## **SECTION 1. INTRODUCTION & INSTRUCTIONS**

### **SEC. 1.01 PURPOSE OF THE ITB**

The Department of Natural Resources, Division of Forestry & Fire Protection is soliciting bids for a qualified contractor to provide As-Needed Silviculture Services near Haines, Alaska. Multiple contracts will be awarded from this ITB. The bidder with the lowest cost will be awarded the Task Order associated with 2(a) Representative Project located within Sec. 2 Scope of Work.

### **SEC. 1.02 BUDGET**

The Department of Natural Resources, Division of Forestry & Fire Protection, estimates a budget of **\$400,000.00** for completion of future projects. Bids priced at more than **\$15,000.00** for the Representative Project will be considered non-responsive.

The services are as-needed, and the budget amount is an estimate only and does not represent a work commitment. When there is a need for silviculture services, and funds become available the Project Manager will email the Term Contractors a Task Order solicitation, which will provide a defined scope of work, specific deliverables, deliverable due dates, and other important solicitation requirements and/or instructions. The State does not guarantee a minimum or maximum number of services to be provided or dollar amount to be spent under any contract resulting from this ITB.

Approval or continuation of a contract resulting from this ITB is contingent upon legislative appropriation.

### **SEC. 1.03 DEADLINE FOR RECEIPT OF BIDS**

Bids must be received no later than **2:00 PM** Alaska Time on **January 21, 2025**, at which time they will be publicly opened. Late bids or amendments will be considered non-responsive and will not be opened or accepted for evaluation.

### **SEC. 1.04 PRIOR EXPERIENCE**

In order for a bid to be considered responsive the bidder must meet these minimum prior experience requirements:

- **The bidder must not have had a contract terminated for cause by the State within the last three years.**
- **At least three years of experience in professional silviculture services in remote locations.**

A bidder's failure to meet these minimum prior experience requirements will cause their bid to be considered non-responsive and rejected.

**SEC. 1.05 REQUIRED REVIEW**

Bidders shall carefully review this ITB for defects and questionable or objectionable material. Comments concerning defects and questionable or objectionable material in the ITB should be made in writing and received by the Procurement Officer at least 10 days before the deadline for receipt of bids. This will allow time for an addendum to be issued if one is required. It will also help prevent the opening of a defective bid, upon which award cannot be made, and the resultant exposure of bidders' prices.

**SEC. 1.06 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF BIDS**

All questions must be in writing and directed to the Procurement Officer. The interested party must confirm telephone conversations in writing. Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the ITB. These questions may be answered over the telephone. Other questions may be more complex and may require a written amendment to the ITB. The Procurement Officer will make that decision.

Deadline to receive questions is **January 09, 2025**, by **2:00 PM** Alaska Time.

Procurement Officer: **SHAWN M. OLSEN** – PHONE 1 (907) 269-8687 – TDD/TTY: 711 (Alaska Relay); EMAIL: [shawn.olsen@alaska.gov](mailto:shawn.olsen@alaska.gov)

**SEC. 1.07 SITE INSPECTION FOR REPRESENTATIVE PROJECT**

Potential bidders are encouraged to visit the work site so that they can see the conditions under which the work described in this ITB will be performed. The bidder's failure to visit the work site will in no way relieve the bidder of the responsibility of performing the work in strict compliance with the true intent and meaning of the terms, conditions, and specifications of this ITB. The site may be inspected by contacting **Greg Palmieri** at [greg.palmieri@alaska.gov](mailto:greg.palmieri@alaska.gov).

This contact person is only empowered to allow potential bidders to view the work site. The contact person cannot and will not answer potential bidder questions regarding the work to be performed under this ITB or the terms, conditions, and specifications of this ITB. Any questions potential bidders have must be directed to the Procurement Officer as required in Section 1.05.

**SEC. 1.08 RETURN INSTRUCTIONS**

If submitting a bid via email, the bid may be emailed to [shawn.olsen@alaska.gov](mailto:shawn.olsen@alaska.gov) and must contain the ITB number in the subject line of the email. The **maximum** size of a single email (including all text and attachments) that can be received by the State is **20mb (megabytes)**. If the email containing the bid exceeds this size, the bid must be sent in multiple emails that are each less than 20 megabytes, and each email must comply with the requirements described above.

Please note that email transmission is not instantaneous. Like sending a hard copy bid, if you are emailing your bid, the State recommends sending it enough ahead of time to ensure the email is delivered by the deadline for receipt of bids.

If submitting bids using U.S. mail, or delivery service, bidders must submit one hard copy of their bid, in writing, to the Procurement Officer in a sealed package. The sealed bid package must be addressed as follows:

Department of Natural Resources  
Support Services Division  
Attention: **SHAWN M. OLSEN**  
Invitation to Bid (ITB) Number: 2025-1000-0200  
ITB Title: AS-NEEDED SILVICULTURE SERVICES NEAR HAINES, ALASKA  
550 W 7<sup>th</sup> Avenue, Suite 1330  
Anchorage, Alaska 99501

It is the bidder's responsibility to contact the issuing agency at **1 (907) 269-8687** to confirm that the bid has been received. The State is not responsible for unreadable, corrupt, or missing attachments.

