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

Requirements

Considerations When Accepting the Engagement

Application of GAAS (Ref: par. A6–A8)

.08 Section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, requires the auditor to comply with all AU-C sections relevant to the audit.¹ In the case of an audit of a single financial statement or a specific element of a financial statement, this requirement applies irrespective of whether the auditor is also engaged to audit the entity's complete set of financial statements.

¹ Paragraph .20 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.

.09 If the auditor is not also engaged to audit the entity's complete set of financial statements, the auditor should determine whether the audit of a single financial statement or a specific element of those financial statements in accordance with GAAS is practicable. The auditor should also determine whether the auditor will be able to perform procedures on interrelated items, as required by paragraph .13.

Acceptability of the Financial Reporting Framework (Ref: par. .A9–.A13)

.10 Section 210A, *Terms of Engagement*, requires the auditor to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements.² In the case of an audit of a single financial statement or a specific element of a financial statement, the auditor should obtain an understanding of

- a. the purpose for which the single financial statement or specific element of a financial statement is prepared,
- b. the intended users, and
- c. the steps taken by management to determine that the application of the financial reporting framework is acceptable in the circumstances.

.11 The auditor's determination required by paragraph .10 should include consideration of whether the application of the financial reporting framework will result in a presentation that provides adequate disclosures to enable the intended users to understand the information conveyed in the financial statement or the specific element and the effect of material transactions and events on the information conveyed in the financial statement or the specific element.

Considerations When Planning and Performing the Audit

.12 Section 200 states that GAAS is written in the context of an audit of financial statements; it is to be adapted as necessary in the circumstances when applied to audits of other historical financial information.³ In planning and performing the audit of a single financial statement or a specific element of a financial statement, the auditor should adapt all AU-C sections relevant to the audit as necessary in the circumstances of the engagement. (Ref: par. .A14–.A17)

.13 In the case of an audit of a single financial statement or a specific element of a financial statement, the auditor should perform procedures on interrelated items as necessary to meet the objective of the audit. In the case of an audit of a specific element of a financial statement (Ref: par. .A18)

- a. the auditor should, if the specific element is, or is based upon, the entity's stockholders' equity or the equivalent, perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion about financial position, excluding matters related to classification or disclosure that are not relevant to the audit of the specific element.
- b. the auditor should, if the specific element is, or is based upon, the entity's net income or the equivalent, perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion about financial position and results

² Paragraph .06a of section 210A, *Terms of Engagement*.

³ Paragraph .02 of section 200.

of operations, excluding matters related to classification or disclosure that are not relevant to the audit of the specific element.

Materiality (Ref: par. .A19)

.14 Section 320, *Materiality in Planning and Performing an Audit*, requires the auditor to determine, when establishing the overall audit strategy, materiality for the financial statements as a whole.⁴ In the case of an audit of a single financial statement, the auditor should determine materiality for the single financial statement being reported on rather than for the complete set of financial statements. In the case of an audit of one or more specific elements of a financial statement, the auditor should determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements.

Forming an Opinion and Reporting Considerations

.15 When forming an opinion and reporting on a single financial statement or a specific element of a financial statement, the auditor should apply the requirements in section 700, *Forming an Opinion and Reporting on Financial Statements*, or section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*, and when applicable, section 800, *Special Considerations — Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, adapted as necessary in the circumstances of the engagement. (Ref: par. .A20–.A22) [As amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Reporting on the Entity's Complete Set of Financial Statements and a Single Financial Statement or a Specific Element of Those Financial Statements

.16 If, in conjunction with an engagement to audit the entity's complete set of financial statements, the auditor undertakes an engagement to audit a single financial statement or a specific element of a financial statement, the auditor should

- a. issue a separate auditor's report and express a separate opinion for each engagement.
- b. indicate in the report on a specific element of a financial statement the date of the auditor's report on the complete set of financial statements and the nature of opinion expressed on those financial statements under an appropriate heading.

.17 Except as required by paragraph .21, an audited single financial statement or an audited specific element of a financial statement may be published together with the entity's audited complete set of financial statements, provided that the presentation of the single financial statement or the specific element is sufficiently differentiated from the complete set of financial statements. The auditor should also differentiate the report on the single financial statement or the specific element of a financial statement from the report on the complete set of financial statements.

.18 If the auditor concludes that the presentation of the audited single financial statement or the audited specific element does not differentiate it sufficiently from the complete set of financial statements, as described in paragraph

⁴ Paragraph .10 of section 320, *Materiality in Planning and Performing an Audit*.

.17, the auditor should ask management to remedy the situation. The auditor should not release the auditor's report containing the opinion on the single financial statement or the specific element of a financial statement until satisfied with the differentiation.

Considering the Implications of Certain Matters Included in the Auditor's Report on the Entity's Complete Set of Financial Statements

.19 If the auditor's report on an entity's complete set of financial statements includes a modified opinion, an emphasis-of-matter or other-matter paragraph, a going concern section, a communication of key audit matters, or a statement describing an uncorrected material misstatement of other information, the auditor should consider the implications, if any, that these matters have for the audit of the single financial statement or for the specific element of a financial statement and for the auditor's report thereon. (Ref: par. .A23–.A26) [As amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Modifications to the Opinion in the Independent Auditor's Report

.20 In the case of an audit of a specific element of a financial statement, if the auditor's modified opinion on the entity's complete set of financial statements as a whole is relevant to the audit of the specific element, the auditor should (Ref: par. .A27–.A29)

- a. express an adverse opinion on the specific element when the modification of the auditor's opinion on the complete set of financial statements as a whole arises from a material misstatement in such financial statements.
- b. disclaim an opinion on the specific element when the modification of the auditor's opinion on the complete set of financial statements as a whole arises from an inability to obtain sufficient appropriate audit evidence.

Adverse Opinion or Disclaimer of Opinion in the Auditor's Report on the Entity's Complete Set of Financial Statements

.21 If the auditor concludes that it is necessary to express an adverse opinion or disclaim an opinion on the entity's complete set of financial statements as a whole, an unmodified opinion on a specific element in the same auditor's report would contradict the adverse opinion or disclaimer of opinion on the entity's complete set of financial statements as a whole and would be tantamount to expressing a piecemeal opinion. In the context of a separate audit of a specific element of those financial statements, when the auditor nevertheless considers it appropriate to express an unmodified opinion on that specific element, the auditor should only do so if

- a. that opinion is expressed in an auditor's report that is neither published together with nor otherwise accompanies the auditor's report containing the adverse opinion or disclaimer of opinion and
- b. the element does not constitute a major portion of the entity's complete set of financial statements or the specific element is not, or is not based upon, the entity's stockholders' equity or net income or the equivalent.

[As amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of

or for periods ending on or after December 15, 2021. Early application is not permitted.]

.22 A single financial statement is deemed to constitute a major portion of a complete set of financial statements. Therefore, the auditor should not express an unmodified opinion on a single financial statement of a complete set of financial statements if the auditor has expressed an adverse opinion or disclaimed an opinion on the complete set of financial statements as a whole, even if the auditor's report on the single financial statement is neither published together with nor otherwise accompanies the auditor's report containing the adverse opinion or disclaimer of opinion. (Ref: par. .A30)

.23 If the auditor's report on an entity's complete set of financial statements includes an emphasis-of-matter paragraph or an other-matter paragraph that is relevant to the audit of the single financial statement or the specific element, the auditor should include a similar emphasis-of-matter paragraph or an other-matter paragraph in the auditor's report on the single financial statement or the specific element, in accordance with section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. (Ref: par. .A29)

Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With Generally Accepted Accounting Principles (Ref: par. .A31–.A32)

.24 When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, the auditor should include an emphasis-of-matter paragraph⁵ in the auditor's report that

- a. states the purpose for which the presentation is prepared and refers to a note in the financial statements that describes the basis of presentation and
- b. indicates that the presentation is not intended to be a complete presentation of the entity's assets, liabilities, revenues, or expenses.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01 and .06b)

.A1 Section 200 defines the term *historical financial information* as information expressed in financial terms regarding a particular entity, derived primarily from that entity's accounting system, about economic events occurring in past time periods or about economic conditions or circumstances at points in time in the past. [As amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A2 Section 200 defines the term *financial statements* as a structured representation of historical financial information, including disclosures, intended to communicate an entity's economic resources or obligations at a point in time or the changes therein for a period of time in accordance with a financial reporting framework. The term *financial statements* ordinarily refers to a complete set

⁵ Paragraphs .06–.07 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

of financial statements as determined by the requirements of the applicable financial reporting framework, but can also refer to a single financial statement.⁶ [Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A3 Paragraph .A9 of section 200 provides guidance on what constitutes a complete set of financial statements and also provides the following examples of single financial statements, each of which would include related disclosures:

- Balance sheet
- Statement of income or statement of operations
- Statement of retained earnings
- Statement of cash flows
- Statement of assets and liabilities
- Statement of changes in owner's equity
- Statement of revenue and expenses
- Statement of operations by product lines

[Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A4 An attest engagement other than an audit of historical financial information is performed in accordance with Statements on Standards for Attestation Engagements. For example, AT-C section 215, *Agreed-Upon Procedures Engagements*, applies when reporting on the results of applying agreed-upon procedures to one or more specific elements of a financial statement, and AT-C section 210, *Review Engagements*, provides guidance when reporting on a review of one or more specific elements of a financial statement. Paragraph .A8 describes circumstances in which an engagement performed in accordance with the attestation standards may be more practicable than an audit performed in accordance with this section. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Element of a Financial Statement (Ref: par. .06)

.A5 The appendix, "Examples of Specific Elements, Accounts, or Items of a Financial Statement," lists examples of an element of a financial statement. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Considerations When Accepting the Engagement

Application of GAAS (Ref: par. .08–.09)

.A6 Section 200 requires the auditor to comply with (a) relevant ethical requirements relating to financial statement audit engagements and (b) all

⁶ Paragraph .14 of section 200.

AU-C sections relevant to the audit. It also requires the auditor to comply with each requirement of an AU-C section, unless, in the circumstances of the audit, the entire AU-C section is not relevant or the requirement is not relevant because it is conditional and the condition does not exist. In rare circumstances, the auditor may judge it necessary to depart from a relevant presumptively mandatory requirement in an AU-C section by performing alternative audit procedures to achieve the intent of that requirement.⁷ [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Complying With Relevant Requirements

.A7 Compliance with the requirements of AU-C sections relevant to the audit of a single financial statement or a specific element of a financial statement may not be practicable when the auditor is not also engaged to audit the entity's complete set of financial statements. In such cases, the auditor often does not have the same understanding of the entity and its environment, including its internal control, as an auditor who also audits the entity's complete set of financial statements. The auditor also does not have the audit evidence about the general quality of the accounting records or other accounting information that would be acquired in an audit of the entity's complete set of financial statements. Accordingly, the auditor may need further evidence to corroborate audit evidence acquired from the accounting records. Also see paragraph .A18. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A8 In the case of an audit of a specific element of a financial statement, certain AU-C sections require audit work that may be disproportionate to the specific element being audited. For example, although the requirements of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, may be relevant in the circumstances of an audit of a schedule of accounts receivable (see paragraph .A14), complying with those requirements may not be practicable because of the audit effort required. If the auditor concludes that an audit of a single financial statement or a specific element of a financial statement in accordance with GAAS may not be practicable, the auditor may discuss with management whether another type of engagement might be more practicable, such as an engagement performed in accordance with the Statements on Standards for Attestation Engagements, as described in paragraph .A4. [Revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126. Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Acceptability of the Financial Reporting Framework (Ref: par. .10–.11)

.A9 In the case of an audit of a single financial statement or a specific element of a financial statement, the financial information needs of the intended users are relevant in determining the acceptability of the financial reporting framework applied in the preparation of the single financial statement or the specific element. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A10 A single financial statement or a specific element of a financial statement may be prepared in accordance with relevant requirements of a financial reporting framework established by an authorized or recognized standards-setting organization for the preparation of a complete set of financial statements (for example, accounting principles generally accepted in the United

⁷ Paragraphs .16, .20, and .24–.26 of section 200.

States of America [U.S. GAAP] or International Financial Reporting Standards promulgated by the International Accounting Standards Board). If this is the case, determination of the acceptability of the applicable framework may involve considering whether that framework includes all the requirements of the framework that are relevant to the presentation of a single financial statement or a specific element of a financial statement that provides adequate disclosures. [Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A11 The determination of the acceptability of the applicable framework may also include consideration of the following:

- Whether the applicable financial reporting framework is explicitly or implicitly restricted to the preparation of a complete set of financial statements.
- Whether the single financial statement or the specific element of a financial statement will
 - comply fully with each of those requirements of the framework relevant to the particular financial statement or the particular element and the presentation of the financial statement or the specific element of a financial statement, including the related disclosures. For example, when reporting on a schedule of long-term debt prepared in accordance with U.S. GAAP relevant to that schedule, the schedule of long-term debt, including the related notes, would be comparable to such information in financial statements prepared in accordance with U.S. GAAP.
 - provide, if necessary to achieve fair presentation, disclosures beyond those specifically required by the framework or, in extremely rare circumstances, depart from a requirement of the framework.⁸ A single financial statement or a specific element of a financial statement, including the related notes, that achieves a fair presentation includes all informative disclosures that are appropriate for the applicable financial reporting framework, including matters that affect their use, understanding, and interpretation.

[Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A12 The auditor may be requested to audit an incomplete presentation but one that is otherwise in accordance with GAAP. For example, an entity wishing to sell a division or product line may present certain assets and liabilities, revenues, and expenses relating to the division or product line being sold. Incomplete presentations may also be required by a regulatory agency or a contract or an agreement. For example, a regulatory agency may require a schedule of gross income and certain expenses of an entity's real estate operation in which income and expenses are measured in accordance with GAAP, but *expenses* are defined to exclude certain items, such as interest, depreciation, and income taxes. Also, an acquisition agreement may specify a schedule

⁸ See paragraph .14 of section 200 for a definition of financial reporting framework.

of gross assets and liabilities of the entity measured in accordance with GAAP but limited to the assets to be sold and liabilities to be transferred pursuant to the agreement. These types of presentations are generally regarded as single financial statements, even though certain items may be excluded only to the extent necessary to meet the purpose for which they were prepared. The requirement in paragraph .24 is designed to avoid misunderstandings about the purpose for which the presentation is prepared. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A13 As indicated in paragraph .A12, incomplete presentations may be required by a regulatory agency or a contract or an agreement. Paragraphs .A2–.A3 of section 800 provide guidance on the acceptability of the financial reporting framework when the regulatory or contractual basis of accounting is based on a general purpose framework, such as GAAP. The auditor may determine that it is more appropriate for the description of the applicable financial reporting framework to refer to the regulatory or contractual basis of accounting, rather than make reference to GAAP. As indicated in paragraph .01, if the presentation is prepared in accordance with a special purpose framework, section 800 also applies to the audit. [Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Considerations When Planning and Performing the Audit (Ref: par. .12–.13)

.A14 An AU-C section is relevant to the audit when the AU-C section is in effect and the circumstances addressed by the AU-C section exist.⁹ Even when only a specific element of a financial statement is the subject of the audit, AU-C sections such as section 240, *Consideration of Fraud in a Financial Statement Audit*, section 550, *Related Parties*, and section 570 are, in principle, relevant. This is because the specific element could be misstated as a result of fraud, the effect of related party transactions, or the incorrect application of the going concern assumption under the applicable financial reporting framework. [Revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126. Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A15 Section 260, *The Auditor's Communication With Those Charged With Governance*, requires the auditor to determine the appropriate person or persons within the entity's governance structure with whom to communicate. Section 260 notes that, in some cases, all of those charged with governance are involved in managing the entity, and the application of communication requirements is modified to recognize this circumstance. When a complete set of financial statements is also prepared by the entity, the person or persons responsible for oversight of the preparation of the single financial statement or the element may not be the same as those responsible for the oversight of the preparation of the complete set of financial statements. [Paragraph added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

⁹ Paragraph .20 of section 200.

.A16 Furthermore, GAAS is written in the context of an audit of financial statements; it is to be adapted as necessary in the circumstances when applied to the audit of a single financial statement or a specific element of a financial statement.¹⁰ For example, written representations from management about the complete set of financial statements would be replaced by written representations about the presentation of the single financial statement or the specific element, in accordance with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A17 Matters included in the auditor's report on the complete set of financial statements may have implications for the audit of a single financial statement or of an element of a financial statement (see paragraph .19). When planning and performing an audit of a single financial statement or a specific element of a financial statement in conjunction with the audit of the entity's complete set of financial statements, the auditor may use audit evidence obtained as part of the audit of the entity's complete set of financial statements in the audit of the single financial statement or the specific element. GAAS, however, requires the auditor to plan and perform the audit of the single financial statement or specific element to obtain sufficient appropriate audit evidence on which to base the opinion on the single financial statement or the specific element. [Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A18 The individual financial statements that make up a complete set of financial statements, and many of the specific elements of those financial statements, including their related disclosures, are interrelated. For example, sales and receivables, inventory and payables, and buildings and equipment and depreciation each are interrelated. Accordingly, when auditing a single financial statement or a specific element of a financial statement, the auditor may not be able to consider the single financial statement or the specific element in isolation. Consequently, paragraph .13 requires the auditor to perform procedures on interrelated items as necessary to meet the objective of the audit. In the case of an audit of a specific element that is, or is based upon, the entity's stockholders' equity or net income (or the equivalents thereto), paragraph .13 requires the auditor to perform procedures necessary to obtain sufficient appropriate audit evidence about financial position, or financial position and results of operations, respectively, because of the interrelationship between the specific element and the balance sheet accounts and the income statement accounts. However, matters related to classification or disclosure may not be relevant to the audit of the specific element; therefore, audit procedures on such matters may not be necessary in an audit of a specific element. [Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Materiality (Ref: par. .14)

.A19 The materiality determined for a single financial statement or a specific element of a financial statement differs from the materiality determined for the entity's complete set of financial statements; this will affect the nature, timing, and extent of the audit procedures and the evaluation of uncorrected misstatements. In the case of an audit of a single financial statement, paragraph .14 requires the auditor to determine materiality for the single financial

¹⁰ Paragraph .02 of section 200.

statement being reported on rather than for the complete set of financial statements. In the case of an audit of one or more specific elements of a financial statement, the auditor's opinion is on each of the specific elements; therefore, paragraph .14 requires the auditor to determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements. Consequently, an audit of one or more specific elements of a financial statement is usually more extensive than if the same information was being considered in conjunction with an audit of the complete set of financial statements. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Forming an Opinion and Reporting Considerations (Ref: par. .15)

.A20 Sections 700 and 703 require the auditor, in forming an opinion, to evaluate whether the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the information conveyed in the financial statements.¹¹ In the case of an audit of a single financial statement or a specific element of a financial statement, it is important, in view of the requirements of the applicable financial reporting framework, that the disclosures enable the intended users to understand

- the information conveyed in the financial statement or the specific element and
- the effect of material transactions and events on the information conveyed in the financial statement or the specific element.

[Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Going Concern

.A21 The applicable financial reporting framework may not specifically address whether management is required to make a going concern assessment for a single financial statement or a specific element, account, or item of a financial statement. Therefore, the description in the auditor's report of management's responsibilities relating to going concern¹² may not be relevant or may need to be adapted as necessary. The description in the auditor's report of the auditor's responsibilities¹³ relating to going concern may also need to be adapted as necessary depending on whether section 570 is determined to be relevant to the audit in accordance with paragraph .12. In making that determination, the auditor may consider whether the auditor's responsibilities relating to going concern are likely to be relevant to users for the intended purpose of the single financial statement or specific element, account, or item of a financial

¹¹ Paragraph .15 of section 700, *Forming an Opinion and Reporting on Financial Statements*, and paragraph .37 of section 703. [As amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

¹² Paragraph .32b of section 700. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

¹³ Paragraph .36e of section 700. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

statement presented. [Paragraph added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A22 The exhibit, "Illustrations of Auditor's Reports on a Single Financial Statement and a Specific Element of a Financial Statements," contains illustrations of auditor's reports. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Considering the Implications of Certain Matters Included in the Auditor's Report on the Entity's Complete Set of Financial Statements (Ref: par. .19-.23)

.A23 Considering whether a matter included in the auditor's report on the complete set of financial statements is relevant in the context of an engagement to report on a single financial statement or a specific element of a financial statement involves professional judgment. [Paragraph added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A24 Factors that may be relevant in considering those implications include the following:

- The nature of the matters described in the auditor's report on the complete set of financial statements and the extent to which they relate to what is included in the single financial statement or a specific element of a financial statement
- The pervasiveness of the matters described in the auditor's report on the complete set of financial statements
- The nature and extent of the differences between the applicable financial reporting frameworks
- The extent of the difference between the periods covered by the complete set of the financial statements compared with the periods or dates of the single financial statement or element of a financial statement
- The time elapsed since the date of the auditor's report on the complete set of the financial statements

[Paragraph added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A25 When applicable, key audit matters communicated in the auditor's report on a complete set of financial statements may have implications for an audit of a single financial statement or specific element of a financial statement. The information included in the "Key Audit Matters" section about how the matter was addressed in the audit of a complete set of financial statements may be useful to the auditor's determination of how to address the matter when it is relevant to an audit of a single financial statement or specific element of a financial statement. [Paragraph added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A26 If the auditor is engaged to communicate key audit matters in the auditor's report on a single financial statement or a specific element of a financial statement, section 701, *Communicating Key Audit Matters in the Independent Auditor's Report*, applies in its entirety. [Paragraph added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Modifications to the Opinion in the Independent Auditor's Report
(Ref: par. .20 and .23)

.A27 In the case of an audit of a specific element of a financial statement, if the opinion in the auditor's report on an entity's complete set of financial statements is modified and the modification is relevant to the audit of the specific element, the modification is material and pervasive with respect to the specific element. Modifications related to an interrelated item of the specific element may also be relevant to the audit of the specific element. Conversely, modifications related solely to classification or disclosure may not be relevant to the audit of the specific element. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A28 For example, when there is a qualification of the auditor's opinion in relation to accounts receivable in the auditor's report on the complete set of financial statements and the single financial statement includes accounts receivable or the specific element of a financial statement relates to accounts receivable, there likely would be implications for the audit. On the other hand, if the qualification of the auditor's opinion on the complete set of financial statements relates to classification of long-term debt, then it is less likely that there would be implications for an audit of the single financial statement that is the income statement, or if the specific element of the financial statement relates to accounts receivable. [Paragraph added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

.A29 Even when certain matters included in the auditor's report on the entity's complete set of financial statements do not have implications for the audit of, or for the auditor's report on, the single financial statement or the specific element of a financial statement, the auditor may deem it appropriate to refer to the matter in an other-matter paragraph in an auditor's report on the single financial statement or on the specific element of a financial statement (see section 706). For example, the auditor may consider it appropriate to refer in the auditor's report on the single financial statement or the specific element of a financial statement to a going concern section included in the auditor's report on the complete set of financial statements. [Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Adverse Opinion or Disclaimer of Opinion in the Auditor's Report on the Entity's Complete Set of Financial Statements (Ref: par. .22)

.A30 In the auditor's report on an entity's complete set of financial statements, the expression of a disclaimer of opinion regarding the results of operations and cash flows, when relevant, and an unmodified opinion regarding the financial position are permitted because the disclaimer of opinion is being issued on the results of operations and cash flows only and not on the financial

statements as a whole.¹⁴ [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With GAAP (Ref: par. .24)

.A31 As described in paragraph .A12, the auditor may be requested to audit an incomplete presentation but one that is otherwise in accordance with GAAP. When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, paragraph .24 requires the auditor to include an emphasis-of-matter paragraph in the auditor's report, which alerts users as to the purpose of the presentation and that the presentation is incomplete. The exhibit illustrates such a paragraph. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A32 If the presentation is prepared in accordance with a regulatory or contractual basis of accounting, the requirement in paragraph .24 does not apply. In such circumstances, refer to section 800, *Special Considerations — Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*. See also paragraph .A13 of this section. [Paragraph renumbered and amended by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

¹⁴ Paragraph .A17 of section 510, *Opening Balances—Initial Audit Engagements, Including Reaudit Engagements*, and paragraph .A17 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*. [Footnote renumbered by the issuance of SAS No. 139, March 2020.]

[Appropriate Addressee]

Report on the Audit of the Financial Statement¹

Opinion

We have audited the balance sheet of ABC Company as of December 31, 20X1, and the related notes (the financial statement).²

In our opinion, the accompanying financial statement presents fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statement section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statement³

Management is responsible for the preparation and fair presentation of the financial statement in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statement

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will

¹ The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² The auditor may refer to the financial statement as the *balance sheet*.

³ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700 may not be relevant or may need to be included in this section of the report, adapted as necessary. See paragraph .A21 of this section. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statement.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statement, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statement.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.⁴

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

⁴ This bullet is included only when the auditor determines that section 570 is relevant to the audit of the single financial statement or specific element, account, or item of a financial statement. See paragraph .A21. Illustration 2 — An Auditor's Report on a Single Financial Statement Prepared in Accordance With a Special Purpose Framework

Circumstances include the following:

- Audit of a statement of cash receipts and disbursements (that is, a single financial statement).
- The financial statement has been prepared by management of the entity in accordance with the cash basis of accounting (a special purpose framework) to respond to a request for cash flow information received from a creditor.¹
- Management has a choice of financial reporting frameworks.²

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statement³

Opinion

We have audited the statement of cash receipts and disbursements of ABC Company for the year ended December 31, 20X1, and the related notes (the financial statement).⁴

In our opinion, the accompanying financial statement presents fairly, in all material respects, the cash receipts and disbursements of ABC Company for the year ended December 31, 20X1, in accordance with the cash basis of accounting described in Note X.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statement section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter — Basis of Accounting⁵

We draw attention to Note X to the financial statement, which describes the basis of accounting. The financial statement is prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

¹ Section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, contains requirements and guidance on the form and content of financial statements prepared in accordance with a special purpose framework.

² Paragraph .19b of section 800.

³ The subtitle "Report on the Financial Statement" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

⁴ The auditor may refer to the financial statements as the *statement of cash receipts and disbursements*.

⁵ Another appropriate heading may be used.

Responsibilities of Management for the Financial Statement⁶

Management is responsible for the preparation and fair presentation of the financial statement in accordance with the cash basis of accounting described in Note X, and for determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statement

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of certain internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statement.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statement, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statement.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.⁷

⁶ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700 may not be relevant or may need to be included in this section of the report, adapted as necessary. See paragraph .A21 of this section. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

⁷ This bullet is included only when the auditor determines that section 570 is relevant to the audit of the single financial statement or specific element, account, or item of a financial statement. See paragraph .A21. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 3 — An Auditor's Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a General Purpose Framework

Circumstances include the following:

- Audit of a schedule of accounts receivable (that is, a specific element, account, or item of a financial statement).
- The schedule of accounts receivable has been prepared by management of the entity in accordance with accounting principles generally accepted in the United States of America.
- The audit of the schedule of accounts receivable was performed in conjunction with an engagement to audit the entity's complete set of financial statements. The opinion on those financial statements was not modified, and the report did not include an emphasis-of-matter paragraph or other-matter paragraph.¹
- Management determined that the going concern assessment in accounting principles generally accepted in the United States of America does not apply to the preparation of the schedule of accounts receivable. Although a going concern assessment was made in the preparation of the entity's complete set of financial statements from which the financial information being reported on has been derived, the going concern assessment period is significantly different because the schedule of accounts receivable is anticipated to be issued several months after the full set of financial statements were issued. The auditor agrees with management's determination regarding the applicability of the going concern assessment to the preparation of the schedule of accounts receivable.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Schedule²

Opinion

We have audited the schedule of accounts receivable of ABC Company as of December 31, 20X1, and the related notes (the schedule).³

In our opinion, the accompanying schedule presents fairly, in all material respects, the accounts receivable of ABC Company as of December 31, 20X1, in accordance with accounting principles generally accepted in the United States of America.

¹ If the auditor undertakes an engagement to audit a specific element of a financial statement in conjunction with an engagement to audit the entity's complete set of financial statements, paragraph .16b requires the auditor to indicate in the report on the specific element of a financial statement the date of the auditor's report on the complete set of financial statements and the nature of opinion expressed on those financial statements under an appropriate heading. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

² The subtitle "Report on the Audit of the Schedule" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable. [Footnote renumbered by the issuance of SAS No. 139, March 2020.]

³ The auditor may refer to the schedule as the *schedule of accounts receivable*. [Footnote renumbered by the issuance of SAS No. 139, March 2020.]

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedule section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Schedule⁴

Management is responsible for the preparation and fair presentation of the schedule in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Schedule

Our objectives are to obtain reasonable assurance about whether the schedule as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedule.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedule, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the schedule.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule.

⁴ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700 may not be relevant or may need to be included in this section of the report, adapted as necessary. See paragraph .A21 of this section. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.⁵

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

We have audited, in accordance with GAAS, the financial statements of ABC Company as of and for the year ended December 31, 20X1, and our report thereon, dated March 15, 20X2, expressed an unmodified opinion on those financial statements.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

⁵ This bullet is included only when the auditor determines that section 570 is relevant to the audit of the single financial statement or specific element, account, or item of a financial statement. See paragraph .A21. Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

Illustration 4 — An Auditor's Report on a Specific Element, Account, or Item of a Financial Statement Prepared in Accordance With a Special Purpose Framework

Circumstances include the following:

- Audit of a schedule of royalties applicable to engine production (that is, a specific element, account, or item of a financial statement).
- The financial information has been prepared by management of the entity in accordance with a contractual basis of accounting (that is, a special purpose framework) to comply with the provisions of that contract.¹
- Based on the provisions of the contract, management does not have a choice of financial reporting frameworks.²
- The audit of the schedule was not performed in conjunction with an engagement to audit the entity's complete set of financial statements.³

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Schedule⁴

Opinion

We have audited the schedule of royalties applicable to engine production of the Q Division of ABC Company for the year ended December 31, 20X1, and the related notes (the schedule).⁵

In our opinion, the accompanying schedule presents fairly, in all material respects, the royalties applicable to engine production of the Q Division of ABC Company for the year ended December 31, 20X1, in accordance with the financial reporting provisions of Section Z of the license agreement between ABC Company and XYZ Corporation dated January 1, 20X1 (the contract).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedule section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

¹ Section 800 contains requirements and guidance on the form and content of financial statements prepared in accordance with a special purpose framework.

² Paragraph .19b of section 800.

³ If the auditor undertakes an engagement to audit a specific element of a financial statement in conjunction with an engagement to audit the entity's complete set of financial statements, paragraph .16 requires the auditor to indicate in the report on the specific element of a financial statement the date of the auditor's report on the complete set of financial statements and the nature of opinion expressed on those financial statements under an appropriate heading.

⁴ The subtitle "Report on the Schedule" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

⁵ The auditor may refer to the schedule as the *schedule of royalties*.

Emphasis of Matter — Basis of Accounting⁶

We draw attention to Note X to the schedule, which describes the basis of accounting. The schedule was prepared by ABC Company on the basis of the financial reporting provisions of Section Z of the contract, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the schedule may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Schedule⁷

Management is responsible for the preparation and fair presentation of the schedule in accordance with the financial reporting provisions of Section Z of the contract, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Schedule

Our objectives are to obtain reasonable assurance about whether the schedule as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedule.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedule, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the schedule.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the schedule.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about

⁶ Another appropriate heading may be used.

⁷ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700 may not be relevant or may need to be included in this section of the report, adapted as necessary. [City and state where the auditor's report is issued]

[Date of the auditor's report]

⁸ This bullet is included only when the auditor determines that section 570 is relevant to the audit of the single financial statement or specific element, account, or item of a financial statement. See paragraph .A21. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

⁹ Another appropriate heading may be used. [Footnote renumbered by the issuance of SAS No. 139, March 2020.]

Illustration 5 — An Auditor's Report on an Incomplete Presentation but One That Is Otherwise in Accordance With Generally Accepted Accounting Principles

Circumstances include the following:

- Audit of the historical summaries of gross income and direct operating expenses (that is, a single financial statement).
- The historical summaries have been prepared by management of the entity in accordance with accounting principles generally accepted in the United States of America but are an incomplete presentation of revenues and expenses.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Historical Summaries¹

Opinion

We have audited the Historical Summaries of Gross Income and Direct Operating Expenses of ABC Apartments for each of the three years in the period ended December 31, 20X1, and the related notes (the historical summaries).²

In our opinion, the accompanying historical summaries present fairly, in all material respects, the gross income and direct operating expenses described in Note X of ABC Apartments for each of the three years in the period ended December 31, 20X1, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Historical Summaries section of our report. We are required to be independent of ABC Apartments and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter — Basis of Accounting

We draw attention to Note X to the historical summaries, which describes that the accompanying historical summaries were prepared for the purpose of complying with the rules and regulations of Regulator DEF (for inclusion in the filing of Form Z of ABC Company) and are not intended to be a complete presentation of the Company's revenues and expenses. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

¹ The subtitle "Report on the Audit of the Historical Summaries" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² The auditor may refer to the historical summaries as the *financial statement*.

Responsibilities of Management for the Historical Summaries³

Management is responsible for the preparation and fair presentation of the historical summaries in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the historical summaries that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Historical Summaries

Our objectives are to obtain reasonable assurance about whether the historical summaries as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the historical summaries.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the historical summaries, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the historical summaries.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the historical summaries.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.⁴

³ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700 may not be relevant or may need to be included in this section of the report, adapted as necessary. See paragraph .A21 of this section. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

⁴ This bullet is included only when the auditor determines that section 570 is relevant to the audit of the single financial statement or specific element, account, or item of a financial statement. See paragraph .A21. [Footnote added by SAS No. 139, effective for audits of single financial statements and specific elements, accounts, or items of a financial statement as of or for periods ending on or after December 15, 2021. Early application is not permitted.]

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

AU-C Section 9805

Special Considerations — Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement: Auditing Interpretations of Section 805

1. Auditor of Governmental Cost-Sharing Multiple-Employer Pension Plan

.01 Question — Management of a governmental cost-sharing multiple-employer pension plan (cost-sharing plan or plan) has calculated and prepared a schedule of employer allocations and a schedule of pension amounts, as described in the AICPA's State and Local Governments Expert Panel white paper *Governmental Employer Participation in Cost-Sharing Multiple-Employer Plans: Issues Related to Information for Employer Reporting*. If the plan auditor is engaged to perform an audit on schedules such as those illustrated in exhibit 1, "Schedule of Employer Allocations," and either exhibit 2(a), "Schedule of Pension Amounts by Employer," or exhibit 2(b), "Schedule of Collective Pension Amounts," of this interpretation, what type of audit report may be issued?

.02 Interpretation — Because the amounts contained in the previously mentioned schedules are considered elements or items of the cost-sharing plan or participating employer's financial statements, the elements included in these schedules may be audited under section 805, *Special Considerations — Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*. An illustrative auditor's report on the schedule of employer allocations and schedule of pension amounts by employer prepared pursuant to section 805 follows.

Independent Auditor's Report

[Appropriate Addressee]

Opinions^{1, 2}

We have audited the schedule of employer allocations of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense (specified column totals) included in the accompanying schedule of pension amounts by employer of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes.

In our opinion, the accompanying schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for ABC Pension Plan as of and for the year ended June 30, 20X5, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedules section of our report. We are required to be independent

¹ If the plan prepares a schedule of pension amounts by employer and specific liabilities of individual employers, as defined in paragraph 56 of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions — an amendment of GASB Statement No. 27*, exist and are not displayed in the schedule, the "Opinions" section would be changed as follows:

We have audited the schedule of employer allocations of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes. We have also audited the columns titled net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and pension expense excluding specific liabilities of individual employers (specified column totals) included in the accompanying schedule of collective pension amounts of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes.

In our opinion, the accompanying schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense excluding specific liabilities of individual employers for the total of all participating entities for ABC Pension Plan as of and for the year ended June 30, 20X5, in accordance with accounting principles generally accepted in the United States of America.

² If the plan prepares a schedule of collective pension amounts as illustrated in exhibit 2(b), "Schedule of Collective Pension Amounts," of this interpretation instead of the schedule of pension amounts by employer as illustrated in exhibit 2(a), "Schedule of Pension Amounts by Employer," of this interpretation, the "Opinions" section would be changed as follows:

We have audited the schedule of employer allocations of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes. We have also audited the columns titled net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and pension expense (specified column totals) included in the accompanying schedule of collective pension amounts of ABC Pension Plan as of and for the year ended June 30, 20X5, and the related notes.

In our opinion, the accompanying schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and total pension expense for ABC Pension Plan as of and for the year ended June 30, 20X5, in accordance with accounting principles generally accepted in the United States of America.

Additionally, if specific liabilities of individual employers, as defined in paragraph 56 of GASB Statement No. 68, exist but are excluded from the schedule, the paragraphs in this section would refer to pension expense excluding that attributable to specific liabilities of individual employers rather than pension expense.

of ABC Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.³

Auditor's Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the schedules are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedules.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedules, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the schedules.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the schedules.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Pension Plan's ability to continue as a going concern for a reasonable period of time.

³ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700, *Forming an Opinion and Reporting on Financial Statements*, may need to be included in this section of the report, or as stated in paragraph .A21 of section 805, *Special Considerations — Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*, may not be relevant or may need to be adapted as necessary. See paragraph .A21 of section 805.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of ABC Pension Plan as of and for the year ended June 30, 20X5, and our report thereon, dated October 15, 20X5, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of ABC Pension Plan management, *[identify the body or individuals charged with governance of ABC Pension Plan]*, ABC Pension Plan employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

.03 Question — In planning and performing an audit of the schedules illustrated in exhibits 1 and 2(a) or exhibit 2(b) of this interpretation, may the plan auditor use the same materiality as used for the audit of the plan's basic financial statements?

.04 Interpretation — No. Section 805 states, in part:⁴

In the case of an audit of one or more specific elements of a financial statement, the auditor should determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements.

Accordingly, the plan auditor should determine materiality separately for the schedule of employer allocations as well as each of the elements upon which the auditor opines from the schedule of pension amounts (that is, the column totals for net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense).

⁴ Paragraph .14 of section 805.

[Issue Date: April 2014.]

2. Auditor of Governmental Agent Multiple-Employer Pension Plan

.08 Question — Management of a governmental agent multiple-employer pension plan (agent plan or plan) has calculated and prepared a schedule of changes in fiduciary net position by employer, as described in the AICPA's State and Local Governments Expert Panel white paper *Governmental Employer Participation in Agent Multiple-Employer Plans: Issues Related to Information for Employer Reporting*. If the plan auditor is engaged to perform an audit on a schedule such as that illustrated in exhibit 3, "Schedule of Changes in Fiduciary Net Position by Employer," of this interpretation, what type of audit report may be issued?

.09 Interpretation — Because the amounts contained in the previously mentioned schedule are considered specific elements, accounts, or items of the agent plan or participating employer's financial statements, the elements included in this schedule may be audited under section 805. An illustrative auditor's report on the schedule of changes in fiduciary net position by employer as a whole prepared pursuant to section 805 follows.

Independent Auditor's Report

[Appropriate Addressee]

Opinion⁵

We have audited the fiduciary net position as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, included in the accompanying Schedule of Changes in Fiduciary Net Position by Employer ("Schedule") of ABC Pension Plan, and the related notes.

In our opinion, the accompanying Schedule referred to above presents fairly, in all material respects, the fiduciary net position of ABC Pension Plan as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the

⁵ If the plan engages its auditor to opine on each employer column in the schedule of changes in fiduciary net position by employer as illustrated in exhibit 3, "Schedule of Changes in Fiduciary Net Position by Employer," of this interpretation, in addition to opining on the schedule as a whole, this section would be changed as follows:

We have audited the fiduciary net position as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, included in the accompanying Schedule of Changes in Fiduciary Net Position by Employer (Schedule) of ABC Pension Plan, and the related notes. We have also audited the fiduciary net position of each individual employer as of June 30, 20X5, and the changes in fiduciary net position of each individual employer for the year then ended, included in the accompanying Schedule, and the related notes.

In our opinion, the accompanying Schedule referred to above presents fairly, in all material respects, the fiduciary net position of ABC Pension Plan as of June 30, 20X5, and the changes in fiduciary net position for the year then ended, in accordance with accounting principles generally accepted in the United States of America. Also, in our opinion, the accompanying Schedule referred to above presents fairly, in all material respects, the fiduciary net position of each individual employer as of June 30, 20X5, and the changes in fiduciary net position of each individual employer for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Additionally, the "Supplementary Information" section would be eliminated.

Audit of the Financial Statement section of our report. We are required to be independent of ABC Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Schedule

Management is responsible for the preparation and fair presentation of the Schedule in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedule that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Schedule

Our objectives are to obtain reasonable assurance about whether the fiduciary net position and the changes in fiduciary net position included in the Schedule is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Schedule.⁶

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Schedule, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the Schedule.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the Schedule.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Pension Plan's ability to continue as a going concern for a reasonable period of time.

⁶ The description of management's responsibilities relating to going concern required by paragraph .32b of section 700 may need to be included in this section of the report, or as stated in paragraph .A21 of section 805, may not be relevant or may need to be adapted as necessary. See paragraph .A21 of section 805.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit of the financial statements of ABC Pension Plan was conducted for the purpose of forming an opinion on the financial statements as a whole. The individual employer information presented in each of the individual columns of the accompanying Schedule is presented for purposes of additional analysis and is not a required part of the financial statements. The individual employer information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Each column of individual employer information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual employer information presented in each individual column of the accompanying Schedule is stated fairly, in all material respects, in relation to the financial statements of ABC Pension Plan as a whole. We do not express an opinion on the fiduciary net position or changes in fiduciary net position of each individual employer.⁷

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of ABC Pension Plan as of and for the year ended June 30, 20X5, and our report thereon, dated October 15, 20X5, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of ABC Pension Plan management, *[identify the body or individuals charged with governance of ABC Pension Plan]*, ABC Pension Plan participating employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

.10 Question — In planning and performing an audit of the schedule illustrated in exhibit 3 of this interpretation, may the plan auditor use the same materiality as used for the audit of the plan's basic financial statements?

.11 Interpretation — No. Section 805 states, in part:⁸

In the case of an audit of one or more specific elements of a financial statement, the auditor should determine materiality for each individual element reported on rather than the aggregate of all elements or the complete set of financial statements.

⁷ In accordance with section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, if the auditor's report on the audited financial statements contains an opinion other than unmodified, the auditor should refer to the guidance in section 725.

⁸ Paragraph .14 of section 805.

As a frame of reference, the plan auditor considers judgments about matters that are material to users of the financial statements based on a consideration of the common financial information needs of users as a group. In the report described in paragraph .09 of this interpretation, the auditor is opining on two elements: fiduciary net position and the changes in fiduciary net position. Accordingly, the plan auditor should determine materiality separately for the two elements (that is, fiduciary net position and the changes in fiduciary net position). If the plan auditor has been engaged to opine on each employer column in the schedule, the auditor should determine materiality separately for each employer column.

[Issue Date: June 2014.]

AU-C Section 806

Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements

Source: SAS No. 122; SAS No. 125.

Effective for reports on compliance issued in connection with audits of financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility when the auditor is requested to report on an entity's compliance with aspects of contractual agreements or regulatory requirements, insofar as they relate to accounting matters, in connection with an audit of financial statements (referred to hereinafter as a report on compliance). Such a report is commonly referred to as a by-product report. (Ref: par. .A1–.A2)

.02 Entities may be required by contractual agreements, such as certain bond indentures and loan agreements, or regulatory agencies to provide an auditor's report on compliance. For example, loan agreements may impose a variety of obligations on borrowers involving matters such as payments into sinking funds, payments of interest, maintenance of current ratios, and restrictions of dividend payments. Loan agreements may also require the borrower to provide annual financial statements that have been audited. In some instances, the lenders or their trustees may request the auditor to report that the borrower has complied with certain covenants of the agreement relating to accounting matters. The auditor may satisfy this request by issuing a report on compliance in accordance with the requirements of this section.

.03 As described in paragraph .01, this section addresses reporting on an entity's compliance with aspects of contractual agreements or regulatory requirements in connection with an audit of financial statements. When the auditor is engaged or required by law or regulation to perform a compliance audit in accordance with generally accepted auditing standards (GAAS), the standards for financial audits under *Government Auditing Standards*, and a governmental audit requirement that requires the auditor to express an opinion on compliance with applicable compliance requirements, section 935, *Compliance Audits*, applies.

.04 When the auditor is engaged to perform a separate attest engagement on an entity's compliance with requirements of specified laws, regulations, rules, contracts, or grants, AT-C section 315, *Compliance Attestation*, applies to an examination of an entity's compliance and to an agreed-upon procedures engagement related to an entity's compliance. When the auditor is engaged

to perform a separate attestation engagement related to an entity's internal control over compliance with requirements of specified laws, regulations, rules, contracts, or grants, AT-C section 205, *Examination Engagements*, applies to an examination of an entity's internal control over compliance and AT-C section 315 applies to agreed-upon procedures engagements related to an entity's internal control over compliance.

[Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

Effective Date

.05 This section is effective for reports on compliance issued in connection with audits of financial statements for periods ending on or after December 15, 2012.

Objective

.06 The objective of the auditor is to report appropriately on an entity's compliance with aspects of contractual agreements or regulatory requirements, in connection with the audit of financial statements, when the auditor is requested to report on such matters.

Requirements

Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements

.07 The auditor's report on compliance should include a statement that nothing came to the auditor's attention that caused the auditor to believe that the entity failed to comply with specified aspects of the contractual agreements or regulatory requirements, insofar as they relate to accounting matters, only when

- a. the auditor has not identified any instances of noncompliance,
- b. the auditor has expressed an unmodified or qualified opinion on the financial statements to which the applicable covenants of such contractual agreements or regulatory requirements relate, and
- c. the applicable covenants or regulatory requirements relate to accounting matters that have been subjected to the audit procedures applied in the audit of financial statements.

.08 When the auditor has identified one or more instances of noncompliance, the report on compliance should describe such noncompliance (see paragraphs .12*f* and .13*b*).

.09 When the auditor has expressed an adverse opinion or disclaimed an opinion on the financial statements, the auditor should issue a report on compliance only when instances of noncompliance are identified. Therefore, the requirement in paragraph .08 also applies in such circumstances. The auditor should modify the wording of the report on compliance, as appropriate to the circumstances. (Ref: par. .A3)

.10 Notwithstanding the requirements in paragraphs .07–.09, the auditor is not precluded from issuing a report on compliance if such report is required by another set of auditing standards (for example, *Government Auditing Standards*), and the auditor has been engaged to audit the financial statements in accordance with both GAAS and those other standards.

.11 The report on compliance should be in writing and should be provided either in a separate report (see paragraph .12) or in one or more paragraphs included in the auditor's report on the financial statements (see paragraph .13).

Separate Report on Compliance With Aspects of Contractual Agreements or Regulatory Requirements

.12 When the auditor reports on compliance in a separate report, the report should include the following:

- a. A title that includes the word *independent* to clearly indicate that it is the report of an independent auditor.
- b. An appropriate addressee.
- c. A paragraph that states that the financial statements were audited in accordance with generally accepted auditing standards and an identification of the United States of America as the country of origin of those standards (for example, auditing standards generally accepted in the United States of America or U.S. generally accepted auditing standards) and the date of the auditor's report on those financial statements.
- d. If the auditor expressed a modified opinion¹ on the financial statements, a statement describing the nature of the modification. (Ref: par. .A4)
- e. When no instances of noncompliance are identified by the auditor, a reference to the specific covenants or paragraphs of the contractual agreement or regulatory requirement and a statement that nothing came to the auditor's attention that caused the auditor to believe that the entity failed to comply with specified aspects of the contractual agreements or regulatory requirements, insofar as they relate to accounting matters (see paragraphs .07 and .10).
- f. When instances of noncompliance are identified by the auditor, a reference to the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters, and a description of the identified instances of noncompliance. (Ref: par. .A5)
- g. A statement that the report is being provided in connection with the audit of the financial statements.
- h. A statement that the audit was not directed primarily toward obtaining knowledge regarding compliance, and accordingly, had the auditor performed additional procedures, other matters may have come to the auditor's attention regarding noncompliance with the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters.
- i. A paragraph that includes a description and the source of significant interpretations, if any, made by the entity's management relating to the provisions of the relevant contractual agreement or regulatory requirement.

¹ See section 705, *Modifications to the Opinion in the Independent Auditor's Report*.

- j. A paragraph that includes an appropriate alert in accordance with the section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.² (Ref: par. .A6–.A7)
- k. The manual or printed signature of the auditor's firm and the city and state where the auditor practices.
- l. The date of the report, which should be the same date as the auditor's report on the financial statements.³

[As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

Report on Compliance With Aspects of Contractual Agreements or Regulatory Requirements Included in the Auditor's Report

.13 When a report on compliance is included in the auditor's report on the financial statements, the auditor's report should include an other-matter paragraph⁴ that includes a reference to the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters, and also should include the following:

- a. When no instances of noncompliance are identified by the auditor, a statement that nothing came to the auditor's attention that caused the auditor to believe that the entity failed to comply with specified aspects of the contractual agreements or regulatory requirements, insofar as they relate to accounting matters (see paragraphs .07 and .10).
- b. When instances of noncompliance are identified by the auditor, a description of the identified instances of noncompliance. (Ref: par. .A5)
- c. A statement that the communication is being provided in connection with the audit of the financial statements.
- d. A statement that the audit was not directed primarily toward obtaining knowledge regarding compliance, and accordingly, had the auditor performed additional procedures, other matters may have come to the auditor's attention regarding noncompliance with the specific covenants or paragraphs of the contractual agreement or regulatory requirement, insofar as they relate to accounting matters.
- e. A paragraph that includes a description and the source of significant interpretations, if any, made by the entity's management relating to the provisions of the relevant contractual agreement or regulatory requirement.
- f. A paragraph that includes an appropriate alert in accordance with section 905.⁵ (Ref: par. .A6–.A7)

² Paragraphs .06c, .07, and .11 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

³ Paragraph .41 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

⁴ See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*, for guidance on other-matter paragraphs.

⁵ See footnote 2.

[As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 The financial statements being audited and to which the applicable covenants of the contractual agreements or regulatory requirements relate may be either general purpose or special purpose financial statements.

Considerations Specific to Governmental Entities

.A2 For most state or local governmental entities, the applicable financial reporting framework is based on multiple reporting units and, therefore, requires the presentation of financial statements for its activities in various reporting units. Consequently, a reporting unit or aggregation of reporting units of the governmental entity represents an opinion unit to the auditor. In the context of this section, the auditor is responsible for reporting on compliance for each opinion unit within a governmental entity, when requested.

Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements (Ref: par. .09)

.A3 The exhibit, "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements," provides an example of the wording of the report on compliance when the auditor has disclaimed an opinion on the financial statements.⁶

Separate Report on Compliance With Aspects of Contractual Agreements or Regulatory Requirements (Ref: par. .12d)

.A4 The auditor may include certain additional communications in the separate report on compliance when the auditor included such additional communications in the auditor's report on the financial statements⁷ that are not modifications to the auditor's opinion. For example, if the auditor included an emphasis-of-matter paragraph in the auditor's report on the financial statements because of an uncertainty about the entity's ability to continue as a going concern for a reasonable period of time,⁸ the auditor may also include this in the separate report on compliance.

Reporting When Instances of Noncompliance Are Identified (Ref: par. .12f and .13b)

.A5 When instances of noncompliance are identified, and the entity has obtained a waiver for such noncompliance, the auditor may include a statement in

⁶ Illustration 4, "A Report on Compliance With Aspects of Contractual Agreements Provided in a Separate Report When Instances of Noncompliance Are Identified, and the Auditor Has Disclaimed an Opinion on the Financial Statements," in the exhibit, "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements."

⁷ See section 706.

⁸ See section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*. [Footnote revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126.]

the report on compliance that a waiver has been obtained. The determination of whether to include such a statement is based on the procedures performed by the auditor to evaluate the waiver for the purposes of obtaining sufficient appropriate audit evidence in connection with the audit of the financial statements. All instances of noncompliance are required to be described in the report on compliance, in accordance with paragraph .08, including those for which a waiver has been obtained.

Restrictions on the Use of the Auditor's Report⁹ (Ref: par. .12j and .13f)

.A6 An alert, as discussed in paragraphs .12j and .13f, is necessary because, although compliance matters may be identified by the auditor during the course of the audit engagement, the identification of such matters is not the primary objective of the audit engagement. In addition, the basis, assumptions, or purpose of the provisions in contractual agreements or regulatory requirements to which the report on compliance relates are developed for, and directed only to, the parties to the contractual agreement or the regulatory agency responsible for the requirements. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

.A7 The alert that restricts the use of the report indicates that only the report on compliance with aspects of contractual agreements or regulatory requirements is restricted. Accordingly, the intended use of the auditor's report on the financial statements is not affected by this alert. [As amended, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125.]

⁹ See footnote 2.

Independent Auditor's Report

[Appropriate Addressee]

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated February 16, 20X3.

In connection with our audit, nothing came to our attention that caused us to believe that XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Indenture dated July 21, 20X0, with ABC Bank, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Company's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Indenture, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report

[Appropriate Addressee]

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 5, 20X3.

In connection with our audit, we noted that XYZ Company failed to comply with the "Working Capital" provision of section XX of the Loan Agreement dated March 1, 20X2, with ABC Bank. Our audit was not directed primarily toward obtaining knowledge as to whether XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Loan Agreement, insofar as they relate to accounting matters. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Loan Agreement, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report

[Appropriate Addressee]

We were engaged to audit, in accordance with auditing standards generally accepted in the United States of America, the financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X2, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 5, 20X3. Our report disclaims an opinion on such financial statements because of *[describe the scope limitation or matter causing the disclaimer]*.

In connection with our engagement, we noted that XYZ Company failed to comply with the "Working Capital" provision of section XX of the Loan Agreement dated March 1, 20X2, with ABC Bank. Our engagement was not directed primarily toward obtaining knowledge as to whether XYZ Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Loan Agreement, insofar as they relate to accounting matters. Accordingly, had we been able to complete the audit, other matters may have come to our attention regarding noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Loan Agreement, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the board of directors and management of XYZ Company and ABC Bank and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Audit of the Financial Statements¹

Opinion

We have audited the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one

¹ The subtitle "Report on the Audit of the Financial Statements" is unnecessary in circumstances in which the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.²
- Evaluate appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

In connection with our audit, nothing came to our attention that caused us to believe that ABC Company failed to comply with the terms, covenants, provisions, or conditions of sections XX to YY, inclusive, of the Indenture dated July 21, 20X0 with XYZ Bank, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such non-compliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Company's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the Indenture, insofar as they relate to accounting matters.

Restricted Use Relating to the Other Matter

The communication related to compliance with the aforementioned Indenture described in the Other Matter paragraph is intended solely for the information and use of the boards of directors and management of ABC Company and XYZ

² In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed."

Bank and is not intended to be and should not be used by anyone other than these specified parties.³

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

[Illustration added, effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012, by SAS No. 125. Revised, February 2020, to reflect conforming changes necessary due to the issuance of SAS No. 134, as amended.]

³ When the engagement is also performed in accordance with *Government Auditing Standards*, the alert may read as follows: "The purpose of the communication related to compliance with the aforementioned [compliance requirements] described in the Other Matter paragraph [or, *Report on Compliance*] is solely to describe the scope of our testing of compliance and the results of that testing. This communication is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering ABC Company's compliance. Accordingly, this communication is not suitable for any other purpose." The AICPA Audit Guide *Government Auditing Standards and Circular A-133 Audits* provides additional interpretative guidance, including illustrative reports.

AU-C Section 810

Engagements to Report on Summary Financial Statements

Source: SAS No. 122; SAS No. 137; SAS No. 139.

Effective for audits of financial statements for periods ending on or after December 15, 2012, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibilities relating to an engagement to report separately on summary financial statements derived from financial statements audited in accordance with generally accepted auditing standards (GAAS) by the same auditor. In such an engagement, the auditor forms an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria.

.02 This section does not apply to condensed financial statements or summarized financial information presented as comparative information.¹ Section 700, *Forming an Opinion and Reporting on Financial Statements*, addresses the auditor's responsibility for comparative information.² (Ref: par. .A1)

.03 Summary financial statements may be required by a designated accounting standards setter (for example, the Governmental Accounting Standards Board) to accompany the basic financial statements. This section does not apply in such circumstances. Section 730, *Required Supplementary Information*, addresses the auditor's responsibilities relating to information supplementary to the basic financial statements that is required by a designated accounting standards setter to accompany such financial statements.

Effective Date

.04 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objectives

.05 The objectives of the auditor are

- a. to determine whether it is appropriate to accept the engagement to report on summary financial statements and,
- b. if engaged to report on summary financial statements, to
 - i. perform the procedures necessary as the basis for the auditor's opinion on the summary financial statements;

¹ Paragraph .11 of section 700, *Forming an Opinion and Reporting on Financial Statements*, defines the terms *condensed financial statements* and *comparative information*.

² Paragraphs .45–.52 of section 700. [Revised, July 2017, to reflect conforming changes necessary due to the issuance of SAS No. 131.]

- ii. form an opinion on whether the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria, based on an evaluation of the conclusions drawn from the evidence obtained; and
- iii. express clearly that opinion through a written report that also describes the basis for that opinion.

Definitions

.06 For purposes of this section, the following terms have the meanings attributed as follows:

Applied criteria. The criteria applied by management in the preparation of the summary financial statements.

Summary financial statements. Historical financial information³ that is derived from financial statements but that contains less detail than the financial statements, while still providing a structured representation consistent with that provided by the financial statements of the entity's economic resources or obligations at a point in time or the changes therein for a period of time. Summary financial statements are separately presented and are not presented as comparative information.

.07 In this section, the term *audited financial statements* refers to those financial statements⁴ audited by the auditor in accordance with GAAS and from which the summary financial statements are derived.

Requirements

Engagement Acceptance

.08 The auditor should not accept an engagement to report on summary financial statements in accordance with this section unless the auditor has been engaged to conduct an audit in accordance with GAAS of the financial statements from which the summary financial statements are derived. (Ref: par. .A2)

.09 Before accepting an engagement to report on summary financial statements, the auditor should

- a. determine whether the applied criteria are acceptable, including determining that the applied criteria (Ref: par. .A3–.A5)
 - i. are free from bias so that the summary financial statements are not misleading.
 - ii. permit reasonably consistent qualitative or quantitative measurements so that the information in the summary financial statements agrees with or can be recalculated

³ Paragraph .14 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, defines the term *historical financial information*.

⁴ Paragraph .14 of section 200 defines the term *financial statements*.

from the related information in the audited financial statements.

- iii. are sufficiently complete so that the summary financial statements contain the information necessary and are at an appropriate level of aggregation, so that they are not misleading in the circumstances.
 - iv. are relevant to the summary financial statements in view of their purpose.
- b. obtain the agreement of management, in writing, that it acknowledges and understands its responsibility
- i. for the preparation of the summary financial statements in accordance with the applied criteria.
 - ii. to clearly describe in the summary financial statements where the audited financial statements are available and to make the audited financial statements readily available to the intended users of the summary financial statements when the summary financial statements will not be accompanied by the audited financial statements. (Ref: par. .A6–.A7)
 - iii. to provide the auditor with written representations, as described in paragraph .12.
 - iv. to include the auditor's report on the summary financial statements in any document that contains the summary financial statements and indicates the auditor has reported on them.
- c. obtain the agreement of management, in writing, about the expected form and content of the report on the summary financial statements, including the agreement that there may be circumstances in which the report may differ from its expected form and content. (Ref: par. .A8)

.10 If the auditor concludes that the applied criteria are unacceptable or is unable to obtain the agreement of management in accordance with paragraph .09b–c, the auditor should not accept the engagement to report on the summary financial statements. [As amended, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

Nature of Procedures

.11 The auditor should perform the following procedures, and any other procedures that the auditor may consider necessary, as the basis for the auditor's opinion on the summary financial statements:

- a. Evaluate whether the summary financial statements adequately disclose their summarized nature and identify the audited financial statements. (Ref: par. .A9)
- b. When the summary financial statements are not accompanied by the audited financial statements, evaluate
 - i. whether the summary financial statements clearly describe where the audited financial statements are available and

- ii. whether the audited financial statements are readily available to the intended users of the summary financial statements. (Ref: par. .A7)
- c. Evaluate whether the summary financial statements adequately disclose the applied criteria.
- d. Compare the summary financial statements with the related information in the audited financial statements to determine whether the summary financial statements agree with or can be recalculated from the related information in the audited financial statements.
- e. Evaluate whether the summary financial statements are prepared in accordance with the applied criteria.
- f. Evaluate, in view of the purpose of the summary financial statements, whether the summary financial statements contain the information necessary, and are at an appropriate level of aggregation, so that they are not misleading in the circumstances.

Written Representations

.12 The auditor should request management to provide written representations, in the form of a representation letter addressed to the auditor, for the following matters:

- a. Management has fulfilled its responsibility for the preparation of the summary financial statements in accordance with the applied criteria and believes the applied criteria are acceptable
- b. Management has made the audited financial statements readily available to the intended users of the summary financial statements, when the summary financial statements will not be accompanied by the audited financial statements
- c. If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements,
 - i. whether any information has come to management's attention that would cause management to believe that any of the previous representations on the audited financial statements need to be modified
 - ii. whether any events have occurred subsequent to the date of the audited financial statements that may require adjustment of, or disclosure in, the audited financial statements

.13 The date of the written representations should be as of the date of the auditor's report on the summary financial statements. The written representations should be for all summary financial statements and period(s) referred to in the auditor's report on the summary financial statements.

.14 When the auditor has concluded that an unmodified opinion on the summary financial statements is appropriate, the auditor's opinion should state that the summary financial statements are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria.

Auditor's Report on Summary Financial Statements

Elements of the Auditor's Report (Ref: par. .A10)

.15 The auditor's report on summary financial statements should include the following elements:

- a. A title that clearly indicates that it is the report of an independent auditor (Ref: par. .A11)
- b. An addressee
- c. Identification of the summary financial statements on which the auditor is reporting, including the title of each statement included in the summary financial statements (Ref: par. .A12)
- d. Identification of the audited financial statements from which the summary financial statements have been derived
- e. Subject to paragraph .19, a clear expression of an opinion, as described in paragraphs .14 and .20
- f. A statement indicating that the summary financial statements do not contain all the disclosures required by the *[financial reporting framework applied in the preparation of the financial statements]* and that reading the summary financial statements and the auditor's report thereon is not a substitute for reading the audited financial statements and the auditor's report thereon
- g. If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements, a statement that the summary financial statements and the audited financial statements do not reflect the effects of events, if any, that occurred subsequent to the date of the auditor's report on the audited financial statements (see paragraph .17) (Ref: par. .A13)
- h. Reference to the auditor's report on the audited financial statements, the date of that report, and, subject to paragraphs .19–.20, the fact that an unmodified opinion is expressed on the audited financial statements
- i. A description of management's responsibility for the summary financial statements, explaining that management is responsible for the preparation of the summary financial statements in accordance with the applied criteria
- j. A statement that the auditor is responsible for expressing an opinion on whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on the procedures required by GAAS and an identification of the United States of America as the country of origin of those standards, including the following:
 - i. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived and evaluating whether the summary financial statements are prepared in accordance with the applied criteria.
 - ii. If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on

the audited financial statements, the auditor did not perform any audit procedures regarding the audited financial statements after the date of the report on those financial statements.

- k. The signature of the auditor's firm
- l. The city and state where the auditor's report is issued
- m. The date of the auditor's report

[Paragraph renumbered and amended, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

.16 The auditor should date the auditor's report on the summary financial statements no earlier than

- a. the date on which the auditor has obtained sufficient appropriate evidence on which to base the opinion, including evidence that the summary financial statements have been prepared and that management and, when appropriate, those charged with governance, have asserted that they have taken responsibility for them; and
- b. the date of the auditor's report on the audited financial statements.

[Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.17 When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements, the auditor may become aware of *subsequently discovered facts* as defined in section 560, *Subsequent Events and Subsequently Discovered Facts*. In such cases, the auditor should not release the auditor's report on the summary financial statements until the auditor's consideration of subsequently discovered facts in relation to the audited financial statements, in accordance with section 560, has been completed. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Reference to the Auditor's Report on the Audited Financial Statements (Ref: par. .A14)

.18 If the auditor's report on the audited financial statements contains a qualified opinion, an emphasis-of-matter paragraph, an other-matter paragraph, a going concern section, or communication of key audit matters, and the auditor expresses an unmodified opinion (see paragraph .14) on the summary financial statements, in addition to the elements in paragraph .15, the auditor's report on the summary financial statements should

- a. state that the auditor's report on the audited financial statements contains a qualified opinion, an emphasis-of-matter paragraph, an other-matter paragraph, a going concern section, or communication of key audit matters and
- b. describe
 - i. the basis for the qualified opinion on the audited financial statements and the effect thereof, if any, on the summary financial statements, or
 - ii. the matter referred to in the emphasis-of-matter paragraph, other-matter paragraph, or going concern section in the auditor's report on the audited financial statements and the effect thereof, if any, on the summary financial statements.

[Paragraph renumbered and amended, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

.19 When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion, the auditor should withdraw from the engagement to report on the summary financial statements, when withdrawal is possible under applicable law or regulation. If it is not possible for the auditor to withdraw from the engagement, the auditor's report on the summary financial statements should, in addition to the elements in paragraph .15

- a. state that the auditor's report on the audited financial statements contains an adverse opinion or disclaimer of opinion.
- b. describe the basis for that adverse opinion or disclaimer of opinion.
- c. state that, as a result of the adverse opinion or disclaimer of opinion, it is inappropriate to express, and the auditor does not express, an opinion on the summary financial statements.

[Paragraph renumbered and amended, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

Modified Opinion on the Summary Financial Statements

.20 If the summary financial statements are not consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria, and management does not agree to make the necessary changes, the auditor should express an adverse opinion on the summary financial statements. The auditor should state in the opinion paragraph that, in the auditor's opinion, because of the significance of the matter(s) described in the Basis for Adverse Opinion section, the summary financial statements are not consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the applied criteria. (Ref: par. .A18) [Paragraph renumbered and amended, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

Restriction on Use or Alerting Readers to the Basis of Accounting

.21 When use of the auditor's report on the audited financial statements is restricted or the auditor's report on the audited financial statements alerts readers that the audited financial statements are prepared in accordance with a special purpose framework, the auditor should include a similar restriction or alert in the auditor's report on the summary financial statements.

Comparatives

.22 If the audited financial statements contain comparative financial statements but the summary financial statements do not, the auditor should determine whether such omission is reasonable in the circumstances of the engagement. The auditor should determine the effect of an unreasonable omission on the auditor's report on the summary financial statements. (Ref: par. .A19–.A20)

.23 Unless the predecessor auditor's report on the prior period's summary financial statements is reissued with the summary financial statements, if the summary financial statements contain comparatives that were reported on

by another auditor, the auditor's report on the summary financial statements should state

- a. that the summary financial statements of the prior period were audited by a predecessor auditor.
- b. the type of opinion expressed by the predecessor auditor and, if the opinion was modified, the reasons therefore.
- c. the date of that report.

.24 If the summary financial statements contain comparatives that were not reported on by the auditor or another auditor, the auditor's report on the summary financial statements should state that the comparative summary financial statements were not reported on by the auditor and, accordingly, the auditor does not express an opinion on the comparative summary financial statements.

Unaudited Information Presented With Summary Financial Statements (Ref: par. .A21)

.25 The auditor should evaluate whether any unaudited information presented with the summary financial statements is clearly differentiated from the summary financial statements. If the auditor concludes that the entity's presentation of the unaudited information is not clearly differentiated from the summary financial statements, the auditor should ask management to change the presentation of the unaudited information. If management refuses to do so, the auditor should explain in the auditor's report on the summary financial statements that such information is not covered by that report and accordingly, the auditor does not express an opinion on the information.

Information in Documents Containing Summary Financial Statements (Ref: par. .A22)

.26 The auditor should read the information included in a document containing the summary financial statements and the auditor's report thereon and consider whether a material inconsistency exists between that information and the summary financial statements. [As amended, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

.27 If, upon reading the other information, the auditor identifies that a material inconsistency appears to exist or becomes aware that the other information appears to be materially misstated, the auditor should discuss the matter with management and should consider appropriate further action in the circumstances. For an identified material inconsistency, the auditor should also determine whether the summary financial statements or the other information needs to be revised. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 137.]

Auditor Association (Ref: par. .A23)

.28 If the auditor becomes aware that the entity plans to state that the auditor has reported on summary financial statements in a document containing the summary financial statements, but does not plan to include the related auditor's report, the auditor should request management to include the auditor's report in the document. If management does not do so, the auditor should determine and carry out other appropriate actions designed to prevent

management from inappropriately associating the auditor with the summary financial statements in that document.

.29 The auditor may be engaged to report on the financial statements of an entity, while not engaged to report on the summary financial statements. If, in this case, the auditor becomes aware that the entity plans to make a statement in a document that refers to the auditor and the fact that summary financial statements are derived from the financial statements audited by the auditor, the auditor should be satisfied that

- a.* the reference to the auditor is made in the context of the auditor's report on the audited financial statements, and
- b.* the statement does not give the impression that the auditor has reported on the summary financial statements.

If either *a* or *b* is not met, the auditor should request management to change the statement to meet both of the criteria in *a* and *b*, or not to refer to the auditor in the document. Alternatively, the entity may engage the auditor to report on the summary financial statements and include the related auditor's report in the document. If management does not change the statement, delete the reference to the auditor, or include an auditor's report on the summary financial statements in the document containing the summary financial statements, the auditor should advise management that the auditor disagrees with the reference to the auditor, and the auditor should determine and carry out other appropriate actions designed to prevent management from inappropriately associating the auditor with the summary financial statements in that document.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .02)

.A1 Financial statements may present comparative information in the form of condensed financial statements or summarized financial information. For example, entities such as state and local governmental units may present prior period financial information in their government-wide financial statements only for the total reporting entity rather than disaggregated by governmental activities, business-type activities, total primary government, and discretely presented component units. Also, not-for-profit organizations frequently present certain information for the prior period in total rather than by net asset class. As described in paragraph .02, this section does not apply to reporting on financial statements containing such comparative information. Summary financial statements differ from comparative information. Summary financial statements may be presented in a document containing financial statements or in a separate document, whereas comparative information is presented within the financial statements.^[5] [As amended, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

Engagement Acceptance

.A2 The audit of the financial statements from which the summary financial statements are derived provides the auditor with the necessary knowledge to discharge the auditor's responsibilities regarding the summary financial statements, in accordance with this section. Application of this section will

^[5] [Footnote deleted by the issuance of SAS No. 139, March 2020.]

not provide sufficient appropriate evidence on which to base the opinion on the summary financial statements if the auditor also has not audited the financial statements from which the summary financial statements are derived. (Ref: par. .08)

Criteria (Ref: par. .09a)

.A3 The preparation of summary financial statements requires management to determine the information that needs to be reflected in the summary financial statements so that they are consistent, in all material respects, with the audited financial statements. Because summary financial statements by their nature contain aggregated information and limited disclosure, there is an increased risk that they may not contain the information necessary so that they are not misleading in the circumstances. This risk increases when established criteria for the preparation of summary financial statements do not exist.

.A4 Factors that may affect the auditor's determination of the acceptability of the applied criteria include the following:

- The nature of the entity
- The purpose of the summary financial statements
- The information needs of the intended users of the summary financial statements
- Whether the applied criteria will result in summary financial statements that are not misleading in the circumstances

.A5 The criteria for the preparation of summary financial statements may be established by an authorized or recognized standards-setting organization or by law or regulation. In many such cases, the auditor may presume that such criteria are acceptable. When established criteria for the preparation of summary financial statements do not exist, criteria may be developed by management, for example, based on practice in a particular industry.

Availability of the Audited Financial Statements (Ref: par. .09b(ii) and .11b(ii))

.A6 Summary financial statements are presented in considerably less detail than the complete set of financial statements and do not contain all the disclosures required by the financial reporting framework applied in the preparation of the complete set of financial statements. In addition, reading the summary financial statements is not a substitute for reading the audited financial statements. Accordingly, before accepting an engagement to report on summary financial statements, the auditor is required by paragraph .09b(ii) to obtain management's agreement that it acknowledges and understands its responsibility to make the audited financial statements readily available to the intended users of the summary financial statements, when the summary financial statements will not be accompanied by the audited financial statements.

.A7 Audited financial statements are deemed to be readily available if a third-party user can obtain the audited financial statements without any further action by the entity (for example, financial statements on an entity's website may be considered readily available but being available upon request is not considered readily available).

Agreement on the Expected Form and Content of the Report (Ref: par. .09c)

.A8 Agreement with management about the expected form and content of the report on the summary financial statements may include a description of

the types of opinions the auditor may express. It is not necessary to describe the type of opinion expected to be issued. The auditor also may indicate that circumstances may arise in which it is necessary for the auditor to withdraw from the engagement.

Nature of Procedures (Ref: par. .11)

.A9 Adequate disclosure of the summarized nature of summary financial statements and the identity of the audited financial statements, as referred to in paragraph .11a, may, for example, be provided by a title such as "Summary Financial Statements Prepared From the Audited Financial Statements as of and for the Year Ended December 31, 20X1."

Auditor's Report on Summary Financial Statements

Elements of the Auditor's Report (Ref: par. .15)

.A10 An auditor who is engaged to report on summary financial statements does not report in the same manner as the auditor reported on the complete set of financial statements from which they are derived. To do so might lead users to assume, erroneously, that the summary financial statements include all the disclosures necessary for the complete set of financial statements. For the same reason, summary financial statements need to adequately disclose their summarized nature, as referred to in paragraphs .11a and .A9. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Title (Ref: par. .15a)

.A11 A title that includes the word *independent* to clearly indicate the report is the report of an independent auditor (for example, *Report of the Independent Auditor*) affirms that the auditor has met all of the relevant ethical requirements regarding independence. This distinguishes the report of the independent auditor from reports issued by others. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Identification of the Summary Financial Statements (Ref: par. .15c)

.A12 When the auditor is aware that the summary financial statements will be included in a document that contains other information, the auditor may consider, if the form of presentation allows, identifying the page numbers on which the summary financial statements are presented. This helps readers identify the summary financial statements that relate to the auditor's report. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Date of the Auditor's Report on the Summary Financial Statements and Events Subsequent to the Date of the Auditor's Report on the Audited Financial Statements (Ref: par. .15c(iv))

.A13 The auditor's report on the summary financial statements may be dated as of the same date or later than the date of the auditor's report on the audited financial statements, depending on when the procedures in paragraph .11 are performed and, as required by paragraph .16, when the auditor has obtained sufficient appropriate evidence on which to base the opinion. When the auditor reports on the summary financial statements after the completion of the financial statement audit, the auditor is not required to obtain additional audit evidence on the audited financial statements, or report on the effects of events that occurred subsequent to the date of the auditor's report on the audited financial statements because the summary financial statements are

derived from the audited financial statements and do not update them. In such cases, however, paragraph .15c(iv) requires the auditor's report to state that the summary financial statements and the audited financial statements do not reflect the effects of events, if any, that occurred subsequent to the date of the auditor's report on the audited financial statements. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Reference to the Auditor's Report on the Audited Financial Statements **(Ref: par. .18)**

.A14 If the auditor's report on the audited financial statements contains a qualified opinion, the auditor may determine that, due to the effect on the summary financial statements, it is inappropriate to express an opinion on the summary financial statements. In such circumstances, the auditor may adapt and apply the requirement in paragraph .19. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A15 Paragraph .18a requires the auditor to include a statement in the auditor's report on the summary financial statements when the auditor's report on the audited financial statements includes communication of one or more key audit matters in accordance with section 701, *Communicating Key Audit Matters in the Independent Auditor's Report*. However, the auditor is not required to describe the individual key audit matters in the auditor's report on the summary financial statements. [Paragraph added, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

.A16 The statements and descriptions required by paragraph .18 are intended to draw attention to those matters and are not a substitute for reading the auditor's report on the audited financial statements. The required descriptions are intended to convey the nature of the matters and need not repeat the corresponding text in the auditor's report on the audited financial statements in its entirety. [Paragraph added, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

.A17 When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion, paragraph .19 requires the auditor to withdraw from the engagement to report on the summary financial statements, when withdrawal is possible under applicable law or regulation. When an entity is required by law or regulation to provide a report on summary financial statements, the auditor is neither precluded from withdrawing, nor required to withdraw, from the engagement. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Modified Opinion on the Summary Financial Statements **(Ref: par. .20)**

.A18 If the summary financial statements are not consistent, in all material respects, with the audited financial statements in accordance with the applied criteria, and management does not agree to make the necessary changes, the auditor is required by paragraph .20 to express an adverse opinion on the summary financial statements. Due to the summarized nature of the summary financial statements, a qualified opinion would not be appropriate; the summary financial statements either are or are not consistent, in all material

respects, with the audited financial statements, in accordance with the applied criteria. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Comparatives (Ref: par. .22)

.A19 If the audited financial statements contain comparative financial statements, a presumption exists that the summary financial statements also would contain comparatives. Section 700 addresses the auditor's responsibilities regarding comparative financial statements in an audit of financial statements.⁶ [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

.A20 Circumstances that may affect the auditor's determination whether an omission of comparatives is reasonable include:

- The nature and objective of the summary financial statements
- The applied criteria
- The information needs of the intended users of the summary financial statements

[Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Unaudited Information Presented With Summary Financial Statements (Ref: par. .25)

.A21 Section 700 contains a requirement and guidance related to information presented in the financial statements that is not required by the applicable financial reporting framework.⁷ Such requirement and guidance, adapted as necessary in the circumstances, may be helpful in applying the requirement in paragraph .25. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Other Information in Documents Containing Summary Financial Statements (Ref: par. .26–.27)

.A22 Section 720, *The Auditor's Responsibilities Relating to Other Information Included in Annual Reports*, contains requirements and guidance relating to reading other information included in an entity's annual report and responding when a material inconsistency appears to exist or other information appears to be materially misstated. Adapted as necessary in the circumstances, these requirements and related guidance may be helpful in applying the requirements in paragraphs .26–.27. [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 137. Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Auditor Association (Ref: par. .28–.29)

.A23 Other appropriate actions the auditor may take when management does not take the requested action may include informing the intended users and other known third-party users of the inappropriate reference to the auditor,

⁶ Paragraphs .45–.52 of section 700. [Revised, July 2017, to reflect conforming changes necessary due to the issuance of SAS No. 131. Footnote renumbered by the issuance of SAS No. 139, March 2020.]

⁷ Paragraph .59 of section 700. [Revised, July 2017, to reflect conforming changes necessary due to the issuance of SAS No. 131. Footnote renumbered by the issuance of SAS No. 139, March 2020.]

including that the auditor did not report, and does not express an opinion on, the summary financial statements. The auditor's course of action depends on the auditor's association with misleading information and the auditor's legal rights and obligations. Consequently, the auditor may consider it appropriate to seek legal advice. [Paragraph renumbered by the issuance of SAS No. 139, March 2020.]

Illustration 1 — An Unmodified Opinion Is Expressed on the Summary Financial Statements (the Auditor's Report on the Summary Financial Statements Is Dated Later Than the Date of the Auditor's Report on the Financial Statements From Which the Summary Financial Statements Are Derived)

Circumstances include all of the following:

- An unmodified opinion is expressed on the audited financial statements.
- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.
- An unmodified opinion is expressed on the summary financial statements.
- The auditor's report on the summary financial statements is dated later than the date of the auditor's report on the financial statements from which the summary financial statements are derived.^{1, 2}

Independent Auditor's Report on Summary Financial Statements

[Appropriate Addressee]

Opinion

The summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. We expressed an unmodified audit opinion on those audited financial statements in our report dated February 15, 20X2.

In our opinion, the accompanying summary financial statements of ABC Company as of and for the year ended December 31, 20X1 referred to above are consistent, in all material respects, with the audited financial statements from which they have been derived, on the basis described in Note X.

Summary Financial Statements

The summary financial statements do not contain all the disclosures required by *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*. Reading the summary financial statements and the auditor's report hereon, therefore, is not a substitute for reading

¹ If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements, the following statement is added to the Summary Financial Statements section of the report: "The audited financial statements, and the summary financial statements derived therefrom, do not reflect the effects of events, if any, that occurred subsequent to the date of our report on the audited financial statements." [As amended, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

² If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements, the following statement is added to the Auditor's Responsibility section of the report: "We did not perform any audit procedures regarding the audited financial statements after the date of the report on those financial statements." [As amended, effective for engagements to report on summary financial statements for periods ending on or after December 15, 2021, by SAS No. 139.]

the audited financial statements and the auditor's report thereon. The summary financial statements and the audited financial statements do not reflect the effects of events that occurred subsequent to the date of our report on the audited financial statements.

Responsibility of Management for the Summary Financial Statements

Management is responsible for the preparation of the financial statements in accordance with the criteria described in Note X.

Auditor's Responsibility

Our responsibility is to express an opinion on whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X. We did not perform any audit procedures regarding the audited financial statements after the date of our report on those financial statements.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 2 — An Unmodified Opinion Is Expressed on the Summary Financial Statements and a Qualified Opinion Is Expressed on the Audited Financial Statements

Circumstances include all of the following:

- A qualified opinion is expressed on the audited financial statements.
- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.
- An unmodified opinion is expressed on the summary financial statements.
- The auditor's report on the summary financial statements is dated the same as the date of the auditor's report on the financial statements from which the summary financial statements are derived.

Independent Auditor's Report on Summary Financial Statements

[Appropriate Addressee]

Opinion

The summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. We expressed a qualified audit opinion on those audited financial statements in our report dated February 15, 20X2 (see below).

In our opinion, the accompanying summary financial statements of ABC Company as of and for the year ended December 31, 20X1, referred to above are consistent, in all material respects, with the audited financial statements from which they have been derived, in accordance with the criteria described in Note X.

Summary Financial Statements

The summary financial statements do not contain all the disclosures required by [describe financial reporting framework applied in the preparation of the financial statements of ABC Company]. Reading the summary financial statements and the auditor's report thereon, therefore, is not a substitute for reading the audited financial statements and the auditor's report thereon.

The Audited Financial Statements and Our Report Thereon

The basis for our qualified audit opinion was that management has not stated the inventories at the lower of cost or net realizable value but has stated them solely at cost, which constitutes a departure from [describe financial reporting framework applied in the preparation of the financial statements of ABC Company]. The Company's records indicate that, had management stated the inventories at the lower of cost or net realizable value, an amount of \$XXX would have been required to write the inventories down to their net realizable value. Accordingly, cost of sales would have been increased by \$XXX, and income tax, net income, and stockholders' equity would have been reduced by \$XXX, \$XXX, and \$XXX, respectively.

Responsibilities of Management for the Summary Financial Statements

Management is responsible for the preparation of the summary financial statements in accordance with the criteria described in Note X.

Auditor's Responsibility

Our responsibility is to express an opinion on whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 3 — An Adverse Opinion Is Expressed on the Audited Financial Statements (as a Result of the Adverse Opinion on the Audited Financial Statements, It Is Inappropriate to Express, and the Auditor Does Not Express, an Opinion on the Summary Financial Statements)

Circumstances include both of the following:

- An adverse opinion is expressed on the audited financial statements. As a result of the adverse opinion on the audited financial statements, it is inappropriate to express, and the auditor does not express, an opinion on the summary financial statements, as described in paragraph .19.
- Criteria are developed by management for the preparation of the summary financial statements and are adequately disclosed in Note X. The auditor has determined that the criteria are acceptable in the circumstances.
- The auditor's report on the summary financial statements is dated the same as the date of the auditor's report on the financial statements from which the summary financial statements are derived.

Independent Auditor's Report on Summary Financial Statements

[Appropriate Addressee]

Disclaimer of Opinion

The summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1.

As a result of the adverse opinion on the audited financial statements discussed in the Audited Financial Statements and Our Report Thereon section of our report, it is inappropriate to express, and we do not express, an opinion on the accompanying summary financial statements.

Summary Financial Statements

The summary financial statements do not contain all the disclosures required by *[describe financial reporting framework applied in the preparation of the audited financial statements of ABC Company]*. Reading the summary financial statements and the auditor's report thereon, therefore, is not a substitute for reading the audited financial statements and the auditor's report thereon.

The Audited Financial Statements and Our Report Thereon

In our report dated February 15, 20X2, we expressed an adverse audit opinion on the financial statements of ABC Company as of and for the year ended December 31, 20X1. The basis for our adverse audit opinion was *[describe basis for adverse audit opinion]*. Our adverse audit opinion stated that *[describe adverse audit opinion]*.

Responsibility of Management for the Summary Financial Statements

Management is responsible for the preparation of these summary financial statements on the basis described in Note X.

Auditor's Responsibility

We were engaged to express an opinion on whether the summary financial statements are consistent, in all material respects, with the audited financial

statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. However, as a result of the adverse opinion on the audited financial statements as discussed above, we do not express an opinion on the accompanying summary financial statements.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 4 — An Adverse Opinion Is Expressed on the Summary Financial Statements Because They Are Not Consistent, in All Material Respects, With the Audited Financial Statements, in Accordance With the Applied Criteria

Circumstances include all of the following:

- An unmodified opinion is expressed on the audited financial statements.
- Established criteria for the preparation of summary financial statements exist.
- The auditor expresses an adverse opinion on the summary financial statements because they are not consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria.
- The auditor's report on the summary financial statements is dated the same as the date of the auditor's report on the financial statements from which the summary financial statements are derived.

Independent Auditor's Report on Summary Financial Statements

[Appropriate Addressee]

Adverse Opinion

The summary financial statements, which comprise the summary balance sheet as of December 31, 20X1, the summary income statement, summary statement of changes in stockholders' equity, and summary cash flow statement for the year then ended, and the related notes, are derived from the audited financial statements of ABC Company as of and for the year ended December 31, 20X1. We expressed an unmodified audit opinion on those audited financial statements in our report dated February 15, 20X2.

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section, the summary financial statements of ABC Company as of and for the year ended December 31, 20X1 referred to above are not consistent with the audited financial statements from which they have been derived, on the basis described in Note X.

Basis for Adverse Opinion

[Describe matter that caused the summary financial statements not to be consistent, in all material respects, with the audited financial statements, in accordance with the applied criteria.]

Summary Financial Statements

The summary financial statements do not contain all the disclosures required by *[describe financial reporting framework applied in the preparation of the financial statements of ABC Company]*. Reading the summary financial statements and the auditor's report thereon, therefore, is not a substitute for reading the audited financial statements and the auditor's report thereon.

Responsibilities of Management for the Summary Financial Statements

Management is responsible for the preparation of the summary financial statements on the basis described in Note X.

Auditor's Responsibility

Our responsibility is to express an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance

with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived and evaluating whether the summary financial statements are prepared in accordance with the basis described in Note X.

AU-C Section 905

Alert That Restricts the Use of the Auditor's Written Communication

Source: SAS No. 125; SAS 130.

Effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012. For all other engagements conducted in accordance with GAAS, this section is effective for the auditor's written communications issued on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibility, when required or the auditor decides, to include in the auditor's report or other written communication issued by the auditor in connection with an engagement conducted in accordance with generally accepted auditing standards (GAAS) (hereinafter referred to in this section as auditor's written communication) language that restricts the use of the auditor's written communication. This language is referred to in this section as an alert. In an auditor's report, such language is included in an other-matter paragraph. (Ref: par. .A1 and .A3)

.02 Appendix A, "List of AU-C Sections Relating to the Restricted Use of the Auditor's Written Communication," identifies sections that contain specific requirements to include an alert that restricts the use of the auditor's written communication or that otherwise address the inclusion of such alerts. Accordingly, the requirements in this section regarding the form of such alert apply. (Ref: par. .A2)

Effective Date

.03 This section is effective for the auditor's written communications related to audits of financial statements for periods ending on or after December 15, 2012. For all other engagements conducted in accordance with GAAS, this section is effective for the auditor's written communications issued on or after December 15, 2012.

Objective

.04 The objective of the auditor is to restrict the use of the auditor's written communication by including an alert when the potential exists for the auditor's written communication to be misunderstood if taken out of the context in which the auditor's written communication is intended to be used.

Definition

.05 For purposes of GAAS, the following term has the meaning attributed as follows:

Specified parties. The intended users of the auditor's written communication.

Requirements

Alert That Restricts the Use of the Auditor's Written Communication

.06 The auditor's written communication should include an alert, in a separate paragraph, that restricts its use when the subject matter of the auditor's written communication is based on (Ref: par. .A2-.A3)

- a. measurement or disclosure criteria that are determined by the auditor to be suitable only for a limited number of users who can be presumed to have an adequate understanding of the criteria,
- b. measurement or disclosure criteria that are available only to the specified parties, or
- c. matters identified by the auditor during the course of the audit engagement when the identification of such matters is not the primary objective of the audit engagement (commonly referred to as a by-product report). (Ref: par. .A4-.A7)

.07 Unless specified otherwise by this section or other relevant sections, the alert that restricts the use of the auditor's written communication required by paragraph .06 should

- a. state that the auditor's written communication is intended solely for the information and use of the specified parties.
- b. identify the specified parties for whom use is intended. In situations covered by paragraph .06c, the specified parties should only include management, those charged with governance, others within the entity, the parties to the contract or agreement, or the regulatory agencies to whose jurisdiction the entity is subject, as appropriate in the circumstances.
- c. state that the auditor's written communication is not intended to be and should not be used by anyone other than the specified parties. (Ref: par. .A8-.A9)

Adding Other Specified Parties (Ref: par. .A10)

.08 When, in accordance with paragraph .06, the auditor includes an alert that restricts the use of the auditor's written communication to certain specified parties, and the auditor is requested to add other parties as specified parties, the auditor should determine whether to agree to add the other parties as specified parties. In situations covered by paragraph .06c, the auditor should not agree to add as specified parties any other parties not described in paragraph .07b.

.09 When the auditor agrees to add other parties as specified parties, the auditor should obtain affirmative acknowledgment, in writing, from the other parties of their understanding of

- a. the nature of the engagement resulting in the auditor's written communication,
- b. the measurement or disclosure criteria related to the subject matter of the auditor's written communication, and
- c. the auditor's written communication.

.10 If the other parties are added after the release of the auditor's written communication, in addition to the requirements of paragraph .09, the auditor should take one of the following actions:

- a. Amend the auditor's written communication to add the other parties. In such circumstances, the auditor should not change the original date of the auditor's written communication.
- b. Provide a written acknowledgment to management and the other parties that such parties have been added as specified parties. The auditor should state in the acknowledgment that no procedures were performed subsequent to the original date of the auditor's written communication or the date that the engagement was completed, as appropriate.

Alert for Engagements Performed in Accordance With Government Auditing Standards (Ref: par. .A11)

.11 The alert language required by paragraph .07 should not be used when

- a. the engagement is performed in accordance with *Government Auditing Standards*, and
- b. the auditor's written communication pursuant to that engagement is issued in accordance with
 - i. section 265, *Communicating Internal Control Related Matters Identified in an Audit*;
 - ii. section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*;
 - iii. section 935, *Compliance Audits*; or
 - iv. section 940, *An Audit of Internal Control Over Financial Reporting That Is Integrated With an Audit of Financial Statements*.

Instead, the alert required by paragraph .06 should

- a. describe the purpose of the auditor's written communication and
- b. state that the auditor's written communication is not suitable for any other purpose.

[As amended, effective for audits for periods ending on or after December 15, 2016, by SAS No. 130.]

Application and Other Explanatory Material

Alert That Restricts the Use of the Auditor's Written Communication (Ref: par. .01-.02 and .06)

.A1 In addition to auditor's reports, auditor's written communications may include letters or presentation materials (for example, letters communicating internal control related matters or presentations addressing communications with those charged with governance).

.A2 Certain sections, identified in appendix A, contain specific requirements to include an alert that restricts the use of the auditor's written communication or that otherwise address the inclusion of such alerts. The need for an alert that restricts the use of the auditor's written communication arises from the potential for the auditor's written communication to be misunderstood if

taken out of the context in which the auditor's written communication is intended to be used. The context in which the auditor's written communication is intended to be used may consist of a number of circumstances, including

- the purpose of the auditor's written communication;
- the nature of the procedures applied in its preparation;
- the basis of, or assumptions used in, its preparation; and
- the extent to which the procedures performed generally are known or understood.

.A3 Auditor's reports on financial statements prepared in accordance with a general purpose framework ordinarily do not include an alert that restricts their use. However, nothing in GAAS precludes an auditor from including such an alert in any auditor's report or other auditor's written communication. For example, financial statements prepared specifically for use in connection with an acquisition may be prepared in accordance with a general purpose framework because the parties involved in the transaction have agreed that such general purpose financial statements are appropriate for their purposes. Nevertheless, when the terms of the engagement to audit those financial statements require the auditor to supply the auditor's report only to specified parties, the auditor may consider it necessary in the circumstances to include an other-matter paragraph in the auditor's report that restricts the use of the auditor's report.¹

.A4 The subject matter of the auditor's written communication may be based on matters identified by the auditor during the course of the audit engagement when identification of such matters is not the primary objective of the audit engagement (commonly referred to as a by-product report) (for example, communication about internal control or compliance related matters identified in an audit of financial statements, the primary objective of which is to express an opinion on the financial statements). Because such communication can only be understood in relation to the primary objective of the audit engagement, it may be misinterpreted or misunderstood. Accordingly, paragraph .06c requires such auditor's written communication to include an alert that restricts its use.

Alert That Restricts the Use of the Auditor's Written Communication Included in General Use Communications

.A5 An auditor's written communication that is required by paragraph .06 to include an alert that restricts its use may be included in a document that also contains an auditor's written communication that is for general use. In such circumstances, the use of the general use communication is not affected.

.A6 An auditor may also issue a single combined auditor's written communication that includes (a) communications that are required by paragraph .06 to include an alert that restricts their use and (b) communications that are for general use. If these two types of communications are clearly differentiated within the combined communication, such as through the use of appropriate headers, the alert that restricts the use of the auditor's written communication may be limited to the communications required by paragraph .06 to include such an alert. In such circumstances, the use of the general use communication is not affected. An example of a single combined auditor's written communication addressing a matter that was not the primary objective of the audit engagement

¹ Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

that is included in a general use communication is provided in the exhibit "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements," of section 806.²

Distribution of the Auditor's Written Communication

.A7 An auditor is not responsible for controlling, and cannot control, distribution of the auditor's written communication after its release. The alert that restricts the use of the auditor's written communication is designed to avoid misunderstandings related to the use of the auditor's written communication, particularly if the auditor's written communication is taken out of the context in which the auditor's written communication is intended to be used. An auditor may consider informing the entity or other specified parties that the auditor's written communication is not intended for distribution to parties other than those specified in the auditor's written communication. The auditor may, in connection with establishing the terms of the engagement, reach an understanding with the entity that the intended use of the auditor's written communication will be restricted and may obtain the entity's agreement that the entity and specified parties will not distribute such auditor's written communication to parties other than those identified therein.

Illustrative Alert Language (Ref: par. .07)

.A8 The alert that restricts the use of the auditor's written communication may list the specified parties or refer to the specified parties listed elsewhere in the auditor's written communication. The following illustrates language that includes the elements required by paragraph .07:

This [report, letter, presentation, or communication] is intended solely for the information and use of [list or refer to the specified parties] and is not intended to be and should not be used by anyone other than these specified parties.

.A9 Other sections, such as section 920, *Letters for Underwriters and Certain Other Requesting Parties*, may include specific requirements relating to the matters to be included in the alert that restrict the use of the auditor's written communication, as required by paragraph .06, including identifying the specified parties.

Adding Other Specified Parties (Ref: par. .08-.10)

.A10 When the auditor is requested to add other parties as specified parties, the auditor may agree to add the other parties as specified parties based on the auditor's consideration of factors such as the identity of the other parties and the intended use of the auditor's written communication.

Alert for Engagements Performed in Accordance With Government Auditing Standards (Ref: par. .11)

.A11 *Government Auditing Standards* regard the auditor's written communications issued pursuant to the sections, identified in paragraph .11, to be an integral part of the audit engagement for the purpose of assessing the

² Illustration 5, "Report on Compliance With Aspects of Contractual Agreements Given in a Combined Report, and No Instances of Noncompliance Were Identified," in the exhibit "Illustrations of Reports on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements," of section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*.

results of the engagement. Accordingly, different alert language is used. The following illustrates language that includes the elements of the alert required by paragraph .11:

The purpose of this *[report, letter, presentation, or communication]* is solely to *[describe the purpose of the auditor's written communication, such as to describe the scope of our testing of internal control over financial reporting and compliance, and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over financial reporting or on compliance]*. This *[report, letter, presentation, or communication]* is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering *[describe the results that are being assessed, such as the entity's internal control over financial reporting and compliance]*. Accordingly, this *[report, letter, presentation, or communication]* is not suitable for any other purpose.

.A12

Appendix A—List of AU-C Sections Relating to the Restricted Use of the Auditor's Written Communication

This appendix identifies paragraphs in other sections that contain specific requirements to include an alert that restricts the use of the auditor's written communication or that otherwise address the inclusion of such alerts. The list is not a substitute for considering the requirements and related application and other explanatory material in the other sections.

- Paragraph .17 of section 260, *The Auditor's Communication With Those Charged With Governance*
 - Paragraphs .14d, .A32, and .A38–.A39 of section 265, *Communicating Internal Control Related Matters Identified in an Audit*
 - Paragraph .A16 of section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*
 - Paragraphs .20, .A26–.A27, and .A33 of section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*
 - Paragraphs .12–.13 and .A6–.A8 of section 806, *Reporting on Compliance With Aspects of Contractual Agreements or Regulatory Requirements in Connection With Audited Financial Statements*
 - Paragraphs .14f and .A6 of section 915, *Reports on Application of Requirements of an Applicable Financial Reporting Framework*

AU-C Section 910

Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country

Source: SAS No. 124; SAS No. 134; SAS No. 138; SAS No. 140.

Effective for audits of financial statements for periods ending on or after December 15, 2012, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section addresses circumstances in which an auditor practicing in the United States is engaged to report on financial statements that have been prepared in accordance with a financial reporting framework generally accepted in another country not adopted by a body designated by the Council of the AICPA (Council) to establish generally accepted accounting principles (GAAP) (hereinafter referred to as a financial reporting framework generally accepted in another country) when such audited financial statements are intended for use outside the United States. This section is not intended to preclude the use of such audited financial statements in the United States.

.02 Pursuant to the "Compliance With Standards Rule" (ET sec. 1.310.001) and the "Accounting Principles Rule" (ET sec. 1.320.001), the Council designates the bodies to establish GAAP. This section does not apply to financial statements prepared in accordance with financial reporting frameworks established by the bodies designated by the Council. Section 700, *Forming an Opinion and Reporting on Financial Statements*, applies to engagements to report on such financial statements, including financial statements prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). [Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

.03 This section is applicable to engagements to report on financial statements prepared in accordance with a jurisdictional variation of IFRS such that the entity's financial statements do not contain an explicit and unreserved statement in an appropriate note to the financial statements that its financial statements are in compliance with IFRS as promulgated by the IASB.

.04 This section does not apply to engagements to report on financial statements of a U.S. subsidiary of a foreign registrant parent company that are presented in the parent company's filing with the U.S. Securities and Exchange Commission when the subsidiary's financial statements have been prepared in accordance with a financial reporting framework used by the parent company and audited in accordance with auditing standards generally accepted in the United States of America (GAAS).

Effective Date

.05 This section is effective for audits of financial statements for periods ending on or after December 15, 2012.

Objective

.06 The objective of the auditor, when engaged to report on financial statements prepared in accordance with a financial reporting framework generally accepted in another country, when such audited financial statements are intended for use outside the United States, is to address appropriately the special considerations that are relevant to

- a. the acceptance of the engagement,
- b. the planning and performance of the engagement, and
- c. forming an opinion and reporting on the financial statements.

Requirements

Considerations When Accepting the Engagement (Ref: par. .A1)

.07 Section 210A, *Terms of Engagement*, requires the auditor, as part of establishing whether the preconditions for an audit are present prior to accepting the engagement, to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements.¹ In an audit of financial statements prepared in accordance with a financial reporting framework generally accepted in another country, the auditor should obtain an understanding of

- a. The purpose for which the financial statements are prepared and whether the financial reporting framework applied in the preparation of the financial statements is a fair presentation framework.
- b. The intended users of the financial statements.
- c. The steps taken by management to determine that the applicable financial reporting framework is acceptable in the circumstances.

.08 When the auditor plans to use the form and content of the auditor's report of another country, the auditor should obtain an understanding of the applicable legal responsibilities involved. (Ref: par. .A8)

Performance (Ref: par. .A2–.A3)

.09 When auditing financial statements prepared in accordance with a financial reporting framework generally accepted in another country that are intended for use only outside the United States, the auditor should comply with GAAS, except for requirements related to the form and content of the report in the situation described in paragraph .12. The auditor should determine whether the application of GAAS requires special consideration in the circumstances of the engagement.

.10 Section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatements*, requires the auditor to obtain an

¹ See paragraph .06 of section 210A, *Terms of Engagement*.

understanding of the entity's selection and application of accounting policies.² When reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country, the auditor should obtain an understanding of such framework.

Application of Auditing Standards of Another Country

.11 If the auditor is engaged to audit financial statements prepared in accordance with a financial reporting framework generally accepted in another country, and the agreed-upon terms of engagement require the auditor to apply either the auditing standards of that country or International Standards on Auditing (ISAs), the auditor should obtain an understanding of and apply those relevant auditing standards, as well as GAAS, except for requirements related to the form and content of the report in the situation described in paragraph .12. (Ref: par. .A4–.A6)

Reporting

Reporting—Use Only Outside the United States

.12 If the auditor is reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country that are intended for use only outside the United States, the auditor should report using either

- a. a U.S. form of report that reflects that the financial statements being reported on have been prepared in accordance with a financial reporting framework generally accepted in another country, including (Ref: par. .A7)
 - i. the elements required by section 700 and
 - ii. a statement that refers to the note to the financial statements that describes the basis of presentation of the financial statements on which the auditor is reporting, including identification of the country of origin of the accounting principles, or
- b. the report form and content of the other country (or, if applicable, as set forth in the ISAs), provided that
 - i. such a report would be issued by auditors in the other country in similar circumstances,
 - ii. the auditor understands and has obtained sufficient appropriate audit evidence to support the statements contained in such a report, and
 - iii. the auditor has complied with the reporting standards of that country and identifies the other country in the report. (Ref: par. .A8–.A9)

Reporting—Use in the United States

.13 If financial statements prepared in accordance with a financial reporting framework generally accepted in another country also are intended for use in the United States, the auditor should report using the U.S. form of report.³

² See paragraph .12(c) of section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

³ See section 700, *Forming an Opinion and Reporting on Financial Statements*.

