

McGrath AC Meeting - ADF&G Updates

Jan 3rd ,2025

■ Topics

- Moose Harvest
 - RM650, RM835, 19C, Winter Hunts
- Moose Survey Update
- Unit 19 Moose Research Update
- 19C Sheep Update
- 2025 BOG Proposal Overview
- Farewell Bison Update
- Caribou Update

Moose Harvest Update

19D East Hunter Effort

Total Moose Hunters (19D 'East'): 2015-2024

Data preliminary and subject to change

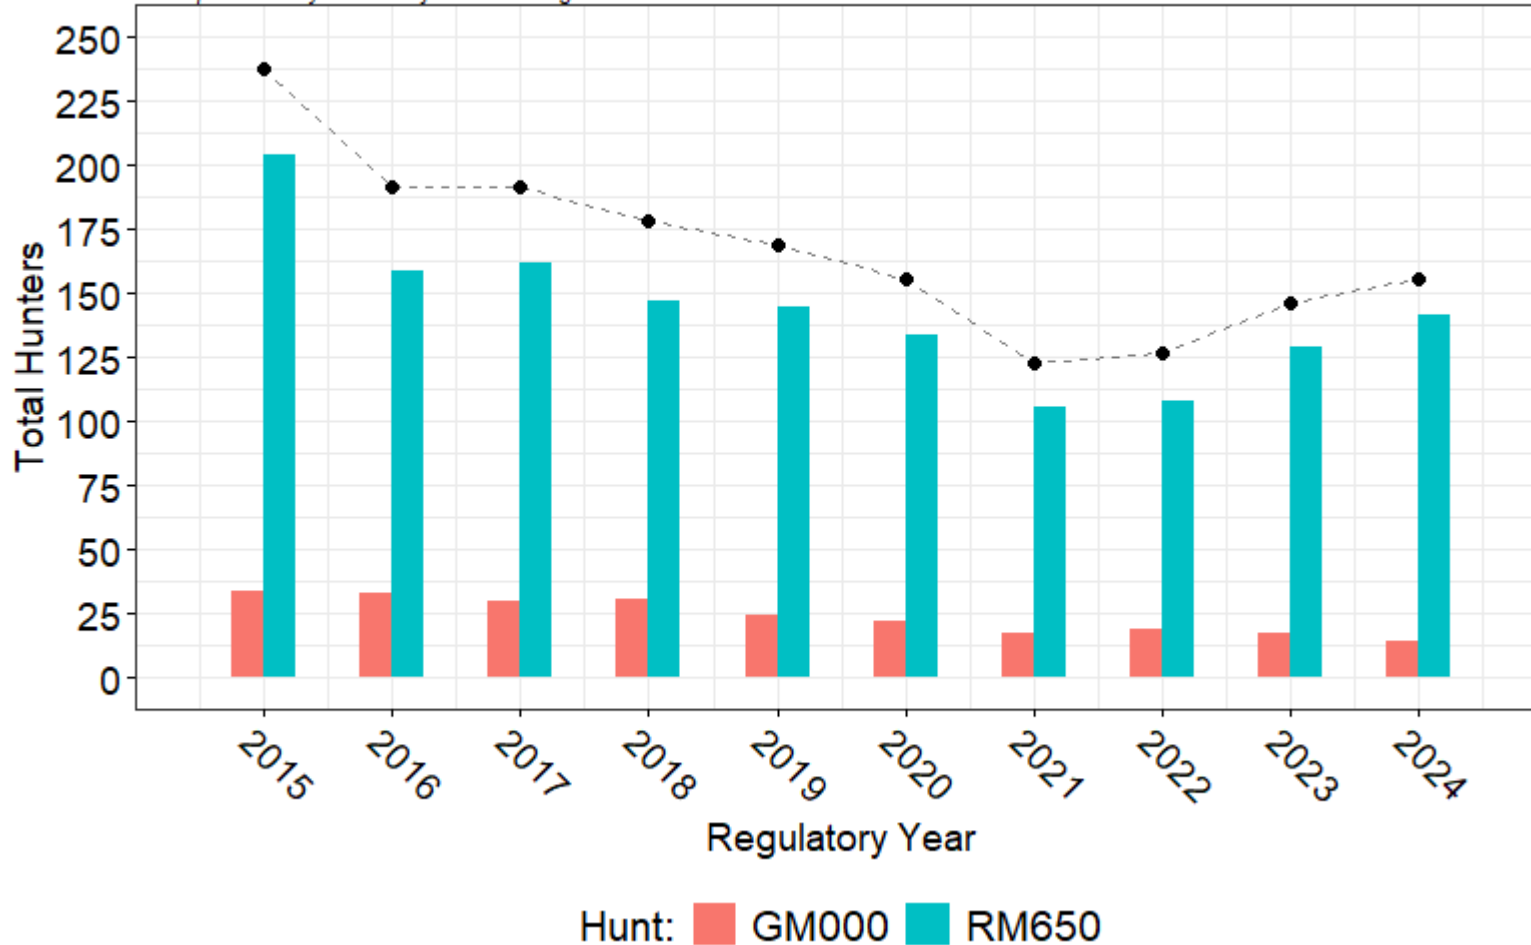

Table 1. 19D East Hunter Effort

<i>Reg Year</i>	<i>Total Hunters</i>	<i>Percent RM650</i>	<i>Percent GM000</i>
2015	238	86%	14%
2016	192	83%	17%

Moose Survey Update

2024 Post-Hunting Season Composition Surveys:

	<u>Calves:100 Cows</u>	<u>Bulls:100 Cows</u>
■ 19C – Farewell -----	17:100	25:100
■ 19A – Aniak -----	35:100	13:100
■ 19E – Holitna/Hoholitna ----	29:100	44:100
■ 21A – Innoko -----	63:100	27:100
■ 21E – Lower Yukon -----	41:100	33:100
■ 21E GPSE Population Survey Planned for Feb/Mar 2025		

Moose Research Update

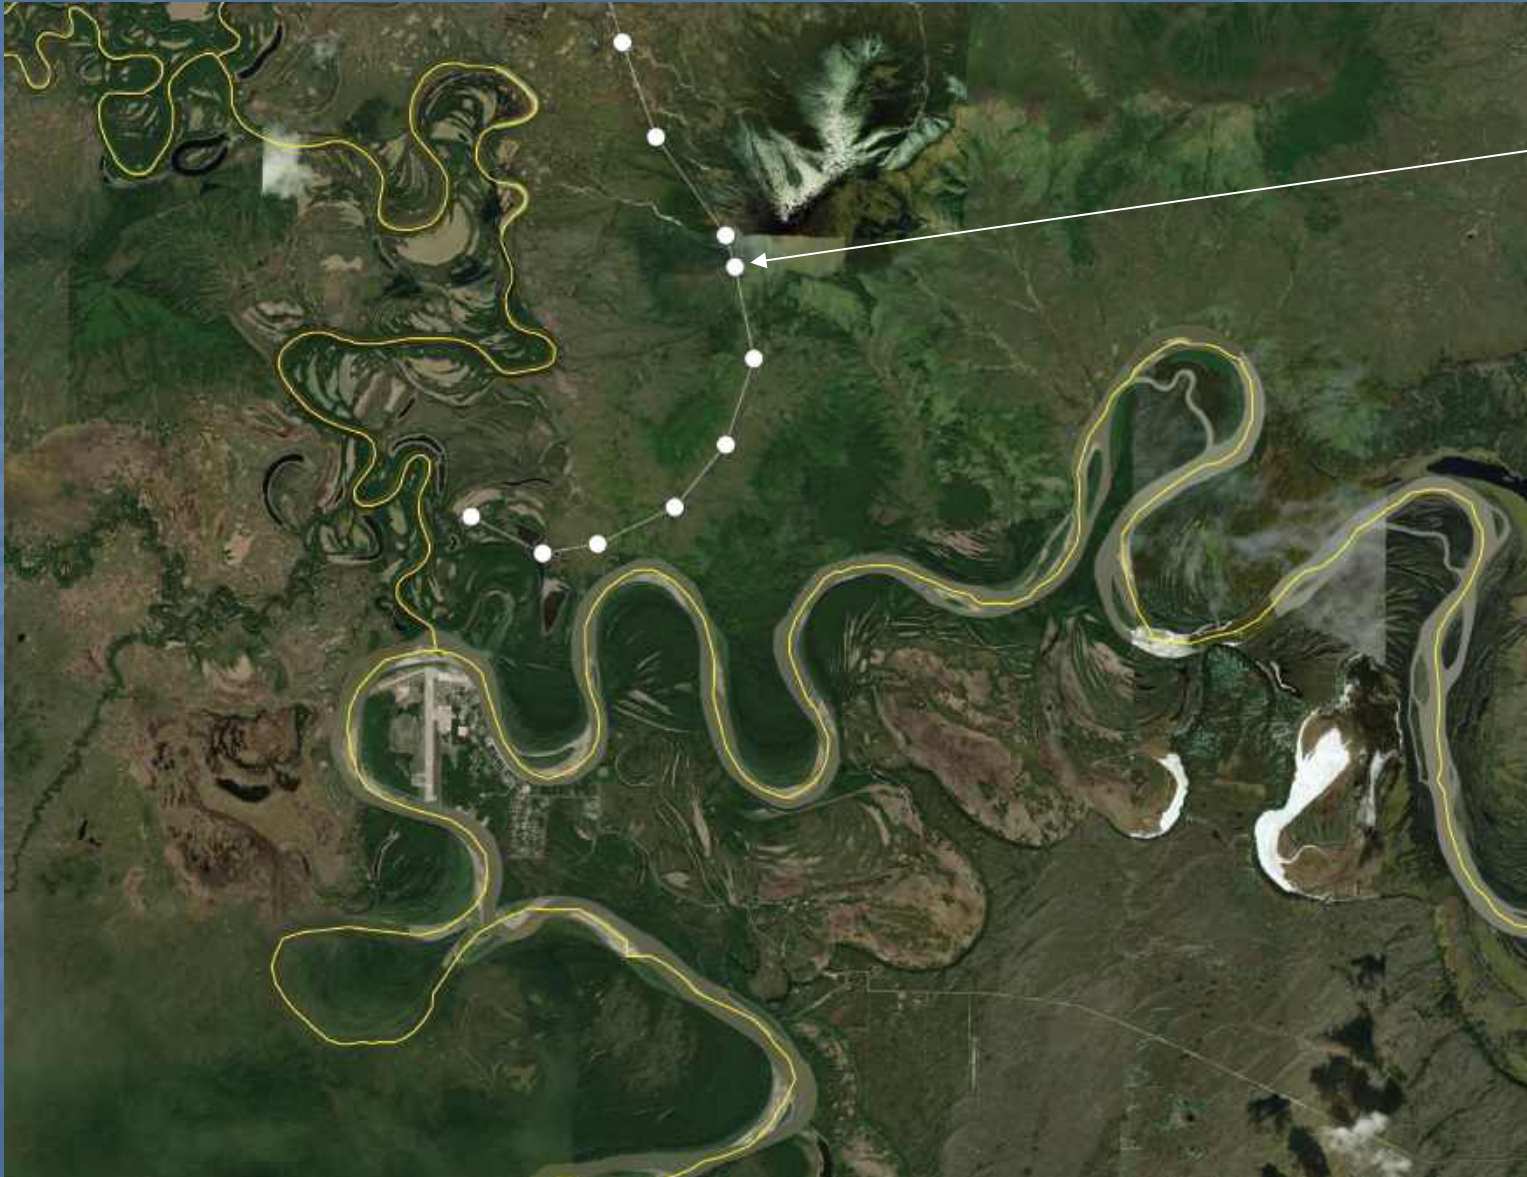

Ongoing: 19D Bull Moose:

- Captured an additional 16 moose after hunting season.
- Total of 38 moose on the air
- Monitoring when animals drop antlers to help inform survey timing
- Looking at movements and space-use relative to hunting seasons and survey timing (do we hunt what we count?)

