

STATE OF ALASKA DEPARTMENT OF NATURAL RESOURCES
Division of Mining, Land and Water

LAND USE PERMIT APPLICATION

AS 38.05.850

Applicants must complete all sections of this application. In addition, applicants proposing:

- the use of the uplands must also complete the Supplemental Questionnaire for Use of State-Owned Uplands accompanying this application;
- off-road travel must also complete the Supplemental Questionnaire for Off-Road Travel accompanying this application; and/or
- the use of shorelands, tidelands, and submerged lands must also complete the Supplemental Questionnaire for Use of State-Owned Waters accompanying this application.

Other items that must accompany the completed application are:

- a (non-refundable) application fee; see current Director's Fee Order or contact your regional office for applicable fees;
- a topographic map or aerial photo showing the location of the proposed activity;
- additional items identified and required in any supplemental questionnaire(s) to this application; and
- additional pages if more space is necessary to answer the questions completely.

Completed Land Use Permit Applications should be submitted electronically or mailed to one of the following offices:

Northern Region Land Office
3700 Airport Way
Fairbanks, AK 99709-4699
(907) 451-2740
nro.lands@alaska.gov

Cell Phone: 907-850-2225

Fax: 907-850-2221

LAS #:

If you are applying for a corporation, give the following information:

Name, address and place of incorporation:

Pedro Bay Villiage: PO Box 47020, Pedro Bay, AK 99647

Is the corporation qualified to do business in Alaska? Yes ☒ No ☐

If yes, provide name, address and phone number of the resident agent:

Keith Jensen, Pedro Bay Villiage President. PO Box 47020, Pedro Bay, AK 99647.
907-850-2225.

Type of User (Select One): ☐ Private non-commercial (personal use) ☐ Commercial Recreation or Tourism
☐ Public Non-profit including Federal, State, Municipal Government Agency ☒ Other commercial or industrial

Duration of Project: The proposed activity will require the use of state land for: (Check one)

☒ A single term of less than one year. **Beginning month:** May 9th, 2025 **Ending month:** May 30, 2025
☐ A multi year term for up to 5 years. **Beginning year:** _____ **Ending year:** _____

If multi year and seasonal, mark months of use in each year.

☐ Jan, ☐ Feb, ☐ Mar, ☐ Apr, ☐ May, ☐ Jun, ☐ Jul, ☐ Aug, ☐ Sept, ☐ Oct, ☐ Nov, ☐ Dec

Project Location:

Latitude/Longitude or UTM: Water Body Name: Smokehouse Bay Pedro Bay AK or

Section: _____ **Township:** _____ **Range:** _____ **Meridian:** _____

Section: _____ **Township:** _____ **Range:** _____ **Meridian:** _____

Proposed project will require the use of up to < 1 acres.

(Please add additional sheets for this section as necessary)

GPS coord: 59.784869, -154.108444 known as Smokehouse Bay

LAS #: _____

Project Description: Describe in detail your intended use of state land. (State land also includes all tide and submerged lands beneath coastal waters and all shorelands beneath other navigable waterbodies of the state.) Discuss development and activities. (Attach additional pages as necessary.)

Proposal to construct a boat ramp and associated staging pad in and adjacent to Iliamna Lake.

Four concrete slabs, measure 4 feet by 14 feet, will be placed above and below ordinary high water (OHW) at the above referenced location. The ramps will be set in place with an excavator. After setting the ramps, about 10 cubic yards of clean fill rock will be placed around the cement slabs, with about half of that volume being placed below OHW.

Additionally, an excavator will be used to remove four large rocks from the lake located near the "toe" of the ramp. Only the bucket of the excavator will work below the water line.

An associated road located East of the ramp that runs parallel to the lake will be improved with approximately 15 cubic yards of one to three foot riprap placed at the shoreline to protect the road from erosion. Some of the riprap will extend below OHW. The riprap will be set in place with an excavator operating from the road.

