SECTION 1. INTRODUCTION & INSTRUCTIONS

SEC. 1.01 PURPOSE OF THE RFP

The Department of Natural Resources, Division of Agriculture is soliciting proposals for a Contractor to design and deliver a grain drying and storage system. The Alaska Plant Materials Center (PMC) is in need of a grain drying and storage system for its foundation level small grain production such as barley, oats, wheat, and rye. This system shall also be designed for separation of multiple small grain varieties. Additionally, the system needs to be designed for fast and easy cleanout of the conveyance, storage, and drying systems. The PMC will not be requiring installation of this system.

SEC. 1.02 BUDGET

Department of Natural Resources, Division of Agriculture estimates a budget of **\$315,000.00** dollars for completion of this project. Proposals priced at more than **\$315,000.00** will be considered non-responsive.

Approval or continuation of a contract resulting from this RFP is contingent upon legislative appropriation.

SEC. 1.03 DEADLINE FOR RECEIPT OF PROPOSALS

Proposals must be received no later than **2:00 PM** Alaska Time on **May 08, 2026**, as indicated by postmark or email timestamp and late proposals will not be considered.

SEC. 1.04 MINIMUM REQUIREMENTS

In order for offers to be considered responsive offerors must meet these minimum requirements:

- The offeror must not have had a contract terminated for cause by the State within the last three years.
- The vendor's proposed price must be under \$315,000.00 or they will be considered non-responsive.

Offerors must detail in their proposal how they meet the minimum requirements identified in Section 1.04. An offeror's failure to meet these minimum requirements will cause their proposal to be considered non-responsive and rejected.

SEC. 1.05 REQUIRED REVIEW

Offerors should carefully review this solicitation for defects and questionable or objectionable material. Comments concerning defects and questionable or objectionable material should be made in writing and received by the procurement officer at least ten days before the deadline for receipt of proposals. This will allow time for the issuance of any necessary amendments. It will also help prevent the opening of a defective proposal and exposure of offeror's proposals upon which award could not be made.

SEC. 1.06 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF PROPOSALS

All questions must be in writing and directed to the Procurement Officer. The interested party must confirm telephone conversations in writing.

Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the RFP. These questions may be answered over the telephone. Other questions may be more complex and may require a written addendum to the RFP. The Procurement Officer will make that decision.

Deadline to receive questions is no later than **2:00 PM** Alaska Time on **April 29, 2026**.

PROCUREMENT OFFICER: **LILLY K. CONDUCTY**; PHONE 1 (907) 269-0998; TDD 711 (Alaska Relay); EMAIL: lilly.conducty@alaska.gov.

SEC. 1.07 RETURN INSTRUCTIONS

If submitting a proposal via email, the technical proposal and cost proposal must be saved as separate PDF documents and emailed to lilly.conducty@alaska.gov as separate, clearly labeled attachments, such as “Vendor A – Technical Proposal.pdf” and “Vendor A – Cost Proposal.pdf” (Vendor A is the name of the offeror). The email must contain the RFP number in the subject line.

The **maximum** size of a single email (including all text and attachments) that can be received by the State is **20 megabytes**. If the email containing the proposal exceeds this size, the proposal must be sent in multiple emails that are each less than 20 megabytes, and each email must comply with the requirements described above.

Please note that email transmission is not instantaneous. Similar to sending a hard copy proposal, if you are emailing your proposal, the State recommends sending it ahead of time to ensure the email is delivered by the deadline for receipt of proposals.

If submitting proposals using U.S. mail, or delivery service, offerors must submit one hard copy of their proposal, in writing, to the procurement officer in a sealed package. The cost proposal included in the package must be sealed separately from the rest of the proposal and must be clearly identified. The sealed proposal package(s) must be addressed as follows:

Enrollment can be done online at the following link: <https://iris-vss.alaska.gov>. Offerors who are not enrolled prior to the award of a contract will be notified by DNR Procurement. Amendments to or withdrawals of proposals will only be allowed if acceptable requests are received prior to the deadline that is set for receipt of proposals. No amendments or withdrawals will be accepted after the deadline unless they are in response to the state's request in accordance with 2 AAC 12.290.