New: 19C Cow Moose:

- Captured 25 adult cow moose out at Farewell
- Looking at movements, adult and calf survival, calving, habitat use

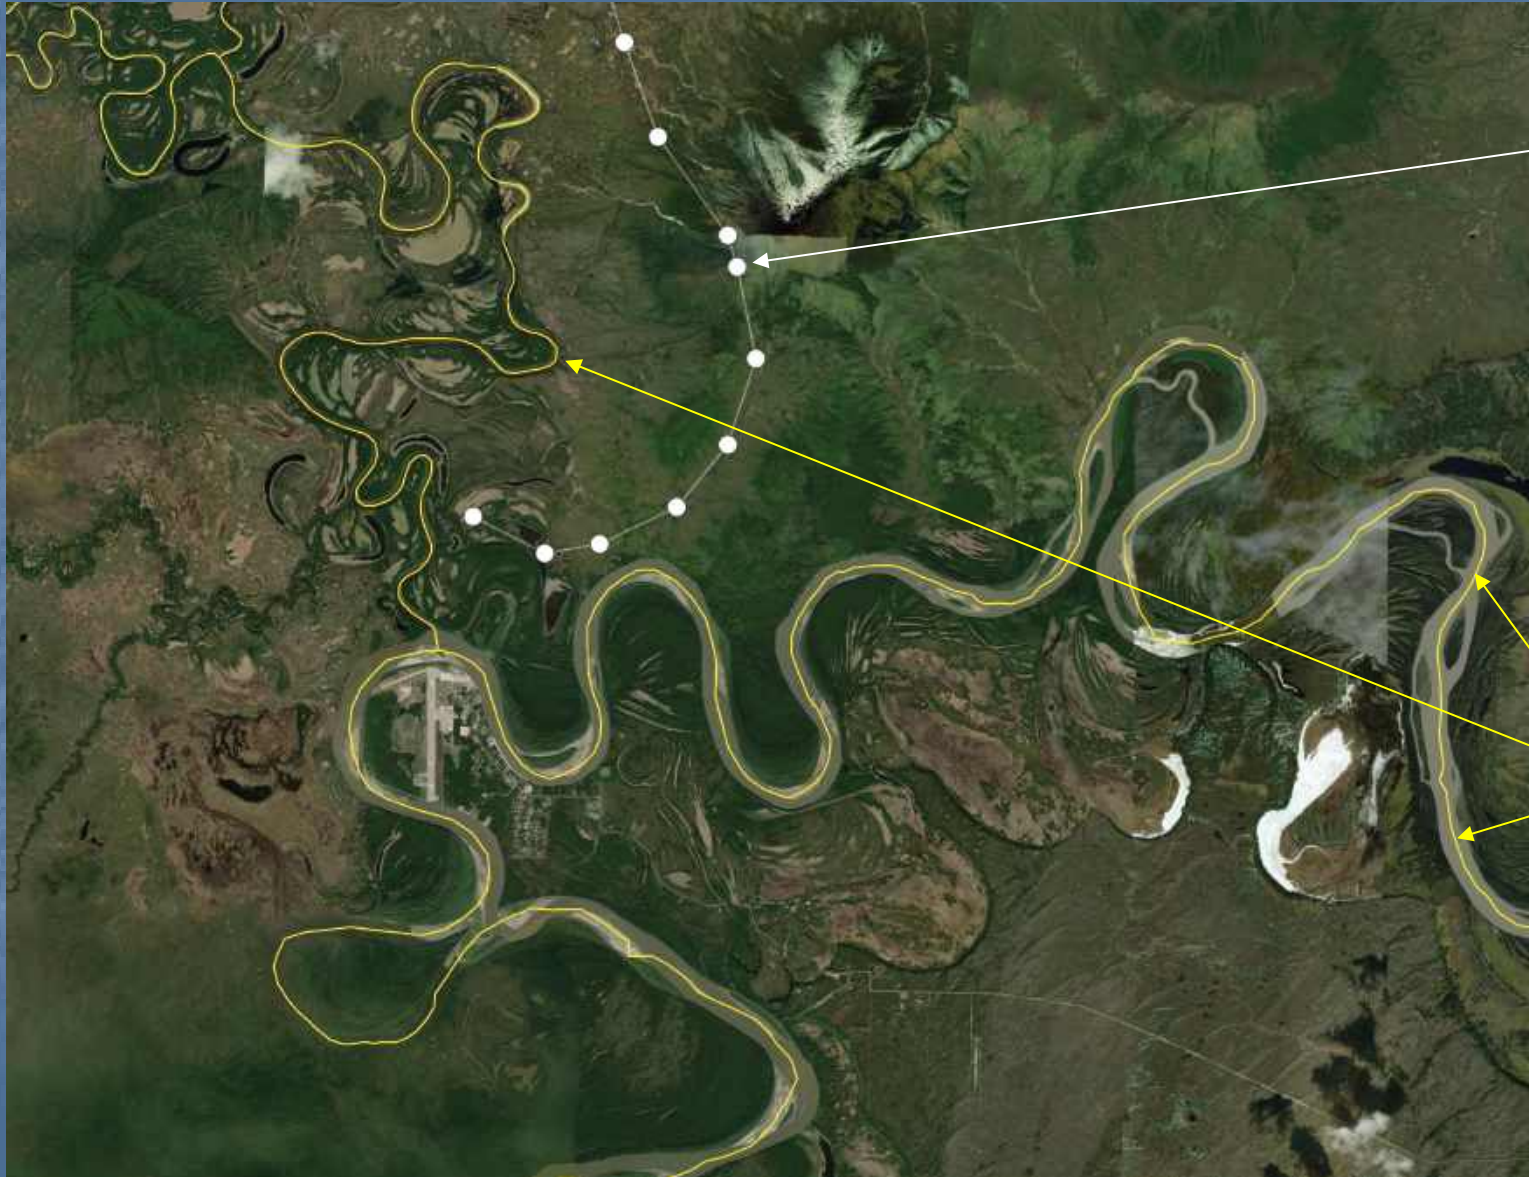

Bull Moose Movement Data

Hypothetical moose GPS locations with lines connecting successive locations

GPS collars record data every 2 hours during Sept, Oct, and Nov.

Bull Moose Movement Data

Hypothetical moose GPS locations with lines connecting successive locations

GPS collars record data every 2 hours during Sept, Oct, and Nov.