### **SEC. 1.09 ENROLLMENT IN IRIS**

Bidders will be required to be enrolled in the State of Alaska's Integrated Resource Information System (IRIS) database prior to award of a contract resulting from this ITB. Enrollment can be done online at the following link: <https://iris-vss.alaska.gov>. Bidders who are not enrolled prior to award of a contract will be notified by the Procurement Officer. Failure of a bidder to enroll in the IRIS database will delay award of the contract and may delay issuance of contract work.

### **SEC. 1.10 ASSISTANCE TO BIDDERS WITH A DISABILITY**

The State of Alaska complies with Title II of the Americans with Disabilities Act of 1990. Individuals with disabilities who may need auxiliary aids, services, and/or special modifications to submit a bid should contact the Procurement Officer no later than 10 days prior to the closing of the bid to make any necessary arrangements.

### **SEC. 1.11 AMENDMENTS TO BIDS**

Amendments to or withdrawals of bids will only be allowed if acceptable requests are received prior to the deadline that is set for receipt of bids, in accordance with 2 AAC 12.140. No amendments or withdrawals will be accepted after the deadline unless the delay is due to an error of the contracting agency, in accordance with 2 AAC 12.160.

### **SEC. 1.12 ADDENDUMS TO THE ITB**

If an addendum is issued before the deadline for receipt of bids, the addendum will be posted on the [State of Alaska Online Public Notice](#) (OPN) website. The link to the posting of the addendum will be provided to all who were notified of the ITB and to those who have registered with the Procurement Officer after receiving the ITB from the OPN.

**SEC. 1.13 ITB SCHEDULE**

The ITB schedule below represents the State of Alaska’s best estimate of the schedule that will be followed. If a component of this schedule, such as the deadline for receipt of bids, is delayed, the rest of the schedule may be shifted accordingly. All times are Alaska Time.

The State's obligation will commence when the contract is approved by the Commissioner of the Department of Natural Resources, or the Commissioner's designee. Upon written notice to the Contractor, the State may set a different starting date for the contract. The State will not be responsible for any work done by the Contractor, even work done in good faith, if it occurs prior to the contract start date set by the State.

**SEC. 1.14 PRE-BID CONFERENCE/TELECONFERENCE**

Not applicable for this ITB.

**SEC. 1.15 ALTERNATE BIDS**

Bidders may only submit one bid for evaluation. In accordance with 2 AAC 12.830 alternate bids (bids that offer something different than what is asked for) will be rejected.

**SEC. 1.16 SUPPORTING INFORMATION**

Provided a bid meets the requirements for a definite, firm, unqualified, and unconditional offer, the State reserves the right to request supplemental information from the bidder, after the bids have been opened, to ensure that the products or services offered completely meet the ITB requirements. The requirement for such supplemental information will be at the reasonable discretion of the State and may include the requirement that a bidder will provide a sample product(s) so that the State can make a first-hand examination and determination.

A bidder's failure to provide this supplemental information or the product sample(s), within the time set by the State, may cause the State to consider the offer non-responsive and reject the bid.

**SEC. 1.17 FIRM, UNQUALIFIED, AND UNCONDITIONAL OFFER**

To be responsive a bid must constitute a definite, firm, unqualified and unconditional offer to meet all the material terms of the ITB. Material terms are those that could affect the price, quantity, quality, or delivery. Also included as material terms are those which are clearly identified in the ITB, and which must be complied with at risk of bid rejection for non-responsiveness.

## **SECTION 2. SCOPE OF WORK AND CONTRACT INFORMATION**

### **SEC. 2.01 SCOPE OF WORK**

The Department of Natural Resources, Division of Forestry & Fire Protection, is soliciting bids for As-Needed Silviculture Services near Haines, Alaska. Silviculture practices include, but are not limited to, pre-commercial thinning, weed control, tree planting, and tree removal. The Division of Forestry and Fire Protection will designate the lands on which silviculture practices are to occur.

Prior to starting any work, the Contractor will provide a work plan and budget detailing all costs.

