SECTION 1. INTRODUCTION & INSTRUCTIONS

SEC. 1.01 PURPOSE OF THE ITB

The Department of Public Safety (DPS), Aircraft Section, is soliciting bids for maintenance of DPS aircraft avionics in Fairbanks, Alaska.

SEC. 1.02 DEADLINE FOR RECEIPT OF BIDS

Bids must be received no later than 1:30pm Alaska Time on April 15, 2025, at which time they will be publicly opened. Late bids or amendments will be considered non-responsive and will not be opened or accepted for evaluation.

SEC. 1.03 PRIOR EXPERIENCE

In order for a bid to be considered responsive the bidder must meet these minimum prior experience requirements:

- Must meet the qualifications of 14 CFR Part 65, Subpart E, and/or Part 145 (as applicable) with appropriate ratings for the work required as specified in Title 14 of the CFR, Subchapter H, Subpart B, paragraph 145.59.

A bidder's failure to meet these minimum prior experience requirements will cause their bid to be considered non-responsive and rejected.

SEC. 1.04 REQUIRED REVIEW

Bidders shall carefully review this ITB for defects and questionable or objectionable material. Comments concerning defects and questionable or objectionable material in the ITB should be made in writing and received by the procurement officer at least ten days before the deadline for receipt of bids. This will allow time for an amendment to be issued if one is required. It will also help prevent the opening of a defective bid, upon which award cannot be made, and the resultant exposure of bidders' prices.

SEC. 1.05 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF BIDS

All questions must be in writing and directed to the procurement officer within ten days of closing. The interested party must confirm telephone conversations in writing. Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the ITB. These questions may be answered over the telephone. Other questions may be more complex and may require a written amendment to the ITB. The procurement officer will make that decision.

SEC. 1.06 ASSISTANCE TO BIDDERS WITH A DISABILITY

The State of Alaska complies with Title II of the Americans with Disabilities Act of 1990. Individuals with disabilities who may need auxiliary aids, services, and/or special modifications to submit a bid should contact the Procurement Officer no later than ten days prior to the closing of the bid to make any necessary arrangements.

SEC. 1.07 AMENDMENTS TO BIDS

Amendments to or withdrawals of bids will only be allowed if acceptable requests are received prior to the deadline that is set for receipt of bids, in accordance with 2 AAC 12.140. No amendments or withdrawals will be accepted after the deadline unless the delay is due to an error of the contracting agency, in accordance with 2 AAC 12.160.

SEC. 1.08 AMENDMENTS TO THE ITB

If an amendment is issued before the deadline for receipt of bids, the amendment will be posted on the State of Alaska Online Public Notice (OPN) website. The link to the posting of the amendment will be provided to all who were notified of the ITB and to those who have registered with the procurement officer after receiving the ITB from the OPN.

SEC. 1.09 ITB SCHEDULE

The ITB schedule below represents the State of Alaska's best estimate of the schedule that will be followed. If a component of this schedule, such as the deadline for receipt of bids, is delayed, the rest of the schedule may be shifted accordingly. All times are Alaska Standard Time (AST).

ACTIVITY	TIME	DATE
Issue Date / ITB Released		April 15, 2025
Deadline for Receipt of Bids / Bid Due Date	1:30pm ASKST	May 6, 2025
Bid Evaluations Complete		May 7, 2025
Notice of Intent to Award		May 8, 2025
Contract Issued		May 19, 2025

This ITB does not, by itself, obligate the state. The state's obligation will commence when the contract is approved by the Commissioner of the Department of Public Safety, or the Commissioner's designee. Upon written notice to the contractor, the state may set a different starting date for the contract. The state will not be responsible for any work done by the contractor, even work done in good faith, if it occurs prior to the contract start date set by the state.

SEC. 1.10 ALTERNATE BIDS

Bidders may only submit one bid for evaluation. In accordance with 2 AAC 12.830 alternate bids (bids that offer something different than what is asked for) will be rejected.

SEC. 1.11 SUPPORTING INFORMATION

Provided a bid meets the requirements for a definite, firm, unqualified, and unconditional offer, the state reserves the right to request supplemental information from the bidder, after the bids have been opened, to ensure that the products or services offered completely meet the ITB requirements. The requirement for such supplemental information will be at the reasonable discretion of the state and may include the requirement that a bidder will provide a sample product(s) so that the state can make a first-hand examination and determination.

A bidder's failure to provide this supplemental information or the product sample(s), within the time set by the state, may cause the state to consider the offer non-responsive and reject the bid.

SEC. 1.12 FIRM, UNQUALIFIED, AND UNCONDITIONAL OFFER

To be responsive a bid must constitute a definite, firm, unqualified and unconditional offer to meet all the material terms of the ITB. Material terms are those that could affect the price, quantity, quality, or delivery. Also included as material terms are those which are clearly identified in the ITB, and which must be complied with at risk of bid rejection for non-responsiveness.