In addition, the auditor should include in the auditor's report an emphasis-of-matter paragraph⁴ that

- a. identifies the financial reporting framework used in the preparation of the financial statements,
- b. refers to the note to the financial statements that describes that framework, and
- c. indicates that such framework differs from accounting principles generally accepted in the United States of America. (Ref: par. .A7 and .A10)

Application and Other Explanatory Material

Considerations When Accepting the Engagement (Ref: par. .07–.08)

.A1 In obtaining an understanding of the purpose for which the financial statements are prepared and of the intended users, the auditor may consider whether the intended users are likely to be familiar with the applicable financial reporting framework. For example, if the financial statements are to be used in the United States in addition to the other country(ies) for which they are intended, the auditor may consider whether intended users within the United States deal directly with the entity and whether the financial statements are to be used in a manner that permits such users to discuss with the entity differences from accounting and reporting practices in the United States and their significance. Accordingly, an auditor may conclude that financial statements prepared in accordance with a financial reporting framework generally accepted in another country are not appropriate for use in a private placement memorandum to be distributed widely in the United States.

Performance (Ref: par. .09–.10)

.A2 The accounting principles used to prepare financial statements in accordance with a financial reporting framework generally accepted in another country may differ from those used to prepare financial statements in accordance with accounting principles generally accepted in the United States of America, and such differences may affect the auditor's risk assessment and design of further audit procedures. For example, the financial reporting framework generally accepted in another country may require that certain assets be revalued to adjust for the effects of inflation—in which case, the auditor may find it necessary to perform procedures to test the revaluation adjustments. As another example, a particular country's financial reporting framework may not require or permit recognition of deferred taxes; consequently, procedures for testing deferred tax balances would not be applicable.

.A3 An understanding of the financial reporting framework generally accepted in another country may be obtained by reading the statutes or professional literature, or codifications thereof, which establish or describe the financial reporting framework generally accepted in the other country. Often, the application of accounting principles to a particular situation requires practical experience, and accordingly, the auditor may consult with persons having expertise in applying the financial reporting framework of the other country.

⁴ See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

Application of Auditing Standards of Another Country (Ref: par. .11)

.A4 Applying either the auditing standards of another country or the ISAs may require the auditor to perform procedures in addition to those procedures required by GAAS.

.A5 An understanding of the auditing standards of another country or the ISAs may be obtained by reading the statutes or professional literature, or codifications thereof, which establish or describe such standards.

.A6 Statutes or professional literature, or codifications thereof, however, may not include a complete description of the auditing practices in another country. The auditor may consult with persons having expertise in, including practical experience in applying, the auditing standards of the other country or the ISAs, as relevant.

Reporting (Ref: par. .08 and .12–.13)

.A7 The exhibit "Illustrations of Auditor's Reports on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country" contains illustrations of auditor's reports on financial statements incorporating the elements required by paragraphs .12–.13.

Reporting—Use Only Outside the United States (Ref: par. .08 and .12)

.A8 Even when the form and content of the auditor's report used in another country appears similar to that used in the United States, the report may convey a different meaning and entail different legal responsibilities for the auditor due to custom or culture. Issuing a report of another country may require the auditor to report on statutory compliance or otherwise require understanding of local laws and regulations. When issuing the auditor's report of another country, the auditor is required by paragraph .08 to obtain an understanding of applicable legal responsibilities, in addition to the auditing standards and the financial reporting framework generally accepted in the other country, as required by paragraphs .07 and .10–.11. Accordingly, depending on the nature and extent of the auditor's knowledge and experience, the auditor may consult with persons having expertise in the audit reporting practices of the other country and associated legal responsibilities to obtain the understanding needed to issue that country's report.

.A9 An entity that prepares financial statements in accordance with GAAP also may prepare financial statements in accordance with a financial reporting framework generally accepted in another country for use outside the United States (for example, financial statements prepared in accordance with a jurisdictional variation of IFRS such that the entity's financial statements do not contain an explicit and unreserved statement of compliance with IFRS as issued by the IASB). In such circumstances, the auditor may report on the financial statements that are in accordance with a financial reporting framework generally accepted in another country by reporting in accordance with paragraph .12. The auditor may include in one or both of the reports a statement that another report has been issued on the financial statements for the entity that have been prepared in accordance with a financial reporting framework generally accepted in another country. The auditor's statement may also reference any note disclosure in the financial statements that describes significant differences between the accounting principles used and GAAP. An example of

such a statement, which may be included in an emphasis-of-matter paragraph, is as follows:

We also have reported separately on the financial statements of ABC Company for the same period presented in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*. (The significant differences between the *[specify the financial reporting framework generally accepted]* in *[name of country]* and accounting principles generally accepted in the United States of America are summarized in Note X.)

Reporting—Use in the United States (Ref: par. .13)

.A10 When reporting on financial statements prepared in accordance with a financial reporting framework generally accepted in another country that will be used in the United States and outside the United States, the auditor may issue two reports: one of the reports described in paragraph .12 for use outside the United States and the U.S. form of report with an emphasis-of-matter paragraph, as described in paragraph .13, for use in the United States.

Independent Auditor's Report

[Appropriate Addressee]

Opinion on the Financial Statements

We have audited the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, which, as described in note X to the financial statements, have been prepared on the basis of *[specify the financial reporting framework generally accepted]* in *[name of country]*.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) (and in *[name of country]*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with [*specify the financial reporting framework generally accepted*] in [*name of country*], and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for [*insert the time period set by the applicable financial reporting framework*].

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.¹
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

¹ In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed." [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 2 — U.S. Form of Independent Auditor's Report to Report on Financial Statements Prepared in Accordance With a Financial Reporting Framework Generally Accepted in Another Country That Also Are Intended for Use in the United States

Independent Auditor's Report

[Appropriate Addressee]

Opinion on the Financial Statements

We have audited the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements, which, as described in note X to the financial statements, have been prepared on the basis of *[specify the financial reporting framework generally accepted]* in *[name of country]*.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20X1, and the results of its operations and its cash flows for the year then ended in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) (and in *[name of country]*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note X to the financial statements, the Company prepares its financial statements in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*, which differ(s) from accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with *[specify the financial reporting framework generally accepted]* in *[name of country]*, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS

will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed.¹
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

[Signature of the auditor's firm]

¹ In circumstances in which the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, omit the following: "but not for the purpose of expressing an opinion on the effectiveness of ABC Company's internal control. Accordingly, no such opinion is expressed." [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

AU-C Section 915

Reports on Application of Requirements of an Applicable Financial Reporting Framework

Source: SAS No. 122; SAS No. 123; SAS No. 125.

Effective for engagements that end on or after December 15, 2012.

Introduction

Scope of This Section

.01 This section addresses the reporting accountant's responsibilities when requested to issue a written report on

- a. the application of the requirements of an applicable financial reporting framework to a specific transaction or
- b. the type of report that may be issued on a specific entity's financial statements. (Ref: par. .A1)

.02 This section also applies to oral advice provided by the reporting accountant

- a. that the reporting accountant concludes is intended to be used by a principal to the transaction as an important factor considered in reaching a decision on the application of the requirements of an applicable financial reporting framework to a specific transaction or
- b. on the type of report that may be issued on a specific entity's financial statements.

.03 Differing interpretations may exist concerning whether and, if so, how existing accounting policies in an applicable financial reporting framework apply to new transactions or how new accounting policies in an applicable financial reporting framework apply to existing transactions. Management and others may consult with accountants on the application of the requirements of an applicable financial reporting framework to those transactions or to increase their knowledge of specific financial reporting issues. Such consultations may provide relevant information and insights not otherwise available.

.04 This section does not apply to

- a. a continuing accountant with respect to the specific entity whose financial statements the continuing accountant has been engaged to report on,
- b. engagements either to assist in litigation involving accounting or auditing matters or to provide expert testimony in connection with such litigation, or
- c. professional advice provided to another accountant in public practice.

.05 This section also does not apply to communications such as position papers prepared by an accountant for the purpose of presenting views on an issue involving the application of the requirements of an applicable financial reporting framework, provided that these communications are not intended to provide guidance on the application of these requirements to a specific transaction. Position papers include newsletters, articles, speeches, and texts thereof; lectures and other forms of public presentations; and letters for the public record to professional and governmental standards-setting bodies.

Effective Date

.06 This section is effective for engagements that end on or after December 15, 2012.

Objective

.07 The objective of the reporting accountant, when engaged to issue a written report or provide oral advice on the application of the requirements of an applicable financial reporting framework to a specific transaction or on the type of report that may be issued on a specific entity's financial statements, is to address appropriately

- a. the acceptance of the engagement.
- b. the planning and performance of the engagement.
- c. reporting on the specific transaction or type of report.

Definitions

.08 For purposes of this section, the following terms have the meanings attributed as follows:

Continuing accountant. An accountant who has been engaged to report on the financial statements of a specific entity or entities of which the specific entity is a component.

Hypothetical transaction. A transaction or financial reporting issue that does not involve facts or circumstances of a specific entity.

Reporting accountant. An accountant, other than a continuing accountant, in public practice, as described in ET section 0.400, *Definitions*, who prepares a written report or provides oral advice on the application of the requirements of an applicable financial reporting framework to a specific transaction or on the type of report that may be issued on a specific entity's financial statements.^[1] (A reporting accountant who is also engaged to provide accounting and reporting advice to a specific entity on a recurring basis is commonly referred to as an advisory accountant.) (Ref: par. .A4)

Specific transaction. A completed or proposed transaction or group of related transactions or a financial reporting issue involving facts and circumstances of a specific entity.

Written report. Any written communication that provides a conclusion on the appropriate application of the requirements of an applicable financial reporting framework to a specific transaction

^[1] [Footnote deleted, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

or on the type of report that may be issued on a specific entity's financial statements.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

Requirements

Engagement Acceptance

.09 In determining whether to accept the engagement, the reporting accountant should consider

- a. the circumstances under which the written report or oral advice is requested,
- b. the purpose of the request, and
- c. the intended use of the written report or oral advice.

For purposes of this section, the reporting accountant is not required to be independent of the entity.

.10 The reporting accountant should accept an engagement to issue a written report on the application of the requirements of an applicable financial reporting framework to a specific transaction only when the transaction involves facts or circumstances of a specific entity. The reporting accountant should not accept an engagement to issue a written report on hypothetical transactions.

.11 If the reporting accountant has determined in accordance with paragraphs .09–.10 that it is appropriate to accept an engagement to be performed in accordance with this section, the reporting accountant should establish an understanding with the requesting party that

- a. responsibility for the proper accounting treatment rests with management, who is expected to consult with its continuing accountant;
- b. management acknowledges that the reporting accountant may need to consult with the continuing accountant and that, upon request, management will authorize the continuing accountant to respond fully to the reporting accountant's inquiries; and
- c. management will notify those charged with governance and the continuing accountant concerning the nature of the engagement.

If management refuses to agree to authorize the continuing accountant to respond fully to the reporting accountant's inquiries, the reporting accountant should inquire about the reasons and consider the implications of that refusal when determining whether to accept the engagement.

Engagement Planning and Performance

.12 The reporting accountant should

- a. obtain an understanding of the form and substance of the specific transaction(s) or the conditions relevant to the type of report that may be issued on a specific entity's financial statements;
- b. review the relevant requirements of the applicable financial reporting framework, if appropriate;
- c. consult with other professionals, experts, or regulatory authorities, if appropriate;

- d. perform research or other procedures, as appropriate, to identify and consider existing creditable precedents or analogies;
- e. except as provided in paragraph .13, request permission from the entity's management to consult with the continuing accountant and request the entity's management to authorize the continuing accountant to respond fully to the reporting accountant's inquiries; and
- f. except as provided in paragraph .13, consult with the continuing accountant to determine the available facts relevant to forming a conclusion. (Ref: par. .A2–.A3)

Consulting With the Continuing Accountant

.13 The reporting accountant should consult with the continuing accountant to determine whether the reporting accountant has obtained the available facts relevant to form a conclusion, unless

- a. the reporting accountant is engaged to issue a written report or provide oral advice on the application of the requirements of an applicable financial reporting framework to a specific transaction, as described in paragraphs .01*a* and .02*a*, and
- b. the reporting accountant is engaged to provide recurring accounting and reporting advice (for example, bookkeeping or assistance in formulating accounting positions in selected matters, which are services commonly performed by an advisory accountant) and
 - i. does not believe that a second opinion is being requested,
 - ii. has full access to management, and
 - iii. believes that the relevant information has been obtained in order to issue a written report or provide oral advice regarding the application of the requirements of an applicable financial reporting framework to an entity's specific transaction.

If the reporting accountant determines in accordance with the preceding *a–b* that it is not necessary to consult with the continuing accountant, the reporting accountant should document the rationale for not consulting. (Ref: par. .A2–.A4)

Written Report (Ref: par. .A5–.A7)

.14 The reporting accountant's written report should be addressed to the requesting party (for example, management or those charged with governance) and should include the following:

- a. A brief description of the nature of the engagement and a statement that the engagement was performed in accordance with this section.
- b. Identification of the specific entity; a description of the specific transaction(s), if applicable; a statement of the relevant facts, circumstances, and assumptions; and a statement about the source of such information.
- c. A statement describing the appropriate application of the requirements of an applicable financial reporting framework (including the country of origin) to the specific transaction or type of report that may be issued on the entity's financial statements and, if appropriate, a description of the reasons for the reporting accountant's conclusion.

- d. A statement that the responsibility for the proper accounting treatment rests with the preparers of the financial statements, who should consult with their continuing accountant.
- e. A statement that any difference in the facts, circumstances, or assumptions presented may change the report.
- f. An alert that restricts the use of the report solely to the specified parties, as required by section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.²
- g. If the reporting accountant is not independent of the entity, a statement indicating the reporting accountant's lack of independence. The reporting accountant is neither required to provide, nor precluded from providing, the reasons for the lack of independence; however, if the reporting accountant chooses to provide the reasons for the lack of independence, the reporting accountant should include all the reasons therefor.

[As amended, December 2011, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01b)

.A1 Examples of the types of reports or illustrative report wording that a reporting accountant may provide include the following:

- A report expressing a modified opinion versus a report expressing an unmodified opinion
- A report prepared in accordance with auditing standards generally accepted in the United States of America versus a report prepared in accordance with international auditing standards
- Wording that might be included in a modified opinion

Engagement Planning and Performance

.A2 The responsibilities of an entity's continuing accountant to respond to inquiries by the reporting accountant are the same as the responsibilities of a predecessor auditor to respond to inquiries by the auditor. Section 210A, *Terms of Engagement*, addresses the responsibilities of a predecessor auditor.³ (Ref: par. .12f–.13)

.A3 The continuing accountant may provide information related to the form and substance of the specific transaction that is not otherwise available to the reporting accountant regarding, for example, the following:

- How management has applied the requirements of an applicable financial reporting framework to similar transactions
- Whether the method of accounting recommended by the continuing accountant is disputed by management

² See paragraphs .06a–b and .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote added, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

³ Paragraph .A30 of section 210A, *Terms of Engagement*. [Footnote renumbered by the issuance of SAS No. 125, December 2012.]

- The continuing accountant's conclusion on the application of the requirements of an applicable financial reporting framework to the specific transaction or the type of report that may be issued on the entity's financial statements (Ref: par. .12f-.13)

.A4 When determining whether the criteria in paragraph .13 are satisfied such that consultation with the continuing accountant is not necessary, the reporting accountant may consider the following:

- The nature of the engagement
- Whether the reporting accountant believes that full knowledge of the form and substance of the transaction has been obtained
- How management has applied the requirements of the applicable financial reporting framework to similar transactions in the past
- Whether management has discussed the method of accounting with the continuing accountant

A recurring engagement for a reporting accountant may constitute the effective outsourcing of certain controllership or other financial reporting functions or involve financial reporting advisory services. Such an engagement may allow the reporting accountant to have complete access to management. (Ref: par. .08 and .13)

Written Report (Ref: par. .14)

.A5 Although the reporting requirements in paragraph .14 only apply to written reports, reporting accountants may find the requirements useful when providing oral advice.

.A6 The alert that restricts the use of the reporting accountant's written report referred to in paragraph .14f is not intended to preclude distribution of the report to the continuing accountant. [As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

.A7 The exhibit "Illustrative Written Report to the Requesting Entity" provides an example of a written report to the requesting party.

.A8

Exhibit—Illustrative Written Report to the Requesting Party

The following is an illustration of the reporting accountant's written report to the requesting party (for example, management or those charged with governance) on the application of the requirements of accounting principles generally accepted in the United States of America to a specific transaction.

Introduction

We have been engaged to report on the appropriate application of the requirements of accounting principles generally accepted in the United States of America to the specific transaction described below. This report is being issued to ABC Company for assistance in evaluating accounting policies for the described specific transaction. Our engagement has been conducted in accordance with Statement on Auditing Standards No. 122 section 915, *Reports on Application of Requirements of an Applicable Financial Reporting Framework*.

Description of Transaction

The facts, circumstances, and assumptions relevant to the specific transaction as provided to us by the management of ABC Company are as follows:
[Text discussing the facts, circumstances, and assumptions relevant to the specific transaction]

Appropriate Accounting Principles

[Text discussing accounting principles generally accepted in the United States of America and how they apply to the described transaction]

Concluding Comments

The ultimate responsibility for the decision on the appropriate application of the requirements of accounting principles generally accepted in the United States of America for an actual transaction rests with the preparers of financial statements, who should consult with their continuing accountant. Our conclusion on the appropriate application of the requirements of accounting principles generally accepted in the United States of America for the described specific transaction is based solely on the facts provided to us as previously described; should these facts and circumstances differ, our conclusion may change.

Restricted Use

This report is intended solely for the information and use of those charged with governance and management of ABC Company and is not intended to be and should not be used by anyone other than these specified parties.

AU-C Section 920

Letters for Underwriters and Certain Other Requesting Parties

Source: SAS No. 122; SAS No. 125; SAS No. 129; SAS No. 140.

Effective for comfort letters issued on or after December 15, 2014, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibilities when engaged to issue letters (commonly referred to as *comfort letters*) to requesting parties in connection with a nonissuer entity's financial statements included in registration statements filed with the Securities and Exchange Commission (SEC) under the Securities Act of 1933 (the 1933 Act) (for example, inclusion of the non-issuer entity's financial statements as required by either Rule 3-05 or 3-09 of Regulation S-X) or included in other securities offerings.

.02 Auditors' services include audits or reviews of financial statements included in securities offerings. In connection with the securities offerings, auditors are often requested to issue comfort letters to certain requesting parties. The auditor is not required by generally accepted auditing standards (GAAS) to accept an engagement to issue a comfort letter.

.03 The service of providing letters for underwriters developed following the passing of the 1933 Act. Section 11 of the 1933 Act provides that underwriters, among others, could be liable if any part of a registration statement contains material omissions or misstatements. The 1933 Act also provides for an affirmative defense for underwriters if it can be demonstrated that, after a reasonable investigation, the underwriter has reasonable grounds to believe that no material omissions or misstatements existed in a securities offering. An auditor issuing a comfort letter is one of a number of procedures that may be used to establish that an underwriter has conducted a reasonable investigation. Consequently, underwriters may request auditors to assist them in developing a record of reasonable investigation.

.04 The subjects that may be covered in a comfort letter include

- the independence of the auditor.
- whether the audited financial statements included in the securities offering comply regarding form, in all material respects, with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC.
- unaudited financial statements, condensed interim financial information, capsule financial information, pro forma financial information, financial forecasts, management's discussion and analysis (MD&A), and changes in selected financial statement items during a period subsequent to the date and period of the latest financial statements included in the securities offering.

- tables, statistics, and other financial information included in the securities offering.
- negative assurance about whether certain nonfinancial statement information included in the securities offering complies regarding form, in all material respects, with Regulation S-K.¹

Effective Date

.05 This section is effective for comfort letters issued on or after December 15, 2012.

Objectives

.06 The objectives of the auditor, when engaged to issue a letter to a requesting party in connection with an entity's financial statements included in a securities offering, are to

- a. address appropriately the acceptance of the engagement and the scope of services; and
- b. issue a letter with the appropriate form and content.

Definitions

.07 For purposes of this section, the following terms have the meanings attributed as follows:

Capsule financial information. Unaudited summarized interim financial information for periods subsequent to the periods covered by the audited financial statements or unaudited interim financial information included in the securities offering. Capsule financial information may be presented in narrative or tabular form and is often provided for the most recent interim period and for the corresponding period of the prior year.

Change period. The period ending on the cut-off date and ordinarily beginning, for balance sheet items, immediately after the date of the latest balance sheet in the securities offering and, for income statement items, immediately after the latest period for which such items are presented in the securities offering.

Closing date. The date on which the issuer of the securities or selling security holder delivers the securities in exchange for the proceeds of the offering.

Comfort letter. A letter issued by an auditor in accordance with this section to requesting parties in connection with an entity's financial statements included in a securities offering.

Comparison date and comparison period. The date as of which, and period for which, data at the cut-off date and data for the change period are to be compared.

Cut-off date. The date through which certain procedures described in the comfort letter are to relate.

Effective date. The date on which the securities offering becomes effective.

¹ Regulation S-K, "Standard Instructions for Filing Forms Under Securities Act of 1933, Securities Exchange Act of 1934 and Energy Policy and Conservation Act of 1975."

Entity. The party whose financial statements are the subject of the engagement.

Negative assurance. A statement that, based on the procedures performed, nothing has come to the auditor's attention that caused the auditor to believe that specified matters do not meet specified criteria (for example, that nothing came to the auditor's attention that caused the auditor to believe that any material modifications should be made to the unaudited interim financial information for it to be in accordance with generally accepted accounting principles).

Requesting party. One of the following specified parties requesting a comfort letter, which has negotiated an agreement with the entity:

- An underwriter
- Other parties that are conducting a review process that is, or will be, substantially consistent with the due diligence process performed when the securities offering is, or if the securities offering was, being registered pursuant to the 1933 Act, as follows:
 - A selling shareholder, sales agent, or other party with a statutory due diligence defense under Section 11 of the 1933 Act
 - A broker-dealer or other financial intermediary acting as principal or agent in a securities offering in connection with the following types of securities offerings:
 - Foreign offerings, including Regulation S, Eurodollar, and other offshore offerings
 - Transactions that are exempt from the registration requirements of Section 5 of the 1933 Act, including those pursuant to Regulation A, Regulation D, and Rule 144A
 - Offerings of securities issued or backed by governmental, municipal, banking, tax-exempt, or other entities that are exempt from registration under the 1933 Act
 - The buyer or seller in connection with acquisition transactions in which there is an exchange of stock (Ref: par. .A1)

Securities offerings. One of the following types of securities offerings:

- Registration of securities with the SEC under the 1933 Act
- Foreign offerings, including Regulation S, Eurodollar, and other offshore offerings
- Transactions that are exempt from the registration requirements of Section 5 of the 1933 Act, including those pursuant to Regulation A, Regulation D, and Rule 144A
- Offerings of securities issued or backed by governmental, municipal, banking, tax-exempt, or other entities that are exempt from registration under the 1933 Act

- Acquisition transactions in which there is an exchange of stock

Underwriter. As defined in the 1933 Act

any person who has purchased from an issuer with a view to, or offers or sells for an issuer in connection with, the distribution of any security, or participates or has a direct or indirect participation in any such undertaking, or participates or has a participation in the direct or indirect underwriting of any such undertaking; but such term shall not include a person whose interest is limited to a commission from an underwriter or dealer not in excess of the usual and customary distributors' or sellers' commission. As used in this paragraph, the term "issuer" shall include, in addition to an issuer, any person directly or indirectly controlling or controlled by the issuer, or any person under direct or indirect common control with the issuer.

Except when the context otherwise requires, the word *underwriter*, as used in this section, refers to the managing, or lead, underwriter, who typically negotiates the underwriting agreement or purchase agreement (hereafter referred to as the *underwriting agreement*) for a group of underwriters whose exact composition is not determined until shortly before a securities offering becomes effective. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.08 References in this section to information that is *included* in a document are to be read to also encompass information that is *incorporated by reference* in that document.

Requirements

Engagement Acceptance

.09 The auditor should determine whether to accept an engagement to issue a comfort letter in connection with financial statements included in a securities offering. The auditor is neither required to accept such an engagement nor required to provide comfort on every matter requested when accepting an engagement to issue a comfort letter. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.10 The auditor should provide a comfort letter in connection with financial statements included in a securities offering only to

- underwriters.
- other parties meeting the definition of a *requesting party* in paragraph .07.

.11 The auditor should request the requesting party to provide either

- a written opinion from external legal counsel that the requesting party has a statutory due diligence defense under Section 11 of the 1933 Act; or (Ref: par. .A2)
- a representation letter that
 - is addressed to the auditor;
 - contains the statement, "The review process applied to the information relating to the issuer of the securities is (will

be) substantially consistent with the due diligence process that we would perform if this securities offering were being registered pursuant to the Securities Act of 1933. We are knowledgeable with respect to that due diligence process."; and (Ref: par. .A3–.A4)

- iii. is signed by the requesting party. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.12 If a requesting party, other than an underwriter, requests a comfort letter but does not provide the legal opinion or representation letter described in paragraph .11, the auditor should not provide negative assurance on the financial statements as a whole, or on any of the specified elements, accounts, or items thereof. In such circumstances, the comfort letter should include the following statements: (Ref: par. .A5)

- a. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in the preceding paragraphs; rather, the procedures enumerated therein are those that the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages previously listed as set forth in the *[offering memorandum]*. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items previously specified and does not extend to any financial statement of the company as a whole. (Ref: par. .A6)
- b. The foregoing procedures do not constitute an audit or a review conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's *[give dates of any interim financial statements]* consolidated financial statements in accordance with auditing standards generally accepted in the United States of America, other matters might have come to our attention that would have been reported to you.
- c. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.
- d. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered by the *[offering memorandum]*. It is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to, the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the offering document or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.
- e. We have no responsibility to update this letter for events and circumstances occurring after *[cut-off date]*. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.13 The auditor should not provide a comfort letter to any parties other than a requesting party as defined in this section. (Ref: par. .A7)

.14 When issuing a letter in accordance with this section, the auditor should not circumvent the requirements of this section by issuing any additional letters or reports to a requesting party in connection with the securities offering in which the auditor comments on items for which commenting is otherwise precluded by this section.

Agreeing Upon the Scope of Services

.15 The auditor should obtain an understanding of the specific matters to be addressed in the comfort letter. (Ref: par. .A8)

.16 The auditor should ask to meet with the requesting party and the entity to discuss the procedures to be followed in connection with an engagement to issue a comfort letter. (Ref: par. .A9–.A10)

.17 The auditor should clearly communicate that the auditor cannot provide any assurance regarding the sufficiency of the procedures for the requesting party's purposes. (Ref: par. .A11–.A14) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.18 The auditor should provide the requesting party with a draft of the form of the letter the auditor expects to furnish. To the extent possible, the draft should deal with all matters to be covered in the final letter and should use exactly the same terms as those to be used in the final letter, subject to the understanding that the comments in the final letter cannot be determined until the procedures underlying it have been performed. The draft letter should be identified as a draft to avoid giving the impression that the procedures described therein have been performed. (Ref: par. .A15) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.19 In both the draft and final forms of the comfort letter, the auditor should clearly describe the procedures performed by the auditor. The auditor should not state or imply that the auditor is carrying out such procedures as the auditor considers necessary because such statements or implications may lead to misunderstanding about the responsibility for the sufficiency of the procedures for the requesting party purposes.

.20 If the auditor has been unable to have a discussion with the requesting party about the auditor's planned procedures, the auditor should describe in the draft letter those procedures specified in the draft underwriting agreement that the auditor is willing to perform. (Ref: par. .A16–.A17)

.21 Situations may exist in which one or more component auditor's report is included in the securities offering. When comfort letters are issued to requesting parties by those component auditors, the auditor of the group financial statements should read those comfort letters. The auditor of the group financial statements should state in the comfort letter that the procedures relating to those components consisted solely of reading the component auditors' comfort letters. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.22 When comfort letters are requested from more than one auditor, the requirements of this section apply to each auditor. (Ref: par. .A19)

.23 In competitive bidding situations in which legal counsel for the requesting party acts as the requesting party's representative prior to opening and acceptance of the bid, the auditor should carry out the discussions and other communications required by this section with the legal counsel until the requesting party is selected. In such circumstances, the auditor should not agree

to provide a comfort letter addressed to the entity, legal counsel, or a nonspecific addressee, such as "any or all underwriters to be selected." If the auditor agrees to provide a draft comfort letter, the draft comfort letter should include a legend describing the letter's purpose and limitations. (Ref: par. .A20–.A23)

Format and Contents of Comfort Letters

Dating

.24 The letter should state that the inquiries and other procedures described in the letter did not cover the period from the cut-off date to the date of the letter. (Ref: par. .A24–.A25)

.25 When an additional letter, dated at or shortly before the closing date, is requested, the auditor should carry out the specified procedures and inquiries as of the cut-off date for each letter. The subsequent letter should relate only to information in the securities offering as most recently amended. (Ref: par. .A26)

Addressee

.26 The letter should be addressed only to the requesting party, or both the requesting party and the entity, and should not be provided to any other parties. (Ref: par. .A27)

Introductory Paragraph

.27 The letter should contain an introductory paragraph that identifies the financial statements and the securities offering.

Auditor's Report

.28 The auditor should, in the comfort letter, make reference to, but not repeat, the report on the audited financial statements included in the securities offering. (Ref: par. .A28)

.29 When the auditor's report on the audited financial statements included in the securities offering contains an emphasis-of-matter or other-matter paragraph or a separate section in the auditor's report addressing matters other than consistency of application of accounting policies,² the auditor should refer to that fact in the comfort letter and discuss the subject matter of the paragraph. In those instances in which the SEC accepts a modified opinion on historical financial statements, the auditor should refer to the modification in the opening paragraph of the comfort letter and discuss the subject matter of the modification. (Ref: par. .A29–.A30) [As amended, effective for comfort letters issued on or after December 15, 2021, by SAS No. 140.]

.30 The auditor should not provide negative assurance regarding the auditor's report or regarding financial statements that have been audited and are reported on in the securities offering by other auditors. (Ref: par. .A31)

.31 In the introductory paragraph of the comfort letter, if the auditor refers to reports that the auditor has previously issued other than the report on the audited financial statements included in the securities offering, the auditor should not repeat the reports in the comfort letter or otherwise imply that the auditor is reporting as of the date of the comfort letter or assuming responsibility for the sufficiency of the procedures for the requesting party's purposes. (Ref: par. .A32–.A33)

² See section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*.

[.32] [Paragraph deleted, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

.33 The auditor should not mention, refer to, or attach to the comfort letter any report or other auditor's written communication that includes an alert that restricts the use of the auditor's written communication, in accordance with section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, or any restricted use reports issued in accordance with Statements on Standards for Attestation Engagements or Statements on Standards for Accounting and Review Services. (Ref: par. .A34) [As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125.]

Representations

.34 The auditor should refer in the comfort letter to the requesting party's representations when the representation letter described in paragraph .11 has been provided. (Ref: par. .A35)

Independence

.35 The auditor should state in the comfort letter that the auditor is independent, or the date through which the auditor was independent, with respect to the entity, and identify the applicable independence rules. (Ref: par. .A36–.A38)

Compliance With SEC Requirements

.36 If the auditor is requested to include an opinion in the comfort letter on whether the financial statements covered by the auditor's report comply as to form with the pertinent accounting requirements adopted by the SEC, the auditor's opinion should refer to compliance as to form, in all material respects, with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC. (Ref: par. .A39–.A41)

.37 Certain financial statements may be incorporated in a registration statement under the 1933 Act by reference to filings under the Securities Exchange Act of 1934 (the 1934 Act). If the auditor is requested to include an opinion in the comfort letter on whether the financial statements covered by the auditor's report comply as to form with the pertinent accounting requirements adopted by the SEC, the auditor's opinion should refer to whether the audited financial statements incorporated by reference in the registration statement comply as to form, in all material respects, with the applicable accounting requirements of the 1934 Act and the related rules and regulations adopted by the SEC. However, the auditor should not opine on compliance with the provisions of the 1934 Act regarding internal control over financial reporting.

.38 If the auditor has been requested to include an opinion in the comfort letter on whether the financial statements covered by the auditor's report comply as to form with the pertinent accounting requirements adopted by the SEC, and a material departure from the pertinent rules and regulations adopted by the SEC exists, the auditor should disclose the departure in the comfort letter. (Ref: par. .A42)

.39 The auditor should express an opinion on compliance as to form with requirements under the rules and regulations adopted by the SEC only with respect to those rules and regulations applicable to the form and content of financial statements that the auditor has audited. When the financial statements or financial statement schedules have not been audited, the auditor is limited to providing negative assurance on compliance as to form.

.40 The auditor should not comment in a comfort letter on compliance as to form of MD&A with rules and regulations adopted by the SEC. (Ref: par. .A43)

Commenting in a Comfort Letter on Information Other Than Audited Financial Statements

General

.41 When commenting in a comfort letter on information other than audited financial statements, the auditor should

- a. describe the procedures performed by the auditor, as required by paragraph .19. (Ref: par. .A44–.A46)
- b. describe the criteria specified by the requesting party.
- c. state that the procedures performed with respect to interim periods may not disclose matters of significance regarding certain matters about which negative assurance is requested. (Ref: par. .A47–.A48)

.42 The auditor should not, in the comfort letter

- a. make any statements, or imply, that the auditor has applied procedures that the auditor determined to be necessary or sufficient for the requesting party's purposes.
- b. use terms of uncertain meaning (such as *general review*, *limited review*, *reconcile*, *check*, or *test*) in describing the work unless the procedures encompassed by these terms are described in the comfort letter.
- c. make a statement that nothing else has come to the auditor's attention that would be of interest to the requesting party as a result of carrying out the specified procedures. (Ref: par. .A49)

.43 When the report on the audited financial statements in the securities offering is a modified report, the auditor should consider the effect on providing negative assurance in the comfort letter regarding subsequent interim financial information included in the securities offering or regarding an absence of specified subsequent changes. The auditor should also follow the requirements of paragraph .29. (Ref: par. .A50)

Knowledge of Internal Control

.44 The auditor should obtain an understanding of the entity's internal control over financial reporting for both annual and interim periods when commenting in a comfort letter on

- a. unaudited interim financial information, including unaudited condensed interim financial information;
- b. capsule financial information;
- c. a financial forecast when historical financial statements provide a basis for one or more significant assumptions for the forecast; or
- d. subsequent changes in specified financial statement items. (Ref: par. .A51)

Unaudited Interim Financial Information

.45 The auditor should provide negative assurance on unaudited interim financial information included in the securities offering only if the auditor has

conducted a review of the interim financial information in accordance with GAAS applicable to reviews of interim financial information. If the auditor has not conducted a review in accordance with GAAS applicable to reviews of interim financial information, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A52)

.46 The negative assurance provided regarding such unaudited interim financial information should be about whether

- a. any material modifications should be made to the unaudited interim financial information for it to be in accordance with the applicable financial reporting framework, and
- b. the unaudited interim financial information complies as to form in all material respects with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC, if applicable. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.47 If the auditor states in the comfort letter that the auditor has issued a review report on the unaudited interim financial information, the auditor should attach the review report to the letter unless the review report is already included in the securities offering. (Ref: par. .A53) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.48 The auditor should specifically identify, in the comfort letter, any unaudited interim financial information and should state that the auditor has not audited the interim financial information in accordance with GAAS and does not express an opinion concerning such information. (Ref: par. .A54–.A55)

Capsule Financial Information

.49 The auditor should not provide negative assurance regarding whether the selected capsule financial information is in accordance with the applicable financial reporting framework unless

- a. the auditor has performed a review of the financial statements underlying the capsule financial information in accordance with GAAS applicable to reviews of interim financial information, and
- b. the selected capsule financial information is in accordance with minimum disclosure requirements of the applicable financial reporting framework for interim financial information.

If these conditions have not been met, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A56) [Renumbered by the issuance of SAS No. 129, July 2014.]

.50 The auditor should not provide negative assurance on selected capsule financial information regarding whether the dollar amounts were determined on a basis substantially consistent with that of the corresponding amounts in the audited financial statements unless the auditor has performed a review of the financial statements underlying the capsule financial information in accordance with GAAS applicable to reviews of interim financial information. Otherwise, the auditor is limited to reporting procedures performed and findings obtained. [Renumbered and amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.51 When the auditor is requested by the requesting party to provide negative assurance on unaudited condensed interim financial information, or information extracted therefrom, for a period ending after the latest financial statements included in the securities offering, the requirements in paragraphs

.45-.48 apply. When the auditor provides negative assurance on such information, a copy of the unaudited interim financial information should be attached to the comfort letter. (Ref: par. .A57) [Renumbered and amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

Pro Forma Financial Information

.52 The auditor should not comment in a comfort letter on pro forma financial information unless the auditor has an appropriate level of knowledge of the accounting and financial reporting practices of the entity. (Ref: par. .A58)

.53 The auditor should not provide negative assurance in a comfort letter on pro forma financial information, including negative assurance on

- the application of pro forma adjustments to historical amounts,
- the compilation of pro forma financial information, or
- whether the pro forma financial information complies as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X,³ or with the pro forma bases as described in the pro forma financial information, as applicable,

unless the auditor has obtained the required knowledge described in paragraph .52 and has performed

- a. an audit of the annual financial statements, or
- b. a review of the interim financial information, in accordance with GAAS applicable to reviews of interim financial information,

of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity) to which the pro forma adjustments were applied. In the case of a business combination, the historical financial statements of each constituent part of the combined entity on which the pro forma financial information is based should be audited or reviewed. If these conditions are not met, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A59) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

Financial Forecasts

.54 When performing procedures agreed to with the requesting party on a financial forecast and commenting thereon in a comfort letter, the auditor should

- a. obtain an understanding of the entity's internal control over financial reporting for both annual and interim periods, as required by paragraph .44;
- b. perform procedures required by AR-C section 80A, *Compilation Engagements*, for reporting on the compilation of a forecast;^[4]
- c. issue a report on the compilation of prospective financial information in accordance with AR-C section 80A and attach the report thereon to the comfort letter;^[5] and

³ Regulation S-X, "Form and Content of and Requirements for Financial Statements, Securities Act of 1933, Securities Exchange Act of 1934, Public Utility Holding Company Act of 1935, Investment Company Act of 1940, and Energy Policy and Conservation Act of 1975."

^[4] [Footnote deleted, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

^[5] [Footnote deleted, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

- d. perform additional procedures as requested by the requesting party and report the findings in the comfort letter. (Ref: par. .A60–.A61)

[Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

.55 The auditor should not provide negative assurance on the results of procedures performed on a financial forecast.

.56 The auditor should not provide negative assurance with respect to compliance of the financial forecast with Rule 11-03 of Regulation S-X unless the auditor has performed an examination of the financial forecast in accordance with AT-C section 305, *Prospective Financial Information*. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

.57 If a financial forecast that the auditor has not examined is included in the securities offering, the auditor should not issue a comfort letter unless the financial forecast is accompanied by an indication that the auditor has not examined the financial forecast and, therefore, does not express an opinion on it. (Ref: par. .A62) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

Subsequent Changes

.58 The auditor should base comments regarding subsequent changes in specified financial statement items solely on the limited procedures performed with respect to the change period as determined by the requesting party. (Ref: par. .A63–.A65)

.59 The auditor should provide negative assurance in the comfort letter regarding subsequent changes in specified financial statement items only as of a date less than 135 days from the end of the most recent period for which the auditor has performed an audit or a review. (Ref: par. .A66)

.60 When the requesting party requests negative assurance regarding subsequent changes in specified financial statement items as of a date 135 days or more from the end of the most recent period for which the auditor has performed an audit or a review, the auditor is limited to reporting procedures performed and findings obtained. (Ref: par. .A67) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.61 In commenting on subsequent changes, the auditor should not characterize subsequent changes using ambiguous terms, such as referring to the change as "adverse." The auditor should note in the comfort letter if there has been a change in the application of the requirements of the applicable financial reporting framework. (Ref: par. .A68) [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.62 The auditor should comment only on the occurrence of subsequent changes in specified financial statement items that are not disclosed in the securities offering. Accordingly, the auditor should include the phrase *except for changes, increases, or decreases that the securities offering discloses have occurred or may occur* in the comfort letter when it has come to the auditor's attention that a change, increase, or decrease has occurred during the change period, and the amount of such change, increase, or decrease is disclosed in the securities offering. This phrase need not be included in the letter when no changes, increases, or decreases in the specified financial statement items are disclosed in the securities offering. (Ref: par. .A69–.A70)

.63 The auditor should identify in the comfort letter in both draft and final form the dates as of which, and periods for which, data at the cut-off date and data for the change period are to be compared, whether or not specified in the underwriting agreement. (Ref: par. .A71–.A72)

.64 If the requesting party requests the use of a change period or periods other than those described in paragraph .07, the auditor should explain to the requesting party the implications of using an earlier date. If the requesting party, nonetheless, requests the use of a change period or periods other than those described in paragraph .07, the auditor is permitted to use the period or periods requested. (Ref: par. .A73)

Tables, Statistics, and Other Financial Information

.65 The auditor should not comment in a comfort letter on tables, statistics, and other financial information appearing in the securities offering unless the information

- a. is expressed in dollars (or percentages derived from such dollar amounts) and has been obtained from accounting records that are subject to internal control over financial reporting, or
- b. has been derived directly from such accounting records by analysis or computation. (Ref: par. .A74)

.66 The auditor should not comment in a comfort letter on quantitative information that has been obtained from accounting records unless the information is subject to the same controls over financial reporting as the dollar amounts.

.67 The auditor should not comment in a comfort letter on tables, statistics, and other financial information relating to an unaudited period unless the auditor has

- a. performed an audit of the entity's financial statements for a period including, or immediately prior to, the unaudited period or completed an audit for a later period, or
- b. otherwise obtained knowledge of the entity's internal control over financial reporting.

.68 The auditor should not use the term *presents fairly* in comments concerning tables, statistics, and other financial information (Ref: par. .A75) and should not comment on

- a. information subject to legal interpretation, such as beneficial share ownership;
- b. nonfinancial data presented in MD&A, unless the auditor has conducted an examination or review of MD&A in accordance with AT-C section 395, *Management's Discussion and Analysis*; or (Ref: par. .A76)
- c. matters merely because the auditor is capable of reading, counting, measuring, or performing other functions that might be applicable.

[Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

.69 The auditor's comments in the comfort letter concerning tables, statistics, and other financial information included in the securities offering should include

- a. a clear identification of the specific information commented on;

- b. a description of the procedures performed; and
- c. the findings, expressed in terms of agreement between items compared. (Ref: par. .A77–.A78)

.70 With respect to the acceptability of methods of allocation used in deriving the figures commented on, the auditor should comment only to the extent to which such allocation is made in, or can be derived directly by analysis or computation from, the entity's accounting records. Such comments, if made, should make clear that

- a. such allocations may be, to a substantial extent, arbitrary.
- b. the method of allocation used is not the only acceptable method.
- c. other acceptable methods of allocation might produce significantly different results.

.71 The comfort letter should state that the auditor makes no representations regarding

- a. any matter of legal interpretation;
- b. the completeness or adequacy of disclosure; and
- c. the adequacy of the procedures followed, and that such procedures would not necessarily disclose material misstatements or omissions in the information to which the comments relate. (Ref: par. .A79–.A80)

Compliance as to Form With Regulation S-K

.72 The auditor should not provide negative assurance about whether certain financial information in registration statements, included because of specific requirements of Regulation S-K, is in conformity with the disclosure requirements of Regulation S-K unless the following conditions are met:

- a. The information is derived, directly or by analysis or computation, from the accounting records subject to internal control over financial reporting.
- b. The information is capable of evaluation against reasonable criteria that have been established by the SEC. (Ref: par. .A81 and .A84–.A87)

.73 The auditor should not express an opinion on conformity with the disclosure requirements of Regulation S-K. (Ref: par. .A82–.A83)

Concluding Paragraph

.74 The comfort letter should include a concluding paragraph restricting the use of the comfort letter for the information of the addressees and to assist the requesting parties in connection with the securities offering. (Ref: par. .A88)

Disclosure of Subsequently Discovered Matters

.75 The auditor should inform the entity when the auditor has discovered matters that require mention in the final comfort letter but were not mentioned in the draft letter that has been furnished to the requesting party. If the entity decides that disclosure will not be made in the securities offering, the auditor should inform the entity that the matters will be mentioned in the comfort letter and should recommend that the requesting party be informed promptly. (Ref: par. .A89–.A90)

Application and Other Explanatory Material

Definitions (Ref: par. .07)

.A1 An example of a comfort letter in connection with an acquisition transaction in which there is an exchange of stock is a cross-comfort letter related to a typical Form S-4 or merger proxy situation. An auditor's report on a preliminary investigation in connection with a proposed transaction (for example, a merger, an acquisition, or a financing) is not covered by this section; the guidance in AT-C section 215, *Agreed-Upon Procedures Engagements*, may apply to such engagements. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

Engagement Acceptance (Ref: par. .09–.13)

.A2 An attorney's letter indicating that a party "may" be deemed to be an underwriter or has liability substantially equivalent to that of an underwriter under the securities laws would not meet this requirement.

.A3 What is "substantially consistent" may vary from situation to situation and may not be the same as that done in a registered offering of the same securities for the same entity. Whether the procedures being, or to be, followed will be "substantially consistent" is determined by the requesting party on a case-by-case basis. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A4 Exhibit A, "Illustration of Representation Letter From Requesting Party," contains illustrative wording for a representation letter when the requesting party is not an underwriter.

.A5 Exhibit B, "Examples of Comfort Letters," contains examples of comfort letters. Example Q, "Letter to a Requesting Party That Has Not Provided the Legal Opinion or the Representation Letter Required by Paragraph .11," of this exhibit provides an example of a comfort letter issued to a requesting party that has not provided the representation letter described in paragraph .11.

.A6 Interpretation No. 1, "Responding to Requests for Reports on Matters Relating to Solvency" (AT-C sec. 9105 par. .01–.11), of AT-C section 105, *Concepts Common to All Attestation Engagements*, contains guidance on additional statements to be included if this comfort letter is requested in connection with a secured debt offering. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

.A7 Although the auditor is not permitted to provide a comfort letter other than to requesting parties, the auditor, instead, may provide a report on agreed-upon procedures. AT-C section 215 provides guidance on such reports. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

Agreeing Upon the Scope of Services (Ref: par. .15–.23)

.A8 The underwriting agreement may specify the matters to be addressed in the comfort letter. If the underwriting agreement or draft underwriting agreement is not available or does not specify the matters to be addressed, the understanding of the scope of the comfort letter may be obtained from a description furnished by the entity or requesting party. Obtaining this understanding as early as possible, and before the auditor provides a draft of the form

of the letter the auditor expects to furnish, assists the auditor in determining whether the auditor will be able to furnish a letter in acceptable form.

.A9 If the requesting party refuses to meet together with the entity, the auditor may consider the implications in determining whether to accept the engagement.

.A10 During this meeting, the auditor may describe procedures that are frequently followed. Exhibit B provides examples of comfort letters that include these procedures. Because of the auditor's knowledge of the entity, such a meeting may assist the requesting party in reaching a decision about procedures to be followed by the auditor.

.A11 When financial information in a securities offering has not been audited in accordance with GAAS and, accordingly, is not covered by an auditor's opinion, the nature of the comments that the auditor can properly make with respect to that financial information is limited. As noted in paragraph .03, obtaining a comfort letter from an auditor is one procedure used by a requesting party to establish that the requesting party has conducted a "reasonable investigation," as a defense against possible claims under Section 11 of the 1933 Act. What constitutes a reasonable investigation of unaudited financial information sufficient to satisfy a requesting party's purposes is a matter of legal interpretation. Consequently, only the requesting party can determine what is sufficient for the requesting party's purposes.

.A12 The assistance that the auditor can provide by way of a comfort letter is subject to limitations. One limitation is that auditors can properly comment in their professional capacity only on matters to which their professional expertise is relevant. Another limitation is that procedures contemplated in a comfort letter, which do not constitute an audit of financial statements, do not provide the auditor with a basis for expressing an opinion. Such limited procedures may bring to the auditor's attention significant findings or issues affecting the financial information, but they do not provide assurance that the auditor will become aware of any or all significant findings or issues that would be disclosed in an audit. Accordingly, a risk exists that the auditor may have provided negative assurance on the absence of conditions or matters that may prove to have existed.

.A13 Comfort letters are not required under the 1933 Act, and copies are not filed with the SEC. Nonetheless, it is a common condition of an underwriting agreement in connection with the offering for sale of securities registered with the SEC under the 1933 Act that the auditor is to furnish a comfort letter. Some underwriters do not make the receipt of a comfort letter a condition of the underwriting agreement but, nevertheless, ask for such a letter.

.A14 Exhibit B, example A-1, "Typical Comfort Letter for a 1933 Act Offering," provides an illustration of an appropriate way of expressing that the auditor cannot provide any assurance regarding the sufficiency of the procedures for the requesting party's purposes.⁶

.A15 By providing a draft letter early in the process, the auditor has the opportunity to clearly show the requesting party what they may expect to receive from the auditor. Thus, the requesting party has the opportunity to discuss further with the auditor the procedures that the auditor expects to perform and to request any additional procedures that the requesting party may desire. If the additional procedures pertain to matters relevant to the auditor's professional

⁶ Paragraph 4 of example A-1, "Typical Comfort Letter for a 1933 Act Offering," in exhibit B, "Examples of Comfort Letters."

competence and the auditor is willing to perform them, a revised draft may be prepared.

.A16 Acceptance by the requesting party of the draft comfort letter (and subsequently by acceptance of the comfort letter in final form) is an indication to the auditor that the requesting party considers the procedures described to be sufficient for the requesting party's purposes. Clearly describing the procedures to be followed by the auditor in the comfort letter avoids misunderstanding about the basis on which the auditor's comments have been made and assists the requesting party in deciding whether the procedures performed are sufficient for the requesting party's purposes.

.A17 The following is an example of a paragraph that may be placed on the draft letter for identification and explanation of its purposes and limitations.

This draft is furnished solely for the purpose of indicating the form of letter that we would expect to be able to furnish [*name of requesting party*] in response to their request, the matters expected to be covered in the letter, and the nature of the procedures that we would expect to carry out with respect to such matters. Based on our discussions with [*name of requesting party*], it is our understanding that the procedures outlined in this draft letter are those they wish us to follow. Unless [*name of requesting party*] informs us otherwise, we shall assume that there are no additional procedures they wish us to follow. The text of the letter itself will depend, of course, on the results of the procedures, which we would not expect to complete until shortly before the letter is given and in no event before the cut-off date indicated therein.

If the auditor has not had any discussions with the requesting party about the auditor's planned procedures, the second sentence in this paragraph would be revised as follows: "In the absence of any discussions with [*name of requesting party*], we have set out in this draft letter those procedures referred to in the draft underwriting agreement (of which we have been furnished a copy) that we are willing to follow."

[.A18] [Paragraph deleted by the issuance of SAS No. 129, July 2014.]

.A19 Comfort letters are requested occasionally from more than one auditor, for example, in connection with securities offerings to be used in the subsequent sale of shares issued in recently effected mergers and from predecessor auditors. In such circumstances, it is the entity's responsibility, at the earliest practicable date, to inform any other auditors who may be involved about any letter that may be requested of them and arrange for them to receive a draft of the underwriting agreement so that they may make arrangements at an early date for the preparation of a draft of their letter and for the performance of their procedures. The entity or requesting party is also responsible for arranging for a copy of the comfort letters of component auditors in draft and final form to be provided to the auditor of the group financial statements.

.A20 In certain circumstances, regulations under the 1933 Act permit companies to register a designated amount of securities for continuous or delayed offerings during an extended period by filing one "shelf" registration statement. At the effective date of a shelf registration statement, the registrant may not yet have selected an underwriter. An entity or the legal counsel designated to represent the underwriting group may, however, ask the auditor to issue a comfort letter at the effective date of a shelf registration statement to expedite the due diligence activities of the underwriter when subsequently designated and to avoid later corrections of financial information included in an effective prospectus. However, as stated in paragraph .A11, only the underwriter can determine the procedures that will be sufficient for the underwriter's purposes.

.A21 The auditor may agree to furnish the entity or legal counsel for the underwriting group with a draft comfort letter describing the procedures that the auditor has performed and the comments that the auditor is willing to express as a result of those procedures.

.A22 The following is an example of a legend describing the letter's purpose and limitations.

This draft describes the procedures that we have performed and represents a letter we would be prepared to sign if the managing underwriter had been chosen and requested such a letter. The text of the final letter will depend, of course, on whether the managing underwriter who is selected requests that these and other procedures be performed to meet his or her needs and whether the managing underwriter requests that any of the procedures be updated to the date of issuance of the signed letter.

.A23 A signed comfort letter may be issued to the underwriter selected for the portion of the issue then being offered when the underwriting agreement for an offering is signed and on each closing date.

Format and Contents of Comfort Letters

Dating (Ref: par. .24–.25)

.A24 The letter ordinarily is dated on, or shortly after, the underwriting agreement is signed.

.A25 The underwriting agreement ordinarily specifies the date, often referred to as the *cut-off date*, to which certain procedures described in the letter are to relate, for example, a date five days before the date of the letter. A factor in considering whether to accept the engagement is whether the period between the cut-off date and the date of the letter provides sufficient time to allow the auditor to perform the procedures and prepare the letter.

.A26 Comments included in an earlier letter that relate to information in the securities offering as most recently amended may be incorporated by reference in a subsequent letter. Exhibit B, example C, "Letter Reaffirming Comments as of a Later Date," provides an example of such reference. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

Addressee (Ref: par. .26)

.A27 An example of an appropriate form of address for this purpose is "The Blank Company and XYZ & Company, as Representative of the Several Underwriters." Copies of a comfort letter addressed in accordance with the requirements in paragraph .26 may be provided to the auditor of the group financial statements when a comfort letter related to a component included in group financial statements is issued by a component auditor.

Auditor's Report (Ref: par. .28–.33)

.A28 The requesting party might request that the auditor repeat in the comfort letter the report on the audited financial statements included in the securities offering. Because of the significance of the date of the auditor's report, the auditor is not permitted to agree to this request. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A29 An example of a matter addressed in an emphasis-of-matter or other-matter paragraph in the auditor's report that does not affect the opinion on the basic financial statements is interim financial information accompanying or

included in the notes to audited financial statements.⁷ An example of a matter addressed in a separate section in the auditor's report that does not affect the opinion on the basic financial statements is required supplementary information described in section 730, *Required Supplementary Information*.⁸ [As amended, effective for comfort letters issued on or after December 15, 2021, by SAS No. 140.]

.A30 A requesting party may request that the auditor comment in the comfort letter on

- unaudited interim financial information required by item 302(a) of Regulation S-K, or
- required supplementary information.

Section 930, *Interim Financial Information*, applies to unaudited interim financial information, and section 730 applies to required supplementary information. These sections require the auditor to modify the auditor's report on the audited financial statements to refer to such information when

- the scope of the procedures with regard to the information was restricted, or
- when the information appears not to be presented in accordance with the applicable financial reporting framework or, for required supplementary information, applicable guidelines.

Such modifications of the auditor's report in the securities offering would ordinarily be referred to in the opening paragraph of the comfort letter (see also paragraph .43). Additional comments on such unaudited information are, therefore, unnecessary. However, if the requesting party requests that the auditor perform procedures with regard to such information in addition to those procedures performed in connection with the review or audit as prescribed by section 930 and section 730, the auditor may do so and report the findings. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A31 The requesting party might request negative assurance regarding the auditor's report. Because auditors have a statutory responsibility with respect to their opinion as of the effective date of a securities offering and because the additional significance, if any, of negative assurance is unclear and such assurance may, therefore, give rise to misunderstanding, the auditor is not permitted to provide such negative assurance. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A32 In the introductory paragraph of the comfort letter, the auditor may refer to the fact that the auditor has issued reports on

- summary financial statements that are derived from audited financial statements.⁹
- interim financial information.¹⁰
- pro forma financial information.¹¹

⁷ Paragraphs .40–.41 of section 930, *Interim Financial Information*. [Footnote amended, effective for comfort letters issued on or after December 15, 2021, by SAS No. 140.]

⁸ Paragraphs .07–.09 of section 730, *Required Supplementary Information*.

⁹ See section 810, *Engagements to Report on Summary Financial Statements*.

¹⁰ See section 930.

¹¹ See AT-C section 310, *Reporting on Pro Forma Financial Information*, and AR-C section 120, *Compilation of Pro Forma Financial Information*. [Footnote revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 22.]

- a financial forecast.¹²
- MD&A.¹³

.A33 When the auditor makes reference to having issued a review report on the interim financial information, the auditor is required by paragraph .47 to attach the review report to the comfort letter if the review report is not included in the securities offering. The other reports listed in paragraph .A32 may also be attached to the comfort letter. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A34 An example of an auditor's written communication that includes an alert that restricts the use of the auditor's written communication that is not permitted to be mentioned, referred to, or attached to the comfort letter is an auditor's written communication issued in accordance with section 265, *Communicating Internal Control Related Matters Identified in an Audit*. Examples of restricted use reports that are not permitted to be mentioned, referred to, or attached to the comfort letter include a report on agreed-upon procedures and any restricted use report issued in connection with procedures performed on the entity's internal control over financial reporting, in accordance with section 940, *An Audit of Internal Control Over Financial Reporting That Is Integrated With an Audit of Financial Statements*. [As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125; Revised, December 2016, to reflect conforming changes necessary to reflect the issuance of SAS No. 130.]

Representations (Ref: par. .34)

.A35 Exhibit B, example A-2, "Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained," contains a reference to the requesting party's representations.

Independence (Ref: par. .35)

.A36 Exhibit B, example A-1 contains an illustration of an appropriate statement confirming the auditor's independence under SEC rules and regulations in conjunction with SEC filings.

.A37 Exhibit B, example A-2 includes an illustration of an appropriate statement confirming the auditor's independence in conjunction with a securities offering when the auditor is independent under AICPA standards.

.A38 The auditors for previously nonaffiliated entities recently acquired by the registrant would not be required to have been independent with respect to the entity whose shares are being registered. Exhibit B, example B, "Letter When a Short-Form Registration Statement Is Filed Incorporating Previously Filed Form 8-K by Reference," includes an illustration of an appropriate statement concerning the auditor's independence in such a case.

Compliance With SEC Requirements (Ref: par. .36–.40)

.A39 Although the guidance in this section generally addresses comfort letters issued in connection with securities offerings registered pursuant to the 1933 Act, it also provides guidance on comfort letters issued in other securities transactions. However, the guidance that specifically refers to compliance of the information commented on with SEC rules and regulations, such as compliance

¹² See AR-C section 80A. [Footnote revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

¹³ See AT-C section 395, *Management's Discussion and Analysis*. [Footnote revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

with Regulation S-X or S-K, generally applies only to comfort letters issued in connection with securities offerings registered pursuant to the 1933 Act.

.A40 The phrase *rules and regulations adopted by the SEC* is used because auditors are not expected to be familiar with, or express opinions on compliance with, informal positions of the SEC staff.

.A41 An illustration of an appropriate opinion regarding compliance as to form with pertinent accounting requirements adopted by the SEC is as follows:

In our opinion [*include phrase except as disclosed in the registration statement if applicable*], the [*identify the financial statements and financial statement schedules*] audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC.

.A42 Exhibit B, example K, "Alternate Wording When the SEC Has Agreed to a Departure From Its Accounting Requirements," illustrates an appropriate manner of disclosing a material departure from the pertinent rules and regulations adopted by the SEC.

.A43 The auditor may agree to examine or review MD&A in accordance with AT-C section 395. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

Commenting in a Comfort Letter on Information Other Than Audited Financial Statements

General (Ref: par. .41–.43)

.A44 Comments included in the letter will often concern

- unaudited interim financial information.
- capsule financial information.
- pro forma financial information.
- financial forecasts.
- subsequent changes in specified financial statement items.

When the auditor has been requested to provide negative assurance on interim financial information or capsule financial information, the procedures involved in a review performed in accordance with GAAS applicable to reviews of interim financial information need not be specified.

.A45 Exhibit B, example A-1 contains an illustration of how the procedures performed by the auditor may be described.¹⁴

.A46 If the auditor states that the auditor has performed a review in accordance with GAAS applicable to reviews of interim financial information, this does not imply that those procedures are sufficient for the requesting party's purposes. The requesting party may ask the auditor to perform additional procedures. For example, the requesting party may request that the auditor apply additional procedures and specify items of financial information to be reviewed and the materiality level for changes in those items that would necessitate further inquiry by the auditor.

.A47 The procedures performed with respect to interim periods may not disclose subsequent changes in the specified financial statement items, inconsistencies in the application of the applicable financial reporting framework,

¹⁴ Paragraph 4 of example A-1 in exhibit B.

instances of noncompliance as to form with accounting requirements of the SEC, or other matters about which negative assurance is requested.

.A48 An illustration of an appropriate manner of noting the limitations of procedures performed is shown in example A-1 of exhibit B.¹⁵

.A49 Because there is no way for the auditor to anticipate other matters that would be of interest to a requesting party, the auditor is precluded, in accordance with paragraph .42, from making a statement that nothing else has come to the auditor's attention that would be of interest to the requesting party.

.A50 Exhibit B, example I, "Alternate Wording When Auditor's Report on Audited Financial Statements Contains an Emphasis-of-Matter Paragraph," contains an illustration of alternate wording when the auditor's report on audited financial statements is a modified report.

Knowledge of Internal Control (Ref: par. .44)

.A51 The auditor may have obtained a sufficient understanding of an entity's internal control over financial reporting for both annual and interim periods through performing an audit on the entity's financial statements for one or more periods.

Unaudited Interim Financial Information (Ref: par. .45–.48)

.A52 The SEC requirements specify condensed financial statements. However, the requirements in paragraphs .45–.48 also apply to complete financial statements. For purposes of this section, interim financial information may be for a 12-month period ending on a date other than the entity's normal year-end. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A53 The auditor may, but is not required to, state in the comfort letter that the auditor has performed a review of interim financial information in accordance with GAAS applicable to reviews of interim financial information, and has issued a report on the review.

.A54 Exhibit B, example A-1 provides an illustration of a description related to the procedures specified for a review in accordance with GAAS applicable to reviews of interim financial information.¹⁶ Exhibit B, example O, "Alternate Wording When the Procedures That the Requesting Party Has Requested the Auditor to Perform on Interim Financial Information Are Less Than a Review in Accordance With Generally Accepted Auditing Standards Applicable to Reviews of Interim Financial Information," provides an illustration of alternate wording when the procedures that the requesting party has requested the auditor to perform on interim financial information are less than a review in accordance with GAAS applicable to reviews of interim financial information.

.A55 Exhibit B, example A-1 includes an illustration of an appropriate manner of making clear that the auditor is not expressing an opinion on unaudited interim financial information.¹⁷

Capsule Financial Information (Ref: par. .50–.51)

.A56 In some securities offerings, supplementary capsule financial information comprising unaudited summarized interim financial information for

¹⁵ See the last three sentences in paragraph 4 of example A-1 in exhibit B.

¹⁶ Paragraphs 4a and 5a of example A-1 in exhibit B.

¹⁷ Paragraph 3 of example A-1 in exhibit B.

subsequent periods accompanies the information shown in the audited financial statements or unaudited interim financial information. This capsule financial information (either in narrative or tabular form) often is provided for the most recent interim period and for the corresponding period of the prior year.

.A57 The requesting party may ask the auditor to provide negative assurance with respect to the unaudited interim financial information, or unaudited condensed interim financial information that underlie the capsule financial information, and ask the auditor to state that the capsule financial information agrees with amounts set forth in such financial information. Exhibit B, example L, "Alternate Wording When Recent Earnings Data Are Presented in Capsule Form," provides an illustration of the auditor's comments in these circumstances.¹⁸

Pro Forma Financial Information (Ref: par. .52–.53)

.A58 An appropriate level of knowledge of the accounting and financial reporting practices of the entity may be obtained by the auditor auditing or reviewing, in accordance with GAAS, historical financial statements of the entity (or, in the case of a business combination, of a significant constituent part of the combined entity) for the most recent annual or interim period for which the pro forma financial information is presented.

.A59 Exhibit B, example D, "Comments on Pro Forma Financial Information," provides illustrations of wording regarding negative assurance on pro forma financial information as to compliance with the applicable accounting requirements of Rule 11-02 of Regulation S-X or with the pro forma bases as described in the pro forma financial information. Exhibit B, example O, provides an illustration of wording regarding procedures performed and findings obtained for pro forma financial information. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

Financial Forecasts (Ref: par. .54–.57)

[.A60] [Paragraph deleted by the issuance of SAS No. 129, July 2014.]

.A61 Exhibit B, example E, "Comments on a Financial Forecast," provides illustrations of appropriate wording describing procedures performed on a financial forecast.

.A62 The attestation standards that apply to financial forecasts provide for examinations of and agreed-upon procedures related to financial forecasts but not reviews. AR-C section 80A, *Compilation Engagements*, applies when reporting on the compilation of a financial forecast. If a compilation report on the financial forecast has been issued in connection with the comfort letter, the report need not be included in the securities offering. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18 and SSARS No. 23.]

Subsequent Changes (Ref: par. .58–.64)

.A63 Comments regarding subsequent changes typically relate to whether, during the change period, there has been any

- change in capital stock;
- increase in long-term debt; or

¹⁸ Paragraphs 4b and 5b of example L, "Alternate Wording When Recent Earnings Data Are Presented in Capsule Form," in exhibit B.

- decreases in other specified financial statement items.

These comments might also address such matters as subsequent changes in the amounts of

- net current assets or stockholders' equity attributable to the entity.
- net sales and income from continuing operations and of net income or net income attributable to the entity. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A64 Procedures may include

- reading minutes and discussing with those charged with governance those meetings for which minutes have not been approved, and
- making inquiries of entity officials relating to the whole of the change period and obtaining appropriate written representations of the entity officials to support the answers to the inquiries.

.A65 Exhibit B, example A-1 provides an illustration of a description of procedures related to subsequent changes.¹⁹

.A66 Examples of the application of the requirements of paragraph .59 are as follows:

- When the auditor has audited the December 31, 20X0 financial statements, the auditor may provide negative assurance about changes in specified financial statement items as of any date through May 14, 20X1 (134 days subsequent to December 31).
- When the auditor has audited the December 31, 20X0 financial statements and has also conducted a review of the interim financial information as of and for the quarter ended March 31, 20X1, in accordance with GAAS applicable to reviews of interim financial information, the auditor may provide negative assurance about changes in specified financial statement items as of any date through August 12, 20X1 (134 days subsequent to March 31).

.A67 An appropriate manner of expressing negative assurance regarding subsequent changes is shown in exhibit B, in example A-1 if there has been no change, increase, or decrease, as applicable, and in example M, "Alternate Wording When Auditors Are Aware of a Decrease in a Specified Financial Statement Item," if there has been a decrease.²⁰ Example M may be modified when auditors are aware of a change or increase. Exhibit B, example O provides an illustration of reporting procedures performed and findings obtained relating to the subsequent change period. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A68 In commenting on subsequent changes, the auditor may use terms such as *change*, *increase*, or *decrease*. Terms such as *adverse* are not clearly understood and may cause the comments on subsequent changes to be ambiguous.

.A69 The comparison for the change period relates to the entire period and not to portions of that period. A decrease during one part of the period may be offset by an equal or larger increase in another part of the period. Because no decrease for the period as a whole existed, the comfort letter would not report

¹⁹ Paragraph 6 of example A-1 in exhibit B.

²⁰ Paragraphs 5b and 6 of example A-1 in exhibit B.

the decrease occurring during one part of the period. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A70 When more than one auditor is involved, the auditor of the group financial statements may comment that there were no decreases in the consolidated financial statement items, when appropriate, despite the possibility that decreases have been mentioned in a comfort letter issued by a component auditor. Exhibit B, example J, "Alternate Wording When Component Auditors Are Involved," contains an illustration of wording when more than one auditor is involved. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A71 The underwriting agreement usually specifies the dates as of which, and periods for which, data at the cut-off date and data for the change period are to be compared. For balance sheet items, the comparison date is normally that of the latest balance sheet included in the securities offering (that is, immediately prior to the beginning of the change period). For income statement items, the comparison period or periods might be, but are not limited to, the corresponding period of the preceding year or a period of corresponding length immediately preceding the change period.

.A72 The reasons for identifying the date and period used for comparison are to avoid misunderstandings about the matters being compared, and so that the requesting party can determine whether the comparison period is suitable for the requesting party's purposes.

.A73 The requesting party might request that the change period begin immediately after the date of the latest audited balance sheet (which is, ordinarily, also the closing date of the latest audited statement of income) in the securities offering, even though the securities offering includes a more recent unaudited balance sheet and statement of income. The use of the earlier date may defeat the requesting party's purpose because it is possible that an increase in one of the items referred to in paragraph .A63 occurring between the dates of the latest audited and unaudited balance sheets included in the securities offering might more than offset a decrease occurring after the latter date. A similar situation might arise in the comparison of income statement items. In these circumstances, the decrease occurring after the date of the latest unaudited interim financial information included in the securities offering would not be reported in the comfort letter. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

Tables, Statistics, and Other Financial Information (Ref: par. .65–.71)

.A74 Other financial information appearing in the securities offering does not include financial information that is covered by the auditor's opinion on the financial statements.

.A75 Because the term *presents fairly*, when used by independent auditors, ordinarily relates to presentations of financial statements, the use of the term in commenting on other types of information may be misleading.

.A76 When the auditor has conducted an examination or a review of MD&A in accordance with AT-C section 395, the auditor may agree to trace nonfinancial data presented outside MD&A to similar data included in the MD&A presentation. When the auditor does not perform a review or an examination of MD&A or does not attach or refer to a report on MD&A, the auditor may perform procedures agreed to with the requesting party with respect to items in MD&A subject to internal control over financial reporting. [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

.A77 Options for describing the procedures performed and the findings obtained include

- describing them individually for each item of specific information commented on.
- grouping or summarizing some or all of the descriptions, as long as
 - the procedures and findings are adequately described,
 - the applicability of the descriptions to items in the securities offering is clear, and
 - the descriptions do not imply that the auditor assumes responsibility for the adequacy of the procedures.
- presenting a matrix listing the financial information and common procedures employed and indicating the procedures applied to the specific items.
- identifying procedures performed with specified symbols and identifying items to which those procedures have been applied directly on a copy of the securities offering, which is attached to the comfort letter. [As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

.A78 Exhibit B, examples F, "Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings," G, "Comments on Tables, Statistics, and Other Financial Information—Summarized Description of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information," and H, "Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols," provide illustrations of appropriate ways of expressing comments on tables, statistics, and other financial information.

.A79 Except with respect to requirements for financial statements and certain Regulation S-K items discussed in paragraph .72, the question of what constitutes appropriate information for compliance with the requirements of a particular item of the securities offering form is a matter of legal interpretation outside the competence of auditors.

.A80 Exhibit B, example F contains an illustration of an appropriate way of stating the limitations regarding the sufficiency of the auditor's procedures.²¹

Compliance as to Form With Regulation S-K (Ref: par. .72–.73)

.A81 The following are the disclosure requirements of Regulation S-K that generally meet the criteria in paragraph .72:

- Item 301, "Selected Financial Data"
- Item 302, "Supplementary Financial Information"
- Item 402, "Executive Compensation"
- Item 503(d), "Ratio of Earnings to Fixed Charges"

²¹ Paragraph 9 of example F, "Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings," in exhibit B.

.A82 Because information relevant to Regulation S-K disclosure requirements other than those noted previously is generally not derived from the accounting records subject to internal control over financial reporting, it is not appropriate for the auditor to comment on conformity of this information with Regulation S-K.

.A83 The auditor's inability to comment on conformity with Regulation S-K does not preclude the auditor from performing procedures and reporting findings with respect to this information.

.A84 Item 305, "Quantitative and Qualitative Disclosures About Market Risk," of Regulation S-K does not meet the criteria in paragraph .65 for the auditor to provide comments on the Item 305 qualitative disclosures because the disclosures are not derived from the accounting records but are descriptive and hypothetical or forward-looking in nature.

.A85 Item 305 does not meet the criteria in paragraph .72 for the auditor to provide negative assurance on conformity with Item 305. Although some information needed to comply with Item 305 is derived from the accounting records, registrants must also provide a substantial amount of information that is not derived from accounting records subject to internal control over financial reporting.

.A86 Item 305 requires quantitative disclosures that may be presented in the form of a tabular presentation, sensitivity analysis, or value-at-risk disclosures. The auditor may perform limited procedures related to tabular presentations to the extent that such information is derived from the accounting records subject to internal control over financial reporting.

.A87 The appendix, "Commenting in a Comfort Letter on Quantitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K," provides guidance on providing comments on Item 305 quantitative disclosures and examples of very simplified procedures, findings, and limitations related to Item 305 tabular presentation disclosures.

Concluding Paragraph (Ref: par. .74)

.A88 An illustration of an appropriate concluding paragraph is shown in exhibit B, examples A-1, A-2, and B.

Disclosure of Subsequently Discovered Matters (Ref: par. .75)

.A89 Subsequently discovered matters may include changes in specified items not disclosed in the securities offering, as discussed in paragraph .62.

.A90 The auditor's participation in the meeting may be helpful when the entity and requesting party discuss such matters.

.A91

Appendix—Commenting in a Comfort Letter on Quantitative Disclosures About Market Risk Made in Accordance With Item 305 of Regulation S-K

.A91-1 Regulation S-K, Item 305, Quantitative and Qualitative Disclosures About Market Risk, requires certain quantitative and qualitative disclosures with respect to derivative financial instruments, generally as defined in Financial Accounting Standards Board *Accounting Standards Codification* glossary.

.A91-2 In addition to qualitative (that is, descriptive) disclosures, Item 305 requires quantitative disclosures that may be presented in the form of a tabular presentation, sensitivity analysis, or value-at-risk disclosures. Disclosures generally include a combination of historical and fair value data and the hypothetical effects on such data of assumed changes in interest rates, foreign currency exchange rates, commodity prices, and other relevant market rates. The quantitative and qualitative information required by Item 305 are disclosed outside the financial statements and related notes thereto.

.A91-3 Item 305 does not meet the criteria in paragraph .65 for the auditor to provide comments on the Item 305 qualitative disclosures because the disclosures are descriptive and are not derived from the accounting records because they are hypothetical or forward-looking in nature.

.A91-4 Although some information needed to comply with Item 305 is derived from the accounting records, registrants must also provide a substantial amount of information that is not derived from accounting records subject to internal control over financial reporting. As a result, Item 305 does not meet the criteria in paragraph .72 for the auditor to provide negative assurance on conformity with Item 305 of Regulation S-K.

.A91-5 The three alternative forms of quantitative disclosures under Item 305 reflect hypothetical effects on market risk sensitive instruments and result in differing presentations. The forward-looking information used to prepare these presentations may be substantially removed from the accounting records that are subject to internal control over financial reporting. Further, paragraph .68 also states that the auditor should not comment on matters merely because the auditor is capable of reading, counting, measuring, or performing other functions that might be applicable. Accordingly, an auditor's ability to comment on these disclosures is largely dependent upon the degree to which the forward-looking information used to prepare these disclosures is linked to such accounting records.

.A91-6 The tabular presentation includes the fair values of market risk sensitive instruments and contract terms to determine the future cash flows from those instruments that are categorized by expected maturity dates. This approach may require the use of yield curves and implied forward rates to determine expected maturity dates, as well as assumptions regarding prepayments and weighted average interest rates.

.A91-7 The term *sensitivity analysis* describes a general class of models that are designed to assess the risk of loss in market risk sensitive instruments, based upon hypothetical changes in market rates or prices. Sensitivity analysis does not refer to any one, specific model and may include duration analysis or other

"sensitivity" measures. The disclosures are dependent upon assumptions about theoretical future market conditions and, therefore, are not derived from the accounting records.

.A91-8 The term *value at risk* describes a general class of models that provide a probabilistic assessment of the risk of loss in market risk sensitive instruments over a selected period of time, with a selected likelihood of occurrences based upon selected confidence intervals. Value-at-risk disclosures are extremely aggregated and, in addition to the assumptions made for sensitivity analyses, may include additional assumptions regarding correlation between asset classes and future market volatilities. As a result, these disclosures are not derived from the accounting records.

.A91-9 Of the three disclosure alternatives, the tabular presentation contains the most limited number of assumptions and least complex mathematical calculations. Furthermore, certain information, such as contractual terms, included in a tabular presentation is derived from the accounting records. Accordingly, auditors may perform limited procedures related to tabular presentations to the extent that such information is derived from the accounting records subject to internal control over financial reporting.

.A91-10 The modeling techniques and underlying assumptions utilized for sensitivity analysis and value-at-risk disclosures generally will be highly complex. The resultant disclosures may be substantially different from the basic historical financial input derived directly from the accounting records. Due to the hypothetical and forward-looking nature of these disclosures and the potentially limited usefulness of any procedures that may be performed, sensitivity analysis or value-at-risk disclosures do not meet the criteria in paragraph .65 for the auditor to agree to make any comments or perform any procedures related to sensitivity analysis or value-at-risk disclosures.

.A91-11 When performing procedures related to tabular presentation disclosures, the auditor is required by paragraph .65 to consider whether the entity's documentation of its contractual positions in derivatives, commodities, and other financial instruments is subject to internal control over financial reporting and whether it provides a complete record of the entity's market risk sensitive instruments. In addition, the auditor is not permitted to express positive or negative assurance about the reasonableness of the assumptions underlying the disclosures.

.A91-12 Item 305 requires registrants to stratify financial instruments according to market risk category, that is, interest rate risk, foreign exchange risk, and equity price risk. Item 305 stipulates that if an instrument is at risk in more than one category, the instrument should be included in the disclosures for each applicable category. The stratifications and the company's determination of market risk categories are not derived from the company's accounting records. Accordingly, the auditor is not permitted to provide any findings that the company's stratifications are complete or comply as to form with Item 305 requirements and should disclaim with respect to the company's determination of market risk categories.

.A91-13 Item 305 encourages registrants to provide quantitative and qualitative information about market risk in terms of, among other things, the magnitude of actual past market movements and estimates of possible near-term market movements. As market data is not derived from the company's accounting records, the auditor is not permitted to agree to perform any procedures related to such market data.

.A91-14 Further, the auditor may need to utilize a specialist in performing procedures related to those disclosures.

.A91-15 The following examples, based on example H, "Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols," of exhibit B, "Examples of Comfort Letters," provide very simplified procedures, findings, and limitations related to Item 305 tabular presentation disclosures. In practice, the procedures generally will be substantially more complex.

Symbol	Procedures and Findings
√	Compared with a schedule prepared by the Company from its accounting records. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement, and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness or completeness of the Company's classification of its market-risk-sensitive instruments into market risk categories, nor as to its determination of the expected maturity dates or amounts. (Note: This is an example of procedures related to tabular presentations of face amounts, carrying amounts, fair values, and notional amounts, which stratify such amounts as to interest rate risk.)
⊗	Compared with a schedule prepared by the Company from its accounting records to calculate weighted average fixed interest rates and weighted average fixed pay and receive rates and found such percentages to be in agreement. We (a) compared the amounts on the schedule to corresponding amounts appearing in the accounting records and found such amounts to be in agreement, and (b) determined that the schedule was mathematically correct. However, we make no comment as to the appropriateness of the Company's methodology in calculating weighted average fixed rates. (Note: It may be necessary to provide a more complete description of the procedures performed in other circumstances.) We make no comment as to the appropriateness or completeness of the Company's determination of the Regulation S-K requirements for quantitative and qualitative disclosures about market risks or with respect to the reasonableness of the assumptions underlying the disclosures.

[The following is an extract from a registration statement that illustrates how an auditor can document procedures performed on a tabular presentation of market risk disclosures made in accordance with Item 305 of Regulation S-K.]

INTEREST RATE SENSITIVITY

The following table provides information about the Company's derivative financial instruments and other financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For interest rate swaps, the table presents notional amounts and weighted average interest rates by expected maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates

are based on implied forward rates in the yield curve at the reporting date. The information is presented in U.S. dollar equivalents, which is the Company's reporting currency. The instrument's actual cash flows are denominated in both U.S. dollars (\$US) and German deutschmarks (DM), as indicated in parentheses.

	Expected maturity dates						
	<u>20X2¹</u>	<u>20X3¹</u>	<u>20X4¹</u>	<u>20X5¹</u>	<u>Thereafter¹</u>	<u>Total</u>	<u>Fair Value</u>
Liabilities							
Long-Term Debt:	(\$US equivalent in millions)						
Fixed Rate (\$US)	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX ✓	\$XXX ✓
Average interest rate	XX%	XX%	XX%	XX%	XX%	XX% ⊗	
Fixed Rate (DM)	XXX	XXX	XXX	XXX	XXX	XXX ✓	XXX ✓
Average interest rate	XX%	XX%	XX%	XX%	XX%	XX% ⊗	
Variable Rate (\$US)	XXX	XXX	XXX	XXX	XXX	XXX ✓	XXX ✓
Average interest rate	XX%	XX%	XX%	XX%	XX%	XX% ¹	
Interest Rate Derivatives	(\$US equivalent in millions)						
Interest Rate Swaps:							
Variable to fixed (\$US)	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX	\$XXX ✓	\$XXX ✓
Average pay rate-fixed	XX%	XX%	XX%	XX%	XX%	XX% ⊗	
Average receive rate-variable	XX%	XX%	XX%	XX%	XX%	XX% ¹	
Fixed to Variable (\$US)	XXX	XXX	XXX	XXX	XXX	XXX ✓	XXX ✓
Average pay rate-variable	XX%	XX%	XX%	XX%	XX%	XX% ¹	
Average receive rate-fixed	XX%	XX%	XX%	XX%	XX%	XX% ⊗	

¹ Because these disclosures include either management's expectations of future cash flows or the use of implied forward rates applied to such expected cash flows, such information does not meet the criteria of paragraph .65. Accordingly, the auditor is not permitted to express findings on amounts in these columns.

.A92

Exhibit A—Illustration of Representation Letter From Requesting Party (Ref: par. .A4)

The following is an example of a letter from a nonunderwriter when the securities offering is not being registered under the Securities Act of 1933. If requested to provide a definition of substantially consistent, the following language may be added to the letter:

What is substantially consistent may vary from situation to situation and may not be the same as that done in a registered offering of the same securities for the same entity. Whether the procedures being, or to be, followed will be substantially consistent is determined by us on a case-by-case basis.

[Date]

Dear ABC Accountants:

[Name of requesting party], as principal or agent, in the placement of [identify securities] to be issued by [name of issuer of the securities], will be reviewing certain information relating to [issuer of the securities] that will be included (incorporated by reference) in the document [if appropriate, identify the document], which may be delivered to investors and utilized by them as a basis for their investment decision. This review process, applied to the information relating to the issuer of the securities, is (will be) substantially consistent with the due diligence review process that an underwriter would perform if this placement [issuance] of securities were being registered pursuant to the Securities Act of 1933 (the Act). We are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Act. We hereby request that you deliver to us a "comfort" letter concerning the financial statements of the issuer of the securities and certain statistical and other data included in the offering document. We will contact you to identify the procedures we wish you to follow and the form we wish the comfort letter to take.

Very truly yours,

[Name of Requesting Party]

[As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129.]

Introduction

.A93-1 The contents of comfort letters vary depending on the extent of the information in the securities offering and the wishes of the requesting party. Shelf registration statements may have several closing dates and different underwriters. Descriptions of procedures and findings regarding interim financial information, tables, statistics, or other financial information that is incorporated by reference from previous Securities Exchange Act of 1934 filings may have to be repeated in several comfort letters. To avoid restating these descriptions in each comfort letter, the auditor may initially issue the comments in a format (such as an appendix) that can be referred to in, and attached to, subsequently issued comfort letters.

.A93-2 A typical comfort letter includes

- a. a statement regarding the independence of the auditor. (Ref: par. .35)
- b. if applicable, an opinion regarding whether the audited financial statements included (incorporated by reference) in the securities offering comply as to form in all material respects with the applicable accounting requirements of the Securities Act of 1933 (the 1933 Act) and related rules and regulations adopted by the Securities and Exchange Commission (SEC). (Ref: par. .36–.40)
- c. negative assurance on whether
 - i. if applicable, the unaudited interim financial information included (incorporated by reference) in the securities offering (Ref: par. .45–.48) complies as to form in all material respects with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC.
 - ii. any material modifications should be made to the unaudited interim financial information included (incorporated by reference) in the securities offering for them to be in conformity with the applicable financial reporting framework.
- d. negative assurance on whether, during a specified period following the date of the latest financial statements in the securities offering, there has been any change in capital stock, increase in

long-term debt, or any decrease in other specified financial statement items. (Ref: par. .58–.64)

Example A-1 contains a typical comfort letter for a 1933 Act offering and example A-2 contains a typical comfort letter for a non-1933 Act offering. Letters that cover some of the items may be developed by omitting inapplicable portions of these examples. Examples B, D–O, and R contain additional or alternate wording for examples A-1 or A-2, as applicable, for various scenarios.

Although the illustrations in this exhibit describe procedures that may be followed by auditors as a basis for their comments, this section does not necessarily prescribe such procedures.

Example A—Typical Comfort Letters

Example A-1—Typical Comfort Letter for a 1933 Act Offering

.A93-3 Example A-1 is an example of a letter that the auditor of a nonissuer may provide when a registrant is including the nonissuer's financial statements in a securities offering to be filed with the SEC. Appropriate modifications would be made if additional financial information is covered by the comfort letter. Example A-1 assumes the following circumstances:

- The prospectus includes audited consolidated balance sheets as of December 31, 20X5 and 20X4, and audited consolidated statements of income, stockholders' equity, and cash flows for each year in the three-year period ended December 31, 20X5. Note that the example assumes all the net income is attributable to the company. If that were not the case, the references to net income would be modified, or additional references would be included as appropriate.
- The prospectus also includes an unaudited condensed consolidated balance sheet as of March 31, 20X6, and unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, reviewed in accordance with generally accepted auditing standards applicable to reviews of interim financial information; however the review report is not included in the securities offering. If the review report is included in the securities offering, the auditor may state that the auditor has issued a review report on the interim financial information in the introductory paragraph of the comfort letter, as follows:

Also, we have reviewed the unaudited condensed consolidated financial statements as of March 31, 20X6, and for the three-month periods ended March 31, 20X6 and 20X5, as indicated in our report dated May 15, 20X6, which is included (incorporated by reference) in the registration statement.

The cut-off date is June 23, 20X6, and the letter is dated June 28, 20X6. The effective date is June 28, 20X6.

- The auditors are reporting independence under the SEC rules and regulations. If the auditors were not required to be independent under the SEC rules and regulations in conjunction with an SEC filing, paragraph 1 in example A-1 would be replaced with paragraph 1 in example A-2.

The auditor may agree to comment in the comfort letter on whether the interim financial information complies as to form in all material respects with the

applicable accounting requirements of the rules and regulations adopted by the SEC.

The example also assumes that there has been no change in the application of a requirement of generally accepted accounting principles during the interim period. If there has been such a change, a reference to that change would be included in paragraph 5 of example A-1.

Each of the comments in the letter is in response to a requirement of the underwriting agreement. For purposes of example A-1, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

June 28, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included in The Issuer Company's (the registrant) registration statement (no. 33-00000) on Form S-1 filed by the registrant under the Securities Act of 1933 (the Act); our report with respect thereto is also included in that registration statement. The registration statement, as amended on June 28, 20X6, is herein referred to as the registration statement.

In connection with the registration statement—

1. We are independent certified public accountants with respect to the company within the meaning of the 1933 Act and the applicable rules and regulations thereunder adopted by the SEC.
2. In our opinion [*include the phrase except as disclosed in the registration statement if applicable*], the consolidated financial statements audited by us and included in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although, we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registration statement, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.
4. For purposes of this letter we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [*include*

other appropriate committees, if any] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, of officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on [dates]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):

- a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
 - (i) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registration statement.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in a(i) comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
- b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—
 - (i) Read the unaudited consolidated financial information of the company and subsidiaries for April and May of both 20X5 and 20X6 furnished us by the company, officials of the company having advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, were available. [If applicable: The financial information for April and May of both 20X5 and 20X6 is incomplete in that it omits the statements of cash flows and other disclosures.]
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial information referred to in b(i) is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the registration statement.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—

a.

- (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4a(i), included in the registration statement, for them to be in conformity with generally accepted accounting principles.¹
- (ii) The unaudited condensed consolidated financial statements described in 4a(i) do not comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

b.

- (i) At May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the registration statement, or
- (ii) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

6. As mentioned in 4b, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6, unaudited condensed consolidated balance sheet included in the registration statement, or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the registration statement discloses have occurred or may occur.

¹ Section 930, *Interim Financial Information*, does not require the auditor to modify the report on a review of interim financial information for a lack of consistency in the application of accounting policies provided that the interim financial information appropriately discloses such matters.

7. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to in whole or in part in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or in any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example A-2—Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained

.A93-4 Example A-2 is applicable when a comfort letter is issued in a non-1933 Act offering. Example A-2 assumes the following:

- The offerer is not an SEC registrant.
- The requesting party has given the auditor a representation letter as required by paragraph .11 and illustrated in paragraph .A92.
- The securities offering includes audited consolidated balance sheets as of December 31, 20X5 and 20X4, and audited consolidated statements of income, stockholders' equity, and cash flows for each year in the three-year period ended December 31, 20X5. Note that the example assumes all the net income is attributable to the company. If that were not the case, the references to net income would be modified, or additional references would be included as appropriate.
- The securities offering also includes an unaudited condensed consolidated balance sheet as of March 31, 20X6, and unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, reviewed in accordance with generally accepted auditing standards applicable to reviews of interim financial information; however, the review report is not included in the securities offering. If the review report is included in the securities offering, the auditor may state that the auditor has issued a review report on the interim financial information. in the introductory paragraph of the comfort letter, as follows:

Also, we have reviewed the unaudited condensed consolidated financial statements as of March 31, 20X6, and for the three-month periods ended March 31, 20X6 and 20X5, as indicated in our report dated May 15, 20X6, which is included (incorporated by reference) in the securities offering.

- The auditor did not perform an audit of the effectiveness of internal control over financial reporting in any period.
- There has not been a change in the application of a requirement of generally accepted accounting principles during the interim period. If there has been such a change, a reference to that change would be included in paragraph 4.

The cut-off date is June 23, 20X6, and the letter is dated June 28, 20X6.

Each of the comments in the letter is in response to a request from the requesting party. For purposes of example A-2, the income statement items of the current interim period are to be compared with those of the corresponding period of the preceding year.

June 28, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included [or *incorporated by reference*] in the offering memorandum for \$30,000,000 of Senior Debt due May 30, 20Z6. Our report with respect thereto is included in the offering memorandum. This offering memorandum, dated June 28, 20X6, is herein referred to as the Offering Memorandum.

This letter is being furnished in reliance upon your representation to us that—

- a. You are knowledgeable with respect to the due diligence review process that would be performed if this placement of securities were being registered pursuant to the Securities Act of 1933 (the Act).
- b. In connection with the offering of Senior Debt, the review process you have performed is substantially consistent with the due diligence review process that you would have performed if this placement of securities were being registered pursuant to the Act.

In connection with the Offering Memorandum—

1. We are independent certified public accountants with respect to the company under the "Independence Rule" of the AICPA's Code of Professional Conduct and its interpretations.
2. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although, we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any interim period within that year. Therefore, we are unable to and do not express any opinion on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, of cash flows, and of changes in stockholders' equity for the three-month periods ended March 31, 20X5 and 20X6, included in the Offering Memorandum, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.
3. For purposes of this letter, we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [include other appropriate committees, if any] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, officials of the company having advised us that the minutes of all

such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on [dates]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):

- a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
 - (i) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the Offering Memorandum.
- b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—
 - (i) Read the unaudited consolidated financial information of the company and subsidiaries for April and May of both 20X5 and 20X6 furnished us by the company, officials of the company having advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, were available. *[If applicable: The financial information for April and May of both 20X5 and 20X6 is incomplete in that it omits the statement of cash flows and other disclosures.]*
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited consolidated financial information referred to in b(i) is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the Offering Memorandum.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

4. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—

a.

- (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 3a(i), included in the Offering Memorandum, for them to be in conformity with generally accepted accounting principles.²

² Section 930 does not require the auditor to modify the report on a review of interim financial information for a lack of consistency in the application of accounting policies provided that the interim financial information appropriately discloses such matters.

b.

- (i) At May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum, or
 - (ii) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared to the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income, except in all instances for changes, increases, or decreases that the Offering Memorandum discloses have occurred or may occur.
- 5. As mentioned in 3*b*, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 20X6 are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in 3. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum, or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. On the basis of these inquiries and our reading of the minutes as described in 3, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the Offering Memorandum discloses have occurred or may occur.
- 6. This letter is solely for the information of the addressees and to assist the requesting party in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the Offering Memorandum, and it is not to be used, circulated, quoted, or otherwise referred to for any purpose, including but not limited to the purchase or sale of securities, nor is it to be filed with or referred to in whole or in part in the Offering Memorandum or any other document, except that reference may be made to it in the Purchase Contract or in any list of closing documents pertaining to the offering of the securities covered by the Offering Memorandum.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

Example B—Letter When a Short-Form Registration Statement Is Filed Incorporating Previously Filed Form 8-K by Reference

A93-5 Example B is an example of modifications to the letter that the auditor of a nonissuer may provide when a registrant has acquired the nonissuer, and the registrant uses a short-form registration statement (for example, Form S-3), which incorporates a previously filed Form 8-K that includes the nonpublic company's financial statements. The auditor was independent of the nonissuer but is not independent with respect to the registrant.

June 28, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included in The Issuer Company's (the registrant) current report on Form 8-K dated May 15, 20X6, and incorporated by reference in the registration statement (no. 33-00000) on Form S-3 filed by the registrant under the Securities Act of 1933 (the Act); our report with respect thereto is also incorporated by reference in that registration statement. The registration statement, as amended on June 28, 20X6, is herein referred to as the registration statement.

In connection with the registration statement—

1. As of [insert date of the auditor's most recent report on the financial statements of the entity] and during the period covered by the financial statements on which we reported, we were independent certified public accountants with respect to the company under the "Independence Rule" of the AICPA's Code of Professional Conduct and its interpretations.
2. In our opinion, the consolidated financial statements audited by us and incorporated by reference in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.
3. We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the consolidated financial statements for any interim period within that year. Therefore, we are unable to, and do not express any opinion on, the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registrant's current report on Form 8-K dated May 15, 20X6, incorporated by reference in the registration statement, or on the financial position, results of

operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.

4. For purposes of this letter, we have read the 20X6 minutes of the meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein, and having discussed with us the unapproved minutes of meetings held on [*dates*]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):

With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—

- (i) Performed a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the registrant's current report on Form 8-K dated May 15, 20X6, incorporated by reference in the registration statement.
- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in (i) comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations about the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—
 - (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4(i), incorporated by reference in the registration statement, for them to be in conformity with generally accepted accounting principles.
 - (ii) The unaudited condensed consolidated financial statements described in 4(i) do not comply as to form in all material respects with the applicable accounting requirements of the Securities Exchange Act of 1934 and the related rules and regulations adopted by the SEC.
6. This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement,

and for use of the auditors of the registrant in furnishing their letter to the underwriters, and it is not to be used, circulated, quoted, or otherwise referred to within the underwriting group for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to, in whole or in part, in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or any list of closing documents pertaining to the offering of the securities covered by the registration statement.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

Example C—Letter Reaffirming Comments as of a Later Date

.A93-6 If more than one comfort letter is requested, the subsequent letter may, in appropriate situations, refer to information appearing in the earlier letter without repeating such information (see paragraph .25 of this section and paragraph .A93-1 of this exhibit). Example C reaffirms and updates the information in example A-1. In a non-1933 Act offering, the last paragraph in example C would be replaced with the last paragraph in example A-2.

July 25, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We refer to our letter of June 28, 20X6, relating to the registration statement (no. 33-00000) of The Nonissuer Company, Inc. (the company). We reaffirm as of the date hereof (and as though made on the date hereof) all statements made in that letter except that, for the purposes of this letter

- a. The registration statement to which this letter relates is as amended on July 13, 20X6 [effective date].
- b. The reading of minutes described in paragraph 4 of that letter has been carried out through July 20, 20X6 [the new cut-off date].
- c. The procedures and inquiries covered in paragraph 4 of that letter were carried out to July 20, 20X6 [the new cut-off date] (our work did not extend to the period from July 21, 20X6 to July 25, 20X6 [date of letter], inclusive).
- d. The period covered in paragraph 4b of that letter is changed to the period from April 1, 20X6 to June 30, 20X6, officials of the company having advised us that no financial statements as of any date or for any period subsequent to June 30, 20X6, were available.
- e. The references to May 31, 20X6 in paragraph 5b of that letter are changed to June 30, 20X6.
- f. The references to May 31, 20X6 and June 23, 20X6 in paragraph 6 of that letter are changed to June 30, 20X6 and July 20, 20X6, respectively.

This letter is solely for the information of the addressees and to assist the underwriters in conducting and documenting their investigation of the affairs of the company in connection with the offering of the securities covered by the registration statement, and it is not to be used, circulated, quoted, or otherwise referred to within or without the underwriting group for any other purpose, including but not limited to the registration,

purchase, or sale of securities, nor is it to be filed with or referred to, in whole or in part, in the registration statement or any other document, except that reference may be made to it in the underwriting agreement or any list of closing documents pertaining to the offering of the securities covered by the registration statement.

Example D—Comments on Pro Forma Financial Information

Example D-1—Negative Assurance on Pro Forma Financial Information as to Compliance With The Applicable Accounting Requirements of Rule 11-02 of Regulation S-X

.A93-7 Example D-1 is applicable when the auditor is asked to provide negative assurance on (a) whether the pro forma financial information included in a securities offering complies as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X, and (b) the application of pro forma adjustments to historical amounts in the compilation of the pro forma financial information (see paragraphs .52–.53). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A-1 or between paragraphs 5 and 6 in example A-2. The example assumes that the auditor has not previously reported on the pro forma financial information. If the auditor did previously report on the pro forma financial information, the auditor may refer in the introductory paragraph of the comfort letter to the fact that the auditor has issued a report, and the report may be attached to the comfort letter (see paragraphs .A31–.A32). In that circumstance, the procedures in 7b(i) and 7c ordinarily would not be performed, and therefore the auditor would not separately comment on the application of pro forma adjustments to historical financial information because that assurance is encompassed in the auditor's report on pro forma financial information. The auditor may, however, agree to comment on compliance as to form with the applicable accounting requirements of Rule 11-02 of Regulation S-X.

7. At your request, we have—

- a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 20X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 20X5, and the three-month period ended March 31, 20X6, included in the *[registration statement or Offering Memorandum, as applicable]*.
- b. Inquired of certain officials of the company who have responsibility for financial and accounting matters about
 - (i) the basis for their determination of the pro forma adjustments and
 - (ii) whether the unaudited pro forma condensed consolidated financial statements referred to in 7a comply as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X.
- c. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are substantially less in scope than an examination or review, the objective of which is the expression of an opinion or conclusion on management's assumptions, the pro

forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion or conclusion. The foregoing procedures would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representation about the sufficiency of such procedures for your purposes.

8. Nothing came to our attention as a result of the procedures specified in paragraph 7, however, that caused us to believe that the unaudited pro forma condensed consolidated financial statements referred to in 7a included in the [registration statement or Offering Memorandum, *as applicable*] do not comply as to form in all material respects with the applicable accounting requirements of Rule 11-02 of Regulation S-X and that the pro forma adjustments have not been properly applied to the historical amounts in the compilation of the unaudited pro forma condensed consolidated financial statements. Had we performed additional procedures or had we made an examination or review of the pro forma condensed consolidated financial statements, other matters might have come to our attention that would have been reported to you.

Example D-2—Negative Assurance on Pro Forma Financial Information as to Compliance With Pro Forma Bases as Described in the Pro Forma Financial Information

.A93-8 Example D-2 is applicable when the auditor is asked to provide negative assurance on (a) whether the pro forma financial information included in a securities offering complies as to form in all material respects with the pro forma bases described in the pro forma financial statements, and (b) the application of pro forma adjustments to historical amounts in the compilation of the pro forma financial information (see paragraphs .52–.53). The material in this example is intended to be inserted between paragraphs 5 and 6 in example A-2.

The example assumes that the auditor has not previously reported on the pro forma financial information. If the auditor did previously report on the pro forma financial information, the auditor may refer in the introductory paragraph of the comfort letter to the fact that the auditor has issued a report, and the report may be attached to the comfort letter (see paragraphs .A31–.A32). In that circumstance, the procedures in 6b(i) and 6c ordinarily would not be performed, and therefore the auditor would not separately comment on the application of pro forma adjustments to historical financial information because that assurance is encompassed in the auditor's report on pro forma financial information. The auditor may, however, agree to comment on compliance as to form with the pro forma bases described in the pro forma financial statements.

6. At your request, we have—
 - a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 20X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 20X5, and the three-month period ended March 31, 20X6, included in the Offering Memorandum.
 - b. Inquired of certain officials of the company who have responsibility for financial and accounting matters about
 - (i) the basis for their determination of the pro forma adjustments, and

- (ii) whether the unaudited pro forma condensed consolidated financial statements referred to in 6a comply as to form in all material respects with the pro forma bases described in the pro forma condensed consolidated financial statements.
- c. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are substantially less in scope than an examination or review, the objective of which is the expression of an opinion or conclusion on management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion or conclusion. The foregoing procedures would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representation about the sufficiency of such procedures for your purposes.

7. Nothing came to our attention as a result of the procedures specified in paragraph 6, however, that caused us to believe that the unaudited pro forma condensed consolidated financial statements referred to in 6a included in the Offering Memorandum do not comply in all material respects with the pro forma bases described in the pro forma condensed consolidated financial statements and that the pro forma adjustments have not been properly applied to the historical amounts in the compilation of the unaudited pro forma condensed consolidated financial statements. Had we performed additional procedures or had we made an examination or a review of the pro forma condensed consolidated financial statements, other matters might have come to our attention that would have been reported to you.

