Re: Amendment 4
RFP 24-VSW-KCC-015
Coffman Cove Luck Point Project
RFP Due Date: March 28, 2024 @ 2:00 PM AST

The following are vendor questions and the department's response:

1. Vendor: Can the survey drawings included in the PER report be used for the project or does the survey need to be included in our proposal? I see survey drawings in the list of submittal sheets.

Department: Survey drawings included in the Luck Point Sewer Study PER (February 2018) may be used if the bidder considers them sufficient to meet the needs of this project.

2. Vendor: Is a geotechnical investigation required and need to be included? In looking through the documents, I would assume the septic tanks would be replaced in the same spot as I would not anticipate that being required but geotechnical sheets are in the list of submittal sheets.

Department: A geotechnical investigation is not required.
