PUBLIC NOTICE

Requesting Input on a Proposed Relinquishment of State Entitlement Lands

Comment Period Ends 3:00 PM, April 21, 2026

The Department of Natural Resources (DNR) is proposing to relinquish the State of Alaska's (State) entitlement land selection for fee estate (all surface and subsurface interests) on approximately 613 acres, approximately 1 mile southeast of Slana, 53 miles southwest of Tok, and 65 miles northeast of Glenallen, Alaska, and encompassed by the University of Alaska's Slana selection. The lands are situated on the Nabesna Road and the Slana River, near its confluence with the Copper River and Rufus Creek. A location map is attached to this notice. The lands are not currently owned by the State, they are under Federal management and ownership. The purpose of relinquishment is to facilitate conveyance of the lands to the University of Alaska.

The Consolidate Appropriations Act for Fiscal Year 2023 (CAA) (Pub. L. 117-328) created a mechanism for the Bureau of Land Management (BLM) to convey Alaska Statehood Act lands to the University of Alaska (University). The CAA enabled the University to select up to 500,000 acres of State lands for possible acquisition, with a final conveyance of up to 360,000 acres. The State must concur with the final list of selected lands and submit conditional selection relinquishment letters to BLM. The program terminates on December 29, 2026.

More information about the CAA and University selections can be found here: <https://www.alaska.edu/ualand/about/land-grant/>

Alaska Statute (AS) 38.05.035 allows for disposals of interests in state lands, and AS 38.05.945 provides procedures for notice of those disposals.