Example E—Comments on a Financial Forecast

.A93-9 Example E is applicable when an auditor is asked to comment on a financial forecast (see paragraph .54). The material in this example is intended to be inserted between paragraphs 6 and 7 in example A-1 or between paragraphs 5 and 6 in example A-2. The example assumes that the auditor has previously reported on the compilation of the financial forecast and that the report is attached to the letter (see paragraphs .A31–.A32).

7. At your request, we performed the following procedure with respect to the forecasted consolidated balance sheet and consolidated statements of income and cash flows as of December 31, 20X6, and for the year then ending. With respect to forecasted rental income, we compared the occupancy statistics about expected demand for rental of the housing units to statistics for existing comparable properties and found them to be the same.
8. Because the procedure described above does not constitute an examination of prospective financial statements in accordance with standards promulgated by the American Institute of Certified Public Accountants, we do not express an opinion on whether the prospective financial statements are presented in conformity with AICPA presentation guidelines or on whether the underlying assumptions provide a reasonable basis for the presentation.

Had we performed additional procedures or had we made an examination of the forecast in accordance with standards promulgated by the AICPA, matters might have come to our attention that would have been reported to you. Furthermore, there will usually be differences between the forecasted and actual results because events and circumstances frequently do not occur as expected, and those differences may be material.

Example F—Comments on Tables, Statistics, and Other Financial Information—Complete Description of Procedures and Findings

.A93-10 Example F is applicable when the auditor is asked to comment on tables, statistics, or other compilations of information appearing in a securities offering (paragraphs .65–.71). Each of the comments is in response to a specific request. The paragraphs in example F are intended to follow paragraph 6 in example A-1 or paragraph 5 in example A-2. In a non-1933 Act securities offering, paragraph 9c(iii) generally would not be included.

In some cases, the auditor may choose to combine in one paragraph the substance of paragraphs 7 and 9 shown as follows. This may be done by expanding the identification of items in paragraph 9 to provide the identification information included in paragraph 7. In such cases, the introductory sentences in paragraphs 7 and 9 and the text of paragraph 8 might be combined as follows: "For purposes of this letter, we have also read the following information and have performed the additional procedures stated below with respect to such information. Our audit of the consolidated financial statements. . ."

7. For purposes of this letter, we have also read the following, set forth in the [registration statement or Offering Memorandum, as applicable] securities offering on the indicated pages.

Item	Page	Description
a	4	"Capitalization." The amounts under the captions "Amount Outstanding as of May 31, 20X6" and "As Adjusted." The related notes, except the following in Note 2: "See Transactions With Interested Persons." From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See "Use of Proceeds."
b	13	"History and Business—Sales and Marketing." The table following the first paragraph.
c	33	"Selected Financial Data."

8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, or any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions such as those enumerated above, and, accordingly, we express no opinion thereon.
9. However, for purposes of this letter, we have performed the following additional procedures, which were applied as indicated with respect to the items enumerated above.

Item in 7	Procedures and Findings
a	We compared the amounts and numbers of shares listed under the caption, "Amount Outstanding as of May 31, 20X6," with the balances in the appropriate accounts in the company's general ledger and found them to be in agreement. We compared the amounts and numbers of shares listed under the caption, "Amount Outstanding as of May 31, 20X6," adjusted for the issuance of the debentures to be offered by means of the securities offering and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption, "As Adjusted," and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of the "Use of Proceeds" or whether such use will actually take place.)
b	We compared the amounts of military sales, commercial sales, and total sales shown in the securities offering with the balances in the appropriate accounts in the company's accounting records for the respective fiscal years and for the unaudited interim periods and found them to be in agreement. We proved the arithmetic accuracy of the percentages of such amounts of military sales and commercial sales to total sales for the respective fiscal years and for the unaudited interim periods. We compared such computed percentages with the corresponding percentages appearing in the [registration statement or Offering Memorandum, as applicable] and found them to be in agreement.
c	i. We compared the amounts of net sales and income from continuing operations for the years ended December 31, 20X5, 20X4, and 20X3, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts for the years ended December 31, 20X2 and 20X1, with the respective amounts in the consolidated financial statements for 20X2 and 20X1 and found them to be in agreement. ii. We compared the amounts of total assets, long-term obligations, and redeemable preferred stock at December 31, 20X5 and 20X4, with the respective amounts in the consolidated financial statements on pages 27 and 28 and the amounts at December 31, 20X3, 20X2, and 20X1, with the corresponding amounts in the consolidated financial statements for 20X3, 20X2, and 20X1 and found them to be in agreement. iii. We compared the information included under the heading "Selected Financial Data" with the disclosure requirements of Item 301 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of Item 301 of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of Item 301 of Regulation S-K.

10. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the [*registration statement or Offering Memorandum, as applicable*] and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

Example G—Comments on Tables, Statistics, and Other Financial Information—Summarized Description of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information

.A93-11 Example G illustrates, in paragraph 8a, a method of summarizing the descriptions of procedures and findings regarding tables, statistics, and other financial information in order to avoid repetition in the comfort letter. Each of the comments is in response to a specific request. The paragraphs in example G are intended to follow paragraph 6 in example A-1 or paragraph 5 in example A-2. In a non-1933 Act securities offering, paragraph 9a(ii) generally would not be included.

Other methods of summarizing the descriptions may also be appropriately used. For example, the letter may present a matrix listing the financial information and common procedures employed and indicating the procedures applied to specific items.

7. For purposes of this letter, we have also read the following, set forth in the [*registration statement or Offering Memorandum, as applicable*] on the indicated pages.

<i>Item</i>	<i>Page</i>	<i>Description</i>
<i>a</i>	4	"Capitalization." The amounts under the captions "Amount Outstanding as of May 31, 20X6" and "As Adjusted." The related notes, except the following in Note 2: "See Transactions With Interested Persons." From the proceeds of this offering the company intends to prepay \$900,000 on these notes, pro rata. See "Use of Proceeds."
<i>b</i>	13	"History and Business—Sales and Marketing." The table following the first paragraph.
<i>c</i>	33	"Selected Financial Data."

8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, or any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions, such as those enumerated above, and, accordingly, we express no opinion thereon.

9. However, for purposes of this letter and with respect to the items enumerated in 7 above—
 - a.
 - i. Except for item 7a, we have (i) compared the dollar amounts either with the amounts in the audited consolidated financial statements described in the introductory paragraph of this letter or, for prior years, included in the company's accounting records, or with amounts in the unaudited consolidated financial statements described in paragraph 3 to the extent such amounts are included in or can be derived from such statements and found them to be in agreement; (ii) compared the amounts of military sales, commercial sales, and total sales with amounts in the company's accounting records and found them to be in agreement; (iii) compared other dollar amounts with amounts shown in analyses prepared by the company and found them to be in agreement; and (iv) proved the arithmetic accuracy of the percentages based on the data in the above-mentioned financial statements, accounting records, and analyses.
 - ii. We compared the information in item 6c with the disclosure requirements of Item 301 of Regulation S-K. We also inquired of certain officials of the company who have responsibility for financial and accounting matters whether this information conforms in all material respects with the disclosure requirements of Item 301 of Regulation S-K. Nothing came to our attention as a result of the foregoing procedures that caused us to believe that this information does not conform in all material respects with the disclosure requirements of Item 301 of Regulation S-K.
 - b. With respect to item 7a, we compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of May 31, 20X6" with the balances in the appropriate accounts in the company's general ledger at May 31, 20X6, and found them to be in agreement. We compared the amounts and numbers of shares listed under the caption "Amount Outstanding as of May 31, 20X6," adjusted for the issuance of the debentures to be offered by means of the securities offering and for the proposed use of a portion of the proceeds thereof to prepay portions of certain notes, as described under "Use of Proceeds," with the amounts and numbers of shares shown under the caption, "As Adjusted" and found such amounts and numbers of shares to be in agreement. (However, we make no comments regarding the reasonableness of "Use of Proceeds" or whether such use will actually take place.)
10. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily

reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the [registration statement or Offering Memorandum, as applicable] and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

Example H—Comments on Tables, Statistics, and Other Financial Information: Descriptions of Procedures and Findings Regarding Tables, Statistics, and Other Financial Information—Attached Securities Offering (or Selected Pages) Identifies Items to Which Procedures Were Applied Through the Use of Designated Symbols

.A93-12 This example illustrates an alternate format, which could facilitate reporting when the auditor is requested to perform procedures on numerous statistics included in a securities offering. Each of the comments is in response to a specific request. The paragraph in example H is intended to follow paragraph 6 in example A-1 or paragraph 5 in example A-2.

7. For purposes of this letter, we have also read the items identified by you on the attached copy of the [registration statement or Offering Memorandum, as applicable] and have performed the following procedures, which were applied as indicated with respect to the symbols explained below:
 - ✓ Compared the amount with The Nonissuer Company, Inc.'s financial statements for the period indicated included in the securities offering and found them to be in agreement.
8. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, nor any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions, such as those enumerated above, and, accordingly, we express no opinion thereon.
9. It should be understood that we make no representations regarding questions of legal interpretation or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraph; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above. Further, we have addressed ourselves solely to the foregoing data as set forth in the [registration statement or Offering Memorandum, as applicable] and make no representations regarding the adequacy of disclosure or regarding whether any material facts have been omitted.

[The following is an extract from a securities offering that illustrates how an auditor can document procedures performed on numerous statistics included in the securities offering.]

Summary Financial Information of The Nonissuer Company, Inc.
(In thousands)

Income statement data	The Nonissuer Company, Inc. Year Ended December 31,		
	20X3	20X4	20X5
Revenue from home sales	\$104,110✓	\$115,837✓	\$131,032✓
Gross profit from sales	23,774✓	17,099✓	22,407✓
Income from home building net of tax	7,029✓	1,000✓	3,425✓

Example I—Alternate Wording When Auditor’s Report on Audited Financial Statements Contains an Emphasis-of-Matter Paragraph

.A93-13 Example I is applicable when the auditor's report on the audited financial statements included in the securities offering contains an emphasis-of-matter paragraph regarding a matter that would also affect the unaudited condensed consolidated interim financial information included in the securities offering. The introductory paragraph would be revised as follows:

Our report with respect thereto (which contains an emphasis-of-matter paragraph that describes a lawsuit to which the company is a defendant, discussed in note 8 to the consolidated financial statements), is also included in the [registration statement or Offering Memorandum, as applicable].

The matter described in the emphasis-of-matter paragraph would also be evaluated to determine whether it also requires mention in the comments on the unaudited condensed consolidated interim financial information (paragraph 5*b* of example A-1 and paragraph 4*b* of example A-2). If it is concluded that mention of such a matter in the comments on unaudited condensed consolidated financial information is appropriate, a sentence would be added at the end of paragraph 5*b* in example A-1 and paragraph 4*b* of example A-2 as follows:

Reference should be made to the introductory paragraph of this letter, which states that our audit report covering the consolidated financial statements as of and for the year ended December 31, 20X5, includes an emphasis-of-matter paragraph that describes a lawsuit to which the company is a defendant, discussed in note 8 to the consolidated financial statements.

Example J—Alternate Wording When Component Auditors Are Involved

.A93-14 Example J applies when one or more component auditors are involved in the audit of group financial statements, and the group engagement team has obtained a copy of the comfort letter of the component auditors (see paragraph .21). Example J consists of an addition to paragraph 4, a substitution for the applicable part of paragraph 5, and an addition to paragraph 6 of example A-1 and corresponding changes to paragraphs 3, 4, and 5 of example A-2, respectively.

- [4]c. We have read the letter dated _____ of [the other auditors] with regard to [the related company].
5. Nothing came to our attention as a result of the foregoing procedures (which, so far as [the related company] is concerned,

consisted solely of reading the letter referred to in 4c), however, that caused us to believe that . . .

6. ...On the basis of these inquiries and our reading of the minutes and the letter dated _____ of [*the other auditors*] with regard to [*the related company*], as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the [*registration statement or Offering Memorandum, as applicable*] discloses have occurred or may occur.

Example K—Alternate Wording When the SEC Has Agreed to a Departure From Its Accounting Requirements

.A93-15 Example K is applicable when (a) there is a departure from the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC, and (b) representatives of the SEC have agreed to the departure. Paragraph 2 of example A-1 would be revised to read as follows:

2. In our opinion [*include the phrase except as disclosed in the registration statement if applicable*], the consolidated financial statements and financial statement schedules audited by us and included (incorporated by reference) in the registration statement comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC; however, as agreed to by representatives of the SEC, statements of assets acquired and liabilities assumed and statements of revenues and direct operating expenses of The Nonissuer Company, Inc. have been presented in lieu of separate financial statements required by Rule 3-05 of Regulation S-X.

Example L—Alternate Wording When Recent Earnings Data Are Presented in Capsule Form

.A93-16 Example L is applicable when (a) the statement of income in the securities offering is supplemented by later information regarding sales and earnings (capsule financial information), (b) the auditor is asked to comment on that information (paragraphs .49–.51), and (c) the auditor has conducted a review in accordance with generally accepted auditing standards applicable to reviews of interim financial information of the financial statements from which the capsule financial information is derived. The same facts exist as in example A-1, or for a non-1933 Act filing as in example A-2, except for the following:

- Sales and net income (no extraordinary items) for the six-month periods ended June 30, 20X6 and 20X5 (both unaudited), are included in capsule form more limited than that specified by Financial Accounting Standards Board *Accounting Standards Codification* 270, *Interim Reporting*.
- No financial statements later than those for June 20X6 are available.
- The letter is dated July 25, 20X6, and the cut-off date is July 20, 20X6.

Paragraphs 4, 5, and 6 of example A-1, or paragraphs 3, 4 and 5 of example A-2, would be revised to read as follows; in a non-1933 Act securities offering, paragraphs 4a(ii) and 5a(ii) generally would not be included:

4. For purposes of this letter, we have read the 20X6 minutes of the meetings of the stockholders, the board of directors, and *[include other appropriate committees, if any]* of the company and its subsidiaries as set forth in the minute books at July 20, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and discussed with us the unapproved minutes of meetings held on *[dates]*; we have carried out other procedures to July 20, 20X6, as follows (our work did not extend to the period from July 21, 20X6 to July 25, 20X6, inclusive):
 - a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
 - (i) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the *[registration statement or Offering Memorandum, as applicable]*.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in *a(i)* comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.
 - b. With respect to the six-month periods ended June 30, 20X6 and 20X5, we have—
 - (i) Read the unaudited amounts for sales and net income for the six-month periods ended June 30, 20X6 and 20X5, as set forth in paragraph *[identify location]*.
 - (ii) Performed the procedures specified for a review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information, on the unaudited condensed consolidated balance sheet as of June 30, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the six-month periods ended June 30, 20X6 and 20X5, from which the unaudited amounts referred to in *b(i)* are derived.
 - (iii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited amounts referred to in *b(i)* are stated on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.

The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Also, they would not necessarily reveal matters of significance with respect to the comments in the following paragraph. Accordingly, we make no representations regarding the sufficiency of the foregoing procedures for your purposes.

5. Nothing came to our attention as a result of the foregoing procedures, however, that caused us to believe that—

a.

- (i) Any material modifications should be made to the unaudited condensed consolidated financial statements described in 4a(i), included in the [*registration statement or Offering Memorandum, as applicable*], for them to be in conformity with generally accepted accounting principles.
- (ii) The unaudited condensed consolidated financial statements described in 4a(i) do not comply as to form in all material respects with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

b.

- (i) The unaudited amounts for sales and net income for the six-month periods ended June 30, 20X6 and 20X5, referred to in 4b(i) do not agree with the amounts set forth in the unaudited condensed consolidated financial statements for those same periods.
- (ii) The unaudited amounts referred to in 4b(i) were not determined on a basis substantially consistent with that of the corresponding amounts in the audited consolidated statements of income.

c. At June 30, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [*registration statement or Offering Memorandum, as applicable*], except in all instances for changes, increases, or decreases that the [*registration statement or Offering Memorandum, as applicable*] discloses have occurred or may occur.

6. Company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to June 30, 20X6 are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after June 30, 20X6 have, of necessity, been even more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at July 20, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance

sheet included in the [registration statement or Offering Memorandum, as applicable]; or (b) for the period from July 1, 20X6 to July 20, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the [registration statement or Offering Memorandum, as applicable] discloses have occurred or may occur.

Example M—Alternate Wording When Auditors Are Aware of a Decrease in a Specified Financial Statement Item

.A93-17 Example M covers a situation in which auditors are aware of a decrease in a financial statement item on which they are requested to comment (see paragraphs .58–.64). Example M may be modified when auditors are aware of a change or increase. The same facts exist as in example A-1 or example A-2, as applicable, except for the decrease covered in the following change in paragraph 5b in example A-1 or paragraph 4b in example A-2:

- b.
- (i) At May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or any decrease in consolidated stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [registration statement or Offering Memorandum, as applicable], or
 - (ii) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or income from continuing operations or of net income, except in all instances for changes, increases, or decreases that the [registration statement or Offering Memorandum, as applicable] discloses have occurred or may occur and except that the unaudited consolidated balance sheet as of May 31, 20X6, which we were furnished by the company, showed a decrease from March 31, 20X6, in consolidated net current assets as follows (in thousands of dollars):

	Current Assets	Current Liabilities	Net Current Assets
March 31, 20X6	\$4,251	\$1,356	\$2,895
May 31, 20X6	3,986	1,732	2,254

6. As mentioned in 4b, company officials have advised us that no consolidated financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even

more limited than those with respect to the periods referred to in 4. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [registration statement or Offering Memorandum, as applicable]; or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. On the basis of these inquiries and our reading of the minutes as described in 4, nothing came to our attention that caused us to believe that there was any such change, increase, or decrease, except in all instances for changes, increases, or decreases that the [registration statement or Offering Memorandum, as applicable] discloses have occurred or may occur and except as described in the following sentence: We have been informed by officials of the company that there continues to be a decrease in net current assets that is estimated to be approximately the same amount as set forth in 5b [or whatever other disclosure fits the circumstances].

Example N—Alternate Wording of the Letter for Companies That Are Permitted to Present Interim Earnings Data for a 12-Month Period

.A93-18 Certain types of companies are permitted to include earnings data for a 12-month period to the date of the latest balance sheet furnished in lieu of earnings data for both the interim period between the end of the latest fiscal year and the date of the latest balance sheet and the corresponding period of the preceding fiscal year. The following would be substituted for the applicable part of paragraph 3 of example A-1:

3. ...was to enable us to express our opinion on the financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any period included in part within that year. Therefore, we are unable to, and do not express any opinion on, the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the related unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the 12 months then ended included in the registration statement.

Example O—Alternate Wording When the Procedures That the Requesting Party Has Requested the Auditor to Perform on Interim Financial Information Are Less Than a Review in Accordance With Generally Accepted Auditing Standards Applicable to Reviews of Interim Financial Information

.A93-19 The example assumes that the requesting party has asked the auditor to perform specified procedures on the interim financial information and report

thereon in the comfort letter. The letter is dated June 28, 20X6; procedures were performed through June 23, 20X6, the cut-off date. Because a review in accordance with generally accepted auditing standards applicable to reviews of interim financial information was not performed on the interim financial information as of March 31, 20X6, and for the quarter then ended, the auditor is limited to reporting procedures performed and findings obtained on the interim financial information.

The following would be substituted for paragraphs 4–6 of example A-1 or paragraphs 3–5 of example A-2. In a non-1933 Act securities offering, the two statements in paragraph 4(a)(ii) with respect to compliance as to form, in all material respects, with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC, would not be included. Example O assumes there has not been a change in the application of a requirement of generally accepted accounting principles during the interim period. If there has been such a change, a reference to that change would be included in subparagraph *a(ii)* that follows:

4. For purposes of this letter, we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and [*include other appropriate committees, if any*] of the company and its subsidiaries as set forth in the minute books at June 23, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on [*dates*]; we have carried out other procedures to June 23, 20X6, as follows (our work did not extend to the period from June 24, 20X6 to June 28, 20X6, inclusive):
 - a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
 - (i) Read the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the [*registration statement or Offering Memorandum, as applicable*], and agreed the amounts included therein with the company's accounting records as of March 31, 20X6, and for the three-month periods ended March 31, 20X6 and 20X5.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in *a(i)*: (1) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements included in the [*registration statement or Offering Memorandum, as applicable*], and (2) comply as to form, in all material respects, with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC. Those officials stated that the unaudited condensed consolidated

financial statements (1) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements, and (2) comply as to form, in all material respects, with the applicable accounting requirements of the Act and the related rules and regulations adopted by the SEC.

b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—

- (i) Read the unaudited consolidated financial information of the company and subsidiaries for April and May of both 20X5 and 20X6 furnished us by the company, and agreed the amounts contained therein to the company's accounting records. Officials of the company have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, were available. *[If applicable: The financial information for April and May of both 20X5 and 20X6 is incomplete in that it omits the statements of cash flows and other disclosures.]*
- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether (1) the unaudited consolidated financial information referred to in b(i) is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the *[registration statement or Offering Memorandum, as applicable]*; (2) at May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or any decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the *[registration statement or Offering Memorandum, as applicable]*; and (3) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

Those officials stated that (1) the unaudited consolidated financial information referred to in 4b(i) is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the *[registration statement or Offering Memorandum, as applicable]*; (2) at May 31, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decrease in net current assets or stockholders' equity of the consolidated companies as compared

with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [registration statement or Offering Memorandum, as applicable]; and (3) there were no decreases for the period from April 1, 20X6 to May 31, 20X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

- c. As mentioned in 4b(i), company officials have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in 4a and 4b. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (a) at June 23, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the [registration statement or Offering Memorandum, as applicable], or (b) for the period from April 1, 20X6 to June 23, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income. Those officials stated that (1) at June 23, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet, and (2) for the period from April 1, 20X6 to June 23, 20X6, there were no decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

The foregoing procedures do not constitute an audit or a review conducted in accordance with generally accepted auditing standards. We make no representations regarding the sufficiency of the foregoing procedures for your purposes. Had we performed additional procedures or had we conducted an audit or a review of the company's March 31, April 30, or May 31, 20X6 and 20X5 condensed consolidated financial statements, other matters might have come to our attention that would have been reported to you.

5. At your request, we also—
- a. Read the unaudited pro forma condensed consolidated balance sheet as of March 31, 20X6, and the unaudited pro forma condensed consolidated statements of income for the year ended December 31, 20X5, and the three-month period ended March 31, 20X6, included in the [registration statement or Offering Memorandum, as applicable].

- b. Inquired of certain officials of the company and of XYZ Company (the company being acquired) who have responsibility for financial and accounting matters as to whether all significant assumptions regarding the business combination had been reflected in the pro forma adjustments and whether the unaudited pro forma condensed consolidated financial statements referred to in (a) comply as to form in all material respects with the *[applicable accounting requirements of Rule 11-02 of Regulation S-X or pro forma bases described in the pro forma condensed consolidated financial statements, as applicable]*.

Those officials referred to above stated, in response to our inquiries, that all significant assumptions regarding the business combination had been reflected in the pro forma adjustments and that the unaudited pro forma condensed consolidated financial statements referred to in (a) comply as to form in all material respects with the *[applicable accounting requirements of Rule 11-02 of Regulation S-X or pro forma bases described in the pro forma condensed consolidated financial statements, as applicable]*.

- c. Compared the historical financial information for the company included on page 20 in the *[registration statement or Offering Memorandum, as applicable]* with historical financial information for the company on page 12 and found them to be in agreement.

We also compared the financial information included on page 20 of the *[registration statement or Offering Memorandum, as applicable]* with the historical information for XYZ Company on page 13 and found them to be in agreement.

- d. Proved the arithmetic accuracy of the application of the pro forma adjustments to the historical amounts in the unaudited pro forma condensed consolidated financial statements.

The foregoing procedures are less in scope than an examination or review, the objective of which is the expression of an opinion or conclusion on management's assumptions, the pro forma adjustments, and the application of those adjustments to historical financial information. Accordingly, we do not express such an opinion or conclusion. We make no representation about the sufficiency of the foregoing procedures for your purposes. Had we performed additional procedures or had we made an examination or review of the pro forma financial information, other matters might have come to our attention that would have been reported to you.

Example P—Intentionally Omitted (See example A-2)³**Example Q—Letter to a Requesting Party That Has Not Provided the Legal Opinion or the Representation Letter Required by Paragraph .11**

.A93-20 This example illustrates the letter to be provided in accordance with paragraph .11 in which the auditor does not provide negative assurance. This example assumes that these procedures are being performed at the request of the placement agent on information included in an offering memorandum in connection with a private placement of unsecured notes. The letter is dated June 30, 20X6; procedures were performed through June 25, 20X6, the cut-off date. The statements in paragraphs 4–8 of the example are illustrative of the statements required to be included by paragraph .12.

This example may also be used in connection with a filing under the 1933 Act when a party other than a named underwriter (for example, a selling shareholder) has not provided the auditor with the representation letter described in paragraph .11. In such a situation, this example may be modified to include the auditor's comments on independence and compliance as to form of the audited financial statements and financial statements schedules with the applicable accounting requirements of the 1933 Act and the related rules and regulations adopted by the SEC. Paragraph 1a(ii) may include an inquiry, and the response of company officials, on compliance as to form of the unaudited condensed interim financial information.

June 30, 20X6

[Addressee]

Dear Ladies and Gentlemen:

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, and the related notes to the consolidated financial statements, all included in the offering memorandum for \$30,000,000 of notes due June 30, 20Z6. Our report with respect thereto is included in the offering memorandum. The offering memorandum dated June 30, 20X6, is herein referred to as the Offering Memorandum.

We are independent certified public accountants with respect to the company under the "Independence Rule" of the AICPA's Code of Professional Conduct and its interpretations.

We have not audited any financial statements of the company as of any date or for any period subsequent to December 31, 20X5; although, we have conducted an audit for the year ended December 31, 20X5, the purpose (and, therefore, the scope) of the audit was to enable us to express our opinion on the consolidated financial statements as of December 31, 20X5, and for the year then ended, but not on the financial statements for any interim

³ Example P, "A Typical Comfort Letter in a Non-1933 Act Offering, Including the Required Underwriter Representations," in AU section 634, *Letters for Underwriters and Certain Other Requesting Parties*, was moved to example A-2, "Typical Comfort Letter for a Non-1933 Act Offering When the Required Representation Letter Has Been Obtained," in this section when AU section 634 was redrafted for clarity, and is intentionally blank to retain the letters assigned to the other examples.

period within that year. Therefore, we are unable to, and do not express any opinion on, the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows for the three-month periods ended March 31, 20X6 and 20X5, included in the Offering Memorandum, or on the financial position, results of operations, or cash flows as of any date or for any period subsequent to December 31, 20X5.

1. At your request, we have read the 20X6 minutes of meetings of the stockholders, the board of directors, and *[include other appropriate committees, if any]* of the company as set forth in the minute books at June 25, 20X6, officials of the company having advised us that the minutes of all such meetings through that date were set forth therein and having discussed with us the unapproved minutes of meetings held on *[dates]*; we have carried out other procedures to June 25, 20X6, as follows (our work did not extend to the period from June 26, 20X6 to June 30, 20X6, inclusive):
 - a. With respect to the three-month periods ended March 31, 20X6 and 20X5, we have—
 - (i) Read the unaudited condensed consolidated balance sheet as of March 31, 20X6, and the unaudited condensed consolidated statements of income, stockholders' equity, and cash flows of the company for the three-month periods ended March 31, 20X6 and 20X5, included in the Offering Memorandum, and agreed the amounts included therein with the company's accounting records as of March 31, 20X6, and for the three-month periods ended March 31, 20X6 and 20X5.
 - (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether the unaudited condensed consolidated financial statements referred to in *a*(i) are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements included in the Offering Memorandum. Those officials stated that the unaudited condensed consolidated financial statements are in conformity with generally accepted accounting principles applied on a basis substantially consistent with that of the audited consolidated financial statements.
 - b. With respect to the period from April 1, 20X6 to May 31, 20X6, we have—
 - (i) Read the unaudited condensed consolidated financial information of the company for April and May of both 20X5 and 20X6, furnished us by the company, and agreed the amounts included therein with the company's accounting records. Officials of the company have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, were available. *[if applicable: The financial information for April and May of both 20X5 and 20X6 is incomplete*

in that it omits the statements of cash flows and other disclosures.]

- (ii) Inquired of certain officials of the company who have responsibility for financial and accounting matters whether (1) the unaudited condensed consolidated financial information referred to in *b(i)* is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the Offering Memorandum; (2) at May 31, 20X6, there was any change in the capital stock, increase in long-term debt, or any decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum; and (3) for the period from April 1, 20X6 to May 31, 20X6, there were any decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

Those officials stated that (1) the unaudited condensed consolidated financial information referred to in *b(ii)* is stated on a basis substantially consistent with that of the audited consolidated financial statements included in the Offering Memorandum; (2) at May 31, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decrease in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum; and (3) there were no decreases for the period from April 1, 20X6 to May 31, 20X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

- c. As mentioned in *1b*, company officials have advised us that no financial statements as of any date or for any period subsequent to May 31, 20X6, are available; accordingly, the procedures carried out by us with respect to changes in financial statement items after May 31, 20X6, have, of necessity, been even more limited than those with respect to the periods referred to in *1a* and *1b*. We have inquired of certain officials of the company who have responsibility for financial and accounting matters whether (i) at June 25, 20X6, there was any change in the capital stock, increase in long-term debt, or any decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6 unaudited condensed consolidated balance sheet included in the Offering Memorandum, or (ii) for the period from April 1, 20X6 to June 25, 20X6, there were any

decreases, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

Those officials referred to above stated that (i) at June 25, 20X6, there was no change in the capital stock, no increase in long-term debt, and no decreases in consolidated net current assets or stockholders' equity of the consolidated companies as compared with amounts shown in the March 31, 20X6, unaudited condensed consolidated balance sheet, and (ii) there were no decreases for the period from April 1, 20X6 to June 25, 20X6, as compared with the corresponding period in the preceding year, in consolidated net sales or in income from continuing operations or of net income.

2. For purposes of this letter, we have also read the items identified by you on the attached copy of the Offering Memorandum and have performed the following procedures, which were applied as indicated with respect to the symbols explained below:
 - ✓ Compared the amount with the company's financial statements for the period indicated and found them to be in agreement.
 - ✗ Compared the amount with the company's financial statements for the period indicated included in the Offering Memorandum and found them to be in agreement.
 - Ⓢ Compared with a schedule or report prepared by the company and found them to be in agreement.
3. Our audit of the consolidated financial statements for the periods referred to in the introductory paragraph of this letter comprised audit tests and procedures deemed necessary for the purpose of expressing an opinion on such financial statements as a whole. For none of the periods referred to therein, nor for any other period, did we perform audit tests for the purpose of expressing an opinion on individual balances of accounts or summaries of selected transactions, such as those enumerated above, and, accordingly, we express no opinion thereon.
4. It should be understood that we have no responsibility for establishing (and did not establish) the scope and nature of the procedures enumerated in paragraphs 1–3 above; rather, the procedures enumerated therein are those the requesting party asked us to perform. Accordingly, we make no representations regarding questions of legal interpretation⁴ or regarding the sufficiency for your purposes of the procedures enumerated in the preceding paragraphs; also, such procedures would not necessarily reveal any material misstatement of the amounts or percentages listed above as set forth in the Offering Memorandum. Further, we have addressed ourselves solely to the foregoing data and make no representations regarding the adequacy of disclosures or whether any material facts have been omitted. This letter relates only to the financial statement items specified above and does not extend to any financial statement of the company as a whole.

⁴ Paragraph .A6 of this section.

5. The foregoing procedures do not constitute an audit conducted in accordance with generally accepted auditing standards. Had we performed additional procedures or had we conducted an audit or a review of the company's March 31, April 30, or May 31, 20X6 and 20X5 condensed consolidated financial statements in accordance with generally accepted auditing standards, other matters might have come to our attention that would have been reported to you.
6. These procedures should not be taken to supplant any additional inquiries or procedures that you would undertake in your consideration of the proposed offering.
7. This letter is solely for your information and to assist you in your inquiries in connection with the offering of the securities covered by the Offering Memorandum, and it is not to be used, circulated, quoted, or otherwise referred to for any other purpose, including but not limited to the registration, purchase, or sale of securities, nor is it to be filed with or referred to, in whole or in part, in the Offering Memorandum or any other document, except that reference may be made to it in any list of closing documents pertaining to the offering of the securities covered by the offering document.
8. We have no responsibility to update this letter for events and circumstances occurring after June 25, 20X6.

[Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014.]

Example R—Alternate Wording When Reference to Examination of Annual Management's Discussion and Analysis and Review of Interim Management's Discussion and Analysis Is Made

.A93-21 This example is applicable when the auditor is making reference to an examination of annual MD&A and a review of interim MD&A. The same facts exist as in example A-1, except for the following:

- The auditor has examined the company's Management's Discussion and Analysis (MD&A) for the year ended December 31, 20X5, in accordance with AT-C section 395, *Management's Discussion and Analysis*.
- The auditor has also performed reviews of the company's unaudited condensed consolidated financial statements in accordance with generally accepted auditing standards applicable to reviews of interim financial information and the company's MD&A for the three-month period ended March 31, 20X6, in accordance with AT-C section 395.
- The accountant's reports on the examination and review of MD&A have been previously issued, but not distributed publicly; none of these reports is included in the securities offering. In this example, the auditor has elected to attach the previously issued reports to the comfort letter (see paragraph .A32).

Appropriate modifications would be made to the opening paragraph of the comfort letter if the auditor has performed a review of the company's annual MD&A.

The following would be substituted for the first paragraph of example A-1.

We have audited the consolidated financial statements of The Nonissuer Company, Inc. (the company) and subsidiaries, which comprise the consolidated balance sheets as of December 31, 20X5 and 20X4, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 20X5, the related notes to the consolidated financial statements, and the related financial statement schedules, all included in The Issuer Company's (the registrant) registration statement (no. 33-00000) on Form S-1 filed by the registrant under the Securities Act of 1933 (the Act); our reports with respect thereto are also included in that registration statement. The registration statement, as amended on June 28, 20X6, is herein referred to as the registration statement. Also, we have examined the company's Management's Discussion and Analysis (MD&A) for the year ended December 31, 20X5, included in the registration statement, as indicated in our report dated March 28, 20X6; our report with respect thereto is attached. We have also reviewed the unaudited condensed consolidated financial statements as of March 31, 20X6 and 20X5, and for the three-month periods then ended, included in the registration statement, as indicated in our report dated May 15, 20X6, and have also reviewed the company's MD&A for the three-month period ended March 31, 20X6, included in the registration statement, as indicated in our report dated May 15, 20X6; our reports with respect thereto are attached.

The following paragraph would be added after paragraph 3 of example A-1:

4. We have not examined any MD&A of the company as of or for any period subsequent to December 31, 20X5; although we have made an examination of the company's MD&A for the year ended December 31, 20X5, included in the registration statement, the purpose (and, therefore, the scope) of the examination was to enable us to express our opinion on such MD&A, but not on the MD&A for any interim period within that year. Therefore, we are unable to and do not express any opinion on the MD&A for the three-month period ended March 31, 20X6, included in the registration statement, or for any period subsequent to March 31, 20X6.

[As amended, effective for comfort letters issued on or after December 15, 2014, by SAS No. 129. Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

AU-C Section 925

Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933

Source: SAS No. 122; SAS No. 133.

Effective for filings under the Securities Act of 1933 that include audited financial statements for periods ending on or after December 15, 2012.

Introduction

Scope of This Section (Ref: par. .A1)

.01 This section addresses the auditor's responsibilities in connection with financial statements of a nonissuer included or incorporated by reference in a registration statement filed with the U.S. Securities and Exchange Commission (SEC) under the Securities Act of 1933, as amended. Exhibit A, "Background," provides background information on certain liability provisions of Section 11 of the Securities Act of 1933, including Section 11(b)(3)(B).

Effective Date

.02 This section is effective for filings under the Securities Act of 1933 that include audited financial statements for periods ending on or after December 15, 2012.

Objective

.03 The objective of the auditor, in connection with audited financial statements of a nonissuer that are separately included or incorporated by reference in a registration statement filed under the Securities Act of 1933, is to perform specified procedures at or shortly before the effective date of the registration statement to sustain the burden of proof that the auditor has performed a reasonable investigation, as referred to in Section 11(b)(3)(B) of the Securities Act of 1933.

Definitions

.04 For purposes of this section, the following terms have the meanings attributed as follows:

Auditor's consent. A statement signed and dated by the auditor that indicates that the auditor consents to the use of the auditor's report, and other references to the auditor, in a registration statement filed under the Securities Act of 1933.

Awareness letter. A letter signed and dated by the auditor to acknowledge the auditor's awareness that the auditor's review report on unaudited interim financial information is being used in a registration statement filed under the Securities Act of 1933. This letter is not considered to be part of the registration statement and is also commonly referred to as an *acknowledgment letter*.

Effective date of the registration statement. The date on which the registration statement filed under the Securities Act of 1933 becomes effective for purposes of evaluating the auditor's liability under Section 11 of the Securities Act of 1933. (Ref: par. .A2 and .A14)

.05 References to *included* or *the inclusion of* in a registration statement in this section means *included* or *incorporated by reference* in a registration statement filed under the Securities Act of 1933.

Requirements

Effective Date of the Registration Statement (Ref: par. .A3)

.06 Because the effective date of a registration statement filed under the Securities Act of 1933 may not necessarily coincide with the filing date, the auditor should request management to keep the auditor advised of the progress of the registration proceedings through the effective date of the registration statement.

The Prospectus and Other Information (Ref: par. .A4–.A8)

.07 When the auditor's report on audited financial statements is included in a registration statement filed under the Securities Act of 1933, the auditor should perform the procedures described in section 720, *The Auditor's Responsibilities Relating to Other Information Included in Annual Reports*, on the prospectus and pertinent portions of the registration statement (including material that is incorporated by reference). [Revised, December 2021, to reflect conforming changes necessary due to the issuance of SAS No. 137.]

.08 In connection with the procedures required by paragraph .07, the auditor should determine that the auditor's name is not being used in a way that indicates that the auditor's responsibility is greater than the auditor intends.

Subsequent Events Procedures (Ref: par. .A9–.A11)

.09 When the most recent separate financial statements of the entity and related auditor's report are included in the registration statement, the auditor should perform the following procedures described in section 560, *Subsequent Events and Subsequently Discovered Facts*, at or shortly before the effective date of the registration statement:¹

- a. Audit procedures designed to identify events occurring between the date of the auditor's report and the effective date of the registration statement that require adjustment to, or disclosure in, the financial statements. Such procedures, which take into account the auditor's risk assessment in determining the nature and extent of such audit procedures, should include
 - i. obtaining an understanding of any procedures that management has established to ensure that such events are identified.
 - ii. inquiring of management and, when appropriate, those charged with governance about whether any such events have occurred that might affect the financial statements.

¹ Paragraphs .09–.10 of section 560, *Subsequent Events and Subsequently Discovered Facts*.

- iii. reading minutes, if any, of the meetings of the entity's owners, management, and those charged with governance that have been held after the date of the financial statements and inquiring about matters discussed at any such meetings for which minutes are not yet available.
 - iv. reading the entity's latest subsequent interim financial statements, if any.
- b. Obtain updated written representations from management at or shortly before the effective date of the registration statement, about whether
- i. any information has come to management's attention that would cause management to believe that any of the previous representations should be modified.
 - ii. any events have occurred subsequent to the date of the financial statements that would require adjustment to, or disclosure in, those financial statements.

.10 When the auditor has audited the most recent period for which separate audited financial statements of the entity are included in the registration statement and

- a. the entity has been acquired by another entity,
- b. the acquirer's audited financial statements included in the registration statement reflect a period that includes the date of acquisition, and
- c. the auditor is a predecessor auditor because the auditor is not the continuing auditor of the entity,

the auditor may be unable to perform all of the procedures in paragraph .09. In such circumstances, the auditor should obtain written representations from management and the successor auditor as described in section 560 at or shortly before the effective date of the registration statement.²

.11 If a predecessor auditor audited the entity's separate financial statements for a prior period included in the registration statement but has not audited the entity's separate financial statements for the most recent audited period for which the entity's audited financial statements are included in the registration statement, then the predecessor auditor should perform the following procedures described in section 560 through a date at or shortly before the effective date of the registration statement:³

- a. Read the financial statements of the subsequent period to be presented on a comparative basis
- b. Compare the prior period financial statements that the predecessor auditor reported on with the financial statements of the subsequent period to be presented on a comparative basis
- c. Obtain written representations from management at or shortly before the effective date
- d. Obtain a representation letter from the successor auditor stating whether the successor auditor's audit revealed any matters that, in the successor auditor's opinion, might have a material effect on, or require disclosure in, the financial statements reported on by the predecessor auditor

² Paragraph .19c–d of section 560.

³ Paragraph .19 of section 560.

.12 If the auditor becomes aware of subsequently discovered facts, the auditor should not provide the auditor's consent until the auditor's consideration of subsequently discovered facts, including the effect on the auditor's report on the financial statements, has been satisfactorily completed in accordance with section 560.⁴ If management does not revise the audited financial statements in circumstances in which the auditor believes they need to be revised, then the auditor should determine whether to withhold the auditor's consent (and the awareness letter, if applicable). (Ref: par. .A11)

Unaudited Annual Financial Statements or Unaudited Interim Financial Information

.13 If the auditor concludes, based on known facts, that unaudited annual financial statements or unaudited interim financial information included in a registration statement filed under the Securities Act of 1933 is not in conformity with the requirements of the applicable financial reporting framework, then the auditor should request that management revise the unaudited annual financial statements or unaudited interim financial information appropriately.

.14 If management does not revise the unaudited annual financial statements or unaudited interim financial information appropriately and

- a. the auditor has reported on a review of the unaudited annual financial statements or unaudited interim financial information,
- b. the auditor's review report is included in the registration statement, and
- c. the subsequently discovered facts are such that they would have affected the report had they been known to the auditor at the date of the report,

the auditor should perform the applicable procedures described in section 560.⁵

.15 If management does not revise the unaudited annual financial statements or unaudited interim financial information appropriately and

- a. the auditor has not reported on a review of the unaudited annual financial statements or unaudited interim financial information or
- b. the auditor's review report is not included in the registration statement,

the auditor should modify the report on the audited financial statements to describe the departure from the requirements of the applicable financial reporting framework contained in the unaudited annual financial statements or unaudited interim financial information, as described in section 930, *Interim Financial Information*.⁶

.16 Additionally, the auditor should determine whether to withhold the auditor's consent (and the awareness letter, if applicable). (Ref: par. .A11)

⁴ Paragraphs .15–.18 of section 560.

⁵ Paragraphs .14 and .17–.18 of section 560.

⁶ Paragraph .35 of section 930, *Interim Financial Information*.

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 This section is written from the perspective of a registration statement filed under the Securities Act of 1933. The liability provisions under the Securities Act of 1933 differ from those (Section 10[b] and Rule 10[b]5), in particular) under the Securities Exchange Act of 1934.

Definitions

Effective Date of the Registration Statement (Ref: par. .04)

.A2 Exhibit A describes the process commonly referred to as *shelf registration*. Exhibit A also provides additional guidance about the effective date of a registration statement, including situations in which a posteffective amendment is made or a prospectus supplement is filed.⁷ Both of these situations may create a new effective date. Exhibit A also discusses the auditor's liability under Section 11 of the Securities Act of 1933 with regard to these situations.

Effective Date of the Registration Statement (Ref: par. .06)

.A3 Requesting management to keep the auditor advised of the progress of the registration proceedings through the effective date is important so that the auditor's consideration of events occurring after the date of the auditor's report up to the effective date, or as close thereto as reasonable and practicable, can be completed by the effective date of the registration statement. Generally, the filing date of a registration statement will precede the effective date. In addition to performing the procedures required by this section at or shortly before the effective date, the auditor may also perform some or all of the procedures in this section at or shortly before the filing date.

The Prospectus and Other Information (Ref: par. .07–.08)

.A4 The reading of the entire prospectus (including any supplemental prospectuses and documents incorporated by reference—such as forms 10-K, 10-Q, and 8-K) assists the auditor in fulfilling the auditor's statutory responsibilities to perform a reasonable investigation, as described in Section 11(c) of the Securities Act of 1933.

References to the Auditor as an Expert in Connection With a Securities Act of 1933 Registration Statement

.A5 The requirements in paragraphs .07–.08 assist the auditor in determining that the references to the auditor in the Securities Act of 1933 registration statement are appropriate. For example, management's disclosure in the "experts" section cannot imply that the financial statements have been prepared by the auditor or that the financial statements are not the direct representations of management.

.A6 The SEC does not require an entity to include an auditor's review report on unaudited interim financial information in the registration statement unless the registration statement states that the unaudited interim financial

⁷ Paragraphs 8–12 of exhibit A, "Background."

information has been reviewed by an independent auditor. If the registration statement includes the auditor's review report on interim financial information, then the requirements in paragraphs .07–.08 assist the auditor in determining that the issuer discloses the fact that an interim review report is not a report on, or a part of, the registration statement prepared or certified by the auditor, within the meaning of Section 7 and Section 11 of the Securities Act of 1933, and that the auditor's liability under Section 11 does not extend to the auditor's review report.

.A7 The auditor is not considered an expert with respect to the auditor's review report on interim financial information and, therefore, it is important that this fact is clearly described. For example, the disclosures relating to the auditor's report on the audited financial statements may be included under a heading titled "Experts," and the disclosures in paragraph .A6 would then be included under a heading titled "Independent Auditors." Alternatively, the disclosures described in paragraph .A6 may be included under an "experts" section together with language stating the fact that an interim review report is not a report on, or a part of, the registration statement prepared or certified by the auditor, within the meaning of Section 7 and Section 11 of the Securities Act of 1933, and that the auditor's liability under Section 11 does not extend to the auditor's review report.

.A8 Exhibit A describes the disclosures relating to the auditor's report on the audited financial statements. Exhibit B, "Illustrative Disclosures and Reports," provides an illustration of this disclosure.

Subsequent Events Procedures (Ref: par. .09–.12)

.A9 An example of the conditions described in paragraphs .09–.11 would be a situation in which an issuer recently acquired a nonissuer that is considered significant to the issuer based on quantitative thresholds specified in the SEC's rules and regulations. In this case, the issuer's registration statement may need to include the separate audited financial statements of the acquired nonissuer for one or more periods.

.A10 In addition to the procedures required by paragraph .09, the auditor may consider it necessary and appropriate to inquire of, or extend previous oral or written inquiries to, the entity's legal counsel concerning litigation, claims, and assessments, as described in section 501, *Audit Evidence—Specific Considerations for Selected Items*.

.A11 In making the determination whether to withhold the auditor's consent, the auditor may consider it appropriate to obtain legal advice. (Ref: par. .12 and .16)

Exhibits

.A12 Exhibit A provides detailed background guidance on the following: (Ref: par. .04)

- The liability provisions of Section 11 of the Securities Act of 1933
- The auditor's consent and awareness letter
- The effective date of the registration statement
- References to the auditor as an expert in connection with a Securities Act of 1933 registration statement

- References to the auditor as an expert in a document other than a Securities Act of 1933 registration statement
- Letters similar to a consent prepared in connection with a document that is not a Securities Act of 1933 registration statement

.A13 Exhibit B provides illustrative disclosures and reports.

.A14

Exhibit A—Background

Exhibit A is intended to provide limited background information only. Exhibit A is not intended to be, and does not constitute, a comprehensive or complete discussion of the liability provisions of the Securities Act of 1933, as amended. Exhibit A is not legal advice and reading it as such is inappropriate. Auditors are advised to consult with their legal counsel regarding the information provided in Exhibit A and the entire content of Section 11 of the Securities Act of 1933.

1. When an auditor's report is included in a registration statement filed under the Securities Act of 1933, the auditor's responsibility, generally, is in substance no different from that involved in other types of reporting. However, the nature and extent of this responsibility are specified in some detail in the applicable statutes and the related rules and regulations.

Liability Provisions of Section 11 of the Securities Act of 1933

2. Liability under the Securities Act of 1933 is defined in several sections of that act. One important section for auditors is Section 11.

3. Section 11(a) imposes civil liability on a number of parties that are involved in a registration statement filed under the Securities Act of 1933. One of the parties specifically mentioned in Section 11(a) is an auditor who has consented to the use of the auditor's report on audited financial statements in connection with a registration statement filed under the Securities Act of 1933 (Section 11[a][4]).

4. Section 11(b)(3)(B) of the Securities Act of 1933 provides that the auditor is not liable under Section 11(a) if the auditor

sustain[s] the burden of proof . . . that . . . as regards any part of the registration statement purporting to be made upon his authority as an expert or purporting to be a copy of or extract from a report or valuation of himself as an expert, (i) he had, after reasonable investigation, reasonable ground to believe and did believe, at the time such part of the registration statement became effective, that the statements therein were true and that there was no omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading, or (ii) such part of the registration statement did not fairly represent his statement as an expert or was not a fair copy of or extract from his report or valuation as an expert.

5. Section 11(c) of the Securities Act of 1933 indicates that for the purpose of determining what constitutes reasonable investigation and reasonable ground to believe, "the standard of reasonableness shall be that required of a prudent man in the management of his own property."

Auditor's Consent and Awareness Letter

6. Section 7 of the Securities Act of 1933 requires an issuer to provide the consent of any auditor whose report on audited financial statements is included in a Securities Act of 1933 registration statement. The issuer's responsibility to file the auditor's consent is further discussed in Rule 436 of the Securities Act of 1933.

7. Rule 436(c) of the Securities Act of 1933 indicates that an auditor's report based on a review of interim financial information is not a report within the meaning of Section 11. Thus, the auditor does not have a similar statutory responsibility for such reports as of the effective date of the registration statement. Accordingly, the auditor's consent would not refer to the auditor's report on interim financial statements. However, the issuer is required to file an awareness letter from an auditor if the auditor's review report on interim financial information is included in a registration statement filed under the Securities Act of 1933.

Effective Date of the Registration Statement

8. The information in a registration statement filed under the Securities Act of 1933 is evaluated as of its effective date. Accordingly, the auditor who has consented to the inclusion of the auditor's report on audited financial statements in such a registration statement has a statutory responsibility that is determined in light of the circumstances on that date. The effective date for purposes of evaluating liability under Section 11 may be different for different parties. For instance, the effective date for determining liability under Section 11 for the issuer or for an underwriter may be later than the effective date for determining Section 11 liability for the auditor.

9. Certain Securities Act of 1933 rules and forms (for example, Rule 415 and Form S-3) permit issuers to register offerings of securities to be offered and sold on a delayed or continuous basis. This process is commonly referred to as *shelf registration*.

10. The prospectus included in a shelf registration statement at the time it becomes effective is commonly referred to as a *base prospectus*. Many issuers follow a "bare bones" approach to preparing the base prospectus by relying entirely on the documents incorporated by reference (for example, forms 10-K, 10-Q, and 8-K) to provide most, if not all, of the issuer-related disclosures. The base prospectus also generally omits information relating to the specific amount of each security to be offered and pricing information. That information is typically provided through a prospectus supplement filed pursuant to Rule 424(b) of the Securities Act of 1933 at the time the securities are sold (commonly referred to as *taken off the shelf* or a *shelf takedown*).

11. At the time of filing a shelf registration statement, the issuer undertakes to update the prospectus for a number of items. The issuer's undertakings are set forth in Item 512 of Regulation S-K. Information omitted from the base prospectus, as well as the information that the issuer has undertaken to provide at a later date, may be conveyed to investors

- by a posteffective amendment to the registration statement,
- by a prospectus supplement filed pursuant to Rule 424(b) of the Securities Act of 1933, or
- through the incorporation by reference of the information from a report filed under the Securities Exchange Act of 1934 (for example, Form 10-K or Form 8-K).

12. As previously discussed, liability under Section 11 of the Securities Act of 1933 is assessed based on the information included in the registration statement as of its effective date. As also previously noted, the effective date for purposes of evaluating liability under Section 11 as it relates to the auditor may differ from the effective date as it relates to other parties (for example, the issuer or any underwriters). From the auditor's perspective, the effective date

in connection with a Securities Act of 1933 registration statement is the latest of the following:

- The date the original registration statement (for example, on Form S-3) becomes effective
- The effective date of any posteffective amendment
- The filing date of a prospectus supplement if the filing of the prospectus supplement creates a new effective date for the auditor (for example, the prospectus supplement may contain new or revised audited financial statements or other information about which the auditor is an expert and for which a new consent is required, as described in Rule 430B(f)(3) of the Securities Act of 1933)
- The filing date of any report (for example, under the Securities Exchange Act of 1934) that includes or amends audited financial statements and is incorporated by reference into the already effective registration statement

For example, assume an issuer with an already effective shelf registration statement on Form S-3 acquires a private company, and the issuer is required to file the acquired company's audited financial statements pursuant to the requirements of Form 8-K. In this case, the issuer will be required to file an auditor's consent from the acquired company's auditor as an exhibit to Form 8-K. The guidance in this section is applicable to the acquired company's auditor in connection with providing the auditor's consent to the issuer.

References to the Auditor as an Expert in Connection With a Securities Act of 1933 Registration Statement

13. Although not required, most Securities Act of 1933 registration statements relating to underwritten offerings contain a section titled "Experts." This section can be defined as management's disclosure in a Securities Act of 1933 registration statement that states that audited financial statements are included in the registration statement in reliance upon the auditor's report on the audited financial statements. The "experts" section also typically indicates that the auditor's report on the audited financial statements has been given on the auditor's authority as an expert in accounting and auditing.

14. Exhibit B, "Illustrative Disclosures and Reports," provides an example of a typical "experts" section.

15. As with all sections of the registration statement, the disclosures in the "experts" section are the issuer's responsibility. However, Rule 436(b) of the Securities Act of 1933 requires the issuer to file an auditor's consent to being named as an expert.

References to the Auditor as an Expert in a Document Other Than a Securities Act of 1933 Registration Statement

16. The term *expert* has a specific statutory meaning under the Securities Act of 1933. Outside the Securities Act of 1933 context, the term *expert* is typically undefined. Accordingly, except as described in paragraph 18 of this exhibit, when an issuer wishes to make reference to the auditor's role in an offering document in connection with a securities offering that is not registered under the Securities Act of 1933, the caption to that section of the document would generally be titled "Independent Auditors" (or something similar) rather than "Experts," with no reference to the auditor as an expert anywhere in the document.

17. There may be situations in which the term *expert* is sufficiently defined such that the auditor may agree to be referred to as an expert outside the context of a registration statement filed under the Securities Act of 1933. For example, if the term *expert* is defined under applicable state law, the auditor may agree to be named as an expert in an offering document in an intrastate securities offering. An understanding of any auditor liability provisions that may be included in the applicable federal or state statutes is an important consideration. In such circumstances, the auditor may consider it appropriate to obtain legal advice.

Letters Similar to Consents Prepared in Connection With a Document That Is Not a Securities Act of 1933 Registration Statement

18. When an auditor's report is used in connection with an offering transaction that is not registered under the Securities Act of 1933, it is not usually necessary for the auditor to provide any type of written consent. If the auditor is asked to provide a written consent for use in connection with a document other than a Securities Act of 1933 registration statement, then the auditor may provide a letter indicating that the auditor agrees to the inclusion of the auditor's report on the audited financial statements in the offering materials. Section 945 addresses the auditor's responsibilities when an auditor is involved with an exempt offering document.

[As amended, effective for exempt offering documents with which the auditor is involved that are initially distributed, circulated, or submitted on or after June 15, 2018, by SAS No. 133.]

.A15

Exhibit B—Illustrative Disclosures and Reports

The following is an example of a typical "experts" section in a registration statement filed under the Securities Act of 1933:

Experts

The consolidated balance sheets of Company X as of December 31, 20X2 and 20X1, and the related consolidated statements of income and comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 20X2, included in this prospectus, have been so included in reliance on the report of ABC & Co, independent auditors, given on the authority of that firm as experts in auditing and accounting.

The following is an example of a disclosure for a registration statement filed under the Securities Act of 1933 that includes the auditor's review report on unaudited interim financial information when such disclosure is included in a separate section. This disclosure may also be included under a section titled "Experts":

Independent Auditors

With respect to the unaudited interim financial information of Company X for the three-month periods ended March 31, 20X3 and 20X2, included in this prospectus, ABC & Co. has reported that they have applied limited procedures in accordance with professional standards for a review of such information. However, their separate report dated May XX, 20X3, included herein, states that they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. ABC & Co. is not subject to the liability provisions of section 11 of the Securities Act of 1933 for their report on the unaudited interim financial information because that report is not a "report" or a "part" of the registration statement prepared or certified by the accountants within the meaning of Sections 7 and 11 of the Act.

[As amended, effective for exempt offering documents with which the auditor is involved that are initially distributed, circulated, or submitted on or after June 15, 2018, by SAS No. 133.]

AU-C Section 930

Interim Financial Information

Source: SAS No. 122; SAS No. 132; SAS No. 135; SAS No. 140.

Effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2012, unless otherwise indicated.

NOTE

In October 2021, the Auditing Standards Board (ASB) issued Statement on Auditing Standards (SAS) No. 145, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, which contains amendments to this section.

The amendments are effective for audits of financial statements for periods ending on or after December 15, 2023, and can be viewed in appendix G of section 315 until the effective date, when they will be applied to this section.

In June 2022, the ASB issued SAS No. 146, *Quality Management for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, which contains amendments to this section.

The amendments are effective for engagements conducted in accordance with generally accepted auditing standards for periods beginning on or after December 15, 2025, and can be viewed in the appendix of section 220 until the effective date, when they will be applied to this section.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibilities when engaged to review interim financial information under the conditions specified in this section. The term *auditor* is used throughout this section, not because the auditor is performing an audit but because the scope of this section is limited to a review of interim financial information performed by an auditor of the financial statements of the entity.

.02 This section applies to a review of interim financial information when

- a. the entity's latest annual financial statements have been audited by the auditor or a predecessor auditor;
- b. the auditor either
 - i. has been engaged to audit the entity's current year financial statements or
 - ii. audited the entity's latest annual financial statements, and in situations in which it is expected that the current year financial statements will be audited, the engagement of another auditor to audit the current year financial statements is not effective prior to the beginning of the period covered by the review; (Ref: par. .A1)

- c. the entity prepares its interim financial information in accordance with the same financial reporting framework as that used to prepare the annual financial statements; and
- d. all of the following conditions are met if the interim financial information is condensed:
 - i. The condensed interim financial information purports to be prepared in accordance with an appropriate financial reporting framework, which includes appropriate form and content of interim financial information. (Ref: par. .A2)
 - ii. The condensed interim financial information includes a note that the financial information does not represent complete financial statements and is to be read in conjunction with the entity's latest audited annual financial statements.
 - iii. The condensed interim financial information accompanies the entity's latest audited annual financial statements, or such audited annual financial statements are made readily available by the entity. (Ref: par. .A3)

Statements on Standards for Accounting and Review Services provide guidance for review engagements for which this section is not applicable.

.03 An auditor may find this section, adapted as necessary in the circumstances, useful when that auditor has not been engaged to perform a review of interim financial information but has nonetheless decided to perform review procedures on such financial information (for example, in connection with the inclusion of the auditor's report on the annual financial statements in an unregistered securities offering document).

Effective Date

.04 This section is effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2012.

Objective

.05 The objective of the auditor when performing an engagement to review interim financial information is to obtain a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework through performing limited procedures. (Ref: par. .A4–.A5)

Definition

.06 For purposes of this section, the following term has the meaning attributed as follows:

Interim financial information. Financial information prepared and presented in accordance with an applicable financial reporting framework that comprises either a complete or condensed set of financial statements covering a period or periods less than one full year or covering a 12-month period ending on a date other than the entity's fiscal year end.

Requirements

Acceptance

.07 Before accepting an engagement to review an entity's interim financial information for a new client, the auditor should follow the procedures for initial engagements required by section 210A, *Terms of Engagement*.¹

.08 Before accepting an engagement to perform a review of interim financial information, the auditor should

- a. determine whether the financial reporting framework to be applied in the preparation of the interim financial information is acceptable and
- b. obtain the agreement of management that it acknowledges and understands its responsibility
 - i. for the preparation and fair presentation of the interim financial information in accordance with the applicable financial reporting framework;
 - ii. for the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with the applicable financial reporting framework;
 - iii. to provide the auditor with
 - (1) access to all information of which management is aware that is relevant to the preparation and fair presentation of the interim financial information, such as records, documentation, and other matters;
 - (2) additional information that the auditor may request from management for the purpose of the review; and
 - (3) unrestricted access to persons within the entity of whom the auditor determines it necessary to make inquiries;² and
 - iv. to include the auditor's review report in any document containing interim financial information that indicates that such information has been reviewed by the entity's auditor.

.09 The auditor should not accept an engagement to review interim financial information if

- a. the auditor has determined that the financial reporting framework to be applied in the preparation of the interim financial information is unacceptable.
- b. the agreement referred to in paragraph .08b has not been obtained.

¹ Paragraphs .11–.12 of section 210A, *Terms of Engagement*.

² Paragraph .06 of section 210A.

Agreement on Engagement Terms

.10 The auditor should agree upon the terms of the engagement with management or those charged with governance, as appropriate. The agreed-upon terms of the engagement should be recorded in an engagement letter or other suitable form of written agreement and should include the following: (Ref: par. .A6)

- a. The objectives and scope of the engagement
- b. The responsibilities of management set forth in paragraph .08b
- c. The responsibilities of the auditor
- d. The limitations of a review engagement
- e. Identification of the applicable financial reporting framework for the preparation of the interim financial information

Procedures for a Review of Interim Financial Information***Understanding the Entity and Its Environment, Including Its Internal Control***

.11 To plan and conduct the engagement, the auditor should have an understanding of the entity and its environment, including its internal control as it relates to the preparation and fair presentation of both annual and interim financial information, sufficient to be able to

- a. identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.
- b. select the inquiries and analytical procedures that will provide the auditor with a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework.

.12 To update or, in the case of an auditor who has not yet performed an audit of the entity's annual financial statements, obtain the understanding required by paragraph .11, the auditor should perform the following procedures: (Ref: par. .A7–.A8)

- a. Read available documentation of the preceding year's audit and of reviews of the prior interim period(s) of the current year and the corresponding interim period(s) of the prior year to the extent necessary, based on the auditor's judgment, to enable the auditor to identify matters that may affect the current period interim financial information. In reading such documents, the auditor should specifically consider the nature of any (Ref: par. .A9–.A10)
 - i. corrected material misstatements;
 - ii. matters identified in any summary of uncorrected misstatements;
 - iii. identified risks of material misstatement due to fraud, including the risk of management override of controls; and
 - iv. significant financial accounting and reporting matters that may be of continuing significance, such as significant deficiencies and material weaknesses.
- b. Read the most recent annual and comparable prior interim period financial information.

- c. Consider the results of any audit procedures performed with respect to the current year's financial statements.
- d. Inquire of management about changes in the entity's business activities.
- e. Inquire of management about the identity of, and nature of transactions with, related parties.
- f. Inquire of management about whether significant changes in internal control, as it relates to the preparation and fair presentation of interim financial information, have occurred subsequent to the preceding annual audit or prior review of interim financial information, including changes in the entity's policies, procedures, and personnel, as well as the nature and extent of such changes.

Analytical Procedures, Inquiries, and Other Review Procedures

Analytical Procedures

.13 The auditor should apply analytical procedures to the interim financial information to identify and provide a basis for inquiry about the relationships and individual items that appear to be unusual and that may indicate a material misstatement. Such analytical procedures should include the following: (Ref: par. .A11–.A13)

- a. Comparing the interim financial information with comparable information for the immediately preceding interim period, if applicable, and with the corresponding period(s) in the previous year, giving consideration to knowledge about changes in the entity's business and specific transactions
- b. Considering plausible relationships among both financial and, when relevant, nonfinancial information (Ref: par. .A14)
- c. Comparing recorded amounts or ratios developed from recorded amounts to expectations developed by the auditor through identifying and using relationships that are reasonably expected to exist, based on the auditor's understanding of the entity and the industry in which the entity operates
- d. Comparing disaggregated revenue data (Ref: par. .A15)

Inquiries and Other Review Procedures

.14 The auditor should make the following inquiries and perform the following other review procedures when conducting a review of interim financial information:

- a. Read the available minutes of meetings of stockholders, directors, and appropriate committees and inquire about matters dealt with at meetings for which minutes are not available to identify matters that may affect the interim financial information. (Ref: par. .A16)
- b. Obtain reports from component auditors, if any, related to reviews performed of the interim financial information of significant components of the reporting entity, including its investees, or inquire of those auditors if reports have not been issued. (Ref: par. .A17)
- c. Inquire of management about
 - i. whether the interim financial information has been prepared and fairly presented in accordance with the applicable financial reporting framework consistently applied.

Special Considerations in the United States

- ii. unusual or complex situations that may have an effect on the interim financial information. (Ref: par. .A18)
 - iii. significant transactions occurring or recognized in the interim period, particularly those in the last several days of the interim period.
 - iv. the status of uncorrected misstatements identified during the previous audit and interim review (that is, whether adjustments had been recorded subsequent to the periods covered by the prior audit or interim review and, if so, the amounts recorded and period in which such adjustments were recorded).
 - v. matters about which questions have arisen in the course of applying the review procedures.
 - vi. events subsequent to the date of the interim financial information that could have a material effect on the fair presentation of such information.
 - vii. its knowledge of any fraud or suspected fraud affecting the entity involving (1) management, (2) employees who have significant roles in internal control, or (3) others when the fraud could have a material effect on the financial information.
 - viii. whether management is aware of allegations of fraud or suspected fraud affecting the entity communicated by employees, former employees, regulators, or others.
 - ix. significant journal entries and other adjustments.
 - x. communications from regulatory agencies.
 - xi. significant deficiencies and material weaknesses in the design or operation of internal control as it relates to the preparation and fair presentation of both annual and interim financial information.
 - xii. changes in related parties or significant new related party transactions.
- d. Obtain evidence that the interim financial information agrees or reconciles with the accounting records. In addition, the auditor should inquire of management about the reliability of the records to which the interim financial information was compared or reconciled. (Ref: par. .A19)
- e. Read the interim financial information to consider whether, based on the results of the review procedures performed and other information that has come to the auditor's attention, the information to be reported is in accordance with the applicable financial reporting framework.
- f. Read other information in documents containing the interim financial information to consider whether such information or the manner of its presentation is materially inconsistent with the interim financial information. If the auditor concludes that a material inconsistency exists or becomes aware of information that the auditor believes is a material misstatement of fact, the auditor should take action based on the auditor's professional judgment. (Ref: par. .A22–.A23)

Inquiry Concerning Litigation, Claims, and Assessments

.15 If information comes to the auditor's attention regarding litigation, claims, or assessments that leads the auditor to question whether the interim financial information has been prepared, in all material respects, in accordance with the applicable financial reporting framework, and the auditor believes that the entity's internal or external legal counsel may have relevant information, the auditor should inquire of such legal counsel concerning litigation, claims, and assessments. (Ref: par. .A22)

Inquiry Concerning an Entity's Ability to Continue as a Going Concern

.16 If the applicable financial reporting framework includes requirements for management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing interim financial information, the auditor should perform interim review procedures related to (a) whether the going concern basis of accounting is appropriate; (b) management's evaluation of whether there are conditions or events that raised substantial doubt about the entity's ability to continue as a going concern; (c) if there are conditions or events that raised substantial doubt about the entity's ability to continue as a going concern, management's plans to mitigate those matters; and (d) the adequacy of the related disclosures in the interim financial information. (Ref: par. .A23–.A24) [Paragraph added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

.17 If the applicable financial reporting framework does not include a requirement for management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing interim financial information and (a) conditions or events that raise substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time existed at the date of prior period financial statements, regardless of whether the substantial doubt was alleviated by the auditor's consideration of management's plans, or (b) in the course of performing review procedures on the current period interim financial information, the auditor becomes aware of conditions or events that raise substantial doubt about the entity's ability to continue as a going concern, the auditor should

- a. inquire of management whether the going concern basis of accounting is appropriate,
- b. inquire of management about its plans for dealing with the adverse effects of the conditions and events, and (Ref: par. .A25)
- c. consider the adequacy of the disclosure about such matters in the interim financial information. (Ref: par. .A26)

[Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

Consideration of Management's Responses and Extension of Interim Review Procedures

.18 The auditor should consider the reasonableness and consistency of management's responses in light of the results of other review procedures and the auditor's knowledge of the entity's business and its internal control. However, the auditor is not required to corroborate management's responses with other evidence. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.19 When a matter comes to the auditor's attention that leads the auditor to question whether the interim financial information has been prepared in accordance with the applicable financial reporting framework in all material respects, the auditor should make additional inquiries of management or

others or perform other procedures to provide a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information. (Ref: par. .A27) [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Evaluating the Results of Interim Review Procedures

.20 The auditor should accumulate misstatements, including inadequate disclosure, identified by the auditor in performing the review procedures or brought to the auditor's attention during the performance of the review. (Ref: par. .A28) [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.21 The auditor should evaluate, individually and in the aggregate, misstatements, including inadequate disclosure, accumulated in accordance with paragraph .20 to determine whether material modification should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework. (Ref: par. .A29–.A30) [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Written Representations From Management

.22 For all interim financial information presented and for all periods covered by the review, the auditor should request management to provide written representations, as of the date of the auditor's review report (Ref: par. .A31–.A32)

- a. that management has fulfilled its responsibility for the preparation and fair presentation of the interim financial information, in accordance with the applicable financial reporting framework, as set out in the terms of the engagement.
- b. that management acknowledges its responsibility for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of interim financial statements, including its responsibility to prevent and detect fraud.
- c. that management has disclosed to the auditor all significant deficiencies and material weaknesses in the design or operation of internal control of which management is aware as it relates to the preparation and fair presentation of both annual and interim financial information.
- d. that management has provided the auditor with all relevant information and access, as agreed upon in the terms of the engagement.
- e. that all transactions have been recorded and are reflected in the interim financial information.
- f. that management has disclosed to the auditor the results of its assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
- g. that management has disclosed to the auditor its knowledge of fraud or suspected fraud affecting the entity involving
 - i. management,
 - ii. employees who have significant roles in internal control, or
 - iii. others when the fraud could have a material effect on the interim financial information.

- h.* that management has disclosed to the auditor its knowledge of any allegations of fraud or suspected fraud affecting the entity's interim financial information communicated by employees, former employees, regulators, or others.
- i.* that management has disclosed to the auditor all known instances of noncompliance or suspected noncompliance with laws and regulations whose effects should be considered when preparing interim financial information.
- j.* about whether management believes that the effects of uncorrected misstatements are immaterial, individually and in the aggregate, to the interim financial information as a whole. A summary of such items should be included in, or attached to, the written representation. (Ref: par. .A33)
- k.* that management has disclosed to the auditor all known actual or possible litigation and claims whose effects should be considered when preparing the interim financial information, and it has appropriately accounted for and disclosed such litigation and claims in accordance with the applicable financial reporting framework.
- l.* about whether management believes that significant assumptions used by it in making accounting estimates are reasonable.
- m.* that management has disclosed to the auditor the identity of all the entity's related parties and all the related party relationships and transactions of which it is aware, and it has appropriately accounted for and disclosed such relationships and transactions.
- n.* that all events occurring subsequent to the date of the interim financial information and for which the applicable financial reporting framework requires adjustment or disclosure have been adjusted or disclosed.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. As amended, effective for reviews of interim financial information for interim periods of fiscal years ending on or after December 15, 2021, by SAS No. 135.]

.23 If the auditor has concerns about the reliability of the representations or if management does not provide the requested written representations, the auditor should take appropriate action. When management does not provide the written representations described in paragraph .22*a–e*, the auditor should withdraw from the engagement to review the interim financial information. (Ref: par. .A34) [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Communications With Management and Those Charged With Governance

Matters Affecting the Completion of the Review

.24 If the auditor cannot complete the review, the auditor should communicate to the appropriate level of management and those charged with governance

- a.* the reason why the review cannot be completed;
- b.* that an incomplete review does not provide a basis for reporting and, accordingly, that the auditor is precluded from issuing a review report; and

- c. any material modifications of which the auditor has become aware that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework, in accordance with paragraphs .25–.27. (Ref: par. .A35)

[Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.25 The auditor should communicate to the appropriate level of management, as soon as practicable, matters that come to the auditor's attention during the conduct of the review that cause the auditor to believe that

- a. material modification should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework, or
- b. the entity issued the interim financial information before the completion of the review.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.26 If, in the auditor's judgment, management does not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should inform those charged with governance of the matters as soon as practicable. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.27 If, in the auditor's judgment, those charged with governance do not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should consider whether to withdraw (a) from the engagement to review the interim financial information and (b) if applicable, from serving as the entity's auditor. (Ref: par. .A36) [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Other Matters

.28 If the auditor becomes aware that fraud may have occurred, the auditor should communicate the matter as soon as practicable to the appropriate level of management. If the fraud involves senior management or results in a material misstatement of the interim financial information, the auditor should communicate the matter directly to those charged with governance. If the auditor becomes aware of matters involving identified or suspected noncompliance with laws and regulations whose effects should be considered when preparing interim financial information, the auditor should communicate the matters to those charged with governance, other than when the matters are clearly inconsequential. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.29 The auditor should communicate relevant matters of governance interest arising from the review of interim financial information to those charged with governance, including the following:

- a. Significant deficiencies or material weaknesses in internal control as it relates to the preparation and fair presentation of annual and interim financial information (Ref: par. .A37)
- b. Any of the matters described in section 260, *The Auditor's Communication With Those Charged With Governance*, that have been identified, as they relate to the interim financial information (Ref: par. .A38–.A40)

[Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

The Auditor's Report on a Review of Interim Financial Information

Form of the Auditor's Review Report

.30 The auditor's review report should be in writing. (Ref: par. .A41–.A42) [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.31 The written review report should include the following: (Ref: par. .A43–.A44)

- a. A title that clearly indicates that it is the report of an independent auditor.
- b. An addressee as appropriate based on the circumstances of the engagement. (Ref: par. .A45)
- c. The first section of the auditor's report on a review of interim financial information should include the auditor's conclusion and the heading, "Results of Review of Interim Financial Information," and the following elements:
 - i. The name of the entity whose interim financial information has been reviewed
 - ii. A statement that the interim financial information identified in the report was reviewed
 - iii. The title of each statement that interim financial information comprises (Ref: par. .A46–.A47)
 - iv. A reference to the notes
 - v. The dates of or periods covered by each financial statement that the interim financial information comprises
 - vii. A statement about whether the auditor is aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with the applicable financial reporting framework and that identifies the country of origin of those accounting principles, if applicable (Ref: par. .A48–.A51)
- d. A section, directly following the "Results of Interim Financial Information" section, that includes the heading, "Basis for Review Results," and does the following: (Ref: par. . A52)
 - i. States that the review was conducted in accordance with generally accepted auditing standards applicable to reviews of interim financial information and identifies the United States of America as the country of origin of those standards (Ref: par. .A53)
 - ii. Includes a statement that a review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters
 - iii. Includes a statement that a review of interim financial information is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is an expression of an opinion regarding the financial information as a whole, and accordingly, the auditor does not express such an opinion

- iv. Includes a statement that the auditor is required to be independent of the entity and to meet the auditor's other ethical responsibilities, in accordance with the relevant ethical requirements relating to the review (Ref: par. .A54–.A55)
- v. States whether the auditor believes that the results of the review procedures provide a reasonable basis for the auditor's conclusion
- e. A section that includes the heading "Responsibilities of Management for the Interim Financial Information" and includes a statement that management is responsible for the preparation and fair presentation of the interim financial information in accordance with the applicable financial reporting framework, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.
- f. The manual or printed signature of the auditor's firm. (Ref: par. .A56–.A58)
- g. The city and state where the auditor's report is issued. (Ref: par. .A59)
- h. The date of the review report, which should be dated no earlier than the date on which the auditor completed procedures sufficient to obtain a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information in order for it to be in accordance with the applicable financial reporting framework, including evidence of the following: (Ref: par. .A60)
 - i. All the statements and disclosures that the interim financial information comprises have been prepared.
 - ii. Management has asserted that it has taken responsibility for the interim financial information.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. As amended, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.32 The auditor should determine that management has clearly marked as unaudited each page of the interim financial information accompanying the review report. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Comparative Interim Financial Information That Has Not Been Reviewed Presented With Reviewed Interim Financial Information

.33 If an auditor is engaged to perform a review of the most recent interim period in accordance with this section, and such financial information will be presented in comparative form with interim financial information of a prior period that has not been reviewed, such interim financial information should be accompanied by an indication in the auditor's review report that the auditor has not reviewed the prior period interim financial information and that the auditor assumes no responsibility for it. (Ref: par. .A61) [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Interim Financial Information Presented With Condensed Balance Sheet Information for the Most Recent Year End

.34 When a condensed balance sheet derived from audited financial statements is presented on a comparative basis with the interim financial information, the auditor should report on the condensed balance sheet only when the auditor audited the financial statements from which the condensed balance sheet was derived. The auditor should compare the condensed balance sheet with the related information in the audited financial statements to determine whether the condensed balance sheet agrees with, or can be recalculated from, the related information in the audited financial statements. The auditor's report on the interim financial information should include a paragraph addressing the condensed balance sheet that

- a. identifies the condensed balance sheet on which the auditor is reporting.
- b. identifies the audited financial statements from which the condensed balance sheet was derived and indicates that such financial statements are not separately presented.
- c. refers to the auditor's report on the audited financial statements, the date of that report, and the type of opinion expressed and, if the opinion is modified, the basis for the modification.
- d. describes the nature of any emphasis-of-matter paragraph or other-matter paragraph included in the auditor's report.
- e. includes an opinion about whether the condensed balance sheet is consistent, in all material respects, in relation to the audited financial statements from which it has been derived. (Ref: par. .A62)

[Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Modification of the Auditor's Review Report

.35 When the interim financial information has not been prepared in accordance with the applicable financial reporting framework in all material respects, the auditor should consider whether modification of the auditor's review report on the interim financial information is sufficient to address the departure from the applicable financial reporting framework. (Ref: par. .A63–.A66) [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.36 If the auditor concludes that modification of the standard review report is sufficient to address the departure, the auditor should modify the review report. The modification should describe the nature of the departure and, if practicable, should state the effects on the interim financial information. If the departure is due to inadequate disclosure, the auditor should, if practicable, include the information in the report that the auditor believes is necessary for adequate disclosure in accordance with the applicable financial reporting framework. (Ref: par. .A67) [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.37 If the auditor believes that modification of the review report is not sufficient to address the deficiencies in the interim financial information, the auditor should withdraw from the review engagement and provide no further services with respect to such interim financial information. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Separate Section in the Auditor's Review Report Regarding Going Concern

.38 The auditor should include a separate section in the auditor's review report with the heading "Substantial Doubt About an Entity's Ability to Continue as a Going Concern" in any of the following circumstances, regardless of whether the entity is required under the applicable financial reporting framework to include a statement in the notes to the interim financial information that substantial doubt exists: (Ref : par. .A68–.A70)

- a. Such a section was included in the prior year's auditor's report and
 - i. the conditions or events that caused the auditor to conclude that substantial doubt about the entity's ability to continue as a going concern continue to exist and
 - ii. those conditions or events continue to raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time and management's plans do not alleviate them.
- b. Such a section was not included in the prior year's auditor's report and
 - i. management is required under the applicable financial reporting framework to include a statement in the notes to the interim financial information that substantial doubt exists and
 - ii. management has included such statement in the notes to the interim financial information.

[Paragraph added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132. As amended, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.39 The description in the "Going Concern" section about the entity's ability to continue as a going concern for a reasonable period of time should use terms consistent with those included in the applicable financial reporting framework. The auditor should not use conditional language concerning the existence of substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Subsequent Discovery of Facts Existing at the Date of the Auditor's Review Report

.40 If, subsequent to the date of the auditor's review report, the auditor becomes aware that facts existed at the date of the review report that might have affected the auditor's review report had the auditor then been aware of those matters, the auditor should apply the requirements and guidance, adapted as necessary, in section 560, *Subsequent Events and Subsequently Discovered Facts*. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Other Considerations

.41 If management does not include the auditor's review report in a report, document, or written communication containing the reviewed interim financial

information that indicates that such information has been reviewed by the entity's auditor, despite having agreed in the terms of the engagement to do so, the auditor should perform the following procedures:

- Request that management amend the report, document, or written communication to include the auditor's review report and reissue the report, document, or written communication
- If management does not comply with the request to amend and reissue the report, document, or written communication, request that the auditor's name not be associated with the interim financial information or referred to in the report, document, or written communication because the auditor will not permit either the use of the auditor's name or reference to the auditor unless the auditor's review report is included with the reviewed interim financial information in these circumstances
- Communicate management's noncompliance with the requests to those charged with governance
- When appropriate, recommend that the entity consult with its legal counsel about the application of relevant laws and regulations to the circumstances
- Consider what other actions might be appropriate (Ref: par. .A71)

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.42 If the auditor has issued a modified review report due to a departure from the applicable financial reporting framework, and management issues the interim financial information without including the review report in the document containing the interim financial information, the auditor should determine the appropriate course of action in the circumstances, including whether to withdraw from the engagement to audit the annual financial statements. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

Interim Financial Information Accompanying Audited Financial Statements

.43 The auditor should include an other-matter paragraph in the auditor's report on the audited financial statements when all the following conditions exist:

- a. The interim financial information that has been reviewed in accordance with this section is included in a document containing audited financial statements.
- b. The interim financial information accompanying audited financial statements does not appear to be presented in accordance with the applicable financial reporting framework.
- c. The auditor's separate review report, which refers to the departure from the applicable financial reporting framework, is not presented with the interim financial information.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.44 The auditor is required by section 700, *Forming an Opinion and Reporting on Financial Statements*, to address in the auditor's report on the audited financial statements information that is not required by the applicable

financial reporting framework but is nevertheless presented as part of the basic financial statements if it cannot be clearly differentiated.³ When the interim financial information included in a note to the financial statements, including information that has been reviewed in accordance with this section, is not appropriately marked as unaudited, the auditor should, in the auditor's report on the audited financial statements, disclaim an opinion on the interim financial information. (Ref: par. .A72–.A73) [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

Documentation

.45 The auditor should prepare documentation in connection with a review of interim financial information that will enable an experienced auditor, having no previous connection to the review, to understand

- a. the nature, timing, and extent of the review procedures performed;
- b. the results of the review procedures performed and the evidence obtained; and
- c. significant findings or issues arising during the review, the conclusions reached thereon, and significant professional judgments made in reaching those conclusions.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.46 The documentation should include the communications required by this section, whether written or oral. (Ref: par. .A74–.A75) [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

Application and Other Explanatory Material

Scope of This Section (Ref: par. .02)

.A1 The ability to apply this section even when the auditor does not expect to be engaged to audit the current year financial statements provides for appropriate transitions between the predecessor auditor and the auditor of the current year financial statements.

.A2 Appropriate financial reporting frameworks for condensed interim financial information may include, for example, Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 270, *Interim Reporting*, and Article 10 of Securities and Exchange Commission (SEC) Regulation S-X, with respect to accounting principles generally accepted in the United States of America, or International Accounting Standard 34, *Interim Financial Reporting*, with respect to International Financial Reporting Standards issued by the International Accounting Standards Board. FASB ASC 270 outlines the application of U.S. generally accepted accounting principles (GAAP) to the determination of income when interim financial information is presented, provides for the use of estimated effective income tax rates, and specifies certain disclosure requirements for condensed interim financial information issued by public companies and may be adapted by nonissuers as a fair presentation framework for

³ Paragraph .59 of section 700, *Forming an Opinion and Reporting on Financial Statements*. [Revised, July 2017, to reflect conforming changes necessary due to the issuance of SAS No. 131.]

condensed interim financial information. In addition to FASB ASC 270, other FASB ASC topics also include disclosure requirements for interim financial information.

The Meaning of Readily Available (Ref: par. .02d(iii))

.A3 Audited financial statements are deemed to be readily available if a third-party user can obtain the financial statements without any further action by the entity (for example, financial statements on an entity's website may be considered readily available, but being available upon request is not considered readily available).

Objective (Ref: par. .05)

.A4 The objective of a review of interim financial information differs significantly from that of an audit conducted in accordance with auditing standards generally accepted in the United States of America. A review of interim financial information does not provide a basis for expressing an opinion about whether the interim financial information is presented fairly, in all material respects, in accordance with the applicable financial reporting framework.

.A5 A review, in contrast to an audit, is not designed to provide the auditor with a basis for obtaining reasonable assurance that the interim financial information is free from material misstatement. A review consists principally of performing analytical procedures and making inquiries of persons responsible for financial and accounting matters and does not contemplate (a) tests of accounting records through inspection, observation, or confirmation; (b) tests of controls to evaluate their effectiveness; (c) the obtainment of corroborating evidence in response to inquiries; or (d) the performance of certain other procedures ordinarily performed in an audit. A review may bring to the auditor's attention significant findings or issues affecting the interim financial information, but it does not provide assurance that the auditor will become aware of all significant findings or issues that would be identified in an audit.

Acceptance

Agreement on Engagement Terms (Ref: par. .10)

.A6 The engagement letter or other suitable form of written agreement documenting the agreed-upon terms of the engagement with the entity regarding a review of interim financial information may use the following wording to include the information necessary to meet the requirements of paragraph .10:

Objectives and scope of the engagement

- The objective of a review of interim financial information is to provide the auditor with a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to be in accordance with the applicable financial reporting framework.
- A review includes obtaining sufficient knowledge of the entity's business and internal control, as it relates to the preparation and fair presentation of both annual and interim financial information, to enable the auditor to
 - identify the types of potential material misstatements in the interim financial information and consider the likelihood of their occurrence.

- select the inquiries and analytical procedures that will provide the auditor with a basis for reporting whether the auditor is aware of any material modifications that should be made to the interim financial information for it to conform with the applicable financial reporting framework.

Management's responsibilities

- Management is responsible for the following:
 - Preparing and presenting the interim financial information in accordance with the applicable financial reporting framework.
 - Designing, implementing, and maintaining internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with the applicable financial reporting framework.
 - Providing the auditor with (a) access to all information of which management is aware that is relevant to the preparation and fair presentation of the interim financial information, such as records, documentation, and other matters; (b) additional information that the auditor may request from management for the purpose of the review; and (c) unrestricted access to persons within the entity of whom the auditor determines it necessary to make inquiries.
 - Including the auditor's review report in any document containing interim financial information that indicates that such information has been reviewed by the entity's auditor.
 - Identifying and ensuring that the entity complies with the laws and regulations applicable to its activities.
 - Providing the auditor, at the conclusion of the engagement, with a letter confirming certain representations made during the review.
 - Adjusting the interim financial information to correct material misstatements. Although a review of interim financial information is not designed to provide the auditor with reasonable assurance that the interim financial information is free from material misstatement, management nonetheless is responsible for affirming in its representation letter to the auditor that the effects of any uncorrected misstatements aggregated by the auditor during the current engagement and pertaining to the current year period(s) under review are immaterial, both individually and in the aggregate, to the interim financial information as a whole.

The auditor's responsibilities

- The auditor is responsible for conducting the review in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of performing analytical procedures and making inquiries of persons

responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information as a whole. Accordingly, the auditor will not express an opinion on the interim financial information.

Limitations of the engagement

- A review does not provide a basis for expressing an opinion about whether the interim financial information is presented fairly, in all material respects, in accordance with the applicable financial reporting framework.
- A review does not provide the auditor with a basis for obtaining reasonable assurance that the auditor will become aware of all significant findings or issues that would be identified in an audit.
- A review is not designed to provide the auditor with a basis for obtaining reasonable assurance on internal control or to identify significant deficiencies or material weaknesses in internal control; however, the auditor is responsible for communicating to management and those charged with governance any significant deficiencies or material weaknesses in internal control that the auditor identifies during the performance of review procedures.

Procedures for a Review of Interim Financial Information

Understanding the Entity and Its Environment, Including Its Internal Control (Ref: par. .11–.12)

.A7 As required by section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, the auditor who has audited the entity's financial statements for one or more annual periods would have obtained an understanding of the entity and its environment, including its internal control as it relates to the preparation and fair presentation of annual financial information, that was sufficient to conduct the audit. Internal control over the preparation and fair presentation of interim financial information may differ from internal control over the preparation and fair presentation of annual financial statements because certain accounting principles and practices used for interim financial information may differ from those used for the preparation of annual financial statements (for example, the use of estimated effective income tax rates for the preparation of interim financial information).

.A8 The auditor is unable to complete the review if the entity's internal control appears to contain deficiencies so significant that it would be impracticable for the auditor to effectively perform review procedures that would achieve the objective stated in paragraph .05. Paragraph .24 addresses the auditor's responsibilities when the review cannot be completed.

.A9 In an initial review of interim financial information, when performing the procedures for a new client required by paragraph .07, the auditor also may consider requesting access to review the predecessor auditor's documentation related to reviews of an interim period or interim periods in the prior year. However, the inquiries made and analytical procedures performed, or other procedures performed in the initial review, and the conclusions reached are solely the responsibility of the auditor. Therefore, the auditor is not permitted to make reference to the report or work of the predecessor auditor as the basis, in part, for the auditor's own report.

.A10 If the predecessor auditor does not respond to the auditor's inquiries or does not allow the auditor to review the predecessor auditor's documentation, the auditor may inquire why and use alternative procedures to obtain the understanding required by paragraph .11.

Analytical Procedures, Inquiries, and Other Review Procedures

Analytical Procedures (Ref: par. .13)

.A11 Procedures for conducting a review of interim financial information generally are limited to analytical procedures, inquiries, and other procedures that address significant accounting and disclosure matters relating to the interim financial information. The auditor's understanding of the entity and its environment, including its internal control, the results of the risk assessments relating to the preceding audit, and the auditor's consideration of materiality as it relates to the interim financial information, influences the nature and extent of the inquiries made and analytical procedures performed. For example, if the auditor becomes aware of a significant change in the entity's control activities at a particular location, the auditor may consider the following procedures:

- Making additional inquiries, such as whether management monitored the changes and considered whether they were operating as intended
- Employing analytical procedures with a more precise expectation

.A12 Examples of analytical procedures that an auditor may consider performing when conducting a review of interim financial information are contained in appendix A, "Analytical Procedures the Auditor May Consider Performing When Conducting a Review of Interim Financial Information." The auditor also may find the guidance in section 520, *Analytical Procedures*, useful in conducting a review of interim financial information.

.A13 Expectations developed by the auditor in performing analytical procedures in connection with a review of interim financial information ordinarily are less precise than those developed in an audit. Also, in a review, the auditor is not required to corroborate management's responses with other evidence.

.A14 In considering plausible relationships, the auditor may consider information developed and used by the entity (for example, analyses prepared for management or those charged with governance).

.A15 To compare disaggregated revenue data, the auditor may compare, for example, revenue reported by month and product line or operating segment during the current interim period with that of comparable prior periods.

Inquiries and Other Review Procedures (Ref: par. .14)

.A16 Many of the inquiries and review procedures can be performed before, or simultaneously with, the entity's preparation of the interim financial information. For example, the auditor may update the understanding of the entity's internal control and begin reading applicable minutes before the end of an interim period. Performing some of the review procedures earlier in the interim period also permits early identification and consideration of significant findings and issues affecting the interim financial information. In addition, when the auditor performing the review of interim financial information is also engaged to perform an audit of the annual financial statements of the entity, certain auditing procedures associated with the annual audit of the financial statements may be performed concurrently with the review of interim financial information. For example, information gained from reading the minutes of meetings of

the board of directors in connection with the review also may be relevant to the annual audit. Also, there may be significant or unusual transactions occurring during an interim period (for example, business combinations, restructurings, or significant revenue transactions) for which the procedures that would need to be performed for purposes of the audit of the annual financial statements could be performed, to the extent practicable, at the time of the review of the interim period in which the transactions are first recorded.

.A17 The auditor may find the guidance in section 600, *Special Considerations — Audits of Group Financial Statements (Including the Work of Component Auditors)*, useful in conducting a review of interim financial information for an entity that prepares group financial statements.

.A18 Examples of unusual or complex situations about which the auditor may inquire of management are contained in appendix B, "Unusual or Complex Situations to Be Considered by the Auditor When Conducting a Review of Interim Financial Information."

.A19 To obtain evidence that the interim financial information agrees or reconciles with the accounting records, the auditor may compare the interim financial information to (a) the accounting records, such as the general ledger; (b) a consolidating schedule derived from the accounting records; or (c) other supporting data in the entity's records.

[.A20] [Paragraph deleted by the issuance of SAS No. 140, April 2020.]

[.A21] [Paragraph deleted by the issuance of SAS No. 140, April 2020.]

Inquiry Concerning Litigation, Claims, and Assessments (Ref: par. .15)

.A22 A review of interim financial information does not contemplate obtaining corroborating evidence for responses to inquiries, such as those concerning litigation, claims, and assessments. Consequently, the auditor is not required to send an inquiry letter to an entity's legal counsel concerning litigation, claims, and assessments.

Inquiry Concerning an Entity's Ability to Continue as a Going Concern (Ref: par. .16–.17)

.A23 The nature and extent of the auditor's interim review procedures are matters of the auditor's professional judgment. For example, when a history of profitable operations and ready access to financing exists, inquiry alone might be sufficient to review the entity's ability to continue as a going concern for a reasonable period of time. [Paragraph added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

.A24 Certain financial reporting frameworks require management to evaluate the entity's ability to continue as a going concern for a reasonable period of time in preparing interim financial information.⁴ For example, FASB ASC requires management to evaluate whether there are conditions and events, considered in the aggregate, that raise substantial doubt about an entity's ability to continue as a going concern.⁵ Under FASB ASC, the evaluation period

⁴ See paragraph .11 of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, for the definition of *reasonable period of time*. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

⁵ "Pending Content" in FASB *Accounting Standards Codification* (ASC) 205-40-50-1. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

is within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued, when applicable).⁶ [Paragraph added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

.A25 A review of interim financial information is not designed to identify conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time. However, conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time may have existed at the date of the prior period financial statements or may be identified as a result of inquiries of management or in the course of performing other review procedures. [Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

.A26 Section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, may provide useful guidance to the auditor when considering whether there is adequate and appropriate disclosure in the interim financial information about the entity's ability to continue as a going concern for a reasonable period of time⁷ when

- a. conditions or events have been identified as of the interim reporting date covered by the review and substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time exists, or
- b. the auditor's report for the prior year end contained an emphasis-of-matter paragraph indicating the existence of substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time, and the conditions that raised such doubt continued to exist as of the interim reporting date covered by the review.

If the auditor determines that the disclosure related to substantial doubt about the entity's ability to continue as a going concern is inadequate, resulting in a departure from the applicable financial reporting framework, the auditor is required by paragraph .35 to modify the report. [Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

Consideration of Management's Responses and Extension of Interim Review Procedures (Ref: par. .19)

.A27 The auditor's interim review procedures may lead the auditor to make additional inquiries, such as questioning whether, for example, a significant sales transaction is recorded in accordance with the applicable financial reporting framework. Additional procedures that the auditor may perform to resolve such questions include discussing the terms of the transaction with senior sales and accounting personnel, reading the sales contract, or both. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

⁶ See footnote 5. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

⁷ Paragraphs .22–.23 of section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*. [Footnote revised, August 2012, to reflect conforming changes necessary due to the issuance of SAS No. 126. Footnote renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132.]

Evaluating the Results of Interim Review Procedures (Ref: par. .20–.21)

.A28 The auditor may designate an amount below which misstatements would be clearly trivial and would not need to be accumulated because the auditor expects that the accumulation of such amounts would not have a material effect on the interim financial information.⁸ [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.A29 As noted in paragraph .A2, appropriate financial reporting frameworks for interim financial information may include, for example, FASB ASC 270 and Article 10 of SEC Regulation S-X. FASB ASC 270 describes the applicability of GAAP to interim financial information and indicates the types of disclosures necessary to report on a meaningful basis for a period of less than one full year. FASB ASC 270-10-45-16 provides guidance on assessing materiality in interim periods. For example, it states that in determining materiality for the purpose of reporting the correction of an error, amounts shall be related to the estimated income for the full fiscal year and also to the effect on the trend of earnings. Further, Rule 10-01(a)(5) of SEC Regulation S-X states the following:

The interim financial information shall include disclosures either on the face of the financial statements or in accompanying footnotes sufficient so as to make the interim information presented not misleading. Registrants may presume that users of the interim financial information have read or have access to the audited financial statements for the preceding fiscal year and that the adequacy of additional disclosure needed for a fair presentation, except in regard to material contingencies may be determined in that context. Accordingly, footnote disclosure which would substantially duplicate the disclosure contained in the most recent annual report to security holders or latest audited financial statements, such as a statement of significant accounting policies and practices, details of accounts which have not changed significantly in amount or composition since the end of the most recently completed fiscal year, and detailed disclosures prescribed by Rule 4-08 of this Regulation, may be omitted. However, disclosure shall be provided where events subsequent to the end of the most recent fiscal year have occurred which have a material impact on the registrant. Disclosures should encompass for example, significant changes since the end of the most recently completed fiscal year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modification of existing financing arrangements; and the reporting entity resulting from business combinations or dispositions. Notwithstanding the above, where material contingencies exist, disclosure of such matters shall be provided even though a significant change since year end may not have occurred.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.A30 Considerations that may affect the evaluation of whether uncorrected misstatements, individually or in the aggregate, are material include the following:

- The nature, cause (if known), and amount of the misstatements
- Whether the misstatements originated in the preceding year or interim periods of the current year

⁸ Paragraph .A2 of section 450, *Evaluation of Misstatements Identified During the Audit*. [Footnote renumbered by the issuance of SAS No. 132, February 2017.]

- Materiality judgments made in conjunction with the current or prior year's annual audit
- The potential effect of the misstatements on future interim or annual periods
- The appropriateness of offsetting a misstatement of an estimated amount with a misstatement of an item capable of precise measurement
- Recognition that an accumulation of immaterial misstatements in the balance sheet could contribute to material misstatements in future periods

Section 450, *Evaluation of Misstatements Identified During the Audit*, provides guidance regarding qualitative considerations in evaluating whether misstatements are material. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Written Representations From Management (Ref: par. .22-.23)

.A31 Exhibit A, "Illustrative Management Representation Letters for a Review of Interim Financial Information," contains illustrative representation letters for engagements to review interim financial information. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.A32 The auditor may request additional representations, including representations regarding the following:

- Matters specific to the entity's business or industry
- Support for any assertion that a transaction with a related party was conducted on terms equivalent to those prevailing in an arm's-length transaction
- Whether any side agreements or other arrangements (either written or oral) exist that have not been disclosed to the auditor

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. As amended, effective for reviews of interim financial information for interim periods of fiscal years ending on or after December 15, 2021, by SAS No. 135.]

.A33 If no uncorrected misstatements were identified, the representation regarding uncorrected misstatements is not relevant and, accordingly, is not required. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.A34 Appropriate action when management does not provide one or more requested written representations or when the auditor has concerns about the reliability of the representations may include

- discussing the matter with management and, when relevant, those charged with governance;
- reevaluating the integrity of management and evaluating the effect that this may have on the reliability of representations (oral or written) and evidence in general; and
- considering whether to withdraw from the engagement to review the interim financial information and, if applicable, as the entity's auditor.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Communications With Management and Those Charged With Governance

Matters Affecting the Completion of the Review (Ref: par. .24 and .27)

.A35 When an auditor is unable to perform the procedures that the auditor considers necessary to achieve the objective of a review of interim financial information, or management does not provide the auditor with the written representations that the auditor believes are necessary, the review will be incomplete. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.A36 The auditor may seek legal advice when considering whether to withdraw from the engagement to review the interim financial information and as the entity's auditor. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

Other Matters (Ref: par. .29)

.A37 Section 265, *Communicating Internal Control Related Matters Identified in an Audit*, provides guidance on identifying and communicating deficiencies in internal control. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.A38 As a result of performing the review of the interim financial information, the auditor may become aware of matters that, in the opinion of the auditor, are both significant and relevant to those charged with governance in overseeing the financial reporting and disclosure process. Examples of such matters include the following:

- A change in a significant accounting policy affecting the interim financial information
- Adjustments that either individually or in the aggregate could have a significant effect on the entity's financial reporting process
- Uncorrected misstatements aggregated by the auditor that were determined by management to be immaterial, both individually and in the aggregate, to the interim financial information as a whole

[Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.A39 The objective of a review of interim financial information differs significantly from that of an audit. Therefore, any communication that the auditor may make about the quality, not just the acceptability, of the entity's accounting principles as applied to its interim financial reporting generally is limited to the effect of significant events, transactions, and changes in accounting estimates that the auditor considered when conducting the review of interim financial information. Further, interim review procedures do not provide assurance that the auditor will become aware of all matters that might affect the auditor's judgments about the quality of the entity's accounting principles that would be identified as a result of an audit. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

.A40 The communications required by paragraphs .24–.29 may be oral or written. The communications are most helpful when made on a sufficiently timely basis to enable management or those charged with governance to take appropriate action. [Paragraph renumbered by the issuance of SAS No. 132, February 2017.]