Centerline of major navigable rivers used by hunters

Bull Moose Movement Data

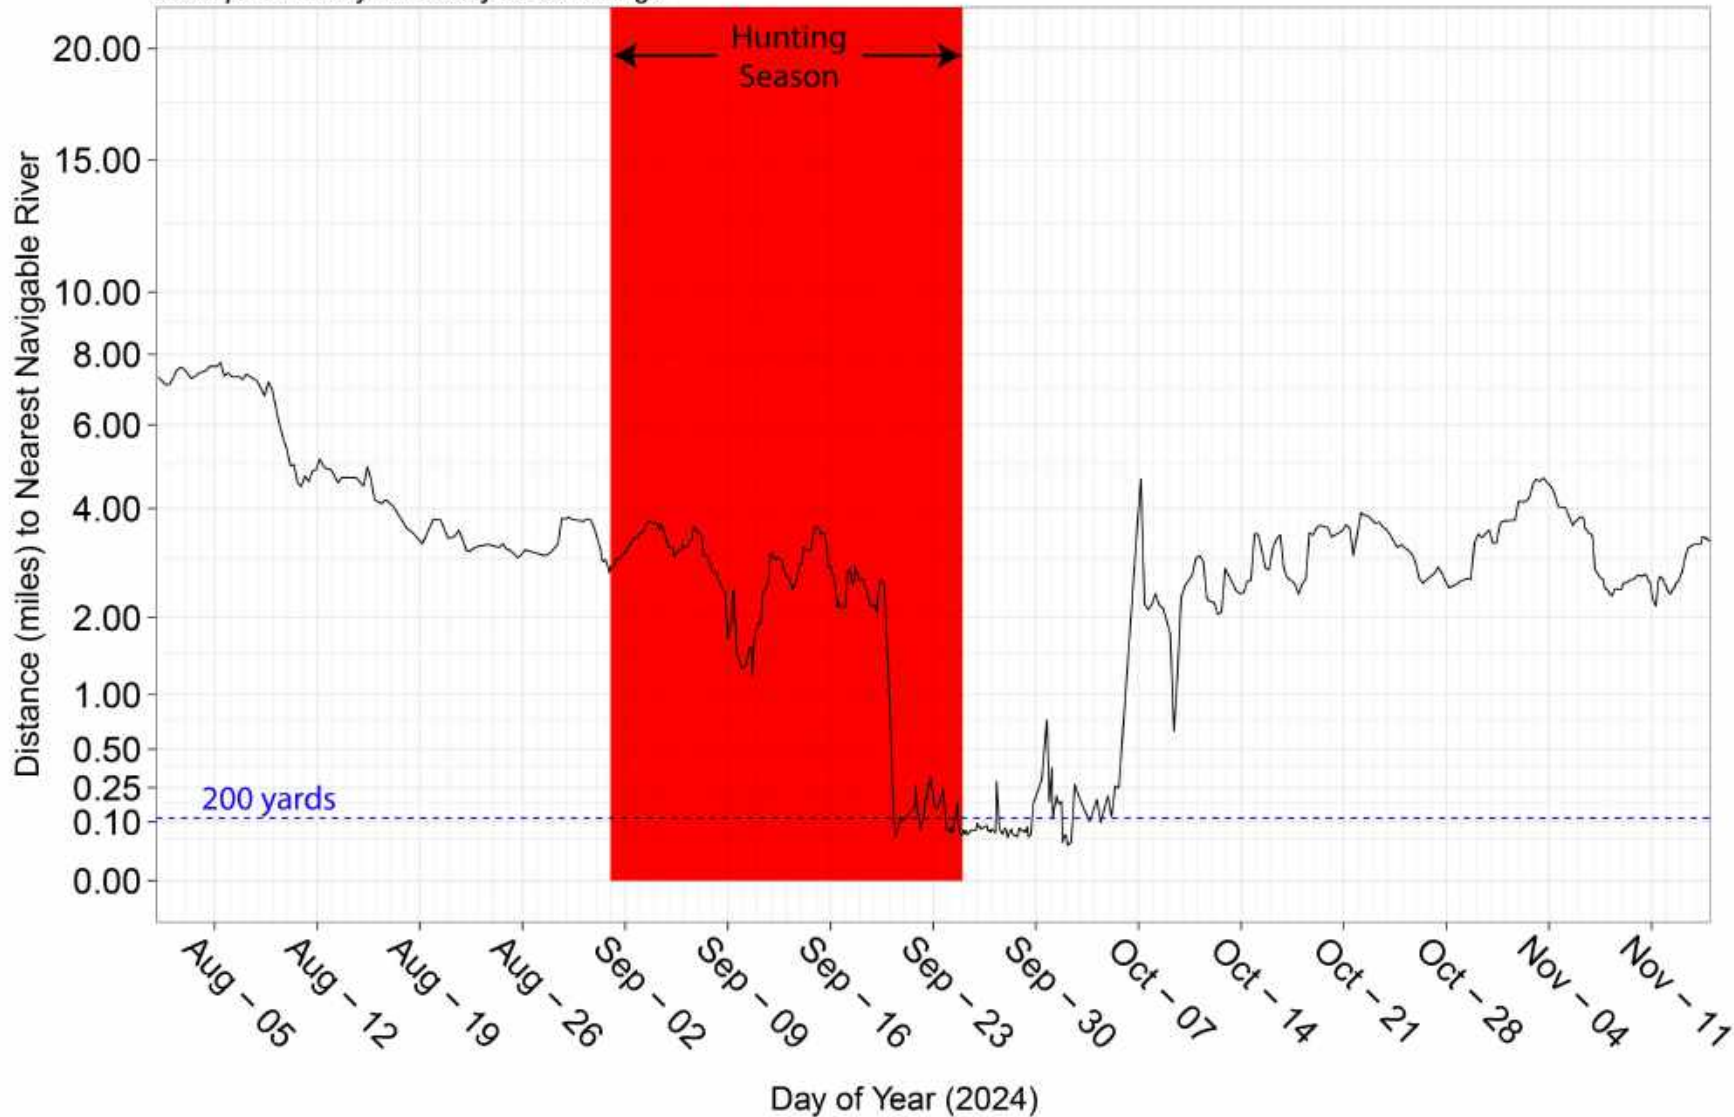

Calculate the distance from the nearest navigable river...a proxy for accessibility of moose by hunters

Allows us to visualize moose over time as a function of distance from the major navigable rivers (Kuskokwim, Takotna, Nixon Fork, etc).

Bull Moose Movement Data

Accessibility of Bull Moose During Fall (ID=BM034; RegYear==2024)

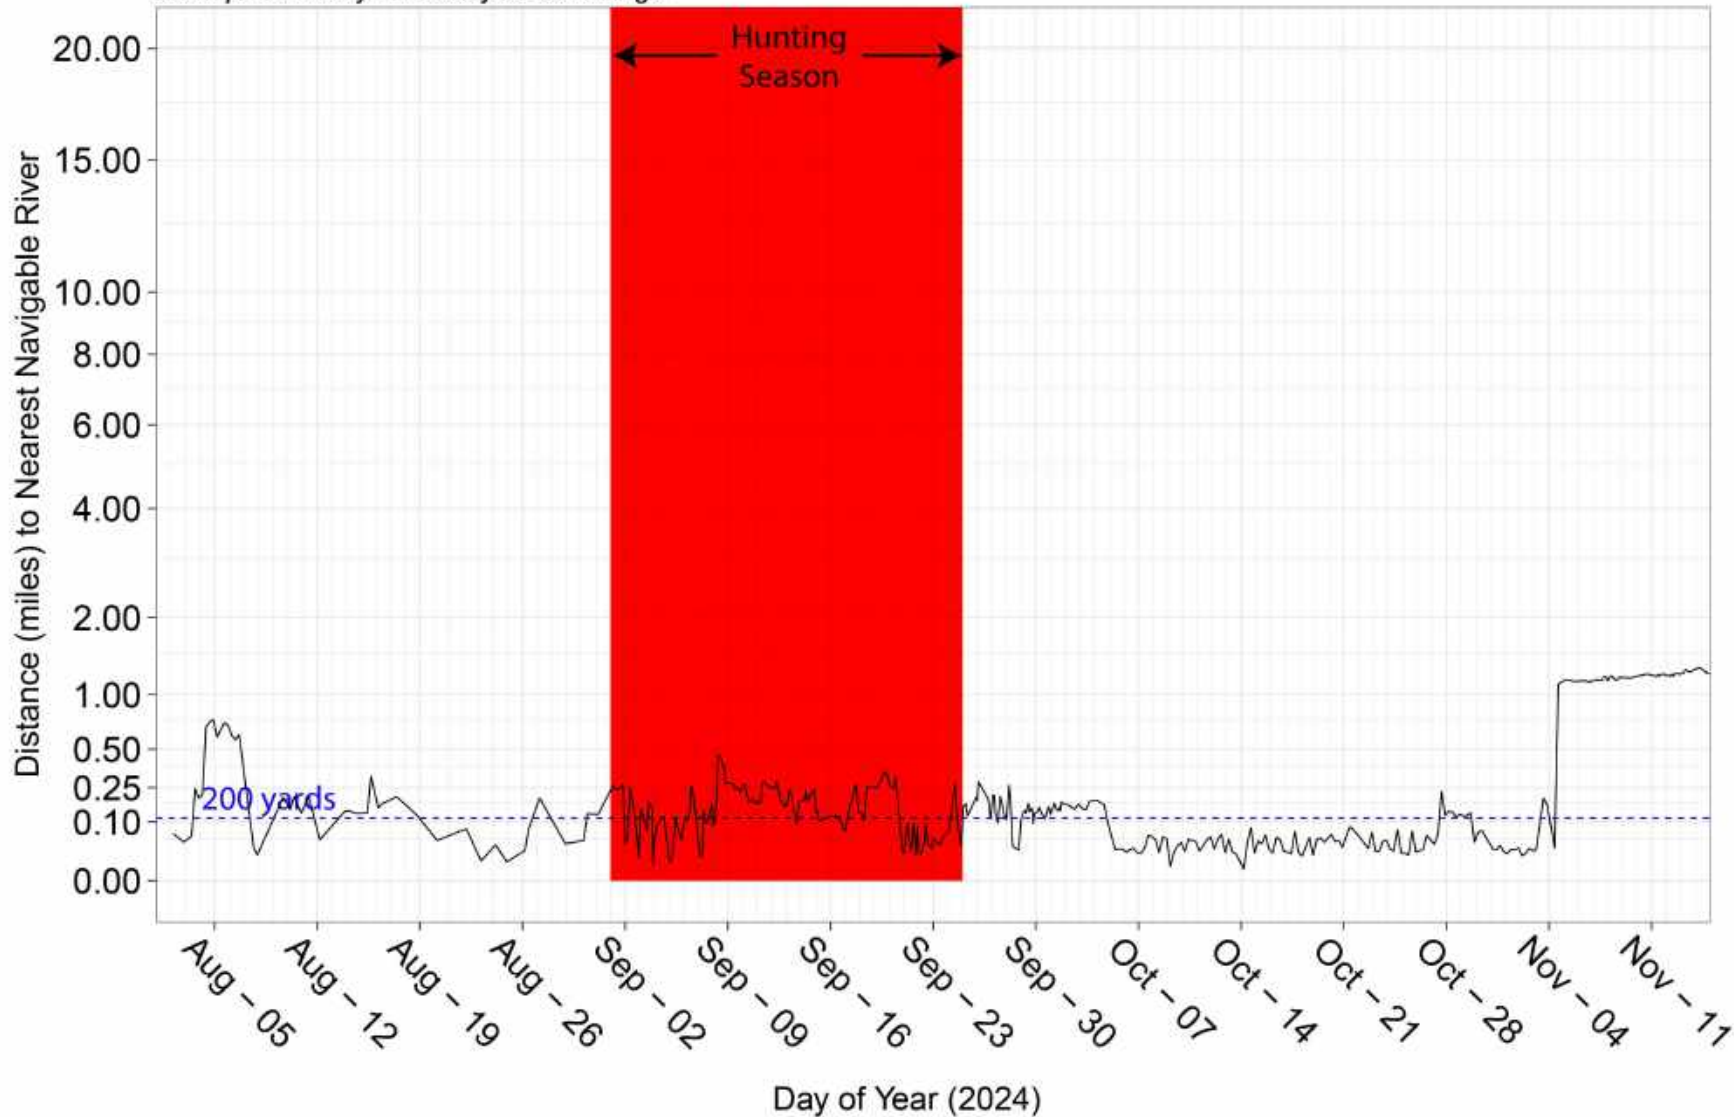

Data preliminary and subject to change

Bull Moose Movement Data

Accessibility of Bull Moose During Fall (Bull BM028; RegYear==2024)