SEC. 1.11 AMENDMENTS TO THE RFP

If an amendment is issued before the deadline for receipt of proposals, the amendment will be posted on the State of Alaska Online Public Notice (OPN) website. The link to the posting of the amendment will be provided to all who were notified of the RFP and to those who have registered with the procurement officer after receiving the RFP from the OPN.

After receipt of proposals, if there is a need for any substantial clarification or material change in the RFP, an amendment will be issued. The amendment will incorporate the clarification or change, and a new date and time established for new or amended proposals. Evaluations may be adjusted as a result of receiving new or amended proposals.

SECTION 2. BACKGROUND INFORMATION

SEC. 2.01 BACKGROUND INFORMATION

Currently the PMC has very limited grain storage and drying capabilities. In order for foundation seed to be bulked up to higher capacities a larger drying and storage system is required. The PMC produces and maintains foundation level grains which it sells to commercial seed growers. The PMC grows up to six grain varieties each year depending on market demands. These Alaskan varieties are scaled up from several hundred pounds to several hundred bushels. Due to Alaska's extreme climate this grain needs to be dried first in a batch or continuous flow drier to bring moisture levels down from roughly 22% to 15%. Once the grain is below at 15% moisture or lower it will then need to be conveyed to the PMC's large cleaning line. Ideally, the conveyance of this grain would be fed by an auger or similar from the grain dryer or holding bin, directly into the start of the cleaning line. The least amount of handling and conveyance should be considered when designing this system. All conveyance within this system needs to be easy to clean out as many types (Barley, Wheat, Oat, Rye), varieties of grain will be run through this system during the fall. After the seed is cleaned it will be loaded into a gravity wagon or similar. This gravity wagon will need to be unloaded into long term storage bins to be located onsite. Again, the conveyance from the wagon to the storage bins, between bins, and the output auger of the bins themselves must have easy cleanout points so that different types and/or varieties of grain do not become cross contaminated. Once the bins are loaded, grain will need to be dried until moisture levels reach 10-12% for long term storage. Additionally, a moisture monitoring system will need to be added to monitor each bin throughout the winter or until the seed is removed for sale and or planting.

The system should be designed to reduce the overall handling/conveyance of the grain from the field, through the dryer, seed cleaning line, and finally into storage. Improved handling efficiencies will reduce time, energy, and seed damage. Alaska's extreme weather conditions should also be taken into consideration. Weather factors such as high winds, heavy snow loads, ice damming, and seismic events will have to be accounted for when designing this system.

SECTION 3. SCOPE OF WORK & CONTRACT INFORMATION

SEC. 3.01 SCOPE OF WORK

The Department of Natural Resources, Division of Agriculture is soliciting proposals for a Contractor to design and deliver a grain drying and storage system at the Plant Material Center located at 5310 S Bodenbug Spur, Palmer, Alaska 99645. The design plans for the grain drying and storage system will need to be reviewed and approved by DNR project manager.

The dimensions of the grain drying and storage system must be:

- Wet Bin/Holding Bin Maximum bin Height -30 feet, Maximum bin Diameter-15 feet.
- Long term storage Bin Maximum bin Height – 30 feet, Maximum bin Diameter 12 feet.
- Maximum area for the grain drying and storage system is 100' x 50' (concrete pad).
- Long-term storage bins should have a capacity of 800 -1200 bushel per bin and need a minimum of 3 bins. System needs to be designed to be expanded in the future to incorporate more bins.
- Add a separate wet bin and continuous flow or batch dryer to the system with a drying capacity of at least 200 bushel an hour or more. Dryer will need to be capable of reducing high moisture grain of roughly 22% moisture to 15% moisture.
- Add necessary conveyance from dryer or holding bin to the PMC seed house to the start of commercial seed cleaning line.
- Add necessary conveyance from dryer or holding bin to each long-term storage bin.
- Add the necessary conveyance to move grain in and out of each long-term storage bin.
- Add a remote monitoring system for each bin for long-term storage surveillance.
- Price needs to include all equipment, shipping, and unloading of equipment at/to the Alaska Plant Materials Center.
- DNR Plant Materials center will install a concrete slab to support grain drying/storage system via a separate procurement.
- The contractor must design a multi bin storage and drying system of a minimum of 3 individual grain bins. However, system must be designed to add additional bins (up to six) at a later date.
- Each storage bin must hold 800- 1000 bushels and have drying capabilities heat/air for each bin.
- The batch or continuous flow drier must be included and be able to quickly reduce high moisture levels in grain being harvested during Alaska's cool wet fall. Moisture levels post-harvest are typically between 18-22% moisture.

- G. that the offers will remain open and valid for at least 90 days.

If any offeror fails to comply with [A] through [G] of this paragraph, the state reserves the right to disregard the proposal, terminate the contract, or consider the Contractor in default.

A valid Vendor Tax ID must be submitted to the issuing office with the proposal or within five days of the state's request.

(d) CONFLICT OF INTEREST

Each proposal shall include a statement indicating whether or not the firm or any individuals working on the contract has a possible conflict of interest (e.g., currently employed by the State of Alaska or formerly employed by the State of Alaska within the past two years) and, if so, the nature of that conflict. The procurement officer reserves the right to **consider a proposal non-responsive and reject it** or cancel the award if any interest disclosed from any source could either give the appearance of a conflict or cause speculation as to the objectivity of the contract to be performed by the offeror.

(e) FEDERAL REQUIREMENTS

The offeror must identify all known federal requirements that apply to the proposal, the evaluation, or the contract.

SEC. 4.03 EXPERIENCE AND QUALIFICATIONS

Offerors must provide an organizational chart specific to the personnel assigned to accomplish the work called for in this RFP; illustrate the lines of authority; designate the individual responsible and accountable for the completion of each component and deliverable of the RFP.

Offerors must provide a narrative description of the organization of the project team and a personnel roster that identifies each person who will actually work on the contract and provide the following information about each person listed:

- title,
- resume,
- location(s) where work will be performed.

SEC. 4.04 UNDERSTANDING OF THE PROJECT

Offerors must provide comprehensive narrative statements that illustrate their understanding of the requirements of the project and the project schedule.

SEC. 4.05 PROJECT SCHEDULE, DELIVERY, AND ASSEMBLY OF EQUIPMENT

Offerors must provide comprehensive narrative on how they intend to meet the projects goals and meet the states schedule.

SEC. 4.06 PROJECT DESIGN AND LAYOUT

SEC. 4.07 COST PROPOSAL

Proposed costs must include all direct and indirect costs associated with the performance of the contract, including, but not limited to, total number of hours at various hourly rates, direct expenses, payroll, supplies, overhead assigned to each person working on the project, percentage of each person's time devoted to the project, and profit. The costs identified on the cost proposal are the total amount of costs to be paid by the state. No additional charges shall be allowed.

SEC. 4.08 BID BOND – PERFORMANCE BOND – SURETY DEPOSIT

Not applicable to this RFP.

SEC. 4.09 EVALUATION CRITERIA

All proposals will be reviewed to determine if they are responsive. Proposals determined to be responsive will be evaluated using the criterion that is set out in **SECTION 5. EVALUATION CRITERIA AND CONTRACTOR SELECTION.**

Proposal Submittal Checklist [see section 7.01 (Attachments) for forms]:

- 1) Submittal Form – Offeror Information (required to be completed by offeror)
- 2) Cost Proposal Form (required to be completed by offeror)
- 3) Alaska Bidder Certification Form (completed by offeror if applicable)
- 4) Federal Debarment Certification Form (required to be completed by offeror)
- 5) Drugfree Workplace Certification Form (required to be completed by offeror)

Attachments 1, 2, 4, and 5 are required to be submitted with your proposal. If claiming the Alaska Bidder Preference, then Attachments 1, 2, 3, 4, and 5 will need to be submitted with your proposal.