### **DEFINITIONS**

- **ACRE:** The measure of area used in land measurement equal to 43,560 square feet. Acres in this contract are calculated on a horizontal plane.
- **DAMAGED TREES:** Trees with limb stobs longer than 1/4", trees having cuts into the sap wood that cover a circumference larger than the largest diameter limb on the tree in question, or the removal of the limb collar (cutting too close to the bole of the tree) during the pruning of the limb.
- **DBH: (Diameter at Breast Height)** Diameter of tree trunk measured at a point 4.5 feet above the top of the root collar on the uphill side of the tree.
- **DEFICIENT TREE:** A tree which should not have been cut when a lesser quality tree was available to select as a leave tree, or tree not selected according to the technical specification requirements (such as a tree cut that should have been left to meet spacing/stocking requirements), or a leave tree that is excessively damaged by the prescribed operations (see Damaged Trees above).
- **EXCESS TREE:** A tree which does not meet leave tree specifications and should be cut, for example: a poor-quality tree left which leaves the area over stocked, a tree not completely severed from the stump, a cut tree leaning against a leave tree, and a tree stump with a live limb 4 inches above an obstruction, a tree not girdled if required, or a tree not treated as prescribed, is an excess tree.
- **GIRDLING:** A cut through the bark and cambium tissue below the lowest live branch completely encircling the tree trunk for the purpose of killing the excess tree. Girdling will consist of at least two cuts at least 4 inches apart which will each be at least 1/4-inch-wide, and 1 inch deeper than the inner bark depth.
- **ITEM:** A pay unit designated on the bid schedule as a lot and described by a contract specification.
- **LEAVE TREE:** Any live, healthy conifer tree that is selected or required to be left standing as prescribed in the silviculture operations scope of work.

---

**(a) REPRESENTATIVE PROJECT**

The representative project will require pruning of Sitka Spruce and Western Hemlock trees and related work in compliance with the terms, specifications, and provisions of this ITB. The Contractor shall furnish all labor, equipment, supervision, lodging, transportation, operating supplies, and incidentals needed to complete the requirements of the work required and defined herein as Terms and Conditions and Additional Terms and Conditions.

The Division of Forestry & Fire Protection estimates the prescription stocking for Item(s) bid area(s) to be 120 trees per acre. This prescription stocking estimate represents the number of trees requiring pruning treatment, and as an estimate is to be used as a reference only. To determine stocking and subsequent pruning requirements, potential bidders are encouraged to visit the site and make their own estimates of stocking, as well as logistical requirements and operational constraints for the purpose of bidding.

**(l) LOCATION AND ACCESS**

The work area is located approximately 35 miles northwest of Haines, Alaska, within the Haines State Forest. The pruning lot is located within T27S R55E, Section 18, within the Copper River Meridian.

Located approximately 6.3 miles along the Kelsall 100 road from its intersection with the Mosquito Lake Road, the work area is east of the 100 road and north of the old Chilkat River crossing access road to the east. During the winter months a highway vehicle will typically be able to drive the Mosquito Lake Road to the junction of the Kelsall 100 Road. The Kelsall 100 Road is not plowed, and other modes of transportation may be required during winter months to access the work area.

**1) GENERAL DIRECTIONS TO THE WORK AREAS**

Turn North at 27-mile of the Haines highway onto the Mosquito Lake Road and after traveling approximately two miles on the Mosquito Lake Road, reaching the junction with the Kelsall 100 Road, turn left onto the gravel forest road (at this point you will need alternate transportation during the winter months). Drive approximately 6.3 miles along the Kelsall 100 road to a point which marks the intersection of the Kelsall 100 road and the historic Chilkat River crossing access road. Turn right toward the Chilkat River and travel for approximately .44 miles to the point along the road corresponding to the SW corner of Lot 31.

Logging spur roads adjacent to the lots may be overgrown with brush in places and/or blocked by fallen trees and may not be open for vehicle traffic, although foot or ATV access may be developed. Potential bidders must determine current access condition prior to bidding as well as develop and maintain the necessary access required to perform this work as contracted.

The Kelsall 100 Road is a main State Forest Access Road and must remain open to other public and authorized users. The Contractor shall not restrict access or use of these roads by others as part of their operations under this contract.

Lot boundaries are the original harvest boundaries unless otherwise designated or marked on the ground with pink flagging by the State. If the boundary is a road, this boundary will be shown on the contract map but may not be flagged on the ground. All areas within the Lot boundary shall be pruned per specifications contained in this contract.

### **(b) PREWORK MEETING**

After award of contract and prior to commencement of work, a pre-work meeting will be held at the Division of Forestry & Fire Protection’s Office in Haines, Alaska, or at some other mutually agreeable location. The Contractor or an authorized representative of the Contractor must attend this meeting. The parties to the contract will discuss the project, the contract terms, conditions, completion date, and the operating plan, which will be submitted by the Contractor to the state Project Manager.

### **(c) OPERATING PLAN**

The Contractor shall, at the pre-work meeting or within 10 calendar days prior to the expected work commencement date, prepare and submit to the State for approval a practicable operating plan. No work can proceed until written authorization is obtained from the State. Authorization will be given after the State receives, reviews and accepts the operating plan.