The Auditor's Report on a Review of Interim Financial Information

Form of the Auditor's Review Report (Ref: par. .30-.31)

.A41 A written report encompasses reports issued in hard copy format and those using an electronic medium. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A42 Entities may be required by third parties to engage auditors to perform a review of interim financial information, but such third parties may choose to not require that a written auditor's review report on such information be provided to users of the entity's interim financial information. For example, entities that trade unregistered private equity securities on electronic trading platforms, often referred to as private equity exchanges, may be required to provide financial and other information to the qualified investors on the exchange's website. The ongoing reporting requirements of these exchanges are substantially similar to the reporting required of issuers, wherein entities trading securities on such exchanges are required to engage auditors to review their interim financial information but are not required to include written review reports with interim financial information provided to qualified investors. Nonetheless, in accordance with paragraph .30, the auditor's report on the review of the interim financial information is required to be in writing. [Paragraph subsequently renumbered by the issuance of SAS No. 132, February 2017. Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A43 Reporting considerations related to the dating of reports or subsequent events encountered during a review are similar to those encountered in an audit of financial statements. Sections 560 and 700 provide guidance on these issues. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A44 Exhibit B, "Illustrations of Auditor's Review Reports on Interim Financial Information," contains illustrations of review reports. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

Addressee (Ref: par. .31b)

.A45 The auditor's report is normally addressed to those for whom the report is prepared. The report may be addressed to the entity whose interim financial information is being reviewed or to those charged with governance. A report on the interim financial information of an unincorporated entity may be addressed as circumstances dictate (for example, to the partners, general partner, or proprietor). [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Results of Review of Interim Financial Information (Ref: par. .31c)

.A46 The identification of the title and the dates of, or periods covered by, each statement that the interim financial information comprises may also be achieved by referencing the table of contents in a document bound with or

accompanying the interim financial information and auditor's report thereon. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A47 When the auditor is aware that the reviewed interim financial information will be included in a document that contains information in addition to the interim financial information and the auditor's report thereon, the auditor may consider, if the form of presentation allows, identifying the page numbers on which the reviewed interim financial information is presented. This helps users identify the interim financial information to which the auditor's report relates. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A48 As explained in section 200, the preparation and fair presentation of the financial statements by management and, when appropriate, those charged with governance, requires the inclusion of an adequate description of the applicable financial reporting framework in the financial statements.⁹ That description is important because it advises users of the financial statements of the framework on which the financial statements are based. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A49 The title of the financial statements identified in the "Results of Review of Interim Financial Information" section describes the information that is the subject of the auditor's conclusion. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A50 The auditor's conclusion covers the *interim financial information*, as defined by the applicable financial reporting framework. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A51 The identification of the applicable financial reporting framework in the auditor's conclusion is intended to advise users of the auditor's report of the context in which the auditor's conclusion is expressed. For example, the applicable financial reporting framework may be identified as accounting principles generally accepted in the United States of America or U.S. generally accepted accounting principles or International Financial Reporting Standards promulgated by the International Accounting Standards Board (IASB) or *International Financial Reporting Standard for Small- and Medium-Sized Entities promulgated by the IASB*. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Basis for Review Results (Ref: par. .31d)

.A52 The "Basis for Review Results" section provides important context about the auditor's conclusion. Accordingly, this section requires the "Basis for Review Results" section to directly follow the "Results of Review of Interim Financial Information" section in the auditor's report. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

⁹ Paragraphs .A2–.A3 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Generally Accepted Auditing Standards*. [Footnote added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A53 The reference to the standards used conveys to the users of the auditor's report that the review has been conducted in accordance with established standards. For example, the auditor's report may refer to *auditing standards generally accepted in the United States of America* or *U.S. generally accepted auditing standards applicable to reviews of interim financial information*. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Relevant Ethical Requirements (Ref: par. .31d(v))

.A54 Section 200 explains that *ethical requirements* consist of the AICPA Code of Professional Conduct (AICPA code) together with rules of state boards of accountancy and applicable regulatory agencies that are more restrictive.¹⁰ When the AICPA code applies, the auditor's other ethical responsibilities relate to the principles of professional conduct "Principles of Professional Conduct" (ET sec. 0.300). [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A55 Relevant ethical requirements may exist in several different sources, such as ethical codes and additional rules and requirements within law and regulation. When independence and other relevant ethical requirements are contained in a limited number of sources, the auditor may choose to name the relevant sources (for example, the AICPA code, when applicable; the rule or applicable regulation; or *Government Auditing Standards* promulgated by the Comptroller General of the United States) or may refer to a term that appropriately describes those sources. Relevant ethical requirements, including those pertaining to independence, in a group audit situation may be complex. Section 600, *Special Considerations — Audits of Group Financial Statements (Including the Work of Component Auditors)*,¹¹ provides guidance for auditors in performing work on the financial information of a component for a group audit, including those situations in which the component auditor does not meet the independence requirements that are relevant to the group audit. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Signature of the Auditor (Ref: par. .31g)

.A56 In some cases, law or regulation may allow for the use of electronic signatures in the auditor's report. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A57 In certain situations, the auditor's report may be required by law or regulation to include the personal name and signature of the auditor, in addition to the auditor's firm. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A58 This section would not preclude a governmental auditor from including the personal name and signature of the auditor in the auditor's report when,

¹⁰ Paragraph .A15 of section 200. [Footnote added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

¹¹ Paragraphs .22–.23 of section 600, *Special Considerations — Audits of Group Financial Statements (Including the Work of Component Auditors)*. [Footnote added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

in certain situations, the governmental auditor is required by law or regulation or chooses to do so. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Auditor's Address (Ref: par. .31h)

.A59 In the United States, the location of the issuing office is the city and state. In another country, it may be the city and country. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Date of the Auditor's Report (Ref: par. .31i)

.A60 When an engagement quality control review is performed, section 220A, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, requires that the auditor's report not be released prior to the completion of the engagement quality control review.¹² [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Comparative Interim Financial Information That Has Not Been Reviewed Presented With Reviewed Interim Financial Information (Ref: par. .33)

.A61 The indication that the auditor has not reviewed the prior period interim financial information and that the auditor assumes no responsibility for it may be worded, for example, as follows:

The accompanying [describe the interim financial information or statements] of ABC Company and subsidiaries as of September 30, 20X1, and for the three-month period then ended were not reviewed by us, and accordingly, we do not express any form of assurance on it.

[Paragraph subsequently renumbered by the issuance of SAS No. 132, February 2017. Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Interim Financial Information Presented With Condensed Balance Sheet Information for the Most Recent Year End (Ref: par. .34)

.A62 Because interim financial reporting is intended to be an update to year-end reporting, condensed balance sheet information as of the most recent year end often is presented for comparative purposes with the corresponding information as of the latest interim period. Appendix B includes an illustration of a review report on comparative interim financial information that includes a condensed balance sheet derived from audited financial statements. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

Modification of the Auditor's Review Report (Ref: par. .35-.36)

.A63 Departures from the applicable financial reporting framework include inadequate disclosure and changes in accounting policies that are not in accordance with the applicable financial reporting framework. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

¹² Paragraph .21 of section 220A, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*. [Footnote added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A64 Section 700 addresses the reporting requirements when the circumstances contemplated by the "Accounting Principles Rule" (ET sec. 1.320.001) of the AICPA Code of Professional Conduct are present. [Revised, January 2015, to reflect conforming changes necessary due to the issuance of the revised AICPA Code of Professional Conduct, effective December 15, 2014. Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A65 If the interim financial information adequately discloses a lack of consistency in the application of accounting principles affecting the interim financial information, the auditor may, but is not required to, include an emphasis-of-matter paragraph in the auditor's review report. [Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A66 Exhibit C, "Illustrations of Example Modifications to the Auditor's Review Report Due to Departures From the Applicable Financial Reporting Framework," contains illustrative examples of paragraphs modifying the auditor's review report. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A67 The information necessary for adequate disclosure is influenced by the form and context in which the interim financial information is presented. For example, the disclosures considered necessary for interim financial information presented in accordance with the minimum disclosure requirements of FASB ASC 270-10-50-1, which is applicable to condensed financial statements of public companies, are considerably less extensive than those necessary for annual financial statements that present financial position, results of operations, and cash flows in accordance with the applicable financial reporting framework. FASB ASC 270-10-50-3 states that a presumption exists that users of summarized interim financial data will have read the latest published annual report, including the financial disclosures required by GAAP and management's commentary concerning the annual financial results, and that the summarized interim data will be viewed in that context. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

Separate Section in the Auditor's Review Report Regarding Going Concern (Ref: par. .38)

.A68 See exhibit D, "Illustrations of the Separate Section in the Auditor's Review Report Regarding Going Concern," for illustrative examples of such separate section. [Paragraph added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132. Paragraph subsequently renumbered and amended, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A69 If conditions or events have been identified during the interim review that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time, but (a) no statement relating to substantial doubt is included in the notes to the interim financial information because management's plans have alleviated the substantial doubt or (b) the applicable financial reporting framework does not require inclusion of such statement in the notes to the interim financial information, the auditor may include a

separate section when management has disclosed the conditions or events in the notes to the financial statements but a statement related to substantial doubt is not required to be included by the applicable financial reporting framework. The following is an illustration of a separate section in the auditor's review report regarding going concern when no statement relating to substantial doubt is included in the notes to the interim financial information but conditions or events are disclosed:

Substantial Doubt About the Entity's Ability to Continue as a Going Concern

As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency. Management's plans in regards to these matters are also described in Note X.

[Paragraph added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132. Paragraph subsequently renumbered and amended, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

.A70 Paragraph .A47 of section 570 provides guidance when conditions or events have been identified during the interim review that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time and (a) management's plans have not alleviated the substantial doubt, and (b) the applicable financial reporting framework does not require inclusion of such statement in the notes to the interim financial information. [Paragraph added, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Other Considerations (Ref: par. .41)

.A71 The auditor may seek legal advice in considering what actions, if any, may be appropriate in these circumstances. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

Interim Financial Information Accompanying Audited Financial Statements (Ref: par. .44)

.A72 Interim financial information may accompany audited financial statements. If management chooses or is required to present interim financial information in a note to the audited financial statements, management is responsible for clearly marking the information as unaudited in the note. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A73 Because the interim financial information has not been audited and is not required for the audited financial statements to be fairly stated in accordance with the applicable financial reporting framework, the auditor ordinarily need not modify the auditor's report on the audited financial statements to refer to the interim financial information accompanying the audited financial statements, including when the auditor has performed a review in accordance with this section. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

Documentation (Ref: par. .44–.46)

.A74 The auditor may find the guidance in section 230, *Audit Documentation*, useful in determining the form and content of the review documentation, including guidance on the timing of the final assembly of the engagement documentation. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A75 Examples of findings or issues that, in the auditor's judgment, are significant include the results of review procedures that indicate that the interim financial information could be materially misstated, including actions taken to address such findings, and the basis for the final conclusions reached. [Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A76

Appendix A — Analytical Procedures the Auditor May Consider Performing When Conducting a Review of Interim Financial Information (Ref: par. .A12)

Analytical procedures are designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement of the interim financial information. Examples of analytical procedures that an auditor may consider performing in a review of interim financial information include the following:

- Comparing current interim financial information with the interim financial information of the immediately preceding interim period, the interim financial information of the corresponding interim period of the preceding financial year, and the most recent audited annual financial statements.
- Comparing current interim financial information with anticipated results, such as budgets or forecasts (for example, comparing tax balances and the relationship between the provision for income taxes and pretax income in the current interim financial information with corresponding information in (a) budgets, using expected rates, and (b) financial information for prior periods). Caution is necessary when comparing and evaluating current interim financial information with budgets, forecasts, or other anticipated results because of the inherent lack of precision in estimating the future and the susceptibility of such information to manipulation and misstatement by management to reflect desired interim results.
- Comparing current interim financial information with relevant nonfinancial information.
- Comparing ratios and indicators for the current interim period with expectations based on prior periods (for example, performing gross profit analysis by product line and operating segment using elements of the current interim financial information and comparing the results with corresponding information for prior periods). Examples of key ratios and indicators are the current ratio, receivable turnover or days sales outstanding, inventory turnover, depreciation to average fixed assets, debt to equity, gross profit percentage, net income percentage, and plant operating rates.
- Comparing ratios and indicators for the current interim period with those of entities in the same industry.
- Comparing relationships among elements in the current interim financial information with corresponding relationships in the interim financial information of prior periods (for example, expense by type as a percentage of sales, assets by type as a percentage of total assets, and percentage of change in sales to percentage of change in receivables).
- Comparing disaggregated data. The following are examples of how data may be disaggregated:

Special Considerations in the United States

- By period (for example, interim financial information items disaggregated into quarterly, monthly, or weekly amounts)
- By product line or operating segment
- By location (for example, subsidiary, division, or branch)

Analytical procedures may include such statistical techniques as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques.

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A77

Appendix B — Unusual or Complex Situations to Be Considered by the Auditor When Conducting a Review of Interim Financial Information (Ref: par. .A18)

The following are examples of situations about which the auditor may inquire of management:

- Business combinations
- New or complex revenue recognition methods
- Impairment of assets
- Disposal of a segment of a business
- Use of derivative instruments and hedging activities
- Sales and transfers that may call into question the classification of investments in securities, including management's intent and ability with respect to the remaining securities classified as held to maturity
- Adoption of new stock compensation plans or changes to existing plans
- Restructuring charges taken in the current and prior quarters
- Infrequent transactions
- Significant unusual transactions
- Changes in litigation or contingencies
- Changes in major contracts with customers or suppliers
- Application of new accounting principles
- Changes in accounting principles or the methods of applying them
- Trends and developments affecting accounting estimates, such as allowances for bad debts and excess or obsolete inventories, provisions for warranties and employee benefits, and realization of unearned income and deferred charges
- Compliance with debt covenants
- Changes in related parties or significant new related party transactions
- Material off-balance-sheet transactions, special purpose entities, and other equity investments
- Unique terms for debt or capital stock that could affect classification

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. As amended, effective for reviews of interim financial information for interim periods of fiscal years ending on or after December 15, 2021, by SAS No. 135. Paragraph subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A78

Exhibit A — Illustrative Management Representation Letters for a Review of Interim Financial Information (Ref: par. .A31)

The following management representation letters, which relate to a review of interim financial information, are presented for illustrative purposes only.

Illustration 1 — Short Form Representation Letter for a Review of Interim Financial Information

Illustration 2 — Detailed Representation Letter for a Review of Interim Financial Information

It is assumed in these illustrations that the applicable financial reporting framework is accounting principles generally accepted in the United States of America, that no conditions or events exist that might be indicative of the entity's possible inability to continue as a going concern, and that no exceptions exist to the requested written representations. If circumstances differ from these assumptions, the representations would need to be modified to reflect the actual circumstances.

Illustration 1 — Short Form Representation Letter for a Review of Interim Financial Information

This representation letter is to be used in conjunction with the representation letter for the audit of the financial statements of the prior year. Management confirms the representations made in the representation letter for the audit of the financial statements of the prior year end, as they apply to the interim financial information, and makes additional representations that may be needed for the interim financial information.

[Date]

To [Independent Auditor]:

This representation letter is provided in connection with your review of the [consolidated] balance sheet as of June 30, 20X1 and the related [consolidated] statements of income, changes in equity, and cash flows for the six-month period then ended of ABC Company for the purpose of reporting whether any material modifications should be made to the [consolidated] interim financial information for it to be in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) [including, if appropriate, an indication as to the appropriate form and content of interim financial information (for example, Article 10 of SEC Regulation S-X)].

We confirm that [, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves] [as of (date of auditor's review report),]:

Interim Financial Information

1. We have fulfilled our responsibilities, as set out in the terms of the engagement letter dated *[insert date]* for the preparation and fair presentation of interim financial information in accordance with U.S. GAAP; in particular the interim financial information is presented in accordance therewith.
2. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.
3. The interim financial information has been adjusted or includes disclosures for all events subsequent to the date of the interim financial information for which U.S. GAAP requires adjustment or disclosure.
4. The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the interim financial information as a whole. A list of the uncorrected misstatements is attached to the representation letter.

[Any other matters that the auditor may consider appropriate]

Information Provided

5. We have provided you with:
 - Access to all information of which we are aware that is relevant to the preparation and fair presentation of the interim financial information such as records, documentation, and other matters;
 - Minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared;
 - Additional information that you have requested from us for the purpose of the review; and
 - Unrestricted access to persons within the entity of whom you determined it necessary to make inquiries.
6. We have disclosed to you all significant deficiencies or material weaknesses in the design or operation of internal control of which we are aware, as it relates to the preparation and fair presentation of both annual and interim financial information.
7. We have disclosed to you the results of our assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
8. We have *[no knowledge of any]* *[disclosed to you all information of which we are aware in relation to]* fraud or suspected fraud that affects the entity and involves:
 - Management;
 - Employees who have significant roles in internal control; or
 - Others when the fraud could have a material effect on the interim financial information.
9. We have *[no knowledge of any]* *[disclosed to you all information in relation to]* allegations of fraud, or suspected fraud, affecting the

entity's interim financial information communicated by employees, former employees, analysts, regulators, or others.

10. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.

[Any other matters that the auditor may consider necessary]

11. We have reviewed our representation letter to you dated *[date of representation letter relating to most recent audit]* with respect to the audited consolidated financial statements as of and for the year ended *[prior year-end date]*. We believe that representations *[references to applicable representations]* within that representation letter do not apply to the interim financial information referred to above. We now confirm those representations *[references to applicable representations]*, as they apply to the interim financial information referred to above, and incorporate them herein, with the following changes:

[Indicate any changes.]

12. *[Add any representations related to new accounting or auditing standards that are being implemented for the first time.]*

[Name of Chief Executive Officer and Title]

[Name of Chief Financial Officer and Title]

[Name of Chief Accounting Officer and Title]

Illustration 2 — Detailed Representation Letter for a Review of Interim Financial Information

This representation letter is similar in detail to the management representation letter used for the audit of the financial statements of the prior year and, thus, need not refer to the written management representations received in the most recent audit.

[Date]

To *[Independent Auditor]*:

This representation letter is provided in connection with your review of the *[consolidated]* balance sheet as of June 30, 20X1 and the related *[consolidated]* statements of income, changes in equity, and cash flows for the six-month period then ended of ABC Company for the purpose of reporting whether any material modifications should be made to the *[consolidated]* interim financial information for it to be in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) *[including, if appropriate, an indication as to the appropriate form and content of interim financial information (for example, Article 10 of SEC Regulation S-X)]*.

We confirm that *[, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves] [as of (date of auditor's review report),]*:

Interim Financial Information

1. We have fulfilled our responsibilities, as set out in the terms of the engagement letter dated *[insert date]* for the preparation and fair presentation of the interim financial information in accordance with U.S. GAAP; in particular the interim financial information is presented in accordance therewith.
2. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.
3. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.
4. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.
5. The interim financial information has been adjusted or includes disclosures for all events subsequent to the date of the interim financial information for which U.S. GAAP requires adjustment or disclosure.
6. The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the interim financial information as a whole. A list of the uncorrected misstatements is attached to the representation letter.

[Any other matters that the auditor may consider appropriate]

Information Provided

7. We have provided you with:
 - Access to all information of which we are aware that is relevant to the preparation and fair presentation of the interim financial information such as records, documentation, and other matters;
 - Minutes of the meetings of stockholders, directors, and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared;
 - Additional information that you have requested from us for the purpose of the review; and
 - Unrestricted access to persons within the entity of whom you determined it necessary to make inquiries.
8. All transactions have been recorded in the accounting records and are reflected in the interim financial information.
9. We have disclosed to you all significant deficiencies or material weaknesses in the design or operation of internal control of which we are aware, as it relates to the preparation and fair presentation of both annual and interim financial information.
10. We have disclosed to you the results of our assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
11. We have *[no knowledge of any]**[disclosed to you all information of which we are aware in relation to]* fraud or suspected fraud that affects the entity and involves:
 - Management;

Special Considerations in the United States

- Employees who have significant roles in internal control; or
 - Others when the fraud could have a material effect on the interim financial information.
12. We have [*no knowledge of any*][*disclosed to you all information in relation to*] allegations of fraud, or suspected fraud, affecting the entity's interim financial information communicated by employees, former employees, analysts, regulators, or others.
 13. We have disclosed to you all known instances of non-compliance or suspected non-compliance with laws and regulations whose effects should be considered when preparing interim financial information.
 14. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices.
 15. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.

[Any other matters that the auditor may consider necessary]

Circumstances include the following:

- A review of interim financial information presented as a complete set of financial statements, including disclosures

Independent Auditor's Review Report

[Appropriate Addressee]

Results of Review of Interim Financial Information

We have reviewed the accompanying [describe the interim financial information or statements reviewed] of ABC Company and subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended, and the related notes (collectively referred to as the *interim financial information*).

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with [identify the applicable financial reporting framework; for example, *accounting principles generally accepted in the United States of America*].

Basis for Review Results

We conducted our review in accordance with auditing standards generally accepted in the United States of America (GAAS) applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. A review of interim financial information is substantially less in scope than an audit conducted in accordance with GAAS, the objective of which is an expression of an opinion regarding the financial information as a whole, and accordingly, we do not express such an opinion. We are required to be independent of ABC Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our review. We believe that the results of the review procedures provide a reasonable basis for our conclusion.

Responsibilities of Management for the Interim Financial Information

Management is responsible for the preparation and fair presentation of the interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]* and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.

[Date of the auditor's report]

Illustration 2 — A Review Report on Condensed Comparative Interim Financial Information

The following is an example of a review report on a condensed balance sheet as of March 31, 20X1; the related condensed statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0; and a condensed balance sheet derived from audited financial statements as of December 31, 20X0. If the auditor's report on the preceding year-end financial statements was other than unmodified or included a separate section regarding going concern or an emphasis-of-matter paragraph because of an inconsistency in the application of accounting principles, the last paragraph of the illustrative report would be appropriately modified.

Independent Auditor's Review Report

[Appropriate Addressee]

Results of Review of Interim Financial Information

We have reviewed the condensed consolidated financial statements of ABC Company and subsidiaries, which comprise the balance sheet as of March 31, 20X1, and the related condensed consolidated statements of income and cash flows for the three-month periods ended March 31, 20X1 and 20X0, and the related notes (collectively referred to as the *interim financial information*).

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying condensed interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America.]*

Basis for Review Results

We conducted our reviews in accordance with auditing standards generally accepted in the United States of America (GAAS) applicable to reviews of interim financial information. A review of condensed interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. A review of condensed interim financial information is substantially less in scope than an audit conducted in accordance with GAAS, the objective of which is an expression of an opinion regarding the financial information as a whole, and accordingly, we do not express such an opinion. We are required to be independent of ABC Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our review. We believe that the results of the review procedures provide a reasonable basis for our conclusion.

Responsibilities of Management for the Interim Financial Information

Management is responsible for the preparation and fair presentation of the condensed interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]* and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.

Report on Condensed Balance Sheet as of [Date]

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet as of December 31, 20X0, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended (not presented herein); and we expressed an unmodified audit opinion on those audited consolidated financial statements in our report dated February 15, 20X1. In our opinion, the accompanying condensed consolidated balance sheet of ABC Company and subsidiaries as of December 31, 20X0, is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

[Date of the auditor's report]

Illustration 3 — A Review Report That Refers to a Component Auditor's Review Report on the Interim Financial Information of a Significant Component of a Reporting Entity

Circumstances include the following:

- A review of interim financial information presented as a complete set of financial statements, including disclosures.
- The auditor is making reference to another auditor's review report on the interim financial information of a significant component of a reporting entity.

Independent Auditor's Review Report

[Appropriate Addressee]

Results of Review of Interim Financial Information

We have reviewed the accompanying *[describe the interim financial information or statements reviewed]* of ABC Company and subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended, and the related notes (collectively referred to as the *interim financial information*).

Based on our review, and the review report of other auditors, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America.]*

We were furnished with the report of other auditors on their review of the interim financial information of DEF subsidiary, whose total assets as of September 30, 20X1, and whose revenues for the three-month and nine-month periods then ended, constituted 15%, 20%, and 22%, respectively, of the related consolidated totals.

Basis for Review Results

We conducted our review in accordance with auditing standards generally accepted in the United States of America (GAAS) applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. A review of interim financial information is substantially less in scope than an audit conducted in accordance with GAAS, the objective of which is an expression of an opinion regarding the financial information as a whole, and accordingly, we do not express such an opinion. We are required to be independent of ABC Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our review. We believe that the results of the review procedures provide a reasonable basis for our conclusion.

Responsibilities of Management for the Interim Financial Information

Management is responsible for the preparation and fair presentation of the interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]* and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 4 — A Review Report on Comparative Interim Financial Information When the Prior Period Was Reviewed by Another Auditor

Circumstances include the following:

- A review of interim financial information presented as a complete set of financial statements, including disclosures as of March 31, 20X1, and for the three-month period then ended.
- Comparative information is presented for the balance sheet as of December 31, 20X0, and for the statements of income and cash flows for the comparable interim period.
- The December 31, 20X0, financial statements were audited, and the March 31, 20X0, interim financial information was reviewed, by another auditor.

Independent Auditor's Review Report

[Appropriate Addressee]

Results of Review of Interim Financial Information

We have reviewed the accompanying *[describe the interim financial information or statements reviewed]* of ABC Company and subsidiaries as of March 31, 20X1, and for the three-month period then ended, and the related notes (collectively referred to as the *interim financial information*).

Based on our review we are not aware of any material modifications that should be made to the accompanying interim financial information as of and for the three months ended March 31, 20X1, for it to be in accordance with *[identify*

the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America].

The consolidated statements of income and cash flows of ABC Company and subsidiaries for the three-month period ended March 31, 20X0, were reviewed by other auditors whose report dated June 1, 20X0, stated that based on their review, they were not aware of any material modifications that should be made to those statements in order for them to be in accordance with *identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America*. The consolidated balance sheet of the Company as of December 31, 20X0, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended (not presented herein), were audited by other auditors whose report dated March 15, 20X1, expressed an unmodified opinion on those statements.

Basis for Review Results

We conducted our review in accordance with auditing standards generally accepted in the United States of America (GAAS) applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. A review of interim financial information is substantially less in scope than an audit conducted in accordance with GAAS, the objective of which is an expression of an opinion regarding the financial information as a whole, and accordingly, we do not express such an opinion. We are required to be independent of ABC Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our review. We believe that the results of the review procedures provide a reasonable basis for our conclusion.

Responsibilities of Management for the Interim Financial Information

Management is responsible for the preparation and fair presentation of the interim financial information in accordance with *identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America* and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

[Paragraph renumbered by the issuance of SAS No. 132, February 2017. Paragraph subsequently renumbered and amended, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

Exhibit C — Illustrations of Example Modifications to the Auditor's Review Report Due to Departures From the Applicable Financial Reporting Framework (Ref: par. .A66)

Illustration 1 — Modification Due to a Departure From the Applicable Financial Reporting Framework

Illustration 2 — Modification Due to Inadequate Disclosure

Illustration 1 — Modification Due to a Departure From the Applicable Financial Reporting Framework

The following is an example of a modification of the auditor's review report due to a departure from the applicable financial reporting framework:

Independent Auditor's Review Report

[Appropriate Addressee]

Results of Review of Interim Financial Information

We have reviewed the accompanying *[describe the interim financial information or statements reviewed]* of ABC Company and its subsidiaries as of September 30, 20X1, and for the three-month and nine-month periods then ended, and the related notes (collectively referred to as the *interim financial information*).

Based on our review, with the exception of the matters described in the following paragraph, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

Based on information furnished to us by management, we believe that the Company has excluded from property and debt in the accompanying balance sheet certain lease obligations that we believe should be capitalized to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*. This information indicates that if these lease obligations were capitalized at September 30, 20X1, property would be increased by \$_____, long-term debt would be increased by \$_____, and net income would be increased (decreased) by \$_____ and \$_____, respectively, for the three-month and nine-month periods then ended.

Basis for Review Results

We conducted our review in accordance with auditing standards generally accepted in the United States of America (GAAS) applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. A review of interim financial information is substantially less in scope than an audit conducted in accordance with GAAS, the objective of which is an expression of an opinion

regarding the financial information as a whole, and accordingly, we do not express such an opinion. We are required to be independent of ABC Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our review. We believe that the results of the review procedures provide a reasonable basis for our conclusion.

Responsibilities of Management for the Interim Financial Information

Management is responsible for the preparation and fair presentation of the interim financial information in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]* and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of interim financial information that is free from material misstatement, whether due to fraud or error.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

Illustration 2 — Modification Due to Inadequate Disclosure

The following is an example of the second and third paragraphs of the auditor's review report when such report is modified due to inadequate disclosure:

Based on our review, with the exception of the matters described in the following paragraph, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America.]*

Management has informed us that the Company is presently defending a claim regarding *[describe the nature of the loss contingency]* and that the extent of the Company's liability, if any, and the effect on the accompanying interim financial information is not determinable at this time. The interim financial information fails to disclose these matters, which we believe are required to be disclosed in accordance with *[identify the applicable financial reporting framework; for example, accounting principles generally accepted in the United States of America]*.

[Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132. Paragraph subsequently renumbered and amended, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, SAS No. 140.]

.A81

Exhibit D — Illustrations of Separate Sections Regarding Going Concern in the Auditor's Review Report (Ref: par. .A68)

Illustration 1 — Separate Section When Substantial Doubt Is Disclosed in the Notes to the Latest Annual Audited Financial Statements and the Interim Financial Information, a Separate Section Regarding Going Concern Was Included in the Prior Year's Audit Report, and Conditions or Events Giving Rise to the Separate Section Have Been Identified and Substantial Doubt Exists

Illustration 2 — Separate Section When Substantial Doubt Is Not Disclosed in the Notes to the Latest Annual Audited Financial Statements or the Interim Financial Information, a Separate Section Regarding Going Concern Was Included in the Prior Year's Audit Report, and Conditions or Events Giving Rise to the Separate Section Have Been Identified and Substantial Doubt Exists

Illustration 3 — Separate Section When Management Is Required Under the Applicable Financial Reporting Framework to Include a Statement in the Notes to the Interim Financial Information That Conditions or Events Have Been Identified and Substantial Doubt Exists, Such Statement Is Included in the Notes to the Interim Financial Information, and a Separate Section Regarding Going Concern Was Not Included in the Prior Year's Audit Report

Illustration 1 — Separate Section When Substantial Doubt Is Disclosed in the Notes to the Latest Annual Audited Financial Statements and the Interim Financial Information, a Separate Section Regarding Going Concern Was Included in the Prior Year's Audit Report, and Conditions or Events Giving Rise to the Separate Section Have Been Identified and Substantial Doubt Exists

The following is an example of situations in which (a) a separate section regarding going concern was included in the prior year's auditor's report, (b) conditions or events have been identified and substantial doubt continues to exist, and (c) the entity is required under the applicable financial reporting framework to include a statement in the notes to the interim financial information that substantial doubt exists.

Substantial Doubt About the Entity's Ability to Continue as a Going Concern

The accompanying interim financial information has been prepared assuming that the Company will continue as a going concern. Note 4 of the Company's audited financial statements as of December 31, 20X1, and for the year then ended, includes a statement that substantial doubt exists about the Company's ability to continue as a going concern. Note 4 of the Company's audited financial

statements also discloses the events and conditions, management's evaluation of the events and conditions, and management's plans regarding these matters, including the fact that the Company was unable to renew its line of credit or obtain alternative financing as of December 31, 20X1. Our auditor's report on those financial statements includes a separate section referring to the matters in Note 4 of those financial statements. As indicated in Note 3 of the accompanying interim financial information as of March 31, 20X2, and for the three months then ended, the Company was still unable to renew its line of credit or obtain alternative financing as of March 31, 20X2, and has stated that substantial doubt exists about the Company's ability to continue as a going concern. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

Illustration 2 — Separate Section When Substantial Doubt Is Not Disclosed in the Notes to the Latest Annual Audited Financial Statements or the Interim Financial Information, a Separate Section Regarding Going Concern Was Included in the Prior Year's Audit Report, and Conditions or Events Giving Rise to the Separate Section Have Been Identified and Substantial Doubt Exists

The following is an example of a situation in which (a) a separate section regarding going concern was included in the prior year's auditor's report, (b) conditions or events have been identified and substantial doubt continues to exist, and (c) the entity is not required under the applicable financial reporting framework to include a statement in the notes to the interim financial information that substantial doubt exists.

Substantial Doubt About the Entity's Ability to Continue as a Going Concern

The accompanying interim financial information has been prepared assuming that the Company will continue as a going concern. Note 4 of the Company's audited financial statements as of December 31, 20X1, and for the year then ended, discloses that the Company was unable to renew its line of credit or obtain alternative financing as of December 31, 20X1. Our auditor's report on those financial statements includes a separate section referring to the matters in Note 4 of those financial statements, indicating that these matters raised substantial doubt about the Company's ability to continue as a going concern. As indicated in Note 3 of the accompanying interim financial information as of March 31, 20X2, and for the three months then ended, the Company was still unable to renew its line of credit or obtain alternative financing as of March 31, 20X2. Management's evaluation of the conditions and events and management's plans regarding these matters are also disclosed in Note 3. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

Illustration 3 — Separate Section When Management Is Required Under the Applicable Financial Reporting Framework to Include a Statement in the Notes to the Interim Financial Information That Conditions or Events Have Been Identified and Substantial Doubt Exists, Such Statement Is Included in the Notes to the Interim Financial Information, and a Separate Section Regarding Going Concern Was Not Included in the Prior Year's Audit Report

The following is an example of a separate section when (a) a separate section regarding going concern was not included in the prior year's auditor's report, (b) the entity is required under the applicable financial reporting framework to include a statement in the notes to the interim financial information that conditions or events have been identified and substantial doubt exists, and (c) such statement is included in the notes to the interim financial information.

Substantial Doubt About the Entity's Ability to Continue as a Going Concern

The accompanying interim financial information has been prepared assuming that the Company will continue as a going concern. As discussed in Note 3 to the interim financial information, the Company has suffered recurring losses from operations, has a net capital deficiency, and has stated that substantial doubt exists about the Company's ability to continue as a going concern. Management's evaluation of the conditions and events and management's plans regarding these matters are also described in Note 3. The accompanying interim financial information does not include any adjustments that might result from the outcome of this uncertainty.

[Paragraph added, effective for audits of financial statements for periods ending on or after December 15, 2017, by SAS No. 132. Paragraph subsequently renumbered and amended, effective for reviews of interim financial information for interim periods of fiscal years beginning on or after December 15, 2021, by SAS No. 140.]

AU-C Section 935

Compliance Audits

(Supersedes SAS No. 74.)

Source: SAS No. 117; SAS No. 122; SAS No. 123; SAS No. 125; SAS No. 130; SAS No. 140.

Effective for compliance audits for fiscal periods ending on or after June 15, 2010, unless otherwise indicated. Earlier application is permitted.

NOTE

In June 2022, the Auditing Standards Board issued Statement on Auditing Standards No. 146, *Quality Management for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, which contains amendments to this section.

The amendments are effective for engagements conducted in accordance with generally accepted auditing standards for periods beginning on or after December 15, 2025, and can be viewed in the appendix of section 220 until the effective date, when they will be applied to this section.

Introduction and Applicability

.01 Governments frequently establish governmental audit requirements for entities to undergo an audit of their compliance with applicable compliance requirements. This section is applicable when an auditor is engaged, or required by law or regulation, to perform a compliance audit in accordance with all of the following:

- Generally accepted auditing standards (GAAS)
- The standards for financial audits under *Government Auditing Standards*
- A governmental audit requirement that requires an auditor to express an opinion on compliance (Ref: par. .A1–.A2)

.02 This section addresses the application of GAAS to a compliance audit. Compliance audits usually are performed in conjunction with a financial statement audit. This section does not apply to the financial statement audit component of such engagements. Although certain AU-C sections are not applicable to a compliance audit, as identified in the appendix "AU-C Sections That Are Not Applicable to Compliance Audits," all AU-C sections other than this section are applicable to the audit of financial statements performed in conjunction with a compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.03 This section is not applicable when the governmental audit requirement calls for an examination, in accordance with Statements on Standards for Attestation Engagements, of an entity's compliance with specified requirements or an examination of an entity's internal control over compliance. AT-C section 315, *Compliance Attestation*, is applicable to an examination of an

entity's compliance with specified requirements and AT-C section 205, *Examination Engagements*, is applicable to an examination of an entity's internal control over compliance. If the entity is required to undergo a compliance audit and an examination of internal control over compliance, this section is applicable to performing and reporting on the compliance audit, and AT-C section 205 is applicable to performing and reporting on the examination of internal control over compliance. (Ref: par. .A2) [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

.04 Sections 200–900 address audits of financial statements, as well as other kinds of engagements. Generally, these AU-C sections can be adapted to the objectives of a compliance audit. However, those AU-C sections, or portions thereof, identified in the appendix cannot be adapted to a compliance audit because they address the matters that are not applicable to a compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.05 Except for the AU-C sections that are listed in the appendix as not applicable to a compliance audit, all of the other AU-C sections are applicable to a compliance audit. However, the auditor is not required, in planning and performing a compliance audit, to make a literal translation of each procedure that might be performed in a financial statement audit, but rather to obtain sufficient appropriate audit evidence to support the auditor's opinion on compliance. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.06 Some AU-C sections can be adapted and applied to a compliance audit with relative ease, for example, by simply replacing the word *misstatement* with the word *noncompliance*. Other AU-C sections are more difficult to adapt and apply and entail additional modification. For that reason, this section provides more specific guidance on how to adapt and apply certain AU-C sections to a compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.07 *Government Auditing Standards* and governmental audit requirements contain certain standards and requirements that are supplementary to those in GAAS, as well as guidance on how to apply those standards and requirements.

Management's Responsibilities

.08 A compliance audit is based on the premise that management is responsible for the entity's compliance with compliance requirements. Management's responsibility for the entity's compliance with compliance requirements includes the following:

- a. Identifying the entity's government programs and understanding and complying with the compliance requirements
- b. Designing, implementing, and maintaining effective controls that provide reasonable assurance that the entity administers government programs in compliance with the compliance requirements
- c. Evaluating and monitoring the entity's compliance with the compliance requirements
- d. Taking corrective action when instances of noncompliance are identified, including corrective action on audit findings of the compliance audit

[As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

Effective Date

.09 The provisions of this section are effective for compliance audits for fiscal periods ending on or after June 15, 2010. Earlier application is permitted.

Objectives (Ref: par. .A3)

.10 The auditor's objectives in a compliance audit are to

- a. obtain sufficient appropriate audit evidence to form an opinion and report at the level specified in the governmental audit requirement about whether the entity complied in all material respects with the applicable compliance requirements; and
- b. identify audit and reporting requirements specified in the governmental audit requirement that are supplementary to GAAS and *Government Auditing Standards*, if any, and perform procedures to address those requirements.

[As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

Definitions

.11 For purposes of adapting GAAS to a compliance audit, the following terms have the meanings attributed as follows:

Applicable compliance requirements. Compliance requirements that are subject to the compliance audit.

Audit findings. The matters that are required to be reported by the auditor in accordance with the governmental audit requirement.

Audit risk of noncompliance. The risk that the auditor expresses an inappropriate audit opinion on the entity's compliance when material noncompliance exists. Audit risk of noncompliance is a function of the risks of material noncompliance and detection risk of noncompliance.

Compliance audit. A program-specific audit or an organization-wide audit of an entity's compliance with applicable compliance requirements.

Compliance requirements. Laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to a government program with which the entity is required to comply.

Deficiency in internal control over compliance. A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A deficiency in *design* exists when (a) a control necessary to meet the control objective is missing, or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in *operation* exists when a properly designed control does not operate as designed or the person performing the control does

not possess the necessary authority or competence to perform the control effectively.

Detection risk of noncompliance. The risk that the procedures performed by the auditor to reduce audit risk of noncompliance to an acceptably low level will not detect noncompliance that exists and that could be material, either individually or when aggregated with other instances of noncompliance.

Government Auditing Standards. Standards and guidance issued by the Comptroller General of the United States, U.S. Government Accountability Office for financial audits, reviews of financial statements, attestation engagements, and performance audits. *Government Auditing Standards* also is known as generally accepted government auditing standards (GAGAS) or the Yellow Book.

Government program. The means by which governmental entities achieve their objectives. For example, one of the objectives of the U.S. Department of Agriculture is to provide nutrition to individuals in need. Examples of government programs designed to achieve that objective are the Supplemental Nutrition Assistance Program and the National School Lunch Program. Government programs that are relevant to this section are those in which a grantor or pass-through entity provides an award to another entity, usually in the form of a grant, contract, or other agreement. Not all government programs provide cash assistance; sometimes noncash assistance is provided (for example, a loan guarantee, commodities, or property).

Governmental audit requirement. A government requirement established by law, statute, regulation, rule, or provision of contracts or grant agreements requiring that an entity undergo an audit of its compliance with applicable compliance requirements related to one or more government programs that the entity administers. (Ref: par. .A4)

Grantor. A government agency from which funding for the government program originates.

Known questioned costs. Questioned costs specifically identified by the auditor. Known questioned costs are a subset of likely questioned costs.

Likely questioned costs. The auditor's best estimate of total questioned costs, not just the known questioned costs. Likely questioned costs are developed by extrapolating from audit evidence obtained, for example, by projecting known questioned costs identified in an audit sample to the entire population from which the sample was drawn.

Material noncompliance. In the absence of a definition of material noncompliance in the governmental audit requirement, noncompliance with the applicable compliance requirements is considered quantitatively or qualitatively material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the entity's compliance with the requirements of the government program as a whole.

Material weakness in internal control over compliance. A deficiency, or combination of deficiencies, in internal control over

compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. In this section, a reasonable possibility exists when the likelihood of an event occurring is either reasonably possible or probable as defined as follows:

Reasonably possible. The chance of the future event or events occurring is more than remote but less than likely.

Probable. The future event or events are likely to occur.

Organization-wide audit. An audit of an entity's financial statements and an audit of its compliance with the applicable compliance requirements as they relate to one or more government programs that the entity administers.

Pass-through entity. An entity that receives an award from a grantor or other entity and distributes all or part of it to another entity to administer a government program.

Program-specific audit. An audit of an entity's compliance with applicable compliance requirements as they relate to one government program that the entity administers. The compliance audit portion of a program-specific audit is performed in conjunction with either an audit of the entity's or the program's financial statements.

Questioned costs. Costs that are questioned by the auditor because (1) of a violation or possible violation of the applicable compliance requirements, (2) the costs are not supported by adequate documentation, or (3) the incurred costs appear unreasonable and do not reflect the actions that a prudent person would take in the circumstances.

Risk of material noncompliance. The risk that material noncompliance exists prior to the audit. This consists of two components, described as follows:

Inherent risk of noncompliance. The susceptibility of a compliance requirement to noncompliance that could be material, either individually or when aggregated with other instances of noncompliance, before consideration of any related controls over compliance.

Control risk of noncompliance. The risk that noncompliance with a compliance requirement that could occur and that could be material, either individually or when aggregated with other instances of noncompliance, will not be prevented, or detected and corrected, on a timely basis by the entity's internal control over compliance.

Significant deficiency in internal control over compliance. A deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for audits for periods ending on or after December 15, 2016, by SAS No. 130. As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

Requirements

Adapting and Applying the AU-C Sections to a Compliance Audit (Ref: par. .A5 and .A40)

.12 When performing a compliance audit, the auditor, using professional judgment, should adapt and apply the AU-C sections to the objectives of a compliance audit, except for the AU-C sections listed in the appendix. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Establishing Materiality Levels (Ref: par. .A6–.A8)

.13 The auditor should establish and apply materiality levels for the compliance audit based on the governmental audit requirement.

Identifying Government Programs and Applicable Compliance Requirements (Ref: par. .A9–.A11)

.14 As discussed in paragraph .08, a compliance audit is based on the premise that management is responsible for identifying the entity's government programs and understanding and complying with the compliance requirements. The auditor should determine which of those government programs and compliance requirements to test (that is, the applicable compliance requirements) in accordance with the governmental audit requirement.

Performing Risk Assessment Procedures (Ref: par. .A12–.A15)

.15 For each of the government programs and applicable compliance requirements selected for testing, the auditor should perform risk assessment procedures to obtain a sufficient understanding of the applicable compliance requirements and the entity's internal control over compliance with the applicable compliance requirements.¹

.16 In performing risk assessment procedures, the auditor should inquire of management about whether there are findings and recommendations in reports or other written communications resulting from previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit. The auditor should gain an understanding of management's response to findings and recommendations that could have a material effect on the entity's compliance with the applicable compliance requirements (for example, taking corrective action). The auditor should use this information to identify and assess risks of material noncompliance and determine the nature, timing, and extent of the audit procedures for the compliance audit, including determining the extent to which testing the implementation of any corrective actions is applicable to the audit objectives. [As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

¹ Paragraphs .03–.12b and .12d–.25 of section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Identifying and Assessing the Risks of Material Noncompliance (Ref: par. .A16–.A18)

.17 The auditor should identify and assess the risks of material noncompliance whether due to fraud or error for each applicable compliance requirement and should consider whether any of those risks are pervasive to the entity's compliance because they may affect the entity's compliance with many compliance requirements.^[2] [As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

Performing Further Audit Procedures in Response to Assessed Risks

.18 If the auditor identifies risks of material noncompliance that are pervasive to the entity's compliance, the auditor should develop an overall response to such risks. (Ref: par. .A19)

.19 The auditor should design and perform further audit procedures, including tests of details (which may include tests of transactions) to obtain sufficient appropriate audit evidence about the entity's compliance with each of the applicable compliance requirements in response to the assessed risks of material noncompliance. Risk assessment procedures, tests of controls, and analytical procedures alone are not sufficient to address a risk of material noncompliance. (Ref: par. .A20–.A23)

.20 The auditor should design and perform further audit procedures in response to the assessed risks of material noncompliance. These procedures should include performing tests of controls over compliance if

- the auditor's risk assessment includes an expectation of the operating effectiveness of controls over compliance related to the applicable compliance requirements;
- substantive procedures alone do not provide sufficient appropriate audit evidence; or
- such tests of controls over compliance are required by the governmental audit requirement.

If any of the conditions in this paragraph are met, the auditor should test the operating effectiveness of controls over each applicable compliance requirement to which the conditions apply in each compliance audit. (Ref: par. .A24–.A25)

Supplementary Audit Requirements

.21 The auditor should determine whether audit requirements are specified in the governmental audit requirement that are supplementary to GAAS and *Government Auditing Standards* and perform procedures to address those requirements, if any. (Ref: par. .A26)

.22 In instances where audit guidance provided by a governmental agency for the performance of compliance audits has not been updated for, or otherwise conflicts with, current GAAS or *Government Auditing Standards*, the auditor should comply with the most current applicable GAAS and *Government Auditing Standards* instead of the outdated or conflicting guidance. (Ref: par. .A27)

^[2] [Footnote deleted by the issuance of SAS No. 140, April 2020.]

Written Representations

.23 The auditor should request from management written representations³ that are tailored to the entity and the governmental audit requirement: (Ref: par. .A28)

- a. acknowledging management's responsibility for understanding and complying with the compliance requirements;
- b. acknowledging management's responsibility for the design, implementation, and maintenance of controls that provide reasonable assurance that the entity administers government programs in accordance with the compliance requirements;
- c. stating that management has identified and disclosed to the auditor all of its government programs and related activities subject to the governmental audit requirement;
- d. stating that management has made available to the auditor all contracts and grant agreements, including amendments, if any, and any other correspondence relevant to the programs and related activities subject to the governmental audit requirement;
- e. stating that management has disclosed to the auditor all known noncompliance with the applicable compliance requirements or stating that there was no such noncompliance;
- f. stating whether management believes that the entity has complied with the applicable compliance requirements (except for noncompliance it has disclosed to the auditor);
- g. stating that management has made available to the auditor all documentation related to compliance with the applicable compliance requirements;
- h. identifying management's interpretation of any applicable compliance requirements that are subject to varying interpretations;
- i. stating that management has disclosed to the auditor any communications from grantors and pass-through entities concerning possible noncompliance with the applicable compliance requirements, including communications received from the end of the period covered by the compliance audit to the date of the auditor's report;
- j. stating that management has disclosed to the auditor the findings received and related corrective actions taken for previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit, including findings received and corrective actions taken from the end of the period covered by the compliance audit to the date of the auditor's report;
- k. stating that management has disclosed to the auditor all known noncompliance with the applicable compliance requirements subsequent to the period covered by the auditor's report or stating that there were no such known instances; and
- l. stating that management is responsible for taking corrective action on audit findings of the compliance audit.

³ See section 580, *Written Representations*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

[As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.24 If the auditor determines that it is necessary to obtain additional representations related to the entity's compliance with the applicable compliance requirements, the auditor should request such additional representations.

Subsequent Events

.25 The auditor should perform audit procedures up to the date of the auditor's report to obtain sufficient appropriate audit evidence that all subsequent events related to the entity's compliance during the period covered by the auditor's report on compliance have been identified. (Ref: par. .A29)

.26 The auditor should take into account the auditor's risk assessment in determining the nature and extent of such audit procedures, which should include, but are not limited to, inquiring of management about and considering

- relevant internal auditors' reports issued during the subsequent period.
- other auditors' reports identifying noncompliance that were issued during the subsequent period.
- reports from grantors and pass-through entities on the entity's noncompliance that were issued during the subsequent period.
- information about the entity's noncompliance obtained through other professional engagements performed for that entity.

.27 The auditor has no obligation to perform any audit procedures related to the entity's compliance during the period subsequent to the period covered by the auditor's report. However, if before the report release date, the auditor becomes aware of noncompliance in the period subsequent to the period covered by the auditor's report that is of such a nature and significance that its disclosure is needed to prevent report users from being misled, the auditor should discuss the matter with management and, if appropriate, those charged with governance, and should include an other-matter paragraph in the auditor's report describing the nature of the noncompliance. (Ref: par. .A30) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Evaluating the Sufficiency and Appropriateness of the Audit Evidence and Forming an Opinion (Ref: par. .A31–.A32)

.28 The auditor should evaluate the sufficiency and appropriateness of the audit evidence obtained.⁴

.29 The auditor should form an opinion, at the level specified by the governmental audit requirement, on whether the entity complied in all material respects with the applicable compliance requirements, and report appropriately. In forming an opinion, the auditor should evaluate likely questioned costs, not just known questioned costs, as well as other material noncompliance that, by its nature, may not result in questioned costs.

⁴ Paragraphs .27–.29 of section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Reporting

Combined Report on Compliance and Internal Control Over Compliance

.30 The auditor's combined report on compliance and internal control over compliance should be in writing and include the following:

- a. *Title.* The auditor's report should have a title that clearly indicates that it is the report of an independent auditor.
- b. *Addressee.* The auditor's report should be addressed, as appropriate, based on the circumstances of the engagement.
- c. *Report on compliance.* The report on compliance should be presented before the report on internal control over compliance and include the heading "Report on Compliance."
- d. *Opinion.* The first section of the auditor's report on compliance should include the auditor's opinion and section with a heading that includes the word "Opinion" and indicates the reporting level pursuant to the governmental audit requirement. The "Opinion" section of the auditor's report should also do the following (Ref: par. .A34):
 - i. State that the entity's compliance with the applicable compliance requirements has been audited
 - ii. Identify the applicable compliance requirements or include a reference to where they can be found
 - iii. Identify the one or more government programs covered by the compliance audit or reference to a separate schedule containing that information
 - iv. Specify the period covered by the report
 - v. When expressing an unmodified opinion, state that, in the auditor's opinion, the entity complied, in all material respects, with the compliance requirements that are applicable to [indicate the reporting level pursuant to the governmental audit requirement] for the [specify the period covered by the report]
- e. *Basis for opinion.* The auditor's report on compliance should include a section, directly following the "Opinion" section, with the heading, "Basis for Opinion," that does the following:
 - i. States that the audit of compliance was conducted in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the governmental audit requirement
 - ii. Refers to the section of the auditor's report that describes the auditor's responsibilities under GAAS, *Government Auditing Standards*, and the governmental audit requirement
 - iii. Includes a statement that the auditor is required to be independent of the entity and to meet the auditor's other

ethical responsibilities in accordance with the relevant ethical requirements relating to the audit⁵

- iv. States whether the auditor believes that the audit evidence the auditor has obtained is sufficient and appropriate to provide a basis for the auditor's opinion
- v. States that the compliance audit does not provide a legal determination of the entity's compliance with the applicable compliance requirements
- f. *Management's responsibilities.* The auditor's report on compliance should include a section with the heading "Responsibilities of Management for Compliance." This section of the auditor's report should describe management's responsibility for compliance with the applicable compliance requirements and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the entity's government programs. If the document containing the auditor's report contains a separate statement by management about its responsibility for the applicable compliance requirements, the auditor's report should not include a reference to such statement by management.
- g. *Auditor's responsibilities.* The auditor's report on compliance should include a section with the heading "Auditor's Responsibilities for the Audit of Compliance." This section of the auditor's report should do the following:
 - i. State that the objectives of the auditor are to
 - (1) obtain reasonable assurance about whether material noncompliance with the applicable compliance requirements occurred, whether due to fraud or error
 - (2) express an opinion on the entity's compliance with the applicable compliance requirements based on the compliance audit
 - ii. State that reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the governmental audit requirement will always detect material noncompliance when it exists
 - iii. State that the risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
 - iv. State that noncompliance with the applicable compliance requirements is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the entity's compliance

⁵ See paragraphs .A38–.A39 of section 700, *Forming an Opinion and Reporting on Financial Statements*. [Footnote added, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

with the requirements of the government program as a whole

- v. Describe an audit by stating that, in performing an audit in accordance with GAAS, *Government Auditing Standards*, and [insert the name of the governmental audit requirement or program-specific audit guide] the auditor's responsibilities are to
 - (1) exercise professional judgment and maintain professional skepticism throughout the audit.
 - (2) identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the entity's compliance with applicable compliance requirements and performing such other procedures as the auditor considered necessary in the circumstances.
 - (3) obtain an understanding of the entity's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with [the governmental audit requirement], but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over compliance. Accordingly, no such opinion is expressed.
- vi. State that the auditor is required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that the auditor identified during the audit^[6]
- h. If noncompliance that does not result in a modified opinion but is required to be reported by the governmental audit requirement is identified, the auditor's report should include an other-matter paragraph, in a separate section with the heading "Other Matter" or another appropriate heading,⁷ that includes a description of such noncompliance or a reference to a description of such noncompliance in an accompanying schedule. (Ref: par. .A36)
- i. *Report on Internal Control Over Compliance.* The auditor's combined report on compliance and internal control over compliance should include a section with the heading "Report on Internal Control Over Compliance" that does the following:
 - i. Includes the definitions of *deficiency in internal control over compliance*, *material weakness in internal control over compliance*, and *significant deficiency in internal control over compliance*.

^[6] [Footnote renumbered and deleted by the issuance of SAS No. 140, April 2020.]

⁷ Paragraph .08 of section 706, *Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report*. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote renumbered by the issuance of SAS No. 140, April 2020.]

- ii. States that the auditor's consideration of the entity's internal control over compliance was for the limited purpose described in the "Auditor's Responsibilities for the Audit of Compliance" section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Therefore, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.
- iii. Describes any identified material weaknesses and significant deficiencies in internal control over compliance or a reference to an accompanying schedule containing such a description.
- iv. If no material weaknesses in internal control over compliance were identified, includes a statement to that effect.
- v. States that the audit was not designed for the purpose of expressing an opinion on the effectiveness of the entity's internal control over compliance. Accordingly, no such opinion is expressed.
- j. If the criteria used to evaluate compliance are
 - i. established or determined by contractual agreement or regulatory provisions that are developed solely for the parties to the agreement or regulatory agency responsible for the provisions or
 - ii. available only to the specified parties,

an alert describing the purpose of the auditor's report on compliance and internal control over compliance and that the report is not suitable for any other purpose, as required by section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.⁸

- k. The manual or printed signature of the auditor's firm.
- l. The city and state where the auditor's report is issued.
- m. The date of the auditor's report. The auditor's report should be dated no earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to base the auditor's opinion on compliance, including evidence that management has asserted that it has identified the entity's government programs and has taken responsibility for understanding and complying with the compliance requirements. (Ref: par. .A35)

A combined report on compliance and internal control over compliance is presented in the exhibit "Illustrative Combined Report on Compliance With Applicable Requirements and Internal Control Over Compliance — (Unmodified Opinion on Compliance; No Material Weaknesses or Significant Deficiencies in Internal Control Over Compliance Identified)." [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125. As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

⁸ See paragraphs .06a–b, .11, and .A11 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote added, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125. Footnote renumbered by the issuance of SAS No. 140, April 2020.]

Separate Reports on Compliance and Internal Control Over Compliance

.31 If the auditor issues separate reports on compliance and internal control over compliance, the separate report on compliance would omit the elements related to internal control over compliance (paragraph .30*i*). The separate report on internal control over compliance would omit the elements related to compliance (paragraph .30*c–h*) and would include the following additional statements:

- a. A statement that the auditor audited the entity's compliance with applicable compliance requirements pertaining to [*identify the government program or programs and the period audited*] and a reference to the auditor's report on compliance
- b. A statement that the compliance audit was conducted in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the governmental audit requirement
- c. A statement that management is responsible for designing, implementing, and maintaining effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to government programs
- d. A statement that in planning and performing the compliance audit, the auditor considered the entity's internal control over compliance with the applicable compliance requirements to determine the auditing procedures for the purpose of expressing an opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance
- e. A statement that the auditor is not expressing an opinion on internal control over compliance

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. As amended, effective for the auditor's written communications issued on or after December 15, 2012, by SAS No. 125. As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

[.32] [Paragraph deleted by the issuance of SAS No. 140, April 2020.]

.33 The auditor should report noncompliance as well as other matters that are required to be reported by the governmental audit requirement in the manner specified by the governmental audit requirement. If the other matters required to be reported by the governmental audit requirement are not appropriate for the auditor to report on, the auditor should follow paragraph .39. (Ref: par. .A36)

Other Reporting Considerations

.34 The auditor should modify the auditor's opinion on compliance in accordance with section 705, *Modifications to the Opinion in the Independent Auditor's Report*, if any of the following conditions exist:

- a. The auditor concludes that, based on the audit evidence obtained, material noncompliance with the applicable compliance requirements exists.

- b. The auditor is unable to obtain sufficient appropriate audit evidence to conclude whether material noncompliance with the applicable compliance requirements exists.

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.35 When noncompliance results in a modified opinion, the "Basis for Opinion" section, with an appropriately modified heading, should include a description of such noncompliance, or a reference to a description of such noncompliance in an accompanying schedule, and a statement that compliance with such requirements is necessary, in the auditor's opinion, for the entity to comply with the applicable compliance requirements.⁹ [Paragraph added, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.36 The auditor should modify the report described in paragraphs .30 and .31 when the auditor makes reference to the report of another auditor as the basis, in part, for the auditor's report. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

[.37] [Paragraph renumbered and deleted by the issuance of SAS No. 140, April 2020.]

.38 The auditor also should communicate to those charged with governance of the auditor's responsibilities under GAAS, *Government Auditing Standards*, and the governmental audit requirement, an overview of the planned scope and timing of the compliance audit, and any significant deficiencies and material weaknesses in internal control over compliance that the auditor identified during the compliance audit.^{10, 11} (Ref: par. .A37–.A38) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Paragraph renumbered and amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.39 Printed forms, schedules, or reports designed or adopted by government agencies with which they are to be filed sometimes contain prescribed wording. If a printed form, schedule, or report requires the auditor to make a statement that the auditor has no basis to make, the auditor should accordingly reword the form, schedule, or report or attach an appropriately worded separate report. (Ref: par. .A39) [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Documentation (Ref: par. .A40)

.40 The auditor should document the risk assessment procedures performed, including those related to gaining an understanding of internal control

⁹ Paragraph .21 of section 705, *Modifications to the Opinion in the Independent Auditor's Report*. [Footnote added, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

¹⁰ See section 265, *Communicating Internal Control Related Matters Identified in an Audit*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote subsequently [moved and] renumbered by the issuance of SAS No. 140, April 2020.]

¹¹ See section 260, *The Auditor's Communication With Those Charged With Governance*. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

over compliance.¹² [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.41 The auditor should document the auditor's responses to the assessed risks of material noncompliance, the procedures performed to test compliance with the applicable compliance requirements, and the results of those procedures, including any tests of controls over compliance.¹³ [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.42 The auditor should document materiality levels and the basis on which they were determined. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.43 The auditor should document how the auditor complied with the specific governmental audit requirements that are supplementary to GAAS and *Government Auditing Standards*. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Reissuance of the Compliance Report (Ref: par. .A41–.A42)

.44 If an auditor reissues the auditor's report, the reissued report should include an other-matter paragraph stating that the report is replacing a previously issued report and describing the reasons why the report is being reissued, and any changes from the previously issued report. If additional procedures are performed to obtain sufficient appropriate audit evidence for all of the government programs being reported on, the auditor's report date should be updated to reflect the date the auditor obtained sufficient appropriate audit evidence regarding the events that caused the auditor to perform the new procedures. If, however, additional procedures are performed to obtain sufficient appropriate audit evidence for only some of the government programs being reported on, the auditor should dual date the report with the updated report date reflecting the date the auditor obtained sufficient appropriate audit evidence regarding the government programs affected by the circumstances and referencing the government programs for which additional audit procedures have been performed. Reissuance of an auditor-prepared document required by the governmental audit requirement that is incorporated by reference into the auditor's report is considered to be a reissuance of the report. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Application and Other Explanatory Material

Introduction and Applicability

.A1 An example of an engagement to which this section is applicable is an audit performed in accordance with the provisions of Title 2 U.S. Code of Federal

¹² Paragraph .33a–b and .33d of section 315A. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

¹³ Paragraph .30 of section 330. [Footnote revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance). This section is applicable because the Uniform Guidance is a governmental audit requirement that requires the auditor to perform a compliance audit in accordance with both GAAS and *Government Auditing Standards* and to express an opinion on compliance. Another example is a department specific requirement such as the U.S. Department of Housing and Urban Development *Audit Requirements Related to Entities Such As Public Housing Agencies, Nonprofit and For-Profit Housing Projects, and Certain Lenders*. An example of an engagement to which this section is not applicable is an engagement performed to satisfy a law or regulation requiring the entity to have an auditor determine whether the entity has spent transportation excise tax monies in accordance with the specific purposes outlined in the law or regulation, but not requiring that the audit be performed in accordance with both GAAS and *Government Auditing Standards*. Such an engagement could be performed under AT-C section 315; AT-C section 205; or AT-C section 215, *Agreed-Up Procedures Engagements*, depending on the requirements of the government.

Law or regulation will not always indicate which standards to follow. In such cases, professional judgment will be needed to determine, based on the circumstances, the appropriate standards to follow. (Ref: par. .01) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A2 An example of a governmental audit requirement that calls for an examination of an entity's compliance with specified requirements in accordance with AT-C section 315 is the compliance attestation engagement of third-party servicers included in the U.S. Department of Education's audit guide *Guide for Audits of Proprietary Schools and For Compliance Attestation Engagements of Third-Party Servicers Administering Title IV Programs*. (Ref: par. .01 and .03) [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

Objectives

.A3 Most governmental audit requirements specify that the auditor's opinion on compliance is at the program level. However, some governmental audit requirements may specify a different level (for example, at the applicable compliance requirement level). (Ref: par. .10) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Definitions

Governmental Audit Requirement

.A4 Governmental audit requirements also may set forth specific supplementary requirements of the compliance audit (for example, procedures to be performed by the auditor, documentation requirements, the form of reporting, and continuing professional education requirements with which the auditor is required to comply). (Ref: par. .11) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Adapting and Applying the AU-C Sections to a Compliance Audit (Ref: par. .12)

.A5 AU-C sections often identify audit procedures and contain examples that are specific to a financial statement audit. The auditor is not expected to adapt or apply all such procedures to the compliance audit, only those that, in the auditor's professional judgment, are relevant and necessary to meet the objectives of the compliance audit. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

Establishing Materiality Levels (Ref: par. .13)

.A6 In a compliance audit, the auditor's purpose for establishing materiality levels is to

- a. determine the nature and extent of risk assessment procedures.
- b. identify and assess the risks of material noncompliance.
- c. determine the nature, timing, and extent of further audit procedures.
- d. evaluate whether the entity complied with the applicable compliance requirements.
- e. report findings of noncompliance and other matters required to be reported by the governmental audit requirement.

.A7 Generally, for all of the purposes identified in paragraph .A6, the auditor's consideration of materiality is in relation to the government program as a whole. However, the governmental audit requirement may specify a different level of materiality for one or more of these purposes. For example, the Uniform Guidance states that the auditor's determination of whether noncompliance is material for the purpose of reporting an audit finding is in relation to a type of compliance requirements identified in the *OMB Compliance Supplement (Compliance Supplement)*. (See paragraph .A10 for further information about the *Compliance Supplement*.) [As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A8 Because the governmental audit requirement usually is established by the grantors and the auditor's report on compliance is primarily for their use, the auditor's determination of materiality usually is influenced by the needs of the grantors. However, in a compliance audit, the auditor's judgment about matters that are material to users of the auditor's report also is based on consideration of the needs of users as a group, including grantors.

Identifying Government Programs and Applicable Compliance Requirements (Ref: par. .14)

.A9 Some governmental audit requirements specifically identify the applicable compliance requirements. Other governmental audit requirements provide a framework for the auditor to determine the applicable compliance requirements. For example, the *Compliance Supplement* provides such a framework for compliance audits under the Uniform Guidance. [As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A10 The following are some of the sources an auditor may consult when identifying and obtaining an understanding of the applicable compliance requirements:

- a. The *Compliance Supplement*, which is issued by the OMB, and used in compliance audits under the Uniform Guidance, contains the compliance requirements that typically are applicable to federal government programs, as well as suggested audit procedures when compliance requirements are applicable and have a direct and material effect on the entity's compliance. Part 7 of the *Compliance Supplement* provides guidance for identifying compliance requirements for programs not included therein.
- b. The applicable program-specific audit guide issued by the grantor agency, which contains the compliance requirements pertaining to the government program and suggested audit procedures to test for compliance with the applicable compliance requirements.

[As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A11 The following are procedures the auditor may perform to identify and obtain an understanding of the applicable compliance requirements if the *Compliance Supplement* or a program-specific audit guide is not applicable:

- a. Reading laws, statutes, regulations, rules, and provisions of contracts or grant agreements that pertain to the government program
- b. Making inquiries of management and other knowledgeable entity personnel (for example, the chief financial officer, internal auditors, legal counsel, compliance officers, or grant or contract administrators)
- c. Making inquiries of appropriate individuals outside the entity, such as
 - i. the office of the federal, state, or local program official or auditor, or other appropriate audit oversight organizations or regulators, about the laws and regulations applicable to entities within their jurisdiction, including statutes and uniform reporting requirements
 - ii. a third-party specialist, such as an attorney
- d. Reading the minutes of meetings of the governing board of the entity being audited
- e. Reading audit documentation about the applicable compliance requirements prepared during prior years' audits or other engagements
- f. Discussing the applicable compliance requirements with auditors who performed prior years' audits or other engagements

The procedures listed in this paragraph also may assist the auditor in obtaining a further understanding of the applicable compliance requirements even when the *Compliance Supplement* or program-specific audit guide is applicable. [As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

Performing Risk Assessment Procedures (Ref: par. .15–.16)

.A12 Obtaining an understanding of the government program, the applicable compliance requirements, and the entity's internal control over compliance establishes a frame of reference within which the auditor plans the compliance audit and exercises professional judgment about assessing risks of material noncompliance and responding to those risks throughout the compliance audit.

.A13 The nature and extent of the risk assessment procedures the auditor performs may vary from entity to entity and are influenced by factors such as the following:

- The newness and complexity of the applicable compliance requirements
- The auditor's knowledge of the entity's internal control over compliance with the applicable compliance requirements obtained in previous audits or other professional engagements
- The nature of the applicable compliance requirements
- The services provided by the entity and how they are affected by external factors
- The level of oversight by the grantor or pass-through entity
- How management addresses findings

.A14 Performing risk assessment procedures to obtain an understanding of the entity's internal control over compliance includes an evaluation of the design of controls and whether the controls have been implemented. Internal control consists of the following five interrelated components: the control environment, the entity's risk assessment, information and communication systems, control activities, and monitoring.^[14] Section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, contains a detailed discussion of these components.¹⁵ [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A15 The auditor's procedures described in paragraph .16, related to understanding how management has responded to findings and recommendations that could have a material effect on the entity's compliance with the applicable compliance requirements, are performed to assist the auditor in understanding whether management responded appropriately to such findings. Examples of external monitoring include regulatory reviews, program reviews by government agencies or pass-through entities, and grantor reviews. Examples of internal monitoring include reports prepared by the internal audit function and internal quality assessments.

Identifying and Assessing the Risks of Material Noncompliance (Ref: par. .17)

.A16 Factors the auditor may consider in identifying and assessing the risks of material noncompliance are as follows:

- The complexity of the applicable compliance requirements
- The susceptibility of the applicable compliance requirements to noncompliance
- The length of time the entity has been subject to the applicable compliance requirements

^[14] [Footnote deleted, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

¹⁵ Paragraphs .15–.25 and appendix B, "Internal Control Components," of section 315A. [Footnote added to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

- The auditor's observations about how the entity has complied with the applicable compliance requirements in prior years
- The potential effect on the entity of noncompliance with the applicable compliance requirements
- The degree of judgment involved in adhering to the compliance requirements
- The auditor's assessment of the risks of material misstatement in the financial statement audit

[As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A17 In identifying and assessing the risks of material noncompliance, the auditor may evaluate inherent risk of noncompliance and control risk of noncompliance individually or in combination. [As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A18 Examples of situations in which there may be a risk of material noncompliance that is pervasive to the entity's noncompliance are as follows:

- An entity that is experiencing financial difficulty and for which there is an increased risk that grant funds will be diverted for unauthorized purposes
- An entity that has a history of poor recordkeeping for its government programs

Performing Further Audit Procedures in Response to Assessed Risks

.A19 Section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*, provides guidance that may be adapted when developing an overall response to the risks of material noncompliance.¹⁶ (Ref: par. .18) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122.]

.A20 A compliance audit includes designing procedures to detect both intentional and unintentional material noncompliance. The auditor can obtain reasonable, but not absolute, assurance about the entity's compliance because of factors such as the need for judgment, the use of sampling, the inherent limitations of internal control over compliance with applicable compliance requirements, and the fact that much of the evidence available to the auditor is persuasive rather than conclusive in nature. Also, procedures that are effective for detecting noncompliance that is unintentional may be ineffective for detecting noncompliance that is intentional and concealed through collusion between entity personnel and a third party or among management or employees of the entity. Therefore, the subsequent discovery that material noncompliance with applicable compliance requirements exists does not, in and of itself, evidence inadequate planning, performance, or judgment on the part of the auditor. (Ref: par. .19)

¹⁶ Paragraphs .A1–.A3 of section 330. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

.A21 An auditor may decide to use audit sampling to obtain sufficient appropriate audit evidence in a compliance audit. Section 530, *Audit Sampling*, discusses the factors to be considered in planning, designing, and evaluating audit samples, including sampling for tests of controls. In addition, the AICPA Audit Guide Government Auditing Standards and *Single Audits* contains guidance on sampling in the context of a compliance audit. (Ref: par. .19) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A22 To test for compliance with applicable laws and regulations, tests of details (including tests of transactions) may be performed in the following areas:

- Grant disbursements or expenditures
- Eligibility files
- Cost allocation plans
- Periodic reports filed with grantor agencies (Ref: par. .19)

.A23 The use of analytical procedures to gather substantive evidence is generally less effective in a compliance audit than it is in a financial statement audit. However, substantive analytical procedures may contribute some evidence when performed in addition to tests of transactions and other auditing procedures necessary to provide the auditor with sufficient appropriate audit evidence. (Ref: par. .19)

.A24 Section 330 provides guidance related to designing and performing further audit procedures in response to the assessed risks of material noncompliance.¹⁷ However, the paragraphs in section 330 that address the use of audit evidence about the operating effectiveness of controls obtained in prior audits are not applicable to a compliance audit.¹⁸ (Ref: par. .20) [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A25 Some governmental audit requirements, for example, in the Uniform Guidance, require tests of the operating effectiveness of controls identified as likely to be effective, even if the auditor believes that such testing would be inefficient. (Ref: par. .20) [As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

Supplementary Audit Requirements

.A26 Examples of supplementary audit requirements are the requirements in the Uniform Guidance for the auditor to

- perform specified procedures to identify major programs.

¹⁷ Paragraphs .06–.12, .15–.18, and .22–.25 of section 330. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

¹⁸ Paragraph .13–.14 of section 330. [Footnote added, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

- follow up on prior audit findings and perform procedures to assess the reasonableness of the summary schedule of prior audit findings. (Ref: par. .21)

[As amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A27 When there is conflicting guidance, the auditor may decide to consult with the government agency responsible for establishing audit guidance or that provides the funding. (Ref: par. .22)

Written Representations

.A28 In some cases, management may include qualifying language in the written representations to the effect that representations are made to the best of management's knowledge and belief. However, such qualifying language is not appropriate for the representations in paragraph .23*a–b* and .23*l*. (Ref: par. .23)

Subsequent Events

.A29 Two types of subsequent events may occur. The first type consists of events that provide additional evidence with respect to conditions that existed at the end of the reporting period that affect the entity's compliance during the reporting period. The second type consists of events of noncompliance that did not exist at the end of the reporting period but arose subsequent to the reporting period. (Ref: par. .25)

.A30 An example of a matter of noncompliance that may occur subsequent to the period being audited but before the report release date that may warrant disclosure to prevent report users from being misled is the discovery of noncompliance in the subsequent period of such magnitude that it caused the grantor to stop funding the program. (Ref: par. .27)

Evaluating the Sufficiency and Appropriateness of the Audit Evidence and Forming an Opinion (Ref: par. .28–.29)

.A31 In determining whether an entity has materially complied with the applicable compliance requirements, the auditor may consider the following factors:

- a. The frequency of noncompliance with the applicable compliance requirements identified during the compliance audit
- b. The nature of the noncompliance with the applicable compliance requirements identified
- c. The adequacy of the entity's system for monitoring compliance with the applicable compliance requirements and the possible effect of any noncompliance on the entity
- d. Whether any identified noncompliance with the applicable compliance requirements resulted in likely questioned costs that are material to the government program

.A32 The auditor's evaluation of whether the entity materially complied with applicable compliance requirements includes consideration of noncompliance identified by the auditor, regardless of whether the entity corrected the noncompliance after the auditor brought it to management's attention.

Reporting

[**A33**] [Paragraph deleted by the issuance of SAS No. 125, December 2011.]^[19]

A34 An appropriate heading for the "Opinion" section indicates the level specified by the governmental audit requirement. For example, an appropriate heading for reports on compliance audits under the Uniform Guidance would be "Opinion on Each Major Federal Program." (Ref: par. .30d) [Paragraph added, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

A35 Section 220A, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, requires that, on or before the date of the auditor's report, the engagement partner, through a review of the audit documentation and discussion with the engagement team, be satisfied that sufficient appropriate audit evidence has been obtained to support the conclusions reached and for the auditor's report to be issued.²⁰ When an engagement quality control review is performed, section 220A requires that the auditor's report not be released prior to the completion of the engagement quality control review.²¹ (Ref: par. .30m) [Paragraph added, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

A36 If the report is a matter of public record or available for public inspection, removing personally identifiable information in the compliance audit report and findings of noncompliance will reduce the likelihood of sensitive information being disclosed. (Ref: par. .30k–m and .33) [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

A37 *Government Auditing Standards* also requires the auditor to obtain and report views of responsible officials concerning the findings, conclusions, and recommendations included in the auditor's report as well as any planned corrective actions.²² (Ref: par. .38) [Paragraph renumbered and amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

A38 If views of responsible officials are included in the auditor's report or in an auditor-prepared document required by a governmental audit requirement that is incorporated by reference in the auditor's report, the auditor may add a paragraph to the auditor's written communication disclaiming an opinion on management's response. Following is an example of such a paragraph: (Ref: par. .38)

Government Auditing Standards requires the auditor to perform limited procedures on Example Entity's response, described in the accompanying [insert name of document], to the [insert type of findings, such as noncompliance or

^[19] [Footnote deleted by the issuance of SAS No. 125, December 2011. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

²⁰ See paragraph .19 of section 220A, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, for further discussion. [Footnote added, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

²¹ Paragraph .21 of section 220A. [Footnote added, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

²² See the "Reporting Views of Responsible Officials" section of *Government Auditing Standards*. [Footnote renumbered and revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Footnote renumbered, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 123. Footnote subsequently renumbered by the issuance of SAS No. 125, December 2011. Footnote renumbered and amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

internal control over compliance] findings identified in our compliance audit. Example Entity's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

[Paragraph renumbered and amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A39 If the auditor is submitting a reworded form, schedule, or report or appropriately worded separate report, the auditor may include a separate communication to the agency explaining why the auditor's report was modified. (Ref: par. .39) [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Documentation (Ref: par. .12 and .40–.43)

.A40 The auditor is not expected to prepare specific documentation of how the auditor adapted and applied each of the applicable AU-C sections to the objectives of a compliance audit. The documentation of the audit strategy, audit plan, and work performed cumulatively demonstrate whether the auditor has complied with the requirement in paragraph .12. [Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Reissuance of the Compliance Report (Ref: par. .44)

.A41 The following are examples of situations in which the auditor might reissue the compliance report:

- A quality control review performed by a governmental agency indicates that the auditor did not test an applicable compliance requirement.
- The discovery subsequent to the date of the compliance report that the entity had another government program that was required to be tested.

[Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A42 An example of an auditor-prepared document required by a governmental audit requirement that is incorporated by reference in the auditor's report is the schedule of findings and questioned costs in a compliance audit under the Uniform Guidance. [Paragraph renumbered and amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

.A43

Appendix — AU-C Sections That Are Not Applicable to Compliance Audits^[1]

The following AU-C sections and individually enumerated requirement paragraphs of specific AU-C sections are not applicable to a compliance audit performed under this section either because (a) they are not relevant to a compliance audit environment, (b) the procedures and guidance would not contribute to meeting the objectives of a compliance audit, or (c) the subject matter is specifically covered in this section. Where the table in this appendix specifies individual requirement paragraphs rather than an entire AU-C section, the application and other explanatory material paragraphs related to such requirement paragraphs also do not apply. However, an auditor may apply these AU-C sections and paragraphs if the auditor believes doing so will provide appropriate audit evidence in the specific circumstances to support the auditor's opinion on compliance.

<i>AU-C Section</i>	<i>Paragraphs Not Applicable to Compliance Audits</i>
<i>210A, Terms of Engagement</i>	Paragraphs .06a and .08a
<i>240, Consideration of Fraud in a Financial Statement Audit</i>	Paragraphs .26 and .32b
<i>250, Consideration of Laws and Regulations in an Audit of Financial Statements</i>	All
<i>315A, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement</i>	Paragraphs .12c, .26–.30, and .33c
<i>330, Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained</i>	Paragraphs .13–.14, .19–.21, .26, and .31–.32
<i>501, Audit Evidence — Specific Considerations for Selected Items</i>	All
<i>505, External Confirmations</i>	All

Exhibit — Illustrative Combined Report on Compliance With Applicable Requirements and Internal Control Over Compliance — *(Unmodified Opinion on Compliance, No Material Weaknesses or Significant Deficiencies in Internal Control Over Compliance Identified)*

The following is an illustrative combined report on compliance with applicable requirements and internal control over compliance that contains the elements in paragraph .30. This illustrative report contains an unmodified opinion on compliance with no material weaknesses or significant deficiencies in internal control over compliance identified. The AICPA Audit Guide Government Auditing Standards and *Single Audits* contains illustrative language for other types of reports, including reports containing qualified or adverse opinions on compliance with either material weaknesses in internal control over compliance, significant deficiencies in internal control over compliance, or both identified.

Independent Auditor's Report

[Addressee]

Report on Compliance

Opinion on [indicate the reporting level pursuant to governmental audit requirement]

We have audited Example Entity's compliance with the [identify the applicable compliance requirements or refer to the document that describes the applicable compliance requirements] applicable to Example Entity's [identify the government program(s) audited or refer to a separate schedule that identifies the program(s)] for the year ended June 30, 20X1.

In our opinion, Example Entity complied, in all material respects, with the compliance requirements referred to above that are applicable to [indicate the reporting level pursuant to governmental audit requirement] for the year ended June 30, 20X1.

Basis for Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*^[1] (*Government Auditing Standards*) issued by the Comptroller General of the United States; and [insert the name of the governmental audit requirement or program-specific audit guide]. Our responsibilities under those standards and [insert the name of the governmental audit requirement or program-specific audit guide] are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Example Entity and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide

^[1] [Footnote deleted by the issuance of SAS No. 140, April 2020.]

a legal determination of Example Entity's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Example Entity's government programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Example Entity's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and [insert the name of the governmental audit requirement or program-specific audit guide] will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Example Entity's compliance with the requirements of the government program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and [insert the name of the governmental audit requirement or program-specific audit guide], we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Example Entity's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Example Entity's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with [insert the name of the governmental audit requirement or program-specific audit guide], but not for the purpose of expressing an opinion on the effectiveness of Example Entity's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in

the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the "Auditor's Responsibilities for the Audit of Compliance" section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the *[insert the name of the governmental audit requirement or program-specific audit guide]*. Accordingly, this report is not suitable for any other purpose.

[Signature of the auditor's firm]

[City and state where the auditor's report is issued]

[Date of the auditor's report]

[Revised, October 2011, to reflect conforming changes necessary due to the issuance of SAS No. 122. Revised, April 2013, to reflect conforming changes necessary due to the issuance of SAS No. 125. Paragraph renumbered and amended, effective for compliance audits for fiscal periods ending on or after December 15, 2021, by SAS No. 140.]

AU-C Section 940

An Audit of Internal Control Over Financial Reporting That Is Integrated With an Audit of Financial Statements

Source: SAS No. 130; SAS No. 135; SAS No. 140.

Effective for integrated audits for periods ending on or after December 15, 2016, unless otherwise indicated.

NOTE

In October 2021, the Auditing Standards Board (ASB) issued Statement on Auditing Standards (SAS) No. 145, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, which contains amendments to this section.

The amendments are effective for audits of financial statements for periods ending on or after December 15, 2023, and can be viewed in appendix G of section 315 until the effective date, when they will be applied to this section.

In June 2022, the ASB issued SAS No. 146, *Quality Management for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, which contains amendments to this section.

The amendments are effective for engagements conducted in accordance with generally accepted auditing standards for periods beginning on or after December 15, 2025, and can be viewed in the appendix of section 220 until the effective date, when they will be applied to this section.

Introduction

Scope of This Section

.01 This section establishes requirements and provides guidance that applies only when an auditor is engaged to perform an audit of internal control over financial reporting (ICFR) that is integrated with an audit of financial statements (*integrated audit*). (Ref: par. .A1)

.02 Generally accepted auditing standards (GAAS) are written in the context of an audit of financial statements but are to be adapted as necessary in the circumstances when applied to an audit of ICFR that is integrated with an audit of financial statements.¹ This section includes special considerations related to performing an integrated audit.

Effective Date

.03 This section is effective for integrated audits for periods ending on or after December 15, 2016.

¹ Paragraph .02 of section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*.

Objectives

- .04 The objectives of the auditor in an audit of ICFR are to
- obtain reasonable assurance about whether material weaknesses exist as of the date specified in management's assessment about the effectiveness of ICFR (*as of date*) and
 - express an opinion on the effectiveness of ICFR in a written report, and communicate with management and those charged with governance as required by this section, based on the auditor's findings. (Ref: par. .A2–.A4)

Definitions

.05 For purposes of GAAS, the following terms have the meanings attributed as follows:

Audit of ICFR. An audit of the design and operating effectiveness of an entity's ICFR.

Control objective. The aim or purpose of specified controls. Control objectives address the risks that the controls are intended to mitigate. In the context of ICFR, a control objective generally relates to a relevant assertion for a significant class of transactions, account balance, or disclosure and addresses the risk that the controls in a specific area will not provide reasonable assurance that a misstatement or omission in that relevant assertion is prevented, or detected and corrected, on a timely basis.

Criteria. The benchmarks used to measure or evaluate the subject matter. (Ref: par. .A5)

Detective control. A control that has the objective of detecting and correcting errors or fraud that have already occurred that could result in a misstatement of the financial statements.

Internal control over financial reporting (ICFR). A process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with the applicable financial reporting framework and includes those policies and procedures that

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the applicable financial reporting framework, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and
- provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

ICFR has inherent limitations. ICFR is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. ICFR also

can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements will not be prevented, or detected and corrected, on a timely basis by ICFR. (Ref: par. .A6–.A7)

Management's assessment about ICFR. Management's conclusion about the effectiveness of the entity's ICFR, based on suitable and available criteria. Management's assessment is included in management's report on ICFR. (Ref: par. .A8)

Preventive control. A control that has the objective of preventing errors or fraud that could result in a misstatement of the financial statements.

Requirements

Preconditions for the Audit of ICFR

.06 Section 210A, *Terms of Engagement*, requires the auditor to establish whether the preconditions for an audit are present.² In an audit of ICFR, the auditor should

- a. obtain the agreement of management that it acknowledges and understands its responsibility for
 - i. designing, implementing, and maintaining effective ICFR.
 - ii. evaluating the effectiveness of the entity's ICFR using suitable and available criteria.
 - iii. providing management's assessment about ICFR in a report that accompanies the auditor's report (see paragraph .55).
 - iv. supporting its assessment about the effectiveness of the entity's ICFR with sufficient evaluations and documentation.
 - v. providing the auditor with
 - (1) access to all information of which management is aware that is relevant to management's assessment of ICFR, such as records, documentation, and other matters;
 - (2) additional information that the auditor may request from management for the purpose of the audit of ICFR; and
 - (3) unrestricted access to persons within the entity from whom the auditor determines it necessary to obtain audit evidence. (Ref: par. .A9–.A12)
- b. determine that the as of date corresponds to the balance sheet date (or period ending date) of the period covered by the financial statements. (Ref: par. .A13)

.07 The auditor should evaluate the effectiveness of the entity's ICFR using the same suitable and available criteria used by management for its assessment. (Ref: par. .A14–.A17)

² Paragraph .06 of section 210A, *Terms of Engagement*.

Requesting a Written Assessment

.08 In accordance with paragraph .06a(iii), the auditor should request from management a written assessment about the effectiveness of the entity's ICFR. Management's refusal to provide a written assessment represents a scope limitation, and the auditor should apply the requirements in paragraphs .74–.77.

Integrating the Audit of ICFR With the Financial Statement Audit

.09 Although the objectives of an audit of ICFR and an audit of financial statements are not the same, the auditor should plan and perform the integrated audit to achieve their respective objectives simultaneously. The auditor should design tests of controls

- a. to obtain sufficient appropriate audit evidence to support the auditor's opinion on ICFR as of the date specified in management's assessment about ICFR and
- b. to obtain sufficient appropriate audit evidence to support the auditor's control risk assessments for purposes of the audit of financial statements. (Ref: par. .A18–.A19)

.10 If the auditor is engaged to audit the effectiveness of an entity's ICFR for a period of time, the requirements and guidance in this section should be modified accordingly, and the auditor should integrate the audit of ICFR with an audit of financial statements covering the same period of time.

.11 The auditor should consider the effect of the results of the financial statement auditing procedures on the auditor's risk assessments and the testing necessary to conclude on the operating effectiveness of a control.

.12 If, during the audit of ICFR, the auditor identifies a deficiency in ICFR, the auditor should determine the effect of the deficiency, if any, on the nature, timing, and extent of substantive procedures to be performed to reduce audit risk in the audit of the financial statements to an acceptably low level. See paragraphs .52–.54 for requirements on evaluating the effects of findings, including those from the financial statement audit, when forming an opinion on the effectiveness of ICFR.

.13 When concluding on the effectiveness of controls for the purpose of the financial statement audit, the auditor should evaluate the results of any additional tests of controls performed by the auditor to achieve the objective related to expressing an opinion on the entity's ICFR. (Ref: par. .A20)

Planning the Audit of ICFR

.14 In accordance with section 300, *Planning an Audit*, the auditor should establish an overall audit strategy that sets the scope, timing, and direction of the audit of ICFR and that guides the development of the audit plan.³ (Ref: par. .A21)

Role of Risk Assessment

.15 The auditor should focus more attention on areas of higher risk. A direct relationship exists between the degree of risk that a material weakness could exist in a particular area of the entity's ICFR and the amount of attention that would be devoted to that area. In addition, an entity's ICFR is less likely to prevent, or detect and correct, a misstatement caused by fraud than a

³ Paragraph .07 of section 300, *Planning an Audit*.

misstatement caused by error. It is not necessary to test controls that, even if deficient, would not present a reasonable possibility of material misstatement to the financial statements. (Ref: par. .A22–.A24)

Addressing the Risk of Fraud

.16 The auditor should evaluate whether the entity's controls sufficiently address identified risks of material misstatement due to fraud and the risk of management override of other controls. (Ref: par. .A25)

.17 Section 240, *Consideration of Fraud in a Financial Statement Audit*, requires the auditor to consider whether other information obtained by the auditor indicates risks of material misstatement due to fraud.⁴ If the auditor identifies deficiencies in controls designed to prevent, or detect and correct, misstatements caused by fraud during the audit of ICFR, the auditor should take into account those deficiencies when developing the response to risks of material misstatement during the financial statement audit.⁵

Using the Work of Internal Auditors or Others

.18 The external auditor should obtain an understanding of the work of the internal audit function and others sufficient to identify those activities related to the effectiveness of ICFR that are relevant to planning and performing the audit of ICFR. (Ref: par. .A26)

.19 The external auditor should evaluate the extent to which the external auditor will use the work of internal auditors or others to modify the nature or timing, or reduce the extent, of audit procedures to be performed directly by the external auditor. When using the work of internal auditors, section 610, *Using the Work of Internal Auditors*, is applicable. When the external auditor plans to use the work of others in obtaining audit evidence or to provide direct assistance in the audit of ICFR, the external auditor should apply the requirements in section 610 as if others were internal auditors. (Ref: par. .A27–.A30)

Materiality

.20 The auditor should use the same materiality for planning and performing the audit of ICFR and the financial statement audit. (Ref: par. .A31)

Using a Top-Down Approach

.21 The auditor should use a top-down approach to the audit of ICFR to select the controls to test. (Ref: par. .A32–.A33)

Entity-Level Controls

.22 The auditor should identify and test those entity-level controls that are important to the auditor's conclusion about whether the entity has effective ICFR. (Ref: par. .A34–.A37)

Evaluating the Components of ICFR

.23 In an integrated audit, the auditor should evaluate the components of ICFR and determine whether

- a.* the components are present and functioning in the design, implementation, and operation of ICFR, and

⁴ Paragraph .23 of section 240, *Consideration of Fraud in a Financial Statement Audit*.

⁵ See paragraphs .28–.33 of section 240.

- b. the components are operating together in an integrated manner to achieve the entity's financial reporting objectives. (Ref: par. .A38–.A48)

Period-End Financial Reporting Process

.24 Because of its importance to financial reporting and to the integrated audit, the auditor should evaluate the period-end financial reporting process, which includes the following:

- a. Procedures used to enter transaction totals into the general ledger
- b. Procedures related to the selection and application of accounting policies
- c. Procedures used to initiate, authorize, record, and process journal entries in the general ledger
- d. Procedures used to record recurring and nonrecurring adjustments to the financial statements
- e. Procedures for preparing financial statements (Ref: par. .A49)

.25 As part of evaluating the period-end financial reporting process, the auditor should assess

- a. the inputs, procedures performed, and outputs of the processes the entity uses to produce its financial statements;
- b. the extent of IT involvement in the period-end financial reporting process;
- c. who participates from management;
- d. the locations involved in the period-end financial reporting process;
- e. the types of adjusting and consolidating entries; and
- f. the nature and extent of the oversight of the process by management and those charged with governance.

Identifying Significant Classes of Transactions, Account Balances, and Disclosures, and Their Relative Assertions

.26 The auditor should identify significant classes of transactions, account balances, and disclosures, and their relevant assertions. To identify significant classes of transactions, account balances, and disclosures, and their relevant assertions, the auditor should evaluate the qualitative and quantitative risk factors related to the financial statement line items and disclosures. (Ref: par. .A50–.A52)

.27 As part of identifying significant classes of transactions, account balances, and disclosures, and their relevant assertions, the auditor should determine the likely sources of potential misstatements that would cause the financial statements to be materially misstated. (Ref: par. .A53–.A54)

.28 When an entity has components, the auditor should identify significant classes of transactions, account balances, and disclosures, and their relevant assertions, based on the group financial statements. (Ref: par. .A55)

Understanding Likely Sources of Misstatement

.29 To further understand the likely sources of potential misstatements, and as a part of selecting the controls to test, the auditor should

- a. understand the flow of transactions related to the relevant assertions, including how these transactions are initiated, authorized, recorded, processed, and reported.
- b. identify the points within the entity's processes at which a misstatement, including a misstatement due to fraud, could arise that, individually or in combination with other misstatements, would be material (for example, points at which information is initiated, transferred, or otherwise modified).
- c. identify the controls that management has implemented to address these potential misstatements.
- d. identify the controls that management has implemented over the prevention, or timely detection and correction, of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements. (Ref: par. .A56–.A57)

.30 Because of the degree of judgment necessary, the auditor should either directly perform the procedures that achieve the requirements in paragraph .29 or supervise the work of the internal auditors or others who provide direct assistance to the auditor.

.31 The auditor should understand how IT affects the entity's flow of transactions and, as required by section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*, how the entity has responded to risks arising from IT.⁶ (Ref: par. .A58)

Selecting Controls to Test

.32 The auditor should identify and test those controls that are important to the auditor's conclusion about whether the entity's controls sufficiently address the assessed risk of material misstatement to each relevant assertion. (Ref: par. .A59–.A60)

Testing Controls

Evaluating Design Effectiveness

.33 The auditor should evaluate the design effectiveness of controls by determining whether the entity's controls, if operated as prescribed by persons possessing the necessary authority and competence to perform them effectively, satisfy the entity's control objectives, and can effectively prevent, or detect and correct, misstatements caused by errors or fraud that could result in material misstatements in the financial statements. (Ref: par. .A61–.A62)

Testing Operating Effectiveness

.34 The auditor should test the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control possesses the necessary authority and competence to perform the control effectively. (Ref: par. .A63–.A64)

Relationship of Risk to the Evidence to Be Obtained

.35 As the risk associated with the control being tested increases, the sufficiency and appropriateness of evidence that the auditor obtains should also increase. (Ref: par. .A65–.A68)

⁶ Paragraph .22 of section 315A, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*.

.36 The auditor should obtain evidence about the effectiveness of selected controls for each relevant assertion. The auditor is not responsible for obtaining sufficient appropriate audit evidence to support an opinion about the effectiveness of each individual control. (Ref: par. .A69–.A75)

.37 To obtain evidence about whether a selected control is effective, the auditor should test the control.

.38 When the auditor identifies control deviations, the auditor should determine the effect of the deviations on the auditor's assessment of the risk associated with the control being tested and the evidence to be obtained, as well as on the operating effectiveness of the control. (Ref: par. .A76)

Timing and Extent of Tests of Controls

.39 To express an opinion on ICFR as of a point in time, the auditor should obtain evidence that ICFR has operated effectively for a sufficient period of time, which may be less than the entire period (ordinarily one year) covered by the entity's financial statements. The auditor should balance performing the tests of controls closer to the as of date with the need to test controls over a sufficient period of time to obtain sufficient appropriate audit evidence of operating effectiveness. (Ref: par. .A77–.A80)

Rollforward Procedures

.40 When the auditor reports on the effectiveness of controls as of a specific date and obtains evidence about the operating effectiveness of controls at an interim date, the auditor should determine what additional evidence concerning the operation of the controls for the remaining period is necessary. (Ref: par. .A81–.A82)

Special Considerations for Subsequent Years' Audits

.41 In subsequent years' audits, the auditor should incorporate knowledge obtained during past audits performed by the auditor of the entity's ICFR into the decision-making process for determining the nature, timing, and extent of testing necessary. (Ref: par. .A83–.A85)

.42 The auditor should vary the nature, timing, and extent of testing of controls from period to period to introduce unpredictability into the testing and respond to changes in circumstances. (Ref: par. .A86)

Identifying Deficiencies in ICFR

.43 The auditor should determine whether, on the basis of the audit work performed, the auditor has identified one or more deficiencies in ICFR. (Ref: par. .A87)

Determination of Whether Material Weaknesses Exist as of the Date Specified in Management's Assessment About ICFR

.44 For purposes of forming an opinion on the effectiveness of ICFR, the auditor should evaluate the severity of each deficiency in ICFR to determine whether the deficiency, individually or in combination, is a material weakness as of the date specified in management's assessment about ICFR. In performing such evaluation, the auditor should determine whether deficiencies that affect the same significant class of transactions, account balance, or disclosure; relevant assertion; or component of ICFR, collectively result in a material weakness. (Ref: par. .A88–.A94)

.45 The auditor should evaluate the effect of compensating controls when determining whether a deficiency, or combination of deficiencies, in ICFR is a material weakness as of the date specified in management's assessment about

ICFR. The auditor should test the operating effectiveness of such compensating controls to determine whether they operate at a level of precision that would prevent, or detect and correct, a material misstatement. (Ref: par. .A95)

.46 If the auditor initially determines that a deficiency, or a combination of deficiencies, in ICFR is not a material weakness, the auditor should consider whether prudent officials, having knowledge of the same facts and circumstances, would likely reach the same conclusion. (Ref: par. .A96)

Determination of Whether Significant Deficiencies Exist During the Integrated Audit

.47 The auditor should evaluate the severity of each deficiency in ICFR to determine whether the deficiency, individually or in combination, is a significant deficiency. In performing such evaluation, the auditor should determine whether deficiencies that affect the same significant class of transactions, account balance, or disclosure; relevant assertion; or component of ICFR collectively result in a significant deficiency. (Ref: par. .A97–.A98)

Subsequent Events

.48 The auditor should inquire of management and, when appropriate, those charged with governance, about whether there were any changes in ICFR or conditions that might significantly affect ICFR subsequent to the as of date but before the date of the auditor's report. To obtain additional information about changes in ICFR or other conditions that might significantly affect the effectiveness of the entity's ICFR, the auditor should inquire about and read, for this subsequent period, the following: (Ref: par. .A99)

- a. Relevant internal audit (or similar functions, such as loan review in a financial institution) reports issued during the subsequent period
- b. Reports regarding deficiencies issued by other independent auditors
- c. Regulatory agency reports on the entity's ICFR
- d. Information about the effectiveness of the entity's ICFR obtained through other engagements performed for the entity by the auditor

.49 If, as a result of the subsequent events procedures, the auditor obtains knowledge about a material weakness that existed as of the date specified in management's assessment about ICFR, the auditor should issue an adverse opinion, as required by paragraph .68. The auditor should also follow paragraph .72 if management's assessment about ICFR states that ICFR is effective. If the auditor is unable to determine the effect of the subsequent event on the effectiveness of the entity's ICFR as of the date specified in management's assessment about ICFR, the auditor should disclaim an opinion. The auditor should disclaim an opinion on management's disclosures about corrective actions taken by the entity, if any. (Ref: par. .A100)

.50 If the auditor obtains knowledge about conditions that did not exist at the as of date but arose subsequent to that date and before the release of the auditor's report and such subsequent information has a material effect on the entity's ICFR, the auditor should include in the auditor's report an emphasis-of-matter paragraph directing the reader's attention to the subsequently discovered fact and its effects as disclosed in management's report or an other-matter paragraph describing the subsequently discovered fact and its effects. (Ref: par. .A101)

.51 The auditor has no responsibility to keep informed of events subsequent to the date of the auditor's report; however, the auditor should respond appropriately to facts that become known to the auditor after the date of the auditor's report that, had they been known to the auditor at that date, may have caused the auditor to revise the auditor's report.

Concluding Procedures

Forming an Opinion

.52 The auditor should form an opinion on the effectiveness of ICFR by evaluating evidence obtained from all sources, including

- a. the auditor's testing of controls for the ICFR audit,
- b. any additional tests of controls performed to achieve the objective related to expressing an opinion on the financial statements,
- c. misstatements detected during the financial statement audit, and
- d. any identified deficiencies.

.53 As part of evaluating evidence obtained from all sources, the auditor should review reports issued during the year by the internal audit function (or similar functions) that address controls related to ICFR and evaluate deficiencies identified in those reports.

.54 In addition to evaluating the findings from the auditor's testing of controls for the audit of ICFR, the auditor should evaluate the effect of the findings of the substantive procedures performed in the audit of financial statements on the effectiveness of ICFR. This evaluation should include, at a minimum,

- a. the risk assessments in connection with the selection and application of substantive procedures, especially those related to fraud;
- b. findings with respect to noncompliance with laws and regulations;
- c. findings with respect to related party transactions and complex or unusual transactions;
- d. indications of management bias in making accounting estimates and selecting accounting principles; and
- e. the nature and extent of misstatements detected by substantive procedures.

.55 After forming an opinion on the effectiveness of the entity's ICFR, the auditor should evaluate management's report, which will accompany the auditor's report, to determine whether it contains the following:

- a. A statement regarding management's responsibility for ICFR
- b. A description of the subject matter of the audit (for example, controls over the preparation of the entity's financial statements in accordance with accounting principles generally accepted in the United States of America)
- c. An identification of the criteria against which ICFR is measured
- d. Management's assessment about ICFR
- e. A description of the material weakness(es), if any
- f. The date as of which management's assessment about ICFR is made

.56 If the auditor determines that any required element of management's report is incomplete or improperly presented, the auditor should request management to revise its report. (Ref: par. .A102)

Obtaining Written Representations

.57 In an audit of ICFR, the auditor should obtain written representations from management

- a. acknowledging management's responsibility for establishing and maintaining effective ICFR;
- b. stating that management has performed an assessment of the effectiveness of the entity's ICFR and specifying the criteria;
- c. stating that management did not use the auditor's procedures performed during the integrated audit as part of the basis for management's assessment about ICFR;
- d. stating management's assessment about the effectiveness of the entity's ICFR based on the criteria as of a specified date;
- e. stating that management has disclosed to the auditor all deficiencies in the design or operation of ICFR, including separately disclosing to the auditor all such deficiencies that it believes to be significant deficiencies or material weaknesses;
- f. describing any fraud resulting in a material misstatement to the entity's financial statements and any other fraud that does not result in a material misstatement to the entity's financial statements, but involves senior management or management or other employees who have a significant role in the entity's ICFR;
- g. stating whether the significant deficiencies and material weaknesses identified and communicated to management and those charged with governance during previous engagements pursuant to paragraph .59 have been resolved and specifically identifying any that have not; and
- h. stating whether there were, subsequent to the date being reported on, any changes in ICFR or other conditions that might significantly affect ICFR, including any corrective actions taken by management with regard to significant deficiencies and material weaknesses (Ref: par. .A103)

.58 If management does not provide the written representations required by paragraph .57, the auditor should apply the requirements in paragraph .73. (Ref: par. .A104)

Communicating ICFR-Related Matters

.59 The auditor should communicate in writing to management and those charged with governance significant deficiencies and material weaknesses identified during the integrated audit, including those that were remediated during the integrated audit and those that were previously communicated but have not yet been remediated. (Ref: par. .A105–.A107)

.60 If the auditor concludes that the oversight of the entity's financial reporting and ICFR by the audit committee (or similar subgroups with different names) is ineffective, the auditor should communicate that conclusion in writing to the board of directors or other similar governing body.

