QUESTIONS SUBMITTED BY OFFERORS AND ANSWER FROM THE STATE

Question 1: The supplier has informed me that the same model water heater can only be obtained if ordered before June 19th; they are being discontinued. For pricing purposes, would you like me to price for the existing same model (assuming contract award in time for June 19th order date)? There are no direct replacements available; the other option is a 100 Gallon thermally efficient water heater and a 200-gallon storage tank. They would both be anchored to the existing housekeeping pad with piping tying the two together before going out to the system.

Answer 1: After review, the State confirms that we intend to proceed with the original materials specified in the solicitation. Vendors should continue to provide pricing based on the originally requested model.

The State also notes that the final contract award timeline is dependent upon the selected vendor's ability to submit all required documentation before a Notice to Proceed can be issued and executed. No assurances can be made regarding the June 19 supplier deadline; however, pricing must reflect the materials requested in the solicitation.

All other terms and conditions of the solicitation remain unchanged.

End of Addendum 1
