Sometimes unwanted sex happens after a person is pressured into it, such as through verbal and emotional pressure and other nonphysical kinds of pressure. The following questions are about times in your life when someone may have ever used verbal or other nonphysical pressure to make you have sex when you didn't want to. This could be anyone, including strangers or someone you knew such as a romantic or sexual partner, a family member, a friend, teacher, co-worker or supervisor, or someone you have known for only a short time.
