Question submitted by potential offerors and answers from the state:

Question 1: Can you provide information on any integration needed other than the payment process?

Answer: At this time, there are no other integrations required other than with the payment system. However, the state would be open to explore integration options with their criminal history repository at a future date, if the functionality is offered. This is not a requirement.

Question 2: Can the State provide expectations around compliance? Will there be mandatory requirements for SOC's or StateRAMP/FedRAMP?

Answer: The contractor shall be responsible for Payment Card Industry (PCI) compliance. The exact requirement for compliance will vary depending on that type of Wells Fargo cybersource integration the contractor chooses to implement. StateRAMP/FedRAMP is not required at this time.
