Questions submitted by potential offerors and answers from the state:

Question 1: Submittal Forms G1-G4 - Regarding the Recycled Products Preference (AS 36.30.324 and 36.30.337(a)) referenced in Submittal Forms G1–G4: Does an offeror need to provide recycled content for all applicable paper products to qualify for the 5% preference? Or will the preference be applied if only some paper products meet the recycled content requirements (e.g., certain items are 100% recycled while others are not)?

Answer: The Recycled Products Preference will be applied regardless of the number of recycled products/items proposed as long as at least **one Item** is proposed which is composed of at least 50% recycled material. For example, if an Offeror proposes Items 1 and 3 on Cost Proposal form G1 (Bulk Issuance License Plates) and Item 1 will be 50% recycled and Item 3 will be 15% recycled, the Preference would still be applied.

The Cost Proposal forms G1, G2, G3, and G4 have been revised to allow Offerors the ability to identify which Items they are proposing in order to qualify for the Recycled Product Preference. **Offerors MUST submit their pricing on these revised cost forms in order to be considered responsive.**

NOTE: The state has revised the list of items which will qualify for the Recycled Product Preference. Offerors must review the Instructions tab on the Cost Proposal Form in order to determine whether their Items qualify for the Preference.

The following materials qualify for the Recycled Product Preference ONLY if the item proposed will be comprised of at least 50% recycled material:

- License Plate material (e.g. aluminum, other metals)
- Paper Products (e.g. registrations, envelopes)
- Adhesive Products (e.g. tabs, decals)

The state reserves the right to request documentation of the recycled product in order to verify the minimum percentage and qualifying material.

CHANGES

Change 1: REMOVE ALL COST PROPOSALS and

REPLACE 1: REVISED COST PROPOSALS.
