June 3, 2025

Department of Natural Resources Division of Mining, Land and Water State of Alaska 550 W 7<sup>th</sup> Ave, Ste 1020 Anchorage, AK 99501-3579

Subject: Request for Badami Unit Unnamed Lake 8 Water Rights

Savant Alaska, LLC (Savant) - a Glacier Oil & Gas Company, is submitting this Water Right's application Unnamed Lake 8 on the Badami Unit. Savant is requesting "Certificate of Appropriation" to replace the Amended TWUA A2023-177 Authorization for Unnamed Lake 8. This water source will be used in the Badami Unit's oil and gas exploration, development, operational, and maintenance projects (including construction of ice roads/ice pads, dust abatement, hydro-testing, drilling activities, and camp usage/supply). It is located within the Badami Unit lease boundaries and near the main pad and roads. It will be in use from November to June while Tundra Travel is open.

Enclosed please find the attached documentation:

- Amended TWUA A2023-177 Authorization
- Badami Unit Lease and ROW Agreements
- Badami Unit / Lake 8 Water Source Location Maps

If you have any questions or would like additional information, I can be contacted at (907) 433-3829 or <a href="mailto:legeluso@glacieroil.com">legeluso@glacieroil.com</a>.

Sincerely,

David Pascal

Chief Operating Officer Savant Alaska LLC

#### **INSTRUCTIONS:**

- 1. Complete one application for each water source. Incomplete applications will not be accepted.
- 2. Attach a copy of an executed deed, lease agreement, or other possessory interest document for property where water will be used (applicant must own, lease, or obtain written authorization to use water on property).
- Attach copy of legal access document (i.e. right-of-way, easement, permit) or application for legal access to water withdrawal point and transport route, if applicable, or copy of request or application for legal access to water withdrawal point.
- Attach driller's well log for drilled wells (if already drilled and available).
- 5. Attach sketch, photos, plans of water system, or project description (if applicable).
- 6. Attach legible map that includes Meridian, Township, Range, and Section lines such as a subdivision Plat, USGS topographical quadrangle, or borough tax map. Indicate location of water withdrawal, route of water transmission water use area boundary, points of water use within boundary, and point of water return flow (if applicable).
- 7. Attach copy of approved ADEC Water and Wastewater system certificate (if applicable).
- 8. Attach copy of ADF&G Fish Habitat Permit (if applicable).
- 9. Attach completed and notarized Statement of Beneficial Use of Water form and associated fee if water system and water use are fully developed.
- 10. Submit the non-refundable fee (see page 4).

# AMENDED TEMPORARY WATER USE AUTHORIZATION TWUA A2023-177

This Amended Temporary Water Use Authorization (Amended TWUA A2023-177) is issued to replace Temporary Water Use Authorization TWUA A2023-177 issued on January 2, 2024, to:

- 1. Change authorized maximum annual withdrawal from the Unnamed Lake 8 from 5,215,000 gallons of water plus additional 5,213,000 gallons ice aggregate to 10,428,000 gallons of water and/or ice aggregate per year.
- 2. Change daily withdrawal limit of liquid water from 1,000,000 gallons to 2,000,000 gallons per day.
- 3. Update name of source from "Unnamed Lake 8" to Unnamed Lake 8 (also known as "Lake B-8" in TWUA A2024-158 and "Lake #18" in TWUA A2024-169).
- 4. Remove ice aggregate withdrawal and add ice harvest prohibition for safety reasons.
- 5. Add water sharing Advisory.
- 6. Add appeals language in Review and Determination to match current version.

Pursuant to AS 46.15, as amended and the rules and regulations promulgated thereunder, permission is hereby granted to Savant Alaska LLC (authorization holder), 188 W. Northern Lights Blvd., Suite 510, Anchorage, AK 99503, and its contractors, to withdraw water and/or ice aggregate from **Unnamed Lakes 6, 8 and 18, Shaviovik Mine Site and Badami Mine Site.** See source specific water limits below. Water and ice will be used for ice road construction and maintenance, ice pads, camp uses and drilling activities from the Endicott Access Road to the Badami Central Processing Facility to the extent the activities have appropriate approvals. Most activities will begin in November and end with spring break up the following year.

# **ADVISORY**

Unnamed Lake 8 is also authorized for water withdrawal under TWUA A2024-158 to Lagniappe Alaska, LLC as "Lake B-8", under TWUA A2024-09 to Harvest Alaska LLC as "Unnamed Lake 8" and under TWUA A2024-169 for Hilcorp Alaska LLC as "Lake #18". Water sharing will be required for all users on this source. See Condition #29 of this authorization.

