Subject: Pesticide Permit Application for Campbell Lake Aquatic Weed Control

Dear Mr. Jepsen,

On February 27, 2026, the Alaska Department of Environmental Conservation received a pesticide permit application for use of herbicide to control aquatic weeds growing in Campbell Lake in Anchorage, Alaska. At this time, the Pesticide Control Program does not need any additional information in order to evaluate the application.

You may proceed with public notice for the 30 day public comment period. Required public notice text is enclosed. Public notice must be published for two consecutive issues in the Anchorage Daily News.

Please note that the end of the public comment period is determined based on the publication dates. You will need to fill in the correct date in the highlighted portion of the enclosed public notice text. **Please inform me of the scheduled publication dates, providing a minimum of three days' advance notice**, so that I can arrange for our website posting simultaneously, as required.

Please contact me by e-mail at Karin.Hendrickson@alaska.gov with any questions.

Sincerely,

A handwritten signature in black ink that reads "Karin Hendrickson".

**NOTICE OF APPLICATION FOR
PERMIT TO APPLY PESTICIDES**

Campbell Lake Owners, Inc. has applied to the Alaska Department of Environmental Conservation (DEC) for a permit to apply pesticides to nuisance aquatic plants growing in Campbell Lake in Anchorage, Alaska.

The following project is proposed and is being reviewed by the appropriate regulatory programs. DEC requests comments from the public regarding the permit application. Copies of the application are available on-line or upon request.

PROJECT NAME: 202 Campbell Lake Aquatic Weed Pesticide Use Permit.

WRITTEN COMMENTS: Comments must be received no later than 11:59 p.m. Alaska Standard Time on << APPLICANT must fill in date - 30 days after date of **second** publication>>, 2026. To ensure that your comments are considered in relation to this application, please include the project name at the beginning of your comment. To be considered, comments must be submitted online to DEC at <https://dec.alaska.gov/comment/> or in writing to DEC:

Rebecca Colvin
Department of Environmental Conservation Pesticide Program

Fax: 907-269-7510
Email: Rebecca.colvin@alaska.gov

PROJECT SUMMARY AND LOCATION: Campbell Lake Owners, Inc. has applied to the Alaska Department of Environmental Conservation (DEC) for a permit to apply pesticides to nuisance aquatic plants growing in Campbell Lake in Anchorage, Alaska.

The proposed pesticides are Littora, with EPA registration number 67690-53, or Reward, with EPA registration number 100-1091. Both products have active ingredient diquat dibromide, and both will be applied via subsurface trailing hoses from a boat.

Treatment would occur between June 1 and August 30 throughout the duration of the permit.

PROJECT NEED: Excessive growth of nuisance aquatic vegetation creates a safety hazard for float planes, as vegetation can become tangled in the float rudders and interfere with pilots' ability to steer their aircraft during taxi, takeoff, and landings. Manual and mechanical control methods are ineffective for these aquatic plants.

PERMIT APPLICANT:

John Scott Jepsen, Board President
Campbell Lake Owners, Inc. c/o Hoffman & Associates
7926 Old Seward Hwy, Unit B4
Anchorage, AK 99518