Install two floating docks, that will be anchored to the shoreline. These will be seasonally docks. The shoreline anchors will consist of steel pipes embedded in the shoreline rocks.

Should a portion of the permitted area be closed to the general public? Yes ☐ No ☒ .

If yes, explain which portion and provide justification for exclusive use.

Site Description: Briefly describe the current condition of the proposed site of use, noting any trash, garbage, debris or signs of possible site contamination. (If significant, we recommend you provide pictures to establish initial conditions.)

Initial condition of site: is showing issues with the boat ramp that has ruts that make it difficult to access the water with a boat trailer. The East side of the ramp has a 90 foot road parallel to the shoreline. This shoreline has rip-rap on the bank. The rip-rap needs to be re-positioned and more needs to be added to protect the shoreline and existing road for safe passage.

LAS #: _____

Are there improvements or materials on the site now? Yes ☒ No ☐ If yes, briefly describe the improvements, their approximate value, and who owns them. (We recommend you provide pictures of improvements.)

Pedro Bay Village Council has purchased the four concrete ramps that are on site. Improvements to the road leading to the boat ramp have been improved. Pitrun material was used to build up the road and three to four inches of gravel will be placed over the road leading to the boat ramp.

Describe the natural vegetation – ground cover, trees, shrubs – and any proposed changes. Describe the location of any estuarine, riparian, or wetlands and any noticeable animal use of area.

The natural vegetation is trees and shrubs. A vegetation map is attached.

Site Access: Describe how you plan to access the site, and your mode of transportation.

Site was accessed through an existing road to the boat ramp. An excavator will be used to place the concrete ramps.

If your access is by aircraft, specify the type and size of aircraft:

n/a

To access the site, the aircraft is equipped with floats ☐ wheels ☐ skis ☐.

Number of people:

1. Indicate the number of employees and supervisors who will be working on the site. 3
2. Indicate the number of customers who will be using the site per year or season. 50 +
3. Indicate the number of days the site will be used per year or season. 210 days

Commissioner

**LAND USE PERMIT APPLICATION SUPPLEMENTAL QUESTIONNAIRE FOR:
Use of State-Owned Waters (Shorelands, Tidelands & Submerged Lands)**

Shorelands are those below ordinary high water mark of non-tidally influenced navigable waterbodies. **Tidelands** are that portion of the intertidal zone below the elevation of mean high water. This elevation varies by location. Contact the nearest Department of Natural Resources (DNR) regional office for assistance. **Submerged lands** are those below the lowest tidal elevation. The State of Alaska, with few exceptions, owns these lands out to three miles offshore. If your activity includes the use of State shorelands, tidelands, or submerged lands and the waters above them, answer the questions within applicable sections below. All site development details identified in this section must be represented graphically in the scaled drawings on page 9 of the supplement.

Does the applicant own the directly adjacent, upland waterfront property? Yes ☐ No ☒

If no, give name(s) and current address/phone number of the property owner.

Give names and current addresses and/phone numbers for both upland property owners on either side of the above waterfront property.

Pedro Bay Village Council: PO Box 47020, Pedro Bay, AK 99647
907-850-2225

Note: You must obtain the upland owner's written permission for any use of uplands you do not own including for waste disposal, access roads, waterlines, power lines, or shore ties above MHW, and you must provide a copy to DNR before a permit is issued. If not the immediately adjacent upland property owner, does the applicant have legal access across the uplands? Yes ☐ No ☒ Please explain.

Applicant owns the property surrounding the project area.

Will your tideland use involve any use of adjacent State-owned uplands? Yes ☐ No ☒ (If Yes, indicate uses and show on your development plan diagram.) ☐ Shore tie ☐ Waterline ☐ Power line ☐ Access to roads ☐ Other – Explain.

Type of Use, Activity, Development (Answer All).

Will you be developing / using a Mooring Buoy or anchoring a commercial or industrial use vessel for more than 14 days?