.61 The written communications referred to in paragraphs .59–.60 should be made by the report release date, which is the date the auditor grants the entity permission to use the auditor's report. For a governmental entity, if such written communications would be publicly available prior to management's report on ICFR, the entity's financial statements, and the auditor's report thereon, the auditor is not required to make the written communications by the report release date. In that circumstance, the written communications

should be made as soon as practicable, but no later than 60 days following the report release date. (Ref: par. .A108–.A109)

.62 The auditor should communicate in writing to management all deficiencies identified during the integrated audit on a timely basis, but no later than 60 days following the report release date, and inform those charged with governance when such a communication was or is expected to be made. In making the written communication referred to in this paragraph, the auditor is not required to communicate those deficiencies that are not material weaknesses or significant deficiencies that were included in previous written communications, regardless of whether those communications were made by the auditor, internal auditors, or others within the organization. (Ref: par. .A110–.A112)

.63 Because the integrated audit does not provide the auditor with reasonable assurance that the auditor has identified all deficiencies less severe than a material weakness, the auditor should not issue a report stating that no such deficiencies were identified during the integrated audit. Also, because the auditor issues a report that expresses an opinion on the effectiveness of the entity's ICFR, the auditor should not issue a report indicating that no material weaknesses were identified during the integrated audit.

Reporting on ICFR

.64 The auditor's report on the audit of ICFR should be in writing and should include the following:

- a. *Title.* The auditor's report should have a title that clearly indicates that it is the report of an independent auditor.
- b. *Addressee.* The auditor's report should be addressed, as appropriate, based on the circumstances of the engagement.
- c. *Auditor's opinion on ICFR.* The first section of the auditor's report should include the auditor's opinion on ICFR and should have the heading "Opinion on Internal Control Over Financial Reporting." The "Opinion on Internal Control Over Financial Reporting" section of the auditor's report should also do the following:
 - i. Identify the entity whose ICFR has been audited
 - ii. State that the entity's ICFR has been audited
 - iii. Identify the as of date
 - iv. Identify the criteria against which ICFR is measured
 - v. Include the auditor's opinion on whether the entity maintained, in all material respects, effective ICFR as of the specified date, based on the criteria
- d. *Basis for opinion.* The auditor's report should include a section, directly following the "Opinion on Internal Control Over Financial Reporting" section, with the heading "Basis for Opinion," that does the following:
 - i. States that the audit was conducted in accordance with GAAS and identifies the United States of America as the country of origin of those standards (Ref: par. .A113)
 - ii. Refers to the section of the auditor's report that describes the auditor's responsibilities under GAAS
 - iii. Includes a statement that the auditor is required to be independent of the entity and to meet the auditor's other

ethical responsibilities, in accordance with the relevant ethical requirements relating to the audit⁷

- iv. States whether the auditor believes that the audit evidence the auditor has obtained is sufficient and appropriate to provide a basis for the auditor's opinion
- e. *Responsibilities of management.* The auditor's report should include a section with the heading "Responsibilities of Management for Internal Control Over Financial Reporting." This section of the auditor's report should do the following:
 - i. State that management is responsible for designing, implementing, and maintaining effective ICFR
 - ii. State that management is responsible for its assessment about the effectiveness of ICFR
 - iii. Include a reference to management's report on ICFR
- f. *Auditor's responsibilities.* The auditor's report should include a section with the heading "Auditor's Responsibility for the Audit of Internal Control Over Financial Reporting." This section of the auditor's report should do the following:
 - i. State that the objectives of the auditor are to
 - (1) obtain reasonable assurance about whether effective ICFR was maintained in all material respects
 - (2) issue an auditor's report that includes the auditor's opinion on ICFR
 - ii. State that reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit of internal control over financial reporting conducted in accordance with GAAS will always detect a material weakness when it exists
 - iii. Describe the audit by stating that, in performing an audit of ICFR in accordance with GAAS, the auditor's responsibilities are to
 - (1) exercise professional judgment and maintain professional skepticism throughout the audit
 - (2) obtain an understanding of ICFR, assess the risks that a material weakness exists, and test and evaluate the design and operating effectiveness of ICFR based on the assessed risk

Definition and Inherent Limitations of Internal Control Over Financial Reporting

- g. The auditor's report should include a section with the heading "Definition and Inherent Limitations of Internal Control Over Financial Reporting" or other appropriate heading that includes the following:
 - i. A definition of ICFR (the auditor should use the same description of the entity's ICFR as management uses in its report)

⁷ See paragraphs .A38–.A39 of section 700, *Forming an Opinion and Reporting on Financial Statements*. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

- ii. A paragraph stating that because of inherent limitations, ICFR may not prevent, or detect and correct, misstatements and that projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate
- h. *Signature of the auditor.* The auditor's report should include the manual or printed signature of the auditor's firm.
- i. *Auditor's address.* The auditor's report should name the city and state where the auditor's report is issued.
- j. *Date of the auditor's report.* The auditor's report should be dated, as required by paragraph .66

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

Separate Report on ICFR

.65 If the auditor issues a separate report on ICFR, the auditor should add the following paragraph, following the opinion paragraph within the "Opinion" section, to the auditor's report on the financial statements:

We also have audited, in accordance with auditing standards generally accepted in the United States of America, [entity name]'s internal control over financial reporting as of December 31, 20X8, based on [identify criteria] and our report dated [date of report, which should be the same as the date of the report on the financial statements] expressed [include nature of opinion].

The auditor also should add the following paragraph, following the opinion paragraph within the "Opinion on Internal Control Over Financial Reporting" section, to the report on ICFR:

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the [identify financial statements] of [entity name] and our report dated [date of report, which should be the same as the date of the report on ICFR] expressed [include nature of opinion]. (Ref: par. .A115–.A117)

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

Report Date

.66 The auditor should date the report on ICFR no earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to base the auditor's opinion. Because the audit of ICFR is integrated with the audit of the financial statements, when issuing separate reports on the entity's financial statements and on ICFR, the dates of the reports should be the same. (Ref: par. .A117) [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

Report Modifications

.67 The auditor should modify the report on ICFR if any of the following conditions exist:

- a. One or more material weaknesses exist.
- b. Elements of management's report are incomplete or improperly presented.

- c. There is a limitation on the scope of the engagement. (Ref: par. .A118)
- d. The auditor decides to refer to the report of a component auditor as the basis, in part, for the auditor's own opinion.
- e. There is other information contained in management's report.

Adverse Opinions

.68 If there are deficiencies that, individually or in combination, result in one or more material weaknesses as of the date specified in management's assessment about ICFR, the auditor should express an adverse opinion on the entity's ICFR, unless there is a limitation on the scope of the engagement. (Ref: par. .A119–.A120)

.69 The auditor should determine the effect an adverse opinion on ICFR has on the auditor's opinion on the financial statements. Additionally, the auditor should disclose, as a separate paragraph within the "Adverse Opinion on Internal Control Over Financial Reporting" section to the report, whether the auditor's opinion on the financial statements was affected by the material weakness. (Ref: par. .A122) Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

.70 When ICFR is not effective because one or more material weaknesses exist, the auditor's report should include the following in the "Basis for Adverse Opinion on Internal Control Over Financial Reporting" section:

- a. The definition of a material weakness
- b. A statement that one or more material weaknesses have been identified and an identification of the material weaknesses described in management's assessment about ICFR. (Ref: par. .A121)

[Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

.71 If one or more material weaknesses have not been included in management's report accompanying the auditor's report, the auditor's report should be modified to state that one or more material weaknesses have been identified but not included in management's report. Additionally, the auditor's report should include a description of each material weakness not included in management's report. The auditor's description should include specific information about the nature of each material weakness and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the weakness. In this case, the auditor also should communicate, in writing, to those charged with governance that one or more material weaknesses were not disclosed or identified as a material weakness in management's report. If one or more material weaknesses have been included in management's report but the auditor concludes that the disclosure of such material weaknesses is not fairly presented in all material respects, the auditor's report should describe this conclusion as well as the information necessary to fairly describe each material weakness. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Elements of Management's Report Are Incomplete or Improperly Presented

.72 If the auditor determines that any required element of management's report, as described in paragraph .55, is incomplete or improperly presented and management does not revise its report, the auditor should modify the report on ICFR to include an other-matter paragraph describing the reasons for

this determination. If the auditor determines that the required disclosure about one or more material weaknesses is not fairly presented in all material respects, the auditor should apply the requirements in paragraph .71.

Scope Limitations

.73 If, after accepting the integrated audit engagement, there is a limitation on the scope of the engagement with respect to ICFR, the auditor should withdraw from the integrated audit engagement or disclaim an opinion on ICFR and consider the implications on the financial statement audit.

.74 When a scope limitation arises because management refuses to furnish a written assessment about the effectiveness of ICFR, the auditor should withdraw from the integrated audit engagement. When withdrawal is not possible under applicable law or regulation, the auditor should disclaim an opinion on ICFR and consider the implications on the financial statement audit. (Ref: par. .A123)

.75 When disclaiming an opinion because of a scope limitation, the auditor should state that the auditor does not express an opinion on the effectiveness of ICFR within the "Disclaimer of Opinion on Internal Control Over Financial Reporting" section and state the substantive reasons for the disclaimer within the "Basis for Disclaimer of Opinion on Internal Control Over Financial Reporting" section. The auditor should amend the basis of opinion and auditor's responsibilities sections and should not identify the procedures that were performed nor include the statements describing the characteristics of an audit of ICFR, as described in paragraph .64d(i), paragraph .64d(ii), paragraph .64d(iv), and paragraph .64f; to do so might overshadow the disclaimer. (Ref: par. .A124–.A125) [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

.76 When the auditor disclaims an opinion but has concluded that one or more material weaknesses exist, the auditor's report also should include the following:

- a. The definition of a material weakness.
- b. A statement that if one or more material weaknesses exist, an entity's internal control over financial reporting cannot be considered effective.
- c. A statement that one or more material weaknesses have been identified and an identification of the material weaknesses described in management's assessment about ICFR.
- d. A description of the material weaknesses identified in the entity's ICFR. This description should provide the users of the report with specific information about the nature of any material weakness and its actual and potential effect on the presentation of the entity's financial statements issued during the existence of the weakness.

The auditor also should apply the requirements in paragraphs .69 and .71. (Ref: par. .A126) [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

.77 If the auditor concludes that the auditor cannot express an opinion because there has been a limitation on the scope of the audit, the auditor should communicate, in writing, to management and those charged with governance that the audit of ICFR cannot be satisfactorily completed.

Making Reference to a Component Auditor and Assuming Responsibility for the Work of a Component Auditor

.78 When an entity includes one or more components, the group engagement partner should evaluate whether the group engagement team will be able to obtain sufficient appropriate audit evidence through the group engagement team's work or use of the work of component auditors (that is, through assuming responsibility for the work of component auditors or making reference to the audit of ICFR of a component auditor in the auditor's report) to act as the auditor of the ICFR over the group financial statements and report as such on the ICFR over the group financial statements, as required by section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*.⁸ (Ref: par. .A127)

.79 As required by section 600, the group engagement partner should determine whether to make reference to a component auditor in the report on the ICFR over the group financial statements.⁹ Reference to the audit of a component auditor in the auditor's report on the ICFR over the group financial statements should not be made unless

- a. the engagement partner has determined that the component auditor has performed an audit of the component's ICFR in accordance with the relevant requirements of GAAS (or, if applicable, the standards promulgated by the PCAOB) and
- b. the component auditor has issued an auditor's report on ICFR that is not restricted as to use. (Ref: par. .A128–.A129)

Additional Information

.80 When management includes, either within management's report or in a document containing management's report and the related auditor's report, information in addition to the elements that are subject to the auditor's evaluation as described in paragraph .55, the auditor should do the following: (Ref: par. .A130–.A131)

- a. Read the additional information to identify material inconsistencies with management's report and remain alert for material misstatements of fact while reading the additional information.
- b. If the auditor identifies a material inconsistency or becomes aware of a material misstatement of fact, request management to correct the information, and to do the following, as applicable:
 - i. If management agrees to make the correction, determine that the correction has been made.
 - ii. If management refuses to make the correction, communicate the matter to those charged with governance and request that the correction be made.
 - iii. If the correction is not made after communicating with those charged with governance, the auditor should do one or more of the following:
 - (1) Consider the implications for the auditor's report and communicate to those charged with governance about how the auditor plans to address the

⁸ Paragraph .14 of section 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

⁹ Paragraph .24 of section 600. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

- material inconsistency or material misstatement of fact in the auditor's report
- (2) Withhold the auditor's report
 - (3) Withdraw from the engagement, when withdrawal is possible under the applicable law or regulation
- c. When the additional information subject to the requirements of paragraph .80a is included in management's report and no material inconsistencies or material misstatements of fact are identified, the auditor should disclaim an opinion, in an other-matter paragraph, on the additional information.

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

Special Topics

Entities With Multiple Components

.81 In determining the components at which to perform tests of controls, the group engagement team should assess the risk of material misstatement to the financial statements associated with the component and correlate the amount of attention devoted to the component with the degree of risk. (Ref: par. .A132–.A134)

.82 In assessing and responding to risk, the group engagement team should test, or have a component auditor test on the group engagement team's behalf, controls over specific risks that present a reasonable possibility of material misstatement to the group financial statements. (Ref: par. .A135)

.83 In applying the requirement in paragraph .42 regarding special considerations for subsequent years' audits, the group engagement team should vary the nature, timing, and extent of tests of controls at components from year to year.

Special Situations

.84 For equity method investment components, the scope of the audit should include controls over the reporting in the entity's financial statements of the entity's portion of the investees' income or loss, the investment balance, adjustments to the income or loss and investment balance, and related disclosures, in accordance with the applicable financial reporting framework. (Ref: par. .A136)

.85 Except as indicated in paragraph .86, the scope of the audit should include entities that are acquired on or before the date specified in management's assessment about ICFR and operations that are accounted for as discontinued operations on the date specified in management's assessment about ICFR that are reported in accordance with the applicable financial reporting framework in the entity's financial statements.

.86 In situations in which management elects to limit its assessment by excluding certain entities, the auditor should evaluate whether it is appropriate, in the auditor's judgment, to do so. If the auditor concludes that it is appropriate, the auditor should include in either the "Opinion on Internal Control Over Financial Reporting" or "Basis or Opinion" section of the report a disclosure similar to management's regarding the exclusion of an entity from the scope of both management's assessment about ICFR and the auditor's audit of ICFR. Additionally, the auditor should evaluate the appropriateness of management's

disclosure related to such a limitation. (Ref: par. .A137) [As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

.87 If the auditor believes that management's disclosure about the limitation requires modification, the auditor should communicate the matter to the appropriate level of management. If, in the auditor's judgment, management does not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should inform those charged with governance of the matter as soon as practicable. If management and those charged with governance do not respond appropriately, the auditor should modify the auditor's report on the audit of ICFR to include an other-matter paragraph describing the reasons why the auditor believes management's disclosure requires modification.

Use of Service Organizations

.88 When the entity uses the services of a service organization, the auditor should consider the activities of the service organization when determining the evidence required to support the auditor's opinion on the effectiveness of an entity's ICFR. (Ref: par. .A138–.A139)

.89 The auditor is required to perform the procedures in section 402, *Audit Considerations Relating to an Entity Using a Service Organization*, with respect to the activities performed by the service organization.¹⁰ In an audit of ICFR, the auditor should also obtain evidence that controls at the service organization that are relevant to the auditor's opinion on ICFR are operating effectively. (Ref: par. .A140–.A141)

.90 If the auditor plans to use a type 2 report as audit evidence that controls are operating effectively, the auditor should determine whether the type 2 report provides sufficient appropriate audit evidence about the effectiveness of the controls to support the auditor's opinion by evaluating

- a. the time period covered by the tests of controls and its relation to the as of date;
- b. the scope of the service auditor's work and the services and processes covered, the controls tested, and the tests that were performed and the way in which tested controls relate to the entity's controls; and
- c. the results of those tests of controls and the service auditor's opinion on the operating effectiveness of the controls. (Ref: par. .A142)

.91 The auditor should determine whether complementary user entity controls identified in the type 2 report are relevant in addressing the risks of material misstatement and, if so, evaluate the entity's design and implementation of the relevant complementary user entity controls and test their operating effectiveness. (Ref: par. .A143)

.92 In determining whether the type 2 report provides sufficient appropriate audit evidence to support the auditor's opinion on ICFR, the auditor should be satisfied regarding the following:

- a. The service auditor's professional competence and independence from the service organization. (Ref: par. .A144)
- b. The adequacy of the standards under which the type 2 report was issued. (Ref: par. .A145)

¹⁰ Paragraphs .09–.19 of section 402, *Audit Considerations Relating to an Entity Using a Service Organization*. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

.93 The auditor should inquire of management to determine whether management has identified any changes in the service organization's controls subsequent to the period covered by the service auditor's report. If management has identified such changes, the auditor should evaluate the effect of such changes on the effectiveness of the entity's ICFR. The auditor also should evaluate whether the results of other procedures the auditor performed indicate that there have been changes in the controls at the service organization. (Ref: par. .A146)

.94 The auditor should determine whether to obtain additional evidence about the operating effectiveness of controls at the service organization based on the procedures performed by management or the auditor and the results of those procedures and on an evaluation of the following risk factors:

- a. The elapsed time between the time period covered by the tests of controls in the service auditor's report and the as of date
- b. The significance of the activities of the service organization
- c. Whether there are errors that have been identified in the service organization's processing
- d. The nature and significance of any changes in the service organization's controls identified by management or the auditor (Ref: par. .A147)

.95 When a significant period of time has elapsed between the time period covered by the tests of controls in the service auditor's report and the as of date, additional procedures should be performed to obtain sufficient appropriate audit evidence about the operating effectiveness of the controls at the service organization that are relevant to the auditor's opinion on ICFR.

.96 The auditor should not refer to the service auditor's report when expressing an opinion on ICFR.

Benchmarking of Automated Controls

.97 To determine whether to use a benchmarking strategy for testing an automated application control, the auditor should assess the following risk factors:

- a. The extent to which the application control can be matched to a defined program within an application
- b. The extent to which the application is stable (that is, there are few changes from period to period)
- c. The availability and reliability of a report of the compilation dates of the programs placed in production (Ref: par. .A148–.A151)

.98 When using a benchmarking strategy, the auditor should obtain evidence to determine that the automated application control has not changed. (Ref: par. .A152–.A153)

.99 After a period of time, the length of which depends upon the circumstances, the baseline of the operation of an automated application control should be reestablished. To determine when to reestablish a baseline, the auditor should evaluate the following factors:

- a. The effectiveness of the IT control environment, including controls over application and system software acquisition and maintenance, access controls, and computer operations
- b. The auditor's understanding of the nature of changes, if any, on the specific programs that contain the controls
- c. The nature and timing of other related tests

- d. The consequences of errors associated with the application control that was benchmarked
- e. Whether the control is sensitive to other business factors that may have changed (Ref: par. .A154)

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01–.02)

.A1 Certain regulatory bodies, such as the FDIC, require the audit of ICFR and the audit of financial statements to be performed by the same auditor.¹¹ Inherent difficulties exist when integrating the audit of ICFR and the audit of the financial statements to meet the requirements of this section when the audit of the financial statements is performed by a different auditor. Nonetheless, if the audit of the financial statements and the audit of ICFR are performed by different auditors, the audits are required by this section to be integrated.

Objectives (Ref: par. .04)

.A2 See section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*, for additional explanation related to the auditor's objective to obtain reasonable assurance.¹²

.A3 Effective ICFR provides an entity with reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with the applicable financial reporting framework. If one or more material weakness exists, the entity's ICFR cannot be considered effective. The evaluation of the effectiveness of the entity's ICFR required by this section encompasses all relevant control objectives of the entity's ICFR; therefore, the identification of one material weakness in ICFR does not justify the auditor ceasing to perform procedures to evaluate the effectiveness of all relevant control objectives of the entity's ICFR.

.A4 The auditor is not required to plan and perform the integrated audit to identify deficiencies that, individually or in combination, are less severe than a material weakness.

Definitions (Ref: par. .05)

Criteria

.A5 For purposes of this section, the subject matter is ICFR.

Internal Control Over Financial Reporting

.A6 The auditor's procedures performed as part of the integrated audit are not part of an entity's ICFR.

.A7 For insured depository institutions (IDIs) subject to the internal control reporting requirements of Section 112 of the Federal Deposit Insurance

¹¹ See Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA) (Section 36 of the Federal Deposit Insurance Act [FDI Act], 12 U.S.C. 1831m) and its implementing regulation, 12 CFR Part 363.3(b). [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

¹² Paragraph .06 of section 200. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

Corporation Improvement Act (FDICIA), ICFR includes controls over the preparation of the IDI's financial statements in accordance with generally accepted accounting principles (GAAP) and with the instructions to the Consolidated Financial Statements for Bank Holding Companies. ICFR also includes controls over the preparation of the IDI's financial statements in accordance with GAAP and controls over the preparation of schedules equivalent to the basic financial statements in accordance with the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income (Call Report Instructions).

Management's Assessment About ICFR

.A8 Exhibit C, "Illustrative Management Report," includes an illustration of a management report.

Preconditions for the Audit of ICFR (Ref: par. .06–.07)

.A9 Management is responsible for identifying and documenting the controls and the control objectives that they were designed to achieve. Such documentation serves as a basis for management's assessment about ICFR. Documentation of the design of controls, including changes to those controls, is evidence that controls upon which management's assessment about ICFR is based are

- identified.
- capable of being communicated to those responsible for their performance.
- capable of being monitored and evaluated by the entity.

.A10 Management's documentation may take various forms, for example, entity policy manuals, accounting manuals, narrative memoranda, flowcharts, decision tables, procedural write-ups, or completed questionnaires. No one particular form of documentation is prescribed, and the extent of documentation may vary depending upon the size and complexity of the entity and the entity's monitoring activities.

.A11 Management's monitoring activities also may provide evidence of the design and operating effectiveness of ICFR in support of management's assessment about ICFR. Monitoring of controls is a process to assess the effectiveness of ICFR performance over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the organization, and taking necessary corrective actions. Management accomplishes monitoring of controls through ongoing evaluations, separate evaluations, or a combination of the two.

.A12 Ongoing evaluations are often built into the normal recurring activities of an entity and include regular management and supervisory activities. The greater the degree and effectiveness of ongoing evaluations, the less need for separate evaluations. Management may perform a combination of ongoing and separate evaluations. The scope and frequency of separate evaluations is a matter of management judgment.

.A13 Ordinarily, the auditor is engaged to audit the effectiveness of the entity's ICFR as of the end of the entity's fiscal year; however, management may select a different date. If the auditor is engaged to audit the effectiveness of an entity's ICFR at a date different from the end of the entity's fiscal year,

the audit is, nevertheless, required by paragraph .06b to be integrated with a financial statement audit as of the date specified in management's assessment.

.A14 Appropriate criteria are both suitable and available to the intended users of management's report on ICFR. Suitable criteria exhibit all of the following characteristics:

- *Relevance.* Criteria are relevant to ICFR.
- *Objectivity.* Criteria are free from bias.
- *Measurability.* Criteria permit reasonably consistent measurements, qualitative or quantitative, of ICFR.
- *Completeness.* Criteria are complete when the evaluation of the effectiveness of ICFR prepared in accordance with the criteria does not omit relevant factors that could reasonably be expected to affect decisions of the intended users made on the basis of management's report on ICFR.

.A15 Management may select criteria for ICFR that are available publicly in published frameworks or criteria that are available only to specified parties (for example, terms of a contract or criteria issued by an industry association that are available only to those in the industry). When criteria are available only to specified parties, section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, requires that the auditor's report include an other-matter paragraph that restricts the use of the auditor's report.¹³

.A16 *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 COSO framework) and the U.S. Government Accountability Office's *Standards for Internal Control in the Federal Government* (the Green Book), provide suitable and available criteria against which management may evaluate and report on the effectiveness of the entity's ICFR. If management selects another framework, see paragraph .A14 for guidance on evaluating the suitability of the framework selected by management.

.A17 *Internal control*, as defined by the framework used by management, may be more broadly defined than ICFR. However, this section focuses only on ICFR.

Integrating the Audit of ICFR With the Financial Statement Audit (Ref: par. .09–.13)

.A18 Obtaining sufficient appropriate audit evidence to support the operating effectiveness of controls for purposes of the financial statement audit ordinarily allows the auditor to modify the substantive procedures that otherwise would have been necessary to opine on the financial statements.

.A19 Section 500A, *Audit Evidence*, provides additional explanation with respect to obtaining sufficient appropriate audit evidence.

.A20 Consideration of the results of tests of controls may cause the auditor to alter the nature, timing, and extent of substantive procedures and to plan and perform further tests of controls, particularly in response to identified deficiencies.

¹³ Paragraph .06 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

Planning the Audit of ICFR (Ref: par. .14)

.A21 Evaluating whether the following matters are important to the entity's financial statements and ICFR and, if so, how they may affect the auditor's procedures may assist the auditor in planning the audit of ICFR:

- Knowledge of the entity's ICFR obtained during other engagements performed by the auditor or, if applicable, during a review of a predecessor auditor's working papers
- Matters affecting the industry in which the entity operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes
- Matters relating to the entity's business, including its organization, operating characteristics, and capital structure
- The extent of recent changes, if any, in the entity, its operations, or its ICFR
- The auditor's preliminary judgments about financial statement materiality, risk, and other factors relating to the determination of material weaknesses
- Deficiencies previously communicated to those charged with governance or management
- Legal or regulatory matters of which the entity is aware
- The type and extent of available evidence related to the effectiveness of the entity's ICFR
- Preliminary judgments about the effectiveness of ICFR
- Public information about the entity relevant to the evaluation of the likelihood of material financial statement misstatements and the effectiveness of the entity's ICFR
- Knowledge about risks related to the entity evaluated as part of the auditor's client acceptance and retention evaluation
- The relative complexity of the entity's operations

Role of Risk Assessment (Ref: par. .15)

.A22 Risk assessment underlies the entire audit process described by this section, including the determination of significant classes of transactions, account balances, and disclosures, and their relevant assertions, the selection of controls to test, and the determination of the evidence necessary to conclude on the effectiveness of a given control. The risk assessment procedures described in section 315A support both the financial statement audit and the audit of ICFR.

Scaling the Audit

.A23 The size and complexity of the entity, its business processes, and structure may affect the way in which the entity achieves many of its control objectives. Many smaller entities have less complex operations. Additionally, some larger, complex entities may have less complex units or processes. Factors that might indicate less complex operations include fewer business lines; less complex business processes and financial reporting systems; more centralized accounting functions; extensive involvement by senior management in the day-to-day activities of the business; and fewer levels of management, each with a wide span of control. Accordingly, a smaller, less complex entity, or even a larger, less complex entity might achieve its control objectives differently from a more complex entity.

.A24 The size and complexity of the entity, its business processes, and structure also may affect the auditor's risk assessment and the determination of the necessary procedures and the controls necessary to address those risks. Scaling is most effective as a natural extension of the risk-based approach and applicable to audits of all entities.

Addressing the Risk of Fraud (Ref: par. .16–.17)

.A25 Section 240 addresses the auditor's identification and assessment of the risks of material misstatement due to fraud.¹⁴ Controls that might address these risks include

- controls over significant unusual transactions, particularly those that result in late or unusual journal entries;
- controls over journal entries and adjustments made in the period-end financial reporting process;
- controls over related party transactions;
- controls related to significant management estimates; and
- controls that mitigate incentives for, and pressures on, management to falsify or inappropriately manage financial results.

[As amended, effective for integrated audits for periods ending on or after December 15, 2021, by SAS No. 135.]

Using the Work of Internal Auditors or Others (Ref: par. .18–.19)

.A26 The extent of the procedures necessary to obtain the understanding required by paragraph .18 will vary, depending on the nature of those activities. In performing risk assessment procedures, the auditor is required to inquire of appropriate individuals within the internal audit function (if such function exists).¹⁵ Section 315A provides guidance with respect to such inquiries and certain additional procedures based on the responses to such inquiries.¹⁶

.A27 In an audit of ICFR, the external auditor may use the work of the internal audit function in obtaining audit evidence or use internal auditors to provide direct assistance under the direction, supervision, and review of the external auditor. For purposes of the audit of ICFR, however, the auditor also may use the work performed by, or receive direct assistance from, others. Others include entity personnel (in addition to internal auditors) and third parties working under the direction of management or those charged with governance that provide evidence about the effectiveness of ICFR. In an integrated audit, the auditor also may use the work of internal auditors or others to obtain evidence supporting the assessment of control risk for purposes of the financial statement audit.

.A28 As the risk associated with a control increases, the need for the auditor to directly perform work on the control increases (for example, for controls that address specific fraud risks, use of the work of the internal audit function or others would be limited, if it could be used at all).

.A29 For purposes of evaluating the competence and objectivity of others in accordance with section 610, *competence* means the attainment and

¹⁴ Paragraphs .25–.27 of section 240. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

¹⁵ Paragraph .06a of section 315A. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

¹⁶ Paragraphs .A9–.A13 of section 315A. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

maintenance of a level of understanding, knowledge, and skills that enables that person to ably perform the tasks assigned to them, and *objectivity* means the ability to perform those tasks impartially and with intellectual honesty, without allowing bias, conflict of interest, or undue influence of others to override professional judgments.¹⁷ The more objective and the higher level of competence, the more likely the external auditor may use the work of others and make use of it in more areas.

.A30 Others may have an approach that differs from that of an internal audit function, particularly with respect to the level of formality. However, it would be inappropriate to use the work of others that do not have a systematic and disciplined approach, including quality control, as required by section 610. Section 610 provides additional requirements and guidance in determining when to use the work, in which areas, and to what extent.

Materiality (Ref: par. .20)

.A31 Section 320, *Materiality in Planning and Performing an Audit*, provides additional explanation of materiality.

Using a Top-Down Approach (Ref: par. .21)

.A32 The *top-down approach* describes the auditor's sequential thought process in identifying risks and the controls to test, not necessarily the order in which the auditor will perform the audit procedures.

.A33 A top-down approach involves

- beginning at the financial statement level;
- using the auditor's understanding of the overall risks to ICFR;
- focusing on entity-level controls;
- working down to significant classes of transactions, account balances, and disclosures, and their relevant assertions;
- directing attention to classes of transactions, accounts, disclosures, and assertions that present a reasonable possibility of material misstatement of the financial statements;
- verifying the auditor's understanding of the risks in the entity's processes; and
- selecting controls for testing that sufficiently address the assessed risk of material misstatement to each relevant assertion.

Entity-Level Controls (Ref: par. .22)

.A34 The auditor's evaluation of entity-level controls can result in increasing or decreasing the testing that the auditor otherwise would have performed on other controls.

.A35 Entity-level controls include

- controls related to the control environment;
- controls over management override;
- the entity's risk assessment process;

¹⁷ Paragraphs .13 and .A5–.A9 of section 610, *Using the Work of Internal Auditors*. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

- centralized processing and controls, including shared service environments;
- controls to monitor results of operations;
- controls to monitor other controls, including activities of the internal audit function, those charged with governance, and self-assessment programs;
- controls over the period-end financial reporting process; and
- programs and controls that address significant business risks.

.A36 Entity-level controls vary in nature and precision:

- Some entity-level controls, such as certain control environment controls, have an important but indirect effect on the likelihood that a misstatement will be prevented, or detected and corrected, on a timely basis. These controls might affect the other controls that the auditor selects for testing and the nature, timing, and extent of procedures the auditor performs on other controls.
- Some entity-level controls monitor the effectiveness of other controls. Such controls might be designed to identify possible breakdowns in lower level controls, but not at a level of precision that would, by themselves, sufficiently address the assessed risk that material misstatements to a relevant assertion will be prevented, or detected and corrected, on a timely basis. These controls, when operating effectively, might allow the auditor to reduce the testing of other controls.
- Some entity-level controls might be designed to operate at a level of precision that would adequately prevent, or detect and correct, on a timely basis misstatements to one or more relevant assertions. If an entity-level control sufficiently addresses the assessed risk of material misstatement, the auditor need not test additional controls relating to that risk.

Considerations Specific to Smaller, Less Complex Entities

.A37 Controls over management override are important to effective ICFR for all entities and may be particularly important at smaller, less complex entities because of the increased involvement of senior management in performing controls and in the period-end financial reporting process. For smaller, less complex entities, the controls that address the risk of management override might be different from those at a larger entity. For example, a smaller, less complex entity might rely on more detailed oversight by those charged with governance that focuses on the risk of management override.

Evaluating the Components of ICFR (Ref: par. .23)

.A38 ICFR is often described as consisting of five components: control environment, risk assessment, control activities, information and communication, and monitoring. The components are necessary to an effective system of ICFR.¹⁸ This description does not necessarily reflect how an entity designs, implements, and maintains ICFR nor how it may classify any particular component. Auditors may use different terminology or frameworks to describe the various

¹⁸ Some material in this section relies upon the Committee of Sponsoring Organizations of the Treadway Commission's (COSO) *Internal Control—Integrated Framework*. The copyright is held by COSO, and the material is used with COSO's permission. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

aspects of ICFR and their effect on the audit other than those used in this section, provided that all the components described in this section are addressed. Entities select and develop controls within each component. Controls are inter-related and may support multiple objectives.

.A39 The 2013 COSO framework includes principles related to each component that are suitable to all entities. The 2013 COSO framework presumes that all principles are relevant because they have a significant bearing on the presence and functioning of an associated component. There may be a rare industry, operating, or regulatory situation in which management has determined that a principle is not relevant to a component. Considerations in applying this judgment may include the entity structure recognizing any legal, regulatory, industry, or contractual requirements for governance of the entity, and the level of use and dependence on technology used by the entity. The 2013 COSO framework states that management must support its determination that a principle is not relevant with the rationale of how, in the absence of that principle, the associated component can be present and functioning.¹⁹

.A40 When management uses the 2013 COSO framework, the guidance described in paragraphs .A41–.A48 to evaluate the five components is applicable. When management uses the Green Book or another framework, the auditor may adapt the guidance in paragraphs .A41–.A48, as necessary, based on the criteria contained in the framework used by management. For example, when management uses the Green Book, the auditor assesses the relevant principles in the Green Book in lieu of the principles listed in paragraphs .A41–.A48.

Control Environment

.A41 The following principles are relevant to the auditor's evaluation of whether the control environment is present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:

- The entity demonstrates a commitment to integrity and ethical values.
- Those charged with governance demonstrate independence from management and exercise oversight of the development and performance of ICFR.
- Management establishes, with oversight of those charged with governance, structures, reporting lines, and appropriate authorities and responsibilities in the pursuit of the entity's financial reporting objectives.
- The entity demonstrates a commitment to attract, develop, and retain competent individuals in alignment with the entity's financial reporting objectives.
- The entity holds individuals accountable for their ICFR responsibilities in the pursuit of the entity's financial reporting objectives.

.A42 The evaluation of whether those charged with governance demonstrate independence from management and exercise oversight of the development and performance of ICFR is performed in the context of the entity's governance structure. As described in section 260, *The Auditor's Communication With Those Charged With Governance*, governance structures may vary by

¹⁹ "Suitability and Relevance of Components and Principles" in section 3, "Effective Internal Control" of *Internal Control—Integrated Framework* (COSO, 2013). [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

entity, reflecting influences such as size and ownership characteristics.²⁰ For example, in some smaller entities, those charged with governance and management may be the same people. In such smaller entities, the independence of those charged with governance from management may not be necessary to support the achievement of the entity's financial reporting objectives.

.A43 The Green Book refers to those charged with governance as the oversight body.

Risk Assessment

.A44 The following principles are relevant to the auditor's evaluation of whether the entity's risk assessment is present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:

- a. The entity specifies financial reporting objectives with sufficient clarity to enable the identification and assessment of risks related to these objectives.
- b. The entity identifies risks to the achievement of financial reporting objectives across the entity and analyzes risks as a basis for determining how the risks need to be managed.
- c. The entity considers the potential for fraud in assessing risks to the achievement of financial reporting objectives.
- d. The entity identifies and assesses changes that could significantly impact ICFR.

Control Activities Relevant to the Audit of ICFR

.A45 The following principles are relevant to the auditor's evaluation of whether the entity's control activities relevant to the audit of ICFR are present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:

- a. The entity selects and develops control activities that contribute to the mitigation of risks to the achievement of financial reporting objectives to acceptable levels.
- b. The entity selects and develops general control activities over technology to support the achievement of financial reporting objectives.
- c. The entity deploys control activities through policies that establish what is expected and procedures that put policies into action.

.A46 Control activities relevant to the audit of ICFR include those related to each significant class of transactions, account balance, and disclosure, and its relevant assertions (see paragraphs .26–.28).

Information and Communication

.A47 The following principles are relevant to the auditor's evaluation of whether the entity's information and communication, including the related business processes relevant to financial reporting, is present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:

- a. The entity obtains or generates and uses relevant, quality information to support the functioning of ICFR.

²⁰ Paragraph .A6 of section 260, *The Auditor's Communication With Those Charged With Governance*. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

- b. The entity internally communicates information, including financial reporting objectives and responsibilities, necessary to support the functioning of ICFR.
- c. The entity communicates with external parties regarding matters affecting the functioning of ICFR.

Monitoring Activities

.A48 The following principles are relevant to the auditor's evaluation of whether the entity's monitoring activities are present and functioning in the design, implementation, and operation of ICFR to achieve the entity's financial reporting objectives:²¹

- a. The entity selects, develops, and performs ongoing or separate evaluations to ascertain whether the components of internal control are present and functioning.
- b. The entity evaluates and communicates deficiencies in ICFR in a timely manner to those parties responsible for taking corrective action, including senior management and those charged with governance, as appropriate.

Period-End Financial Reporting Process (Ref: par. .24–.25)

.A49 Because the annual period-end financial reporting process normally occurs after the as of date, those controls usually cannot be tested until after the as of date.

Identifying Significant Classes of Transactions, Account Balances, and Disclosures, and Their Relative Assertions (Ref: par. .26–.28)

.A50 Risk factors relevant to the identification of significant classes of transactions, account balances, and disclosures, and their relevant assertions include

- size and composition of the account;
- susceptibility to misstatement due to errors or fraud;
- volume of activity, complexity, and homogeneity of the individual transactions processed through the account or reflected in the disclosure;
- nature of the account, class of transactions, or disclosure;
- accounting and reporting complexities associated with the account, class of transactions, or disclosure;
- exposure to losses in the account;
- possibility of significant contingent liabilities arising from the activities reflected in the account or disclosure;
- existence of related party transactions in the account; and
- changes from the prior period in the account, class of transactions, or disclosure characteristics.

.A51 The risk factors in paragraph .26 that the auditor is required to evaluate in the identification of significant classes of transactions, account balances, and disclosures, and their relevant assertions, are the same in the audit of ICFR as in the audit of the financial statements; accordingly, significant classes of

²¹ Paragraphs .A102–.A107 and appendix B, "Internal Control Components," of section 315A. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

transactions, account balances, and disclosures, and their relevant assertions, are the same in an integrated audit.

.A52 The risk assessment procedures performed in connection with a financial statement audit are described in section 315A.

.A53 The auditor might determine the likely sources of potential misstatements by asking himself or herself "What could go wrong?" within a given significant class of transactions, account balance, or disclosure.

.A54 The components of a potential significant class of transactions, account balance, or disclosure might be subject to significantly different risks. If so, different controls might be necessary to adequately address those risks.

.A55 Multiple components are discussed further beginning in paragraphs .78 and .81.

Understanding Likely Sources of Misstatement (Ref: par. .29-.31)

.A56 Performing walk-throughs will frequently be the most effective way of achieving the objectives in paragraph .29. A *walk-through* involves following a transaction from origination through the entity's processes, including information systems, until it is reflected in the entity's financial statements, using the same documents and IT that entity personnel use. Walk-through procedures are inquiry of appropriate personnel, observation of the application of specific controls, inspection of relevant documentation, and control reperformance. The auditor may choose any combination of these procedures; however, inquiry alone is not sufficient for achieving the objectives in paragraph .29.

.A57 A walk-through includes questioning the entity's personnel about their understanding of what is required by the entity's prescribed procedures and controls at the points at which important processing procedures occur. These probing questions, combined with the other walk-through procedures, allow the auditor to gain a sufficient understanding of the process and to be able to identify important points at which a necessary control is missing or not designed effectively. Additionally, probing questions that go beyond a narrow focus on the single transaction used as the basis for the walk-through may provide an understanding of the different types of significant transactions handled by the process.

.A58 The identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the top-down approach used to identify likely sources of misstatement and the controls to test, as well as to assess risk and allocate audit effort.

Selecting Controls to Test (Ref: par. .32)

.A59 There might be more than one control that addresses the assessed risk of material misstatement to a particular relevant assertion; conversely, one control might address the assessed risk of material misstatement to more than one relevant assertion. It may not be necessary to test all controls related to a relevant assertion nor necessary to test redundant controls, unless redundancy is, itself, a control objective.

.A60 The decision concerning whether a control would be selected for testing depends on which controls, individually or in combination, sufficiently address the assessed risk of material misstatement to a given relevant assertion rather than on how the control is labeled (for example, entity-level control, transaction-level control, control activity, monitoring control, preventive control, or detective control).

Testing Controls

Evaluating Design Effectiveness (Ref: par. .33)

.A61 Procedures performed to evaluate design effectiveness may include a mix of inquiry of appropriate personnel, observation of the application of specific controls, and inspection of relevant documentation. Walk-throughs that include these procedures ordinarily are sufficient to evaluate design effectiveness.

Considerations Specific to Smaller, Less Complex Entities

.A62 A smaller, less complex entity might achieve its control objectives in a different manner from a larger, more complex organization. For example, a smaller, less complex entity might have fewer employees in the accounting function, limiting opportunities to segregate duties and leading the entity to implement different controls to achieve its control objectives.

Testing Operating Effectiveness (Ref: par. .34)

.A63 Procedures performed to test operating effectiveness may include a mix of inquiry of appropriate personnel, observation of the application of specific controls, inspection of relevant documentation, and reperformance of the control. Inquiry alone, however, is not sufficient for such purposes. Section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*, provides additional guidance on other audit procedures, in combination with inquiry, which may be appropriate when testing the operating effectiveness of controls.²²

.A64 In some situations, particularly in smaller, less complex entities, an entity might use a third party to provide assistance with certain financial reporting functions. When assessing the competence of personnel responsible for an entity's financial reporting and associated controls, the auditor may take into account the combined competence of entity personnel and other parties that assist with functions related to financial reporting.

Relationship of Risk to the Evidence to Be Obtained (Ref: par. .35–.38)

.A65 For each control selected for testing, the evidence necessary to persuade the auditor that the control is effective depends upon the risk associated with the control. The risk associated with a control consists of the risk that the control might not be effective and, if not effective, the risk that a material weakness exists.

.A66 Factors that affect the risk associated with a control may include

- the nature and materiality of misstatements that the control is intended to prevent, or detect and correct;
- the inherent risk associated with the related account(s) and assertion(s);
- whether there have been changes in the volume or nature of transactions that might adversely affect control design or operating effectiveness;
- whether the account has a history of errors;

²² Paragraphs .A28–.A30 of section 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

- the effectiveness of entity-level controls, especially controls that monitor other controls;
- the nature of the control and the frequency with which it operates;
- the degree to which the control relies on the effectiveness of other controls (for example, the control environment or IT general controls);
- the competence of the personnel who perform the control or monitor its performance and whether there have been changes in key personnel who perform the control or monitor its performance;
- whether the control relies on performance by an individual or is automated (that is, an automated control would generally be expected to be lower risk if relevant IT general controls are effective); and
- the complexity of the control and the significance of the judgments that would be made in connection with its operation.

.A67 Generally, a conclusion that a control is not operating effectively can be supported by less evidence than is necessary to support a conclusion that a control is operating effectively.

Considerations Specific to Smaller, Less Complex Entities

.A68 A smaller, less complex entity or component with simple business processes and centralized accounting operations might have relatively simple information systems that make greater use of off-the-shelf packaged software without modification. In the areas where off-the-shelf software is used, the auditor's testing of IT controls might focus on the application controls built into the prepackaged software that management relies on to achieve its control objectives and the IT general controls that are important to the effective operation of those application controls.

.A69 The auditor's objective is to express an opinion on the entity's ICFR overall. This allows the auditor to vary the evidence obtained regarding the effectiveness of individual controls selected for testing based on the risk associated with the individual control.

.A70 The evidence provided by the auditor's tests of the effectiveness of controls depends upon the mix of the nature, timing, and extent of the auditor's procedures. Further, for an individual control, different combinations of the nature, timing, and extent of testing may provide sufficient appropriate audit evidence in relation to the risk associated with the control.

.A71 Walk-throughs might provide sufficient appropriate audit evidence of operating effectiveness, depending on

- the risk associated with the control being tested,
- the frequency of operation of the control,
- whether the control is an IT application control,
- the specific procedures performed as part of the walk-through, and
- the results of those procedures.

.A72 The operating effectiveness of a control cannot be inferred from the absence of misstatements detected by substantive procedures. The absence of misstatements detected by substantive procedures, however, informs the auditor's risk assessments in determining the testing necessary to conclude on the operating effectiveness of a control.

Nature of Tests of Controls

.A73 Some types of tests, by their nature, produce greater evidence of the effectiveness of controls than other tests. The following tests that the auditor might perform are presented in order of the evidence that they ordinarily would produce, from least to most: inquiry, observation, inspection of relevant documentation, and reperformance of a control. Inquiry alone, however, does not provide sufficient appropriate audit evidence to support a conclusion about the effectiveness of a control.

.A74 The nature of the tests of effectiveness that will provide sufficient appropriate audit evidence depends, to a large degree, on the nature of the control to be tested, including whether the operation of the control results in documentary evidence of its operation. Documentary evidence of the operation of some controls, such as management's philosophy and operating style, might not exist.

Considerations Specific to Smaller, Less Complex Entities

.A75 A smaller, less complex entity or unit might have less formal documentation regarding the operation of its controls. In those situations, testing controls through inquiry combined with other procedures, such as observation of the application of specific controls, inspection of less formal documentation, or reperformance of certain controls, might provide sufficient appropriate audit evidence about whether the control is effective.

.A76 A *control deviation* occurs when a control does not operate as designed. Control deviations are evaluated when determining whether a deficiency in internal control exists. Because effective ICFR cannot and does not provide absolute assurance of achieving the entity's control objectives, an individual control does not necessarily have to operate without any deviation to achieve the entity's control objectives and to be considered effective.

Timing and Extent of Tests of Controls (Ref: par. .39)

.A77 The objective of the tests of controls in an audit of ICFR is to obtain evidence about the effectiveness of controls to support the auditor's opinion on the entity's ICFR. The auditor's opinion relates to the effectiveness of the entity's ICFR as of a point in time and as a whole. Accordingly, an audit of ICFR may entail testing the design and operating effectiveness of controls not tested when expressing an opinion only on the financial statements; however, in both an audit of ICFR and a financial statement audit, the auditor directs attention to controls that present a reasonable possibility that, if missing or deficient, would result in a material misstatement of the financial statements.

.A78 Testing controls over a longer period of time provides more evidence of the effectiveness of controls than testing over a shorter period of time. Further, testing performed closer to the as of date provides more evidence than testing performed earlier in the year.

.A79 The more extensively a control is tested, the greater the evidence obtained from that test.

.A80 Prior to the as of date, management might implement changes to the entity's controls to make them more effective or efficient or to address deficiencies. If the auditor determines that the new controls achieve the related objectives of the criteria and have been in effect for a sufficient period to permit the auditor to assess their design and operating effectiveness by performing tests of controls, the auditor will not need to test the design and operating effectiveness of the superseded controls for purposes of expressing an opinion on ICFR. If the operating effectiveness of the superseded controls is important to the auditor's

control risk assessment in the financial statement audit, the auditor tests the design and operating effectiveness of those superseded controls, as appropriate.

Rollforward Procedures (Ref: par. .40)

.A81 The additional evidence that is necessary to update the results of testing from an interim date to the entity's period-end depends on the following factors:

- The specific control tested prior to the as of date, including the risks associated with the control, the nature of the control, and the results of those tests
- The sufficiency of the evidence of operating effectiveness obtained at an interim date
- The length of the remaining period
- The possibility that there have been any significant changes in ICFR subsequent to the interim date

.A82 In some circumstances, such as when evaluation of these factors indicates a low risk that the controls are no longer effective during the rollforward period, inquiry alone might be sufficient as a rollforward procedure.

Special Considerations for Subsequent Years' Audits (Ref: par. .41–.42)

.A83 Factors that affect the risk associated with a control in subsequent years' audits include those in paragraph .A66 and the following:

- The nature, timing, and extent of procedures performed in previous audits
- The results of the previous years' testing of the control
- Whether there have been changes in the control or the process in which it operates since the previous audit

.A84 After taking into account the risk factors identified in paragraphs .A66 and .A83, the additional information available in subsequent years' audits might permit the auditor to assess the risk as lower than in the initial year. This, in turn, might permit the auditor to reduce testing in subsequent years.

.A85 The auditor also may use a benchmarking strategy for automated application controls in subsequent years' audits. Benchmarking is described further beginning in paragraph .97.

.A86 The auditor might test controls at a different interim period, increase or reduce the number and types of tests performed, or change the combination of procedures used.

Identifying Deficiencies in ICFR (Ref: par. .43)

.A87 The findings from audit work performed on the financial statements and on ICFR are relevant in determining whether the auditor has identified any deficiencies in ICFR.

Determination of Whether Material Weaknesses Exist as of the Date Specified in Management's Assessment About ICFR (Ref: par. .44–.46)

.A88 The severity of a deficiency, or a combination of deficiencies, in ICFR depends on

- the magnitude of the potential misstatement resulting from the deficiency or deficiencies and

- whether there is a reasonable possibility that the entity's controls will fail to prevent, or detect and correct, a misstatement of a class of transaction, an account balance, or a disclosure.

A material weakness may exist even though the auditor has not identified misstatements during the integrated audit. Paragraph .A96 provides indicators of material weaknesses.

.A89 Factors that affect the magnitude of a misstatement that might result from a deficiency, or deficiencies, in ICFR include, but are not limited to, the following:

- The financial statement amounts or total of transactions exposed to the deficiency
- The volume of activity (in the current period or expected in future periods) in the account or class of transactions exposed to the deficiency

.A90 In evaluating the magnitude of the potential misstatement, the maximum amount by which an account balance or total of transactions can be overstated is generally the recorded amount, whereas understatements could be larger.

.A91 Risk factors affect whether there is a reasonable possibility that a deficiency, or a combination of deficiencies, in ICFR will result in a misstatement of an account balance or a disclosure. The factors include the following:

- The nature of the financial statement, classes of transactions, account balances, disclosures, and assertions involved
- The cause and frequency of the exceptions detected as a result of the deficiency, or deficiencies, in ICFR
- The susceptibility of the related asset or liability to loss or fraud
- The subjectivity, complexity, or extent of judgment required to determine the amount involved
- The interaction or relationship of the control(s) with other controls
- The interaction with other deficiencies in ICFR
- The possible future consequences of the deficiency, or deficiencies, in ICFR
- The importance of controls, such as the following, to the financial reporting process:
 - General monitoring controls (such as oversight of management)
 - Controls over the prevention and detection of fraud
 - Controls over the selection and application of significant accounting policies
 - Controls over significant transactions with related parties
 - Controls over significant unusual transactions
 - Controls over the period-end financial reporting process (such as controls over nonrecurring journal entries)

[As amended, effective for integrated audits for periods ending on or after December 15, 2021, by SAS No. 135.]

.A92 The evaluation of whether a deficiency in ICFR presents a reasonable possibility of misstatement may be made without quantifying the probability

of occurrence as a specific percentage or range. Also, in many cases, the probability of a small misstatement will be greater than the probability of a large misstatement.

.A93 Controls may be designed to operate individually, or in combination, to effectively prevent, or detect and correct, misstatements. For example, controls over accounts receivable may consist of both automated and manual controls designed to operate together to prevent, or detect and correct, misstatements in the account balance.

.A94 A deficiency in ICFR on its own may not be sufficiently important to constitute a material weakness. However, a combination of deficiencies affecting the same significant class of transactions, account balance, or disclosure; relevant assertion; or component of ICFR may increase the risks of misstatement to such an extent to give rise to a material weakness. A combination of deficiencies that affect the same significant class of transactions, account balance, or disclosure; relevant assertion; or component of ICFR also may collectively result in a significant deficiency.

.A95 A compensating control can limit the severity of a deficiency in ICFR and prevent it from being a material weakness. Only compensating controls that operate at a level of precision that would prevent, or detect and correct, a material misstatement are capable of having a mitigating effect. Although compensating controls can mitigate the effects of a deficiency in ICFR, they do not eliminate the deficiency.

.A96 Indicators of material weaknesses in ICFR include

- identification of fraud, whether or not material, on the part of senior management. For the purpose of this indicator, the term *senior management* includes the principal executive and financial officers as well as any other members of senior management who play a significant role in the entity's financial reporting process;
- restatement of previously issued financial statements to reflect the correction of a material misstatement due to fraud or error;
- identification by the auditor of a material misstatement of the financial statements under audit in circumstances that indicate that the misstatement would not have been detected and corrected by the entity's ICFR; and
- ineffective oversight of the entity's financial reporting and ICFR by those charged with governance.

Determination of Whether Significant Deficiencies Exist During the Integrated Audit (Ref: par. .47)

.A97 Paragraphs .A88–.A95 provide guidance related to evaluating the severity of identified deficiencies in ICFR. Paragraph .A96 provides indicators of material weaknesses.

.A98 The evaluation of the severity of each deficiency in ICFR to determine whether the deficiency, individually or in combination, is a significant deficiency is made for purposes of communicating in writing to management and those charged with governance significant deficiencies identified during the integrated audit. See paragraphs .59–.63 for the communication requirements.

Subsequent Events (Ref: par. .48–.51)

.A99 Section 560, *Subsequent Events and Subsequently Discovered Facts*, establishes requirements and provides guidance on subsequent events for a

financial statement audit that are adapted and applied, as necessary, to the audit of ICFR. The auditor is required by paragraph .57 to obtain certain written representations from management relating to subsequent events.

.A100 Refer to paragraph .80 when disclaiming an opinion on management's disclosures about corrective actions.

.A101 The evaluation of such subsequently discovered facts is similar to the evaluation of subsequently discovered facts in an audit of financial statements, as described in section 560.

Concluding Procedures (Ref: par. .52–.56)

.A102 If management does not revise its report, paragraph .72 applies. Paragraph .71 also applies if the auditor determines that management's required disclosure about one or more material weaknesses is not fairly presented in all material respects. If management refuses to furnish a report that includes management's assessment about ICFR, paragraph .74 applies.

Obtaining Written Representations (Ref: par. .57–.58)

.A103 See section 580, *Written Representations*, for additional requirements and guidance with respect to obtaining written representations from management as part of an audit of financial statements. Section 580 addresses matters such as who should sign the letter, the period to be covered by the letter, and when to obtain an updated letter.

.A104 Management's refusal to furnish written representations constitutes a limitation on the scope of the audit.

Communicating ICFR-Related Matters (Ref: par. .59–.63)

.A105 Section 265, *Communicating Internal Control Related Matters Identified in an Audit*, does not apply to integrated audits.

.A106 Early communication to management or those charged with governance may be important for some matters because of their relative significance and the urgency of corrective follow-up action. Regardless of the timing of the written communication of significant deficiencies and material weaknesses, the auditor may communicate these orally in the first instance to management and, when appropriate, those charged with governance to assist them in taking timely remedial action to minimize the risks of material misstatement. However, oral communication does not relieve the auditor of the responsibility to communicate the significant deficiencies and material weaknesses in writing.

.A107 If a previously communicated significant deficiency or material weakness remains, the current year's communication may repeat the description from the previous communication or simply reference the previous communication and the date of that communication.

.A108 See section 230, *Audit Documentation*, for additional guidance related to the report release date.²³

.A109 The auditor's written communication for a governmental entity would generally not be made prior to management's report on ICFR, the entity's financial statements, and the auditor's report thereon, being made publicly available. This is in order to provide the user with the appropriate context

²³ Paragraph .A2 of section 230, *Audit Documentation*. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

to evaluate the significant deficiencies or material weaknesses identified during the integrated audit that are contained in the written communication.

.A110 The auditor is not required to perform procedures that are sufficient to identify all deficiencies; rather, the auditor need only communicate deficiencies of which the auditor is aware.

.A111 Unlike in an audit of financial statements that is not integrated with an audit of ICFR, the auditor is required to communicate in writing deficiencies that do not rise to the level of significant deficiencies or material weaknesses. This is because identifying deficiencies in ICFR is the focus of an audit of ICFR, whereas identifying deficiencies is incidental to an audit of financial statements (that is not integrated with an audit of ICFR), which is focused on identifying misstatements of the financial statements.

.A112 Because the auditor's written communication of deficiencies identified during the integrated audit forms part of the final audit file, the written communication is subject to the overriding requirement for the auditor to complete the assembly of the final audit file on a timely basis, no later than 60 days following the report release date.²⁴

Reporting on ICFR (Ref: par. .64–.65)

Considerations Specific to Governmental Entities

.A113 When the audit is also conducted in accordance with *Government Auditing Standards* (also known as the Yellow Book), the auditor may state that the audit was conducted in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. If significant deficiencies in ICFR are identified in such an audit and the auditor's report refers to *Government Auditing Standards*, those standards require the auditor to report such deficiencies as findings. The following is an illustration of that communication through the addition of other-matter paragraphs to the auditor's report:

In accordance with *Government Auditing Standards*, we are required to report findings of significant deficiencies. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies in ABC Company's internal control described below [or in the accompanying schedule of findings] to be significant deficiencies.

Government Auditing Standards require the auditor to perform limited procedures on ABC Company's response, described below [or in the accompanying schedule of findings], to the findings identified in our audit of internal control over financial reporting. ABC Company's response was not subjected to the other auditing procedures applied in the audit of internal control over financial reporting and, accordingly, we express no opinion on the response.

[As amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

[.A114] [Paragraph deleted by the issuance of SAS No. 140, April 2020.]

²⁴ Paragraph .16 of section 230. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

.A115 The auditor may choose to issue a combined report (that is, one report containing both an opinion on the financial statements and an opinion on ICFR) or separate reports on the entity's financial statements and on ICFR.

.A116 If the auditor issues a separate report on ICFR and expresses an adverse opinion on ICFR, the disclosure required by paragraph .69 related to the effect of the adverse opinion on ICFR on the auditor's opinion on the financial statements may be combined with the report language described in paragraph .65.

.A117 Section 220A, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, requires that, on or before the date of the auditor's report, the engagement partner, through a review of the audit documentation and discussion with the engagement team, be satisfied that sufficient appropriate audit evidence has been obtained to support the conclusions reached and for the auditor's report to be issued.²⁵ When an engagement quality control review is performed, section 220A requires that the auditor's report not be released prior to the completion of the engagement quality control review.²⁶ [Paragraph added, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

Report Modifications (Ref: par. .67)

.A118 A *limitation on the scope of the audit* refers to the auditor's inability to obtain sufficient appropriate audit evidence, which may arise from the following:

- Circumstances beyond the entity's control
- Circumstances relating to the nature or timing of the auditor's work
- Limitations imposed by management

[Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Adverse Opinions (Ref: par. .68–.71)

.A119 Paragraphs .44–.47 describe the evaluation of deficiencies. See paragraphs .73–.77 when the scope of the engagement has been limited. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A120 Section 705, *Modifications to the Opinion in the Independent Auditor's Report*, establishes requirements and provides guidance on adverse opinions for a financial statement audit that are adapted and applied, as necessary, to the audit of ICFR. Exhibit A, "Illustrative Reports," of this section includes an illustration of the application of the reporting requirements in section 705.²⁷ [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A121 As described in paragraph .A116, if the auditor issues a separate report on ICFR in this circumstance, the disclosure required by paragraph .69 may be combined with the report language described in paragraph .65. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

²⁵ See paragraph .19 of section 220A, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, for further discussion. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

²⁶ Paragraph .21 of section 220A. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

²⁷ Illustration 2, "Adverse Opinion on ICFR," of exhibit A, "Illustrative Reports." [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

.A122 The auditor's report need only refer to the "material weaknesses described in management's report" and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report, as described in paragraph .71. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Scope Limitations (Ref: par. .73–.77)

.A123 The auditor may be separately engaged to audit only the financial statements after withdrawing from the integrated audit. In such circumstances, the auditor cannot disregard knowledge obtained in the integrated audit engagement in determining whether to accept, or in performing, the financial statement audit. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A124 Section 705 establishes requirements and provides guidance on disclaimers of opinion for a financial statement audit that are adapted and applied, as necessary, to the audit of ICFR. Exhibit A of this section includes an illustration of the application of the reporting requirements in section 705.²⁸ [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A125 In an audit of ICFR, the auditor is not required to perform any additional work prior to issuing a disclaimer when the auditor concludes that the auditor will not be able to obtain sufficient appropriate audit evidence to express an opinion. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A126 The auditor's report need only refer to the "material weaknesses described in management's report" and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Making Reference to a Component Auditor and Assuming Responsibility for the Work of a Component Auditor (Ref: par. .78–.79)

.A127 Section 600 addresses special considerations that apply to group audits, in particular those that involve component auditors. Section 600 is applicable, adapted as necessary, to the audit of ICFR, considering the requirements and guidance related to multiple components discussed beginning in paragraphs .28 and .81. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A128 The group engagement partner may decide to assume responsibility for the work of the component auditor or to make reference to the component auditor in the report on the ICFR over the group financial statements. The decision about whether to make reference to a component auditor in the report on the audit of ICFR might differ from the corresponding decision as it relates to the audit of the financial statements. For example, the audit report on the group financial statements may make reference to the audit of a significant equity investment performed by a component auditor, but the report on the ICFR over the group financial statements might not make a similar reference because management's assessment about ICFR ordinarily would not extend to controls at the equity method investee. See paragraph .84 for further discussion of the evaluation of the controls for an equity method investment. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

²⁸ Illustration 3, "Disclaimer of Opinion on ICFR," of exhibit A. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

.A129 Section 600 establishes requirements and provides guidance when assuming responsibility for the work of a component auditor and when making reference to a component auditor in the auditor's report on the financial statements that are adapted and applied, as necessary, to the audit of ICFR. Exhibit A of this section includes an illustration of the application of the reporting requirements in section 600.²⁹ [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Additional Information (Ref: par. .80)

.A130 The additional information as discussed in paragraph .80 typically relates to circumstances in which management includes a description of a response to an identified material weakness, including plans to remediate but is not limited to those matters. The following is an example of wording used to disclaim an opinion on such additional information.³⁰

Other Matter

We did not perform auditing procedures on [*describe additional information, such as management's cost-benefit statement*], and accordingly, we do not express an opinion or provide any assurance on it.

[Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2021.]

.A131 An entity may publish various documents that contain information in addition to management's report and the auditor's report on ICFR. Section 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*, as well as section 720, may require the auditor to take additional action. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Special Topics

Entities With Multiple Components (Ref: par. .81–.83)

.A132 As indicated in paragraph .A127 of this section, section 600 is applicable, adapted as necessary, to the audit of ICFR, considering the requirements and guidance related to components discussed in this section. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A133 In determining the components at which to perform tests of controls, the group engagement team may also take into account work performed by the internal audit function or others on behalf of management. For example, if the internal audit function's planned procedures include relevant audit work at various components, the auditor may coordinate work with the internal auditors and reduce the number of components at which the group engagement team, or a component auditor on the group engagement team's behalf, would otherwise need to perform audit procedures. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A134 The group engagement team may eliminate from further consideration components that, individually or when aggregated with others, do not

²⁹ Illustration 4, "Unmodified Opinion on ICFR Making Reference to a Component Auditor," of exhibit A. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

³⁰ The requirements in section 720, *The Auditor's Responsibilities Relating to Other Information Included in Annual Reports*, would also apply if the information and related auditor's reports are included in an entity's annual report. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

present a reasonable possibility of material misstatement to the group financial statements. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A135 In lower risk components, the group engagement team first might evaluate whether testing entity-level controls, including controls in place to provide assurance that appropriate controls exist throughout the organization, provides sufficient appropriate audit evidence. The group engagement team or a component auditor on the group engagement team's behalf may test the operating effectiveness of controls over specific risks or group-wide controls. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Special Situations (Ref: par. .84–.87)

.A136 The audit of ICFR ordinarily would not extend to controls at the equity method investee. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

.A137 The auditor may conclude it is appropriate for management to limit the assessment by excluding certain entities when, for example, management has insufficient time to assess the controls at the as of date for a recently acquired business or does not have sufficient access to a consolidated variable interest entity. However, in the case of an acquired entity, it would not be appropriate for management to limit its assessment if the period of such limitation extends beyond one year from the date of acquisition, nor would it be appropriate for management's assessment to be limited for more than one annual management report on ICFR. Law or regulation may specifically address situations in which it is appropriate for management to limit its assessment by excluding certain entities and also may require specific disclosures in these cases. If, in the auditor's judgment, it is appropriate for management to limit its assessment by excluding certain entities, the auditor may limit the audit of ICFR in the same manner, and the auditor's opinion would not be affected by a scope limitation. [Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

Use of Service Organizations (Ref: par. .88–.96)

.A138 Section 402 contains the requirements and application guidance for auditors of the financial statements of entities that use a service organization (user auditors). Section 402 addresses an auditor's responsibility for obtaining sufficient appropriate audit evidence in an audit of the financial statements of an entity that uses one or more service organizations (a user entity). Refer to section 402 for guidance when the service organization uses a subservice organization.³¹

.A139 Section 402 identifies the situations in which a service organization's services and controls over them are part of a user entity's information system.³² If the service organization's services are part of the user entity's information system, as described therein, then they are part of the user entity's ICFR.

.A140 Evidence that the controls that are relevant to the auditor's opinion on ICFR are operating effectively may be obtained by following the procedures

³¹ Paragraph .A20 of section 402. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

³² Paragraph .03 of section 402. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

described in section 402.³³ These procedures include one or more of the following:

- a. Obtaining and reading a service auditor's report on management's description of a service organization's system and the suitability of the design and operating effectiveness of controls, which includes a description of the service auditor's tests of controls and results (a type 2 report), if available
- b. Performing appropriate tests of controls at the service organization
- c. Using another auditor to perform tests of controls at the service organization on behalf of the auditor

.A141 A report on management's description of a service organization's system and the suitability of the design of controls (a type 1 report) does not include a description of the service auditor's tests of controls and results of those tests or the service auditor's opinion on the operating effectiveness of controls and, therefore, does not provide evidence of the operating effectiveness of controls. Type 1 and type 2 reports are described in section 402.

.A142 These factors are similar to factors the auditor would consider in determining whether the report provides sufficient appropriate audit evidence to support the auditor's assessed level of control risk in an audit of the financial statements, as described in section 402.³⁴

.A143 Section 402 defines *complementary user entity controls* as those controls that management of the service organization assumes, in the design of its service, will be implemented by user entities, and, if necessary to achieve the control objectives stated in management's description of the service organization's system, are identified as such in that description.

.A144 Appropriate sources of information concerning the service auditor's professional competence and independence are discussed in section 402.³⁵

.A145 Standards promulgated by a body designated by Council, pursuant to the "Compliance With Standards Rule" of the AICPA Code of Professional Conduct, are presumed to be adequate. Although the International Auditing and Assurance Standards Board (IAASB) is not such a body, AT-C section 320, *Reporting on an Examination of Controls at a Service Organization Relevant to User Entities' Internal Control Over Financial Reporting*, may be helpful when the service auditor's report is issued in accordance with International Standard on Assurance Engagements 3402, *Assurance Reports on Controls at a Service Organization*, promulgated by the IAASB.^[36] [Revised, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18.]

.A146 Changes in the service organization's controls may include

- changes communicated to management from the service organization, including those related to the service organization's processes and information systems.

³³ Paragraphs .16–.17 of section 402. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

³⁴ Paragraphs .A32–.A39 of section 402. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

³⁵ Paragraphs .A21–.A22 of section 402. [Footnote renumbered by the issuance of SAS No. 140, April 2020.]

^[36] [Footnote deleted, April 2017, to reflect conforming changes necessary due to the issuance of SSAE No. 18. Footnote subsequently renumbered by the issuance of SAS No. 140, April 2020.]

- changes in personnel at the service organization with whom management interacts.
- changes in the design or implementation of controls that were necessary to achieve the control objectives.
- changes in reports or other data received from the service organization.
- changes in contracts or service level agreements with the service organization.
- errors identified in the service organization's processing or incidents of noncompliance with laws and regulations or fraud.

.A147 As risk increases, the need for the auditor to obtain additional evidence increases. If the auditor concludes that additional evidence about the operating effectiveness of controls at the service organization is required, the auditor's additional procedures might include

- evaluating procedures performed by management and the results of those procedures.
- contacting the service organization, through the user entity, to obtain specific information.
- requesting that a service auditor be engaged to perform procedures that will supply the necessary information.
- visiting the service organization and performing such procedures.

Benchmarking of Automated Controls (Ref: par. .97–.99)

.A148 Entirely automated application controls are generally less susceptible to breakdowns due to human failure. This feature may allow the auditor to use a benchmarking strategy. *Benchmarking* is the process of testing an automated application control to establish a baseline that can be combined with effective IT general controls to allow the auditor to conclude that the automated application controls are effective without repeating the specific tests of operating effectiveness.

.A149 When the risk factors assessed in determining a benchmarking strategy indicate lower risk, the control being evaluated might be well-suited for benchmarking. When these factors indicate increased risk, the control being evaluated is less suited for benchmarking.

.A150 A report of the compilation dates of the programs placed in operation may be used as evidence that controls within the program have not changed.

.A151 Benchmarking automated application controls can be especially effective for entities using purchased software when the possibility of program changes is remote (for example, when the vendor does not allow access or modification to the source code).

.A152 If general controls over program changes, access to programs, and computer operations are effective and continue to be tested, and if the auditor determines that the automated application control has not changed since the auditor established a baseline (that is, last tested the application control), the auditor may conclude that the automated application control continues to be effective without repeating the prior year's specific tests of the operation of the automated application control. The nature and extent of the evidence that the auditor obtains to determine that the control has not changed may vary

depending on the circumstances, including the strength of the entity's program change controls.

.A153 The consistent and effective functioning of the automated application controls may be dependent upon the related files, tables, data, and parameters. For example, an automated application for calculating interest income might be dependent on the continued integrity of a rate table used by the automated calculation.

.A154 A control may be sensitive to other business factors that may have changed. For example, an automated control may have been designed with the assumption that only positive amounts will exist in a file. Such a control would no longer be effective if negative amounts (credits) begin to be posted to the account.

.A155

Exhibit A — Illustrative Reports

The following illustrate the report elements described in this section. The illustrations assume that the audit of internal control over financial reporting (ICFR) and the audit of the financial statements were performed by the same auditor. Report modifications are discussed beginning in paragraph .67 of this section.

Illustration 1 — Unmodified Opinion on ICFR

Illustration 2 — Adverse Opinion on ICFR

Illustration 3 — Disclaimer of Opinion on ICFR

Illustration 4 — Unmodified Opinion on ICFR Making Reference to a Component Auditor

Illustration 5 — Combined Report Expressing an Unmodified Opinion on ICFR and an Unmodified Opinion on the Financial Statements

Illustration 1 — Unmodified Opinion on ICFR

The following is an illustrative report expressing an unmodified opinion on ICFR.

Independent Auditor's Report

[Appropriate Addressee]

Report on Internal Control Over Financial Reporting¹

Opinion on Internal Control Over Financial Reporting

We have audited ABC Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].² In our opinion, ABC Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].

We also have audited, in accordance with auditing standards generally accepted in the United States of America (GAAS), the [identify financial statements] of ABC Company, and our report dated [date of report, which should be the same as the date of the report on the audit of ICFR] expressed [include nature of opinion].

Basis for Opinion

We conducted our audit in accordance with GAAS. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Internal Control Over Financial Reporting section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating

¹ The subtitle "Report on Internal Control Over Financial Reporting" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for Internal Control Over Financial Reporting

Management is responsible for designing, implementing, and maintaining effective internal control over financial reporting, and for its assessment about the effectiveness of internal control over financial reporting, included in the accompanying [title of management's report].

Auditor's Responsibilities for the Audit of Internal Control Over Financial Reporting

Our objectives are to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects and to issue an auditor's report that includes our opinion on internal control over financial reporting. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit of internal control over financial reporting conducted in accordance with GAAS will always detect a material weakness when it exists.

In performing an audit of internal control over financial reporting in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Obtain an understanding of internal control over financial reporting, assess the risks that a material weakness exists, and test and evaluate the design and operating effectiveness of internal control over financial reporting based on the assessed risk.

Definition and Inherent Limitations of Internal Control Over Financial Reporting

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Independent Auditor's Report

[Appropriate Addressee]

Report on Internal Control Over Financial Reporting¹

Adverse Opinion on Internal Control Over Financial Reporting

We have audited ABC Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].² In our opinion, because of the effect of the material weakness described in the Basis for Adverse Opinion section on the achievement of the objectives of [identify criteria], ABC Company has not maintained effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].

We also have audited, in accordance with auditing standards generally accepted in the United States of America (GAAS), the [identify financial statements] of ABC Company, and our report dated [date of report, which should be the same as the date of the report on the audit of ICFR] expressed [include nature of opinion].

We considered the material weakness described in the Basis for Adverse Opinion on Internal Control Over Financial Reporting section in determining the nature, timing, and extent of audit procedures applied in our audit of the 20XX financial statements, and this report does not affect such report on the financial statements

Basis for Adverse Opinion on Internal Control Over Financial Reporting

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. The following material weakness has been identified and included in the accompanying [title of management's report].

[Identify the material weakness described in management's report].³

We conducted our audit in accordance with GAAS. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Internal Control Over Financial Reporting section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating

¹ The subtitle "Report on Internal Control Over Financial Reporting" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

³ See paragraphs .68–.71 of this section for specific reporting requirements. The auditor's report need only refer to the material weaknesses described in management's report and need not include a description of each material weakness, provided each material weakness is included and fairly presented in all material respects in management's report.

to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for Internal Control Over Financial Reporting

Management is responsible for designing, implementing, and maintaining effective internal control over financial reporting, and for its assessment about the effectiveness of internal control over financial reporting, included in the accompanying [title of management's report].

Auditor's Responsibilities for the Audit of Internal Control Over Financial Reporting

Our objectives are to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects and to issue an auditor's report that includes our opinion on internal control over financial reporting. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit of internal control over financial reporting conducted in accordance with GAAS will always detect a material weakness when it exists.

In performing an audit of internal control over financial reporting in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Obtain an understanding of internal control over financial reporting, assess the risks that a material weakness exists, and test and evaluate the design and operating effectiveness of internal control over financial reporting based on the assessed risk.

Definition and Inherent Limitations of Internal Control Over Financial Reporting

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction, of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Illustration 3 — Disclaimer of Opinion on ICFR

The following is an illustrative report expressing a disclaimer of opinion on ICFR. In this example, the auditor is applying paragraph .76 of this section because a material weakness was identified during the limited procedures performed by the auditor.

Independent Auditor's Report

[Appropriate Addressee]

Report on Internal Control Over Financial Reporting¹

Disclaimer of Opinion on Internal Control Over Financial Reporting

We were engaged to audit ABC Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].² Because of the significance of the matter described in the Basis for Disclaimer of Opinion on Internal Control Over Financial Reporting section, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the effectiveness of ABC Company's internal control over financial reporting.

We have audited, in accordance with auditing standards generally accepted in the United States of America (GAAS), the [identify financial statements] of ABC Company, and our report dated [date of report, which should be the same as the date of the report on the audit of ICFR] expressed [include nature of opinion].

We considered the material weakness described in the [include section title of where the material weakness information is included in the report]³ section in determining the nature, timing, and extent of audit procedures applied in our audit of the 20XX financial statements, and this report does not affect such report on the financial statements.

Basis for Disclaimer of Opinion on Internal Control Over Financial Reporting

[Provide description of the matter giving rise to the disclaimer of opinion]

Responsibilities of Management for Internal Control Over Financial Reporting

Management is responsible for designing, implementing, and maintaining effective internal control over financial reporting and for its assessment about the effectiveness of internal control over financial reporting included in the accompanying [title of management's report].

¹ The subtitle "Report on Internal Control Over Financial Reporting" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

³ In this illustration, the material weakness information is included in a separate section with the title "Material Weakness." [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2021.]

Auditor's Responsibilities for the Audit of Internal Control Over Financial Reporting

Our responsibility is to conduct an audit of ABC Company's internal control over financial reporting in accordance with GAAS. However, because of the matter described in the Basis for Disclaimer of Opinion on Internal Control Over Financial Reporting section, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Definition and Inherent Limitations of Internal Control Over Financial Reporting

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Material Weakness⁴

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. If one or more material weaknesses exist, an entity's internal control over financial reporting cannot be considered effective. The following material weakness has been included in the accompanying [title of management's report].

[Identify the material weakness described in management's report and include a description of the material weakness, including its nature and actual and potential effect on the presentation of the entity's financial statements issued during the existence of the material weakness.]

⁴ Paragraph .76 does not specify the placement of this information. The sample in the illustrative auditor's report includes the information in a separate section with the title "Material Weakness;" however, auditors have discretion to present this information in the part of the report they consider appropriate. [Footnote added, effective for audits of financial statements for periods ending on or after December 15, 2021.]

Report on Other Legal and Regulatory Requirements

[The form and content of this section of the auditor's report would vary depending on the nature of the auditor's other reporting responsibilities.]

Illustration 4 — Unmodified Opinion on ICFR Making Reference to a Component Auditor

The following is an illustrative report expressing an unmodified opinion on ICFR when the engagement partner decides to make reference to the report of a component auditor.

Independent Auditor's Report

[Appropriate Addressee]

Report on Internal Control Over Financial Reporting¹

Opinion on Internal Control Over Financial Reporting

We have audited ABC Company's internal control over financial reporting as of December 31, 20XX, based on [identify criteria].² In our opinion, based on our audit and the report of the other auditors, ABC Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on [identify criteria].

We did not audit the effectiveness of internal control over financial reporting of B Company, a wholly owned subsidiary, whose financial statements reflect total assets and revenues constituting 20 percent and 30 percent, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 20XX. The effectiveness of B Company's internal control over financial reporting was audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the effectiveness of B Company's internal control over financial reporting, is based solely on the report of the other auditors.

We also have audited, in accordance with auditing standards generally accepted in the United States of America (GAAS), the [identify financial statements] of ABC Company, and our report dated [date of report, which should be the same as the date of the report on the audit of ICFR] expressed [include nature of opinion], based on our audit and the report of the other auditors.

Basis for Opinion

We conducted our audit in accordance with GAAS. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Internal Control Over Financial Reporting section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Audit of Internal Control Over Financial Reporting

Management is responsible for designing, implementing, and maintaining effective internal control over financial reporting and for its assessment about the effectiveness of internal control over financial reporting included in the accompanying [title of management's report].

¹ The subtitle "Report on Internal Control Over Financial Reporting" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

² For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

Auditor's Responsibilities for the Audit of Internal Control Over Financial Reporting

Our objectives are to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects and to issue an auditor's report that includes our opinion on internal control over financial reporting. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit of internal control over financial reporting conducted in accordance with GAAS will always detect a material weakness when it exists.

In performing an audit of internal control over financial reporting in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Obtain an understanding of internal control over financial reporting, assess the risks that a material weakness exists, and test and evaluate the design and operating effectiveness of internal control over financial reporting based on the assessed risk.

Definition and Inherent Limitations of Internal Control Over Financial Reporting

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [applicable financial reporting framework, such as accounting principles generally accepted in the United States of America], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Illustration 5 — Combined Report Expressing an Unmodified Opinion on ICFR and an Unmodified Opinion on the Financial Statements

The following is an illustrative combined report expressing an unmodified opinion on ICFR and an unmodified opinion on the financial statements. The circumstances include the following:

- An audit of a complete set of general purpose financial statements (single year). The audit is not a group audit.
- Management is responsible for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in section 210A, *Terms of Engagement*.
- The auditor has concluded that an unmodified (that is, "clean") opinion is appropriate based on the audit evidence obtained.
- Based on the audit evidence obtained, the auditor has concluded that there are no conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time in accordance with section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.
- The auditor has not been engaged to communicate key audit matters.

Independent Auditor's Report

[Appropriate Addressee]

Report on the Financial Statements and Internal Control¹

Opinions on the Financial Statements and Internal Control Over Financial Reporting

We have audited the financial statements of ABC Company, which comprise the balance sheet as of December 31, 20XX, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements. In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of ABC Company as of December 31, 20XX, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

¹ The subtitle "Report on the Financial Statements and Internal Control" is unnecessary in circumstances when the second subtitle, "Report on Other Legal and Regulatory Requirements," is not applicable.

We also have audited ABC Company's internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.² In our opinion, ABC Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20XX, based on *[identify criteria]*.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements and Internal Control Over Financial Reporting section of our report. We are required to be independent of ABC Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements and Internal Control Over Financial Reporting

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of effective internal control over financial reporting relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management is also responsible for its assessment about the effectiveness of internal control over financial reporting, included in the accompanying *[title of management's report]*.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern *[insert the time period set by the applicable financial reporting framework]*.

Auditor's Responsibilities for the Audits of the Financial Statements and Internal Control Over Financial Reporting

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and about whether effective internal control over financial reporting was maintained in all material respects, and to issue an auditor's report that includes our opinions.

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit of financial statements or an audit of internal control over financial reporting conducted in accordance with GAAS will always detect a material misstatement or a material weakness when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered to be material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

² For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."

In performing an audit of financial statements and an audit of internal control over financial reporting in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the statement audit in order to design audit procedures that are appropriate in the circumstances.
- Obtain an understanding of internal control over financial reporting relevant to the audit of internal control over financial reporting, assess the risks that a material weakness exists, and test and evaluate the design and operating effectiveness of internal control over financial reporting based on the assessed risk.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the financial statement audit.

Definition and Inherent Limitations of Internal Control Over Financial Reporting

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Exhibit B — Illustrative Written Communication of Significant Deficiencies and Material Weaknesses

The following is an illustrative written communication of significant deficiencies and material weaknesses.

To Management and *[identify the body or individuals charged with governance, such as the entity's board of directors]* of ABC Company:

In connection with our audit of ABC Company's (the Company) financial statements as of December 31, 20XX, and for the year then ended, and our audit of the Company's internal control over financial reporting as of December 31, 20XX (integrated audit), auditing standards generally accepted in the United States of America require that we advise you of the following matters relating to internal control over financial reporting (internal control) identified during our integrated audit.

Our responsibility is to plan and perform our integrated audit to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and whether effective internal control was maintained in all material respects (that is, whether material weaknesses exist as of the date specified in management's assessment). The integrated audit is not designed to detect deficiencies that, individually or in combination, are less severe than a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *[We consider the following deficiencies in the Company's internal control to be material weaknesses:*

[Describe the material weaknesses that were identified during the integrated audit and provide an explanation of their potential effects. The auditor may separately identify those material weaknesses that exist as of the date specified in management's assessment about ICFR by referring to the auditor's report.]

[A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the Company's internal control over financial reporting to be significant deficiencies:]

[Describe the significant deficiencies that were identified during the integrated audit and provide an explanation of their potential effects.]

This communication is intended solely for the information and use of management, *[identify the body or individuals charged with governance]*, others within the organization, and *[identify any governmental authorities to which the*

auditor is required to report] and is not intended to be and should not be used by anyone other than these specified parties.¹

[*Auditor's signature*]

[*Auditor's city and state*]

[*Date*]

[Paragraph renumbered by the issuance of SAS No. 140, April 2020.]

¹ When the engagement is also performed in accordance with *Government Auditing Standards*, see paragraph .11 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, for alternative reporting requirements.

.A157

Exhibit C — Illustrative Management Report

The following is an illustrative management report containing the reporting elements described in paragraph .55 of this section with no material weaknesses reported.

Management's Report on Internal Control Over Financial Reporting

ABC Company's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*]. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with [*applicable financial reporting framework, such as accounting principles generally accepted in the United States of America*], and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction, of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Management of ABC Company is responsible for designing, implementing, and maintaining effective internal control over financial reporting. Management assessed the effectiveness of ABC Company's internal control over financial reporting as of December 31, 20XX, based on [*identify criteria*].¹ Based on that assessment, management concluded that, as of December 31, 20XX, ABC Company's internal control over financial reporting is effective, based on [*identify criteria*].

Internal control over financial reporting has inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

.A158

Exhibit D — Reporting Under Section 112 of the Federal Deposit Insurance Corporation Improvement Act

1. The Federal Deposit Insurance Corporation (FDIC) has provided guidance on the meaning of the term *financial reporting* for purposes of compliance by insured depository institutions (IDIs) with Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA) (Section 36 of the Federal Deposit Insurance Act [FDI Act], 12.U.S.C. 1831m), and its implementing regulation, 12 CFR Part 363. The FDIC's guidance indicates that financial reporting, at a minimum, includes both financial statements prepared in accordance with generally accepted accounting principles (GAAP) for the IDI (or its holding company) and financial statements prepared for regulatory reporting purposes. Financial statements prepared for regulatory reporting purposes include the schedules equivalent to the GAAP-based financial statements that are included in an IDI's (or its holding company's) appropriate regulatory report (for example, Schedules RC, RI, and RI-A in the Consolidated Reports of Condition and Income [Call Report]). Accordingly, to comply with the FDICIA and Part 363, management of the IDI (or its holding company) and the auditor are required to identify and test controls over the preparation of GAAP-based financial statements as well as the schedules equivalent to the GAAP-based financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report. Further, both management and the auditor are required to include in their report on the IDI's (or its holding company's) internal control over financial reporting (ICFR) a specific description indicating that the scope of ICFR included controls over the preparation of the IDI's (or its holding company's) GAAP-based financial statements as well as the schedules equivalent to the GAAP-based financial statements that are included in the IDI's (or its holding company's) appropriate regulatory report.¹

Definition of ICFR for FDICIA Purposes

2. In accordance with paragraph .64g of this section, the auditor's report is required to include a definition of ICFR that uses the same description of ICFR that management uses in its report. The following is an illustrative definition paragraph that may be used when an IDI that is an insured bank (which is not subject to Section 404 of the Sarbanes-Oxley Act of 2002) elects to report on controls for FDICIA purposes at the bank holding company level:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. Because management's assessment and our audit were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our audit of [Holding Company's] internal control over financial reporting included controls over the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and with the instructions to the Consolidated Financial Statements for Bank Holding

¹ Refer to Section 36 of the Federal Deposit Insurance Act (FDI Act), Section 363.1: Scope and Definitions, for the requirements pertaining to compliance by subsidiaries of holding companies.

Companies (Form FR Y-9C).² An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Requirements When the IDI Is Required to Report on ICFR at the IDI Level

3. This paragraph and the following paragraphs are applicable and provide guidance when an IDI is required by 12 CFR Part 363 to report on ICFR at the IDI level. An IDI that is a subsidiary of a holding company may use the consolidated holding company's financial statements (group financial statements) to satisfy the audited financial statements requirement of 12 CFR Part 363, provided certain criteria are met.³ For some IDIs, however, an audit of ICFR is required at the IDI level. An audit of ICFR is required to be integrated with an audit of financial statements. Accordingly, to comply with the integrated audit requirements in this section, when the IDI elects to use the holding company's group financial statements to satisfy the audited financial statements requirement of 12 CFR Part 363 and the audit of ICFR is required to be performed at the IDI level, the auditor would be required to perform procedures necessary to obtain sufficient appropriate audit evidence to enable the auditor to express an opinion on the IDI's financial statements and on its ICFR. When the IDI does not prepare financial statements at the IDI level for external distribution, "financial statements" for this purpose may consist of the IDI's financial information in a reporting package or equivalent schedules and analyses that include the IDI information necessary for the preparation of the holding company's group financial statements, including disclosures. The measurement of materiality is determined based on the IDI's financial information rather than the holding company's group financial statements.⁴ If the auditor is unable to apply the procedures necessary to obtain sufficient appropriate audit evidence with respect to the IDI's financial information, the auditor is required by paragraph .73 of this section to withdraw from the engagement or disclaim an opinion on the effectiveness of ICFR at the IDI level.

Evaluation of IDI Financial Reporting Process

4. As previously described, the FDIC indicated that financial reporting, at a minimum, includes both financial statements prepared in accordance with generally accepted accounting principles (GAAP) for the IDI (or its holding company) and financial statements prepared for regulatory purposes. Financial statements prepared for regulatory reporting purposes include the schedules equivalent to the GAAP-based financial statements that are included in

² This sentence would be modified if the insured depository institution (IDI) reports at the institution level rather than at the bank holding company level to refer to the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income instead of to the Form FR Y-9C. This sentence would also be modified if the IDI reports at a holding company level and employs another approach to reporting on controls over the preparation of regulatory reports as permitted by Section 36 of the FDI Act.

³ See footnote 1.

⁴ See paragraph .10 of section 320, *Materiality in Planning and Performing an Audit*.

an IDI's (or its holding company's) appropriate regulatory report. When the IDI does not prepare financial statements for external distribution, the auditor is, nevertheless, required by paragraph .24 of this section to evaluate the IDI's period-end financial reporting process. This process includes, among other things, the IDI's procedures for preparing financial information for purposes of the holding company's group financial statements, which are prepared in accordance with GAAP, and the schedules equivalent to the GAAP-based financial statements that are included in the IDI's appropriate regulatory report.

Organization Structure

5. The period-end financial reporting process may occur either at the IDI or the holding company, or both. The organizational structure, including where the controls relevant to the IDI's financial information operate, may affect how the auditor evaluates this process. For example

- a. when the period-end financial reporting process occurs at the holding company and the IDI comprises substantially all of the consolidated total assets, there may be no distinguishable difference between the IDI's and its holding company's process for purposes of the integrated audit. This is because the auditor's risk assessment, including the determination of significant classes of transactions, account balances, and disclosures, and their relevant assertions, the selection of controls to test, and the determination of the evidence necessary to conclude on the effectiveness of a given control, would likely be the same for the IDI and the holding company.⁵ In this circumstance, the period-end financial reporting process of the holding company would be, in effect, the period-end financial reporting process of the IDI and, therefore, would be included in the scope of the integrated audit of the IDI.
- b. when the period-end financial reporting process occurs at the holding company and the IDI does not comprise substantially all of the consolidated total assets, the IDI's financial reporting process may be sufficient for the auditor to meet the requirement in paragraph .24 of this section, if the necessary GAAP information is prepared by the IDI or the holding company, and the process can be evaluated by the auditor. The auditor may determine that the IDI's preparation of the IDI's appropriate regulatory report, together with other financial information at the IDI level that is incorporated into the holding company's group financial statements, is sufficient for this purpose. In this circumstance, both the period-end financial reporting process of the holding company, as it relates to the financial information of the IDI, and the period-end financial reporting process of the IDI, with respect to the preparation of the schedules equivalent to the basic financial statements that are included in the IDI's appropriate regulatory report, would be included in the scope of the integrated audit of the IDI.

IDI Not Subject to Section 404 of Sarbanes-Oxley Act of 2002

6. The illustrative reports in exhibit A, "Illustrative Reports," of this section may be used to report on the effectiveness of the IDI's ICFR. Because 12 CFR Part 363 does not require the auditor to issue a separate auditor's report on the IDI's financial statements, the requirement in paragraph .65 of this section to add a paragraph to the ICFR report that references the financial statement

⁵ See paragraph .A22 of this section.

audit will not apply when the auditor does not issue a separate auditor's report on the IDI's financial statements. In accordance with paragraph .64 of this section, the auditor's report on ICFR is required to include a definition of ICFR that uses the same description of ICFR as management uses in its report. The following is an illustrative definition paragraph that may be used when an IDI that is not subject to Section 404 of the Sarbanes-Oxley Act of 2002 is required to report on controls for FDICIA purposes at the IDI level, and the IDI uses the holding company's group financial statements to satisfy the audited financial statements requirement of 12 CFR Part 363:

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with generally accepted accounting principles. Because management's assessment and our audit were conducted to meet the reporting requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA), our audit of [IDI's] internal control over financial reporting included controls over the preparation of financial information for purposes of [consolidated holding company's] financial statements in accordance with accounting principles generally accepted in the United States of America and controls over the preparation of schedules equivalent to basic financial statements in accordance with the Federal Financial Institutions Examination Council Instructions for Consolidated Reports of Condition and Income (Call Report Instructions). An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Use of the *Internal Control — Integrated Framework* (2013) (COSO)

7. Management may evaluate and report on the effectiveness of the IDI's ICFR based on the report *Internal Control—Integrated Framework* (2013), issued by Committee of Sponsoring Organizations of the Treadway Commission's (COSO). For purposes of reporting under Section 112 of FDICIA, the COSO criteria relevant to internal reporting objectives are appropriate only for the IDI and its regulatory agencies that are presumed to have an adequate understanding of the level of the auditor's service on historical financial information, considering the IDI does not prepare external GAAP-based financial statements. Accordingly, the report is required to include an other-matter paragraph, under an appropriate heading, that restricts its use.⁶ An example of such a restriction is as follows:

***Restriction on Use*⁷**

This report is intended solely for the information and use of management, [identify the body or individuals charged with governance], others within the organization, the Federal Deposit Insurance Corporation and [other federal bank

⁶ See paragraphs .06a and .07 of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*. Although reports on internal control issued in accordance with the guidance in this appendix are required to be restricted as to use, Section 36 of the FDI Act and Title 12 U.S. Code of Federal Regulations Part 363 require that these reports be available for public inspection.

⁷ Another appropriate heading may be used.

regulatory agency] and is not intended to be and should not be used by anyone other than these specified parties.

8. Likewise, the auditor's report and management's assessment about ICFR refer to the COSO criteria relevant to internal reporting objectives. For example, the following may be used to identify the criteria: "criteria established in the *Internal Control—Integrated Framework* (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) relevant to internal reporting objectives for the express purpose of meeting the regulatory requirements of Section 112 of the Federal Deposit Insurance Corporation Improvement Act (FDICIA)."

[Paragraph renumbered and amended, effective for audits of financial statements for periods ending on or after December 15, 2021, by SAS No. 140.]

AU-C Section 945

Auditor Involvement With Exempt Offering Documents

Source: SAS No. 133; SAS No. 137.

Effective for exempt offering documents with which the auditor is involved that are initially distributed, circulated, or submitted on or after June 15, 2018, unless otherwise indicated.

Introduction

Scope of This Section

.01 This section addresses the auditor's responsibilities when both of the following conditions exist:

- a. The auditor's report on financial statements or the auditor's review report on interim financial information of an entity is included or incorporated by reference in an offering document relating to either of the following:
 - i. Securities, when either the transaction or the securities themselves are exempt from registration under the Securities Act of 1933, as amended (Securities Act of 1933)
 - ii. Franchise offerings regulated by the Federal Trade Commission (FTC) or applicable state franchise laws

Hereafter, such security and franchise offerings are referred to as "exempt offerings" for purposes of this section.

- b. The auditor performs one or more of the activities in paragraph .08b with respect to the exempt offering document.

In such situations, the auditor is deemed to be involved with the exempt offering document. (Ref: par. .A1–.A3)

.02 Exempt offerings are made pursuant to federal or state securities laws and regulations or pursuant to federal or state franchise laws and regulations, including, in each case, the antifraud provisions thereof.¹ Exempt offerings include, but are not limited to, the following:

- Securities transactions that are exempt from the registration requirements of Section 5 of the Securities Act of 1933, such as private placement offerings, exempt public offerings, and municipal securities offerings
- Offerings of securities issued or backed by governmental, municipal, banking, tax-exempt, or other entities that are exempt from registration under the Securities Act of 1933
- Franchise offerings

¹ Exhibit A, "Examples of Exempt Offerings," provides examples of types of offerings within the scope of this section.

Effective Date

.03 This section is effective for exempt offering documents with which the auditor is involved that are initially distributed, circulated, or submitted on or after June 15, 2018. (Ref: par. .A4)

Objectives

.04 The objectives of the auditor when involved with an exempt offering document are to perform procedures specified in this section and respond appropriately as follows:

- a. When the auditor determines that information included or incorporated by reference in the exempt offering document could undermine the credibility of the financial statements and the auditor's report thereon
- b. To facts that become known to the auditor after the date of the auditor's report that, had they been known to the auditor at that date, may have caused the auditor to revise the auditor's report

Definitions

.05 For purposes of this section, the following terms have the meanings attributed as follows:

Exempt offering document. The disclosure document that provides financial and nonfinancial information related to the entity issuing the exempt offering (or in the case of a franchise offering, the franchisor) and the offering itself. (Ref: par. .A5)

Security. *Security* has the meaning as defined in Section 2(a)(1) of the Securities Act of 1933, as amended.

.06 References in this section to an auditor's report are to be read to encompass an auditor's report on financial statements² or an auditor's review report on interim financial information in accordance with section 930, *Interim Financial Information*.

.07 References in this section to an auditor's report that is included in an exempt offering document are to be read to also encompass an auditor's report that is incorporated by reference in an exempt offering document.

Requirements

Involvement

.08 The auditor is involved with an exempt offering document and should apply the requirements of this section in connection with an exempt offering document when both of the following conditions exist:

- a. The auditor's report is included in the exempt offering document.

² An auditor's report in accordance with section 700, *Forming an Opinion and Reporting on Financial Statements*, section 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*, or section 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement*.

- b. The auditor performs one or more of the following activities with respect to the exempt offering document: (Ref: par. .A6)
 - i. Assisting the entity in preparing information included in the exempt offering document (Ref: par. .A7–.A10)
 - ii. Reading a draft of the exempt offering document at the entity's request (Ref: par. .A11)
 - iii. Issuing a comfort or similar letter in accordance with section 920, *Letters for Underwriters and Certain Other Requesting Parties*, or an agreed-upon procedures report in accordance with AT-C section 215, *Agreed-Upon Procedures Engagements*, in lieu of a comfort or similar letter on information included in the exempt offering document (Ref: par. .A12–.A14)
 - iv. Participating in due diligence discussions with underwriters, placement agents, broker-dealers, or other financial intermediaries in connection with the exempt offering (Ref: par. .A15)
 - v. Issuing a practitioner's attestation report on information relating to the exempt offering (Ref: par. .A16–.A17)
 - vi. Providing written agreement for the use of the auditor's report in the exempt offering document (Ref: par. .A18–.A23)
 - vii. Updating an auditor's report for inclusion in the exempt offering document (Ref: par. .A24–.A25)

When the auditor is involved with an exempt offering document, the auditor should perform the procedures in paragraphs .09–.15 at or shortly before the date of distribution, circulation, or submission of the exempt offering document, and as appropriate upon any subsequent distribution, circulation, or submission of the exempt offering document. (Ref: par. .A26)

Other Information Included in the Exempt Offering Document

.09 When the auditor is involved with an exempt offering document, the auditor should perform the procedures described in paragraphs .15–.23 of section 720, *The Auditor's Responsibilities Relating to Other Information Included in Annual Reports*, adapted as necessary, on the exempt offering document. When performing those procedures, the auditor should determine that the auditor's role is not described in the exempt offering document in a way that indicates that the auditor's responsibility is greater than the auditor intends. (Ref: par. .A27–.A31) [As amended, effective for exempt offering documents with which the auditor is involved that are initially distributed, circulated, or submitted on or after December 15, 2021, by SAS No. 137.]

Subsequent Events and Subsequently Discovered Facts

.10 When the auditor is involved with an exempt offering document, the auditor should do the following:

- a. Perform procedures designed to identify events occurring between the date of the auditor's report and the date of the distribution, circulation, or submission of the exempt offering document that, had they been known to the auditor as of the date of the auditor's report, may have caused the auditor to revise the auditor's report (hereafter referred to as "subsequent events" for purposes of this section). Such procedures should include the following: (Ref: par. .A32–.A35)
 - i. Obtaining an understanding of any procedures that management may have performed to identify such events
 - ii. Inquiring of management and, when appropriate, those charged with governance about whether any such events have occurred that might affect the financial statements
 - iii. Reading minutes, if any, of the meetings of the entity's management and those charged with governance that have been held since the date of the auditor's report and inquiring about matters discussed at any such meetings for which minutes are not yet available
 - iv. Reading the entity's most recent subsequent interim financial statements, if any
- b. Obtain updated written representations from management about the following:
 - i. Whether any information has come to management's attention that would cause management to believe that any of the previous representations should be modified
 - ii. Whether any events have occurred subsequent to the date of the auditor's report that would require adjustment to, or disclosure in, the financial statements
 - iii. That management provided complete minutes of the meetings of the entity's management and those charged with governance, or summaries of actions of recent meetings for which minutes have not yet been prepared since previous representations were provided
 - iv. That management provided communications received from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices since previous representations were provided

.11 If a predecessor auditor's report on a prior period is included in the exempt offering document but the predecessor auditor did not audit the entity's separate financial statements for the most recent audited period for which the entity's audited financial statements are included in the exempt offering document, and the predecessor auditor is involved with the exempt offering then the predecessor auditor should perform the following procedures:

- a. Read the financial statements of the subsequent period to be presented on a comparative basis.
- b. Compare the prior period financial statements that the predecessor auditor reported on with the financial statements of the subsequent period to be presented on a comparative basis.
- c. Inquire of and request written representations from management of the former client, at or near the date of distribution, circulation, or submission of the exempt offering document about the following:

- i. Whether any information has come to management's attention that would cause management to believe that any of the previous representations should be modified
 - ii. Whether any events have occurred subsequent to the date of the latest prior period financial statements reported on by the predecessor auditor that, had they been known to the auditor as of the date of the auditor's report, may have caused the auditor to revise the auditor's report
- d. Obtain a representation letter from the successor auditor stating whether the successor auditor's audit revealed any matters that, in the successor auditor's opinion, might have a material effect on, or require disclosure in, the financial statements reported on by the predecessor auditor.

.12 When a predecessor auditor of an acquired entity is involved with an exempt offering document and the acquirer's audited financial statements included in the exempt offering document reflect a time period that includes the date of acquisition, the predecessor auditor may be unable to perform all of the procedures in paragraph .11 of this section. In such circumstances, the predecessor auditor should obtain written representations from management of the former client, and a representation letter from the successor auditor as described in paragraph .11c–d of this section.