Proposals not including the required attachments will be determined non-responsive.

SECTION 5. EVALUATION CRITERIA AND CONTRACTOR SELECTION

SEC. 5.01 SUMMARY OF EVALUATION PROCESS

The state will use the following steps to evaluate and prioritize proposals:

- 1) Proposals will be assessed for overall responsiveness. Proposals deemed non-responsive will be eliminated from further consideration.
- 2) A proposal evaluation committee (PEC), made up of at least three state employees or public officials, will evaluate the Technical portion of all responsive proposals.
- 3) Each responsive Technical Proposal will be sent to the PEC. No cost information will be shared or provided to the PEC.
- 4) The PEC will independently evaluate and score the proposals based on the degree to which they meet the stated evaluation criteria.
- 5) After independent scoring, the PEC will have a meeting, chaired by the procurement officer, where the PEC may have a group discussion prior to finalizing their scores.
- 6) The evaluators will submit their final individual scores to the procurement officer, who will then compile the scores and calculate awarded points as set out in Section 5.03.
- 7) The procurement officer will calculate scores for cost proposals as set out in Section 5.08 and add those scores to the awarded points along with factoring in any Alaska preferences.
- 8) The procurement officer may ask for best and final offers from offerors susceptible for award and revise the cost scores accordingly.
- 9) The state will then conduct any necessary negotiations with the highest scoring offeror and award a contract if the negotiations are successful.

SEC. 5.02 EVALUATION CRITERIA

Proposals will be evaluated based on their overall value to state, considering both cost and non-cost factors as described below. Note: An evaluation may not be based on discrimination due to the race, religion, color, national origin, sex, age, marital status, pregnancy, parenthood, disability, or political affiliation of the offeror.

SEC. 5.03 SCORING METHOD AND CALCULATION

Each Proposal Evaluation Committee (PEC) member will individually evaluate and score each responsive proposal using the criteria and percentage values set out in Section 5. Each percentage value will equal one point, with the total maximum points awarded, per PEC member, for all evaluation sections not to exceed 100 points. Using only whole numbers, PEC members will start with a median score for each evaluation section. The score may either increase or decrease depending on the offeror's response to each question for that section. As an example, if the Offeror provided responses over and above the evaluation questions in a section, they would receive a higher score. However, if the Offeror's response fails to address all questions of a section or demonstrates some lack of understanding or competency as it relates to a question for that section, the Offeror would then receive a lower score.

SEC. 5.04 EXPERIENCE AND QUALIFICATIONS (15%)

Proposals will be evaluated against the questions set out below:

1) Questions regarding the personnel:

- a) Do the individuals assigned to the project have experience on similar projects?
- b) Are resumes complete and do they demonstrate backgrounds that would be desirable for individuals engaged in the work the project requires?
- c) How extensive is the applicable education and experience of the personnel designated to work on the project?

2) Questions regarding the firm and Subcontractor (if used):

- a) How well has the firm demonstrated experience in completing similar projects on time and within budget?
- b) How successful is the general history of the firm regarding timely and successful completion of projects?
- c) Has the firm provided letters of reference from previous clients?
- d) If a Subcontractor will perform work on the contract, how well do they measure up to the evaluation used for the offeror?

SEC. 5.05 UNDERSTANDING OF THE PROJECT (10%)

Proposals will be evaluated against the questions set out below:

- 1) How well has the offeror designed the system to easily dry, convey, separate, and store foundation level small grain seed.
- 2) Has the offeror incorporated and/or identified easily accessible clean out points throughout the entire system?
- 3) Does the offerors design minimize grain handling and increased drying and conveyance efficiency?
- 4) How well has the offeror identified pertinent issues and potential problems related to the drying, conveyance, and long-term storage of seed grain?