Yes ☐ No ☒ (If yes, please also answer all questions in **Part 1 on page 2 and Part 6 on pages 10, 11.**)

LAS # _____

Page 1 of 12

Will you be anchoring or mooring a commercial or industrial related floating facility that is or can be occupied, i.e. a float camp or floating lodge, a float house you rent, a seafood processor?

Yes ☐ No ☒ (If yes, please also answer all questions in **Part 2, on page 3 and Part 6 on pages 10, 11.**)

Will you be anchoring or mooring your own personal use Float house?

Yes ☐ No ☒ (If yes, please also answer all questions in **Part 2, on pages 3 and Part 6 on pages 10, 11.**)

Will you be placing non-occupied structures including but not limited to Piling, Dolphins, Fixed docks, Floating docks, or other floating structures?

Yes ☒ No ☒ (If yes, please also answer all questions in **Part 3, on page 4 and Part 6 on pages 10, 11.**)

Are you seeking authorization to use or develop a Log Transfer Facility, a floating Log Storage area, or a Log Ship Loading site?

Yes ☐ No ☒ (If yes, please also answer all questions in **Part 4, pages 5, 6, 7 and Part 6 on pages 10, 11.**)

Will you be placing fill or dredging material on a beach?

Yes ☐ No ☐ (If yes, please also answer all questions in **Part 5, pages 8, 9 and Part 6 on pages 10, 11.**)

Part 1. Anchoring vessels and mooring buoy systems

Does the proposed use location include a known anchorage? Yes ☐ No ☒ If yes, have alternative locations been considered to reduce impact to the anchorage? Yes ☐ No ☐ If no, explain why.

n/a

What type of vessel will use the site? ☐ Commercial Fish Tender / Processor ☐ Log Ship ☐ General Cargo Ship

☐ Unoccupied Barge ☐ Fuel Barge ☐ Passenger Vessel ☒ Other: Barge to deliver supplies

Does the anchoring vessel require the ability to be able to occupy this site all year long? Yes ☐ No ☒

If no, what months will the site be used? From May to November

What is the maximum swing radius of vessel at anchor? Length: _____ feet (distance from anchor to the aft of the vessel).

Will the vessel require the placement of a mooring buoy system? Yes ☐ No ☒ Number of buoys: _____

If placing buoys, fill out applicable parts of Part 3 to explain the anchoring system.

Use of State-Owned Waters (Shorelands, Tidelands & Submerged Lands) Form 102-1084C (Rev 09/21)

Part 2. Floathouses and Commercial, Industrial Floating Lodges, Float camps, Caretaker Residences (including seafood processors)

Description of Facility Note: The structures and dimensions must be shown on the development plan diagram.

Float Dimensions: float ____ x ____ float ____ x ____ float ____ x ____ Total float area ____ sq ft

Living quarters total area: ____ sq ft. Number of stories: ____ Maximum occupancy: ____ persons

Describe other structures on floats, such as storage and generator sheds; give structure dimensions.

n/a

Describe anchoring system and address all that apply: No. of anchors ____ Type ____ Weight ____

No. of Rock bolts: ____ No. of Shore ties: ____

Other methods:

n/a

Grounding is prohibited. What is the water depth beneath the facility at extreme low tide? ____

How many feet of maximum draft does the floating facility have? ____

Describe your potable Water Source: type, location, ownership of the source:

n/a

Wastewater System. Describe how you will handle human waste, black water, grey water:

n/a

Do you have an approved Alaska Department of Environmental Conservation marine sanitation system? Yes ☐ No ☐

Approval # ____

Describe how you will dispose of all solid waste including human waste and household garbage generated on facility:

n/a

LAS # ____

Land Use Permit Supplemental Questionnaire for

Use of State-Owned Waters (Shorelands, Tidelands & Submerged Lands) Form 102-1084C (Rev 09/21)

Part 3. Non occupied structures - Piling, Dolphins, fixed docks, floating docks, or other floating structures.

