

RFP 2025-1600-0096 / 1625-023
AIDS Drug Assistance Program (ADAP) Pharmacy Services
AMD#1 - 9/16/2024

Q#	Document / Section	Page / Row	Question
1	N/A	N/A	Is Alaska ADAP looking for a pharmacy provider to fulfil the requirements of this RFP, or will a TPA with a network of contracted pharmacies in Alaska be considered?
Response: Alaska is looking for a pharmacy provider who can fulfil the requirements of the RFP. This service is to provide vulnerable individuals (low income, without insurance, etc.,) with very complex medication needs to achieve viral suppression. The pharmacy will be required to consult with Alaska resident patients.			
2	1.02	4	Does the budget in Section 1.02, Page 4 of RFP 2025-1600-0096 - 1625-023 - DPH ADAP Pharmacy Services.pdf include drug cost?

Response: No. The State of Alaska utilizes MMCAP Infuse, to access a wholesale pharmaceutical company for all ADAP drug purchases. Therefore, ADAP drug costs would incur through a separate mechanism outside of the resultant contract from this solicitation.