SEC. 5.06 PROJECT SCHEDULE, DELIVERY, AND ASSEMBLY OF EQUIPMENT (5%)

Proposals will be evaluated against the questions set out below:

- 1) Does the offeror outline the delivery schedule for equipment needed for the project?
- 2) Does the offeror outline how all equipment with the RFP will be delivered and unloaded at the PMC?
- 3) Since installation is not required for this RFP, did the offeror provide or identify any potential problems associated with assembly of their design?
- 4) Does the offeror meet the time schedule for the state outlined in the RFP?

SEC. 5.07 PROJECT DESIGN AND LAYOUT (20%)

Proposals will be evaluated against the questions set out below:

- 1) To what extent does the offeror describe design and layout of the grain storage and drying system?
- 2) Does it appear that the offeror meets the goals outlined in the scope of work for the RFP?
- 3) To what length does the offeror describe the specifications, operation, and functionality of each individual piece of equipment in the small grain drying and storage system?
- 4) To what extent has the offeror identified any potential problems with the design, flow, maintenance, and efficiency of the grain drying and storage system?

SEC. 5.08 CONTRACT COST (40%)

Overall, a minimum of 40% of the total evaluation points will be assigned to cost. After the procurement officer applies any applicable preferences, the offeror with the lowest total cost will receive the maximum number of points allocated to cost per 2 AAC 12.260(c). The point allocations for cost on the other proposals will be determined using the following formula:

$$\frac{[(\text{Price of Lowest Cost Proposal}) \times (\text{Maximum Points for Cost})] \div (\text{Cost of Each Higher Priced Proposal})}{}$$

Example (Max Points for Contract Cost = 40):

Step 1

List all proposal prices, adjusted where appropriate by the application of applicable preferences claimed by the offeror.

Offeror #1	\$40,000
Offeror #2	\$42,750
Offeror #3	\$47,500

Step 2

In this example, the RFP allotted 40% of the available 100 points to cost. This means that the lowest cost will receive the maximum number of points.

Offeror #1 receives 40 points.

The reason they receive that amount is because the lowest cost proposal, in this case \$40,000, receives the maximum number of points allocated to cost, 40 points.

Offeror #2 receives 37.43 points.

$\$40,000$ lowest cost \times 40 maximum points for cost = $1,600,000 \div \$42,750$ cost of Offeror #2's proposal = **37.43**

Offeror #3 receives 33.68 points.

$\$40,000$ lowest cost \times 40 maximum points for cost = $1,600,000 \div \$47,500$ cost of Offeror #3's proposal = **33.68**

SEC. 5.09 ALASKA OFFEROR PREFERENCE (10 POINTS)

Per 2 AAC 12.260, if an offeror qualifies for the Alaska Bidder Preference, the offeror will receive an Alaska Offeror Preference. The preference will be 10% of the total points available, which will be added to the offeror's overall evaluation score.

Example:**Step 1**

Determine the number of points available to qualifying offerors under this preference:

100 Total Points Available in RFP + 10% Alaska Offeror preference = 10 Points for the preference

Step 2

Determine which offerors qualify as Alaska bidders and thus, are eligible for the Alaska Offeror preference. For the purpose of this example, presume that all proposals have been completely evaluated based on the evaluation criteria in the RFP. The scores at this point are:

Offeror #1	83 points	No Preference	0 points
Offeror #2	74 points	Alaska Offeror Preference	10 points
Offeror #3	80 points	Alaska Offeror Preference	10 points

Step 3

Add the applicable Alaska Offeror preference amounts to the offerors' scores:

Offeror #1	83 points	
Offeror #2	84 points	(74 points + 10 points)
Offeror #3	90 points	(80 points + 10 points)

Offeror #3 is the highest scoring offeror and would get the award, provided their proposal is responsive and responsible.

