MATERIAL SALE APPLICATION

AS 38.05.550-565; AS 38.05.810(a)

ADL # 422215

Applicant's Name: Heritage Rock & Services Doing business as: _____

Mailing address: HC6 Box 4830 Email address: fabian@heritagerock.us

City/State/Zip: Delta Jct., Alaska 99737

Message Phone: 907-803-5154 Work Phone: 907-895-9889 Fax: _____

Location of material site Designated material site ADL # 422215 ADOT/PF MS# _____ Other

Legal description: Pogo MS 7 located at MP 9.3 of Pogo Access Road

Meridian Fairbanks Township 7 South, Range 9 East, Section 14 & 15 1/4 1/4

Municipality _____ Approximate size of the material site in acres 39

Applicant is at least 18 years old: Yes No

Quantity of material desired (cubic yards): 35,000

Length of time requested for removal: 5 years

When is the extraction operation proposed to begin? April, 2026 End? 2031

For what purpose will the material be used? Pogo Access Road Improvements and maintenance

Are there any existing permits, leases or authorizations covering any part of the application site: Yes No.

If yes, state name and last known address of lessee permittee authorized user:

Name	Message phone	Work phone
Address	City	State Zip

Describe the proposed method of excavation, including the type of equipment to be used:
 Push material with dozer and load with excavators and or loaders

Describe the type of material to be extracted (e.g., coarse, un-sized angular rocks; well-sorted and sized gravel; sand and gravel mixed with some shale; class of rip rap; ballast).

Coarse Gravel

How many cubic yards do you propose to extract per month? _____ per year? 25,000

Is material site area located within or immediately adjacent to a waterbody? Yes No.

Note: If extraction will occur on state submerged land, shoreland, or tideland you **must** fill out and sign a “Material Sales Supplemental Questionnaire for State Submerged Land, Shoreland, or Tideland Activities.” The completed supplemental questionnaire will become part of your application.

Is your mining operation contemplating the use of explosives or blasting? Yes No.

Note: If extraction will involve use of explosives, you **must** fill out and sign a “Material Sales Supplemental Questionnaire for use of Explosives.” The completed supplemental questionnaire will become part of your application.

If permits are required by other agencies, have they been applied for? Yes No.

NOTICE: If the proposed material sale is intended to be used for commercial purposes, please include a copy of your business license authorizing you to do business in the State of Alaska. This application will not be considered complete unless accompanied by a sketch map sufficiently detailed to enable the Division of Mining, Land and Water to locate the application site. If the Division of Mining, Land and Water considers it necessary, the applicant may be required to submit a more detailed map or survey plat.

In submitting this form, the applicant certifies that he or she has not changed the original text of the form or any attached documents provided by the Division.

NOTICE: AS 38.05.035(a) authorizes the director to decide what information is needed to process an application for the sale or use of state land and resources. This information is made a part of the state public land records and becomes public information under AS 40.25.110 and 40.25.120, unless the information qualifies for confidentiality under AS 38.05.035(a)(8) and confidentiality is requested, or qualifies for confidentiality AS 43.05.230, AS 45.48, or other state or federal laws. Public information is open to inspection by you or any member of the public. A person who is the subject of the personal information may challenge its accuracy or completeness under AS 40.25.310, by giving a written description of the challenged information, the changes needed to correct it, and a name and address where the person can be reached. False statements made in an application for a benefit are punishable under AS 11.56.210. In submitting this form, the applicant agrees with the Department to use “electronic” means to conduct “transactions” (as those terms are used in the Uniform Electronic Transactions Act, AS 09.80.010 – AS 09.80.195) that relate to this form and that the Department need not retain the original paper form of this record: the Department may retain this record as an electronic record and destroy the original.

A non-refundable filing fee may be required to complete application submittal: See current Director’s Fee Order for applicable fees.

APPLICANT ENVIRONMENTAL RISK QUESTIONNAIRE

ADL # _____ (assigned by DNR) Date February 16, 2026

Applicant (should match business license) Heritage Rock & Services

Mailing Address HC60 Box 4830

City/State/Zip Delta Jct., AK 99737 Email fabian@heritagerock.us

Primary Phone 907-895-9889 Secondary Phone _____

Does the applicant have a current Alaska business license? Yes No License # 1018444

Type of license (partnership, LLC, corporation, etc.)? _____

Describe the proposed use of and activity on the state land:

Mine up to 35,000 cubic yards of shot rock by means of pushing and ripping with a dozer and excavator. Will also be loading material into side dumps and or belly dumps and dumptrucks with loaders and or excavators

In the course of your proposed activity will you generate, use, store, transport, dispose of, or otherwise come in contact with toxic and/or hazardous materials, and/or hydrocarbons? Yes No. If yes, please list the substances and the associated quantities. Use a separate sheet of paper if necessary.

