

Scope Of Work

IH 26-003 -SPC- Fairbanks Hunter Education and Indoor Shooting Range Exterior Painting

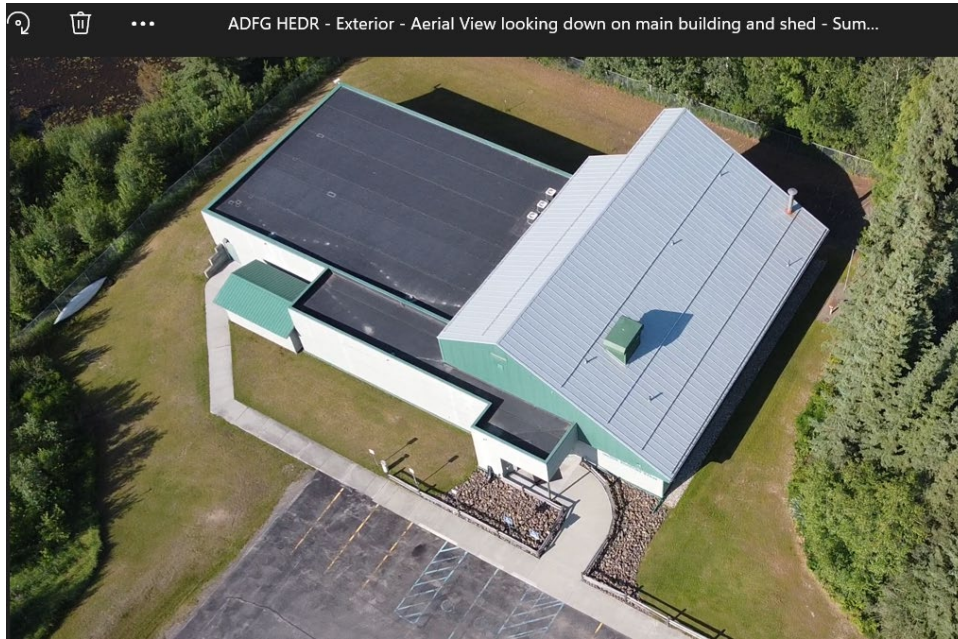

Exterior Painting of Range Building, Wooden Shed, and Bullet Trap Door

1501 College Road Fairbanks, AK

Scope of Work –

- Mask off the building front entrance sign (lettering).
- Clean, prep metal post at front entrance for repainting and then repaint with color matched paint suitable for exterior post.
- Pressure wash and prep wood siding as needed to insure proper paint adhesion.
- Mask off doors, windows, and any other areas necessary to prevent overspray.
- Paint exterior wood portion of the building and the wooden storage shed next to the SE corner of the building.
- Clean, prep metal outer door and frame of bullet trap door for repainting and then repaint with color matched paint suitable for exterior door.
- Apply a minimum of 2 coats of paint, back rolling after each coat.
- Use exterior acrylic flat latex paint color matched to existing building for the wood siding. (Color will be provided from previous paint purchase).
- Re-install or remove masking and clean the building front entrance sign (lettering).
- Clean up site and haul off all trash.
- Work window is Summer 2026 (May-June).
- Work needs to be performed so that regular facility operations can continue unimpeded.
- Complete work prior to June 30, 2026.
- Exterior of Facility can be viewed at any time at 1501 College Road.
- Coordinate site visit with John Wyman, ADF&G, 907-459-7292 (office) / 907-590-8776 (mobile), john.wyman@alaska.gov