SECTION 6. GENERAL PROCESS AND LEGAL INFORMATION

SEC. 6.01 INFORMAL DEBRIEFING

When the contract is completed, an informal debriefing may be performed at the discretion of the project manager or procurement officer. If performed, the scope of the debriefing will be limited to the work performed by the Contractor.

SEC. 6.02 ALASKA BUSINESS LICENSE AND OTHER REQUIRED LICENSES

Prior to the award of a contract, an offeror must hold a valid Alaska business license. However, in order to receive the Alaska Bidder Preference and other related preferences, such as the Alaska Veteran Preference and Alaska Offeror Preference, an offeror must hold a valid Alaska business license prior to the deadline for receipt of proposals. Offerors should contact the **Department of Commerce, Community and Economic Development, Division of Corporations, Business, and Professional Licensing, PO Box 110806, Juneau, Alaska 99811-0806**, for information on these licenses. Acceptable evidence that the offeror possesses a valid Alaska business license may consist of any one of the following:

- copy of an Alaska business license;
- certification on the proposal that the offeror has a valid Alaska business license and has included the license number in the proposal;
- a canceled check for the Alaska business license fee;
- a copy of the Alaska business license application with a receipt stamp from the state's occupational licensing office; or
- a sworn and notarized statement that the offeror has applied and paid for the Alaska business license.

You are not required to hold a valid Alaska business license at the time proposals are opened if you possess one of the following licenses and are offering services or supplies under that specific line of business:

- fisheries business licenses issued by Alaska Department of Revenue or Alaska Department of Fish and Game,
- liquor licenses issued by Alaska Department of Revenue for alcohol sales only,
- insurance licenses issued by Alaska Department of Commerce, Community and Economic Development, Division of Insurance, or
- Mining licenses issued by Alaska Department of Revenue.

Prior to the deadline for receipt of proposals, all offerors must hold any other necessary applicable professional licenses required by Alaska Statute.

SEC. 6.03 SITE INSPECTION

The state may conduct on-site visits to evaluate the offeror's capacity to perform the contract. An offeror must agree, at risk of being found non-responsive and having its proposal rejected, to provide the State with reasonable access to relevant portions of its work sites. Individuals designated by the procurement officer at the state's expense will make site inspection.

SEC. 6.04 CLARIFICATION OF OFFERS

In order to determine if a proposal is reasonably susceptible for award, communications by the procurement officer or the Proposal Evaluation Committee (PEC) are permitted with an offeror to clarify uncertainties or eliminate confusion concerning the contents of a proposal. Clarifications may not result in a material or substantive change to the proposal. The evaluation by the procurement officer or the PEC may be adjusted as a result of a clarification under this section.

SEC. 6.05 DISCUSSIONS WITH OFFERORS

The state may conduct discussions with offerors in accordance with AS 36.30.240 and 2 AAC 12.290. The purpose of these discussions will be to ensure full understanding of the requirements of the RFP and proposal. Discussions will be limited to specific sections of the RFP or proposal identified by the procurement officer. Discussions will only be held with offerors who have submitted a proposal deemed reasonably susceptible for award by the procurement officer. Discussions, if held, will be after initial evaluation of proposals by the procurement officer or the PEC. If modifications are made as a result of these discussions, they will be put in writing. Following discussions, the procurement officer may set a time for best and final proposal submissions from those offerors with whom discussions were held. Proposals may be reevaluated after receipt of best and final proposal submissions.

If an offeror does not submit a best and final proposal or a notice of withdrawal, the offeror's immediate previous proposal is considered the offeror's best and final proposal.

Offerors with a disability needing accommodation should contact the procurement officer prior to the date set for discussions so that reasonable accommodation can be made. Any oral modification of a proposal must be reduced to writing by the offeror.

SEC. 6.06 EVALUATION OF PROPOSALS

The procurement officer, or an evaluation committee made up of at least three state employees or public officials, will evaluate proposals. The evaluation will be based solely on the evaluation factors set out in **SECTION 5. EVALUATION CRITERIA AND CONTRACTOR SELECTION**.