ADL # _____

If the proposed activities involve any storage tanks, either above or below ground, address the following questions for each tank. Please use a separate sheet of paper, if necessary, and, where appropriate, include maps or plats:

a) Where will the tank be located?

b) What will be stored in the tank?

c) What will the tank's size be in gallons?

d) What will the tank be used for? (Commercial or residential purposes?)

e) Will the tank be tested for leaks? Yes No

f) Will the tank be equipped with secondary containment? Yes No. If yes, describe:

g) Will the tank be equipped with leak detection devices? Yes No. If yes, describe:

Do you know or have any reason to suspect that the site may have been previously contaminated? Yes No.

If yes, please explain:

I certify that due diligence has been exercised and proper inquiries made in completing this questionnaire, and that the foregoing is true and correct to the best of my knowledge.

ADL # _____

Applicant Environmental Risk Questionnaire Form (LCS - Rev. 08/25)

2. **LEGAL DESCRIPTION OF PROPOSED MINING SITE**

Section 14 & 15	T7S	R9E	FM
Legal Subdivision/Section/Quarter-Section	Township	Range	Meridian

3. **DESCRIPTION OF THE MINING OPERATION** (if you checked box a or b on p. 1 of this form and are proposing a multi-year reclamation plan, attach separate sheets as needed showing acreage to be mined, volume to be mined, and existing acreage of mined area for each year covered by the plan)

- a. <1 acre Total acreage to be mined or disturbed during the year.
- b. 35,000CY Estimated total volume to be mined or disturbed, including overburden.
- c. Shot rock/gravels Type of material (sand, gravel, peat, etc.).
- d. approx 39 Existing acreage of mined area (disturbed area that has not yet been reclaimed, but counting only acreage disturbed after October 15, 1991).

4. **DESCRIPTION OF THE RECLAMATION OPERATION**

- a. The total acreage that will be reclaimed during the year (or each year, if for a multi-year reclamation plan) is:

- b. Provide a list of equipment (type and quantity) to be used during the reclamation operation.
- c. A time schedule of reclamation measures shall be included as part of the plan.

The following measures must be considered in preparing and implementing the reclamation plan. Please mark those measures appropriate to your reclamation activity:

- Topsoil that is not promptly redistributed to an area being reclaimed will be separated and stockpiled for future use. This material will be protected from erosion and contamination by acidic or toxic materials and preserved in a condition suitable for later use.
- The area will be backfilled, graded and recontoured using strippings, overburden, and topsoil to a condition that allows for the reestablishment of renewable resources on the site within a reasonable period of time. It will be stabilized to a condition that will allow sufficient moisture to be retained for natural revegetation.
- Stockpiled topsoil will be spread over the reclaimed area to promote natural plant growth that can reasonably be expected to revegetate the area within five years.
- Stream channel diversions will be relocated to a stable location in the flood plain.
- Exploration trenches or pits will be backfilled. Brush piles, vegetation, topsoil, and other organics will be spread on the backfilled surface to inhibit erosion and promote natural revegetation.
- All buildings and structures constructed, used, or improved on land owned by the State of Alaska will be removed, dismantled, or otherwise properly disposed of at the completion of the mining operation.
- Any roads, airstrips or other facilities constructed to provide access to the mining operation shall be reclaimed (unless otherwise authorized) and included in the reclamation plan.
- Peat and topsoil mine operations shall ensure a minimum of two inches of suitable growing medium is left or replaced on the site upon completion of the reclamation activity.
- If extraction occurs within a flood plain, the reclamation activity shall reestablish a stable bed and bank profile such that river currents will not be altered and erosion and deposition patterns will not change.

NOTE: If you propose to use reclamation measures other than those shown above, or if the private landowner or public land manager of the site requires you to use stricter reclamation measures than those shown above, attach a list of those measures to this plan.