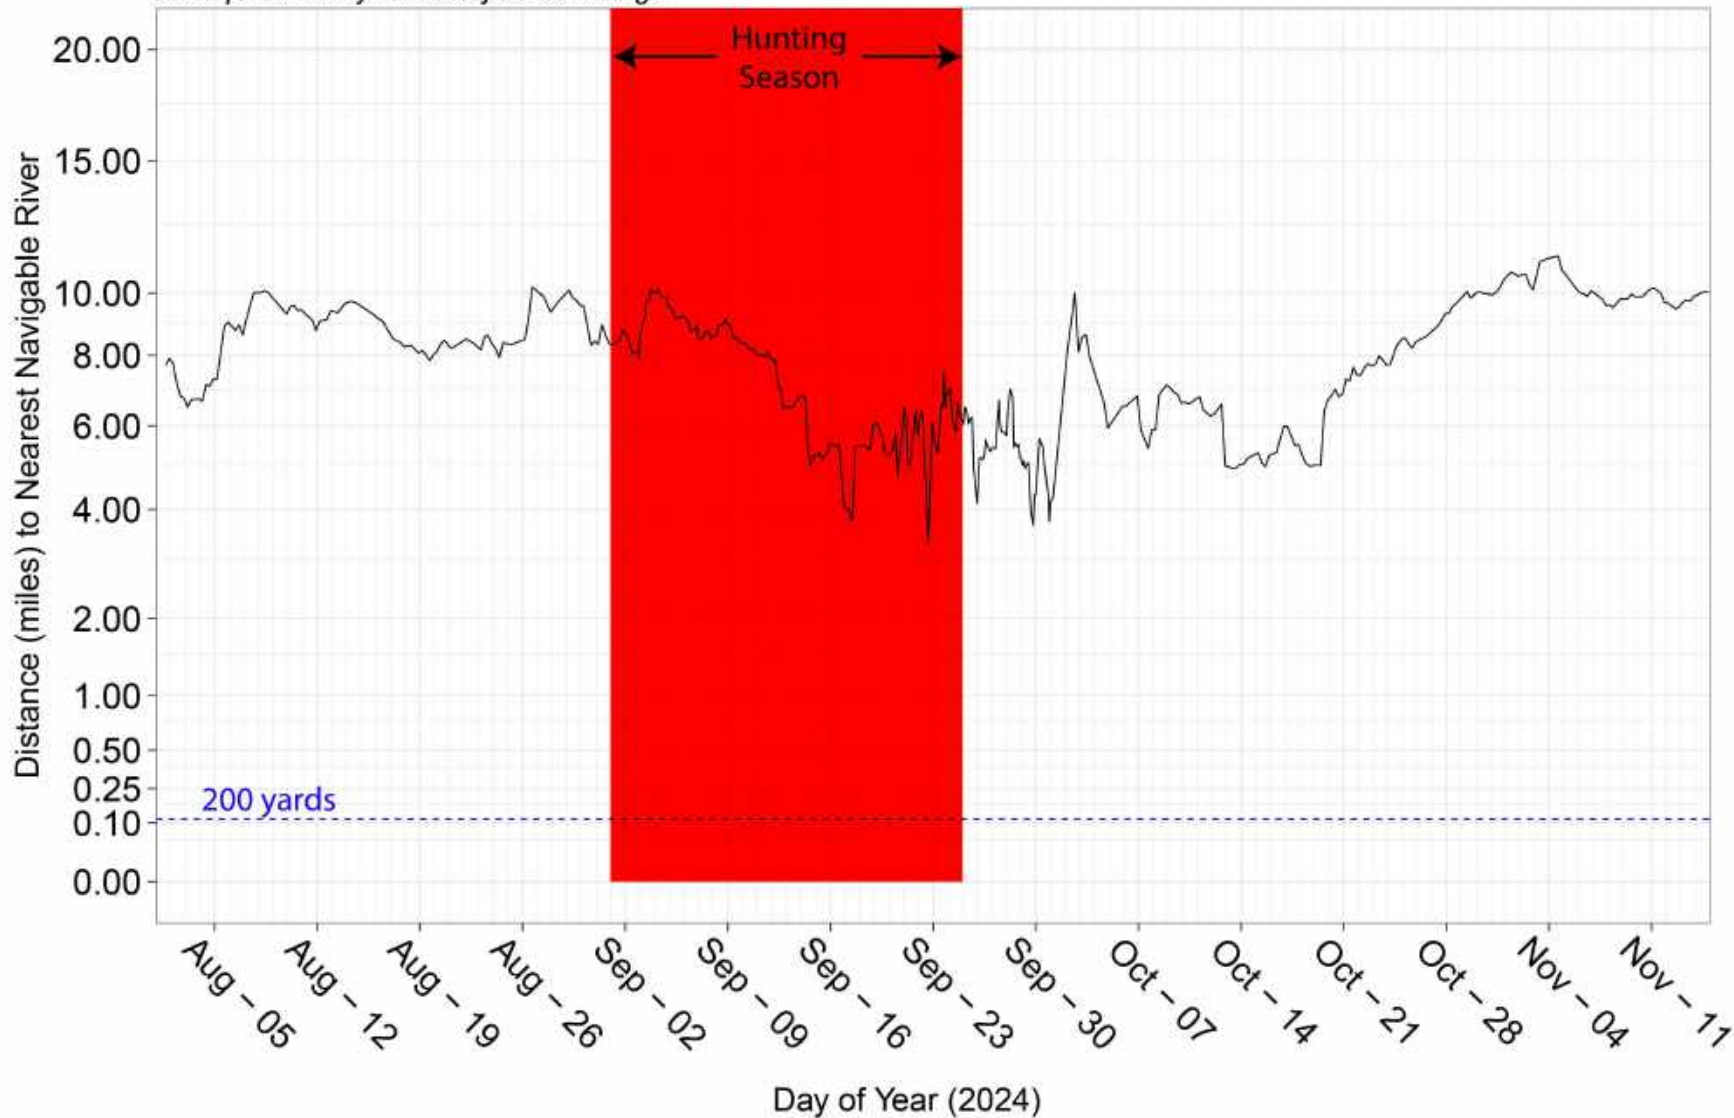

Data preliminary and subject to change

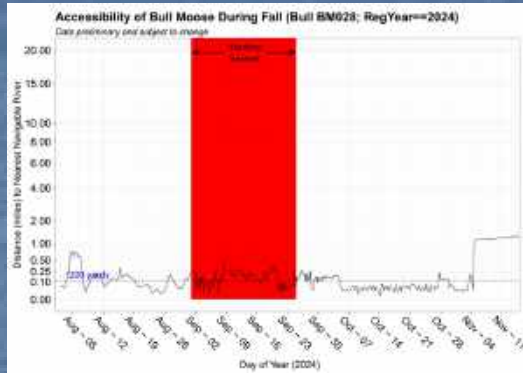

Bull Moose Movement Data

Accessibility of Bull Moose During Fall (Bull BM038; RegYear==2024)