- (i) The plan will detail, as a minimum, the dates on which the Contractor intends to start work, the order in which the Contractor plans to perform the work, the expected rate of progress per day, the planned number of calendar days until completion of 50%, and 100% of the unit acreage. Failure to satisfactorily complete 50% of the contracted acreage by November 1, 2025, will be defined as unsatisfactory progress under this contract. In addition, the plan must show any plans for subcontracting, and the names and brief experience of all workers. If the Contractor fails to submit an operating plan within the time prescribed, the State shall withhold authorization of contract commencement until the Contractor submits the required operating plan.
- (ii) In the event of an allowable work stoppage exceeding 90 days in length, the Contractor shall submit an additional operating plan for the remaining portion of the item yet to be completed. All requirements of the original operating plan must be detailed in the supplementary operating plan as well. The State must approve the supplementary operating plan prior to the Contractor commencing operations after an allowable work stoppage.

**(d) SELECTION OF TREES**

Item/Lot	Estimated Quantity (Acres)	Year Logged	Est. Trees/Acre
1/Lot 31	15	1966-72	120

Sitka Spruce trees greater than 9.9 inches DBH and less than 18.0 inches DBH (10.0” to 17.9”), and all Western Hemlock trees greater than 10.0 inches DBH must be pruned according to contract specifications.

**(e) HEIGHT OF PRUNING LIFT**

Trees will be pruned to a minimum height of 17 feet from the ground or top of the root collar, whichever is higher on the bole of the tree to be treated:

- (i) not to exceed 50% of the live crown.

If this is not possible due to tree shape, the tree shall be pruned to a height of not less than 13 feet above the ground or root collar, whichever is higher on the bole of the tree to be treated:

- (ii) not to exceed 50% of the total tree height.

If this is not possible, the tree shall be considered not suitable to be pruned and therefore may be left untreated. This tree type will not be counted as deficient during inspection of work.

**(f) PRUNING METHOD**

Trees shall be pruned with tools designed to achieve the required tree limb removal without damage to the tree. All limbs within the lift reach, dead or alive, shall be cut within .25” of the limb collar without damaging the limb collar or the bole of the tree. Never remove the limb by cutting flush with the bole of the tree when a limb collar is present. Also, no limb stub protruding from the limb collar longer than .25” (inches) shall be accepted. Illustrations of this requirement may be provided by the Division of Forestry & Fire Protection at the pre-work meeting.

**(g) SLASH TREATMENT**

The Contractor shall immediately remove slash that results from pruning operations in the following areas:

- (i) Slash on roads, which are identified on the contract map, and the associated ditches and uphill cut banks,
- (ii) Slash located in a stream, or within five horizontal feet from a stream identified on the contract map,
- (iii) Slash on or within 10 horizontal feet of all culverts and bridges,
- (iv) Slash on or within five horizontal feet of survey monuments or property corners.

Removal of this slash means to remove it from these immediate areas and place it where it will not reenter the above stated areas.

**(h) STATE INSPECTION AND ACCEPTANCE**

The State will have an authorized agent who will inspect work quality and quantity. If inspections reveal unsatisfactory contract performance as defined in this contract, the State will notify the Contractor in writing of the unsatisfactory work quality and/or quantity. The Contractor, or Contractor's designated representative, is encouraged to observe the inspection and shall receive written inspection reports upon request.

Sufficient plots within each area will be measured by the State so at least 0.5% (½ of 1 %) of the pruned acreage is inspected.

Plots will be randomly located and identified with plastic flagging. Inspections will be made using fixed radius plots of 1/50th acre with a radii of 16.65 feet.

The State Project Manager shall record the following information for each plot:

- (i) Lot and plot number,
- (ii) Number of trees in plot,
- (iii) Number of trees specified for treatment,
- (iv) Number of unpruned or damaged trees (i.e., “excess or deficient”),
- (v) Number of acceptable pruned trees.

**(i) QUALITY OF WORK CALCULATION**

Work quality will be calculated from field data collected as listed in ‘State Inspection and Acceptance’ for each lot. The formula that will be used to calculate pruning work quality is as follows:

T = Total trees specified for treatment.

U = Unacceptable:

- trees greater than DBH left unpruned (excess),
- trees pruned incorrectly (deficient).

$1 - (U/T) \times 100 = \text{Pruning Quality Percent}$

Example: 10 plots established with 18 trees specified for treatment with one tree deficient and one tree excess.

$1 - (2/18) \times 100 = 88.9\% \text{ Pruning Quality}$

---

**(j) INSEPCIONS**

Authorized agents of the State shall have access to the contract area at all times.

- (i) At all times when pruning operations are in progress, the Contractor shall have a representative readily available to the area of operations who will be authorized to receive, on behalf of the Contractor, any notices and instructions given by authorized State personnel in regard to performance under this contract, and to take such action thereon as is required by the terms of this contract. The State shall perform inspections and tests in a manner that will not unduly delay the work.
- (ii) If any of the services are in noncompliance with contract requirements, the State, in writing, may require the Contractor to perform the services again in conformity with contract requirements, at no increase in contract amount. When the defects in services cannot be corrected by rework, the State shall;
  - 1) require the Contractor to take necessary action to ensure that future performance conforms to contract requirements,
  - 2) reduce the contract price to reflect the reduced value of the services performed or withhold payment for the area in noncompliance [see Section 3: Basis of Payment,
- (ii) If the Contractor fails to promptly perform the services again as directed in writing, or to take the necessary actions to ensure future performance shall be in compliance with contract requirements, the State shall;
  - 1) by contract or otherwise, satisfactorily complete the services and charge to the Contractor any cost incurred by the State that is directly related to the performance of such service, or;
  - 2) terminate the contract.