.13 If the auditor identifies subsequent events that may require adjustment of, or disclosure in, the audited financial statements or reviewed interim financial information, the auditor should not agree to the inclusion of the auditor's report in the exempt offering document until the auditor's consideration of the subsequent events, including the effect on the auditor's report, has been satisfactorily evaluated in accordance with section 560, *Subsequent Events and Subsequently Discovered Facts*.³

.14 If the auditor becomes aware of subsequently discovered facts, the auditor should not agree to the inclusion of the auditor's report in the exempt offering document until the auditor's consideration of the subsequently discovered facts, including the effect on the auditor's report, has been satisfactorily evaluated in accordance with section 560.⁴

.15 If management does not revise the financial statements in circumstances in which the auditor believes they need to be revised, in addition to following the requirements in section 560, the auditor should not agree to the inclusion of the auditor's report in the exempt offering document.⁵

Application and Other Explanatory Material

Scope of This Section (Ref: par. .01)

.A1 Securities offerings and franchise offerings may be offered by means other than a registered offering through exemptions to registration afforded under federal or state laws and regulations based on the size and nature of the offering or the issuing entity or franchisor, as applicable. Securities offered through means other than a registration statement under the Securities Act of 1933 and franchise offerings are within the scope of this section. Exhibit A,

³ Paragraph .11 of section 560, *Subsequent Events and Subsequently Discovered Facts*.

⁴ Paragraphs .15–.18 of section 560.

⁵ Paragraphs .17–.18 of section 560.

"Examples of Exempt Offerings," provides examples of types of offerings within the scope of this section. Section 925, *Filings With the U.S. Securities and Exchange Commission Under the Securities Act of 1933*, addresses the auditor's responsibilities when financial statements of a nonissuer are included or incorporated by reference in a registration statement under the Securities Act of 1933.

.A2 Auditors may include a provision in the terms of the engagement requiring the entity to obtain permission from the auditor before using the auditor's report in connection with an exempt offering document. The existence of such a provision in an engagement letter does not establish involvement unless the auditor performs one or more of the activities in paragraph .08b with respect to the exempt offering document. An example provision for an engagement letter may read as follows:

The Entity may wish to include our report on these financial statements in an exempt offering document. The Entity agrees that the aforementioned auditor's report, or reference to our Firm, will not be included in any such offering document without our prior permission or consent. Any agreement to perform work in connection with an exempt offering document, including an agreement to provide permission or consent, will be a separate engagement.

.A3 The auditor may include in the terms of the engagement a provision that any exempt offering document issued by the entity with which the auditor is not involved, other than as determined by paragraph .08, will clearly indicate the auditor is not involved with the contents of such offering document. An example disclosure related to an exempt offering document may read as follows:

[Name of Firm], our independent auditor, has not been engaged to perform and has not performed, since the date of its report included herein, any procedures on the financial statements addressed in that report. [Name of Firm] also has not performed any procedures relating to this offering document.

Effective Date (Ref: par. .03)

.A4 Some exempt offerings have multiple stages, for example distribution of a preliminary offering document and a final offering document. For such exempt offerings, the effective date relates to the distribution, circulation, or submission of the initial exempt offering document on or after June 15, 2018. Other exempt offerings, such as franchise offerings, may be updated annually. For such exempt offerings, the effective date relates to the initial or updated exempt offering document distributed, circulated, or submitted on or after June 15, 2018.

Definitions (Ref: par. .05)

.A5 An exempt offering document may also be referred to as an offering statement, offering memorandum, offering circular, or a franchise disclosure document.

Involvement

Performance of Activities (Ref: par. .08b)

.A6 Auditors may become aware of an offering through a communication from an entity or through the receipt of a draft exempt offering document from an underwriter, placement agent, broker-dealer, or the entity. Awareness of an exempt offering by the auditor does not, by itself, constitute involvement.

Assisting in Preparing Information (Ref: par. .08bi)

.A7 Assistance in preparing information as described in paragraph .08bi is predicated upon the auditor being reasonably aware that the information will be included in a specific exempt offering document. For example, an auditor assisting the entity with the preparation of a schedule for the entity's internal purposes that the entity later includes in an exempt offering document would not be considered assisting the entity in preparing information as described in paragraph .08bi.

.A8 Information does not include the audited financial statements or interim financial information covered by the auditor's report. Further, information does not include required supplementary information, or other information that accompanied those financial statements that the auditor already considered during the audit of the financial statements or review of interim financial information.

.A9 Self-review, management participation, and advocacy threats to a covered member's compliance with the AICPA Code of Professional Conduct may exist when a member provides corporate finance consulting services to an entity.⁶ A member may assist the entity in drafting its exempt offering document or memorandum without impairing independence⁷ if the member complies with the AICPA Code of Professional Conduct.^{8, 9}

.A10 Providing written or oral comments to the entity on the exempt offering document is considered assisting the entity in preparing information included in the exempt offering document, regardless of whether the entity requested the auditor to read the document or the auditor did so voluntarily.

Reading a Draft of the Exempt Offering Document (Ref: par. .08bii)

.A11 Reading a draft of the exempt offering document encompasses situations in which the auditor reads the exempt offering document at the request of the entity even if the auditor does not ultimately provide written or oral comments.

Issuing a Comfort or Similar Letter or an Agreed-Upon Procedures Report in Accordance With AT-C Section 215 (Ref: par. .08biii)

.A12 Underwriting agreements between an entity and its underwriters may include a request for the entity's auditor to prepare and issue a comfort letter that will assist the underwriters with their due diligence in connection with the exempt offering. Comfort letters may also be requested by parties other than the underwriters. Section 920 addresses the auditor's responsibilities related to the issuance of comfort letters.

.A13 An auditor may issue a comfort letter that provides negative assurance to a requesting party (as defined in section 920) only if the requesting party provides the written opinion from external legal counsel or the required

⁶ The "Independence Rule" (ET sec. 1.200.001) of the AICPA Code of Professional Conduct.

⁷ The "Corporate Finance Consulting" interpretation (ET sec. 1.295.130.02f) of the "Nonattest Services" subtopic (ET sec. 1.295) under the "Independence Rule" of the AICPA Code of Professional Conduct.

⁸ The "General Requirements for Performing Nonattest Services" interpretation (ET sec. 1.295.040) of the "Nonattest Services" subtopic under the "Independence Rule."

⁹ The "Corporate Finance Consulting" interpretation (ET sec. 1.295.130.03) of the "Nonattest Services" subtopic under the "Independence Rule" also lists examples of types of corporate finance consulting services that would impair a member's independence in connection with an offering.

representation letter described in section 920.¹⁰ If the requesting party does not provide the required written opinion from external legal counsel or a representation letter, the auditor may issue a similar letter that does not provide negative assurance, but that instead includes certain statements required by section 920.¹¹

.A14 When a comfort letter is requested by a party other than a requesting party as defined in section 920, the auditor should not provide that party with a comfort letter or similar letter described in section 920.¹² Instead, the auditor may accept an engagement to perform agreed-upon procedures requested by that party in accordance with the attestation standards and may issue a practitioner's report.¹³

Participating in Due Diligence Discussions (Ref: par. .08biv)

.A15 As part of their due diligence process, underwriters and their counsel may ask to meet with the entity's auditors and discuss the specific exempt offering, either formally or informally.¹⁴ Such meetings are often referred to as oral due diligence meetings; however, other communication methods may be used. The discussion typically focuses on the audit engagement, the entity's financial statements, and the entity's system of internal control over financial reporting. Auditors use professional judgment in determining whether to participate in due diligence discussions if the underwriter has not provided the written opinion from external legal counsel or representation letter as described in section 920.¹⁵ If the auditor agrees to participate, auditors use professional judgment in determining which questions in an oral due diligence meeting can be addressed.

Issuing a Practitioner's Attestation Report on Information Relating to the Exempt Offering (Ref: par. .08bv)

.A16 During the offering process, management or other parties to the offering may engage a practitioner to perform an attestation engagement on information related to the offering. For example, in an exempt debt offering, management or its legal advisers may engage a practitioner to perform agreed-upon procedures on the entity's compliance with the revenue coverage requirements on outstanding debt securities or to recompute the calculation of escrow account requirements for an advance refunding of debt securities. If the practitioner engaged to perform the attestation engagement is the auditor whose report accompanies the financial statements included in the exempt offering document, the auditor is deemed to be involved with the exempt offering document. A practitioner's attestation report relating to an exempt offering need not be referred to or included in the exempt offering document to involve the auditor of the financial statements with the offering.

.A17 If the practitioner engaged to perform the attestation engagement is not the financial statement auditor, the practitioner engaged to perform the

¹⁰ Paragraphs .07, .11, and .A92 of section 920, *Letters for Underwriters and Certain Other Requesting Parties*.

¹¹ Paragraph .12 and example Q, "Letter to a Requesting Party That Has Not Provided the Legal Opinion or the Representation Letter Required by Paragraph .11," of exhibit B, "Examples of Comfort Letters," of section 920.

¹² Paragraph .13 of section 920.

¹³ AT-C section 215, *Agreed-Upon Procedures Engagements*.

¹⁴ The "Confidential Client Information Rule" (ET sec 1.700.001) of the AICPA Code of Professional Conduct states that the auditor should not disclose any confidential client information without the specific consent of the client.

¹⁵ Paragraphs .07, .11, and .A92 of section 920.

attestation engagement is not deemed to be involved with the exempt offering document in the manner described in this section.

Providing Written Agreement for the Use of the Auditor's Report in the Exempt Offering Document (Ref: par. .08bvi)

.A18 For securities exempt from registration under the Securities Act of 1933, it may not be necessary for the auditor to provide any type of written agreement. If the auditor is asked to provide written agreement, the auditor may provide an inclusion letter indicating that the auditor agrees to the inclusion of the auditor's report in the exempt offering document.

.A19 An inclusion letter is a letter requested by and addressed to the entity that is signed and dated by the auditor indicating that the auditor agrees to the inclusion or incorporation by reference of the auditor's report in the exempt offering document.

.A20 For securities exempt from registration under the Securities Act of 1933, an inclusion letter may also be referred to as an *agree-to-include letter*, an *acknowledgement letter*, or an *awareness letter*. Note that *awareness letter* is defined in section 925 with a different meaning in that context.

.A21 The following example language may be used to indicate that the auditor agrees to inclusion of the auditor's report on financial statements in an exempt offering document:

Independent Auditor's Inclusion Letter

We agree to the inclusion [or incorporation by reference] in the [name of Offering Document] dated [insert issuance date of Offering Document] of our report, dated [insert date of auditor's report on the financial statements], on our audit of the financial statements of [name of Entity] as of December 31, 20X2 [and 20X1], and for the year[s] then ended.

.A22 For franchise offerings regulated by the FTC, certain states may require a *consent of accountant* which may also be referred to as an *acknowledgement letter*.

.A23 The following example language may be used to indicate the auditor's agreement to the inclusion of the auditor's report on financial statements in a franchise offering document:

Independent Auditor's Acknowledgment

We agree to the inclusion in the [name of Offering Document, for example the Franchise Disclosure Document] dated [issuance date of Offering Document] issued by [name of Franchisor] ("the Franchisor") of our report, dated [insert date of auditor's report on the financial statements], relating to the financial statements of the Franchisor as of December 31, 20X2 [and 20X1], and for the year[s] then ended.

Updating an Auditor's Report for Inclusion in the Exempt Offering Document (Ref: par. .08bvii)

.A24 Updating an auditor's report involves, for example, signing an updated auditor's report when the previously issued financial statements are corrected for an accounting error or reflect a retrospective application of a change in accounting principle.

.A25 The following examples would not constitute updating an auditor's report for purposes of paragraph .08bvii:

- Providing a copy of or re-signing a previously issued auditor's report
- Revising an originally issued auditor's report to eliminate references made by the auditor in the original report required by *Government Auditing Standards*
- Revising an originally issued report to eliminate references made by the auditor in the original report to supplementary information that the auditor reported on in relation to the basic financial statements

Distribution, Circulation, or Submission (Ref: par. .08)

.A26 As discussed in paragraph .A4, exempt offerings may have multiple stages. Thus, a single offering could involve multiple applications of this section. Requesting management to keep the auditor advised of the progress of the preparation of the exempt offering document proceedings through the final distribution, circulation, or submission of the final exempt offering document is important so that the auditor's consideration of events occurring after the date of the auditor's report up to the distribution, circulation, or submission of the final exempt offering document can be completed.

Other Information Included in the Exempt Offering Document (Ref: par. .09)

.A27 When revision of the other information in the exempt offering document is necessary due to a material misstatement that management refuses to correct, section 720 requires the auditor to communicate the matter with those charged with governance and request that the correction be made. If the other information is not corrected after communicating with those charged with governance, the auditor is required to take appropriate action in accordance with paragraph .21 of section 720. With regard to exempt offerings, actions may also include determining whether to withhold the auditor's agreement to include the auditor's report. In such cases, the auditor may consider it appropriate to obtain legal advice. [As amended, effective for exempt offering documents with which the auditor is involved that are initially distributed, circulated, or submitted on or after December 15, 2021, by SAS No. 137.]

References to the Auditor as an "Expert"

.A28 The term *expert* has a specific statutory meaning under the Securities Act of 1933. Outside the Securities Act of 1933 context, the term *expert* is typically undefined. Accordingly, except as described in paragraph .A31 of this section, when an entity wishes to make reference to the auditor's role in connection with an exempt offering, the caption to that section of the document would generally be titled "Independent Auditors" (or something similar) rather than "Experts," with no reference to the auditor as an expert anywhere in the exempt offering document.

.A29 The following is an example of a typical description of the auditor's role when an entity wishes to make reference to the auditor in an exempt offering document:

Independent Auditors

The financial statements of [name of Entity] as of December 31, 20X2 [and 20X1], and for the year[s] then ended, included in this offering document, have

been audited by [name of Firm], independent auditors, as stated in their report appearing herein.

.A30 If the entity refuses to delete references to the auditor as an "expert," the auditor may consider whether to withhold permission to include the auditor's report in the exempt offering document, based on the auditor's professional judgment. In such circumstances, the auditor may consider it appropriate to obtain legal advice.

.A31 In situations in which the term *expert* is sufficiently defined the auditor may agree to be referred to as an expert outside the context of a registration statement filed under the Securities Act of 1933, as amended. For example, if the term *expert* is defined under applicable state law, the auditor may agree to be named as an expert in an exempt offering document in an intrastate offering. An understanding of any auditor liability provisions that may be included in the applicable federal or state statutes is an important consideration. In such circumstances, the auditor may consider it appropriate to obtain legal advice.

Subsequent Events and Subsequently Discovered Facts (Ref: par. .10–.15)

.A32 The general objective of the subsequent event procedures described in this section is to identify subsequent events or act upon any subsequently discovered facts that become known to the auditor after the date of the auditor's report that, had they been known to the auditor at that date, may have caused the auditor to revise the auditor's report. After financial statements have been issued or are available to be issued, the accounting framework pursuant to which they were prepared may not require accounting for or disclosure of events occurring after that date. Financial statements included in an exempt offering document may have previously been issued; accordingly, the auditor's subsequent event procedures are performed to update the auditor's awareness of the existence of any events or facts that may cause revision to the financial statements, including disclosures, or the auditor's report thereon through the date of distribution, circulation, or submission of the exempt offering document.

.A33 When applying the procedures described in paragraphs .11–.15 of this section, the auditor may consider the application and other explanatory material in section 560.

.A34 An illustrative updating management representation letter is included in section 580, *Written Representations*.¹⁶

Considerations Specific to Governmental Entities

.A35 In determining the extent of subsequent event procedures to perform in connection with a governmental debt offering, and the related management representations to request as addressed in paragraph .10b of this section, the auditor may consider the structure of the government and which component units relate to the debt offering. A component unit not guaranteeing the repayment is ordinarily not a relevant entity to the users of the debt offering. Alternatively, if the debt is offered solely by a particular component unit, the scope of subsequent event procedures would likely be limited to the applicable

¹⁶ Exhibit C, "Illustrative Updating Management Representation Letter," of section 580, *Written Representations*.

component unit responsible for the repayment of the debt. However, if the full set of financial statements for the reporting entity were included in the exempt offering document, the scope of subsequent event procedures would likely also encompass the primary government.

.A36

Exhibit A—Examples of Exempt Offerings (Ref: par. .A1)

1. The Securities Act of 1933 provides for two broad types of exemptions to the requirement that securities be registered with the SEC under Section 5 of the 1933 Act: exempt securities (under Section 3 of the 1933 Act) and exempt transactions (generally under Sections 4 and 4A of the 1933 Act). With Section 3 exempt securities, the exemption lies with the nature of the security, and thus each transaction involving that security will itself be exempt. With Section 4 exempt transactions, however, the exemption is applicable only to a single transaction, and does not necessarily carry over to subsequent transactions. Each transaction involving that security must be analyzed to determine if it too is exempt from Section 5 registration requirements. The following list is not intended to be comprehensive. The exemptions listed are frequently subject to conditions and definitional limitations that are not summarized here.

Exempt Securities

2. Examples of exempt securities (subject to conditions and, in some cases, restrictive definitions) include the following:

- Securities issued or guaranteed by federal, state, and local governments, including most industrial development bonds (Section 3(a)(2))
- Any security issued or guaranteed by banks or employee benefit plans (Section 3(a)(2))
- Short-term commercial paper with a maturity of nine months or less (Section 3(a)(3))
- Securities issued by non-profit religious, educational or charitable organizations (Section 3(a)(4))
- Securities issued by savings and loans and farmer's cooperatives (Section 3(a)(5))
- Railroad equipment trusts (Section 3(a)(6))
- Certificates of receivers and trustees issued with court approval (Section 3(a)(7))
- Insurance policies and annuity contracts (Section 3(a)(8))
- Equity securities issued in connection with the acquisition by a bank holding company of a bank or savings association (Section 3(a)(12))
- Securities issued by certain church employee plans (Section 3(a)(13))
- Security futures products and standardized options (Section 3(a)(14))

Exempt Transactions

3. Examples of exempt transactions include the following:

- Transactions by any person other than an issuer, underwriter, or dealer (Section 4(a)(1))

- Transaction by an entity not involving any public offering (the "private placement" exemption), including offerings under Regulation D Rule 506 and Rule 144A (Section 4(a)(2))
- Transactions by a dealer, with certain exceptions (Section 4(a)(3))
- Brokers' transactions executed on customer orders (Section 4(a)(4))
- Offers or sales by an entity to accredited investors (under certain conditions) (Section 4(a)(5))
- Regulation CF transactions (crowdfunding) (Section 4(a)(6))
- Private resales of securities (Section 4(a)(7))
- Small issues of securities, including Regulation A offerings and offerings under Rules 504 and 505 of Regulation D (Section 3(b) and Section 3(c))
- Voluntary exchanges between an entity and security holders (Section 3a)(9))
- Judicially or administratively approved exchanges (Section 3a)(10))
- Intrastate offerings (Section 3(a)(11))

Other Common Exemptions

4. Examples of other common exemptions include these:

- Rule 701 exemptions for compensatory arrangements
- Regulation S (offshore offers and sales)

Franchise Offerings

5. Franchise offerings are regulated at the federal and state level. Federal regulation occurs through the FTC under the *Disclosure Requirements and Prohibitions Concerning Franchising* (the FTC rule). The FTC rule requires franchisors to provide a franchise disclosure document to each prospective buyer, but does not require franchise disclosure documents to be filed or registered with the FTC. At the state level, regulations vary widely. Some states have franchise statutes and regulations that are more stringent than the FTC requirements, and which may require a franchisor to file or register its offering with state franchise authorities.

AU-C Appendix A

Historical Background

In 1917, the American Institute of Certified Public Accountants, then known as the American Institute of Accountants, at the request of the Federal Trade Commission, prepared "a memorandum on balance-sheet audits," which the Federal Trade Commission approved and transmitted to the Federal Reserve Board.

The Federal Reserve Board, after giving the memorandum its provisional endorsement, published it in the *Federal Reserve Bulletin* of April 1917; reprints were widely disseminated for the consideration of "banks, bankers, banking associations; merchants, manufacturers, and associations of manufacturers; auditors, accountants, and associations of accountants" in pamphlet form with the title of "Uniform Accounting: a Tentative Proposal Submitted by the Federal Reserve Board."

In 1918, it was reissued under the same sponsorship, with a new title "Approved Methods for the Preparation of Balance-Sheet Statements." There was practically no change from 1917 except that, as indicated by the respective titles and corresponding change in the preface, instead of the objective of "a uniform system of accounting to be adopted by manufacturing and merchandising concerns," the new objective was "the preparation of balance-sheet statements" for the same businesses.

In 1929, a special committee of the Institute undertook revision of the earlier pamphlet in the light of the experience of the past decade; again under the auspices of the Federal Reserve Board, the revised pamphlet was issued in 1929 as "Verification of Financial Statements."

The preface of the 1929 pamphlet spoke of its predecessors as having been criticized, on the one hand, by some accountants for being "more comprehensive than their conception of the so-called balance-sheet audit," and, on the other hand, by other accountants because "the procedure would not bring out all the desired information." This recognition of opposing views evidenced the growing realization of the impracticability of uniform procedures to fit the variety of situations encountered in practice. Of significance is the appearance in the opening paragraph of "General Instructions" in the 1929 publication of the statement:

The extent of the verification will be determined by the conditions in each concern. In some cases, the auditor may find it necessary to verify a substantial portion or all of the transactions recorded upon the books. In others, where the system of internal check is good, tests only may suffice. The responsibility for the extent of the work required must be assumed by the auditor.

Between 1932 and 1934, there was correspondence, dealing with both accounting and auditing matters, between the Institute's special committee on cooperation with stock exchanges and the committee on stock list of the New York Stock Exchange. The views expressed were an important development in the recognition of the position of accountancy in finance and business. The series of letters was published in 1934 under the title *Audits of Corporate Accounts*.

In 1936, a committee of the Institute prepared and published a further revision of the earlier pamphlets under the title of "Examination of Financial Statements by Independent Public Accountants." The Institute availed itself of the views of persons outside the ranks of the profession whose opinions would be helpful, but the authority behind and responsibility for the publication of the pamphlet rested wholly with the Institute as the authoritative representative of a profession that had by that time become well established in the business community.

In the 1936 revision, aside from the very briefly noted "Modifications of Program for Larger or Smaller Companies," the detailed procedures were restrictively stated to be an "outline of examination of financial statements of a small or moderate size company." Moreover, the nature and extent of such examinations were based on the purpose of the examination, the required detail to be reported on, the type of business, and, most important of all, the system of internal control; variations in the extent of the examination were specifically related to "the size of the organization and the personnel employed" and were said to be "essentially a matter of judgment which must be exercised by the accountant."

It is possible from the foregoing narrative to trace the development of the profession's view of an audit based on the experience of three decades. The succession of titles is illustrative. The earliest ambition for "uniform accounting" was quickly realized to be unattainable, and the same listed procedures were related instead to "balance-sheet statements." Then, with the gradually greater emphasis on periodic earnings, the earlier restrictive consideration of the balance sheet was superseded in the 1929 title, "Verification of Financial Statements," by according the income statement at least equal status. When in turn the 1936 revision was undertaken, there was a growing realization that, with the complexity of modern business and the need of the independent auditor to rely on testing, such a word as "verification" was not an accurate portrayal of the independent auditor's function. Accordingly, the bulletin of that year was stated to cover an "examination" of financial statements.

Statements on Auditing Procedure

The Committee on Auditing Procedure had its beginning on January 30, 1939, when the executive committee of the Institute authorized the appointment of a small committee "to examine into auditing procedure and other related questions in the light of recent public discussion."

On May 9 of that year, the report "Extensions of Auditing Procedure" of this special committee was adopted by the Council of the Institute and authority given for its publication and distribution, and in the same year the bylaws were amended to create a standing Committee on Auditing Procedure.

In 1941, the executive committee authorized the issuance to Institute members, in pamphlet form, of the Statements on Auditing Procedure, prepared by the Committee on Auditing Procedure, previously published only in *The Journal of Accountancy*.

The Statements on Auditing Procedure were designed to guide the independent auditor in the exercise of his judgment in the application of auditing procedures. In no sense were they intended to take the place of auditing textbooks; by their very nature textbooks must deal in a general way with the description of procedures and refinement of detail rather than the variety of circumstances encountered in practice that require the independent auditor to exercise his judgment.

Largely to meet this need, the Institute began the series of Statements on Auditing Procedure. The first of these presented the report of the original special committee, as modified and approved, at the Institute's annual meeting on September 19, 1939, and issued under the title of "Extensions of Auditing Procedure."

Statement No. 1 presented conclusions drawn from the experience and tradition of the profession which largely furnished the foundation for the Committee's present structural outline of auditing standards; the other Statements on Auditing Procedure appropriately fit into that structural outline.

The "Codification of Statements on Auditing Procedure" was issued by the Committee on Auditing Procedure in 1951 to consolidate the features of the first 24 pronouncements, which were of continuing usefulness.

When the SEC adopted the requirement that a representation on compliance with generally accepted auditing standards be included in the independent auditor's report on financial statements filed with the SEC, it became apparent that a pronouncement was needed to define these standards. Accordingly, the Committee on Auditing Procedure undertook a special study of auditing standards (as distinguished from auditing procedures) and submitted a report that was published in October 1947 under the title "Tentative Statement of Auditing Standards—Their Generally Accepted Significance and Scope." The recommendations of this brochure ceased to be tentative when, at the September 1948 meeting, the membership of the Institute approved the summarized statement of auditing standards.

In 1954 the tentative brochure was replaced by the booklet *Generally Accepted Auditing Standards—Their Significance and Scope*, which was issued as a special report of the Committee on Auditing Procedure. This pronouncement also gave recognition to the approval of Statement on Auditing Procedure No. 23 (Revised), *Clarification of Accountant's Report When Opinion Is Omitted* (1949) and the issuance of the codification (1951).

Statement on Auditing Procedure No. 33 was issued in 1963 as a consolidation of, and a replacement for, the following pronouncements of the Committee on Auditing Procedure: *Internal Control* (1949), *Generally Accepted Auditing Standards* (1954), *Codification of Statements on Auditing Procedure* (1951), and Statements on Auditing Procedure Nos. 25–32, which were issued between 1951 and 1963. Statement No. 33 was a codification of earlier committee pronouncements that the committee believed to be of continuing interest to the independent auditor.

Statements on Auditing Standards

After issuance of Statement on Auditing Procedure No. 33, 21 additional Statements on Auditing Procedure, Nos. 34–54, were issued by the Committee on Auditing Procedure. In November 1972, these pronouncements were codified in Statement on Auditing Standards (SAS) No. 1, *Codification of Auditing Standards and Procedures*. Also, in 1972, the name of the committee was changed to the Auditing Standards Executive Committee to recognize its role as the AICPA's senior technical committee charged with interpreting generally accepted auditing standards.

The Auditing Standards Executive Committee issued 22 additional statements through No. 23. These statements were incorporated in this publication, which provides a continuous codification of SASs.

Creation of the Auditing Standards Board

As a result of the recommendations of the Commission on Auditors' Responsibilities, an independent study group appointed by the AICPA, a special committee was formed to study the structure of the AICPA's auditing standard-setting activity. In May 1978, the AICPA Council adopted the recommendations of that committee to restructure the Committee. Accordingly, in October 1978 the Auditing Standards Board (ASB) was formed as the successor to prior senior technical committees on auditing matters. The ASB was given the following charge:

The AICPA Auditing Standards Board shall be responsible for the promulgation of auditing standards and procedures to be observed by members of the AICPA in accordance with the Institute's rules of conduct.

The board shall be alert to new opportunities for auditors to serve the public, both by the assumption of new responsibilities and by improved ways of meeting old ones, and shall as expeditiously as possible develop standards and procedures that will enable the auditor to assume those responsibilities.

Auditing standards and procedures promulgated by the board shall—

- a. Define the nature and extent of the auditor's responsibilities.
- b. Provide guidance to the auditor in carrying out his duties, enabling him to express an opinion on the reliability of the representations on which he is reporting.
- c. Make special provision, where appropriate, to meet the needs of small enterprises.
- d. Have regard to the costs which they impose on society in relation to the benefits reasonably expected to be derived from the audit function.

The Auditing Standards Board shall provide auditors with all possible guidance in the implementation of its pronouncements, by means of interpretations of its statements, by the issuance of guidelines, and by any other means available to it.

Changes Created by Sarbanes-Oxley Act of 2002

AICPA members who perform auditing and other related professional services have been required to comply with SASs promulgated by the AICPA ASB. These standards constitute what is known as generally accepted auditing standards (GAAS). Prior to Sarbanes-Oxley, the ASB's auditing standards have applied to audits of all entities.

However, as a result of the passage of the Sarbanes-Oxley Act of 2002 (the Act), the PCAOB was designated as the body to establish standards relating to the preparation and issuance of audit reports for entities within its jurisdiction as defined by the Act. Public accounting firms auditing those entities are required to be registered with the PCAOB and to adhere to all PCAOB rules and standards in those audits. In 2003, the PCAOB adopted the then-existing Audit and Attest Standards as its interim auditing standards.

The preparation and issuance of audit reports for those entities not subject to the Act, as amended, (that is, those audits that are not within the PCAOB's jurisdiction) continue to be governed by GAAS promulgated by the ASB.

The Reconstituted ASB

In February 2004, the AICPA's Board of Directors unanimously recommended that the AICPA's Governing Council take the following action at its meeting in May 2004:

- Designate the PCAOB as a body with the authority to promulgate auditing and related attestation standards, quality control, ethics, independence, and other standards relating to the preparation and issuance of audit reports for entities as defined by the Act, as amended.
- Amend the ASB's current designation to recognize the ASB as a body with the authority to promulgate auditing, attestation, and quality control standards relating to the preparation and issuance of audit reports for entities not within the PCAOB's jurisdiction.

As a result of this action, the ASB was reconstituted and its jurisdiction amended by AICPA Council to recognize the ASB as a body with the authority to promulgate auditing, attestation and quality control standards relating to the preparation and issuance of audit and attestation reports for entities not within the PCAOB's jurisdiction.

U.S. Auditing Standards—AICPA (Clarified)

In October 2011, the ASB issued SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, which was the culmination of a multi-year Clarity Project to clarify the SASs and converge them with the International Standards on Auditing. Beginning with SAS No. 122, all new SASs are now included in the section *U.S. Auditing Standards—AICPA (Clarified)*. SAS No. 122 is effective for audits of financial statements for periods ending on or after December 15, 2012. Refer to individual AU-C sections for specific effective date language.

ISA 805 (Revised)	Special Considerations — Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement
ISA 810 (Revised)	Engagements to Report on Summary Financial Statements

This analysis was prepared by the AICPA Audit and Attest Standards staff to highlight substantive differences between the Statements on Auditing Standards and International Standards on Auditing, and the rationales therefore. This analysis is not authoritative and is prepared for informational purposes only. It has not been acted on, or reviewed by, the Auditing Standards Board.

Statements on Auditing Standards (SASs) are issued by the Auditing Standards Board (ASB), the senior committee of the AICPA designated to issue

pronouncements on auditing matters for nonissuers.¹ The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct requires an AICPA member who performs an audit of a nonissuer to comply with standards promulgated by the ASB.

The ASB has a strategic objective to converge its standards with those developed by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC). Each SAS differs from its corresponding ISA only where the ASB believes compelling reasons exist for the differences. As described in this appendix, nearly all ISA requirements are also requirements of auditing standards generally accepted in the United States of America (GAAS). The ASB also has a strategic objective of minimizing unnecessary differences with the auditing standards of the PCAOB. Accordingly, GAAS contain additional requirements that address issues specific to the United States of America or that have been retained from previous SASs.

An AICPA member practicing in the United States of America may be engaged to audit the financial statements of a nonissuer in accordance with the ISAs. In those circumstances where the auditor's report states that the audit was conducted in accordance with the ISAs, the U.S. auditor should comply with both the ISAs and, as required by the AICPA Code of Professional Conduct, GAAS. An engagement of this nature is normally conducted by performing an audit in accordance with GAAS plus performing any additional procedures required by the ISAs.

The purpose of this appendix is to assist the U.S. auditor in planning and performing an engagement in accordance with the ISAs. This document provides a brief description of how each ISA differs from the comparable U.S. standard. However, to fully understand how the ISA might affect the nature, timing, and extent of the procedures performed in an engagement in accordance with GAAS, the auditor should consider the ISAs in their entirety by considering the standards together with the related guidance included in the ISAs. In performing an audit in accordance with the ISAs, the auditor also needs to comply with the International Ethics Standards Board for Accountants' (IESBA) *International Code of Ethics for Professional Accountants*.

This analysis compares the ISAs included in the 2018 edition of the *Handbook of International Quality Control, Auditing, Review, Other Assurance, and Related Services Pronouncements*, to the AICPA's *Professional Standards*, as of January 2020. References to GAAS are made to the relevant AU-C sections. This analysis describes the differences in terms of

- a. differences in wording,
- b. requirements in the ISAs not in GAAS,
- c. requirements in GAAS not in the ISAs,
- d. differences between requirements, and
- e. the placement of certain requirements within GAAS

General

In converging with the ISAs, the ASB has made various changes to the wording of the ISAs throughout the SASs. Such changes have been made to use terms

¹ See the definition of the term *nonissuer* in the AU-C Glossary. [Footnote revised, February 2017, to better reflect the AICPA Council Resolution designating the PCAOB to promulgate technical standards.]

applicable in the United States and to make the SASs easier to read and apply in the United States. The ASB believes that such changes do not create differences between the application of the ISAs and the application of GAAS. Selected changes are described in the analysis that follows.

ISA 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing, Compared to Section 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards

Requirements in the ISAs Not in GAAS

The ISAs provide for reporting on financial statements that are prepared in accordance with fair presentation financial reporting frameworks and compliance financial reporting frameworks. In the ISAs, compliance frameworks do not necessarily require fair presentation. GAAS address reporting on financial statements that are prepared in accordance with fair presentation frameworks only, because the ASB believes that in the United States, users of financial statements expect all fair presentation frameworks to be fair presentation financial reporting frameworks.

Requirements in GAAS Not in the ISAs

GAAS, as described in paragraph .25 of section 200, contain two categories of professional requirements: unconditional requirements and presumptively mandatory requirements. Paragraph .25 of section 200 describes the auditor's obligation to comply with (1) an unconditional requirement in all cases where such requirement is relevant, and (2) a presumptively mandatory requirement in all cases where such a requirement is relevant except in rare circumstances. The ISAs contain only one category of professional requirements, with which paragraphs 22–23 of ISA 200 require the auditor to comply when such requirements are relevant except in rare circumstances. The ASB retained two categories of professional requirements so as not to create unnecessary differences with the application of the auditing standards promulgated by the PCAOB, which contain the same two categories of professional requirements as described in section 200.

Paragraphs .27–.28 of section 200 contain requirements relating to interpretive publications and other auditing publications. The ISAs do not address interpretive publications or other auditing publications.

ISA 210, Agreeing the Terms of Audit Engagements, Compared to Section 210A, Terms of Engagement

Requirements in the ISAs Not in GAAS

Paragraphs 11–12 of ISA 210 contain requirements relating to situations when law or regulation prescribes management's responsibilities. Paragraph 18 of

ISA 210 contains requirements relating to situations when law or regulation supplements financial reporting standards established by an authorized or recognized standards-setting organization. The ASB believes that these situations are not applicable to nonissuers in the United States and, accordingly, such requirements are not included in GAAS.

Requirements in GAAS Not in the ISAs

Paragraphs .11–.12 of section 210A address the auditor's communications with predecessor auditors in initial audit or reaudit engagements. ISA 210 does not contain these requirements. The ASB believes these requirements and related application material are appropriate for inclusion in GAAS.

Paragraph 13 of ISA 210 requires that for recurring audits, the auditor should assess whether there is a need to remind the entity of the existing terms of the engagement. Paragraph .13 of section 210A requires the auditor to remind the entity of the existing terms of the engagement and to document the reminder. The ASB believes that it is important to review the terms of the engagement with the entity each year.

Placement of Certain Requirements Within GAAS

Paragraphs 19–20 of ISA 210 contain requirements relating to situations when the financial reporting framework is prescribed by law or regulation. These requirements are addressed in section 800, *Special Considerations — Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*. The different placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 220, *Quality Control for an Audit of Financial Statements*, Compared to Section 220A, *Quality Control for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*

Requirements in the ISAs Not in GAAS

Paragraph 21 of ISA 220 contains requirements relating to audits of listed entities. Such requirements are not applicable to audits of nonissuers in the United States and, accordingly, such requirements are not included in GAAS.

Differences Between Requirements

Paragraph .21 of section 220A requires that when an engagement quality control review is performed, the engagement quality control review be completed before the engagement partner releases the auditor's report. Paragraph 19 of ISA 220 requires that the quality control review be completed before the engagement partner dates the auditor's report. The ASB believes that an engagement quality control review is an independent review of the engagement team's significant judgments, including the date selected by the engagement team to date the report. As noted in the application material to section 220A, when the engagement quality control review results in additional procedures being performed, the date of the report would be changed.

ISA 230, *Audit Documentation*, Compared to Section 230, *Audit Documentation*

Requirements in GAAS Not in the ISAs

Paragraph .10 of section 230 requires the auditor to include abstracts or copies of significant contracts or agreements in documentation of auditing procedures related to inspection of those significant contracts or agreements. ISA 230 does not require the auditor to include abstracts or copies of the entity's records. Paragraph A3 of ISA 230 (which is application material relating to the requirement in paragraph 8 of ISA 230, which corresponds to paragraph .08 in section 230) states, "the auditor may include abstracts or copies of the entity's records (for example, significant and specific contracts and agreements) as part of audit documentation."

When performing auditing procedures related to inspection of significant contracts or agreements, the ASB believes that, in the context of the preparation of audit documentation that is sufficient to enable an experienced auditor to understand the audit evidence obtained, it is important to include abstracts or copies of such contracts or agreements. Further, the PCAOB standards include a requirement that documentation of auditing procedures related to the inspection of significant contracts or agreements should include abstracts or copies of the documents.² The ASB does not want to create a difference with PCAOB standards in this regard.

Differences Between Requirements

Paragraph 14 of ISA 230 requires the auditor to assemble the audit documentation in an audit file and complete the administrative process of assembling the final audit file on a timely basis after the date of the auditor's report, and the related application and other explanatory material indicates that an appropriate time limit within which to complete the assembly of the final audit file is ordinarily not more than 60 days after the date of the auditor's report. Paragraph .16 of section 230 requires the auditor to assemble the audit documentation in an audit file and complete the administrative process of assembling the final audit file on a timely basis, no later than 60 days following the report release date. The auditor is required by paragraph .15 of section 230 to document the report release date in the audit documentation.

Paragraph 15 of ISA 230 requires that after the assembly of the final audit file has been completed, the auditor not delete or discard audit documentation of any nature before the end of its retention period. Paragraph A23 of ISA 230 states, "the retention period for audit engagements is ordinarily no shorter than five years from the date of the auditor's report, or, if later, the date of the group auditor's report." Paragraph .17 of section 230 requires that after the documentation completion date, the auditor not delete or discard audit documentation before the end of the specified retention period, and goes on to state that "such retention period, however, should not be shorter than five years from the report release date."

The ASB believes that it is appropriate to be consistent with the standards of the PCAOB in relation to the date from which the documentation completion

² Paragraph 10 of PCAOB Auditing Standard No. 3, *Audit Documentation*.
All AS sections can be found in AICPA *PCAOB Standards and Related Rules*.

and retention periods are measured.³ Notwithstanding that the documentation completion period is measured from the same date in GAAS and in the PCAOB standard, the ASB continues to believe that a 60-day period is appropriate for GAAS as opposed to the 45-day period in the PCAOB standard.

ISA 240, *The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements*, Compared to Section 240, *Consideration of Fraud in a Financial Statement Audit*

Differences in Wording

Paragraph 12 of ISA 240 and paragraph .11 of section 240 define *fraud*. However, the definition of fraud in paragraph .11 of section 240 was revised by changing the words "to obtain illegal or unjust advantage" to "results in a misstatement in financial statements that are the subject of an audit." The ASB believes that (a) the definition in ISA 240 is too broad and could inappropriately expose auditors to additional liability in the United States, and (b) the meaning of *unjust* could be interpreted very broadly and subjectively in its application and could imply a scope well beyond the intent of the standard.

In addition, paragraph .11 of section 240 includes the definition of the term *significant unusual transaction* as *significant transactions that are outside the normal course of business for the entity or that otherwise appear to be unusual due to their timing, size, or nature*. This concept is in the ISAs but not as a defined term. The term *significant unusual transactions* has been used throughout GAAS instead of the phrases *nonroutine transactions* or *significant transactions that are outside the normal course of business for the entity or that otherwise appear to be unusual due to their timing, size, or nature*. This change was made to be more consistent with terminology used in the auditing standards of the PCAOB.

The ASB believes that these differences in wording do not create significant differences between the application of the ISAs and the application of GAAS.

Requirements in GAAS Not in the ISAs

Section 240 contains requirements, consistent with requirements of SAS No. 99, *Consideration of Fraud in a Financial Statement Audit*, as amended, that have been expanded from the requirements of ISA 240, or elevated from application material in ISA 240, as follows:

- The requirement in paragraph 15 of ISA 240 for the auditor to investigate inconsistent responses to auditor inquiries of management or those charged with governance has been expanded in paragraph .14 of section 240 to also include responses that are otherwise unsatisfactory (for example, vague or implausible responses).
- The requirement in paragraph 16 of ISA 240 that requires members of the engagement team to discuss the susceptibility of the entity's financial statements to material misstatements has been

³ Paragraphs 14–15 of PCAOB Auditing Standard No. 3.

expanded in paragraph .15 of section 240 to include additional discussion items from application and other explanatory material in ISA 240 to requirements in section 240. These include a required brainstorming session focused very specifically on, among other things, internal and external fraud factors and the possibility of management override of controls. In addition, section 240 further clarifies the requirement for participation of key engagement team members and the engagement partner in the discussion and brainstorming sessions. Lastly, section 240 requires appropriate communication throughout the audit among the engagement team members. Several of these discussion items have been elevated from paragraphs A10–A11 of ISA 240.

- The requirement in paragraph 45 of ISA 240 to document the significant decisions reached during the discussion among the engagement team regarding fraud-related matters has been expanded in paragraph .43 of section 240 to also require documenting how and when the discussion occurred and the audit team members who participated.
- Procedures elevated from paragraph A19 of ISA 240 to requirements in paragraph .19 of section 240, related to making inquiries of internal audit as part of performing risk assessment procedures, include determining (a) whether internal audit has performed any procedures to identify or detect fraud during the year, and (b) whether management has satisfactorily responded to any findings resulting from these inquiries.
- The requirement in paragraph 35 of ISA 240 to evaluate whether the results of analytical procedures at or near the end of the reporting period indicate a previously unrecognized risk of material misstatement due to fraud has been expanded in paragraph .34 of section 240 to include the accumulated results of auditing procedures, including analytical procedures performed as substantive tests or when forming an overall conclusion. Section 240 also specifically requires performance of analytical procedures relating to revenue accounts through the end of the reporting period, in light of the generally higher risk of financial statement fraud involving revenue.
- The requirements in paragraph 33(a) of ISA 240 address designing and performing auditing procedures to test the appropriateness of journal entries. In addition to essential guidance about addressing the risk of possible management override of controls, included in paragraph .32a of section 240 are requirements to
 - obtain an understanding of the entity's financial reporting process and controls over journal entries and other adjustments, and determine whether such controls are suitably designed and have been implemented.
 - consider fraud risk factors, the nature and complexity of accounts, and entries processed outside the normal course of business, elevated from the application and other explanatory material contained in paragraph A44 of ISA 240 in order to emphasize the importance of these considerations.
 - include identification and testing of specific journal entries regardless of controls.

- The requirement for the auditor to design and perform auditing procedures to review accounting estimates for biases and evaluate whether the circumstances producing the bias, if any, represent a risk of material misstatement due to fraud, in paragraph 33(b) of ISA 240, has been expanded in paragraph .32*b* of section 240 to include those estimates that are based on highly sensitive assumptions.

In addition, the following requirements in section 240 were expanded from the requirements of ISA 240 to be consistent with requirements in PCAOB AS 2410, *Related Parties*,⁴ that the ASB believes will enhance audit quality for audits of financial statements of nonissuers.

- The requirement in paragraphs 17–19 of ISA 240 relating to required inquiries has been expanded. Paragraph .17 of section 240 has been expanded to require inquiries of management about the existence, and if so, the nature, terms, and business purpose of, and involvement of related parties in, any significant unusual transactions. Similarly, the requirements in paragraphs .19 and .21 of section 240 have been expanded to include inquiry about whether the entity entered into any significant unusual transactions.
- The requirement in paragraph 32(c) of ISA 240 for the evaluation of significant transactions that are outside the normal course of business (that is, significant unusual transactions) has been expanded to include the following procedures:
 - Reading the underlying documentation and evaluating whether the terms and other information about the transaction are consistent with explanations from inquiries and other audit evidence about the business purpose (or the lack thereof) of the transaction
 - Determining whether the transaction has been authorized and approved in accordance with the entity's established policies and procedures
 - Evaluating whether significant unusual transactions that the auditor has identified have been properly accounted for and disclosed in the financial statements

ISA 250 (Revised), *Consideration of Laws and Regulations in an Audit of Financial Statements*, Compared to Section 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*

Differences in Wording

Changes to the wording of section 250 include:

- In paragraphs .10*a* and .13, changing the phrase "compliance with the provisions of those laws and regulations generally recognized to have a direct and material effect on the determination of material amounts and disclosures in the financial statements" to the

⁴ All AS sections can be found in AICPA PCAOB Standards and Related Rules.

phrase "material amounts and disclosures in the financial statements that are determined by the provisions of those laws and regulations generally recognized to have a direct effect on their determination." This change was made to address the ASB's concerns that the requirement in ISA 250 (Revised) expanded the auditor's responsibility to encompass all aspects of those laws and regulations described in paragraph .06a of section 250, as opposed to focusing on the amounts and disclosures included in the financial statements. The ASB has discussed this issue with the IAASB, and the wording in section 250 reflects the intent of ISA 250 (Revised). The IAASB made subsequent changes to the application material in ISA 250 (Revised) to make this clear.

- In paragraphs .10b and .14, changing "to help identify" to "that may identify." The ASB believes that the wording of section 250 better conveys the intent of ISA 250 (Revised).
- In paragraph .18, adding the phrase "(at a level above those involved with the suspected noncompliance, if possible)."

Such changes have been made to make section 250 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 250 (Revised) and the application of section 250.

Placement of Certain Requirements Within GAAS

Paragraph 16 of ISA 250 (Revised) requires the auditor to request management and, when appropriate, those charged with governance to provide written representations regarding identified or suspected instances of noncompliance with relevant laws and regulations. The ASB believes this requirement is more appropriately placed in section 580, *Written Representations*. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 260 (Revised), *Communication with Those Charged with Governance*, Compared to Section 260, *The Auditor's Communication With Those Charged With Governance*

Differences in Wording

Changes to the wording of section 260 from ISA 260 (Revised) include

- in paragraph .12, requiring that the auditor communicate with those charged with governance "the auditor's views about qualitative aspects of the entity's significant accounting practices" compared with the requirement in paragraph 16 of ISA 260 (Revised) that the auditor communicate with those charged with governance "the auditor's views about significant qualitative aspects of the entity's accounting practices." The ASB believes that the wording of section 260 better conveys the intent of ISA 260 (Revised).

- in paragraph .16, changing the wording in ISA 260 (Revised) from "Written communications need not include all matters that arose during the course of the audit" to "This communication need not include matters that arose during the course of the audit that were communicated with those charged with governance and satisfactorily resolved."

Such changes have been made to make section 260 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 260 (Revised) and the application of section 260.

Requirements in the ISAs Not in GAAS

Paragraphs 17 and 20 of ISA 260 (Revised) require the auditor to communicate certain matters regarding independence in the case of listed entities. These requirements are not applicable to the audits of nonissuers in the United States and, therefore, are not included in section 260.

Requirements in GAAS Not in the ISAs

Paragraph .12a of section 260 requires the auditor, when applicable, to determine that those charged with governance are informed about the process used by management in formulating particularly sensitive accounting estimates and about the basis for the auditor's conclusions regarding the reasonableness of those estimates. Additional matters required by paragraphs .12–.13 of section 260 for the auditor to communicate to those charged with governance, that are not required by ISA 260 (Revised), are

- significant unusual transactions.
- matters that are difficult or contentious for which the auditor consulted outside the engagement team and that are, in the auditor's professional judgment, significant and relevant to those charged with governance regarding their responsibility to oversee the financial reporting process.

The fact that uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even if the auditor has concluded that the uncorrected misstatements are immaterial to the financial statements under audit. Paragraph .14a and c of section 260 require, when not all of those charged with governance are involved in managing the entity, the auditor to communicate (a) material, corrected misstatements that were brought to the attention of management as a result of audit procedures, and (b) the auditor's views about significant matters that were the subject of management's consultations with other accountants on accounting or auditing matters when the auditor is aware that such consultation has occurred. Paragraph .12c of section 260 requires the auditor to communicate disagreements with management, if any. ISA 260 (Revised) does not require communication of these matters. The ASB believes that it is important for these matters to be communicated to those charged with governance of non issuers in the United States.

Paragraph .17 of section 260 requires that if, as part of its communication to those charged with governance, management communicated some or all of the matters the auditor is required to communicate, the auditor should communicate any omitted or inadequately described matters to those charged with governance, and paragraph .21 includes a related documentation requirement.

Paragraph .18 of section 260 requires the auditor, when communicating matters in accordance with section 260 in writing, to indicate in the communication that it is intended solely for the information and use of those charged with governance and, if appropriate, management and is not intended to be, and should not be, used by anyone other than these specified parties. ISA 260 (Revised) does not require this indication, nor does it prohibit it. The ASB believes that this communication meets the criteria for a by-product report under section 905, *Alert That Restricts the Use of the Auditor's Written Communication*.

Placement of Certain Requirements Within GAAS

Consistent with requirements in paragraphs 12–13 of ISA 450, *Evaluation of Misstatements Identified during the Audit*, paragraph .13 of section 260 contains a requirement for the auditor to communicate certain matters regarding uncorrected misstatements. The ASB believes that this communication with those charged with governance is more appropriately placed in section 260.

ISA 265, Communicating Deficiencies in Internal Control to Those Charged with Governance and Management, Compared to Section 265, Communicating Internal Control Related Matters Identified in an Audit

Differences in Wording

Section 265 includes and defines the term *material weakness*, whereas ISA 265 does not.

The definitions of *material weakness*, *deficiency in internal control*, and *significant deficiency in internal control* have been modified to align with the definitions of these terms used in the standards of the PCAOB. The ASB believes that consistency between its standards and those of the PCAOB in the use and definition of these terms is essential in the United States due to legal and regulatory requirements, including those pertaining to the evaluation of the effectiveness of an entity's internal control over financial reporting.

Requirements in GAAS Not in the ISAs

Section 265 requires the auditor to evaluate each deficiency to determine, on the basis of the audit work performed, whether, individually or in combination, the deficiencies constitute significant deficiencies or material weaknesses. ISA 265 does not explicitly refer to the auditor's evaluation of each deficiency in making this determination. The ASB believes that the requirement in section 265 is consistent with the intent of ISA 265.

Section 265 requires the auditor to communicate significant deficiencies and material weaknesses to management and those charged with governance. Because ISA 265 does not include or define the term *material weakness*, ISA 265 does not contain a requirement to separately identify or communicate material weaknesses.

Section 265 includes an additional requirement for the auditor to consider, if the auditor determines that a deficiency, or a combination of deficiencies, in internal control is not a material weakness, whether prudent officials, having

knowledge of the same facts and circumstances, would likely reach the same conclusion (paragraph .10).

Section 265 explicitly requires the auditor to document the communication of other deficiencies in internal control that are communicated orally to management (paragraph .12b).

Paragraphs 9–10 of ISA 265 require the auditor to communicate to those charged with governance and management on a timely basis. Paragraph .13 of section 265 requires the communication to be made no later than 60 days following the report release date. ISA 265 recognizes in paragraph A13 that the written communication of significant deficiencies forms part of the final audit file and is subject to the overriding requirement for the auditor to complete the assembly of the final audit file on a timely basis. ISA 230 states that an appropriate time limit within which to complete the assembly of the final audit file is ordinarily not more than 60 days after the date of the auditor's report.

In addition to the required elements of the written communication identified in paragraph 11 of ISA 265, paragraph .14 of section 265 requires that the following additional items/elements be included in the written communication:

- The definition of *material weakness* and, when relevant, the definition of *significant deficiency*
- An explanation that the auditor is not expressing an opinion on the effectiveness of internal control
- An explanation that the auditor's consideration of internal control was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies
- A statement restricting the use of the communication to management, those charged with governance, others within the organization, and any governmental authority to which the auditor is required to report

Paragraph .15 of section 265 includes reporting requirements when the auditor issues a written communication stating that no material weaknesses were identified during the audit of the financial statements. Paragraph .16 of section 265 prohibits the issuance of a written communication stating that no significant deficiencies were identified during the audit. ISA 265 does not address the issuance of communications indicating no material weaknesses or no significant deficiencies.

ISA 300, *Planning an Audit of Financial Statements*, Compared to Section 300, *Planning an Audit*

Requirements in GAAS Not in the ISAs

Paragraph .12 of section 300 contains requirements regarding the auditor's obligations for determining the extent of involvement of professionals possessing specialized skills. ISA 300 does not contain these requirements. The ASB believes these requirements, and the related application material, are necessary for the auditor's consideration of the need for specialized skills and knowledge in the audit.

ISA 315 (Revised), Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, Compared to Section 315A, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement

Differences in Wording

Paragraph .10 of section 315A uses different wording than paragraph 9 of ISA 315 (Revised) to describe the auditor's requirement regarding the relevance of information obtained. Paragraphs .19 and .25 of section 315A include additional modifiers to conform to the comparable auditing standard issued by the Public Company Accounting Oversight Board.

Both ISA 240 and section 240 contain requirements for the auditor to consider the risks of material misstatement due to fraud. Paragraph .09 of section 315A contains a specific requirement for the auditor to consider the results of the assessment of the risk of material misstatement due to fraud during planning, whereas ISA 315 (Revised) does not. In addition, certain requirements in paragraphs .21 and .33 of section 315A contain more specificity than do the equivalent requirements in ISA 315.

These differences do not create differences between the application of ISA 315 (Revised) and the application of section 315A.

ISA 320, Materiality in Planning and Performing an Audit, Compared to Section 320, Materiality in Planning and Performing an Audit

Differences in Wording

Paragraphs .02, .04, and .10 use different words to describe the concept of materiality, in order to be consistent with the description of materiality used by the U.S. judicial system, the auditing standards of the Public Company Accounting Oversight Board, the U.S. Securities and Exchange Commission, and the Financial Accounting Standards Board (FASB). The ASB believes that such consistency in the United States is in the public interest.

The ASB believes that these differences do not create differences between the application of ISA 320 and the application of section 320.

ISA 330, The Auditor's Responses to Assessed Risks, Compared to Section 330, Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained

Requirements in GAAS Not in the ISAs

Paragraph .20 of section 330 includes a requirement to confirm accounts receivable unless certain conditions exist. This requirement is not in the ISAs. The

ASB believes it is appropriate to retain the requirement in paragraph .34 of SAS No. 67, *The Confirmation Process*.

Differences Between Requirements

To be consistent with the wording of the comparable requirements in the comparable auditing standard issued by the PCAOB, the requirement in paragraph .07 of section 330 has been modified with the words "relevant" and "material," and the requirement in paragraph .10 of section 330 has been expanded to specifically include addressing, when applicable, whether the person performing the control possesses the necessary authority and competence to perform the control effectively. The ASB believes these differences do not create differences between the application of ISA 330 and the application of section 330.

Paragraph 18 of ISA 330 requires the auditor, irrespective of the assessed risks of material misstatement, to design and perform substantive procedures for each material class of transactions, account balance, and disclosure. Paragraph .18 of section 330 specifies that the substantive procedures should be designed and performed for all relevant assertions related to each material class of transactions, account balance, and disclosure. The ASB believes that this wording clarifies that procedures need not be performed for irrelevant assertions and does not create a difference between the application of ISA 330 and the application of section 330.

Placement of Certain Requirements Within GAAS

Paragraph .25 of section 330 includes a requirement for the auditor addressing the means of selecting items for testing. This requirement is in the ISAs in ISA 500, *Audit Evidence*. The ASB believes this requirement is more appropriately placed in section 330. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 402, *Audit Considerations Relating to an Entity Using a Service Organization*, Compared to Section 402, *Audit Considerations Relating to an Entity Using a Service Organization*

Differences in Wording

The definitions of *Report on a description of a service organization's system and the suitability of the design of controls (type 1 report)* and *Report on a description of a service organization's system and the suitability of the design and operating effectiveness of controls (type 2 report)*, in paragraph .08 of section 402, indicate that management's written assertion is an element of these reports. This is consistent with the definitions of these terms in International Standard on Assurance Engagements 3402, *Assurance Reports on Controls at a Service Organization*. The definitions of these terms in paragraph 8 of ISA 402 do not include management's written assertion as an element of the reports. The ASB believes that the definitions are consistent with the intent of ISA 402 and that the modifications do not create differences between the application of ISA 402 and the application of section 402.

ISA 450, Evaluation of Misstatements Identified during the Audit, Compared to Section 450, Evaluation of Misstatements Identified During the Audit

Placement of Certain Requirements Within GAAS

Paragraphs 12–13 of ISA 450 require the auditor to communicate certain matters regarding uncorrected misstatements to those charged with governance. The ASB believes that the requirements for this communication are more appropriately placed in section 260.

Paragraph 14 of ISA 450 requires the auditor to request written representations from management and, where appropriate, those charged with governance regarding uncorrected misstatements. The ASB believes this requirement is more appropriately placed in section 580.

The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 500, Audit Evidence, Compared to Section 500, Audit Evidence

Placement of Certain Requirements Within GAAS

Paragraph 10 of ISA 500 includes a requirement for the auditor addressing the means of selecting items for testing. The ASB believes this requirement is more appropriately placed in section 330. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 501, Audit Evidence — Specific Considerations for Selected Items, Compared to Section 501, Audit Evidence — Specific Considerations for Selected Items

Requirements in GAAS Not in the ISAs

Section 501 contains specific requirements relating to auditing investments in securities and derivative instruments that are not in ISA 501. The ASB concluded that it was appropriate to retain these specific requirements of SAS No. 92, *Auditing Derivatives Instruments, Hedging Activities, and Investments in Securities*.

SAS No. 12, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments*, is based on the premise that the applicable financial reporting framework complies with Financial Accounting Standards Board *Accounting Standards Codification* 450, *Contingencies*. In addition, the audit inquiry letters required under SAS No. 12 have been subjected to the provisions of the 1975 agreement between the AICPA and the American Bar Association (ABA

treaty). Consequently, section 501 contains specific requirements relating to litigation, claims and assessments consistent with the requirements of SAS No. 12 that are not contained in ISA 501. The ASB decided to retain such content in section 501 because it is particular to the U.S. environment and continues to be relevant in practice.

Placement of Certain Requirements Within GAAS

Paragraph 12 of ISA 501 requires the auditor to request written representations from management and, where appropriate, those charged with governance regarding litigation and claims. The ASB believes this requirement is more appropriately placed in section 580. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 505, *External Confirmations*, Compared to Section 505, *External Confirmations*

Differences in Wording

The definition of *external confirmation* has been expanded to include an example of a medium through which a response may be obtained. The example — direct access by the auditor to information held by a third party — addresses a situation that is increasingly common. The ASB believes that the inclusion of this concept clarifies the definition and is consistent with the intent of the definition in ISA 505.

ISA 510, *Initial Audit Engagements — Opening Balances*, Compared to Section 510, *Opening Balances — Initial Audit Engagements, Including Reaudit Engagements*

Requirements in GAAS Not in the ISAs

Paragraph .07 of section 510 states that the auditor, when the prior period financial statements were audited by a predecessor auditor, should request management to authorize the predecessor auditor to allow a review of the predecessor auditor's audit documentation and to respond fully to inquiries by the auditor. Other requirements related to reviewing the predecessor auditor's audit documentation do not differ between ISA 510 and section 510.

Paragraph .13 of section 510 requires the auditor to respond when management refuses to inform the predecessor auditor that the prior period financial statements may need revision or if the auditor is not satisfied with the resolution of the matter. The ASB believes it is important to address this situation.

Paragraph .14 of section 510 states that the auditor should not make reference to the report or work of the predecessor auditor as the basis, in part, for the successor auditor's own opinion. The ASB believes this requirement is necessary in the United States to clearly distinguish this situation from the circumstances

in section 600, *Special Considerations — Audits of Group Financial Statements (Including the Work of Component Auditors)*, in which the auditor determines to make reference to the audit of a component auditor in the auditor's report on the group financial statements.

Differences Between Requirements

Paragraph 6(c) of ISA 510 requires the auditor to perform one or more of three identified procedures, in addition to the procedures required in paragraph 6(a–b) of ISA 510, to obtain sufficient appropriate audit evidence about whether the opening balances contain misstatements that materially affect the current period's financial statements. Two of the three procedures are (a) reviewing the predecessor auditor's audit documentation to obtain evidence regarding opening balances, and (b) evaluating whether audit procedures performed in the current audit provide evidence relevant to the opening balances. The ASB does not believe that either of these procedures, on its own, provides sufficient evidence regarding opening balances, and accordingly, the ASB has redrafted paragraph .08c of section 510 to require the auditor to evaluate whether audit procedures performed in the current period provide evidence relevant to the opening balances and also to perform one or both of the other procedures identified in paragraph .08c(i–ii) of section 510.

ISA 520, *Analytical Procedures*, Compared to Section 520, *Analytical Procedures*

Differences in Wording

The ASB has made various changes to the wording throughout section 520 in comparison with ISA 520. The changes to section 520 include the following:

- In paragraph .05c, adding the parenthetical "(taking into account whether substantive analytical procedures are to be performed alone or in combination with tests of details)" to clarify that the auditor can use as audit evidence a substantive analytical procedure that is less precise than performance materiality when such analytical procedure is combined with other substantive audit procedures.
- In paragraph .05d, adding "compare the recorded amounts, or ratios developed from recorded amounts, with the expectations." The ASB is of the understanding that such procedure is presumed in ISA 520.

Such changes have been made to make section 520 easier to read and apply. The ASB believes that the changes made do not create differences between the application of ISA 520 and the application of section 520.

Requirements in GAAS Not in the ISAs

Section 520 includes specific documentation requirements, in paragraph .08, which ISA 520 does not. The ASB believes that the requirements are appropriate and should be retained from SAS No. 56, *Analytical Procedures*.

ISA 530, *Audit Sampling*, Compared to Section 530, *Audit Sampling*

Differences in Wording

The definition of *audit sampling* in paragraph 5 of ISA 530 was revised in section 530 because the ASB believes that the ISA 530 wording defining audit sampling to require the auditor to select items such that "each item has a chance of selection" is too imprecise to be meaningful. The definition was revised to (a) focus on conclusions about the population, and (b) include the fundamental concept of representativeness. Paragraph .08 of section 530, which establishes a requirement with respect to the selection of items in a population, reflects the revised definition of *audit sampling*.

Requirements in the ISAs Not in GAAS

The requirement in paragraph 13 of ISA 530 that addresses the issue of anomalies is not included in section 530. The ASB expressed concerns about terms used in paragraph 13 of ISA 530, such as "in the extremely rare circumstances" and "a high degree of certainty." These terms are not used in GAAS and the ASB believes these terms would not be consistently interpreted in practice. The ASB also believes that the deletion from section 530 of the option to consider a misstatement an anomaly will enhance audit quality because misstatements identified by the auditor during audit sampling will be treated in the same manner as any other misstatement identified by the auditor and, thus, will prevent the misuse of anomalies.

Paragraph 14 of ISA 530 requires, for tests of details, the projection of misstatements found in a sample to the population. The ASB believes that projection of misstatements is also relevant to tests of controls and tests of compliance, and accordingly, has broadened the requirement in paragraph .14 of section 530 to project the results of audit sampling to also include tests of controls and tests of compliance.

Other

The appendixes of ISA 530 were not been included in section 530 because the guidance contained therein is covered by the AICPA Audit Guide *Audit Sampling*.

ISA 540, *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*, Compared to Section 540, *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

Placement of Certain Requirements Within GAAS

Paragraph 22 of ISA 540 requires the auditor to obtain written representations from management and, when appropriate, those charged with governance

about whether management and, when appropriate, those charged with governance believe significant assumptions used in making accounting estimates are reasonable. The ASB believes this requirement is more appropriately placed in section 580. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 550, *Related Parties*, Compared to Section 550, *Related Parties*

Requirements in GAAS Not in the ISAs

ISA 550 distinguishes between fair presentation and compliance frameworks and between financial reporting frameworks that contain related party requirements and financial reporting frameworks that have minimal or no related party requirements. However, the ASB believes that in the United States, users of financial statements expect all financial reporting frameworks to be fair presentation frameworks. Further, to achieve fair presentation, disclosures related to related parties, such as those required by generally accepted accounting principles (GAAP), are necessary and, accordingly, section 550 defines *related party* as "a party as defined in GAAP." Thus, section 550 does not refer to applicable financial reporting frameworks; the applicability, objectives, and requirements of section 550 are the same regardless of the applicable financial reporting framework.

In addition, the following requirements in section 550 were expanded from the requirements of ISA 550 to minimize differences with requirements in PCAOB AS 2410, *Related Parties* that the ASB believes will enhance audit quality for audits of financial statements of nonissuers.

- Paragraphs .14–.15 of section 550 expand the inquiries required by ISA 550 to include inquiries of management and others within the entity regarding (1) the business purpose of entering into a transaction with a related party versus an unrelated party; (2) whether the entity modified or terminated any transactions with related parties during the period; and (3) related party transactions that were not authorized or approved in accordance with the entity's policies or procedures or for which exceptions were granted, and the reasons for granting those exceptions.
- Paragraph .16 of section 550 requires that, unless all of those charged with governance are involved in managing the entity, the auditor should inquire of those charged with governance (or the audit committee or, at least, its chair) regarding
 - their understanding of the entity's relationships and transactions with related parties that are significant to the entity and
 - whether any of those charged with governance have concerns regarding relationships or transactions with related parties and, if so, the substance of those concerns.
- Paragraph .17 of section 550 expands the documents the auditor is required to inspect for indications of the existence of unidentified related party transactions to include summaries of actions of recent meetings for which minutes have not yet been prepared.

- Paragraph .22 of section 550 requires the auditor to evaluate whether the entity has properly identified its related party relationships and transactions, including the performance of procedures to test the accuracy and completeness of the related party relationships and transactions identified by the entity.
- Paragraph .23 of section 550 requires the auditor to perform procedures that address the related risks of material misstatement on balances with affiliated entities as of concurrent dates.

Differences Between Requirements

Paragraph 23 of ISA 550 requires the auditor to perform specified procedures for identified significant related party transactions outside the entity's normal course of business. Paragraph .26 of section 550 requires the auditor to perform the same specified procedures for identified related party transactions that are required to be disclosed in the financial statements or determined to be a significant risk.

Placement of Certain Requirements Within GAAS

Paragraph 26 of ISA 550 requires the auditor to request that management and, when appropriate, those charged with governance, provide written representations regarding related party transactions. The ASB believes this requirement is more appropriately placed in section 580. The placement of this requirement does not create a difference between the ISAs as a whole and GAAS as a whole.

ISA 560, *Subsequent Events*, Compared to Section 560, *Subsequent Events and Subsequently Discovered Facts*

Differences in Wording

Paragraph 5 of ISA 560 defines *subsequent events* to include both events occurring between the date of the financial statements and the date of the auditor's report and facts that become known to the auditor after the date of the auditor's report. Section 560 includes separate definitions for *subsequent events* and *subsequently discovered facts* to clearly distinguish the auditor's responsibilities for each. The definition of *subsequently discovered facts* was also expanded to use language that is consistent with language in the objectives and requirements of ISA 560 (paragraphs 4(b) and 14) but that is not specifically included in the definition in ISA 560.

Paragraph 5 of ISA 560 further defines *the date the financial statements are issued*, which is the date the auditor's report and audited financial statements are made available to third parties. This term was deleted from section 560 because the applicable financial reporting framework may define the financial statement issuance date. In addition, because GAAS define the report release date, the ASB believes the definition could cause confusion with respect to the release versus the issuance of the auditor's report. Although the definition was deleted, the requirements in section 560 were modified to use terms that are well understood in the United States and to be consistent with the intent of the requirements in ISA 560.

Paragraph 12 of ISA 560 permits the auditor to dual date the auditor's report when law or regulation does not prohibit management from restricting the revision of the financial statements to the effects of the subsequent event or events causing that revision and those responsible for approving the financial statements are not prohibited from restricting their approval to that revision. In the United States, no such prohibition by law or regulation exists. Accordingly, paragraph .13 of section 560 omits the reference to law or regulation.

Because the date of the auditor's report and the report release date are within the auditor's control, the requirements in paragraphs .12–.18 of section 560 were restructured with reference to the report release date in lieu of reference to the date that the financial statements were issued. Similar changes were made to the related application and other explanatory material.

Paragraph 15(b) of ISA 560 requires the auditor to review the steps taken by management to ensure that anyone in receipt of the previously issued financial statements, together with the auditor's report thereon, is informed of the situation. Paragraphs .16*b* and .17*b* of section 560 require the auditor to determine whether management's steps are timely and appropriate. The ASB believes this is consistent with the intent of the requirements of ISA 560.

The ASB believes these changes do not create differences between the application of ISA 560 and the application of section 560.

Requirements in the ISAs Not in GAAS

Certain requirements in ISA 560 also require the auditor to provide the auditor's report or a new or revised auditor's report. These references were eliminated from the requirements in section 560 because the ASB believes that it is not necessary to require the auditor to provide the auditor's report.

Paragraph 12(b) of ISA 560, which is an optional form of dual dating, was not included in section 560 because it is uncommon in the United States to provide a new or revised auditor's report that includes a statement in an emphasis-of-matter paragraph that conveys that the auditor's procedures on subsequent events are restricted solely to the revision of the financial statements, as described in the relevant note to the financial statements.

Requirements in GAAS Not in the ISAs

Section 560 includes an additional objective in paragraph .06, requirements in paragraphs .19–.20, and application and other explanatory material in paragraphs .A27–.A30 related to a predecessor auditor's responsibilities when reissuing the auditor's report on previously issued financial statements that are to be presented on a comparative basis with audited financial statements of a subsequent period. ISA 560 does not include such requirements.

Paragraph 9 of ISA 560 requires the auditor to request that management and, when appropriate, those charged with governance provide written representations regarding subsequent events. This requirement is included in paragraph .18 of section 580. However, if the financial statements are subsequently revised, paragraph .13*a–b* of section 560 include additional requirements for the auditor to request management to provide certain representations when the auditor either dates the auditor's report as of a later date or includes an additional date limited to the revision (that is, dual dates the auditor's report for that revision). These representations are not included in ISA 560.

Placement of Certain Requirements Within GAAS

Paragraph 5 of ISA 560 defines *the date of approval of the financial statements*. This definition was deleted from the definitions of section 560 because the ASB did not believe it was necessary to its application and because the term is described in paragraph .A57 of section 700, *Forming an Opinion and Reporting on Financial Statements*.

Paragraphs 11(b)(ii) and 15(c)(i) of ISA 560 require that the new auditor's report not be dated earlier than the date of approval of the revised financial statements. This requirement is not included in section 560 because the requirements for dating the report are addressed in section 700.

As noted in the preceding section, the requirement in paragraph 9 of ISA 560 regarding written representations has been moved to section 580.

Paragraph 16 of ISA 560 requires the auditor to include in the new or revised auditor's report an emphasis-of-matter paragraph or other-matter paragraph in situations when the financial statements are revised after the financial statements have been issued. Paragraph 16 of ISA 710, *Comparative Information — Corresponding Figures and Comparative Financial Statements*, includes a similar requirement related to comparative financial statements and the auditor's opinion on prior period financial statements, when reporting on prior period financial statements in connection with the current period's audit, differs from the opinion previously expressed. Requirements have been placed in paragraph .16c of section 560 and paragraphs .13–.14 of section 708, *Consistency of Financial Statements*, that when considered together, achieve the intent of the requirements in paragraph 16 of ISA 560 and paragraph 16 of ISA 710.

The ASB believes such placements do not create differences between the ISAs as a whole and GAAS as a whole.

ISA 570 (Revised), *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, Compared to Section 570, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*

Differences in Wording

Section 570 is intended to be applicable to audits of financial statements prepared under various financial accounting frameworks and accordingly was written to be framework-neutral. In discussing certain concepts, reference to accounting terms is necessary. To better explain and illustrate those concepts, section 570 uses terminology that is more commonly used in the United States, such as terminology from the FASB standards and GASB statements, for example "substantial doubt."

Requirements GAAS Not in the ISAs

Section 570 includes a definition of reasonable period of time that includes the period of time required by the applicable financial reporting section, in paragraph .11, and also includes application material in paragraph .A6 with examples of the periods contained in various financial reporting frameworks. ISA 570 (Revised) does not include this definition or the related application material.

Paragraph .10 of section 570 contains an objective of the auditor to evaluate the possible financial statement effects, including the adequacy of disclosure regarding the entity's ability to continue as a going concern. The ASB believes that the inclusion of this objective is important to address disclosures, particularly for accounting frameworks that contain explicit disclosure requirements. ISA 570 (Revised) does not include this objective.

Paragraph .17 contains a requirement to obtain sufficient appropriate evidence when management's plans include financial support by third parties or the entity's owner-manager and such support is necessary in supporting management's assertions about the entity's ability to continue as a going concern. The ASB believes that this requirement is important to address this situation.

Paragraph .18 of section 570 contains a requirement of the auditor to request written representations from management about management's plans to mitigate the adverse effects of conditions or events that indicate there is substantial doubt about the entity's ability to continue as a going concern and the completeness of the financial statement disclosures that management is aware that are relevant to the entity's ability to continue as a going concern. Paragraphs .29–.30 include requirements that address comparative presentations and eliminating a going-concern emphasis-of-matter paragraph from a reissued report. Paragraph .32 of section 570 contains a requirement of the auditor to document specific matters related to the auditor's evaluation and conclusions about conditions or events that are identified, when considered in the aggregate, raise substantial doubt about the entity's ability to continue as a going concern before consideration of management's plans. The ASB believes it is important to retain these requirements from SAS No. 126, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*.

ISA 580, Written Representations, Compared to Section 580, Written Representations

Differences in Wording

Paragraph 8 of ISA 580 describes management's responsibility in the case of a fair presentation framework. The ASB believes that in the United States, users of financial statements expect all financial reporting frameworks to be fair presentation frameworks, and, thus, the requirements of section 580 reflect this perspective.

Requirements in the ISAs Not in GAAS

Paragraph 15 of ISA 580 contains a requirement related to situations in which law or regulation requires management to make written public statements about its responsibilities. The ASB believes that these situations are not applicable to nonissuers in the United States and, accordingly, such requirements are not included in section 580.

Differences Between Requirements

Paragraph 14 of ISA 580 requires that the date of the written representations be as near as practicable to, but not after, the date of the auditor's report on

the financial statements. Paragraph .20 of section 580 requires that the date of the written representations be as of the date of the auditor's report. Paragraph .A27 of section 580 states that, occasionally, circumstances may prevent management from signing the representation letter and returning it to the auditor on the date of the auditor's report. In these circumstances, the auditor may accept management's oral confirmation, on or before the date of the representations, that management has reviewed the final representation letter and will sign the representation letter without exception as providing sufficient appropriate audit evidence for the auditor to date the report. However, possession of the signed management representation letter prior to releasing the auditor's report is necessary because paragraph .21 of section 580 requires that the representations be in the form of a written letter from management.

Paragraph .17 of section 580 requires the auditor to request management to provide written representations that it has disclosed to the auditor the identify of all the entity's related parties. The corresponding requirement in paragraph 26 of ISA 550, *Related Parties*, does not include the word *all* with regard to the entity's related parties.

Placement of Certain Requirements Within GAAS

The following ISAs contain requirements for requesting written representations:

- Paragraph 39 of ISA 240
- Paragraph 16 of ISA 250
- Paragraph 14 of ISA 450
- Paragraph 12 of ISA 501
- Paragraph 22 of ISA 540
- Paragraph 26 of ISA 550
- Paragraph 9 of ISA 560

Such requirements have been included in paragraphs .12–.19 of section 580. The ASB believes these requirements, which relate to representations that would be obtained for every audit engagement, are more appropriately placed in section 580. The placement of these requirements does not create differences between the ISAs as a whole and GAAS as a whole.

ISA 600, Special Considerations — Audits of Group Financial Statements (Including the Work of Component Auditors), Compared to Section 600, Special Considerations — Audits of Group Financial Statements (Including the Work of Component Auditors)

Differences in Wording

All the requirements in ISA 600 are addressed to either the group engagement partner or the group engagement team. In section 600, requirements that, in the circumstances, may be appropriately fulfilled by the firm are addressed

to the auditor of the group financial statements. These requirements, in paragraphs .16 and .29, relate to engagement acceptance and modification of the auditor's opinion on the group financial statements. The ASB believes that this does not create a substantive difference between the requirements of ISA 600 and the requirements of section 600.

Requirements in the ISAs Not in GAAS

ISA 600 does not permit the auditor's report on the group financial statements to make reference to a component auditor unless required by law or regulation to include such reference. Section 600 permits the auditor, in the auditor's report on the group financial statements, to make reference to the audit of a component auditor.

The ASB believes that the ability to make reference to the report of another auditor is appropriate in the United States for several reasons. No compelling practice issues suggest a need to change an approach that has always been permitted by GAAS in the United States. The size, complexity, and diversity of some audits, in particular the audit of the federal government in which withdrawing from the engagement or disclaiming an opinion are not viable options, make eliminating the option to make reference to a component auditor problematic. In addition, the ASB believes that there will be considerable practical problems with access issues, particularly with equity investments, under the approach in ISA 600. The ASB believes that there is no difference in the effectiveness of the audit in either approach when the audits are conducted in accordance with GAAS. Accordingly, section 600 contains requirements and application and other explanatory material relating to making reference to the report of another auditor that are not in ISA 600, which results in substantive differences in the wording of the objectives, requirements, and application material between ISA 600 and section 600. A group audit conducted in accordance with GAAS when the group engagement partner determines to make reference to the audit performed by a component auditor would not comply with the ISAs. As such, in an audit conducted under both GAAS and the ISAs, the auditor of the group financial statements would need to assume responsibility for the work of all component auditors and, therefore, plan the audit accordingly to comply with both sets of standards.

When no reference is made to a component auditor in the auditor's report on the group financial statements, no substantive differences exist between the requirements ISA 600 and the requirements of section 600.

Differences Between Requirements

Paragraph .41c of section 600 expands the requirement in paragraph 40(e) of ISA 600 to clarify that the communication of a list of related parties prepared by group management and any other related parties of which the group engagement team is aware includes the nature of the entity's relationships and transaction with those related parties. This clarification is not in ISA 600.

ISA 610 (Revised 2013), *Using the Work of Internal Auditors*, Compared to Section 610, *Using the Work of Internal Auditors*

Requirements in the ISAs Not in GAAS

Using Internal Auditors to Provide Direct Assistance

Determining Whether Internal Auditors Can Be Used to Provide Direct Assistance

Section 610 does not include paragraph 26 of ISA 610 (Revised 2013) because obtaining direct assistance from internal auditors is not prohibited in the United States.

Paragraph 27 of ISA 610 (Revised 2013) contains a requirement that the external auditor's evaluation of the existence and significance of threats to the internal auditors' objectivity include inquiry of the internal auditors regarding interests and relationships that may create a threat to their objectivity. This requirement is not included in section 610 because the ASB believes it is implicit in the overall requirement to evaluate the internal auditor's objectivity.

Determining the Nature and Extent of Work That Can Be Assigned to Internal Auditors Providing Direct Assistance

GAAS do not include paragraph 30 of ISA 610 (Revised 2013) in section 610 because the paragraph precludes the external auditor's use of internal auditors to provide direct assistance in specified circumstances. The ASB believes that the requirements in paragraphs 30a and 30b were not necessary in the context of audits of nonissuers in the United States. These requirements are partly redundant with the requirement in paragraph .27 of section 610 regarding the need for the auditor to consider the amount of judgment involved in determining the nature and extent of work to assign to internal auditors and the nature, timing, and extent of the review thereof. Additional material was added to paragraph .A42 section 610 to further emphasize that as materiality of the financial statement amounts increases, and either the assessed risks of material misstatement or the amount of judgment involved increases, the need for the external auditor to perform procedures directly increases. The ASB further concluded that the requirements in paragraphs 30c and 30d were not necessary because an appropriate assessment of the objectivity of the internal auditors in accordance with section 610 would result in a conclusion that it would not be appropriate for internal auditors' work to be used in the situations addressed by those paragraphs.

Using Internal Auditors to Provide Direct Assistance

Paragraph 33b of ISA 610 (Revised 2013) requires that, prior to using internal auditors to provide direct assistance for purposes of the audit, the external auditor obtain written agreement from the internal auditors that they will keep confidential specific matters as instructed by the external auditor and inform the external auditor of any threat to their objectivity. Given the established practice and historical experience of using internal auditors to provide direct assistance, the ASB did not believe that it was necessary to include this requirement for the audits of nonissuers in the United States. However, the ASB added application material to indicate that the auditor may determine it necessary to instruct the internal auditors to keep specific matters confidential and, in some

situations, may determine it to be necessary to request written acknowledgement from the internal auditors of having understood such instruction (paragraph .A41 of section 610).

Differences Between Requirements

Using Internal Auditors to Provide Direct Assistance

Determining the Nature and Extent of Work That Can Be Assigned to Internal Auditors Providing Direct Assistance

Paragraph 31 of ISA 610 (Revised 2013) establishes a requirement that, in communicating with those charged with governance, an overview of the planned scope and timing of the audit in accordance with ISA 260, *Communication with Those Charged with Governance*, the external auditor should communicate the nature and extent of the planned use of internal auditors to provide direct assistance *so as to reach a mutual understanding that such use is not excessive in the circumstances of the engagement*. The ASB decided to revise this paragraph to improve the clarity of the requirement and eliminate the requirement to explicitly obtain a mutual understanding with those charged with governance that the proposed nature and extent of the use of internal auditors to provide direct assistance is not excessive because it was not considered necessary in the context of audits of nonissuers in the United States. The ASB believes that the external auditor's communication required by paragraph .28 of section 610 provides those charged with governance the opportunity to voice any concerns.

Using Internal Auditors to Provide Direct Assistance

Paragraph 34a of ISA 610 (Revised 2013) requires the external auditor to direct, supervise and review the work performed by internal auditors on the engagement in accordance with ISA 220. It further states that the "nature, timing and extent of direction, supervision, and review shall recognize that the internal auditors are not independent of the entity and be responsive to the outcome of the evaluation of the factors in paragraph 29 of this ISA." The ASB omitted the phrase *recognize that the internal auditors are not independent of the entity* from the comparable requirement in paragraph .31a because the ASB did not believe there was any incremental effect of the phrase on the nature, timing, and extent of the external auditor's required actions. The ASB also believes that the fact that internal auditors are not independent of the entity is already implicit in, and encompassed by, the external auditor's evaluation of the factors in paragraph .27 of section 610.

In paragraph .31c of section 610, the ASB revised paragraph 34b of ISA 610 (Revised 2013) to express the requirement in terms more commonly understood in the United States and that are more consistent with the terminology in section 610.

Requirements in GAAS Not in the ISAs

Using Internal Auditors to Provide Direct Assistance

The ASB added paragraph 31b, which represents a requirement to instruct internal auditors to bring accounting and auditing issues to the attention of the external auditors. The ASB believes that it is important to retain this requirement from SAS No. 65, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*.

The ASB believes these differences do not create a difference between the application of ISA 610 (Revised 2013) and the application of section 610.

ISA 620, Using the Work of an Auditor's Expert, Compared to Section 620, Using the Work of an Auditor's Specialist

Differences in Wording

Paragraph 12(b) of ISA 620 requires the auditor to evaluate the significant assumptions and methods of the auditor's specialist. The ASB expanded the wording of this requirement to more clearly articulate the auditor's responsibility in this regard. The ASB believes this does not create a difference between the application of ISA 620 and the application of section 620.

Requirements in the ISAs Not in GAAS

Paragraph 14 of ISA 620 contains a conditional requirement regarding the auditor's reference to the auditor's specialist in the auditor's report when such reference is required by law or regulation. Because such reference is not required by law or regulation in the United States, such requirement is not included in section 620.

ISA 700 (Revised), Forming an Opinion and Reporting on Financial Statements, Compared to Section 700, Forming an Opinion and Reporting on Financial Statements

Differences in Wording

Paragraph 13(d) of ISA 700 (Revised) requires the auditor to evaluate, among other things, whether, in view of the requirements of the applicable financial reporting framework, the information that should have been included has been included, and whether such information is appropriately classified, aggregated or disaggregated, and characterized. Paragraph .15d of section 700 uses the term "presented" instead of "characterized" in the otherwise identical requirement. The ASB believes replacing "characterized" with "presented" addresses the presentation in paragraph 13(d)(ii) of ISA 700 (Revised) and therefore this does not create a difference between the application of ISA 700 (Revised) and section 700.

Paragraph 34(a) of ISA 700 (Revised) requires the auditor's report to describe management's responsibility for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. Paragraph .32a of section 700 requires the auditor's report to describe management's responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements. The ASB believes section 700 better conveys management's responsibility in the United States.

Paragraph 38(b) of ISA 700 (Revised) requires the auditor's report to state that reasonable assurance is a high level of assurance, but not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Paragraph .35b of section 700 states that reasonable assurance is a high level of assurance but not absolute assurance and therefore is not a guarantee. The ASB believes this does not create a difference in the application of ISAs and the application of GAAS.

Paragraph 39(b)(iv) of ISA 700 requires the auditor's report to describe an audit by stating what the auditor's responsibilities are in ISA 570 (Revised). As noted previously in the ISA 570 (Revised) section of this appendix, section 570 is intended to be applicable to audits of financial statements prepared under various financial accounting frameworks and accordingly was written to be framework-neutral. In discussing certain concepts, reference to accounting terms is necessary. To better explain and illustrate those concepts, section 570 uses terminology that is more commonly used in the United States, such as terminology from the FASB standards and GASB statements, for example "substantial doubt." Accordingly, the language in the auditor's report aligns with the requirements in section 570.

Requirements in the ISAs Not in GAAS

Compliance Framework

Paragraphs 7(b), 19, and 26 of ISA 700 (Revised) discuss financial statements prepared in accordance with a compliance framework. GAAS do not include any references to compliance frameworks because the ASB believes that in the United States, users of financial statements expect all financial reporting frameworks to be fair presentation frameworks. Accordingly, section 700 is written in the context of a complete set of general purpose financial statements prepared in accordance with a fair presentation framework.

Definitions

Paragraph 7(b) of ISA 700 (Revised) defines *fair presentation framework*. Section 700 does not include this definition because fair presentation framework is already defined in section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance With Generally Accepted Auditing Standards*. As noted previously, section 700 does not include any references to compliance frameworks; therefore, there is no need to emphasize the differences between a fair presentation framework and a compliance framework in section 700.

Use of True and Fair View

Paragraphs 25(b) and 36 of ISA 700 (Revised) indicate that the description in the auditor's report can refer either to the preparation and fair presentation of the financial statements or the preparation of financial statements that give a true and fair view. GAAS do not include any references to "true and fair view" because such wording has not historically been used in the United States; GAAS continues to require the use of "present fairly, in all material respects" in the auditor's opinion.

Requirements for Listed Entities

Paragraphs 30, 40(b), and 46 of ISA 700 (Revised) contain requirements relating to audits of listed entities. Such requirements are not applicable to audits

of nonissuers in the United States and, accordingly, such requirements are not included in GAAS.

Opinion Section

Paragraph 24(d) of ISA 700 (Revised) requires the opinion section of the auditor's report to refer to the summary of significant accounting policies. Section 700 does not include this requirement because the ASB believes the notes to the financial statements are an integral part of the financial statements, and specific notes need not be identified in the opinion section. The ASB believes this does not create a difference between the application of ISA 700 (Revised) and the application of section 700.

Responsibilities of Management for the Financial Statements

Paragraph 33 of ISA 700 (Revised) requires the report to use a term that is appropriate in the context of the legal framework in the particular jurisdiction and need not refer specifically to "management" when the auditor's report discusses management's responsibilities. Section 700 does not include this requirement because the ASB believes this paragraph relates to jurisdictions in which the structure of the boards and corporate law are different than in the United States. In the United States, the ASB believes reference to management is sufficient. The ASB believes this does not create a difference between the application of ISA 700 (Revised) and the application of section 700.

Paragraph 35 of ISA 700 (Revised) requires the auditor's report to identify those responsible for the oversight of the financial reporting process, when those responsible for such oversight are different from those who fulfill the responsibilities described in paragraph 34 of ISA 700 (Revised). Section 700 does not include this requirement because the ASB believes that distinction may cause confusion in a nonissuer environment. The ASB believes this does not create a difference in the application of the ISA 700 (Revised) and the application of section 700.

Auditor's Responsibilities for the Audit of the Financial Statements

Paragraph 38(c)(ii) of ISA 700 (Revised) requires the auditor's report to state that misstatements can arise from fraud or error and either (i) describe that they are considered material, if individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements; or (ii) provide a definition or description of materiality in accordance with the applicable financial reporting framework. Section 700 requires the auditor to include the description in (i) and does not include the option in (ii) to provide a definition or description of materiality in accordance with the applicable financial reporting framework. The ASB believes this will create more consistency in reporting and was mindful to minimize differences between the PCAOB form of auditor's report and section 700. The ASB believes this does not create a difference in the application of ISA 700 (Revised) and the application of section 700.

Paragraph 39(c) of ISA 700 (Revised) requires the auditor's report to further describe the auditor's responsibilities in a group audit engagement. Section 700 does not include this requirement because GAAS permits for the auditor to have divided responsibility in group audit situations and therefore the reporting language in section 600 provides transparency as to the responsibilities of the auditor in such situations. The ASB believes this does not create a difference in the application of the ISA 700 (Revised) and the application of section 700.

Information Presented in the Financial Statements

Paragraph 54 of ISA 700 (Revised) contains requirements when supplementary information that is not required by the applicable financial reporting framework is presented with the audited financial statements. If such supplementary information is not clearly differentiated from the audited financial statements, ISA 700 (Revised) requires the auditor to ask management to change how the unaudited supplementary information is presented and if management refuses to do so, the auditor should explain in the auditor's report that such supplementary information has not been audited. In the United States, section 725, *Supplementary Information in Relation to the Financial Statements as a Whole*, addresses the auditor's responsibility when engaged to report on supplementary information. At the present time, no ISAs exist that correspond to section 725. GAAS do not include the requirement for the auditor to ask management to change how the unaudited supplementary information is presented when the supplementary information is not clearly differentiated from the audited financial statements.

Requirements in GAAS Not in the ISAs***Responsibilities of Management for the Financial Statements***

Paragraph .33 of section 700 adds a requirement that the description about management's responsibilities for the financial statements in the auditor's report should not be referenced to a separate statement by management about such responsibilities, even if such a statement is included in a document containing the auditor's report.

ISA 700 (Revised) does not contain this requirement, which the ASB believes is appropriate for inclusion in GAAS.

Auditor's Report for Audits Conducted in Accordance With the Standards of the PCAOB and GAAS When the Audit Is Not Within the Jurisdiction of the PCAOB

Paragraph .46 of section 700 adds a requirement on how to report when conducting an audit of financial statements in accordance with the standards of the PCAOB and the audit is not within the jurisdiction of the PCAOB. ISA 700 (Revised) does not contain this requirement which is specific to the United States.

Differences Between Requirements***Basis for Opinion — Auditor Independence***

Paragraph 28(c) of ISA 700 (Revised) requires the "Basis for Opinion" section to include a statement that the auditor is independent of the entity in accordance with the relevant ethical requirements relating to the audit, and has fulfilled the auditor's other ethical responsibilities in accordance with these requirements. The statement should identify the jurisdiction of origin of the relevant ethical requirements or refer to the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code). Paragraph .28c of section 700 requires the "Basis for Opinion" section to include a statement that the auditor is required to be independent of the entity and to meet the auditor's other ethical responsibilities, in accordance with the relevant

ethical requirements relating to the audit and does not require identification of the jurisdiction of origin of the relevant ethical requirements. The ASB believes section 700 better conveys the auditor's independence and ethical responsibilities in the United States while minimizing differences between the PCAOB form of the auditor's report and section 700. The ASB believes having different statements about the auditor's responsibilities for independence in the GAAS report and in the PCAOB report would cause confusion in the United States and that such difference between the two reports is not necessary.

Key Audit Matters

Paragraph 31 of ISA 700 (Revised) requires that when the auditor is otherwise required by law or regulation or decides to communicate key audit matters in the auditor's report, the auditor should do so in accordance with ISA 701. Paragraph .30 of section 700 requires that when the auditor is engaged to communicate key audit matters the auditor should do so in accordance with section 701. The ASB is not aware of law or regulation in the United States that requires communication of key audit matters for nonissuers and believes this does not create a difference in the application of the ISAs and the application of GAAS.

Auditor's Responsibilities for the Audit of the Financial Statements

Paragraph 39(b)(v) requires the report to describe an audit by stating that the auditor's responsibilities are to evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. Paragraph .36d of section 700 requires the auditor to include in the auditor's report the auditor's responsibility to evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements. The ASB believes this does not create a difference in the application of the ISAs and the application of GAAS.

Auditor's Report for Audits Conducted in Accordance With Both Auditing Standards of a Specific Jurisdiction and ISAs

Paragraphs 51–52 of ISA 700 (Revised) contain requirements when an auditor is required to conduct an audit in accordance with the auditing standards of a specific jurisdiction but may additionally have complied with the ISAs in the conduct of the audit. Paragraphs .44–.45 of section 700 have been revised to reflect reporting conventions in the United States.

The ASB believes these differences do not create a difference between the application of ISA 700 (Revised) and the application of section 700.

Placement of Certain Requirements Within GAAS

Comparative Financial Statements

Section 700 addresses comparative financial statements and comparative information, which are not addressed in ISA 700 (Revised), but are addressed in ISA 710, *Comparative Information — Corresponding Figures and Comparative Financial Statements*. See the section "ISA 710, *Comparative Information — Corresponding Figures and Comparative Financial Statements*, Compared to Section 700, *Forming an Opinion and Reporting on Financial Statements*," following for a comparison of the requirements of section 700 and the requirements of ISA 710. ISA 710 addresses reporting in other jurisdictions that are

not common to the United States, including corresponding figures that are not covered by the auditor's report. For simplicity, the ASB decided to include those requirements and application material that apply in the United States in section 700 rather than have a separate AU-C section.

Key Audit Matters

Paragraph 40(c) of ISA 700 (Revised) requires the report to describe key audit matters in the auditor's responsibilities section of the auditor's report. For simplicity, and because GAAS does not require the communication of KAM in the auditor's report, section 701 requires a description of key audit matters, when the auditor is engaged to include key audit matters in the auditor's report, to be placed in a separate key audit matters section.

Auditor's Report Prescribed by Law or Regulation

Paragraph 50 of ISA 700 (Revised) discusses the auditor's report prescribed by law or regulation. Section 700 does not contain this section because it does not pertain to general purpose financial statements in the United States. Auditor's reports prescribed by law or regulation are addressed in section 800.

The ASB believes that the placement of these requirements does not create differences between the application of the ISAs as a whole and the application of GAAS as a whole.

ISA 701, Communicating Key Audit Matters in the Independent Auditor's Report, Compared to Section 701, Communicating Key Audit Matters in the Independent Auditor's Report

Differences in Wording

Going Concern

Paragraph 15 of ISA 701 describes the interaction between descriptions of key audit matters and other elements required to be included in the auditor's report. Section 700 contains the same section; however, section 700 aligns with the terminology used in section 570.

Requirements in ISAs Not in GAAS

Required Communication of Key Audit Matters

ISA 701 addresses the auditor's responsibilities to communicate key audit matters in the auditor's report and applies to audits of complete sets of general purpose financial statements of listed entities and circumstances when the auditor otherwise decides to communicate key audit matters in the auditor's report. Section 701 does not require the communication of key audit matters. This is not inconsistent with ISA 701 because ISA 701 only requires listed entities to communicate key audit matters. In the United States, audits of listed entities are within the jurisdiction of the PCAOB and therefore GAAS does not contain a similar requirement. The ASB believes this does not create a difference in the application of the ISAs and the application GAAS.

ISA 705 (Revised), Modifications to the Opinion in the Independent Auditor's Report, Compared to Section 705, Modifications to the Opinion in the Independent Auditor's Report

Requirements in the ISAs Not in GAAS

Compliance Framework

GAAS do not include any references to compliance frameworks because the ASB believes that in the United States, users of financial statements expect all financial reporting frameworks to be fair presentation frameworks. Accordingly, the reference to compliance frameworks in paragraphs 17(b) and 18(b) of ISA 705 (Revised) are included in paragraphs .18–.19 of section 705.

Use of True and Fair View

GAAS do not include any references to "true and fair view" because such wording has not historically been used in the United States; GAAS continue to require the use of "present fairly, in all material respects" in the auditor's opinion. Accordingly, the references to "true and fair view" in paragraphs 17(a)–18(a) of ISA 705 (Revised) are not included in paragraphs .18–.19 of section 705. The ASB believes this does not result in a difference in the application of the ISAs and the application of GAAS.

Multiple Uncertainties

Paragraph 10 of ISA 705 (Revised) requires the auditor to disclaim an opinion when, in extremely rare circumstances involving multiple uncertainties, the auditor concludes that, notwithstanding having obtained sufficient appropriate audit evidence regarding each of the individual uncertainties, it is not possible to form an opinion on the financial statements due to the potential interaction of the uncertainties and their possible cumulative effect on the financial statements. Section 705 does not include this requirement because the ASB believes that a disclaimer of opinion is appropriate only when the auditor is not able to obtain sufficient appropriate audit evidence.

Differences Between Requirements

Management-Imposed Scope Limitation

Paragraph 13(b)(i) of ISA 705 (Revised) requires the auditor to withdraw from the audit when the auditor is unable to obtain sufficient appropriate audit evidence, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive so that a qualification of the opinion would be inadequate to communicate the gravity of the situation. Paragraph .13b of section 705 changes this requirement so that the auditor should either disclaim an opinion on the financial statements or withdraw from the engagement, when practical, under such circumstances. The ASB believes that in the United States, the auditor should not be required to withdraw from an engagement but, rather, should be able to decide whether to withdraw or disclaim an opinion on the financial statements

based upon the pervasiveness of the effects on the financial statements. The ASB believes this does not create differences between the application of ISA 705 (Revised) and the application of section 705.

Description of Auditor's Responsibilities When the Auditor Disclaims an Opinion

Paragraph 28(c) of ISA 705 (Revised) requires the auditor, when the auditor disclaims an opinion on the financial statements due to an inability to obtain sufficient appropriate audit evidence, to amend the description of the auditor's responsibilities section of the auditor's report to include the statement about auditor independence and other ethical responsibilities required by paragraph 28(c) of ISA 700 (Revised). Paragraph .29c of section 705 requires a statement that the auditor is required to be independent and to meet other ethical responsibilities, in accordance with the relevant ethical requirements relating to the audit, required by paragraph .28c of section 700 or paragraph .67c or .107c of section 703, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA*. The ASB believes that the requirement in section 700 better conveys the auditor's independence and ethical responsibilities in the United States while being mindful to minimize differences between the PCAOB form of the auditor's report and section 700. The wording in section 705 aligns with section 700 requirements.

Considerations When the Auditor Expresses an Adverse Opinion or Disclaims an Opinion on the Financial Statements

Paragraph 29 of ISA 705 (Revised) precludes the auditor from including a Key Audit Matters section in accordance with ISA 701 when the auditor disclaims an opinion. Paragraph .30 of section 705 precludes the auditor from including a Key Audit Matters section when the auditor expresses an adverse opinion or disclaims an opinion on the financial statements. The ASB believes this incremental requirement to be appropriate for inclusion in GAAS.

ISA 706 (Revised), Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report, Compared to Section 706, Emphasis-of-Matter Paragraphs and Other-Matter Paragraphs in the Independent Auditor's Report

Differences Between Requirements

Emphasis-of-Matter Paragraphs in the Auditor's Report

Paragraph 9(a) of ISA 706 (Revised) requires the auditor, when the auditor includes an emphasis-of-matter paragraph in the auditor's report, to use an appropriate heading that includes the term "Emphasis of Matter." In the same situation, paragraph .09a of section 706 requires the auditor to use an appropriate heading and only requires the use of the term "Emphasis of Matter" to be included in the heading when key audit matters are communicated in the auditor's report. Because key audit matters are not required under GAAS, the ASB believes it is only necessary to require the use of the term "emphasis-of-matter"

when the term is needed to help differentiate between an emphasis-of-matter section and a key audit matters section.

ISA 710, Comparative Information — Corresponding Figures and Comparative Financial Statements, Compared to Section 700, Forming an Opinion and Reporting on Financial Statements

Differences in Wording

The definitions of *comparative information* and *comparative financial statements* in paragraph 6(a) and (c) of ISA 710 have been revised to reflect U.S. conventions.

Requirements in the ISAs Not in GAAS

ISA 710 addresses reporting in other jurisdictions that are not common in the United States, including corresponding figures that are not covered by the auditor's report. GAAS do not include any references to corresponding figures because these are not common in the United States.

Requirements in GAAS Not in the ISAs

Comparative Information

Paragraph .48 of section 700 requires that when expressing an opinion on all periods presented, a continuing auditor should update the report on the financial statements of one or more prior periods presented on a comparative basis with those of the current period. The auditor's report on comparative financial statements should not be dated earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to support the opinion for the most recent audit.

Paragraph .50 of section 700 contains a requirement that if comparative information is presented, and the entity requests the auditor to express an opinion on all periods presented, the auditor should consider whether the information included for the prior periods contains sufficient detail to constitute a fair presentation in accordance with the applicable financial reporting framework.