## SOURCES OF WATER:

Unnamed Lake 6, located within Section 9, Township 9 North, Range 19 East, Umiat Meridian. Maximum annual withdrawal of 11,080,000 gal liquid water plus additional 11,076,000 gallons ice

**aggregate with a daily limit of 1 MG liquid water.** No daily limit on ice harvest. Ice aggregate removal is limited to areas of naturally grounded ice.

Unnamed Lake 8 (aka "Lake B-8" in TWUA A2024-158 and "Lake #18" in TWUA A2024-169), located within Sections 8, 9, 16, 17, Township 9 North, Range 20 East, Umiat Meridian. Maximum annual withdrawal of 5,215,000 gal liquid water plus additional 5,213,000 gallons ice aggregate with a daily limit of 1 MG liquid water. No daily limit on ice harvest. Ice aggregate removal is limited to areas of naturally grounded ice.

Unnamed Lake 18, located within Section 13, Township 9 North, Range 19 East, Umiat Meridian and Section 18, Township 9 North, Range 20 East, Umiat Meridian. Maximum annual withdrawal of 2,330,000 gal liquid water plus additional 2,318,000 gallons ice aggregate with a daily limit of 1 MG liquid water. No daily limit on ice harvest. Ice aggregate removal is limited to areas of naturally grounded ice.

Shaviovik Mine Site, located within Section 2, Township 9 North, Range 19 East, Umiat Meridian. Maximum annual withdrawal of 21,360,000 gallons liquid water with a daily limit of 1 MG. Ice harvest is prohibited for safety reasons.

**Badami Mine Site**, located within Section 14, Township 9 North, Range 20 East, Umiat Meridian. Maximum annual withdrawal of **4,860,000 gallons liquid water with a daily limit of 1 MG.** Ice harvest is prohibited for safety reasons.

# STRUCTURES TO BE CONSTRUCTED AND USED:

Water pumps with 2-6 inch intakes and 1,200 gpm maximum capacity, hose and up to 6 water trucks with tank capacity of 13,650 gal.

Changes in the natural state of water are to be made as stated herein and for the purposes indicated. The authorization holder shall comply with the following conditions:

# CONDITIONS:

- 1) This authorization does not authorize the authorization holder to enter upon any lands until proper rights-of-way, easements, or permission documents from the appropriate landowner have been obtained.
- 2) Follow acceptable engineering standards in exercising the privileges granted herein.
- 3) Comply with all applicable laws, and any rules and/or regulations issued thereunder.
- 4) Except for claims or losses solely arising from negligence of the State, defend and indemnify the State, the State's agents, and the State's employees against and hold each of them harmless from any and all claims, demands, suits, loss, liability and expense for injury to or death of persons and damages to or loss of property arising out of or connected with the exercise of the privileges covered by this authorization.
- 5) Notify the Water Resources Section upon change of address.

- 6) The authorization holder is responsible for obtaining and complying with other permits/leases/approvals/rights of way (state, federal, or local) that may be required prior to beginning activities pursuant to this authorization.
- 7) Failure to respond to a request for additional information during the term of the authorization may result in the termination of this authorization.
- 8) The authorization holder shall allow an authorized representative of the Water Resources Section to inspect, at reasonable times, any facilities, equipment, practices, or operations regulated or required under this authorization.
- 9) This authorization, or a copy thereof, shall be kept at the site of the authorized project described herein. The authorization holder is responsible for the actions of contractors, agents, or other persons who perform work to accomplish the approved project and shall ensure that workers are familiar with the requirements of this authorization. For any activity that significantly deviates from the approved project during its siting, construction, or operation, the authorization holder is required to contact the Water Resources Section and obtain approval before beginning the activity.
- 10) The Water Resources Section may modify this authorization to include different limitations, expand monitoring requirements, evaluate impacts, or require restoration at the site.
- 11) Pursuant to AS 46.15.155(f), the Department may impose conditions or limitations on an authorization to protect the water rights of other persons or to protect fish and wildlife habitat, human health, or other public interests.
- 12) Pursuant to AS 46.15.155(i), 11 AAC 93.210(b) and 11 AAC 93.220(f), temporary authorizations are subject to amendment, modification, suspension, or revocation to supply water to lawful appropriators of record, protect the water rights of other persons or the public interest.
- 13) Any false statements or representations, in any application, record, report, plan, or other document filed or required to be maintained under this authorization, may result in the termination of this authorization.
- 14) Deviations from the project description submitted with the application which affect water amounts, operation or point of discharge or use must be approved by DNR in writing prior to implementation.
- 15) The authorization holder shall inspect the intake screen for damage (torn screen, crushed screen, screen separated from intake ends, etc.) after each use and prior to each deployment. Any damage observed must be repaired prior to use of the structure. The structure must always conform to the original design specifications while in use.
- 16) There shall be no wheeled, tracked, excavating, or other machinery or equipment (with the exception of the non-motorized screened intake and ice augurs) operated in open water below the ordinary high water line.
- 17) The suction hose at the water extraction site must be clean and free from contamination at all times to prevent introduction of contamination to the water body and should be in water of sufficient depth so that sediments are not disturbed during the water extraction process.
- 18) All equipment used at or adjacent to water bodies must always be clean and free from contamination and invasive species (terrestrial and aquatic) to prevent the introduction of contamination and invasive species to the water body.