Data preliminary and subject to change

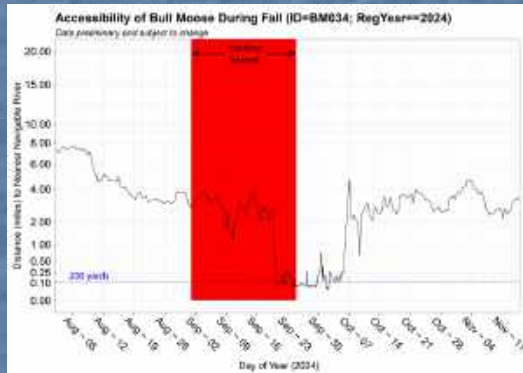

Bull Moose Movement Data

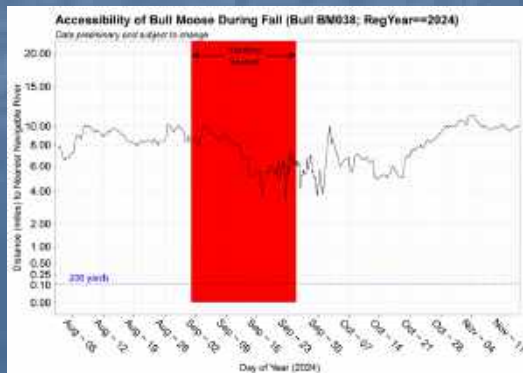

Always near navigable rivers during hunting season

10% of collared moose

Migrate to navigable rivers during hunting season

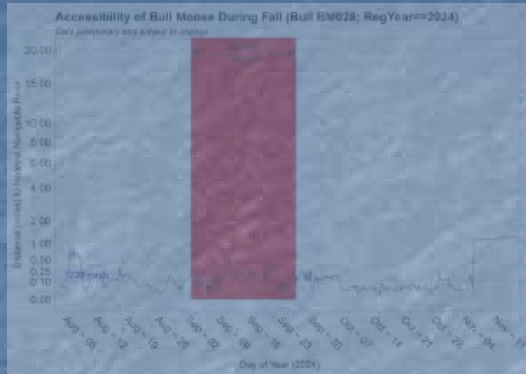

52% of collared moose

Never near navigable rivers during hunting season

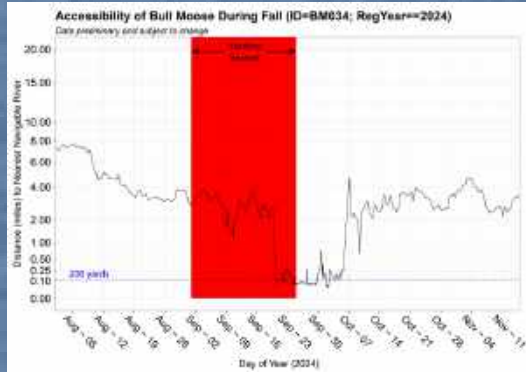

38% of collared moose

Bull Moose Movement Data

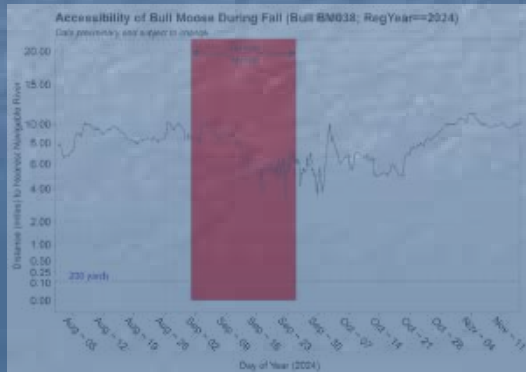

Always near navigable rivers during hunting season

10%

Migrate to navigable rivers during hunting season

52%

Never near navigable rivers during hunting season

38%

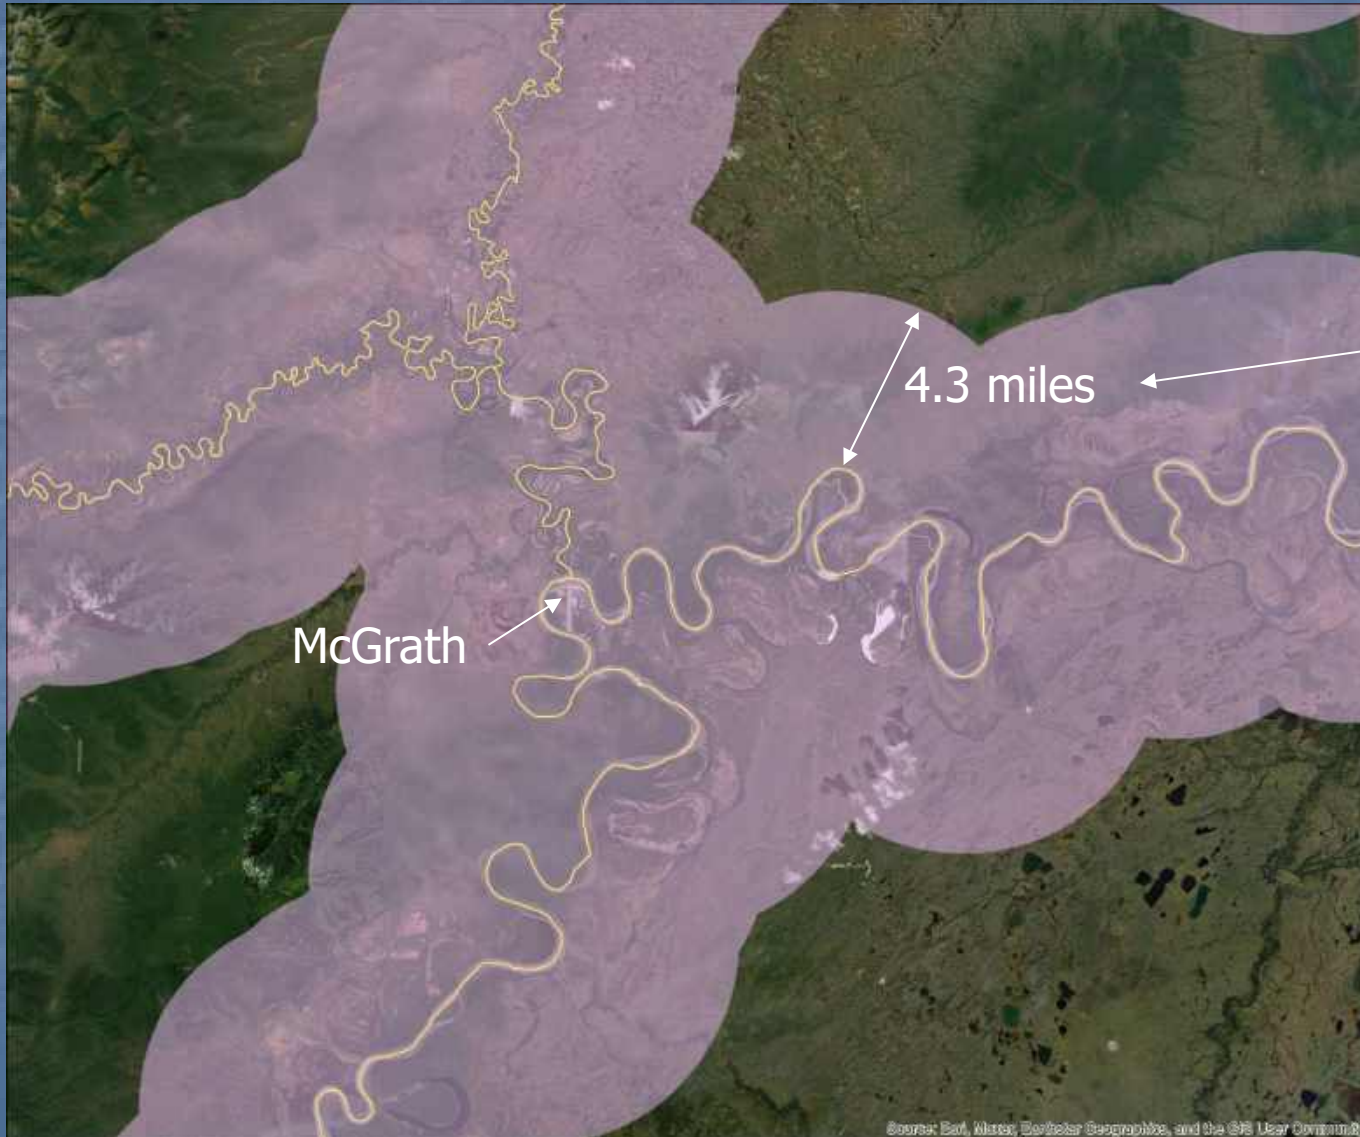

Distance from River in August:

Avg. = 4.3 miles
Max. = 10.5 miles

Days in Sept <1 mile from river:

Avg. = 18 days
Min. = 5 days
Max. = 26 days

Bull Moose Movement Data

Distance from River in August:

Avg. = 4.3 miles
Max. = 10.5 miles

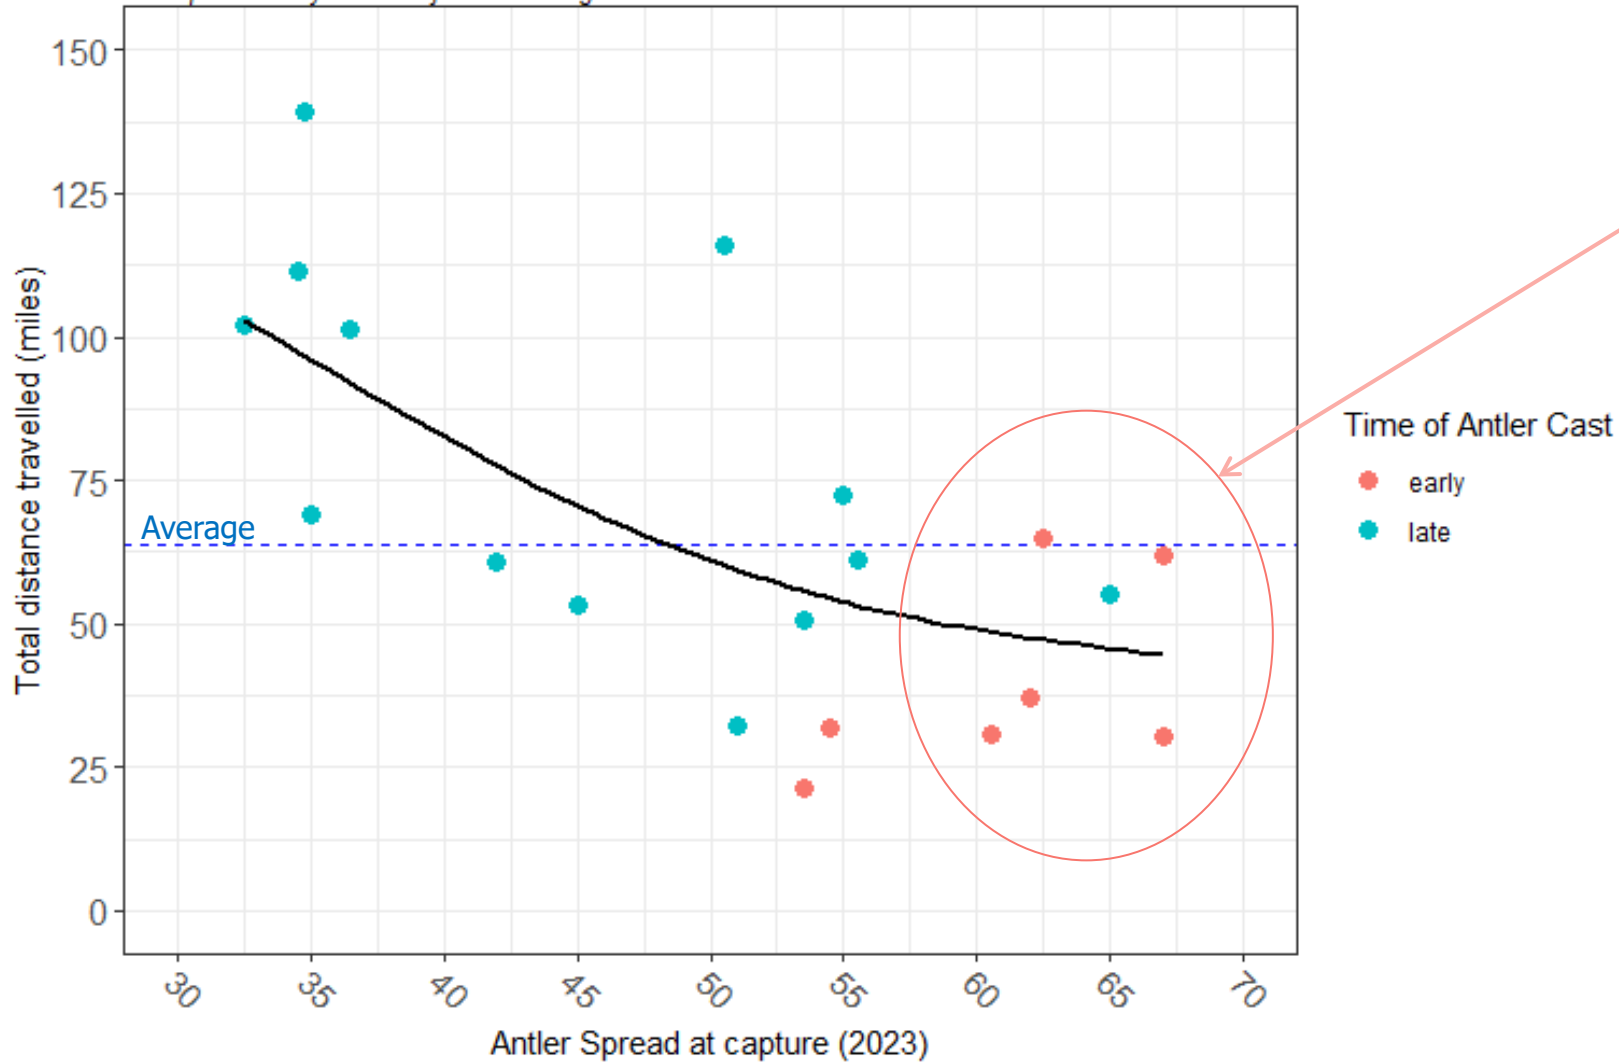

Days in Sept <1 mile from river:

Avg. = 18 days
Min. = 5 days
Max. = 26 days

Bull Moose Movement Data

Total Distance Travelled by Bull Moose During Fall; RegYear==2024)

Data preliminary and subject to change

Larger bulls (on average) cast antlers earlier

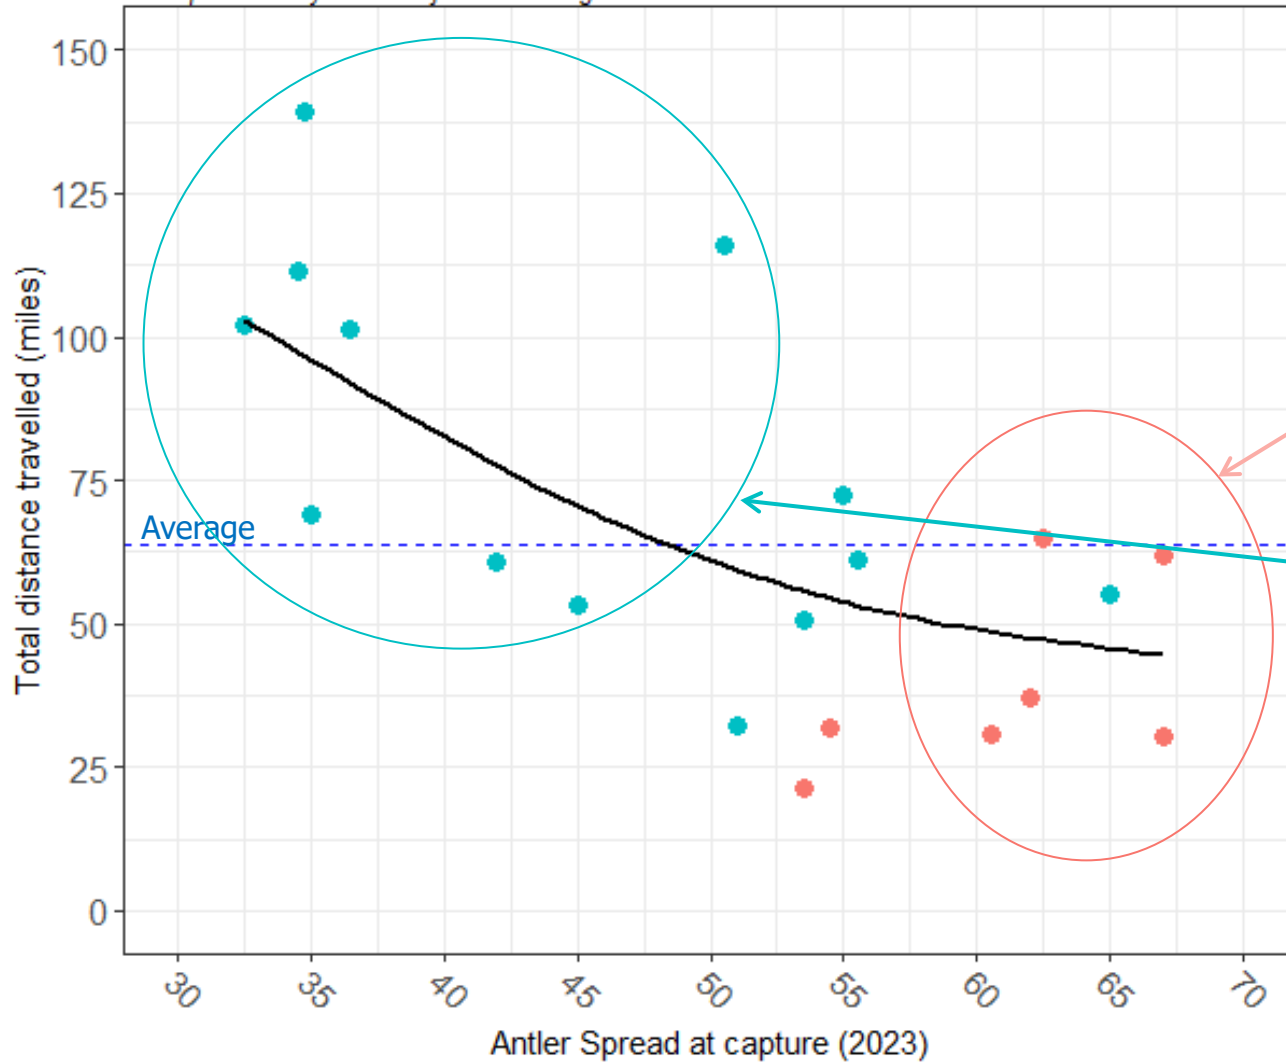

Time of Antler Cast

- early
- late

Bull Moose Movement Data

Total Distance Travelled by Bull Moose During Fall; RegYear==2024)

Data preliminary and subject to change

Larger bulls (on average) cast antlers earlier

Smaller bulls tend to move more during mid-Sept & Early Oct.