Select all boxes that apply for structures located below MHW and show all on the development plan diagram.

- ☐ Fixed pile-supported dock, wharf or landing (non-floating) – dimensions ____ x ____ feet. No. of pilings ____
- ☐ Ramp to floating dock - dimensions ____ x ____ feet
- ☐ Boat haulout or non-floating ramp - dimensions ____ x ____ feet
- ☒ Floating dock dimensions ____ x ____ feet, ____ x ____ feet, ____ x ____ feet, ____ x ____ feet, ____ x ____ feet
- ☐ Floating breakwater - materials: _____ Dimensions ____ x ____
- ☐ Other floating structures (e.g., net pens, gear storage float) - describe materials, structures, dimensions:
n/a
- ☐ Storage sheds or similar structures on docks - description _____ Dimensions ____ x ____
- ☐ Bulkhead - type (log crib, sheet pile, etc.) _____
Dimensions ____ x ____ Cubic Yards of Fill
- ☐ Individual pilings not counted under fixed dock above. Number ____
- ☐ Dolphins - Number ____ Number of pilings per dolphin ____
- ☐ Anchor - Number ____ Type _____ Weight _____
- ☐ Rock bolts - Number ____
- ☐ Shore ties – Number ____ Note: You must obtain the upland owner's permission to place shore ties above MHW before a permit is issued.

Note: Grounding is prohibited.

What is the water depth beneath the floating structures at extreme low tide? ____ feet

LAS # _____

Page 4 of 12

Land Use Permit Supplemental Questionnaire for

Use of State-Owned Waters (Shorelands, Tidelands & Submerged Lands) Form 102-1084C (Rev 09/21)

Part 4. Temporary log transfer facility (LTF) including floating log storage area.

Siting of an LTF which discharges wood into the marine waters must meet the 1985 Alaska Timber Task Force siting criteria guidelines and the criteria established under the US Environmental Protection Agency's (USEPA) - National Pollutant Discharge Elimination System (NPDES) general permit and the Alaska Department of Environmental Conservation (ADEC) 401 certification.

What is the maximum length of time that you will need to use the facility? _____ years.

What will be your seasonal periods of operation? _____

What is the total timber volume you need to transfer across this LTF? _____ mmbf.

How many total acres do you need for this facility? _____ acres.

Note: This acreage must include all improvements including the anchors and lines. It must include the area required for such items as log raft construction, off-shore storage, associated barge and vessel moorage, and shore-ties.

Does the associated transfer site require a log raft building area? Yes ☐ No ☐ If yes then:

How many boom logs _____ and anchors _____ and what is the total length of boom logs _____ feet, that you need for the rafting area?

Will the log rafts ground or be moored in water at depths less than 40 feet as measured from MLLW?

Yes ☐ No ☐

What is the near shore depth _____ feet, and the offshore depth _____ feet, of the log rafting area as measured from MLLW (0.0' elevation)?

What nautical chart did you use for reference _____, please include a copy of this area of the chart with the attachments.

Will you need an associated in-water log storage area? Yes ☐ No ☐ If Yes, then answer the set of questions in the **Floating Log Storage Area section of Part 4.**

Will you need an associated log ship moorage and loading area? Yes ☐ No ☐ If yes then complete Part 1 on Pg 2.

What kind of transfer facility do you propose to operate? (i.e. A-Frame letdown, slide ramp, drive down ramp, barge ramp)
n/a

Will you be transferring logs into the marine waters?

☐ **No, logs will never be discharged into the water, they will always be transported directly onto barges.**

☐ **Yes - new facility.** The applicant must conduct a dive survey of the near shore area to document the pre-project underwater topography and habitat conditions that will be covered by the discharge of bark on to the likely one-acre zone of deposit. The initial dive survey must be done to guidelines established for bark monitoring by the USEPA and the ADEC. A written report of findings including photographic documentation must be submitted prior to review and consideration of this application.

