**DRAFT ADMINISTRATIVE FINDING  
MINERAL ORDER MO 1268  
Closing Lands to Mineral Entry**

**ALEXANDER CREEK ODD LOT SUBDIVISION**

Pursuant to AS 38.05.035 Powers and Duties of the Director, the State of Alaska, Department of Natural Resources, Division of Mining, Land, and Water proposes to issue a Final Finding and Decision to convey State-owned land into private ownership within the Alexander Creek Odd Lot project area (ADL 232474). As noted in the Preliminary Decision – Proposed Land Offering Alexander Creek Odd Lot Subdivision – ADL 232474, issued February 18, 2026, the project area is designated Settlement within unit M-18 of the Susitna Matanuska Area Plan. In accordance with the area plan, DMLW proposes to close the entire project area to mineral entry. The attached mineral order includes the legal description of area to be closed to mineral entry.

The Division of Mining, Land, and Water requests the mineral estate of approximately 4.99 acres, identified in the attached mineral order, be closed to mineral entry and location, in accordance with AS 38.05.300 Classification of Land for a land disposal. Mining activity on the project area would be incompatible with the current and proposed land estate uses. The land does not contain any known mineral deposits and was not selected for mineral values. There are no mining claims on the land.

Public notice of the comment period for the proposed mineral order is being conducted in accordance with AS 38.05.945 Notice. Review of comments will be addressed in the final document.

In accordance with AS 38.05.185(a) Generally and AS 38.05.300 Classification of Land, I find that the best interests of the State of Alaska and its residents are served by closure of the land to entry under the mineral location and mining laws of the State of Alaska as described by Mineral Order MO 1268.