**(k) UNSATISFACTORY WORK**

The State agent shall notify the Contractor in writing if an inspection reveals unsatisfactory contract performance. Future performance must be raised to acceptable standard, or the contract shall be in default and the contract may be terminated.

- (i) The State agent shall notify the Contractor in writing if an inspection reveals unsatisfactory contract performance. Unsatisfactory Work will be considered either a failure in performance quality, quantity or both. Future performance must be raised to meet or exceed the specifications outlined herein as well as the progress agreed to in the Operating Plan (see 3. Operating Plan) or the Contractor will be in default and the State shall terminate the contract.

- (ii) When work quality is less than 76% and the State determines that work quality can be increased by reworking an area, the Contractor must rework the area. No other area within the unit shall be worked on until a failed inspection area is satisfactorily completed. Rework shall continue until the work quality for the item increases to at least 76%, or until the State determines the work quality cannot be increased with additional work. Failure to complete rework to the State's satisfaction will be considered default and the State shall terminate the contract.
- (iii) If, in the judgment of the State, the Contractor falls behind the approved schedule outlined in the Operating Plan, the Contractor shall take those steps necessary to attain satisfactory progress, including those that may be required by the State, without additional cost to the State. In this circumstance, the State shall require the Contractor to submit for approval a supplementary operating plan or plans detailing how the approved rate of progress will be gained. If the Contractor is unable to progress satisfactorily according to the supplementary operating plan, the State shall consider the Contractor in default and the State shall terminate the contract.
- (iv) Failure of the Contractor to comply with the requirements of the State under this Section will be grounds for a determination by the State that the Contractor is not making satisfactory progress towards contract completion within the time specified in the contract or the operating plan. Upon making this determination, the State shall terminate the contract, or any separable part of the remaining obligation. At the discretion of the State, payment to the Contractor for work completed at the time of contract termination may be no less than 50% and no more than 80% of the contract value of the acreage worked and identified as “satisfactory work completed” at that time.

### **(I) COMPLETION OF WORK**

The Contractor shall begin work in one location within a lot and continue so there is only one enlarging area of completed work. Separate areas within a lot will not be inspected until the entire lot is completed. The Contractor shall proceed in an orderly manner and once a lot is started, unless otherwise approved in advance by the State, must complete that lot before starting on other lots.

All work under this contract must be performed in a skillful and responsible manner and must be completed by April 1, 2026. The State shall require, in writing, that the Contractor remove from the work area any employee or individual subcontractor that the State deems incompetent, careless, or otherwise objectionable. Failure by the Contractor to comply with such written requirement may result in termination of the contract.

**(m) CONTRACTOR'S REPRESENTATIVE**

It is required that the Contractor have an authorized representative available on the project during the Contractor's absence and that the representative be able to communicate with DNR. When authorizing a representative, the Contractor shall furnish a copy of the authorization in writing to the State Project Manager. Such authorization shall clearly indicate the name and limitations (if any) of authority of the representative.

**(n) ASSIGNMENT OR SUBCONTRACTOR**

If using a Subcontractor, the Contractor shall furnish sufficient evidence that the subcontractor is experienced and equipped for such work.

Moreover, the written request shall be specific in indicating which separable, identifiable, and measurable portion of the project is to be subcontracted. Written consent will not be construed as approval of a subcontract but rather an approval to subcontract a specific portion of the project to a specific entity.

**(o) NOTIFICATION**

The Contractor shall notify the State at least 48 hours prior to leaving the project area for 5 or more consecutive calendar days and notify the State 24 hours prior to returning to the project area. If the Contractor fails to give notice as required under this section, the State shall consider the contract abandoned and will place the Contractor in danger of default and contract termination.

**(p) ALTERATION OF DETAILS**

The State reserves the right to make, at any time during the contract, minor changes or alterations of the lot boundaries as the State determines to be necessary or desirable. However, the changes or alterations shall not change the character of the work to be done, nor increase the cost thereof unless the cost increase is approved in writing by the Contractor. The Contractor agrees to do the work as changed or altered as if it had been a part of the original contract. Any changes or alterations so made shall not invalidate this contract.

**(q) BASIS OF PAYMENT**

The State shall make partial payments monthly for pruning that meets the minimum acceptable standards, or at intervals as determined by the State from estimates of work accomplished which meets the minimum acceptable standards of the contract, and;

- (i) Payment shall be based upon quantity and quality of work completed at the time of an inspection. The amount of work completed will be based upon horizontal acreage measurements. Progress payments will be 80% of the amount of satisfactory work completed until the final inspection approves the completion of the entire Lot.