SECTION 2. SCOPE OF WORK AND CONTRACT INFORMATION

SEC. 2.01 SCOPE OF WORK

Except as otherwise provided in the contract, the Contractor shall furnish all necessary materials, labor, supervision, services, equipment, tools, supplies, power, accessories, facilities, shipping and other items and services necessary for accomplishing the work to include any necessary inspections and return serviceable and airworthy. All items are subsidiary and incidental to the contract and no additional payment will be made. Wherever the contract provides that certain work is subsidiary, or it is without extra compensation, the payment for that work is included in the payment for the pay item and no further or additional payment shall be made for that work.

The contractor shall perform avionics repairs, installation of new and used avionics equipment and complete wiring on DPS aircraft on an as-needed basis including as-needed field repairs. EXCEPTION: Should an aircraft need avionics repairs while outside the Fairbanks area, including outside the State of Alaska, the state reserves the right to contract with a local facility. The State does not guarantee a minimum number of hours.

The state reserves the right to contract with other vendors for specialized avionics modifications.

Avionics maintenance/repair services to include:

- routine, scheduled and non-scheduled maintenance;
- scheduled maintenance, servicing and inspections;
- component/parts repairs as allowed and as applicable below;
- installation of avionics in DPS aircraft as required

The Alaska Department of Public Safety (DPS) is a full-service state police organization which conducts both law enforcement and wildlife enforcement duties across the entirety of the state of Alaska. Because of the vast spans of wilderness in the last frontier separate 82% of our communities from the road system, creating a challenge totally unique to our state. The department operates a multitude of fixed wing and rotary wing aircraft to meet various mission requirements. These aircraft primarily support wildlife enforcement, search and rescue efforts and numerous other law enforcement related missions.

The DPS primary maintenance and logistics headquarters is located at Lake Hood Airport (LHD/PALH) in Anchorage, Alaska. This facility serves as the primary maintenance and logistics facility for the department's entire state-wide flight operation with a secondary facility at Fairbanks International Airport (FAI/PAFA) in Fairbanks, Alaska. It is imperative that vendors are located within a reasonable distance from the DPS FAI facility. The department has considered critical elements such as logistics support and travel times involved conducting site visits, quality assurance inspections and mandatory return to service flights when establishing the proximity requirement. The Contractor's facility shall be located within 35 nautical miles of the DPS FAI hangar facility. The Contractor shall have ownership of, or an established term lease of a maintenance and hangar facility building capable of safely accommodating DPS aircraft. If the

Contractor has a lease, the time remaining on the lease, at the time of the award of this contract, shall be no less than one year. Hangar facility leases may be established after award of this contract; however, the lease shall be completely established within fifteen days of final award. Hangar facilities must be fully operational and available for inspection upon expiration of this fifteen-day period. If the Contractor has the appropriate liability insurances, there may be occasions where working in our hangars and with our tools is a possibility with advanced approval of the Aircraft Section. The Contractor will be expected to be fully prepared to complete tasks and projects and shall not charge the state travel time or shop time for forgotten items or inoperable equipment (e.g. test equipment).

The DPS aircraft listed below is subject to change without notice.

1	Beechcraft King Air 350i
2	Cessna 172
1	Cessna 182
6	Cessna 185
6	Cessna 206
3	Cessna 208 Caravan
2	Airbus H125
22	Piper PA-18 Super Cub

The DPS Aircraft Section, LHD office, sometimes provides aircraft parts and supplies to DPS aircraft that are being serviced, maintained and or being repaired. The DPS parts and stock section is located at this LHD office. If parts or stock items are needed from this office arrangements will need to be made to have items shipped to the vendor or repair location. Those arrangements will be coordinated with the Aircraft Section.

Test/ferry flights will be conducted by DPS or approved DPS agents of the state. The Contractor is not authorized to fly any DPS aircraft unless that contract pilot has received training and is checked out from DPS and each occurrence is approved by the Aircraft Section Program Manager. If ground movement is required, the Contractor may tow the aircraft.

DPS will periodically conduct an on-site inspection of the Contractor's facility to ensure compliance with the safety, terms, conditions, and specifications contained in the contract. The Contractor shall have available for inspection all required certificates, licenses, manuals, work logs and etc. at time of inspection. Failure to comply with the terms, conditions, and specifications of this contract and/or furnish a hangar facility, as specified herein will cause the State to declare the Contractor in default of the contract.

