Email: jason.grove@alaska.gov

Questions submitted by potential offerors and answers from the State:

(Note: Question 13 was the last remaining unanswered question from Amendment #1)

Question 13: Could you please provide a summary of the anticipated rebasing schedules?

Answer: In general, for services that include rebasing (according to regulation or the relevant State Plan Amendment), rebasing occurs at least every four years. For some services, the State Plan language and Alaska regulations are silent on rebasing requirements.

For the purposes of this project, the most immediate rate rebasing that must be accounted for in the project plan is rebasing for Home and Community Based Waiver services. The state is currently gathering information from providers to inform this rebasing process. Rebasing for these services must be complete and effective no later than July 1, 2026.

The state will collaborate with the awarded contractor to ensure that the final project plan accommodates the state's rebasing schedule and needs.