LAS # _____

Land Use Permit Supplemental Questionnaire for

Use of State-Owned Waters (Shorelands, Tidelands & Submerged Lands) Form 102-1084C (Rev 09/21)

Part 4. (continued)

☐ **Yes - existing facility.** Include a report of the last dive survey with attachments. The applicant / operator is responsible to conduct bark monitoring dive surveys, done to the guidelines established by the USEPA and the ADEC to document the current extent of bark accumulation at the site. A written report of current monitoring findings must be submitted prior to review and consideration of this application.

Is this an existing LTF that has been fully approved and used to transport timber in the past? **Yes** ☐ **No** ☐

If Yes, then answer the following set of questions. If No, you are finished with **Part 4.**

Was the facility constructed before 1985? **Yes** ☐ **No** ☐

Is the facility currently authorized? **Yes** ☐ **No** ☐ If Yes, provide the Army Corps of Engineer's Permit Name and number (i.e. Mud Bay 43) _____ and attach a copy of it and all modifications.

What is the US EPA - NPDES authorization number? _____ Date of approval _____
and who is the authorized operator: _____

When was the facility last actively used? _____ How long was it used before? _____

How much volume was transferred? _____ mmbf

What type of log entry system is currently authorized? (i.e. A-Frame letdown, slide ramp, drive down ramp, barge ramp)
n/a

Is there a tideland survey for the site? **Yes** ☐ **No** ☐ , ATS # _____

Does the existing facility require a physical modification? **Yes** ☐ **No** ☐ If Yes, please submit your modification request to the USACE and include a copy with this application. Please briefly explain the modification.
n/a

Floating Log Storage Area

Will the storage area be inside the permit area at the log transfer facility? **Yes** ☐ **No** ☐ If No, Will there be a separate tract or tracts? **Yes** ☐ **No** ☐ If Yes, how many tracts do you need? _____ and list below the acreage of each tract.
n/a

How long do you need to use the storage area(s)? _____

How much volume will be moved thru this storage area? _____ mmbf

How many log booms and anchors and what is the total length of the log boom perimeter that will be needed for storage?

of log booms _____, # of anchors _____ total length of all log booms _____ feet.

Will you be using shore ties? **Yes** ☐ **No** ☐ If Yes, provide a copy of this permission, if No, you need to obtain and provide this.

LAS # _____

Part 4. (continued)

Will the log rafts ground or be moored in water at depths less than 40 feet as measured from MLLW?

Near shore depth _____ feet, Offshore depth _____ feet.

What nautical chart did you use for reference? _____ If possible, please include a copy with the attachments.

If the log storage area is one which has been fully approved and used to store log rafts in the past, then answer the following:

When was the site last actively used? _____ and for how long? _____

If known, how much volume was stored here? _____ mmbf

Is the facility currently authorized? **Yes** ☐ **No** ☐ If Yes, provide the Army Corps of Engineer's Permit Name and number (i.e. Mud Bay 43): _____ and attach a copy of the permit and all modifications.

What is the DNR authorization number? _____

What is the US EPA - NPDES authorization number? _____ Date of approval _____ and who is the authorized operator: _____

Has there been a recent dive survey completed? **Yes** ☐ **No** ☐ If Yes, then include a copy of this report with the attachments.

Note: The applicant may have to conduct a dive survey of the log storage area to document the underwater topography and habitat that would be covered by the bark zone of deposit or to establish current bark accumulation levels. If required due to level of use, a bark monitoring dive survey must be done to guidelines established by the US EPA and the ADEC to document the current conditions at the site.

LAS # _____

Land Use Permit Supplemental Questionnaire for

Use of State-Owned Waters (Shorelands, Tidelands & Submerged Lands) Form 102-1084C (Rev 09/21)

Part 5. Use that involves dredging, placing fill material or altering beaches.

