

**STATE OF ALASKA ITB NUMBER 2024-1100-0334
AMENDMENT NUMBER TWO**

Department of Fish and Game
Division of Administrative Services

THIS IS NOT AN ORDER

DATE AMENDMENT ISSUED: 8/26/2024

ITB TITLE: RV Kestrel 2024 Shipyard Services

ITB OPENING DATE AND TIME: September 17, 2024, 2:00 PM AKST

The following questions have been submitted and ADF&G's answers are below:

Q1: #1 – *For item 7 - Shafts: please confirm that the new thordon TG100R seals are being supplied by owner?*

A1: Correct

Q2: #2 – *For item 8 - Prop hub/blade removal – Please confirm all parts for the hub/ blade service are being supplied by owner?*

A2: No. Any parts that are found to be needed should be supplied by the bidder.

Q3: #3 – *For item 14 - Furuno – The spec seems incomplete, we remove , then on the next page we discuss going on dock /sea trials*

A3: Good catch - prior to sentence about dock and sea trials, it should read “Install new Furuno CSH-8L Mark-2 Full Circle Scanning Sonar sound dome.”

Q3.1: *Please confirm that the owner is supplying the new system components, and that the contractor is to complete the installation?*

A3.1: Correct on both counts.

Q3.2: *Is the system a directs replacement – ie size for size? Is there a requirement to modify anything to suit new equipment? Will interference /relocations be by change order?*

A3.2: Yes, this is size for size as the current tube is 8” and replacement dome is also 8”, so no modifications should be necessary.