After receipt of proposals, if there is a need for any substantial clarification or material change in the RFP, an amendment will be issued. The amendment will incorporate the clarification or change, and a new date and time established for new or amended proposals. Evaluations may be adjusted as a result of receiving new or amended proposals.

SEC. 6.07 CONTRACT NEGOTIATION

After final evaluation, the procurement officer may negotiate with the offeror of the highest-ranked proposal. Negotiations, if held, shall be within the scope of the request for proposals and limited to those items which would not have an effect on the ranking of proposals. If the highest-ranked offeror fails to provide necessary information for negotiations in a timely manner, or fails to negotiate in good faith, the state may terminate negotiations and negotiate with the offeror of the next highest-ranked proposal. If contract negotiations are commenced, they may be held via teleconference or in Anchorage, Alaska.

If the contract negotiations take place in Anchorage, Alaska, the offeror will be responsible for their travel and per diem expenses.

SEC. 6.08 FAILURE TO NEGOTIATE

If the selected offeror

- fails to provide the information required to begin negotiations in a timely manner; or
- fails to negotiate in good faith; or
- indicates they cannot perform the contract within the budgeted funds available for the project; or
- if the offeror and the state, after a good faith effort, simply cannot come to terms,

the state may terminate negotiations with the offeror initially selected and commence negotiations with the next highest ranked offeror.

SEC. 6.09 OFFEROR NOTIFICATION OF SELECTION

After the completion of contract negotiation, the procurement officer will issue a written Notice of Intent to Award and send copies of that notice to all offerors who submitted proposals. The notice will set out the names of all offerors and identify the offeror selected for award.

SEC. 6.10 PROTEST

AS 36.30.560 provides that an interested party may protest the content of the RFP.

An interested party is defined in 2 AAC 12.990(a) (7) as "an actual or prospective bidder or offeror whose economic interest might be affected substantially and directly by the issuance of a contract solicitation, the award of a contract, or the failure to award a contract."

If an interested party wishes to protest the content of a solicitation, the protest must be received, in writing, by the procurement officer at least ten days prior to the deadline for receipt of proposals.

AS 36.30.560 also provides that an interested party may protest the award of a contract or the proposed award of a contract.

If an offeror wishes to protest the award of a contract or the proposed award of a contract, the protest must be received, in writing, by the procurement officer within ten days after the date the Notice of Intent to Award the contract is issued.

A protester must have submitted a proposal in order to have sufficient standing to protest the proposed award of a contract. Protests must include the following information:

- the name, address, and telephone number of the protester;
- the signature of the protester or the protester's representative;
- identification of the contracting agency and the solicitation or contract at issue;
- a detailed statement of the legal and factual grounds of the protest including copies of relevant documents; and the form of relief requested.

Protests filed by telex or telegram are not acceptable because they do not contain a signature. Fax copies containing a signature are acceptable.

The procurement officer will issue a written response to the protest. The response will set out the procurement officer's decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax or another method that provides evidence of receipt.

All offerors will be notified of any protest. The review of protests, decisions of the procurement officer, appeals, and hearings, will be conducted in accordance with the State Procurement Code (AS 36.30), Article 8 "Legal and Contractual Remedies."

SEC. 6.11 APPLICATION OF PREFERENCES

Certain preferences apply to all state contracts, regardless of their dollar value. The Alaska Bidder, Alaska Veteran, and Alaska Offeror preferences are the most common preferences involved in the RFP process. Additional preferences that may apply to this procurement are listed below. To take advantage of these preferences, a business or individual must be on the appropriate Division of Vocational Rehabilitation list prior to the time designated for receipt of proposals. An offeror's failure to provide this completed form with their proposal will cause the state to disallow the preference.