NOTE: When altering the location of the line of mean high water on a beach by placing fill on or seaward of this line you need to be aware of the following. The line of ordinary high water (OHW) or mean high water (MHW) is the boundary where State (public) ownership of shorelands, tidelands and submerged land begins. For OHW, the boundary is the highest water level which has been maintained for a sufficient period of time to leave evidence upon the landscape, commonly that point where the natural vegetation changes from predominantly aquatic to predominantly terrestrial. For MHW, this boundary is an elevation contour on the beach and is determined by the tidal stage of MHW water elevation against the beach topography. These lines are not fixed by a past survey of the upland property if that land survey shows a meandered boundary as is typically done. A meandered boundary is intended to be dynamic and move over time; natural forces can either erode material or deposit material and as a result, the boundary can naturally move. Another natural way that boundaries can change is in tidal areas where glaciers have recently receded and the land is rebounding or uplifting over time. When any natural process is interrupted by the actions of man, such as placing material to stop erosion, the boundary line typically becomes fixed from that point on. When altering the boundary line through fill below MHW or (OHW), the upland owner will not gain ownership of the newly filled areas; these areas remain in State (public) ownership.

What is the elevation of the line of MHW at the proposed permit site? _____ feet

Are you proposing to alter the line of MHW in any manner? Yes ☐ No ☐ If Yes, explain what you intent to do.

Placing fill material on a beach.

What is the purpose of the fill?

n/a

Is there an upland survey that has established a meandered boundary line? Yes ☐ No ☐

If Yes, Survey # _____ (if a subdivision survey please provide a legible copy)

(ATS, ASLS, US Survey #)

Will heavy equipment be used below the mean high-water line to alter the beach? Yes ☐ No ☐ If Yes, explain:

n/a

How many cubic yards of fill are you proposing to place at and below the line of MHW? _____ cubic yards

What are the dimensions of fill area below MHW elevation? _____

How many linear feet along the (beach) line of MHW will be covered with fill? _____ feet

Is there more than one area along the beach which will be filled? Yes ☐ No ☐ Identify the location of each area on the development plan diagram.

LAS # _____

Part 5. (continued)

Will any of the fill material come from State owned uplands or tide and submerged lands? **Yes** ☐ **No** ☒ If Yes, then what is the source?

_____ and how many cubic yards? _____

If you are intending to limit beach fill to the area above the current line of MHW will any of the fill or associated retaining wall material including the toe of the fill or retaining wall extend beyond the line of MHW? **Yes** ☐ **No** ☐

Is the adjacent upland property encumbered with a public easement along the waterfront boundary? **Yes** ☐ **No** ☐

How will the fill affect public access along the beach?

n/a

Excavation of materials from a beach.

What is the purpose of the excavation?

n/a

How many linear feet along the beach will be affected? _____ feet

To what depth will you be excavating? _____ feet

How many cubic yards will be excavated from the area seaward of the line of MHW? _____ cubic yards and what will this excavated material be used for or where will it be disposed?

n/a

LAS # _____

Land Use Permit Supplemental Questionnaire for

Use of State-Owned Waters (Shorelands, Tidelands & Submerged Lands) Form 102-1084C (Rev 09/21)

Part 6. Dismantle, Removal, Restoration Plan - The permit will require that upon expiration, completion, or termination the site shall be vacated and all improvements and personal property removed. The site shall be left in a clean, safe condition acceptable to the Regional Manager. Your answers to the following questions will establish your proposed restoration plan.

A. Explain how you plan to dismantle and remove the improvements and restore the site to a clean, safe condition acceptable to the Regional Manager. **Note:** One acceptable alternative is returning the permit site to the condition that existed before the site was developed or used.
n/a

B. If your project involves fill describe how it will be removed and where will it be removed to. How will you document that the original line of Mean High Water has been restored? (e.g. photo documentation, resurvey)
n/a

C. If your project involves anchors and/or pilings how do you plan on removing them? Where is the nearest community that provides this type of removal equipment / service?
n/a

D. Describe the disposal method and identify the disposal site or sites for structural components, solid wastes, and hazardous wastes.
n/a
