Ski-doo Expedition Snow Machines

ITB # 2024-1200-0312

Amendment # 1

May 6, 2024

This amendment is being issued to answer questions received from a potential vendor.

Vendor Questions:

Question 1: I have some Expedition SE 900ACE Silent Cobra 1.5in BK, these machines are not studded from the factory like one in the ITB. I can quote them though with tunnel protectors and track screws, would this be acceptable replacement for the original machine listed in the ITB?

Answer: Yes, that would be acceptable, and they must be installed.