Bull Moose Antler Casting

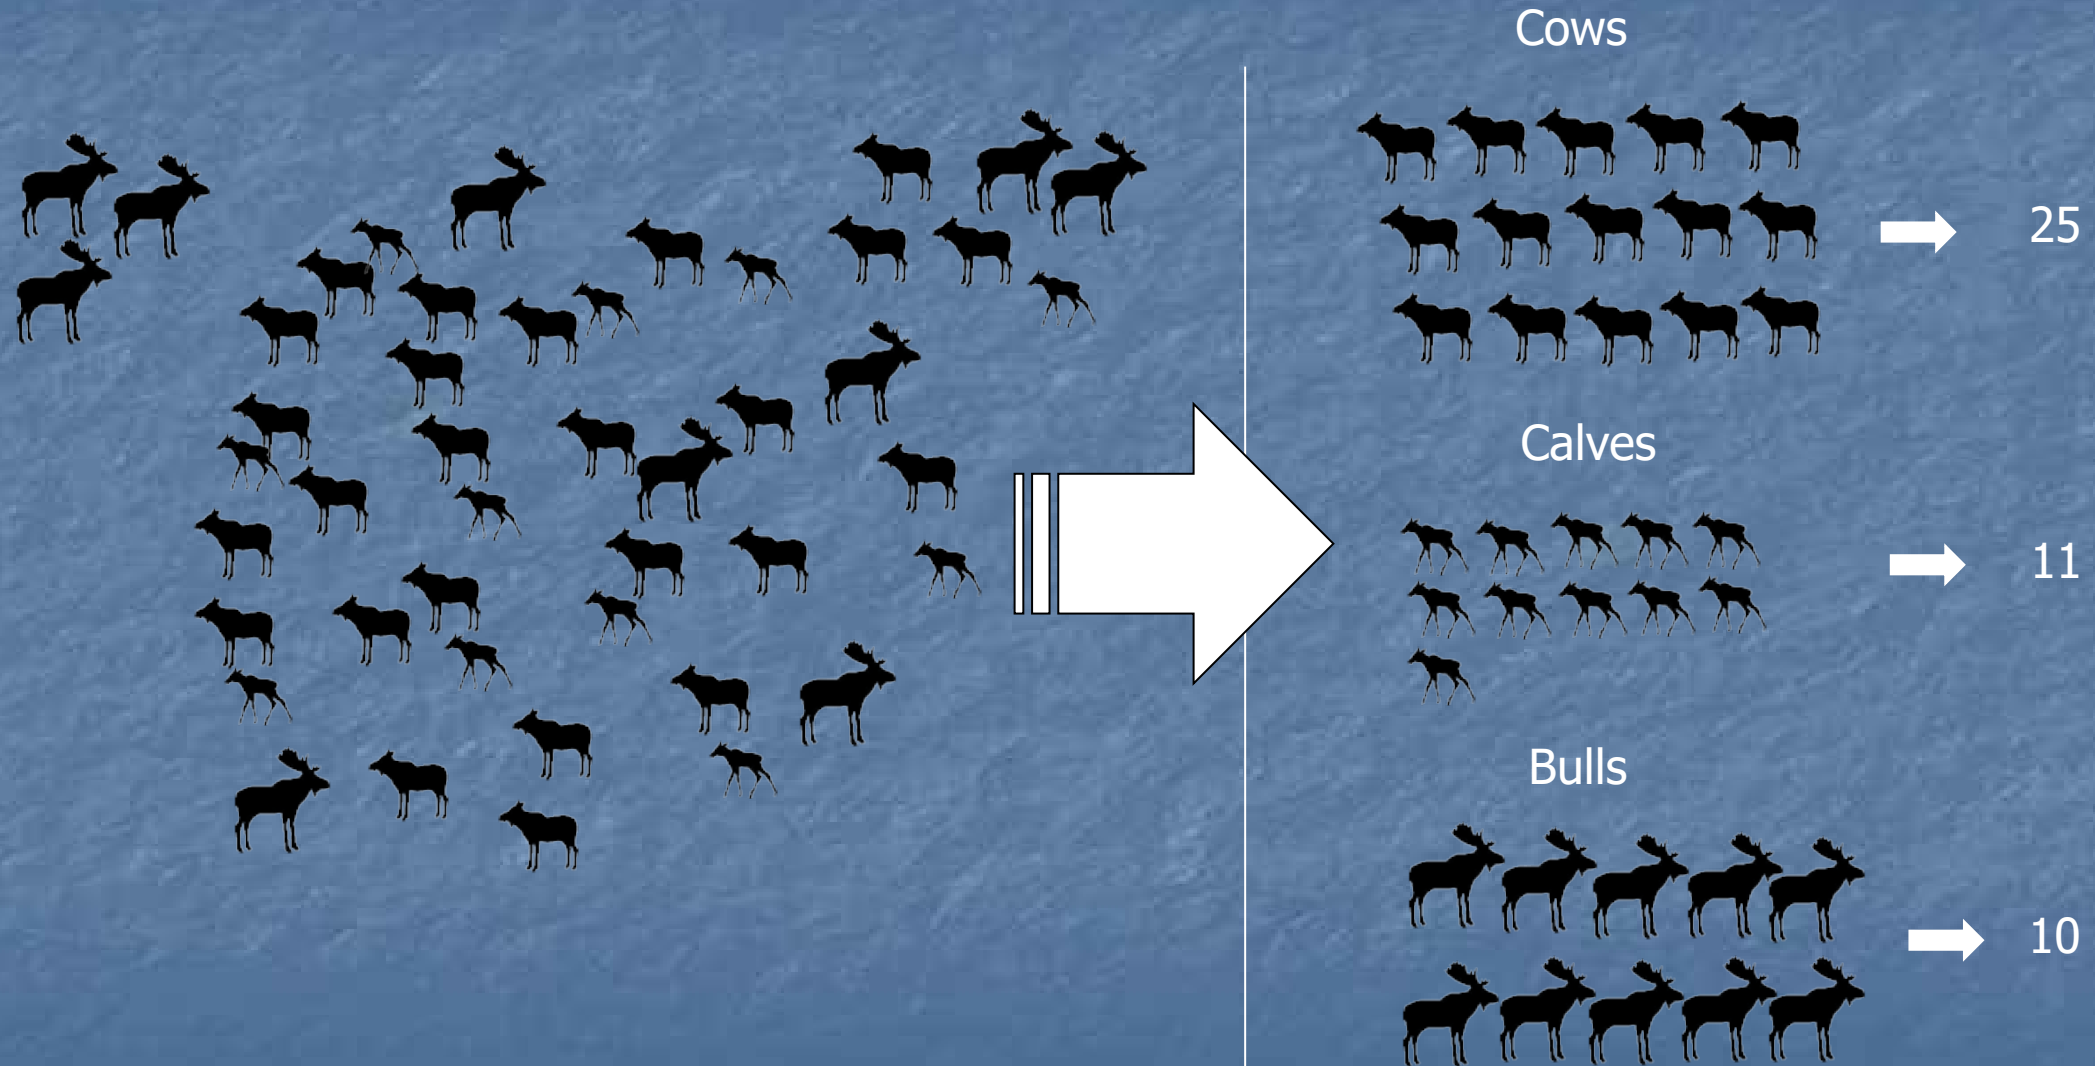

Bull Moose Antler Casting

Important for timing of post-hunt composition surveys

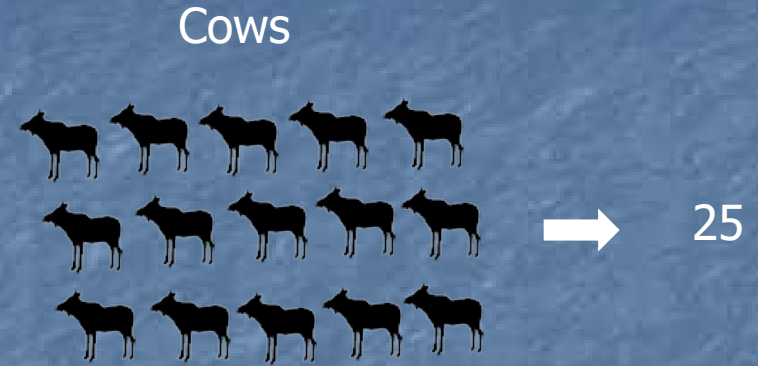

Bull Moose Antler Casting

Bull Moose Antler Casting

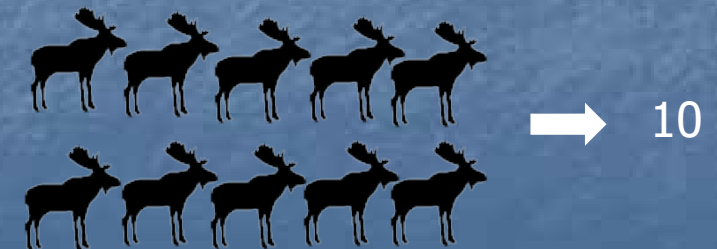

Calves: $100 \text{ Cows} = (11/25) * 100 = 44$

Calves

Bulls

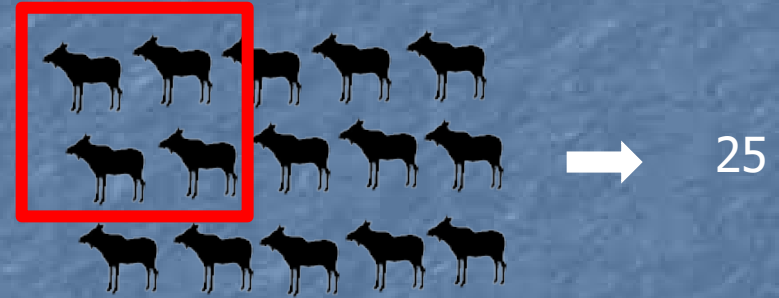

Bulls: $100 \text{ Cows} = (10/25) * 100 = 40$

Bull Moose Antler Casting

Calves: $100 \text{ Cows} = (11/25) * 100 = 44$

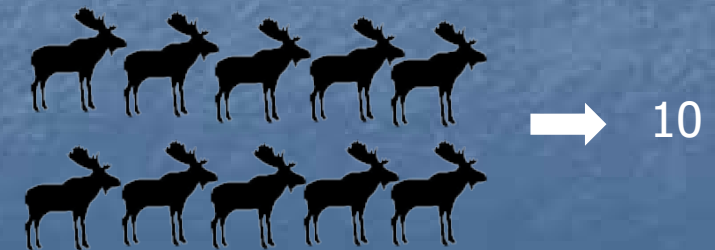

Cows

Calves

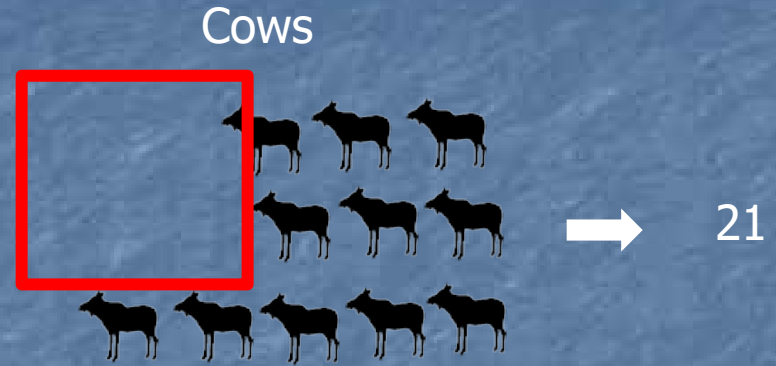

Bulls

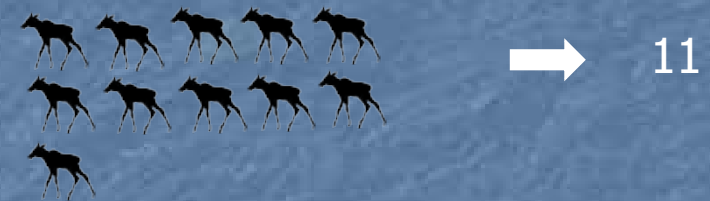

Bulls: $100 \text{ Cows} = (10/25) * 100 = 40$

Bull Moose Antler Casting

Calves:100 Cows = $(11/25)*100 = 44$
Calves:100 Cows = $(11/21)*100 = 52$

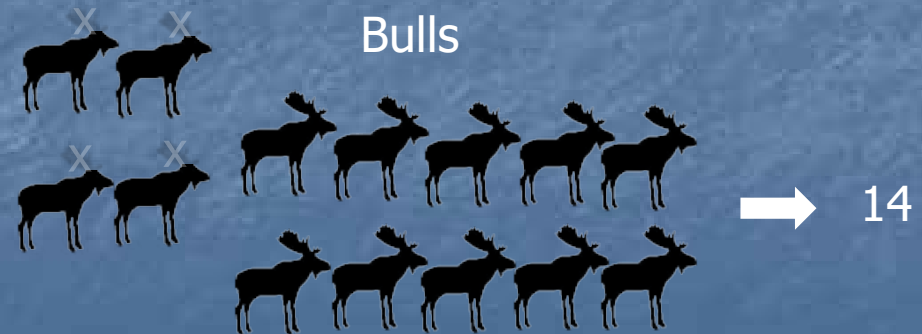

Calves

Bulls

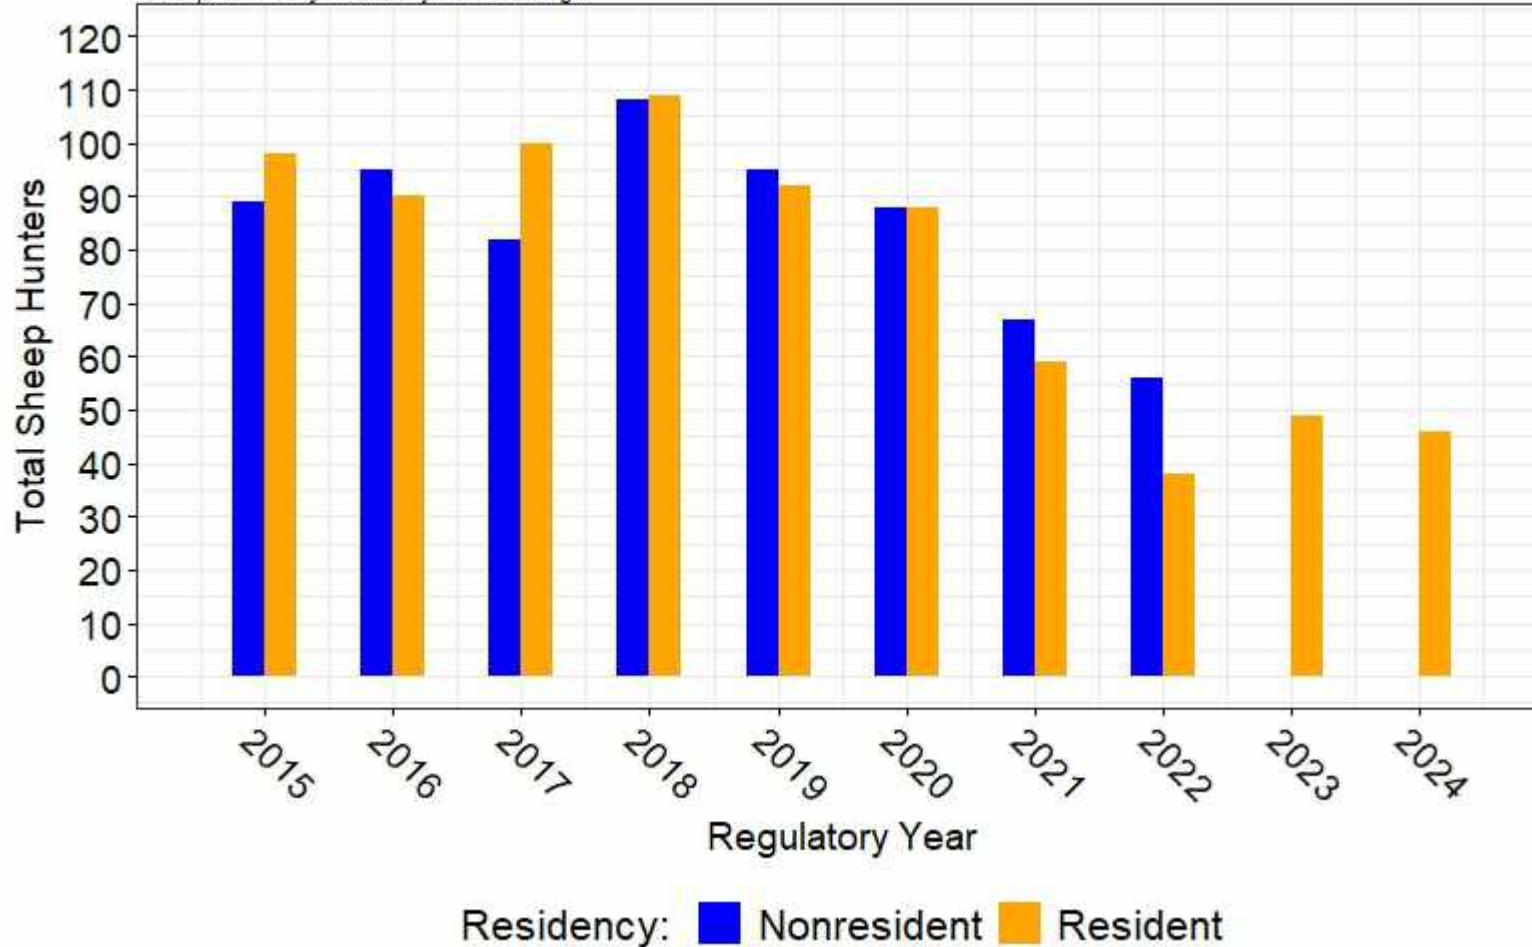

Bulls:100 Cows = $(14/21)*100 = 56$
Bulls:100 Cows = $(10/25)*100 = 40$

19C Sheep Update

Total Fall (GS000) Sheep Hunters by Residency (19C: 2015-2024)

Data preliminary and subject to change

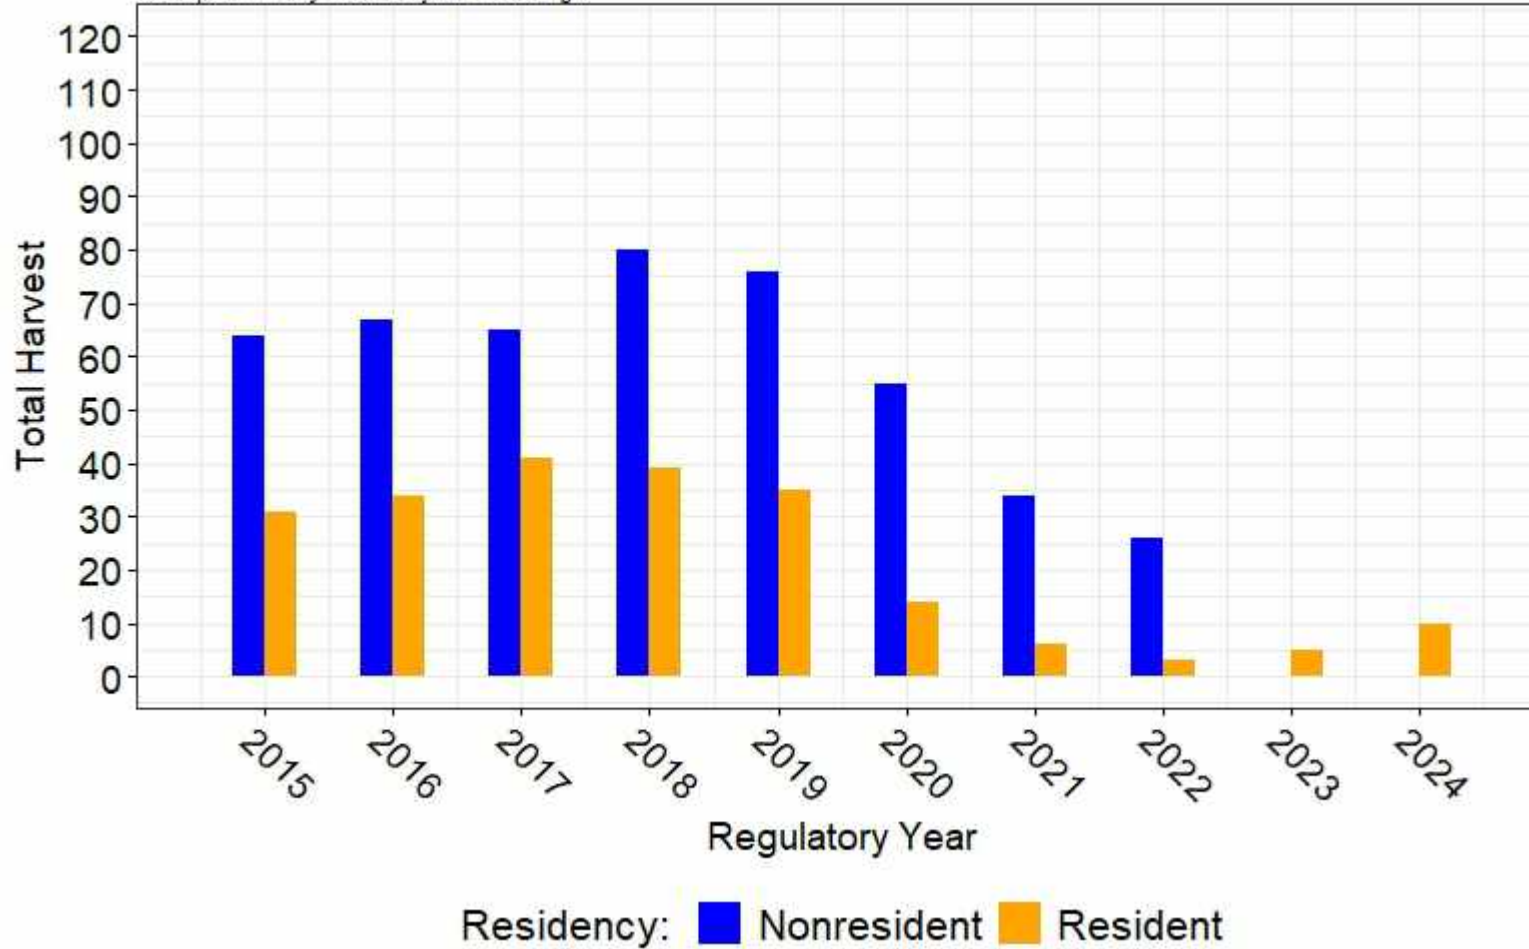

Total Fall (GS000) hunter numbers and percent of total hunters by residency (19C: 2015-2024).

Regulatory Year	Nonresident Hunters	Resident Hunters
2015	89 (48%)	98 (52%)
2016	95 (51%)	90 (49%)

■ Effect of the proposal

- Close both resident and nonresident fall hunt (GS000) during RY25
- Create a temporary draw permit for 2 years (RY26 and RY27) with 80% of permits allocated to residents and 20% to nonresidents:
 - 5% cap for 2DK coming out of the nonresident allocation
 - 2DK hunt sponsor shall also notch harvest ticket for bag limit.
- Request 19C be used as the pilot program for the guide concession program, implemented by 2028. If implemented, return to harvest ticket for both residents and nonresidents in RY28.

■ Department recommendation

- Neutral

■ Unit 19C Sheep Working Group proposal

Additional 19C Sheep Proposals (deferred '24)

Unit 19C Sheep Hunting	121
Proposal 102: Reopen all Unit 19C sheep hunts	121
Proposal 103: Reopen Unit 19C to sheep hunting.....	121
Proposal 104: Reauthorize nonresident Dall sheep hunting in Unit 19C	124
Proposal 105: Reopen Unit 19C to nonresident sheep hunters.....	125
Proposal 106: Reopen sheep hunting in Unit 19C to nonresidents	127
Proposal 107: Reestablish seasons and bag limits for sheep hunting in Unit 19C	129
Proposal 108: Change nonresident sheep hunting in Unit 19C	133
