| Statement of Work (SOW) | | |
| <p>Alaska Aerospace Corporation (AAC) has a requirement to assist in Hazardous Waste Removal from the PSCA facility in Kodiak, AK. AAC anticipates the following task to be the bulk of the work.</p> <ol style="list-style-type: none"> 1. Waste identification and profiling ~ Safety Data Sheets (SDSs) will be collected from all identified products, and waste acceptance vendors will be determined by waste acceptance criteria. Please see Attachment 1~ PSCA HAZ Waste Inventory for current information. 2. Chemistry Requests ~ as required by vendors accepting waste. 3. Segregation and Prepare for Shipment ~ After disposal vendors have approved the profiles and issued profile paperwork, separation and loading the onsite container van. Currently one van sits at the spaceport available to be loaded with waste. 4. Shipping ~ Coordinate shipping with Samson and communicate expected ship times with all stakeholders. 5. Certificate of Disposal ~ Provide copies of disposal acceptance facilities (TSDF) receipt of good or a certificate of disposal. 6. Implement the Waste Management Plan provided by AAC~ Establish a suitable Waste Accumulation Area where all hazardous waste generated on-site would be sorted, processed, and shipped. Contractor would make once monthly visits to manage accumulated waste for a period of three months and ensure that the established waste management system is compliant with state and federal regulations. Once systems are established and an AAC representative is trained, AAC will take over the management process. | | |
