

**STATE OF ALASKA**  
**DEPARTMENT OF NATURAL RESOURCES**  
**DIVISION OF MINING, LAND AND WATER**

**DIRECTOR'S DECISION**

**to issue**

**Millsite Lease ADL 422542**

**pursuant to AS 38.05.255**

**I. Recommended Action(s)**

The Department of Natural Resources (“Department”), Division of Mining, Land & Water (“Division” or “Lessor”) received an application from Fairbanks Gold Mining, Inc. (“FGMI” or “Applicant” or “Lessee”) for a Millsite Lease on State land for continuation of Millsite activities issues under ADL 414960 with additional acreage. This Decision approves the issuance of a Millsite Lease to the applicant.

The Millsite is located in Fairbanks Meridian Township 002 North, Range 002 East sections 4, 7-23, 26, 27, and Township 002 North, Range 003 East sections 7, 8, 17-19. The Millsite Lease is located on state mining claims and privately held mineral interest owned by the applicant in which the surface estate was transfer into State’s ownership in 1994.

Alaska Statute 38.05.255(a) allows for issuance of the Lease upon payment of reasonable annual rent for the Lease and restricted to uses approved by the Director of the Division of Mining, Land & Water as stated in the Millsite Lease ADL 422542. The Division proposes to issue the Millsite Lease to FGMI.

**II. Authority**

The Division authority under AS 38.05.255(a) allows the Director to issue a Millsite Lease for the use of the surface of the land for those activities necessary for the prospecting for, extraction of, or basic processing of minerals. Regulation 11 AAC 86.600(a) allows the Director to issue a Millsite Lease to the owner of a mining interest for the use of the State’s surface estate for a millsite, tailings disposal, or another use necessary for the mineral development. The surface estate subject to the Millsite Lease granted under this regulation must be on or near the mining interest.

**III. Access**

Access to the lease is via a private road that originates from the Fort Knox Mine Site.

**IV. Eastern Tanana Area Plan**

The Millsite Lease Area is located within the boundary of the Eastern Tanana Area Plan (ETAP or the plan), Fairbanks Region, which is open to mineral entry as specified in Chapter 3 of ETAP.

Chapter 2 of ETAP identifies the following goals for subsurface resources.

### Opportunities for Mineral Exploration and Development

The goal of is to provide opportunities through state land management for the exploration and development of mineral resources.

### Economic Opportunities

The goal provides economic opportunities and stability by managing state lands for the efficient and environmentally sound:

- Disposal of tailings
- Development of state land and submerged land mining sites; and
- Siting of infrastructure to support development of mineral resources.

### Environmental Quality and Cultural Values

The goal is to provide that during the development of subsurface resources, protect the integrity of the environment and affected cultural features to the extent feasible and prudent.

The overall management intent for this region is the continuation of the present patterns of land development, multiple and sustained yield of state land resources, and the protection of key habitats, fisheries, and wildlife populations. ETAP provides for the use and development of the important agricultural, forest, and mineral resources within the planning area where the resources exist.

The area of the millsite lease falls under the management unit F-16 for the Fairbank Region of ETAP. Under this unit the area is managed for its mineral values but recognizes that the area supports habitat (moose wintering) and the effect of mineral development should be minimized whenever possible. Actual development is subject to state and federal permitting requirements, which ultimately determines the appropriateness of development and mitigation stipulations. Stipulations for development and mitigation will be included in the Plan of Operations to be processed separately from this millsite lease.

Based on the thorough analysis of the resources and uses in the area the issuance of this Millsite Lease is consistent with the Management Guidelines and policies provided in the ETAP, the principles of multiple use, and the goal of managing land for the efficient storage of topsoil and waste rock. Ultimately, the Department has determined that the issuance of this Millsite Lease is in the best interest of the State.

## **V. Public Notice and Comments**

AS 38.05.035(e)(6)(G) authorizes the Director to approve a Millsite Lease without a written finding. In order to meet the requirements of the Alaska Constitution, Article 8, Section 10, the Division issued a public notice of the Millsite Lease application. The public notice included the draft Millsite Lease and was posted for 30-day on the State of Alaska Online Public Notice System from May 22 thru June 22, 2025.

## **VI. Director's Decision**

The Division recommends proceeding with the issuance of Millsite Lease ADL 422542. The findings presented above have been reviewed and considered. Under the authority of the applicable statutes, it is hereby found to be in the best interest of the State of Alaska to proceed with the recommended actions as described and referenced herein.

## **Appeal Provision**

A person affected by this decision who provided timely written comment or public hearing testimony on this decision may appeal it, in accordance with 11 AAC 02. Any appeal must be received within 20 calendar days after the date of "issuance" of this decision, as defined in 11 AAC 02.040(c) and (d) and may be mailed or delivered to the Commissioner, Department of Natural Resources, 550 W. 7th Avenue, Suite 1400, Anchorage, Alaska 99501; faxed to 1-907-269-8918, or sent by electronic mail to [dnr.appeals@alaska.gov](mailto:dnr.appeals@alaska.gov). Under 11 AAC 02.030, appeals and requests for reconsideration filed under 11 AAC 02 must be accompanied by the fee established in 11 AAC 05.160(d)(1)(F), which has been set at \$200 under the provisions of 11 AAC 05.160 (a) and (b). If no appeal is filed by the appeal deadline, this decision goes into effect as a final administrative order and decision of the Department on the 31st day after issuance. An eligible person must first appeal this decision in accordance with 11 AAC 02 before appealing this decision to Superior Court (11 AAC 02.020(a) and (b)). A copy of 11 AAC 02 may be obtained from any regional office of the Department of Natural Resources.
