Re: Amendment 1
RFP 26-VSW-MOU-002
Construction Management and Engineering Support Services
RFP Due Date: July 28, 2025 @ 2:00 PM AST

The following are vendor questions and the department's response:

1. Vendor: We have a question/clarification on the subject RFP please:
In the Statement of Services, Article B2 Background & Scope of Service, the first paragraph of the Scope of Service section at the bottom of the page and continuing to the next page states "...the Contractor shall provide these services for the construction of the Mountain Village Manhole Replacement Project in accordance with the attached Issued for Construction (IFC) plan set." We did not receive IFC plans in the ZendTo files; are you referring to the design that's to be produced in this scope, so it's not actually attached to the RFP? If not, may we please have a copy of the referenced IFC plans?

Department: The department does not have an IFC plan set. The following is removed from the first paragraph of Article B2 Background & Scope of Service "in accordance with the attached Issued for Construction (IFC) plan set". Yes, the selected contractor is responsible for the design in accordance with the RFP Scope of Service.
