**Questions and answers**

**Question #1:**

Can we qualify our bid to supply the hot mix out of the Ernestine lot with the condition that the DOT take the 500 tons of hot mix on days that the hot plant is in production for the Richardson Highway project?(MP 97-106.5).

If we cannot qualify our bid, can you please provide a number of days that the DOT will be taking hot mix and an approximate quantity each day.

**Answer #1:**

No, please coordinate directly with the Project Manager listed in the ITB for daily quantity requirements.

If we are only able to load first thing in the morning before the mix is switched over, we would be limited to hauling approximately 50 tons per day. However, if the plant remains available to us throughout the day, we could potentially haul up to 100 tons per day.