- 
- (ii) Full payment of 100% of the lot price shall be made for work inspected which receives 87% or greater work quality as determined in the inspection procedures.
  - (iii) When work quality is between 87% and 76%, the Contractor has the following payment options:
    - 1) If the quality of work is at least 76%, the Contractor can receive payment directly proportional to that inspection result (e.g. 78% work quality would receive 78% of the lot bid per acre).
    - 2) If the quality is less than 76%, the Contractor must rework a lot/area, so the quality of work is increased to at least 76% to receive partial payment. If the State determines that work quality cannot be increased or has not been reworked to at least 76% quality, then no payment for that area shall be made by the State.
  - (iv) If the State finds that satisfactory progress on lot completion has not been made during a period when payment is to be made, the State shall retain 50 percent of the amount of the payment until satisfactory progress is achieved.
  - (v) Funding is limited and the total amount to complete all items may not be available at time of award. The State reserves the right to issue partial or multiple awards.

Once the MAs are established this process will be used to issue Task Order Solicitation against the MA. The total cost for a project will not exceed the amount authorized on the Delivery Order without prior written approval from the DNR Project Manager or Procurement Officer. Similarly, if at any time during the performance of the Delivery Order the State has reason to believe that the work required will exceed the total cost due to a change in conditions, or if additional work will be required, the DNR Project Manager will so advise the Term Contractor and will require revised cost estimates from the Contractor.

The State will not be obligated to pay any amount in excess of the total cost set forth in any Delivery Order. If condition changes increase the Delivery Order amount, the Term Contractor will not be obligated to continue performance resulting in charges exceeding the price unless and until the DNR Procurement Officer has authorized the increase in writing and a revised Delivery Order has been issued.

Revision of Delivery Orders will be issued when an extension of time is needed to complete the project, or when the scope of work has been modified by the State, which may cause a change in the project costs. The revised Delivery Order must be signed by both the DNR Project Manager and the Term Contractor's authorized signatory prior to performing any additional work incurring additional cost or working past the original time limit. Inability of a Term Contractor to follow these procedures may be grounds for dismissal from a project or termination of their contract(s) with the State.

No work will commence by the Contractor without a prior authorization by DNR.

#### **SEC. 4.15 NOTICE OF INTENT TO AWARD**

After the responses to this ITB have been opened and evaluated, a tabulation of the bids will be prepared. This tabulation, called a Notice of Intent to Award, serves two purposes. It lists the name of each company or person that offered a bid and the price they bid. It also provides notice of the State's intent to award a contract(s) to the bidder(s) indicated. A copy of the Notice of Intent will be sent to each company or person who responded to the ITB. Bidders identified as the apparent low responsive bidders are instructed not to proceed until a Purchase Order, Contract Award, Lease, or some other form of written notice is given by the Procurement Officer. A company or person who proceeds prior to receiving a Purchase Order, Contract Award, Lease, or some other form of written notice from the Procurement Officer does so without a contract and at their own risk.

---

## SECTION 5. GENERAL PROCESS AND LEGAL INFORMATION

### SEC. 5.01 INFORMAL DEBRIEFING

When the contract is completed, an informal debriefing may be performed at the discretion of the Procurement Officer. If performed, the scope of the debriefing will be limited to the products provided or work performed by the Contractor.

### SEC. 5.02 ALASKA BUSINESS LICENSE AND OTHER REQUIRED LICENSES

Prior to the award of a contract, a bidder must hold a valid Alaska business license. However, to receive the Alaska Bidder Preference and other related preferences, such as the Alaska Veteran Preference and Alaskans with Disabilities Preference, a bidder must hold a valid Alaska business license prior to the deadline for receipt of bids. Bidders should contact the **Department of Commerce, Community and Economic Development, Division of Corporations, Business, and Professional Licensing, PO Box 110806, Juneau, Alaska 99811-0806**, for information on these licenses. - a canceled check for the Alaska business license fee,
- a copy of the Alaska business license application with a receipt stamp from the state's occupational licensing office, or
- a sworn and notarized statement that the bidder has applied and paid for the Alaska business license.

You are not required to hold a valid Alaska business license at the time bids are opened if you possess one of the following licenses and are offering services or supplies under that specific line of business:

- fisheries business licenses issued by Alaska Department of Revenue or Alaska Department of Fish and Game,
- liquor licenses issued by Alaska Department of Revenue for alcohol sales only,
- insurance licenses issued by Alaska Department of Commerce, Community and Economic Development, Division of Insurance, or

**SEC. 5.03 AUTHORITY**

This ITB is written in accordance with AS 36.30 and 2 AAC 12.

**SEC. 5.04 COMPLIANCE**

**SEC. 5.05 SUITABLE MATERIALS, ETC.**

Unless otherwise specified in this ITB, all materials, supplies or equipment offered by a bidder shall be new, unused, and of the latest edition, version, model, or crop and of recent manufacture.

