Question submitted by potential offerors and answers from the state:

Question 1: The scope of work does not state the sequencing depth of WGS required. Would you be able to get this information? Also, for the upload line would it be acceptable to upload to an FTP account?

Answer: The contractor is to provide Whole Genome Sequencing (WGS) and laboratory services to sequence DNA in a manner consistent with using that information to do FIGG.

Change to the RFP:

Change 1: Remove “snapshot” from the solicitation in all instances that refer to DNA analysis services.