SEC. 6.13 ALASKA VETERAN PREFERENCE

The Contractor must comply with the contract provisions set out in this attachment. No alteration of these provisions will be permitted without prior written approval from the Department of Law, and the state reserves the right to reject a proposal that is non-compliant or takes exception with the contract terms and conditions stated in the Agreement. Please include the following information with any change that you are proposing:

- 1) Add value in the contract by actually performing, controlling, managing, or supervising the services to be provided; or
- 2) Be in the business of selling and have actually sold on a regular basis the supplies that are the subject of the RFP.

If the offeror leases services or supplies or acts as a broker or agency in providing the services or supplies in order to meet these requirements, the procurement officer may not accept the offeror as a qualified offeror under AS 36.30.

SEC. 6.17 PROPOSAL AS PART OF THE CONTRACT

Part of or all of this RFP and the successful proposal may be incorporated into the contract.

SEC. 6.18 ADDITIONAL TERMS AND CONDITIONS

The procurement officer may reject any proposal that does not comply with all of the material and substantial terms, conditions, and performance requirements of the RFP.

Offerors may not qualify the proposal nor restrict the rights of the state. If an offeror does so, the procurement officer may determine the proposal to be a non-responsive counteroffer and the proposal may be rejected.

Minor informalities that:

- do not affect responsiveness;
 - are merely a matter of form or format;
 - do not change the relative standing or otherwise prejudice other offers;
 - do not change the meaning or scope of the RFP;
 - are trivial, negligible, or immaterial in nature;
 - do not reflect a material change in the work; or
 - do not constitute a substantial reservation against a requirement or provision;
- may be waived by the procurement officer.

The State reserves the right to refrain from making an award if it determines that it is not in the best interest of the State.

A proposal from a debarred or suspended offeror shall be rejected.

SEC. 6.21 STATE NOT RESPONSIBLE FOR PREPARATION COSTS

The state will not pay any cost associated with the preparation, submittal, presentation, or evaluation of any proposal.

SEC. 6.22 DISCLOSURE OF PROPOSAL CONTENTS

This section governs the ownership, return, and disclosure of any offer or other record an offeror submits in response to this request for proposals. (Herein, any reference to “Record” includes all such records and the offer; any reference to “Law” includes any federal or State of Alaska (State) law, including any court or administrative order or rule.)

1. All Records belong to the State.
2. The State has sole discretion regarding whether to return any Record. In exercising this discretion, the State will comply with all Laws.
3. Unless a notice of intent to award is issued, the State will, to the extent permitted by Law, consider all Records confidential and not subject to the Alaska Public Records Act (APRA).
4. If and when a notice of intent to award is issued, the State will consider nonconfidential any Record unless, at the time of submission, the offeror undertook the following protective measures:
 - a. marked information confidential;
 - b. for any information marked confidential, identified the authority that makes that specific information confidential; and
 - c. committed, in writing, to explain in detail, including with affidavits and briefs, why each authority applies in any court or administrative proceeding in which any nondisclosure is challenged.
5. If the offeror did not undertake each protective measure, the State will not consider any information in a Record confidential: the State will disclose the entire Record without any redaction in response to an APRA or other request or, if it chooses, in the absence of a request and the State will disclose the entire Record without notifying the offeror.
6. If the offeror undertook each protective measure, the State will withhold the information marked confidential to the following extent:
 - a. the State agrees that the Law protects the information; and
 - b. if the nondisclosure is challenged, the offeror fulfills its commitment to explain, including with affidavits and briefs, how each authority applies to the information marked confidential.
7. The State will only notify an offeror of a request for the Record and of a planned release if the offeror undertook each protective measure, but the State disagrees that the marked information is protected. If there is such a disagreement, then before releasing the Record, the State will, to the extent permitted by Law and practicable, notify the offeror that it will disclose the information unless the offeror convinces the State not to or obtains an order prohibiting disclosure.

SEC. 6.23 ASSIGNMENT

After award of contract:

If conflict arises between a supplemental term or condition included in the proposal and a term or condition of the RFP, the term or condition of the RFP will prevail; and
