

## Amendment #6

### Question:

With an anticipated start date of March 17, 2025, can we propose a schedule that extends the full design completion date past June 16, 2025? And if so, then what would be a reasonable extension?

### Response:

The full design completion date will remain as June 16, 2025. After an award the Court System is open to a designer's "goal" schedule that is reasonable.
