The following are vendor questions and the department's response

1. **Vendor:** We've done some calling around, and it seems most of the transport companies in the area are shutting down service/operations during this time of year. We're wondering if this project window can be extended to early spring?

Department: The timeline cannot be extended, as all work must be completed by March 31, 2026. Expedited or non-scheduled services may be required to meet this schedule.