5. ALTERNATE POST-MINING LAND USE

- The mining site is public land. The land management agency's land use plan (if any) for post-mining land use is:

The mining site is public land. As allowed by AS 27.19.030(b), I propose to reclaim it to the following post-mining land use:

-
- The mining site is private property. The private landowner plans to use it for the following post-mining land use:
-

6. ATTACHMENTS

- If the mining operation has additional owners, operators, or leaseholders not shown on p. 1 of this form, attach a list of their names, addresses, and telephone numbers.
- Attach a USGS map at a scale no smaller than 1:63,360 (inch to the mile) showing the general vicinity of the mining operation and the specific property to be mined. Option: If you checked Box C on the first page of this form and the mining site is adjacent to an airport or public highway, state the name of the airport or the name and milepost of the public highway.
- Attach a diagram of the mined area (this term includes the extraction site, stockpile sites, overburden disposal sites, stream diversions, settling ponds, etc.) and the mining operation as a whole (this term includes the roads you plan to build, your power lines, support facilities, etc.). Show and state the number of acres to be mined during the year. (If you checked Box A or B on the first page of this form and your plan covers more than one year, show each year's work.) Show the location corners or property boundaries of the site in relation to the reclamation work and any other areas affected by the operation.
- Attach a list of the equipment (type and quantity) to be used during the reclamation activity.
- A time schedule of events must be attached that includes dates and activities related to this reclamation plan.
- If the site is private land not owned by the miner, attach a signed, notarized statement from the landowner indicating the landowner's consent to the operation. The landowner may also use the consent statement to notify the department that the landowner plans a post-mining land use incompatible with natural revegetation and therefore believes that reclamation to the standard of AS 27.19.020 is not feasible.
- For those miners that are required to file an annual reclamation statement, attach photographs and/or videotapes dated and described as to location of the reclamation activity that was completed.
- If you propose to use reclamation measures other than those listed on this form, or if the private landowner or public land manager of the site requires you to use stricter reclamation measures, attach a list of those measures.

7. **RECLAMATION BONDING** (REQUIRED **ONLY** IF YOU CHECKED BOX A or B ON THE FIRST PAGE OF THIS FORM)

The total acreage of my mining operation that is subject to the bonding requirement for the current year is _____ acres (add acreages stated in Section 3(a) and 3(d) of this form).

The per-acre bond amount is \$750/acre or a total bond amount of \$_____

Please check the appropriate bonding method that you will apply toward this reclamation plan:

- Participation in the statewide bonding pool.
- Posting a corporate surety bond.
- Posting a personal bond accompanied by a letter of credit, certificate of deposit, or a deposit of cash or gold.
- Posting a bond or financial guarantee with another government agency that has jurisdiction over the mining operation, as allowed by a cooperative management agreement between that agency and the Division of Mining, Land and Water.
- Posting a general performance bond with a state agency that meets the requirements of 11 AAC 97.400(4).

The above reclamation plan/letter of intent and all attachments are correct and complete to the best of my knowledge.

Signature of Miner

2/16/26

Date

AS 27.19.030 and AS 27.19.050 require a miner either to file a reclamation plan for approval or to file a letter of intent followed by an annual reclamation statement. AS 38.05.035(a) authorizes the director to decide what information is needed to process an application for the sale or use of state land and resources. This information is made a part of the state public land records and becomes public information under AS 40.25.110 and 40.25.120 (unless the information qualifies for confidentiality under AS 38.05.035(a)(8) and confidentiality is requested, AS 43.05.230, or AS 45.48). Public information is open to inspection by you or any member of the public. A person who is the subject of the information may challenge its accuracy or completeness under AS 44.99.310, by giving a written description of the challenged information, the changes needed to correct it, and a name and address where the person can be reached. False statements made in an application for a benefit are punishable under AS 11.56.210. In submitting this form, the applicant agrees with the Department to use "electronic" means to conduct "transactions" (as those terms are used in the Uniform Electronic Transactions Act, AS 09.80.010 – AS 09.80.195) that relate to this form and that the Department need not retain the original paper form of this record: the department may retain this record as an electronic record and destroy the original. In submitting this form, the applicant certifies that he or she has not changed the original text of the form or any attached documents provided by the Division.

8. **ANNUAL RECLAMATION STATEMENT—REQUIRED** IF YOU FILED A LETTER OF INTENT (CHECKED BOX C ON THE FIRST PAGE) FOR THIS OPERATION. DUE DATE: DECEMBER 31, 2026. YOU MUST FILE EVEN IF THE MINING DESCRIBED IN YOUR LETTER OF INTENT DID NOT TAKE PLACE.

This 2026 annual reclamation statement is for:
(year)

- a. under 1 acre Total acreage mined.
- b. _____ Total volume mined or disturbed, including overburden.
- c. _____ Total acreage reclaimed.
- d. _____ Cumulative total of unreclaimed acreage.
- e. Reclamation measures that were used (check appropriate measures from Section 4, DESCRIPTION OF THE RECLAMATION OPERATION, and attach list of additional or stricter measures if applicable).

The above annual reclamation statement and all attachments are correct and complete to the best of my knowledge.
