## **QUESTIONS SUBMITTED BY VENDORS AND ANSWER FROM THE STATE**

**Question 1:** *During a site visit it was discussed that the existing well will be used to provide water. The drawings indicate a new well is being put in. Please clarify.*

**Answer 1:** The contractor will not be required to drill a well for this project.

---

**Question 2:** *At the site visit it was also mentioned by the user that it would be desirable to complete the project in stages. Can that be clarified?*

**Answer 2:** The first priority of this project is to complete the foundation and mechanical room. Other portions of the project can be completed in stages after the mechanical room is completed. It would be preferable to complete the mechanical room and foundation prior to freeze up.