Audit Procedures

Paragraph .51 of section 700 contains a requirement that the audit procedures in paragraphs .51–.53 of section 700 should apply regardless of whether comparative financial statements or comparative information is presented for the prior period.

Prior Period Financial Statements

Paragraph .56 of section 700 includes requirements on what to disclose in an emphasis-of-matter paragraph or other-matter paragraph when reporting on prior period financial statements in connection with the current period's audit, and the auditor's opinion on such prior period financial statements differs from the opinion the auditor previously expressed.

Paragraph .57 of section 700 adds "and the predecessor auditor's report on the prior period's financial statements is not reissued" to the requirement. This was added to clarify that if the report was reissued, section 560 would apply. In addition, a requirement was added to include in the other-matter paragraph the nature of an emphasis-of-matter paragraph or other-matter paragraph included in the predecessor auditor's report, if any.

Prior Period Financial Statements Not Audited

Paragraphs .59–.60 of section 700 include requirements on how to report when prior period financial statements were not audited, reviewed, or compiled, to better clarify what is covered in section 700 related to comparative financial statements and comparative information.

ISA 710 does not contain these requirements. The ASB believes these requirements and related application material are appropriate for inclusion in GAAS.

Placement of Certain Requirements Within GAAS

ISA 710 addresses reporting in other jurisdictions that are not common to the United States, including corresponding figures that are not covered by the auditor's report. For simplicity, the ASB decided to include certain requirements and application material for comparative financial statements and comparative information in section 700 rather than having a separate AU-C section. The ASB believes that the requirements in section 700 related to comparative financial statements and comparative information are consistent with the intent of ISA 710 and that the placement of these requirements does not create differences between the application of the ISAs as a whole and the application of GAAS as a whole.

ISA 720 (Revised), The Auditor's Responsibilities Relating to Other Information in Documents Containing Audited Financial Statements, Compared to Section 720, The Auditor's Responsibilities Relating to Other Information Included in Annual Reports

Differences in Wording

The ASB has made various changes to the wording throughout section 720, in comparison with ISA 720. The changes to section 720 include the following:

- Adding paragraph .02, which clarifies that section 720 "may be applied, and adapted as necessary in the circumstances, to other documents to which the auditor, at management's request, devotes attention."
- In paragraph .05, deleting the phrase "either by law, regulation or custom" from the definition of *other information* to avoid confusion with required supplementary information.
- Adding paragraph .09, which clarifies that the section does not apply to supplementary information addressed by section 725, *Supplementary Information in Relation to the Financial Statements*

as a Whole, or required supplementary information addressed by section 730, *Required Supplementary Information*. There are no equivalent ISAs to sections 725 and 730.

- In paragraph .12, adding the phrase "other-matter" to clarify the report modification.
- In paragraph .17, adding the wording "by the entity in determining whether such matter is a material misstatement of fact" to clarify that the advice is received by the entity.

Such changes have been made to make section 720 easier to read and apply. The ASB believes that such changes do not create differences between the application of ISA 720 (Revised) and the application of section 720.

Requirements in GAAS not in the ISAs

Paragraph .13a of section 720 includes a requirement that the auditor obtain management's written acknowledgment regarding which document or documents comprise the annual report and the entity's planned manner and timing of the issuance of such documents.

Paragraph .14 of section 720 includes a requirement for the auditor to take appropriate action if the auditor becomes aware that the entity did not provide the auditor with the final version of documents determined in accordance with paragraph .13a to be part of the annual report prior to the issuance of those documents to third parties.

The ASB believes that these incremental requirements are appropriate for inclusion in GAAS.

Requirements in the ISAs not in GAAS

Section 720 does not include reporting requirements when the auditor is required by law or regulation of a specific jurisdiction to refer to the other information in the auditor's report using a specific layout or wording. The ASB believes that such requirements are not necessary in the U.S. environment.

Differences Between Requirements

Paragraph .21 of section 720 provides the option for the auditor to withhold the auditor's report if the auditor concludes that a material misstatement exists in other information obtained prior to the date of the auditor's report, and the other information is not corrected after communicating with those charged with governance. The ASB believes it important to retain this option from the previous SAS.

Paragraph .24 of section 720 requires that the auditor report on the other information only when the auditor has obtained all of the other information at the date of the auditor's report. ISA 720 (Revised) requires that the auditor report on the other information when the auditor "has obtained some or all of the other information" at the date of the auditor's report. The ASB believes that, because a framework for annual reports rarely exists in the nonissuer environment in the United States, a requirement to report when "some" of the other information is obtained at the date of the auditor's report could confuse users of the auditor's report and therefore is not in the public interest.

ISA 800 (Revised), *Special Considerations — Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks*, Compared to Section 800, *Special Considerations — Audits of Financial Statements Prepared in Accordance With Special Purpose Frameworks*

Differences in Wording

Definitions

Paragraph 6 of ISA 800 defines a *special purpose framework* as a financial reporting framework (a fair presentation framework or a compliance framework) designed to meet the financial information needs of specific users. Section 800 defines a special purpose framework as one of the following bases of accounting: cash, tax, regulatory, contractual, or other basis of accounting, all of which are fair presentation frameworks in the United States. An other basis of accounting is a basis of accounting that uses a definite set of logical, reasonable criteria that is applied to all material items appearing in financial statements.

Considerations When Planning and Performing the Audit

Paragraph 9 of ISA 800 requires the auditor to determine whether application of the ISAs requires special consideration in the circumstances of the engagement. However, paragraph .12 of section 800 requires the auditor to adapt all AU-C sections relevant to the audit as necessary in the circumstances of the engagement. The ASB believes that the requirement in section 800 is consistent with the intent of ISA 800 and that such changes do not create differences between the application of ISA 800 and the application of section 800.

Requirements in GAAS Not in the ISAs

Considerations When Accepting the Engagement

Paragraph .11 of section 800 includes a requirement for the auditor, when accepting the engagement, to obtain the agreement of management that it acknowledges and understands its responsibility to include all informative disclosures, including specified disclosures, that are appropriate for the special purpose framework used to prepare the entity's financial statements.

Description of the Applicable Financial Reporting Framework

Paragraph .15 of section 800 includes a requirement for the auditor to evaluate whether the financial statements are suitably titled, include a summary of significant accounting policies, and adequately describe how the special purpose framework differs from GAAP.

Fair Presentation

If the special purpose financial statements contain items that are the same as, or similar to, those in financial statements prepared in accordance with GAAP,

paragraph .18 of section 800 includes a requirement for the auditor to evaluate whether the financial statements include informative disclosures similar to those required by GAAP. Paragraph .18 of section 800 also requires the auditor to evaluate whether additional disclosures, beyond those specifically required by the framework, related to matters that are not specifically identified on the face of the financial statements or other disclosures may be necessary for the financial statements to achieve fair presentation.

Restricting the Use of the Auditor's Report

Paragraph .21 of section 800 requires the auditor's report to include an other-matter paragraph that restricts the use of the auditor's report when the special purpose financial statements are prepared in accordance with a contractual basis of accounting, a regulatory basis of accounting, or an other basis of accounting when required pursuant to paragraphs .06a–b of section 905, *Alert That Restricts the Use of the Auditor's Written Communication*, except for the circumstances described in paragraph .22 of section 800. In accordance with paragraph .22 of section 800, the other-matter paragraph is not required when the special purpose financial statements are prepared in accordance with a regulatory basis of accounting and the special purpose financial statements together with the auditor's report are intended for general use. In this circumstance, the auditor is required to express an opinion on whether the financial statements are prepared in accordance with GAAP and, in a separate paragraph, an opinion on whether the financial statements are prepared in accordance with the special purpose framework.

Auditor's Report Prescribed by Law or Regulation

Paragraph .22 of section 800 identifies the required minimum elements to be included in the auditor's report when the auditor is required by law or regulation to use a specific layout, form, or wording of the auditor's report. Paragraph .24 requires the auditor to reword the prescribed form of report or attach an appropriately worded separate report if the prescribed specific layout, form, or wording of the auditor's report is not acceptable or would cause an auditor to make a statement that the auditor has no basis to make.

These requirements are not included in ISA 800.

Differences Between Requirements

Auditor's Report

Paragraph 13 of ISA 800 requires the auditor's report to describe the purpose for which the financial statements are prepared and, if necessary, the intended users, or refer to a note in the special purpose financial statements that contains that information. Section 800 does not require this description when the special purpose financial statements are prepared in accordance with the cash or tax basis of accounting.

Alerting Readers That the Financial Statements Are Prepared in Accordance With a Special Purpose Framework

Paragraph 14 of ISA 800 requires the auditor's report to include an emphasis-of-matter paragraph alerting users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework and that, as a result, the financial statements may not be suitable for another purpose. Paragraph .20c of section 800 requires the emphasis-of-matter paragraph

to state that the special purpose framework is a basis of accounting other than GAAP and only requires the auditor's report to state that the "financial statements may not be suitable for another purpose" when a description of the purpose for which the financial statements are prepared or a reference to a note in the special purpose financial statements that contains that information is required by paragraph .19a. In accordance with paragraph .22 of section 800, the emphasis-of-matter paragraph is not required when the special purpose financial statements are prepared in accordance with a regulatory basis of accounting and the special purpose financial statements together with the auditor's report are intended for general use.

Placement of Certain Requirements Within GAAS

Paragraph .14 of section 800 indicates that the following requirements in section 570 apply irrespective of whether the going concern basis of accounting is relevant to the preparation of the financial statements:

- To conclude whether, in the auditor's judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time
- When such substantial doubt exists, to evaluate the adequacy of the financial statement disclosures

The ASB believes this is essential guidance for section 800 that does not create a difference in the application of the requirements of the ISAs and the requirements of GAAS.

ISA 805 (Revised), Special Considerations — Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement, Compared to Section 805, Special Considerations — Audits of Single Financial Statements and Specific Elements, Accounts, or Items of a Financial Statement

Requirements in the ISAs Not in GAAS

Form of Opinion

Paragraph 9 of ISA 805 requires the auditor to consider whether the expected form of opinion is appropriate in the circumstances. This requirement was not included in section 805 because the circumstances to which it relates are not applicable in the United States.

Requirements in GAAS Not in the ISAs

Considerations When Accepting the Engagement and Planning and Performing the Audit

Paragraph .10 of section 805 requires the auditor to obtain an understanding of (a) the purpose for which the single financial statement or specific element of a financial statement is prepared, (b) the intended users, and (c) the steps

taken by management to determine that the application of the financial reporting framework is acceptable in the circumstances. The ASB believes this requirement is necessary in determining the acceptability of the financial reporting framework that is applicable to a single financial statement or a specific element of a financial statement.

Paragraph .09 of section 805 requires the auditor to determine whether the auditor will be able to perform procedures on interrelated items as a consideration when accepting the engagement. Paragraph .13 of section 805 includes a requirement for the auditor to perform procedures on interrelated items as necessary to meet the objective of the audit. In the case of an audit of a specific element that is, or is based upon, the entity's stockholders' equity or net income (or the equivalents thereto), paragraph .13 of section 805 further requires the auditor to perform procedures necessary to obtain sufficient appropriate audit evidence about financial position, or financial position and results of operations, respectively, because of the interrelationship between the element and the balance sheet accounts and the income statement accounts.

Materiality

Paragraph .14 of section 805 requires the auditor to determine materiality for the single financial statement being reported on, and in the case of an audit of one or more specific elements of a financial statement, materiality for each individual element reported on.

Reporting on an Incomplete Presentation but One That Is Otherwise in Accordance With GAAP

When the auditor reports on an incomplete presentation but one that is otherwise in accordance with GAAP, paragraph .24 of section 805 requires the auditor to include an emphasis-of-matter paragraph in the auditor's report, alerting users as to the purpose of the presentation and that the presentation is incomplete. ISA 805 does not address reporting on incomplete presentations that are otherwise in accordance with the applicable financial reporting framework.

ISA 805 does not contain these requirements.

Differences Between Requirements

Reporting on the Entity's Complete Set of Financial Statements and a Single Financial Statement or a Specific Element of Those Financial Statements

Paragraph 12 of ISA 805 requires the auditor to express a separate opinion for each engagement when undertaking an engagement to report on a single financial statement or a specific element of a financial statement in conjunction with an engagement to audit the entity's complete set of financial statements. Paragraph .16 of section 805 requires that the separate opinions be in separate auditor's reports and that the report on a specific element include certain information about the auditor's report on the entity's complete set of financial statements.

Paragraph .20 of section 805 address the case of an audit of a specific element of a financial statement when the opinion in the auditor's report on an entity's complete set of financial statements is modified and the modification of the auditor's opinion is relevant to the audit of the specific element. In such cases, the auditor is required to express either an adverse opinion or disclaim an opinion on the specific element, depending on the reasons for the modification of the auditor's opinion on the complete set of financial statements. ISA 805 does not

specifically require an adverse opinion or disclaimer of opinion in such circumstances.

Paragraph 16 of ISA 805 addresses situations when the auditor concludes that it is necessary to express an adverse opinion or disclaim an opinion on the entity's complete set of financial statements as a whole, but in the context of a separate audit of a specific element that is included in those financial statements, the auditor nevertheless considers it appropriate to express an unmodified opinion on that element. In addition to the matters in ISA 805, paragraph .21 of section 805 precludes such reporting when the specific element is, or is based upon, the entity's stockholders' equity or net income (or the equivalent thereto).

ISA 810 (Revised), *Engagements to Report on Summary Financial Statements*, Compared to Section 810, *Engagements to Report on Summary Financial Statements*

Differences in Wording

Paragraph .05 of section 810 includes more specificity than is in paragraph 3 of ISA 810, including an objective to perform the procedures necessary as the basis for the auditor's opinion on the summary financial statements, and a description of the opinion. The ASB believes that these changes do not create differences between the intent of ISA 810 and the intent of section 810.

Paragraph 6(b)(ii) of ISA 810 requires that management make the audited financial statements available to the intended users of the summary financial statements without undue difficulty. Section 810 requires in paragraph .09b(ii) that management make the audited financial statements readily available. This is not a substantive difference between ISA 810 and the section 810. The terminology in section 810 aligns with section 930, *Interim Financial Information*.

If the summary financial statements contain comparatives that were reported on by another auditor, both ISA 810 and section 810 require the auditor's report on the summary financial statements to contain certain matters. Such matters are included directly in paragraph .23 of section 810 and incorporated in paragraph 22 of ISA 810 by reference to ISA 710.

Requirements in the ISAs Not in GAAS

Paragraphs 6–7 of ISA 810 include requirements pertaining to (a) criteria established by law or regulation, (b) situations in which law or regulation does not require the audited financial statements to be made available, and (c) accepting the engagement when required by law or regulation to do so. These requirements were not included in section 810 because they are not applicable to the United States.

Paragraph 9 of ISA 810 permits the use of two different phrases when opining on summary financial statements. Paragraph .14 of section 810 only includes one of these phrases, which is consistent with practice.

Paragraphs 10–11 of ISA 810 address situations when regulation prescribes the wording of the opinion on the summary financial statements in terms that

are different from those described in ISA 810. These requirements were not included in section 810 as they are not applicable in the United States.

Paragraph 15 of ISA 810 requires the auditor to evaluate the appropriateness of using a different addressee, if the addressee of the summary financial statements is not the same as the addressee of the auditor's report on the audited financial statements. Section 810 does not include this requirement because the ASB believes having different addressees is never appropriate.

Requirements in GAAS Not in the ISAs

Paragraph 6(a) of ISA 810 requires the auditor to determine whether the applied criteria are acceptable. The requirement in paragraph .09a of section 810 was expanded to clarify what constitutes acceptable criteria.

Paragraph .09b(iii) of section 810 requires the auditor to obtain the agreement of management that it acknowledges and understands its responsibility to provide the auditor with written representations, as described in paragraph .12 of section 810. ISA 810 does not include such a requirement.

Paragraphs .12–.13 of section 810 include requirements for the auditor to request management to provide written representations related to the summary financial statements. Such representations are necessary in the United States, particularly in situations when the auditor's report on the summary financial statements is dated later than the auditor's report on the audited financial statements. ISA 810 does not include any requirements for written representations.

Paragraph .19 of section 810 was expanded to require the auditor to withdraw from the engagement to report on the summary financial statements when withdrawal is possible under applicable law or regulation and when the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion. Paragraph .19d of section 810 further clarifies the reporting elements when the auditor issues a report on the summary financial statements in those situations when it is not possible to withdraw from the engagement.

Paragraph .15e(i–ii) of section 810 includes additional elements for the auditor's report on the summary financial statements with regard to the nature of the procedures that were performed by the auditor on the summary financial statements, including that the auditor did not perform audit procedures regarding the audited financial statements after the date of the report on those financial statements if the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements.

Paragraph .24 of section 810 includes an additional reporting requirement if the summary financial statements contain comparatives that were not reported on by the auditor or another auditor.

Paragraph .27 of section 810 includes additional requirements related to other information, which require the auditor to discuss the matter with management if the auditor identifies a material inconsistency and to consider appropriate further action in the circumstances if the auditor identifies a material inconsistency or becomes aware of an apparent material misstatement of fact.

Differences Between Requirements

Paragraph 19 of ISA 810 addresses the reporting elements when the auditor expresses an unmodified opinion on the summary financial statements and the

auditor's report on the audited financial statements contains certain specified elements, including a statement that describes an uncorrected material misstatement of other information. In ISA 810, the requirement in this paragraph only applies when the auditor expresses an unmodified opinion on the summary financial statements. The comparable requirement in paragraph .18 of section 810 applies when the auditor expresses either an unmodified opinion or an adverse opinion on the summary financial statements and does not address situations in which the auditor's report on the audited financial statements includes a statement that describes an uncorrected material misstatement of other information.

Section 810, in paragraph .21, eliminated the reference to the restriction on distribution of the auditor's report in paragraph 20 of ISA 810. In the United States, use of an auditor's report is restricted, not its distribution. An auditor is not responsible for controlling management's distribution of restricted-use reports.

communication

COMMUNICATION—continued

- Communicating internal control related matters identified in an audit. 265.01–A39, ... 9265.01–10
- appropriateness of identifying no significant deficiencies or no material weaknesses in an interim communication. 9265.08–10
- communication of deficiencies 265.11–16, ... 265.A15–A36
- communication of deficiencies and material weaknesses prior to the completion of compliance audit for auditors not participating in OMB Single Audit Pilot Project 9265.04–07
- communication of deficiencies and material weaknesses prior to the completion of compliance audit for participants in OMB Single Audit Pilot Project 9265.01–03
- examples of circumstances 265.A37
- identifying, evaluating deficiencies 265.08–10, 265.A1–A14
- Component auditor, with a 600.40–42, ... 600.59–62, 600.A86–A89
- Control environment 315A.A80, 315A.A166
- Entity's legal counsel. 501.19–25, ... 501.A47–A66, 501A.18–24, ... 501A.A46–A65
- Financial reporting 315A.A100
- Group management, with. 600.45–47, ... 600.A70–A71
- ICFR-related matters 940.59–63, ... 940.A105–A112
- Leadership responsibilities for quality on audit. 220A.A3, 220A.A12, 220A.A19
- Matters involving identified or suspected noncompliance 250.A26
- Misstatements, of 450.07–09
- Nature of 300.A27
- Restricted use. 905.01–A13
- Review of interim financial information, about 930.23–28, 930.38, 930.44, ... 930.A33–A38
- Risk assessment procedures 240.17
- Significant deficiencies and material weaknesses 402.A41
- Those charged with governance 260.01–A49, 300.A13
- audit committee or other subgroup 260.08, 260.A10–A12
- between management and 315A.20
- documentation 260.21, 260.A56
- emphasis-of-matter and other-matter paragraphs 706.12, 706.A16
- going concern. 570.28, 570.A58
- in an audit of group financial statements 600.48, 600.63, 600.A72
- management 260.09, 260.14
- matters to be communicated. 260.10–14, ... 260.A13–A42
- modified opinion 705.29, 705.A31

COMMUNICATION—continued

- qualitative aspects of accounting practices 260.12, 260.A27–A29, ... 260.A57
- role of communication 260.03, ... 260.A1–A5
- those charged with governance 260.A6–A9
- When identifying fraud 240.39–42, ... 240.A68–A75
- With service auditor 402.A10

COMPARATIVES. See financial statements**COMPETENCE**

- Internal auditors 610.A38–A40
- Internal audit function 610.13–14, 610.17, ... 610.23–27, 610.33–34, 610.A5–A9

COMPLIANCE. See reporting; laws and regulations in an audit of financial statements**COMPLIANCE AUDITS**

- Agreed-upon procedures engagement 935.A1
- Applicability 935.01–07, 935.A1–A2

OVERALL OBJECTIVES OF THE INDEPENDENT AUDITOR

- Audit of financial statements
 - materiality 200.A14
 - preparation and fair presentation 200.A2–A13
 - scope of audit 200.A1
 - Conduct of an audit in accordance with GAAS
 - complying with AU-C sections ... 200.20–24, ... 200.A72–A76
 - complying with relevant requirements 200.A77–A80
 - contents of GAAS 200.A63–A71
 - failure to achieve an objective 200.29, 200.A85–A86
 - interpretive publications 200.27, 200.A81
 - nature of GAAS 200.A57–A62
 - other auditing publications 200.28, ... 200.A82
 - professional responsibilities in GAAS 200.25–26
 - Ethical requirements

OVERALL OBJECTIVES OF THE INDEPENDENT AUDITOR—continued

- audits of financial statements . . . 200.15–.16,
200.A15–.A20
- audits of governmental entities . . . 200.A21
- Overall objectives . . . 200.12–.13
- Professional judgment . . . 200.18,
200.A27–.A31
- Professional skepticism . . . 200.17,
200.A22–.A26
- Sufficient appropriate audit evidence and audit
risk
- audit evidence . . . 200.A32–.A35
- audit risk
- detection of audit risk . . . 200.A46–.A48
- explanation of audit risk . . . 200.14,
200.A36–.A37
- inherent limitations . . . 200.A49–.A56
- material misstatement . . . 200.A38–.A45
- obtaining reasonable assurance . . . 200.19

P

PENSION PLAN

- Governmental cost-sharing multiple-employer
plan . . . 9500A.23–.29, 9805.01–.07
- Participating employer in a governmental
plan . . . 9600.01–.02

PLANNING

- Activities . . . 300.07–.11, 300.A9–.A19
- Analytical procedures . . . 240.A26
- Audit of financial statements prepared in
accordance with a financial reporting
framework generally accepted in another
country . . . 910.06
- Audit plan . . . 300.A14–.A16
- Audit procedures . . . 200.07–.08, 200.A40,
200.A47, 200.A74
- GAAS . . . 200.23
- interpretive publications . . . 200.27
- Benefits of adequate planning . . . 300.02
- Changes . . . 300.A27
- Communications with those charged with
governance . . . 300.A13
- Compliance auditing . . . 935.05, 935.31,
935.A20–.A26
- Component auditor work, of . . . 600.A93
- Consideration of misstatements . . . 450.06
- Considerations specific to smaller
entities . . . 300.A12, 300.A26
- Direction, supervision, and
review . . . 300.A18–.A19
- Documentation . . . 300.14, 300.A23–.A26
- Engagement team members . . . 300.05,
300.11, 300.A4–.A5
- Financial reporting
- balance between benefit and
cost . . . 200.A52–.A54
- timeliness . . . 200.A52–.A54
- Initial audit engagements . . . 300.A22
- Materiality . . . 200.07

PLANNING—continued

- Matters to discuss with those charged with
governance . . . 260.A13–.A42
- Nature and extent of planning
activities . . . 300.09, 300.A1
- Overall audit strategy . . . 300.07–.08,
300.A9–.A11, 300.A25
- Preliminary engagement activities . . . 300.06,
300.A6–.A8
- Reporting on applicable financial reporting
framework . . . 915.12–.13, 915.A2–.A4
- Risk of material misstatement . . . 315A.09
- Role and timing . . . 300.02, 300.A1–.A3
- Specialized skills . . . 300.12, 300.A20–.A21
- Understanding internal audit
function . . . 610.A24–.A25

PROFESSIONAL JUDGMENT

- Audit documentation . . . 230.08,
230.A10–.A13
- Audit of financial statements . . . 200.18,
200.A27–.A31, 260.12, 260.A13
- Definition . . . 200.14
- Independence . . . 260.A15
- GAAS requirements . . . 200.08
- Identifying deficiencies in internal
control . . . 265.06, 265.11–.16, 265.A18,
265.A24, 265.A26
- Noncompliance . . . 250.18, 250.22

Q

QUALIFIED OPINION

- Departure from GAAP . . . 9620.21, 9620A.21
- Derecognition of transferred
assets . . . 9620.21, 9620A.21
- Matters requiring specialists . . . 9620.21,
9620A.21

QUALITY CONTROL

- Audit documentation . . . 230.03,
230.A23–.A24
- Audit engagements . . . 200.A20–.A21
- Audit evidence . . . 200.A32
- Auditor firm's policies and
procedures . . . 620.A12–.A14,
620A.A12–.A14
- For an engagement conducted in accordance
with GAAS . . . 220A.01–.A37
- acceptance and continuance of client
relationships and audit
engagements . . . 220A.14–.15, 220A.A7–.A8
- assignment of engagement
teams . . . 220A.16, 220A.A9–.A11
- documentation . . . 220A.25–.26,
220A.A36–.A37
- engagement performance . . . 220A.17–.23,
200.A12–.A31
- ethical requirements . . . 220A.11–.12, 220A.A4
- independence . . . 220A.13, 220A.A5–.A6
- leadership responsibilities . . . 220A.10,
220A.A3

QUALITY CONTROL—continued

- monitoring 220A.24, 200.A32–A34
- role of engagement team 220A.04–06
- systems (procedures and policies) 220A.03–06, 220A.A1–A2
- Group audit engagement 600.05, 600.A42–44
- Key audit matters 220A.A28

QUALITY MANAGEMENT

- Acceptance and continuance of client relationships and audit engagements 220.22–24, 220.A49–A58
- Definitions 220.12, 220.A15–A27
- Documentation 220.41, 220.A118–A121
- Engagement performance 220.29–38, 220.A81–A109
- Engagement resources 220.25–28, 220.A59–A80
- Firm's system of quality management and the role of engagement teams 220.03–09, 220.A2–A14
- Leadership responsibilities for managing and achieving quality on audits 220.13–15, 220.A28–A37
- Monitoring and remediation 220.38, 220.A110–A117
- Relevant ethical requirements, including those related to independence 220.16–21, 220.A38–A48
- Taking overall responsibility for managing and achieving quality 220.40

R

REGULATIONS AND LAWS

- Independence 705.16
- Regulatory basis 800.07
- Reporting on compliance. See reporting on compliance with aspects of contractual agreements or regulatory requirements in connection with audited financial statements
- Special purpose frameworks. See also special purpose frameworks 800.01–A35

RELATED PARTIES

- Communication with those charged with governance 540A.A127, 550.29, 550.A53
- Documentation 550.30
- Evaluation of the accounting for, and disclosure of, identified related party relationships and transactions 550.28, 550.A51–A52
- Identification and assessment of the risks of material misstatement 550.20–21, 550.A32
- Nature of relationships and transactions 550.03, 550.A1–A6
- Responses to the risks of material misstatement 550.22–27, 550.A35–A50
- Responsibilities of the auditor 550.04–07
- Risk assessment procedures 550.12–19, 550.A7–A31
- Written representations 580.17, 580.A15–A16

RELEVANCE

- Internal audit function 610.15

REPORTING

- Application of requirements of an applicable financial reporting framework 915.01–A8
- Compliance with aspects of contractual agreements or regulatory requirements in connection with audited financial statements 806.01–A8
- adverse opinion 806.09
- disclaimer of opinion 806.09
- illustrations 806.A8
- noncompliance 806.A5

* This table lists Statements on Standards for Attestation Engagements (SSAEs) issued subsequent to SSAE No. 18, *Attestation Standards: Clarification and Recodification*, which was issued in April 2016. Refer to part II, "List of Statement on Standards for Attestation Engagements Nos. 1–17," of this section for SSAEs issued prior to SSAE No. 18.

¹ SSAE No. 18 created various sections throughout *U.S. Attestation Standards—AICPA (Clarified)*. See the following section, "Sources of Sections in Current Text," for a full list.

² SSAE No. 19 has been integrated within paragraphs 105.02–.03, .09–.10, .25, .A2–.A3, .A28, .A35, .A37, .A39, .A41, and .A56.

SSAE No. 19 is effective for agreed-upon procedures reports dated on or after July 15, 2021.

³ SSAE No. 20 has been integrated within sections 205.A17 and 210.A16.

⁴ SSAE No. 21 has been integrated within paragraphs 105.01–.04, .11–.14, .18, .21, .26–.30, .34, .36, .45–.46, .A1, .A7, .A9–.A11, .A13, .A15–.A16, .A20, .A24, .A27–.A32, .A34, .A36–.A45, .A51–.A53, .A56–.A57, .A59, .A61–.A63, .A66, .A72, and .A76.

SSAE No. 21 is effective for practitioners' reports dated on or after June 15, 2022.

⁵ Statement on Auditing Standards (SAS) No. 146, *Quality Management for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, has been integrated within section 105.06–.07.

The amendments in SAS No. 146 are effective for engagements conducted in accordance with generally accepted auditing standards for periods beginning on or after December 15, 2025, and can be viewed in the appendix of AU-C section 220 until the effective date, when they will be applied to this section.

395	<i>Designated for AT Section 701, Management's Discussion and Analysis</i>	SSAE No. 10 ⁶

⁶ SSAE No. 18 does not supersede chapter 7, "Management's Discussion and Analysis," of SSAE No. 10, *Attestation Standards: Revision and Recodification*, which is currently codified as AT section 701. The Auditing Standards Board (ASB) has not clarified AT section 701 because practitioners rarely perform attest engagements to report on management's discussion and analysis prepared pursuant to the rules and regulations adopted by the SEC. Therefore, the ASB decided that it would retain AT section 701 in its current unclarified format as AT-C section 395 until further notice.

AT-C Introduction

Foreword

Authority of the SSAEs

Statements on Standards for Attestation Engagements (SSAEs) are issued by senior committees of the AICPA designated to issue pronouncements on attestation matters. The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct requires an AICPA member (a practitioner) performing an attestation engagement for a nonissuer¹ to comply with AICPA Statements on Standards for Attestation Engagements. A practitioner must comply with an unconditional requirement in all cases in which such requirement is relevant. A practitioner also must comply with a presumptively mandatory requirement in all cases in which such requirement is relevant. However, if, in rare circumstances, a practitioner judges it necessary to depart from a relevant presumptively mandatory requirement, the practitioner should perform alternative procedures to achieve the intent of that requirement and must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement.

Exhibits and interpretations to SSAEs are *interpretive publications*, as defined in section 105. Section 105 requires the practitioner to consider applicable interpretive publications in planning and performing the attestation engagement. Interpretive publications are not attestation standards. Interpretive publications are recommendations on the application of the SSAEs in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of the relevant senior committee after all members of the applicable committee have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with the SSAEs. Attestation interpretations are included in AT-C sections. AICPA Guides and Attestation Statements of Position are listed in AT-C appendix A, *AICPA Guides and Statements of Position*.

AUDITING STANDARDS BOARD
Sara Lord, *Chair*
Jennifer Burns, Chief Auditor — AICPA

¹ See the definition of the term *nonissuer* in the AU-C Glossary.

AT-C Preface

Preface to the Attestation Standards

.01 The Statements on Standards for Attestation Engagements (SSAEs or attestation standards) establish requirements and provide application guidance for performing and reporting on examination, review, and agreed-upon procedures engagements (attestation engagements). Examples of subject matter for attestation engagements are a schedule of investment returns, the effectiveness of an entity's controls over the security of a system, or a statement of greenhouse gas emissions.

.02 The attestation standards are issued through a due process that includes deliberation in meetings open to the public, public exposure of proposed attestation standards, and a formal vote by an authorized standard-setting body.

.03 The attestation standards are developed and issued in the form of SSAEs and are codified into sections.

Structure of the Attestation Standards

.04 The attestation standards apply to three levels of service—examination, review, and agreed-upon procedures—and can be applied to innumerable types of subject matter. The applicability of specific AT-C sections to an engagement depends on both the level of service provided and the subject matter on which the practitioner is engaged to report.

.05 Section 105, *Concepts Common to All Attestation Engagements*, contains concepts that are relevant to any attestation engagement. The level of service sections are the examination level sections, which include section 205, *Assertion-Based Examination Engagements* and section 206, *Direct Examination Engagements*; section 210, *Review Engagements*; and section 215, *Agreed-Upon Procedures Engagements*. Each of these sections contain additional requirements and application guidance specific to examination, review, or agreed-upon procedures engagements, respectively. Under the attestation standards, the applicable requirements and application guidance for any attestation engagement are contained in at least two sections: section 105 and section 205, 206, 210, or 215, depending on the specific service being provided. In addition, incremental performance and reporting requirements and application guidance unique to specific subject matters, such as prospective financial information or compliance with laws and regulations, are contained in the subject-matter sections. The applicable requirements and application guidance for a subject-matter-specific engagement is contained in three sections: section 105; section 205, 210, or 215, as applicable; and the applicable subject-matter section. Section 206 is not mentioned because section 206 does not permit the performance of a direct examination engagement of the subject matters currently covered by the subject-matter sections.

Purpose of the Engagement and Premise on Which an Attestation Engagement Is Conducted

.06 The purpose of an examination or review engagement is to provide users of information with an opinion or conclusion regarding the underlying

subject matter, as measured or evaluated against suitable and available criteria. (An examination engagement results in an opinion and a review engagement results in a conclusion. The purpose of an agreed-upon procedures report is to enhance users' confidence in the subject matter by providing findings from procedures performed by the practitioner on underlying subject matter or subject matter information.)

Premise Upon Which an Attestation Engagement is Conducted

.07 An engagement in accordance with the attestation standards is conducted on the premise that the responsible party is responsible for certain matters, including:

- the underlying subject matter (and, if applicable, the preparation and presentation of the subject matter) in accordance with (or based on) the criteria
- in an assertion-based examination engagement and in a review engagement, the subject matter and its assertion about the subject matter;
- in an assertion-based examination engagement and in a review engagement, the subject matter being in accordance with the criteria.

.08 Practitioners are responsible for complying with the relevant performance and reporting requirements established in the attestation standards when they are engaged to issue, or do issue, an examination, review, or agreed-upon procedures report on subject matter or an assertion about subject matter that is the responsibility of another party (the responsible party). Although a practitioner may assist the responsible party in developing or presenting the subject matter, the responsible party remains responsible for the subject matter. The term *subject matter* includes both underlying subject matter and subject matter information. The terms *underlying subject matter* and *subject matter information* are defined in the glossary.

Responsibilities

.09 In all services provided under the attestation standards, practitioners are responsible for

- having the appropriate competence and capabilities to perform the engagement,
- complying with relevant ethical requirements,
- maintaining professional skepticism, and
- exercising professional judgment throughout the planning and performance of the engagement.

Performance

.10 To express an opinion in an assertion-based examination, the practitioner obtains reasonable assurance about whether the subject matter, or an assertion about the subject matter, is free from material misstatement, whether due to fraud or error. In a direct examination, the practitioner obtains reasonable assurance by measuring or evaluating the underlying subject matter

against the criteria and performing other procedures to obtain sufficient appropriate evidence to express an opinion that conveys the results of that measurement or evaluation. To obtain reasonable assurance, which is a high but not absolute level of assurance, the practitioner

- plans the work and properly supervises other members of the engagement team.
- identifies and assesses the risks of material misstatement, whether due to fraud or error, based on an understanding of the subject matter, its measurement or evaluation, the criteria, and other engagement circumstances.
- obtains sufficient appropriate evidence about whether material misstatements exist by designing and implementing appropriate responses to the assessed risks. Examination procedures may involve inspection, observation, analysis, inquiry, reperformance, recalculation, or confirmation with outside parties.

.11 To express a conclusion in a review, the practitioner obtains limited assurance about whether any material modification should be made to the subject matter in order for it to be in accordance with (or based on) the criteria or the assertion in order for it to be fairly stated. In a review, the nature and extent of the procedures are substantially less than in an examination. To obtain limited assurance in a review, the practitioner

- plans the work and properly supervises other members of the engagement team.
- focuses procedures in those areas in which the practitioner believes increased risks of misstatements exist, whether due to fraud or error, based on the practitioner's understanding of the subject matter, its measurement or evaluation, the criteria, and other engagement circumstances.
- obtains sufficient appropriate review evidence to obtain limited assurance about whether any material modifications should be made to the subject matter in order for it to be in accordance with (or based on) the criteria.

.12 To report on the application of agreed-upon procedures, the practitioner performs specific procedures on underlying subject matter or subject matter information and reports the findings without providing an opinion or a conclusion. In an agreed-upon procedures engagement, the practitioner

- plans the work and properly supervises other members of the engagement team.
- performs the specific procedures agreed to and acknowledged by the engaging party to meet the intended purpose of the engagement established with the engaging party and reports on the results of the procedures.

Reporting

.13 Based on evidence obtained, the practitioner expresses an opinion in an examination, expresses a conclusion in a review, or reports findings in an agreed-upon procedures engagement. In the case of an assertion-based examination, the practitioner's report provides an opinion about whether the subject matter, as measured against the criteria, is in accordance with (or based on) the criteria (or whether the assertion about the subject matter is fairly stated),

in all material respects. In a direct examination engagement, the practitioner's report expresses an opinion that conveys the results of the practitioner's measurement or evaluation of the underlying subject matter against the criteria. In a review, the report expresses a conclusion about whether, based on the procedures performed, the practitioner is aware of any material modification that should be made to the subject matter in order for it to be in accordance with (or based on) the criteria or to the assertion in order for it to be fairly stated. In an agreed-upon procedures report, the practitioner describes the specified procedures that were applied to the subject matter and the results of those procedures.

AT-C Glossary

*Glossary of Terms*¹

Appropriate party. Reference to this term should be read as the *responsible party* or the *engaging party*, as appropriate. Also see **engaging party** and **responsible party**.

Appropriateness of evidence (in the context of section 205, *Examination Engagements*). The measure of the quality of evidence, that is, its relevancy and reliability in providing support for the practitioner's opinion. Also see **evidence**.

Appropriateness of review evidence (in the context of section 210, *Review Engagements*). The measure of the quality of review evidence, that is, its relevancy and reliability in providing support for the practitioner's conclusion. Also see **review evidence**.

Assertion. Any declaration or set of declarations about whether the underlying subject matter or subject matter information is in accordance with (or based on) the criteria. An assertion is subject matter information.

Attestation engagement. An engagement performed under the attestation standards. The following are the four types of attestation engagements:

- a. *Assertion-based examination engagement.* An attestation engagement in which the practitioner obtains reasonable assurance by obtaining sufficient appropriate evidence about the responsible party's measurement or evaluation of the underlying subject matter against criteria in order to be able to draw reasonable conclusions on which to base the practitioner's opinion about whether the subject matter is in accordance with (or based on) the criteria or the responsible party's assertion is fairly stated, in all material respects.
- b. *Direct examination engagement.* An attestation engagement in which the practitioner obtains reasonable assurance by measuring or evaluating the underlying subject matter against the criteria and performing other procedures to obtain sufficient appropriate evidence to express an opinion that conveys the results of that measurement or evaluation. In a direct examination engagement, the responsible party does not provide an assertion.
- c. *Review engagement.* An attestation engagement in which the practitioner obtains limited assurance by obtaining sufficient appropriate review evidence about the responsible party's measurement or evaluation of the underlying subject matter against criteria in order to express a conclusion about whether any material modification should be made to the subject matter information in order for it to be in accordance with (or based on) the criteria or to the responsible party's assertion in order for it to be fairly stated.

¹ This glossary lists terms defined in the "Definitions" sections of the attestation standards as well as certain terms defined or explained in other sections of the attestation standards. Terms defined for purposes of a specific section are denoted as such. Terms may appear in more than one section.

- d. *Agreed-upon procedures engagement.* An attestation engagement in which a practitioner performs specific procedures on underlying subject matter or subject matter information and reports the findings without providing an opinion or a conclusion.

Also see **specified party** and **attestation standards**.

Attestation risk. In an examination or review engagement, the risk that the practitioner expresses an inappropriate opinion or conclusion, as applicable, when the subject matter information (or assertion) is materially misstated.

Attestation standards. The Statements on Standards for Attestation Engagements (SSAEs), which are also known as the *attestation standards*, establish requirements and provide guidance for performing and reporting on examination, review, and agreed-upon procedures engagements (attestation engagements). Examples of subject matter for attestation engagements are a schedule of investment returns, the effectiveness of an entity's controls over the security of a system, or a statement of greenhouse gas emissions. The SSAEs apply only to attestation engagements performed under the SSAEs. They are issued under the "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct, which requires an AICPA member who performs an attestation engagement to comply with standards promulgated by bodies designated by AICPA Council. AICPA Council has granted the Auditing Standards Board authority to promulgate the attestation standards, which are issued through a due process that includes deliberation in meetings open to the public, public exposure of proposed attestation standards, and a formal vote by an authorized standard-setting body. Also see **attestation engagement**.

Carve-out method (in the context of section 320, *Reporting on an Examination of Controls at a Service Organization Relevant to User Entities' Internal Control Over Financial Reporting*). Method of addressing the services provided by a subservice organization, whereby management's description of the service organization's system identifies the nature of the services performed by the subservice organization and excludes from the description and from the scope of the service auditor's engagement the subservice organization's relevant control objectives and related controls.

Complementary subservice organization controls (in the context of section 320). Controls that management of the service organization assumes, in the design of the service organization's system, will be implemented by the subservice organizations and are necessary to achieve the control objectives stated in management's description of the service organization's system.

Complementary user entity controls (in the context of section 320). Controls that management of the service organization assumes, in the design of the service organization's system, will be implemented by user entities and are necessary to achieve the control objectives stated in management's description of the service organization's system.

Compliance with specified requirements (in the context of section 315, *Compliance Attestation*). An entity's compliance with specified laws, regulations, rules, contracts, or grants.

Control objectives (in the context of section 320). The aim or purpose of specified controls at the service organization. Control objectives address the risks that controls are intended to mitigate.

Controls at a service organization (in the context of section 320). The policies and procedures at a service organization likely to be relevant to user entities' internal control over financial reporting. These policies and procedures are designed, implemented, and documented by the service organization to provide reasonable assurance about the achievement of the control objectives relevant to the services covered by the service auditor's report.

In the context of section 320, the policies and procedures include aspects of the information and communications component of user entities' internal control maintained by the service organization and control activities related to the information and communications component and may also include aspects of one or more of the other components of internal control at a service organization. For example, the definition of *controls at a service organization* may include aspects of the service organization's control environment, risk assessment, monitoring activities, and control activities when they relate to the services provided. Such definition does not, however, include controls at a service organization that are not related to the achievement of the control objectives stated in management's description of the service organization's system, for example, controls related to the preparation of the service organization's own financial statements.

Criteria. The benchmarks used to measure or evaluate the underlying subject matter.

Criteria for the preparation of pro forma financial information (in the context of section 310, *Reporting on Pro Forma Financial Information*). The basis disclosed in the pro forma financial information that management used to develop the pro forma financial information, including the assumptions underlying the pro forma financial information. Paragraph .11 of section 310 contains the attributes of suitable criteria for an examination or review of pro forma financial information.

Documentation completion date. The date on which the practitioner has assembled for retention a complete and final set of documentation in the engagement file.

Engagement circumstances. The broad context defining the particular engagement, which includes the terms of the engagement; whether it is an examination, review, or agreed-upon procedures engagement; the characteristics of the underlying subject matter; the criteria; the information needs of the intended users; relevant characteristics of the responsible party and, if different, the engaging party and their environment; and other matters, for example, events, transactions, conditions and practices, and relevant laws and regulations, that may have a significant effect on the engagement.

Engagement documentation. The record of procedures performed, relevant evidence obtained, and, in an examination or review engagement, conclusions reached by the practitioner, or in an agreed-upon procedures engagement, findings of the practitioner. (Terms such as *working papers* or *workpapers* are also sometimes used).

Engagement partner. The partner or other person in the firm who is responsible for the attestation engagement and its performance and for the practitioner's report that is issued on behalf of the firm and who, when required, has the appropriate authority from a professional, legal, or regulatory body. *Engagement partner*, *partner*, and *firm* refer to their governmental equivalents when relevant. Also see **firm** and **practitioner**.

Engagement team. All partners and staff performing the engagement and any individuals engaged by the firm or a network firm who perform attestation procedures on the engagement. This excludes a practitioner's external specialist and engagement quality control reviewer engaged by the firm or a network firm. The term *engagement team* also excludes individuals within the client's internal audit function who provide direct assistance.

Engaging party. The party(ies) that engages the practitioner to perform the attestation engagement. Also see **appropriate party** and **responsible party**.

Entity (in the context of section 305, *Prospective Financial Information*). Any unit, existing or to be formed for which financial statements could be prepared in accordance with generally accepted accounting principles or special purpose frameworks. For example, an entity can be an individual, partnership, corporation, trust, estate, association, or governmental unit.

Evidence. Information used by the practitioner in arriving at the opinion, conclusion, or findings on which the practitioner's report is based. Also see **appropriateness of evidence** and **sufficiency of evidence**.

Financial forecast (in the context of section 305). Prospective financial statements that present, to the best of the responsible party's knowledge and belief, an entity's expected financial position, results of operations, and cash flows. A financial forecast is based on the responsible party's assumptions reflecting conditions it expects to exist and the course of action it expects to take. A financial forecast may be expressed in specific monetary amounts as a single-point estimate of forecasted results or as a range, when the responsible party selects key assumptions to form a range within which it reasonably expects, to the best of its knowledge and belief, the item or items subject to the assumptions to actually fall. If a forecast contains a range, the range is not selected in a biased or misleading manner (for example, a range in which one end is significantly less expected than the other).

Financial projection (in the context of section 305). Prospective financial statements that present, to the best of the responsible party's knowledge and belief, given one or more hypothetical assumptions, an entity's expected financial position, results of operations, and cash flows. A financial projection is sometimes prepared to present one or more hypothetical courses of action for evaluation, as in response to a question such as, "What would happen if...?" A financial projection is based on the responsible party's assumptions reflecting conditions it expects would exist and the course of action it expects would be taken, given one or more hypothetical assumptions. A projection, like a forecast, may contain a range.

Firm. A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the AICPA and that is engaged in the practice of public accounting. Also see **engagement partner** and **practitioner**.

Forecast (in the context of section 305). Used alone, this term means forecasted information, which can be either a full presentation (a financial forecast) or a partial presentation. Also see **financial forecast**.

Fraud. An intentional act involving the use of deception that results in a misstatement in the subject matter or the assertion.

General use. Use of a practitioner's report that is not restricted to specified parties.

General use of prospective financial statements (in the context of section 305). Refers to the use of the statements by persons with whom the responsible party is not negotiating directly, for example, in an offering statement of an entity's debt or equity interests. Also see **limited use of prospective financial statements** and **prospective financial statements**.

Guide (in the context of section 305). The AICPA Guide *Prospective Financial Information*.

Hypothetical assumption (in the context of section 305). An assumption used in a financial projection or in a partial presentation of projected information to present a condition or course of action that is not necessarily expected to occur but is consistent with the purpose of the projection.

Inclusive method (in the context of section 320). Method of addressing the services provided by a subservice organization whereby management's description of the service organization's system includes a description of the nature of the services provided by the subservice organization as well as the subservice organization's relevant control objectives and related controls.

Internal audit function. A function of an entity that performs assurance and consulting activities designed to evaluate and improve the effectiveness of the entity's governance, risk management, and internal control processes.

Internal control over compliance (in the context of section 315). An entity's internal control over compliance with specified requirements. The internal control addressed in section 315 may include part of, but is not the same as, internal control over financial reporting.

Interpretive publications. Interpretations of the Statements on Standards for Attestation Engagements (SSAEs), exhibits to SSAEs, guidance on attestation engagements included in AICPA Audit and Accounting Guides and AICPA Attestation Statements of Position to the extent that those statements are applicable to such engagements. Also see **other attestation publications**.

Key factors (in the context of section 305). The significant matters on which an entity's future results are expected to depend. Such factors are basic to the entity's operations and, thus, encompass matters that affect, among other things, the entity's sales, production, service, and financing activities. Key factors serve as a foundation for prospective financial information and are the bases for the assumptions.

Limited use of prospective financial statements (in the context of section 305). Refers to the use of prospective financial statements by the responsible party alone or by the responsible party and third parties with whom the responsible party is negotiating directly. Examples include use in negotiations for a bank loan, submission to a regulatory agency, and use solely within the entity. Also see **general use of prospective financial statements** and **prospective financial statements**.

Management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design of controls (referred to in the context of section 320 as a type 1 report). A service auditor's report that comprises the following:

- i. Management's description of the service organization's system
- ii. A written assertion by management of the service organization about whether, based on the criteria
 - (1) management's description of the service organization's system fairly presents the service organization's system that was designed and implemented as of a specified date
 - (2) the controls related to the control objectives stated in management's description of the service organization's system were suitably designed to achieve those control objectives as of the specified date
- iii. A service auditor's report that expresses an opinion on the matters in (ii)(1)–(ii)(2)

Management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls (referred to in the context of section 320 as a *type 2 report*). A service auditor's report that comprises the following:

- i. Management's description of the service organization's system
- ii. A written assertion by management of the service organization about whether, based on the criteria
 - (1) management's description of the service organization's system fairly presents the service organization's system that was designed and implemented throughout the specified period
 - (2) the controls related to the control objectives stated in management's description of the service organization's system were suitably designed throughout the specified period to achieve those control objectives
 - (3) the controls related to the control objectives stated in management's description of the service organization's system operated effectively throughout the specified period to achieve those control objectives
- iii. A service auditor's report that
 - (1) expresses an opinion on the matters in (ii)(1)–(ii)(3)
 - (2) includes a description of the tests of controls and the results thereof

Material noncompliance (in the context of section 315). A failure to follow compliance requirements or a violation of prohibitions included in the specified requirements that results in noncompliance that is quantitatively or qualitatively material, either individually or when aggregated with other noncompliance.

Misstatement. A difference between the measurement or evaluation of the underlying subject matter and the appropriate measurement or evaluation of the underlying subject matter in accordance with (or based on) the criteria. Misstatements can be intentional or unintentional, qualitative or quantitative, and include omissions. In certain engagements, a misstatement may be referred to as a *deviation*, *exception*, or *instance of noncompliance*. Also see **risk of material misstatement**.

Modified opinion (in the context of section 205). A qualified opinion, an adverse opinion, or a disclaimer of opinion.

Monitoring of controls (in the context of section 320). A process to assess the effectiveness of internal control performance over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the service organization, and taking necessary corrective actions.

Network firm. A firm or other entity that belongs to a network, as defined in ET section 0.400, *Definitions*.

Noncompliance with laws or regulations. Acts of omission or commission by the entity, either intentional or unintentional, that are contrary to the prevailing laws or regulations. Such acts include transactions entered into by, or in the name of, the entity or on its behalf by those charged with governance, management, or employees. *Noncompliance* does not include personal misconduct (unrelated to the subject matter or subject matter information) by those charged with governance, management, or employees of the entity.

Nonparticipant party (in the context of section 215, *Agreed-Upon Procedures Engagements*). An additional specified party the practitioner is requested to add as a user of the report subsequent to the completion of the agreed-upon procedures engagement. Also see **specified party**.

Other attestation publications. Publications other than interpretive publications. These include AICPA attestation publications not defined as interpretive publications; attestation articles in the *Journal of Accountancy* and other professional journals; continuing professional education programs and other instructional materials, textbooks, guidebooks, attestation programs, and checklists; and other attestation publications from state CPA societies, other organizations, and individuals. The practitioner is not expected to be aware of the full body of other attestation publications. Also see **interpretive publications**.

Other practitioner. An independent practitioner who is not a member of the engagement team who performs work on information that will be used as evidence by the practitioner performing the attestation engagement. An other practitioner may be part of the practitioner's firm, a network firm, or another firm.

Partial presentation (in the context of section 305). A presentation of prospective financial information that excludes one or more of the applicable items required for prospective financial statements as described in chapter 8, "Presentation Guidelines," of the AICPA Guide *Prospective Financial Information*.

Pervasive (in the context of section 205). Describes the effects on the subject matter of misstatements or the possible effects on the subject matter of misstatements, if any, that are undetected due to an inability to obtain sufficient appropriate evidence. Pervasive effects on the subject matter are those that, in the practitioner's professional judgment

- a. are not confined to specific aspects of the subject matter;
- b. if so confined, represent or could represent a substantial proportion of the subject matter; or
- c. in relation to disclosures, are fundamental to the intended users' understanding of the subject matter.

Practitioner. The person or persons conducting the attestation engagement, usually the engagement partner or other members of the engagement

team, or, as applicable, the firm. When a section of the attestation standards expressly intends that a requirement or responsibility be fulfilled by the engagement partner, the term *engagement partner*, rather than *practitioner*, is used. *Engagement partner* and *firm* are to be read as referring to their governmental equivalents when relevant. Also see **engagement partner** and **firm**.

Practitioner's specialist. An individual or organization possessing expertise in a field other than accounting or attestation, whose work in that field is used by the practitioner to assist the practitioner in obtaining evidence for the service being provided. A practitioner's specialist may be either a practitioner's internal specialist (who is a partner or staff, including temporary staff, of the practitioner's firm or a network firm) or a practitioner's external specialist. *Partner* and *firm* refer to their governmental equivalents when relevant.

Presentation guidelines (in the context of section 305). The criteria for the presentation and disclosure of prospective financial information.

Presumptively mandatory requirements. The category of professional requirements with which the practitioner must comply in all cases in which such a requirement is relevant, except in rare circumstances discussed in paragraph .20 of section 105, *Concepts Common to All Attestation Engagements*. The attestation standards use the word *should* to indicate a presumptively mandatory requirement. Also see **attestation standards** and **unconditional requirements**.

Pro forma financial information (in the context of section 310). A presentation that shows what the significant effects on historical financial information might have been had a consummated or proposed transaction (or event) occurred at an earlier date.

Professional judgment. The application of relevant training, knowledge, and experience, within the context provided by attestation and ethical standards in making informed decisions about the courses of action that are appropriate in the circumstances of the attestation engagement.

Professional skepticism. An attitude that includes a questioning mind, being alert to conditions that may indicate possible misstatement due to fraud or error, and a critical assessment of evidence.

Projection (in the context of section 305). This term can refer to either a financial projection or a partial presentation of projected information. Also see **financial projection**.

Prospective financial information (in the context of section 305). Any financial information about the future. The information may be presented as complete financial statements or limited to one or more elements, items, or accounts.

Prospective financial statements (in the context of section 305). Either financial forecasts or financial projections, including the summaries of significant assumptions and accounting policies. Although prospective financial statements may cover a period that has partially expired, statements for periods that have completely expired are not considered to be prospective financial statements. Pro forma financial statements and partial presentations are not considered to be prospective financial statements. Also see **general use of prospective financial statements** and **limited use prospective financial statements**.

Reasonable assurance. A high but not absolute level of assurance.

Report release date. The date on which the practitioner grants the engaging party permission to use the practitioner's report.

Responsible party. The party responsible for the underlying subject matter, which is a party other than the practitioner. In an assertion-based examination or review engagement, if the nature of the underlying subject matter is such that no such party exists, a party who has a reasonable basis for making a written assertion about the underlying subject matter may be deemed to be the responsible party. Also see **appropriate party** and **engaging party**.

Review evidence (in the context of section 210). Information used by the practitioner in obtaining limited assurance on which the practitioner's review report is based. Also see **appropriateness of review evidence** and **sufficiency of review evidence**.

Risk of material misstatement (in the context of section 205). The risk that the subject matter is not in accordance with (or based on) the criteria in all material respects or that the assertion is not fairly stated, in all material respects. Also see **misstatement**.

Service auditor (in the context of section 320). A practitioner who reports on controls at a service organization.

Service organization (in the context of section 320). An organization or segment of an organization that provides services to user entities, which are likely to be relevant to those user entities' internal control over financial reporting.

Service organization's assertion (in the context of section 320). A written assertion about the matters referred to in item ii of the definition of *Management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls*, for a type 2 report, and, for a type 1 report, the matters referred to in part (b) of the definition of *Management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design of controls*.

Service organization's system (in the context of section 320). The policies and procedures designed, implemented, and documented by management of the service organization to provide user entities with the services covered by the service auditor's report. Management's description of the service organization's system identifies the services covered, the period to which the description relates (or in the case of a type 1 report, the date to which the description relates), the control objectives specified by management or an outside party, the party specifying the control objectives (if not specified by management), and the related controls.

In the context of section 320, the policies and procedures refer to the guidelines and activities for providing transaction processing and other services to user entities and include the infrastructure, software, people, and data that support the policies and procedures.

Specified party. The intended user(s) to whom use of the practitioner's written report is limited. Also see **nonparticipant party**.

Statements on Standards for Attestation Engagements (SSAEs). See **attestation standards**.

Subject matter. For purposes of applying sections 205, 206, and 210, the term *subject matter* encompasses the terms *underlying subject matter* and *subject matter information*, as defined in section 105. If only one of these terms is applicable, that term is used.

Subject matter information. The outcome of the measurement or evaluation of the underlying subject matter against criteria. An assertion about whether the underlying subject matter is in accordance with the criteria is a form of subject matter information

Underlying subject matter. In an examination or review engagement, the phenomenon that is measured or evaluated by applying criteria. In an agreed-upon procedures engagement, the phenomenon upon which procedures are performed.

Subservice organization (in the context of section 320). A service organization used by another service organization to perform some of the services provided to user entities that are likely to be relevant to those user entities' internal control over financial reporting.

Sufficiency of evidence (in the context of section 205). The measure of the quantity of evidence. The quantity of the evidence needed is affected by the risks of material misstatement and also by the quality of such evidence. Also see **evidence**.

Sufficiency of review evidence (in the context of section 210). The measure of the quantity of review evidence. The quantity of the review evidence needed is affected by the risks of material misstatement and also by the quality of such evidence. Also see **review evidence**.

Suitable criteria. Criteria that exhibit all the following characteristics:

- *Relevance.* Criteria are relevant to the subject matter.
- *Objectivity.* Criteria are free from bias.
- *Measurability.* Criteria permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness.* Criteria are complete when subject matter prepared in accordance with them does not omit relevant factors that could reasonably be expected to affect decisions of the intended users made on the basis of that subject matter.

Test of controls (in the context of section 205). A procedure designed to evaluate the operating effectiveness of controls in preventing, or detecting and correcting, material misstatements in the subject matter.

Test of controls (in the context of section 320). A procedure designed to evaluate the operating effectiveness of controls in achieving the control objectives stated in management's description of the service organization's system.

Type 1 report. See **management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design of controls**.

Type 2 report. See **management's description of a service organization's system and a service auditor's report on that description and on the suitability of the design and operating effectiveness of controls**.

Unconditional requirements. The category of professional requirements with which the practitioner must comply in all cases in which such requirement is relevant. The attestation standards use the word *must* to indicate an unconditional requirement. Also see **attestation standards** and **presumptively mandatory requirements**.

User auditor (in the context of section 320). An auditor who audits and reports on the financial statements of a user entity.

User entity (in the context of section 320). An entity that uses a service organization for which controls at the service organization are likely to be relevant to that entity's internal control over financial reporting.

Working papers or workpapers. See **engagement documentation**.

AT-C Section 100
COMMON CONCEPTS

The following is a Codification of Statements on Standards for Attestation Engagements (SSAEs) resulting from the Auditing Standards Board's (ASB) project to clarify the SSAEs and related attestation interpretations. SSAEs are issued by senior committees of the AICPA designated to issue pronouncements on attestation matters applicable to the preparation and issuance of attestation reports for entities that are nonissuers.¹ The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct requires an AICPA member performing an attestation engagement for a nonissuer (a practitioner) to comply with standards promulgated by the ASB. A practitioner must comply with an unconditional requirement in all cases in which such requirement is relevant. A practitioner also must comply with a presumptively mandatory requirement in all cases in which such requirement is relevant; however, if, in rare circumstances, a practitioner judges it necessary to depart from a relevant presumptively mandatory requirement, the practitioner must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement.

Attestation interpretations are interpretive publications, as defined in section 105, *Concepts Common to All Attestation Engagements*. Section 105 requires the practitioner to consider applicable interpretive publications in planning and performing the attestation engagement. Interpretive publications are not attestation standards. Interpretive publications are recommendations on the application of the SSAEs in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of the relevant senior technical committee after all members of the committee have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with the SSAEs. Attestation interpretations are included in AT-C sections. AICPA Guides and Attestation Statements of Position are listed in AT-C appendix A, "AICPA Guides and Statements of Position."

AT-C Section 105

Concepts Common to All Attestation Engagements

Source: SSAE No. 18; SSAE No. 19; SSAE No. 21.

See section 9105 for interpretations of this section.

Effective for practitioners' reports dated on or after May 1, 2017, unless otherwise indicated.

NOTE

In June 2022, the Auditing Standards Board issued Statement on Auditing Standards No. 146, *Quality Management for an Engagement Conducted in Accordance With Generally Accepted Auditing Standards*, which contains amendments to this section.

The amendments are effective for engagements conducted in accordance with generally accepted auditing standards for periods beginning on or after December 15, 2025, and can be viewed in the appendix of AU-C section 220 until the effective date, when they will be applied to this section.

Introduction

.01 This section applies to engagements in which a CPA in the practice of public accounting is engaged to issue, or does issue, a practitioner's

- assertion-based examination report in accordance with section 205, *Assertion-Based Examination Engagements*,
- direct examination report in accordance with section 206, *Direct Examination Engagements*,
- review report in accordance with section 210, *Review Engagements*, or
- agreed-upon procedures report in accordance with section 215, *Agreed-Upon Procedures Engagements*.

In this section, when the term *examination* is used, it is inclusive of both assertion-based and direct examination engagements.

In all attestation engagements, the underlying subject matter is the responsibility of a party other than the practitioner. (Ref: par. .A1) [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Examination and Review Engagements

.02 Examination and review engagements include the following:

- a. Assertion-based examination engagements, in which a party other than the practitioner measures or evaluates the underlying subject matter against the criteria and provides an assertion about the outcome of the measurement or evaluation, and

the practitioner expresses an opinion in a written report about whether the underlying subject matter is in accordance with (or based on) the criteria, in all material respects, or the responsible party's assertion is fairly stated, in all material respects.

- b. Direct examination engagements, in which the practitioner measures or evaluates the underlying subject matter against the criteria and performs other procedures to obtain sufficient appropriate evidence to express an opinion in a written report that conveys the results of that measurement or evaluation. The responsible party does not provide an assertion about the results of the measurement or evaluation of the underlying subject matter against the criteria.
- c. Review engagements, in which a party other than the practitioner measures or evaluates the underlying subject matter against the criteria and provides an assertion about the outcome of the measurement or evaluation, and the practitioner expresses a conclusion in a written report about whether the practitioner is aware of any material modifications that should be made to the subject matter in order for it to be in accordance with (or based on) the criteria or the responsible party's assertion in order for it to be fairly stated.

[Paragraph added, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.03 The practitioner's objective in both an assertion-based examination engagement and a direct examination engagement is to obtain reasonable assurance. Section 205 contains requirements and application material for assertion-based examination engagements. Section 206 contains requirements and application material for direct examination engagements. [Paragraph added, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.04 An assertion-based examination engagement and a review engagement are predicated on the concept that a party other than the practitioner makes an assertion about whether the underlying subject matter is measured or evaluated in accordance with suitable criteria. Section 205 and section 210 require the practitioner to request such an assertion in writing when performing an assertion-based examination engagement or a review engagement.¹ In assertion-based examination engagements and review engagements, when the engaging party is the responsible party, the responsible party's refusal to provide a written assertion requires the practitioner to withdraw from the engagement when withdrawal is possible under applicable laws and regulations.² In assertion-based examination engagements and review engagements, when the engaging party is not the responsible party and the responsible party refuses to provide a written assertion, the practitioner need not withdraw from the engagement but is required to disclose that refusal in the practitioner's report and restrict the use of the report to the engaging party.^{3, [4]} The purpose of an examination or review engagement is to provide users of information with

¹ Paragraph .10 of section 205, *Assertion-Based Examination Engagements*, and paragraph .11 of section 210, *Review Engagements*. [As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

² Paragraph .84 of section 205 and paragraph .59 of section 210.

³ Paragraph .86 of section 205 and paragraph .60 of section 210.

^[4] [Footnote deleted by the issuance of SSAE No. 19, December 2019.]

an opinion or conclusion regarding the underlying subject matter, as measured or evaluated against suitable and available criteria. An examination engagement results in an opinion, and a review engagement results in a conclusion. The purpose of an agreed-upon procedures engagement is to provide users of information with the results of procedures performed by the practitioner on underlying subject matter or subject matter information. An agreed-upon procedures engagement results in findings. [As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted. Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.05 This section is not applicable to professional services for which the AICPA has established other professional standards, for example, services performed in accordance with (Ref: par. .A2)

- a. Statements on Auditing Standards,
- b. Statements on Standards for Accounting and Review Services
- c. Statements on Standards for Tax Services, or
- d. Statements on Standards for Consulting Services, including litigation services that involve pending or potential legal or regulatory proceedings before a trier of fact. (Ref: par. .A3)

[As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted. Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.06 An attestation engagement may be part of a larger engagement, for example, a feasibility study or business acquisition study that also includes an examination of prospective financial information. In such circumstances, the attestation standards apply only to the attestation portion of the engagement. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Compliance With the Attestation Standards

.07 The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct requires members who perform professional services to comply with standards promulgated by bodies designated by the Council of the AICPA. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Relationship of Attestation Standards to Quality Control Standards

.08 Quality control systems, policies, and procedures are the responsibility of the firm in conducting its attestation practice. Under QM section 10A, *A Firm's System of Quality Control*, the firm has an obligation to establish and maintain a system of quality control to provide it with reasonable assurance that⁵ (Ref: par. .A4–.A6)

- a. the firm and its personnel comply with professional standards and applicable legal and regulatory requirements and
- b. practitioners' reports issued by the firm are appropriate in the circumstances.

[Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

⁵ Paragraph .12 of QM section 10A, *A Firm's System of Quality Control*.

.09 Attestation standards relate to the conduct of individual attestation engagements; quality control standards relate to the conduct of a firm's attestation practice as a whole. Thus, attestation standards and quality control standards are related, and the quality control policies and procedures that a firm adopts may affect both the conduct of individual attestation engagements and the conduct of a firm's attestation practice as a whole. However, deficiencies in or instances of noncompliance with a firm's quality control policies and procedures do not, in and of themselves, indicate that a particular engagement was not performed in accordance with the attestation standards. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Effective Date

.10 This section is effective for practitioners' reports dated on or after May 1, 2017. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Objectives

.11 In conducting an attestation engagement, the overall objectives of the practitioner are as follows:

- a. Apply the requirements relevant to the attestation engagement
- b. Report on the underlying subject matter or subject matter information (or assertion) and communicate as required by the applicable AT-C section, in accordance with the results of the practitioner's procedures
- c. Implement quality control procedures at the engagement level that provide the practitioner with reasonable assurance that the attestation engagement complies with professional standards and applicable legal and regulatory requirements

[As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted. Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Definitions

.12 For purposes of the attestation standards, the following terms have the meanings attributed as follows:

Assertion. Any declaration or set of declarations about whether the underlying subject matter or subject matter information is in accordance with (or based on) the criteria. An assertion is subject matter information.

Attestation engagement. An engagement performed under the attestation standards. The following are the four types of attestation engagements:

- a. **Assertion-based examination engagement.** An attestation engagement in which the practitioner obtains reasonable assurance by obtaining sufficient appropriate evidence about the responsible party's measurement or evaluation of the underlying subject matter against criteria in order to be able to draw reasonable conclusions on which to base the practitioner's opinion about whether the

subject matter is in accordance with (or based on) the criteria or the responsible party's assertion is fairly stated, in all material respects. (Ref: par. .A7)

- b. **Direct examination engagement.** An attestation engagement in which the practitioner obtains reasonable assurance by measuring or evaluating the underlying subject matter against the criteria and performing other procedures to obtain sufficient appropriate evidence to express an opinion that conveys the results of that measurement or evaluation. In a direct examination engagement, the responsible party does not provide an assertion. (Ref: par. .A7)
- c. **Review engagement.** An attestation engagement in which the practitioner obtains limited assurance by obtaining sufficient appropriate review evidence about the responsible party's measurement or evaluation of underlying subject matter against criteria in order to express a conclusion about whether any material modification should be made to the subject matter information in order for it be in accordance with (or based on) the criteria or to the responsible party's assertion in order for it to be fairly stated. (Ref: par. .A8)
- d. **Agreed-upon procedures engagement.** An attestation engagement in which a practitioner performs specific procedures on underlying subject matter or subject matter information or an assertion and reports the findings without providing an opinion or a conclusion.

Attestation risk. In an examination or review engagement, the risk that the practitioner expresses an inappropriate opinion or conclusion, as applicable, when the subject matter information (or assertion) is materially misstated. (Ref: par. .A9–.A15)

Criteria. The benchmarks used to measure or evaluate the underlying subject matter. (Ref: par. .A16)

Documentation completion date. The date on which the practitioner has assembled for retention a complete and final set of documentation in the engagement file.

Engagement circumstances. The broad context defining the particular engagement, which includes the terms of the engagement; whether it is an examination, review, or agreed-upon procedures engagement; the characteristics of the underlying subject matter; the criteria; the information needs of the intended users; relevant characteristics of the responsible party and, if different, the engaging party and their environment; and other matters, for example, events, transactions, conditions and practices, and relevant laws and regulations, that may have a significant effect on the engagement.

Engagement documentation. The record of procedures performed, relevant evidence obtained, and, in an examination or review engagement, conclusions reached by the practitioner, or in an agreed-upon procedures engagement, findings of the practitioner. (Terms such as *working papers* or *workpapers* are also sometimes used).

Engagement partner. The partner or other person in the firm who is responsible for the attestation engagement and its performance and for the practitioner's report that is issued on behalf of the firm and who, when required, has the appropriate authority from a professional, legal, or regulatory body. *Engagement partner, partner, and firm* refer to their governmental equivalents when relevant.

Engagement team. All partners and staff performing the engagement and any individuals engaged by the firm or a network firm who perform attestation procedures on the engagement. This excludes a practitioner's external specialist and engagement quality control reviewer engaged by the firm or a network firm. The term *engagement team* also excludes individuals within the client's internal audit function who provide direct assistance.

Engaging party. The party that engages the practitioner to perform the attestation engagement. (Ref: par. .A17)

Evidence. Information used by the practitioner in arriving at the opinion, conclusion, or findings on which the practitioner's report is based.

Firm. A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the AICPA and that is engaged in the practice of public accounting.

Fraud. An intentional act involving the use of deception that results in a misstatement in the subject matter or the assertion.

General use. Use of a practitioner's report that is not restricted to specified parties.

Internal audit function. A function of an entity that performs assurance and consulting activities designed to evaluate and improve the effectiveness of the entity's governance, risk management, and internal control processes.

Interpretative publications. Interpretations of the Statements on Standards for Attestation Engagements (SSAEs), exhibits to SSAEs, guidance on attestation engagements included in AICPA Audit and Accounting Guides, and AICPA attestation Statements of Position, to the extent that those statements are applicable to such engagements.

Misstatement. A difference between the measurement or evaluation of the underlying subject matter and the appropriate measurement or evaluation of the underlying subject matter in accordance with (or based on) the criteria. Misstatements can be intentional or unintentional, qualitative or quantitative, and include omissions. In certain engagements, a misstatement may be referred to as a *deviation, exception, or instance of noncompliance*.

Network firm. A firm or other entity that belongs to a network, as defined in ET section 0.400, *Definitions*.

Noncompliance with laws or regulations. Acts of omission or commission by the entity, either intentional or unintentional, that are contrary to the prevailing laws or regulations. Such acts include transactions entered into by, or in the name of, the entity or on its behalf by those charged with governance, management, or employees. *Noncompliance* does not include personal misconduct (unrelated to the underlying subject matter or subject matter

information) by those charged with governance, management, or employees of the entity.

Other attestation publications. Publications other than interpretive publications. These include AICPA attestation publications not defined as interpretive publications; attestation articles in the *Journal of Accountancy* and other professional journals; continuing professional education programs and other instructional materials, textbooks, guidebooks, attestation programs, and checklists; and other attestation publications from state CPA societies, other organizations, and individuals.

Other practitioner. An independent practitioner who is not a member of the engagement team who performs work on information that will be used as evidence by the practitioner performing the attestation engagement. An other practitioner may be part of the practitioner's firm, a network firm, or another firm.

Practitioner. The person or persons conducting the attestation engagement, usually the engagement partner or other members of the engagement team, or, as applicable, the firm. When an AT-C section expressly intends that a requirement or responsibility be fulfilled by the engagement partner, the term *engagement partner*, rather than *practitioner*, is used. *Engagement partner* and *firm* are to be read as referring to their governmental equivalents when relevant.

Practitioner's specialist. An individual or organization possessing expertise in a field other than accounting or attestation, whose work in that field is used by the practitioner to assist the practitioner in obtaining evidence for the service being provided. A practitioner's specialist may be either a practitioner's internal specialist (who is a partner or staff, including temporary staff, of the practitioner's firm or a network firm) or a practitioner's external specialist. *Partner* and *firm* refer to their governmental equivalents when relevant.

Professional judgment. The application of relevant training, knowledge, and experience, within the context provided by attestation and ethical standards in making informed decisions about the courses of action that are appropriate in the circumstances of the attestation engagement.

Professional skepticism. An attitude that includes a questioning mind, being alert to conditions that may indicate possible misstatement due to fraud or error, and a critical assessment of evidence.

Reasonable assurance. A high, but not absolute, level of assurance.

Report release date. The date on which the practitioner grants the engaging party permission to use the practitioner's report.

Responsible party. The party responsible for the underlying subject matter, which is a party other than the practitioner. In an assertion-based examination or review engagement, if the nature of the underlying subject matter is such that no such party exists, a party who has a reasonable basis for making a written assertion about the underlying subject matter may be deemed to be the responsible party.

Specified party. The intended user(s) to whom use of the written practitioner's report is limited.

Subject matter information. The outcome of the measurement or evaluation of the underlying subject matter against criteria. An assertion about whether the underlying subject matter is in accordance with the criteria is a form of subject matter information.

Underlying subject matter.* In an examination or review engagement, the phenomenon that is measured or evaluated by applying criteria. In an agreed-upon procedures engagement, the phenomenon upon which procedures are performed.

[As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted. Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.13 For the purposes of the attestation standards, references to appropriate party should be read hereafter as the responsible party or the engaging party, as appropriate. (Ref: par. .A18) [Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Requirements

Conduct of an Attestation Engagement in Accordance With the Attestation Standards

Complying With AT-C Sections That Are Relevant to the Engagement

.14 When performing an attestation engagement, the practitioner should comply with

- this section;
- sections 205, 206, 210, or 215, as applicable; and
- any subject-matter AT-C section relevant to the engagement when the AT-C section is in effect and the circumstances addressed by the AT-C section exist.

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.15 The practitioner should not represent compliance with this or any other AT-C section unless the practitioner has complied with the requirements of this section and all other AT-C sections relevant to the engagement. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.16 Reports issued by a practitioner in connection with services performed under other professional standards should be written to be clearly distinguishable from and not confused with reports issued under the attestation standards. (Ref: par. .A19–.A20) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Text of an AT-C Section

.17 The practitioner should have an understanding of the entire text of each AT-C section that is relevant to the engagement being performed, including its application and other explanatory material, to understand its objectives

* Prior to the issuance of SSAE No. 21, "the phenomenon that is measured or evaluated by applying criteria" was the definition of *subject matter*. [Footnote added, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

and apply its requirements properly. (Ref: par. .A21–.A26) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Complying With Relevant Requirements

.18 Subject to paragraph .22, the practitioner should comply with each requirement of the AT-C sections that is relevant to the engagement being performed, including any relevant subject-matter AT-C section, unless, in the circumstances of the engagement,

- a. the entire AT-C section is not relevant, or
- b. the requirement is not relevant because it is conditional, and the condition does not exist.

[Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.19 When a practitioner undertakes an attestation engagement for the benefit of a government body or agency and agrees to follow specified government standards, guides, procedures, statutes, rules, and regulations, the practitioner should comply with those governmental requirements as well as the applicable AT-C sections. (Ref: par. .A27) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Practitioner's Report Prescribed by Law or Regulation

.20 If the practitioner is required by law or regulation to use a specific layout, form, or wording of the practitioner's report and the prescribed form of report is not acceptable or would cause a practitioner to make a statement that the practitioner has no basis to make, the practitioner should reword the prescribed form of report or attach an appropriately worded separate practitioner's report. (Ref: par. .A28) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Defining Professional Requirements in the Attestation Standards

.21 The attestation standards use the following two categories of professional requirements, identified by specific terms, to describe the degree of responsibility it imposes on practitioners:

- *Unconditional requirements.* The practitioner must comply with an unconditional requirement in all cases in which such requirement is relevant. The attestation standards use the word *must* to indicate an unconditional requirement.
- *Presumptively mandatory requirements.* The practitioner must comply with a presumptively mandatory requirement in all cases in which such a requirement is relevant, except in rare circumstances discussed in paragraph .22. The attestation standards use the word *should* to indicate a presumptively mandatory requirement.

[Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Departure From a Relevant Requirement

.22 In rare circumstances, the practitioner may judge it necessary to depart from a relevant presumptively mandatory requirement. In such circumstances, the practitioner should perform alternative procedures to achieve the intent of that requirement. The need for the practitioner to depart from a relevant, presumptively mandatory requirement is expected to arise only when the requirement is for a specific procedure to be performed and, in the specific circumstances of the engagement, that procedure would be ineffective in achieving

the intent of the requirement. (Ref: par. .A29) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Interpretive Publications

.23 The practitioner should consider applicable interpretive publications in planning and performing the attestation engagement. (Ref: par. .A30) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Other Attestation Publications

.24 In applying the attestation guidance included in an other attestation publication, the practitioner should, exercising professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the attestation engagement. (Ref: par. .A31–.A33) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Acceptance and Continuance

.25 The engagement partner should be satisfied that appropriate procedures regarding the acceptance and continuance of client relationships and attestation engagements have been followed and should determine that conclusions reached in this regard are appropriate. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Preconditions for an Attestation Engagement

.26 The practitioner must be independent when performing an attestation engagement in accordance with the attestation standards unless the practitioner is required by law or regulation to accept the engagement. (Ref: par. .A34) [Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.27 In order to establish that the preconditions for an attestation engagement are present, the practitioner should, on the basis of a preliminary knowledge of the engagement circumstances and discussion with the appropriate party, determine the following:

- a. Whether the responsible party is a party other than the practitioner and takes responsibility for the underlying subject matter. (Ref: par. .A35–.A37)
- b. Whether the engagement exhibits all of the following characteristics:
 - i. The subject matter is appropriate. (Ref: par. .A38–.A43)
 - ii. In an examination or review engagement, the criteria to be applied in the preparation and evaluation of the underlying subject matter are suitable and will be available to the intended users. (Ref: par. .A44–.A54)
 - iii. The practitioner expects to be able to obtain the evidence needed to arrive at the practitioner's opinion, conclusion, or findings, including (Ref: par. .A55–.A56)
 - (1) access to all information of which the appropriate party is aware that is relevant to the engagement;
 - (2) access to additional information that the practitioner may request from the appropriate party for the purpose of the engagement; and

- (3) unrestricted access to persons within the appropriate party from whom the practitioner determines it necessary to obtain evidence.
- iv. The practitioner's opinion, conclusion, or findings, in the form appropriate to the engagement, is to be contained in a written practitioner's report.

[As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted. Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.28 If the preconditions in paragraphs .26–.27 are not present, the practitioner should discuss the matter with the engaging party to attempt to resolve the issue. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.29 The practitioner should accept an attestation engagement only when the practitioner

- a. has no reason to believe that relevant ethical requirements, including independence, will not be satisfied;
- b. is satisfied that those persons who are to perform the engagement collectively have the appropriate competence and capabilities (see also paragraph .34);
- c. has determined that the engagement to be performed meets all the preconditions for an attestation engagement (see also paragraphs .26–.27); and
- d. has reached a common understanding with the engaging party of the terms of the engagement, including the practitioner's reporting responsibilities.

[Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.30 If it is discovered after the engagement has been accepted that one or more of the preconditions for an attestation engagement is not present, the practitioner should discuss the matter with the appropriate party and should determine

- a. whether the matter can be resolved;
- b. whether it is appropriate to continue with the engagement; and
- c. if the matter cannot be resolved but it is still appropriate to continue with the engagement, whether to communicate the matter in the practitioner's report, and if the matter is to be communicated in the practitioner's report, how to do so.

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Acceptance of a Change in the Terms of the Engagement

.31 The practitioner should not agree to a change in the terms of the engagement when no reasonable justification for doing so exists. If a change in the terms of the engagement is made, the practitioner should not disregard evidence that was obtained prior to the change. (Ref: par. .A57–.A58) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.32 If the practitioner concludes, based on the practitioner's professional judgment, that there is reasonable justification to change the terms of the engagement from the original level of service that the practitioner was engaged to

perform to a lower level of service, for example, from an examination to a review, and if the practitioner complies with the AT-C sections applicable to the lower level of service, the practitioner should issue an appropriate practitioner's report on the lower level of service. The report should not include reference to (a) the original engagement, (b) any procedures that may have been performed, or (c) scope limitations that resulted in the changed engagement. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Using the Work of an Other Practitioner

.33 When the practitioner expects to use the work of an other practitioner, the practitioner should (Ref: par. .A59–.A60)

- a. obtain an understanding of whether the other practitioner understands and will comply with the ethical requirements that are relevant to the engagement and, in particular, is independent.
- b. obtain an understanding of the other practitioner's professional competence.
- c. communicate clearly with the other practitioner about the scope and timing of the other practitioner's work and findings.
- d. if assuming responsibility for the work of the other practitioner, be involved in the work of the other practitioner.
- e. evaluate whether the other practitioner's work is adequate for the practitioner's purposes.
- f. determine whether to make reference to the other practitioner in the practitioner's report.

[Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Quality Control

Assignment of the Engagement Team and the Practitioner's Specialists

.34 The engagement partner should be satisfied that

- a. the engagement team, and any practitioner's external specialists, collectively, have the appropriate competence, including knowledge of the underlying subject matter and criteria, and capabilities to (Ref: par. .A61–.A62)
 - i. perform the engagement in accordance with professional standards and applicable legal and regulatory requirements and
 - ii. enable the issuance of a practitioner's report that is appropriate in the circumstances.
- b. to an extent that is sufficient to accept responsibility for the opinion, conclusion, or findings on the underlying subject matter or subject matter information (or assertion), the engagement team will be able to be involved in the work of
 - i. a practitioner's external specialist when the work of that specialist is to be used and (Ref: par. .A63)
 - ii. an other practitioner, when the work of that practitioner is to be used.
- c. those involved in the engagement have been informed of their responsibilities, including the objectives of the procedures they are

to perform and matters that may affect the nature, timing, and extent of such procedures.

- d. engagement team members have been directed to bring to the engagement partner's attention significant questions raised during the engagement so that their significance may be assessed.

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Leadership Responsibilities for Quality in Attestation Engagements

.35 The engagement partner should take responsibility for the overall quality on each attestation engagement. This includes responsibility for the following:

- a. Appropriate procedures being performed regarding the acceptance and continuance of client relationships and engagements
- b. The engagement being planned and performed (including appropriate direction and supervision) to comply with professional standards and applicable legal and regulatory requirements
- c. Reviews being performed in accordance with the firm's review policies and procedures and reviewing the engagement documentation on or before the date of the practitioner's report (Ref: par. .A64)
- d. Appropriate engagement documentation being maintained to provide evidence of achievement of the practitioner's objectives and that the engagement was performed in accordance with the attestation standards and relevant legal and regulatory requirements
- e. Appropriate consultation being undertaken by the engagement team on difficult or contentious matters

[Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.36 Throughout the engagement, the engagement partner should remain alert, through observation and making inquiries as necessary, for evidence of noncompliance with relevant ethical requirements by members of the engagement team. If matters come to the engagement partner's attention through the firm's system of quality control or otherwise that indicate that members of the engagement team have not complied with relevant ethical requirements, the engagement partner, in consultation with others in the firm, should determine the appropriate action. [Paragraph added, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Engagement Documentation

.37 The practitioner should prepare engagement documentation on a timely basis. (Ref: par. .A65) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.38 The practitioner should assemble the engagement documentation in an engagement file and complete the administrative process of assembling the final engagement file no later than 60 days following the practitioner's report release date. (Ref: par. .A66) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.39 After the documentation completion date, the practitioner should not delete or discard documentation of any nature before the end of its retention period. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.40 If the practitioner finds it necessary to amend existing engagement documentation or add new engagement documentation after the documentation completion date, the practitioner should, regardless of the nature of the amendments or additions, document

- a. the specific reasons for making the amendments or additions and
- b. when, and by whom, they were made and reviewed.

[Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.41 Engagement documentation is the property of the practitioner, and some jurisdictions recognize this right of ownership in their statutes. The practitioner should adopt reasonable procedures to retain engagement documentation for a period of time sufficient to meet the needs of the practitioner and to satisfy any applicable legal or regulatory requirements for records retention. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.42 Because engagement documentation often contains confidential information, the practitioner should adopt reasonable procedures to maintain the confidentiality of that information. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.43 The practitioner also should adopt reasonable procedures to prevent unauthorized access to engagement documentation. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

.44 If, in rare circumstances, the practitioner judges it necessary to depart from a relevant, presumptively mandatory requirement, the practitioner must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement. (See paragraph .20.) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Engagement Quality Control Review

.45 For those engagements, if any, for which the firm has determined that an engagement quality control review is required (Ref: par. .A67)

- a. the engagement partner should take responsibility for discussing with the engagement quality control reviewer significant findings or issues arising during the engagement, including those identified during the engagement quality control review, and should not release the practitioner's report until completion of the engagement quality control review and
- b. the engagement quality control reviewer should perform an objective evaluation of the significant judgments made by the engagement team and the conclusions reached in formulating the report. This evaluation should include the following:
 - i. Discussion of significant findings or issues with the engagement partner
 - ii. Reading the written subject matter information (or assertion) and the proposed report
 - iii. Reading selected engagement documentation relating to the significant judgments the engagement team made and the related conclusions it reached
 - iv. Evaluation of the decisions reached in formulating the report and consideration of whether the proposed report is appropriate

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Professional Skepticism and Professional Judgment

Professional Skepticism

.46 The practitioner should maintain professional skepticism while planning and performing an attestation engagement. (Ref: par. .A68–.A70) [Paragraph renumbered and amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.47 Unless the practitioner has reason to believe the contrary, the practitioner may accept records and documents as genuine. If conditions identified during the attestation engagement cause the practitioner to believe that a document may not be authentic or that terms in a document have been modified but not disclosed to the practitioner, the practitioner should investigate further. [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Professional Judgment

.48 The practitioner should exercise professional judgment in planning and performing an attestation engagement. (Ref: par. .A71–.A76) [Paragraph renumbered by the issuance of SSAE No. 21, October 2020.]

Application and Other Explanatory Material

Introduction (Ref: par. .01 and .05)

.A1 An attestation engagement may address a variety of conditions or events, including the following:

- a. Historical or prospective performance or condition, for example, historical or prospective financial information, performance measurements, and backlog data
- b. Physical characteristics, for example, narrative descriptions or square footage of facilities
- c. Historical events, for example, the price of a market basket of goods on a certain date
- d. Analyses, for example, break-even analyses
- e. Systems and processes, for example, internal control
- f. Behavior, for example, corporate governance, compliance with laws and regulations, and human resource practices
- g. Environmental, social, and governance information, for example, greenhouse gas emissions or diversity in employment

The measurement or evaluation of such conditions or events may be as of a point in time or for a period of time. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A2 Because performance audits performed pursuant to *Government Auditing Standards* do not require a practitioner's examination, review, or agreed-upon procedures report as described in this section, this section does not apply to performance audits unless the practitioner engaged to conduct a performance audit is also engaged to conduct an AICPA attestation engagement or

issues such an examination, review, or agreed-upon procedures report. [Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

.A3 Examples of litigation services include the following circumstances:

- a. The service comprises being an expert witness.
- b. The service comprises being a trier of fact or acting on behalf of one.
- c. The practitioner's work under the rules of the proceedings is subject to detailed analysis and challenge by each party to the dispute.
- d. The practitioner is engaged by an attorney to do work that will be protected by the attorney's work product or attorney-client privilege, and such work is not intended to be used for other purposes.

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

Relationship of Attestation Standards to Quality Control Standards (Ref: par. .06)

.A4 The nature and extent of a firm's quality control policies and procedures depend on factors such as its size, the degree of operating autonomy allowed its personnel and its practice offices, the nature of its practice, its organization, and appropriate cost-benefit considerations.

.A5 Within the context of the firm's system of quality control, engagement teams have a responsibility to implement quality control procedures that are applicable to the attestation engagement and provide the firm with relevant information to enable the functioning of that part of the firm's quality control relating to independence.

.A6 Engagement teams are entitled to rely on the firm's system of quality control, unless the engagement partner determines that it is inappropriate to do so based on information provided by the firm or other parties.

Definitions

Assertion-Based and Direct Examination Engagements (Ref: par. .12)

.A7 The practitioner obtains the same level of assurance in an assertion-based and direct examination engagement as the practitioner does in a financial statement audit. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Review Engagement (Ref: par. .12)

.A8 The practitioner obtains the same level of assurance in a review engagement as the practitioner does in a review of financial statements.

Attestation Risk (Ref: par. .12)

.A9 Attestation risk does not refer to the practitioner's business risks, such as loss from litigation, adverse publicity, or other events arising in connection with the underlying subject matter or subject matter information (or assertion) reported on. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A10 In general, attestation risk can be represented by the following components, although not all of these components will necessarily be present or significant for all engagements:

- a. Risks that the practitioner does not directly influence, which consist of
 - i. the susceptibility of the subject matter information to a material misstatement before consideration of any related controls (inherent risk) and
 - ii. the risk that a material misstatement that could occur in the subject matter information will not be prevented, or detected and corrected, on a timely basis by the appropriate party's internal control (control risk)
- b. Risk that the practitioner does directly influence, which consists of the risk that the procedures to be performed by the practitioner will not detect a material misstatement (detection risk)

[As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A11 The degree to which each of these components of attestation risk is relevant to the engagement is affected by the engagement circumstances, in particular

- the nature of the underlying subject matter or subject matter information. (For example, the concept of control risk may be more useful when the underlying subject matter or subject matter information relates to the preparation of information about an entity's performance than when it relates to information about the existence of a physical condition.)
- the type of engagement being performed. (For example, in a review engagement, the practitioner may often decide to obtain evidence by means other than tests of controls, in which case, consideration of control risk may be less relevant than in an examination engagement on the same subject matter information [or assertion].)

[As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A12 The consideration of risks is a matter of professional judgment, rather than a matter capable of precise measurement.

.A13 In an examination engagement, the practitioner reduces attestation risk to an acceptably low level in the circumstances of the engagement as the basis for the practitioner's opinion. Reducing attestation risk to zero is not contemplated in an examination engagement and, therefore, reasonable assurance is less than absolute assurance as a result of factors such as the following:

- The use of selective testing
- The inherent limitations of internal control
- The fact that much of the evidence available to the practitioner is persuasive, rather than conclusive
- The exercise of professional judgment in gathering and evaluating evidence and forming conclusions based on that evidence
- In some cases, the characteristics of the underlying subject matter when evaluated or measured against the criteria

[As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A14 In a review engagement, attestation risk is greater than it is in an examination engagement. Because the practitioner obtains limited assurance in a review engagement, the types of procedures performed are less extensive than they are in an examination engagement and generally are limited to inquiries and analytical procedures.

.A15 Attestation risk is not applicable to an agreed-upon procedures engagement because in such engagements, the practitioner performs specific procedures on underlying subject matter or subject matter information and reports the findings without providing an opinion or conclusion. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Criteria (Ref: par. .12)

.A16 Suitable criteria are required for reasonably consistent measurement or evaluation of underlying subject matter within the context of professional judgment. Without the frame of reference provided by suitable criteria, any conclusion is open to individual interpretation and misunderstanding. The suitability of criteria is context-sensitive, that is, it is determined in the context of the engagement circumstances. Even for the same underlying subject matter, there can be different criteria, which will yield a different measurement or evaluation. For example, one responsible party might select the number of customer complaints resolved to the acknowledged satisfaction of the customer for the underlying subject matter of customer satisfaction; another responsible party might select the number of repeat purchases in the three months following the initial purchase. The suitability of criteria is not affected by the level of assurance, that is, if criteria are unsuitable for an examination engagement, they are also unsuitable for a review engagement and vice versa. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Engaging Party (Ref: par. .12)

.A17 The engaging party, depending on the circumstances, may be management or those charged with governance of the responsible party, a governmental body or agency, the intended users, or another third party.

Appropriate Party(ies) (Ref: par. .13)

.A18 Management and governance structures vary by entity, reflecting influences such as size and ownership characteristics. Such diversity means that it is not possible for the attestation standards to specify for all engagements the person(s) with whom the practitioner is to interact regarding particular matters. For example, an entity may be a segment of an organization and not a separate legal entity. In such cases, identifying the appropriate management personnel or those charged with governance with whom to communicate may require the exercise of professional judgment.

Conduct of an Attestation Engagement in Accordance With the Attestation Standards

Complying With AT-C Sections That Are Relevant to the Engagement (Ref: par. .16)

.A19 A practitioner's report that merely excludes the phrase "was conducted in accordance with attestation standards established by the American

Institute of Certified Public Accountants" but is otherwise similar to a practitioner's examination, review, or agreed-upon procedures attestation report is an example of a practitioner's report that is not clearly distinguishable from, and could be confused with, a report issued under the attestation standards.

.A20 Paragraph .16 does not prohibit combining reports issued by a practitioner under the attestation standards with reports issued under other professional standards.

Text of an AT-C Section (Ref: par. .17)

.A21 The AT-C sections contain the objectives of the practitioner and requirements designed to enable the practitioner to meet those objectives. In addition, they contain related guidance in the form of application and other explanatory material, introductory material that provides context relevant to a proper understanding of the section, and definitions.

.A22 Introductory material may include, as needed, such matters as an explanation of the following:

- The purpose and scope of the AT-C section, including how the AT-C section relates to other AT-C sections
- The subject matter of the AT-C section
- The respective responsibilities of the practitioner and others regarding the subject matter of the AT-C section
- The context in which the AT-C section is set

.A23 The application and other explanatory material provides further explanation of the requirements of an AT-C section and guidance for carrying them out. In particular, it may

- a. explain more precisely what a requirement means or is intended to cover and
- b. include examples of procedures that may be appropriate in the circumstances.

Although such guidance does not, in itself, impose a requirement, it may explain the proper application of the requirements of an AT-C section. The application and other explanatory material may also provide background information on matters addressed in an AT-C section. They do not, however, limit or reduce the responsibility of the practitioner to apply and comply with the requirements in applicable AT-C sections.

.A24 The practitioner is required by paragraph .17 to understand the application and other explanatory material. How the practitioner applies the guidance in the engagement depends on the exercise of professional judgment in the circumstances consistent with the objective of the section. The words *may*, *might*, and *could* are used to describe these actions and procedures.

.A25 An AT-C section may include, in a separate section under the heading "Definition(s)," a description of the meanings attributed to certain terms for purposes of the AT-C section. These are provided to assist in the consistent application and interpretation of the AT-C section and are not intended to override definitions that may be established for other purposes, whether in law, regulation, or otherwise. Unless otherwise indicated, those terms will carry the same meanings in all AT-C sections.

.A26 Appendixes form part of the application and other explanatory material. The purpose and intended use of an appendix are explained in the body

of the related AT-C section or within the title and introduction of the appendix itself.

Complying With Relevant Requirements (Ref: par. .19)

.A27 In certain attestation engagements, the practitioner may also be required to comply with other requirements, such as in law or regulation, in addition to the attestation standards. The attestation standards do not override law or regulation that governs the attestation engagement. In the event that such law or regulation differs from attestation standards, an attestation engagement conducted only in accordance with law or regulation will not necessarily comply with the attestation standards. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Practitioner's Report Prescribed by Law or Regulation (Ref: par. .20)

.A28 Some report forms can be made acceptable by inserting additional wording to include the elements required by sections 205, 206, 210, and 215.⁶ Some report forms required by law or regulation can be made acceptable only by complete revision because the prescribed language of the practitioner's report calls for statements by the practitioner that are not consistent with the practitioner's function or responsibility, for example, a report form that requests the practitioner to "certify" the subject matter information. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Departure From a Relevant Requirement (Ref: par. .22)

.A29 Paragraph .44 prescribes documentation requirements when the circumstances described in paragraph .22 occur.

Interpretive Publications (Ref: par. .23)

.A30 *Interpretive publications* are not attestation standards. Interpretive publications are recommendations on the application of the attestation standards in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of the relevant senior technical committee after all members of the committee have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with the attestation standards. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Other Attestation Publications (Ref: par. .24)

.A31 Other attestation publications have no authoritative status; however, they may help the practitioner understand and apply the attestation standards. The practitioner is not expected to be aware of the full body of other attestation publications. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A32 Although the practitioner determines the relevance of these publications in accordance with paragraph .24, the practitioner may presume that other attestation publications published by the AICPA that have been reviewed by the AICPA Audit and Attest Standards staff are appropriate. These other

⁶ Paragraphs .63–.66 of section 205, paragraphs .46–.49 of section 210, and paragraph .32–.33 of section 215, *Agreed-Upon Procedures Engagements*. [As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

attestation publications are listed in AT-C appendix B, "Other Attestation Publications."

.A33 In determining whether an other attestation publication that has not been reviewed by the AICPA Audit and Attest Standards staff is appropriate to the circumstances of the attestation engagement, the practitioner may wish to consider the degree to which the publication is recognized as being helpful in understanding and applying the attestation standards and the degree to which the publisher or author is recognized as an authority in attestation matters. [Revised, February 2017, to better reflect the AICPA Council Resolution designating the Public Company Accounting Oversight Board to promulgate technical standards.]

Preconditions for an Attestation Engagement (Ref: par. .26)

.A34 The "Independence Standards for Engagements Performed in Accordance With Statements on Standards for Attestation Engagements" interpretation (ET sec. 1.297) establishes special requirements for independence for services provided under the attestation standards. In addition, the "Conceptual Framework Approach" interpretation (ET sec. 1.210.010) discusses threats to independence not specifically detailed elsewhere, for example, when the practitioner has an interest in the underlying subject matter. [As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Roles and Responsibilities (Ref: par. .27a)

.A35 All attestation engagements have an engaging party, a responsible party, the practitioner, and intended users. In some attestation engagements, the engaging party is different from the responsible party. In other attestation engagements, the engaging party, the responsible party, and the intended users may all be the same. [Paragraph added, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

.A36 The responsible party may acknowledge its responsibility for the underlying subject matter as it relates to the objective of the engagement in a number of ways, for example, in an engagement letter, a representation letter, or the presentation of the subject matter information, including the notes thereto, or the written assertion. Examples of other evidence of the responsible party's responsibility for the underlying subject matter include reference to legislation, a regulation, or a contract. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A37 Evidence that the appropriate relationship exists with respect to responsibility for the underlying subject matter may be obtained through an acknowledgment provided by the responsible party. Such an acknowledgment also establishes a basis for a common understanding of the responsibilities of the responsible party and the practitioner. A written acknowledgment is the most appropriate form of documenting the responsible party's understanding. In the absence of a written acknowledgment of responsibility, it may still be appropriate for the practitioner to accept the engagement if, for example, other sources, such as legislation or a contract, indicate responsibility. In other cases, it may be appropriate to decline the engagement depending on the circumstances or disclose the circumstances in the attestation report. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Appropriateness of Underlying Subject Matter (Ref: par. .27b(i))

.A38 An element of the appropriateness of underlying subject matter is the existence of a reasonable basis for measuring or evaluating the underlying subject matter against criteria. The responsible party in an assertion-based examination engagement or review engagement is responsible for having a reasonable basis for measuring or evaluating the underlying subject matter against the criteria. What constitutes a reasonable basis will depend on the nature of the underlying subject matter and other engagement circumstances. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A39 An appropriate underlying subject matter

- a. is identifiable and capable of consistent measurement or evaluation against the criteria and
- b. can be subjected to procedures for obtaining sufficient appropriate evidence to support an opinion, conclusion, or findings, as appropriate.

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A40 If the underlying subject matter is not appropriate for an examination engagement, it also is not appropriate for a review engagement. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A41 Different underlying subject matters have different characteristics, including the degree to which information about them is qualitative versus quantitative, objective versus subjective, historical versus prospective, and relates to a point in time or covers a period. Such characteristics affect the following:

- a. In an examination or review engagement, the precision with which the underlying subject matter can be measured or evaluated against criteria
- b. The persuasiveness of available evidence

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A42 Identifying such characteristics and considering their effects assists the practitioner when assessing the appropriateness of the underlying subject matter and also in determining the content of the practitioner's report. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A43 In some cases, the attestation engagement may relate to only one part of a broader underlying subject matter. For example, the practitioner may be engaged to examine one aspect of an entity's contribution to sustainable development, such as the programs run by the entity that have positive environmental outcomes, and may be aware that the practitioner has not been engaged to examine more significant programs with less favorable outcomes. In such cases,

in determining whether the engagement exhibits the characteristic of having an appropriate underlying subject matter, it may be appropriate for the practitioner to consider whether information about the aspect that the practitioner is asked to examine is likely to meet the information needs of intended users. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Suitable and Available Criteria (Ref: par. .27b(ii))

.A44 Suitable criteria exhibit all of the following characteristics:

- *Relevance.* Criteria are relevant to the underlying subject matter.
- *Objectivity.* Criteria are free from bias.
- *Measurability.* Criteria permit reasonably consistent measurements, qualitative or quantitative, of underlying subject matter.
- *Completeness.* Criteria are complete when subject matter information prepared in accordance with them does not omit relevant factors that could reasonably be expected to affect decisions of the intended users made on the basis of that subject matter information.

