

Notice of Utility Tariff Filing

The REGULATORY COMMISSION OF ALASKA (Commission) gives notice that ENSTAR Natural Gas Company (ENSTAR) filed TA350-4, seeking Commission approval to recover all costs associated with studying and securing long-term gas supplies through its gas cost adjustment (GCA) surcharge. These costs include all accumulated and carrying costs related to the regulatory asset approved in Order No. U-22-090(2), as well as all on-going future costs incurred in developing and securing natural gas volumes, including legal fees, industry consulting, due diligence, engineering, permitting, and other third-party costs. ENSTAR has executed an exclusivity agreement with Glenfarne Energy Transition, LLC (Glenfarne) and is working towards the development of a liquefied natural gas receiving terminal on the Kenai Peninsula. ENSTAR anticipates spending approximately \$10 million for the Glenfarne project development expenditures, which includes \$4.6 million already accumulated in the regulatory asset account as of December 31, 2024. ENSTAR will apply an annual rate of 5.34% to the \$4.6 million existing regulatory asset balance, compounded monthly through March 2025. Third-party costs incurred after December 31, 2024 will be passed through the GCA directly. ENSTAR estimates the total costs to advance the Glenfarne project could range between \$53 million to \$58 million.

This notice does not contain all requested revisions and the Commission may approve a rate or classification which varies from that proposed.