**SEC. 5.06 SPECIFICATIONS**

Unless otherwise specified in this ITB, product brand names or model numbers specified in this ITB are examples of the type and quality of product required and are not statements of preference. If the specifications describing an item conflict with a brand name or model number describing the item, the specifications govern. Reference to brand name or number does not preclude an offer of a comparable or better product, if full specifications and descriptive literature are provided for the product. Failure to provide such specifications and descriptive literature may be cause for rejection of the offer.

**SEC. 5.07 BRAND SPECIFIC**

Not applicable for this ITB.

**SEC. 5.08 ITEM UPGRADES**

Not applicable for this ITB.

**SEC. 5.09 WORKMANSHIP AND MATERIALS**

All work must be performed in a thorough and workmanlike manner. The Contractor will be held responsible for the quality of the finished work. If any job is rejected because of error attributable to the Contractor or authorized subcontractor, the State may, at its option, receive a no cost reprint, negotiate a lower price, or hold the Contractor in default.

**SEC. 5.10 CONTRACTOR SITE INSPECTION**

Not applicable for this ITB.

**SEC. 5.11 ORDER DOCUMENTS**

Except as specifically allowed under this ITB, an ordering agency will not sign any vendor contract. The State is not bound by a vendor contract signed by a person who is not specifically authorized to sign for the State under this ITB. Unless otherwise specified in this ITB, the State of Alaska Purchase Order, Contract Award and Delivery Order are the only order documents that may be used to place orders against the contract(s) resulting from this ITB.

**SEC. 5.12 HUMAN TRAFFICKING**

By signature on their bid, the bidder certifies that the bidder is not established and headquartered or incorporated and headquartered in a country recognized as Tier 3 in the most recent United States Department of State’s Trafficking in Persons Report.

The most recent United States Department of State’s Trafficking in Persons Report can be found at the following website: <http://www.state.gov/j/tip/>

Failure to comply with this requirement will cause the State to reject the bid as non-responsive or cancel the contract.

**SEC. 5.13 RIGHT OF REJECTION**

Bidders must comply with all the terms of the ITB, the State Procurement Code (AS 36.30), and all applicable federal, state, and local laws, codes, and regulations. The Procurement Officer may reject any bid that does not comply with all the material and substantial terms, conditions, and performance requirements of the ITB.

Bidders may not qualify the bid nor restrict the rights of the state. If a bidder does so, the Procurement Officer may determine the bid to be a non-responsive counteroffer, and the bid may be rejected.

Minor informalities that:

- do not affect responsiveness,
- are merely a matter of form or format,
- do not change the relative standing or otherwise prejudice other bidders,
- do not change the meaning or scope of the ITB,
- are trivial, negligible, or immaterial in nature,
- do not reflect a material change in the work, or
- do not constitute a substantial reservation against a requirement or provision,

may be waived by the Procurement Officer.

The State reserves the right to refrain from making an award if it is determined to be in the State’s best interest.

**A bid from a debarred or suspended bidder shall be rejected.**

**SEC. 5.14 STATE NOT RESPONSIBLE FOR PREPARATION COSTS**

The State will not pay any cost associated with the preparation, submittal, presentation, or evaluation of any bid.

**SEC. 5.15 DISCLOSURE OF BID CONTENTS**

After the deadline for receipt of bids, all other bid material submitted become the property of the State of Alaska and may be returned only at the state's option. AS 40.25.110 requires public records to be open to reasonable inspection. All other bid information will be held in confidence during the evaluation process and prior to the time a Notice of Intent to Award is issued. Thereafter, bids will become public information.

The Office of Procurement and Property Management (OPPM), or their designee recognizes that some information a bidder submits might be confidential under the United States or the State of Alaska Constitution, a federal statute or regulation, or a State of Alaska statute: i.e., might be Confidential Business Information (CBI). See, e.g., article 1, section 1 of the Alaska Constitution; AS 45.50.910 – 45.50.945 (the Alaska Uniform Trade Secrets Act); *DNR v. Arctic Slope Regional Corp.*, 834 P.2d 134, 137-39 (Alaska 1991). For OPPM or their designee to treat information a bidder submits with its bid as CBI, the bidder must do the following when submitting their bid: (1) mark the specific information it asserts is CBI; and (2) for each discrete set of such information, identify, in writing, each authority the bidder asserts make the information CBI. If the bidder does not do these things, the information will become public after the Notice of Intent to Award is issued. If the bidder does these things, OPPM or their designee will evaluate the bidder's assertion upon receiving a request for the information. If OPPM or their designee reject the assertion, they will, to the extent permitted by federal and State of Alaska law, undertake reasonable measures to give the bidder an opportunity to object to the disclosure of the information.

**SEC. 5.16 ASSIGNMENTS**

Per 2 AAC 12.480, the Contractor may not transfer or assign any portion of the contract without prior written approval from the Procurement Officer. Bids that are conditioned upon the State's approval of an assignment will be rejected as non-responsive.