Services will not be complete, and the equipment will not be considered serviced, repaired, or acceptable until it performs in compliance with the manufacturer's published performance specifications. All maintenance record entries must be complete, accurate and follow the requirements of Title 14 of the Code of Federal Regulations (CFR). The Contractor shall document/record all maintenance to the DPS electronic record systems as well as hardcopy logbooks as applicable. Some aircraft utilize an electronic system for record tracking (currently King Air and 208s through <https://www.campsystems.com/> and A-Star helicopters through <https://www.atp.com/flightdocs/>, but subject to change).

DPS aircraft must be maintained in airworthy condition as outlined under 14 CFR Part 43, 14 CFR Part 91, Subpart E, Maintenance, Preventative Maintenance, and Alterations. Avionics and avionics systems within the aircraft must also be maintained according to this Part, and the manufactures approved maintenance manuals. The aircraft and the related/installed avionics must also be maintained as specified by the manufacturer's maintenance schedule and inspection/service schedules and/or applicable Service Bulletins and Service Letters. The Contractor is responsible for review of and compliance with Airworthiness Directives that may pertain to the aircraft and/or avionics equipment being serviced. Avionics repairs and services shall be accomplished by a FAA certified Avionics Repairman. Contractors are allowed to utilize maintenance technicians who are not certified provided they are working under direct supervision of a certified repairman.

All repairs shall be preapproved by the DPS Aircraft Section. Parts may be provided by the State or the State will approve the purchase of parts by the Contractor. DPS may provide parts, components, assemblies, or special tools for completion of certain repairs. Contractor shall fill out work order forms to verify completion of each item of each task preformed and provide a copy to DPS for each aircraft.

The Aircraft Section will provide a written description of the work to be performed to the vendor at the beginning of the avionics project, repair and/or service. This description will include the individual item(s) that needs to be addressed and any other items that might possibly be involved in the repair.

Upon completion of the maintenance project the Contractor shall forward to the DPS Aircraft Section the following documents through in person delivery, the Aircraft Maintenance email address aircraft.maintenance@alaska.gov and/or mail:

- a. Maintenance log entries for the work performed
- b. List of maintenance discrepancies, and corrective action taken.
- c. Any additional documentation as requested by DPS Aircraft Section for that specific project.

DPS will give at least two days notice prior to scheduled maintenance. Contractor shall complete routine inspections and repairs with a timeline agreed to with the Aircraft Section's Aircraft Maintenance Inspectors or Project Manager. Allowances will be made for parts unavailability. Extensions due to unanticipated maintenance delays will be dealt with on a case- by-case basis with an amended timeline agreed to with the Aircraft Section's Aircraft Maintenance Inspectors or Project Manager. Other repairs, alterations, and installations will be completed in an

appropriate time frame for the complexity of the work involved. The Contractor shall give DPS priority consideration.

At times, DPS may need remote area avionics support for an aircraft that has a maintenance issue away from its base. DPS will coordinate with the Contractor to transport an avionics repairman or request the Contractor to travel, if able, to the disabled aircraft and assist in recovery to a maintenance facility to complete a return to service as required. DPS will occasionally require expeditious repairs. The Contractor shall make DPS aircraft priority and shall take immediate action to repair the aircraft, unless mutually agreed upon by the Contractor and DPS.

8:00am – 6:00pm: The Contractor shall inspect an aircraft and provide a plan of action within three hours of initial DPS notification.

After 6:00pm: The Contractor shall inspect the aircraft by 11:00am the following day unless the Aircraft Section deems necessary for mission capability. No work is required on weekends and State recognized holidays unless mutually agreed upon by the Contractor and DPS.

If, in the opinion of DPS, the problem does not require immediate action, the Contractor may perform the required service that night, or, if approved by DPS, at a later date.

Service bulletins, airworthiness directives and all other repairs will be performed in accordance with the manufacturer's recommended procedure. All warranty documents shall remain the property of the State.

Avionics maintenance and repair services are as needed. The State does not guarantee a minimum number of hours.

SEC. 2.02 CONTRACT TERM

The length of the contract will be from the date of award, approximately May 19, 2025, through June 30, 2026, with three one-year renewal terms under the same terms and conditions as the original contract. Renewal options will be exercised at the sole discretion of the state.

SEC. 2.03 CONTRACT TYPE

This contract is a Fixed Firm Price contract.

SEC. 2.04 PAYMENT FOR STATE PURCHASES

No payment will be made until the contract is approved by the Commissioner of the Department of Public Safety or the Commissioner's designee. Under no conditions will the state be liable for the payment of any interest charges associated with the cost of the contract. The state is not responsible for and will not pay local, state, or federal taxes. All costs associated with the contract must be stated in U.S. currency.

Payment for agreements under \$500,000 for the undisputed purchase of goods or services provided to a state agency, will be made within 30 days of the receipt of a proper billing or the delivery of the goods or services to the location(s) specified in the agreement, whichever is later. A late payment is subject to 1.5% interest per month on the unpaid balance. Interest will not be paid if there is a dispute or if there is an agreement that establishes a lower interest rate or precludes the charging of interest.