The relative importance of each characteristic to a particular engagement is a matter of professional judgment. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A45 Criteria can be developed in a variety of ways, for example, they may be

- embodied in laws or regulations.
- issued by authorized or recognized bodies of experts that follow a transparent due process.
- developed collectively by a group that does not follow a transparent due process.
- published in scholarly journals or books.
- developed for sale on a proprietary basis.
- specifically designed for the purpose of measuring, evaluating, or disclosing information about the underlying subject matter in the particular circumstances of the engagement.

How criteria are developed may affect the work that the practitioner carries out to assess their suitability. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A46 Criteria that are established or developed by groups composed of experts that follow due process procedures, including exposure of the proposed criteria for public comment, are ordinarily considered suitable. Criteria promulgated by a body designated by the Council of the AICPA under the AICPA Code of Professional Conduct are, by definition, considered to be suitable. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A47 In some cases, laws or regulations prescribe the criteria to be used for the engagement. In the absence of indications to the contrary, such criteria are presumed to be suitable. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A48 Criteria may be established or developed by the engaging party, the responsible party, industry associations, or other groups that do not follow due process procedures or do not as clearly represent the public interest. The practitioner's determination of whether such criteria are suitable is based on the characteristics described in paragraph .A42. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A49 Regardless of who establishes or develops the criteria, the responsible party or the engaging party is responsible for selecting the criteria, and the engaging party is responsible for determining that such criteria are appropriate for its purposes. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A50 Some criteria may be suitable for only a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria. For example, criteria set forth in a lease agreement for override payments may be suitable only for reporting to the parties to the agreement because of the likelihood that such criteria would be misunderstood or misinterpreted by parties other than those who have specifically agreed to the criteria. Such criteria can be agreed upon directly by the parties or through a designated representative. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A51 Even when established criteria exist for an underlying subject matter, specific users may agree to other criteria for their specific purposes. For example, various frameworks can be used as established criteria for evaluating the effectiveness of internal control. Specific users may, however, develop a more detailed set of criteria that meet their specific information needs. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A52 If criteria are specifically designed for the purpose of measuring, evaluating, or disclosing information about the underlying subject matter in the particular circumstances of the engagement, they are not suitable if they result in subject matter information or a practitioner's report that is misleading to the intended users. It is desirable for the intended users or the engaging party to acknowledge that specifically developed criteria are suitable for the intended users' purposes. The absence of such an acknowledgement may affect what is to be done to assess the suitability of the criteria and the information provided about the criteria in the report. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A53 Criteria need to be available to the intended users to allow them to understand how the underlying subject matter has been measured or evaluated. Criteria are made available to the intended users in one or more of the following ways:

- a. Publicly
- b. Through inclusion in a clear manner in the presentation of the subject matter information
- c. Through inclusion in a clear manner in the practitioner's report
- d. By general understanding, for example, the criterion for measuring time in hours and minutes
- e. Available only to specified parties, for example, terms of a contract or criteria issued by an industry association that are available only to those in the industry

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A54 When criteria are available only to specified parties, sections 205 and 210 require a statement restricting the use of the practitioner's report.⁷ [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Access to Evidence (Ref: par. .27b[iii])

.A55 The nature of the relationship between the responsible party and, if different, the engaging party, may affect the practitioner's ability to access records, documentation, and other information the practitioner may require as evidence to arrive at the practitioner's opinion, conclusion, or findings. Therefore, the nature of that relationship may be a relevant consideration when determining whether or not to accept the engagement. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A56 The quantity or quality of available evidence is affected by both of the following:

- a. The characteristics of the underlying subject matter or the subject matter information, for example, less objective evidence might be expected when the subject matter information is future-oriented, rather than historical
- b. Other circumstances, such as when evidence that could reasonably be expected to exist is not available, for example, because of the timing of the practitioner's appointment, an entity's document retention policy, inadequate information systems, or a restriction imposed by the responsible or engaging party

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

**Acceptance of a Change in the Terms of the Engagement
(Ref: par. .31)**

.A57 A change in circumstances that affects the requirements of the responsible party or, if different, the engaging party, or a misunderstanding concerning the nature of the engagement originally requested, may be considered reasonable justification for requesting a change in the engagement, for example, from an attestation engagement to a consulting engagement or from an examination engagement to a review engagement. A change may not be considered reasonable if it appears that the change relates to information that is incorrect, incomplete, or otherwise unsatisfactory. An example of such a circumstance is a request to change the engagement from an examination to a review to avoid a modified opinion or a disclaimer of opinion in a situation in which the practitioner is unable to obtain sufficient appropriate evidence regarding the underlying subject matter or subject matter information. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A58 If the practitioner and the engaging party are unable to agree to a change in the terms of the engagement and the practitioner is not permitted

⁷ Paragraph .64b of section 205 and paragraph .47b of section 210.

to continue the original engagement, the practitioner may withdraw from the engagement when possible under applicable laws and regulations. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Using the Work of an Other Practitioner (Ref: par. .33)

.A59 The practitioner is responsible for (a) the direction, supervision, and performance of the engagement in compliance with professional standards; applicable regulatory and legal requirements; and the firm's policies and procedures and (b) determining whether the practitioner's report that is issued is appropriate in the circumstances. The practitioner may, however, use the work of other practitioners to obtain sufficient appropriate evidence to express an opinion, conclusion, or findings on the subject matter information (or assertion). [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A60 The engagement partner may decide to assume responsibility for the work of the other practitioner or to make reference to the other practitioner in the practitioner's report. Regardless of whether the engagement partner decides to assume responsibility or make reference, the practitioner is required to communicate clearly with the other practitioner and evaluate whether the other practitioner's work is adequate for the purposes of the engagement. The nature, timing, and extent of this involvement are affected by the practitioner's understanding of the other practitioner, such as previous experience with, or knowledge of, the other practitioner and the degree to which the engagement team and the other practitioner are subject to common quality control policies and procedures. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Quality Control

Assignment of the Engagement Team and the Practitioner's Specialists (Ref: par. .34a–b[i])

.A61 The practitioner may obtain knowledge about the specific underlying subject matter to which the procedures are to be applied and the criteria through formal or continuing education, practical experience, or consultation with others. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A62 When considering the appropriate competence and capabilities expected of those involved in the engagement, the engagement partner may take into consideration such matters as their

- understanding of, and practical experience with, engagements of a similar nature and complexity through appropriate training and participation.
- understanding of professional standards and applicable legal and regulatory requirements.
- technical expertise, including expertise with relevant IT and specialized areas relevant to the underlying subject matter.
- knowledge of relevant industries in which the entity operates.
- ability to apply professional judgment.

- understanding of the firm's quality control policies and procedures.

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A63 Some of the attestation work may be performed by a multidisciplinary team that includes one or more practitioner's specialists. For example, in an examination engagement, a practitioner's specialist may be needed to assist the practitioner in obtaining an understanding of the underlying subject matter, criteria, and other engagement circumstances or in assessing or responding to the risk of material misstatement. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Leadership Responsibilities for Quality in Attestation Engagements **(Ref: par. .36c)**

.A64 Under QM section 10A, the firm's review responsibility policies and procedures are determined on the basis that suitably experienced team members review the work of other team members. The engagement partner may delegate part of the review responsibility to other members of the engagement team, in accordance with the firm's system of quality control. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Engagement Documentation (Ref: par. .37–.38)

.A65 Documentation prepared at the time work is performed or shortly thereafter is likely to be more accurate than documentation prepared at a much later time. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A66 The completion of the assembly of the final engagement file is an administrative process that does not involve the performance of new procedures or the drawing of new conclusions. Changes may, however, be made to the documentation during the final assembly process if they are administrative in nature. Examples of such changes include the following:

- Deleting or discarding superseded documentation
- Sorting, collating, and cross-referencing working papers
- Signing off on completion checklists relating to the file assembly process
- Documenting evidence that the practitioner has obtained, discussed, and agreed with the relevant members of the engagement team before the date of the practitioner's report
- Adding information received after the date of the report, for example, an original confirmation that was previously communicated electronically

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

Engagement Quality Control Review (Ref: par. .45)

.A67 Other matters that may be considered in an engagement quality control review include the following:

- a. The engagement team's evaluation of the firm's independence in relation to the engagement
- b. Whether appropriate consultation has taken place on matters involving differences of opinion or other difficult or contentious matters and the conclusions arising from those consultations
- c. Whether engagement documentation selected for review reflects the work performed in relation to the significant judgments and supports the conclusions reached

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Professional Skepticism and Professional Judgment

Professional Skepticism (Ref: par. .46)

.A68 Professional skepticism includes being alert to matters such as the following:

- Evidence that contradicts other evidence obtained
- Information that brings into question the reliability of documents and responses to inquiries to be used as evidence
- Circumstances that may indicate fraud
- Circumstances that suggest the need for procedures in addition to those required by relevant AT-C sections

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A69 Professional skepticism is necessary to the critical assessment of evidence. This includes questioning contradictory evidence and the reliability of documents and responses to inquiries and other information obtained from the appropriate party. It also includes consideration of the sufficiency and appropriateness of evidence obtained in light of the circumstances. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A70 The practitioner neither assumes that the appropriate party is dishonest nor assumes unquestioned honesty. The practitioner cannot be expected to disregard past experience of the honesty and integrity of those who provide evidence. Nevertheless, a belief that those who provide evidence are honest and have integrity does not relieve the practitioner of the need to maintain professional skepticism or allow the practitioner to be satisfied with less than sufficient appropriate evidence for the service being provided. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Professional Judgment (Ref: par. .48)

.A71 Professional judgment is essential to the proper conduct of an attestation engagement. This is because interpretation of relevant ethical requirements and relevant AT-C sections and the informed decisions required throughout the engagement cannot be made without the application of relevant knowledge and experience to the facts and circumstances. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A72 For examination and review engagements, professional judgment is necessary regarding decisions about the following matters:

- Materiality and attestation risk
- The nature, timing, and extent of procedures used to meet the requirements of relevant AT-C sections and gather evidence

- Evaluating whether sufficient appropriate evidence for the service being provided has been obtained and whether more needs to be done to achieve the objectives of this section, section 205, section 206, or section 210, and any relevant subject-matter-specific AT-C sections and thereby the overall objectives of the practitioner
- In assertion-based examination engagements and review engagements, the evaluation of the responsible party's judgments in applying the criteria
- The drawing of conclusions based on the evidence obtained, for example, assessing the reasonableness of the evaluation or measurement of underlying subject matter

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

.A73 The distinguishing feature of professional judgment expected of a practitioner is that such judgment is exercised based on competencies necessary to achieve reasonable judgments developed by the practitioner through relevant training, knowledge, and experience. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A74 The exercise of professional judgment in any particular case is based on the facts and circumstances that are known by the practitioner. Consultation on difficult or contentious matters during the course of the engagement, both within the engagement team and between the engagement team and others at the appropriate level within or outside the firm, assist the practitioner in making informed and reasonable judgments. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A75 Professional judgment can be evaluated based on whether the judgment reached reflects a competent application of the attestation standards and measurement or evaluation principles and is appropriate in light of, and consistent with, the facts and circumstances that were known to the practitioner up to the date of the practitioner's report. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A76 The requirement to exercise professional judgment applies throughout the engagement. Professional judgment also needs to be appropriately documented as required by sections 205, 206, and 210. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019. As amended, effective for practitioners' reports dated on or after June 15, 2022, by SSAE No. 21.]

AT-C Section 9105

Concepts Common to All Attestation Engagements: Attestation Interpretations of Section 105

1. Responding to Requests for Reports on Matters Relating to Solvency

.01 Question — Lenders, as a requisite to the closing of certain secured financings in connection with leveraged buyouts, recapitalizations, and certain other financial transactions, have sometimes requested written assurance from an accountant regarding the prospective borrower's solvency and related matters.¹ The lender is concerned that such financings not be considered to include a fraudulent conveyance or transfer under the United States Bankruptcy Code² or the relevant state fraudulent conveyance or transfer statute.³ If the financing is subsequently determined to have included a fraudulent conveyance or transfer, repayment obligations and security interests may be set aside or subordinated to the claims of other creditors.

.02 May a practitioner provide assurance concerning *matters relating to solvency*, as hereinafter defined?

.03 Interpretation — No. For reasons set forth subsequently, a practitioner should not provide any form of assurance, through an examination, review, or agreed-upon procedures engagement, that an entity

¹ Although this interpretation describes requests from secured lenders and summarizes the potential effects of fraudulent conveyance or transfer laws upon such lenders, the interpretation is not limited to requests from lenders. All requests for assurance on matters relating to solvency are governed by this interpretation.

² Chapter 5 of the United States Bankruptcy Code addresses *fraudulent transfers and obligations* and states the following:

(a)(1) The trustee may avoid any transfer of an interest of the debtor in property or any obligation incurred by the debtor, that was made or incurred on or within two years before the date of the filing of the petition, if the debtor voluntarily or involuntarily—

(A) made such transfer or incurred such obligation with actual intent to hinder, delay, or defraud any entity to which the debtor was or became, on or after the date that such transfer occurred or such obligation was incurred, indebted; or

(B)(i) received less than a reasonably equivalent value in exchange for such transfer or obligation; and

(ii)(I) was insolvent on the date that such transfer was made or such obligation was incurred, or became insolvent as a result of such transfer or obligation;

(II) was engaged in business or a transaction, or was about to engage in business or a transaction, for which any property remaining with the debtor was an unreasonably small capital;

(III) intended to incur, or believed that the debtor would incur, debts that would be beyond the debtor's ability to pay as such debts matured; or

(IV) made such transfer to or for the benefit of an insider, or incurred such obligation to or for the benefit of an insider, under an employment contract and not in the ordinary course of business.

³ State fraudulent conveyance or transfer statutes such as the Uniform Fraudulent Conveyance Act and the Uniform Fraudulent Transfer Act reflect substantially similar provisions. These state laws may be employed absent a declaration of bankruptcy or by a bankruptcy trustee under Section 544(1) of the United States Bankruptcy Code. Although the statute of limitations varies from state to state, in some states, financing transactions may be vulnerable to challenge for up to six years from closing.

- is not insolvent at the time the debt is incurred or would not be rendered insolvent thereby.
- does not have unreasonably small capital.
- has the ability to pay its debts as they mature.

In the context of particular transactions, other terms are sometimes used or defined by the parties as equivalents of or substitutes for the preceding terms (for example, *fair salable value of assets exceeds liabilities*). These terms, and those matters listed previously, are hereinafter referred to as *matters relating to solvency*. The prohibition extends to providing assurance concerning all such terms.

.04 Section 105, *Concepts Common to All Attestation Engagements*, indicates that one of the preconditions for performing an attestation engagement is that the criteria to be applied in the preparation and evaluation of the underlying subject matter are suitable and will be available to the intended users.⁴ Section 105 also indicates that suitable criteria exhibit all the following characteristics:⁵

- *Relevance*. Criteria are relevant to the underlying subject matter.
- *Objectivity*. Criteria are free from bias.
- *Measurability*. Criteria permit reasonably consistent measurements, qualitative or quantitative, of underlying subject matter.
- *Completeness*. Criteria are complete when subject matter information prepared in accordance with them does not omit relevant factors that could reasonably be expected to affect decisions of the intended users made on the basis of the subject matter information.

.05 The matters relating to solvency mentioned in paragraph .03 of this interpretation are subject to legal interpretation under, and varying legal definition in, the United States Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense and, therefore, are subject to varying interpretations, they do not provide the practitioner with suitable criteria required to evaluate the underlying subject matter or an assertion. In addition, lenders are concerned with legal issues on matters relating to solvency, and the practitioner is generally unable to evaluate or provide assurance on these matters of legal interpretation. Therefore, practitioners are precluded from giving any form of assurance on matters relating to solvency or any financial presentation of matters relating to solvency.

.06 Under existing AICPA standards, the practitioner may provide a client with various professional services that may be useful to the client in connection with a financing. These services include the following:

- Audit of historical financial statements
- Review of historical financial information (a review in accordance with AU-C section 930, *Interim Financial Information*, of interim financial information or in accordance with AR-C section 90, *Review of Financial Statements*)
- Examination or review of pro forma financial information (section 310, *Reporting on Pro Forma Financial Information*).
- Examination of prospective financial information in accordance with section 305, *Prospective Financial Information*,

⁴ Paragraph .27b(ii) of section 105, *Concepts Common to All Attestation Engagements*.

⁵ Paragraph .A44 of section 105.

or compilation of prospective financial information in accordance with AR-C section 80A, *Compilation Engagements*.⁶

.07 Although a practitioner may not provide an agreed-upon procedures report under section 215, *Agreed-Upon Procedures Engagements*, that addresses matters related to solvency, a practitioner may provide an agreed-upon procedures report that addresses other subject matter that can be useful to a client or lender in connection with a financing. For example, the practitioner may perform an agreed-upon procedures engagement in which the client and lender specify the procedures to be applied to various financial presentations, such as historical financial information, pro forma financial information, and prospective financial information, which can be useful to a client or lender in connection with a financing.

.08 The practitioner should be aware that certain of the services described in paragraph .06 require that the practitioner have an appropriate level of knowledge of the entity's accounting and financial reporting practices and its internal control. This has ordinarily been obtained by the practitioner auditing historical financial statements of the entity for the most recent annual period or by otherwise obtaining an equivalent knowledge base. When considering acceptance of an engagement relating to a financing, the practitioner should consider whether he or she can perform these services without an equivalent knowledge base.

.09 Section 215 states that the practitioner should not express an opinion or conclusion on the subject matter or about whether the subject matter is in accordance with (or based on) the criteria.⁷ Accordingly, a report on agreed-upon procedures should not express an opinion or conclusion on matters relating to solvency or any financial presentation of matters relating to solvency (for example, fair salable value of assets less liabilities or fair salable value of assets less liabilities, contingent liabilities, and other commitments). A practitioner's report on the results of applying agreed-upon procedures should contain the report elements set forth in section 215 (or section 305 if applying agreed-upon procedures to prospective financial information).⁸ To clarify the purpose of the engagement and the practitioner's findings, the practitioner's report on the results of applying agreed-upon procedures may state that

- the service has been requested in connection with a financing (no reference should be made to any solvency provisions in the financing agreement).
- no representations are provided regarding questions of legal interpretation.
- no assurance is provided concerning the borrower's
 - solvency,
 - adequacy of capital, or
 - ability to pay its debts.

⁶ Paragraph .01 of AR-C section 80A, *Compilation Engagements*. Section 305, *Prospective Financial Information*, does not address compilations of prospective financial information — a service that is included in AT section 301, *Financial Forecasts and Projections*. Paragraph .01 of AR-C section 80A states that AR-C section 80A (which is applicable to compilations of historical financial statements) also may be applied, adapted as necessary in the circumstances, to other historical or prospective financial information.

All AT sections can be found in *PCAOB Standards and Related Rules*.

All AR-C sections can be found in *AICPA Professional Standards*.

⁷ Paragraph .26c of section 215, *Agreed-Upon Procedures Engagements*.

⁸ Paragraph .34 of section 215 and paragraph .39 of section 305.

- the procedures should not be taken to supplant any additional inquiries and procedures that the lender should undertake in its consideration of the proposed financing.
- where applicable, an audit of recent historical financial statements has previously been performed and that no audit of any historical financial statements for a subsequent period has been performed. In addition, if any services have been performed pursuant to paragraph .06, they may be referred to.

.10 The financing agreement ordinarily specifies the date, often referred to as the *cut-off date*, to which the report is to relate (for example, a date three business days before the date of the report). To clarify the purpose of the engagement and the practitioner's findings, the report may state that the inquiries and other procedures carried out in connection with the report did not cover the period from the cut-off date to the date of the report.

.11 The practitioner might consider furnishing the client with a draft of the agreed-upon procedures report. In order to avoid giving the impression that the procedures described therein have been performed, the draft report may be identified as a draft. This practice of furnishing a draft report at an early point permits the practitioner to make clear to the client and lender what they may expect the accountant to furnish and gives them an opportunity to change the financing agreement or the agreed-upon procedures if they so desire. [Issue Date: May 1988. Amended, February 1993. Revised, January 2001. Revised, November 2006. Revised, December 2012. Revised, April 2016, effective for practitioners' reports dated on or after May 1, 2017. Revised, June 2022, to reflect conforming changes necessary due to the issuance of SSAE Nos. 19 and 21.]

2. Applicability of Attestation Standards to Litigation Services

.12 Question — Does Interpretation No. 1, "Responding to Requests for Reports on Matters Relating to Solvency," of section 105 prohibit a practitioner from providing expert testimony, as described in section 105, before a trier of fact on matters relating to solvency?⁹

.13 Interpretation — No. Matters relating to solvency mentioned in paragraph .03 of Interpretation No. 1 are subject to legal interpretation under, and varying legal definition in, the United States Bankruptcy Code and various state fraudulent conveyance and transfer statutes. Because these matters are not clearly defined in an accounting sense and, therefore, subject to varying interpretations, they do not provide the practitioner with the suitable criteria required to evaluate the assertion. Thus, Interpretation No. 1 prohibits a practitioner from providing any form of assurance in reporting upon examination, review, or agreed-upon procedures engagements about matters relating to solvency (as defined in paragraph .03 of Interpretation No. 1).

.14 However, a practitioner who is involved with pending or potential formal legal or regulatory proceedings before a trier of fact in connection with the resolution of a dispute between two or more parties may provide an expert opinion or consulting advice about matters relating to solvency. The prohibition in Interpretation No. 1 does not apply in such engagements because as part of the legal or regulatory proceedings, each party to the dispute has the opportunity to analyze and challenge the legal definition and interpretation of the matters

⁹ Paragraph .A2 of section 105.

relating to solvency and the criteria the practitioner uses to evaluate matters related to solvency. Such services are not intended to be used by others who do not have the opportunity to analyze and challenge such definitions and interpretations. [Issue Date: July 1990. Revised: January 2001. Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.]

3. Providing Access to or Copies of Engagement Documentation to a Regulator^{10, 11}

.15 Question — Section 105 states that "Because engagement documentation often contains confidential information, the practitioner should adopt reasonable procedures to maintain the confidentiality of that information."¹² However, practitioners are sometimes required by law, regulation, or contract¹³ to provide a regulator, or a duly appointed representative, access to engagement documentation. For example, a regulator may request access to the engagement documentation to fulfill a quality review requirement or to assist in establishing the scope of a regulatory examination. Furthermore, as part of the regulator's review of the engagement documentation, the regulator may request copies of all or selected portions of the engagement documentation during or after the review. The regulator may intend, or decide, to make copies (or information derived from the engagement documentation) available to others, including other governmental agencies, for their particular purposes, with or without the knowledge of the practitioner or the client. When a regulator requests the practitioner to provide access to (and possibly copies of) engagement documentation pursuant to law, regulation, or contract, what actions might the practitioner consider?

.16 Interpretation — When a regulator requests access to engagement documentation pursuant to law, regulation, or contract, the practitioner may take the following steps:

- a. Consider advising the client that the regulator has requested access to (and possibly copies of) the engagement documentation and that the practitioner intends to comply with such request.¹⁴

¹⁰ The term *regulator(s)* includes federal, state, and local government officials with legal oversight authority over the entity. Examples of regulators who may request access to engagement documentation include, but are not limited to, state insurance and utility regulators, various health care authorities, and federal agencies such as the Federal Deposit Insurance Corporation, the Department of Housing and Urban Development, the Department of Labor, and the Rural Electrification Administration.

¹¹ The guidance in this interpretation does not apply to requests from the IRS; firm practice-monitoring programs, to comply with AICPA or state professional requirements such as peer or quality reviews; proceedings relating to alleged ethics violations; or subpoenas.

¹² Paragraph .42 of section 105.

¹³ Paragraphs .26–.30 of this interpretation address situations in which the practitioner is not required by law, regulation, or contract to provide a regulator access to the engagement documentation.

¹⁴ The practitioner may wish (and, in some cases, may be required by law, regulation, or contract) to confirm in writing with the client that the practitioner may be required to provide a regulator access to the engagement documentation. Sample language that may be used follows:

The engagement documentation for this engagement is the property of [name of firm] and constitutes confidential information. However, we may be requested to make certain engagement documentation available to [name of regulator] pursuant to authority given to it by law or regulation. If requested, access to such engagement documentation will be provided under the supervision of [name of firm] personnel. Furthermore, upon request, we may provide copies of selected engagement documentation to [name of regulator]. The [name of regulator] may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies.

- b. Make appropriate arrangements with the regulator for the review.
- c. Maintain control over the engagement documentation, and
- d. Consider submitting the letter described in paragraph .19 of this interpretation to the regulator.

.17 Making appropriate arrangements with the regulator may include establishing the specific details, such as the date, time, and location of the review. The engagement documentation may be made available to a regulator at the offices of the client, the practitioner, or a mutually agreed-upon location. However, maintaining control of engagement documentation is necessary in order for the practitioner to maintain the integrity of the engagement documentation and the confidentiality of client information. For example, the practitioner (or the practitioner's representative) may be present when the engagement documentation is reviewed by the regulator.

.18 Ordinarily, the practitioner may not agree to transfer ownership of the engagement documentation to a regulator. Furthermore, the practitioner may not agree, without client authorization, that the information contained therein about the client may be communicated to or made available to any other party. In this regard, the action of a practitioner providing access to, or copies of, the engagement documentation shall not constitute transfer of ownership or authorization to make them available to any other party.

.19 An engagement performed in accordance with the attestation standards is not intended to, and does not, satisfy a regulator's oversight responsibilities. To avoid any misunderstanding, prior to allowing a regulator access to the engagement documentation, the practitioner may submit a letter to the regulator that

- a. sets forth the practitioner's understanding of the purpose for which access is being requested;
- b. describes the examination, review, or agreed-upon procedures process, as applicable, and the limitations inherent in the applicable attestation engagement;
- c. explains the purpose for which the engagement documentation was prepared, and that any individual conclusions or findings must be read in the context of the practitioner's report on the subject matter (or assertion);
- d. states, except when not applicable, that the engagement was not planned or conducted in contemplation of the purpose for which access is being granted or to assess the entity's compliance with laws and regulations;
- e. states that the examination, review, or agreed-upon procedures engagement, as applicable, and the engagement documentation should not supplant other inquiries and procedures that should be undertaken by the regulator for its purposes;
- f. requests confidential treatment under the Freedom of Information Act or similar laws and regulations,¹⁵ when a request for the engagement documentation is made, and that written notice be given to the practitioner before transmitting any information contained in the engagement documentation to others, including

¹⁵ The practitioner may need to consult the regulations of individual agencies and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

other governmental agencies, except when such transfer is required by law or regulation; and

- g. states that if any copies are to be provided, they will be identified as "Confidential Treatment Requested by [name of firm, address, telephone number]."

The practitioner may obtain a signed acknowledgment copy of the letter as evidence of the regulator's receipt of the letter. Illustrative letters for an examination engagement performed in accordance with section 315, *Compliance Attestation*, and an agreed-upon procedures engagement performed in accordance with section 215 follow.

.20 Illustrative letter for an examination engagement:

Illustrative Letter to Regulator¹⁶

[Date]

[Name and Address of Regulatory Agency]

Your representatives have requested access to our engagement documentation in connection with our engagement to examine XYZ Company's compliance with [identify the specified requirements] during the period [date] to [date] [or management's assertion about its compliance with (identify the specified requirements) during the period (date) to (date)]. It is our understanding that the purpose of your request is [state purpose: for example, "to facilitate your regulatory examination"]¹⁷

Our examination was conducted in accordance with attestation standards¹⁸ established by the AICPA, the objective of which is to obtain reasonable assurance about whether XYZ Company complied with [identify the specified requirements] during the period [date] to [date], in all material respects, and to express an opinion in a written report about whether XYZ Company complied with [identify the specified requirements] during the period [date] to [date] [or whether management's assertion about its compliance with (identify the specified requirements) during the period (date) to (date) is fairly stated], in all material respects, based on our examination. Under these standards, we have the responsibility to plan and perform our examination to provide a reasonable basis for our opinion and to exercise due professional care in the performance of our examination. Our examination is subject to the inherent risk that material noncompliance, if it exists, would not be detected. In addition, our examination does not address the possibility that material noncompliance may occur in the future. Also, our use of professional judgment and the assessments of attestation risk and materiality for the purpose of our examination means that matters may have existed that would have been assessed differently by you.

¹⁶ The letter may be modified appropriately when the engagement has been conducted in accordance with Statements on Standards for Attestation Engagements (SSAEs) and also in accordance with additional attestation requirements specified by a regulatory agency (for example, the requirements specified in *Government Auditing Standards* issued by the Comptroller General of the United States).

¹⁷ See footnote 13. Also, if the practitioner is not required by law, regulation, or contract to provide a regulator access to the engagement documentation but otherwise intends to provide such access, the letter should include a statement that "Management of [name of entity] has authorized us to provide you access to our attest documentation for [state purpose]." [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126. Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.]

¹⁸ See footnote 16.

Our examination does not provide a legal determination on *[name of entity]*'s compliance with specified requirements.

The engagement documentation was prepared for the purpose of providing a sufficient and appropriate record of the basis of our opinion on *[name of entity]*'s compliance and to aid in the performance and supervision of our examination. The engagement documentation is the principal record of attestation procedures performed, relevant evidence obtained, and conclusions reached by us in the examination. The procedures that we performed were limited to those we considered necessary under attestation standards¹⁹ established by the AICPA to provide us with reasonable basis for our opinion. Accordingly, we make no representation as to the sufficiency or appropriateness, for your purposes, of either the procedures or information in our engagement documentation. In addition, any notations, comments, and individual conclusions appearing on any of the engagement documentation do not stand alone and should not be read as an opinion on any part of management's assertion or the related subject matter.

Our examination was conducted for the purpose stated above and was not planned or performed in contemplation of your *[state purpose]*: for example, "regulatory examination". Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our examination, and the engagement documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the *[name of regulatory agency]* for the purpose of monitoring and regulating *[name of entity]*. In addition, we have not performed any procedures since the date of our report with respect to the subject matter *[or management's assertion related thereto]*, and significant events or circumstances may have occurred since that date.

The engagement documentation constitutes and reflects work performed or information obtained by us in the course of our examination. The documents contain trade secrets and confidential commercial and financial information of our firm and *[name of entity]* that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations²⁰ when requests are made for the engagement documentation or information contained therein or any documents created by the *[name of regulatory agency]* containing information derived there from. We further request that written notice be given to our firm before distribution of the information in the engagement documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.

[If it is expected that copies will be requested, add the following:]

Any copies of our engagement documentation we agree to provide you will contain a legend "Confidential Treatment Requested by *(name of firm, address, telephone number)*."

[Firm signature]

¹⁹ See footnote 16.

²⁰ This illustrative paragraph may not, in and of itself, be sufficient to gain confidential treatment under the rules and regulations of certain regulatory agencies. The practitioner should consider tailoring this paragraph to the circumstances after consulting the regulations of each applicable regulatory agency and, if necessary, consult with legal counsel regarding the specific procedures and requirements necessary to gain confidential treatment.

.21 The following is an illustrative letter for an agreed-upon procedures engagement:

Illustrative Letter to Regulator²¹

[Date]

[Name and Address of Regulatory Agency]

Your representatives have requested access to our engagement documentation in connection with our engagement to perform agreed-upon procedures on [identify the subject matter or management's assertion]. It is our understanding that the purpose of your request is [state purpose: for example, "to facilitate your regulatory examinations."]²²

Our agreed-upon procedures engagement was conducted in accordance with attestation standards²³ established by the AICPA. Under these standards, we have the responsibility to perform the agreed-upon procedures to provide a reasonable basis for the findings expressed in our report. We were not engaged to, and did not, perform an examination, the objective of which would be to form an opinion on [identify the subject matter or management's assertion]. Our engagement is subject to the inherent risk that material misstatement of [identify the subject matter or management's assertion], if it exists, would not be detected. [The practitioner may add the following: "In addition, our engagement does not address the possibility that material misstatement of (identify the subject matter or management's assertion) may occur in the future."] The procedures that we performed were limited to those agreed to and acknowledged by [name of entity] to be appropriate to meet the intended purpose of [the intended purpose of the agreed-upon procedures engagement]. Further, our engagement does not provide a legal determination on [name of entity]'s compliance with specified requirements.

The engagement documentation was prepared to document agreed-upon procedures applied, information obtained, and related findings in the engagement. Accordingly, we make no representation, for your purposes, as to the sufficiency or appropriateness of the information in our engagement documentation. In addition, any notations, comments, and individual findings appearing on any of the engagement documentation should not be read as an opinion on [identify the subject matter or management's assertion], or any part thereof.

Our engagement was performed for the purpose stated above and was not performed in contemplation of your [state purpose: for example, "regulatory examination"]. Therefore, items of possible interest to you may not have been specifically addressed. Accordingly, our engagement, and the engagement documentation prepared in connection therewith, should not supplant other inquiries and procedures that should be undertaken by the [name of regulatory agency] for the purpose of monitoring and regulating [name of client]. In addition, we have not performed any procedures since the date of our report with respect to the subject matter or management's assertion related thereto, and significant events or circumstances may have occurred since that date.

The engagement documentation constitutes and reflects procedures performed or information obtained by us in the course of our engagement. The documents

²¹ See footnote 16.

²² See footnotes 13 and 17. [Footnote revised, December 2012, to reflect conforming changes necessary due to the issuance of SAS Nos. 122–126. Revised, April 2016.]

²³ See footnote 16.

contain trade secrets and confidential commercial and financial information of our firm and *[name of client]* that is privileged and confidential, and we expressly reserve all rights with respect to disclosures to third parties. Accordingly, we request confidential treatment under the Freedom of Information Act or similar laws and regulations when requests are made for the engagement documentation or information contained therein or any documents created by the *[name of regulatory agency]* containing information derived therefrom. We further request that written notice be given to our firm before distribution of the information in the engagement documentation (or copies thereof) to others, including other governmental agencies, except when such distribution is required by law or regulation.²⁴

[If it is expected that copies will be requested, add the following:]

Any copies of our engagement documentation we agree to provide you will contain a legend "Confidential Treatment Requested by *(name of firm, address, telephone number)*."

[Firm signature]

[Issue Date: May 1996; Revised: January 2001. January 2002. Revised: December 2012. Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017. Revised, June 2022, to reflect conforming changes necessary due to the issuance of SSAE Nos. 19 and 21.]

.22 Question — A regulator may request access to the engagement documentation before the attestation engagement has been completed and the report released. May the practitioner allow access in such circumstances?

.23 Interpretation — When the engagement has not been completed, the engagement documentation is necessarily incomplete because (a) additional information may be added as a result of further tests and review by supervisory personnel, and (b) any results of the engagement and conclusions reflected in the incomplete engagement documentation may change. Accordingly, it is preferable that access be delayed until all attestation procedures have been completed and all internal reviews have been performed. If access is provided prior to completion of the engagement, the practitioner may issue the letter referred to in paragraph .19 of this interpretation, modified appropriately. The following is an example of additional language that may be included in the letter:

We have been engaged to examine, in accordance with attestation standards established by the AICPA, XYZ Company's compliance with *[identify the specified requirements]* during the period *[date]* to *[date]* (or management's assertion about its compliance during the period *[date]* to *[date]*), but have not yet completed our examination. Accordingly, at this time, we do not express any opinion on XYZ Company's compliance with *[identify the specified requirements]* during the period *[date]* to *[date]* (or management's assertion about its compliance during the period *[date]* to *[date]*). Furthermore, the contents of the engagement documentation may change as a result of additional attestation procedures and review of the engagement documentation by supervisory personnel of our firm. Accordingly, our engagement documentation is incomplete.

Because the engagement documentation may change prior to completion of the engagement, it is preferable that the practitioner not provide copies of the engagement documentation until the engagement has been completed.

²⁴ See footnote 20.

.24 Question — Some regulators may engage an independent party, such as another independent public accountant, to perform the engagement documentation review on behalf of the regulatory agency. Are there any special precautions the practitioner may observe in these circumstances?

.25 Interpretation — The practitioner may obtain acknowledgment, preferably in writing, from the regulator stating that the third party is acting on behalf of the regulator and agreement from the third party that he or she is subject to the same restrictions on disclosure and use of engagement documentation and the information contained therein as the regulator.

.26 Question — When a regulator requests the practitioner to provide access to (and possibly copies of) engagement documentation and the practitioner is not otherwise required by law, regulation, or contract to provide such access, what steps may the practitioner take?

.27 Interpretation — The practitioner may obtain an understanding of the reasons for the regulator's request for access to the engagement documentation and may consider consulting with legal counsel regarding the request. If the practitioner decides to provide such access, reasonable procedures to maintain the confidentiality of client information include obtaining the client's consent, preferably in writing, to provide the regulator access to the engagement documentation.

.28 Following is an example of language that may be used in the written communication to the client:

The engagement documentation for this engagement is the property of [name of firm] and constitutes confidential information. However, we have been requested to make certain engagement documentation available to [name of regulator] for [describe the regulator's basis for its request]. Access to such engagement documentation will be provided under the supervision of [name of firm] personnel. Furthermore, upon request, we may provide copies of selected engagement documentation to [name of regulator].

You have authorized [name of firm] to allow [name of regulator] access to the engagement documentation in the manner discussed above. Please confirm your agreement to the above by signing below and returning to [name of firm, address].

[Firm signature]

Agreed and acknowledged:

[Name and title]

[Date]

.29 If the client requests to review the engagement documentation before allowing the regulator access, the practitioner may provide the client with the opportunity to obtain an understanding of the nature of the information about the subject matter contained in the engagement documentation that is being made available to the regulator. When a client reviews the engagement documentation, the need to maintain control of the engagement documentation is as discussed in paragraph .17 of this interpretation.

.30 The guidance in paragraphs .17–.25 of this interpretation, which provide guidance on making arrangements with the regulator for access to the engagement documentation, maintaining control over the engagement documentation, and submitting a letter describing various matters to the regulator, is also applicable.

[Issue Date: July, 1994. Revised: June, 1996. Revised: October, 2000. Revised: January, 2002. Revised: December, 2005. Revised: October, 2011, effective for audits of financial statements for periods ending on or after December 15, 2012. Revised: April 2016, effective for practitioners' reports dated on or after May 1, 2017.]

4. Performing and Reporting on an Attestation Engagement Under Two Sets of Attestation Standards

.31 Question — Do the AICPA attestation standards permit the performance of, and reporting on, an attestation engagement in which the practitioner follows both the AICPA attestation standards and another set of attestation standards, such as those issued by the International Auditing and Assurance Standards Board or the PCAOB?

.32 Interpretation — Yes, a practitioner may perform and report on an attestation engagement in accordance with AICPA attestation standards in addition to another set of attestation standards, as long as both sets of attestation standards are followed in their entirety.

.33 Question — If a practitioner performs an attestation engagement in accordance with the AICPA attestation standards and the PCAOB interim attestation standards, how would the practitioner reference both sets of attestation standards if the practitioner chooses to do so in the attestation report?

.34 Interpretation — If the practitioner performs an attestation engagement in accordance with both AICPA attestation standards and the PCAOB interim attestation standards, and the report references both sets of attestation standards, the statement that the attestation engagement was conducted in accordance with attestation standards established by the AICPA would be amended to add that the engagement was also conducted in accordance with "the standards of the Public Company Accounting Oversight Board (United States)."²⁵ A reference to "the standards" of the PCAOB indicates that the practitioner has complied not only with the PCAOB interim attestation standards, but also with the related professional practice standards of the PCAOB, which include the relevant independence rules. If the practitioner is required to comply only with the PCAOB interim attestation standards rather than all the PCAOB standards, the practitioner may include the word "attestation" in the reference to the standards of the PCAOB.²⁶ A practitioner performing an attestation engagement in these circumstances may, nevertheless, be responsible for complying with certain or all of the independence and other related professional practice standards of the PCAOB, for example, when the attestation engagement is subject to regulatory oversight that requires compliance with those rules. Whether the practitioner conducts an attestation engagement in accordance with the standards of the PCAOB or in accordance with the attestation standards of the PCAOB depends on the circumstances of the engagement.

²⁵ PCAOB Release No. 2015-002, *Reorganization of PCAOB Auditing Standards and Related Amendments to PCAOB Standards and Rules*, states, in part, "...whenever the practitioner is required to make reference in a report to attestation standards established by the American Institute of Certified Public Accountants, the practitioner must instead refer to 'the standards of the Public Company Accounting Oversight Board (United States).'"

²⁶ By analogy to Staff Question and Answer No. 2, *Audits of Financial Statements of Non-Issuers Performed Pursuant to the Standards of the Public Company Accounting Oversight Board* (PCAOB Staff Guidance, sec. 100.01), dated June 30, 2004.

.35 Following are illustrative reports with examples of additional language (in ***bold italics***) that a practitioner may include in attestation reports to indicate that the engagement was conducted in accordance with the AICPA attestation standards and the PCAOB interim attestation standards:

Examination Engagement

Independent Accountant's Report

[Same first paragraph as the standard report]

Our examination was conducted in accordance with attestation standards established by the AICPA ***and in accordance with the standards of the Public Company Accounting Oversight Board (United States)***. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether *[identify the subject matter, for example, the schedule of investment returns]* is in accordance with (or based on) the criteria, in all material respects. An examination involves performing procedures to obtain evidence about *[identify the subject matter, for example, the schedule of investment returns]*. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of *[identify the subject matter, for example, the schedule of investment returns]*, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

[Same subsequent paragraphs as the standard report]

Review Engagement

Independent Accountant's Report

[Same first paragraph as the standard report]

Our review was conducted in accordance with attestation standards established by the AICPA ***and in accordance with the standards of the Public Company Accounting Oversight Board (United States)***. Those standards require that we plan and perform the review to obtain limited assurance about whether any material modifications should be made to *[identify the subject matter, for example, the schedule of investment returns]* in order for it to be in accordance with (or based on) the criteria. The procedures performed in a review vary in nature and timing from and are substantially less in extent than an examination, the objective of which is to obtain reasonable assurance about whether *[identify the subject matter, for example, the schedule of investment returns]* is in accordance with (or based on) the criteria, in all material respects, in order to express an opinion. Accordingly, we do not express such an opinion. Because of the limited nature of the engagement, the level of assurance obtained in a review is substantially lower than the assurance that would have been obtained had an examination been performed. We believe that the review evidence obtained is sufficient and appropriate to provide a reasonable basis for our conclusion.

[Same subsequent paragraphs as the standard report]

Agreed-Upon Procedures Engagement

Independent Accountant's Report

[Appropriate Addressee]

We have performed the procedures enumerated below on *[identify the subject matter, for example, the accompanying Statement of Investment Performance Statistics of XYZ Fund for the year ended December 31, 20X1]*. *[The responsible party, for example, XYZ Fund]* is responsible for *[the subject matter]*.

*[The engaging party, for example, the audit committee and management of XYZ Fund] has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of [identify the intended purpose of the engagement, for example, assisting users in understanding the Statement of Investment Performance Statistics of XYZ Fund for the year ended December 31, 20X1]. Additionally, [identify the specified parties, for example, the audit committee and management of ABC Inc.]²⁷ has agreed to the procedures performed.²⁸ This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes. **The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.**²⁹*

[Include paragraphs to enumerate procedures and findings]

We were engaged by *[the engaging party, for example, the audit committee and management of XYZ Fund]* to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the AICPA **and in accordance with the standards of the Public Company Accounting Oversight Board (United States)**. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on *[identify the subject matter, for example, the accompanying Statement of Investment Performance Statistics of XYZ Fund for the year ended December 31, 20X1]*. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of XYZ Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely for the information and use of the audit committees and managements of ABC Inc. and XYZ Fund and is not intended to be and should not be used by anyone other than these specified parties.³⁰

[Signature of the practitioner's firm]

[City and state where the practitioner's report is issued]

[Date of the practitioner's report]

.36 A practitioner performing an attestation engagement for a nonissuer may be required by law or regulation, or may otherwise determine it is more

²⁷ Paragraph .31b of PCAOB AT section 201 requires that the practitioner's report include an identification of the specified parties.

²⁸ Paragraph .31f of PCAOB AT section 201 requires that the practitioner's report include a statement that the procedures performed were agreed to by the specified parties identified in the report.

²⁹ Paragraph .31h of PCAOB AT section 201 requires that the practitioner's report include a statement that the sufficiency of the procedures is solely the responsibility of the specified parties and a disclaimer of responsibility for the sufficiency of those procedures.

³⁰ Paragraph .31i of PCAOB AT section 201 requires that the practitioner's report include a statement of restrictions on the use of the report because it is intended to be used solely by the specified parties.

appropriate to use the form of attestation report included in the PCAOB Interim Attestation Standards adjusted to reflect that the engagement was also performed in accordance with AICPA attestation standards. In these circumstances a practitioner may use the reports illustrated in paragraph .37.

.37 Following are illustrative attestation reports based on the illustrative reports in the PCAOB interim attestation standards.³¹ The reports are marked to conform with the incremental reporting requirements in section 205, *Assertion-Based Examination Engagements*, section 210, *Review Engagements*, and section 215, *Agreed-Upon Procedures Engagements*, respectively. Additions to the reports are shown in ***bold italics*** and deletions are shown in ~~strike through~~. Such edits are intended to illustrate an attestation report that complies with the reporting requirements of both AICPA attestation standards and the PCAOB interim attestation standards.

Examination Engagement

Independent Accountant's Report³²

[Appropriate Addressee]

We have examined the *[identify the subject matter — for example, the accompanying schedule of investment returns of XYZ Company for the year ended December 31, 20XX]*. XYZ Company's management is responsible for the schedule of investment returns ***in accordance with (or based on) [identify criteria — for example, the ABC criteria set forth in Note 1]***. Our responsibility is to express an opinion ***on [identify the subject matter; for example, the schedule of investment returns]*** based on our examination.

Our examination was conducted in accordance with ***the standards of the Public Company Accounting Oversight Board (United States) and in accordance with*** attestation standards established by the AICPA. ***Those standards require that we plan and perform the examination to obtain reasonable assurance about whether [identify the subject matter; for example, the schedule of investment returns] is in accordance with (or based on) the criteria, in all material respects. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of [identify the subject matter; for example, the schedule of investment returns], whether due to fraud or error. The procedures*** and, accordingly, included examining, on a test basis, evidence supporting *[identify the subject matter — for example, XYZ Company's schedule of investment returns]* and performing such other procedures as we considered necessary in the circumstances. We believe that the evidence we obtained in our examination ***is sufficient and appropriate to provide*** a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

³¹ The illustrative attestation reports include the examination report in example 1 of appendix A, "Examination Reports," of AT section 101, *Attest Engagements*, the review report in example 1 of appendix B, "Review Reports," of AT section 101, and the agreed-upon procedures report in paragraph .32 of AT section 201, *Agreed-Upon Procedures Engagements*. [Footnote renumbered, November 2020, effective for agreed-upon procedures reports dated on or after July 15, 2021, to reflect conforming changes necessary due to the issuance of SSAE No. 19.]

³² A firm registered with the PCAOB may use the title "Report of Independent Registered Public Accounting Firm," or another appropriate title that includes the word "independent."

[Include a description of significant inherent limitations, if any, associated with the measurement or evaluation of the subject matter against the criteria.]

[Additional paragraph(s) may be added to emphasize certain matters relating to the attestation engagement or the subject matter.]

In our opinion, *[identify the subject matter; for example, the schedule of investment returns]* **is presented** presents, in all material respects, *[identify the subject matter — for example, the investment returns of XYZ Company for the year ended December 31, 20XX]* **in accordance with (or based on)** *[identify criteria — for example, the ABC criteria set forth in Note 1]*, **in all material respects.**

Agreed-Up Upon Procedures Engagement

Independent Accountant's Report on Applying Agreed-Up Upon Procedures³⁴

[Appropriate Addressee]:

We have performed the procedures enumerated below, which were agreed to by the audit committees and managements of ABC Inc. and XYZ Fund, solely to assist you in evaluating the accompanying Statement of Investment Performance Statistics of XYZ Fund (prepared in accordance with the criteria specified therein) for the year ended December 31, 20X1. ***These parties have also acknowledged that the procedures performed are appropriate to meet the intended purpose of assisting users in evaluating the accompanying Statement of Investment Performance Statistics of XYZ Fund.***³⁵ ***This report may not be suitable for any other purpose.***³⁶ ***The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.***³⁷ XYZ Fund's management is responsible for the statement of investment performance statistics. ***We were engaged by XYZ Fund to perform this agreed-upon procedures engagement.***³⁸ This agreed-upon procedures engagement was conducted in accordance with ***the standards of the Public Company Accounting Oversight Board (United States) and in accordance with*** attestation standards established by the

³⁴ See footnote 32.

³⁵ Paragraph .34f of section 215 requires that the practitioner's agreed-upon procedures report include a statement that the engaging party acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement.

³⁶ Paragraph .34h of section 215 requires that the practitioner's agreed-upon procedures report include a statement that the practitioner's report may not be suitable for any other purpose.

³⁷ Paragraph .34i of section 215 requires that the practitioner's agreed-upon procedures report include a statement that the procedures performed may not address all items of interest to a user of the report and may not meet the needs of all users of the report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

³⁸ Paragraph .34c of section 215 requires that the practitioner's agreed-upon procedures report include an identification of the engaging party.

AICPA. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

[Include paragraphs to enumerate procedures and findings.]

We were not engaged to and did not conduct an examination **or a review engagement**, the objective of which would be the expression of an opinion **or conclusion, respectively**, on the accompanying Statement of Investment Performance Statistics of XYZ Fund **for the year ended December 31, 20XX**. Accordingly, we do not express such an opinion **or conclusion**. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of XYZ Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.³⁹

This report is intended solely for the information and use of the audit committees and managements of ABC Inc. and XYZ Fund, and is not intended to be and should not be used by anyone other than these specified parties.

[Practitioner's signature]

Revised, June 2022, to reflect conforming changes necessary due to the issuance of SSAE Nos. 21 and 22.]

³⁹ Paragraph .34r of section 215 requires that the practitioner's agreed-upon procedures report include a statement that the practitioner is required to be independent of the responsible party and to meet the practitioner's other ethical responsibilities, in accordance with the relevant ethical requirements relating to the agreed-upon procedures engagement.

AT-C Section 105A***Concepts Common to All Attestation Engagements**

Source: SSAE No. 18; SSAE No. 19.

See section 9105 for interpretations of this section.

Effective for practitioners' reports dated on or after May 1, 2017, unless otherwise indicated.

Introduction

.01 This section applies to engagements in which a CPA in the practice of public accounting is engaged to issue, or does issue, a practitioner's examination, review, or agreed-upon procedures report on subject matter or an assertion about subject matter (hereinafter referred to as an *assertion*) that is the responsibility of another party. (Ref: par. .A1)

.02 An examination or review engagement is predicated on the concept that a party other than the practitioner makes an assertion about whether the subject matter is measured or evaluated in accordance with suitable criteria. Section 205, *Examination Engagements*, and section 210, *Review Engagements*, require the practitioner to request such an assertion in writing when performing an examination or review engagement.¹ In examination and review engagements, when the engaging party is the responsible party, the responsible party's refusal to provide a written assertion requires the practitioner to withdraw from the engagement when withdrawal is possible under applicable laws and regulations.² In examination and review engagements, when the engaging party is not the responsible party and the responsible party refuses to provide a written assertion, the practitioner need not withdraw from the engagement but is required to disclose that refusal in the practitioner's report and restrict the use of the report to the engaging party.^{3, [4]} The purpose of an examination or review attestation engagement is to provide users of information with an opinion or conclusion regarding subject matter or an assertion about the subject matter, as measured against suitable and available criteria. An examination engagement results in an opinion, and a review engagement results in a conclusion. The purpose of an agreed-upon procedures engagement is to provide users of information with the results of procedures performed by the practitioner on subject matter. An agreed-upon procedures engagement results in findings. [As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

* This section contains an "AT-C" identifier, instead of an "AT" identifier, to avoid confusion with references to existing "AT" sections, which remain effective through April 2017.

¹ Paragraph .10 of section 205, *Examination Engagements*, and paragraph .11 of section 210, *Review Engagements*. [As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

² Paragraph .82 of section 205 and paragraph .59 of section 210.

³ Paragraph .84 of section 205 and paragraph .60 of section 210.

[⁴] [Footnote deleted by the issuance of SSAE No. 19, December 2019.]

.03 This section is not applicable to professional services for which the AICPA has established other professional standards, for example, services performed in accordance with (Ref: par. .A2)

- a. Statements on Auditing Standards,
- b. Statements on Standards for Accounting and Review Services
- c. Statements on Standards for Tax Services, or
- d. Statements on Standards for Consulting Services, including litigation services that involve pending or potential legal or regulatory proceedings before a trier of fact. (Ref: par. .A3)

[As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

.04 An attestation engagement may be part of a larger engagement, for example, a feasibility study or business acquisition study that also includes an examination of prospective financial information. In such circumstances, the attestation standards apply only to the attestation portion of the engagement.

Compliance With the Attestation Standards

.05 The "Compliance With Standards Rule" (ET sec. 1.310.001) of the AICPA Code of Professional Conduct requires members who perform professional services to comply with standards promulgated by bodies designated by the Council of the AICPA.

Relationship of Attestation Standards to Quality Control Standards

.06 Quality control systems, policies, and procedures are the responsibility of the firm in conducting its attestation practice. Under QM section 10A, *A Firm's System of Quality Control*, the firm has an obligation to establish and maintain a system of quality control to provide it with reasonable assurance that⁵ (Ref: par. .A4–.A6)

- a. the firm and its personnel comply with professional standards and applicable legal and regulatory requirements and
- b. practitioners' reports issued by the firm are appropriate in the circumstances.

.07 Attestation standards relate to the conduct of individual attestation engagements; quality control standards relate to the conduct of a firm's attestation practice as a whole. Thus, attestation standards and quality control standards are related, and the quality control policies and procedures that a firm adopts may affect both the conduct of individual attestation engagements and the conduct of a firm's attestation practice as a whole. However, deficiencies in or instances of noncompliance with a firm's quality control policies and procedures do not, in and of themselves, indicate that a particular engagement was not performed in accordance with the attestation standards.

Effective Date

.08 This section is effective for practitioners' reports dated on or after May 1, 2017.

⁵ Paragraph .12 of QM section 10A, *A Firm's System of Quality Control*.

Objectives

.09 In conducting an attestation engagement, the overall objectives of the practitioner are as follows:

- a. Apply the requirements relevant to the attestation engagement;
- b. In an examination or review engagement, report on the subject matter or assertion, and in an agreed-upon procedures engagement, report on the procedures performed and related findings without providing an opinion or conclusion on the subject matter.
- c. Communicate as required by the applicable AT-C section, in accordance with the results of the practitioner's procedures.
- d. Implement quality control procedures at the engagement level that provide the practitioner with reasonable assurance that the attestation engagement complies with professional standards and applicable legal and regulatory requirements.

[As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

Definitions

.10 For purposes of the attestation standards, the following terms have the meanings attributed as follows:

Assertion. Any declaration or set of declarations about whether the subject matter is in accordance with (or based on) the criteria.

Attestation engagement. An examination, review, or agreed-upon procedures engagement performed under the attestation standards related to subject matter or an assertion that is the responsibility of another party. The following are the three types of attestation engagements:

- a. **Examination engagement.** An attestation engagement in which the practitioner obtains reasonable assurance by obtaining sufficient appropriate evidence about the measurement or evaluation of subject matter against criteria in order to be able to draw reasonable conclusions on which to base the practitioner's opinion about whether the subject matter is in accordance with (or based on) the criteria or the assertion is fairly stated, in all material respects. (Ref: par. .A7)
- b. **Review engagement.** An attestation engagement in which the practitioner obtains limited assurance by obtaining sufficient appropriate review evidence about the measurement or evaluation of subject matter against criteria in order to express a conclusion about whether any material modification should be made to the subject matter in order for it to be in accordance with (or based on) the criteria or to the assertion in order for it to be fairly stated. (Ref: par. .A8)
- c. **Agreed-upon procedures engagement.** An attestation engagement in which a practitioner performs specific procedures on subject matter or an assertion and reports the findings without providing an opinion or a conclusion.

Attestation risk. In an examination or review engagement, the risk that the practitioner expresses an inappropriate opinion or conclusion, as applicable, when the subject matter or assertion is materially misstated. (Ref: par. .A9–.A15)

Criteria. The benchmarks used to measure or evaluate the subject matter. (Ref: par. .A16)

Documentation completion date. The date on which the practitioner has assembled for retention a complete and final set of documentation in the engagement file.

Engagement circumstances. The broad context defining the particular engagement, which includes the terms of the engagement; whether it is an examination, review, or agreed-upon procedures engagement; the characteristics of the subject matter; the criteria; the information needs of the intended users; relevant characteristics of the responsible party and, if different, the engaging party and their environment; and other matters, for example, events, transactions, conditions and practices, and relevant laws and regulations, that may have a significant effect on the engagement.

Engagement documentation. The record of procedures performed, relevant evidence obtained, and, in an examination or review engagement, conclusions reached by the practitioner, or in an agreed-upon procedures engagement, findings of the practitioner. (Terms such as *working papers* or *workpapers* are also sometimes used).

Engagement partner. The partner or other person in the firm who is responsible for the attestation engagement and its performance and for the practitioner's report that is issued on behalf of the firm and who, when required, has the appropriate authority from a professional, legal, or regulatory body. *Engagement partner*, *partner*, and *firm* refer to their governmental equivalents when relevant.

Engagement team. All partners and staff performing the engagement and any individuals engaged by the firm or a network firm who perform attestation procedures on the engagement. This excludes a practitioner's external specialist and engagement quality control reviewer engaged by the firm or a network firm. The term *engagement team* also excludes individuals within the client's internal audit function who provide direct assistance.

Engaging party. The party(ies) that engages the practitioner to perform the attestation engagement. (Ref: par. .A17)

Evidence. Information used by the practitioner in arriving at the opinion, conclusion, or findings on which the practitioner's report is based.

Firm. A form of organization permitted by law or regulation whose characteristics conform to resolutions of the Council of the AICPA and that is engaged in the practice of public accounting.

Fraud. An intentional act involving the use of deception that results in a misstatement in the subject matter or the assertion.

General use. Use of a practitioner's report that is not restricted to specified parties.

Internal audit function. A function of an entity that performs assurance and consulting activities designed to evaluate and

improve the effectiveness of the entity's governance, risk management, and internal control processes.

Misstatement. A difference between the measurement or evaluation of the subject matter by the responsible party and the proper measurement or evaluation of the subject matter based on the criteria. Misstatements can be intentional or unintentional, qualitative or quantitative, and include omissions. In certain engagements, a misstatement may be referred to as a *deviation*, *exception*, or *instance of noncompliance*.

Network firm. A firm or other entity that belongs to a network, as defined in ET section 0.400, *Definitions*.

Noncompliance with laws or regulations. Acts of omission or commission by the entity, either intentional or unintentional, that are contrary to the prevailing laws or regulations. Such acts include transactions entered into by, or in the name of, the entity or on its behalf by those charged with governance, management, or employees. *Noncompliance* does not include personal misconduct (unrelated to the subject matter) by those charged with governance, management, or employees of the entity.

Other practitioner. An independent practitioner who is not a member of the engagement team who performs work on information that will be used as evidence by the practitioner performing the attestation engagement. An other practitioner may be part of the practitioner's firm, a network firm, or another firm.

Practitioner. The person or persons conducting the attestation engagement, usually the engagement partner or other members of the engagement team, or, as applicable, the firm. When an AT-C section expressly intends that a requirement or responsibility be fulfilled by the engagement partner, the term *engagement partner*, rather than *practitioner*, is used. *Engagement partner* and *firm* are to be read as referring to their governmental equivalents when relevant.

Practitioner's specialist. An individual or organization possessing expertise in a field other than accounting or attestation, whose work in that field is used by the practitioner to assist the practitioner in obtaining evidence for the service being provided. A practitioner's specialist may be either a practitioner's internal specialist (who is a partner or staff, including temporary staff, of the practitioner's firm or a network firm) or a practitioner's external specialist. *Partner* and *firm* refer to their governmental equivalents when relevant.

Professional judgment. The application of relevant training, knowledge, and experience, within the context provided by attestation and ethical standards in making informed decisions about the courses of action that are appropriate in the circumstances of the attestation engagement.

Professional skepticism. An attitude that includes a questioning mind, being alert to conditions that may indicate possible misstatement due to fraud or error, and a critical assessment of evidence.

Reasonable assurance. A high, but not absolute, level of assurance.

Report release date. The date on which the practitioner grants the engaging party permission to use the practitioner's report.

Responsible party. The party(ies) responsible for the subject matter. If the nature of the subject matter is such that no such party exists, a party who has a reasonable basis for making a written assertion about the subject matter may be deemed to be the responsible party.

Specified party. The intended user(s) to whom use of the written practitioner's report is limited.

Subject matter. In an examination or review engagement, the phenomenon that is measured or evaluated by applying criteria. In an agreed-upon procedures engagement, the phenomenon upon which procedures are performed.

[As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

.11 For the purposes of the attestation standards, references to appropriate party(ies) should be read hereafter as the responsible party or the engaging party, as appropriate. (Ref: par. .A18)

Requirements

Conduct of an Attestation Engagement in Accordance With the Attestation Standards

Complying With AT-C Sections That Are Relevant to the Engagement

.12 When performing an attestation engagement, the practitioner should comply with

- this section;
- sections 205, 210, or 215, as applicable; and
- any subject-matter AT-C section relevant to the engagement when the AT-C section is in effect and the circumstances addressed by the AT-C section exist.

.13 The practitioner should not represent compliance with this or any other AT-C section unless the practitioner has complied with the requirements of this section and all other AT-C sections relevant to the engagement.

.14 Reports issued by a practitioner in connection with services performed under other professional standards should be written to be clearly distinguishable from and not confused with reports issued under the attestation standards. (Ref: par. .A19–.A20)

Text of an AT-C Section

.15 The practitioner should have an understanding of the entire text of each AT-C section that is relevant to the engagement being performed, including its application and other explanatory material, to understand its objectives and apply its requirements properly. (Ref: par. .A21–.A26)

Complying With Relevant Requirements

.16 Subject to paragraph .20, the practitioner should comply with each requirement of the AT-C sections that is relevant to the engagement being performed, including any relevant subject-matter AT-C section, unless, in the circumstances of the engagement,

- a. the entire AT-C section is not relevant, or
- b. the requirement is not relevant because it is conditional, and the condition does not exist.

.17 When a practitioner undertakes an attestation engagement for the benefit of a government body or agency and agrees to follow specified government standards, guides, procedures, statutes, rules, and regulations, the practitioner should comply with those governmental requirements as well as the applicable AT-C sections. (Ref: par. .A27)

Practitioner's Report Prescribed by Law or Regulation

.18 If the practitioner is required by law or regulation to use a specific layout, form, or wording of the practitioner's report and the prescribed form of report is not acceptable or would cause a practitioner to make a statement that the practitioner has no basis to make, the practitioner should reword the prescribed form of report or attach an appropriately worded separate practitioner's report. (Ref: par. .A28)

Defining Professional Requirements in the Attestation Standards

.19 The attestation standards use the following two categories of professional requirements, identified by specific terms, to describe the degree of responsibility it imposes on practitioners:

- *Unconditional requirements.* The practitioner must comply with an unconditional requirement in all cases in which such requirement is relevant. The attestation standards use the word *must* to indicate an unconditional requirement.
- *Presumptively mandatory requirements.* The practitioner must comply with a presumptively mandatory requirement in all cases in which such a requirement is relevant, except in rare circumstances discussed in paragraph .20. The attestation standards use the word *should* to indicate a presumptively mandatory requirement.

Departure From a Relevant Requirement

.20 In rare circumstances, the practitioner may judge it necessary to depart from a relevant presumptively mandatory requirement. In such circumstances, the practitioner should perform alternative procedures to achieve the intent of that requirement. The need for the practitioner to depart from a relevant, presumptively mandatory requirement is expected to arise only when the requirement is for a specific procedure to be performed and, in the specific circumstances of the engagement, that procedure would be ineffective in achieving the intent of the requirement. (Ref: par. .A29)

Interpretive Publications

.21 The practitioner should consider applicable interpretive publications in planning and performing the attestation engagement. (Ref: par. .A30)

Other Attestation Publications

.22 In applying the attestation guidance included in an other attestation publication, the practitioner should, exercising professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the attestation engagement. (Ref: par. .A31–.A33)

Acceptance and Continuance

.23 The engagement partner should be satisfied that appropriate procedures regarding the acceptance and continuance of client relationships and attestation engagements have been followed and should determine that conclusions reached in this regard are appropriate.

Preconditions for an Attestation Engagement

.24 The practitioner must be independent when performing an attestation engagement in accordance with the attestation standards unless the practitioner is required by law or regulation to accept the engagement and report on the subject matter or assertion. (Ref: par. .A34)

.25 In order to establish that the preconditions for an attestation engagement are present, the practitioner should determine both of the following:

- a. Whether the responsible party is a party other than the practitioner and takes responsibility for the subject matter. (Ref: par. .A35–.A37)
- b. Whether the engagement exhibits all of the following characteristics:
 - i. The subject matter is appropriate. (Ref: par. .A38–.A43)
 - ii. In an examination or review engagement, the criteria to be applied in the preparation and evaluation of the subject matter are suitable and will be available to the intended users. (Ref: par. .A44–.A54)
 - iii. The practitioner expects to be able to obtain the evidence needed to arrive at the practitioner's opinion, conclusion, or findings, including (Ref: par. .A55–.A56)
 - (1) access to all information of which the appropriate party is aware that is relevant to the measurement, evaluation, or disclosure of the subject matter;
 - (2) access to additional information that the practitioner may request from the appropriate party for the purpose of the engagement; and
 - (3) unrestricted access to persons within the appropriate party from whom the practitioner determines it necessary to obtain evidence.
 - iv. The practitioner's opinion, conclusion, or findings, in the form appropriate to the engagement, is to be contained in a written practitioner's report.

[As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

.26 If the preconditions in paragraphs .24–.25 are not present, the practitioner should discuss the matter with the engaging party to attempt to resolve the issue.

.27 The practitioner should accept an attestation engagement only when the practitioner

- a. has no reason to believe that relevant ethical requirements, including independence, will not be satisfied;

- b.* is satisfied that those persons who are to perform the engagement collectively have the appropriate competence and capabilities (see also paragraph .32);
- c.* has determined that the engagement to be performed meets all the preconditions for an attestation engagement (see also paragraphs .24–.25); and
- d.* has reached a common understanding with the engaging party of the terms of the engagement, including the practitioner's reporting responsibilities.

.28 If it is discovered after the engagement has been accepted that one or more of the preconditions for an attestation engagement is not present, the practitioner should discuss the matter with the appropriate party(ies) and should determine

- a.* whether the matter can be resolved;
- b.* whether it is appropriate to continue with the engagement; and
- c.* if the matter cannot be resolved but it is still appropriate to continue with the engagement, whether, and if so how, to communicate the matter in the practitioner's report.

Acceptance of a Change in the Terms of the Engagement

.29 The practitioner should not agree to a change in the terms of the engagement when no reasonable justification for doing so exists. If a change in the terms of the engagement is made, the practitioner should not disregard evidence that was obtained prior to the change. (Ref: par. .A55–.A56)

.30 If the practitioner concludes, based on the practitioner's professional judgment, that there is reasonable justification to change the terms of the engagement from the original level of service that the practitioner was engaged to perform to a lower level of service, for example, from an examination to a review, and if the practitioner complies with the AT-C sections applicable to the lower level of service, the practitioner should issue an appropriate practitioner's report on the lower level of service. The report should not include reference to (a) the original engagement, (b) any procedures that may have been performed, or (c) scope limitations that resulted in the changed engagement.

Using the Work of an Other Practitioner

.31 When the practitioner expects to use the work of an other practitioner, the practitioner should (Ref: par. .A57–.A58)

- a.* obtain an understanding of whether the other practitioner understands and will comply with the ethical requirements that are relevant to the engagement and, in particular, is independent.
- b.* obtain an understanding of the other practitioner's professional competence.
- c.* communicate clearly with the other practitioner about the scope and timing of the other practitioner's work and findings.
- d.* if assuming responsibility for the work of the other practitioner, be involved in the work of the other practitioner.
- e.* evaluate whether the other practitioner's work is adequate for the practitioner's purposes.
- f.* determine whether to make reference to the other practitioner in the practitioner's report.

Quality Control

Assignment of the Engagement Team and the Practitioner's Specialists

.32 The engagement partner should be satisfied that

- a. the engagement team, and any practitioner's external specialists, collectively, have the appropriate competence, including knowledge of the subject matter, and capabilities to (Ref: par. .A59–.A60)
 - i. perform the engagement in accordance with professional standards and applicable legal and regulatory requirements and
 - ii. enable the issuance of a practitioner's report that is appropriate in the circumstances.
- b. to an extent that is sufficient to accept responsibility for the opinion, conclusion, or findings on the subject matter or assertion, the engagement team will be able to be involved in the work of
 - i. a practitioner's external specialist when the work of that specialist is to be used and (Ref: par. .A61)
 - ii. an other practitioner, when the work of that practitioner is to be used.
- c. those involved in the engagement have been informed of their responsibilities, including the objectives of the procedures they are to perform and matters that may affect the nature, timing, and extent of such procedures.
- d. engagement team members have been directed to bring to the engagement partner's attention significant questions raised during the engagement so that their significance may be assessed.

Leadership Responsibilities for Quality in Attestation Engagements

.33 The engagement partner should take responsibility for the overall quality on each attestation engagement. This includes responsibility for the following:

- a. Appropriate procedures being performed regarding the acceptance and continuance of client relationships and engagements
- b. The engagement being planned and performed (including appropriate direction and supervision) to comply with professional standards and applicable legal and regulatory requirements
- c. Reviews being performed in accordance with the firm's review policies and procedures and reviewing the engagement documentation on or before the date of the practitioner's report (Ref: par. .A62)
- d. Appropriate engagement documentation being maintained to provide evidence of achievement of the practitioner's objectives and that the engagement was performed in accordance with the attestation standards and relevant legal and regulatory requirements
- e. Appropriate consultation being undertaken by the engagement team on difficult or contentious matters

Engagement Documentation

.34 The practitioner should prepare engagement documentation on a timely basis. (Ref: par. .A63)

.35 The practitioner should assemble the engagement documentation in an engagement file and complete the administrative process of assembling the final engagement file no later than 60 days following the practitioner's report release date. (Ref: par. .A64)

.36 After the documentation completion date, the practitioner should not delete or discard documentation of any nature before the end of its retention period.

.37 If the practitioner finds it necessary to amend existing engagement documentation or add new engagement documentation after the documentation completion date, the practitioner should, regardless of the nature of the amendments or additions, document

- a. the specific reasons for making the amendments or additions and
- b. when, and by whom, they were made and reviewed.

.38 Engagement documentation is the property of the practitioner, and some jurisdictions recognize this right of ownership in their statutes. The practitioner should adopt reasonable procedures to retain engagement documentation for a period of time sufficient to meet the needs of the practitioner and to satisfy any applicable legal or regulatory requirements for records retention.

.39 Because engagement documentation often contains confidential information, the practitioner should adopt reasonable procedures to maintain the confidentiality of that information.

.40 The practitioner also should adopt reasonable procedures to prevent unauthorized access to engagement documentation.

.41 If, in rare circumstances, the practitioner judges it necessary to depart from a relevant, presumptively mandatory requirement, the practitioner must document the justification for the departure and how the alternative procedures performed in the circumstances were sufficient to achieve the intent of that requirement. (See paragraph .20.)

Engagement Quality Control Review

.42 For those engagements, if any, for which the firm has determined that an engagement quality control review is required (Ref: par. .A65)

- a. the engagement partner should take responsibility for discussing with the engagement quality control reviewer significant findings or issues arising during the engagement, including those identified during the engagement quality control review, and not release the practitioner's report until completion of the engagement quality control review and
- b. the engagement quality control reviewer should perform an objective evaluation of the significant judgments made by the engagement team and the conclusions reached in formulating the report. This evaluation should include the following:
 - i. Discussion of significant findings or issues with the engagement partner
 - ii. Reading the written subject matter or assertion and the proposed report
 - iii. Reading selected engagement documentation relating to the significant judgments the engagement team made and the related conclusions it reached

- iv. Evaluation of the conclusions reached in formulating the report and consideration of whether the proposed report is appropriate

Professional Skepticism and Professional Judgment

Professional Skepticism

.43 The practitioner should plan and perform an attestation engagement with professional skepticism. (Ref: par. .A66–.A68)

.44 Unless the practitioner has reason to believe the contrary, the practitioner may accept records and documents as genuine. If conditions identified during the attestation engagement cause the practitioner to believe that a document may not be authentic or that terms in a document have been modified but not disclosed to the practitioner, the practitioner should investigate further.

Professional Judgment

.45 The practitioner should exercise professional judgment in planning and performing an attestation engagement. (Ref: par. .A69–.A74)

Application and Other Explanatory Material

Introduction (Ref: par. .01 and .03)

.A1 The subject matter of an attestation engagement may take many forms, including the following:

- a. Historical or prospective performance or condition, for example, historical or prospective financial information, performance measurements, and backlog data
- b. Physical characteristics, for example, narrative descriptions or square footage of facilities
- c. Historical events, for example, the price of a market basket of goods on a certain date
- d. Analyses, for example, break-even analyses
- e. Systems and processes, for example, internal control
- f. Behavior, for example, corporate governance, compliance with laws and regulations, and human resource practices

The subject matter may be as of a point in time or for a period of time.

.A2 Because performance audits performed pursuant to *Government Auditing Standards* do not require a practitioner's examination, review, or agreed-upon procedures report as described in this section, this section does not apply to performance audits unless the practitioner engaged to conduct a performance audit is also engaged to conduct an AICPA attestation engagement or issues such an examination, review, or agreed-upon procedures report. [Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

.A3 Examples of litigation services include the following circumstances:

- a. The service comprises being an expert witness.
- b. The service comprises being a trier of fact or acting on behalf of one.

- c. The practitioner's work under the rules of the proceedings is subject to detailed analysis and challenge by each party to the dispute.
- d. The practitioner is engaged by an attorney to do work that will be protected by the attorney's work product or attorney-client privilege, and such work is not intended to be used for other purposes.

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

Relationship of Attestation Standards to Quality Control Standards (Ref: par. .06)

.A4 The nature and extent of a firm's quality control policies and procedures depend on factors such as its size, the degree of operating autonomy allowed its personnel and its practice offices, the nature of its practice, its organization, and appropriate cost-benefit considerations.

.A5 Within the context of the firm's system of quality control, engagement teams have a responsibility to implement quality control procedures that are applicable to the attestation engagement and provide the firm with relevant information to enable the functioning of that part of the firm's quality control relating to independence.

.A6 Engagement teams are entitled to rely on the firm's system of quality control, unless the engagement partner determines that it is inappropriate to do so based on information provided by the firm or other parties.

Definitions

Examination Engagement (Ref: par. .10)

.A7 The practitioner obtains the same level of assurance in an examination engagement as the practitioner does in a financial statement audit.

Review Engagement (Ref: par. .10)

.A8 The practitioner obtains the same level of assurance in a review engagement as the practitioner does in a review of financial statements.

Attestation Risk (Ref: par. .10)

.A9 Attestation risk does not refer to the practitioner's business risks, such as loss from litigation, adverse publicity, or other events arising in connection with the subject matter or assertion reported on.

.A10 In general, attestation risk can be represented by the following components, although not all of these components will necessarily be present or significant for all engagements:

- a. Risks that the practitioner does not directly influence, which consist of
 - i. the susceptibility of the subject matter to a material misstatement before consideration of any related controls (inherent risk) and
 - ii. the risk that a material misstatement that could occur in the subject matter will not be prevented, or detected and corrected, on a timely basis by the appropriate party(ies)'s internal control (control risk)

- b. Risk that the practitioner does directly influence, which consists of the risk that the procedures to be performed by the practitioner will not detect a material misstatement (detection risk)

.A11 The degree to which each of these components of attestation risk is relevant to the engagement is affected by the engagement circumstances, in particular

- the nature of the subject matter or assertion. (For example, the concept of control risk may be more useful when the subject matter or assertion relates to the preparation of information about an entity's performance than when it relates to information about the existence of a physical condition.)
- the type of engagement being performed. (For example, in a review engagement, the practitioner may often decide to obtain evidence by means other than tests of controls, in which case, consideration of control risk may be less relevant than in an examination engagement on the same subject matter or assertion.)

.A12 The consideration of risks is a matter of professional judgment, rather than a matter capable of precise measurement.

.A13 In an examination engagement, the practitioner reduces attestation risk to an acceptably low level in the circumstances of the engagement as the basis for the practitioner's opinion. Reducing attestation risk to zero is not contemplated in an examination engagement and, therefore, reasonable assurance is less than absolute assurance as a result of factors such as the following:

- The use of selective testing
- The inherent limitations of internal control
- The fact that much of the evidence available to the practitioner is persuasive, rather than conclusive
- The use of professional judgment in gathering and evaluating evidence and forming conclusions based on that evidence
- In some cases, the characteristics of the subject matter when evaluated or measured against the criteria

.A14 In a review engagement, attestation risk is greater than it is in an examination engagement. Because the practitioner obtains limited assurance in a review engagement, the types of procedures performed are less extensive than they are in an examination engagement and generally are limited to inquiries and analytical procedures.

.A15 Attestation risk is not applicable to an agreed-upon procedures engagement because in such engagements, the practitioner performs specific procedures (the design of which is the responsibility of the specified parties) on subject matter or an assertion and reports the findings without providing an opinion or conclusion.

Criteria (Ref: par. .10)

.A16 Suitable criteria are required for reasonably consistent measurement or evaluation of subject matter within the context of professional judgment. Without the frame of reference provided by suitable criteria, any conclusion is open to individual interpretation and misunderstanding. The suitability of criteria is context-sensitive, that is, it is determined in the context of the engagement circumstances. Even for the same subject matter, there can be different criteria, which will yield a different measurement or evaluation. For example, one responsible party might select the number of customer complaints

resolved to the acknowledged satisfaction of the customer for the subject matter of customer satisfaction; another responsible party might select the number of repeat purchases in the three months following the initial purchase. The suitability of criteria is not affected by the level of assurance, that is, if criteria are unsuitable for an examination engagement, they are also unsuitable for a review engagement and vice versa.

Engaging Party (Ref: par. .10)

.A17 The engaging party, depending on the circumstances, may be management or those charged with governance of the responsible party, a governmental body or agency, the intended users, or another third party.

Appropriate Party(ies) (Ref: par. .11)

.A18 Management and governance structures vary by entity, reflecting influences such as size and ownership characteristics. Such diversity means that it is not possible for the attestation standards to specify for all engagements the person(s) with whom the practitioner is to interact regarding particular matters. For example, an entity may be a segment of an organization and not a separate legal entity. In such cases, identifying the appropriate management personnel or those charged with governance with whom to communicate may require the exercise of professional judgment.

Conduct of an Attestation Engagement in Accordance With the Attestation Standards

Complying With AT-C Sections That Are Relevant to the Engagement (Ref: par. .14)

.A19 A practitioner's report that merely excludes the phrase "was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants" but is otherwise similar to a practitioner's examination, review, or agreed-upon procedures attestation report is an example of a practitioner's report that is not clearly distinguishable from, and could be confused with, a report issued under the attestation standards.

.A20 Paragraph .14 does not prohibit combining reports issued by a practitioner under the attestation standards with reports issued under other professional standards.

Text of an AT-C Section (Ref: par. .15)

.A21 The AT-C sections contain the objectives of the practitioner and requirements designed to enable the practitioner to meet those objectives. In addition, they contain related guidance in the form of application and other explanatory material, introductory material that provides context relevant to a proper understanding of the section, and definitions.

.A22 Introductory material may include, as needed, such matters as an explanation of the following:

- The purpose and scope of the AT-C section, including how the AT-C section relates to other AT-C sections
- The subject matter of the AT-C section
- The respective responsibilities of the practitioner and others regarding the subject matter of the AT-C section
- The context in which the AT-C section is set

.A23 The application and other explanatory material provides further explanation of the requirements of an AT-C section and guidance for carrying them out. In particular, it may

- a. explain more precisely what a requirement means or is intended to cover and
- b. include examples of procedures that may be appropriate in the circumstances.

Although such guidance does not, in itself, impose a requirement, it may explain the proper application of the requirements of an AT-C section. The application and other explanatory material may also provide background information on matters addressed in an AT-C section. They do not, however, limit or reduce the responsibility of the practitioner to apply and comply with the requirements in applicable AT-C sections.

.A24 The practitioner is required by paragraph .15 to understand the application and other explanatory material. How the practitioner applies the guidance in the engagement depends on the exercise of professional judgment in the circumstances consistent with the objective of the section. The words *may*, *might*, and *could* are used to describe these actions and procedures.

.A25 An AT-C section may include, in a separate section under the heading "Definition(s)," a description of the meanings attributed to certain terms for purposes of the AT-C section. These are provided to assist in the consistent application and interpretation of the AT-C section and are not intended to override definitions that may be established for other purposes, whether in law, regulation, or otherwise. Unless otherwise indicated, those terms will carry the same meanings in all AT-C sections.

.A26 Appendixes form part of the application and other explanatory material. The purpose and intended use of an appendix are explained in the body of the related AT-C section or within the title and introduction of the appendix itself.

Complying With Relevant Requirements (Ref: par. .17)

.A27 In certain attestation engagements, the practitioner also may be required to comply with other requirements in addition to the attestation standards. The attestation standards do not override law or regulation that governs the attestation engagement. In the event that such law or regulation differs from attestation standards, an attestation engagement conducted only in accordance with law or regulation will not necessarily comply with the attestation standards.

Practitioner's Report Prescribed by Law or Regulation (Ref: par. .18)

.A28 Some report forms can be made acceptable by inserting additional wording to include the elements required by sections 205, 210, and 215.⁶ Some report forms required by law or regulation can be made acceptable only by complete revision because the prescribed language of the practitioner's report calls for statements by the practitioner that are not consistent with the practitioner's function or responsibility, for example, a report form that requests the practitioner to "certify" the subject matter.

⁶ Paragraphs .63–.66 of section 205, paragraphs .46–.49 of section 210, and paragraph .32–.33 of section 215. [As amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

Departure From a Relevant Requirement (Ref: par. .20)

.A29 Paragraph .41 prescribes documentation requirements when the circumstances described in paragraph .20 occur.

Interpretive Publications (Ref: par. .21)

.A30 *Interpretive publications* are not attestation standards. Interpretive publications are recommendations on the application of the attestation standards in specific circumstances, including engagements for entities in specialized industries. An interpretive publication is issued under the authority of the relevant senior technical committee after all members of the committee have been provided an opportunity to consider and comment on whether the proposed interpretive publication is consistent with the attestation standards. Examples of interpretive publications are interpretations of the attestation standards, exhibits to the AT-C sections, and attestation guidance included in AICPA guides and attestation Statements of Position (SOPs). Interpretations of the AT-C sections and exhibits are included within the AT-C sections. AICPA guides and attestation SOPs are listed in AT-C appendix A, "AICPA Guides and Statements of Position."

Other Attestation Publications (Ref: par. .22)

.A31 *Other attestation publications* are publications other than interpretive publications. These include AICPA attestation publications not defined as interpretive publications; attestation articles in the *Journal of Accountancy* and other professional journals; continuing professional education programs and other instruction materials, textbooks, guidebooks, attestation programs, and checklists; and other attestation publications from state CPA societies, other organizations, and individuals. Other attestation publications have no authoritative status; however, they may help the practitioner understand and apply the attestation standards. The practitioner is not expected to be aware of the full body of other attestation publications.

.A32 Although the practitioner determines the relevance of these publications in accordance with paragraph .22, the practitioner may presume that other attestation publications published by the AICPA that have been reviewed by the AICPA Audit and Attest Standards staff are appropriate. These other attestation publications are listed in AT-C appendix B, "Other Attestation Publications."

.A33 In determining whether an other attestation publication that has not been reviewed by the AICPA Audit and Attest Standards staff is appropriate to the circumstances of the attestation engagement, the practitioner may wish to consider the degree to which the publication is recognized as being helpful in understanding and applying the attestation standards and the degree to which the publisher or author is recognized as an authority in attestation matters. [Revised, February 2017, to better reflect the AICPA Council Resolution designating the Public Company Accounting Oversight Board to promulgate technical standards.]

**Preconditions for an Attestation Engagement
(Ref: par. .24–.25b(ii))**

.A34 The "Independence Standards for Engagements Performed in Accordance With Statements on Standards for Attestation Engagements" interpretation (ET sec. 1.297) establishes special requirements for independence for services provided under the attestation standards. In addition, the "Conceptual

Framework Approach" interpretation (ET sec. 1.210.010) discusses threats to independence not specifically detailed elsewhere, for example, when the practitioner has an interest in the subject matter.

Roles and Responsibilities (Ref: par. .25)

.A35 All attestation engagements have an engaging party, a responsible party, the practitioner, and intended users. In some attestation engagements, the engaging party is different from the responsible party. In other attestation engagements, the engaging party, the responsible party, and the intended users may all be the same. [Paragraph added, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

.A36 The responsible party may acknowledge its responsibility for the subject matter or for the written assertion as it relates to the objective of the engagement in a number of ways, for example, in an engagement letter, a representation letter, or the presentation of the subject matter, including the notes thereto, or the written assertion. Examples of other evidence of the responsible party's responsibility for the subject matter include reference to legislation, a regulation, or a contract. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Appropriateness of Subject Matter (Ref: par. .25b[i])

.A37 Evidence that the appropriate relationship exists with respect to responsibility for the subject matter may be obtained through an acknowledgment provided by the responsible party. Such an acknowledgment also establishes a basis for a common understanding of the responsibilities of the responsible party and the practitioner. A written acknowledgment is the most appropriate form of documenting the responsible party's understanding. In the absence of a written acknowledgment of responsibility, it may still be appropriate for the practitioner to accept the engagement if, for example, other sources, such as legislation or a contract, indicate responsibility. In other cases, it may be appropriate to decline the engagement depending on the circumstances or disclose the circumstances in the attestation report. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A38 An element of the appropriateness of subject matter is the existence of a reasonable basis for measuring or evaluating the subject matter. The responsible party in an attestation engagement is responsible for having a reasonable basis for measuring or evaluating the subject matter. What constitutes a reasonable basis will depend on the nature of the subject matter and other engagement circumstances. In some cases, a formal process with extensive internal control may be needed to provide the responsible party with a reasonable basis for concluding that the measurement or evaluation of the subject matter is free from material misstatement. The fact that the practitioner will report on the subject matter or assertion is not a substitute for the responsible party's own processes to have a reasonable basis for measuring or evaluating the subject matter or assertion. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A39 An appropriate subject matter

- a. is identifiable and, in an examination or review engagement, is capable of consistent measurement or evaluation against the criteria and
- b. can be subjected to procedures for obtaining sufficient appropriate evidence to support an opinion, conclusion, or findings, as appropriate.

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

.A40 If the subject matter is not appropriate for an examination engagement, it also is not appropriate for a review engagement. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A41 Different subject matters have different characteristics, including the degree to which information about them is qualitative versus quantitative, objective versus subjective, historical versus prospective, and relates to a point in time or covers a period. Such characteristics affect the following:

- a. In an examination or review engagement, the precision with which the subject matter can be measured or evaluated against criteria
- b. The persuasiveness of available evidence

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

.A42 Identifying such characteristics and considering their effects assists the practitioner when assessing the appropriateness of the subject matter and also in determining the content of the practitioner's report. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A43 In some cases, the attestation engagement may relate to only one part of a broader subject matter. For example, the practitioner may be engaged to examine one aspect of an entity's contribution to sustainable development, such as the programs run by the entity that have positive environmental outcomes, and may be aware that the practitioner has not been engaged to examine more significant programs with less favorable outcomes. In such cases, in determining whether the engagement exhibits the characteristic of having an appropriate subject matter, it may be appropriate for the practitioner to consider whether information about the aspect that the practitioner is asked to examine is likely to meet the information needs of intended users. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Suitable and Available Criteria (Ref: par. .25b[ii])

.A44 Suitable criteria exhibit all of the following characteristics:

- *Relevance.* Criteria are relevant to the subject matter.
- *Objectivity.* Criteria are free from bias.
- *Measurability.* Criteria permit reasonably consistent measurements, qualitative or quantitative, of subject matter.
- *Completeness.* Criteria are complete when subject matter prepared in accordance with them does not omit relevant factors that could reasonably be expected to affect decisions of the intended users made on the basis of that subject matter.

The relative importance of each characteristic to a particular engagement is a matter of professional judgment. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A45 Criteria can be developed in a variety of ways, for example, they may be

- embodied in laws or regulations.
- issued by authorized or recognized bodies of experts that follow a transparent due process.

- developed collectively by a group that does not follow a transparent due process.
- published in scholarly journals or books.
- developed for sale on a proprietary basis.
- specifically designed for the purpose of measuring, evaluating, or disclosing the subject matter or assertion in the particular circumstances of the engagement.

How criteria are developed may affect the work that the practitioner carries out to assess their suitability. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A46 Criteria that are established or developed by groups composed of experts that follow due process procedures, including exposure of the proposed criteria for public comment, are ordinarily considered suitable. Criteria promulgated by a body designated by the Council of the AICPA under the AICPA Code of Professional Conduct are, by definition, considered to be suitable. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A47 In some cases, laws or regulations prescribe the criteria to be used for the engagement. In the absence of indications to the contrary, such criteria are presumed to be suitable. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A48 Criteria may be established or developed by the engaging party, the responsible party, industry associations, or other groups that do not follow due process procedures or do not as clearly represent the public interest. The practitioner's determination of whether such criteria are suitable is based on the characteristics described in paragraph .A42. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A49 Regardless of who establishes or develops the criteria, the responsible party or the engaging party is responsible for selecting the criteria, and the engaging party is responsible for determining that such criteria are appropriate for its purposes. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A50 Some criteria may be suitable for only a limited number of parties who either participated in their establishment or can be presumed to have an adequate understanding of the criteria. For example, criteria set forth in a lease agreement for override payments may be suitable only for reporting to the parties to the agreement because of the likelihood that such criteria would be misunderstood or misinterpreted by parties other than those who have specifically agreed to the criteria. Such criteria can be agreed upon directly by the parties or through a designated representative. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A51 Even when established criteria exist for a subject matter, specific users may agree to other criteria for their specific purposes. For example, various frameworks can be used as established criteria for evaluating the effectiveness of internal control. Specific users may, however, develop a more detailed set of criteria that meet their specific information needs. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A52 If criteria are specifically designed for the purpose of measuring, evaluating, or disclosing the subject matter or assertion in the particular circumstances of the engagement, they are not suitable if they result in subject matter, an assertion, or a practitioner's report that is misleading to the intended users. It is desirable for the intended users or the engaging party to acknowledge that

specifically developed criteria are suitable for the intended users' purposes. The absence of such an acknowledgement may affect what is to be done to assess the suitability of the criteria and the information provided about the criteria in the report. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A53 Criteria need to be available to the intended users to allow them to understand how the subject matter has been measured or evaluated. Criteria are made available to the intended users in one or more of the following ways:

- a. Publicly
- b. Through inclusion in a clear manner in the presentation of the subject matter
- c. Through inclusion in a clear manner in the practitioner's report
- d. By general understanding, for example, the criterion for measuring time in hours and minutes
- e. Available only to specified parties, for example, terms of a contract or criteria issued by an industry association that are available only to those in the industry

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A54 When criteria are available only to specified parties, sections 205 and 210 require a statement restricting the use of the practitioner's report.⁷ [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Access to Evidence (Ref: par. .25b[iii])

.A55 The nature of the relationship between the responsible party and, if different, the engaging party, may affect the practitioner's ability to access records, documentation, and other information the practitioner may require as evidence to arrive at the practitioner's opinion, conclusion, or findings. Therefore, the nature of that relationship may be a relevant consideration when determining whether or not to accept the engagement. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A56 The quantity or quality of available evidence is affected by both of the following:

- a. The characteristics of the subject matter, for example, less objective evidence might be expected when the subject matter is future-oriented, rather than historical
- b. Other circumstances, such as when evidence that could reasonably be expected to exist is not available, for example, because of the timing of the practitioner's appointment, an entity's document retention policy, inadequate information systems, or a restriction imposed by the responsible or engaging party

[Paragraph renumbered and amended, effective for practitioners' reports dated on or after July 15, 2021, by SSAE No. 19. Early implementation is permitted.]

Acceptance of a Change in the Terms of the Engagement (Ref: par. .29)

.A57 A change in circumstances that affects the requirements of the responsible party or, if different, the engaging party, or a misunderstanding concerning the nature of the engagement originally requested, may be considered

⁷ Paragraph .64b of section 205 and paragraph .47b of section 210.

reasonable justification for requesting a change in the engagement, for example, from an attestation engagement to a consulting engagement or from an examination engagement to a review engagement. A change may not be considered reasonable if it appears that the change relates to information that is incorrect, incomplete, or otherwise unsatisfactory. An example of such a circumstance is a request to change the engagement from an examination to a review to avoid a modified opinion or a disclaimer of opinion in a situation in which the practitioner is unable to obtain sufficient appropriate evidence regarding the subject matter. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A58 If the practitioner and the engaging party are unable to agree to a change in the terms of the engagement and the practitioner is not permitted to continue the original engagement, the practitioner may withdraw from the engagement when possible under applicable laws and regulations. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Using the Work of an Other Practitioner (Ref: par. .31)

.A59 The practitioner is responsible for (a) the direction, supervision, and performance of the engagement in compliance with professional standards; applicable regulatory and legal requirements; and the firm's policies and procedures and (b) determining whether the practitioner's report that is issued is appropriate in the circumstances. The practitioner may, however, use the work of other practitioners to obtain sufficient appropriate evidence to express an opinion, conclusion, or findings on the subject matter or assertion. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A60 The engagement partner may decide to assume responsibility for the work of the other practitioner or to make reference to the other practitioner in the practitioner's report. Regardless of whether the engagement partner decides to assume responsibility or make reference, the practitioner is required to communicate clearly with the other practitioner and evaluate whether the other practitioner's work is adequate for the purposes of the engagement. The nature, timing, and extent of this involvement are affected by the practitioner's understanding of the other practitioner, such as previous experience with, or knowledge of, the other practitioner and the degree to which the engagement team and the other practitioner are subject to common quality control policies and procedures. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Quality Control

Assignment of the Engagement Team and the Practitioner's Specialists (Ref: par. .32a–b[i])

.A61 The practitioner may obtain knowledge about the specific subject matter to which the procedures are to be applied through formal or continuing education, practical experience, or consultation with others. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A62 When considering the appropriate competence and capabilities expected of those involved in the engagement, the engagement partner may take into consideration such matters as their

- understanding of, and practical experience with, engagements of a similar nature and complexity through appropriate training and participation.

- understanding of professional standards and applicable legal and regulatory requirements.
- technical expertise, including expertise with relevant IT and specialized areas relevant to the subject matter.
- knowledge of relevant industries in which the entity operates.
- ability to apply professional judgment.
- understanding of the firm's quality control policies and procedures.

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A63 Some of the attestation work may be performed by a multidisciplinary team that includes one or more practitioner's specialists. For example, in an examination engagement, a practitioner's specialist may be needed to assist the practitioner in obtaining an understanding of the subject matter and other engagement circumstances or in assessing or responding to the risk of material misstatement. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Leadership Responsibilities for Quality in Attestation Engagements **(Ref: par. .33c)**

.A64 Under QM section 10A, the firm's review responsibility policies and procedures are determined on the basis that suitably experienced team members review the work of other team members. The engagement partner may delegate part of the review responsibility to other members of the engagement team, in accordance with the firm's system of quality control. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Engagement Documentation (Ref: par. .34–.35)

.A65 Documentation prepared at the time work is performed or shortly thereafter is likely to be more accurate than documentation prepared at a much later time. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A66 The completion of the assembly of the final engagement file is an administrative process that does not involve the performance of new procedures or the drawing of new conclusions. Changes may, however, be made to the documentation during the final assembly process if they are administrative in nature. Examples of such changes include the following:

- Deleting or discarding superseded documentation
- Sorting, collating, and cross-referencing working papers
- Signing off on completion checklists relating to the file assembly process
- Documenting evidence that the practitioner has obtained, discussed, and agreed with the relevant members of the engagement team before the date of the practitioner's report
- Adding information received after the date of the report, for example, an original confirmation that was previously faxed

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Engagement Quality Control Review (Ref: par. .42)

.A67 Other matters that may be considered in an engagement quality control review include the following:

- a. The engagement team's evaluation of the firm's independence in relation to the engagement
- b. Whether appropriate consultation has taken place on matters involving differences of opinion or other difficult or contentious matters and the conclusions arising from those consultations
- c. Whether engagement documentation selected for review reflects the work performed in relation to the significant judgments and supports the conclusions reached

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Professional Skepticism and Professional Judgment***Professional Skepticism (Ref: par. .43)***

.A68 Professional skepticism includes being alert to matters such as the following:

- Evidence that contradicts other evidence obtained
- Information that brings into question the reliability of documents and responses to inquiries to be used as evidence
- Circumstances that may indicate fraud
- Circumstances that suggest the need for procedures in addition to those required by relevant AT-C sections

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A69 Professional skepticism is necessary to the critical assessment of evidence. This includes questioning contradictory evidence and the reliability of documents and responses to inquiries and other information obtained from the appropriate party. It also includes consideration of the sufficiency and appropriateness of evidence obtained in light of the circumstances. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A70 The practitioner neither assumes that the appropriate party is dishonest nor assumes unquestioned honesty. The practitioner cannot be expected to disregard past experience of the honesty and integrity of those who provide evidence. Nevertheless, a belief that those who provide evidence are honest and have integrity does not relieve the practitioner of the need to maintain professional skepticism or allow the practitioner to be satisfied with less than sufficient appropriate evidence for the service being provided. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

Professional Judgment (Ref: par. .45)

.A71 Professional judgment is essential to the proper conduct of an attestation engagement. This is because interpretation of relevant ethical requirements and relevant AT-C sections and the informed decisions required throughout the engagement cannot be made without the application of relevant knowledge and experience to the facts and circumstances. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A72 For examination and review engagements, professional judgment is necessary regarding decisions about the following matters:

- Materiality and attestation risk
- The nature, timing, and extent of procedures used to meet the requirements of relevant AT-C sections and gather evidence
- Evaluating whether sufficient appropriate evidence for the service being provided has been obtained and whether more needs to be done to achieve the objectives of this section, section 205, or section 210, and any relevant subject-matter-specific AT-C sections and thereby the overall objectives of the practitioner
- The evaluation of the responsible party's judgments in applying the criteria
- The drawing of conclusions based on the evidence obtained, for example, assessing the reasonableness of the evaluation or measurement of subject matter or an assertion

[Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A73 The distinguishing feature of professional judgment expected of a practitioner is that such judgment is exercised based on competencies necessary to achieve reasonable judgments developed by the practitioner through relevant training, knowledge, and experience. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A74 The exercise of professional judgment in any particular case is based on the facts and circumstances that are known by the practitioner. Consultation on difficult or contentious matters during the course of the engagement, both within the engagement team and between the engagement team and others at the appropriate level within or outside the firm, assist the practitioner in making informed and reasonable judgments. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A75 Professional judgment can be evaluated based on whether the judgment reached reflects a competent application of the attestation standards and measurement or evaluation principles and is appropriate in light of, and consistent with, the facts and circumstances that were known to the practitioner up to the date of the practitioner's report. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

.A76 The requirement to exercise professional judgment applies throughout the engagement. Professional judgment also needs to be appropriately documented as required by sections 205 and 210. [Paragraph renumbered by the issuance of SSAE No. 19, December 2019.]

AT-C Section 9105A

Concepts Common to All Attestation Engagements: Attestation Interpretations of Section 105

1. Responding to Requests for Reports on Matters Relating to Solvency

.01 Question—Lenders, as a requisite to the closing of certain secured financings in connection with leveraged buyouts, recapitalizations, and certain other financial transactions, have sometimes requested written assurance from an accountant regarding the prospective borrower's solvency and related matters.¹ The lender is concerned that such financings not be considered to include a fraudulent conveyance or transfer under the United States Bankruptcy Code² or the relevant state fraudulent conveyance or transfer statute.³ If the financing is subsequently determined to have included a fraudulent conveyance or transfer, repayment obligations and security interests may be set aside or subordinated to the claims of other creditors.

.02 May a practitioner provide assurance concerning *matters relating to solvency*, as hereinafter defined?

.03 Interpretation—No. For reasons set forth subsequently, a practitioner should not provide any form of assurance, through an examination, review, or agreed-upon procedures engagement, that an entity

¹ Although this interpretation describes requests from secured lenders and summarizes the potential effects of fraudulent conveyance or transfer laws upon such lenders, the interpretation is not limited to requests from lenders. All requests for assurance on matters relating to solvency are governed by this interpretation.

² Chapter 5 of the United States Bankruptcy Code addresses *fraudulent transfers and obligations* and states the following:

(a)(1)The trustee may avoid any transfer of an interest of the debtor in property or any obligation incurred by the debtor, that was made or incurred on or within two years before the date of the filing of the petition, if the debtor voluntarily or involuntarily—

(A) made such transfer or incurred such obligation with actual intent to hinder, delay, or defraud any entity to which the debtor was or became, on or after the date that such transfer occurred or such obligation was incurred, indebted; or

(B)(i) received less than a reasonably equivalent value in exchange for such transfer or obligation; and

(ii)(I) was insolvent on the date that such transfer was made or such obligation was incurred, or became insolvent as a result of such transfer or obligation;

(II) was engaged in business or a transaction, or was about to engage in business or a transaction, for which any property remaining with the debtor was an unreasonably small capital;

(III) intended to incur, or believed that the debtor would incur, debts that would be beyond the debtor's ability to pay as such debts matured; or

(IV) made such transfer to or for the benefit of an insider, or incurred such obligation to or for the benefit of an insider, under an employment contract and not in the ordinary course of business.

³ State fraudulent conveyance or transfer statutes such as the Uniform Fraudulent Conveyance Act and the Uniform Fraudulent Transfer Act reflect substantially similar provisions. These state laws may be employed absent a declaration of bankruptcy or by a bankruptcy trustee under Section 544(1) of the United States Bankruptcy Code. Although the statute of limitations varies from state to state, in some states, financing transactions may be vulnerable to challenge for up to six years from closing.

- is not insolvent at the time the debt is incurred or would not be rendered insolvent thereby.
- does not have unreasonably small capital.