- 19) In-water activity will be limited to placement and removal of the intake structure only. No other inwater activities will occur.
- 20) Water bodies shall not be altered to facilitate water withdrawal or disturbed in any way. If banks, shores, or beds are inadvertently disturbed, excavated, compacted, or filled by activities attributable to this project, they shall be immediately stabilized to prevent erosion and resultant sedimentation of water body which could occur both during and after operations. Any disturbed areas shall be recontoured and revegetated with native vegetation. The DNR-Water Resources Section is to be notified immediately if the above occurs. Additional corrective action may be required by DNR, the land manager/owner or other agencies.
- 21) Operations shall be conducted in such a way as to prevent any petroleum products or other hazardous substances from contaminating surface or ground water. Pumps will not be fueled or serviced within 100 feet of a pond, lake, stream, or river unless the pumps are situated within a catch basin designed to contain any spills. Vehicles will not be fueled or serviced within 100 feet of a pond, lake, stream or river. In case of accidental spills, absorbent pads shall be readily available at the water collection point. Appropriate disposal methods for waste products shall be followed.
- 22) Operations shall not cause or contribute to the spread of preexisting or authorization holder caused contaminate plumes. All spills and contamination encountered or known must be immediately reported to the Alaska Department of Environmental Conservation (ADEC) and the Alaska Department of Natural Resources (DNR). Authorization holder shall cooperate with lawful prohibitions, restrictions, instructions, stop work orders or work plan requirements issued by ADEC for authorization holder's projects.
- 23) Water discharge (including runoff) shall not be discharged at a rate or location resulting in sedimentation, erosion, flooding or other disruptions to the bed or banks of water bodies, causing water quality degradation.
- 24) Any water intake structure in fish bearing waters (including a screened enclosure, well-point, sump or infiltration gallery) must be designed, operated and maintained to prevent fish entrapment, entrainment or injury, unless specifically exempted by the Alaska Department of Fish and Game, Habitat Division.
- 25) The authorization holder shall inspect the intake screen for damage (torn screen, crushed screen, screen separated from intake ends, etc.) after each use and prior to each deployment. Any damage observed must be repaired prior to use of the structure. The structure must always conform to the original design specifications while in use.
- 26) Adequate flow and water levels must remain to support indigenous aquatic life and provide for the efficient passage and movement of fish.
- 27) Any suction hose used should be in water of sufficient depth so that sediments are not disturbed during any water extraction process.
- 28) Monitoring and reporting of water withdrawal shall begin when the water withdrawal starts. Monitor water use monthly and submit reports to this office quarterly. Electronic copies shall be forwarded to <a href="mailto:dnr.water.reports@alaska.gov">dnr.water.reports@alaska.gov</a>. Reports shall specify water/ice withdrawal for each water source.

- 29) The authorization holder shall coordinate water withdrawals with *ALL* other companies that may be withdrawing water/ice from the same source to ensure that the maximum permittable water withdrawal volume is not exceeded for any source. Written documentation of coordination/sharing agreement shall be submitted from the authorization holder and received by this office within 45 days of noting use by another company.
- 30) Monitor water withdrawals for each day of actual use for each authorized water source and when withdrawals for each authorized water source reach 90% of the authorized withdrawal limit for that water source submit this information to this office prior to the initiation of any further withdrawals from the respective water source. Please send electronic copies to <a href="Jessica.miller@alaska.gov">Jessica.miller@alaska.gov</a>.
- 31) Per 11 AAC 05.260 (e), an annual administrative service fee shall be assessed on this authorization.

This Temporary Water Use Authorization is issued pursuant to 11 AAC 93.220. No water right or priority is established by a temporary water use authorization issued pursuant to 11 AAC 93.220. Water so used is subject to appropriation by others.

Pursuant to 11 AAC 93.210 (b), authorized temporary water use is subject to amendment, modification, or revocation by the Department of Natural Resources if the Department of Natural Resources determines that amendment, modification, or revocation is necessary to supply water to lawful appropriators of record or to protect the public interest.

This amended authorization supersedes the authorization issued January 2nd, 2024.

This authorization shall expire on January 1st, 2029.

Date: <u>January 24, 2025</u>