SEC. 2.05 ELECTRONIC PAYMENTS

The State of Alaska prefers vendors receive payment via Electronic Funds Transfer (EFT). Bidders may review information concerning the EFT process and access the [Electronic Payment Agreement Form for Vendors](https://doa.alaska.gov/dof/vendor.html) at the following link: <https://doa.alaska.gov/dof/vendor.html>. Method of payment is not a factor in the State's determination for award.

Any single contract payments of \$1 million or higher must be accepted by the contractor via Electronic Funds Transfer (EFT).

SEC. 2.06 CONTRACT ADMINISTRATION

The administration of this contract is the responsibility of the procurement officer or person appointed by the Department of Public Safety, Division of Administrative Services.

SEC. 2.07 CONTRACT PERFORMANCE LOCATION

By signature on their bid, the bidder certifies that all services provided under this contract by the contractor and all subcontractors shall be performed in the United States.

If the bidder cannot certify that all work will be performed in the United States, the bidder must contact the procurement officer in writing to request a waiver at least 10 days prior to the deadline for receipt of bids.

The request must include a detailed description of the portion of work that will be performed outside the United States, where, by whom, and the reason the waiver is necessary.

Failure to comply with these requirements may cause the state to reject the bid as non-responsive or cancel the contract.

Subcontractors may be used to perform work under this contract. If a bidder intends to use subcontractors, the bidder must identify in the bids the names of the subcontractors and the portions of the work the subcontractors will perform. Subcontracted services may be utilized, with prior approval of DPS, for specialized maintenance which the Contractor cannot perform. However, the subcontractor shall meet the same qualifications, and carry the same insurance, as the Contractor.

The State will reimburse the Contractor for the actual rate paid for any subcontracted work. When the Contractor is reimbursed by the State for work conducted by a subcontractor, non-payment by the Contractor to the subcontractor constitutes default of this contract.

Subcontractor experience shall not be considered in determining whether the bidder meets the requirements set forth in SEC. 1.03 PRIOR EXPERIENCE.

If a bid with subcontractors is selected, the bidder must provide the following information concerning each prospective subcontractor within five working days from the date of the state's request:

- complete name of the subcontractor;
- complete address of the subcontractor;
- type of work the subcontractor will be performing;
- percentage of work the subcontractor will be providing;
- evidence that the subcontractor holds a valid Alaska business license; and
- a written statement signed by each proposed subcontractor that clearly verifies that the subcontractor is committed to render the services required by the contract.

A bidder's failure to provide this information, within the time set, may cause the state to consider their bid non-responsive and reject it.

Note that if the subcontractor will not be performing work within Alaska, they will not be required to hold an Alaska business license.

SEC. 2.09 JOINT VENTURES

Joint ventures will not be allowed.

SEC. 2.10 RIGHT TO INSPECT PLACE OF BUSINESS

FAA certified repair stations should provide a list of their capabilities, instrument, radio bench repair and transponder certifications. The successful Contractor shall provide evidence of FAA certification within ten days after receipt of the Notice of Intent to Award. AS 36.30.560 provides that an interested party may protest the content of the ITB.

An interested party is defined in 2 AAC 12.990(a) (7) as "an actual or prospective bidder or bidder whose economic interest might be affected substantially and directly by the issuance of a contract solicitation, the award of a contract, or the failure to award a contract."

If an interested party wishes to protest the content of a solicitation, the protest must be received, in writing, by the procurement officer at least ten days prior to the deadline for receipt of bids.

AS 36.30.560 also provides that an interested party may protest the award of a contract or the proposed award of a contract.

If a bidder wishes to protest the award of a contract or the proposed award of a contract, the protest must be received, in writing, by the procurement officer within ten days after the date the Notice of Intent to Award the contract is issued.

A protester must have submitted a bid to have sufficient standing to protest the proposed award of a contract. Protests must include the following information:

- the name, address, and telephone number of the protester,
- the signature of the protester or the protester's representative,
- identification of the contracting agency and the solicitation or contract at issue,
- a detailed statement of the legal and factual grounds of the protest including copies of relevant documents, and
- the form of relief requested.

Protests filed by telex or telegram are not acceptable because they do not contain a signature. Fax copies containing a signature are acceptable.

The procurement officer will issue a written response to the protest. The response will set out the procurement officer's decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax or another method that provides evidence of receipt.

All bidders will be notified of any protest. The review of protests, decisions of the procurement officer, appeals, and hearings, will be conducted in accordance with the State Procurement Code (AS 36.30), Article 8 "Legal and Contractual Remedies."