Proposal 109: Reopen sheep hunting in Unit 19C to nonresidents, by bow and arrow only	134
Proposal 110: Change the sheep bag limit in Unit 19C for resident hunters to one ram with full-curl horn or larger every two regulatory years.....	135
Proposal 111: Set the sheep bag limit in Unit 19C for resident hunters based on the age of the ram harvested, for six to eight year old rams.....	136
Proposal 112: Set the sheep bag limit in Unit 19C for resident hunters based on the age of the ram harvested, for six to ten year old rams.....	137
Proposal 113: Shorten the sheep hunting season in Unit 19C for residents and open a season for nonresidents in Unit 19C	138
Proposal 114: Change all sheep hunting in Unit 19C to archery only, and require future nonresident sheep hunting in Unit 19C to be by bow and arrow only	139
Proposal 115: Reopen the subsistence winter sheep hunts in Unit 19C	141
Proposal 116: Reopen the late season resident only subsistence sheep registration hunt RS380 in Unit 19C.....	141
Proposal 117: Modify sheep hunting opportunity in Unit 19C or other subunits in the western Alaska Range by implementing a sheep management plan	142
Proposal 118: Close all nonresident sheep hunting in Unit 19	143

Additional Relevant Proposals

Proposal 101: Add sheep to the list of species identified as important for providing high levels of human consumptive use.

If adopted, this proposal is the first step in a very long public regulatory process to allow IM of Dall's sheep populations and does not guarantee sheep will be intensively managed if it is adopted.

If adopted, the next steps will be for the board to evaluate populations to determine if there is a positive IM finding for a given population, and if so, to establish population and harvest objectives.

Proposal 192: Modify the resident and nonresident hunt structure for sheep in Unit 19C as follows:

- 1) Resident sheep hunting opportunity in Unit 19C remains open under a general season
- 2) Nonresident sheep hunting in Unit 19C remains closed until such a time that a draw permit system is in place to limit nonresident sheep hunters.

Antlerless Reauthorizations

Proposal 158: Reauthorize a fall antlerless hunt during September and a winter any-moose season during

If adopted this proposal would:

- 1) Reauthorize the winter hunt in Unit 19D upstream of the Selatna River allowing hunters to harvest antlerless moose, and
- 2) Authorize a limited draw fall antlerless moose opportunity in Unit 19D upstream of the Selatna River.
