Responses to Questions Received by Offerors

Question 1: I am unsure as to the exact number which is being used to calculate the event multiplied by to determine if we are within budget or over budget. I saw a number of historical information in the ITB for Richardson of 24 plow events per year and 10 sands per year. Is this the multiplier to be used?

Answer: Vendors need to provide costs associated with a singular snow event. Costs for each location will be added up per lot and evaluated based on lowest bidder. Please note: DO NOT multiply costs associated with historical data.

Question 2: If that is the number to be used, then it does not appear to correlate with the value of each budget for each property. Bryant is about 1/3rd the size of Camp Carroll and 1/5th the size of Denali yet it is 26% of the total budget for that grouping.

Answer: The amounts listed under SEC. 1.02 BUDGET, are the NOT TO EXCEED (NTE) amounts per all contract years (5) and were calculated based on historical expenses. Additionally, Per Amendment 3 of this ITB, the three JBER Enclaves, Bryant Airfield, Camp Carroll and Camp Denali have been separated into individual lots. The updated NTE for each enclave is also depicted on Amendment 3 of this ITB.

Changes to the ITB

Change 1: The deadline for receipt of bids is being extended from Thursday September 12th to **Monday, September 16th at 2:00 PM Alaska Standard Time**. Late bids will be considered non-responsive and will not be accepted for evaluation.
