DATA GAP ANALYSIS FOR SAVOONGA FSA

RFP 250000002

Amendment #5

August 29, 2024

This amendment is being issued to answer questions from interested offerors and to make changes to the RFP. This document does not need to be returned with your proposal.

Questions submitted by potential offerors and answers from the state:

Question 1: In Amendment #4, a response to a question was, "Moving the building will be at the discretion of Kukulget, Inc. therefore it's not guaranteed that it will happen. Please include this as a cost option in your proposal." Clarification needed. During the Pre-Conference meeting, Ms. Van Horn indicated that the building may need to be moved and that if needed, it would be during a Phase 2 activity." Is it the State's intent to investigate under the building during the data gap analysis, which would require moving the building? If so, there doesn't seem to be sufficient building data provided in the scope of work or time prior to proposal submittal to allow an engineering and cost evaluation to be included.

Answer: The buildings are on Triodetic foundations with skids that allow them to be moved with backhoes or similar machinery. Many of our building have been moved like this, and the previous execution did occur partially under the building without moving it. Space would be a major consideration when pushing or pulling the building.

Changes to the RFP:

Change 1: The new Deadline for Receipt of Proposals is September 3, 2024, at 9:00 A.M. AKST. Late proposals will not be accepted.