**SEC. 5.18 DEFAULT**

In case of default by the Contractor, for any reason whatsoever, the State may procure the goods or services from another source and hold the Contractor responsible for any resulting excess cost and may seek other remedies under law or equity.

**SEC. 5.19 DISPUTES**

If the Contractor has a claim arising in connection with the contract that it cannot resolve with the State by mutual agreement, it shall pursue the claim, if at all, in accordance with the provisions of AS 36.30.620 – AS 36.30.632.

**SEC. 5.20 SEVERABILITY**

If any provision of the contract or agreement is found to be invalid or declared by a court to be illegal or in conflict with any law, the validity of the remaining terms and provisions will not be affected; and the rights and obligations of the parties will be construed and enforced as if the contract did not contain the particular provision held to be invalid.

**SEC. 5.21 CONTRACT CANCELLATION**

- 1) The State reserves the right to cancel the contract at its convenience upon **30** calendar days written notice to the Contractor. The State is only liable for payment in accordance with the payment provisions of this contract for supplies or services provide before the effective date termination.
- 2) By signature on their bid, the bidder certifies that they will not support or participate in a boycott of the State of Israel. Failure to comply with this requirement may cause the State to reject the bid as non-responsive or cancel the contract.

**SEC. 5.22 GOVERNING LAW; FORUM SELECTION**

A contract resulting from this ITB is governed by the laws of the State of Alaska. To the extent not otherwise governed by Section 5.15 of this ITB, any claim concerning the contract shall be brought only in the Superior Court of the State of Alaska and not elsewhere.

**SEC. 5.23 QUALIFIED BIDDERS**

Per 2 AAC 12.875, unless provided for otherwise in the ITB, to qualify as a bidder for award of a contract issued under AS 36.30, the bidder must:

- 1) Add value in the contract by actually performing, controlling, managing, or supervising the services to be provided; or
- 2) Be in the business of selling and have actually sold on a regular basis the supplies that are the subject of the ITB.

If the bidder leases services or supplies or acts as a broker or agency in providing the services or supplies to meet these requirements, the Procurement Officer may not accept the bidder as a qualified bidder under AS 36.30.

### **SEC. 5.24 FEDERALLY IMPOSED TARIFFS**

Changes in price (increase or decrease) resulting directly from a new or updated federal tariff, excise tax, or duty, imposed after contract award may be adjusted during the contract period or before delivery into the United States via contract amendment.

- **Notification of Changes:** The Contractor must promptly notify the Procurement Officer in writing of any new, increased, or decreased federal excise tax or duty that may result in either an increase or decrease in the contact price and shall take appropriate action as directed by the Procurement Officer.
- **After-imposed or Increased Taxes and Duties:** Any federal excise tax or duty for goods or services covered by this contract that was exempted or excluded on the contract award date but later imposed on the Contractor during the contract period, as the result of legislative, judicial, or administrative action may result in a price increase provided:
  - a) The tax or duty takes effect after the contract award date and isn't otherwise addressed by the contract.
  - b) The Contractor warrants, in writing, that no amount of the newly imposed federal excise tax or duty or rate increase was included in the contract price, as a contingency or otherwise.
- **After-relieved or Decreased Taxes and Duties:** The contract price shall be decreased by the amount of any decrease in federal excise tax or duty for goods or services under the contract, except social security or other employment [taxes](#), that the Contractor is required to pay or bear, or does not obtain a refund of, through the Contractor's fault, negligence, or failure to follow instructions of the Procurement Officer.
- **State's Ability to Make Changes:** The State reserves the right to request verification of federal excise tax or duty amounts on goods or services covered by this contract and increase or decrease the contract price accordingly.
- **Price Change Threshold:** No adjustment shall be made in the contract price under this clause unless the amount of the adjustment exceeds \$250.00.

**SEC. 5.25 PROTEST**

AS 36.30.560 provides that an interested party may protest the content of the ITB.

An interested party is defined in 2 AAC 12.990(a) (7) as "an actual or prospective bidder or bidder whose economic interest might be affected substantially and directly by the issuance of a contract solicitation, the award of a contract, or the failure to award a contract."

If an interested party wishes to protest the content of a solicitation, the protest must be received, in writing, by the Procurement Officer at least 10 days prior to the deadline for receipt of bids.

AS 36.30.560 also provides that an interested party may protest the award of a contract or the proposed award of a contract.

If a bidder wishes to protest the award of a contract or the proposed award of a contract, the protest must be received, in writing, by the Procurement Officer within 10 days after the date the Notice of Intent to Award the contract is issued.

The Procurement Officer will issue a written response to the protest. The response will set out the Procurement Officer's decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax or another method that provides evidence of receipt.

All bidders will be notified of any protest. The review of protests, decisions of the Procurement Officer, appeals, and hearings, will be conducted in accordance with the State Procurement Code (AS 36.30), Article 8 "Legal and Contractual Remedies."
