The following questions have been submitted and ADF&G's answers are below:

Q1: *The spec mentions "flame spray of the 10" and 6" sheaves": Can you advise the intent of the flame spray?*

A1: Intent – allow rollers to freewheel, so need prevent rollers from rusting and binding up.

Q2: *The spec mentions "flame spray of the 10" and 6" sheaves": Is there a technical spec for type of flame spray?*

A2: Unknown – out of our expertise.

Q3: *The spec mentions "flame spray of the 10" and 6" sheaves": Is there specific tolerances to be met, once sprayed?*

A3: Unknown – out of our expertise.
